## THE CHANGING ORDER

It should not be very shocking to admit that the United States is becoming more socialistic each year. Whether those who believe in individual freedom will admit the complexion of the government is undergoing a vast change, we have only to look about us. The new deal threatens to plunge us further into socialism and whether we like it or not, the new deal was about the only string left to pull.

Commenting on the changing order the world over the Tucumcari News sees a combined parallel and contrast between Fascist Germany and Communist Russia. Seeking widely divergent goals, the two countries have adopted almost identical vehicles. Whether these two paths traveled by the two nations are the only available roads we do not know.

Must we all follow either Germany or Russia? Must an industrial society, in the nature of things, crush the last trace of individual freedom and choose between hard-boiled Communism and ruthless Fascism? Or is there, by good luck, a third road?

The answer depends on our own United States. We have started, among social changes that we have hardly begun to understand along a third road. We cling to the notion that it is possible to maintain an intricate industrial society without discarding the old deals of liberty and individual initiative.

Our "new deal," if it is to mean anything, must mean that we are now beginning a stupendous effort to prove that the notion is justified.

## ROAD TO BANKRUPTCY

The Los Angeles Times hit the tax nail on the head when it said: "Every cent of public expenditures means a cent less of private expenditures."

Every citizen knows that is true in the case of his private finances. If he pays government five hundred dollars a year, it means that a certain number of commodities and services which he would otherwise have purchased, have been unbought. It means that potential jobs have not been provided, and that the country has lost the stimulation to business which his money would have provided.

The best attainable government is that which does all necessary work at the least expense. It is the luxuries of government, not the necessities, which have inflated the tax bill, whether that government be federal, state, county or city. The endless addition of bureaus and expenditures to do for the people what a free and independent people should do for themselves, and the building up of an army of officeholders, are the acts that eventually bankrupt private citizens.

The only way to reduce taxes is to reduce government spending. Tax shifting from one class to another class is no remedy. The American people are looking to their elected officials—national and local—to relieve their thinning pocketbooks.

## THE PROPHETS

There are a few among us, who are going to be badly disappointed, if the community does not go to hell, financially speaking. If you can remember back far enough, you no doubt recall that among the many teams of horses one used to see, there were always the balky horses and animals that were always ready to fly back when the time came to make a strong pull together.

It must be a good deal of satisfaction to say "I told you so," but dura little credit to the individual, who utters it. The men who are responsible for the present progress of the community and nation, are strong and healthy and ready to stand a little criticism. They are healthy because they keep the pores of their skin open with good honest sweat from honest toil.

We never had any particular use for a weather prophet and we have less use for the individual prophet who is sure we are sliding straight for the "bow wows."

If farm commodities go too high, we shall have excess acreage in the principal crops which means another big surplus at the end of the year. The secretary of agriculture, who wields the big stick under the new farm bill, has discouraged speculation for this reason. If he can keep the farmers from trying to get rich on raising seven and eight cent cotton, we shall call him truly great and admit that the farm bill is one government project that is really a success.

According to one resident, the reason Artesia is small is because officers instead of disturbing too many innocent crap games. He says neighboring towns are a great deal more liberal in matters of this kind, despite the fact that officers recently raided five places in one town. Personally we think the reason Artesia is no bigger is because we have too few people. When we have more people we will have more who believe in personal liberties.

The oil industry appears to be unduly alarmed over the prospect of the passage of nation-wide laws, making the blending of alcohol with gasoline compulsory. It is evidently a case of injuring one industry to aid another. Personally it is our opinion that if the farmers made a little more use of old Dobbin around the farm, they would not need to find an artificial source for the consumption of the surplus grain.

## Fisherman's epitaph:

Here lies a man of many lies,  
His name was Catfish Jim;  
He used to dig all day for worms—  
The worms now dig for him.

An inquiring chap of seventeen, interested in topics of the times, asked his father the difference in being on or off the gold standard. "When one is on the gold standard," said dad, "it's wine, women and song, but when you are off of it, it's home-brew, ma and the radio."—Roy Record.

If we had a political job, we'd probably say every bill passed by the last legislature was the hot stuff.

## In Memoriam

## PICKED UP ON MAIN

A local Scotchman who broke his thermometer is waiting till August to buy a new one because he gets more mercury then.

H. W. Kiddy (to young plastered hair): "What'll you have a hair cut or just an oil change?"

C. O. Brown—Here's another farmer suing us on account of his cows.

Santa Fe official: One of our trains has killed one I suppose.

C. O. Brown: No, he claims our trains go so slow the passengers lean out of the windows and milk them as they go by.

Keeping a woman happy, says a New Mexico wisecracker, is like editing a newspaper—you have to start all over again every day.

On the last day the wind blew, Curly Williams suggested that the Chamber of Commerce appoint a committee to confer with the Indians to see if we could not give this country back to them.

You may be one of those who believe that one suffers all the hell here on earth and if you do, you no doubt agree the situation experienced locally the past seventy or eighty days comes pretty near being it. If you believe that you may be due to suffer more below, you might be able to persuade St. Peter to give you credit for serving the seventy days.

Looks are deceiving. The tool house at Puye does not look like a tool house.

## THE GAME

We sit in a game which men call life,  
And fate is the dealer there;  
And oft, with a feeling of anger rife,  
We call the play unfair.  
There are times when luck seems only to frown  
Whenever we lead or dare,  
And we're ready to throw our cards all down  
And finish the game right there.

Yet that is the time we must play the game,  
And play it strong and straight;  
For the turn will come; and what a shame  
If we haven't the nerve to wait!  
We must play the game with the cards we hold,  
No matter what fate may deal;  
We must play with a smile and a manner bold,  
No matter how down we feel!

We must play the game as best we know,  
Though the deal be fair or ill;  
We must play, though the stake be high or low,  
For the turn must come, and will.  
For it's only a test when luck retards  
A player's winning spell.  
The secret of life's not in holding good cards,  
But playing a poor hand well!  
—The Optimist.

A man's worst enemy is often right under his own hat.

Typewriters for rent at Advocate

## LOCALS

Pearson brothers of the Cottonwood are drilling an artesian well for J. P. White near Roswell.

Misses Nola Naylor and Nolie Stephens spent the week-end at Black River Village visiting with friends.

Mrs. Jeff Hightower and daughter, Mrs. Cash Austin left Monday morning to spend a few days visiting relatives and friends in Clovis.

Mr. and Mrs. R. C. Withers, former residents of Artesia were in from their ranch near Carrizozo the first of the week and spent a short time here visiting old friends.

Mrs. Charles Alsop drove down from Clovis the first of the week for a short visit with her parents, Mr. and Mrs. Ed Conner. Miss Dora Russell, a teacher in the Clovis high school accompanied Mrs. Alsop and will spend the summer with her parents, Dr. and Mrs. Chester Ruessell.

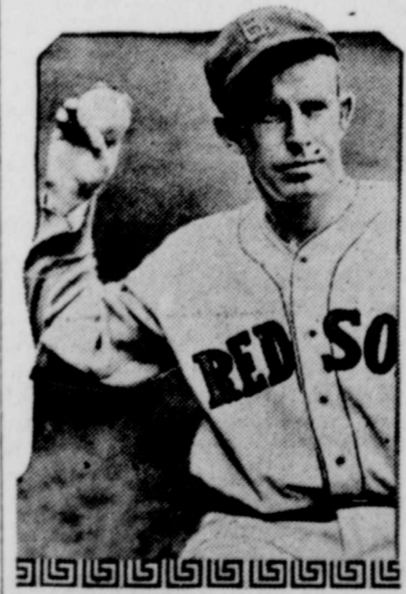

Mr. and Mrs. Ed Gillespie and daughter, Irene expect to leave to day on their vacation, they will visit at Douglas, Wyoming. Irene will have as her guest on the trip Rachal Adel Swift. Mrs. Willis Morgan will also accompany them as far as Springer this state, where she will visit her mother.

Misses Ina and Gladys Cole attended the Haddock-Cox wedding at Roswell Friday, at which time, Miss Iris Haddock became the bride of Hilton Cox. Mr. Cox, an employe of the First National Bank of Roswell, is a son of E. P. Cox of Hope and a brother of Irvin Cox, well known Hope resident.

## MERCHANTS BUY CATTLE

Merchant brothers of Capitan have purchased 500 head of cattle from A. D. Jones of the Cap Rock section, it was announced at Roswell the first of the week. The cattle, a mixed herd brought \$45 per head, it was said.

## RICK WITH RED SOX

Rick Ferrell, St. Louis Browns catcher who, along with Southpaw Lloyd Brown, was traded to the Boston Red Sox for Catcher Mervin Shea and a reported \$50,000 in cash, in his new uniform.

## MEASURE TO PROTECT BANK DEPOSITS PASSES

WASHINGTON, D. C.—A thundering chorus of "ayes" Tuesday put through the house the encompassing Glass-Steagall bank reform, designed to safeguard the deposits of money earners and give assurance that federal reserve banking will be strictly separated from speculative operations.

There was not even the formality of a roll call when the reform bill was passed and sent to the senate, where its companion measure is unfinished business.

As it passed the house, the bill would establish a quasi-federal deposit insurance fund that might reach \$2,000,000,000. This money would be used to insure deposits in federal reserve and state banks that could obtain certificates of solvency from the state officials and satisfy the board that administered the fund.

## FILES REFERENDA

Petitions said to contain a total of 49,000 signatures seeking referenda on the oil tax were filed with Mrs. Marguerite P. Baca, secretary of state, just before noon Saturday, at Santa Fe.

Harry Leonard and Steve Hannafan, both of Roswell, filed the petitions.

They stated the petitions met the constitutional requirements necessary to suspend operation of both laws until the next regular election when they are to be submitted to the people, if the petitions are accepted.

Mrs. Baca said she was undecided about accepting either or both of them and said further she would not decide until she had obtained legal advice.

## MORGAN PAYS NO TAX

WASHINGTON, D. C.—A senate investigating committee was told Tuesday that none of the 20 members of J. P. Morgan and Company paid income taxes for the years 1931 or 1932 because of losses reported by their firm.

The senate banking currency committee is inquiring into the Morgan company as part of an investigation of the nation's financial structure.

J. P. Morgan, senior partner of the firm and Leonard Keyes, office manager, testified that in reorganizing the firm January 2, 1931, a loss of \$21,000,000 was established but had not been used to get out of paying income taxes because it was not needed, and now by virtue of a change in the law can't be used in 1933.

### Sharkey and Carnera Sign for Fight

Jimmy Johnston (center), the promoter, fondly holds the hands of Jack Sharkey (left), world's heavyweight boxing champion, and Primo Carnera (right), the challenger, after the two men had signed up for a title match to take place in June. The two hands will bring what Johnston hopes will be a million dollar gate to the coffers of the promoter. In the back row are (left to right) Johnny Buckley, Sharkey's manager; Bill Duffy and Louis Serest, managers of Carnera.

### FARM NEWS

Nico dust when used as a spray on gardens either early in the morning or late in the evenings gives good results in getting rid of aphids, hoppers, beetles, etc., says W. A. Wunsch, county extension agent. This dust is made by using lime and black leaf 40, mixed well in an airtight can. This dust should be either sprayed or shaken on the plants when the wind is not blowing as it forms a gas which kills the bugs, but will not injure the plant. This mixture should be heated just before using.

W. L. Black, extension animal husbandryman from the State College and D. Jones, president of the Eastern New Mexico livestock show at Roswell were in Carlsbad on May 18, and consulted with the county agent in regard to calves being fed in the county for the next show at Roswell.

An all day meeting of the Cottonwood Woman's club will be held at the home of Mrs. E. P. Malone June 1st. The meeting will be on bread making and all women are to bring bread which they have made as there will be a judging demonstration as well as bread making demonstration. The bread will be judged according to its general appearance, lightness, crust, crumb, flavor and keeping qualities. Miss Veda Strong, acting home agent from State College will be present.

A meeting of the 4-H Poultry club will be held at the home of Cooper Malone on June 1st.

The 4-H Sewing club met at the home of their leader, Mary Jane Terry on May 19th. After a regular business meeting the second year girls demonstrated stocking darning and the third year girls demonstrated garment darning. A special program was prepared by the program committee which consisted of a piano solo by Miss Bonnie Rowland, and Miss Marjorie Rowland gave a special reading in 4-H club work and Miss Ruby Rowland gave a report on good sports. A number of club songs were rendered by the entire group. The next meeting will be June 1st, at which time Miss Veda Strong, state home agent will be present.

The 4-H Poultry club of the Upper Cottonwood community met at the home of J. I. Funk, May 19th. Problems connected with the raising of baby chicks and turkeys were discussed. A home made chick formula was prepared by W. A. Wunsch, county extension agent and submitted to the club for their use. A number of the members have secured baby chicks and all report very successful hatches. Cooper Malone has purchased 200 barred rock chicks.

A number of farmers have reported damage to the cotton and other crops by the jack rabbit. Excellent results have been secured by using the following formula: Take green alfalfa hay cut into small pieces with a knife or shears and then sprinkle powdered strychnine over the pieces of alfalfa using one ounce of strychnine to 20 pounds of hay. Mix well and distribute this green alfalfa in small aisles along the edge of the field where the rabbits enter the field. Care should be taken to keep the stock away for at least two days. After the hay is dried out the poison loses its effect and no damage is done by leaving the hay out. Only a small portion should be put out each day and not more should be mixed than can be used.

After careful investigation and discussion with the farmers in the Artesia section it was found that most of the good land had been planted to other crops and it was decided after a careful survey by the county agent to carry on cantaloupe work in the Carlsbad community only this year. 180 acres have been pledged to the

### HOPE ITEMS

Miss Frances Johnson, Reporter  
Mrs. M. E. Pichke and Mrs. M. L. Paulson were dinner guests Sunday of Mr. and Mrs. Bryant Williams.

Mr. and Mrs. Jimmy Wallace of El Paso spent the week-end in Hope visiting Mr. and Mrs. A. B. Altman.

Iva Ruth Glasscock left Tuesday for Las Cruces where she will spend the next two weeks visiting Nadene Wilkins of that city.

Dr. and Mrs. L. O. Dutton of El Paso, Texas are here visiting Mr. and Mrs. A. B. Altman. Mrs. Dutton is a sister of Mr. Altman.

Mr. and Mrs. Allen Johnson and daughter, Mary Grace, spent the week-end in Loving visiting Mr. Johnson's sister, Elizabeth Johnson.

Irvin Cox has started the erection of a frame house on his lots one block south of main street in Orchard Park. Pete Jackson of Artesia is helping him to build the house.

Betty Joe Blakeney of Lovington arrived Friday to spend the summer with her father, George Blakeney and her aunt, Mrs. Dick McDonald. Mr. Blakeney motored to Lovington after his daughter.

Mr. and Mrs. Will Keller motored to Artesia Monday afternoon to take Mrs. Welch and her small son to receive medical aid for a broken arm which he received when he fell from a horse which he was riding.

Mrs. Joe Massey and small daughter, Jo Ann of Roswell and Miss Glenn Polk of Artesia passed thru Hope Saturday en route from their homes to the Ed Jernigan ranch where they will visit Mrs. Massey's sisters, Mrs. Arvel Jernigan and Miss Lucille Morris.

A wedding ceremony of much interest was read Friday morning at Roswell in the home of Mr. and Mrs. A. E. Paddock for their daughter, Iris Paddock, and Mr. Hilton Cox both of that city, with The Rev. Julian Atwood of the First Baptist church officiating. The home was decorated in snapdragons, gladioli and ferns. A buffet luncheon followed the wedding after which the bride and groom left for a two weeks honeymoon.

Joseph Gettinger firm at Elsa, Texas. Contracts have been secured and the sum of \$4,000 has been placed in escrow in the Carlsbad National Bank, covering the fulfillment of the contract by the shipper.

### PROTEST GAS TAX

WASHINGTON, D. C.—The oil industry protested against the proposed increase in the federal gasoline tax Saturday to the house ways and means committee at hearings on the revenue section of the public works-industry recovery bill.

Fayette P. Dow, of Washington, representing the American Petroleum Institute, the National Petroleum Association and numerous other branches of the oil industry said already \$200,000,000 annually was collected from gasoline and associated industries such as motor vehicles.

## A Model KITCHEN

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock. —The Advocate.

### It Paid Them to Have a Telephone

These farmers say of the telephone:

"It got help in time to save \$4,000 worth of our farm buildings from fire."

"We keep in touch with markets by telephone and sell on an up market."

"It has saved the life of three horses and two cows by getting the veterinary quickly."

The more you use your telephone the more useful it becomes.

The Mountain States Telephone & Telegraph Co.

The Electric Vacuum Cleaner eliminates the bugbear of cleaning, even during the sandy season; the Electric Washer whisks the weekly wash to the line in half the time of other methods; and in the kitchen an Automatic Range gets the dinner almost by itself, and the modern refrigerator guards family's food.

Let your dealer explain how, for a few dollars, you can have a model kitchen, or, for that matter, a model home, that will pay for itself many times over in convenience, pleasure and satisfaction.

Southwestern PUBLIC SERVICE Company

Henry Ford Dearborn, Mich.

May 15, 1933

Time and again I am told—by my own organization and by others—that I penalize myself by quality.

Friendly critics protest our putting into the Ford V-8 what they call "twenty-year steel." They say such quality is not necessary; the public does not expect it; and that the public does not know the difference anyway.

But I know the difference. I know that the car a man sees is not the car he drives—he drives the car which the engineer sees. The car which is seen, comprises beauty of design, color and attractive accessories,—all desirable, of course. The best evidence that we think so is that they are all found on the Ford V-8.

But these are not the car. The car proper, which is the basis of all the rest, is the type of engine and its reliability; the structure of chassis and body, ruggedly durable; the long thought and experiment given to safety factors; the steady development of comfort, convenience and economy. These make the car.

A car can be built that will last two or three years. But we have never built one. We want the basic material of our car to be as dependable the day it is discarded as the day it is bought. Ford cars built 15 years ago are still on the road. It costs more to build a durable car—but two items we do not skimp are cost and conscience. A great many things could "get by"—the public would never know the difference. But we would know.

The new Ford V-8 is a car that I endorse without any hesitancy. I know what is in it. I trust our whole thirty years' reputation with it. It is even better than our previous V-8. It is larger, more rugged and mechanically a better job all round.

I readily say this in an advertisement because I know the car will back it up.

Henry Ford

### BAPTIST RAP BEER STAND OF PRESIDENT

WASHINGTON, D. C.—The Southern Baptist convention Monday voted down a motion to strike from its program a resolution deploring the attitude of President Roosevelt on prohibition and "especially that he allowed the White House to be used to advertise the beer business."

"Instead, it adopted the social service commission report containing the paragraph of disapproval. Dr. Walter P. Binns of Roanoke, Virginia moved to strike out three sections of the report and succeeded in striking out one of them, a section which said the Baptists looked "with great concern on the unusual and extraordinary grants of power to the president by congress."

Binns, a youthful looking figure in sharp contrast with venerable Dr. A. J. Barton, Wilmington, N. C., social service chairman who presented the report, took issue with the entire draft as being too great in scope for proper discussion.

As Binns moved to strike this section out a deep voiced chorus of "No! No!" came from the floor of the auditorium. Dr. M. E. Dodd, presiding, rapped repeatedly for order.

### ROTARIANS TO OBSERVE DAUGHTERS DAY JUNE 20

On June 20th, members of the Artesia Rotary club will observe Daughter's Day, with a special talk to the daughters or girls. Each Rotarian is requested to bring his daughter or some other girl.

D. I. Clowe was the principal speaker at the luncheon program Tuesday and gave a synopsis of a talk delivered before the Roswell Retail Merchants Association. The Roswell address of Mr. Clowe was based on his shopping experiences in Roswell, during which time he visited some thirty or forty Roswell establishments as a stranger in town, doing some shopping to observe the various forms of salesmanship employed by the "hired help," and those in charge of the various stores.

Visitors at the luncheon Tuesday included: Chas. Gregory, El Paso, Texas, Col. Jeff Atwood and Frank Markl of Roswell.

Loose Leaf Binders, Special Ruling and Stock Forms—The Advocate

### FIRE BUG

Norman Moore, twenty-five years old, who is reported to have confessed that he set the fire which leveled four-fifths of the city of Ellsworth, Maine, causing \$2,000,000 damage, because "something in my head told me to" and because he liked to see fire engines roll.

### HEALTH COLUMN

Conducted by Dr. J. R. Earp, Director, New Mexico Bureau of Public Health.

#### T. B. CONTAGIOUS—YES BUT

The slogan of the National Tuberculosis Association for 1933 is "From whom did he get it? To whom has he given it?" Probably the idea of this slogan is to promote careful examination of all people and especially children living in close contact with active cases of tuberculosis. Regular medical examination with chest x-rays are desirable for such people and indeed for all people. Tuberculosis is contagious as careful study has proved.

But the slogan is being misused. An article in a national magazine compares the contagion of tuberculosis with that of diphtheria. A statement from the New York state health department compares tuberculosis with smallpox. Such comparisons are ridiculous. Those who make them do so in an effort to impress the public with the danger of tuberculosis infection, forgetting perhaps that the public feared tuberculosis infection before the doctors believed in it.

The suggestion that tuberculosis is caught as easily as diphtheria or smallpox is not only ridiculous but dangerous. Already in many parts of the country the life of a sanatorium graduate is made miserable by the exaggerated and unnecessary fear of his neighbors. The contribution of hope and cheerfulness, so important to his recovery, is denied to him. Instead he is placed under the double handicap of mental anxiety and poverty, since many people fear even to give employment to one who has had tuberculosis. Poverty starts a vicious circle. The patient's disease is reacted and the resistance of his family to infection is seriously reduced by undernourishment and overcrowding. There are countries in the world where tuberculosis is so unpopular that even advanced cases are hidden away from the health authorities by their families. This results in many cases and many deaths from the disease.

If the proposed survey of tuberculosis in New Mexico is carried through it may show that we do not take enough precautions against the spread of infection. On the other hand it may prove that a morbid fear of the disease is not necessary to its control.

Small Boy — Say dad, Willie Hoosit told me his father said you was a poor toot of a man. What does that mean?  
His Dad— That means a man named Hoosit is due for a good poke in the nose.

ROOSEVELT WANTS TO CUT THE BUREAUS

WASHINGTON, D. C.—President Roosevelt's reorganization of the great structure of federal bureaus is due this week, and he is expected to ask congress to give it an official ratification. Another \$300,000,000 or more is to be knocked off the federal bills by the program, so that with the veterans' cuts and other savings already made the president will be able to make good the campaign pledge of cutting government expenditures 25 per cent, a round billion dollars. The president's survey is to be followed by a final redrafting. The organizations will cut thousands of federal jobs and will reach into every government department. The post office is to reduce \$150,000,000, the department of commerce \$10,000,000; even the labor department \$3,000,000. Army and navy are to experience substantial cuts. In addition to this economizing the program is expected to carry some realignment of functions though it is not yet definite whether it will provide for the unified bureau of transportation to regulate all carrier agencies which has been destined for the department of commerce.

An old codger fell for a fountain of youth scheme. He was instructed to take six pills—one each day. Instead he took all six pills at once. The next morning his family had difficulty in awakening him. Finally he did partly awaken and said, "I'll get up, but I won't go to school."

SUBSCRIBE TO THE ADVOCATE

has set the 8th day of July, 1933, at the hour of ten o'clock a. m. at the Court House at Carlsbad, New Mexico, at the Court Room of said Court, as the day, time and place for the hearing of said Final Account and Report.

You are further notified that on said day the Probate Court will proceed to hear objections to such Final Account and Report and to settle same, if any there be, and to determine the heirship of said decedent, the ownership of her estate, and the interest of each respective claimant thereto or therein and the persons entitled to the distribution thereof.

You are further notified that the attorney for the Executor is James W. Stagner, whose Post Office address is Carlsbad, New Mexico.

IN WITNESS WHEREOF, I have hereunto set my hand and seal this 25th day of May, 1933. (SEAL)

RUTH S. NYE, County Clerk 21-4t

THE CHURCHES

COTTONWOOD CHURCH REV. JOHN KLASSEN, Pastor.

Sunday school every Sunday at 10:00 a. m., I. H. Burgess, Superintendent. Preaching every 2nd and 4th Sunday at 11:00 a. m. and 8:00 p. m. Everybody invited to attend, you will be welcome.

ST. PAUL'S EPISCOPAL CHURCH OF ARTESIA REV. F. B. HOWDEN, JR., Rector.

Services held every Sunday evening except the First Sunday in the month at 7:30 p. m. The church school meets at 5:00 p. m. Holy communion, second Monday of each month, and at other times as announced.

FIRST CHRISTIAN CHURCH

9:45 a. m. Sunday school. C. O. Brown, superintendent.

FIRST PRESBYTERIAN CHURCH REV. W. B. McCORRY, Pastor.

9:55 a. m. Bible school. 11:00 a. m. morning worship. Service in charge of the Womans Missionary Society—A presentation of Van Dykes, "Mansions." 6:30 p. m. Christian Endeavor. 7:30 p. m. Wednesday Bible study.

CHRISTIAN SCIENCE SOCIETY 613 W. Main Street

10:00 a. m. Sunday school. 11:00 a. m. Sunday service. "If God be for us, who can be against us?" These words, from the 8th chapter of Romans, constitute the golden text in the lesson-sermon for Sunday, May 28.

Among the Bible citations in the lesson sermon is the following from II Corinthians 10:4: "For the weapons of our warfare are not carnal, but mighty through God to the pulling down of strong holds."

A correlative passage from the Christian Science textbook states: "A knowledge of error and of its operations must precede that understanding of truth which destroys error, until the entire mortal, material error finally disappears, and the eternal verity, man created by and of spirit, is understood and recognized as the true likeness of his maker."

FIRST BAPTIST CHURCH REV. F. C. ROWLAND, Pastor

Sunday school 9:45 a. m. Fred Cole, superintendent. Morning worship 11:00 a. m. Special Memorial Day sermon. Ex-service men especially invited. B. T. S. 6:30 p. m. H. C. Morehead, director.

LOCALS

Mr. and Mrs. Ben Bowers of Hobbs were visiting friends here Tuesday.

Jim Chambers and son of Carlsbad were here over the week-end visiting at the home of Van Welch.

Mrs. Myron Bruning spent several days last week visiting at the home of her brother, Lawrence Wilde at Weed.

Mr. and Mrs. Dale Gleghorn and family left for Winslow, Arkansas, Friday where they expect to make their future home.

Harry Thorne of Roswell, inspector for the federal livestock loan organization was attending to business matters here Monday.

Ed Watson, farmer, living three miles north of town informs us that the warf rats recently destroyed sixty young turkeys on his farm.

Superintendent and Mrs. C. R. Bernard of Lake Arthur expect to leave soon for Fort Collins, Colorado, where they will spend the summer on their farm.

Austin Reeves, well known rancher of the Penasco section, underwent an operation for appendicitis at Carlsbad Saturday and is reported to be convalescing nicely.

Miss Esther Morgan, instructor of Spanish at Junior high school in Roswell for the past year, drove down Monday afternoon and will spend most of the summer here with her mother, Mrs. Jessie Morgan.

Ray Wheatley and Mrs. C. M. Humphry, brother and sister of Rex Wheatley of this city drove down from their home at Amarillo, Texas Sunday bringing Miss Jeanne Wheatley who has been with them for the past four weeks while she attended high school there. They returned to their home at Amarillo Monday.

Evening worship 7:45 p. m.

DAILY VACATION BIBLE SCHOOL OPENED MON.

The Vacation Bible school at the Baptist church opened Monday morning with enrollment of fifty-three. A varied program of Bible drill, Bible stories, notebook work, handiwork, songs and games is planned for every day, except Saturday. The school will probably continue on for two weeks. An enrollment fee of ten cents is being charged to help pay for material used. Ages 5 to 16 are invited regardless of denomination affiliation.

GOVERNOR ORDERS CUT

State offices and institutions are urged to make a further cut of ten per cent in their budgets for the next fiscal year, by Governor Seligman, in letters sent out Friday, together with budget forms to be filled in by the offices and institutions.

The appropriations for the fiscal year which begins on July 1 were reduced by at least ten per cent under last year's figures at the instance of the governor.

The letter asks that the budget forms fixing operating cost at 80 per cent of the appropriations be filed in and returned not later than June 1.

The governor says.

"In view of the greatly decreased valuation of property in this state, it will be necessary to restrict expenses very materially to avoid a substantial increase in tax levies. Make your estimates on the basis of receiving 90 per cent of the appropriation granted by the last legislature. If this is not done in the budget submitted, it may be necessary for me to make certain readjustments wherever possible. I would especially urge reduction in expenses where buildings or improvements can be postponed."

DEANE GIRL INURED

The small daughter of Mr. and Mrs. Herman Deane was painfully injured Friday, when the top of her left foot was caught by a nail as she was riding thru a gate and a deep slit made by the nail as she passed the gate. The injured foot received medical attention and she is reported to be out of danger.

Tornado Strikes Dayton, Ohio

View in Dayton, Ohio, after a freak tornado struck the west side of the city, causing property damage estimated at several hundred thousand dollars and injuring a number of citizens. The high wind was accompanied by torrential rainfall and hail.

SAYS HER HUSBAND LOST 16 POUNDS IN 4 WEEKS

"I have never found a medicine that 'peps' you up like Kruschen Salts and better still, leaves you 'pepped up.' I take it two or three times a week—not to reduce but merely to feel good and clean. My husband took it to reduce, he lost 16 pounds in 4 weeks." Mrs. E. A. Ferris, Washington, D. C., (December 29, 1932). To lose fat and at the same time gain in physical attractiveness and feel spirited and youthful take one half teaspoonful of Kruschen in a glass of hot water before breakfast every morning. A jar that lasts 4 weeks costs but a trifle at any drugstore in the world but be sure and get Kruschen Salts the SAFE way to reduce wide hips, prominent front and double chin and again feel the joy of living — money back if dissatisfied after the first jar. ADV.

"Believe me, I know a low price when I see one— I'm buying my tires NOW!" Right now Goodyear is concentrating on two main lines of tires . . . This saves money for the factory that builds them — for the dealer who sells them — and for the car owner who buys them . . . If you want to know how real these savings are—and how much they mean to you—just check up on today's price of the size you need, and at the same time take a careful look at the finest quality that ever honored the Goodyear name . . . This stepping up of quality, this stepping down of price leads the way to a better deal for everyone—and that's what we all want now . . . Best of all — it means that everyone can afford new Goodyear Tires, especially if you buy now while prices are still low. The Greatest Name in Rubber. FLAT TIRES Expertly Fixed Tube Vulcanized—not cold-patched. Rim cleaned, straightened, tire carefully remounted on any wheel. 50c. GOOD YEAR Guy Chevrolet Co. Telephone 291

COUNTER MOVE MADE TO DEFEAT REFERENDA

A counter move to defeat referenda movements over the state has been started it was learned at Albuquerque.

Petitions, it was reported, are being circulated by the democratic state organizations to get signers of referenda requests to withdraw their names and thus defeat the referenda by cutting down the number of signatures required.

Meanwhile sponsors of the referenda petitions circulated over the state by the Farmers Holiday Association and New Mexico oil consumers league claimed 50,000 signatures had been obtained. It requires 39,000 signatures from 24 of the 31 counties to make the petitions operative.

They seek repeal by referendum of the delinquent tax, the oil severance tax, the four cent a gallon tax, the chain store bill, state purchasing agency measure and the debenture bill.

The withdrawal petitions being circulated, it was said, add to the legal tangle already arisen over the referenda petitions and make almost certain a trip to the courts on virtually all of the referenda petitions.

Presence of the emergency clause on some of the bills on which referenda are sought is believed by some to make the referenda petitions doubtful legally. The legality of those seeking repeal of laws involving school funds also is questioned.

LOCALS

Messrs. Albert Stillwaugh and Howard Stroup of Hillsboro are visiting friends and relatives here this week.

George Frisch was a business visitor in Roswell Saturday. Mrs. Frisch and Miss Vesta accompanied him on the trip.

C. Bert Smith who has been a patient at the Masonic hospital in El Paso for several weeks was able to be removed to the St. Regis hotel the latter part of last week.

The Rev. and Mrs. F. C. Rowland were guests of The Rev. and Mrs. H. M. Weldon of Carlsbad at a six o'clock dinner Friday evening.

Mrs. Will Crockett and children left Friday to spend a few days visiting at the home of her brother-in-law, E. H. Crockett and family at Lovington.

Rex Wheatley and daughters, Joan and Barbara, Mr. and Mrs. V. L. Gates, Virginia, Helen Meredith and Bobby and Mr. and Mrs. S. D. Gates spent Sunday with Mrs. Wheatley and Wallace Gates at Weed. Barbara and Helen Meredith remained for a longer visit.

JUDGE HAY AT ROSWELL

VET HOSPITALS CONTINUE

Albuquerque and Fort Bayard veterans hospitals and the regional veterans bureau office will be continued in operation, Roy. L. Cook, national executive committeeman of the American Legion said Monday.

Cook, together with W. M. McMains, returned from Indianapolis and Washington where they participated in veterans' conferences.

The national executive committee of the Legion, Cook said, recommended that all power and influence of the organization be used to the end service connected disability cases will receive generous compensation and proper medical care.

Re-centralization of veterans bureau activities, he said, was opposed by the committee.

MELON PLANTING ON CARLSBAD PROJECT

Farmers of the Carlsbad project have received seed for planting about 150 acres in cantaloupes. The seed came in the first of the week and County Agent W. A. Wunsch is devoting his time to the project, until the planting season is well underway.

Farmers in this section declined to enter the association on the ground that they could not see enough returns to justify the expense.

ENFORCEMENT OF NEW TAX LAWS PLANNED

Despite the fact that petitions, said to be numerically sufficient to suspend operation of the laws, have been filed with the secretary of state, Mrs. Marguerite P. Baca, the state is taking steps for the immediate enforcement of the oil severance and lubricating oil taxes, Governor Seligman stated Monday.

The state tax commission is having prepared printed forms on which oil producers will be required to make severance tax reports; the state comptroller is getting out forms to carry out the lubricating tax act, which requires the payment of a cent a quart. The latter becomes effective June 9th.

1932 COTTON CROP

WASHINGTON, D. C.—Revised estimated of the 1932 cotton crop issued Monday by the department of agriculture placed production at 13,002,000 equivalent 500 pound bales and ginning at 13,001,508 equivalent 500 pound bales, with yield at lint 173.3 pounds pure acre picked.

Typewriters for rent—The Advocate.

FARM ACT IN BRIEF

The following brief summary of the farm act (HR 3835) has been prepared with a view to further familiarizing interested parties with the provisions of the act. Emphasis has been placed on the sections which seem likely to be first translated into action.

Policy—To offset the severe and increasing disparity between the prices of agricultural and other commodities, it is the policy of congress:

To establish, as rapidly as feasible but having due regard to the interest of consumers, such balance between the production and consumption of agricultural commodities, and such marketing conditions, as will restore the purchasing power of farm products to the level of the base period.

(The base period in the case of all agricultural commodities except tobacco, is the pre-war period August 1909 to July 1914. In the case of tobacco, the base period is the post war period August 1904 to July 1929.)

COMMODITY BENEFITS

The secretary of agriculture is given power:

(1) To provide for reductions of acreage or reductions of production, or both, of the basic agricultural commodities, listed hereafter, thru agreements with producers or by other voluntary methods and to provide for rental or benefit payments in such amounts as the secretary deems fair and reasonable;

(2) To enter into marketing agreements with producers, associations of producers and others engaged in the handling, in the current of interstate or foreign commerce, of any agricultural commodity or product thereof;

(3) To issue licenses permitting processors, associations of producers, and others to engage in the handling, in the current of interstate or foreign commerce, of any agricultural commodity or product thereof.

SUCH LICENSES shall be subject to such terms and conditions as may be necessary to eliminate unfair practices and to effect the restoration of normal economic conditions.

REVENUE for benefit payments, and for administrative expenses, will be obtained from processing taxes. To provide funds for immediate use, an appropriation of \$100,000,000 is authorized. Whenever the secretary of agriculture determines that rental or benefit payments are to be made, a processing tax will be levied, assessed, and collected upon the first domestic processing of the commodity.

THE TAX will be at a rate sufficient to yield the difference between the current average farm price of the commodity and the price necessary to raise farm purchasing power to the base level. But if such a rate would cause a decline in domestic consumption or a fall in the farm price of the commodity the secretary may fix the rate at a point that will prevent these results.

TO PROTECT THE GENERAL PUBLIC interest, the secretary will make public such information as he deems necessary in regard to comparative price relationships before and after the imposition of a processing tax.

THE BASIC COMMODITIES named in the act are wheat, cot-

ton, hogs, field corn, rice, tobacco, milk and its products in any regional market classification type or grade thereof; but the secretary, after adequate hearings, may exclude from the operation of the act any commodity or part thereof when its inclusion would not further the purposes of the act.

AS TO COTTON, the act authorizes the use of the Smith option contract, the method whereof is described in detail in part 1, sections 3, 4, 5, and 6 of the act. In essence, the option contract gives the farmer a call on cotton which is to be in the hands of the government, and permits him to collect a profit on this cotton, should the price rise. In no event is the producer to be held liable for financial loss incurred in holding of such cotton. If any cotton remains with the secretary after January 1, 1934 he may enter into similar option contracts for another year. The secretary must dispose of all cotton by January 1, 1936. The Smith plan requires for participation a 30 per cent reduction of acreage, farm by farm. It may be used either alone, or in conjunction with rental benefits for land taken out of production.

SUCH OFFICERS, employees and experts as are necessary are to be appointed; the secretary may establish state and local committees, or associations of producers; he may permit processors and co-operative associations of producers, when in his judgment they are qualified, to act as agents of their members and patrons in connection with distribution of rental or benefit payments. Speculation on the part of any person having any part in the administration of the act, directly or indirectly in any way, in any of the agricultural commodities to which the act applies, is strictly forbidden.

EXEMPTIONS AND COMPENSATING TAXES. If the secretary, after proper hearings, finds that a particular processing tax will prevent in large part the use of a commodity, he may provide for an abatement or refund of the processing tax. And he may, subject to certain restrictions, provide by regulations for exemption from the tax of commodities processed by the producers thereof or processed for the producers.

When a processing tax on a basic commodity causes to the processor a disadvantage in competition with competing commodities the secretary may impose upon the competing commodities a tax sufficient to remove the disadvantage. Whenever the processing tax is in effect, with respect to any commodity, an equal tax is to be imposed upon the importation of any article manufactured wholly or in chief value from such commodity.

TERMINATION—The president may terminate the act as a whole whenever he finds that the national economic emergency in regard to agriculture is ended, or terminate the application of the act to any basic agricultural commodity whenever he finds that as to such commodity the further application of the act is not requisite to carrying out the declared policy.
