PETIT JURY REPORTS THIS MORNING TO DIST. COURT AT CARLSBAD

District court opened at Carlsbad Monday and the jury reported at 9:00 o'clock. After disposing of some preliminary matters Judge Richardson excused the jury until Tuesday. The jury was empaneled again Tuesday morning and excused again until 10:00 o'clock this morning. Tuesday morning was spent in hearing an argument on a demurrer in a case of Morrison and Pardue against the Roberts Dearborne Hardware Co., involving about a \$3,000 mortgage on a crop that was never planted. The court took the matter under advisement.

THE EDDY COUNTY TAX LEVY APPROVED RATE LOWER THAN IN 1929

Eddy county tax payers may derive a little satisfaction from the information that the tax rate for another year is slightly under the 1929 rate. The rate, which was set by the state tax commission has been approved by the county commissioners and ordered entered on the county tax rolls. Approval of the new rate was made at the regular meeting of the commissioners court at Carlsbad Monday.

County019837
County and State025337
Artesia008125
Total Artesia041134

The school levy for this district is given as .007672, which subtracted from the city levy leaves a rate of .033463 for city purposes. Carlsbad's total rate is slightly higher. The city levy is given as .009872 and combined with the state and county levy, gives Carlsbad a total of .041891.

LIGHT FROSTS AT WEED

J. R. Means was down from the Weed section yesterday and reports that light frosts have visited the Weed country, with lots of rain. The frosts, however, have not damaged vegetation yet.

PRESTON SEARS IS ARRESTED HERE ON A LARCENY CHARGE

Preston Sears, well known local character was arrested Monday night by Ross Conner, deputy sheriff, charged with petty larceny. Sears, it is alleged was removing household furniture from the Coffin apartment house in the west part of Dayton when discovered by Johnnie Bryant. Mr. Bryant immediately communicated with the local officers and the arrest of Sears was made before he left the premises of the Dayton apartment. It is said Sears, who was with his wife had a truck almost loaded when officers arrived on the scene.

Sears was arraigned before Justice S. W. Gilbert, Tuesday morning and pled guilty to the charge of petty larceny. He was fined \$25.00 and costs, but was unable to pay the fine and was remanded to the city jail. Some effort is being made to raise the price of the fine, but unless the fine money is secured, Sears will be given a 30 day jail sentence. Further investigation revealed that the amount of goods involved made the case a major offense and Sears will face the charge of larceny before the Eddy county district court. He was taken to Carlsbad and placed in the county jail to await the action of the district court.

N. M. CROP IMPROVEMENT ASSN. HAS PROFITABLE MEETING HERE TUES.

C. V. Clayton Of Tularosa, Elected President; C. R. Quesenberry Of A. & M. Re-elected Secy.-Treas — Rains Cut Attendance.

A very profitable meeting was held here Tuesday by the State Crop Improvement Association. Heavy rains, which seriously hampered traffic in many sections cut the attendance of the membership to fifty-three. The program as announced last week was changed somewhat and was given as follows:

- Address of Welcome—Fred Brainard president Artesia Chamber of Commerce.
- Response—J. W. Newberry, Fair Acres.
- President's Report—J. M. Sloan.
- Secretary's Report—C. R. Quesenberry.
- Production of Potatoes in Lower Altitudes (from certified and uncertified seed)—J. W. Newberry, of Fair Acres.
- Producing Certified Cotton—C. P. Pardue, Loving.
- Marketing of Staple Cotton—F. J. Rigney, Lamesa.
- Special Paper—Dr. G. N. Stroman, plant breeder, State College.
- Election of officers.

At noon the members in attendance were guests of the Artesia Chamber of Commerce at the Hotel Coffee Shop. After dinner, Mayor D. I. Clowe, made a brief address. Another part of the scheduled program dispensed with was the inspection of several farms nearby, owing to muddy roads, however, a number of the visitors inspected the demonstration farm, east of town.

LEGION WANTS 100 PER CENT ENROLLMENT

The American Legion wants a hundred per cent enrollment of all ex-service men. L. N. Kremer, post commander said yesterday that plans had been made to stage an intensive membership drive and that the Clarence Kepple post would endeavor to have a large membership completed by the time the national membership campaign opened, which will be from the 10th to the 20th of October. The Legion is especially anxious to place the names of all former members on the rolls before the national campaign sets in.

RALPH TERPENING IS FAST WORKER

Ralph Terpening thinks he is a fast worker when it comes to collecting hail insurance. Thursday afternoon he took out hail insurance on his green house. An hour after he ordered the insurance a hail storm came, breaking out 64 glass panes and one hour after the hail he was paid off.

OPENING OF ROAD CONTESTED

A petition for the opening of a 60 foot hiway in south Eddy county by way of Black River Bridge from the Carlsbad-Pecos highway west of Malaga to the Carlsbad-El Paso road was presented to the county commissioners Monday. The petition however, was protested by one of the viewers on the ground that it would not serve enough people.

HIGHWAY COMPLETED

The highway department is graveling the last stretch of the White Sands highway between Alamogordo and Las Cruces. Its completion affords an all year highway. A recent count by the Alamogordo C. recent count by a thousand people daily pass by the proposed White Sands National Monument. Most of them, the chamber of commerce reports, visit this natural playground.

HEAVY RAINS WASH OUT TWELVE MILES OF THE ARTESIA--HOPE HIWAY

Rainfall Here About 5 1/4 Inches During Sixty-Four Hour Storm Period — North Artesia Again Under Water Sunday.

Hip boots, overshoes, umbrellas and rain coats have become useful paraphernalia to practically everybody in this section, since Artesia and the surrounding communities have gone wet. Boats will replace automobiles for residents of Eagle draw, if the performances of the first part of the week are maintained.

A cloudburst near the head of Eagle draw west of town, Sunday afternoon flooded north Artesia again and the waters of Eagle draw reached a new high mark. Streets and alleys from Grand Avenue north received a portion of the flood, which held up traffic for several hours on the valley highway.

Twelve miles of the Artesia-Hope road, recently scarified and widened has been washed out. Joe Richards road supervisor, Monday morning estimated the damage at \$2,500 to \$3,000.

Approximately five inches of rain fell here, last week up to Sunday night. Heavy rains fell over the Cottonwood community during the latter part of the week, but the community escaped damage from hail.

Damage to the fruit crop in the Hope community was estimated at \$10,000. Whether or not some of the fruit trees have been injured from the hail can not yet be determined, it was said.

DEMOCRATIC CANDIDATES VISIT HERE FRIDAY

E. K. Neumann of Carlsbad, democratic candidate for attorney general Dennis Chaves, of Albuquerque, candidate for congress and Warren Graham of Albuquerque, democratic nominee for state treasurer, visited a short time in Artesia Friday morning, while en route up the valley to Roswell. Owing to the fact that their campaign itinerary has been changed some confusion resulted in their speaking schedule. This group of candidates were scheduled to have opened the campaign in the valley on October 1, but opened at Fort Sumner instead, coming from Fort Sumner to Carlsbad and then to Artesia. They filled a speaking engagement at Lake Arthur Friday afternoon at 1:30.

ATHLETICS WIN SERIES

The Philadelphia Athletics won the sixth and deciding game of the world's series yesterday at Shibe Park, Philadelphia, by a score of 7-1, from the St. Louis Cardinals, of the National League. Earnshaw, Athletic pitcher is given credit for pitching sixteen of the eighteen innings that won the last two ball games after the St. Louis team had tied the games two all.

STATE CONVENTION OF W. C. T. U. CANCELLED

The State Convention of the Women's Christian Temperance Union scheduled to have been held in Carlsbad Monday and Tuesday was cancelled on account of bad roads, according to word received here.

J. R. WINKLE TO SPEAK HERE TOMORROW IN INTEREST OF DEMOS.

J. R. Winkle of Clovis, president of the New Mexico League of Young Democrats, will speak at the Majestic theatre, tomorrow afternoon at 2:00 p. m., in the interest of his party. Every resident of the community both young and old is cordially invited to hear what Mr. Winkle has to say. It is expected that Mr. Winkle will perfect a local organization of the state league during his visit here. He will address the voters at Carlsbad tomorrow evening.

FEDERAL COURT AT ROSWELL

A special term of federal court will be held at Roswell on December 8th. A grand jury will be empaneled during the term, but there will be no petit jury. Judge Colin Neblett will preside over the court.

22,000 LARGE MOUTH BASS PLANTED FROM DEXTER HATCHERY

Twenty-two thousand large mouth black bass have been taken from the warm water hatchery near Dexter and planted in the streams of south-eastern New Mexico. The fish ranging in size from three to ten inches in length, have been taken out under the supervision of E. L. Perry, state game warden and Eugene Catta, federal fish expert from Kansas. Mr. Catta has been employed by the state to assist in getting the fish out of the hatchery. The plantings of the fish have been distributed principally in Chaves and Eddy counties. Some have been placed in the Pecos at Carlsbad and below, in the Black river and Clark lake. In Chaves the plantings have been distributed in the State Lake near Dexter, the Berrendo river and the Felix river near Hagerman.

STOCKMAN GRANTED REDUCED RATES IN THE LIVESTOCK MOVEMENT

Stockmen of eastern New Mexico will get the benefit of reduced freight rates in moving the livestock to grass. This information was contained in a telegram received at Roswell Saturday from C. W. Warburton, secretary to Arthur Hyde, secretary of agriculture at Washington, D. C. Counties included in the drought area are Chaves, Eddy, Otero, Dona Ana and Lea.

Just how much the recent rains will aid the local range will depend on an early or late frost. The belated moisture will undoubtedly affect both the cattle and sheep movement from the county. Original estimates placed the number of cattle to be moved to pasture at 20,000 and 55,000 sheep.

It was understood from Carlsbad that the new freight rates from Eddy county would be effective as soon as a new tariff could be issued by the railroads. The new rate carries a 33 1-3% reduction.

The procedure required for cattlemen to secure the reduction in freight rates begins with the filling out of a form by W. A. Wunsch, county agricultural agent, after application for the rate has been made to him. In signing this form the county agent certifies to the department of agriculture that he has "thoroughly investigated and considered all conditions and circumstances and am convinced that the reduced rates afforded by the carriers under their emergency rate tariffs should be made applicable to the movement described below." Shipment, point of origin, consignee, destination and date of shipment are given.

These counties, in the view of the chamber of commerce, based on reports from cattlemen that buyers will not take cattle here in view of the lower rates from the official drought-stricken regions, and on investigation, are genuinely in need or relief, as a protracted dry spell has left the cattle industry in bad condition, with certainty of far worse condition could lower freight rates not be applied.

BIRTHS

A son was born to Mr. and Mrs. Roy E. Bisbee on the 6th.
A son was born to Mr. and Mrs. Frank Duggan, on the 7th.

HAIL STORM WEST OF HOPE RESEMBLES A SNOW — GOATS KILLED

One of the hardest rains ever seen in the ranching section west of Hope, fell Sunday afternoon. The rain was accompanied by a severe hail storm, although the hail stones were small, which probably lessened the damage to livestock. After the storm had passed the low hills were covered with a white coating, ranchers declared, which resembled a heavy snow. Here and there over the prairie a small stream would cut through the coat of white.

CORN EXHIBIT

Boyd Williams, one of the master farmers of the Elk community has sent the Chamber of Commerce a specimen of his corn crop to be placed on exhibit. It is very evident that the corn crop of Mr. Williams has not been injured by the drought, at least judging from the samples. Last year Mr. Williams raised 175 bushels to the acre.

Typewriter Ribbons—The Advocate

Typewriter Ribbons—The Advocate will preside over the court.

Refinery At Dayton Gets A Pipe Line to Getty Pool

Will Start Work On Line As Soon As Materials Arrive—Capacity Of Plant Will Be Increased When Line Is Finished.

A contract has been let for the construction of a four inch pipe line from the plant of the State Oil and Refining Co., at Dayton to the Getty oil pool. Negotiations for the construction of the line were completed by Stephen Lanning, manager last week.

The line is to be built and operated by the Western Transit Co., of Tulsa, Oklahoma. Temporary office quarters have been opened in the Ragsdale apartment by Frank Barr of Tulsa, in charge of the construction work. Construction on the line will start as soon as materials arrive, which will be within about ten days and will be completed within about twenty days from the time the construction work is commenced. R. A. Allen has charge of the accounting work at the local office.

It will take about twenty-five miles of pipe to connect the refinery plant. The capacity of the line is to be 3,000 barrels daily, but will be built so that the capacity may be increased as the demand justifies. The consumption of the plant is to be increased about 750 to 1,000 barrels daily on completion of the carrier to the Getty pool.

Crude from the Getty pool is being transported to the refinery in trucks at the present time, but owing to road conditions considerable delay has been experienced in keeping the plant running full time. Under the initial arrangements, the plant has been refining a car of road oil per day, which is far under the demand.

DEMOCRATIC CANDIDATES VISIT HERE FRIDAY

E. K. Neumann of Carlsbad, democratic candidate for attorney general Dennis Chaves, of Albuquerque, candidate for congress and Warren Graham of Albuquerque, democratic nominee for state treasurer, visited a short time in Artesia Friday morning, while en route up the valley to Roswell. Owing to the fact that their campaign itinerary has been changed some confusion resulted in their speaking schedule. This group of candidates were scheduled to have opened the campaign in the valley on October 1, but opened at Fort Sumner instead, coming from Fort Sumner to Carlsbad and then to Artesia. They filled a speaking engagement at Lake Arthur Friday afternoon at 1:30.

QUESTIONABLE ADVERTISING

Merchants frequently have opportunity to part
with their advertising fund in some new form of ad-
vertising. The kind of advertising is rarely the same
since it can not be sold twice in the same community.
It is usually sold under high pressure methods, the
purchaser is never given the opportunity to investigate
its merits for an investigation would put the "skids"
under the solicitor.

High pressure advertising sold by strangers works
a distinct hardship on those who are trying to carry
on a legitimate advertising service. The average pur-
chaser is often prone to judge advertising by results
obtained from the stranger's scheme. All forms of
advertising is classed as bad.

The local Chamber of Commerce could offer a
worthy service to business men if permitted to do so,
in investigating the merits of the out-of-town solicitor.
Chamber of Commerce members could in many in-
stances save the price of their monthly subscription
to this organization, if they would refer strangers seek-
ing either advertising or donations to the manager.
Merchants recently paid out \$80.00 to a couple of
strangers, seeking advertising under the guise of aid-
ing the schools. The schools will get little or nothing
from the scheme, but the strangers got theirs.

"NEVER READ THE PAPERS"

Doctor Finley, former commissioner of education
of the state of New York, says that if a child does
not read, once he has learned to read, he is likely to
become as much of an "illiterate" as if he had never
learned.

The person who admits that he "never reads the
papers," invariably discloses his ignorance when he
talks about public questions, or events; and while he
may not be what is strictly known as an illiterate he
defeats the very purpose of the public school system,
the publication of newspapers and all other processes
of education. This may explain why there are so
many such people at the movies. If most of these
movies were not also "illiterate" the standard of human
intelligence would be higher, he says.

OUR SPEED-MAD GRANDFATHERS

Great grandfather who courted his sweetheart in
an ox-cart, and grandfather who traveled in a stage-
coach were as speed-mad as young men of today, de-
clares Edward A. Filene, veteran Boston merchant, in
the September "Rotarian."

"The underlying truth about the airplane," he says,
"is that it goes places, and gets there quickly over
routes that were never open to travel before."

"But that was equally true of the stagecoach. Peo-
ple of the stagecoach era were as speed-mad as the
people of today. They did things and went places
as quickly as they knew how."

"The essential difference between this and other
ages is not one of materialism versus spirituality, nor
of speed versus a leisurely, patient and philosophical
attitude, but a difference in what we are able to do."

"Success is quite as desirable for our modern youth
as it ever was . . . and I am glad to note that modern
youth is somewhat skeptical. It wants success as ser-
iously as ever, but it seems to be more interested in
how Croesus actually got his money, than in any platitudes
the old gentleman himself may have uttered on the
subject . . ."

"Some of us old fossils . . . are convinced that this
is an age of materialism and low ideals. We suspect
that modern youths are not the heavy saints that we
were fifty or sixty years ago. Those of us to whom
business still means nothing but making money, cannot
visualize public service except in politics and profes-
sions."

"My personal experience with young people con-
vinces me that they can. That is one of the reasons
why the old fellows should go to the young ones for
advice."

FIRE PREVENTION WEEK

This is fire prevention week. Its strict observance
is most important to every one, not only for the one
week but for every week in the year. Loss of life and
property is so tremendous that it affects everybody.
Carelessness, the main cause of fire, should be elimi-
nated as far as possible. That's the principle reason
for fire prevention week, to impress upon every resi-
dent the necessity of care.

Ordinarily we think that the fire insurance company
alone bears the loss, but such is not the case. Fire
losses are paid by the property owners. It is up to
the property owners and tenants to stop the millions
of dollars that go up in smoke every year.

Artesia has an efficient fire department. Citizens
owe it to the community to exercise every possible care
in preventing a fire and to aid the department in every
possible way. About the most worthy service that
can be rendered to the fire boys is to stay out of
their way when a fire occurs. If we give the fire truck
a clear track, such action will be especially helpful
in preventing accidents.

THE FAMILY GARDEN

The family garden is another one of those ap-
parently insignificant items that isn't ordinarily con-
sidered unless an unusual year comes around like 1930
proved to be. The period of 1930 will be known as
the year of the nation wide drouth. Many farmers
in the drouth belt will go into the winter months with
empty larders. To them, the little garden spot in
many instances will represent the difference between
a profit and loss so far as the table is concerned. Not-
withstanding the fact that the rest of the folks may soon
be enjoying a normal business condition, the loss of the
garden will mean an added expense for food and
money spent that might have gone into other chan-
nels.

Returning prosperity to the farmer will be slower
on this account.

We were afraid that we might loose a large portion
of Arkansayers, Mississippians and other former river
bottom residents until the recent rains. The familiar
sights of houses floating down the small streams will
likely make them content to remain another year or
so.

THE ONE DISH MEAL AIDS FARM MOTHERS

Anything that will make the rou-
tine work easier for the farm moth-
er at this time of year, is desirable.
Nothing can help more than a one
dish meal, says Veda A. Strong of
the New Mexico Agricultural Col-
lege. Most people like the one dish
meal and time and labor are saved,
besides a well balanced meal being
obtained.

Certain foods are needed in the
diet. The proteins are the building
foods and are obtained from meat,
fish, eggs and milk. Starches and
fats give the necessary energy and
also supply heat for warmth, while
vegetables are rich in mineral mat-
ter and vitamins. All these foods
may be represented in one dish, al-
tho it is not absolutely necessary that
they should be, if the lack of one or
the other is taken care of at the
next meal.

The following are one dish meals
that are tasty and also easily pre-
pared.

Ham, Beans and Potatoes

Brown a piece of ham in a frying
pan. In the bottom of a kettle
place string beans that have been
prepared; over these put the slice
of browned ham and place on the
ham a pared potato for each mem-
ber of the family. Over the whole
pour the hot water which has been
used to rinse the gravy out of the
frying pan. Simmer slowly until
the beans are done. The potatoes
will be steamed. The water may be
boiled down or only enough left to
make a sauce. This dish contains
protein, starch and mineral matter
and vitamins.

Noodle Ring

Cook two cups of noodles in salt-
ed water and drain. Add one cup
of milk, 2 beaten eggs, a dash of
pepper. Place in a buttered baking
dish, placing an inverted cup with-
out a handle in the center to form
the ring. Bake for 25 minutes in
a pan of boiling water. Fill cavity
with cream meat, chicken or fish.

Stew

Brown in a frying pan 2 pounds
of beef cut in 2 inch squares. Cover
with water, season and simmer
slowly for 1 1/2 hours. Add 1 cup each
of carrots and potatoes cubed, 1
cup tomato pulp, 1 good sized onion,
chopped fine and 1/2 cup chopped
celery. Cook slowly 1 1/2 hours. If
desired, when done the vegetables
may be removed and the gravy
thickened. A lettuce and tomato
salad served with French dressing
will add color to this meal.

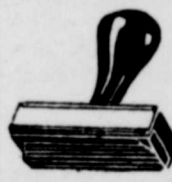

Why Geese Fly in Wedge

Wild geese, flying through the sky
in V-formation, use the wedge shape
to increase speed, says Popular Me-
chanics Magazine. As the leader
forges ahead, he displaces air which
is thrown obliquely backward in two
diverging surges. Properly spaced
behind and to either side the follow-
ing geese are pushed forward in some
degree by the surges which strike
their bodies at an oblique angle.

WOOL MOHAIR GROWERS ORGANIZE COOPERATIVE ASSOCIATION REPORT

Mohair and wool growers of south-eastern New Mexico, Arizona and West Texas have organized a tri-state association according to word from Alamogordo. The purpose of the organization is cooperative marketing and cooperation with the federal farm board.

The association, which will have headquarters in El Paso where the group was organized, expects to handle more than a million pounds of wool.

The directors of the group alone will provide 120,000 pounds. The following are directors: F. M. Bradford, Tom Fleming, N. G. Daugherty, Alamogordo G. W. Henderson, Tularosa; W. W. Thredgrill, F. T. Scaife, El Paso; E. P. Fleming, John H. Wood, Engle; J. W. Williams, Ables.

ALCOHOLIC USE IN THE NATION IS DECREASING

WASHINGTON, D. C.—The prohibition bureau Saturday estimated the per capita production of beverage alcohol at .602 gallons for the last fiscal year and offered for purposes of comparison, internal revenue bureau figures placing such production in 1914 at 1.705 gallons.

The estimate for 1930 was based upon an extended study of the consumption of corn, sugar, grapes, hops, malt and other commodities used in the manufacture of illicit liquor, the amount of industrial alcohol diverted into bootleg channels and intoxicants smuggled into the country.

Detailed figures, together with conclusions drawn from them were set forth in an 80 page monograph, prepared by E. A. Grant and E. P. Sanford of the bureau's division of research and public information. It was intended as the first of a series of similar reports.

The statement was repeatedly made that the figures for 1930 had to do only with possible production. From these must be deducted seizures and other factors before an index of consumption can be reached. The research division is now engaged in this task.

"Statements made from time to time that the consumption of alcoholic beverages is greater today than it was prior to the adoption of the eighteenth amendment are unwarranted," the report said.

After reviewing estimates of production in the last few years made by organizations and individuals both favoring and opposing prohibition, the bureau said, "it appears that consumption of alcoholic liquor in the United States is growing less from year to year."

INSIDE INFORMATION

Dont' iron white silk with a very hot iron. All silk scorches easily, and too great heat turns silk yellow. Use a warm iron on the wrong side of the silk, and protect it with cheesecloth.

Iron rust stains on white materials often respond to lemon juice. Spread the stained place over a vessel of actively boiling water and then squeeze lemon juice on the stain. After a few minutes, rinse the fabric and repeat.

To make grape juice sherbet, sweeten the juice to taste with sirup rather than plain sugar, after adding one tablespoon of lemon juice for each quart of grape juice. Turn in the freezer until stiff. Add a beaten egg white after the mixture is frozen, give the dasher a few more turns, remove, pack.

Of all common foods cheese is one of the richest in calcium. Many Americans do not get in their foods enough calcium to furnish their bodies with the quantity of this mineral needed for building and repairing teeth and bones. Cheese made from whole milk also contains a considerable quantity of fat. The protein of cheese is the same efficient kind as that in meat. A cheese dish is therefore high in food value.

Always leave at least an inch of the stem ends on beets when cooking them, so as to prevent "bleeding," or having the color run out. The skins are left on for the same reason. To peel cooked beets quickly drop them for a moment into cold water and the skin and stem can be slipped off. Serve hot, sliced or diced, with butter, salt and pepper.

LOCALS

Mr. Oldham, of Oklahoma, has been here this week looking after property interests and went to Carlsbad Tuesday with Judge Atkeson. Mr. Oldham is a brother of Mr. Oldham, (deceased), who resided here many years ago.

Mrs. S. B. Dyer and a friend, Mrs. Boge, of Tulia, Texas, were here recently for a short visit, guests at the Frank Linell home. The Dyers were residents of Artesia some twenty-one years ago and were proprietors of the City Bakery.

Mr. and Mrs. J. S. Sharp have been enjoying a visit the past week from their brother-in-law, H. F. Inskeep of Marshalltown, Iowa, also their daughter and husband, Mr. and Mrs. Harry Walsh of Beloit, Kansas, who arrived last Saturday. Mrs. Inskeep has been here for the past five weeks with her sister, Mrs. Sharp and on Tuesday Mr. Sharp accompanied them all on a trip thru the Carlsbad Caverns. They plan to leave the last of the week for their respective homes.

You would not think of employing unskilled labor to do the work of a high class salesman—it's just as serious a matter to use only good printing. Try The Advocate, phone 7

ROSWELL WINS BY A LONE TOUCH DOWN IN A HARD FOUGHT GAME

The Artesia Bulldogs fought the fast Roswell Coyotes almost to a standstill on the Roswell gridiron, Friday afternoon in a game that was marked by many casualties. Altho Artesia lost by a lone touchdown, the contest was anybody's game until the final whistle. A penalty in the last few minutes of play, probably cost Artesia a chance to tie the game when the locals had Roswell backed up on their own five yard line.

A wet field handicapped both teams. Artesia, however, showed further improvement in Friday's game and if the Bulldogs maintain their present pace, they will be a real menace to all contenders. A feature of the Roswell contest was a run by Brown, of Artesia, who was downed by Jones near the goal line. He hurled passes that were a continual threat to the Roswell goal, but retired in the final quarter, due to injuries. House and Garner showed up well in the line. Barkley was the outstanding player for Roswell.

The lineups:
ROSWELL **ARTESIA**
 Hanny LE Pollard
 Barkley LT Wheatley
 McGuire LG Smith
 Mills C Syferd
 Sellman RG Goodell
 Schrimsher RT Garner
 Eaton RE House
 Bassett QB Brown
 Wheat LH Hill
 Meek RH Burch
 Jones FB Gates

Substitutes — Roswell: Dunn for Sellman, Amason for Bassett, Wheat for Laughlin. Artesia: Bullock for Pollard, Traylor for Goodell, Walker for Hill, Pollard for Bullock, Gray for Brown; Norris for Burch, Pollard for Crockett.
 Penalties—Roswell: four for 40 yards; Artesia: five for 45 yards.
 Passes—Roswell attempted two, one complete, one intercepted; Artesia attempted 12, completed two, one for six yards and had five intercepted.
 Officials—Referee: Graton; umpire: Storms; timekeeper and field judge: Major Summers; headlinesman: Kelly.

BRIEF BITS

A feeling of aristocracy is something that absolutely nothing can eradicate.

Even the most careful and dignified have to hear some impudence.

Silent people are frequently terribly conceited; not without reason, sometimes.

"Life is just one thing after another." That means unexpected "things."

What is said of others in your presence? What is said of you in your absence?

A "career" is a very good thing if it means sticking to something you know how to do.

One with a jealous disposition should be careful not to care much for anybody.

Experience is not always valuable. Multitudes reach the end of life, having nothing to show for it but experience.

GEMS OF THOUGHT

Patient waiting may solve a problem when feverish activity fails.

There is no electric elevator to success. Step up the stairs, don't stare up the steps.

If you would have a faithful servant, and one that you like, serve yourself.—Benjamin Franklin.

There is only one way of seeing things rightly, and that is seeing the whole of them.—John Ruskin.

He that can rule his tongue shall live without strife; and he that hateth babbling shall have less evil.—Ecclesiasticus.

No one is wise who does not reach up for his wisdom. No one is wise who does not reach down with his wisdom.

Light gives a shadow; and, in this imperfect state, every good seems to bring into play some evil.—Robert Southey.

FACTS AND FIGURES

The first metal discovered was copper.

Ocean tides run up the St. Lawrence river 283 miles.

There are more than 10,000 known species of spiders.

The diameter of the star Betelgeuse is 300,000,000 miles. The earth's is 8,000 miles.

Cells of the human lungs present about 2,500 square feet of air-absorbing surface.

The hide of a single whale has made 200 pairs of boots, 25 pairs of shoes besides large quantities of heavy belting, shoestrings, etc.

Typewriter Ribbons—The Advocate

PICKED UP ON MAIN

We were taken to task on our storm loss estimate of half million dollars last week by Mark Corbin and others, who sorter left the impression that cotton was the only thing damaged by the hail. The exact amount of damage is a more or less irrelative matter at this particular point, although we might mention that Charley Rogers lost about \$6,000 worth of cotton, had his big barn blown down and his pet rooster killed by the hail, all of which makes the exact amount of loss more or less hard to determine. One optimistic feature of the whole controversy is that it looks like Mark, Ike Keller and a few of the local boys are reading The Advocate religiously and it appears as though Ike may be laying his plans to run for mayor in 1930. Twenty years of reading The Advocate ought to prepare anybody for the mayor's office.

We can rest easy about our water meter running too fast after hearing George Frisch's speech at water at the Rotary club Tuesday. The only thing we fear now is that some of the boys consciences may hurt them so badly after hearing George's wet speech that they may ask the city to test their meter for slowness. George said a mouthful when he stated that the public never had a word for the water boys as long as everybody gets good service, but let that service stop . . . then they would catch H.

One of Artesia's bachelor's bought an order of goods from a mail order house recently and included in the package was a note containing these words: "I am a young lady of 20 and would like to correspond with a bachelor with view to matrimony." Name and address were also given. The bachelor wrote and in several days received this reply: "Mamma was married 20 years ago."

A. Abernathy, J. O. Savoie. 42-3tc

How Currents Differ

An alternating current is defined as a succession of electric currents which rise and fall in strength and flow alternately in opposite directions at regular intervals. The currents or impulses vary in intensity from a plus maximum to a negative maximum, and they are separated by points of zero pressure, as distinguished from a direct or continuous current. A direct current is an electric current constant in direction, though not necessarily so in value. It travels in one direction along a conductor, and if this conductor joins the terminals of a source of energy such as dynamo, the current is said to flow from the positive pole to the negative pole. While it is usually more economical to transmit electricity in the form of A. C., it is often more conveniently utilized in the form of D. C., and to transform the current from one form to the other a converter or transformer is employed.

How Radio Waves Spread Death

Victory over one of man's most dangerous and destructive enemies, the insect, and an important new use for radio are promised as a result of interesting tests with high-frequency radio waves at the New Jersey agricultural experiment station, says Popular Mechanics Magazine. Investigators found that such waves killed cockroaches, beetles, house flies and other insects in short order. The invisible impulses, emitted on a wave length of about 24 meters and with a frequency of nearly 12,000,000 cycles a second, developed heat of a deadly degree within the bodies of the insects, producing death in a short time.

Ninety-four books were purchased by the library during August and September. Magazine found here, any two of which may be taken instead of one book if desired, are: American Boy, American Girl, Good Housekeeping, The American, Hygei, Cosmopolitan, McCall's, Pictorial, Popular Science, Woman's Home Companion, Ladies Home Journal, Christian Science Magazine, "In-Once." Sixteen booklets on Spanish art with portraits of artists and illustrations of their work, sent by the Hispanic Society of America have recently been donated and are very good. Few people realize how many fine books our library contains and what an amount of reading matter goes out to the public. During August and September more than 2000 books were issued. The latest count showed between four and five thousand volumes on our shelves. At the low rate of 25c per 3 months it provides the cheapest and best reading matter possible. Books for tiny tots and up to the oldest folks may be found. Visitors are always welcome. Hours 3:00 p. m. to 6:00 p. m. and 7:00 to 8:30 on Saturday evenings.

How Indians Are Identified

Navajo Indians, lacking birth certificates, are being supplied with disks of identification similar to those worn by soldiers, which will enable the Indian at any time to establish his tribal status and protect his property rights.

How Card Game Got Name

The card game bridge has nothing to do with a bridge over a river, but is a corruption of the Russian word "birich." In different forms, bridge was played in Russia long before it was adopted in this country.

HOW

SCIENCE ACCOUNTS FOR PERIODS OF HURRICANE.—Since hurricanes are formed by the interaction of heat, and atmospheric pressure, the summer months and those of early autumn, when the cumulative effects of the summer sun are still to be felt, are naturally the periods of greatest hurricane occurrence.

Porto Rico has not experienced a hurricane in June during the last forty years, as shown by a study by the United States weather bureau. Only one or two have occurred in July. In August, September and October, however, the island has repeatedly suffered in varying degrees from these destructive storms.

The latest West Indian hurricane, like most of these mid-season storms, apparently originated east of the easternmost islands of the West Indies. It struck about midway of the Lesser Antilles, causing damage in the French island of Martinique, and probably in the neighboring British island of Dominica and the French Guadeloupe. It was then reported in the Virgin Islands, dependencies of the United States. Only a few hours later its full force struck San Juan at the eastern tip of Porto Rico.—National Geographic Society Bulletin.

THE PERRYS HONORED

Rev. and Mrs. W. M. Perry, who had been visiting their relatives, the Linells, for the past three weeks, left last Thursday for their home at Long Beach, California. Mrs. Alta Linell accompanied them and will spend the winter with them there. Prior to their departure they were entertained at twelve o'clock dinner on Tuesday by Mr. and Mrs. Will Linell. On Wednesday Mr. and Mrs. Frank Linell entertained the entire family connection and a few friends at a twelve o'clock dinner in their honor. On this occasion the company included besides the Perrys, Will Linell and family and Mrs. Martha Harris, Jack Clady and family, Mrs. Alta Linell, Mr. and Mrs. James Sangster and Mrs. Bruce.

THE P. E. O. SISTERHOOD

The P. E. O. Sisterhood met with Mrs. Jessie Morgan last Friday afternoon for its regular meeting, the hostess being assisted in serving delicious refreshments by her daughter, Miss Ruth Morgan. The business session was followed by a social hour.

B. Y. P. U. 5th SUNDAY MEETING

A number of Roswell people were here Sunday afternoon to attend the Fifth Sunday meeting of the B. Y. P. U. and on account of the high water had to remain over night. A number of others, a little later in starting, arrived too late to cross Eagle Draw and consequently never reached the meeting at all. All who came were from the Emanuel Baptist church, the representatives from the First church did not start. Those from Roswell were Rev. Johnson, pastor of the Emanuel church, Rev. Kuykendall, Mrs. Miller, Mrs. Goddard and Miss Willa Mae Lair. Among other out of town attendants were Rev. and Mrs. Murphy of Carlsbad, Mr. and Mrs. Murphy of Hope and a few from Loving. The high water interfered with the program as well as the attendance, some numbers being necessarily omitted.

BRANTLY HAMBLIN MARRIED

The following item with reference to the marriage of Brantly Hamblin, former resident of Artesia, was clipped from the Roswell Record of October 2nd:

A wedding of unusual interest was solemnized at ten thirty o'clock this morning when Miss Mary Virginia Allen, daughter of Mr. and Mrs. L. Ethan Allen, became the bride of Mr. R. Brantly Hamblin of Hobbs, son of Mr. and Mrs. R. N. Hamblin of Carlsbad. The Rev. LeRoy Thompson, pastor of the First Presbyterian Church, officiated using the impressive ring ceremony. The home was beautifully decorated with a profusion of vari-colored dahlias, cosmos and greenery. An arch connecting the double rooms was banked with flowers and ferns. A huge white wedding bell swung gently over head pealing out the joy echoed in the hearts of the happy couple. The bride entered with the groom simply but strikingly dressed in a gown of steel blue georgette and lace. Her bouquet was of bride roses and baby breath, tied with streamers of tulle. She was attended by her sister Miss Edna Allen, who wore an orchid sport suit, with hat and matching accessories. Her flowers were of pink roses. Mr. Walter B. Bims, Jr., served as best man. Little Elsie Marie Coyne dressed in frilly white carrying a basket of fall blossoms, was the flower girl. The bride a charming young girl, has a host of friends in Roswell and Carlsbad schools and was graduated with the class of 1930. The groom was born in Carlsbad, attended school there and was graduated from the Bower Institute of Pharmacy at Brunswick, Missouri. He is pharmacist for the Terrell Drug Company at Hobbs, New Mexico.

After a short honeymoon trip Mr. and Mrs. Hamblin will be at home in Hobbs.

GIRL SCOUTS ENTERTAINED

The Girl Scout Council, Mrs. Rex Wheatley chairman, entertained the high school troop at the Central school Tuesday evening. Including the scouts and council members, and leaders there were about thirty present. Merit badges and other awards were presented and the troop furnished the entertainment, which consisted of a scout program, reports from the Scout camp in Bear Canyon this summer, music and games. Plans were made to give a supper during the visit of Miss Twoby, acting regional director of the Cactus area. Miss LeVon Brown is captain and Mrs. Fred Brainard, lieutenant of the high school troop. Hot chocolate and cake were served by the council.

Social Calendar

TELEPHONE 217

THURSDAY (TO-DAY)

The Eastern Star and their families will have their annual picnic in the chapter room this evening.

FRIDAY

The Young Mothers' club will meet with Mrs. Lydia at 2:30 p. m.

MONDAY

The American Legion will meet with Mrs. Frank Linell at 2:30 p. m.

TUESDAY

The Second Bridge club will meet with Mrs. Beecher Rowan, one o'clock luncheon.

The Eastern Star will meet at 7:30 p. m.

The Passtime club will meet with Mrs. George Williams at the H. L. Muncy home at 2:30 p. m.

The Fortnightly Bridge club will meet with Mrs. W. E. Flint at the Flint ranch, formerly the C. A. P. ranch, for one o'clock luncheon.

WEDNESDAY

The regular meeting of the Women's club at the Central school at 2:30 p. m. Miss Twoby, Girl Scout leader, is expected to be present and give a talk at 3:30. All members are urged to be present at 2:30. Important business.

The Junior Women's club will have a meeting in the club room at the Central school at 4:00 p. m., to complete their organization.

THE FIRST BRIDGE CLUB

The First Bridge club was entertained at its regular meeting on Tuesday afternoon by Mrs. F. G. Hartell, who had an extra table of guests. Guests, and substitutes were Mesdames Wm. Compton, Frank Seale, Rowan, Compton and Fuqua. Light refreshments were served.

THE T. E. L. CLASS

The T. E. L. class of the Baptist Sunday school held its regular meeting at the home of Miss Jennie Mae Atteberry Tuesday afternoon. During the business meeting the following officers were elected: Mrs. Morrison Livingston, 1st vice-president; Mrs. Howard Byrd, 2nd vice-president; Mrs. J. F. Cobble, 3rd vice-president; Mrs. Charles Ransbarger, secretary; Mrs. C. M. Cole, treasurer; Mrs. John Simons, reporter.

There were two guests, Mrs. H. Y. McBride of Hot Springs, Arkansas and Mrs. Russell of Virginia. Light refreshments were served.

SIX O'CLOCK DINNER

Mrs. S. S. Ward entertained at a four course six o'clock dinner Tuesday evening in honor of the birthday anniversary of her daughter, Miss Jack. The Hallowe'en motif was attractively carried out in the decorations and menu. The dining table was centered with a large bouquet of golden rod and adorned with candles. Covers were laid for the Misses Ethelyn Cobble, Evelyn Cobble, Sue Flint, Glennis Smith, Jeanne Wheatley, Grace Sinclair, Lillie Mae Miller, Alma Pearson, Beulah Beth Terry, Virginia Goodell, Wyoma Phillips, Margaret Frisch, Lilla Jackson, Wilma Robinson, Viri Campbell, Agnes Ann Williams, Laura Elizabeth Bullock, Thelma Mitchell and Mary Lynne Haley.

Student's note book covers embossed in school colors at The Advocate. Your name stamped free.

JUNIOR WOMEN'S CLUB TEA

The Junior Women's club made its debut yesterday afternoon in a tea at the Dr. Clarke home, which was the social event of the season. In the receiving line, gowned in pretty party dresses, were some of the young ladies, concerned in the organization of the Juniors. Heading the line was Miss Catherine Clarke, the other being Mesdames Stanley Blocker, Tex Henson, Leslie Martin, Albert Glasser, W. D. Jones and Harry Jernigan and Miss Helen Green, who welcomed their guests, members of the Women's club and other friends principally young ladies of the community, from four until six o'clock. Miss Virginia Egbert, another of the Juniors, led her orchestra, composed of the Misses Lillie Mae and Mary Ann Miller, Jeanne Wheatley, Mona and Martha Sinclair, Mrs. Brick and Kenneth Compton, which played during the afternoon, adding much to the pleasure of the occasion. Other numbers on the program were a dance by Miss Wyoma Phillips, Miss Grace Sinclair accompanying, a piano solo by Miss Elizabeth Gage, a vocal solo by Mrs. V. L. Gates and a violin solo by Mrs. Willis Morgan, the two latter being accompanied by Mrs. Henson, all of which were much enjoyed.

In the dining room tea was served from a table adorned with a beautiful lace cover. Centering the table was a bouquet of pink cosmos with four tall pink tapers at the corners. Mrs. H. A. Stroup, president of the Women's club, and Mrs. G. R. Brainard, treasurer of the State Federation, poured during the first hour and Mrs. G. U. McCrary and Mrs. C. R. Blocker, recent past presidents of the club, during the second hour. The Misses Grace Sinclair LaRue Mann and Sue Flint passed the refreshments.

Floor vases of handsome dahlias, and bouquets of autumn leaves and ferns made the spacious Clarke home a very attractive setting for this first social function of the Junior club.

Miss Ella Brown and Miss Alice Ruth Williams drove from Hope and Mrs. George Wilkins, from Lake Arthur to attend. Mrs. H. Briam of Marfa, Texas was also a guest.

The Juniors will have a meeting in the club room at the Central school Wednesday afternoon at 4:00 o'clock to complete their organization.

THE IDLEWHILES BRIDGE CLUB

The club met with Mrs. J. H. Jackson on Tuesday afternoon with the following substitutes, Mesdames Fred Brainard, Lewis Story, Howard Williams, G. U. McCrary, Richard Atteberry and Aubrey Waton. Light refreshments were served.

WINTERS—CAVE

The marriage of Chester Cave and Miss Beatrice Winters occurred in Carlsbad last Friday afternoon, the 3rd inst. Chester Cave is the oldest son of Mr. and Mrs. Ward Cave and was born in Artesia and practically brought up here. He is a graduate of the Artesia High school, and is in the employ of the Phillips Petroleum Co., and the young couple who are temporarily in town, will make their home in the Phillips camp.

CHAVES COUNTY COURT IS UPHOLD IN MURDER TRIAL

SANTA FE—The state supreme court Tuesday affirmed the conviction of Miguel Martinez of second degree murder in Chaves county. The court held that it is not mandatory that jurors be called in order in which their names appear on the venire.

PRISON TELEPHONE IS MOST VALUABLE

Instrument in Sing Sing's Guard Tower Tested Daily

A telephone that has never been used is considered the most valuable telephone in Sing Sing Prison.

It is the telephone in the guard tower at the north gate outside the warden's office. This telephone is available only to the guard on duty in that tower, and it cannot be reached by any prisoner. It is connected by direct wire to the telephone central office. Here a light will flash if that receiver is ever lifted, and that flash, coming simultaneously with the booming shriek of Big Ben, the prison siren, will instantly transmit the message that a general escape, delivery or riot is being attempted. This telephone has never been used, but so vital is it considered to the prison that it is tested every day.

The telephone at Sing Sing is as valuable an agent to the warden of the prison as it is to any executive of any business. It enters largely into the general routine of work of the prison and has proven an indispensable aid to the prison administration.

Two telephone systems serve the Sing Sing community of 2,350 souls, an inside system with 140 extensions, and an outside system with fifteen extensions, eight trunks, and three direct wires. One male operator, an employee, handles both switchboards, as the post is too important a one to give to a prisoner, although trustees may answer at the other end of the circuit. Thus, there is just as well defined a bar between the prisoner and the outside world, from a telephone standpoint, as there is between the prison itself and the rest of the world through the heavy steel door of the South Gate which snaps like a steel trap after a group of handcuffed prisoners have been shut within its walls.

In the shops, the schools, the various offices and the guard posts of the prison, telephones on the inside system keep the warden's office in constant touch with every activity and afford speedy communication facilities to the employees of the prison and to certain trustees who aid them. Connected with the outside telephones through the switchboard in the administration building are only the important officials of the institution, such as the principal keeper, comptroller, the superintendent of industries, the chief surgeon, the chief clerk and the warden. No call passes through this board from an official to the outside world until the vigilant operator is assured of its validity. Service is maintained on a twenty-four hour basis.

The switchboard is located in a room adjoining the warden's office, outside the prison proper, and between this strategic center of communication and the prison there is a stretch of concrete roadway some 200 yards in length down which no prisoner is allowed to come.

Announcement Cards, blank or printed—The Advocate.

LOCALS

Mr. and Mr. Ned Hedges of Lake Arthur were trading in town this morning.

N. F. Adams, railroad officer at Marshall, Texas, removed 426 hoboes from trains during one month.

W. T. Reed, and daughter Miss Mary Nette Reed, and J. R. Linn, of Carlsbad were pleasant callers at The Advocate this morning, en route to the Cotton Carnival at Roswell.

Jim and Albert Foster, accompanied by their mother, Mrs. M. S. Foster were in from the Foster ranch near Lakewood. "We have had plenty of rain, but no hail," says Mr. Foster.

LUTHERAN MISSION FEST

The Lutheran people will again celebrate this year at the church of Lake Arthur October 12th.

Rev. Carl Schmidt will conduct the service at 8 o'clock in the morning. Note of all mission work is the saving of souls through the preaching. Rev. Schmidt is pastor of the Lutheran church of Artesia well known in the valley. His sermons will prove of interest to all who attend.

SIX AGES OF MAN

- Bossed by mother.
- Bossed by nurse.
- Bossed by sister.
- Bossed by wife.
- Bossed by daughter.
- Bossed by granddaughter.

HAPPY THOUGHTS

- Transactions speak better than words.
- Burdens either broaden shoulders or break backs.
- The heroes of tomorrow are the bachelors of today.
- Footprints on the sands of time are not made by sitting down.
- The best way to influence a man is to tell him he can't be influenced.
- It's a good plan to hope for the best, but it's a better plan to work for it.
- If there is one thing a man doesn't understand about marriage it's his wife.
- Women can keep a secret just as well as men, but it takes more of them to do it.
- Some people think sympathy such a good thing that they use up their entire stock on themselves.
- Opportunity knocks once at every man's door, but he won't wait while you put on a dressing gown and come down, yawning.

DENY MOTION IN JULIAN OIL CASE

OKLAHOMA CITY, Oklahoma—A motion of the C. C. Julian Oil and Royalties company to dismiss its appeal in the state supreme court which attacked the constitutionality of the Oklahoma proration laws and the jurisdiction of the corporation commission to enforce them, was denied by the state supreme court Tuesday.

John Head, attorney for the Julian company, sought the dismissal immediately after the federal district court issued an opinion in a similar case pending there. Head, in a statement, said he was seeking to dismiss the case but with a view to continuing a fight against the corporation laws. The procedure he would follow, he indicated, would be to take the case before the corporation commission and obtain a definite ruling there before appealing.

FIVE HURT IN CAR WRECK OUT OF DANGER

Five employees of the state highway department, injured in an auto accident on the Roswell-Carlsbad highway 3 miles south of Hagerman Tuesday just before noon were said to be recovering nicely Wednesday morning. Only one of the five, Nelson Jones, remained in the hospital yesterday. The accident was caused by a rear tire blowing out on a small truck which was being driven south to make repairs on roads. The injured were: J. H. Gregg, badly bruised shoulder; S. R. Robinson, cuts and bruises; Nelson Jones, broken leg and cuts and bruises; R. H. Falls, three ribs broken and W. H. Daniel, few cuts of only minor importance.—Roswell Record.

REBEKAS-ODD FELLOWS TO HOLD A THREE DAY PROGRAM AT CARLSBAD

The Carlsbad Rebekah and Odd Fellow lodges are preparing to care for three hundred members who are expected to attend the I. O. O. F. grand lodge, Rebekah Assembly and Grand Encampment to be held in Carlsbad, Monday, Tuesday and Wednesday of next week. A feature of the convention will be the initiation of a number of candidates in the big room of the Caverns. The Odd Fellow initiation in the big room will be the second fraternal initiation to occur in the Caverns, but the Odd Fellow initiation will eclipse the first in the point of numbers.

The complete program announced is as follows:

MONDAY

9:00 a. m.—Grand Encampment session.

1:30 p. m.—Rebekah School of Instruction by Triple Link Rebekah Lodge No. 10, Albuquerque.

3:00 p. m.—Rebekah memorial service and draping charter by Sunrise, Rebekah Lodge No. 9, Artesia.

4:00 p. m.—Sightseeing tour.

General assembly of all branches of the order, Monday, at 7:00 p. m.

Invocation—Rev. H. C. Murphy. Address of welcome in behalf of the city—L. A. Swigart, mayor of Carlsbad.

Address of welcome in behalf of Eddy Lodge No. 21—T. C. Horne. Piano Solo—Mrs. C. W. Bynum.

Response—Grand Master D. D. Monroe, Clayton.

Vocal Solo—Mrs. H. E. McMinn. Welcome address in behalf of Chamber of Commerce—Victor L. Minter, past grand master.

Welcome address, in behalf of Carlsbad Encampment, No. 16—J. B. Stamp.

Violin Solo—Mrs. Glen McCoy. Response—Grand Patriarch—O. E. Silver, Albuquerque.

Whistling Solo—Mrs. Allen Richardson.

Welcome Address, in behalf of Carlsbad Rebekah Lodge No. 13—Mrs. Belle McCord, past president.

Response—Miss Margaret Jackson, president Rebekah Assembly, Tucumcari.

Male Quartette—Glen McCoy, C. A. Bynum, Ray Soladay, Troy Bourland.

Presentation of Veteran Jewels by Grand Master D. D. Monroe.

Drill by Carlsbad Rebekah Lodge No. 13.

Drill by Eddy Lodge No. 21—Carlsbad.

Refreshments.

TUESDAY

9:00 a. m. Grand Lodge session.

9:00 a. m. — Rebekah Assembly session.

2:00 p. m.—Grand Lodge session.

2:00 p. m. — Rebekah Assembly session.

7:00 p. m.—Degree of Chivalry.

8:00 p. m.—Rebekah degree work by Carlsbad Rebekah Lodge No. 13, Carlsbad.

WEDNESDAY

9:00 a. m. Grand Lodge session.

9:00 a. m. — Rebekah Assembly session.

11:30 a. m.—Installation of officers of Rebekah Assembly, by Carlsbad Rebekah Lodge No. 13, Carlsbad.

2:00 p. m.—Starting of trip thru Carlsbad Caverns.

7:30 p. m.—Conferring the first degree in the Caverns by Eddy Lodge No. 21, Carlsbad.

Registration, Grand Lodge, Encampment, Degree of Chivalry and Rebekah degree work will be held in I. O. O. F. Temple.

Rebekah Assembly will be in the Masonic Temple.

Why One Is "On Wrong Tack"

We see, hear and use the phrase "On the wrong tack" so frequently in its well-known sense, indicating "the wrong direction" or "the wrong idea," that it probably never occurs to us that it was not at first part of the language of landlubbers.

In the parlance of the sea, whence we have this phrase, a tack is a rope used to fasten the corner of a sail. Being on a certain tack refers to the course of a vessel in regard to the trim of her sails.

Hence being "on the wrong tack," for following a wrong direction or chasing a lost hope, or again metaphorically, indicating a mistaken idea.—Kansas City Star.

LEGAL ADVERTISEMENTS

IN THE PROBATE COURT COUNTY OF EDDY, NEW MEXICO

IN THE MATTER OF THE ESTATE OF RALPH W. TAYLOR, Deceased. No. 639.

NOTICE

Notice is hereby given that the undersigned was on the 15th day of September, 1930, appointed Administrator of the Estate of Ralph W. Taylor, deceased, by Hon. M. O. Grantham, Probate Judge of Eddy County, New Mexico.

Therefore all persons having claims against said estate are hereby notified to file the same within one year from date of said appointment as provided by law, or same will be barred.

September 24, 1930. S. E. FERREE, Administrator.

41-3t

NOTICE STATE ENGINEER'S OFFICE

Number of Application 1894. Santa Fe, N. M. October 6, 1930.

Notice is hereby given that on the 18th day of August, 1930, in accordance with Chapter 49, Laws of 1907 J. B. Muncy, of Artesia, County of Eddy, State of New Mexico, made formal application to the State Engineer of New Mexico for a permit to appropriate the Public Waters of the State of New Mexico.

Such appropriation is to be made from the Pecos River at a point in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of section 23, Township 16-South, Range 26 East, N. M. P. M., which bears N. 41° 45' W. 3244 feet distant from the south quarter corner of Section 24 by means of a pumping plant, and 360 acre feet are to be conveyed to 120 acres in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 26 and W $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 25, by means of a ditch 1166 feet in length, and there used for irrigation purposes.

The applicant claims the right to the waters of an artesian well located at a point in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 31, Township 16 South, Range 27 East, which bears S. 24° E. 180 feet distant from the northwest corner of said section, the flow of which well is equivalent to 0.5 second-foot, and applicant purposes to allow this water to discharge into the Pecos River at a point in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 6, Township 17 South, Range 27 West, in exchange for the water to be diverted as above.

Any person, firm, association or corporation deeming that the granting of the above application would be truly detrimental to their rights in the water of said stream system shall file a complete statement of their objections substantiated by affidavits with the State Engineer and serve a copy on applicant on or before the 6th day of December, 1930, the date set for the Engineer to take this application up for final consideration unless protested. In case of protested applications all parties will be given a reasonable length of time in which to submit their evidence in detail or arrange a date convenient for a hearing or appoint a referee satisfactory to all to take testimony. Appearance is not necessary unless advised officially by letter from the State Engineer.

HERBERT W. YEO, State Engineer.

M. W. Evans

Why Slit Is Necessary in Formation of Nibs

All pen-nibs have a slit running to the point from a little round or oval hole which is cut in the middle of the nib where it begins to taper. Were it not for this slit, and the fact that the whole body of the nib is curved, we should be unable to write. The curvature causes the nib to hold a considerable quantity of ink when it is dipped in the pot, and the slit causes the point of the nib to open into two sections when it is pressed upon the paper, and the ink between these sections is then left on the paper, forming a line or letter, as the case may be. Steel nibs also have two little slits in their sides or shoulders. These are to give greater flexibility to the nib. Gold nibs, being softer, do not need these side slits.—Montreal Family Herald.

STATEMENT OF OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.

Of Artesia Advocate Published Weekly at Artesia, New Mexico, for October 1, 1930.

State of New Mexico, $\frac{1}{2}$ ss.

County of Eddy

Before me, a Notary public in and for the State and county aforesaid, personally appeared W. C. Martin, who, having been duly sworn according to law, deposes and says that he is the editor of the Artesia Advocate and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse side of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Publishers, Martin and Blocker, Artesia, N. M. Editor, W. C. Martin, Artesia, New Mexico. Business Managers, Martin and Blocker.
2. That the owners are: W. C. Martin, Artesia, N. M. and C. R. Blocker, Artesia, N. M.
3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: none.

W. C. MARTIN, Editor.

(SEAL) Sworn to and subscribed before me this 7th day of October 1930.

BEATRICE BLOCKER, My Commission expires March 24, 1933.

LOCALS

Joe Bowers of Hope was attending to business matters here Tuesday.

Jeff Hightower arrived Tuesday evening to spend a few days at home.

George Williams went to Kansas City, Saturday with five cars of cattle.

Mr. and Mrs. G. G. Taylor of Amarillo, Texas, were guests of Mr. and Mrs. R. W. Dunn over the week end.

Mrs. Rachel Wiley, of Roswell, has been visiting Mrs. L. Crouch this week. She was the dinner guest of the Misses Bauslin yesterday.

Charles Houx, of Kansas City, has been a guest at the S. S. Ward home this week. Mr. Houx was the former partner of Mr. Ward in the Flying H. ranch.

Rev. Scoggins and J. E. Robertson are attending the New Mexico Annual Conference in Portales this week. Rev. and Mrs. Z. B. Moon are also present from here.

H. C. Roe, secretary of the Pecos Valley Gas Co., accompanied by Frank Jones, left Tuesday morning for a business visit to Dallas, Texas.

Mr. and Mrs. Stevenson and Mr. and Mrs. Leonard Jernigan and baby daughter were Sunday night guests at the home of Leonard's parents, Mr. and Mrs. E. T. Jernigan. They had been on a visit to Hobbs and were water bound on their way home to Clovis.

Mr. and Mrs. H. Y. McBride, of Hot Springs, Arkansas came last week for a visit with their daughter, Mrs. Noel Meeks, and family, Mr. and Mrs. Meeks driving over to Lubbock, Texas after them. Mr. and Mrs. McBride were residents of Artesia for a number of years and left here some ten or eleven years ago for Denver, Colorado.

HEALTH NEWS

During the past seven years the United States Public Health Service has been engaged in studies relating to milk sanitation. These studies had their beginning in a response to a request from a State Health Department to formulate and assist in beginning the execution of a state-wide plan of milk control. The plan which has been developed by the United States Public Health Service has been so successful in improving the quality and in increasing the consumption of milk in the state in which it was first used that nearby states, one after another, have adopted the plan and called upon the public health service for assistance until now some 375 cities located in over 20 states have adopted the program.

The results of the milk sanitation program in Mississippi are of interest. The results so far obtained in that state after two years' experience with the standard milk ordinance are as follows: There are now 26 cities, containing over 75% of of the state's urban population, enjoying a high-grade protection of their milk supplies, as against six cities formerly. The improvement in sanitary quality has been quite satisfactory; the retail raw milk has improved 91%, the raw milk delivered to pasteurization plants 89%, and the pasteurization plants 109%. Milk consumption has increased 23% and the number of cities having pasteurized milk has doubled, and the consumption of pasteurized milk has risen 117%. With longer experience, stricter enforcement and the adoption of the ordinance by more cities, an excellent milk supply for the whole state of Mississippi may be expected within a few years.

If the operation of the standard milk ordinance has done so much for the dairymen and the public in other states, we may safely look forward to the same results in New Mexico. However, it will take the cooperation of the dairymen and the inspectors to bring the dairies up to the actual standard.

O. E. PUCKETT,
Health Officer.

How Lowered Flag Came to Be Mourning Token

Half-masting the national flag in token of mourning originated on the sea, as the use of the term "mast" instead of "staff" indicates. "Hoise your Salles half mast high," said Captain Smith in his "Seaman's Grammar," published in 1627. The custom dates back several centuries and probably grew out of the earlier custom of lowering the flag on vessels at sea as a sign of submission. The flag is also lowered to half mast as a signal of distress, a practice followed by the Spanish as early as the Seventeenth century. According to flag etiquette, when a national flag is placed at half mast as a tribute of respect to the dead it is first raised to the top of the staff or flag pole and then slowly lowered to a position at or near the middle of the staff.—Pathfinder Magazine.

THE ANNUAL METHODIST CONFERENCE OPENED AT PORTALES WEDSDAY

PORTALES — Bishop S. R. Hay convened the forty-first session of the New Mexico annual conference of the Methodist Episcopal Church, South, here yesterday. The meeting inaugurated the presidency of Bishop Hay over New Mexico Methodism.

The conference will be one of denomination-wide significance since the judicial council will come before the conference for ratification. This is a piece of legislation enacted by the 1930 general conference of the Southern Methodist Church to become law if it receives a three-fourths majority vote of the thirty-eight annual conferences into which the church's territory is divided.

If adopted it will set up a supreme court without the church to decide controversial questions previously settled by the College of Bishops and committee on appeals.

Other important business will be the appointment of preachers for the ensuing year. Appointments this year will be awaited with special interest. Although a pastor may be returned to his charge year after year, he is usually moved after four years, while it is imperative for a presiding elder to be transferred after that period.

Because of their long term of service in one place, the appointments of the following men hold special interest, the Reverends J. T. Redmond, presiding elder of the Albuquerque district which he has served four years; J. W. Slade, Grady-Pellview, five years; N. L. Lindbaugh, presiding elder of the El Paso districts four years and W. Angie Smith, El Paso, four years. The Rev. F. B. Faust of El Paso has been serving the conference for four years as conference school superintendent. It is considered probable he will be returned to the same position.

Appointments will be made at an executive meeting of the bishop and his cabinet prior to the conference session. The following elders compose Bishop Hay's cabinet; the Reverends J. T. Redmond, Albuquerque; N. L. Lindbaugh, El Paso district; R. F. Davis, Las Vegas district, and A. L. Moore, Roswell district.

Bishop Hay comes to the New Mexico conference as successor to Bishop J. M. Moore. His territory includes the Texas-Mexican, West Texas and Central Texas conferences as well as this one. Previous to coming here he had Episcopal supervision over the Arizona, California Oriental mission, North Texas, North west Texas, Pacific and Texas conferences.

Why "White House"

White House, the name of the official residence at Washington of the United States President, derived its name from a warlike action on the part of England 115 years ago. During the War of 1814 an English force captured Washington and set fire to the Presidential residence, which had been erected only a few years before. When it was restored it was found that the walls were so blackened by smoke that it was necessary to treat them with several coatings of white paint. From that paint the house obtained its now officially accepted name.

Why Skirts Are Doomed

Only three years ago a leading costumer of Fifth avenue, New York, on his return from a trip to Paris, told a ship news reporter that within ten years a woman would not wear skirts at all and that he was preparing his business plans accordingly.

"The skirt," he said in substance, "is almost a thing of the past. A kind of clout will be devised to go with tights and we shall see women parading every street of the world unhampered by a skirt, and it will be all right when we get accustomed to it, as we will."—Detroit News

TWO WOMEN CHECK A NEAR SERIOUS FOREST FIRE NEAR MAYHILL

A serious fire in one of the scenic spots of the Lincoln national forest was averted by the hard work and resourcefulness of two women last week.

Miss Ruby Richards, senior clerk at the headquarters office of the forestry service and Mrs. Reuben Boone, wife of the forest ranger at Mayhill discovered the fire on the hillside Friday.

Mrs. Boone strapped a pressure pump to her back and began fighting the flames while Miss Richards started a bucket brigade up the steep hillside after calling volunteers.

By the time the forest ranger arrived the fire was under control with only an acre and a half loss resulting.

Why Province Is "Brittany"

Brittany, or Bretagne as the French call it, received its name from the fact that it was settled in the Fifth century by the British people who fled from the Saxon invaders under Hengist. Previously this part of Gaul was known as the province of Armorica.

If no suitable storage house is available, late cabbage may be stored in a well drained part of the field. Level an area wide enough for about five heads of cabbage to be placed, roots up, in a continuous row. Wrap the outer leaves around the cabbage heads and cover them with a layer of straw or marsh hay. Where the weather is cold, cover them also with a layer of earth.

Hogs usually get tuberculosis from cattle or fowls. To prevent this disease in swine observe a few simple rules: pasteurize milk fed to hogs, especially milk from creameries. If hogs are to feed behind mature cattle have the cattle tested and eliminate reactors to the tuberculin test. Cook thoroughly any offal or carcasses that are to be fed to hogs; and dispose of tuberculous poultry flocks.

Many livestock owners think their cattle become infested with lice because they are unthrifty, but the unthrifty condition is often the result rather than the cause of lousiness, says the U. S. Department of Agriculture. Dipping is the best method of eradication. Give two or more treatments about 15 days apart. Arsenical dips, coal-tar creosote dips, or nicotine solutions may be used. Fall is the best time to dip cattle, especially in the northern states.

Finish and weight are the prime considerations in the fattening pen. The preferred market hog must be big enough and fat enough to dress a satisfactory percentage and to produce attractive meat. It must be small enough and thin enough to yield "apartment cuts" with a good distribution of fat and lean. The housewife prefers small chops that cut four or five to the pound; she likes half a ham that costs less than \$2; she is partial to bacon in which red streaks of lean predominate.

Beware of trichinosis at this time of year. Most cases of this serious disease arise from eating raw or imperfectly cooked pork or products containing raw muscle tissue of swine. Trichinosis appears to cause swine very little trouble, but it is a painful and frequently fatal disease in man for which there is no dependable treatment or cure. Cooking pork or pork products thoroughly before eating is a dependable preventative. Trichinosis is most prevalent in the fall and winter when large number of hogs are slaughtered on farms and their products are eaten without adequate cooking.

A cellar wall or floor may be "damp proofed" by mopping it with hot coal tar pitch or asphalt, or by brush coating it with a cold prepared bituminous or other water repellent paint. Apply the priming coat so that it covers all spots and fill the pores, hair cracks, or other cavities. In using hot coal tar pitch or asphalt, apply it as soon as the primer sets. When the first coat is hard, put on a second. Mop the walls downward and sideways. For bituminous paint, use a very thin primer. Apply two coats of bituminous paint, the second about 24 hours after the first.

How Tuberculosis Is Fought

There are 1,454 formally organized state and local tuberculosis associations in the United States. Each is interested in the prevention and treatment of tuberculosis. The organizations affiliated with the National Tuberculosis association spent in 1928 at least \$6,193,376.98, the major portion of which was secured through the sale of Christmas seals.

Do You Believe In Fairy Tales

Republican Propagandists Think You Do

FOUR YEARS AGO AND, AGAIN TWO YEARS AGO, THEY TOLD YOU TAXES WOULD BE REDUCED—STATE EXPENDITURES WOULD BE CUT—ASSESSMENTS WOULD BE EQUAL FOR ALL TAXPAYERS, RICH OR POOR, WEAK OR POWERFUL—SOUND BUSINESS PRINCIPLES WOULD OBTAIN IN ALL GOVERNMENTAL DEPARTMENTS.

Here Are The Facts:

In 1926, the last year of Democratic administration in New Mexico the average tax rate per dollar of assessed valuation was \$27.05. In 1927, first year of Republican administration, it jumped to \$31.34; in 1928 it mounted to \$34.60, and in 1929 it went up once more to \$35.24.

Taxes jumped more than 25 per cent in the four years of Republican administration.

State expenditures for three and one-half years of the Democratic administrations were \$11,000,000. For three and one-half years of this Republican administration they were \$18,000,000.

Expenditures jumped more than 60 per cent in the era of Republican rule.

The Republican State Tax commission has just thrown up both hands and admitted that it cannot equalize tax assessments after making a four-flush play that cost thousands of dollars of the public's money.

Ask Yourself These Questions

DO THOSE FACTS COMBINED INDICATE THAT NEW MEXICO HAS BEEN GIVEN BETTER PUBLIC ADMINISTRATION BASED ON SOUND BUSINESS PRINCIPLES? ARE TAXES LOWER? ARE STATE EXPENDITURES SMALLER? HAVE ASSESSMENTS BEEN EQUALIZED? IS MY STATE AND AM I MORE PROSPEROUS TODAY THAN TWO OR THREE YEARS AGO?

Do You Still Believe In Fairy Tales

(An advertisement authorized and paid for by Democratic State Headquarters)

EAGERNESS TO GET AHEAD RESULTS IN MANY FAILURES

By H. R. Daniel, Secretary American Society of Thrift.

One of the practical lessons which S. W. Straus sought year in and year out to impress upon the masses of the people of this country was the value of what he termed "patient thrift." It was his doctrine that eagerness to get ahead too rapidly was responsible for the financial hardships of many persons. "Too many," he once wrote, "the processes of systematic saving and prudent investing seem a little slow. Experience, nevertheless, has shown that advancement through thrift is in many cases rapid because of the opportunities that are unfolded for those who prepared themselves in every way for these circumstances. Thrift is the happy forerunner of improved opportunity."

With most persons the chief objective of their thrift habits is to have enough to live on when they shall have reached the age of retirement or the period of life when they will be able no longer to earn a livelihood. It was always the doctrine of S. W. Straus that, with this objective in view, no one could afford to take a chance with his savings in an effort to obtain abnormal returns such as might be derived from speculation or from any investment of funds where promises of unusually large and alluring returns were held out. It was better, he always pointed out, to be satisfied with what might be called a fair return on one's savings and investments.

While this might seem a slow process the result of "patient thrift" along these lines is in reality somewhat surprising unless one has made a close study of possible results. For example, a young man starting at 25 and saving \$50 a month until he is 40 would have approximately \$15,000, provided his savings were invested and the proceeds reinvested at 6%. What this really means is that while he is saving only \$600 a year he is adding \$1,000 a year to his capital, and, if he should keep this up until he reaches the age of retirement say at 60, he would have a sum from which he could derive a very livable annuity for the rest of his years.

STATE CLUB CONTEST OCTOBER 14th TO 18th

The thirteenth Annual State Club Contest will be held at State College from October 14 to 18, inclusive.

It is estimated that at least 200 club members, chaperones and county agents will be present at that time and every county in the state employing an extension worker will be represented by one or more demonstration or stock judging teams. At the present writing more than 60 demonstration teams and seven stock judging teams have been entered in the contest.

Dr. Robert G. Foster of the Washington office, an old New Mexico Aggie, will be present at the contest and assist with the program.

The exhibits will be displayed in the north east room in the basement of the new agricultural building, known as Foster Hall. Several of the exhibits have already arrived and many more are expected.

Club members and others attending will be on the grounds by Tuesday evening and demonstrations and stock judging will begin promptly at 8:00 o'clock Wednesday morning.

A slight change will take place in the program this year and instead of the usual trip to El Paso, the club members will be given an opportunity to take in the football game on Saturday, October 18. The Aggie team will play the Arizona State Teachers' College and a very interesting game is predicted.

Why Gardening Is Advised

There is scarcely any better all-around recreation for men as well as for women than intensive gardening. Not only does it give exercise, but it adds to the beauty of life and keeps one out of doors.

Why Radio Fades

Weather conditions and electrical current are two causes for fading on a radio.

C. V. ROSSON LOVING PIONEER IS DEAD

C. V. Rosson, for the last 22 years a resident of Loving, where he was a cotton farmer, died at two o'clock Thursday morning at his home. Although he had not been feeling well for some time, his death was entirely unexpected. He was in Carlsbad the day before and to his numerous friends here appeared to be as usual, including the rare good humor that was typical of him.

In addition to his wife, Mr. Rosson is survived by three sons, Pardue, Edward and George, who live at Loving and by two daughters, Mrs. Earl Donaldson of Loving and Mrs. Dean Bell of Dallas, Texas.

PHEASANT PAYS FARMER WELL FOR HIS KEEP

Pheasants feed on 100 different species of insects as well as nearly 100 kinds of seed and plants, a year's study by the department of entomology-zoology of the South Dakota State college shows.

In a report to the American Game Protective association Oscar H. Johnson, game and fish commissioner of that state, declares that the pheasant will eat almost anything digestible which qualifies him for a wider range than any other species of game bird.

The study referred to included examination of the crops of 285 specimens collected in all parts of the state at all times of the year.

Plants and seeds found in crops included foxtail, wild buckwheat, ragweed, bindweed, smartweed, wild sunflower, wild rose, wolfberry, Russian thistle, wild oats, corn, wheat, oats and barley as well as leaves and roots of numerous other plants.

Insects identified in the pheasant crops included cutworms, armyworms, many species of caterpillars, chinch bugs, tarnished plant bugs, buffalo tree hoppers, aphids, seed corn beetles, wire worms, white grubs, flies and their larvae, ants and grasshoppers.

Of approximately 25 pheasants examined in a Pennsylvania study, it was found that only one bird had eaten corn. This particular bird's crop contained only five grains of corn as against 11 beetles that are known to ravage crops. Hundreds of beetles, including many Japanese beetles, and large quantities of weed seeds as compared to only three oat kernels were found in the gizzards and crops of the pheasants studied.

TAKES LARGE KODAK TO CARLSBAD CAVERN

The Union Pacific system, operating railroads hundreds of miles distant from southeastern New Mexico, has sent its expert photographer to Carlsbad to produce views of the Carlsbad Cavern National Park.

F. W. Sheemor has the distinction of carrying the largest camera ever used in the cavern. It takes a photo 14x20 inches.

Judge Botts Makes Clear Statement of His General Policy

—BY—

REPUBLICAN STATE CENTRAL COMMITTEE

DEAR MR., MRS., and MISS VOTER:

Nothing is more clearly needed in this country than a conscious responsibility for the public welfare. There must be the controlling influence of sound good sense and intelligent devotion to the common good.

The Republican State Convention had all of this in mind when the Republican State ticket was nominated at Albuquerque on the 23rd day of September.

Everybody is interested in the election of a governor. In Judge Clarence M. Botts we have a candidate who would make a great governor of any state. He has been a resident of New Mexico for twenty-five years. His children were born in this state and are proud of it. So is he.

A country school teacher in his early years, he became a lawyer, and a good one. Then a justice of the supreme court. He has been a member of the Albuquerque school board for twelve years. As a public servant he became attorney for the city of Albuquerque. Whatever his position, he has discharged its duties with scrupulous honesty and conspicuous ability. He has at all times been a faithful and efficient servant of the people. The rewards of public service are not so notable as those of commerce and finance, but Judge Botts has the satisfaction of a life that is being lived usefully and unselfishly. His large abilities are given for the betterment of the community and the state in which he lives.

No better candidate for governor could have been selected. No better governor could be elected.

A Notable Statement

Judge Botts, opening his campaign at Penasco, Taos County, makes this notable statement:

"Every vote for me at the coming election must be cast with the distinct understanding: That, if I am elected to the office for which I have been nominated, I will be the Governor; that I will undertake to perform the duties of my office in accordance with my best understanding and ability, for the best interests of all the people of the State of whatsoever race, creed, party or faction; that I will undertake to solve each problem as it is presented, after careful consideration in the light of the circumstances and facts as they then exist, without previous commitments or promises; that I recognize that custom and long usage have given us government by parties; that I am a Republican, nominated for office by the Republican party, and that in the performance of my official duties, especially those having to do with party policies, I shall feel free to call upon my party for advice and equally free to give heed to that advice as I think would best serve the state."

Holt and Simms

More important to the welfare of the people of New Mexico, even than the election of a governor, is the election of a Republican United States Senator and a Republican Congressman.

What good could come from the election of a Democratic Senator or Congressman?

Because they put the interest of the Democratic party above the interests of New Mexico, they would vote for revision of the tariff. Every Democratic tariff bill has placed New Mexico's products on the free list. The tariff on raw wool is about eleven cents a pound. Wool is now selling at fifteen cents a pound. But for the tariff the New Mexico woolgrower might have to sell his product at four cents a pound. He can scarcely exist at fifteen cents.

The Democrats coolly tell us that if cattle and sheep cannot be grown profitably without a protective tariff, those engaged in the livestock business should abandon it for something else.

Democratic Depression

The Democratic Underwood tariff, ended by the Republican tariff act of 1922, almost destroyed the livestock industry in New Mexico. Taxable values of grazing lands and cattle and sheep shrank \$66,000,000. Other values supported by the livestock industry shrank \$24,000,000. Thus, the Democratic tariff bill was chiefly responsible for the reduction of \$90,000,000 in the taxable values of the State of New Mexico.

For the state to continue to function a higher tariff was unavoidable.

The Democratic party has not forgotten the old free trade principles of John C. Calhoun, and it has learned nothing from the history of the American people since the Civil War.

Holt and Simms, if elected to represent New Mexico in the Congress of the United States, will vote to sustain President Hoover and to protect the products of New Mexico. Bratton voted against the increased protection of New Mexico's products. He said he would vote for them. But the party whip was too sharp. He voted against the welfare of the people of New Mexico.

Herbert B. Holt would not vote against the interests of his constituents in any circumstances.—ADV

COTTON FORECAST PLACED AT 14,486,000 IN YESTERDAYS REPORT

WASHINGTON, D. C.—An indicated increase of 146,000 bales in the cotton crop of this year over that indicated a month ago was announced yesterday by the department of agriculture.

Production on the basis of conditions existing October 1 was placed at 14,486,000 bales. This is 342,000 bales below last year's production.

While there was a decline in the indicated production in Texas, Mississippi and Tennessee, this was offset by increased indications in other states, particularly in Georgia, North Carolina and Alabama.

Picking and ginning was reported as unusually advanced in Texas and Oklahoma but backward in Alabama and Mississippi. In other states the ginnings are above average for this time of the season.

WASHINGTON, D. C. — Cotton production this year was forecast yesterday by the department of agriculture on October 1 conditions at 14,486,000 bales of 500 pound gross weight, compared with 14,340,000 bales forecast a month ago and a crop of 14,828,000 bales produced last year.

The condition of the crop on October 1 was 53.5 per cent of a normal, indicating a yield of 154.7 pounds per acre, compared with 53.2 per cent and 153.2 pounds on September 1st, 55.0 per cent and 155.0 pounds on October 1 last year and 53.1 per cent and 155.1 pounds, the ten year average.

The condition on October 1 and indicated production by states include:

State	Condition	Indicated Production
Texas	85	4,275,000
New Mexico	85	100,000

14 BIRTHS — 3 DEATHS ARE RECORDED FOR MONTH OF SEPTEMBER

Fourteen births and two deaths were recorded during the month of September by S. E. Ferree, sub-registrar for the Atoka, Cottonwood and Artesia districts. Birth certificates were issued to: Mr. and Mrs. Jerome Morrison, daughter; Mr. and Mrs. Cyrus T. Hinshaw, son; Mr. and Mrs. Sam Houston Henderson, son; Mr. and Mrs. C. L. Daugherty, daughter; Mr. and Mrs. Manuel Meredio, daughter; Mr. and Mrs. Esiquel Corona, daughter; Mr. and Mrs. Nemesio Villa, son; Mr. and Mrs. Marquez, daughter; Mr. and Mrs. Richard H. Crosby, daughter; Mr. and Mrs. J. H. Felton, daughter; Mr. and Mrs. Edwin Ditto, daughter; Mr. and Mrs. Gray D. Bolen, son; Mr. and Mrs. William M. Perkins, daughter; Mr. and Mrs. E. Gomez, daughter.

Deaths recorded: were M. R. Springs and Q. Licon.

VACCINATING SCHOOL CHILDREN HERE TUESDAY

Dr. O. E. Puckett, county health officer, was up from his home in Carlsbad, Tuesday vaccinating a number of school children for small pox. Thirteen pupils were vaccinated at Central school, Tuesday morning.

MRS. HOFF DECEASED

Mr. and Mrs. J. H. Hollomon have recently received the news of the death of Mrs. Ella M. Hoff, who passed away at her home in Kansas City, last January. Mrs. Hoff was the wife of Dr. Hoff, who owned a farm east of town and left here some eight years ago.

POSTAL RECEIPTS GAIN

If postal receipts are considered a business barometer, Artesia has enjoyed a better business in 1930 than in 1929. Receipts for the first nine months of the present year showed a substantial gain over the corresponding period of 1929. The month of September showed a gain of 12 per cent over the same period of last year.

HIGHWAY SIGN TRUCK HERE

The sign truck of the State Highway Department stopped off here a short time yesterday, while working on the state highway 2. The sign crew is marking the dips on the road south from Roswell.

ROTARY PROGRAM

George Frisch, city water superintendent, made an interesting talk on the growth and development of the city water service, Tuesday at the regular luncheon of the Artesia Rotary club. Club visitors on this occasion were Dr. W. F. Fry of Austin, Texas and Frank Frazier of Lake Arthur.

EMBEZZLEMENT WARRANT GIVEN IN O'DELL CASE

Charging Henry W. Etz, a prominent oil man of Roswell and Hobbs, and his wife, Helen Etz with embezzlement from Miss Bobbie O'Dell of clothing and other articles, a complaint was filed before Justice of the Peace Frank H. Richards today.

A warrant was issued for the arrest of the defendants and was given to Sheriff Johns for service.

When Miss O'Dell was asked about the complaint, she refused to give advice of her attorney to make a statement, other than to say that the charges contained in the complaint were true.

Miss O'Dell has been held here sometimes under bond and sometimes not, since early in October. Etz as one of her bondsmen for \$1500, went to Clovis last week, returned her to Carlsbad, and surrendered her. The charge against Miss O'Dell is passing a forged check.—Carlsbad Current-Argus, Tuesday.

GINNINGS OF EDDY COUNTY RUN NEAR 10,000 BALES TUESDAY

Eddy county ginnings had run near the 10,000 bale mark at the time the last available report was tabulated. The five gins in north Eddy have experienced considerable delay during the last few days due to the heavy rains. The totals by gins follow:

Cottonwood gin	582
Association gin, Espula	518
Farmers gin, Artesia	649
Association gin, Atoka	708
Total	3257

Carlsbad project gins had turned out 6,344 bales up to Tuesday, divided as follows: Otis, 703; Carlsbad, 355; Black River, 614; Loving, 1,283; Tipton, 1,092; Harkey, 538; Otis Farmers, 1,096; Gilbert, 663.

LOCALS

Mrs. J. C. Floore has been on the sick list this week.

Mrs. D. S. Martin has been very ill at her home, near Dayton, this week.

Clementine Cobbs, who has been seriously ill with typhoid fever, is improving.

Rev. J. P. Sinclair and Rev. LeRoy Thompson of Roswell left this afternoon for Hobbs, where they will assist in the organization of the First Presbyterian church at Hobbs, this evening.

A truck bearing three fine Hereford Bulls from the livestock ranch of Austin Reeves in the Elk Community passed through Artesia Tuesday en route to the Chaves County Cotton Carnival at Roswell.

Typewriter Ribbons—The Advocate

THE WORLD OVER

The two moons of Mars are thought to be made of iron.

Lightning is the chief cause of forest fires in the United States.

Tigers and leopards in captivity are not allowed to eat fat.

Plants breathe with their roots as well as with their leaves and stalks.

The most valuable egg in the world is that of the great auk, a bird once common in the regions of the North Atlantic.

The largest bell in the world is the Czar Kolokol, in Moscow, made about 250 years ago and weighing more than 100 tons.

REFLECTIONS

Every ancient philosopher, except perhaps Seneca, was in favor of slavery.

Most of our laws are emergency laws; with a particular evil in mind to cure.

Gerontocracy, that is, government by the aged, is the most ancient form of government.

The stage is an imitation of life, and life, to perhaps an even greater extent, is an imitation of the stage.

Education ought to draw all that it can out of mediocrity, and to respect originality as much as it can.

To suggest where you cannot compel, to guide where you cannot demand, that is the supreme form of skill.

The knowledge which is accumulated in books can never be anything but the handmaiden of living science, the science which is constantly being remodeled and corrected by living thought.

TUCKED IN NUTSHELLS

Marriage is a committee of two, with power to add to their number.—Lord Dewar.

There can be no democracy of thought except among the unthinking.—James M. Kieran.

Ambassador Dawes does not really come from Chicago itself but from within a bomb's throw of it.—Leon Errol.

We lead the world in two things: In talking about peace and in expending money on armaments.—William E. Borah.

An attack of acute indigestion in securities, while it may cause business a severe headache, should not seriously cripple the patient.—George E. Roberts.

A girl plus a cigarette equals loss of self-respect; a girl plus a drink equals danger; a girl plus danger might equal anything.—Rev. F. L. Fenrich, Jr.

Splendid Test

John—What is the best way to find out what a woman thinks of you? James—Marry her.

The housefly sounds the note F in flying which means its wings vibrate 335 times a second. The honey bee sounds A with 440 vibrations a second.

Joyce-Pruit Co.

McILVAIN—SCROGGINS

Miss Esther McIlvain, primary teacher in the schools was married in Roswell Monday evening to Mr. Robert Scroggins of Tularosa. The bride was accompanied to Roswell by the Misses Linna McCaw and Merrill Bradley, who were present at the nuptials. The marriage ceremony was performed by Rev. Ketchum, pastor of the Methodist Episcopal church, in the parsonage at six o'clock.

The groom, who is an electrician for the Southern Pacific at Tucuman returned to that place on Tuesday and that evening was taken with a severe attack of appendicitis and rushed to an El Paso hospital. The bride left here the same evening by bus to be with her husband.

Mrs. Scroggins, who is from Elmo, Missouri, taught here in the primary department last year and is holding the same position this year. The friendship, which culminated in the marriage, began when the bride was attending school at the Normal University at Las Vegas, a few years ago.

THE VIOLIN CLUB

The Violin Club met for its regular meeting last Saturday at the home of Mrs. Frank Miller.

The afternoon was spent in studying some important facts about the life of Fritz Kreisler. Mrs. Willis Morgan played "Old Refrain" by Kreisler, accompanied by Miss Ruth Morgan. Delicious refreshments were served at the close of the meeting. The club meets with Miss Grace Sinclair, Saturday.

EDD BRAGG IS NEAR GRAVE IN THE HIWAY

Edd Bragg, employe of Payne, road supervisor, was fully injured, Tuesday, by a car driven by Sam Payne, who passed over his body in a pit south of town. The accident, it seems that he had gone across the road and returned to the car and stepped in front of it. The car passed over his right ankle and shoulder. His injuries are expected to prove serious. Physicians set in.

INDEPENDENTS NA COUNTY FURNISH TICKET

MAGDALENA — Independent and democratic county held forth a harmonious convention a fusion ticket for election.

The action follows a long and hard publican state convention in which the delegates, which assisted in the selection of delegates, met after the credit of the meeting had recognized the M. J. Woodstock Typewriter Co. as the winner of the contest.

Following the action of the M. J. Woodstock Typewriter Co. entirely and went home with the democrats of the county and agreed upon the ticket for election.
