Weather forced postponement of the MAC Putt Putt Couples Golf Tournament Monday night.

The teams were nearly half through with the three game elimination when wind and rain forced action to stop.

Jerry Hailey, MAC chairman of the tournament said action will resume on Monday, June 15, at 6:30 p.m.

If you want to see some of the best action in miniature golf, attend the rest of the tournament and watch the players vie for first, second and third place trophies.

Alpha Zeta Pi will be hosting the 'Kid's Day' events for July 4th again this year.

They will begin at 10 a.m. at the Bailey County Civic Center for all children, ages 1-10.

More information on the types of events and specific age groups will be released as July 4th draws nearer.

The Chamber of Commerce and Agriculture is again planning a weekend trip to Dallas to see the Dallas Cowboys play football.

To determine the response to such a trip, the Chamber is asking all interested individuals to please call the Chamber office. If enough of the area people are interested, tickets will be purchased and plans finalized.

Please call as soon as possible if you are interested in taking such a trip.

Youth of the Calvary Baptist Church will be conducting a car wash at the church from 8 a.m.-5 p.m. on Saturday, June 13.

They explained that they are leaving the next day for youth camp, and still are a 'little short' on funds needed to attend the camp.

To clean the vehicles, inside and out, it will cost \$10 for vans, suburbans and pickups and cars will cost \$8.

For just washing the outside, vans, suburbans and pickups will cost \$8, with \$6 for cars.

For reservations, or additional information call 272-5319 or 272-4012.

Ellen Gallman said children from throughout the community are invited to attend Vacation Bible School at the Lazbuddie Methodist Church from June 15-19.

Ages two through sixth grade are invited to attend VBS 9-11:30 a.m.

MEASURING THE MULES--In the first Mule Show to ever be held in Muleshoe, last Saturday morning, Donnie Templar and Jack Templar, right, check the height of one of the mules so it can be entered in the proper division. The Muleshoe Mule Skinners sponsored the show at Jeff Smith's arena east of Muleshoe.

Mule Enthusiasts Enjoy Mule Show

The Muleshoe Mule Skinners presented their 'first ever' Mule Show Saturday at the Jeff Smith arena east of Muleshoe.

A Mule Skinner commented, "although the participation was fairly small for the first show, we were very pleased with the community support for the show. One mule owner/handler came from Pasadena, which helps get the word spread about our show."

More shows are already in the planning stage for the future. Tommy Marricle was judge for the show on Saturday.

- Results were as follows:
- JACK STOCK** (36.01 to 54 in.)
Henry Jackson, first, Donald Harrison; Mike, second, J.O. Bell.
 - HALTER** (48.01 to 52 in.)
Tinkerbell, first, Donnie Templar/Jack Templar; Dixie, second, Jan Templar; Joni, third, Ken Aldridge.

'Ringers' Fail; GTE Explains

"One of the most difficult repair jobs in years," said a General Telephone Exchange technician, of a telephone failure in Muleshoe for some three hours on Friday afternoon, and more than eight hours on Saturday afternoon, evening and night.

Muleshoe's 'ringer' went out, and no telephone in the city limits of Muleshoe, or on '272' would ring.

How were emergencies handled? And, Muleshoe had several, especially on Saturday evening and night.

The person with the emergency would call the long distance operator. The operator in turn, would notify a Littlefield law enforcement agency, who in turn, would radio to the Muleshoe City Police Department.

Despite two accidents, and two medical emergencies, and a disturbance, all calls were handled quickly and efficiently -- thanks to the Littlefield telephone operators.

O.D. Hearn, from the Brownfield office of GTE, told the Journal Monday afternoon that the telephone problems had been repaired, and new replacement equipment had been ordered.

Rotary Members View Video

When Tommy Gunstream, chairman of the Muleshoe Rotary Club riding lawn mower project, reported to the club Tuesday at noon, he said even with expenses, the Rotary Club cleared \$1,971 from the project.

Jack Rennels won the riding lawn mower. Brad and Paul Poyner shared 'salesmanship' honors for selling more than \$300 in tickets for the mower.

President Bill Liles reported on the Great Southwest Shows, a carnival, which is being sponsored in Muleshoe by the Rotary Club this week. He also said sales for the Magic Show, to be sponsored by Rotary, appears to be going well. The Magic Show will be presented in Muleshoe on Saturday, June 20.

The president said no date had been set for the Rotary Officer Installation banquet, but it will be the last of this month.

Cleta Williams, of The Muleshoe Journal/Bailey County Journal, declined an invitation to become Muleshoe's first female member of the Muleshoe Rotary Club.

In charge of the program for the day was Jess Winn. He introduced Weldon Eagle, who presented a film on 'Cigarette, Alcohol, Drug Addiction.'

Centering around a 'Dick and Jane' theme, from first grade reading books, the commentator, who said he was a long time toxicologist, and works in Houston hospitals, gave instance after instance of 'real' addiction situations.

The commentator said 'peer pressure' is the main reason young people become involved with various types of addicting drugs.

"No sixth grader wants his peers to think he is chicken, so he takes that first drink, smokes that first cigarette, or uses that first drug, usually marijuana," he added.

First, one child smokes a cigarette, then a second joins the first, then before long, all the youngsters in the group become involved. That holds true for alcohol and dangerous drugs, he added.

He spoke of the dangers of

West Plains Medical Center Board Seeking Financing

Jim Burgess, chairman of the West Plains Medical Center, Inc. Board of Trustees, made the following announcement following a meeting of the Trustees on Monday night, June 8:

"West Plains Medical Center, Inc. has reached a severance agreement with the Westworld Community Healthcare, Inc. of California.

The agreement returns control of the hospital facility back to the board of trustees of West Plains Medical Center, Inc.

An agreement concerning the nursing home was made in November, 1986, and its operation has been under local control since that time. The hospital, West Plains Medical Center, was closed by Westworld on November 13, 1986, and has not opened since that time.

The severance agreement has been signed by the Westworld corporation officers, said Burgess, but will not be finalized by the local board until all bank releases are obtained. These releases are forthcoming, added Burgess, and the West Plains Medical Center Board of Trustees will finalize the severance agreement when the appropriate documents are received.

The West Plains Medical

Center Board of Trustees has been pursuing, over the past six months, many avenues to help reopen the hospital facility, reminded the board chairman.

He said a detailed feasibility study was performed by Methodist Hospital of Lubbock.

"The findings, in a nutshell," added Burgess, "were that a viable hospital in Muleshoe was possible, and would be successful, but only under the following circumstances:

- (A) An average daily occupancy of nine patients, i.e. 30 percent occupancy rate;
- (B) An average patient charge similar to that of Methodist Hospital;
- (C) An average collection rate of 85 percent;
- (D) Closely monitored management of the facility; and
- (E) A source of other income, i.e. tax revenues.

Burgess continued, "Methodist Hospital of Lubbock has made a proposal to affiliate themselves with West Plains

MAC Buck Drawings Draw Crowd

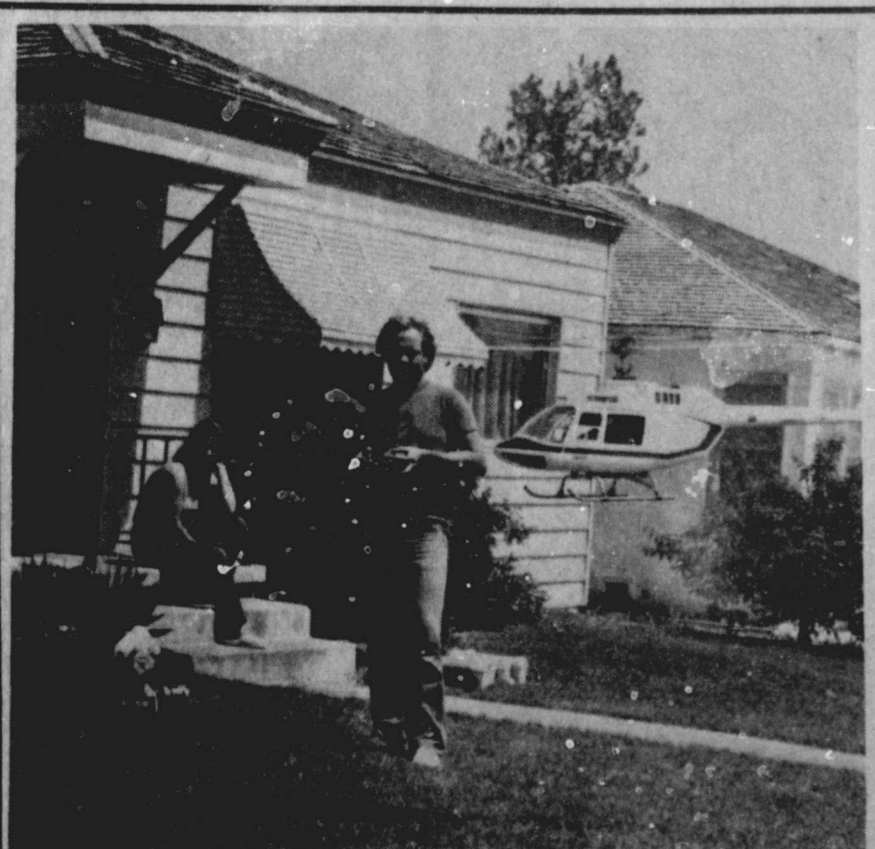

Saturday afternoon, the seventh monthly MAC Buck drawing was held in downtown Muleshoe, with a good crowd waiting for their own 'magical' number to be called.

To no avail, the first number called for each of the three drawings happened to be present, and win.

Dee Puckett held ticket no. 1153862 and won \$25 with that ticket; owner of the winning no. 0198412 for \$50 was Margaret Stephens; while Eva Payne presented no. 1214914 for the \$100 in MAC Bucks.

Winner of the OP skateboard given by Anthony's was Ann Mount; and Jack Rennels was the winner of the \$1700 riding lawn mower given away by the Muleshoe Rotary Club.

In July, one half of all the money accumulated in the MAC Buck 'pot' will be drawn for and there should be several happy winners.

PRACTICING FOR THE NATIONALS--Sunday morning, Nick Black was in his front yard with his radio controlled helicopter practicing for the national meets coming up in about three weeks in Lincoln, Neb. Black, who also took a radio-controlled plane to the national finals last year, purchased the 'crashed' Jet Ranger III from a Lubbock man and rebuilt it. His wife, Jaton, looks on in the background as Black tests his helicopter.

Annual Rabies Clinic Slated Here June 11

Della Snell, Animal Control Officer for the City of Muleshoe, along with the Muleshoe Animal Clinic, will sponsor a rabies clinic on Thursday, June 11, 2-5 p.m. at the old Muleshoe Fire Department across the street from the Muleshoe Police Department on Avenue B.

Mrs. Snell reminded rabies shots are required by state law for all dogs and cats over the age of three months. Also, city ordinance requires that all animals have a yearly city tag. The cost of this tag is \$1 and will be available at the rabie clinic.

"Remember," said the Animal Control Officer, "these clinics are sponsored for you, the public."

- Prices are as follows:
- Combination Distemper, Hepatitis and Lepto, \$14;
 - Combination-Distemper, two Lepto, Hepatitis, Kennel Cough and Parvo, \$21.50;
 - Distemper-\$7.50;
 - Parvo-\$7.50; and Rabies-\$7.50.

MAC BUCK WINNERS--Latest round of winners in the monthly MAC Buck drawings include from left, Eva Payne, \$100; Margaret Stephens, \$50 and Dee Puckett, \$25. The drawing was held Saturday afternoon in downtown Muleshoe.

Excited Entrants Plan For Great Race

An even dozen Texans that includes only one "rookie" entrant will jump off Tuesday, June 30th from Disneyland, CA, competing in the 1987 INTER-STATE BATTERIES GREAT

AMERICAN RACE. They'll finish on Friday, July 10th at Florida's Walt Disney World after crossing 10 states and rolling up 3,920 miles in 11 days. During that period they

will spend the better part of three days with over 100 other antique cars from 52 to 82 years old battling down through Texas from Lubbock to Port Arthur. The GREAT RACE is the

world's richest old car race, paying a record \$270,000 purse in 1987. It's become a 4th of July period tradition in just five short years and this year expects to be seen by two million-in person spectators and hundreds of millions more by various types of media exposure.

A record field of over 100 antique, classic and vintage automobiles will compete in this year's GREAT RACE. The machines include marques as old as a 1905 Stevens-Duryea speedster and include such unusual autos as the 1934 Ford Sedan in which Depression-era hoodlums Bonnie (Parker) and Clyde (Barrow) were gunned down on a rural Louisiana road (the car still has 167 bullet holes in its battered body). Spectators will also see a rare 1909 Stanley Steamer Mountain Wagon, no fewer than 15 vintage race cars ranging in age from 1905-1936, plus fire engines, delivery trucks, limousines, roadsters, trucks and exotic auto names such as Stutz, Pierce Arrow, Auburn, Jaguar, Rolls Royce, Bentley, Vauxhall, Packard, Studebaker, American Underslung and many more.

TWO ARE FIVE YEAR VETS
Two of the "Texas Twelve" have competed in every GREAT RACE since the 1983 inaugural. They are Dick Burdick, of Rosanky, who drove his 1924 Bentley speedster to second place in 1986 and Curtis Graf, of Irving, whose 1911 Oldsmobile Autocrat finished seventh last year. Graf has entered a 1916 Packard roadster and year.

Right behind this pair is John Holden, of Dallas, who has competed in all but the first GREAT RACE. In 1987, Holden will race a stunning Ferrari-red 1929 Ford Model A Dirt Track Racer. Arlington gospel singer Joe Atkinson will also be running his fourth race and in 1987 will chauffeur a classic - a 1913 American Underslung - first car to have the chassis mounted below the springs - a real forerunner of later improvements.

LONE ROOKIE IS SEPTUAGENARIAN
Two owners will be lining up for their third try at the Greatest Show On Wheels. They are Don Deckard, of Amarillo, who drives a 32 Ford, and Kyle Martin, of Houston, who will enter a 1935 Ford coupe.

Zeke Neeley, Amarillo, in a '36 Olds, Danny Watson, Lubbock, in a 31 Chevrolet, Ken Downing, in a '27 Pierce Arrow and Joey Sutphen, Amarillo, in a '35 Auburn, will be GREAT RACING for the second time, as will Bob Taylor, of Seabrook who has chosen a yellow 1933 Chevrolet for his 1987 entry.

The lone rookie in the Texas GREAT RACE field is sep-

tuagenarian Frankie Schmitz, of Gainesville, who plans to drive a 1934 Dodge.

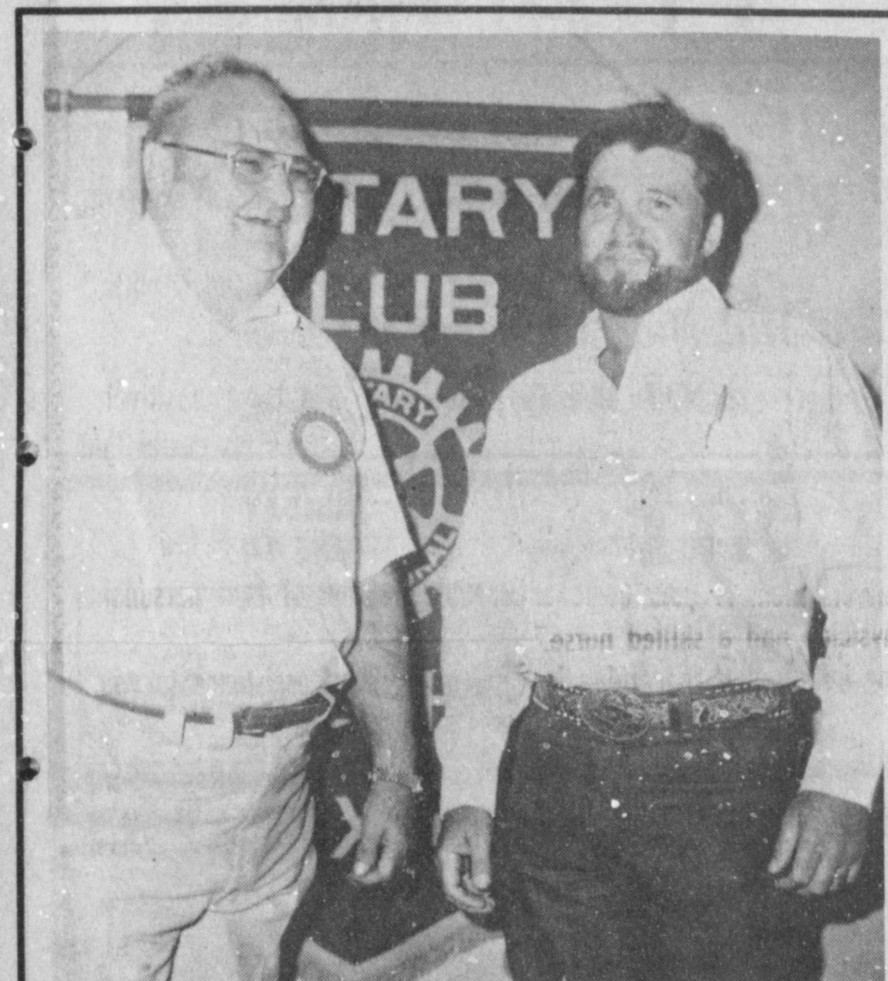

MASSIVE CELEBRATION AT ARLINGTON

The GREAT RACE enters Texas this year on the afternoon of July 3rd, making its first stop for fuel at Muleshoe, in the Northwest corner of the state. After stopping overnight at the Lubbock Civic Center Holiday Inn, GREAT RACERS will stop on July 4th at Post, stage a lunch stop at Abilene, a pit stop at Breckenridge and a late afternoon finish at Arlington (Texas Rangers) Stadium in the Dallas/Fort Worth Metroplex. A huge Fourth of July festival called The GREAT AMERICAN FOURTH will star the GREAT RACERS from 25 states and six countries, with a massive fireworks display capping the day. GREAT RACERS will stay at the Sheraton Centre Park, at the Stadium in Arlington.

JOHANNESBURG, South Africa - Since courts struck down key parts of censorship decrees, foreign news media are reporting on South Africa more freely than at any time since a state of emergency was imposed last June.

KINDERGARTEN GRADUATION--The Sudan kindergarten graduation service and program was held Tuesday afternoon with 26 students participating. The students sang "Welcome Everybody", "Astor's Song" and "Goodbye Song" accompanied by Kim Moss, pianist. Allene Pitcock and Joan Nix, teachers, introduced their students. Tommy Laceywell, elementary principal, presented their certificates. Class members include: Bo Baker, Josh Chester, Brian Davila, Manuel Davila, Dora DeHoyas, Garrett Flowers, Rene Galan, Adam Gandara, Dekirton Golithly, Nick Hall, Shane Harper, Daniel Jimenez, Stacey Jordan, Russ King, Danya Lance, Courtney Legg, Corey Lowrance, Billy Montes, Isela Ortega, Dustin Provenca, Marcy Robles, Michelle Rodriguez, Eva Marie Spencer, Kristy Synatschk, Joe Luiz Valenzuela and Christopher Weaver.

ROTARY PROGRAM PRESENTED--Weldon Eagle, left, was introduced by Jess Winn, and presented the program Tuesday for the Muleshoe Rotary Club. The video presented by Eagle was on "Addiction" -- to cigarettes, alcohol and dangerous drugs. The film was well received by the Rotary members.

Former County Resident Given Award

William M. "Mike" Risinger of Lubbock received the U.S. Department of Agriculture's Superior Service award Monday in Washington, D.C. from Secretary of Agriculture Richard E. Lyng.

Risinger, a soil scientist with USDA's Soil Conservation Service, was cited for "superior technical assistance...benefitting farmers by conserving soil, water, and energy resources in the High Plains...of Texas."

Since 1981, Risinger has helped the High Plains Underground Water District and SCS provide soil moisture monitoring information to farmers in 15 counties. The project has helped farmers save several thousand acre-feet of water annually.

Risinger graduated from Texas Tech University in 1969 with a BS degree in Agronomy. In 1973, he received a Masters Degree from Tech in Soil Science.

He stated his conservation career in Pampa as a student trainee in 1967. He also worked

at Seymour, Del Rio, Denton and Corsicana.

A 1964 graduate of Bula High School, he is the son of Mrs. Zoy Risinger of Knox City.

Risinger is married to the former Rosie McElroy, who is the daughter of Mrs. Ruth McElroy, also of Knox City. The Risingers have two children, Dennis, 11; and Sara, 10.

Bridal Shower Honors

Miss Marilyn Harris

Miss Marilyn Harris, bride elect of Kim Gable, was honored with a bridal shower Saturday, June 6 from 3 to 5 p.m. in the community room of Summit Savings.

Guests were greeted by the hostesses and registered by Debbie Doshier.

Cindy Cargile and Denna Bass, sisters of the bride-elect, served assorted cookies, nuts and lime slush punch from crystal appointments.

The serving table was covered with an apricot tablecloth with a white lace overlay and accented with a silk floral arrangement in shades of yellow and apricot.

A white lace cloth with a yellow underlay covered the registration table. The honoree's corsage consisted of fresh cut daisies and carnations in spring colors.

Special guests included: Mrs. Wayland Harris, mother of the bride; Mrs. Bob Gable, mother of the prospective groom; Mrs. T.R. White, Mrs. Cleo Ward, and Mrs. Clarence "Mack" McMahan, aunts of the bride-elect.

The hostesses gift was a set of Visions cookware. Hostesses for the occasion included: Brenda Clark, Charlene Cargile,

Ray Ann Doshier, Rose Sain, Glenna Raney, Kathy Gable, Kay Ramage and Melisha Bass.

Local Artists Participates

In Artist Workshops

Ms. Rheata White plans to participate in the Artist-In-Residence Workshops, one of the components of "Resort To Art", an international summer visual arts program, scheduled July 6 through August 13 at Vail/Beaver Creek, Colo., according to Cynthia Williams, co-founder of Art Collections Incorporated (ACI) and director of Resort to Art, a division of ACI, headquartered in Tulsa, Okla.

Open studios, demonstrations and exhibits representing a variety of mediums and a broad range of instruction for all levels from novice to expert will be featured in the six-week artist-in-residence workshops.

"The series of adult and children's workshops will be conducted by national and international artists with recognized teaching abilities and a willingness to share their ideas and methods," said Williams. "Classes are small enough to allow personal interaction between students and instructors."

Located at key sites in Vail and Beaver Creek, the workshops will include instruction in the following visual arts media fibre, photography and drawing/Landscape.

A wide selection of children's workshops will be offered to several different age groups. Rheata White will teach a "Kid's Art and Enameling" workshop which will involve drawing, color studies and composition, along with techniques of applying and firing enamels to create fine art

pieces and jewelry. Each student will receive individual instruction and "hands on" experience.

Ms. White maintains teaching studios in Muleshoe and instructs classes in oil, acrylic and copper enameling at Eastern New Mexico University at Clovis, N.M.

The summer-long Resort to Art program also includes a two-month sculpture exhibit opening June 27, featuring a collection of J. Seward Johnson, Jr. sculptures. The pieces will be displayed in two locations: the Gerald R. Ford Amphitheatre and Spruce Saddle, located at mid-mountain in Beaver Creek.

Culminating the summer art activities, a national visual art conference, featuring prominent national speakers from both the corporate and fine arts sectors, will be held August 20-22 in the Gerald R. Ford Amphitheatre.

"Our primary mission, as one of the sponsors of Resort to Art, is to demonstrate to the art world, as well as summer travelers, that Vail Valley serves not only as a premier winter sports destination, but also an important cultural and arts center" said Williams. "The artist-in-residence workshops provide additional activities for summer tourists, as well as members of the local community."

The trouble with most reformers is that two of them so rarely agree.

1927 NEW TOWNS ON THE SOUTH PLAINS LINE

New towns are springing up around Plainview on the lines of the Fort Worth and Denver Plains Railroad, now under construction. Hart, in Castro County, 20 miles north-west of Plainview, is one of the new towns.

Another new town is being built at Sun Set schoolhouse near the Caprock between Plainview and Quitaque. Already the Lockney Gin Company of Lockney is planning the erection of a modern gin in time to take care of this year's cotton crop. Two hundred acres were purchased for the townsite, and the town will be located on two sides of the Floydada-Silverton highway about 22 miles northeast of Plainview.

1937 CALICHE BASE TO BE LAID ON NO. 214 FROM NEEDMORE SOUTH TO BAILEY COUNTY LINE

That further construction work on State Highway No. 214 South of Muleshoe will be continued from Needmore on to the South Bailey County line, work beginning soon, is the gist of information received by the County Judge, from the State Highway Department, Austin.

This work has been previously authorized to be done under direction of the State Highway Department, but occasioned by delay and lack of men for the project had been canceled and appropriated funds diverted to other state projects. However, upon representation to the State Highway Department and to WPA manager, the project has been reinstated and is expected to be started immediately.

1977 LARIAT POST OFFICE "RETIRED FRIDAY"

Some 22 regular users of the Lariat Post Office have found themselves without a post office box, with the retirement of the service of Lariat Friday afternoon at the close of business.

Mrs. Asa Smith, who has been postmaster at Lariat for the past 30 years, retired Friday because "there are a lot of things I have put back through the year and didn't have time to do. I want to paint and have been taking painting lessons."

Mrs. Smith said closing the post office was not an easy decision and she postponed making a final decision for several years because she didn't want to inconvenience her postal customers.

Operating the post office from her home has been an unusual experience, she related. "I don't know how I will manage things without having interruptions," she commented.

Although only 22 persons have boxes in the now closed post office, the high as been 30-35 customers at different times throughout the years.

Jennyslippers

Present Check For Fireworks

A large group of Jennyslippers, Women's Division of Commerce and Agriculture, gathered around the swimming pool of the Heritage House Inn Monday night, June 8, for their regular monthly meeting.

Billie Downing, president, called the meeting to order and following the reading of the minutes of the previous meeting by Sandy Robinson and the financial report by Evelyn Peat, Mrs. Downing presented a check to Fred Clements, fireman, and Ron Montgomery, president of the CofC, for the purchase of fireworks for the Fourth of July fireworks.

The check in the amount of \$1908.53 was money raised at the Walk-A-Thon, which was held in the spring.

Reports were given from the different committees and the July 3 and 4 activities were discussed.

The History Book committee plans to meet today, Thursday, at the library at 5 p.m.

Family fun night will be held in July at the Put Put course with all Jennyslippers families welcome to attend and play put put golf. Homemade ice cream and cake will be served.

Dairy Products Are In June Spot Light

June is dairy month, and while dairy products are in the spot light, consumers may want to take the time to find out what "real" dairy products are.

"There are many products displayed in supermarket dairy cases, but not all of them are actual dairy products," says Mary Kinney Sweeten, a nutritionist with the Texas A&M University Agricultural Extension Service. "Consumers should also be aware that all dairy products aren't kept in the dairy case."

According to Sweeten, "A dairy food is made from milk, not vegetable fat or protein. This includes a wide variety of products ranging from ice cream to cheese to evaporated milk."

"Some dairy products may take consumers by surprise,"

the specialist says. "For example, pasturized process cheese is cheese that has been ground, melted and pasturized. Emulsifiers are added to keep the milkfat from separating, and vinegar, salt and other spices may be added to enhance the flavor and texture, but it's still "real" cheese."

Some varieties of milk may also be misleading. Nonfat dry milk, and evaporated and condensed milk are simply milk with different amounts of water removed. Condensed milk also has an added sweetener, she explains.

The Food and Drug Administration has set up standards of identity for all milk and real dairy foods to guarantee their uniformity, value and wholesomeness.

'Wrinkled' Look Back In Summer Clothing

The new summer fashions are out in local stores, and the comfortable, casual look is "in."

According to Dr. Ann Beard, a clothing specialist with the Texas A&M University Agricultural Extension Service, "The trend this summer is toward denims, khaki, and other casual fabrics. The "wrinkled" look is also back, so you can put away the iron until the new fall fashions arrive."

Wrinkles aren't found only in cotton and cotton blends this summer, she says. They also are showing up in silky looking clothing. These wrinkles are heat set into the fabric so they won't come out after washing. Wrinkles make garments easy to care for, and cooler since less fabric touches the skin.

Puckered seersucker is coming into vogue and is popular for many of the same reasons as the "wrinkled" look.

"Denim is showing up everywhere this summer," says Beard. "It's no longer a fabric just for jeans, and it isn't being restricted to its traditional colors. The soft, washed look seems to be very popular, but some of the stronger colors are being worn more often."

Color combinations are changing too. Summer fashions will bring olive and khaki together, as well as olive and peach. These combinations are enhanced by the primitive looking prints that are part of the new

trend, says the specialist. "The hip slimming effect of shoulder pads also is featured in summer fashions; and the oversized look is still popular though the sizes aren't as exaggerated as in the past," Beard adds.

According to Beard, boutique prints will always be fashionable, but this summer, the primitive look is what's selling.

Be prepared for cool, comfortable summer fashions, and give the iron a rest, unless of course, wrinkles weren't intended by the manufacturer.

ABOUT YOUR HOME

By April Rhodes

If you like a garden filled with rich green foliage and large, bright blooms, geraniums are your plant. In warm sections of the country they can be left in the ground. However, in most regions they must be potted and brought indoors during the fall and winter months.

Save steps by placing a big spool low on the screen door so the toddler can learn to open the door for himself.

For rich brown gravy, add up to a tablespoon of instant coffee. It will not leave any taste of coffee.

When tulip leaves turn yellow, cut and destroy the stems and foliage.

Medical Center of Muleshoe and will assist in management startup as well as long term monitoring for a fee, but they are not desirous to make any financial commitment.

The affiliation would be similar to a management agreement, but would leave control of the hospital to the local board. The startup cost is substantial and would be the responsibility of the local board, reminded Burgess.

West Plains Medical Center's Board of Trustees is pursuing other means to reopen the hospital, but has continued to run into the problem of long term stability. The consensus is that in order to assure the community of a hospital, a source of other income is needed, and that the most feasible way to attain that income is through a hospital district. The Board of Trustees, is, therefore, in the process of delineating the boundaries of the Muleshoe trade area in the hope of creating a hospital district, said Burgess, adding, "This would insure long term viability, and would put the fate of medical care in the hands of the people of our community."

At this point, it would appear, finally, that there is a distinct possibility of reopening the hospital in Muleshoe, if the local and area people are willing to support the hospital, both financially, and through use of their own hospital.

Cotton, Other Crops Gain From Gentle Area Rains

It's called 'cotton showers,' and that's what's been happening in this area during the early part of this week.

With most producers reporting that their crops are planted, and in isolated incidences, replanted, the intermittent showers have generally been more than welcome by farmers.

For the first two days of the week, the official rainfall in Muleshoe, according to the National Weather Service official rain gauge, was .51, a commonly reported figure throughout the entire area.

Most of the rain fell in a very gentle pattern, soaking into the ground almost as soon as it fell.

The Lazbuddie area, which reported very heavy rains just a couple of weeks ago, was on the

'light end of the stick' this time. Demp Foster, at Foster Fertilizer, three miles east of Lazbuddie, said this week's rains amounted to just light showers.

He said almost all crops had been planted now, and in a few instances, some crops had been re-planted. Light hail damage was reported, in May, in the Lazbuddie area.

From Maple, the Maple Co-op Gin reported fairly good rains on Monday and Tuesday, with .7, followed by .3 for a good inch. They, too said the rain fell 'just right' to be the most help to the young crops.

In the West Camp area, Mrs. Eugene (Donna) Shaw, said they had received some .5 in intermittent showers.

From Bula, Bennie Claunch at Claunch Gin, said they had received .7 since Monday night.

Claunch said all cotton in the Bula area was planted, but a little milo needed to be planted as yet.

A little more rain was reported from the Needmore area.

The report from the Needmore Co-op Gin indicated 1.2 inches at Circleback and .5 at Needmore the first two days of this week.

Out of Lubbock, the National Weather Service kept chances for rain in their forecast, with a 20 percent chance for Wednesday during the daylight hours.

Little sunshine was predicted for Wednesday, and the temperature was expected to be in the lower 80s.

Bailey County

Electric Gives

Four Scholarships

Four scholarships were awarded to area graduating seniors by Bailey County Electric Cooperative Association. These four scholarships were made available through the Cooperative by the Muleshoe State Bank of Muleshoe.

Receiving this year's \$400 scholarships were: Linda Wiseman, Sudan High School; Jeff Waltrip, Whiteface High School; Jerome Stueart, Bledsoe High School; and Douglas Scott Williams, Muleshoe High School.

The scholarships may be used in any college or university of the student's choosing. They

are paid in four checks, \$100 each semester for the first four semesters the students are in college. Also, the scholarship can be used only if the student is enrolled in college, trade school or technical training institutes.

Eligible Farmer in Bailey County are invited to become nominees for the Farmer Home Administration county committee, FmHA County Supervisor Jay R. McKay announced today.

Generally, Farmers who are residents of the county but not FmHA borrowers are eligible to become nominees for the FmHA county Committee.

"Farmers in this county, serving on the committee, can play an important role by assisting in the process of loan application and reviews," said Jay R. McKay.

For this election only one member will be elected, and will serve a three year term.

Nominating petitions must be returned to the FmHA Bailey County Office by June 10, 1987.

Additional information and application forms for those who are interested in becoming nominees for the county committee are available at the FmHA county office, 111 E Ave D, Muleshoe, TX., or by calling 806-272-5549

Senator Bill Sarpalius

Reports

TORT REFORM FINALLY PASSES

AUSTIN — Two years ago it was indigent health care; this year it was tort reform. Both were controversial, emotionally charged issues faced by a Legislature in regular session and neither could be resolved in the requisite 140 days.

The solution to both, as it turned out, was to hold the Legislature over a few extra days and make sure the job finally was completed.

If many lawmakers felt this past Tuesday as if they had been in the same situation before, it was because they had. A Senate filibuster Monday night in the waning moments of the regular session killed tort reform just as a House parliamentary maneuver two years earlier had doomed indigent health care. Gov. Bill Clements for once agreed with the tactics of his predecessor, Mark White, and resolved the issue by calling for a special session Tuesday to deal solely with tort reform.

The surprise special session call obviously worked as effectively this year as it had in 1985, maybe even more effectively. It took us three days in 1985 to resolve the indigent care issue. It only took us two days to pass tort reform.

There is yet one more parallel between '85 and '87. The package that emerged from each "quickie" special was fair, comprehensive and enormously beneficial to the people of Texas.

In the case of tort reform, we passed in two days a series of bills that will overhaul Texas' outdated and unjust system of tort law, that part of the law that allows a person to sue another person or company for injuries received as the result of negligent actions.

Currently, state law allows people to file frivolous lawsuits without fear of repercussion and allows juries to award damages that bear little relation to the damage actually done. This week's legislative action puts an end to all that.

The passage of the tort reform package includes:

- *civil and professional penalties for attorneys who file frivolous or harassment lawsuits.

- *reform of the rules governing who pays when damages are awarded. Under the new system, a person who is less than 20 percent liable in a case pays only for damage he or she inflicted.

Just Once

Just once we'd like to see a waiter courageous enough to place the check on the table face up.

-Bluejacket.

- *a cap on the amount of punishment damages that can be awarded by a jury. Juries now are limited to \$200,000 or four times actual damages when awarding punishment damages. There is no limit on the amount of actual damages a plaintiff can receive.

- *a prohibition against awarding damages if the plaintiff is more than 50 percent liable for the suffering or damage in question.

In summary, we have a tort-reform package that should put an end to the outrageous awards that have made liability insurance either unavailable or unaffordable in our part of the state. At the same time, we have done nothing in tort reform that denies an injured party access to the courts if the person has a legitimate grievance and nothing that denies a person an award for real damages.

Some may wonder, though, why it took us so long to arrive at such a seemingly simple and just solution.

When tort reform first was presented to the Legislature there were only a handful of us in the Senate willing to support the concept. We were among only four senators who would put their name on the tort package. It appeared as if the opposition had the votes necessary to kill the package.

However, both sides negotiated at length and worked out a compromise both sides in the Senate could approve. The House made further refinements that required protracted negotiations between representatives and senators.

On the last day of the regular session, it appeared an agreement had been reached and tort reform would pass before the regular session expired. The House finally passed a tort-reform package about 11 p.m. on the session's final night. The Senate tried to follow suit, but Senate rules allow filibusters, and opponents of the tort reform package were able to talk until the session expired and tort reform could not be debated legally.

However, with a package already in place, it took little time in the special session to get the issue settled.

If you have any questions about tort reform, or other issues, please call us at P.O. Box 12068, Austin, Texas, 78711.

STATE CAPITAL

HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN — The 70th Legislature adjourned "sine die" last week but lawmakers did not get to go home for a rest.

Gov. Bill Clements called the Legislature back into special session immediately to deal with the unfinished problem of tort reform.

Lawmakers could not solve the state's budget problems in the 140-day regular session, but took just two days to wrap up the tort reform issue, passing legislation that will make it more difficult for injured plaintiffs to collect large monetary awards from defendants.

Tort Reform Passes

Tort reform had been one of the hottest issues of the regular session, but lawmakers were able to hammer out a compromise between the pro- and anti-reform forces by the end of the session. Insurance companies backed tort reform as a way to cut the cost of liability coverage for doctors, large corporations and others. Defense lawyers and other opponents claimed it simply would protect the rich from lawsuits.

The reform package approved last week included three bills rewriting the state's civil justice laws. Another bill amends insurance laws to include the creation of an office to represent consumers before the State Board of Insur-

Insurance Bills

Also approved were two insurance bills that would allow non-profit organizations to set up their own liability insurance pools and to require agencies to work with the Industrial Accident Board on job safety programs.

The Senate approved the measures on the first day of the special session. The next day, the House took only seven minutes to send the package to the governor to be signed into law.

That prompt action was largely due to House Speaker Gib Lewis' threat to adjourn the House and send lawmakers home without finishing the tort reform action if any representatives tried to amend the bill sent over by the Senate.

Budget Session

Lawmakers now are getting some vacation time, but they will be back in Austin June 22 to resolve the unfinished budget debate.

Legislators completed the regular session without passing a budget bill for the 1988-1989 biennium. The House and Senate both

had passed budget bills totaling nearly \$40 billion, but could not work out about \$100 million in differences by the end of the session.

The stalemate partly resulted from Gov. Clements' threats to veto any spending bill that topped \$36.9 billion.

Also left to be addressed in the special session is the issue of making permanent the temporary sales and gasoline tax increases approved last year. While Gov. Clements supported the tax extension, he vetoed legislation making the 15-cent-a-gallon gasoline tax permanent because House and Senate members could not agree on whether to make the 5.25 percent state sales tax rate permanent or extend it only to Jan. 3.

"The legislature must pass both bills to adequately ensure a revenue stream that will ensure the fiscal integrity of the state for the coming two years," Clements said.

Senate members had voted for only the temporary extension of the tax in hopes of putting pressure on Clements to go along with an expansion of the sales tax base to include professional services and other items not now taxed.

Supercollider

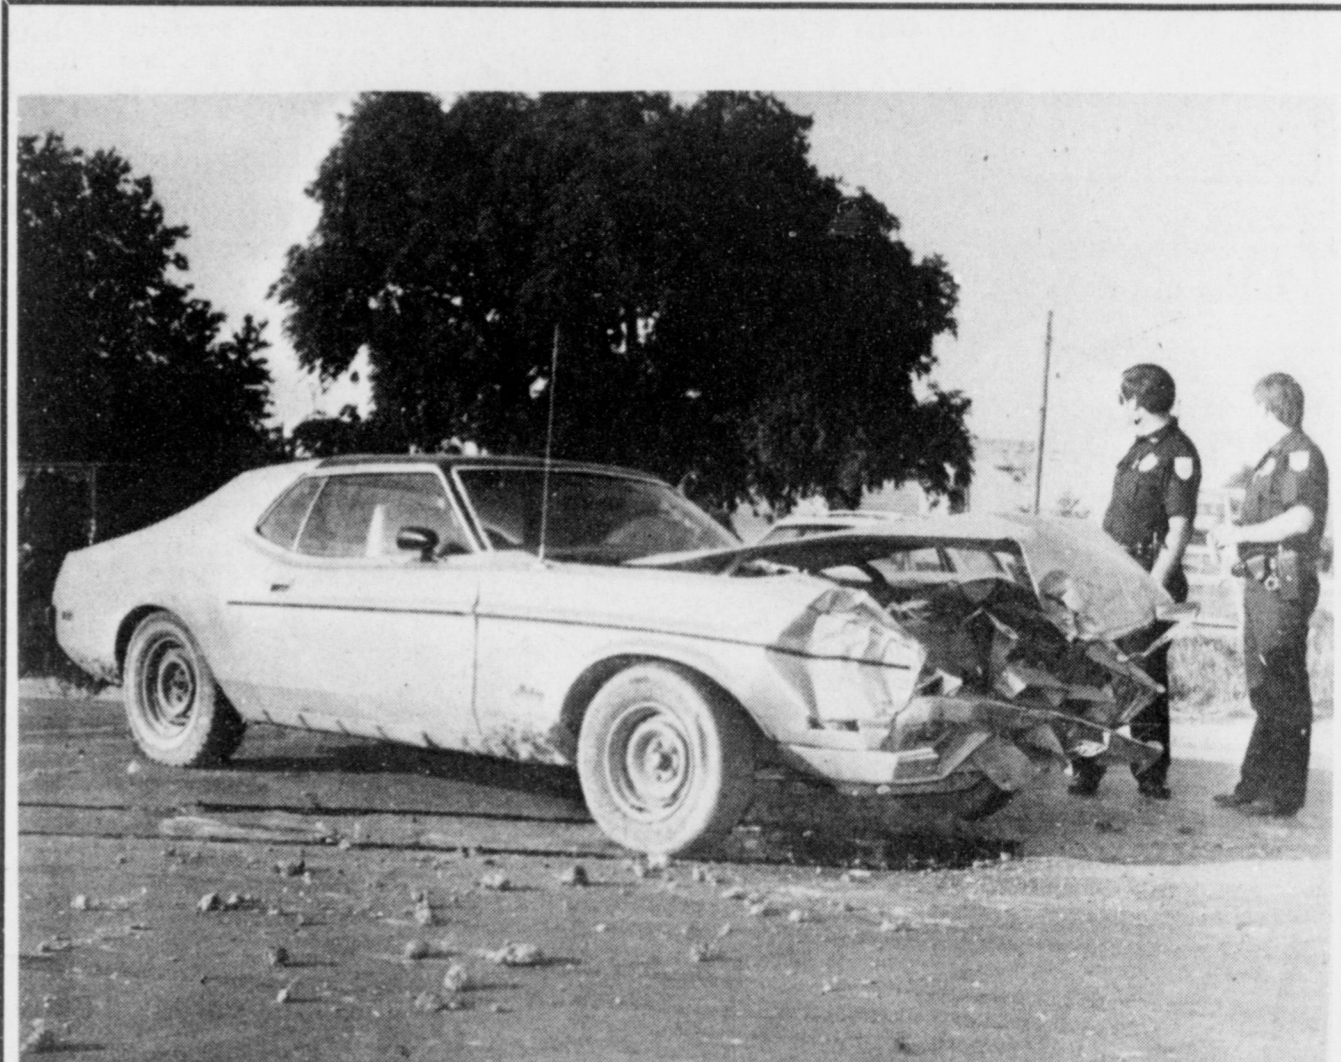

While lawmakers were putting their stamp of approval on tort reform, Clements and a bipartisan delegation from Texas were in Washington, D.C. attempting to bolster support for building the much sought-after supercollider in Texas.

Clements was joined in his efforts by former Democratic National Chairman Robert Strauss, the Texas congressional delegation and former University of Texas at Austin President Peter Flawn, who heads the Texas National Research Laboratory Commission.

The supercollider would cost \$6 billion to construct and bring thousands of jobs to Texas.

Flawn said Texas' proposal must be "very strong on its technical merits" to beat out competition from Illinois and California.

Congressman Jack Brooks, D-Beaumont, said, however, that political muscle would be essential in getting the Reagan administration and the National Academy of Sciences to pick Texas.

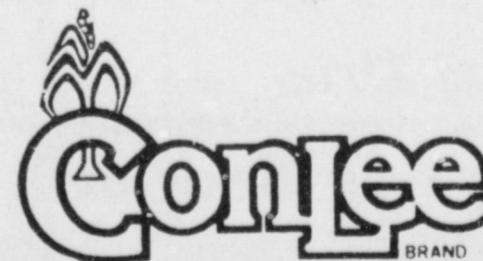

ACCIDENT SPECTACULAR, BUT NO INJURIES--Late Saturday afternoon, with no telephone service in Muleshoe, this vehicle and a pickup were involved in an accident at the corner of West Avenue B and 10th Street. A young man drove to the police department to report the accident. No one was injured. However, later Saturday night, one man had slight injuries from a one-vehicle roll-over near the Muleshoe Animal Clinic west of Muleshoe.

MULESHOE, TEXAS

NOTICE TO TAXPAYERS

Taxpayers in the Bailey County Appraisal District will have an opportunity later this month to protest values proposed for their property for local taxes. The district's appraisal review board (ARB) will begin hearing taxpayer protests on June 22, 1987. The property owner must file a written "notice of protest" with the ARB before June 22, 1987.

Official forms for a notice of protest are available at the Bailey County Appraisal District office, 104 E Ave C. A letter from the taxpayer is also acceptable as long as it identifies the property owner, the property which is the subject of the protest, and indicates dissatisfaction with some decision or action of the appraisal office.

Each protesting taxpayer may offer evidence or argument either in person or by filing an affidavit with the ARB. Taxpayers should be aware that the ARB has no authority over tax rates or taxing unit spending and will not hear protests of those matters.

The ARB will schedule hearing as property owners file protests and will inform them of the time, date and place of their individual hearings.

The State Property Tax Board has issued a pamphlet called "Taxpayers' Rights, Remedies, Responsibilities" available at the Bailey County Appraisal District office, 104 E Ave C, which explains how to prepare and present an appeal to the ARB.

Heirfinders Can Leave You With Nothing But Air

"I help people find lost or forgotten money that legally belongs to them. I have found \$1059 that is rightfully yours."

A letter telling you about money you didn't know you had seems like a gift from the gods. But be careful. The people who write these solicitations—called *heirfinders*—often take the money—or a big chunk of it—and run.

LOST OR UNCLAIMED PROPERTY

The Texas Property Code sets forth procedures for the state's handling of unclaimed personal or real property. They vary, but basically the state gains title to property of those who die without a will or without heirs, or to property that has been abandoned.

Heirfinders contact by direct mail. They state the value of the found property and enclose a contract specifying their fee and asking for power of attorney.

WHAT THE LAW SAYS

The Texas Property Code sets forth when and how private property reverts to the state.

In the case of a death:

- if a will has not been probated within seven years after death;
- if no lawful claims have been asserted within seven years;

Property is presumed abandoned if the owner cannot be found or if no act of ownership has been asserted for more than three years. Bank accounts and safety deposit boxes are

presumed abandoned if they have been inactive for five years or more.

The law provides that such property be delivered to the Treasury. The Treasury must make every effort to locate potential claimants before the property finally reverts to the state. The most familiar of the Treasury's attempts to locate are the list of inactive accounts and safe deposit boxes published in Texas newspapers each March.

The Property Code limits the permissible fee charged by heirfinders to 10% of the value of the property.

THE SCAM

Heirfinders work from public records. Since the information is available to anyone, they are careful not to reveal where the money is. Why? Because if you knew that, you wouldn't need them.

Heirfinders charges fees of 30%, 40%, or more. In Texas, it is illegal to charge more than 10%.

Method of payment is also an issue. Heirfinders want power of attorney so the check will be made out to them. They take their cut and pass on what's left to you. They prefer this, because they know they will get their money. Nothing, however, keeps them from taking it all and disappearing, leaving the heir with nothing but air.

Heirfinders frequently violate the Texas Consumer Protection Deceptive Trade Practices Act. A common misrepresentation is to claim their fees are for legal services when they are not attorneys.
