

# Artesia Advocate

Artesia, the gateway to the Sacramento Mountains and the hub of the Pecos valley with its resources.

ARTESIA, NEW MEXICO, THURSDAY, OCTOBER 6, 1932

NUMBER 40

## FARMERS TO GRADE AND GRAVEL ROAD TO THE SOUTHEAST

Improvement of the road in the farming section southeast of here is contemplated according to W. E. Flint, who stated efforts would be made to have all residents of that area co-operate in grading and graveling a route leading into town. Owing to low county finances, help from the county will not be requested, but each resident will be asked to contribute a portion of the work. If present plans are followed a lateral road connecting with the oil field highway will be graded and gravelled at least to the south end of the Flint ranch. The road running east just south of the Woodbine cemetery was impassable and is described as being in a very bad condition. Several cars were mired in the mud in an attempt to hit the oil field road about a mile east of town. The road near the Vogel farm was practically impassable.

## DEMO. CANDIDATES ANNOUNCE SPEAKING TOUR OF EDDY CO.

Democratic speakers in the present campaign will commence their active campaign about the middle of October, although a few speakers are already out and taking the platform for democracy and the issues of the day, according to information received from the democratic headquarters of the state organization. Jess L. Truett, chairman for Eddy county, has made arrangements for state and county candidates, as well as other noted state speakers to speak in Eddy county on three major occasions in both Carlsbad and Artesia. The first group of speakers will appear at Carlsbad on October 19th at two o'clock and speak at a big democratic rally at Artesia at 7:30 p. m. the same day. The second group of speakers will appear at Carlsbad on Wednesday, October 25th at two o'clock and again at Artesia at 7:30 p. m. the same day. The final speaking rally for Eddy county will be scheduled for November 2nd, when state candidates will speak at Carlsbad at two o'clock and at Artesia at 7:30 p. m. These two places are selected as the most convenient points for most of the voters of the county, thus assuring a majority of the voters an opportunity of hearing all the state candidates. Speaking engagements, however, are being arranged for every precinct in the county, where prominent speakers will address the voters on both local and national issues. Col. A. T. Woods, of Artesia has been selected as chairman of the finance committee of Eddy county with E. C. Higgins, Charles Montgomery of Carlsbad and Attorney Jas. W. Stagner as other members of the committee. Contributions of any size are accepted and the committee urges everyone who will to contribute something, regardless of amount. The democratic party is championing the cause of the poor man and most of the financial support will come from the average citizen instead of the financial powers.

## T. C. BIRD WINS THE CITY GOLF TOURNEY ENDING ON MONDAY

The City Golf Championship tournament was finished Monday with T. C. Bird the winner. Mr. Bird also won the Pecos valley tournament held at Carlsbad in September. In winning the tournament Mr. Bird defeated Willis Morgan 3 and 2; B. E. Spencer, 5 and 4; Herman Terry 4 and 3; E. N. Bigler 5 and 4. E. N. Bigler, the runner up in the championship flight defeated Scoggins 7 and 6; Burch 1 up; Bruce 1 up. The championship flight was thirty-six holes. Other flights were eighteen holes.

## HOPE HEARING SET

U. S. District Judge Neblett has set 9:00 a. m., October 18, at Santa Fe, as the time for a final hearing of the long-fought case of the government vs. the Hope community ditch, et al, on which a special master's report was filed June 4. George R. Remley of Raton is special master.

## ADDS 130 NAMES TO REGISTRATION LIST

Judge M. A. Otero, presiding over the Eddy county district court Monday added approximately 130 names to the Eddy county registration list.

## MINER IS OVERCOME BY GAS IN MINE OF U. S. POTASH CO.

Kirby Warren, 25, Dies In Carlsbad Hospital—Funeral Services To Be Held At Carlsbad This Afternoon.

Kirby Warren, 25, was in a serious condition at St. Francis' hospital Tuesday after being gassed in the mine of the U. S. Potash Company east of Carlsbad Monday, according to the Carlsbad Current-Argus. Officials of the mine and Warren's physician have been unable to determine just what caused the gas.

## DEM. CANDIDATES ANNOUNCE SPEAKING TOUR OF EDDY CO.

Democratic speakers in the present campaign will commence their active campaign about the middle of October, although a few speakers are already out and taking the platform for democracy and the issues of the day, according to information received from the democratic headquarters of the state organization.

## ROTARY CLUBS ANSWER

Nine answers from nine different states have been received so far to the invitations sent to Rotary clubs in the United States, Canada and Mexico for an inter-city International Rotary meeting in the Carlsbad Cavern on December 5th, honoring Clinton P. Anderson of Albuquerque, president of Rotary International.

## PIONEER OIL MAN DIES AT ROBINSON ILLINOIS ON MONDAY

Thomas Flynn, age 58, senior member of the oil firm of Flynn, Welch and Yates, died at his home in Robinson, Illinois Monday morning at an early hour, according to news received here. Mr. Flynn had suffered a stroke of paralysis twenty-one months ago and never recovered. While the telegram telling of his death gave no details, it is presumed a second stroke proved fatal. Val Welch, Sr., left Monday to attend the funeral, held yesterday. Mr. Flynn who had visited Artesia a number of times was well known here. He became associated with Van Welch and Martin Yates in the early twenties and started oil developments east of the Pecos river. This firm is credited with the discovery of the Artesia oil field.

## FINED FOR DRUNKEN DRIVING LAST WEEK

Mrs. Clara Faley, arrested last week on charge of drunken driving, was tried and convicted in the justice court here Monday afternoon. Mrs. Faley's fine was assessed at \$50.00 and she was given a thirty day jail sentence.

## CAVERN VISITORS

A total of 5,804 people visited the Carlsbad Caverns during the month of September. Forty-five states and fifteen foreign countries were represented among the visitors.

## EX-GOVERNOR R. C. DILLON OF ENCIENO IS A GUEST OF THE EASTERN NEW MEXICO STATE FAIR AT ROSWELL THIS WEEK.

Governor Seligman will not be able to attend the fair, he had notified the fair officials.

## HAIL - RAIN DAMAGE NOT AS GREAT AS WAS FIRST THOUGHT

Damage resulting from hail, high water and rains prevailing over this section last week, will not be as great as was first estimated, it was said here yesterday. Some of the cotton hit by hail on the Cottonwood last week is showing improvement and with exception of a few fields the damage will not be as much as first estimated. Grain is reported to be sprouting in the fields in places, but the final injury will not be very material it is believed.

Farms along the Eagle Draw southeast of town were under water on two occasions last week and according to estimates seventy-five to 100 bales of cotton were lost, but the loss may be offset by more cotton produced in favorably growing weather. The cotton grade is slightly off, but this may be largely overcome if farmers wait until the cotton is thoroughly dry to gin it, ginners believe.

## F. MUNOZ IS KNOWN TO HAVE CRIMINAL RECORD AT EL PASO

The body of F. Munoz, age 42, killed in a gun battle here with officers on the night of September 27th, was shipped to El Paso Saturday by the McClay undertaking parlors. The body of Munoz had been held here since the 27th pending identification. Plans for his widow to come to Artesia to view the body were abandoned after heavy rains over the southwest made it impossible to get to Carlsbad on the Carlsbad El Paso highway. Munoz was a native of Spain and his occupation was given as merchant.

Munoz companion, who escaped on the night of the shooting is also said to have a criminal record. Reports that the man later turned up in El Paso could not be verified here. A telegram and a letter received by the sheriff's department at Carlsbad last week serve further to identify Munoz, known to police to have a criminal record. We are reproducing a copy of the telegram and letter:

Western Union  
1932 Oct. 3 PM 7 18  
Received at  
PSA82 66 Govt. DL. Collect  
Washington, D. C. 3 847 P.  
Sheriff,  
Carlsbad, New Mexico.  
Re: Fingerprints F. Munoz identified as Florencio Munoz arrested police El Paso, Texas February 18, 1921 violation section 3082 disposition unknown, as Manuel Fernandez arrested police Denver, Colorado, October 27, 1921 investigation, disposition unknown as Manuel Fernandez received at state penitentiary Canon City, Colorado, April 30, 1922 assault with intent to commit murder, sentence ten to fourteen years.  
JOHN EDGAR HOOVER,  
Director.

## LAKWOOD MAN IS INJURED WHEN HIT BY SPEEDING AUTO

Jeff Floyd, 22, of Lakewood, was injured by a hit and run driver south of Carlsbad Saturday evening. He was resting easily at St. Francis hospital and is believed to be out of danger according to an early report in the Carlsbad Current-Argus.

## SEVEN TICKETS ARE FILED AT CARLSBAD

It is our understanding that seven tickets have been filed at Carlsbad to be voted on in the November election. The sixth ticket is the progressives, led by Senator Cutting and so far as known at this time, the progressives plan to enter the campaign. The seventh ticket was filed by the Eddy county citizen's party yesterday at the county court house.

## THREE LOCATIONS MADE IN HOBBS FIELD PAST WEEK

Amerada, Getty And Texas Company To Make New Tests — Well In Artesia Field Shot With 500 Quarts.

Connections are being made on the State 63 of Flynn, Welch and Yates in the SENW sec. 10-19-28, following a 500 quart shot last week and the well will be produced as soon as pipe line connections are made. Workmen are now completing a two inch line to the new well, the pipe line extension amounts to about four and a half miles. The shot was placed from approximately 2,070 to 2,100 feet and was accidentally discharged after drillers were pulling tools from the hole while driving down a shell. A stem and a three prong spear is still lodged in the hole. The new well has made several heads and will be an average or better of the field.

## THE G. O. P. COUNTY TICKET PLACED IN FIELD ON MONDAY

The Eddy county republican central committee met here Monday afternoon and certified to the county ticket. A complete ticket has been filed with the exception of offices of assessor and treasurer. The certified list of nominees included: State senator—B. A. Christmas, Lovington; state representative — J. L. Williams, Malaga; county clerk—Miss Lucille Johnson, Carlsbad; county superintendent—H. C. Moorehead, Cottonwood; county surveyor — Frank Donahue, Artesia; probate judge—A. Herzog, Carlsbad; commissioner district 1 — R. Wells Benson, Carlsbad; commissioner district 2—Oscar Pearson, Cottonwood; commissioner district 3—John Forehand, Malaga.

## BULLDOGS TO PECOS

The Artesia high school grid eleven will journey to Pecos Friday, where they will meet the Texas eleven in the first game of the season to be played away from home. Sixteen to eighteen men will make the trip. Some improvement has been noted in the Bull Dogs, but wet weather has prevented regular practice.

## SCHOOL ATTENDANCE HERE INCREASES HERE

Supt. W. E. Kerr reported Tuesday that an increase in the enrollment had been registered at the Artesia schools. Total enrollment on that date was 766 pupils as compared with 720 pupils at the end of the first week of school.

## FINE RANGES WILL LESSEN THE WINTER LIVESTOCK FEEDING

Ranges in the eastern and southeastern part of the state are in the best condition seen here in several years during the fall season. Grass and weeds have shown a rapid growth and will make fine winter pasture if frost holds off long enough. Recent rains have saved stockmen a considerable amount on their winter feed bill, if the forage now growing is permitted to reach a more favorable stage of maturity through warm weather.

## OPEN CAMPAIGN AT LOVINGTON MONDAY

SANTA FE — Byron O. Beall, chief tax commissioner and chairman of the speakers bureau of the democratic state headquarters Monday opened the first round in the party's election campaign at Lovington, W. J. Barker, democratic state chairman said.

## COTTON GATHERING STARTS AGAIN — THE GINS MAKE A GAIN

Cotton picking is again the order of the day in many sections of the valley as the sunshine is drying out the fields. Six gins of this area had a very good day yesterday, considering the weather and the ginning shows a substantial gain over last week. The fields are drying out nicely in most places and cotton gathering operations will likely get underway in good shape today. Picking price remains the same. Ginnings up to the middle of the afternoon yesterday were divided as follows:

Lake Arthur gin.....	6
Cottonwood gin.....	114
Association gin, Espuella.....	87
Association gin, Artesia.....	156
Farmers gin, Artesia.....	188
Association gin, Atoka.....	197
Total.....	748

## THE G. O. P. COUNTY TICKET PLACED IN FIELD ON MONDAY

The Eddy county republican central committee met here Monday afternoon and certified to the county ticket. A complete ticket has been filed with the exception of offices of assessor and treasurer. The certified list of nominees included: State senator—B. A. Christmas, Lovington; state representative — J. L. Williams, Malaga; county clerk—Miss Lucille Johnson, Carlsbad; county superintendent—H. C. Moorehead, Cottonwood; county surveyor — Frank Donahue, Artesia; probate judge—A. Herzog, Carlsbad; commissioner district 1 — R. Wells Benson, Carlsbad; commissioner district 2—Oscar Pearson, Cottonwood; commissioner district 3—John Forehand, Malaga.

## THE POTASH CO., OF AMERICA COMPLETES 14 TESTS ON LEASES

The Potash Company of America, the second potash mining company to enter the Eddy county field, has completed fourteen tests on company holdings east and south of Lakewood, it was learned recently from an unofficial source. Samples of potash strata, obtained from the core drilling in the various tests have been very encouraging, it was said. These tests indicate the potash beds thicker, although somewhat deeper than those discovered by the United States Potash Co., farther south.

## ROOSEVELT GARNER CLUB ORGANIZED LAST NIGHT

G. U. McCrary was elected president and Dare McLean secretary of the Roosevelt and Garner club in the first meeting of the club held over the Brainard-Corbin Hardware store last night. The chief function of the club will be to promote the candidacy of Franklin D. Roosevelt for president and John Garner for vice-president on the democratic ticket.

## CLUB WILL MEET ON EACH TUESDAY NIGHT UNTIL AFTER ELECTION — CLUB OCCUPIES UNIQUE POSITION.

The local club occupies a unique position among other clubs of the state, having for its head a veteran democrat, G. U. McCrary and for its secretary, Dare McLean, one of the youngest democrats to be registered during the present campaign. W. A. Haldeeman was chosen as first vice-president; Mrs. J. A. Clayton, second vice-president and Mrs. Sid Cox, treasurer and Tom Ragsdale, sergeant at arms. The chairman of the meeting was empowered to select the executive committee and a motion was carried that the executive committee should consist of four club members, who together with officers should constitute the committee. Mr. McCrary, secretary read the by-laws of the club as suggested by the national organization. Appointment of all committees except the membership committee was deferred until the next meeting.

## THE POTASH CO., OF AMERICA COMPLETES 14 TESTS ON LEASES

The Potash Company of America, the second potash mining company to enter the Eddy county field, has completed fourteen tests on company holdings east and south of Lakewood, it was learned recently from an unofficial source. Samples of potash strata, obtained from the core drilling in the various tests have been very encouraging, it was said. ## LOOKING AT THE EXPENSE LEDGER

The average individual expense ledger has been thumbed a plenty in the past eighteen months as we have tried to develop ways and means of making ends meet. This financial condition has also made us curious as to how public money is being spent and how the governmental affairs are being conducted. As long as everybody was prosperous, the matter of government operations was not a concern.

Whether the trying times accomplishes another thing, it has focused attention on mounting public expenditures, a condition which would have eventually demanded a reckoning by thoughtful citizens. The ramifications of the modern government are so great that the average individual would never know of all of its operations except through publicity. The term publicity can therefore be said to have acted as a spotlight and whenever the light was turned on the politicians have hastened to get "the house" in order or else they are suffering from the after effects.

Nobody said anything about the practice of nepotism, which in simpler terms means hiring your kinfolks, until the newspapers decided to investigate and a bunch of congressmen hasten to drop their relatives from the pay roll. Some thirty or forty members of the house, coming up for re-election this year have already been defeated on this issue and more will likely go down in the general election. The public never knew how many bureaus the federal government had and how much these bureaus cost to maintain until newspapermen got to digging up the records at Washington. But now the public knows and has demanded a re-organization of the various departments.

The New Mexico Newspaper Association will ask the state legislature to pass measures at the next session designed to increase the payment of taxes and to further the sale of delinquent taxes. One of these measures will ask for the publication of the assessor's tax roll, which ought to and will increase the taxable valuation. Another is the publication of the delinquent tax list, which should, if framed properly increase the sale of delinquent taxes and add to the value of the property sold.

More knowledge of public affairs through the publication of the proceedings of the various government departments should prove helpful in acquainting the citizen about the operation of his government. It should clear up any chance or suspicion or misunderstanding in many instances by making public the things that the tax payer is entitled to know about.

## GROUCH REMEDY NO. 47

An aged man at the union station  
Discussed the business sitch-e-e-ation,  
I said that things were mighty bad,  
And somehow or other, it made him mad.  
That aged man, he tapped my knee—  
"D'ye know what's wrong with things?" said he.

I've been in fights," and the old boy glared,  
"And I always got whipped when I got scared.  
Folks have forgot how to stand an' grin  
When hard luck socks 'em on the chin.  
There's too much groanin'—not enough laughs—  
Too many crepe-hangers—too many grafts—  
It sure don't help a sick man's heart  
To think of nothin' but his fever chart.  
There's too many experts tellin' how come  
The whole world is on the bum.  
There's too many people with an alibi—  
I'd druther listen to a darn good lie!  
As soon as folks quit hangin' crepe  
You'll see business in darn good shape!  
I've got no use for golf as a game,  
But I speak the language just the same:  
There's too few drives, an' too many putts—  
Plenty of cold feet, and not enough guts!  
You ain't my son, but if you was mine  
I'd darn soon teach you not to whine!

He wasn't cultured, and his words were rough,  
But the old boy seemed to know his stuff.—Author unknown

## JUSTIFIABLE HOMICIDE

In view of the fact that the shooting of a rum runner here last week has caused some comment, it might interest our readers to know what constitutes justifiable homicide under the New Mexico law. Quoting from Section 35-317 of the 1929 compiled statutes, we read: "A homicide is justifiable when committed by a public officer and those acting in their command in their aid and assistance, when necessarily committed in arresting felons fleeing from justice."

We hold no alibi for any public officer of Artesia, but such officer is placed in rather a precarious position when waiting to arrest a man who may be a desperado and who may attempt to shoot his way to freedom. Under these circumstances most anything can happen. At least two peace officers have met death in the southeastern part of the state in the past eighteen months while trying to stop desperate characters.

Voters should support the constitutional amendment, which enables the state to trade its forest lands for other federal government lands of equal value. This amendment is to be voted on in the general election.

The News is offering a year's subscription free to the democrat who voted for Hoover that will come to the office and admit that he's going to vote for him again.—Tucumcari News.

## PICKED UP ON MAIN

L. P. (Slim) Evans read about the young democrats of New Mexico selling soap and says this is not new idea with the democrats, as they have been soft-soaping the voters for the last fifty years.

Hearing so much about bootleggers, a little girl asked her mamma if bootleggers always wore boots.

And this one is from the Inland Oil Index: "Teacher: 'who can give me a sentence containing the word fascinate?' Willie: 'President Hoover only buttons seven buttons on his vest because he cannot fascinate.'"

## VOTERS HAVE SIX TICKETS TO PICK FROM

Voters of New Mexico will be handed a "blanket" ballot when they go to the polls November 8, with six tickets on it—the biggest since statehood says the Santa Fe New Mexican.

Only by a technicality was it prevented from being even bigger. It was ascertained Monday that an attempt had been made to file a seventh ticket, for Father Cox, the jobless party's candidate for president, but his backers failed to comply with the law.

A certificate was sent to the secretary of state's office naming Father Cox and his running mate. In New Mexico, the names of the candidates for president and vice-president are not printed; only those of the presidential electors.

The candidate's admirers, when advised of this, wrote the names of three electors in ink on the bottom of the certificate, really outside the certificate. Upon the advice of the attorney general's office, Miss Emily Baca, assistant secretary of state, returned it. It was then too late to get it corrected and filed within the time fixed by law.

## NEW MEXICO TO GET \$90,000 FROM U. S.

SANTA FE—Governor Arthur Seligman was advised by Washington Friday that New Mexico's application for a loan from the Reconstruction Finance Corporation had been approved and that the \$90,000 loan would be forthcoming immediately.

The money is to be used for emergency relief. The governor stated that it had not yet been determined how the money would be divided in the state.

Doctor—Now before I examine you may I ask what you drink?  
Patient—Thank you, doctor. A small whisky and soda for me.

## Smilin' Charlie Says

"Some folks want t' live longer so's they'll have more time t' do th' things that keep them from livin' longer"

## TO KILL SEVERAL MILLION RATS SOON

WASHINGTON, D. C.—The biological survey is out to kill several million rats by January 1.

The campaign will concentrate in 190 counties of eastern states where rats have become a real problem. The county agricultural agents will distribute the poison which the biological survey will supply.

Average loss from rats is \$40 per farm, it is estimated the drive which is now starting will cost \$30,000, but the government believes the saving resulting from rat riddance will be \$1,200,000.

## RAILROAD VALUATIONS IN NEW MEXICO DROP

SANTA FE—Railroad valuations in New Mexico for 1932 dropped \$4,643,015 under last year's valuation to reach the lowest since 1929, Byron O. Beall, chief tax commissioner said Friday.

This year's valuation on the ten railroads operating within the state has been set at \$85,887,726 as compared with \$90,572,183 in 1929. During the year two railroads were abandoned and one was added to the tax rolls.

## STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.

Of Artesia Advocate published weekly at Artesia, New Mexico for October 1, 1932. State of New Mexico.

County of Eddy. ss. Before me, a notary public in and for the State and county aforesaid, personally appeared W. C. Martin, who, having been duly sworn according to law, deposes and says that he is the editor of the Artesia Advocate and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publishers W. C. Martin and C. R. Blocker, Artesia, New Mexico.  
Editor W. C. Martin, Artesia, New Mexico.  
Managing editor, W. C. Martin, Artesia, New Mexico.  
Business managers W. C. Martin and C. R. Blocker, Artesia, New Mexico.

2. That the owners are W. C. Martin, Artesia, New Mexico and C. R. Blocker, Artesia, New Mexico.  
3. That the known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities are: none.

W. C. MARTIN,  
Sworn to and subscribed before me this 3rd day of October 1932.  
(SEAL)  
BEATRICE BLOCKER,  
My commission expires March 24, 1932.

WANTED—Clean Cotton Rags at The Advocate.

## Most for Your Money In a Good Laxative

Theford's BLACK-DRAUGHT has been highly regarded for a long, long time, but it is better appreciated now than ever before. People are buying everything more carefully today. In buying Black-Draught, they get the most for their money. In a good, effective laxative, dependable for the relief of ordinary constipation troubles.

25 or more doses of Theford's Black-Draught in a 25-cent package. For Children, get pleasant-tasting SYRUP of Theford's Black-Draught.

## PLANTING BULBS NOW GIVES EARLY FLOWERS

Gardeners who are interested in obtaining a bountiful supply of flowers next spring should be getting their bulbs into the ground during October, says H. C. Stewart of the New Mexico State College. Such bulbs as narcissus, hyacinths, jonquills, crocus, daffodils, etc., have their greatest root development in the fall and early spring, and if strong vigorous blooms are desired, bulbs should be planted early in the fall.

Growth and development of the root system begins in the fall, if the bulbs are planted then, and continues until the ground is frozen. If the winter is mild, this development continues during the entire season and on thru the spring. When bulbs are not planted until spring, the chances are that root development will be poor, with smaller and fewer flowers resulting.

It is essential that the ground in which the bulbs are planted should be properly drained since heavy, water-logged soils are fatal to the growth of bulbs, causing them to rot. Such soils should be lightened by mixing sand, bone meal or well rotted manure with the soil in the bulb bed.

The depth at which bulbs should be planted varies with the size of the bulbs. A good general rule is to place the bulb below the ground from one and one-half to two times its own thickness. In very cold weather it is advisable to cover the beds with straw or leaves, removing them before the warm days of spring.

Even spring annuals such as sweet peas, poppies, larkspur, etc., produce much larger and finer flowers if the seed is planted in the fall. If the weather is very cold during the winter, they can be covered and will continue their growth and be ready for early spring blooming.

Why do you punch that hole in my ticket? asked the fat gentleman of the porter at the Foot-scray station gates.

So that you can pas thru, was the reply.

## PARTOL ANTELOPE AREA DURING RECENT SEASON

SANTA FE—Game Warden Elliott and several deputies patrolled the section of country in Socorro and Catron counties during the antelope season, October 1 to 6 the department announced. The number of applications for permission to hunt antelope were far below expectations, the statement said.

OCTOBER

HOOVER OUTLINES AID TO AGRICULTURE IN DES MOINES TUES.

DES MOINES, Iowa—Before a cheering farm-belt audience, President Hoover Tuesday night declared "a great national victory has been achieved against depressive economic forces," and enunciated a series of 12 republican "policies" in aid of agriculture. Interrupted often by shouts and applause, the chief executive asserted directly that if the "program" sponsored by members of the democratic party during the last session of congress had been enacted, "it would have been the end of recovery."

NEW REGULATION ON GAS TAX FUNDS

Farmers applying for tax exemptions on gasoline used in farm engines hereafter must include in their application the make, horsepower, description and motor number of the machine in which the gasoline is used under a new ruling by State Comptroller Juan N. Vigil.

\$400,000,000 U. S. DEFICIT

WASHINGTON, D. C. — The government ended the first quarter of its 1933 fiscal year with a deficit of \$400,000,000. The quarter concluded September 30 and the treasury statement for September 29, issued Saturday, showed it had collected in the three months a total of \$431,483,016, spending meanwhile \$833,803,930. The net shortage was \$402,320,914, about \$20,000,000 less than the deficit accumulated by this time last year.

LEGION JUNIOR CHAMPS ATTEND WORLD SERIES

Among the most interested of all the fans who attended the opening game of the 1932 baseball world series in New York City, September 28th, were members of the American Legion's national junior baseball championship team of New Orleans, La. One of the events at the opening game of the series was the presentation to the New Orleans youngsters of the pennant designating them as the world's junior champions for the ensuing year. The presentation of the pennant was made by Judge Kenesaw Mountain Landis, high commissioner of organized baseball. The trip to all games of the world series with expenses paid was the principal prize awarded to the Legion junior champions. Before leaving New Orleans to attend the world series they received from the legion, watches on which their names and playing positions were engraved. Watches were also presented to the team of Springfield, Massachusetts, runner-up and opponent of New Orleans in the Legion's little world series played in Manchester, N. H. Four games were required to determine the championship. One game resulted in a tie and New Orleans won two of the remaining three. Winners in the Legion's junior play attend the big world series each year as the special guests of the American and National Leagues. These two leagues underwrite the Legion program each year to the extent of \$50,000 which is used to pay expenses of holding tournaments throughout the country.

JURY INDICTS TWO INSULLS

CHICAGO, Illinois—Samuel Insull, 72, year old public utility ruler until his realm crumbled during the depression, was indicted with his brother, Martin, on charges of embezzlement and larceny. The indictments were based on charges that funds were abstracted from two financing companies in the Insull utility system and used to support a marginal stock market account maintained by Martin Insull.

In Use Mrs. started to get ready to go to church. She hunted the house over for her rubber reducing corset. It simply could not be found. In desperation she went to her young daughter's room to awaken her and see if she knew anything about the all-important article. Sleepy little Miss Fifteen was aroused sufficiently to reply to the almost demand: "Where is my rubber corset?" "I got it on."

REVENUE STATE LAND OFFICE \$216,000 SEPT.

SANTA FE—James F. Hinkle, state land commissioner Monday said that the land office during the month of September turned over a total of \$216,000 to the state treasurer as the office's revenue from leases and other sources.

HOW A WOMAN LOST 10 LBS. IN A WEEK

Mrs. Betty Luedeke of Dayton writes: "I am using Kruschen to reduce weight—I lost 10 pounds in one week and cannot say too much to recommend it." To take off fat easily, SAFELY and HARMLESSLY — take one half teaspoonful of Kruschen in a glass of hot water in the morning before breakfast go lighter on fatty meats, potatoes, butter, cream and pastries—it is the safe way to lose unsightly fat and one bottle that lasts 4 weeks costs but a trifle. Get it at any drug-store in America. If this first bottle fails to convince you this is the safest way to lose fat—money back. But be sure and get Kruschen Salts—imitations are numerous and you must safeguard your health.

## WOMENS CLUB MEETING

The first regular meeting of the Women's club year was held yesterday in the health room at Central school with Mrs. G. U. McCrary, the new president, presiding. Mrs. E. A. Paton and Mrs. H. S. Williams were taken into the club at this time. The members gave interesting topics in answer to roll call and the main program for the afternoon was given by Mrs. S. E. Ferree, on the ten thousand dollar short story: "When Hell Froze," by Edgar Daniel Steele. The next meeting will be author's day with reviews of the Noble and Pulitzer prize stories.

## DANCING PARTY

Miss Mattie George gave a popcorn, candy and dancing party last Saturday evening. The guests present were: Misses Nina Gray, Velma French, Virginia Goodell, Lorita Hill, Laura Bell McCaw, Ola Irene Gage, Juanita Richards, Clementine Cobble, Edith Robertson, Messrs. Hansford Shockley, Olan Woolridge, Farrel VanCleve, Dare McLean, Cavitt Jackson, J. W. Brown, Tommy Kuykendall, Burch and Paul Crockett, Clara Henderson, Norman Grimm and Robert Gage.

## SUNDAY SCHOOL PARTY

Miss Katherine Ragsdale entertained her Sunday school class with a party in the church Friday evening. Miss Ragsdale was assisted in serving light refreshments to the class by Miss Elsie Palmateer. Members present included: Misses Elsie Jernigan, Elvora Gage, Jessie Lee Cunningham, Messrs. Charley Florence, William Wright Dunn and Olan Hill.

## DAISY CHAIN PARTY

Mrs. Willis Morgan and Mrs. Albert Glasser entertained with the Daisy Chain party last Friday afternoon at the home of Mrs. Glasser. Light refreshments were served to the following: Mmes. T. C. Bird, Stanley Blocker, Carl Bildstone, Howard Whitson, Jack Clady, Charles Morgan, S. B. Barnett, Ed Gillespie, Francis Hunter, and Chester Russell.

## CANDY AND POPCORN PARTY

Miss Velma French entertained with an informal party Friday evening. The guests made candy, popped popcorn and danced. The guests present were: Misses Elizabeth Gage, Catherine Cogdell, Mattie George, Pauline Clayton, Agnes Ann Williams, Messrs. Marshall Rawley, LaDean McCrory, Harry Gilmore, Hansford Shockley and Oscar Slesce.

## SENIOR CLASS PICNIC

The Senior class of the Artesia high school had a weiner and marshmallow roast at the Oasis Tuesday evening. The teachers present were: Messrs. and Mmes. T. C. Bird, James Allen, J. Clarke Bruce, Misses Edna Drury, Myrtle Burrows, Katherine Peterson, and LaVon Brown and Supt. Kerr and the members of the Senior class.

## IDLEWHILE BRIDGE CLUB

The Idlewhile Bridge club met with Mrs. J. M. Story for one o'clock luncheon Tuesday, which was a turkey dinner served in three courses. Extra guests were: Mmes. Jessie Morgan, H. G. Scoggins, Chester Dexter, Elza Swift and Lewis Story.

## THURSDAY BRIDGE CLUB

The Thursday Bridge club met with Mrs. Ed Gillespie last Thursday afternoon. Mrs. Charles Morgan won high score and Mrs. Albert Glasser second high. The hostess served lovely refreshments to the members.

## SECOND EVENING CLUB

The Second Evening Bridge club met with Mr. and Mrs. R. D. Compton last Friday evening for seven o'clock dinner. All members being present.

## CONTRACT STUDY CLUB

The Contract Study club met with Mrs. Martin Yates Monday for one o'clock luncheon. All members were present.

Teacher—Rastus, what animal is most noted for its fur?  
Rastus—De skunk; de more fur you gits away from him de better it is fur you.

If interested in saving money, use Bluhill Coffee. It's rich and you make more coffee from a pound.

## 100 DELEGATES AT FEDERATION MEETING

More than 100 delegates assembled at Alamogordo Tuesday for the 21st annual convention of the New Mexico Federation of Women's clubs.

Mrs. J. D. Atwood of Roswell president of the state federation, and Mrs. A. H. DeLong of Gallup, vice-president, are presiding at the meetings.

There were 125 guests Monday night at the annual presidents' banquet. The presidents of various local chapters of women's clubs gave two minute addresses.

## SEPTEMBER BIRTHS AND DEATHS

Seven births and five deaths were recorded by S. E. Ferree, sub-register for the Atoka, Cottonwood and Artesia districts during the month of September. Births were recorded to: Mr. and Mrs. Hagan McCaw, son; Mr. and Mrs. Cecil Standard, daughter; Mr. and Mrs. B. Flores, daughter; Mr. and Mrs. Edward H. Crawford, daughter; Mr. and Mrs. Raymond Dana, daughter; Mr. and Mrs. Wallace H. Box, son; Mr. and Mrs. Frank Marshall, son.

## MRS. BOMAR DIES AT A CARLSBAD HOSPITAL

Mrs. Lillian Robinson Bomar died at the Eddy county hospital Thursday night. She leaves to mourn her loss Paul S. Bomar, her husband and three children.

Mrs. Bomar was born at Clarksville, Texas. She was 36 years old.

Burial was made in Roswell Sunday.

Mr. Bomar is employed with the Swigart-Thomas garage, at Carlsbad and was a former resident of Artesia and is well known here.

## WANT DATA ON METEORITE

The Stewart Observatory at the University of Arizona, Tucson, would like to have additional information on the meteorite, which fell in Lake McMillan about a month ago. The phenomenon was observed by several local people and the university would like to hear from you if you saw the meteorite fall.

## HUNDRED PER CENT ROTARY MEETING

The Artesia Rotary club had another 100 per cent meeting Tuesday noon. S. W. Gilbert, the principal speaker gave an interesting talk on "Fire Prevention Week." The local club is nine years of age and plans have been made to stage a birthday party on either the 18th or 25th and extend invitations to all charter members.

Advocate Want Ads Get Results

## SHORT SUBJECTS

**Bonus in "Contract"**  
In progressive contract, a game is made when one side bids and makes a trick score of 100 points or more in one hand. In addition to the trick score the premium for game is 300 points if not vulnerable and 500 points if vulnerable. The side having the higher score after four deals gets a bonus of 250. If both sides have exactly the same score, each of the four players receives a bonus of 25 points.

**Keep Good Habits**  
Health is affected, favorably or unfavorably, by our habits of living, according as they are good or bad. In great part, these habits of living are habits of preference for certain kinds of food, for certain methods of cooking, for proper or improper ventilation, suitable or unsuitable clothing as well as hygienic or unhygienic ways in the care of the body.

**African and Indian Ivory**  
The tusks of African elephants are somewhat larger than those of Indian animals. An Indian elephant's tusks may be 9 feet long and 100 pounds in weight, while those of a full-grown African elephant are rarely less than ten feet in length and weigh as much as 220 pounds. These are average figures and individuals may greatly surpass them.

**The "Seven Arts"**  
The term, "Seven Arts," had its origin in the list of what in the Middle Ages were considered the principal branches of learning, but of course, today our ideas of art are considerably different. The "Seven Arts" as set forth originally were grammar, logic, rhetoric, arithmetic, geometry, music and astronomy.—Kansas City Times.

**Stringing Her Along**  
Doing his daily stretch, a busy telephone lineman, who can't leave town, rings up Judge to say that his dear little wife (who's away or a visit) writes that she's "all unstrung." "What in the world shall I do?" he wails. "Send her a wire," buzzes the editor.—Pathfinder Magazine.

**Drew on Imagination**  
There is no portrait of Roger Williams in existence. When the state of Rhode Island presented a statue of her founder to the nation to be placed in the Capitol the artist had to make the memorial from an ideal conception.

**No Economic Value**  
Wood waste is to be used in fiber production, toys, beads, radials and the like, but nobody seems to know what to do with the chips off-the-old-block surplus.—Lafayette Journal and Courier.

**Meteorite Showers**  
In ancient times the name "St. Lawrence lights" applied to meteoric showers occurring between August 15 and September 15. It is common both in Ireland and England.

**As She Is Wrote**  
But high education may never root from the mind of all news writers the idea that in an automobile accident a man "receives" a broken leg.—Uniontown Telegram.

**Concerning Learning**  
Learning, wrote Pope, is like mercury, one of the most powerful and excellent things in the world in skillful hands; in unskilled the most mischievous.

**Not for Glory**  
"Men who have made enemies," said Hi Ho, the sage of Chinatown "often seek power not so much for glory as for self-protection."—Washington Star.

**Sex and Memory**  
There is no detectable difference in memory abilities between men and women or boys and girls, psychologists at the University of California report.

**Can Go Too Far**  
A man may hang onto money so closely that he gets about the same pleasure from its possession that a slot machine does.—Exchange.

**Old Electric Motor**  
In the United States National museum at Washington is a model of an electric motor and car dated 1847 and credited to Moses G. Farmer.

**Quinine Long Used**  
Quinine was first isolated from cinchona bark in 1820, but the bark was used in medicine hundreds of years before that.

**Difficult Language**  
In the Chinese spoken language there are comparatively few words, but each word has many different meanings.

**Help the Striver**  
To the man who himself strives earnestly God also lends a helping hand.—Aeschylus.

**The One-Track-Mind**  
The musician who always plays on the same string, is laughed at.—Horace.

SUBSCRIBE TO THE ADVOCATE

## Smilin' Charlie Says

"What's become of that pure and cleansing effect th' women folks was goin' t' put on t' politics?"

**Religion and Science**  
The basis of all scientific work is the conviction that the world is an ordered and comprehensive entity, which is a religious sentiment. My religious feeling is a humble amazement at the order revealed in the small patch of reality to which our feeble intelligence is equal.—Albert Einstein.

**Porcupine's Revenge**  
A porcupine may avenge its own death weeks after it has been eaten by some other animal. If one of its quills, which are well barbed, penetrates the skin of an enemy it is likely gradually to work deeper into the flesh until it eventually strikes a vital spot and causes the animal's death.

**British and French Flags**  
The British flag at the time of the American Revolution was a blue field with the crosses of St. Andrew and St. George; St. George, white cross; St. Andrew, red. The standard of France at this period was white with the fleur de lis, or lily.

**Alligator Unique**  
The alligator is noted for its pronounced roaring or bellowing noise which it makes when angered or disturbed. This is remarkable, since it is the only saurian or reptile of the alligator group which is known to make a distinctive sound.

**Needs More Than Petting**  
A good petter may be popular during the courting days, but there isn't much demand for petting after marriage, and a girl soon discovers it's a good provider who shines as a husband.—Cincinnati Enquirer.

**Panama Canal Passage**  
A vessel proceeding without delay through the Panama canal requires only from ten to twelve hours for passage. Of this time three hours is occupied in being lifted and lowered through the locks.

**Test of the Mind**  
The little mind who loves itself will write and think with the vulgar; but the great mind will be bravely eccentric, and scorn the beaten road, from universal benevolence.—Goldsmith.

**Lovely Tale**  
All we have to say about that astronomer's theory that the earth was born in a collision between the sun and a star is it certainly sounds awfully romantic.—Ohio State Journal.

Mmes. Glen O'Bannon and M. S. Brown were fair visitors at Roswell yesterday.

W. A. Wunsch, county agent of Carlsbad was visiting Cottonwood farmers last week.

The Cottonwood Woman's club will meet next Thursday, October 13th at the home of Mrs. Bradley on Upper Cottonwood.

Mr. and Mrs. H. V. Parker and family and Mr. and Mrs. Iverson Burgess and family enjoyed a fish fry at Lake McMillan Sunday.

The heavy rains have damaged the cotton and grain crop on the Cottonwood. Some report the grain is sprouting in the fields.

Mr. and Mrs. Wilburn Ayers of Chaves, are visiting Mrs. Ayers' brother, W. H. Rambo and Mrs. Rambo at Espuella this week.

Several farmers enjoyed a bird fry at the home of Mr. and Mrs. Jess Funk last week. The farmers and hunters were marooned for the night on the Funk farm on account of high waters.

Mr. and Mrs. Monroe Howard and family drove over to Alamogordo Tuesday with Mrs. Howard's sister, Mrs. Roxie Ralls and Mrs. Howard's father, Mr. Hobbs. Mr. Hobbs will remain at the home of Mrs. Ralls for an extended visit.

## HEALTH COLUMN

Conducted by Dr. J. R. Earp, Director, New Mexico Bureau of Public Health.

### MARIJUANA

The hemp plant was discovered by man in Central Asia, and cherished by him on account of the tough fiber which it produces. It was transplanted to India and there it was discovered that the flowers have narcotic powers. The doctors call the drug made from them by the Latin name of the plant: cannabis indica. The Arabians call it hashish. In New Mexico it is popularly known as marijuana.

Some people are affected by marijuana much more than others. The chief effect is on the brain and the results depend upon the character of the person taking the drug. There are also some effects on the body such as anemias and indigestion when the use of the drug is continued.

But it is the mental effects which make addicts a menace to the community. When under the influence of the drug a person may commit acts of violence or indecency of which they would not otherwise be capable. When the delirium has passed the victim may be quite unaware of having committed a crime. If the addiction is continued it frequently results in insanity.

Heavy penalties are prescribed by state law for the punishment of those who import marijuana into New Mexico or attempt to produce and sell it within the state—except where it is sold for purely medicinal purposes.

Two Irishmen, Pat and Mike, were in the army together. One day Pat received a letter. Mike looking over Pat's shoulder, asked, "Who's it from?"

"It's from me wife," answered Pat.

Then Mike noticed the paper enclosed in the envelope was absolutely blank, so he said, "Why, Pat, there's nothin' written there!"

"I know," said Pat, "We're not shpeakin'."—Book of Smiles.

## OIL AND PUBLIC WELFARE

Extent to which the public welfare is dependent upon prosperity in the oil industry is illustrated in the case of Texas where one mouth out of every eleven is supplied food bought from wages and salaries paid by an oil company. The fact that about one out of every eleven gainfully employed persons in Texas is on the payroll of an oil company and that a proportionate number of the state's 5,824,000 population are dependent for livelihood upon wages paid by the oil industry represents only a small part of the picture. Millions of dollars have been contributed to the permanent fund of the University of Texas from oil royalties from university lands. The public treasuries of Texas have been materially blessed by petroleum, for 56.8 per cent of the state's total revenues are derived from taxation on the oil industry.—Independent Monthly.

A stranger applied at the police station for a lodging, and when asked his name replied that it was Smith.

"Give me your real name," he was ordered.

"Well," said the applicant, "put me down as William Shakespeare."

"That's better," the officer told him. "You can't bluff me with that Smith stuff."—Tit-Bits.

WANTED—Clean Cotton Rags at The Advocate.

## GOLD AND LEAD NEAR MAGDALENA

An ore deposit running \$39 in gold to the ton and 40 per cent lead has been discovered on Magdalena mountain south of Magdalena by W. C. Nichols, Arizona Mining man, he said Tuesday.

The ore is located on one of the duces. It was transplanted to top of the mountain. Nichols said he had removed 80 tons and will start shipping soon.

Mining men estimated there was sufficient lead in the composition to pay shipping and smelter costs, leaving the gold as net profit.

FORD SALES MOUNT SINCE APPEARANCE OF NEW V-8 MODEL

Since June, when volume deliveries of the new Ford V-8 cars began, Ford has led all competitors by a wide margin in sales of passenger cars, commercial vehicles and trucks...

In June, the first month when volume deliveries of the new Ford cars were available, Ford's share of total passenger car sales in the United States reached 35.9 per cent, as compared with 24.9 per cent for its nearest competitor.

Ford sales in July, as revealed by official registrations, mounted over June figures and Ford's share of the business was increased. Ford passenger car sales reached 38.4 per cent of the total business...

Since volume deliveries of the new Fords began in June, Ford has accounted for 46.5 per cent of all new passenger car sales in New Mexico, as compared with 31.2 per cent for its nearest competitor.

AN EXPERIMENT

By JANE OSBORN

\*\*\*\*\*
"GET the right kind of woman and she can do it as well as a man—"

"Stuff and nonsense She wouldn't have the head for it. Imagine Miss Kilne or Miss Hicks here going out to sell bonds—imagine their selling any!"

"They haven't got the head for it," shouted young Tom Venner. "That's what I'm telling you. Get a woman of the right sort and she could sell bonds with the best salesman we've got—"

The middle-aged Kirk Yates shrieked his answer. "But if you get a woman like that you've got to pay as much."

"Then pay, by gummy, pay," bawled Tom Venner, with several emphatic bangs on his desk. "The point isn't that I want to get a bargain, but I want to get people that will stick. Take Bloden, or Smyth, or Klinger—any of 'em—they sold bonds for awhile and when they got real good at it, they got better jobs, went somewhere else or started out by themselves. My idea is that a woman isn't so ambitious or so daring. Get two or three trained in, and we'll have a staff you can depend on. Get me?"

Mr. Kirk Yates sniffed, indicating thereby that, while he didn't "get" Mr. Venner at all, he was through arguing. "Go ahead," was all he said. "I'm only a partner. I can't stop you from trying an experiment. But don't start out with three or four. Get one and see if it works."

So it was that the employment agent who supplied the bond house of Yates and Venner with stenographers, comptometer operators and other office workers had a rather unusual position to fill. There was only one applicant on the list at this agency that was considered suitable. This was Jane Hayden. The employment agent sent a sealed note along with her. Tom Venner read it through while Jane Hayden sat waiting at the other side of his desk for an interview.

"She does not seem to have the striking personality you may think necessary for selling bonds. But there is something about her eyes that I should think would take the trick. And she's very intelligent."

Tom Venner had not noticed her eyes as she came in the room, he had merely noticed with a trifle disappointment that she was a young woman of middle size and not commanding appearance, who made no special effect when she came in the room.

Then, as he turned to talk to her she lifted her eyes, sober, light brown eyes they were, with exquisitely moulded brows. They were eyes that, had he never seen them again, he could not have forgotten.

"I think you could sell bonds, or anything else," Tom said, trying not to look at the eyes, lest he be too easily influenced. "The question is whether you are willing to learn enough about bonds to know how to do it."

Jane Hayden said she knew she could learn, as she was used to study, and after an arrangement had been agreed upon—whereby she was to be paid as much for what she did as a man salesman—she was formally taken into the employ of Yates and Venner.

Mr. Yates remarked to Tom that he had certainly picked a pair of good eyes, adding: "But can she sell bonds?"

Tom Venner said: "We'll see." Jane Hayden soon proved her ability as a saleswoman. She sold bonds and more bonds, and she was always on hand when either Tom Venner or Mr. Yates wanted to see her. She never seemed to have to play golf or eat lunch or go motor-ing with the people to whom she sold the bonds. By all means she was the best bond "salesman" they had.

"Here's something that I don't suppose you've thought of," said Mr. Yates. "Here we've got a first rate bond salesman. She has learned the business and she's making money for us and for herself. And not being a man she isn't ambitious. She won't want to start out for herself. That was my idea about getting a woman—"

"Your idea!" cried Tom. "I don't remember that it was your idea." "I didn't say much," smiled Mr. Yates, "but that morning I asked you to get a girl—that was the idea I had in view. There's no reason now why this Miss Hayden shouldn't remain with us for years." "No reason but one," said Tom Venner hastily and with color mounting in his already rather ruddy face. "She might marry some one in the business—"

"Well, as I am a married man myself," said Mr. Yates with a con-celited smile, "and as Trigger can't get his divorce and as Royden is about a foot shorter than Miss Hayden, and as Ben Short is engaged I don't see much to worry about." "What about me?" cried Tom. "You!" gasped Mr. Yates. "Does she care about you? Well, I'm blessed." Then he laughed.

"She's got wonderful eyes," said Mr. Yates, "but it's bad business for you to take her away from the firm."

New Approach to America's Shrine

A shrine every American visits when he goes to the Nation's Capital is the tomb of America's Unknown Soldier at Arlington National cemetery. This is a new view of the tomb.

HOPE ITEMS

Mrs. Virgil Craig is seriously ill in the St. Francis hospital in Carlsbad.

John Jerry Jones is in the hospital at Carlsbad suffering with an infected hand.

J. W. Rowland is reroofing his building which was heavily damaged in the rain storm.

Aunt Sallie White left Monday for Carlsbad where she will spend a few weeks with her niece.

Mrs. Robertson of Weed is seriously ill here at the home of her daughter, Mrs. Hilary White.

Mrs. J. B. Leek and small son, J. B., Jr., of Carlsbad are visiting her mother, Mrs. Ida Shelton.

Mr. and Mrs. J. H. Bridgman, Mrs. H. Hughes, Mrs. Mary McDonald and Mrs. Noel Johnson were visitors in Carlsbad Sunday.

Elmer Schrier left Monday for Roswell with a heard of paint horses belonging to Mr. Anderson Young to be exhibited at the fair.

Mr. and Mrs. Lee Donahue and Mr. and Mrs. Wash Adams of Weeds were guests at the Ed Payne home last Tuesday and Wednesday.

A damage estimated at about one thousand dollars was done to the siphon in the south canal last week when it was washed out by flood waters.

All traffic was stopped on the highway west of here Monday when a heavy downpour and hail storm caused the Charley White Draw to come down.

Mr. and Mrs. James Goodwin of El Paso are visiting at the Dave Bunting home this week. Mrs. Goodwin is the mother of the Bunting brothers.

Little Lillie Ruth Craig is staying with her aunt, Mrs. Bob Cole while her mother, Mrs. Virgil Craig, is ill in the St. Francis hospital at Carlsbad.

A rain fall of 10.47 inches has fallen here this month. 10.27 inches have fallen since September 22. This is the largest rain fall since September 1919.

Mrs. Lelia Kroeger and small son left last week for their home in Kansas City, Missouri. Mrs. Kroeger spent the summer with her parents, Mr. and Mrs. Boyd Williams of Lower Penasco.

Messrs. Lonly Reeves and John Gage are repairing the Penasco bridge at Lower Penasco that was washed out last week by flood waters. A detour has been made through the Runyan ranch to Dunkan and Pinon.

Mr. Wood was in town this week from Ft. Worth, Texas where he brought a load of maize for Mr. Bridgman to feed his sheep this winter. He will return to Ft. Worth this week with a load of cabbage from the mountains.

The Missionary ladies of the Methodist church made \$32.00 off of the play they gave at the school auditorium Tuesday night and the young peoples' division made \$5.00 from the refreshments

that were sold. This money will go to repair the roof of the church building.

Mrs. Geraldine Reed Phillips entertained at her home Saturday evening with a bridge party. Present were Mr. and Mrs. Bill Bunting, Mr. and Mrs. Bonnie Altman, Miss Babe Mellard, Messrs. Sy Bunting, Iva Lee Wimberly, Bill Riley and the hostess, Mrs. Phillips. Light refreshments of coffee and cake were served during the evening.

Dayton Items

(Contributed)

Julian Perez has lately moved to Dayton.

Dee House and wife have moved into one of Mr. Winan's houses.

Mrs. Lily Kinder's father has been visiting with her for a few days.

Prayer meeting Wednesday and Thursday nights of last week were rained out.

Gordon Sterling has returned from holding a revival in the mountains.

Bud and Juanita Aaron came in Monday from Texas where they resided the past year.

Joe Sherbit accompanied by a cousin and two boy friends came in from Texas one day last week for a visit with relatives and friends.

The party given at the home of Mr. Callan's Saturday night was well attended. About seventy being present. Light refreshments were served.

Counsel—Now, answer me 'yes' or 'no'! Were you or were you not bit on the premises?

Witness—Anatomy isn't my strong point but I can tell you that I didn't sit down for a week.

AGRICULTURE LOANS ARE \$1,182,734,958

WASHINGTON, D. C. — Advances of \$1,182,734,958 "in actual cash to aid agriculture, commerce and industry to recover from the depression" were announced Tuesday by the Reconstruction Finance Corporation in a summary of loans made during its first seven months of operation.

From February 2 through August 31, the corporation said \$1,118,532,968 was loaned to 5,599 borrowers and \$64,201,989 through the Secretary of Agriculture to 507,632 farmers for crop production purposes.

In addition, advances to states and political subdivisions for relieving distress were totaled by the corporation at \$35,455,171 from the enactment of the relief law in July to the close of business September 30.

The corporation's statement showing that its financial operations have involved approximately one third of the \$3,800,000,000 fund placed at its disposal by congress, dealt only with general statistics and did not mention individual borrowers. Its chairman, Altee Pomerene, has protested the ruling of South Trimble, clerk of the house, making public the July report to congress on individual loans, and Trimble is expected to decide today whether the August loan report will be made public.

The corporation said that of its \$1,118,532,968 direct loans, borrowers on August 31 had repaid \$150,890,897 leaving \$967,642,071 outstanding. Loans of \$226,101,268 had been authorized in addition to cash actually paid out, but \$35,564,412 of this amount was cancelled by the borrowers and \$190,536,855 had not been called for.

"The statistics further show," the corporation said, "that there has been a steady decline in applications for loans from banks since April. In that month 1,269 applications were received and in August only 899."

REGISTRATION IS GREATER

SANTA FE—Election registration figures for fifteen of the 31 counties Saturday showed a gain of 16,400 voters compared to the figures two years ago.

Each of the 15 counties reported an increased registration. The total registration for the 15 counties is 94,651.

"They say . . ."
KILLED BRUTUS
Brutus was a good dog, the friendly, tail-wagging, smiling kind of dog. Wanting to be petted he jumped upon the lady, who was frightened. The person she told this to said Brutus had jumped and snapped. The next person had said Brutus was frothing at the mouth. Some boys saw Brutus and threw stones. Brutus ran. "Mad dog! Mad dog!" the boys cried. Brutus was cornered and shot.
From gossip to scandal is a short step, and heaven help the person or thing against whom the public mind is poisoned.
Successful merchants and manufacturers are those who realized the mischief that can be created by 'They say.' These business men, determined to say the truth, themselves, about their own merchandise and service, employ advertising to protect themselves and the public from half truths, from falsehoods and from the common garden variety of ignorance that works havoc among the very best of intentions.
These merchants and manufacturers are under no delusions. They know they cannot tell untruths about their products and get away with it because there is nothing that will bring ruin so fast and sure as to turn the bright, white light of publicity on inferior wares or unsatisfactory service.
Advertising forces manufacturers to compete for your trade and your dollars. It compels the offering of better merchandise, better service, fair prices. You can trust the advertisements in this paper!

PEBWORTH SENT TO PEN FOR SLAYING OF TEXAS OFFICER

A sentence of 99 years in the penitentiary was given Lee Pebworth, 60, indicted by a grand jury at Portales, for the slaying of Deputy Sheriff Harve Bolin of Plainview, Texas, when he pleaded guilty yesterday afternoon to a second degree murder charge.

Similar charges against Joe Jones, Pebworth's son-in-law and Stanley Hedrick, who also were indicted for the slaying, were dismissed because of insufficient evidence.

Bolin was shot in a gun battle at Pebworth ranch near Portales last August 20. With other Texas and New Mexico officers he had gone to the ranch to arrest Pebworth after he was indicted for robbery of a bank at Olton, Texas. A. C. Hunsaker and Jack Sullivan also were indicted on the bank robbery charge and were believed to have been in hiding at the ranch.

Too Handy With Can Opener

An Englishman who has been 12 years in the Canadian West sent home to Lancashire for a wife; and this is the reason: "Canadian girls are pretty handy with a can opener, but they don't know how to use a frying pan." Is this why Canadian boys are beginning to capture exhibition prizes for good cooking?—Toronto Globe.

Modera Life

Today man no longer requires the use of his muscles to obtain those commodities necessary for the maintenance of life. He no longer needs to function as a motor or a slave.—Dr. Albert Einstein in Woman's Home Companion.

Manners Count for More

It's mighty fine to have company clothes to wear on special occasions, but it's still finer to have every day manners that are so good they don't have to be changed when you're entertaining company.—Cincinnati Enquirer.

Dispel Fog

According to United States Department of Agriculture experiments fog can be dispelled artificially under favorable circumstances but all known methods are too costly for commercial use.

Cave a Refrigerator

Snow and ice may be found 365 days of the year in a cave at Greenwood City, nine miles west of South Paris, Maine. Snow driven into the sheltered cavern in winter remains through spring and summer.

Monster Sturgeon

The biggest sturgeons in the Great Lakes weigh 200 pounds or more and measure as much as eight feet in length, which accounts for the fact that they are sometimes excitedly thought to be sea serpents.

About Ourselves

Let us remember that as much as has been given us, much will be expected from us; and that true homage comes from the heart as well as from the lips and shows itself in deeds.—Exchange.

Uncle Eben

"De man who prides hisse' on sayin' what he thinks," said Uncle Eben, "is mighty liable to put too much speed on de sayin' an' not 'nuf power on de thinkin'."—Washington Star.

First Negro Woman Lawyer

Marian Poe of Washington, who was admitted to practice at the Virginia bar in 1927, was the first negro woman lawyer admitted to practice in the United States.

World's Largest Coin

The largest metal coin is a Swedish 10-daler of solid copper, produced in 1885. It is 25 inches long, 12 1/2 inches wide and half an inch thick and weighs about 45 pounds.

For Flower Lovers

Place a lump of sugar in the vase containing thick-stalked flowers and it will prevent the unpleasant odor which so frequently accompanies these harder plants.

A Reluctant Adventure

Famous Bible Preserved

One of the copies of the first edition of John Elliot's Bible is in the Library of Congress. The first edition was published at Cambridge, Mass., in 1633.

Smallness Revealed

It is with narrow-necked people as with narrow-necked bottles; the less they have in them, the more noise they make in pouring it out.—Pope.

Greatness

Earnestness, wrote Bulwer, is the best gift of mental power, and deficiency of heart is the cause of many men never becoming great.

Curse of the Hapsburgs

The Hapsburg curse is a form of insanity said to be in the Hapsburg family and believed to be due to intermarriage.

Theory and Practice

Nothing learned from a book is worth anything unless it is used and verified in life.—Will Durant.

Russia's Long Waterway

The Yenisei river in Siberia is one of the largest rivers in the world. It is 3,250 miles long.

Interdependence

No man is sufficient unto himself. We are dependent on others, and others are dependent upon us and our efforts. If we expect people to be of service to us, we should be willing to be of service to them. He is in no sense a man who takes all and gives nothing.—Grit.

W. T. Reed and daughter, Miss Marynette, of Carlsbad spent a few minutes in Artesia yesterday, en route to Roswell on business and to attend the fair.

"Appetite" and "Hunger"

There is a common belief that appetite and hunger are the same thing, yet the two are different. Scientists have definitely localized hunger as a function of the stomach, and find that the contraction of an empty, or nearly empty, stomach is the source of hunger pains. As the stomach is filled and the walls are expanded hunger disappears. Appetite has been found to emanate from the mouth and throat area and is influenced by previous tastes or odors of food. Pavlov the Russian physiologist, defines appetite as the flowing of digestive juices aroused by the memory of food. The familiar watering of the mouth at the sight of what is considered appetizing food does characterize appetite, he says.

Reveals a New World

The complexity of the diatom forms need be no barrier to the layman who desires to find them for himself. There are a number of very low-priced microscopes that will reveal to him not only the diatom, but also another world of things, the very existence of which he has never dreamed. A student-type microscope with a power of magnification from 50 to 150 diameters is sufficient for the beginner and, if desired, an additional eyepiece may be obtained later that will increase its power to 250 diameters.

That Ohio farmer who told a recent institute that "we spend 60 cents per capita for funerals and tombstones and only 10 1/2 cents per capita to keep from dying" has so keen an insight into public health that he should be sent to the legislature and kept there.—Ohio Health News.

FAMOUS LEA COUNTY OIL SUIT ARGUED IN U. S. COURT APPEALS

A case which has direct bearing on oil rights valued at about \$15,000,000 on 80,000 acres of land in New Mexico was argued before the U. S. circuit court of appeals at Denver, Colorado last week.

The outcome of 30 oil land cases now pending in New Mexico courts was expected to be determined by the rulings in the case of Will N. Terry vs. the Midwest Refining Co., which involves the ownership of mineral rights on 80 acres of land near Hobbs, N. M.

The Terry case involves the right of the state of New Mexico to retain mineral rights on lands sold prior to the time of a legislative enactment which expressly gave such retention powers to the state.

Terry lost the case in the New Mexico federal district court and took an appeal to the circuit court at Denver. It was believed the case would be carried to the U. S. Supreme court before it is finally decided.

Criticisms of the Flea

Recent laboratory experiments show that a flea can live 62 days without food. The trouble with the fleas I have met is they don't seem to know their own strength.—Detroit News.

Cheered by Sad Spectacle

Nothing is more cheering to the meek, who are to inherit the earth some day, than the sad spectacle of a publicity hound who has lost the trail.—Toledo Blade.

Both Parties Pleased

A European scientist says man and the ape are farther removed than has hitherto been believed. This news will please both parties.—Newark Evening News.

Birds Killed in Flight

Thousands of birds, especially warblers, are killed during migration by flying into telephone wires or buildings, or by similar accidents.

Japanese Ingenuity

By crossing barnyard fowl with copper and green pheasants, Japanese fanciers raise roosters with tails more than 12 feet long.

Variation in Needs

A sunflower plant requires about a quart of water a day. A beech tree may need as much as eight quarts in the same time.

Not Success Tests

Wealth, notoriety, place and power are no measure of success whatsoever.—H. G. Wells, English Novelist and Historian.

Word to the Wise

If you listen to the neverdos, it's never done.—David Lloyd George.

Beget Each Other

Health and cheerfulness mutually beget each other.—Addison.

Nugget of Wisdom

Optimism carries a world map in its pocket.

GAME SPECIALIST IN LINCOLN FOREST

M. E. Musgrave, game specialist for the forest service, is in Lincoln forest this week on an inspection to the various game areas of the Lincoln forest. Accompanied by Supervisor Arthur he is visiting all deer ranges reputed to be overgrazed, to get first hand view of the situation.—Alamogordo News.

ANGRY PEASANT BITES OX

KANDY, Ceylon — A peasant was fined \$5 here because he bit the bullock which pulled his cart. He wasn't trying to make news; he was mad at the bullock for bumping a pedestrian.

TYPEWRITERS

New, second hand and factory rebuilt in portables and standards—See us before you buy. Artesia Advocate.

Odd—but TRUE

THE TIP OF A DOG'S TAIL IS ALMOST INVARIABLY WHITE IF THE ANIMAL HAS ANY WHITE ON ITS BODY

BAG LIMIT IS GIVEN MIGRATORY FOWLS

The state game commission has issued the following order relative to the bag limit on the migratory water fowl:

- Coot, 25 per day, October 16 to December 15.
Brant, 4 per day, October 16 to December 15.
Geese, 4 per day, October 16 to December 15.
Ducks, 15 per day, October 16 to December 15.
All dates inclusive. The season opens at noon on opening date.
On ducks the daily bag limit is 15 for all species, of which number not more than 5 may be either ducks and not more than 10 of each or in the aggregate may be canvasbacks, redheads, greater or lesser scaups, ringnecks, blue winged teal, green winged teal, cinnamon teal, gadwills, or shovellers. The possession limit on all species of ducks and geese is double the daily bag limit. There is no open season on ruddy duck and buffle head.
The season on bantailed pigeons shall be November 1 to November 15, both dates inclusive, with a bag limit of 10 a day and a possession limit of the same number.

COMMISSIONER'S MEET

The Eddy county commissioner's court met in regular session Monday at Carlsbad. Only routine matters claimed the attention of the court.

HIGH WATER STOPS FREIGHT SERVICE

High water between Carlsbad and Pecos, Texas stopped freight train service on the Santa Fe branch line Monday.

Mrs. H. H. McLaren and little daughter and sister, Miss Beverly Kirkpatrick and Mr. and Mrs. Conrad of Dallas, Texas arrived Sunday evening to visit Mr. and Mrs. Will Benson. On Monday Mrs. Benson, Mr. and Mrs. Conrad and Miss Beverly Kirkpatrick made the trip through the caverns.

Mrs. Emma Coll and Miss Addie Coll who have been spending the past two months in their cabin on the Ruidoso returned home Monday with Eben Coll and small daughter, Cleotta of Cambridge, Illinois, who have been visiting Mrs. Coll and Miss Coll on the Ruidoso. They expect to remain until the last of the month.

Both parties are said to be hard put to find cash for the campaign. If worst comes to worst, though they can endorse one another's notes.—Detroit News.

Church Pew Space

The minimum spacing for church pews back to back is 30 inches—32 or even 33 inches to be preferred. A space of 18 inches in the length of the pew is considered a sitting. The actual seating capacity can be determined only by drawing the seats to an accurate scale on the floor plan and then measuring the linear feet of the pews. For approximate values six or seven square feet may be allowed for each seat.

Best Lighting

Artificial light should resemble sunlight as much as possible, ample to see to work by but not too glaring. Electric light is probably best because it does not consume oxygen from the air of the room, nor does it give out to the air any waste products. Light should not fall directly on the eyes, but should come from the side or behind the shoulder.

Fiery Political Speaker

The time will come when the Bolshevik ticket will sweep the country. Voice in Crowd — Yeah, right down the middle of the street, wearing cute little white suits.

WANTED—Clean Cotton Rags at The Advocate.

WE THANK

The following have their subscription to the past week.

- Mrs. D. Swift F. A.
W. W. Rester F. J.
I. H. Burgess Dick
Mounts F. V.
J. S. Noland
Peoples Mercantile
Rev. F. C. Roe

NOTICE!

Please do not send an envelope for subscription unless it is liable to be lost—see order or check.

Mother—Why are you that book on the children?

Son—To see if you ing me up properly!

"Rebecca of Sunnybrook" SUNDAY-MORNING October 9-10

FOLGER'S COFFEE

Table with 2 columns: Weight and Price. 1 lb - 35c, 2 lbs - 68c, 5 lbs - \$1.62

Advertisement for SHAW-WALKER Safes, approved by the Underwriters' Laboratories, will keep your records safe from fire, beside giving you a 20 percent reduction on your burglary insurance premium. ARTESIA ADVOCATE

Church Attendance Was Too Large

The little abandoned church seen above is on a quiet street in Clifton, N. J. Recently prohibition agents noticed it was drawing an astonishing number of "worshippers," and on investigation they discovered the fully furnished bar shown in the lower part of the picture.

MODERN LUBRICATION

Most anybody could be trusted to apply axle grease to the buggy or wagon of twenty-five years ago, but correct auto lubrication involves a different process. We today demand high speed and proper operation from our autos. The mechanism of course requires attention and the fast running parts the proper grade of lubrication.

Proper lubrication adds life to your car. It pays to do it right. Next time try Texaco Certified Lubrication.
