ARTESIA, NEW MEXICO, THURSDAY, SEPTEMBER 11, 1930.

SEPTEMBER 11, 1930.

NUMBER 39

The Advocate answers the demand for a constructive advertising medium in the middle valley.

REGISTRATION LIST IS TO BE ENLARGED BY A DIST. COURT ORDER

A petition will be filed in Eddy county district court by the 15th of this month, giving the voters who are not registered an opportunity to place their names on the county registration list, it was learned in a communication received from Ray Soladay, democratic county chairman Monday.

Voters who are not registered should secure a certificate properly signed, in order that their names can be presented to the court. Signed certificates may be given any member of the board of registration and should reach the county chairman not later than Sunday.

COTTON FORECAST IS PLACED AT 14,340,000 BALES IN LATE REPORT

WASHINGTON, D. C. — Cotton production this year as indicated by the condition of the crop September 1 was announced Monday by the department of agriculture to be 14,340,000 bales of 500 pound gross weight, as compared with 14,362,000 bales indicated a month ago, and 14,828,000 bales ginned in the 1929 crop.

The condition of the crop on September 1 was 53.2 per cent of a normal, compared with 62.2 on August 1 this year, 55.4 a year ago and 56.8 the September 1 ten year average, indicated a yield of 153.2 pounds per acre, compared with 155.3 pounds on August 1, 155.0 pounds last year and 155.1 pounds the ten year average.

The total abandonment of acreage after July 1 was placed at 2.2 per cent, leaving 44,791,000 acres for picking, on which acreage the department's estimate of the indicated total production was based. The area in cultivation July 1, was 45,815,000 acres and the average abandonment after that date for the ten years, 1920-29, was 3.5 per cent. The acreage to be picked, based on the average abandonment, used a month ago in computation of the August indicated production was 44,252,000 acres.

The drought apparently had little effect on the cotton crop, which was indicated Monday by the department of agriculture from conditions existing September 1, as being 14,340,000 bales, a reduction of 22,000 bales from the production indicated a month ago.

The indicated crop is 488,000 bales smaller than last year's and 688,000 bales less than the average crop of the last five years.

FUNERAL SERVICES OF MRS. E. CHANEY HELD AT METHODIST CHURCH

Funeral services for Mrs. E. C. Chaney, age 45, were held in the First Methodist church Sunday afternoon at 2:30 p. m. Rev. H. G. Scoggins, officiating. The Order of the Eastern Star took charge of the body at the grave side and conducted a short service. Burial was made in the Woodbine cemetery.

Mrs. Chaney died Friday evening at the St. Francis hospital in Carlsbad, after she had undergone an operation on September 1st. Her untimely going was a shock to friends and relatives, as early reports indicated that she had a good chance to recover. Mrs. Chaney was the wife of E. C. Chaney, employee of the Illinois Pipe Line Co. The Chaney family came here in January from Fort Worth, Texas.

A daughter-in-law, Mrs. Ed Chaney and son from Wink, Texas, attended the funeral. The deceased is survived by a husband and two sons, Harold and Paul.

TYPHOID IN STATE

The typhoid fever season appears to be at its height, according to a report from the state health department. Fifteen cases in the state were reported over the week end including four cases at Hope, all in one family. The most serious outbreak at Portales is said to be fly borne.

MRS. HARDIN'S FATHER DEAD

W. W. Hardin of Hope received a telegram, Tuesday morning containing the news of the death of his father-in-law, Charles Krueger at Childress, Texas. Mr. Krueger had reached his ninety-eighth birthday. Mrs. Hardin has been at the bedside of her father for some time.

THE REPUBLICANS MAY NAME COUNTY TICKET ON SEPTEMBER 20TH

Thirty-Two Delegates Chosen To Attend State Meeting—Halley Made County Chairman And Mrs. F. A. Linell Vice-Chairman.

The matter of naming a county ticket was deferred for one week at the Eddy county republican convention, which convened last Thursday. It was agreed to leave the naming of a county ticket up to the nominating committee, composed of four members to be appointed by the county chairman. R. L. Halley of Carlsbad, who has held the office of county chairman for a number of years was renominated for this place without opposition.

The meeting was called to order by Mr. Halley. D. I. Clowe of Artesia was selected as chairman of the convention and Oscar Dowling of Carlsbad was chosen as secretary. The chairman of the county central committee, R. L. Halley of Carlsbad and vice chairman, Mrs. F. A. Linell and secretary, Mrs. George O'Conner of Carlsbad were re-elected.

A resolution endorsing the administration of President Herbert Hoover, the protective tariff principle, the present state administration, and the action of Albert G. Simms in securing the Carlsbad Cavern National Monument and commending the efforts of Charles Springer, chairman of the highway commission was read and passed.

The name of W. F. McIlvain of Carlsbad was mentioned as a candidate for governor, but no official action was taken on the matter.

Thirty-two delegates were selected to attend the state convention. In selecting the delegates to the state convention, the chairman of each precinct named a committee to select the proportion of delegates assigned to that precinct. These names were then presented to J. U. Falke, representing the southern half of the county, and S. E. Ferree of Artesia, representing the northern half.

The thirty-two delegates who will go to the convention uninstructed, are as follows:

- Southern half—
- Carlsbad—R. L. Halley, Joseph Wertheim, J. U. Falke, W. F. McIlvain, Mrs. E. H. Hemenway, Mrs. George O'Conner, Leo Manning, Ben D. McGinnis, Oscar Dowling, A. W. Dallman.
 - Queen—Dan Harroun.
 - Otis—C. E. Ellsworth.
 - Loving—J. R. Ogden, Tom Calloway.
 - Malaga—J. L. Williams.
 - Lakewood—J. W. Dauron.
- Northern half—
- Artesia—A. C. Kimbrough, M. E. Baish, Mrs. Lillian Bigler, F. A. Manda, William Dooley, E. A. Hannah, Ed Carr, George Frisch, Chester Dexter, D. I. Clowe, S. E. Ferree.
 - Hope—Lee Glascock.
 - Cottonwood—A. D. Hill, Mrs. Oscar Pearson.
 - Dayton—J. B. Randolph.
 - Oil Field—P. V. Morris.
- It was said here this morning that Mr. Halley, county chairman had deferred naming the nominating to name the county ticket and that the committee would meet on September 20th.

COTTON CO-OP MAN TO DISCUSS MARKETING PLANS HERE TONIGHT

J. A. Hardy of Carlsbad, representative of the Southwestern Irrigated Cotton Growers Association of El Paso, will address all farmers, who may be interested in the marketing plan of the federal farm board. Mr. Hardy will explain the connection of the Southwestern Irrigated Cotton Association with the American Cooperative Association. The speaking will be held in the office of the Chamber of Commerce this evening at 7:30 p. m. Everybody invited.

I. O. O. F. TO MEET IN BIG ROOM OF CAVERNS

A unique program in the annals of Odd Fellowship is being arranged for the New Mexico and Pecos valley Odd Fellows at Carlsbad on October 15th. By special arrangement with the government, the Carlsbad degree team under the direction of Past Grand Master Bert Leck of Carlsbad will give an exemplification of the first degree in the big room of the Carlsbad Caverns on the above date. At least one hundred candidates are expected to be initiated on this occasion.

The local Odd Fellow lodge is making preparation to send a large delegation.

GLN BISH PROMOTED

Glen Bish, former oil scout of the Ohio Oil Co., has been promoted to the position of production superintendent and transferred to Hobbs, it was learned recently.

MISTAKING COAL OIL FOR GASOLINE COSTS MRS. CARRASCO'S LIFE

Woman's Clothing Ignited When She Attempts To Light Fire With Gasoline In A Wood Stove—Lives Until Monday Morning.

Mistaking gasoline for coal oil cost Mrs. George Carrasco, age 30, her life, when she attempted to light a fire in a wood cook stove Sunday afternoon, near 1:30. In the flash that followed, Mrs. Carrasco's clothing caught fire and she was badly burned about the chest and back. Her husband received painful burns on both hands when he attempted to extinguish the burning clothing, which were finally torn from Mrs. Carrasco's body.

Mrs. Carrasco was rushed here for medical aid. She lived until seven o'clock Monday morning. The Carrascos lived on the Woods farm, seven miles north of here in the Cottonwood community. The deceased is survived by a husband and three small children.

MRS. BROWN, PIONEER RESIDENT BURIED AT HAGERMAN SUNDAY

Artesia friends of Mrs. Milton Brown, age 78, will regret to learn of her death, which occurred at the home of one of her sons, Vedder Brown at Hagerman, Thursday evening, after an extended illness. Many of the old timers will remember Captain and Mrs. Brown, who lived here a number of years ago. Captain Brown, a confederate veteran died about twelve years ago from injuries received in the Galveston storm. He lived here for several years after being injured however.

All of the Brown children were present at the funeral of Mrs. Brown which was held Sunday afternoon, except her son, Frank Brown. Mrs. Brown is survived by five sons, and two daughters, Vedder Brown of Hagerman, Maner Brown of Lake Arthur, Milton Brown of Clovis, Frank Brown of El Paso, Charles E. Brown of Oklahoma City, Mrs. D. L. Looney of El Paso, Mrs. Gayle Talbot of Artesia.

MORE VALLEY CANDIDATES

Three additional receptive candidates from the Pecos Valley have indicated that they might accept places on the democratic ticket to be made at Santa Fe, September 18th, according to press reports. The prospective candidates are W. S. Day and D. P. Greiner of Roswell for state land commissioner and E. K. Neumann of Carlsbad for one of the two places on the supreme court bench.

FOURTH HAY CUTTING PRACTICALLY FINISHED

The fourth cutting of alfalfa hay has been practically finished. Farmers expect to harvest another light crop of hay before the close of the season. A good quantity of the 1930 hay has been stored on the farms. Owing to the drought condition, which has existed over a large portion of the eastern country, the demand for choice hay has been rather lively.

PICKING STARTED IN COTTON CONTEST — 16 ENTRIES IN FINALS

Interest is continuing in the more cotton per acre contest and is expected to get real lively toward the latter part of the picking season, as the contest closes. All of the plats have been surveyed and staked and most of them are about ready for the first picking. W. R. Hornbaker was the first contestant to start picking.

Sixteen tracts have been entered in the final stage of the contest.

BUYS CAR ALFALFA SEED

E. B. Bullock has recently purchased a car of alfalfa seed from the farmers on the Carlsbad project and the car has been brought here for reseedling. Mr. Bullock has contracted for the entire output of the project, it was said here yesterday morning. Much of the local seed crop has been harvested and is now being placed on the market.

WOODSTOCK TYPEWRITERS FOR SALE AT THE ADVOCATE.

N. M. OIL MEN'S ASS'N. HOLD AN EXECUTIVE SESSION HERE ON SAT.

The New Mexico Oil Men's Protective Association will hold an executive session here Saturday afternoon, it was announced the first of the week. The governing body of the association is composed of the executive and advisory committees, numbering thirty-three members. It is significant that Saturday's meeting is being held here just before the state conventions of the two major parties. It is believed that the association will ask the political parties to endorse some needed legislation affecting the state oil industry.

MAN ARRESTED UNDER HABITUAL CRIMINAL ACT IN CHAVES COUNTY JAIL

Charlie Chambers, alleged to have nine criminal convictions to his credit Thursday night was brought to the Chaves county jail at Roswell from Roosevelt county for safe keeping. Chambers was recently returned to Portales from the state prison at Santa Fe for re-trial under the habitual criminal act. According to official records Chambers has been arrested twenty-six separate times and has served time in twelve state and federal penitentiaries. Chambers had served a term of two and a half to three years in the state penitentiary on charge of robbery and was returned to Portales from Texas after a flight for his extradition.

Roswell officers say that Chambers has committed at least a dozen crimes for which he has never been apprehended. Information gathered by Roswell officers has Chambers credited with the following crimes:

- Highway robbery of a man at Clovis in which \$32.50 was secured;
- Robbery of Joyce-Pruit Company's store at Portales and J. C. Penney Company store; Robbery of Peoples Mercantile Company's store at Lovington and filling station at Elida;
- Theft of a new Chevrolet coupe at Artesia and robbery of gasoline warehouse in Artesia; Robbery of Santa Fe depot at Hagerman, robbery of a store in Hagerman and theft of a Ford car there which was driven to Roswell and abandoned;
- Robbery of Peoples Mercantile store at Carlsbad and theft of Chevrolet car; Robbery of J. C. Penney's store at Clovis and Carlsbad and a long list of other offenses.

TWO RAIDS THURSDAY NIGHT PROVE VERY POOR PICKINGS FOR ROBBERS

Burglars attempted to burglarize two Artesia business establishments Thursday night, but were not paid for their trouble. They tried to break into the Hartell filling station on First street, but were either scared away before they effected entrance or failed in their efforts to break in. The same men are believed to have broken into the Dr. Pepper plant, coming through a rear door. They broke open and looted the office safe, but found no money.

Two mercantile establishments at Hagerman and Dexter were also entered, on the same night, presumably by the same burglars. At Dexter the men took a large quantity of shoes from the B. Y. Miller store.

A description of the car the men were driving has been furnished officers in the adjoining counties, but so far as known, no trace of the men has been found.

DOLLAR DAY AT JOYCE-PRUIT CO.

Today, tomorrow and Saturday are dollar days at Joyce-Pruit Co., dry goods department and may attractive prices are being made on wearing apparel items and dry goods. Prices on new arrivals are below the pre-war level in many instances. See the page announcement of Joyce-Pruit Co., in this issue.

VALLEY ONE OF SIX WHITE SPOTS ON THE BUSINESS MAP

The Pecos valley was in the center of one of the six remaining white spots left on the map of business conditions shown in the September issue of Nations Business. There were only six spots remaining on the business conditions shown in the September map, and the Pecos valley was one of the six.

State Crop Improvement Association to Meet Here

Session Will Be Called October 7th—Nineteen Counties Represented—Program Will Cover Production Of Pure Seed.

The New Mexico Crop Improvement Association has issued a call for its 1930 annual meeting at Artesia, New Mexico, October 7, according to J. M. Sloan, president. A good program has been prepared, including discussions by prominent New Mexico farmers and experiment station workers, covering some of the principal phases of pure seed production.

A large delegation of seed growers and farmers is expected as there are now 17 counties represented in the state association and every agricultural area of any importance in the state has representation in the organization. These growers are producing tested and high yielding certified seed of every important field crop, under the supervision of the extension agronomist. The principal certified seed crops are cotton, alfalfa, wheat, corn, potatoes, sorghums, broomcorn and beans.

The New Mexico Association is a member of the International Crop Improvement Association and has a reputation of producing some of the best certified seed in the United States. It has developed a program that reaches every section of the state and the seed is noted for its freedom from diseases and weed seed, and for its adaptability to a large range of conditions. The seed produced in New Mexico last year was planted in 24 different states and Mexico during 1930 and whenever such seed has been adapted, new orders are coming in for the 1930 crop.

NIGHT BASEBALL GAME

A night baseball game is a prospect for Artesia during the month of October, according to Howell Gage, business manager of the Artesia Oilers. Negotiations are underway to bring a ball team here, with their own special lighting equipment.

The Oilers lost the last day game of the season to the Carlsbad Cavemen, Sunday by a score of 15-6.

ODD FELLOWS TO LOVINGTON

Ten Odd Fellows, journeyed to Lovington last night to assist in reorganizing the Lovington Odd Fellow lodge and to put on the first degree. Among the local lodge members making the trip were: Will Crockett, E. A. Hannah, Abe Conner, Ed Conner, Ward Cave, Ed Stone, E. C. Gray, D. N. Gray, T. E. Hinshaw, Jack Hastie.

RECORD ENROLLMENT AT LAKE ARTHUR SCHOOL

The enrollment at the Lake Arthur school has exceeded all expectations according to Superintendent Bernard and is one of the largest in the history of the school. Fifty-eight pupils have been enrolled in the high school and 170 in the grade school. A commercial teacher will be added to the high school faculty.

MASONIC MEETING TONIGHT

Regular meeting of the Artesia Masonic lodge this evening at 7:30 p. m. Third degree will be conferred. Visitors welcome.

MRS. LIVINGSTON IS BADLY BURNED IN A GASOLINE FIRE FRIDAY

Mrs. Morrison Livingston, resident of the Tyler addition suffered severe burns about her left arm and leg Friday morning, while she was washing some clothing with gasoline. The clothing was placed in a container on a gas stove and the gasoline is said to have ignited from the pilot light. Mrs. Livingston attempted to carry the burning vessel from the house, but slipped and fell in the flames. Her clothing caught fire and she suffered painful burns about the body as result. The fire department was called out and were able to extinguish the flames with little or no damage to the dwelling occupied by Mr. and Mrs. Livingston.

NOTICES OF COMMISSIONERS COURT OF
EDDY COUNTY

IN THE WRONG STATE

Robert H. LaFollette of Albuquerque, democratic
candidate for congress spoke here Saturday in the in-
terest of his candidacy. Mr. LaFollette, who may wonder
where his nomination went after the democratic
convention September 18th, seems to cling to the so-
cialistic tendencies of his famous name sake in Wis-
consin. He would overstep the law of supply and
demand and have a government regulation of man-
ufactured products, since we need a few more federal
bureaus. He would stop capital punishment because
he has seen a picture of a man dying in an electric
chair in a New York newspaper. He would give the
United States some real diplomats instead of the so-
called peanut politicians and thus win back friendship
for the United States in some foreign countries. He
would put light wines and beers back on the shelves
and thus do away with the prohibition problem.

His speech here might sound good to Wisconsin
voters, but has no appeal to the voters of New Mexico.

COMING BACK

The once popular crop of the valley, alfalfa, is
coming into favor again because of the price of hay.
Several hundred acres that were plowed up and plant-
ed in cotton during the past few years will again go
back to alfalfa shortly. Perhaps alfalfa hay will be
around nine or ten dollars a ton by the time the new
crop is ready to harvest another year, who knows?

The point at issue isn't that alfalfa is a better crop
for the Pecos valley, even though the farmers can grow
some of the best hay in the world here. The main
point is that a good many are learning that it does
not pay to put all of their eggs in one basket. After
all is said and done low price cotton may be a blessing
instead of a misfortune.

Carl Panzani, self-confessed slayer of twenty-two
persons, has paid the supreme penalty. He was hang-
ed the other day at Leavenworth, Kansas, the first
legal execution in Kansas since 1870. Panzani es-
tablished a record almost equal to Billy the Kid.

INDIFFERENCE

Shortly, we shall hear how the politicians propose
to save the country. Frequency of these proposals has
made the common herd more or less indifferent. A
good percentage of the people now-a-days take little
or no interest in a political campaign unless they
happen to have a friend in the race. They are willing
to let special interests dictate the legislative policies
and give no thought to the various political proposals,
unless they are directly involved.

Political blunders have followed this indifferent
attitude on the part of the average citizen. Most any
politician is willing to advocate the thing that will
get the vote of a special class, if he knows there will
be no opposition to the proposal. It may involve the
expenditure of millions of dollars. It may a proposal
to extend further tax exemptions to organizations or
individuals. It may advocate the creation of more bu-
reaus. Mr. Average citizen may manifest a passing
interest in some pending bill or plan of the legisla-
ture, but he isn't interested sufficiently to make an ef-
fort to find out what it is all about.

After it is all over he may show enough energy
to wonder why the taxes have been raised, but the mat-
ter stops with this.

FARM RELIEF WITH THE FARMER

Local farmers do not appear to endorse the idea
of the federal farm relief plan, or rather they don't un-
derstand it. On the face of the proposition it looks
very much like the federal farm board isn't going to
be much of a factor in aiding the cotton grower this
year. Growers are just a little leary of the plan ad-
vanced by the board to sell to the cooperatives; they
don't know when or how it is to be sold; they fear
that should they agree to turn their cotton over to the
coops, which they have to do, the market may go to
20 cents and the cotton be sold at nine cents. It is
the uncertainty of the plan that has created more or
less dissatisfaction, for it places the grower in a position
that he has nothing to say about when his crop
shall be sold, unless he accepts the marginal pool,
in which there is more or less risk.

Before the federal farm board can hope to accom-
plish its full purpose, it must work out the details
relative to its marketing facilities and be able to ex-
plain them in such a way that all can understand,
thus removing any distrust that may exist in the minds
of the growers.

If a different plan is to be adopted, the sooner the
better for the success of the enterprise.

COST OF PROHIBITION

Prohibition enforcement is costing the country
approximately six cents per capita, per year, it has been
announced in an official statement, says the Roswell
Record. The cost in the district of which New Mexico
is a part come to ten cents, probably higher because
of the sparse population and large areas to be covered.
Not a very heavy cost per capita considering the bene-
fits achieved.

TWO MORE WEEKS TO REGISTER

Another joker passed by the 1929 state legisla-
ture has apparently been found in the registration law.
Instead of closing the period of registration on August
25th, the error in changing the wording of the 1927
law has left a period of two more weeks open in which
a voter may register. At least this is the interpretation
of the disputed section, which has been made by some
leading attorneys.

Citizens of a town not far away have protested the
action of a hypnotist in using a waitress as a subject.
Strange as it may seem little or nothing was said over
the way the Hoover democrats were treated two years
ago.

There is one thing for which the democrats must
be accorded due credit—at the efficient management
of their soup houses, they are past masters. The re-
publicans are poor imitators.—Springer Tribune.

Yes, but it isn't Mr. Hoover's fault.

INSIDE INFORMATION

Paint and varnish spatters on
glass may be dissolved with tur-
pentine or alcohol, or rubbed off
with a dull knife.

Chocolate that appears white on
the outside has been kept in an
overwarm place, so that some of the
fat has melted and has come to the
surface. This does not injure it for
use.

An imperfect seal, or lack of
sterilization will cause catsup to
spoil. Bottles should be sterilized,
and filled while they are boiling hot
with boiling catsup, and then pro-
cessed in the water-bath canner for
30 minutes.

Many vegetable combinations are
good when you do not have enough of
any one vegetable to go around.
Carrots and peas in equal quan-
tities; string beans and carrots;
celery and turnips; rutabaga and po-
tato; tomato and onion, or tomato
and okra; corn, string beans, onions;
beets and peas; blends of different
greens.

HOBBS SCHOOL ROW SETTLED

LOVINGTON—Judge G. A. Rich-
ardson denied the injunction sought
by A. C. Chester of New Hobbs
against the issuance of \$250,000 in
certificates of indebtedness author-
ized by the state for raising school
building funds at Hobbs.

The controversy was then settled
out of court late Monday to the
satisfaction of both parties.

J. A. Chapman of Santa Fe, at-
torney for the defendants, announced
the settlement was made on the
basis of New Hobbs receiving \$75,000
of the \$250,000. Hobbs will re-
ceive the remainder.

Master—What's all that scuffling
going on in the kitchen, Mary?

Mary—Well—er—sir, I'm sorry,
sir, but the policeman tried to kiss
me.

Master—Oh, I see. You forcibly
objected.

Mary—Er—no, sir. The postman
did.

Attention Cotton Farmers

Your Cotton Sample is an im-
portant factor in choosing your gin

In the long run the sample of your cot-
ton will be even more important than a big turnout. En-
deavor to give our customers as large a sample as
possible consistent with the high grade.

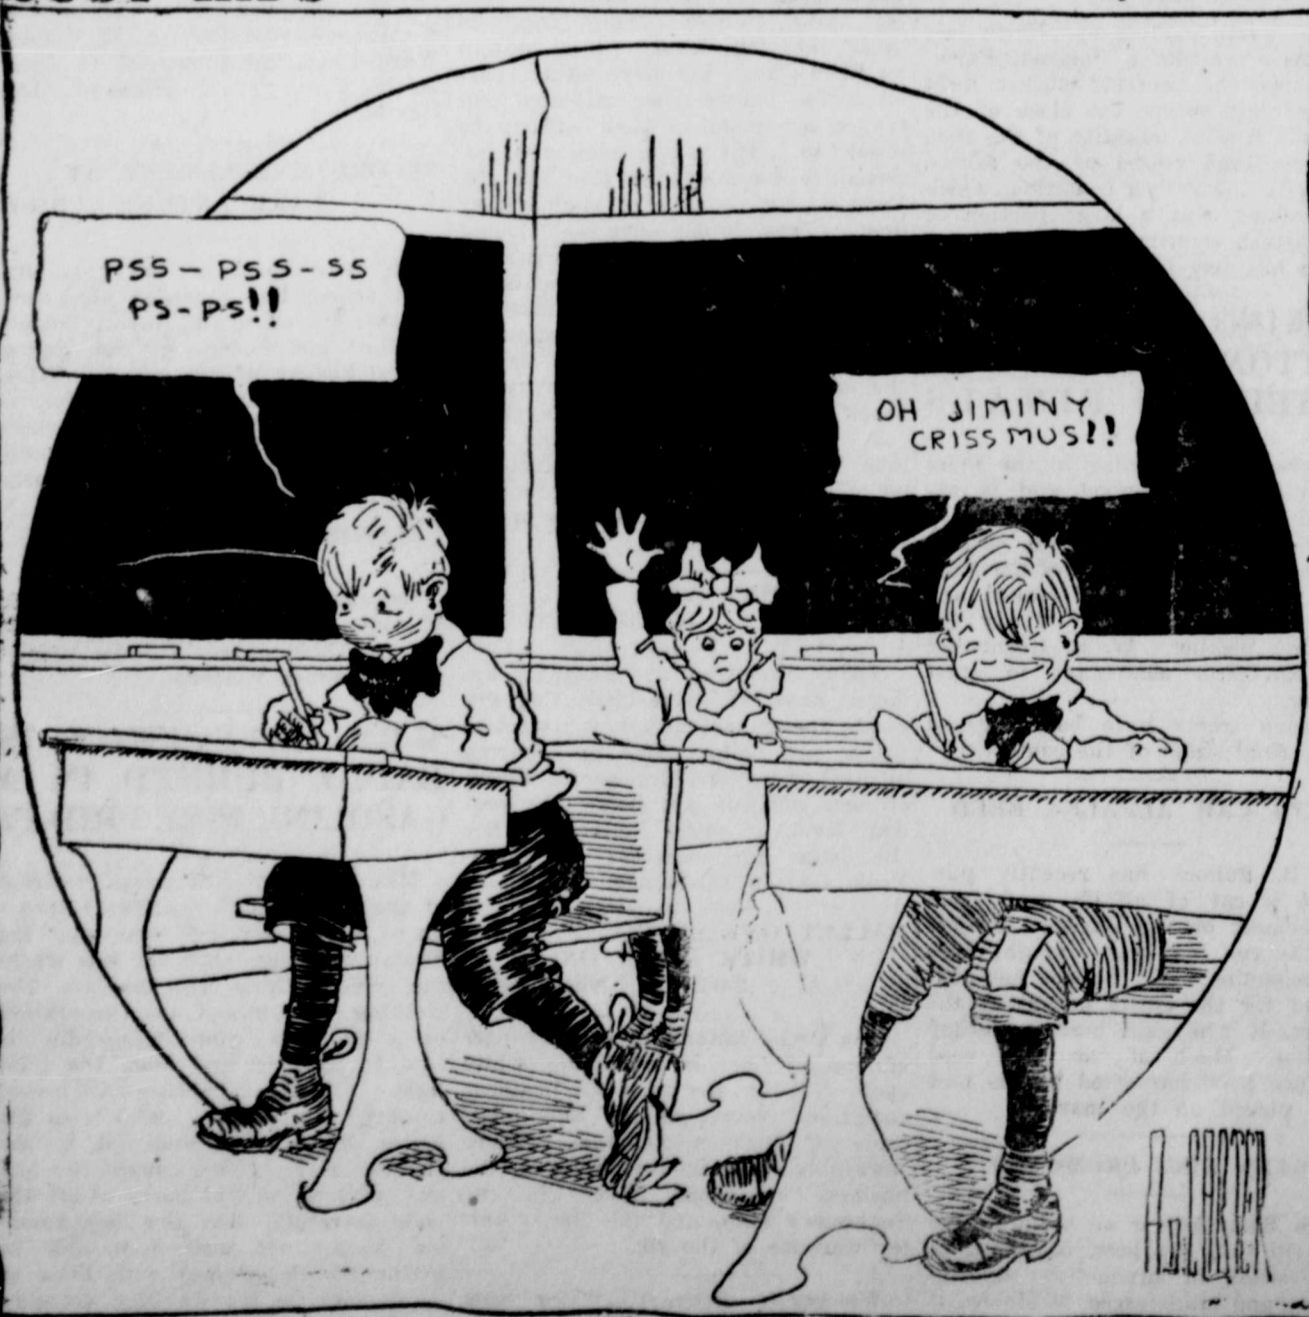

Read what the New Mexico A. & M. Journal, No. 181, issued March, 1930 has to say about
ginning:

The ginning of the cotton is ordinarily
in the hands of the cotton grower, but there is a
considerable tendency on the part of many
to demand of the ginner a high turnout or high
percentage. The ginner is nearly always
do high-class ginning if the farmers ask for
likewise they will also quite often give a high
out, which is usually accompanied by poor
if the farmers asks for this. A high turnout
very means that considerable percentage of
very short fibers and dirt and trash go
cotton bale, which must eventually be
from the good cotton by the spinners; this
not only does the individual farmer lose,
practice, but a whole community may lose
of the lack of foresight of a few farmers.
been shown many times that good ginning
ably brings a higher grade of cotton and, thus,
a better price. Likewise, a farmer can
expect to be penalized for poor ginning. It
be understood that the ginner is not always
sible for poor ginning, but it is quite largely
his desire to give the farmer what he
ginner can be expected, furthermore, to give
results if cotton is wet or otherwise in po-
condition for ginning.

LOCALS

Carl Gordon was a Roswell visitor Monday.

Dr. and Mrs. Swearingen of Roswell were visiting here over the week end.

P. G. Peters of Capitan was attending to business matters here Friday.

Attorney J. H. Jackson was attending to legal business in Carlsbad Monday.

Mr. and Mrs. W. H. Eaves of Pinon were visiting in Artesia over the week end.

A marriage license was issued to Florene Harbison and Maurice Rogers of Artesia in Roswell Saturday.

Mr. and Mrs. C. J. Dexter, returned Sunday evening from an extended visit to Los Angeles, California.

Lum Richards, of Torrance, is here visiting his brothers, Joe, John and Albert, and families for a couple of weeks.

Mrs. Russ Stockard, of Wink, was here the last of the week visiting friends here and at Hope. She left for home Tuesday.

Miss Alwyne Harris left yesterday for her home at Abilene, Texas, after a month's visit to her sister, Mrs. Walter Martin.

Wilton Tarbet left Tuesday morning to continue his studies in the School of Mines, at Socorro, where he was a student last year.

Mr. and Mrs. Fred Spencer of El Paso, Texas spent a few days here the past week visiting friends and attending to business matters.

Mrs. Dalton Wilson returned last Saturday to her home at Tucumcari after a week's visit to her husband's parents, Mr. and Mrs. B. D. Wilson, and other friends.

Mrs. Eugene Moots and two children of Chicago, Illinois arrived last week for a visit with her mother-in-law, Mrs. B. C. Moots and Mrs. Moss Spence and family.

George Threlkeld, former Artesia resident has been named vice-president of the New Mexico Harvard University club, according to an announcement made recently in Roswell.

Mrs. E. N. Bigler and Miss Ruth Bigler left Tuesday morning for Albuquerque, where Miss Ruth enters the State University. Mrs. Bigler is visiting her mother, Mrs. Edward Spitz.

S. A. Lanning was down from Roswell Monday looking for a house as Mr. and Mrs. Lanning wish to move back to Artesia to be near their children, but desirable houses are hard to find.

Mrs. A. W. Black and son, Howard of Bridgeport, Texas, also Mrs. Black's daughter, Mrs. Smisson of Atlanta, Georgia, were here last week visiting the family of Mrs. H. A. Denton, who is a sister of Mrs. Black.

Mrs. R. V. Young and Mrs. Philip Krantz were here from Roswell last Thursday visiting at the home of Mrs. J. C. Floore, mother of Mrs. Krantz. Mrs. Young also visited other old friends and neighbors while in town.

Mr. and Mrs. Sion Edgerton and brother, Arthur Lee Edgerton left last week for Temple, Texas, where Mr. and Mrs. Edgerton will go thru the clinic. They expect to visit relatives at Dallas, Texas before returning home.

Mr. and Mrs. Landis Feather and children drove up to the mountains near Cloudford, Sunday, for an outing and also spent some time with Mr. and Mrs. Boyd Williams, on their ranch, near Elk. Agnes Ann Williams, who is attending high school in Artesia, drove up to her home with the "Feathers" for the day.

Mrs. S. W. Miller and Mr. and Mrs. Robert Miller and small son, Ray Lee, who had been visiting Mrs. Robert Miller's sister, Mrs. Jim Vogel, and family, the Misses Mary and Ella Bauslin and other friends, left last week for a final visit with relatives at Roswell before returning to their homes at Wilmington, California. They visited the Carlsbad Cavern while here.

Miss Mary Sands came in from Las Vegas last Friday and was a guest of Mrs. R. L. Paris until Monday morning, when she left for Denton, Texas. Miss Sands, who was instructor of English in the Artesia high school a few years ago, has made steady progress in her profession. For the last year or so she had the chair of English in a college in Montana and now has gone to Denton to take the chair of dramatic art and public speaking in the College of Industrial Arts at that place.

THE CHURCHES

CHRISTIAN SCIENCE SOCIETY
613 W. Main Street

Sunday services at 11:00 a. m.
Wednesday services at 7:30 p. m.
Subject of the Bible lesson for Sunday, September 14, 1930 is, "Substance."

In this lesson the following scriptural selection is found: "If we hope for that we see not, then do we with patience wait for it." (Rom 8:25).

Also the following citation from Science and Health with Key to the Scriptures, by Mary Baker Eddy, 43: "The science Jesus taught and lived most triumph over all material beliefs about life, substance and intelligence, and the multitudinous errors growing from such beliefs."
Visitors always welcome.

METHODIST EPISCOPAL
CHURCH SOUTH
Rev. Harold G. Scoggins

"The large church with a warm welcome and a helpful gospel."
9:45 a. m. Sunday school. George Frisch superintendent. A consecrated and well trained corps of teachers for children, youths and adults.

Sermon theme, "Prayer and Life." Epworth Senior and Junior Leagues at 6:30 p. m., in their respective rooms.

Evening worship at 7:30 p. m. Sermon theme, "O Temperes O Meres."

Splendid congregations are attending these services and everyone who is not accustomed to attend services of worship at other churches is given a hearty and a cordial invitation to attend these services with assurance that a warm welcome awaits them.

FIRST PRESBYTERIAN CHURCH
Fourth and Grand
Rev. John P. Sinclair, Pastor
Phone 249.

Sunday, September 14, 1930.
9:55 a. m. Sabbath school.
11:00 a. m. Morning worship.
Sermon subject, "Completing the Sufferings of Christ." What work of Christ is as yet unfinished? Can we help Christ in His work of saving the world?

6:15 p. m., Orchestra rehearsal.
6:45 p. m. Christian Endeavor, Junior and Intermediate groups.
7:30 p. m. Popular people's service. Special music by the church orchestra and anthem by junior choir. Sermon subject, "A Woman of Great Faith." What prayer can do if we but lay hold upon God.

Wednesday, 7:30 p. m. Praise Prayer and Bible study.

The church needs you, but you need the church more. The church of Christ has never failed from neglect of men, but many a man has failed from neglect of the church. Too many people think they are conferring a boon upon the Almighty by worshipping in His house. The truth is that we can give nothing to Him, but that all we have of worthwhile value comes from God.

FIRST CHRISTIAN CHURCH
6th and Quay Streets
Ralph Waldo Emerson, Pastor

9:45 a. m. Bible school. C. O. Brown superintendent.
11:00 a. m. morning worship. Sermon by Evangelist Will J. Wright.
7:30 p. m. sermon by Will J. Wright.
Evangelistic services each evening at 7:30 p. m.

ASSEMBLY OF GOD CHURCH
2 Blocks North of Post Office
Rev. A. Davis, Pastor.

10:00 a. m. Sunday school.
11:00 a. m. morning worship.
6:45 p. m. Christ's Ambassadors.
6:45 p. m. Bible study for adults.
8:00 p. m. evening worship.
Tuesday evening, prayer meeting.
Friday evening young people's services.

Everyone welcome, we invite you to come and worship with us.

FOR SPORTS WRITERS

The twirler had as many curves as Ziegfeld's chorus.

The game was tighter than a pull-man car window.

The second baseman couldn't catch a cold in Siberia.

The stands were as crowded as a sophomore's runabout.

The umpire was blinder than an earthworm in a London fog.

The runner was as safe as a quart of grape juice at a college prom.

Whoosis lifted a fly that was higher than a diamond necklace at Tiffany's.

The home team got more runs than a pair of silk stockings in a bramble patch.—Judge.

THE WORLD OVER

Ball playing was popular in Egypt 4,000 years ago.

Kissing a woman is considered a great insult in Finland.

Italy's population is growing at the rate of 400,000 a year.

A gold German mark is worth about 24 cents in United States money.

The end of colonization, it is estimated, will be reached in about 200 years.

The opium poppy first became known among the Greeks and the Romans.

Sound in wood travels 10,000 feet a second; in water it travels only 4,708 feet a second.

Grand Falls, in Labrador, is said to be the highest waterfall in the world. It is 2,000 feet high.

"Daddy Longlegs" spiders are harmless in the house, because they do not touch human beings or food.

One dollar, invested for 100 years at 6 per cent, compounded, will earn more than \$338, while at 3 per cent it would earn only a little more than \$19.

WISE OR OTHERWISE

Some women are as flighty as some men are cranky.

All the world's a stage, but some prefer automobiles.

A charitable man never has to look for an opportunity to get busy.

The average man is usually polite when he has something to sell.

Old bachelors are men who never gave marriage a serious thought.

There is probably nothing more unlike a battle than a picture of one.

It's better for a man to do a little kicking than to become a human football.

Any man who tries to dodge his taxes has no business to hanker after fame.

After making a strenuous effort to get out of a rut a man finds himself in a hole.

A nearsighted man has a good excuse for not recognizing his creditors when he happens to meet them.—Grit.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.

Always Drowsy---

Tired, overworked strained eyes make you feel that way, because they really are tired and need assistance.

Properly fitted glasses relieve that condition—serve as a tonic to the entire nervous system. Attention to this is not only wise—it is a duty.

Be sure to see a Registered Optometrist.

We are registered optometrists.

A Boomerang for Judy

By FRIEDA J. MONGER

(Copyright.)

"JUDY, you've got to keep your nose out of other people's affairs!" shouted Larry. "It's nobody's business if Mrs. Lampson's chauffeur has got a face like the villain's on page sixty-eight of your idiotic claptrap book on Analyzing Character! Good grief, Judy, do you realize that Mrs. Lampson discharged that man on your say-so? A man with five children to feed!"

Judith stared in horrified silence at the blond young giant that it had seemed so easy to promise to love and cherish only a month ago. So this was the real Larry.

"But Judy," continued, Larry, "don't you realize that what you call a hobby is really malicious interference and—"

"And I intend to go right on with it—as an art."

That was only the beginning. When Larry, having scorned breakfast, jerked into his overcoat and grabbed his hat, Judith was throwing things into a suitcase. The door closed loudly. Before Judith had time to run to the window to see if Larry really had gone, he was back again, pulling a bill-fold from his pocket. Placing a hundred-dollar bill on the dressing table, he snapped, "Write for more when you need it."

With feverish indecision Judith watched the approaching train come to a stop. Once more she raced to the end of the platform to make absolutely sure that Larry wasn't coming. The brake had picked up the little stool and swung his arm outward, before Judith ceased wavering and climbed aboard.

She dropped into the first empty seat, which was opposite a plain young woman too absorbed in a thick book even to look up. For which Judith was thankful, for she found herself quaking outwardly and wishing with absurd fervor that she were back in the bungalow.

Larry. Resentment against him flared up anew within her. He thought he could dominate her life, choose her hobbies for her, tell her what she could do and what she could not do! No; that sort of thing killed love, and she wanted to keep on loving Larry. Stoically she pushed aside further thoughts of him and began to study the woman opposite. Not the intellectual type, Judith decided, despite the fact that she was seemingly absorbed in a serious-looking volume from which she never raised her eyes. She reminded Judith of a cat—her movements though quick were stealthy.

The fingers interested Judith. She knew a thing or two about hands. These weren't the hands of an artist—they had the sinuous strength, the quiet nerve, the sensitiveness that were to be found in the hands of clever crooks. They might actually have posed for the illustration on page twenty-nine of Analyzing Character. She could see these hands caressing the combination lock of a safe. The thought made her clutch her purse more tightly, and set her to dreaming of ways in which to spend the hundred-dollar bill.

Her day dreams were shattered by a scream from the far end of the coach. Judith jumped to her feet and, with others, hurried down the aisle. They found a frantic mother dabbling at a gash on the forehead of a child. A moment later the hysterical mother was again calm, the child crying softly.

When Judith returned, the woman was still bent over her book, unconscious, seemingly, of the incident that had just occurred. As Judith was about to sit down, she gave an involuntary gasp—in her excitement she had left her purse lying on the seat! She picked it up, opened it quickly. Her heart seemed to leap from its accustomed place and lodge itself in her throat. Frantically she dove about in the recesses of the purse. The hundred-dollar bill was gone!

What should she do? Accuse the woman, point blank? Demand the return of her hundred-dollar bill? Call the conductor? As if in answer to her thoughts, the woman rose and hastened down the aisle to the ladies' wash room. And in her hurry she had, like Judith, left her purse on the seat.

Without a moment's hesitation Judith reached over and snatched up the small brown bag—opened it. Her heart plunked back into place: the hundred-dollar bill was there! Quickly she pulled it out, tucked it into her own purse, replacing the brown bag in the position she found it.

At two o'clock Judith pressed the doorbell of Aunt Claire's apartment, and Aunt Claire, dressed to go out, opened the door. Her greeting was matter-of-fact. "Hello, Judy. When I knew you were coming it was too late to cancel my afternoon engagement but—"

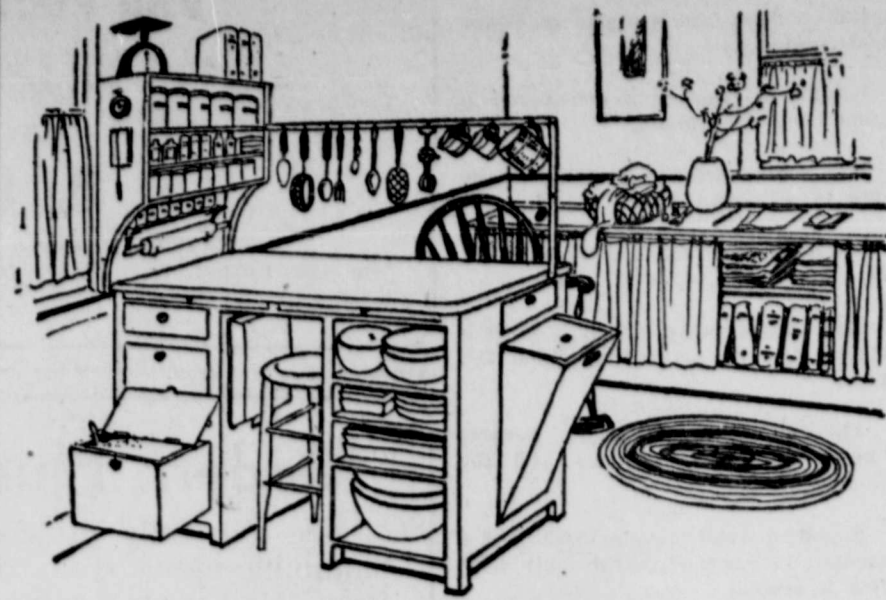

"You knew, Aunt Claire?"

"Yes, you have a message from Larry. I'll have to hurry along now, but make yourself at home. I won't be late."

Judy tore open Larry's message: "Judy, darling, measure people's chins and noses with a ruler if you like, but come back. Leaving the hundred dollars on your dressing table and all the doors open was a grand gesture, and I love you for it. Life is nothing without you, Judy."

When Aunt Claire returned, there was no sign of Judith, but in the waste basket lay a well-thumbed copy of Analyzing Character.

BETTER GROUPING OF KITCHEN EQUIPMENT

Rest Corner in a Large Kitchen.

(Prepared by the United States Department of Agriculture.)

The large old-fashioned kitchen had its merits in spite of the unnecessary distances often walked by the housekeeper in doing her work. Better grouping of the equipment into more compact work centers often eliminates most of this objection to the large kitchen, and its advantages as a spacious light, warm, comfortable room for several family activities remain.

The modern bungalow dispenses with an extra eating room, frequently, by having a "breakfast nook" or "dining-alcove." The large farm kitchen often provides for serving the everyday meals in one of its corners, reserving the formal dining room for special occasions. The kitchen is preferred not only because it is warmer and meals may be served more quickly there, but because men coming in from out-of-doors jobs feel that their working garments are out of place at meals in more formal surroundings. Fuel, too, as well as time and effort, may be saved by keeping only the kitchen at maximum temperature.

Another corner of the farm kitchen is sometimes arranged so that the younger children can play under their mother's watchful eye while she attends to her housework. Shelves or cupboards are built for storing play-

things, a low table and chairs of corresponding size are provided, and the care of the children is easy.

Or perhaps instead of a corner for the children there is a special part of the large kitchen reserved for a rest corner for the homemaker. Here she can sit down in comfort during those brief intervals in her schedule when something that is cooking must be watched, or when a neighbor runs in for a morning chat, or when she wishes to write up her household accounts. Some of these intervals can be devoted to the darning basket if it is kept handy, or to the housewife's "trade journals"—the woman's magazines.

The sketch by the bureau of home economics of the United States Department of Agriculture shows how one such rest corner was arranged. A worktable marked its boundary line, and on the farther wall below the window shelves were put up for the cookbooks, magazines, sewing materials, order pad, and account book. Washable curtains were used to screen the shelves, and a washable rag rug was placed near the inviting rocker. A kitchen cabinet might have been set in the same position as the worktable, and shelves or pockets arranged on the back if it for sewing materials or for magazines.

LOCALS

Homer Dunagan was in town from Roswell Tuesday.

Mrs. Georgie Hedgepeth was a Roswell visitor Monday.

Miss Bertha Richards left last week for Tucumcari, where she will teach this year.

D. E. Bryant of Las Cruces, former resident is visiting here for a few days this week.

Miss Louise Hamilton arrived from California Sunday for a visit with her brother, Gail Hamilton, and family.

Judge Ferree and Arba Green were in Carlsbad yesterday afternoon on business. Mrs. Ferree and Mrs. Green accompanied them.

W. D. Emery of Casper, Wyoming, chief geologist for the Ohio Oil Co., is spending a few days here attending to company matters.

Mrs. Alice Coulter, who has been visiting her daughter and family, at Lovington, has returned and is the guest of her sister, Mrs. R. O. Cowan.

Mr. and Mrs. Smallwood and two sons were here several days during the past week from Las Cruces visiting Mr. and Mrs. C. R. Vandagriff.

Noak Buck, Artesia and W. H. Abernathy, Paducah, Texas, are to operate a real estate and insurance office at 108 North Main street.—Monday's Roswell Dispatch.

Mrs. Howard Williams and her mother, Mrs. Cudd left yesterday morning for Borger, Texas, being called by the serious illness of Mrs. Williams sister, Mrs. O. E. Cheneworth.

Mrs. Luvena Beck returned Tuesday from a week end visit with her brothers, Jim and Marvin Jackson and families on their ranches near Mayhill. She brought her little niece Jennie Ruth, daughter of Jim Jackson, home with her for a visit.

COTTONWOOD ITEMS

(Miss Alma Bradley, Reporter)

Miss Ethel Drenin who has been at the home of her parents, Mr. and Mrs. Drenin, left Tuesday for Texas.

Mr. and Mrs. John Norris and Miss Alice were visitors at the home of Mr. and Mrs. Rowland at Artesia Sunday.

Mr. and Mrs. Frank Wilson motored to Plainview, Texas Saturday, with their daughter, Miss Mae, who enrolled in the Wayland College.

Prof. J. J. Gist and family a former teacher at Upper Cottonwood left last week for Carlsbad, where he will teach in a school near the Caverns.

Typewriters for sale or rent—The Advocate.

The Upper Cottonwood community constructed a very nice building of two rooms as a teacherage. Miss Williams and Mrs. Perry will occupy the new building.

Mervin and Orville Worley entertained quite a number of their friends with a dance Saturday night. After dancing for some time refreshments were served by the hostess Mrs. H. B. Worley.

Walter Corbett and wife who is president of the Graham National Bank of Graham, Texas were guests at the W. H. Rambo home Saturday and Sunday. Mr. Corbett is a relative of the Norton family, former residents of this community.

The Cottonwood Woman's club held its regular meeting at the home of Mrs. Monroe Howard last Thursday. After the business meeting a very interesting canning demonstration was given by W. A. Wunsch, county demonstration agent. Later a very pretty quilt with all the club members names on it was presented to Mrs. W. H. Rambo as a birthday remembrance.

IMMIGRATION TO BE RESTRICTED TO AID THE LABOR SITUATION

WASHINGTON, D. C. — Further restrictions upon immigration to prevent increased unemployment will be imposed by the state department at the direction of President Hoover.

The chief executive announced yesterday American consular officers in Europe will examine future applicants for immigration visas with a view to rejecting all who might become public charges and add volume to those already out of work in this country.

In adopting this course Mr. Hoover said it would be similar to restrictions placed upon Mexican and Canadian within the last 15 months.

The state department informed the president it had become apparent in March, 1929, that many seeking entrance from Mexico were laborers who ran a risk of becoming public charges, and consequently, the restrictive policy was adopted. Labor immigration from that country, has now practically ceased, the department added, and similar steps have brought a considerable falling off in Canadian immigration.

Mexican immigration had dropped in July to 324 persons. Last year, 6,280 persons came from that country.

Patient—"Doc, why does a small cavity feel so large to your tongue?"
Doc—"Oh, just the natural tendency of your tongue to exaggerate."

SAYS THE OWL

Don't stay up all night because you can't learn it all in one day.

A woman is somewhat of a fast express—unless she is tongue-tied.

The woman who has a poor figure may have ways of making up for it.

When some women attempt to put on style it looks more like a takeoff.

Typewriters for rent at Advocate.

Doctor—Well, my dear, you certainly have acute appendicitis.
Patient—Oh, doctor, don't flatter me so.

Bum—This big Italian fighter has to have a bed over seven feet long.
Mug—Say, that's a lot of bunk.

Him—"Pardon me, like Helen Black?"
Her—"Yeah? But in white."

"Is your baby a?"
"Of course, what else?"

FACULTY RECEPTION

The reception to the school faculty at the Methodist church last Monday evening was an auspicious beginning to the school year. The Council of Churches, realizing the importance of cooperation between the churches and the schools, sponsored the reception, as it has for several years past. Rev. Sinclair, of the Presbyterian church and president of the council, was master of ceremonies, and Rev. Henry, pastor of the Nazarine church, was chosen to give the address of welcome. Rev. Henry was very happy in his remarks and incited a spirit of good-fellowship which made the occasion a very pleasant one. In the course of his talk he introduced the different pastors with sundry complimentary remarks. Prof. Kerr, superintendent of school, although taken unaware, was equal to the occasion and following the lead of Mr. Henry, introduced all of the thirty-two individuals of his faculty with the wives and husbands of married members. The Rev. Guy Green, who had just completed an evangelistic meeting here, gave a few apt remarks, which were enthusiastically received, upon the responsibility of parents, church and schools to childhood and the state.

The music on this occasion was of a high order. Miss Katherine Ragsdale gave a soprano solo to the accompaniment of Mrs. Willis Morgan. Miss Doris Deter, new violinist with the Harp orchestra, appeared in a new role and proved without a question that she can sing as well as play. Miss Deter, who is a native of Brazil, sang one number as an encore, in her native tongue, Portuguese. Mrs. Harp was her accompanist. The Harp orchestra, added much to the evening's program with its excellent music, directed by Prof. Harp.

An entertainment committee, composed of ladies from the different churches, served light refreshments, while a social hour was in progress. The commodious church, a convenient place for the purpose, was profusely decorated with garden flowers for this notable gathering.

LEGION TO GIVE BENEFIT DANCE FRIDAY NIGHT

The American Legion has arranged to give a benefit dance at the Silver Moon dance pavilion, tomorrow night. Music will be furnished by Gus Lemp's orchestra. The Legion is offering three prizes on this occasion, \$10.00 cash will be presented to the best lady dancer; \$10.00 in cash for the most beautiful lady dancer on the floor and \$5.00 in cash for the ugliest man at the dance. Immediately after the dance a midnight frolic will be given at the Majestic theatre.

SURPRISE SHOWER GIVEN CHARMING FALL BRIDE

A surprise shower of bath towels was given last night, complimentary to Miss Mary Margaret Tigner, who is to be an October bride, by Mrs. Niel Watson. The tallies, bon bon and ice all carried out in the pink and white color scheme of the evening. The bride was enjoyed by the Misses Mary Margaret Tigner, Lucille Cruse, Elizabeth Tigner, Margaret Talmadge, Xymena Trout, Lorene Johnson, Dorothy Williams and Marie Beers.—Saturday's Roswell Dispatch.

THE FIRST BRIDGE CLUB

The First Bridge club enjoyed an outing at the ranch home of Mrs. G. R. Brainard at its regular meeting Tuesday, at which time refreshments were served in two courses. Guests and substitutes were Mesdames Dexter, Charles Brown, of Oklahoma City, Edson Jones of Waukegon, Illinois, Hartell and Rowan.

Mrs. Charles Kirkpatrick, daughter and son-in-law, Mr. and Mrs. H. H. McLaren and baby and Miss Vida McLaren, who have been visiting Mrs. Kirkpatrick's sister, Mrs. Will Benson, and Mr. Benson, departed Sunday for their home at Dallas, Texas. Last week Mr. and Mrs. Benson accompanied their guests on a trip to Cloudcroft, Ruidoso and old Lincoln.

CARD OF THANKS

We wish to thank our many friends and neighbors for their kindness during the illness and death of our husband and father, and for the many flowers.

Mrs. S. L. Roberson, Mr. and Mrs. Julius Roberson, Mr. and Mrs. Clyde Roberson, Mrs. W. W. Whitaker, Mrs. F. E. Tollison, Mrs. H. S. Tollison.

Social Calendar

TELEPHONE 217

TUESDAY

The Fortnightly Bridge club will meet with Mrs. Frank Seale for one o'clock luncheon.

The Second Afternoon Bridge club will be entertained at one o'clock luncheon down town by Mrs. A. F. Phillips, of Carlsbad, and go to the home of Mrs. Beecher Rowan afterwards to play bridge.

The Pastime club will meet with Mrs. Henry Paton at 2:30 p. m.

WEDNESDAY

The Woman's club will begin its club year with a reception at the R. D. Compton home at 3:00 p. m.

THURSDAY (NEXT WEEK)

The Methodist Missionary Society will meet with Mrs. Joe Richards at 2:30 p. m.

The Presbyterian Missionary Society will meet at the C. V. Brainard ranch at 2:30 p. m.

THE MOTHERS' CLUB

The Mothers' Club meeting this week was a picnic in the park with Mrs. George Williams, hostess, serving a delicious picnic lunch. No regular program was given, but there were suitable games for the mothers, and also for the kiddies. The second birthday anniversary of Z. B. Moon Kile was remembered by the other club children. Mrs. Mineer Lundquist, of California, was a guest and Mrs. Howard Gissler and Mrs. Herman Gray were admitted to membership.

FACULTY PICNIC

A number of the high school faculty with their wives and husbands, and friends, had a picnic supper on the Pecos east of town Sunday evening. In the crowd were Messrs. and Mesdames T. C. Bird, Willis Morgan and George Wilkins, the Misses Le Von Brown, Margaret Jarvis, Myrtle Burrows, Edna Drury, Dorothy Bunch, and Mary O'Neil and Messrs. James Allen and Ed Hunter.

TWELVE O'CLOCK DINNER

Mrs. Alta Linell entertained at twelve o'clock dinner yesterday at the home of her parents, Mr. and Mrs. James Sangster. Her guests being Rev. and Mrs. W. M. Perry of Long Beach, California and Mr. and Mrs. Frank Linell.

IDLEWHILES BRIDGE CLUB

The club met with Mrs. Sid Cox last Tuesday afternoon being served after the playing. There were six substitutes, Mesdames Mineer Lundquist of California, Ray Bartlett, L. P. Evans, Henry Paton, Arba Green and Elzie Swift.

CHEVROLET SALESMEN'S BANQUET THURSDAY EVE

The Jackson-Bolton Chevrolet Co., were hosts to the Chevrolet salesmen of the Pecos valley at a banquet given in the roof garden of the Artesia hotel, Thursday evening. The banquet was the result of a sales contest staged by the valley organizations during the last ten days of August. In this period thirty-three new cars and sixty-five used cars were sold. The Jackson-Bolton force dressed in white aprons led by chief waiter, J. M. Jackson, assisted in serving a five course banquet.

V. D. Bolton acted as toastmaster supervising a nifty program, during which time a broadcasting station was set up and the speeches of the visitors broadcasted through station BLA.H.

In the sales contest, for the ten day period, Roswell won first place, Carlsbad second and Artesia third. About forty attended the banquet. Among the local Chevrolet representatives present were the proprietors of the Jackson-Bolton Chevrolet Co., J. M. Jackson and V. D. Bolton and Salesmen Amos Devoll, Rocky Kyle, George Blakney, R. N. Russell and E. S. Shaw.

CARD OF THANKS

We wish to thank our many friends for the kind deeds and sympathy shown us during our recent bereavement in the illness and death of Mrs. Chaney. We especially thank the Eastern Star, the Sunshine class and Dr. Hoover for the many acts of kindness.

E. C. Chaney and sons, Mr. and Mrs. E. H. Perry.

Woodstock Typewriters for sale at The Advocate.

LOCALS

Harold Adams has moved into Mrs. Stanleys' house on west Missouri.

Rev. J. A. Hedges of Hagerman was an Artesia visitor yesterday afternoon.

Rufus Spinett, of Portales, spent the week end here, guest at the Arba Green home.

A daughter was born to Mr. and Mrs. Leo Daughtery yesterday morning the 10th inst.

Everett Long left Monday for Enid, Oklahoma to enter the theological school of the Church of the Assembly of God.

Mrs. John Richards returned last Thursday from Camden, Maine, where she spent the past three months visiting her parents.

Miss Esther McLvain accompanied Mrs. Dalton Wilson home to Tucuman Saturday and spent the week end with her there.

Edgar Williamson came in from El Paso yesterday to visit his sister, Mrs. B. A. Bishop, and family and look after some business affairs.

Mrs. Anna Mae Robinson and daughter, Miss Wilma arrived yesterday from New Bloomfield, Missouri and expect to make Artesia their home for the winter.

Rev. and Mrs. W. M. Perry arrived from Long Beach, California Tuesday for an extended visit with Mrs. Perry's cousin, Frank Linell and wife and other relatives.

L. C. Dalton of Lake Arthur was attending to business matters here yesterday afternoon. Mr. Dalton is the new agricultural teacher and coach in the Lake Arthur high school.

Paul Rogers came in from Hastings, Nebraska, this week and will visit his father, Charley Rogers, and family. He has a job in the Farmers' Gin and expects to remain several weeks.

The Rev. Guy Green, who had just completed a revival meeting at the Presbyterian church, made the trip through the Carlsbad Caverns Monday before departing for other fields of labor.

Mr. and Mrs. Norman Read stopped over night here last Thursday and visited with Mr. Read's aunt and uncle, Mr. and Mrs. O. E. Nickety, on their way home to Big Spring, Texas, from a vacation trip to Denver, Colorado.

Mr. and Mrs. A. C. Kimbrough took their children to school at Santa Fe last week. Dick and Wade will be students at St. Michael's College, preparatory department and Miss Evelyn, a student at Loretta Academy again this year.

Dr. W. F. Cook, local veterinarian believes that he holds the record for long distance driving to retrieve a dog. Saturday he drove to Tatum and back a distance of 288 miles to recover a dog for L. G. King of Lake Arthur.

J. E. Rascoe of Seminole, Texas, accompanied by his father, W. L. Rascoe, spent Tuesday here visiting friends and attending to business matters. Mr. Rascoe is a former resident of Artesia, having operated the Finley Dairy for a number of months.

Mr. and Mrs. Will Fletcher and daughter, and her husband, Mr. and Mrs. McClure of Gruver, Texas, were here over the week end visiting Mrs. Fletcher's cousins, Harve and Bert Muncy and families. Harve Muncy accompanied them on the trip thru the Caverns Sunday.

Mr. and Mrs. John Lanning and children came down from Roswell Saturday to make their home here. They have bought the Rose Baish property and will be temporarily domiciled in the upstairs rooms until they can get possession of the property, which will be about the 15th.

Mrs. Ray Everts is enjoying a visit from her two sisters, Misses Anna and Sophia Lopensak, of Chicago, Illinois. Yesterday, the Everts family accompanied the visitors thru the Carlsbad Caverns. Today the visitors left for a sightseeing tour which will include Cloudcroft, Ruidoso, El Paso and Jaurez.

C. W. Evans, who has been visiting for a week with his cousin, Mrs. Grant Knepple and Mr. Knepple, departed yesterday for his home in Huntsville, Ohio. Mr. Evans had been making an extended trip to British Columbia and the Pacific coast states. On Monday in company with Mrs. Knepple and Mrs. Charles Roe he made the Cavern trip.

Mr. and Mrs. J. J. Schnoor returned Friday from a trip northeast. They drove to Kansas with their daughter, Miss La Verne, who was returning to her work as instructor of public school music there. Mrs. Schnoor visited her mother at Sterling, Kansas while Mr. Schnoor made a visit to his old home in Iowa, for the first time in thirty-two years.

MARKET SUPPLY OF CATTLE ABOUT SAME AS LAST YEAR-REPORT

Marketing—Reports of agricultural economists of the department of agriculture indicate that market supplies of cattle from August to December will be about the same as last year, but that the supply of fed cattle during the first half of 1931 will probably be smaller. The general disposition is to hold wherever justified by range and feed supplies, but conditions are poor in many of the important cattle states, and where this is the case heavy marketing is expected. Very few cattle or sheep have been contracted, and practically none for New Mexico. While corn is short in the corn belt, the production is better in the principal cattle feeding areas. Rains in late August improved conditions in most of the drouth areas.

In New Mexico range and feed supplies are generally fair, and where this is the case, some cattle will be held.

Demand—The demand for feeders this fall will probably be less than last fall, and will likely result in increased slaughter, but with cooler weather and improved industrial activity the demand may increase.

Prices—Prospects favor an advance in prices during the next 12 months. The 6-month average price for 1930 was \$9.74; 1929, \$11.04; 1928, \$10.62 and for 1922 it was \$6.82. The price declines this year have carried the market to the lowest level in five years.

Number—the numbers of cattle for 1930 is estimated at 2.7 per cent larger than in 1929 and 4.1 per cent below 1928, the low point of the present production cycle. The numbers this year are 18.6 per cent below the record year of 1918.

Cattle on feed—The number is 1 per cent less than a year ago. East of the Mississippi river it was 8 per cent less and west of the river it was 2 per cent more. Liquidation from the drouth will probably be small.

New Mexico—Stocks of hay and feed grains from the bumper crop of 1929 are considerable higher than usual at this season. The winter wheat crop is estimated at only 1,328,000 bushels, compared with 4,734,000 bushels last year. However, indications are that coarse grains and hay have good prospects in many localities, and with some rains in September, crops above the average should be produced. It would be unwise for New Mexico to ship her crop surplus to the drouth stricken area, especially in view of the fact that the state has for fall marketing about half million head of cattle and calves, and over 600,000 sheep and lambs for which few contracts have yet been made. In the non-irrigated sections of the state the best farmers endeavor to keep surplus feed sufficient to last at least two years. Much of this surplus is coarse hay and fodder that could not be profitable shipped to the drouth stricken areas, even with the reduced rates now being offered by the railroads.

But They Love Touring
"Did you enjoy the scenery?" "We missed the best of it" said Mrs. Chuggins. "Our new car travels so fast we had to give most of our attention to gas tanks and police stations."—Washington Star.

Back to Normalcy
Jake—Did Jones get married at last?
Lew—No; he told me he'd wait till times became more normal, and I think that by that time he will be more normal himself.

Eggsactly
"Dan always was a bad egg."
"Yes, but the world in general didn't notice it much until he went broke."

100 PERCENT RECOVERY FROM CRUDE IN A NEW PROCESS OF REFINING

After exhaustive research covering some 250 major oil fields of the United States, the Bureau of Mines has arrived at the conclusion that "the average barrel" of crude oil is about 32 gravity and that it normally contains about 24 per cent gasoline. This means gasoline that can be "evaporated out" by what refiners call the skimming process. Gasoline made by this process, is called "straight run" gasoline.

In 1929, however, the average barrel of crude oil yielded about 44 per cent gasoline. The difference between 24 per cent gasoline normally in the oil and the 44 per cent made from the average barrel last year is accounted for by the use of cracking processes and also by the use of natural gasoline. Natural gasoline is recovered from the gas from either gas wells or oil wells.

Up to about 15 years ago the skimming process was the only source of our gasoline. With the advent of cracking the recovery of gasoline increased rapidly. The use of natural gasoline for blending either with "straight run" or with "cracked" gasoline or as a finished motor fuel also increased the available supply of gasoline.

Thus, today, there are three major sources of gasoline—straight run gasoline, cracked gasoline and natural gasoline. In 1929 about 57 per cent of the gasoline supply of the United States was straight run gasoline and 10 per cent was natural gasoline.

A great deal has been published recently about "hydrogenation," the newest gasoline making process. By it gasoline can be made from any kind of crude oil, from fuel oil, from shale oil and even from coal tar. The first installation of the hydrogenation process are now being completed. The original process was worked out by Dr. Bergius, a German scientist, for obtaining oil from coal, and then gasoline from the oil. As Germany has practically no oil fields she turned to coal as a source of oil. Through cooperation between Dr. Bergius and the research department of the Standard of New Jersey the process, for American use, was adapted to making gasoline from well oil.

It is currently reported that by this process a barrel of most any kind of crude oil can be made into a barrel of gasoline. In fact recent notices have appeared where 85 per cent gasoline was recovered from coal tar. The year 1930 will mark the launching of this new process on a commercial scale and it will probably be several years before it becomes a major source of our gasoline supply. While the cost of hydrogenation installations will be large and the number of plants that can afford it will be relatively few, the fact remains that those plants that do not install it will be faced with a staggering economic problem.

There are thus three distinct periods in the process for making gasoline: The skimming period that yielded something like 24 per cent gasoline from the crude oil—cracking period that has pushed the total recovery about 44 per cent today—and the hydrogenation period, that we are just entering.

Up to the advent of cracking, some 15 years ago, the high gravity, high gasoline content crude oils, made the market price, for nearly all crude oils throughout the entire country. Since cracking has made available low gravity crudes, as well as fuel oil, as sources of gasoline, this process has, unintentionally but actually, been a factor in lowering the price of high gravity crude oils. Hydrogenation will carry this price-lowering much farther than cracking carried it because 42 gallons of gasoline can be made from a barrel of cheap crude as compared with some 30 gallons, by other processes, from high-priced Mid Continent crude.

Obviously, therefore, there will be no reason why Mid Continent crude should command a price much above cheap, gasolinless crudes.

As the installation of hydrogenation plants will probably be rather slow, the producing and refining ends of the industry will have ample time in which to adjust themselves to the far-reaching economic changes that will result from the extensive use of this process.

Attractive Small Frame Home That Gives Owner Most for His Money

Front porches are all too rare in the houses of today but here, though the house is small, we find a porch which will be a highly attractive place to rest on warm summer evenings.

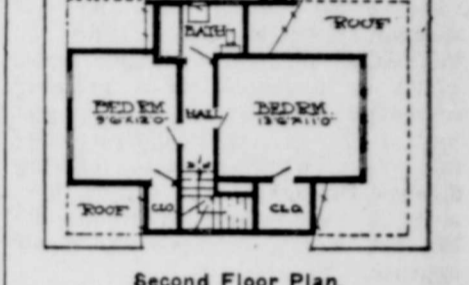

By W. A. RADFORD

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to practical home building, for the readers of this paper. On account of his wide experience as editor, author and manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 407 South Dearborn Street, Chicago, Ill. and only inclose two-cent stamp for reply.

After all, there are few homes more attractive than those which have been designed to meet the needs of the home builder of moderate means. Contractors in small towns have evolved designs for their customers. Most of these are of frame and are planned so that the owner will get the most for his money.

In this class comes the home shown in the accompanying illustration. This is a five-room story-and-a-half house. It is 22 feet wide and 26 feet deep, exclusive of the wide semi-enclosed front porch. This porch is one of the good features of this house. Front porches are all too rare in houses of today, but we have here, though the house is small, a porch which will be

extends the width of the house, it being 11 feet 6 inches deep and 21 feet wide. This is a larger living room than is ordinarily found in houses of this size. The dining room is connected with the living room with a cased opening and is 11 feet by 13 feet. The wide opening between the living room and the dining room gives

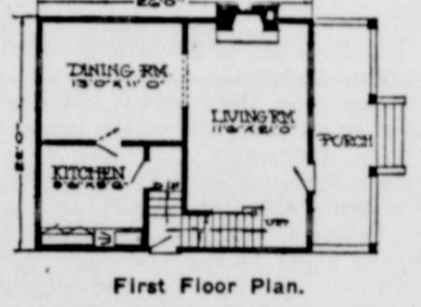

Second Floor Plan.

an effect of spaciousness and practically combines the two rooms. At one end of the living room is an open fireplace, and at the other is an open stair to the second floor. The kitchen is also a corner room and is 9 feet 6 inches square.

Two large bedrooms on the second floor are made possible by a wide dormer window set in the steep pitched roof at either side. These dormers also take away the plain appearance of the room and add to the appearance of the house.

The house is of frame construction and has a concrete foundation; the basement is of the same size as the dimensions of the house. The lower half of the house to the eaves has clap-board siding, and the gables at either end are shingled, as are the walls of the dormer projections.

This is an unusually good design for the home builder who needs a house of this size, as it is attractive in exterior appearance, its rooms are large and well arranged with the idea of giving the most in light and ventilation, and it can erected at a comparably low cost.

First Floor Plan.

a highly attractive place to rest on warm summer evenings.

The house contains three rooms on the first floor and two bedrooms and bathroom on the second floor. How these rooms are arranged and the size of each are shown on the floor plans reproduced here.

It will be noted that the living room

CHEVROLET MOTOR IS PROTECTED FROM DUST BY THE AIR CLEANER

Dashing over a gravel or dusty road, with the wind causing swirls of dust to cloud the pathway of the car, the motorist often wonders what effect this dust has upon the engine of his automobile, and if it finds its way into the vital working parts thus causing a grinding wear.

The reassuring answer to this question is supplied by James M. Crawford, chief engineer of the Chevrolet Motor Company, who explains interestingly how the air cleaner removes the dust from the intake air, making it purer than that which you yourself breathe.

"If it were not for the air cleaner, dust and sand would enter the carburetor—even in city driving—causing wear on cylinders, rings and pistons," Mr. Crawford says.

"Quite often the dust on a good road cannot be seen but it is there just the same. Motor car wheels constantly grind off fine particles of road material which are dispersed through the air. These particles if viewed under a microscope bear a striking resemblance to a valve grinding compound.

"Were it not for the air cleaner, this dust would enter the engine, form on the cylinder walls and soon become thoroughly mixed with the lubricating oil. The inevitable result would be formation of a grinding compound which would attack pistons, rings, cylinder walls, bearings and other working parts, causing damage throughout the engine, lowering its performance, shortening its life and making unnecessary repair expense.

"The air cleaner, used on all Chevrolet cars, is made entirely of metal, has no moving parts and will last for the lifetime of the car.

PLANNING EXHIBITS FOR THE COUNTY FAIRS

Fall, nature's harvest time, is here and county fairs are being held on all sides. Just what products should be shown and how they are judged or scored is sometimes a question with the exhibitor. Miss Carolyn Wetzell of the New Mexico Agricultural College offers a few timely suggestions.

Usually a definite score card is used, which is made out before the booths or exhibits are put up. This should be studied carefully before any work is collected and every item exhibited should adhere to the requirements. Often certain pieces are disqualified because they do not conform, thus bringing down the total score. Another point to remember is always to exhibit under each item required; the all products may not be up to specifications, something is allowed for the effort.

A good many of the fairs this year are having community booths, showing different products. At the community contest held in Quay county on Labor Day, the groups exhibited under sewing were machine work, hand work and fancy work; under cooking, different kinds of bread, cake and salad dressing. The booths were judged for attractiveness, neatness and arrangement.

In planning a booth, choose first an attractive color scheme without elaborate ornamentation; the products will show better against a plain background. Give each article enough space that it will show to best advantage. Products should be grouped as they will be scored.

When showing vegetables and fruits, choose products of uniform size and color. Because a product is large does not mean that it is of the best quality; medium size is best. Eggs should also conform to these rules.

In sewing exhibits, see that all seams are finished, loose threads tied and ends cut. On colored articles watch the color scheme. A clothing exhibit should be planned so there will be a harmony of color.

In any exhibit, study first the requirements of each class, what constitutes perfection, and strive toward attaining perfection in each article exhibited.

SCHOOL ROOM PLACE FOR THRIFT ENCOURAGEMENT

By S. W. Straus, President American Society for Thrift.

We are now at the beginning of a new school year. Parents, teachers and all others directly interested in sound educational progress are urged to join the great work of introducing the teaching of thrift in the schools of this country.

This work has for sometime been making steady progress and there is every reason to believe that the ensuing year will mark the attainment of new heights in thrift education. The introduction of the school savings bank by a Belgian school master in a Long Island village many years ago has today grown to gigantic proportions and a splendid work is being accomplished. Millions of children have learned lessons of priceless value in saving money. Many successful men today owe some portion of their progress in life to the inspiration of the little school savings bank which they learned to love in the days of their childhood.

But teaching children just to save money is not quite enough in the interest of a well-rounded thrift conception. There is, in fact, some danger of warping the child's appreciation of life's many values by constant stressing of money. It is important that the child should learn that thrift means in every sense of the word to thrive and be successful in a fine, noble way.

For a number of years the American Society for Thrift has been working in this problem and two years ago brought out a text book in which the subject of thrift is correlated with several of the common branches. The book can be used by any school teacher in the second and eighth grades, inclusive. A copy of this book will be sent without charge to any school teacher or other school official desirous of joining this great thrift movement. Letters should be sent to the Society's office, 9 East 46th Street, New York City.

It should be quite obvious to any fair minded person that the logical place to concentrate thrift educational effort is in the school room.

"HOME OWNERSHIP" NEW POLICY FOR PHILLIPS

Local customers and friends of the Phillips Petroleum Company will be interested in their recent announcement of the adoption of the policy of "Home Ownership" in order to increase the number of its stockholders and customers in the territory where the company operates, thus allowing them to share in the ownership and earnings of the company that serves them. The company distributes motor fuels and liquefied petroleum gases to customers in 33 states through a marketing organization that includes over 950 company owned and operated service stations and more than 8,000 other retail distribution outlets. No new capital will be raised by the offering. Since 1921 the company has paid over \$35,000,000 in cash dividends and during the same period has accumulated an earned surplus of over \$36,000,000. The company has also, from time to time, given valuable rights to its stockholders. The stock is being sold by over 6,000 Phillips employees in a special campaign between September 2nd and September 15th. Purchasers of stock during the campaign will participate in the regular quarterly dividend of 50 cents, payable October 1st.

HIGHWAY DEPARTMENT FORCES PREPARING FOR THE WINTER SEASON

Highway department forces all over the state are now preparing the roads for winter weather and getting winter equipment furnished up for the coming months.

Culverts are being cleaned out and drainage ditches are being denuded of weeds and debris washed in by the summer rains. The bridge department is replenishing stores in its emergency depots in various parts of the state. Snow plows are being gone over, oiled up and set in efficient running order ready for the first snowfall in the mountain regions.

The service bureau is assembling data ready for the annual fall flood of questions on this topic. Information on improvements of roads heretofore adversely affected by winter weather is being checked ready for dissemination to eastern and pacific coast touring bureaus who make an annual questionnaire on this sub-

ject. New Mexico this year faces winter with better highway conditions than ever before, with a greater mileage of improved roads completed, better alignments in many places insuring less road damage by winter conditions, and many new drainage structures.

STATE MUST PAY FOR RESENTENCING HABITUALS

SANTA FE — The state should stand the expense of returning to the penitentiary a prisoner who has been taken back to the county seat from which he was originally committed to be resented under the habitual criminal act, Attorney General M. A. Otero Jr., advised State Auditor Victor Ulibarri Saturday.

Pending the attorney general's ruling, Mr. Ulibarri had withheld approval of a voucher presented by Sheriff Felipe Sanchez of Guadalupe county to cover his expense in bringing Eufrazio Bustos back to the prison after Bustos had been resented under the habitual criminal law.

WORLD BALL SERIES SCHEDULE IS ARRANGED

CHICAGO, Illinois—The 1930 world series will open October 1 in the park of the team winning the American League pennant, probably Philadelphia, it was decided at a conference with Baseball Commissioner Landis Monday.

Games one and two will be played at the home of the American League champions, No. 3, 4 and 5, in the National League champion's park. If sixth and seventh games are necessary they will be played in the American League winner's park.

Successful week of school. The requirements have been met which permits this school to have another teacher, who is expected to arrive within the next few days. The school opened with perhaps its largest enrollment, there being one hundred and fifty in the grades and sixty in high school. Chapel exercises were conducted on Friday morning. Mr. and Mrs. Harp and Son, Ernest Jr., assisted by Misses Pior and Deter of Artesia furnished the entertainment.

P. T. A. MEETING

The executive committees of the P. T. A. met Tuesday at the high school auditorium. At this time a reorganization of the P. T. A. was effected for the school year. Plans were made to hold a business meeting once every two months and a social meeting to be held on the third Friday of each alternative month. The business meetings are to be held in the school auditorium and the social meetings in a private home in the evening. Among the committees appointed were the following: publicity—Mrs. Ned Hedges; membership—Mrs. B. C. Moots, Mrs. Graham, Mrs. Lloyd O'Bannon, Mrs. Alexander, Mrs. McLarry, Mrs. Jones; program—Mrs. Latta, Mrs. Ned Hedges, Mrs. Ben Frazier; hospitality—Mrs. Beasley, Mrs. Richard Hams, Mrs. Walden and Mrs. Latta.

Here's to Beauty!
A Daily Cleansing Helps To Keep The Skin Beautiful

WHILE most women cannot go to a beauty salon very often, none of us are too busy to set aside a few minutes each day for beauty care at home. There is nothing difficult or complicated about home beauty treatments, and for every mark that age or worry leaves on the face, there is a simple, but effective treatment you can give yourself with your own two hands. You will be surprised how quickly the skin responds to just a few minutes of regular daily care.

A clean skin, of course, is the only basis for any beauty treatment. Given this, and a pair of willing hands, only three toilet accessories are necessary to provide a refreshingly clear complexion. These are: a cleansing cream, plenty of tissues to remove the cream, and a skin tonic to tone and freshen the face.

For a simple yet effective cleansing spread a generous amount of cleansing cream up over the face and neck with your cushioned finger tips. Then, with cleansing tissues wrapped around both your hands, gently wipe away the cream.

To remove the last bit of cream and gently close the pores again, saturate a bit of cotton with skin tonic and wipe up over your face. This will gently guard against open pores, and will leave your skin feeling cool and refreshed—ready for whatever special treatment it may need.

Insurance Salesman: "Rastus, better let me write you some insurance."
Rastus: "No, sah. Ah ain't any too safe home as it is."

REVENGE

The young bride was standing on the tiled porch using a new pair of field glasses.

"Darling," she cried, "the real estate agent who told you that our house was only a stone's throw from the station is getting out of the train now."

"Oh, is he?" returned her husband grimly. "Well, give me a brick out of the garden and I'll do my best."

Alimony for Him

"I guess I'll have to give him up as hopeless," she sighed.

"Is he as bad as ever?" asked her dearest friend.

"Yes," she replied. "I've bought him the right shaving cream, the right tooth paste, made him use the proper tobacco; in fact, I haven't overlooked a single ad, and still he is impossible. Typewriters for rent at Advocate."

WHAT REPUBLICANS HAVE DONE FOR THE STATE'S WELFARE

(By Republican State Central Committee.)

Mr. Mrs. and Miss Voter: Here we are again with a message. It is for you, because you are interested in the welfare of New Mexico. You make your home in this State. Its prosperity is your prosperity; its progress is your progress.

Every law passed since we became a State eighteen years ago is a Republican law. During that period New Mexico has made great advances in all matters that are really worthwhile.

But let us come to the last three and a half years during which the Republicans have had the office of Governor—a tremendously important office in the State of New Mexico.

For the first time since the Republicans lost control of the government in 1923, we have no deficit. Instead we have a healthy surplus.

Let us compare the expenditures for education during the three and a half years, ending June 30th, 1930, of the Dillon administration, with the corresponding three and a half years of Democratic administration under Hinkle and Hannett.

Republicans And Education

For the elementary and public high schools \$31,500,000 was expended during that period of the Dillon administration. In the corresponding three and a half years of Hinkle and Hannett administration the expenditure was \$23,000,000. The \$8,500,000 higher expenditure under the Dillon administration has gone for longer school terms and better salaries for teachers and for more comfortable and sanitary school buildings.

During the three and a half years of the Dillon administration the expenditure for the institutions of higher learning aggregated \$6,500,000. For the corresponding period under the Hinkle and Hannett administrations the expenditure was \$4,500,000.

Why did the Dillon administration spend in that time \$2,000,000 more than was spent by Hinkle and Hannett? The answer is easy.

The institutions were crowded to capacity. Many taxpayers, who helped to pay the expenses of the institutions of higher learning, could not send their children to them, because there was not dormitory or class room space or enough professors to teach them. Those taxpaying parents were compelled to send their sons and daughters out of the State or deprive them of the advantages of college education.

Could there be a graver injustice to the taxpayers or to the children of the State?

You Ask An Example?

You can have it at any of the educational institutions. Let us take the University of New Mexico. When the Dillon administration assumed control the students enrolled numbered 421. After buildings costing \$360,000 had been erected and the appropriation for maintenance increased, the enrollment speedily rose to 1,120, an increase of almost three hundred per cent.

All other institutions were taxed beyond capacity. To reasonably and humanely house the institutions—educational, penal and charitable—the expenditure of \$1,440,000 for buildings was necessary. All the institutions are now crowded.

Public Highways

Coupled with the schools we have the public highways. The work of the Dillon administration has been devoted to securing for New Mexico, schools as good as the best, and highways as good as can be paid for.

During three and a half years the Dillon administration expended for construction and maintenance of our highway system \$18,142,222.63. During the corresponding three and a half years of the Hinkle and Hannett administrations, there was expended for construction and maintenance \$11,558,700.75.

The Democrats are crying extravagance and promising reduction of taxes. They don't tell where they will reduce. They mean they will shorten the school year or reduce the salaries of teachers and will again cripple the efficiency of the State institutions.

They will not reduce the gasoline tax which, together with the automobile tax and almost two million dollars of Federal aid provides for both construction and maintenance of our State highways.

For the splendid system of New Mexico highways not one dollar ap-

pears in your property tax statement.

A Progressive People

The people of New Mexico demand schools and roads. These essentials are demanded now by every state in the Union. New Mexico's roads command the admiration of tourists from all sections of the United States. They pay in dollars and cents. The schools are for the training of our girls and boys so that they may become good, self-sustaining citizens.

Democratic Deficits

Hinkle went into office in 1923, promising reduction of taxes. He inherited a surplus of \$278,000 from his Republican predecessor. When he went out of office he left a deficit of \$210,000, and had not erected a single public building, though many were needed.

When Hannett was retired from office by the will of the voters, the deficit had mounted to \$350,000 in the general fund. When Governor Richard C. Dillon took office January 1, 1927, he was faced with deficits in all funds aggregating \$814,000, and still nearly nothing done to meet the demand for buildings at the various overcrowded educational, penal and charitable institutions.

Deficits Wiped Out

Under the Republican administration the deficits have been wiped out and a healthy surplus accumulated; \$1,440,000 have been expended for the erection of absolutely necessary public buildings; we now have nine months school all over the State, and better teachers than ever before; the buildings, both new and old, of the educational institutions are crowded to capacity with New Mexico's boys and girls. The inmates of the hospital for the insane, for the feeble minded, for the deaf and dumb and the blind were never so efficiently managed. The Reform School has been converted into an industrial school; the Girl's Welfare Home is a real home. Before the new buildings were erected at the Penitentiary there were two prisoners to a cell—the cells are 7 feet by 7 feet by 5 feet, and enough prisoners for three in each cell. With the new buildings there are a third more prisoners than cell space. In the face of these facts there are those who criticize the Governor for paroling prisoners whenever there appears reasonable justification for doing so.

A Policy Of Ruin

Regardless of all the ranting and misrepresentation, these are the facts. If the Democrats mean what they say about reducing expenses, they would bring the State to ruin. They speak of corruption in the Highway Department and the Comptroller's office. Under the Dillon administration not one dime of public monies has been lost through dishonesty, and when housecleaning has been needed the house has been cleaned efficiently and promptly by Republicans.

39-1te—ADV.

WHAT A WOMAN Of 50 and Over SHOULD WEIGH

Keep The Fat Away

This is interesting—the figures given below are correct according to the leading authorities—Women over 50 should beware of fat—if your weight and height match the table below you are in luck—and should be thankful—Weigh yourself today.

Ages 50 and Over

4 Ft. 11 In.	131 Pounds
5 Ft. 1 In.	135 Pounds
5 Ft. 2 In.	138 Pounds
5 Ft. 3 In.	141 Pounds
5 Ft. 4 In.	144 Pounds
5 Ft. 5 In.	148 Pounds
5 Ft. 6 In.	152 Pounds
5 Ft. 7 In.	157 Pounds
5 Ft. 8 In.	162 Pounds
5 Ft. 9 In.	166 Pounds
5 Ft. 10 In.	170 Pounds

Weights given include ordinary indoor clothing.

If you are overweight cut out pies, pastries, cakes and candies for 4 weeks—then weigh yourself—go light on potatoes, rice, butter, cream and sugar—eat lean meat, chicken, fish, salad, green vegetables and fruit.

Take one-half teaspoon of Kruschen Salts in a glass of hot water every morning before breakfast—this is the easy, safe and sensible way to take off fat—an 85 cent bottle of Kruschen Salts lasts 4 weeks—get it at McAdoo Drug Co., Mann Drug Store or any drug store in the world—You'll be gloriously alive—vigorous and vivacious in 4 weeks.

Wedding Announcements and Invitations, Engraved or Printed—Advocate

NOTICE STATE ENGINEER'S OFFICE, Number of Application, 1923. Santa Fe, N. M., July 31st, 1930.

Notice is hereby given that on the 15th day of June, 1930, in accordance with Section 26, Chapter 49, Laws of 1907, John W. Haven, of Lake Arthur, County of Chaves, State of New Mexico, made formal application for a permit to appropriate the Public Waters of the State of New Mexico, to the State Engineer of New Mexico.

Such appropriation is to be made from the Pecos River at a point in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 27, Township 15 South, Range 26 East, N. M. P. M., which bears N. 67° E. 2850 feet distant from the west quarter corner of said section, by means of a pumping plant, and 300 acre feet are to be conveyed to the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 27, and the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 28, Township 15 South, Range 26 East, N. M. P. M., by means of the works licensed under Permit No. 642, and there used for irrigation purposes.

The applicant hereunder claims that his drainage works located in the N $\frac{1}{2}$ of Section 8, Township 12 South, Range 26 East, N. M. P. M., draining lands in the E $\frac{1}{2}$ NW $\frac{1}{4}$ of said Section, and which works discharge into the Pecos River at a point in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of said Section which bears N. 83° 40' E. 3064 feet distant from the west quarter corner of said section, discharge approximately 650 gallons of water per minute into the said River, and the applicant proposes to allow this water to flow down the Pecos River to the above described diversion point, there to be diverted and used as specified herein.

Any person, firm, association or corporation deeming that the granting of the above application would be truly detrimental to their rights in the water of said stream system shall file a complete statement of their objections substantiated by affidavits, with the State Engineer, and serve a copy on the applicant on or before the 1st day of October, 1930, the date set for the Engineer to take this application up for final consideration unless protested. In case of protested applications all parties will be given a reasonable length of time in which to submit their evidence in detail or arrange a date convenient for a hearing or appoint a referee satisfactory to all to take testimony. Appearance is not necessary unless advised officially by letter from the State Engineer.

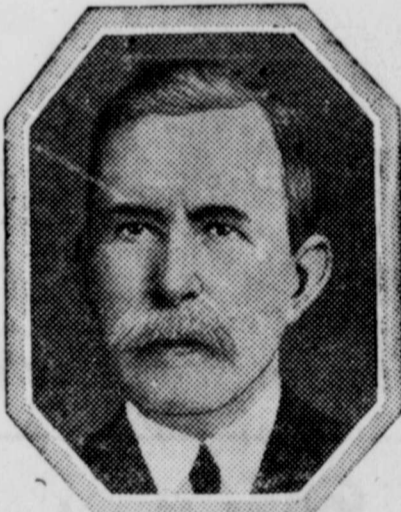

HERBERT W. YEO,
State Engineer.

"Hey," cried Satan to the new arrival, "you act as if you owned this place."
"I do," said the newcomer. "My wife gave it to me."

AGAIN KONJOLA SHOWS WHAT IT CAN ACCOMPLISH

Prominent San Antonio Man Eager In His Praise Of New Medicine.

MR. CHARLES OLIPHANT

"I am glad to endorse Konjola to any who suffer as I did," said Mr. Charles Oliphant, well-known San Antonio railroad man, 423 Lamar Street, San Antonio. "About a year ago I suffered a breaking out on my skin. Little patches of pimples appeared and were called water blisters. They itched and burned severely, and, though I tried many remedies I gained only temporary relief. From Konjola, I gained what I consider miraculous results. The breaking out disappeared within three weeks after I began taking Konjola. I had kidney trouble but now the pains in my back and the swelling under my eyes have disappeared also. I feel better in every way and have gained weight. I think Konjola is a very fine medicine."

Konjola is recommended over a six to eight weeks period and is designed to relieve ailments of the stomach, liver, kidneys and bowels, and rheumatism, neuritis and nervousness.

Konjola is sold in Artesia at Palace Drug Store, and by all the best druggists in all towns throughout this entire section.

COMMITTEE APPOINTED TO DRAFT PLATFORM FOR STATE DEMOCRATS

Judge C. R. Brice of Santa Fe was named chairman of the committee of nine appointed Monday night by Arthur Seligman, democratic state chairman to draft a tentative platform for the party to be turned over to the platform and resolutions committee selected by the democratic state nominating convention in Santa Fe on September 18.

The other members named by the state chairman in accordance with the authority vested in him at the recent meeting of the joint state advisory and executive committees, were as follows: Wm. B. Walton, Silver City; C. E. McGinness, Roy; T. E. Mears, Portales; Henry Coors and Pat H. McGaffrey, Albuquerque; Mrs. L. K. McGaffrey, Roswell; Miss Isabel Eckles and David Chavez, Jr., Santa Fe.

Chairman Brice is expected to call the committee together within the next three or four days to hold a preliminary conference and it will meet again later to complete its work, it was said Monday night.

A colored boy was strolling thru a cemetery, reading the inscriptions on the tombstones. He came to one which read, "Not dead but sleeping."

Scratching he heard, the Negro remarked, "He sure ain't foolin' nobody but hisself."

IN THE PROBATE COURT, COUNTY OF EDDY, NEW MEXICO

IN THE MATTER OF THE ESTATE OF JIM L. HARRIS, Deceased.
No. 608.

NOTICE OF HEARING FINAL ACCOUNT, ETC.

THE STATE OF NEW MEXICO TO: Euen F. Harris and Nola E. Harris, heirs of said Jim L. Harris, deceased, Greeting:

You are hereby notified that on the 3rd day of November, 1930, at 9:00 a. m., at the Court House at Carlsbad, Eddy County, New Mexico, said Probate Court will hear objections to the final account and report of Euen F. Harris, administrator of the estate of said Jim L. Harris, deceased, the settlement thereof and will proceed to hear and determine the heirship of said decedent; the ownership of said estate and the interest of each respective claimant thereof or therein and the persons entitled to the distribution thereof.

The attorney for said administrator is S. E. Ferree and his address is Artesia, New Mexico.

WITNESS, the Honorable M. O. Grantham, Probate Judge of Eddy County, New Mexico, and the seal of the Probate Court of Eddy County, New Mexico, this 5th day of September, 1930.

(SEAL)
THELMA T. LUSK,
Clerk.
By NORMA T. POWERS,
Deputy.

BELIEVE IT OR NOT IT RAINS FISH IN LEA COUNTY SAYS RANCHER

Between five and six hundred pounds of catfish fell recently on the Joe Lane ranch, 55 miles east of Roswell during a terrific downpour which swept across this particular area of Lea county.

The catfish fell on an acre of ground and six miles away from nearest tank, preventing possibility of coming from an overflow. There are no lakes or streams in this part of Lea county, the only water supply being windmills flowing into surface tanks.

Mr. Lane said that he gathered about 100 pounds of the fish and placed them in tanks on his ranch. Many of the fish died, he said, approximately 100 of them surviving. Many of the fish were broken open when they hit the ground, others being driven head first into the mud. The fish were from 8 to 10 inches in length and were of the "blue channel" species.

Mr. Lane, aside from his wife and children, was displaying photographs of the spot where the fish fell, and pictures of the fish as proof of this strange occurrence. Joe Lane is one of the most prominent stockmen on the east side of the state and those who know him need no further proof of the facts in this case than his word.

While scientific explanations of such freaks have been offered for many years they are for the most part inadequate, it is believed. The most plausible theory offered in explanation is that the fish are sucked out of tanks, or streams by a terrific wind and then carried perhaps for a hundred miles or more and then turned loose.—Roswell Record Monday.

SCOUT EXECUTIVE BOARD ELECTS OFFICERS

The Board met at the Central School Friday afternoon, at the call of Commissioner, Mrs. Z. B. Moon, and elected the following officers: Mrs. Rex Wheatley, commissioner; Mrs. Ray Bartlett, 1st deputy; and Mrs. W. E. Kerr, secretary and treasurer. The organization is looking forward to a good year. Since a number of scouts attended the scout camp in Bear canyon, this summer renewed interest has been aroused among the girls. The need now is leaders for the girls and it is hoped that a number of young women will volunteer for this most worthwhile service.

Chester Russell Jr., who has been confined at home on account of illness, is able to be out again.

Harve Muncy expects to leave tomorrow for Albuquerque with Mrs. Muncy, who will remain for a short time for medical treatment.

IRRIGATED COTTON IS GIVEN GOOD RATING BY BUREAU OF ECONOMICS

Charley Rogers, manager of the Artesia Farmers Gin Co., has received a preliminary report from the Bureau of Agricultural Economics of the cotton samples furnished the bureau last year. The investigation by the bureau is a result of various complaints made by the spinners that irrigated cotton contained soft spots. Mr. Rogers furnished the bureau with a sample of every bale ginned last year. The report which will no doubt be of interest to many of the farmers follows: Number bales ginned by Artesia Farmers Gin Co., 1,856; number bales of extra white grade 1,282; number bales grading good middling, 571; bales grading strict middling, 391; bales grading middling, 267; bales strict low middling, 51; bales low middling 2; number white bales, 86; number white bales grading strict good middling, 86; number spotted bales 379; number spotted good middling bales 4; number strict middling 136; number middling, 173; strict low middling, 62; low middling 4. There were 300 bales of bolies in the cotton classed as spotted.

Of the 1,856 bales that were ginned here last year, 16 bales measured 13/16 inches and under; 54 bales measured 3/4 inches; 223 bales measured 15/16 inches; 1,005 bales measured 1 1/32 inches; 554 bales measured 1 1/16 inches and 24 bales measured 1 5/32 inches. This was the extra white samples. Of the cotton classed as white variety, 9 bales measured 15/16 inches; 46 bales measured 1 1/32 inches; 28 bales measured 1 1/16 inches and 3 bales measured 1 5/32 inches.

Out of the 1,856 bales there were 106 bales that graded yellow. There was no gray or blue stained cotton in the lot.

In the general state report there were 54,400 bales of the extra white middling or better or a percentage of 63.1 per cent, against 66.2 per cent for the Artesia district. Of the extra white, strict low and low middling of which there were 4,000 bales or a percentage of 4.6 against 2.9 per cent for the Artesia district.

The total tenebrous number of bales grown in the state according to the classing of the bureau numbered 75,600 bales or 87.6 per cent against 1,718 bales and a percentage of 92.6 for the Artesia district. The state's total untenebrous cotton amounted to 10,000 bales against 138 for the Artesia district.

BIRTHS

Born to Mr. and Mrs. Cyrus Hinshaw, in the oil field, last Friday, the 5th, a son.
Born to Mr. and Mrs. S. H. Henderson, Tuesday morning, the 9th, a son.

LEGION AND AUXILIARY HOLD ANNUAL ELECTION DURING THE PAST WEEK

The Clarence Kepple post American Legion held the annual election of officers last night at one of the largest and most enthusiastic gatherings in the Legion hall in a number of years. L. N. Kremer was chosen as post commander, Aleck McGonagill, was selected to the post of vice-commander; M. E. Baish, finance officer; W. R. Ross, adjutant; W. J. Haskins, historian; Jack McCrary, sergeant at arms; H. G. Scoggins, Chaplain. Sid Cox was appointed service officer of the post.

The Auxiliary enjoyed the treat of a meeting in the country this week. A covered dish luncheon was given at the ranch home of Mrs. Charley Martin, southeast of town, and a delicious meal was followed by an interesting afternoon, comprising principally reports from the state convention in Gallup, the last of August. High lights of the convention were given by past department president, Albert Richards; Mrs. Frank Linell, state Fidae chairman; Mrs. Aleck McGonagill, Mrs. Earl Darst and Mrs. Rodgers, delegates from the local units. In addition to reports of the business of the state meeting animated accounts were given of the social features, including the luncheon and trip in the mine and the lovely tea given at the new Spanish style home of Mrs. John Emmons, crowning a hill overlooking town. The entertainment of Gallup set a pace, which will make Artesia unit keep busy to equal.

Nominations for officers for the coming year were made, the election following at the meeting next month. The following were nominated—Mrs. Jess Truett, president; Mrs. Frank Seale, 1st vice-president; Mrs. Ray Williams, second vice-president; Mrs. Aleck McGonagill, secretary; Mrs. Earl Darst, treasurer; Mrs. Frank Linell, chaplain; Mrs. Earl Bigler, historian; Mrs. Bert Sinclair, sergeant-at-arms.

The meeting next month will be at the home of Mrs. Rocky Kile with Mrs. Grover Kinder, co-hostess.

HONEY CROP IS SHORT THIS YEAR — HEAVIER IN SOUTH EDDY CO.

Beemen of north Eddy county gathered only about a fourth of a honey crop this year according to M. R. Jones former county bee inspector. The south end of the county secured about a half crop. The average yield in this section was about twenty-five pounds of honey per colony, whereas the full yield is considered to be about 100 pounds. Flowers were fairly plentiful here this year. Dry weather is one of the principal causes of the light crop, says Mr. Jones.

SHOWERS FALL OVER A SMALL AREA — WIND, RAIN AT CARLSBAD

Spotted showers fell over this section the first of the week. Sunday a fairly heavy shower fell in the vicinity of Espula covering a strip of territory some two or three miles wide. On the same date a rain storm accompanied by wind fell in the Carlsbad district, extending as far south as Malaga. East of Carlsbad the rainfall was heavier. A wind-storm that accompanied the rainfall blew several limbs from the trees in Carlsbad.

KINDERGARTEN ESTABLISHED

Mrs. James Christman has started a kindergarten in the Junior room at the Methodist church and began operations Monday morning. Children enrolled are Albert Linell, Barbara Wheatley, Val Morgan, Don Morgan, Christine Anderson, Willis Baker, Shirley Watson, Mary Lou Lanning, Andree Bulot, Billy Sue Barnett, Orlena Martin, Margaret McDermott, Ben Dunn, Jr., Darleen Dunn, Riley Brown, Jess Truett, Jr., Donald Simons and Lawrence Rogers.

CIVIC CLUBS IN JOINT MEET

Tuesday noon, the Artesia Rotary and Artesia Lions clubs, held a joint meeting in the roof garden of the Artesia hotel. This was the first meeting of the Lions club since the summer vacation.

The program of the day was in charge of J. H. Jackson, who spoke on the contribution the law profession has made to civilization.

525 DELEGATES TO BE ELIGIBLE TO ATTEND DEMOCRATIC MEETING

It may interest some of our readers to know the number of delegates each county is entitled to send to the coming state democratic convention, September 18th. Each county shall be entitled to representation on the basis of one delegate for every hundred votes or fraction thereof cast for the democratic candidate for governor in 1928. The delegates apportioned by counties are as follows:

Bernalillo, 76; Catron, 5; Chaves, 18; Colfax, 33; Curry, 22; DeBaca, 6; Dona Ana, 22; Eddy, 15; Grant, 22; Guadalupe, 11; Harding, 8; Hidalgo, 6; Lea, 7; Lincoln, 10; Luna, 6; McKinley, 14; Mora, 18; Otero, 13; Quay, 20; Rio Arriba, 23; Roosevelt, 16; Sandoval, 11; San Juan, 10; San Miguel, 31; Santa Fe, 26; Sierra, 7; Socorro, 14; Taos, 17; Torrance, 12; Union, 17; Valencia 9. Total 525.

MORE STUDENTS LEAVE FOR COLLEGE

Miss Camille Horner left last week for Wichita Falls, Texas, where she has entered a Junior College.

Miss Ferne McCaw and Miss Juanita Denton have gone to attend Business College at Abilene, Texas.

Ernest Harp returns tomorrow to Albuquerque, where he will be a junior in the State University this year. The Misses Gladys and Ina Cole expect to leave Saturday or Sunday to resume their studies at Montezuma College, Las Vegas, being members of the sophomore class this year.

Guy Reed Brainard has returned to school at the University of Louisiana where he will resume his studies to a degree in petroleum engineering. He will play on the football team this year and left early to begin practice.

Miss Ruth Bigler leaves this week for the State University at Albuquerque. Others who will attend school there this year are Stewart Compton, whose parents will drive over with his Saturday, Miss Lola Ward and Tom Flynn.

Judge Jackson is planning to drive to Abilene, Texas, Monday with his son, Cavitt and Irving Withers, members of this year's graduating class, who will enter Simmons University.

Lawrence Bewley will return to Tulsa, Oklahoma to resume his pre-med course at Tulsa University.

Miss Lola Gray left Saturday to enter the State Normal at Silver City. Her sister and brother-in-law, Mr. and Mrs. Carl Joiner, drove here as far as Roswell, from which place she went by bus.

STATE AUDITION CONTEST

LAS CRUCES—The discovery of young singers and the testing of their voices has become a community activity in every section of New Mexico, according to Louis E. Freudenthal of Las Cruces, state chairman in charge of the fourth national radio audition. The entire state has been covered by the organization Mr. Freudenthal has perfected within the past few weeks, with prominent men and women interested in musical development at the head of each local unit.

In some communities, auditions have already been held to qualify one young man and one young woman singer from each locality to participate in the state audition to be held in the fall—where they will have opportunity to compete in the second step toward winning the national prizes aggregating \$25,000 cash and 10 music scholarships offered by the Atwater Kent Foundation to the best 10 young singers in the United States.

The group of local chairmen in New Mexico includes: Rev. Benjamin F. Butts, Las Cruces; Mrs. J. Franklin Joyce, Carlsbad; Mrs. John C. Martens, Roswell; Mrs. B. H. Gray, Silver City; Mrs. Earl George, Tucumcari; Mrs. Harry Ackerson, Albuquerque; Mrs. Chas. F. O'Malley, East Las Vegas and Abb Henderson, Gallup.

NEW TIRE COVER ON DISPLAY

John Fanning was exhibiting a new tire cover on the streets Tuesday. The new cover was made from the skin of a five foot rattler, slaughtered on Dagger draw Sunday. A "clullud boy" at a local garage did not take to the idea of changing the tire with the new cover.

ROCK CRUSHES LIFE DISEASE MANNER OUT OF POTASH MINER GREATER TOLL NEAR CARLSBAD SUN. STORM AT SAN

Andrew Kesti, age 29, was killed in the shaft of the American Potash mine, east of Carlsbad, Sunday afternoon, near 1:30 when hit in the head by a large rock. At the time of the accident it was said that the regular crew was in the shaft, shoveling out the rocks that had been loosened by blasting. Mr. Kesti was assisting and a half an hour before the rock fell had cleared the walls of loose gravel and rock. A huge slab that fell, crushing the life out of the unfortunate miner, was about waist high, but started falling when he was stooping. Had he been standing, the accident probably would not have occurred. The rock, five feet long, two feet wide and ten inches thick, is believed to have struck the miner on the shoulder, pushed him down, crushing his head.

SANTO DOMINGO—The city, devastated by a tempest 3rd which took 4,000 lives, feared the disease would cause bad as the storm itself. Insufficient medical clean streets, and all contributed to a worried native and cians. Cremation of tinued. Attitude of the probably was best indicated by taking every precaution possible. With survey unfinished, more storm victims already found to have gangrene infections. At one camp yesterday 1,300 persons took anti-lations for typhoid. Tablets are sent here from Havana.
