ARTESIA, NEW MEXICO, THURSDAY, OCTOBER 20, 1932.

NUMBER 42

Artesia, the gateway to the Sacramento Mountains and the hub of the Pecos valley with its resources.

## PARTY OF DEMOCRAT SPEAKERS ADDRESS VOTERS AT HOPE

Attorney J. H. Jackson, candidate for state senator; G. U. McCrary, president of the Artesia Roosevelt-Garner club, J. L. Truett, democratic county chairman, G. R. Brainard, candidate for county commissioner and Fred Cole, were speakers at a political rally at Hope last night, attended by a large and interested group of citizens.

John Rowland, president of the Roosevelt-Garner club of Hope presided at the meeting which was attended by a large number of women. Plans are being made by the Hope people to assemble one of the largest audiences ever assembled at Hope for political purposes to hear the Honorable Arthur Seligman, next Thursday morning, when he and his party of campaign speakers will visit the town.

J. R. Attebery, democratic county secretary, Dare McLean, secretary of the Artesia Roosevelt-Garner club and Cavit Jackson also attended the rally from Artesia.

## GOVERNOR SELIGMAN PARTY TO BE IN ARTESIA ON 27TH

Local democrats are making the final plans connected with the visit of Governor Seligman and the party of speakers scheduled to visit Artesia on the afternoon of October 27th, Thursday. The speakers' party includes Governor Seligman, Warren Graham, Frank Wesley and Mrs. M. P. Baca. The speakers will fill an engagement at Carlsbad on the evening of the 26th. They will drive thru Hope to speak at 10:00 a. m. Thursday morning, but will not have time to make an extended stop here. Jess Truett, county chairman has issued a call for as many cars as possible to accompany the speakers to Hope. The party will arrive here about 9:00 a. m. enroute to Hope and after the speaking there will return here to speak at 3:00 p. m. and spend as much time as possible in the community before going on to Roswell to fill an engagement on the evening of the 27th.

## DILLON FOR GOV. CLUB TO MAKE AN ACTIVE CAMPAIGN

A number of republican and independent voters met in the office of William Dooley Monday and organized a Dillon for governor club. Robert Rehn was elected chairman; C. J. Dexter, vice-chairman; Nola Naylor, secretary and Arba Green, treasurer. Office headquarters have been established in the Schuster building and plans have been made to make an active canvass of the community in the interest of Governor Dillon's candidacy.

The club started off with a creditable membership roll.

The Rev. Harold G. Scoggins preached his farewell sermon Sunday at the Methodist church. The church was beautifully decorated for the occasion. Yesterday the Rev. Scoggins, accompanied by Mrs. Scoggins went to Roswell to attend the Methodist conference.

## OUSTED FROM MEXICO

## SELIGMAN ASSAILED BY G. O. P. SPEAKERS ARTESIA YESTERDAY

Ex-Gov. Dillon Promises Economy — Speakers Say Seligman Has Not Kept Promises Or His Faith With Party.

Four republican speakers Jose Armijo, candidate for congress, Mrs. Lorenza Garcia, candidate for secretary of state, R. C. Dillon, candidate for governor and Hugh Woodward, U. S. District Attorney, spoke to some 200 people at the Majestic theater yesterday afternoon at 3:00 o'clock. The speakers drove on to Carlsbad for an evening engagement.

Jose Armijo, republican candidate for congress, in a short address voiced his opposition to the cancellation of the foreign war debts, pledged that he would not employ relatives in the event of his election and also that he would work for the reduction of federal expenditures.

Oliver Lee, candidate for land commissioner pointed out the connection between the operation of the state land office and the maintenance of the public schools and public institutions. Mr. Lee estimates that the surface values of state lands amount to approximately \$50,000 while the sub-surface rights is valued at least \$800,000,000. The speaker said he believed the revenue from the state land office could be eventually made to pay the costs of operating the public schools and of other public educational institutions.

Mrs. Lorenza Garcia, candidate for secretary of state, in a brief speech thanked the voters for a consideration of her claims to the office of secretary of state.

Dillon Pledges Economy — Ex-Governor R. C. Dillon, pledged economy in the operation of state affairs, if elected governor. Governor Dillon launched into a (Continued on last page column 6)

## ROOSEVELT STARTS 3,000 MILE SPEAKING TOUR TUESDAY MORN

Smiling and waving his hand to a small crowd of well wishers, standing on a rain-drenched railroad platform, Governor Roosevelt, accompanied by his daughter, Mrs. Curtis Dall, and his son, James, and a party of 60 left Albany Tuesday morning for a presidential campaign trip of 3,000 miles through seventeen states. The "weather luck" of the presidential nominee deserted him at departure Tuesday morning for one of the few times in the four campaign he has toured, 1920, 1928, 1930 and 1932. Those who have traveled with him expect to find clear skies, "Roosevelt weather." A black sky and wind blown rain greeted the candidate as he boarded his special train, as he started on an eight day trip through the middlewest and south.

## THE ADVOCATE TO HAVE ELECTION PARTY

For several years now it has been the custom of The Advocate to gather and tabulate the returns from the November election and plans are going forward to stage another election party on the evening of November 8th. Co-operating with the Daily Current-Argus at Carlsbad, we expect to obtain complete county, state and national returns as quickly as they are available. The Current-Argus will receive complete Associated Press reports as they are sent out over the state and nation.

## ROOSEVELT-GARNER CLUB MEETS

The Artesia Roosevelt-Garner club had the most enthusiastic meeting of the year Tuesday evening. A large crowd of both Anglos and Mexicans attended the meeting. Two Carlsbad speakers addressed the meeting, Caswell S. Neal and H. R. Rodgers, county S. Neal and H. R. Rodgers, county superintendent. The address of Mr. Neal was interpreted for the Mexicans by Bennie Juarez.

## COTTON PICKING IS MAKING HEADWAY—GINS RUN 1,094 BALES

Six gins of this area have turned out 1,094 bales since the last report, the weather the past week has been very favorable to gathering cotton, however, the picking operations have been halted by the recent moisture. Ginnings are divided as follows:

Lake Arthur gin	57
Cottonwood gin	415
Association gin, Espuella	345
Association gin, Artesia	454
Farmers gin, Artesia	720
Association gin, Atoka	650
Total	2,641

## PROGRESSIVE TICKET WITHDRAWN IN STATE

SANTA FE—The progressive party formed as an aftermath of the recent republican state convention by followers of United States Senator Bronson M. Cutting has withdrawn its ticket from the field in New Mexico and its members will support the democratic party, Maurie Miera, state chairman said last night.

The ticket headed by Prager Miller of Roswell, as candidate for governor, was formed after the split in the republican convention at Albuquerque last month. At that time Senator Cutting resigned as republican national committeeman from New Mexico in protest against what he termed the "rule of the few within the party."

Senator Cutting had no statement to make to the press regarding the announcement made by Miera.

The statement said in part that leaders of the party had deemed it wise to join forces with the democrats "as the most effective way to bring about the repudiation by the people of the methods employed by the old guard leaders at the republican state convention." The party organization, however, will remain intact and active during the campaign and after, Miera said.

The action of the party thus was on their own, it was pointed out, as was their recommendation of the democratic national ticket in the nine counties from which they withdrew.

"I expect," Senator Cutting said, "to make my national position clear within a few days."

It was announced last night at the senator's office here that Cutting would speak over radio station KOB on a nationwide hook-up from 8:30 to 9:00 p. m. mountain standard time, October 26. He is expected at that time to state his position on national issues.

## U. S. POTASH REFINERY IS IN OPERATION

The refinery of the United States Potash Company located east of Lovig is running a twenty-four hour shift and is turning out about 175 tons of potash daily according to F. B. VanHorn of Carlsbad, land man for the potash company. The refinery will be enlarged as soon as the demand justifies.

Mr. and Mrs. Emery Carper left yesterday for a few days visit in El Paso, Texas.

## COLD PRESS PLANT MAY BE BUILT TO BOOST COTTON SEED

The Farmers Want Better Prices For Seed—Some Talk Of Locating An Oil Mill And Cold Press Plant In Area.

Low priced cotton seed has started talk of the possibility of locating an oil mill in this section. Cotton seed has dropped to \$6.00 per ton, which price lacks about \$2.50 to \$3.85 in paying for the ginning. There was some discussion among the farmers here last week of investigating the probability of moving a mill into the middle valley, but up to the first of the week there had been no concerted move to interest financial backing for such project or to bring about a move that might result in higher prices for the seed.

Cotton seed is said to be bringing from \$10.00 to \$18.00 per ton in Texas points. According to some farmers, irrigated cotton produces a higher quality of seed that should command a higher price.

At Otis, twenty-four farmers signed an agreement to hold their cotton seed pending a mass meeting Monday. It was suggested that a cold press method be adopted, if no better solution could be formulated.

May Build Cold Press Here — An investigation is being made into the costs connected with the erection of a cold press here to care for the cotton seed, Chas. Rogers, manager of the Farmers gin stated recently. Mr. Rogers is hopeful that plans for the erection of a cold press plant may be worked out, but nothing definite will be known about the plan until about the middle of next week.

The building of a cold press here will add about \$3.00 per ton to the value of the cotton seed, Mr. Rogers stated.

## ARTESIA HI DOWNED IN THRILLING BUT ERRATIC CONTEST

The Hobbs high school football team won a 13-7 football game from the Artesia high school eleven last Friday afternoon after sixty minutes of exciting gridiron combat. This was the best game from the spectators standpoint, played on the local gridiron for some time.

The Artesia lads, excelled their opponents in passing, punting, and gaining yardage from scrimmage, but lacked scoring punch, being held on four occasions within ten yards of the line.

Hobbs scored early in the first quarter by means of forward pass to a player, who hid out near the sidelines without being watched by Artesia players. This play netted fifty-five yards and resulted in a touchdown. Baker failed to make the extra point through the line. Artesia scored their touchdown in the second half by means of a pass from J. W. Brown to Rowley for a gain of twenty-two yards. Brown plunged through tackle for the extra point. The half ended with the score Artesia 7, Hobbs 6.

Early in the second half Hobbs started a line smashing drive that netted four first downs and a touchdown. Baker place-kicked for the extra point. Artesia likewise commenced a smashing game and then started a passing attack which advanced the ball sixty yards in three attempts. Champion crossed the goal line, but happened to step on the sideline about one foot from the end zone, where Hobbs held for downs for the third time within the ten yard line. After Hobbs punted, Artesia again advanced the ball to the five yard line, where an incomplete pass into the end zone gave the ball to Hobbs. The game soon ended with the score 13-7.

Deaton at full; Hemley at center; Cottle at tackle and Garner at half were the outstanding players for the visitors. J. W. Brown (Continued on last page, column 3)

## BEG PARDON

The name of Mrs. J. M. Story was accidentally omitted from the board of directors of the Legion Auxiliary report last week.

## A WOMEN'S DEMO. BUREAU ORGANIZED HERE FRIDAY NIGHT

Mrs. Lillian Robinson of Carlsbad, chairman of the State Democratic Bureau, drove up Friday night and assisted in the organization of an Artesia Democratic Women's Bureau. Although the meeting held at the democratic headquarters in the old First National Bank building was not advertised, eighteen local women responded to the call of Mrs. Robinson and organized a local bureau. The following officers were elected: Mrs. Joe Clayton, chairman; Mrs. W. E. Flint, president; Miss Katherine Ragsdale, secretary, and Miss Velma Richards, treasurer.

The bureau will meet each Thursday evening at 7:30 in the hall over Brainard-Corbin Hardware store. All ladies are welcome.

Chairmen of other precincts in north Eddy county were named at the meeting. These include: Oil Field, Mrs. Alex McGonagill; Cottonwood, Mrs. Monroe Howard; Dayton, Mrs. Reed Brainard; Hope, Mrs. Bryant Williams and Lakewood, Mrs. M. C. Lee.

## HOBBER HORSE DOES DAMAGE TO AUTO BOYS ESCAPE INJURY

Six Cottonwood boys had a narrow escape from serious injury Sunday night as they were returning from Artesia when they struck a hobbled horse near the stock yards, north of town. Dallas Golden driving a topless Model Ford, attempted to pass a car. Blinding lights prevented his seeing a hobbled horse on the side of the road. Just as the car approached the horse, the animal reared up, striking the front of the car and bending in the radiator and one fender and breaking the windshield. The front feet of the horse passed over the boys in the front seat and on the rumble seat. How they escaped serious injury or possible death will probably remain a mystery. Dallas Golden, the driver, was cut on the hand and Roy Ingram was cut on the head. Except for slight bruises the other occupants of the car, Idas, Ulas and N. L. Golden and James Felton were not hurt.

The horse was none the worse for his experience, so the boys say.

## SLOW RAINS FALL OVER EAST SLOPE—QUARTER INCH HERE

A slow rain fell intermittently this morning over the eastern part of the state. The precipitation had amounted to approximately a quarter of an inch up to 10:30 this morning. The moisture is expected to be followed by a gradual drop in temperature and at least a light frost may be expected. The lowest temperature for the week was 36.

A cold norther blew over part of the Texas panhandle yesterday and snow fell as far south as Santa Fe.

Mr. and Mrs. Lloyd Simons and Baby returned home yesterday from a two weeks' visit in Haddam, Kansas.

## WAGNER'S OPPONENT

New York Republicans nominated George Z. Medalle, United States district attorney, to run for the senate in opposition to Senator Wagner, who was renominated by the Democrats.

## New Crude Price Is Not General In So' east Area

The Texas Co., and Shell Increase Price 10 Cents Barrel In Hobbs, Lea, Jal And Eunice Areas Lately.

We wish to take this opportunity to correct an erroneous report in our oil columns last week, wherein it was stated that the New Mexico Pipe Line Co., was no longer a common carrier. This pipe line is a common carrier just as other pipe lines, but the Continental Oil Co., has withdrawn from the Artesia and Jackson fields as a common purchaser, as we understand it and the withdrawal of the Continental affects some eight companies in the Artesia and Jackson areas.

The increase in the price of crude oil generally over Texas and Oklahoma has only been met by part of the purchasing companies in southeastern New Mexico. No increase in price has been posted here. On the 15th the Texas Co., announced an increase of ten cents per barrel in the Lea, Eunice and Jal areas of Lea county, making the new price 75 cents per barrel. The Shell Pipe Line announced a ten cent boost for the Hobbs field effective the 15th, but so far as known the other pipe line companies, the Atlantic and the Humble did not meet the raise.

The Skelly Oil Co., has completed its McKinley No. 1 sec. 20-18-38, in the Hobbs field for an average producer of this area. On a proration gauge this well is said to have made 3,402 barrels of oil flowing through a two inch tubing from 4,220 feet.

In Eddy county the W. A. Scott, Kaiser No. 1 NW SE sec. 7-18-27 is changing cable at 1,550 feet. The Brainard No. 5 of the Finley, Woods and Brainard, NW SW sec. 5-18-27, is underreaming at 1,110 feet and the Stato No. 7 of Leonard and Levers SW SE sec. 19-17-30, is drilling at 2,200 feet.

It is understood that two new oil wells have been started in the town of Hobbs, although the locations have not been officially announced. The two wells are to be drilled by the Continental Oil Co., and the Stanolind. At least two other locations are expected to be announced for the Artesia area next week.

## SPEAKS AT HOPE

H. C. Morehead, republican candidate for county superintendent addressed a large crowd of voters at Hope, Friday evening in the interest of his candidacy.

## OFFICE BUILDING IS TO BE CONVERTED INTO LEGION HUT

Purchase of the office building formerly occupied by the Roberts-Oliver Lumber Co., at Third and Quay street by the Clarence Kepple Post, American Legion was announced recently. Members of the post have been doing some remodeling on the interior of the building, which is scheduled for an extensive renovating. The partition in the building has been removed and plans have been made to add a new roof and to stucco the structure. The grounds surrounding the Legion hut will also be beautified as the improvement program is carried forward.

When ready for occupancy the hut will serve as headquarters for all the activities of the local post.

## CARLSBAD WINNERS

Miss Lauria Marjorie Snow and Lowell V. Price, both of Carlsbad were winners in the Eddy-Lea county district Atwater-Kent audition held at Roswell at 3:00 p. m. Monday.

The district contest was a part of the sixth annual audition leading to national winners through a series of district, state, section and national contests.

Mrs. A. Shearman returned to her home in Roswell yesterday after spending the week with her son, John Shearman and Mrs. Shearman and family.

## A TRAIT THAT STICKS

There is a childish trait in many people that is rarely observed except under adverse circumstances or under stress. This is a tendency to blame our misfortunes on some other person or possibly on some unseen thing. Even the road hog will blame the other fellow in case of an auto accident. Instances are rare where an auto accident occurs and both drivers agree to share the blame equally. It is much easier to blame the other fellow, because it saves one's conscience to cogitate over some sort of a mishap until the individual actually leads himself to believe that the other fellow or the other thing is wholly responsible for his own misfortune.

Welfare workers tell us that a number of individuals who have applied for aid in the past are largely to blame for the plight in which they find themselves. There is a class of people who even in good times, live from day to day and in case of unexpected misfortune they must call on charity for assistance. Quite naturally the position of the unfortunate is magnified when the number of unemployed are taken into consideration.

There are several factors to be taken into consideration when a people endeavor to improve their position, but after all the principal source of aid must come from individual initiative.

## A STEP TOWARD PROSPERITY

In a recent address, John Hays Hammond urged the rehabilitation of silver as a step toward the restoration of prosperity.

He pointed out that one of the major causes of world depression has been the appreciation of gold in gold-standard countries, and the depreciation of silver in silver-standard countries. The drop of silver from 60 to 30 cents an ounce has reduced by half the wealth and purchasing power of millions of people. Silver has long been the poor man's gold—and in what Mr. Hammond calls the "backward" countries, silver alone is accepted as a medium of exchange.

There is not gold enough to keep the commerce of the world in motion. In addition, the supply of gold from the Rand, which has supplied half the world's needs for three decades, is expected to decline materially. No potentially important gold fields are known to exist. A practical solution is rehabilitation of silver so that it may take its old place in the machinery of finance and commerce.

## THE FLOWER SHOW

The second annual flower show has passed into history. Aside from personal pride on the part of the grower, a building full of flowers like about 1,500 visitors saw Saturday should have an elevating influence on the citizenship. We can't eat flowers and we can't wear them, but such a display as was seen Saturday should certainly help to cultivate the finer side of human nature.

Much credit is due the committee composed of Mmes. J. M. Story, S. E. Ferree, and C. R. Blocker and Pete Loving for their time and attention.

We are not having any better luck trying to figure out why the cotton market does not advance than the politicians, who are attempting to show the relation between tariff and prosperity. A number of democrats believe that the monied interests of the republican party have given up efforts to bolster the markets because they see no hope for victory. And on the other hand the republicans point out that the results of the Maine election did not please the financial powers that be, and these powers are giving the people a foretaste of what it will be like under the democratic administration.

Those who think the end of progress has been reached would do well to recollect the words of the late Charles Steinmetz, greatest of inventors.

"We call this the electrical age, but it isn't. The electrical age has hardly begun. In that age electricity . . . will do a multitude of things of which we have never dreamed. For the electrical age is yet to come. And it will be a great age."

One of the principal differences between a statesman and a politician is that the statesman does not keep an ear to the ground to ascertain the wants of his constituency, but is big enough to do what he thinks is right regardless, while the politician never does anything except what the folks back home want. One is a leader, the other a follower.

The public will never be made to believe that an appointment of a relative is made on the grounds of merit alone, uninfluenced by family views; nor can they ever see with approbation offices the disposal of which they intrust for public purposes divided out as family property.—Thomas Jefferson.

Damage to the state highway system by wash outs is given as the reason for the delay in getting on the road improvements to the Methodist assembly west of Weed. It ought to be possible to get a road crew underway on this work before election day anyway.

If Mussolini were dictator of the United States, all of these pictures of slim, beautiful women in the newspapers would be censored. Slim women and a high birth rate don't click and that's what the Mussolini wants in Italy.

The big question in Kansas is whether Doc Brinkley, the goat gland specialist and candidate for governor, will be able to reinvigorate the state government in the event of his election.

There are 176,000,000 acres of land open to homesteading in the United States and the government will still bet you sixteen months of your time that you can't live on a homestead.

Pop Zern over in Quay county, this state, is running for president on the secular ticket, if you know what that means.

## PICKED UP ON MAIN

According to one candidate a sound mind and good teeth are not necessary to holding office. What a candidate must learn to do is to develop a good suction.

Keep cool with Cal Coolidge," might be a good slogan for those who don't have much prospects for fuel this winter.

Salmon, you know, run every four years and then get canned, and if things were different this year it might be funny to call 'em dimmycrats.—Exchange.

"Unless you pay up soon," the blaskmailier wrote, "the gang will be instructed to kidnap your wife." "I have no money," came the reply, "but I am interested in your proposition."

Lady visitor—And what brought you here, my good man?

Convict—Well, madam, my father said when I was a boy that he hoped I would marry beauty and brains, and I wanted to please him.

Visitor—Yes?

Convict—So I'm in jail for bigamy.—Humorist.

## MARY GOT A 4

Science is material. Religion is immaterial.

All brutes are imperfect animals. Man alone is a perfect beast.

A man has x miles to travel. He goes (a) miles by train (b) miles by boat, and (c) miles he walks. The rest he cycles. How far does he cycle? d, e, f, g, h, i, j, k, l, m, n, o, p, q, r, s, t, u, v, w miles.

Save the evenings of October 21 and 28. These are the dates that Fred Cole will address the democrats at the Oil Field and at Cottonwood. If you've never heard a speaker reach and dwell

## Smilin' Charlie Says

"Al Owens says he had t' quit workin' at home evenings 'cause it wuz too tiresome f'r his wife t' keep quiet that long ---"

## TWELVE FEDERAL HOME LOAN BANKS OPENED SATURDAY

WASHINGTON, D. C.—The federal home loan board opened its twelve regional banks for business Saturday with an announcement that "foreclosure of sound home mortgages should ease."

"With an initial capitalization of \$134,000,000," the board said, "the twelve banks spread over the entire country will tap a reservoir of more than \$1,500,000,000 of potential home financing credit."

The board added that operations of the new system were "designed to liquify millions of dollars of frozen home mortgages and bring relief to the harassed home owner."

## PAYING OUT GAS TAX REFUNDS NOW

SANTA FE—During the first thirteen days of this month, the gasoline tax collection department has paid out \$15,382 in gasoline tax refunds, Mrs. Adolph P. Hill state gasoline tax collector, said.

The department paid out a total of \$44,965.72 in refunds during the month of September. The refunds from the five-cent gasoline tax are made to those persons purchasing gasoline for use other than to propel vehicles on the state's highways.

## COLLEGE HERD SETS NEW HIGH RECORD

The herd of purebred Jerseys owned by the New Mexico College of Agriculture and Mechanic Arts has lately completed its fourth consecutive year of production testing under the herd improvement registry of the American Jersey Cattle club.

The record for this fourth year of testing shows an average of 464.69 pounds of butterfat and 8,533 pounds of milk per cow for the herd. The herd averaged six cows while making this record, which is the highest completed to date by a New Mexico Jersey herd in the herd improvement registry.

The highest previous record for New Mexico is 348.60 pounds of butterfat per cow made by the New Mexico College of Agriculture and Mechanic Arts herd in the herd improvement registry for an average of six cows. This record was completed in 1929.

A herd average of about 400 pounds of butterfat per cow per year is universally recognized by dairymen as being exceptional and for a number of years the National Dairy Association has awarded special certificates to owners whose herds reach an average yield of 300 pounds of butterfat per cow.

## GAME WARDEN SAYS READY PLANT TROUT

SANTA FE — Elliott Barker, state game warden, said Monday that 175,000 rainbow trout at the new Parkview hatchery in Rio Arriba county will be ready for planting in streams of the state within the next thirty days.

The trout, he said, will range in length from three and a half to five inches. Some 300,000 trout will be left at the hatchery for planting in the spring.

## SIMPLE GERMAN REMEDY FOR STOMACH TROUBLE

The simple German remedy, Adlerika, reaches the UPPER bowel, washing out poisons which cause stomach trouble. One dose stops gas bloating. Palace Drug Store. —Adv.

## Price and Value!

"My telephone and the help of the operator in getting a doctor, saved the life of my wife. She had influenza and suffered a relapse. The doctor stated that if I had been unable to reach him so quickly, he could not have saved her."

So wrote one of our subscribers. A telephone costs but a few cents a day, yet the value of one such call may be priceless.

The Mountain States Telephone & Telegraph Co.

## HELD FOR ROBBERY OF COLORADO BANK

Armed guards Monday held Joseph W. O'Byrne, 27, a prisoner in an Albuquerque hotel room following his arrest on charges of robbing the Guaranty State Bank of Walsenburg, Colorado of between \$4,000 and \$6,000 October 5th.

Officials said part of the loot had been recovered and they were searching for additional money in Albuquerque banks.

O'Byrne, son of a Walsenburg businessman, has confessed the robbery, R. L. Laird of the Walter Byron Detective Agency of Denver said.

The detective said O'Byrne came to Albuquerque ten days ago with the money taken in the bank robbery, intending to start in business there. He already had purchased equipment to open an advertising office, Laird said.

## QUALIFIED

By Character and Competence

After all, a bank is merely another factor in the scheme and theme of human relationships. A bank's ability to serve a community, a business or an individual is measured by the same elements as any other service-rendering factor . . . experience, integrity, efficiency, character.

A bank has no merchandise to show. It must stand on its record and the successful issues of the service it has rendered to its clientele; on the confidence and good will it has created. This bank offers a record replete with just such service.

Why Is It?

AN OVER SUPPLY OF DEER REPORTED IN THE LINCOLN FOREST

Sportsmen who have visited the Lincoln National Forest said they predicted state game officials will permit a second open season after the first one this month. The sportsmen estimated there are 13,000 deer and 2,250 turkeys in the forest. Their estimates were based on figures supplied by the forest officers in the field. The deer are very plentiful in the entire Alamo canyon watershed and the sportsmen have suggested the second open season as a means of relieving the overstocked condition. The regular season this year is from October 25 to November 10. During the season last year, which was shorter, there were 2,100 hunters in the field and 1,300 deer and 500 turkeys were killed. Wild game has increased despite heavy losses through predatory animals, forest reports indicated. During 1931 it was estimated 1,100 deer were killed by predatory animals and 700 turkeys. The reports indicated there are 2,000 predatory coyotes in the forest; 1,400 bobcats and 100 eagles. A game warden employed full time has been stationed in the Sacramento mountains as a protection for the wild life, particularly turkeys.

CONFESSES PLOT

This is Kenneth Watson, a guard in the prison at Jackson, Mich., who with Archie C. French, another guard, confessed to one of the most fantastic stories of intrigue ever to come out of an American prison. Watson and French have signed confessions that they plotted with Edward Hall and James Cross, two long-term convicts, to dynamite the prison in order that the two prisoners might escape. The guards said that the prisoners would then rob a "bank in a small Missouri town" and turn the proceeds over to the two guards as reward for their action. Hall and Cross also admitted the plot.

ROTARY CLUB CELEBRATES ITS NINTH ANNIVERSARY

The Artesia Rotary club celebrated its ninth anniversary with an appropriate program Tuesday noon. Practically all the charter members were in attendance as well as several visitors. In the center of the long table was a huge birthday cake with nine candles, bearing the wording "23-32" No. 15531. C. Bert Smith, the first president of the Artesia Rotary club presided and cut the cake. A number of amusing incidents were related by Mr. Smith, in reviewing briefly the past history of the club. C. W. Bartlett now of Carlsbad, a charter member of the club, also grew reminiscent and related a few of the humorous incidents in the early club history. The charter members gave an interpretation of the little ditty: "The Prairie Flower," which proved so popular in the early days. Each charter member was asked to stand. C. Bert Smith, the presiding officer called attention to the fact that all of the original

club membership was still living. Original members present at the meeting were: C. Bert Smith, L. P. Evans, J. E. Robertson, Dr. C. Russell, Martin Yates, Jr., E. B. Bullock, W. C. Martin, C. W. Bartlett, E. N. Bigler and C. E. Mann. Club visitors included, Dr. O. E. Puckett and J. R. Ogden of Carlsbad.

For lazy liver, stomach and kidneys, biliousness, indigestion, constipation, headache, colds and fever. 10¢ and 35¢ at dealers.

Styles Change In Car Repairing

Complete overhauls are back in favor. In more prosperous years the number of jobs were greater, but the price on each job was smaller due to the fact that car owners were trading in their cars when an overhaul was needed. This year has seen a return of complete overhauls. Have your car overhauled and painted for one-tenth of the original cost.

The Three Great MILESTONES

in man's progress are; the invention of the wheel, the art of making fire and the invention of the alphabet. It has often been said that the history of the wheel is the history of civilization.

Although the wheel must have been invented at the very dawn of civilization, even within the past fifty years many executives of electric light companies ridiculed the idea of electric power turning the wheels of transportation.

In 1887 Mr. Frank J. Sprague built the first electric street car line in the United States—The Richmond, Va., Passenger Railway. It was successful and marks a major epoch in the history of transportation. Almost immediately the electrification of street railways spread like a disease over the whole country.

Today electric power is the prime mover for practically all urban and interurban rail transportation.

SIXTY DISASTERS IN 1932 ADD TO RELIEF PROBLEMS

Red Cross Spends \$2,760,000 to Help Victims of Catastrophes.

In a year of great misfortune caused by economic depression, in which the American Red Cross assumed heavy burdens of relief for the unemployed, the organization also responded to emergency needs in 60 disasters in the United States and its insular possessions. During the twelve months ending June 30, 1932, the Red Cross gave aid to 75,000 families totalling 338,000 individuals, with expenditures of \$2,760,786. These people were in distress because of drought, flood, forest fire, tornado, snowstorm, mine explosion or other similar great disaster. Prolonged drought caused the Red Cross to go with help to 58,000 families in the northwest. Here in 144 counties in North and South Dakota, Montana, Nebraska, Washington and Iowa the Red Cross spent \$1,980,000 from its own treasury to feed and protect people through the winter and spring. Other grave disasters were floods in southeastern states, where the organization spent \$192,000 from its treasury and \$66,000 local contributions to help 13,000 persons. More than 50,000 people were homeless from floods in tributaries of the Mississippi river and again the Red Cross faced a long relief task, aiding these people. The national organization gave \$108,000 and local contributions were \$10,000. The Red Cross always maintains a state of readiness to meet these sudden emergencies and funds and other essentials to this work are supplied. In part, by the annual roll call, held each year from Armistice Day to Thanksgiving Day. Every citizen can support this worthy activity through joining as a member in the local Red Cross chapter.

LOCALS

Mr. and Mrs. R. D. Compton were in Roswell Saturday.

E. A. Paton returned Saturday from a trip to Texas points.

Miss Mary McCaw spent Sunday in Carlsbad, guest of Mrs. Ellis Hall.

Leon Clayton left Monday for Albuquerque where he has secured employment.

Mr. and Mrs. Herman Gray and little daughter, left Monday for their old home in Stephenville, Texas.

HOW A WOMAN LOST 20 POUNDS OF FAT

Lost Her Prominent Hips — Double Chin — Sluggishness.

Gained Physical Vigor — A Shapely Figure.

If you're fat—first remove the cause! Take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning—in 3 weeks get on the scales and note how many pounds of fat have vanished. Notice also that you have gained in energy—your skin is clearer—you feel younger in body—Kruschen will give any fat person a joyous surprise. But be sure it's Kruschen—your health comes first—and SAFETY first is the Kruschen promise. Get a bottle of Kruschen from any leading druggist anywhere in America (lasts 4 weeks) and the cost is but little. If this first bottle doesn't convince you this is the easiest, SAFEST and surest way to lose fat—your money gladly returned.

### MEETING INDEPENDENT PETROLEUM ASS'N SOON

"Men of the oil industry must continue to work together and fight for the rights of the industry," said Wirt Franklin in announcing the call for the annual meeting of the Independent Petroleum Association of America, to be held at the Mayo Hotel, Tulsa, Oklahoma, on November 14. Mr. Franklin pointed out that "The American oil industry is now beginning to feel the effects of the slight relief received at the hands of the last congress. The present increase in the crude price only emphasizes the gradual improvement of the oil industry since the passage of this tax and the adherence to the various measures adopted by the industry. The stocks of thirty-seven oil companies listed by C. P. Pforzheimer and Company, in their weekly summary, had an average value on June 18, 1932, (the period just previous to the effective date of the import tax) of \$12.55. This value was gradually increased until, according to the same summary, on October 1, 1932, the value was \$16.03. This represents an average increase of \$3.48 per share or an increase of 27.7 per cent in the value of these stocks. "For a period of five years we have been bringing into the U. S. market from foreign countries an average of 254,000 barrels of petroleum a day. The effect of the tax is evidenced by the fact that during the fourteen weeks since this tax was effective we have only brought in an average of 93,000 barrels a day. This has given the American producer an increased market of some 160,000 barrels a day. "During this period of time the oil industry has been able to furnish millions of dollars in taxes to relieve the serious embarrassment the federal government found in its budget."

### HOPE ITEMS

Misses Bertha and Velma Richards were guests at the Medcalf home Sunday.

The Bunting brothers are covering their building in Hope with a new tin roof.

Mrs. Billy Ballard returned the last of the week from a week's visit in El Paso with friends.

### Odd—but TRUE

## AN EDITOR DISLIKES THE DEPRESSION

Most of our readers are familiar with the story "Why I Like the Depression," by a Panhandle resident. There is an editor, Guy Comfort of the Perry, New York Herald, who says "I Don't Like the Depression," and writes as follows in the Publisher's Auxiliary:

### I DON' LIKE THE DEPRESSION

I don't like the lost homes, the long lists of unpaid taxes published in the newspapers; the cutting and slashing of salaries; and the doleful look on scores of faces.

I don't like five cent beans because I know the man who grew 'em will not get over a dollar a hundred for 'em. He can't live on prices like that and neither can he buy the stuff I have to sell, or from the store next door.

I don't like the depression because it is unnatural. Everyone is on edge, friendships are sacrificed and we pinch and squeeze and get nowhere. No one dares blossom forth with a new necktie, a cotton gown or a new auto because folks think we should economize. Because we buy no new autos we know that one man is knocked out of work for nine months and he must become a public charge.

I don't like the depression, because no one is happy. Even my wife, who smiles in prosperous times, cannot get a kick out of dull ones. She gets less new clothes than she should and so the ready-to-wear and the dry goods stores are unhappy, too. Moreover the merchantman cuts down his advertising and both he and I have less money to spend.

I don't like the depression because the whole world seems out of tune, and songs without harmony never please the ear. They are neither jazzy, tuneful nor classical. They croon along and then some wisecracker screeches "prosperity is just around the corner."

I don't like the depression because I know greed, avarice and the cardinal sins of mankind brought it on—not overproduction, plenty and righteousness. Want, distress and sorrow always follow in the wake of war and Sherman and millions of others know that "war is hell." Hence a depression is a child of Satan.

I don't like the depression because values change. Money may buy more if you can get the money. It has more purchasing power but strangely enough it will not buy satisfaction nor happiness. Unless money can buy satisfaction, it has little value, hence I would rather pay 10 cents a can for beans and 10 cents a quart for milk and know that I am not living on some farmer's losses, than to eat the farmers' products at half the price.

I don't like the depression because it makes leaky roofs, the plaster comes off the ceilings and the wall paper falls to the floor. It begets carelessness and laziness waxes lazier on it. It makes everything look doleful and anything that has a hole in it, makes folks dependent. When they become dependent fewer folks become independent and no one profits. In fact everybody loses.

I don't like the depression because it upsets the civic stomach. You give 'em facts about tax relief and it nauseates. You mention the H. C. L. of a few years ago and no one knows what it means. You go to the post office for your letter expecting a dividend check in it and you get a slip saying "our cash reserves are being conserved for the good of our stockholders." And then you wonder what a stockholder is. You get red ink where you expect black and the banks tell you it's time to pay something on your note. You borrow in prosperity and try to pay in adversity—and not sweet are the ways of adversity.

No, I don't like the depression and neither do you, so the more you hate it and the more I hate

## A FEW CHOSEN ERRORS

A certain percentage of the gray hairs that sprout each day on the editorial cranium are, no doubt, caused by the errors that slink past the editor and pop up in all their ugliness in the week's edition.

### Here are a few:

"He is described as having brown hair, turning gray, and all his supper teeth are missing."

"Doctor Jones, formerly of Memphis, has completed a revival at the first church here, during which tight members were received."

"A young woman wants washing or daily cleaning."

"Green colored girl wants work until after Christmas."

"While trimming a cottonwood tree Monday, Bill Smith suffered a severe blow on the head, when a large branch turned and struck him."

"Harry Taylor, school principal here, has a stone apple-jar that has been in the family 109 years. Next year it will be one hundred and ten years old."

"Young lady—Eighteen years old as beginner in respectable office or otherwise.—Michigan Bulletin.

OVER 100 ENTER SCHOOL FOR BLIND

More than 100 children were enrolled last Thursday in the New Mexico school for the blind at Alamogordo.

## SANTA FE WINS GAS TAX SUIT

SANTA FE—The city of Santa Fe Friday won its legal battle to levy a one-cent municipal gasoline tax when the state supreme court upheld the city in two suits brought against it by the Continental Oil Company.

One suit in which the city was the appellant involved the right of the city to levy the tax, and the other suit in which the oil company was the appellant involved the right of the city to change its ordinance.

## LEGAL ADVERTISEMENTS

STATE OF NEW MEXICO  
Office of Secretary of State  
Santa Fe, New Mexico

Enmienda Constitucional propuesta para ser sometida a la Eleccion General el dia ocho de Noviembre 1932, persiguiendo las provisiones de la Resolucion Conjunta No. 8, Aprobada el dia 18 de Marzo 1931 autorizando el Canje de Tierras del Estado en la Floresta Nacional por Tierras de los Estados Unidos de igual valor segun esta dispuesto por el acta del Congreso aprobada el 15 de Junio de 1926, y la propuesta Enmienda Constitucional No. 2 aprobada el dia 18 de Marzo 1931 para enmendar la seccion Diez y Nueve del Artículo Cuatro de la Constitucion del Estado de Nuevo Mexico, y fijar el tiempo para efectuarse la eleccion sobre la misma.

Aprobada Marzo 18, 1931.

MRS. M. P. BACA,  
Secretaria de Estado.

## ENMIENDA CONSTITUCIONAL NUM. 1

Una resolucion conjunta proponiendo una enmienda a la constitucion de Nuevo Mexico autorizando el canje de Tierras del Estado en la Floresta Nacional por Tierras de los Estados Unidos de igual valor segun esta dispuesto por el acta del Congreso aprobada el 15 de Junio de 1926.

Aprobada Marzo 18, 1931.

## RESUELVASE POR LA LEGISLATURA DEL ESTADO DE NUEVO MEXICO:

POR CUANTO, el Estado de Nuevo Mexico es el dueño de ciertas areas de tierra dentro de la Floresta Nacional en dicho Estado, y dichas tierras estan repartidas en distintos lugares de la Floresta en pequenas porciones y no estan situadas para permitir que el Estado las administre para cortes de madera.

POR CUANTO, que hay grandes areas de tierra dentro del Estado pertenecientes a los Estados Unidos.

POR CUANTO, un canje por el Estado de sus bosques por una area grande de terreno pastoral de igual valor aseguraria al Estado parte del restante dominio publico federal para arrendamientos o ventas a personas particulares y se aumentaria la propiedad sujeta a contribucion en el Estado.

AHORA, POR LO TANTO, la siguiente enmienda a la Constitucion del Estado de Nuevo Mexico queda propuesta por el presente al Artículo Vigésimo Primo agregandole la siguiente seccion la cual se debera numerar Seccion 11 del mismo:

Seccion 11. El Estado y su pueblo consisten a las disposiciones del acta del Congreso, aprobada el 15 de Junio de 1926, disponiendo tales canjes y el gobernador y otros oficiales del estado ya mencionados en dicha acta quedan por la presente autorizados para ejecutar el instrumento o instrumentos necesarios para efectuar los canjes de tierras señalados en el mismo con el gobierno de los Estados Unidos; siempre que en las determinaciones de valores de las tierras actualmente pertenecientes al Estado de Nuevo Mexico, el valor de las tierras, la madera sobre las mismas, y los derechos minerales en la mismas controlaran la determinacion del valor. La legislatura podra decretar leyes para el cumplimiento de las disposi-

ciones de la misma de acuerdo con la presente.

## ENMIENDA CONSTITUCIONAL NUM. 2.

Una Resolucion conjunta propuesta para enmendar la Seccion Diez y Nueve del Artículo Cuatro de la Constitucion del Estado de Nuevo Mexico; y fijar el tiempo para efectuarse la eleccion sobre la misma.

Aprobada Marzo 18, 1931.

## DECRETESE POR LA LEGISLATURA DEL ESTADO DE NUEVO MEXICO:

Section 1. Que por la presente queda propuesta la enmienda diez y nueve del Artículo Cuatro de la Constitucion del Estado de Nuevo Mexico, dicho articulo Siendo titulado, "Departamento Legislativo," para leerse como sigue:

"Sec. 19. Ningun proyecto sera presentado en ninguna sesion de la Legislatura subsiguiente al cuadragésimo quinto dia legislativo, excepto el proyecto de apropiacion general, proyectos que prevengan para gastos corriente del gobierno, y tales proyectos que fueren referidos a la Legislatura por el Gobernador mediante mensaje especial especificamente manifestando la urgencia y necesidad para requerirse tal legislacion."

Sec. 2. En caso de que se apruebe y se adopte la dicha enmienda sera sometida al pueblo en la Eleccion General en Noviembre de 1932; advirtiendose, sin embargo, que en caso de que se efectue alguna eleccion especial antes de 1932 la misma sera sometida al pueblo en tal eleccion.

40-4c.

## NOTICE OF SUIT

Notice is hereby given that a cause of action is now pending in the District Court in and for Eddy County, New Mexico, being No. 5439, wherein Florence Margaret Murphy is plaintiff and Anas Edward Murphy is defendant and the general objects of the action is to obtain an absolute divorce. That the name of the

plaintiff's attorney is S. E. Ferree whose post office address is Artesia, New Mexico, and said defendant is hereby notified that unless he enters his appearance in said cause on or before November 21, 1932, judgment will be rendered against him by default.

Witness the hand and seal of said court this 28th day of September, 1932.

# Who Spends Your Money

New Mexico citizens are hearing campaign arguments about economy in government of them are fully conversant with the actual facts concerning state expenditures. The Democratic party presents herewith the record of disbursements of the PEOPLE'S money—money—made by the Republican Administration of Governor R. C. Dillon, and the Democratic Administration of Governor Arthur Seligman. The people of New Mexico can draw the conclusions as to who is SPENDING their money and who is SAVING it.

Here are the official records of the State Auditor:

<b>1930</b>	In the 18th fiscal year ending June 30, 1930, the Dillon Republican Administration made the appropriations and dictated the fiscal policies, which resulted in the expenditure of.....	<b>\$15,820,94</b>
<b>1931</b>	In the 19th fiscal year, ending June 30, 1931, the Dillon Republican Administration again controlled the appropriations and fiscal policies. The Democratic Administration, which took office January 1, 1931, had no control over the expenditures, which totaled.....	<b>\$16,691,43</b>
<b>1932</b>	In the 20th fiscal year, ending June 30, 1932, the Seligman Democratic Administration, in full control of appropriations and fiscal policies, cut the total expenditures to.....	<b>\$13,326,41</b>

The expenditures for the fiscal year ending June 30, 1933, by the Seligman Democratic Administration will be no greater than those of 1932. The net result of the Democratic Administration's economy is

CONFESSIONS OF A KYANIZER

After our visit to the Joneses, when they bragged about the "hand-rubbed finishes" on their woodwork, I got several cans of Kyanize Celoid Finish and painted our walls and woodwork. The night I finished, the wife was at a bridge party. When she came back she didn't say anything for a while—just looked around. I could tell she was pleased, though. And I knew she was more than pleased when she said: "Now we can invite the Joneses!"

### HUNDRED ATTEND THE G. OF C. LUNCHEON

Approximately 100 members and guests attended the monthly luncheon of the Artesia Chamber of Commerce yesterday noon and heard the monthly report of Fred Brainard, manager and the annual resume of the activities of the organization discussed by Mark Corbin, president. Ex-Governor Dillon and a party of republican speakers were guests of the Artesia hotel management. Several other out of town visitors were present from Carlsbad, Roswell and Hobbs.

The monthly report of Mr. Brainard was brief. He touched on the annual flower show, stating that it was attracting increasing attention each year and that the dahlias grown here had affiliated with the national dahlia show. Mr. Brainard also told of the efforts to secure an agricultural loan bank for the state, but said up to date a bank had not been located in the state and that this section had been placed in the Wichita, Kansas district. In mentioning the federal crop loan, the speaker stated that Eddy county was leading the state in the repayment of the loans and that this region was leading the United States. The Chamber of Commerce directors endorsed the amendment No. 1 to the state constitution and the proposed amendment was explained.

The welfare board co-operating with the Chamber of Commerce had requested Artesia's quota of ready made clothing for the needy from the Red Cross. The Artesia junior baseball club was discussed by Mr. Brainard, who explained the workings of the league.

Col. Woods announced that he had received a telegram from Owen D. Sherrell of Dallas, regional director of the federal crop loan stating that the organization would continue to function and would possibly be expanded.

Mark Corbin, president took occasion to introduce the visitors and guests before giving his resume of the year's work of the Chamber of Commerce. Mr. Corbin stated that the Chamber of Commerce and the welfare board had handled about \$2000 in funds during the past year. In addition the welfare board had distributed to the needy 1,100 sacks of Red Cross flour, 750 cans of meats and vegetables, 1,000 pounds of beans, 300 pounds of dried fruits, and much old and used clothing. In all Mr. Corbin said that approximately 6,000 people had been aided in the past year.

The remainder of Mr. Corbin's address was devoted to the establishment of the Sacramento Methodist Assembly and the improvements on highway 83.

### Flower Show—

(Continued from first page)

Will Robinson of Carlsbad with the Current-Argus and W. A. Wunsch, county agent acted as judges and awarded prizes in the respective divisions as follows:

- DAHLIAS**
- Class 1—Decorative, 3 blooms, Terpening's greenhouse, first and City Park, second.
- Class 2—Cactus, 3 blooms, Mrs. C. R. Blocker, first, Mrs. R. W. Dunn, second.
- Class 3—Semi-cactus, 3 blooms, Mrs. C. R. Blocker, first, Mrs. John Shearman, second.
- Class 4—Peony, 3 blooms, Mrs. Lewis Story, first, no second.
- Class 5—Seedling, 3 blooms, Mrs. R. D. Compton, first and second.
- Class 6—Pompom, 10 blooms, P. L. Loving, first, Terpening's greenhouse, second.
- Class 7—Best basket (arranged for effect), one or more varieties, Terpening's greenhouse, first, Mrs. John Shearman, second.
- Class 8—Best basket pompoms, (arranged for effect) Mrs. John Shearman, first, no second.
- Class 9—Best vase (arranged for effect) City Park, first, Mrs. Owen Campbell, second.
- Class 10—Best basket, (six or more varieties) L. B. Feather, first, Terpening's greenhouse, second.
- Class 11—Most perfect and high score dahlia, Pete L. Loving, first and sweepstake award.

### Explosion for Safety Delegates

Delegates to the national safety conference at Washington were treated to some thrills when scientists of the Department of Agriculture, who are studying dust explosions, staged some spectacular demonstrations in their model laboratory at the Arlington farm station. The photograph shows a striking view as one of the explosions shattered doors and windows of the model testing chamber.

Classes 12 and 13—No entries. Class 14—Sweepstake (for greatest number of points) Terpening's greenhouse.

Class 25—Show dahlia, 3 blooms, City Park, first, Mrs. Owen Campbell, second.

### ROSES

Class 15—Best perfect tea, one bloom, Mrs. A. D. McLean, first, Mrs. Tom Hefflin, second

Class 16—Best vase, 3 blooms, (tea), Mrs. Ed Conner, first, Mrs. A. D. McLean, second.

Class 17—Best perfect (out door American beauty) one bloom, Mrs. Trotter, first, Mrs. John Rowland, Hope, second.

Class 18—Best vase, 3 blooms, American beauty, Mrs. John Shearman, first, Mrs. S. W. Gilbert, second.

Class 19—Best artistic vase (different varieties) Mrs. N. M. Baird, first, Mrs. Trotter, second.

### MISCELLANEOUS

Class 20—Best bouquet zennias, Mrs. John Shearman, first, Mrs. Lewis Story, second.

Class 21—Gladioli, no entry.

Class 22—Best bouquet chrysanthemums, Gus Hoagland, first, Mrs. John Shearman, second.

Class 23—Best old fashioned bouquet, E. L. Brewer, Hope, first, Mrs. John Shearman, second.

Class 24—Best general display or booth, Terpening's greenhouse. A most unique display of the show enjoyed by the early visitors was a miniature lily pond, arranged by Mrs. S. S. Ward and Miss Violet Robertson.

### RURAL

Mrs. Owen Campbell was the only entry from the rural district and received first and second in all her entries for the following class 1, 2, 3, 9, 11, 22, 23.

The little city of Hope had a special display and was given a reserved section in the show room. The following exhibitors received awards:

Class 22, best bouquet chrysanthemums, Mrs. Jim Banta, first, Mrs. J. W. Rowland, second.

Class 20—Best bouquet zennias, Mrs. J. W. Rowland, first, no second.

Class 19—Best basket or vase roses, Mrs. Oscar Moore, first no second.

Class 7—Best basket dahlias, one or more varieties, Mrs. J. W. Rowland, first, no second.

Class 3—Semi-cactus, 3 blooms, Mrs. E. L. Brewer, first, no second.

Prizes were also announced in the yard and garden contest. In the home owned division there were thirty entries. Contestants in this division were graded for the best kept premises and also for the most improvement made around the premises. Mrs. Tom Hefflin and Mrs. Sam Williams tied for first place with a grade of 90 each. The second place in this event was a tie between Mrs. S. S. Ward, Mrs. John McCann, Mrs. Lewis Story and F. C. Knowles with a grade of 85. Contestants grading 80 or more were given honorable mention and these were: Mrs. Harold Dunn, Mrs. F. G. Hartell, Miss Violet Robertson, A. C. Crozier and Preston Dunn.

In the rented home division, first prize for the best kept premises went to E. L. Harp and second prize to Mrs. Everett Patton.

Among the visitors from Carlsbad at the flower show were: Mmes. W. F. Glazier, L. E. Foster, C. C. Lewis, T. E. Williams, R. M. Thorne, Bertha Bandy, E. T. Carter, Howard Prater, R. M. Holt, W. F. McIlvain, C. D. Rickman, Mr. and Mrs. R. L. Halley, and Misses Virginia Bandy, Mary Elizabeth Murray, Agnes Thorne, June Carter, and Mary Belle Rickman and Frank Dauron.

### STOCKMEN MAY NOW GET FEDERAL LOANS

Federal loans for stockmen of southeastern New Mexico will be available immediately, B. C. Culp, director of the Agricultural Credit corporation for four states, announced at Roswell Tuesday, says the Roswell Dispatch.

A regional office will be established in Roswell for the convenience of stockmen of this section of the state and in order that the applications and loans may be facilitated, Mr. Culp announced.

Applications for loans are to be filed in the local office on blanks prescribed for the purpose. Following the application inspection of the stock will be made by inspectors designated for the purpose, it was said and the applications and reports of the inspector in charge will then be forwarded to the Wichita, Kansas office, for final examination.

The local office is only a temporary setup, Mr. Culp explained and is for the purpose of avoiding delay in the filing of applications and the consummation of loans. Under the system worked out at Roswell, the inspection will immediately follow the filing of applications in the Roswell office, otherwise the application would have to go to Wichita, then come back to Roswell for the inspection.

Another branch office for the state of New Mexico has been located in Albuquerque to handle the loans originating in the northern, central and western portions of New Mexico. The Albuquerque office was established Monday and is already functioning.

"This is federal money being loaned direct from the United States to the stockman," Mr. Culp explained Tuesday. "A total of \$3,000,000 is available for loans in the four states. When this sum is exhausted, if it is, additional loans may be made by rediscounts through the Federal Reserve bank," Mr. Culp announced.

Loans will be made for a period of one year on range stock and federal loans will be made for six or eight months, or for the duration of the feeding period, it was announced. All of the loans made will bear 7 per cent interest which will represent the total cost of the loan to the stockman.

The Agricultural Credit Corporation is a part of the Reconstruction Finance Corporation's program to assist in any way possible the stockmen of the southwest. The offices in Albuquerque and Roswell being only temporary structures to accommodate stockmen and facilitate the making of loans.

The money for the approved loans is now available and directors of the corporation for New Mexico, Colorado, Oklahoma and Kansas are anxious to clear the loans as rapidly as possible. With Mr. Culp in Roswell was T. E. Mitchell of Albert. Both men are directors of the Agricultural Credit Corporation of the states of Colorado, Kansas, Oklahoma and New Mexico, with headquarters for the district at Wichita, Kansas. Messrs. Mark A. Corbin, Fred Brainard, and Col. A. T. Woods were in Roswell Tuesday to meet with the directors and to try and arrange to speed up loans for stockmen and farmers.

### FACTS CONCERNING AMENDMENT NO. 1

In order to familiarize the voters with the contents of the state constitutional amendment, No. 1, which amendment proposes to permit the state to exchange timber lands for federal lands of equal value, we are submitting a few facts that may be of interest. It might be of interest to mention in this connection that the directors of the Artesia Chamber of Commerce at a recent meeting, voted to endorse the amendment.

The facts concerning the proposal are:  
The lands of the state of New Mexico in the existing national forests which might be exchanged with the United States for other lands of equal value are as follows:

1. Approximately 109,555 acres in the Lincoln National forest in Otero county of which 58,000 acres are timbered and are estimated to contain 247,000,000 feet of timber, largely merchantable. This is a correction of previous estimates.

2. An area of 14,207 acres of timberland in the eastern division of the Cibola forest on the easterly slopes of the Sandia Mountains in Torrance county containing close to 14,000,000 feet of timber.

3. 20,000 acres, largely cut-over, in the Zuni Mountains in the western division of the Cibola forest in Valencia and McKinley counties.

4. 72,550 acres on the Apache National forest in Catron county, estimated to carry 193 million feet of timber. This area, however, is remote from market and no income from the timber can be expected by the state in the near future except to exchange with the United States for grazing lands which can be leased and made to produce an income.

5. 12,000 acres at the head of Taos Creek adjacent to the Carson National forest, estimated to contain 36,000,000 feet of timber, at present unmerchantable. This is an area of outstanding watershed values, the condition of which calls for protection through regulation.

6. Approximately 62,000 acres of school sections owned by the state in areas added to the forest since statehood. These are individual sections in the Zuni Mountains, largely cut-over timberland, and in what is known as the Mesa Viejo and La Madera country adjoining the Carson forest.

7. Approximately 48,000 acres of scattered individual school sections owned by the United States for which the state has not exercised its right of lieu selection on an acre for acre basis and which, under the provisions of section 2 of the Act of Congress dated June 15, 1926 might be used as base for exchange on the basis of equal values. There are a few of these sections on each of the national forests, largely in the timber type and accordingly, carrying more value than can be secured through lieu selection on the acre for acre basis. These scattered sections are difficult of administration by the state and constitute more or less of an interference with administration of the surrounding national forest lands.

The money for the approved loans is now available and directors of the corporation for New Mexico, Colorado, Oklahoma and Kansas are anxious to clear the loans as rapidly as possible. With Mr. Culp in Roswell was T. E. Mitchell of Albert. Both men are directors of the Agricultural Credit Corporation of the states of Colorado, Kansas, Oklahoma and New Mexico, with headquarters for the district at Wichita, Kansas. Messrs. Mark A. Corbin, Fred Brainard, and Col. A. T. Woods were in Roswell Tuesday to meet with the directors and to try and arrange to speed up loans for stockmen and farmers.

### LOCALS

R. W. Dunn left Tuesday with his mother, Mrs. E. V. Dunn for Ft. Stockton, Texas. Mrs. Dunn has been spending the past month with her sons.

Mrs. George Brookshier and daughter, June Brookshier of Roswell, spent the week-end with Mr. and Mrs. Nevil Muncy.

Mr. and Mrs. Olin Linecum of Ft. Stockton, Texas were here from Friday until Sunday visiting Mr. Linecum's uncles, R. W. and Preston Dunn.

R. B. Ross, of Sweetwater, Texas, Mr. and Mrs. D. C. Ross, Mr. and Mrs. Sanders of Lubbock, Texas and Mrs. M. L. Humphreys of Jal, arrived this week to be at the bedside of Mrs. J. H. Stuart of Jal, who is critically ill here.

(Continued from first page)

discussion of the delinquent tax situation and promised to have a remedial tax law prepared for the consideration of the 1933 legislature, in the event of his election. Ex-Governor Dillon referred briefly to the gadget deal of the present administration, concluding his remarks on this subject by saying that if elected the ladies could use the tons of gadgets now at the capitol to frame pictures in and the ladies could either frame a picture of the elephant or donkey.

Ex-Governor Dillon repeated the pledge that he said he had made on several occasions which was to reduce state expenses, a minimum tax rate that would not fail the school children, maintenance of the state highways as far as possible, and pledged further that he would not follow the policy of the present administration in making appointments, but would co-operate with the state legislature and further that he would recommend the enactment of a statute that would relieve the tax payers.

**Seathes "Seligmanism"**  
Hugh Woodward, the last speaker bitterly denounced what he termed "Seligmanism," stating that the contest this year was not between parties, but between the two men running for the governor's office. The speaker charged that Seligman did not represent his party, but is seeking to build up a political machine. He charged that Seligman had broken his promises to the people and that he had defied the state constitution in making his appointments and further that the present governor called upon the various board and commission members to resign soon after he was elected. He also charged that Seligman had shielded alleged dishonesty in the investigation of the gage case, and that instead of divorcing the schools from politics Governor Seligman had endeavored to gain control of the various school boards. He also alleged suppression of the attorney general's report in the gage case and suppression of the audit of the state comptroller's office. Mr. Woodward further alleged that the Seligman administration prevented reapportionment of the state senatorial and representative districts in 1931, a reapportionment the democrats had asked for several years previous.

The speaker also alleged that the present administration had all state insurance policies cancelled out at short rates soon after going into office and that the state lost several thousand dollars in giving the state insurance business to Seligman supporters. Mr. Woodward told a story which he said was confirmed by Senator Oliver Lee in regard to two appropriations made by the 1931 legislature, one a \$7,000 item and the other a \$5,000 item, which were alleged to be money due the First National Bank of Santa Fe, on notes made by road contractors, who were unable to pay the bank of which Mr. Seligman is president.
