## THE MASONIC LODGE HAS BI-CENTENNIAL PROGRAM THURSDAY

More than fifty Masons attended the Bi-Centennial program given at the Masonic hall here Thursday evening and heard an interesting program. The Rev. Harold Scoggins gave the address of welcome; Tom Hall of Roswell, grand master, spoke on the subject of "Washington as a Mason," and Robert Kellahin, also of Roswell, gave an address on "Washington as a Citizen."

Following the program refreshments were served to those present at this special communication in honor of the birthday anniversary of George Washington. Visitors were present from Roswell, Lake Arthur, Las Cruces and Oklahoma.

## BANK SHORTAGE AT SANTA FE INVOLVES GOV. SELIGMAN'S SON

Otis Seligman, assistant cashier of the First National Bank of Santa Fe, who father Governor Arthur Seligman is president of the bank, was, with nine other employees of the bank charged by United States Attorney Hugh Woodward with conspiracy to misapply moneys, funds and credits of the bank.

The others named in federal warrants Tuesday were: Hugh P. Mera, teller; Charles Leyba, clerk; Eduardo Trujillo, bookkeeper; Tom Perry, general bookkeeper; Frank Pena, head bookkeeper; Manuel Romero, bookkeeper individual ledger; Joseph Donahue, bookkeeper individual ledger; Teodoro Esquivel, bookkeeper individual ledger.

J. B. C. Lopez, former remittance clerk, who was recently convicted of a charge of embezzling bank funds, and is now at liberty under a federal parole, is also involved.

The First National Bank case came to light following an investigation by bank directors, when Hugh P. Mera, bank teller, was charged with embezzlement while he was in St. Louis on vacation. A \$5,000 overdraft was found in Mera's account, covered by a spurious check, and a state charge against him was signed by Charles J. Eckert, cashier of the bank. Mera returned to Santa Fe voluntarily.

The bank directors placed the entire case in the hands of the United States attorney and would not give out the total amount of shortage, pending advice from the comptroller of currency.

It was understood, however, that the total shortage was in excess of \$27,000 noted specifically in the complaint drawn by Mr. Woodward. He said no large sums of money were involved at one time, but that the speculations alleged were carried on over a long period starting in 1925.

Bank officials said that approximately fifty per cent of the shortages were incurred by Otis Seligman, and the remainder by six of the others charged. Trujillo, Esquivel and Pena, are joined, Mr. Woodward said, because of their assistance in concealing the shortages. They are represented not to have taken any of the money but to have had knowledge of the transactions.

## APHIS INFEST EDDY CANTALOUPE FIELDS

Cantaloupe growers in some sections of Eddy complain of aphid infestation. The damage thus far has not been serious according to W. A. Wunsch, county agent, but is sufficient to justify immediate steps to destroy the insect. A number of growers are spraying with black leaf forty.

## BARNSDALL OFFICIALS HERE

D. R. Snow of Tulsa, Oklahoma vice-president of the Barnsdall Oil Co., and James Noland of Midland, Texas, land man for the same concern spent a couple of days here the past week looking over company holdings.

## ROTARY KINGFISH RETURNS

Chester Dexter, president and Kingfish of the Artesia Rotary club arrived home Friday with Mrs. Dexter from an extended business visit to Los Angeles, California and points on the Pacific coast.

## JUDGE KIKER REDUCES EDDY CO. BOARDERS AT COURT SESSION

County Jail At Carlsbad Is Partly Emptied In Saturday's Court—May Release More Men This Week.

The number of star boarders in the Eddy county jail at Carlsbad will be considerably less when Judge H. A. Kiker gets through with the Eddy court docket. Saturday Judge Kiker who is holding court in Chaves county for Judge Richardson, came down and cleared a few out of the boarding house. The judge plans to return to Carlsbad the latter part of the week to clean up more of the accumulated business.

James Farrell was given a sentence of two to three years on charge of robbery. Farrell was given twenty-four hours to get out of the state, but did not need it.

Frank Flood, also pleading guilty, to robbery, was given 90 days in jail, or a swift departure, and chose the latter.

Simon Sanchez, another robber by his own admission, was given from one and a half to two years, which was suspended on condition that he go to work and behave himself.

Salvino Ramirez, given two to three years, Manuel Madrid and Manuel Galinda, also admitted robbers, were given a similar period.

J. E. Smart was committed to the Las Vegas hospital. Roy Schappler and John Kindle mischievous boys, were given a 90-day jail sentence, suspended under good behavior.

Sheriff McDonald will transact Sheriff Ramirez, Madrid, Galinda and Smart to their retreats soon.

## APPEAL HEARING IN TERRY OIL CASE

Hearing of the appeal in the million dollar Terry oil royalties case before the United States circuit court of appeals will be conducted in Denver, on September 28th, it was announced at Santa Fe.

## EASTERN OIL AREA HAS SLACK WEEK

Oil activity over the eastern terrain the past week has been more or less routine, with prospects slim that additional completions will be made before the close of the week. The State No. 62 of the F. W. & Y. Oil Co., center 10-19-28, the last producer sec. 19-19-28, the last producer sec. 10-19-28, has settled down to a production of approximately forty or fifty barrels daily, it was said this morning.

Some plans have been made to drill another test in this area, but the location has not yet been announced.

Materials are being moved in to start a new wildcat in the western part of the county, this being the McClelland No. 1 of the New Mexico Oil Syndicate, NE sec. 22-22-23. This well will be spudded in by the first of next week.

Developments in the State No. 7 of Leonard and Levers, center SWSE sec. 19-17-30, Eddy county has so far been disappointing. This test is dry at 2,268 feet, but developed 100,000 feet of gas above this depth.

## CLARK LAKE WATER NOT TESTED FOR TYPHOID

Dr. H. A. Stroup denied the rumor, current over town last week, that he had stated that the waters of Clark lake were polluted with typhoid germs. "So polluted with typhoid water from far as I know the water from Clark Lake has never been tested," he said. Yearly outbreaks of typhoid on the Cottonwood stream is polluted with typhoid, "If people would avoid typhoid, they should be vaccinated," he said.

Messrs. R. W. Dunn, Hugh Burch and Vernon Clayton left this morning for a fishing trip on the Rio Grande.

## LOCAL TAX PAYERS MAY PRESENT NEW LAW FOR APPROVAL

Many local tax payers have expressed themselves as favoring a special session of the legislature, provided members of the state legislature can agree on some sort of tax program before the proposed special session is convened. Tax payers will demand that the session be speeded up and will oppose any long drawn out affair which might cost the state upwards of \$50,000.

A change in the 1929 delinquent tax law will also be sanctioned by the majority of the local tax payers, if the state solons are willing to amend the present law. Under the present law, the state may proceed to collect tax delinquent after a period of six months or over. Tax payers would favor an amendment extending the period of delinquency to eighteen months before the state could foreclose on the delinquent property with a suit.

## CUTTING SAYS CROP LOAN BILL AWAITS HOOVER'S SIGNATURE

Further details concerning the extension of the crop loan provision has been received here in a telegram to Col. Woods from Senator B. M. Cutting and may be of interest to our readers. The telegram:

WASHINGTON, D. C., July 16, 1932.

Col. Albert T. Woods, Artesia, New Mexico.

Extension of crop production loan provision which has been delayed by conference has passed senate and house and now goes to president for his signature stop.

As soon as he signs same and new forms are printed, loans will be available to New Mexico farmers.

## GAS TO BE SHUT OFF

J. Harvey Wilson, superintendent of the Pecos Valley Gas Co., this morning announced that the gas would be shut off on next Tuesday and Wednesday nights from 10:00 p. m. to 5:00 a. m.

It is important that all gas users take due notice of the interrupted service in order to avoid an accident. Watch your automatic water heaters or any other automatic appliances that might be left burning.

## ECONOMY TRADE DAYS

The most important news to many folks now is where money may be made or saved. You will undoubtedly be interested in the Economy Trade Days, a co-operative advertising page of Artesia merchants found in this issue. Friday and Saturday only.

For instance on page seven a model AA Ford truck can be bought for \$375.00 and Firestone tires free.

One pound can Hills Brothers coffee 35 cents; 8 pound pail lard 57 cents and other grocery bargains in this ad on page 7.

Your car will be greased, old oil drained and refilled with six quarts new oil, all for \$1.50. See page 7.

Looking for comfort? You can have it at reduced prices. Reclining lawn or porch chairs priced as low as \$1.00 and camp stools at 30 cents. Page 7.

If you knew a good place to get sweet, clean meats for less money and save ten per cent on top of the low price, would you? See page 7.

Gray horsehide gloves with or without gauntlets. Two years ago would have been bargains at \$1.50, but Friday and Saturday they go at 49 cents. Page 7.

Symphony of Six Millions, July 24, 25 and 26. Page 7.

Sunday dinners, prepared by women cooks. Page 7.

Made to measure clothes, \$15.75 to \$29.75. Page 7.

## FRED SUTTON THOT TO BE THE NOTORIOUS OKLAHOMA ROBBER

Oklahoma Bank Officials Identify Sutton Who Was Arrested With Gene Walker and Tarrant Last Spring.

Nine persons, officials of the Central National Bank of Porteau, Oklahoma and a number of customers of the bank, have definitely identified Fred Sutton as the man who on December 26, 1931 entered the bank and robbed it of \$10,500 in cash and securities, it was announced at Roswell Monday.

Sutton is the man who was arrested at Carlsbad following one of the most spectacular bandit hunts in the history of the Pecos valley after he, together with W. H. (Buzz) Tarrant and Gene Walker had fired on Chaves County Deputy Sheriffs Sam McCue and Homer Dunagan after the officers had attempted to stop and question them in connection with the robbery of the Kemp Lumber Co., at Elida.

Sutton separated from Tarrant and Walker, one of whom later shot Jim Williamson after he had arrested the pair at a Lake Arthur filling station. Sutton rode a freight train to Carlsbad and there was arrested by Walter McDonald, sheriff of Eddy county.

From photographs and finger prints broadcast over the southwest it was learned that he was wanted in connection with the Oklahoma bank robbery and Oklahoma officers several weeks ago came to Roswell and returned him to Oklahoma for trial.

E. G. Goodnight, president of the Central National Bank of Porteau, Oklahoma, was one of those who positively identified Sutton as the man who robbed the bank on December 26, 1931.

Sutton was regarded as one of the most desperate men ever caught in the valley.

Tarrant and Walker are now in Jail at Carlsbad charged with assault with intent to kill in connection with the shooting of Deputy Sheriff Jim Williamson.

## NUMBER ATTEND THE MONTHLY LUNCHEON

The hot weather did not deter a good attendance at the monthly Chamber of Commerce luncheon held in the Artesia hotel yesterday. The chief item of interest was the review of the activities of the organization during the past month by Fred Brainard, manager. The major part of the report dealt with the welfare work of which Mr. Brainard is chairman. The welfare fund is exhausted and except for an emergency case the welfare committee is not in position at this time to give aid, except to donate flour which has been sent through the Red Cross. The committee has had about 1,200 sacks of flour on hand.

Applicants for the flour are asked if they want to earn the flour and if so are given a sack of flour per week for four weeks in return for one day's work cutting weeds. The plan has met with very good success and much of the town near Main street looks better as result. Mr. Brainard also met with the City Council and has requested that \$500.00 be included in the city budget to be used as a local relief fund.

The council has agreed to the suggestion provided the sum is okayed by the state tax commission. The welfare board has also applied for \$2,500 as Artesia's part of the welfare funds under the recent federal relief bill.

A report was also made of the new tax plan proposed by a tax committee appointed by the board of directors. The new tax plan is a revision of the 1929 delinquent tax law, which will be presented to the special session of the state legislature, if the governor sees fit to call a special session. The proposed measure would extend the time of delinquency to eighteen months instead of six months as is now enforced and would ease up on the application of the penalty.

## TRAIN LOAD WOOL LEFT ROSWELL THIS MORNING EARLY

A solid train load of wool consisting of about seventeen cars left Roswell for eastern markets, last night after midnight. The shipment totals approximately 600,000 pounds and was loaded from the Bond Baker warehouse. This shipment was made shortly after the new freight rate to Boston was effective and was routed by Galveston. The value of the wool in this lot was placed at \$35,000 to \$40,000.

E. B. Bullock said here yesterday that a car load of wool had been stored in the warehouse, but that no further shipments to market would likely be made until the wool was all in.

## THE VALLEY BAPTIST ASSOCIATION ELECTS OFFICERS TUESDAY

A permanent organization of the Pecos Valley Baptist Association which convened here Monday and Tuesday was effected with the election of the following officers: B. A. Bishop, re-elected moderator; The Rev. H. M. Middleton of Carlsbad, assistant moderator; Miss Madge Brown, Carlsbad, clerk and Mrs. E. A. Heron of Roswell, assistant clerk.

The morning service Monday was taken up with the reports of the work from the various churches. The afternoon session was given to reports and discussions of the Sunday school work.

Dr. J. C. Owen of Albuquerque secretary of the New Mexico Baptist convention and Frank Frazier chorister of Lake Arthur led the devotionals.

Tuesday was the most interesting of the two day session with interesting reports on foreign missions. Mrs. T. C. Jester of Austin, Texas gave the principal address of the morning session on the subject of young people's work under the W. M. U.

The afternoon session Tuesday included an address by Allison Herron of Roswell, the B. Y. P. U. Report by The Rev. George Elam, state secretary of the B. Y. P. U., a report on the Baptist orphan's home at Portales by Supt. W. C. Grant. Five girls came with Mr. Grant and rendered a program of song and scripture quotations. A brief report of the Baptist state hospital at Clovis was made by Dr. J. C. Owen.

A summary of statistics was read by the clerk and was very gratifying considering present conditions. One new church organized at Otis was admitted into the association. Another new church was reported organized at Dayton with the Rev. Gordon Sterling as pastor, but no report was made.

Six new and visiting ministers were introduced to the body, two of them new pastors in the association. They are The Rev. H. M. Weldon, Carlsbad, The Rev. Gordon Sterling, Dayton, The Rev. Marvin White, Roswell, The Rev. Cookson of Roswell, The Rev. J. B. Parker, of Hobbs and The Rev. McCaskell of Dexter.

The executive board who will have charge of the associational affairs during the interim of the association are as follows: W. H. Cole, chairman, Roswell; J. A. Williams, Lake Arthur, W. H. Keith, Hagerman, C. E. Mann, Artesia; Archie Nelson, Carlsbad and Clayton Wyman, Loving, C. J. Stillwell, of Roswell, was elected treasurer.

The young peoples banquet served by the Y. W. A. in the church Monday evening to more than fifty young people and visitors deserves special mention.

Others of the state workers who were present and took part on the program were John W. Williams, secretary Sunday school and laymen's work and Miss Charlotte Burnett, secretary W. M. U. work.

The sessions were all well attended. The final session adjourning at 4:20 Tuesday.

## ADVISORY BOARD MEETS

The advisory board of the New Mexico Oil Men's Protective Association met in the office of Wm. Dooley, secretary and laid further plans for protesting the proposed tax on non-producing oil lands at a hearing to be held at Lovington Saturday afternoon. Arguments against the proposed tax will likely be advanced by Judge G. U. McCrary, William Dooley and others, it was said.

## First Class Highway Is Promised The Valley

P. L. Rapkock Says First Class Highway Will Be Built As Funds Available—To Keep The Oil Benefits In State.

P. L. Rapkock of Las Cruces, member of the State Highway Commission has recently given assurance to Pecos valley citizens that a first class highway will be built into the valley from Lea county to serve the eastern section of the state. This will be the next major construction program to be undertaken by the highway department as soon as funds are available, it is understood.

It was learned here that an inspection trip through Texas and Oklahoma convinced Mr. Rapkock of the need of a high type of highway to serve the eastern part of the state, if New Mexico would keep the benefits derived from the oil, potash and sulphur developments within the state. Incidentally this inspection trip has revealed the possibilities of eastern New Mexico; possibilities that have been known to Texas for two years and Texas by the way is preparing for a share of business from the development of these minerals by rushing construction of highways. Mr. Rapkock visualizes a big play in the eastern part of the state as soon as conditions improve to justify further exploration of the minerals to be found here and the time is not far distant when a major development program will be undertaken. Mr. Rapkock believes and New Mexico wants to be ready to take care of the trade from oil, sulphur and potash when it comes.

Editor's note: The above story sounds very encouraging, but to some it may be just another bed-time story. We hope that some of the unfulfilled promises will be fulfilled by the highway commission within the next few months.

## EDDY COUNTY BUDGET HEARING IS STARTED

Everything is set for the Eddy county budget hearing, which started here this morning. Richard H. Westaway, deputy assessor of Carlsbad, members of the Eddy county commissioners court and representatives of the various school districts will be present and go over the tentative budgets made by the various organizations before the representatives of the State Tax Commission. The tentative county budget announced several weeks ago by the county commissioners represented a \$15,000 decrease over the corresponding budget of last year. Indications are that the approved budget may be still further cut. The county must stay within the five mill levy, C. E. Mann, commissioner said here yesterday.

The hearing today will be divided into two sections. The first session was held in the Artesia hotel starting at 10:00 o'clock for residents of north Eddy county and the second session will start at 3:00 o'clock this afternoon at the county court house in Carlsbad.

## City Rate Same

There will be no material change in the city tax rate, it was announced this morning at the conclusion of the hearing with the state tax commission. City expenses have been reduced, but the reduction in expenses will not more than offset the decreased valuation.

The 1931-32 city budget approved totaled \$17,222.00. The 1932-33 city budget approved totaled \$13,445.00, which represented a decrease in the general fund of \$3,779.00.

City taxes levied in 1931-32 totaled \$5,649.00 plus a credit of \$5,649, which equals the budget, the 1932-33 levies totaled \$4,500 with a credit of \$8,775, equals the 1932-33 budget. The total tax levies decreased \$1,149 (Continued on page 4, column 3)

IN THE GOOD OLD DAYS

One often hears about the suffering caused by the present financial condition and some cases are pitiful, but if you want to really get the low down on what hard living was like some old timer, who came to the west during the early days...

One does not have to button hole a gray beard to get the low down on what living at home means, but most of the people who are approaching middle age can recall some of the hardships endured even twenty or thirty years ago...

Most everybody drove to town in wagons and buggies and brought their dinners. If the trip to town was made during crop gathering time, the family might enjoy a can of salmon or sardines in the rear of the grocery store or possibly a few crackers and cheese...

A trip to town and back from say the Upper Cottonwood would consume at least six hours. The family usually found it necessary to return early because of the family chores to do, and this meant a trip home in the hot sun...

Purchases in town usually consisted of 200 or 300 pounds of flour, salt, a few packages of Arbuckles coffee, a little salt pork, cotton socks for "pa" and the boys and a few yards of calico to make "ma" and the girls some Sunday dresses...

Yes, those were the good old days you've probably heard about, but the present period might seem like a boom if we woke up to face the actualities of life fifty years ago.

MR. HOOVER DON'T KNOW

Up to date the republicans haven't informed Mr. Hoover that he is to run for president says the Santa Fe New Mexican.

It is most embarrassing to feel that the whole country has been told something withheld from the man chiefly interested. You can imagine, for instance, how funny you would feel afterwards if the whole town knew you were going to have your statue erected in the plaza, or were going to be given a present of a concrete mixer, or that there was a hole in the seat of your trousers, or you had spilled gravy on your necktie, and you didn't know a thing about it...

Looking at it from another angle, maybe Mr. Hoover expected to be nominated, in which case one can imagine the state of prolonged uncertainty in which he has been left. It must be very painful to be left up in the air like that.

It isn't right to let the situation drift along like this—neither fair nor sporting.

They say Mr. Hoover has postponed his vacation, and undoubtedly there are domestic arrangements which have to be made in the White House for a long time in advance, not to mention the campaign itself.

It has been suggested to let Bob Halley of Carlsbad, the Eddy county republican whip, break the news to Hoover. The only thing about it is that Halley might try to sell President Hoover some gasoline, but that would be all right too.

You have no doubt heard the old campaign "hooy" repeated several times about "the people are always right and you can't fool the public," yet up in Oklahoma a man by the name of Will Rogers who has the same name as the famous comedian, Will Rogers living in California, led the ticket in the race for congressman at large. The comedian Will Rogers once lived in Oklahoma and according to stories told of the recent Oklahoma election, a good many residents of that state were laboring under the impression that the famous Will still lived there.

A political platform is well enough for a candidate to make a race on because the various planks of the platform are supposed to represent the political issues of the day with suggested remedies, yet conditions sometimes change to make the carrying out of the platform impractical. In a case of this kind the public must rely on the common sense of the official to meet the emergency and if the official hasn't the ability to meet the situation, it leaves his constituency in a rather precarious position.

The way Aimee and "What a Man Hutton" has been going around with these law suits recently, looks like the Four Square Gospel of Angeles Temple is a misnomer.

SAFETY CAMPAIGN

J. E. HELFERT

The promotion of safety first is being emphasized this year in the Americanism program of the American Legion and posts thru-out the country are on the alert for new ideas that will help reduce the annual accidental death toll. An unusual and practical plan to protect the lives of children has been presented to the Legion post at Beaver Dam, Wisconsin by L. E. Helfert, known as the Open Eye Club, enrolling members in various numbers, and giving each member a membership card and badge which shows a small boy looking at a stop and go signal with wide open eyes suggesting precaution in traffic.

Members of the Open Eye Club subscribe the following safety pledges:

- 1—Never to play in the street nor cross it without stopping to look both ways. Then I will walk, not run across. 2—Never to ride with nor accept favors from strangers. 3—Never to play with fire in any form. 4—Never to be disloyal nor disobedient to mother and father.

It may be suggested that the local post adopt the above pledges or substitutes to serve the same purpose.

A Good Suggestion

There is no greater community service organizations that either the American Legion or Auxiliary when properly functioning in any community. It is suggested by one of our local members that we unite in more co-operative activity for community progress encouraging our leaders to be more initiative and loyalty to them by the rank and file. The suggestion is that every Tuesday evening at six-thirty, all members, their children and friends of both organizations meet at Clark Lake north of town bringing with them one good sandwich for every member or friend of the family and one extra sandwich for the heavier eaters, all sandwiches to be spread together and after swimming, wading and playing games every person will partake of the eats then listen to suggestions by one and all on community progress for a bigger and better community, all for one and one for all.

For thirteen years the American Legion has been on the march. With its eye focused on the ideal of service to God and country, it had little regard for obstacles in its path or remarks of spectators. Though a little footsore and weary at times, it has kept its breast to the current and proceeded upstream with its purposes. With its onward march it has gathered a large percent of its eligibles to its ranks. Likewise, it has stepped upon and crumbled the aspirations and purposes of many who do not agree with the principles set forth in the preamble of our constitution. Therein comes the rub. Lately much embittered and unwarranted criticism has been aimed at the Legion. In its final analysis, this snarling is a tribute to the continually growing power and influence of the Legion. None of it will deter the Legion from the pursuit of its high purposes—our route of march has no detours. Sufficient answer to all criticism lies in the fact that in this year when general conditions are at an abnormally low ebb the Legion is the one organization of appreciable size which is holding its membership. Our critics will neither be able to etch from within nor destroy from without. While the soldiery of 1917-18 remains alive, the American Legion will keep abreast the stream though its bottom may be rough and its current swift. Meanwhile those who snarl may content themselves with the fact that criticism from without furnishes cement within.

MERCY SLAYER NOW SANE AND GETS FREEDOM MASSILON, OHIO—James Stenhouse, 46, "mercy slayer" of his child, was released from the state insane hospital last Wednesday as normal both mentally and physically.

Stenhouse was committed to the hospital last January when the grand jury at Millersburg refused to indict him after he confessed chloroforming his baby boy to death nearly three years ago. At the time, he said the child was suffering from an incurable brain disease and he "knew he was doing right" in ending its life.

Typewriter Ribbons—The Advocate

PICKED UP ON MAIN

WHOOPEE

The Kansas City Star quotes the Monroe County Appeal as saying the next repeal movement should deal with women suffrage. Petticoat rule is bad for the county according to this paper which states the general run of women care nothing about the vote, they are more interested in salad recipes or Ferguson's rules of bridge playing, with emphasis on the latter.

Folks it looks like the unclean hog is going to lead us out of bad times. "But the trouble with us is, we ain't got no hogs," says one farmer. And whose fault is it? we replied.

Some of these curb stone hounds would like to see The Advocate wade into politics and stir things up a bit. They would stand back of us all right, but the trouble is these fellows who are always so anxious to stir up some excitement even a dog fight would be so far behind the individual or group of individuals they backed that the unfortunate one would strangle by the time deep water was hit. It is perfectly just and right for a newspaper to have its own political opinion, just as much so as any individual. But there are few causes and few individuals that we have seen fit to tear our shirt over. The sad part of the whole story is that your friends soon forget after the election, but the enemies you make don't. Experiences of several large dailies have been rather detrimental even though they were on the right side. Those who believe playing politics is such a great game should get out somewhere and start a political paper and see how long it lasts. Notices of sheriff sales sticking on the door of the newspaper after the political campaign have never been known to seriously disturb either the democrats or republicans.

So far as that's concerned many labor under the same misconception in the business world. Let any stranger land in town and he can always find plenty of encouragement to start a new bank, dry goods store, filling station or what not. But let him depend on this encouragement for a little financial aid and see how far he gets. The same misguided individual who gives encouragement so freely usually labors under the impression that he or she could set the world afire if he could only get into some particular business.

EXTOLS LOCAL PAPER

Will Rogers says: "Take my ham away, take away my eggs, even my chili, but leave me my newspaper. Even if it just has such purely local news as Jim Jones came home unexpectedly and blood ensued, or Jess Bushyhead our local M. D., is having the best years of his career practically speaking—but they won't pay him when they get well. The county seat was packed yesterday with prominent visitors from out-of-town, attempting to renew their notes, and election isn't far off and everybody is up for office that can sign an application blank."

"Now all that don't seem much news to you. But it is news especially when you know the people, and they are your own town folks. So no matter how punk you might think your local paper is getting, why just take it away from you and see how you feel. The old newspaper I think is just about our biggest blessing. "So let's all read and be merry for next week the paper may not have enough ads in it to come out."

NATIONAL CONGRESS ENACTED 500 LAWS

WASHINGTON, D. C.—Around five hundred laws were enacted by congress during the session ending Saturday night. They were chosen from 18,000 bills introduced one of the bumper bill crops in history.

Of this extraordinary total of ideas on what legislation the country needed, 13,000 were presented in the house, 5,000 in the senate. Most were of minor importance. The house figure compares with only 7,700 for the last long session of congress.

Besides the bills in both houses this term there were simple resolutions, joint resolutions, concurrent resolutions which would add approximately another thousand thoughts on the public weal—that's 19,000 brain children. The tally of the last long session showed 517 public laws, 281 private laws and resolutions, 84 public resolutions passed and signed by the president—a larger total than for any session.

Representative Crail of California easily held the bill introducing record in the house. In the huge record book kept by Bill Clerk William J. McDermott, Crail filled up all his own pages and spilled over to the back of the book with a total of 533.

This record, to be augmented in the short session, appears likely to stand a long time, for it was amassed from Crail's Los Angeles constituency of 1,300,000, which will be divided into four full districts and part of another at the next congress.

In contrast to Crail, Representa-

tive Busby of Mississippi; Drewery of Virginia; Ellzey of Mississippi; Granata of Illinois; Sullivan of New York; Wood of Georgia introduced but one bill each, and Representative Briggs of Texas, none.

The house average per member was just an edge below thirty, the senate averaged per member 51.

MAN LOST 26 POUNDS LOOKS 100% BETTER

Feels Stronger Than Ever

Just to prove to any doubtful man or woman that Kruschen Salts is the SAFE way to reduce—let us take the letter of Mr. F. J. Fritz of Cincinnati, Ohio, recently received.

He writes: "I've tried extreme dieting, setting up exercises with very little results—but the results from Kruschen are almost incredible. In three months I reduced from 205 pounds to 179 pounds and feel stronger than ever—no more wheezing or gasping for breath—friends say I look 100% better."

Bear in mind, you fat man, that there is danger in too much fat—try the safe way to reduce—one-half teaspoonful of Kruschen Salts in a glass of hot water every morning—cut down on fatty meats and sweets—one bottle that lasts four weeks costs but a trifle—get it at any drugstore in the world.

### SPECIAL POULTRY PROGRAM FOR FARM AND HOME WEEK

The program for the poultry work to be given during Farm and Home Week, July 25 to 29, is being arranged this year to give special attention to poultry diseases and marketing. Mr. R. B. Thompson, head of the poultry department of the Oklahoma Agricultural College, at Stillwater, Okla., will appear on the program and give some valuable contributions to these phases of poultry work.

Mr. Thompson had several years experience in poultry work in New Mexico prior to joining the staff of the Oklahoma A. & M. College. Since leaving New Mexico he has done some commendable work in Oklahoma, being very instrumental in getting the Oklahoma poultrymen to organize. His work with the experiment station of that state has attracted wide attention. Mr. Thompson is very capable of delving into the fundamentals of poultry science and, at the same time, holding the attention of the average poultryman and helping him with everyday problems.

There are so many interesting problems connected with poultry raising that all cannot be dealt with in one week. Disease control and better markets seem to be very timely this year. With the aid of Mr. Thompson and specialists of the Extension Service and Experiment Station, it is expected that poultrymen in attendance will get helpful ideas which will be of great benefit during these changing times.

### LEADER HAS MORE TO SAY ABOUT NEW MEX. "SACRED COWS"

The Lovington Leader in the last issue tells more of New Mexico's "Sacred Cows", which the tax payers are helping to feed. A partial list of the annual appropriations The Leader says:

These institutions are distributed throughout the state so that at least one of them is located in practically every principal city and nearly every county has one of them. To this list has been added for the information of our readers the appropriations which are local in character and which have a special appeal to the senators and representatives of the locality in which the money is to be spent.

It is quite probable that many of the appropriations are perfectly justifiable and should have the support of the lawmaking body regardless of where the money was to be spent. However, it will appear obvious that many of them were made solely upon the ground that the particular city, county or section to be benefitted was entitled to have some part of the public money spent on it.

Below will be found a list of these appropriations for one year and a close study of this list will convince the average taxpayer that much of this money is being squandered. First among these will be found the hospital to which the state contributes large sums yearly:

St. Vincent's, Santa Fe	\$3,800
Grand Co. Hospital	1,800
Ladies Hospital, Deming	1,800
Eddy Co. Hospital, Carlsbad	1,800
Sister's Hospital, Albuquerque	2,400
Relief Hospital, Las Vegas	1,800
St. Mary's, Roswell	1,800
Sister's of Loretta, Mora	1,000
Sister's of Loretta, Las Cruces	1,000
N.M. Orphans, Santa Fe	10,000
Gallup Hospital, Gallup	2,000

Making a total state appropriation for hospitals annually of \$30,200. Next in the list comes the building of armories, which are simply public auditoriums for the cities in which they are located. Nearly all of the principal cities now have such buildings erected at public expense and the others are clamoring for them, while many of those in which they are located are insisting upon additional appropriations for their enlargement and improvement. The last legislature provided for two of these buildings, one at Clovis and one at Taos, each costing the taxpayers of the state \$30,000, or a total for armories of \$60,000.

The irrigation investigation for determining the feasibility of drilling wells, erecting dams for reservoirs, etc. amount to a considerable item in the aggregate.

For the state institutions, the following is the appropriation for one year, and that amount was trimmed by the governor many thousands of dollars below what these institutions asked for:

State University	\$238,000.00
A. & M. College	\$131,886.20
School of mines	\$43,600.
Silver City Normal	\$100,250.
Las Vegas Normal	107,650.
El Rito Normal	-31,250.
New Mexico Military Institute	\$55,500.
Deaf and Dumb School	\$50,000.
Blind School	\$78,450.
Insane Asylum	\$100,000.
Penitentiary	\$175,000.
Reform School	\$53,000.
Miners' Hospital	\$7,500.
Museum of New Mexico	\$27,000.
Girls Welfare Board	\$37,500.
Mental Defectives	\$34,000.

REVIVAL ON COTTONWOOD

The Cowboy Evangelist Homer Coberly of Roswell is holding an old time revival meeting on the Cottonwood at the Cottonwood gin and store. A large tent has been stretched for the accommodation of a big crowd. Services are conducted each evening, opening with music and song followed by a message from the cowboy, which he feels is of vital interest to his hearers. The meeting is well attended by the Cottonwood people as well as a number of people from other communities.

Sunday there will be three services with a basket dinner. Evangelist Coberly is looking forward to having a good crowd at all services. His message in the afternoon Sunday will be on present day conditions in the light of the Bible prophecy.

The public is cordially invited to attend these services. The Rev. Coberly is well known over the valley and states that he will look for all of his old time friends.

### GOVT. IN COMPETITION TO PRIVATE TRADE

WASHINGTON D. C.—A house committee investigating government competition with private business was told navy transports and battleships are used for smuggling goods into the United States.

The charge was made by L. F. Savage, Portsmouth, Va., merchant, representing a group of merchants in the vicinity of the Norfolk navy yard. A navy yeoman, he said, told him of the demand and collection of \$5,000 by the paymaster of a midshipmen's practice cruise ship for the handling of contraband.

Savage and T. P. King, another Virginia merchant, appealed to the committee for abolition of certain stores and service enterprises operated at Virginia naval stations for military and civilian personnel. Savage estimated business amounting to \$5,000,000 or more annually is lost by merchants.

Savage said the ships service stores, to which he objected particularly, branched out into a wide field, citing that there were at Norfolk barber shops, tailor shops, shoe cobblers and a small loan association, none paying taxes.

### ELEVEN TONS OF INSECTS

Numbers of local people this year have made special effort to witness the flight of the bats from the Carlsbad Caverns which occurs each evening at this period of the year between 6:00 and 7:00 o'clock.

The sight of the bats emerging in great numbers is an unusual one. The bats fly out in the evenings to feed. It is said that they have a cruising range of approximately 100 miles and consume nightly eleven tons of insects.

Miss Blanche Atkins of St. Cloud, Minnesota left today after a short visit with her cousin, Gail Hamilton and family. Miss Atkins is en route home from the western coast, going by the way of New Orleans. Mrs. Hamilton and daughters, Ruth and Mary Ann accompanied Miss Atkins through the Caverns yesterday.

Mrs. D. Y. Stem of Abilene, Texas and her daughter, Mrs. George Teel, of Hope, were dinner guests of Mrs. W. S. French yesterday. Mrs. Stem is the widow of Dr. Stem and lived in Artesia some fifteen years ago. She is visiting her daughter at Hope.

Lonnie Wright of Lake Arthur suffered a broken right wrist Sunday when thrown from a calf.

Ray Soladay Carlsbad city manager was up this morning looking over Artesia's oiled streets.

C. Bert Smith enjoyed a surprise birthday dinner last Friday at two o'clock, when Mmes. L. P. Evans, Raymond Bartlett, Richard Attebery and children, Mrs. Elizabeth Cooper and Mrs. C. R. Blocker and Mr. and Mrs. Sowell suddenly appeared at "Smith Haven" with birthday eats. Mrs. Smith brought from under cover a huge birthday cake, which was short a good many candles, since the required number could not be found in all the mountains, adding to the delight of Mr. Smith. Other members of the family who helped with arrangements and enjoyed this dinner were: Mr. and Mrs. Edson Jones, and daughter, Barbara Nell of Waukegon, Illinois, Betty Nelle and John Lanning, Jr., and Mrs. Smith.

### USE WATER GLASS TO PRESERVE CHEAP EGGS

Efforts are being made by poultry raisers to preserve the eggs which are cheap in spring and summer until next winter when egg prices usually range higher says W. M. Ginn of the New Mexico State College.

The most satisfactory farm method for preserving eggs for that long a period of time is by using water glass. The materials needed for preserving each 15 dozen eggs by this method, are: 5 to 7 gallon crock jar, 9 quarts of water, 1 quart of sodium silicate (water glass).

The crock or container should be thoroughly cleaned, after which it should be scalded and then left to dry. Candle and select the required number of fresh, clean, infertile eggs, that have not been washed. Boil the water and let it cool. Mix the water and sodium silicate by stirring. Place the solution and eggs in the jar, being careful that the eggs are well covered with the solution. In case there are not enough eggs on hand when the solution is first made, more may be added from time to time. Each egg should be placed so the large end is down. Care should be taken that the eggs are covered with at least two inches of the solution at all times. The jar should be sealed tightly and placed in a cool, dry place.

These eggs are suitable for home use, even after remaining in the solution for several months, but it is not advisable to market them as there is not a sufficient number to make them a popular item. The poultryman with a supply of these eggs could use them at home and market the fresh eggs.

This method of egg preservation is very inexpensive, the amount of sodium silicate recommended above costing from 25c to 50c. Old stone churns are excellent containers for preservings in this manner.

Further information on preserving eggs may be secured from the county agent or the extension service, State College, New Mexico by asking for circular G-25, "The Canning and Preservation of Eggs."

### BUDGET HEARING—

(Continued from first page) for the past year. The 1931-32 interest fund levied was \$3,000 against a levy for 1932-33 of \$2,715, representing a reduction of \$285. The sinking fund levied was the same for both years and a total of \$1,000. The paving fund levied for 1931-32 was \$605 against \$807 for the year 1932-33. One of the remarkable things about the 1932-33 budget is the manner in which the water fund has been handled. The city after paying its operating expenses, set over from the water fund a total of \$9,850 for 1932-33 to the following funds, general \$5,450; interest \$2,400; sinking \$2,000.

### PEOPLES ROBBERY—

(Continued from first page) robbers gave officers a clue to follow up. This hammer was stolen from an Alamogordo garage about a week previous and in a conversation with Eddy county officers, Alamogordo officers mentioned the odd hammer. Chief of Police Tom Woods of Carlsbad who recalled the conversation and recognized the hammer. Mr. and Mrs. Bush were arrested as they came out of the picture show as an extra force of officers stood near, armed with sawed off shot guns. The other man, Cecil Miller was arrested at the Dixie camp.

These same parties are believed to have committed robberies in Roswell. A radio belonging to the Roswell variety store which was stolen sometime ago is said to have been positively identified.

Early reports that the robbers were riding in an armored car with a mounted machine gun were denied here. However they did have a Ford coupe equipped with a smoke screen device.

Dwight Lee former resident of Artesia and now in the employ of the Carlsbad Auto Co., was on a deal to trade the robbers, who posed as tourists, a new car. The trade would have been closed the morning after the arrest occurred.

### Bush Not Pretty Boy Floyd

After a careful study of the trio of robbers, Sheriff Walter McDonald announced yesterday that Walter Bush, leader of the gang was not "Pretty Boy" Floyd, the noted Oklahoma bandit. Bush does resemble Floyd in some respects, but the distinctive marks do not tally.

### A MARK TWAIN STORY

A tale by Mark Twain is revived in the Golden Book for June. It deals with Mark's encounter with an interviewer and runs:

A gentleman of the press in search of information asks the following questions:

Q. Who is this a picture of on the wall? Isn't that a brother of yours?

A. Oh, yes, yes, yes! Now you remind me of it; that was a brother of mine. That's William—Bill, we called him. Poor old Bill!

Q. Why? Is he dead, then?

A. Ah! Well, I suppose so. We could never tell. There was a great mystery about it.

Q. Well, I never heard anything like this.

A. You see we were twins—defunct and I—and we got mixed in the bathtub when we were only two weeks old, and one of us was drowned. But we didn't know which. Some think it was Bill. Some think it was me.

Q. Well, that is remarkable. What do you think?

A. Goodness knows! I would give the whole world to know. This solemn, this awful mystery has cast a gloom over my whole life. But I will tell you a secret now, which I have not revealed to any creature before. One of us had a peculiar mark—a large mole on the back of his left hand—that was me. That child was the one that drowned!

—New York World-Telegram.

### "BULL" OF CONGRESS COSTS \$2,000 DAILY

The Congressional Record is costing about \$2,000 a day in the final rush to get political propaganda printed at Government expense.

About 35 pages in each issue of the Congressional Record are now given over to reprinting outside speeches, letters to and from constituents, addresses by eminent citizens and small type tables on everything from war debts to the cost of Canadian lumber shipped in the Congressional Record and sent out from under the frank of some friendly senator or congressman.

Congressional printing is a large item in the expense of the government printing office—which uses a total of 1500 carloads of material every year. This is the equivalent of a train ten miles long.

One-third of the Congressional Record is devoted to matter other than the actual proceedings of congress. Senators and Congressmen will be allowed 10 days after adjournment of the last session to have material reprinted in the Record with the attendant privilege of free mailing.

Recent issues of the record show typical variety of material printed in what is appropriately named the "Appendix" to the regular proceedings. These include the opening campaign speech of Secretary of Treasury Mills at Boston this week, letters and statements from lumbermen containing four pages of small type tabular matter showing Canadian lumber prices on every cut of building material; endless speeches and "extensions of remarks" on relief, bonus, the tariff, agriculture and Philippine Independence.

Senator Copeland introduced three pages of material on the alleged healing powers of radium water. Representative James M. Beck, Republican, Pennsylvania, who has just published, a book condemning bureaucratic waste, is traveling abroad and an address he delivered in London is printed in one of this week's issues. Senator Davis, Republican, Pennsylvania, inserted a long speech by a banker of his home town.

Other items include a two-page

newspaper article on disarmament, an analysis of the Democratic silver plank by Senator Pittman, Democrat, Nevada, nearly seven pages of reprinted Farm Board hearings, endless remarks on "Where the taxpayers' money goes."

The tax measure was explained by Col. Woods, who also said that he had suggested a barbecue for the needy. Col. Woods said he would furnish a beef if the Chamber of Commerce saw fit to sponsor it.

Manager Brainard also explained that the government had turned over 500,000 bales of cotton to the Red Cross, which would be used in providing clothing for the needy this winter.

John Sloan of Tulsa, Oklahoma general district manager of the International Supply Co., spent a short time here this week going over company affairs and yesterday accompanied by Pat Reilly, local manager was a Hobbs visitor.

Plans are also going to entertain the presiding secretaries conference which convenes here August 5 and program will likely be next week.

**SIMMS ANNOUNCES FOR GOVERNOR**

SANTA FE.—Alleging that a bipartisan agreement exists between the present democratic administration and United States Senator Bronson Cutting which he believes is "unsatisfactory to the rank and file of democrats," Attorney John Simms of Albuquerque Monday declared himself a candidate for the democratic nomination for governor. While he did not offer his platform at this time, he talked briefly upon reduction in property taxes, and advising taking the New Mexico highway department out of politics, and protecting the school system during the period of economic readjustment.

Mr. Simms is a former justice of the state supreme court, and is a brother of former republican Congressman Albert Simms, husband of the former Ruth Hanna McCormick.

**IT CAN'T BE TRUE**  
 Silent Cal Coolidge is said to have broken his life-long rule of taciturnity during a small party on his birthday, July 4th. A group of admiring townspeople approached him with a lovely birthday cake, on which flared 60 flaming candles. "How would you like to eat a piece of birthday cake?" asked one of his admirers. Now, of course, we cannot vouch for this; it seems quite a long speech for Silent Cal to make, but we understand that after several minutes of reflection he spoke right out and said, "All right, I'll bite."

**\$6,000 BOOK FUND**

Counties Monday were apportioned \$940,879 for school purposes on the basis of the school census at Santa Fe.

The money is from the common school fund, and the per capita rate is \$6.489.

The apportionment includes: Catron, \$8,111.59; Chaves, \$37,138.08; Dona Ana, \$57,417.05; Eddy, \$35,970.02; Grant, \$45,334.03; Hidalgo, \$1,015.50; Luna, \$13,400.33; Coln, \$16,463.28; Socorro, \$19,973.51; and Roosevelt \$35,256.00.

**APONCES MAY BUY FAMOUS 101 RANCH**

PONCA CITY, Oklahoma—Possibility that the famous 101 ranch and wild west show will pass from the hands of Col. Zack Miller last survivor of the ranch founders, to those of Al Capone, imprisoned gang chief, was reported Monday.

E. E. Beach and Horace J. Smith, Pawhuska bond and real estate dealers, were handling the reported dealings.

"Diamond Jack" Louis Alterie, widely known Colorado "dude" ranch owner, represented the Capones, Al, Ralph and Matthew.

"The Capone boys are quitting the racket and are going to retire to active management of the ranch if the final purchase is made," Smith said.

**FREAKS OF HAIL STORM**

In speaking of the queer twists that sometimes comes with a hail storm, a rancher of the hills tells a good one. One day last week he saw a cloud approaching with dust flying out of a canyon. The dust to his surprise was not caused by wind, but hail without any rain. The hail he said was sure raising "hob," but it never rained enough to settle the dust. Another rancher happened to be out in his orchard when the first ice from a cloud began to fall. It wasn't hail, but when two chunks of ice as big as his double fists fell, the rancher did not wait to see what else would fall, but beat it to the house.

SOCORRO—A review of the oil and gas resources of New Mexico, being prepared for the state bureau of mines by Dean E. Winchester, consulting geologist of Denver, is virtually complete. Dr. E. H. Wells, director of the Bureau and State geologist, said recently.

The bulletin will discuss the producing areas, approximately two hundred anticlines and domes, and the oil and gas possibilities of the various areas in which no oil or gas has been found to date. Mr. Winchester is now in Socorro working on his report.

UNITED STATES TRUST COMPANY, a corporation, trustee for ANNA M. J. SMILEY, Plaintiff, Vs. R. H. NORTON, impleaded with the following named defendants against whom substituted service is hereby sought to be obtained: MRS. MABEL WOOD, C. L. WOOD, her husband, and PACIFIC MUTUAL LIFE INSURANCE COMPANY OF CALIFORNIA, a corporation, Defendants. No. 5416.

NOTICE OF PENDING SUIT

STATE OF NEW MEXICO: TO R. H. Norton, impleaded with the following named defendants against whom substituted service is hereby sought to be obtained: Mrs. Mabel Wood, C. L. Wood, her husband, and Pacific Mutual Life Insurance Company of California, a corporation, defendants.

You and each of you are hereby notified that there is a suit pending, No. 5416 on the Civil Docket of the District Court within and for the County of Eddy and State of New Mexico, wherein the United States Trust Company, a corporation, trustee for Anna M. J. Smiley, is plaintiff and R. H. Norton, impleaded with the following named defendants against whom substituted service is sought to be obtained: Mrs. Mabel Wood, C. L. Wood, her husband, and Pacific Mutual Life Insurance Company of California, a corporation, are defendants; and that the general objects of said suit are (1) to obtain judgment against the defendants R. H. Norton and Mrs. Mabel Wood upon a promissory note executed by the defendant R. H. Norton to the plaintiff on April 26, 1927 for the sum of Nine Thousand Dollars due and payable on or before March 1, 1932 with interest from March 1, 1927 until paid at the rate of seven per cent per annum, and for judgment against the defendants R. H. Norton and Mrs. Mabel Wood for attorney fees as provided in said note; principal and interest claimed to be due the plaintiff from you the said defendants R. H. Norton and Mrs. Mabel Wood \$10,336.48 with interest at the rate of seven per cent per annum from July 1, 1932 until paid, attorney fees claimed to be due the plaintiff from you the said defendants R. H. Norton and Mrs. Mabel Wood \$1,033.65, as provided in said note, with interest at the rate of six per cent per annum from July 1, 1932 until paid, and cost of suit; and (2) to foreclose a certain mortgage deed executed by the defendant R. H. Norton to the plaintiff on the 26th day of April, 1927, and conveying to plaintiff as security for said note certain real estate, premises and water rights situated in Eddy County, New Mexico and more particularly described as follows, to-wit:

All of Lots numbered 13, 14, 15 and 16, in Section 6, also the Southeast quarter of Section 6, also the North half of the Northeast quarter and the Northeast quarter of the Northwest quarter of Section 7, all in Township 16 South of range 26 East, N. M. P. M., together with the one-seventh right to the Artesian Well located in the Southwest corner of Section 5, Township 16, Range 26 and the right to have and maintain a pipe line to supply the house, etc., and the barn, etc., with the necessary water. Also a one-half interest in the Schetter-Eipper Water Right Filing on the Cottonwood Creek, being for three and nine-tenths feet of water the year round. Also the pumping plant and all equipment belonging thereto located on above described land, being 440 acres more or less. You are further notified that unless you enter your appearance and plead in said cause at the Court House in Carlsbad, Eddy County, New Mexico, on or before the 23rd day of August, 1932, plaintiff will take judgment by default against you the defendants R. H. Norton and Mrs. Mabel Wood for principal and interest in the amount of \$10,336.48 with interest thereon at the rate of 7 per cent per annum from July 1, 1932 until paid, and for the further sum of \$1,033.65 as attorney fees with interest thereon at the rate of 6 per cent per annum from July 1, 1932 until paid, and cost of suit. You and each of you are further notified that the real estate, premises and water rights in plaintiff's complaint and mortgage deed described will be sold to the highest bidder for cash to satisfy the amounts due plaintiff and all cost. You are further notified that plaintiff's attorney is J. H. Jackson, and that his business address is Artesia, New Mexico. IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the District Court on this 6th day of July, 1932. (SEAL) RUTH S. NYE, County Clerk.

CHILLS AND FEVER

We showed last week that this disease is caused by a minute animal parasite that lives in the blood of infected persons. When the parasite breeds an attack of chills, fever and sweating follows. In between attacks adult parasites are still present in the blood. Certain mosquitoes when they suck this blood also become infected with the malaria parasite and when the infected mosquito later bites a healthy person that person too becomes infected. The malarial parasite is killed by quinine and most popular remedies for chills contain this drug. If all the parasites are to be killed, it is important that quinine be given at the right time and in the right quantity. For this reason the patient should be under a doctor's care. Even with the best medical attention it is sometimes difficult to stamp out the infection.

If all cases of malaria in New Mexico were cured the disease would soon disappear because the mosquitoes would not be able to find any infected blood. Those who do not have malaria should therefore in their own interest help those who have the disease to get well again.

Malaria is found in New Mexico in the Rio Grande valley; in Espanola and surrounding villages and in Sierra and Dona Ana counties. There is grave danger of its spreading to Albuquerque. Malaria is also found in the San Juan valley near Farmington. Although a few cases have been reported from the valley of the Pecos river it seems probable that all of these cases got their infection elsewhere.

Subsequent articles will discuss the cost of malaria and the methods used to prevent the disease from spreading.

The Good Of It

When Benjamin Franklin saw his first balloon, some one sneered: "What good is that thing?" Ben replied: "What good is a BABY the day it is born?"

Franklin knew his stuff. He realized that every worthwhile thing had to have a beginning. That is true of a BANK ACCOUNT. Of what use are the few dollars with which you start an account? Not MUCH, to be sure. But wait until the account grows and you NEED the ready cash. Then's when it counts—and counts BIG.

NOTICE OF PENDING SUIT

STATE OF NEW MEXICO: TO R. H. NORTON, impleaded with the following named defendants against whom substituted service is hereby sought to be obtained: Mrs. Mabel Wood, C. L. Wood, her husband, and Pacific Mutual Life Insurance Company of California, a corporation, defendants.

You and each of you are hereby notified that there is a suit pending, No. 5416 on the Civil Docket of the District Court within and for the County of Eddy and State of New Mexico, wherein the United States Trust Company, a corporation, trustee for Anna M. J. Smiley, is plaintiff and R. H. Norton, impleaded with the following named defendants against whom substituted service is sought to be obtained: Mrs. Mabel Wood, C. L. Wood, her husband, and Pacific Mutual Life Insurance Company of California, a corporation, are defendants; and that the general objects of said suit are (1) to obtain judgment against the defendants R. H. Norton and Mrs. Mabel Wood upon a promissory note executed by the defendant R. H. Norton to the plaintiff on April 26, 1927 for the sum of Nine Thousand Dollars due and payable on or before March 1, 1932 with interest from March 1, 1927 until paid at the rate of seven per cent per annum, and for judgment against the defendants R. H. Norton and Mrs. Mabel Wood for attorney fees as provided in said note; principal and interest claimed to be due the plaintiff from you the said defendants R. H. Norton and Mrs. Mabel Wood \$10,336.48 with interest at the rate of seven per cent per annum from July 1, 1932 until paid, attorney fees claimed to be due the plaintiff from you the said defendants R. H. Norton and Mrs. Mabel Wood \$1,033.65, as provided in said note, with interest at the rate of six per cent per annum from July 1, 1932 until paid, and cost of suit; and (2) to foreclose a certain mortgage deed executed by the defendant R. H. Norton to the plaintiff on the 26th day of April, 1927, and conveying to plaintiff as security for said note certain real estate, premises and water rights situated in Eddy County, New Mexico and more particularly described as follows, to-wit:

All of Lots numbered 13, 14, 15 and 16, in Section 6, also the Southeast quarter of Section 6, also the North half of the Northeast quarter and the Northeast quarter of the Northwest quarter of Section 7, all in Township 16 South of range 26 East, N. M. P. M., together with the one-seventh right to the Artesian Well located in the Southwest corner of Section 5, Township

16, Range 26 and the right to have and maintain a pipe line to supply the house, etc., and the barn, etc., with the necessary water. Also a one-half interest in the Schetter-Eipper Water Right Filing on the Cottonwood Creek, being for three and nine-tenths feet of water the year round. Also the pumping plant and all equipment belonging thereto located on above described land, being 440 acres more or less.

You are further notified that unless you enter your appearance and plead in said cause at the Court House in Carlsbad, Eddy County, New Mexico, on or before the 23rd day of August, 1932, plaintiff will take judgment by default against you the defendants R. H. Norton and Mrs. Mabel Wood for principal and interest in the amount of \$10,336.48 with interest thereon at the rate of 7 per cent per annum from July 1, 1932 until paid, and for the further sum of \$1,033.65 as attorney fees with interest thereon at the rate of 6 per cent per annum from July 1, 1932 until paid, and cost of suit.

You and each of you are further notified that the real estate, premises and water rights in plaintiff's complaint and mortgage deed described will be sold to the highest bidder for cash to satisfy the amounts due plaintiff and all cost.

You are further notified that plaintiff's attorney is J. H. Jackson, and that his business address is Artesia, New Mexico.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the District Court on this 6th day of July, 1932.

The Good Of It

When Benjamin Franklin saw his first balloon, some one sneered: "What good is that thing?" Ben replied: "What good is a BABY the day it is born?"

Franklin knew his stuff. He realized that every worthwhile thing had to have a beginning. That is true of a BANK ACCOUNT. Of what use are the few dollars with which you start an account? Not MUCH, to be sure. But wait until the account grows and you NEED the ready cash. Then's when it counts—and counts BIG.

**GOVERNOR WILL CALL SPECIAL SESSION IF SOLONS SHOW SPEED**

SANTA FE—Governor Arthur Seligman is willing to call a special session of the state legislature providing the taxpayers' proposed economy program is agreed upon in advance by a majority of the house and senate, and the special session would not require more than three or four days.

Clarence C. Iden of Las Vegas, chairman, and other members of the legislative committee of the federation of taxpayers associations assured the governor that whatever program is finally agreed upon would be presented by the local taxpayers associations to their legislative members to insure its prompt passage.

"I could not approve," the governor said, "of a special session which would daily around Santa Fe for thirty days or more, costing the state between \$25,000 and \$50,000, which finally reached no constructive legislation."

The taxpayers committee placed before the governor sixteen suggested pieces of legislation, with some measures intended for a special session and other to be recommended to the next regular legislative session.

These sixteen points outlined in full previously ranged from reduction of salaries of county officials, to various items on tax revision, tax collection, and collection of delinquent taxes, elimination of special county road levies and such other measures on through to two proposed constitutional amendments, one to place control of the state institutions under a central board of finance and the other to place county board road construction under the supervision of the state highway department.

Mr. Iden presented to the governor an estimate arrived at by the committee, representing savings of \$1,060,800 to be gained through some of the legislative proposals.

This included: reduction of salaries of county officers ten per cent, \$60,000 annually; reduction of state appropriations ten per cent, \$200,000 annually; elimination of county boards of appraisers, \$40,000 annually; elimination of fees for district attorneys serving as juvenile attorneys, 10-800 annually; reduction in mileage allowances, \$25,000 annually; cancellation of the \$200 exemption for heads of families, \$50,000; cancellation of the property tax exemption for war veterans, \$350,000; savings possible in feeding county prisoners, \$25,000.

**HUTTON NOT ABLE TO PAY ANTHING TO JILTED NURSE**

LAKE ELSINORE, CALIF.—Loser by \$5,000 in Myrtle St. Pierre's breach of promise suit, David Hutton, husband of Evangelist Almee Temple McPherson-Hutton, had additional trouble on his hands last week in a reported threat by members of his wife's Angelus Temple followers to remove him from the congregation.

"Let them try to oust me," Hutton, a choir singer in the temple, told reporters. "My wife is the head of that temple, but, of course, she ought to handle anything like that if it comes up. So far as that St. Pierre woman is concerned, she can't get a cent, because I haven't even a red one."

The evangelist was under the care of a doctor last week as the result of a fall in which she struck her head on the concrete floor when her husband told her a Los Angeles jury had found him guilty of breach of promise and had awarded Miss St. Pierre \$5,000. The suit had been filed by Miss St. Pierre, a young and attractive nurse a few days after Hutton's elopement with the evangelist to Yuma, Arizona.

Mrs. Hutton was reported to have suffered concussion of the brain when her head struck the cement floor in the local resort where she is staying to recuperate from recent ailments. However, the evangelist took note of the reported revolt among her followers by issuing a brief statement, which read:

"I certainly am going to stand by my husband."

**UNEMPLOYED COLD ABOUT THE CITY TRUCK LOT**

The unemployed of Carlsbad do not seem to be greatly interested in the elaborate preparations made for a series of municipal gardens, to provide vegetables for the trying periods of next winter.

City Manager Ray Soliday, County Agent W. A. Wunsch and the service clubs, had made arrangements with property owners for the use of several acres, had provided for the water for irrigation, and was ready to provide the heavy plowing and the seed.

It is expected that there will be seventy-five families dependent upon the community welfare next winter, and in this group there are at least 100 persons who are physically able to help in the gardens, for their own use.

When it came to a show down, just one man appeared, ready to do his best, despite his age and lesser strength.

The authorities, puzzled by this unwillingness to help themselves, are a good bit puzzled with the situation, but now that the way is open are going ahead with the work anyhow. They will plant several acres in turnips, carrots and other crops that do not require intensive cultivation, and these will certainly be served out to the applicants for eats next winter.

**HOPPI PRIESTS WATCH MIGNON TO SET DATE FOR SNAKE DANCES**

FLAGSTAFF, Ariz.—Over the mesa lands of northern Arizona, the nightly vigil for a mystic shadow cast by the moon as a signal for the setting of the date for the annual snake dance, a century old rite, has been started by the Hopi Indians.

Fleet runners sped today over the plains and mesa land to the tribesmen with the message to be prepared to gather at Hotevilla and either Chimpavai or Shungopovi for the ceremony of thanksgiving and prayer.

The Hopi Indian medicine man believes the date of the rite will be August 20, but he is not certain. The date depends upon a certain shadow cast by the moon, and the dance follows that by a fortnight.

Meanwhile in the rude huts of Hopi-land the squaws are busy preparing a secret herb formula to give the dancers who must handle the deadly rattlesnakes and bullsnakes in the rite.

**HIGHWAY DEBENTURES CAN BE ISSUED NOW**

SANTA FE—The International Bond company of Denver, Colorado Monday advised State Treasurer Warren Graham that it has found a market for an additional \$17,000 worth of the second block of New Mexico highway debentures. This makes a total of \$31,000 of the second block of \$250,000 which has been sold by the Denver company, and it has until July 28 to fulfill its contract for sale of the entire block.

In the event any debentures remain unsold at the time of expiration of the contract, they will be purchased by State Treasurer Graham and then re-sold by the treasurer's office, in order that there may be no delay in the highway department financial program.

**PRESIDENT TAKES A \$15,000 SALARY CUT**

WASHINGTON, D. C.—President Hoover Friday ruled himself a \$15,000 a year reduction in salary and simultaneously reduced the salaries of his cabinet officers by 15 per cent.

The order, cutting cabinet members from \$15,000 a year to \$12,750 a year was issued while the President sat with them at his regular semi-weekly cabinet meeting.

Mr. Hoover himself, it was said, took a 20 per cent cut as the maximum allowed under the law. Ordinarily he receives \$75,000 a year.

**DON'T PILE TRASH IN STREET GUTTERS**

City officials complain of the practice by many residents who persist in piling trash in the street gutters and gutters in the alleys. This is no doubt due largely to thoughtlessness. If the streets properly drain, it is necessary that the gutters remain open. If the streets do not remain open, a mud hole may develop where the obstruction occurs during the rainy season.

Artesia is getting an extensive street improvement program and many streets and alleys in the residential section are to be oiled and improved as fast as funds are available. Residents are asked not to hinder but to co-operate as much as possible in this work. Don't take chances of making a mud puddle around your property by piling an obstruction in the gutter.

Lawn clippings make fine green feed for your chickens, if you have any, if not clippings and weeds can be used to advantage around your trees and shrubbery to preserve a mulch and thus save irrigation water.

**MA THROWS WHAT A MAN HUTTON OVER**

LOS ANGELES.—With a flourish of epithets acent married life and one husband in particular, Mrs. Minnie (Ma) Kennedy, mother of Almee Temple McPherson-Hutton, the Evangelist, signed a divorce complaint Monday against Guy Edward Hudson.

She labelled Hudson a "gimme boy" who had worn out her bank roll—old sock, she called it—and said he had started to travel when it began to unravel. He is in Las Vegas, Nev., in search of work.

Mrs. Kennedy, as plump and ready of tongue as ever, sat beside the desk of her attorney, Marlon P. Betty, and let the story of her marital life roll forth. She was dressed in a stylish blue knit sport dress with a hat to match.

She claimed Hudson owed her \$4,200 and said he was just "a vagabond lover." "Believe me, there's a big run in the old sock now," she exclaimed as she recalled that all she had of the \$4,200 was his promissory notes.

The notes, she said, dated back to the culmination of their romance, a moonlight marriage in June, 1931 on the banks of a lake near Longview, Wash. She said she met the expenses of that ceremony.

There was Hudson's first wife, who as the bridal couple reached Los Angeles, reminded him he was still married to her. Ma said she financed an annulment of their marriage and a divorce for Hudson and his wife. Then followed the second marriage of "Ma and Pa," as they had become known, on a peak overlooking Hoover dam.

"I've gone broke on him," Mrs. Hudson said. "I am not only love broke—I'm financially broke. It was 'Gimme, gimme, gimme,' from the first night of our second ceremony. I knew I couldn't last then. But I always stick by my bargains."

**14,463 CATTLE SHIPPED IN THE MONTH OF JUNE**

Cattle shipments from New Mexico points in June totaled 14,463, according to figures compiled by Walter Naylor, secretary of the cattle sanitary board. Shipments from the state a year ago in June totaled 17,820. More than 300 head of cattle shipped from New Mexico districts came to Albuquerque for slaughter.

Most of the cattle went to markets at Los Angeles and Kansas City. Some went to grazing in Colorado, Wyoming and Nebraska. The shipments by districts were:

Las Vegas, 135; Clayton, 176; Tucumcari, 136; Alamogordo, 4; Roswell, 87; Farmington, 2,188; Deming, 801; Albuquerque, 116; Anton, 3,759; Silver City, 1090; Hobbs, 1,110; Colo., 78; Las Cruces, 1,300; Carlsbad, 29; Lovington, 699; Portales, 1,449; Vaughn, 203; Hachita, 649; Roy, 29; Jal, 647; Magdalena, 299; Raton, 190. Total, 14,463.

**STATE COLORS ON 1933 CAR PLATES**

Motor vehicle registration plates for 1933 will be in the state's colors, with the numerals in red, State Comptroller Juan N. Vigil announced after a conference with Governor Seligman last week.

On truck plates the colors may be reversed, but that point has not been decided as yet.

The "Sunshine State" motto is to be eliminated and the large-sized Zia sun symbol, the device on the state flag, restored to the plates.

Specifications for the 1933 plates are being gotten up and as soon as they are finished, Vigil said, he will call for bids.

The official plates for state officials are not to be numbered. Instead the title of the official is to be used, such as "Governor," "State Treasurer," etc.

ENGRAVING—THE ADVOCATE

**LEGAL PROCEEDURE TO SAVE HOPE WATER USERS MUCH MONEY**

ROSWELL—Establishment of a precedent in legal procedure marking the saving of thousands of dollars has been made during the hearings leading up to the final decree in the case of the United States against the Hope Community Ditch company and others involving the water rights of 3,500 land owners along the Pecos and its tributaries.

Senator George E. Remley of Raton, special master in chancery in the case, arrived in Roswell Thursday for the purpose of discussing the final decrees with the attorneys in the case. It will probably be two or three months before the final decree is presented to Judge Colin S. Neblett for final decision due to the great amount of work involved in drawing up a decree covering the rights of so many land owners.

It is expected that the decree will result in the saving of a great amount of water to the owners of land along the 600 miles of the Pecos involved and the 600 miles of the tributaries of the Pecos. Each man will know just how much water he is entitled to, thereby resulting in the saving of much water. It will also result in the appointment of a water master as an intermediary in such discussions as might arise, also leading to a more satisfactory and more equitable distribution of the surface water with which the case deals.

The remarkable thing about the case, according to Ethelbert Ward of Denver, and H. J. S. DeVries, of El Paso, special assistants to the attorney general, working in the case, is the new legal precedent which not only saved taxpayers here thousands of dollars but will continue to do so in future cases elsewhere.

**FRIEND OR FOE**

The majority of the people consider me a friend; they come to me daily, though I conduct a great germ exchange.

Many people come to me daily and exchange the germs of my diseases they may have for those of someone else.

The person leaves his germs with me and I give him whatever else I may have on hand.

Among the germs that are left with me for free distribution are influenza, whooping cough, pyorrhea, venereal disease and tuberculosis.

I belong to the great unwashed.

I am a law breaker.

I am a public menace.

But young people, old people, prosperous people, poor people, ignorant people, intelligent people and flocks of school children, all come to my exchange.

**NEW MEXICO LEASES LAND EXCESS AREA**

SANTA FE—New Mexico has under lease more land than it owns, but nobody is the loser and it happens to be the only state in the west where such a condition can exist.

State Land Commissioner Jas. F. Hinkle, making a recent check of leases in the land office, found there are some tracts in the southeastern part of the state which have as high as four types of land leases on them. These include leases for grazing, oil wells, gas wells, potash deposits and in some instances sulphur mining. In such instances, he said, all lessors benefit from the same tract of land.

New Mexico is the only state where such a condition can exist, and the situation, made possible

by the state's simple code, was interestingly at the recent meeting of the missioners from western New Mexico owned by Lea county.
