ARTESIA, NEW MEXICO, THURSDAY, SEPTEMBER 4, 1930

NUMBER 38

## September 18 Is Date Set for Democratic Convention

### Convention Date Is Fixed At Meeting Yesterday—Carl Hatch Of Clovis To Deliver Keynote Speech At Opening.

SANTA FE—The democratic party will hold its state nominating convention in Santa Fe, starting at 10:00 a. m., Thursday, September 18th.

The decision was made yesterday by Arthur Seligman, democratic state chairman, after he had been empowered by a joint meeting of democratic committees to name the date.

Judge Carl A. Hatch of Clovis was the unanimous choice of the meeting for temporary chairman of the convention and keynote speaker. Choice of the other temporary convention officer was left to the state chairman and the executive committee.

Chairman Seligman also was delegated by the meeting to name a committee of nine members to draw up a tentative platform and platform committee of the convention. He will announce the members shortly, he said.

More than sixty democrats from all parts of the state attended yesterday's meeting which was characterized by the state chairman as "one of the most successful pre-convention meetings ever held by the party in this state."

Before the decision of a convention date was left to Chairman Seligman there was considerable discussion regarding whether it should be held prior to or in concurrence with the republican convention on September 2.

However, the argument advanced by the proponents of the earlier date that "it makes no difference to us what the republicans do, we will put up a ticket that will stand on its merits and offer a platform that will prove our sincerity of purpose," seemed to be the popular thing with the meeting. Chairman Seligman's choice of a date seemed to win unanimous approval after he explained that it seemed to him to be the "logical time to select."

For the first time in several years the democratic party leaders met and adjourned without any semblance of a break, according to those who attended the meeting.

Chairman Seligman issued the call for the convention immediately after the meeting adjourned.

The call provided for the "nominating of a state ticket to be voted for at the general election to be held on the 4th day of November, 1930, and for the transaction of such other business as may properly come before the convention."

### MONUMENT REMOVED

The old O. T. monument, commonly referred to as the Artesia tombstone, has been removed from Main street. Removal of the monument was started last week, after several months of debating the question pro and con as to the advisability of its removal. The local monument was one of the few reminders remaining in the valley of the Ozark Trail route. The route markers have previously been removed in a number of other towns.

### EXAMINING SCHOOL CHILDREN

Dr. O. E. Puckett, county health officer of Carlsbad, spent Tuesday and Wednesday here, giving the grade pupils a physical examination.

### NINE BIRTHS THREE DEATHS RECORDED IN MONTH OF AUGUST

Nine births and three deaths were recorded by S. E. Ferree, sub-registrar for the Cottonwood, Atoka and Artesia districts, during the month of August. Births were recorded to Mr. and Mrs. Luther J. Frazier, daughter; Mr. and Mrs. James Herbert Hammond, son; Mr. and Mrs. J. L. Bentley, son; Mr. and Mrs. D. Vargas, son; Mr. and Mrs. Duirino Navarette, daughter; Mr. and Mrs. Gail D. Woodside, son; Mr. and Mrs. C. Alvarez, daughter; Mr. and Mrs. William P. Hoskins, son; Mr. and Mrs. Jess N. Luttrell, son.

Death certificates were issued for Mrs. Winnie McCaw, John Rodrigues and S. L. Robertson.

## NO RODEO WILL BE HELD AT ARTESIA ON SEPTEMBER 25-26-27

The Artesia Rodeo, which was scheduled to have been held here on September 25, 26, and 27 has been called off, it was announced here yesterday. Cancellation of the performance was the result of a meeting of the local directors held Tuesday, at which time, it was decided that a cancellation of the rodeo dates would be expedient, since the manager, Milt Hinkle could not comply with his contract and owing to the shortness of time, further plans could not well be made.

## LOCAL DELEGATION MAKES REPORT ON THE GALLUP LEGION MEET

The delegates to the department conventions of the American Legion and Auxiliary in Gallup returned home last Thursday and Friday. They did not bring home any offices, but they did bring the convention, which is really a big thing. Gallup gave the two conventions such a wonderful time that it is going to put Artesia on its mettle to follow suit. Banquets, picture shows, a dance, and tickets to the Intertribal Indian Ceremonial were all furnished free to the delegates. But the most unique entertainment of the entire convention was a luncheon served the visitors seven or eight hundred feet underground. This luncheon was a courtesy of the Gallup American Coal Company, through its manager Horace Moses. The crowd was lowered into the mine in an electric elevator and found a table two hundred feet long all decorated ready for the feast. The walls were all done in white and the table spread with snowy cloths and adorned with beautiful bouquets of flowers, which are just in season out there. There was also the customary silver and china. A delicious meal was followed by after-dinner speeches. Among the speakers were Governor Dillon, Senator Bratton, Congressman Simms, Commander Vaughn, Department President Mrs. Albert Richards, and others.

After the speeches all who wished were given a ride lower down in the mine in a coal train run by electricity and finished the trip by walking still farther to where the men were working. The mine is said to be a thousand feet deep and the trip gave the strangers quite a thrill.

The last day of the convention National Commander Bodenhamer was present and addresses the Legion convention. Mrs. Howell, of Ogden, Utah, western vice-president, represented the national organization at the Auxiliary convention.

The first session of the Inter-Tribal Indian Ceremonial made a spectacular ending to the convention, especially the "Squaw Dance" in which some of our local Legionnaires were unwilling dance partners for some of the young squaws.

## CATTLE GRADING TO BE EXHIBITED AT THE SHATTUCK RANCH 11th

The livestock men will gather for an all day meeting and barbecue at the Ned Shattuck ranch on Tuesday, September 11. There will be a free for all livestock judging contest and a grading demonstration by J. Wallace who has spent seven years as head buyer for Armour Co., will select grades of cattle that are wanted by the packers and explain what types the livestock men should raise. W. L. Black livestock extension man from State College will be present. Mr. Morris of the forest service will be there with a plant exhibit thus all will be able to see just what plants are harmful and what plants are good forage.

Mr. Shattuck has plans for a free barbecue. Bring your basket dinner so that the ladies will be free to enjoy the day with the men folks.

### W. A. WUNSCH, County Extension Agent.

A cattle demonstration will also be held in Chaves county under the direction of Mr. Wallace. September 8th a demonstration will be held on the Walter Jones place, 30 miles northwest of Roswell. On September 9th, a similar demonstration will occur at the Austin Reeves ranch in the Elk community.

### MORE GOOD COTTON

G. S. Deane brought in a stalk of cotton from the W. T. Haldeman farm east of town this morning containing 150 bolls of cotton, in addition to the squares and blooms. The stalk is on display at the First National Bank.

## FEDERAL FARM BOARD PLAN OF OPERATIONS OUTLINED TO FARMERS

### Large Crowd Gathers To Hear Field Representative Of Federal Farm Board Give Plan To Aid Cotton Growers.

A large number of farmers and townspeople gathered at the Chamber of Commerce office Tuesday evening and heard a federal farm board representative outline plans, which the board has made to aid the cotton farmers in marketing their crop. F. E. Jackson, of El Paso, field representative of the Southwestern Irrigated Cotton Growers Association, discussed briefly how his organization as a unit of the national cotton cooperative association could aid the farmers who would affiliate. The remarks of the next speaker, Charles H. Alvord, of San Marcos, Texas, field representative of the federal farm board, were confined principally to the organization of the federal farm board and how it proposed to aid the farmer. According to Mr. Alvord the creation of the farm board was the result of more than twenty years agitation and was designed to stabilize farm values by providing an adequate farm marketing facility and place agriculture on the basis of economic equality with industry. The four objectives which the farm board hopes to accomplish according to Mr. Alvord, is to minimize speculation, eliminate waste, assist organization and prevent and control surpluses.

The federal farm board as we understand it, proposes to furnish the American farmer a marketing organization through the American Cotton Cooperative Association. The marketing will be handled through fourteen subsidiary organizations among which are the Southwestern Irrigated Cotton Growers Association. The farm board has made available approximately \$5,000,000 to be used by the subsidiary associations in marketing associations at a low rate of interest.

Control of production is a vital factor in the success of the board's program to aid the cotton growers, Mr. Williams said and without this cooperation on the part of the farmers, the board can not accomplish its full purpose. The board does not attempt to set the price of cotton, rather, it provides a cooperative marketing outlet. If the cooperative marketing plan does not work, then Mr. Williams said the farm board would try another plan.

## SCHEDULE PROVIDES THRU FRT. SERVICE ROSWELL TO PECOS

A new freight schedule went into effect September 1st on the Santa Fe, giving valley residents through service from Roswell to Pecos, Texas. Carlsbad has been eliminated as a freight terminal and freight trains now run through to Pecos. Carlsbad formerly served as a terminal for traffic in both directions. No change has yet been made in the passenger service, but the passenger service may be changed later. Under the new plan, the south bound freight leaves Roswell at 1:30 p. m. arriving here at 6:30 p. m., and at Pecos at 2:35 a. m. The north bound leaves Pecos at 11:45 a. m., arriving here at 7:00 p. m. and at Roswell at 12:50 a. m.

## SENATOR MOON AND MRS. GUEST OF HOPE TRIP YESTERDAY MORNING FOR A BRIEF TRIP TO SANTA FE.

## G. O. P. PRECINCT MEET NAMES DELEGATES TO COUNTY CONVENTION

Election of twenty-two delegates to the county convention at Carlsbad today, was the principal item of business transacted at the republican precinct convention, held at the Majestic theatre, Tuesday. S. E. Ferree was made precinct chairman and D. I. Clowe, precinct secretary. Following is a list of the precinct delegates named to attend the county convention: T. E. Hinshaw, F. W. Sewell, S. E. Ferree, D. I. Clowe, Edd Carr, Wm. Kissinger, Joe Shuff, Owen Campbell, F. A. Manda, E. A. Hannah, J. B. Randolph, Mrs. F. A. Linell, E. H. Perry, J. W. Turknott, Miss Ruby Turknott, Miss Nola Naylor, A. L. Mount, Mrs. H. A. Stroup, George Frisch, Owen McClay, M. E. Baish, F. A. Linell.

## LEA COUNTY SLAYER HELD IN CHAVES CO., JAIL WITHOUT BOND

### Fletcher Alleged Slayer Of Hobbs Youth Is Spirited Away From County Jail At Lovington To Avoid Mob Violence.

Rhea Fletcher, former Hobbs resident is held in the Chaves county jail at Roswell for safe keeping and to prevent mob violence following the fatal shooting of William Frese, 18, at the Bridgeport Machine Co., warehouse at Hobbs Friday. Fletcher a taxi driver, is alleged to have shot Frese, after a dispute between the two men. Fletcher has been held without bond on a charge of first degree murder following a preliminary hearing before Judge Tomlinson at Lovington, Saturday. According to the Roswell Record, Lea county officers received a tip near midnight Friday night, that fifty oil field workers were on their way to Lovington, with winchesters, incensed because of the circumstances surrounding the death of Frese. Fletcher was taken out of the Lea county jail and guarded in a field near Lovington during the remainder of the night. Feeling is said to be running high and the prisoner was rushed to the Chaves county jail to avoid trouble.

Evidence introduced at the preliminary hearing was somewhat contradictory to the first report, of the trouble between Fletcher and Frese. From the evidence introduced at the preliminary hearing at Lovington, Fletcher had gone to the Bridgeport Machine Co., to collect a bill. Fletcher was ordered off the premises by George Frese, brother of the dead man. A fight between the two men ensued and William Frese struck Fletcher with an axe handle but missed him. After the fighting had stopped Fletcher is said to have drawn a gun, lining up the two brothers and said, "I ought to kill you and I just believe I will do it." Whereupon Fletcher stepped back and fired, the bullet striking Frese between the eyes.

Mr. and Mrs. D. E. Claypool (Jessie Glenn Bullock) and Miss Helen Bullock, who have been visiting their parents, Mr. and Mrs. E. B. Bullock left today for their homes at Ft. Worth, Texas. While here Mr. and Mrs. Claypool made trips to Santa Fe and in company with Mrs. Bullock, also went through the Carlsbad Caverns.

## MISS HALL IS INJURED WHEN THROWN FROM RUNNING AUTOMOBILE

Miss Ollie Hall, daughter of W. H. Hall, Sr., sustained painful injuries in a fall on the pavement last evening, when she attempted to alight from a running auto. The infant of W. H. Hall, Jr., oil field resident, was thought to have swallowed a rubber ball and was being rushed to a doctor's office when the accident happened. Miss Hall, who was riding the running board of the automobile, thinking that she would save time, attempted to alight from the running auto, and run across to the office of Dr. Stroup, while the car made the Main street turn. The speed of the automobile was so great that she was thrown from the car in some manner and sustained painful bruises about the head and body when she struck the pavement. X-Ray pictures developed later, failed to reveal a trace of the ball in the stomach of the infant.

## ED CONNER HOME IS DAMAGED BY FIRE ON LAST SATURDAY NIGHT

The frame residence of Ed Conner, in the southwestern part of town, was partly demolished by fire, Saturday evening near 9:00 p. m. The origin of the blaze has not been determined. The fire was first discovered by Mrs. Conner, who was alone and after the flames had gained considerable headway in the roof. Prompt work by the Artesia Fire Department succeeded in checking the flames before they spread to the walls of the building, although the interior of the dwelling was damaged by both fire and water. Most of the household goods were saved without extensive damages. The loss was partly covered by insurance. Plans have been made by Mr. Conner to repair the damages as soon as an insurance adjustment is effected.

## THE OILERS WILL MEET CARLSBAD IN THE LAST GAME AT LOCAL PARK

The Artesia Oilers are preparing to meet the Carlsbad Cavemen Sunday at the Brainard park at 3:00 p. m., in what will probably be the last game of baseball to be played on the home diamond this season. Carlsbad's nine has been recently strengthened as shown by the fact that the Cavern City nine defeated the strong all-star team from El Paso Sunday and Monday at Carlsbad. Come out and give the home boys good support in their last game here.

## FOUR CRIMINAL CASES DISPOSED OF IN EDDY DIST. COURT FRIDAY

Four criminal cases were before Judge G. A. Richardson in the District Court Friday at Carlsbad.

J. M. Williams and M. Martin, residents of Weed, charged with theft of two automobile wheels and two tires at Artesia on August 25, were sentenced to serve not less than a year nor more than 18 months. Both pleaded guilty.

Williams, after making a plea to the court, was allowed 60 days beginning September 1 to care for his crops and for the family of Martin, and then he is to report to the court again, in readiness to begin serving his term.

W. H. Wyatt, after pleading guilty to issuing a worthless check, for \$1 to a Carlsbad mercantile house on August 12, under the name of W. H. Wilson, was fined \$10 and was ordered to pay the costs of prosecution and to repay the firm defrauded. He cashed a check for \$1 in making a 20 cent purchase, and received 80 cents cash in change.

W. W. and Opal Price, after pleading guilty to occupying a Carlsbad building for purposes of prostitution were sentenced to serve one year.

Earl James, Bill Tom Williams and Recell Horn, charged with theft at Artesia from the state highway department, were allowed bonds of \$300 each.

Williams and Martin had no attorney. Wyatt was represented by Caswell S. Neal, the Prices by James W. Stagner and James, Williams and Horn by J. S. McCall.—Carlsbad Current-Argus.

### 100 CARS APPLES FOR HOPE

The Hope section will produce 100 cars of apples, according to N. L. Johnson, who was a visitor here Saturday. Apple picking is already underway in the community and will continue until about the middle of October, he says.

### GATHERING PINTO BEANS

A number of farmers have started gathering their pinto bean crop, which is fairly promising with a few exceptions. Growers expect to gather around 600 pounds to the acre. The late bean crop will be gathered the latter part of next month.

## PECOS VALLEY MAY BE SITE OF A FEDERAL FISH HATCHERY SOON

Possibility of securing a federal fish hatchery for the Pecos valley was discussed at the inter-city meeting of the Eddy County G. P. A. at Carlsbad on Thursday, which was attended by sportsmen from Artesia, Hagerman and Roswell. The meeting was attended by M. Stevenson, deputy game warden, who brought 1,500 bass with him and turned them loose in the Pecos, near the Carlsbad beach. The bass were caught from the hatchery near Dexter. Fifty to seventy-five thousand more bass will be ready to be distributed this fall, according to Mr. Stevenson. A committee from Artesia and Roswell game associations will be formed to investigate prospective sites which will be offered representatives of the federal fish hatchery bureau.

Most of the former officers of the Eddy County Game Protective Association were re-elected including Guy Reed, of Carlsbad, president; H. L. Massey, vice president; Roy Carey, secretary and treasurer. Directors elected were Dr. George S. Westfall, W. W. McAdoo, Marvin Livingston and Caswell Neal, all of Carlsbad.

Attending from Artesia were: M. W. Evans and A. L. Mount.

An English judge the other day gave advice to a husband in court: "Rise every morning with the fixed determination to make your wife realize that you are master of the house."

## FAITH

Artesia has probably suffered as much from lack of faith on the part of her citizens, as any other one handicap. Faith has proven a wonderful stimulant in undertaking many enterprises; it has built many towns. The converse may be just as potent in the lack of faith.

Whether or not the criticism is just, we have no way of knowing, but we have heard it remarked that some of our citizens were willing enough to plunge into outside investments, but could not be interested in investing their money at home. Some excuse can be offered in that Artesia, like many other western towns, has had its ups and downs, at times during our past history, we have seemed to experience mostly downs, but these times are over we hope. At least judging from the past five or six years, a period which has been fairly stable. A stable condition over a period of years, it seems to us should encourage improvement and more building. And while we have made a slow but steady improvement, the rate of improvement has not kept pace with the demand and as result we are facing a shortage of desirable rent houses.

This situation can be largely solved by home people who are willing to exercise a little of the essential element that it takes to make any town grow—faith.

## PRORATION

In commenting on the proration agreement, which is now effective in southeastern New Mexico, William Dooley, secretary of the New Mexico Oil Men's Protective Association, says:

"A six months proration agreement went into effect July 12, which limits production in the Hobbs area, during said six months period, to 35,000 barrels per day, which was the reported approximate pipe line facilities at that time. The Association took no official action on the proration question. However, the general opinion appeared to favor a proration agreement in accordance with pipe line and marketing facilities, and your secretary believes that this is the sound and logical attitude, under existing production and marketing conditions and we individually wired Governor Dillon and Commissioner A. D. Crile to that effect at the time.

"With all the critical oil fields of the United States now under proration control, the only apparent menace is the unrestricted flood of duty free foreign oil from South America, etc., which both the Dutch Shell (British) and American oil importers are unloading upon our shores, amounting to approximately 300,000 barrels daily."

Another evidence that Artesia is improving is found in the removal of our Main street tombstone, the O. T. marker. About the only way we can give indications now of a dead town is to hang a piece of crepe on the place where the marker once stood.

## THE STATE LEGISLATURE

M. Ralph Brown, Albuquerque attorney, has made some suggestions to the ways and means of improving the service of our state legislature. Whether or not we agree with Mr. Brown, regarding the expediency of some of the panaceas suggested for our legislative ills, they are at least worthy of thought.

The public is largely to blame for the methods of operation used by the legislature of this and other states, for we have taken little or no interest in the legislative proceedings. Among the recommendations made by the Albuquerque attorney is an economic survey to determine the financial condition of the state prior to the meeting of the legislative body, so that the legislators may be able to govern their legislation accordingly. A split session of the legislature is suggested so that the public may become familiar with the bills pending. Our New Mexico legislature will likely pass some 600 laws, if it does as much as the last one, these 600 laws will be passed during the sixty days session. Another recommendation, generally admitted as needful is that the legislators be paid a fair salary. Filling a place in either the house of representatives of the senate usually means a sacrifice on the part of the office holder, in both time and money.

## LIFE!

Life is something we can't exactly explain, yet we are very familiar with it and know some very important things pertaining to it. We know that there is power in life. When a person is alive he has the ability to think, walk and talk. And we know a dead one hasn't the power to do these things.

There are six factors essential to life: Food, air, water, sleep, sunshine and exercise. People who want good health have to exercise care in regulating these life-giving qualities. We cannot choose one or two of these and expect good health. It takes all of them to make a normal life. Air is the most important. The minute we stop breathing means our light is almost gone out. That's the first thing we do when we come into this world and the last before we go away. Sunshine is probably the least important. That is we could live longer without sunshine than any other one of these important factors.

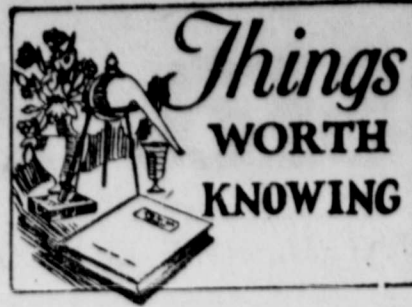

We should make a study and strive to use these essentials to the best advantage. Proper dieting, deep breathing, pure water, lots of sunshine, and the right amount of exercise, will cure a sick person and keep a well one healthy and happy. For we can't expect to be happy when we are sick.

And did you ever happen to think that all of them are free except food? We have to put forth a little effort to obtain it sometimes. Some put forth too much and eat more than their share and you know the results. They swell up and phone the family physician.—Graphic.

Roger Babson, expert statistician, sees a turn in the road for business the recovery will be slow but steady. Mr. Babson bases his opinion on a survey of more than 10,000 miles of western territory. Oil and fruit are two of the most important business barometers since America has changed its standard of living, according to Mr. Babson, rather than so much grain and cotton. From the surface, it appears that it would take a real optimist to see a brighter side for the oil business even though the status of this industry can change over night. It is a well known fact that the future of the industry does not look any too rosey to the independent operator.

The buying power of a dollar is said to be fifteen to forty per cent greater than a year ago, due to the recent reductions in various commodities. Briefly the situation is that the cost of living has come down, with exception of taxes, which have shown a slight upward tendency.

In discussing the newspaper report that a cannibal refuses to eat a human that uses tobacco, a local rancher brings out the point that no flesh eating animal or fowl will touch a dead coyote. These animals have been known to lay on the range and dry up without being molested, he says.

Plant tulip bulbs as early as they can be secured. Best results follow from plantings made before the end of September, but up to December they may be put in with promise of satisfaction.

Drinking vessels in the poultry house should be kept on a platform about 12 to 18 inches from the floor. This arrangement keeps the containers and the water more sanitary. Make the platform of slats, and large enough so that the birds can stand on it comfortably while drinking.

You can make good homemade damp-proofing paint by dissolving paraffin in gasoline or kerosene warmed to 80°. Use a 10 to 20 per cent solution (¼ to 1½ pounds of paraffin per gallon) and apply several coats. The lighter solution is better for compact natural stone and the heavier for brick or concrete. Be careful to do work of this kind only where there is good ventilation, natural or electric light, and no fire.

Don't let livestock pasture first-year alfalfa and allow only light grazing on second year growth. No stand of alfalfa should be closely grazed, as grazing down the crops often kills the plants. Don't turn cattle on an alfalfa field when the ground is wet or frozen. If a stand has become thin or patchy, plow up the field and reseed it after it has been planted to some other crop for a year or so. Attempts to patch up poor stands of alfalfa are usually futile.

Feeding grain to sheep is seldom profitable when grazing is good. Sometimes flocks maintain good condition and lambs can be marketed without any grain. About 100 pounds of grain in a year for one ewe and her lambs is the most that can be used profitably under any conditions. The method that is most economical and most likely to keep the flock in good condition provides frequent changes of pasture and grazing crops, with winter rations of leguminous hays and some succulent feeds. If any grain is fed, give it in winter and after the lambs are born.

Thorough plowing under in the fall of crop residues is the most practical means of controlling two widespread tomato diseases, early blight and leaf spot. When properly done, spraying and dusting are effective in controlling these diseases but the necessary applications are expensive and are difficult under some weather conditions. These two blights are caused by fungi that live chiefly on dead plant materials, and complete destruction of crop debris is the most economical means of depriving the fungi of food. Experiments conducted by the U. S. Department of Agriculture indicate that tomatoes grown on fall-plowed land are freer from blights than those grown on spring plowed land.

At a fire near Salem, Oregon, water was lacking, so firemen commanded milk supplies to quench the flames.

## Attention Cotton Farmers

Your Cotton Sample is an important factor in choosing your ginner

In the long run the sample of your cotton will be even more important than a big turnout. Endeavor to give our customers as large a turnout as possible consistent with the high grade sample.

Read what the New Mexico A. & M. Bulletin, No. 181, issued March, 1930 has to say about ginning:

The ginning of the cotton is ordinarily the hands of the cotton grower, but there is considerable tendency on the part of many farmers to demand of the ginner a high turnout or high percentage. The ginner is nearly always willing to do high-class ginning if the farmers ask for it, likewise they will also quite often give a high turnout, which is usually accompanied by poor ginning if the farmers asks for this. A high turnout usually means that considerable percentage of full very short fibers and dirt and trash go into the cotton bale, which must eventually be separated from the good cotton by the spinners; but not only does the individual farmer lose, by practice, but a whole community may lose because of the lack of foresight of a few farmers. It has been shown many times that good ginning usually brings a higher grade of cotton and, therefore, a better price. Likewise, a farmer can expect to be penalized for poor ginning. It should be understood that the ginner is not always responsible for poor ginning, but it is quite largely his desire to give the farmer what he wants. A ginner can be expected, furthermore, to give results if cotton is wet or otherwise in poor condition for ginning.

**A. J. BASEL WRITES**

San Angelo, Texas  
August 31, 1930.

Editor Martin, Artesia Advocate,  
Artesia, New Mexico.  
Dear Mr. Martin:

It was with a great deal of interest, I read your editorial headed "A Trip May Do You Good," in your issue of August 21st, of which every word is true to the letter.

In my opportunity of travel, it is the contrast between the Pecos valley and other sections of the country that I observe which makes me satisfied with your country. Have oftentimes made the statement that in the irrigated section of the Pecos valley, we are almost sure of nineteen crops out of twenty and the only great danger of failure is from hail.

On a recent trip east through East Texas, Arkansas, Missouri, Illinois, Indiana, Ohio, Pennsylvania, Virginia and Tennessee found crop conditions pitiful. All of these states depend upon rainfall which they failed to get in due time this year. In parts of Indiana and Ohio, the farmers were hauling brush to their cattle to keep them alive. Also hauling water many miles for their stock and in several states, the government was assisting in mowing fish from streams that had gone dry. Valuable milk cows were going dry and being shipped to market.

With irrigation there is no excuse for a farmer in the Pecos valley being without feed for his stock or for not raising a pretty good crop of some kind each year. As you say, it is true, all countries have their draw backs but in my twenty-eight years travel over many states, I find that from an agricultural standpoint, the Pecos valley of New Mexico has fewer draw backs than any farming section in my knowledge and the farmers there come as near having a "sure thing" proposition as can be possible, taking one year with another. A country depending entirely on rainfall is a bigger gamble than the stock market ever was, while irrigation in comparison, is practically a sure thing.

You have an ideal cotton country with few or no insects with which to contend. The soil and climate are ideal for alfalfa, also, and almost everything else can be raised.

Note you have some real farmers in the Artesia section. I know, too, that they have no copyright on good farming and others are not barred from raising real crops. Your real farmers show your country's real value as a farming section.

In my judgment, your country is one of the safest crop producing sections anywhere. All we need is a few more real farmers. Yes, if you farmers are not satisfied, go take a peep at how hard hit the other fellow is and you will appreciate just how well fixed you are.

Yours respectfully,  
A. J. BASEL.

**TEST CALICHE FOR OIL ROADS**

LAS CRUCES—The state testing laboratory at State College is now engaged in running a series of tests and experiments on the widely used New Mexico road material called caliche to determine if this substance can be used in the oiled road process.

There are hundreds of miles of road on the east side of New Mexico built with caliche surfacing which if a way is found to make the oil and caliche mix satisfactorily will lend themselves to oil surfaced treatment.

"No other state that has tried to use caliche on oiled roads so far as I know has had anything but unsatisfactory experience," says L. C. Campbell, materials engineer for the highway department. "A current field and laboratory experiment gives encouragement however and we are continuing our investigations to the end that when caliche roads are successfully oiled New Mexico will be the first to oil them."

**MISS HELEN VERA FUNK WINS FIRST PLACE**

Mrs. W. K. Jones, of Malaga, and Mrs. J. M. Dillard of Carlsbad, served as judges at the county sewing demonstration contest which was held at Lower Cottonwood school house Thursday.

Miss Helen Vera Funk won first place, Miss Gertrude Bradley second, and Miss Alma Bradley third place. The contest was hard fought and all the girls did extra good work. A good crowd was present to watch the teams do their work.

The two winning girls will now prepare for the state contest to be held at State College in October.

We are prepared to do Hemstitching. Bring us your work.

**Cash and Carry Grocery**

ABE CONNER, Prop.

**PICKED UP ON MAIN**

M. E. Hays, new floor man for the Advocate, who grew tall waging mighty battles with the Louisiana skeeters and who used to labor under the impression that chill tonic was made to drink like near beer, now finds that his height is a slight inconvenience in a town like Artesia. Hays has started a move to raise all ceiling fans and is especially anxious that these store entrance fans be raised to a convenient height so he won't have to stoop in making a purchase.

Abe Conner has started an Abe row on Main street, since there are three Abes residing on the same block.

Two Artesia school ma'ams have found that it is a pretty costly pleasure to go kodaking in Juarez and they were sober too. They paid \$5.00 in good American money for the privilege of snapping a meat market. That's news to most of the local tourists too for we usually think of Juarez only as a filling station.

To dispense with the wearing of spectacles, specialists in London, England, have devised a method of fitting under the eyelids extremely thin lenses that the wearer can easily remove or replace.

**Better prices for your cream**

Prospects are good for a better cream price during the next few weeks.

Diversification and a few milk cows will continue to bring in a nice monthly income to their owners, regardless of where the price of cotton goes. Bring us your cream.

Now is the time to condition your pullets for winter laying. Try the Purina way . . . Laying chow to-day \$3.20.

## MISCELLANEOUS SHOWER

Miss Mary Jackson entertained with a miscellaneous shower last Thursday afternoon, honoring her sister, Mrs. George Walton, a recent bride. The party was given at the home of Mrs. E. N. Bigler at three o'clock and was attended by a score of friends and relatives of the bride. The shower idea was cleverly carried out by a sprinkling can, covered with ruffles in a color scheme of pink and silver. This was also used in the ruffles on the umbrella, which served as a receptacle for conveying the gifts into the room. The umbrella was carried by a little nephew and niece of the bride, Bobby and Marie Beck. Pink flowers were used in decorating, and a frozen salad course with sandwiches and iced tea was served. The company included besides the honoree and hostess, Mesdames Bigler, J. M. Jackson, V. D. Bolton, Howard Gissler, Luvena Beck, George Wilkins, E. L. Glossbrenner, Carl Joiner, Tex Henson, Pete Jackson, Loraine Kirkpatrick McLaren, of Dallas, Texas, and the Misses Viri Campbell, Helen Bullock, of Ft. Worth, Texas, Ann Lang of Carlsbad, Ruth Bigler, Aline Wilson, Elsie Dell Beckett of Owensmouth, California, Inez Waldrip of Weatherford, Texas, Bertha Richards, Catherine Clarke and Lilla Jackson.

## MOTOR BOAT CHRISTENED

William and Stewart Compton have been working for some time on a motor boat. They had it finished last week and on Sunday afternoon launched it in Lake McMillan with a formal christening, Miss Wyoma Phillips breaking a bottle of Dr. Pepper on the prow. The boat will make eight on ten miles an hour in the lake and the different members of the party enjoyed a trip in it. The afternoon closed with a watermelon picnic. Mr. and Mrs. R. D. Compton, Louise and Kenneth, went with the boys to launch the boat, also a number of other friends. It has been named La Golanarina. The other friends in the party were the Misses Margaret Phillips, Wyoma Phillips, Virginia Goodell, Glennis Smith and Ed Shockley.

## DANCING PARTY

The Compton young people entertained a number of friends at a dance last Thursday evening. Light refreshments were served. The party included the Misses Fern McCaw, Mary Smith, Sue Flint, Glennis Smith, Ruth Bigler, Virginia Goodell, Margaret Nellis, Elizabeth Gage, Evelyn Cobble, Nelda Wilson and Louise Compton and Floyd Rogers, Melvin Jernigan, Dorris Ransberger, Wallace Gates, Cavitt Jackson, Lawrence Goodell, Dare McLean, Harry Woodman and William and Stewart Compton.

## BIRTHDAY DINNER

Miss Jeanne Wheatley was hostess at a four course dinner at 5:30 o'clock last Friday, complimenting her friend, Miss Grace Sinclair, whose birthday anniversary occurred that day. The dining table was attractively adorned in a color scheme of pink, roses and pink candles being used. Games at the table filled in the time between courses. The guest list included besides the honoree, the Misses Louise Compton, Lillie Mae Miller, Neva Sue Flint, La Rue Mann, Mary Louise Paris, Thelma McCaw and Marylyne Haley.

## DANCING PARTY

Miss Ruth Bigler entertained with a dancing party last Tuesday evening. The young people present were the Misses Ruth French, Mary Smith, Glennis Smith, Evelyn Cobble, Elizabeth Gage, Sue Flint, Louise Compton, Nelda Wilson, Wyoma Phillips, Margaret Phillips, Opal Moon of Ft. Worth, Texas and LaRue Mann and Noble Littlejohn, Leon Clayton, Melvin Jernigan, Thelbert French, Clyde Cobble, Dorris Ransberger, Floyd Rogers, Cavitt Jackson, William Compton, Stewart Compton, Wallace Gates, Lawrence Goodell and Carroll Graham.

Have you ever played Golf? If not try a game Saturday, for ladies, gentlemen, boys and girls. Lark Golf course. Sunshine Class in charge. 38-1tc

## KINDERGARTEN OPENING

At 9:00 o'clock Monday morning, September 9th, the kindergarten will open at M. E. Church, Junior room, (east entrance).

Mothers especially invited to accompany the children at the opening session.

Rates \$4.00 per month, hours from 9:00 a. m. to 11:30 a. m.

Give your children the benefit of this preschool education and note their easy development. 38-1tc

MRS. JAMES CHRISTMAN

## Social Calendar

TELEPHONE 217

### FRIDAY

The Cemetery Association will meet at the home of Mrs. Walter Douglas at 2:30 p. m.

### SATURDAY

The Epworth Juniors and Intermediates of the Methodist church will hold a meeting at the Hornbaker farm in the afternoon.

### MONDAY

The Legion Auxiliary will meet at the Charley Martin ranch at ten a. m. All-day meeting with covered dish luncheon. Delegates will give reports of the Gallup convention and all members are urged to be present and learn what the local unit will have to do when it entertains the convention next year.

The Library Board will hold its monthly meeting in the library at 3:00 p. m.

### TUESDAY

The Eastern Star will resume its meetings again after a summer vacation. Meeting at 7:30 p. m.

The First Bridge club will meet with Mrs. G. R. Brainard on the ranch at 2:30 p. m.

Idlewhiles Bridge club will meet with Mrs. Sid Cox at 2:00 p. m.

### DANCING PARTY

A crowd of young people gathered at the J. H. Jackson home Monday night for an informal dance, complimentary to Miss Louise Compton, who left for college this morning. Included in the company were Wallace Gates and Miss Ruth Bigler, Richard Wheatley and Miss Glennis Smith, William Compton and Miss Wyoma Phillips, Lawrence Goodell and Miss Nelda Wilson, Dare McLean and Miss Beth King, Boyd Wright and Miss Elizabeth Gage, Melvin Jernigan and Miss Sue Flint, Ed Shockley and Miss Margaret Phillips, Cavitt Jackson and the honor guest.

### SIX O'CLOCK DINNER

Mr. and Mrs. J. H. Jackson were hosts at six o'clock dinner last night, complimentary to Mr. Guy Green, who is conducting a meeting at the Presbyterian church. Other guests were Rev. and Mrs. John Sinclair and Mr. and Mrs. Martin Brannan.

### SURPRISE BRIDGE PARTY

Fred Cole successfully arranged a surprise party for his wife last Monday, in honor of their fourth wedding anniversary, which occurred the next day. The guests met at the Tex Henson home and arriving en masse completely surprised the bride. Mr. Cole did the honors and served delicious refreshments. There were five tables of bridge, the players being the honoree, Mrs. Cole, and Messrs. and Mesdames W. E. Flint, Leslie Martin, George Wilkins, T. C. Bird, Will Linell, Landis Feather, Lewis Story, Tex Henson, and Willis Morgan and Mr. John Richards. Mr. and Mrs. Morgan won high score.

### SUNDAY SCHOOL CLASS SOCIAL

Mrs. James Christman's Methodist Sunday school class had a social at the home of their teacher last Thursday evening. Games made the evening a merry one and refreshments of pie a-la-mode and ice cream cones were much enjoyed by the class and a number of friends, who were invited to the social. The class members each took a silver offering to apply to their conference claims, which were fully paid up at this gathering. Members of the class and their guests present were Juanita Richards, Zanna Filbert, Natalie Filbert, Ethel Cave, Peggy Brainard, Betty Joe Brainard, Kathleen Blount, Velma French, Norma Christman, Harold Hannah, Francis French, Eddie Gray, Paul Gray, Cyril Stone, James Sharp, Lloyd Christman, Joe Jones of Lake Arthur, James Everett and Billy Gray.

### COTTONWOOD WOMEN'S CLUB MEETS TODAY

The Cottonwood Women's club is holding a regular meeting at the home of Mrs. Monroe Howard today. County Agent Wunsch plans to attend and assist with the canning demonstration.

The Sunshine Class invites you to play Golf at the Lark Golf course on Main street, Saturday, morning, afternoon and evening. 38-1tc

## VISITOR HONORED

Mr. and Mrs. C. R. Blocker entertained informally at bridge last Friday evening, complimenting Mrs. J. H. Hohman of Ft. Worth, Texas, house guest of Mr. and Mrs. Leslie Martin. Light refreshments were served.

## YOUNG MOTHERS' CLUB

The Young Mothers' club met with Mrs. Margaret Ellis last Friday in regular session. The usual games and refreshments were part of the entertainment. An interesting article, "The Child Discovers Music," was read by Mrs. S. B. Barnett. Mrs. C. E. Daniels was admitted to membership.

## RECEPTION FOR THE FACULTY

R. W. Emerson, secretary of the Artesia council of churches announces that a reception for the teachers of the Artesia schools will be held Monday evening, September 8th, at the First Methodist Church. The reception, an annual affair is given under the auspices of the Council of Churches.

## THE PASSTIME BRIDGE CLUB

The club held its regular meeting at the home of Mrs. Charles Morgan on Tuesday afternoon, the hostess serving delicious refreshment. High score was won by Mrs. George Williams and low score by Mrs. M. A. Lapsley. Substitutes were Mrs. Lundquist of Wilmington, California and Mrs. Elzie Swift.

## FORTNIGHTLY BRIDGE CLUB

The club was entertained at one o'clock luncheon at its regular meeting at the home of Mrs. Will Linell Tuesday. Mrs. Stephen Lanning, Mrs. Landis Feather and Mrs. Richard Attebery were substitutes.

## SECOND AFTERNOON CLUB

The Second Afternoon Bridge club was entertained by Mrs. Aubrey Watson on Tuesday at one o'clock luncheon, served in two courses. Substituting were Mesdames E. M. Phillips, Ralph Shugart and Harry Woodman.

## SECOND NIGHT BRIDGE CLUB

The club met at the home of Mr. and Mrs. Beecher Rowan last Thursday evening for its regular supper and bridge. Frank Brooks of Dallas, Texas substituted for his mother, Mrs. E. J. Brooks, the only absentee.

## HANDSOME NEW HOME

The new stucco dwelling of Skelt Williams, on the corner of Sixth and Richardson avenue, which is nearing completion, will be one of the handsomest homes in Artesia. The house is in Spanish style architecture, with all modern improvements and contains a large living room, dining room, kitchen, two bedrooms, sewing room and sleeping porch.

## LOCALS

D. W. Runyan is quite sick at the home of his daughter, Mrs. Reed Brainard, southeast of town.

Mr. and Mrs. J. M. Story left this morning for a visit with relatives in southern Illinois, going by way of Colorado.

Mrs. Ed Cheney, who underwent an operation at St. Francis hospital in Carlsbad Monday, is reported to be in a serious condition.

Mr. and Mrs. Lee Perry arrived Tuesday from Ft. Worth, Texas, and were guests at the S. S. Ward home until this morning, when they left for the Carlsbad Caverns.

Miss Opal Moon of Ft. Worth, Texas, was the guest of Mrs. J. G. Littlejohn Tuesday and Wednesday, driving over from Lea with Mr. Littlejohn, who was at home for a couple of days.

Lloyd Atkeson, who has been engaged in the practice of law at Corpus Christi, Texas for a number of years moved this week to San Antonio, where he has gone into partnership with Swearingen and Miller, an old established legal firm of that city.

Mrs. Boyd Williams, son, Erasmus and daughter, Agnes Ann, of Elk, also daughter, Mrs. Cleo Koger, of Kansas City, Missouri, were here yesterday, guests at the home of Dr. Clarke. Mrs. Williams came down to place Agnes Ann in the high school again this year. Mrs. Koger and baby, who have been spending the summer with her parents at Elk, will remain in the mountains a couple weeks longer.

On Sunday Mr. and Mrs. Benson and their guests, also their other guests, Mrs. McLaren and Miss Vida McLaren, who have been visiting here for several weeks, left for a few days trip to the mountains. Mrs. Kirkpatrick is a sister of Mrs. Benson.

ENGRAVING AT THE ADVOCATE

## More Fish in the Menu — Less Work at M

By JOSEPHINE B. GIBSON  
Director, Home Economics Dept.,  
H. J. Heinz Company

FISH is a valuable body building food, and wise cooks give it a definite place in the every-day diet.

To be palatable, with full appeal of flavor, fish requires careful and unusual seasoning. The skillful use of a small amount of tomato ketchup or chili sauce, a few drops of onion juice, or perhaps a dash of Worcestershire sauce, takes fish out of the realm of commonplace foods and makes it an unusually attractive dish.

The following recipes show how truly delicious, yet easily and quickly prepared, fish may be:

### Halibut Creole

2 lbs. halibut; 1/4 cup tomato ketchup; 1 tablespoon onion juice; 2 tablespoons butter; 2 tablespoons flour; salt and pepper.

Place the ketchup, water and onion juice in a pan and heat to boiling point. Mix butter and flour together, and stir into the sauce. When it boils, season with salt and pepper, and cook for several minutes. Pour boiling water into a deep pan to a depth of one-half inch. Lay fish in it for one minute, skin side down. Remove from water and take off skin. Place in a well buttered pan, and season with salt and pepper. Top with slices of pickle, and pour half the tomato sauce over the fish. Bake 30 to 45 minutes, basting with remaining tomato sauce. Garnish with parsley and serve the fish surrounded with sauce from the baking pan.

### Tuna Fish with Pickle Sauce

1 cup canned (or cooked) tuna fish; 2 tablespoons butter; 2 tablespoons flour; 1/2 teaspoon salt; 1 1/2 cups milk; 3 tablespoons chopped sweet pickle; paprika; 1 tablespoon minced parsley; dash of Worcestershire Sauce.

Steam fish over hot water until heated. Melt butter in saucepan, add flour and salt, then gradually add milk. Cook until thick and add the chopped pickle. Place fish on platter, pour sauce over it, and sprinkle with paprika and parsley.

### Drawn-Butter Sauce

1/2 cup butter; 1 pint milk; 1/3 cup flour; 1/2 teaspoon salt; 1/2 cup Worcestershire Sauce.

Melt two-thirds of in a double boiler, an flour and salt which sifted together. Slowly the boiling water, and smooth and thick, carrying from the fire and stir of the butter.

Old-Fashioned Salmon  
2 cups canned salmon  
mayonnaise; 1 teaspoon  
egg; 1 cup flour; 1/2 cup  
powder; 1/4 teaspoon salt  
cup milk.

Flake the salmon, mix with mayonnaise and vinegar, sift the flour with the baking powder, and add an egg and milk. Mix this batter with

Drop from a spoon into and fry to a light brown. are especially good sauce, tomato ketchup, Worcestershire sauce.

### Salmon or Tunafish

1 cup canned salmon or tuna fish; 1/2 cup mayonnaise; 1/2 cup bread-crumbs; 1 cup drawn-butter sauce; salt and pepper.

Chop the fish. Add butter sauce, pure cider salt and pepper, and place in a buttered pan and cover with bread-crumbs. Brown in a moderate oven on a platter garnished with Spanish olives, sliced and parsley.

### Drawn-Butter Sauce

1/2 cup butter; 1 pint milk; 1/3 cup flour; 1/2 teaspoon salt; 1/2 cup Worcestershire Sauce.

Melt two-thirds of in a double boiler, an flour and salt which sifted together. Slowly the boiling water, and smooth and thick, carrying from the fire and stir of the butter.

## WHY PAINTERS LIKE HOSPITAL JOBS

A woman patient was lying on a carriage in the ante room of an operating pavilion, awaiting an operation. A man in a white suit came and pulled down the sheet which covered her and inspected her carefully, then replaced the sheet and went away. He soon returned with a second man, also in white, and pulled down the sheet again, after which the two men inspected her thoroughly, replaced the sheet, and started to go away. The woman asked: "When am I to have my operation?" And the first man answered: "Lady, you'll have to ask the doctor; we're only painters."

Bill—"It's tough w to pay 50c a pound for Will—"Yes, but it's you have to pay 25c

## THE CHURCHES

**CHRISTIAN SCIENCE SOCIETY**  
613 W. Main Street

Sunday services at 11:00 a. m.  
Wednesday services at 7:30 p. m.  
Subject of the Bible lesson for Sunday, September 7, 1930 is, "Man."  
In this lesson the following scriptural selection is found: "What is man, that thou art mindful of him? or the son of man, that thou visitest him?" (Hebrews 2:6).  
Also the following citation from Science and Health with Key to the Scriptures, by Mary Baker Eddy, page 591: "Man. The compound idea of infinite spirit; the spiritual image and likeness of God; the full representation of mind."  
Visitors always welcome.

**ASSEMBLY OF GOD CHURCH**  
2 Blocks North of Post Office  
Rev. A. Davis, Pastor.

10:00 a. m. Sunday school.  
11:00 a. m. morning worship.  
6:45 p. m. Christ's Ambassadors.  
6:45 p. m. Bible study for adults.  
8:00 p. m. evening worship.  
Tuesday evening, prayer meeting.  
Friday evening young people's services.

Everyone welcome, we invite you to come and worship with us.

**METHODIST EPISCOPAL CHURCH SOUTH**  
Rev. Harold G. Scoggins

"The large church with a warm welcome and a helpful gospel."

9:45 a. m. Sunday school. George Frisch superintendent.

Last Sunday showed "a marked increase in attendance."

At 11:00 a. m. morning worship. Sermon theme, "Ready and Not Ashamed."

Epworth Senior and Junior Leagues at 6:30 p. m., in their respective rooms.

The congregation is urged to attend the revival services being conducted by Mr. Guy Green at the Presbyterian church for the evening hour.

There are only five more Sundays before the session of the annual conference, which marks for the church the end of another church year. How well are you satisfied with your contribution to the success of the year's work.

**FIRST CHRISTIAN CHURCH**  
6th and Quay Streets  
Ralph Waldo Emerson, Pastor

9:45 a. m. Bible school. C. O. Brown superintendent.

11:00 a. m. morning worship. Sermon subject, "The Salvation of the Church."

8:00 p. m. Evening sermon. Subject, "Ashamed of the Gospel."

Beginning Tuesday evening, September 9th, the church will hold a series of evangelistic services, conducted by Evangelist Will J. Wright.

Brother Wright comes to us with the highest recommendation, and a record of great service in the field of evangelism, as well as pastoral work. He is a true teacher, as well as preacher of the gospel of Jesus Christ.

His daughter, Miss Dorothy Wright will be here to direct the music during the meeting. Miss Wright is a young lady of unusual charm and ability and is experienced in evangelistic work.

Come out and hear the gospel in sermon and song.

**APOSTOLIC FAITH CAMPAIGN**

The Apostolic faith campaign in the big tent on West Main under the supervision of the G. W. Schultz evangelist party is progressing nicely. Brother and Sister Manke and daughter are able to assist with the choir and piano, Brother Everett Corl of Houston, Texas, accompanying with the saxophone is highly appreciated. Brother Francis Sutton each evening leads the congregation in the devotional service, after which the evangelist, G. W. Schultz brings a message of truth in a simple and pleasing manner. The service begins promptly at seven-thirty p. m. The public is cordially invited and each Christian is urged to assist in this campaign for the good of the lost. This revival will be conducted on the free will offering plan, with no collections taken or soliciting. Remember this campaign is now in progress.

**FIRST PRESBYTERIAN CHURCH**  
Fourth and Grand  
Rev. John P. Sinclair, Pastor  
Phone 249.

Sunday, September 7th, 1930.  
9:55 a. m. Sabbath school.  
11:00 a. m. Morning worship.  
Sermon by Evangelist Guy W. Green.  
6:45 p. m. Christian Endeavor, Junior and Intermediate groups.  
7:30 p. m. Evening worship and great closing meeting of Guy Green's campaign.  
Wednesday, 7:30 p. m. Praise Prayer and Bible study.  
Let us all gather at the Methodist church Monday evening next at 7:30 p. m. and welcome the teachers.  
ARE YOU LOYAL? It has been said that—"The fear of being labeled keeps many young people from doing things of which their judgment gives approval."  
Just so; and because of this fear

## PLAN TASTY MENU AND SERVE IT NEATLY

Cooking Club Girls Learn to Set Dinner Table.

(Prepared by the United States Department of Agriculture.)

One of the outward and visible signs of progress in the field of home making, as 4-H club girls learn its various phases, is the ability to plan a good menu, from the health standpoint, cook it palatably, and serve it gracefully. Part of this last aspect of meal preparation is learning to set a table in the accepted way. These club girls in Albemarle county, Va., are all at the age when they help their mothers constantly with the different household tasks. They usually have ideas on what is attractive or up-to-date in the appearance of their homes, and are especially interested in the details that are concerned with hospitality of entertaining the friends of the family. The home demonstration agent is showing this group how a dinner table ought to be set for six persons. She has demonstrated the use of a low flower centerpiece on a round embroidered dolly of white linen, and has begun to place the "covers" or individual sets of flat silver in the proper positions—forks to the left, knives and spoons to the right, napkin neatly folded at the left. Next, at the tip of the knives, the wa-

ter glasses will be placed, and salts and peppers if used. Bread and butter plates with spreaders will go above the napkin, on the left. She shows how platters and other containers should be set squarely in front of the person who is to serve, not diagonally or in hit or miss fashion as such dishes sometimes appear on the table. No doubt a count will be made of the number of serving spoons that are needed and the position of the carving knife and fork indicated.

**THE CHURCH OF CHRIST**  
One Block West of Central School

Next Lord's day, Brother Sanders, the minister of the Church of Christ of Carlsbad, will preach at the 11:00 o'clock hour. This is his first time to preach here, and we hope there will be a large number present to hear him. The subject to be discussed in the evening, at 7:30 o'clock will be "The Thief on the Cross." This is a very important subject, and is one that a great many people don't understand. Come out and let's reason and study together, you will learn something.

If Brother Sanders stays over and preaches for us at the evening hour, we will discuss the above subject the next Sunday evening.

Bible school at 10:00 a. m. Every member be present and ask someone to come.

Preaching at 11:00 a. m.  
Preaching or the Bible lesson at 7:30 p. m.

**Why Coins Are Milled**

The edges of coins are reeded or corrugated to prevent fraudulent removal of metal and also to protect them from wear. Nickels and 1-cent pieces do not wear so rapidly and the metal in them has little intrinsic value. Therefore, only gold and silver coins are made with reeded edges. All coins, however, are milled; namely, they are made with a raised border to protect the face itself from wear.—Pathfinder Magazine.

**Why Gas Is Made Odorous**

Making gas smell is the objective of distributors of natural fuel gas in recently developed territory in California. Unlike the product of middle western states, natural fuel gas is odorless in the western fields and several fatalities occurred after its introduction to Pacific coast users. So the company is saturating its products with atomized oil. The odorant does its work thoroughly, although no odor is created while the gas is burning.

**Why Static Is Prevalent**

The weather bureau says that to the best of its knowledge it is not generally true that there is more static on a moonlight night. There is more static when thunderstorms are prevalent than at other times, and thunderstorms imply more or less cloudiness; and cloudiness implies absence of moonshine—at least the kind that can be seen below the clouds.

**Why the "Nickel Plate"**

In the days when the Nickel Plate railroad was being built, the early '90s, "nickel plated" was a popular slang expression for excellence. Hence the owners of the New York, Chicago & St. Louis gave their road its famous by-name just as they might have called it the Blue Ribbon road at a later date.

### 'Round Home

by CHAS. S. KINNISON

"Take Me With You!"

When'er I climb into the car,  
To go up town, or journey far  
And start to roll away—  
If Mary Jane should happen near,  
One thing from her I'm sure to hear—  
She never fails to say:  
"Daddy, take me with you!"

What'er perchance my road might be,  
This child of mine would go with me,  
With glad and eager heart!  
Be it a path that led to fame,  
Or one that led me down to shame—  
I'd hear as I would start:  
"Daddy, take me with you!"

And so, when I would go astray,  
And from the right I'd turn away,  
She seems right there with me!  
Her dimpled hand I seem to take.  
How dare I, then, the right forsake—  
Before this childish plea:  
"Daddy, take me with you!"

### WIFE SLAYER KILLS HIMSELF WITH BLAST IN THE POTTER CO. JAIL

A. D. Payne, Amarillo, Texas attorney, held at Amarillo, awaiting trial for the murder of his wife, June 12, killed himself in the Potter county jail Saturday morning, apparently with a blast of explosives. The Potter county sheriff and jailer rushed into the jail after hearing the blast and found Payne's mutilated body. The Potter county grand jury, meeting at Amarillo, had found Payne guilty of murdering his wife and of crippling his son by a charge of dynamite placed in the Payne car on June 12.

Two of Payne's children had visited him in his cell Friday afternoon. After the visit of the children, Payne became delirious with grief. No one was in the cell at the time of the explosion. How Payne procured the explosives was not learned.

Later information from Amarillo states that Payne had concealed a small vial of explosive powder on his person by strapping it to his leg. The charge was exploded by a fuse, which was ignited from a cigarette.

No Good Cook  
Let her—My wife is a canny house-keeper.  
Sayohara—My wife doesn't know how to cook either.

Three Miles on a Pint  
Bill thought his gas was getting low; He struck a match; the tank let go! Bill sailed three miles right in the air— Three miles on a pint is pretty fair.

ENGRAVING AT THE ADVOCATE

### SURVEY OF STATE CROP SURPLUS ORDERED TO AID TEX. DROUGHT AREA

SANTA FE—Governor R. C. Dillon has taken steps to survey New Mexico's crop surplus in behalf of the drought-stricken east. Upon the suggestion of A. D. Ribble, president of the Portales chamber of commerce, he has written Dr. H. L. Kent, president of the New Mexico A. & M. College, asking that his county agents collect data to send to the relief commission.

Ribble, in writing to the governor, suggested that a considerable expense may be saved the east by shipping direct to the affected area, thus saving on the loading and unloading expense and by the direct freight rate to be had.

He states Roosevelt county has a surplus of about 200 car loads of sweet potatoes, two car loads of butter per month, 100 car loads of miscellaneous truck crops, 100 car loads of grain, one car of eggs every two weeks, 40 car loads of canned tomatoes and several car loads of hogs and a number of cars of fat cattle ready for market.

In suggesting that some already working organization, such as A. and M. College, to put these food-stuffs on the eastern market, Ribble stated he understood that other sections of New Mexico had harvest surpluses, including the Estancia, Pecos, Lower Pecos and Rio Grande valleys.

Governor Dillon suggested to Dr. Kent that as each county agent reports the surplus for his area, this information be forwarded on to the relief commission without waiting to compile the entire surplus.

The governor declared this project was not only a "splendid move to assist New Mexico's less fortunate eastern neighbors, but it will bring to the attention of the whole country the abundant prosperity that the people of New Mexico are enjoying today, and will doubtless attract desirable and industrious people to establish their homes in New Mexico."

Marcus Hartman 19, years old, of Wabash, Indiana, charged with violation of the prohibition laws, was sentenced to attend Sunday school regularly for 6 months.

### WHY Week Length Is Not Universal Throughout World

Where did man get his week and what decided its length? Like so many things, says the San Francisco Chronicle, it came from the Romans, but it did not originate in Rome. During the reign of Theodosius the seven-day week came into use, and Rome imagined that it was Egyptian, but in truth it came from the Jews, who believed that God made the world in six days and rested on the seventh.

Christianity was just beginning to creep across the world in those days, but masses of people were still pagan, and they accepted the seven-day week as a moon week. Each day was dedicated to one of the planets, Sun day, Moon day, Mars day, Mercury day, Jove day, Venus day and Saturn day.

The Anglo-Saxon forefathers refused to call the days after foreign gods and renamed them after their own divinities, Tiw, Woden, Thor, Frigga and Seterne.

The word "week" comes from the German "wikon," meaning change or succession, and the length of this succession of days is usually decided by the moon or the market. In places where a market is held every third day the week is three days long; in districts where a market is held every eight days there is an eight day week.

Persia, Java, Celebes, Malaysia and New Guinea have five-day weeks. The Muses of South America have a three-day week. The Chibchas have a four-day week. African weeks vary from three to eight days.

### Why Dinner Jacket Is Known as Tuxedo Coat

"Tuxedo" is derived from an Algonquin Indian word for "wolf," and means literally, in the Algonquin tongue, "he had a round foot." The Algonquins gave the name to a branch of their tribe which lived in New Jersey. Some of this territory fell eventually into the possession of a group of wealthy New Yorkers and was developed as a residence district, which, in honor of the tribe, they named Tuxedo Park. Estates were established there and it became a center of fashion. The men adopted what is now known as the "tuxedo coat" as a dinner jacket, and the fashion spread to other communities, the name "tuxedo" being used because of its trade value.

"Ma, is it right to say you 'water a horse' when you give him a drink?"  
"Yes, son."  
"Well, then, I'm going to milk the cat."

### OPINIONS

The mists of today do not obscure the hopes of tomorrow.—J. Ramsay MacDonald.

It is not the business of a critic to be kind any more than to be unkind.—James Agate.

The goal of every man is to make money faster than his family can spend it—a few succeed.—Lord Dewar.

Cultivate the art of living with yourself as you are and with the world as it is.—Dr. Bernard Hollander.

Thanksgiving has become a feast day in an appallingly literal and literally appalling sense.—Fannie Hurst.

If the men who do things talked half as much as the men who know how things ought to be done, life would not be worth living.—Prince of Wales.

If an admiring male tried on Fifth avenue of Piccadilly the sort of greeting suitable to ladies in sedan chairs or in open carriages he'd be run over or run in for holding up the traffic.—Mary Borden.

### KITCHEN KINKS

A few chopped nuts are well added to the stuffing for squabs.

Potato pancakes will have more flavor if a little onion juice is added.

A dab of whipped cream gives a "party" appearance to the cream of tomato soup.

Before kneading dough rub hands with a little butter or lard. Then the dough will not stick to the fingers.

Try adding one-half cupful of chili sauce and the stiffly whipped white of one egg to one cupful of mayonnaise. Delicious.

A careful and clever use of different sauces is a great help in varying the menu and giving pep to otherwise uninteresting dishes.

Brush the tops of pies or tarts with milk, using a small pastry brush. Just before putting them into the oven. They will come out a delightful brown.

A gang that makes a business of abandoning unwanted babies, charging \$50 for each job, is believed to have headquarters in Montreal, Canada. Abandoned babies have been found on doorsteps or houses within a 100 mile radius of Montreal. Detectives have made one arrest.

**TESTS FOR POTASH TO CONTINUE IN WEST TEX. AND EASTERN NEW MEX.**

Geologists employed by the United States bureau of mines are continuing chemical and mineralogical tests of holes drilled in Andrews, Ward, Loving, Gaines and Ector counties, Texas and Eddy and Lea counties in New Mexico, where they have been locating valuable deposits of potash, it was announced by the department of interior.

Since April 5, 1930, samples containing more than 1.5 per cent of potash have been found in 55 wells in New Mexico and eight wells in Texas. Analysis of cuttings from wells drilled for oil in Texas-New Mexico salt basin show unusually high percentages of potash, indicating to the chemists the presence of potash bearing beds at localities from which the samples were obtained.

These analyses, however, do not furnish information concerning the number, thickness, or richness of the potash beds. A new test hole was drilled recently in Chaves county, New Mexico, where the only potash mineral found was polyhalite, although the well was drilled to only 514 feet. A similar well was drilled in Eddy county, New Mexico.

The highest potash content of the 63 wells drilled was found in the Johnson No. 1 well drilled by Owen & Sloan, in Loving county at from 1,100 to 1,110 feet. The percentage of potash found in this well, according to the report, was 11.47 and that of another well in the same section was 7.63.

**WELL-BALANCED THRIFT PROGRAM ESSENTIAL TO PERSONAL PROGRESS**

By S. W. Straus, president American Society for Thrift.

"What percentage of my income should I pay rent?" This letter recently came to the writer from a reader of this department and it suggests an interesting problem.

Of course, the question of what part of one's income should be budgeted for rent, food, clothing, recreation, charity, education, travel, savings and other items depends on the circumstances of the individual. Many economists have stated that 20 per cent of the family income is about what should be paid for rent. In many cases, however, it is necessary to pay more than this while with others the 20 per cent estimate is much too high. It is not possible to fix an arbitrary schedule that would suit all cases.

The practice of real thrift involves judgment, initiative and enterprise as well as economy. We should study our own problems with the thought ever in mind that thrift does not mean just saving money but that it means to thrive in every sense of the word. To be truly thrifty is to be progressive—to keep step with the marching feet of modern life.

Those who expect to succeed in thrift should first of all map out some definite plan. Your income should be budgeted so that you will always be living within your means and saving a little money. We often hear the expression that such and such a person is "property poor." Others burden themselves with too much insurance while others do not have enough of that splendid form of investment.

The American Society for Thrift will be glad to mail to many of the readers of this column a free copy of its household budget and if requested will offer helpful suggestions or information to those who are endeavoring to plan a well balanced thrift program for themselves. Letters may simply be addressed to the society at 9 East 46th St., New York City.

There are, no doubt, many who are seriously desirous of cultivating habits of thrift but there are obstacles which seem to be in the way and quite often a word of suggestion will prove very helpful.

**N. M. OIL AND GAS WELLS ASSESSED AT \$1,062,961**

SANTA FE—The assessment of oil and gas wells in New Mexico was announced Friday by Manuel Baca of the state tax commission to have been placed at \$1,062,961 for the period from May 1 to July 31. The assessment is made periodically during the year under the law which provides for an assessment based upon production. The assessment by fields follows: Lea county \$965,115; Eddy county \$25,720; San Juan county \$72,126.

**MRS. ANN HAGERMAN DIES IN 87th YEAR**

Mrs. Ann Hagerman, 87, widow of the late J. J. Hagerman, known as the "builder of the west," died after four year's illness at her estate near Roswell Friday afternoon. She is survived by two sons, Herbert J. Hagerman, former territorial governor of New Mexico and now special commissioner to the Navajos, and Percy Hagerman, prominent Colorado Springs resident.

**LOCALS**

Miss Margaret Perry was at home from her school at Queen over the week end.

Mrs. A. L. Allinger has returned from a visit to her son, Alvin and family at Albuquerque.

Miss Esther Morgan will go to Roswell tomorrow to begin her year's work as teacher of Spanish in the high school.

Mr. and Mrs. A. L. Terpening were here from Dexter Sunday visiting their sons, Ralph and Henry, and families.

Richard Wheatley returned the last of the week from Santa Fe, where he has been assisting with the state audit.

Mrs. Mart Koger underwent an operation for the removal of her tonsils Tuesday morning, and is getting along nicely.

Miss Inez Waldrip returned to Weatherford, Texas, Saturday, after a fortnight visit to Miss Mary Jackson and other friends.

Mrs. J. H. Myrick left yesterday for her home at Olney, Texas, after a three months' visit to her sister, Mrs. Z. B. Moon, and family.

Miss Elaine Feemster went up to Weed Monday to spend a week at the Sacramento Lodge, which is run by Mr. and Mrs. Lawrence Wilde, formerly of Artesia.

Mr. and Mrs. W. H. Cobbs drove over to Magdalena Friday after their son, Clyde, who has been spending the past couple of months with his uncle and aunt at the ranger station in the Datil national forest.

Mr. and Mrs. J. E. Bowman accompanied by Mrs. E. L. Cooley and Miss Lucille Huffman motored to the mountains over the week end for a visit with Mr. Bowman's parents, Mr. and Mrs. W. P. Bowman.

Mrs. Frank Wilson and niece, Miss Helen Sage, are expected home tomorrow from San Diego, California where they spent the summer. Miss Sage will stop off in Roswell to resume her duties as teacher in the public schools.

Mr. and Mrs. Tom Cooper and son, Estel and Evaret Hardy of Sedan, Kansas spent several days here the past week visiting Mr. and Mrs. Jack Kennedy and family at the Illinois camp. During their stay here the visitors spent a day at the Caverns and a day in the mountains. Mr. Cooper said he would have something to tell his neighbors on his return home, as he was 760 feet underground one day and 9,000 feet high the next. The visitors took some local curios to place on exhibit at their home town.

**MOST CARS SOLD ON TIME PAYMENT PLAN**

WASHINGTON, D. C.—Of all passenger automobiles sold in 1929, 61 per cent were purchased on the installment plan and less than four per cent were repossessed for failure to maintain payments.

These figures, submitted to the census bureau by 425 automobile finance companies, showed the average deferred payment on each car to have been \$444.30. Installment-purchased cars numbered 3,478,373, of which 1,820,425 were new and the remainder secondhand.

**REGULAR MEETING OF ARTESIA MASONIC LODGE TONIGHT**

Regular meeting of the Artesia lodge No. 28, A. F. & A. M. at the Masonic hall, 7:30 p. m. Entered Apprentice degree will be conferred. All members and visiting brothers are urged to attend. BE THERE!

**SPECIAL HOUSE DRESSES \$1.00 at THE BAND BOX**

**Always Drowsy---**

Tired, overworked strained eyes make you feel that way, because they really are tired and need assistance.

Properly fitted glasses relieve that condition—serve as a tonic to the entire nervous system. Attention to this is not only wise—it is a duty.

## BRATTON AGAINST STATE'S INTEREST BY TARIFF VOTE

(By the Republican State Central Committee).

Mr., Mrs. and Miss Voter:

You are interested in New Mexico; you want the state to prosper. In America we have government by political parties. Time has shown government by political parties to be the best government humanity has ever known.

The only way to judge a party is by the record it has made. We judge men not so much by what they profess as how they perform. "By their fruits ye shall know them," said Jesus.

Both national and state issues are involved in the elections next November. New Mexico will elect a United States senator and a congressman. The democratic candidates for senator and congressman will be pledged by their party to downward revision of the tariff, "on the principles of the Underwood bill."

### What Is The Tariff?

The tariff is a tax levied by the United States on goods shipped into this country to compete in American markets with American goods and American labor. The foreigner pays no taxes in America. He does not employ American labor. He cannot be drafted into the army to fight for this country in time of war. All he wants is to be allowed to sell his goods in our markets.

### Good Business

Abraham Lincoln said of the tariff: "If we buy from abroad we have the goods and they have the money, but if we buy at home we have both the goods and the money." The republican party has given us the best tariff bill that was ever written. Especially is it the best for the people of New Mexico.

### Senator Bratton's Testimony

Democratic Senator, Sam G. Bratton, speaking at a democratic banquet at Albuquerque, Monday night, April 14th, 1930, said of the tariff bill as it passed the senate, that it provided for protection of New Mexico to a greater degree than ever before. "You may call it localism or provincialism," he said, "but I called it my duty to protect and vote for the interests of New Mexico." He led the fight for retention of a high tariff on manganese, saying that New Mexico has enough ore to supply the country for twenty-five years. This means that with a tariff that will protect it, New Mexico can produce and sell many millions of dollars worth of manganese each year for twenty-five years. But Arthur Brisbane said, July 28th, that cheap Russian manganese has taken the American markets forcing 3,000 laborers out of employment. A little higher tariff is needed there, but the democrats would take away the protection that product now has.

But when the bill came up on final passage, Senator Bratton voted against the whole measure. His party leaders had decided to make tariff revision an issue in the campaign this year and in 1932. Senator Bratton "rose above principle for the sake of party." He stood by John J. Raskob, Chairman of the Democratic National Committee, and the Du Pont interests against the best interests of his state. He will be a candidate for re-election to the senate. If he wins he will help frame and vote for a tariff "on the principles of the Underwood bill."

### The Democrats Say

The tariff is so high that other nations will punish the United States by levying higher tariff duties against our exports. Nearly every country of Europe charges far more for us to sell goods in those countries than we charge them to sell in this country. The average duty levied by England on American goods is 55 per cent, the average American duty on imports from England is 40 per cent. Spain charges us 70 per cent; we charge Spain 58 per cent. France charges us 80 per cent; we charge France an average of 28 per cent. Austria 53 per cent, against 33. Belgium 74, against 62. Germany 71, against 24. Italy 81, against 52 per cent. All of these countries, except England, have lodged protests against the new tariff law, without taking into consideration the fact that the averages of the duties quoted above are far lower than the taxes levied by them against goods from America.

### The Same Old Cry

Eight years ago the democrats were vehemently predicting that the rates in the republican tariff bill of 1922 would ruin the commerce of the United States. The same people are making exactly the same forecasts regarding the Hawley-Smoot bill. Josephus Daniels, said editorially in his Raleigh News and Observer, the day after the signing of the 1922 bill:

"There never was any hesitation on the part of the president in signing the bill of

abomination. Three billion dollars a year is the tax the new tariff imposes upon the consumer. It is the most indefensible tax measure that ever received an executive signature. International trade is barter. This bill says we cannot buy from others. By the very necessity of the case it shuts out our foreign markets."

Following the passage of that bill which was to rob us at home and ruin us abroad, both our export and our import trade grew by leaps and bounds. Figures on international trade for 1929, just issued by the department of commerce, show that the United States last year exported more than five billion dollars worth of commodities, the highest total ever known except in war times and the two years immediately after peace when we were grubstaking Europe that was flattened out by four years of war. And the total imports for 1929 were greater than for any year, with a single exception, in the history of our country. The eight years of the 1922 tariff, which the democrats said would ruin us, was the most prosperous period in American history.

### For New Mexico

Senator Bratton was right when he said the bill just passed provided for protection of New Mexico products to a greater extent than ever before. The cattle and sheep industries in New Mexico, without figuring the value of wool, is estimated by the department of agriculture at \$62,417,000. For leases and interest on sales contracts of grazing lands, the state of New Mexico receives annually \$530,729.64.

Let the democrats win control of congress and frame a tariff law on the principles of the Underwood bill, and the cattle and sheep industry will be destroyed, as it was under the tariff act of the second Cleveland administration and as it was under the Underwood bill, displaced by the emergency tariff act of 1921 and the regular act of 1922. Grazing lands, valued for taxing purposes at \$34,366,906 and that are now producing more than \$500,000 annually, would cease to be valuable without the livestock industry.

The tariff on cattle was increased from 1 1/2 to 2 1/4 cents a pound, if weighing less than 1,050 pounds, and from 2 cents to 3 cents if they weigh more. Sheep were raised from \$2.00 to \$3.00 a head. Beef and veal from 2 cents to 3 cents a pound; mutton from 2 1/2 to 5 cents a pound. Wool, scoured, from 31 cents to 34 cents. Beans from \$1.05 a bushel to \$1.68 a bushel. The Estancia valley and Union county produce annually approximately \$4,400,000 worth of beans. Because of the competition with Japanese raised beans they could not be raised profitably without high protection.

Senator Bratton is responsible for the statement that New Mexico may become the chief producer of manganese for the United States.

Bear in mind that he voted against every one of these duties. He voted to get them into the bill, then voted against the bill.

Also, bear in mind that every democratic tariff law has placed the principal products of New Mexico on the free list, except the totally inadequate duty of 25 cents a bushel on beans by the Underwood bill, as against \$1.68 by the new tariff act.

Dear Mr., Mrs. and Miss Voter; please bear in mind that if the democrats come into power and carry out their previous habit of placing New Mexico products on the free list, the vast areas of grazing lands, which now produce so much of our taxes and from which so many thousands of our people make their living, will become worthless.

These statements are not guesses. They are facts borne out by history. 38-1t

## INSIDE INFORMATION

Never discuss a child's eating habits with others in his presence.

Many fruits other than apples can be made into good vinegar. The U. S. Department of Agriculture has a bulletin on the subject.

Oily cloths used in polishing floors and woodwork are a serious fire risk and should either be destroyed immediately after use or kept in a tightly covered fireproof container.

Crisp cookies are wholesome in the school lunch box. If you haven't a recipe, send for farmers' bulletin 1450-F "Home Baking." You will also find in it good recipes for doughnuts, for biscuits, muffins, popovers, and various kinds of cake, as well as directions for making yeast bread.

Grape juice can be used for a fruit gelatin, either pure or diluted to taste. To make a quart of gelatin, soak one envelope of gelatin in half a cup of cold juice for a few minutes. Put one cupful of juice on the fire with half of a cup of sugar and when boiling dissolve the softened gelatin in it. Add the rest of the quart of grape juice, one tablespoon of lemon juice, and strain into a mold. Serve with plain or whipped cream when set.

## OVER 25,000 SEE THE CARLSBAD CAVERNS IN MONTH OF AUGUST

Twenty-five thousand visitors saw Carlsbad Caverns in August according to figures compiled Monday by the National Park Service office at Carlsbad. The big total rolled into this figure with an attendance of 1,800 on Sunday. There were four days during the month hit the 1,000 mark or over.

The travel by days follows:

August 1	488
August 2	468
August 3	770
August 4	759
August 5	952
August 6	718
August 7	736
August 8	663
August 9	631
August 10	886
August 11	925
August 12	835
August 13	854
August 14	858
August 15	597
August 16	786
August 17	1001
August 18	1014
August 19	979
August 20	919
August 21	870
August 22	706
August 23	729
August 24	1000
August 25	778
August 26	860
August 27	811
August 28	685
August 29	676
August 30	566
August 31	1500
Total	25,002
Total attendance for previous Augusts:	
August 1924	643
August 1925	361
August 1926	4,382
August 1927	7,855
August 1928	14,688
August 1929	27,791

PUTTING PUNCH IN NEWS

By Ralph J. Benjamin, editor, the Portland News, in the Oregon Bulletin:

"What is news? Keep your seats! Please do not throw anything. 'News is hate, it is passion, it is fear, envy, greed, hypocrisy, selfishness, treachery, love, sacrifice, heroism—

"A new industry moves to town. This news appears to move something in the breast of every reader. Perhaps it is envy, or hope, or greed.

"John Smith leaps off the Burnside bridge. Why? Fear. 'A drunk dies in the gutter. Gluttony. Hypocrisy!

"Ramsey McDonald and Herbert Hoover talk of reducing the size of the navies. Fear, Envy. Treachery. Hypocrisy. Love. Even heroism!"

## NO MEDICINE EVER HELPED AS DID KONJOLA

Stubborn And Painful Stomach Ailment Readily Yields To Power Of Famous Compound.

"Each day for a year I was in misery," said Mrs. Edna Barnett, 713 North Pearl Street, Dallas. "My system had become weak and run down from indigestion. Food failed of digestion and I had a constant burning sensation in my throat and stomach. Gas formed and I often belched violently. My nerves were upset and little things upset me terribly. I did not sleep well at night.

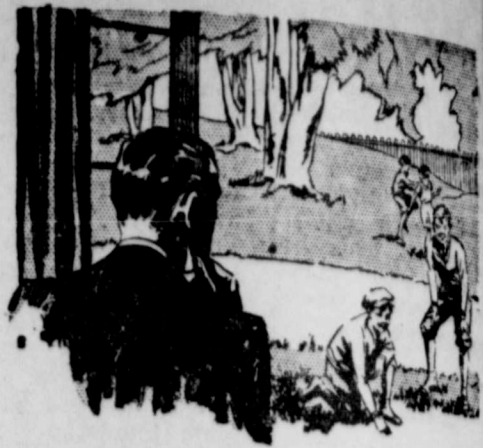

MRS. EDNA BARNETT

"The number of local people getting results attracted my attention to Konjola. I noticed a change for the better in my condition after I had taken the first bottle. I have taken four bottles to date and my health is again normal. I eat what I wish without a trace of indigestion or bloating. My nervous condition is much relieved and I sleep well at night. No medicine ever helped as did Konjola."

The files of Konjola contain thousands of such statements. It is recommended, however, that this medicine be given a thorough trial, in the average case over a six to eight week period.

Konjola is sold in Artesia at Palace Drug Store, and by all the best druggists in all towns throughout this entire section.

## What will your child be doing in 1938?

## FOUR STATES NOW MAKE HITCH-HIKING ILLEGAL

The state highway service bureau has been advised that four states now make hitch-hiking unlawful with widespread sentiment developing in other states against the practice of soliciting free rides from passenger automobiles and trucks.

The four states prohibiting the soliciting of rides are Maine, New Jersey, Minnesota and District of Columbia. So many hitch-hikers or "thumb tourists," as they are called in some localities have been found to be soliciting rides with criminal intent that legal measures as well as widely disseminated propaganda by national touring agencies have been resorted to curb the practice.

"Commercial concerns should point out to the operators of their trucks the need for ignoring those who solicit free rides," the service bureau suggests in a bulletin it is issuing to all chambers of commerce on the topic. "New Mexico has been more fortunate than most states in the feigning of criminal acts coming from hitch-hikers, but those few we have had indicate the need for as rigid a rule of discouragement to the walk-and-beg tourist as other states are adopting."

## NINE COUNTY FAIRS IN NEXT FEW WEEKS

County fairs, 4-H club fairs and 4-H club achievement days will be in progress in many counties in New Mexico during the next few weeks, according to reports received at the state extension office and requests for help with judging of exhibits and special educational features.

In addition to supplying specialists to help with judging and to conduct demonstrations, the state agricultural college together with the forest service and the biological survey are preparing educational exhibits which will be shown at various county fairs over the state.

Many of the county extension agents are giving much assistance in planning and conducting the county fair and in many cases the agricultural and home economics exhibits at the county fairs show the progress of the extension program in the county. An important event in the season of the extension program of the state is the state 4-H club contest to be held at State College, October 15 to 17, where winning 4-H club members from the various counties will compete for state honors.

The following is a list of county fairs to be held this fall:

Roosevelt County Livestock Exposition, September 18, 19, 20; San Miguel County Fair, September 18, 19, 20; DeBaca County Fair, September 25, 26, 27; Harding County Fair, September 26, 27; Valencia County Fair, September 26, 27; Rio Arriba County Fair, September 26, 27, 28; Curry County Fair, October 1, 2, 3, 4; Chaves County Fair, October 7, 8, 9, 10, 11; Dona Ana County Fair, October 17, 18, 19, 20.

## GROUND ALFALFA FOR HATCHABLE EGGS

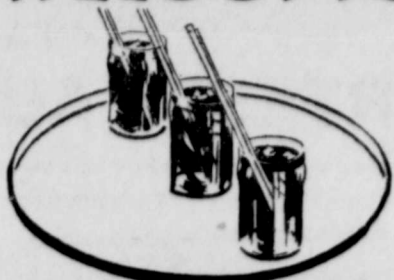

Green feed and direct sunlight or cod liver oil are both necessary to produce a maximum percentage of hatchable eggs according to recent tests at the Ohio experimental station. Direct sunlight or the feeding of cod liver oil has little benefit unless a green feed is available at the same time and according to D. C. Kennard, in charge of the poultry investigations, a high quality alfalfa meal used as a part of the mash makes a very satisfactory solution of the green feed problem. He also finds that milk in some form serves very effectively as a partial substitute for green feed, and for this reason makes an important part of the ration for layers kept in confinement.

The greater use of feed mills and increasing acreage of alfalfa makes possible a widespread use of this choice feed the quality of which is assured when ground on the home farm according to the research department of the national association of farm equipment manufacturers.

Sausages made of whale meat and roasted grasshoppers sprinkled with crickets, were served at a dinner in Paris, France, recently.
