NUMBR 34

## Officers In Wide Hunt Slayer Of Mayhill Man

Slayer Seen Here And Is Believed To Have Made His Escape In Texas—District Attorney Conducts Investigation.

Newt Pendergrass, age 57, pioneer farmer of the Mayhill community was fatally shot from ambush Tuesday evening about 9:30 o'clock. A communication from the Brantley store at Mayhill reveals that Mr. Pendergrass was shot while in his garden, presumably he was irrigating. One shot entered his head. An empty .32 automatic revolver shell was found near the garden.

Early information from Mayhill indicated the officers had few clues to work on. Later information says officers have been searching for Tony Posey, a son-in-law. Officers here were notified to watch out for Posey, who was seen at midnight when he stopped at a local cafe. He was said to have been traveling with two suit cases in a car.

Posey separated from his wife several months ago and had been working at Tularosa. While family troubles probably resulted in the fatal shooting, the two men had had no previous difficulty so far as known. Pendergrass was known as a peaceful man. He moved from the upper Felix to the Mayhill section in 1915 and lived across the highway from the Brantley store.

Officers believe Posey has made his escape into Texas. So far as known he has not been apprehended. The story of the shooting as told to Martin Threet of Las Cruces, district attorney who investigated the shooting, differs in some respects to the report made to The Advocate in a telephone call to the Brantley store at Mayhill. Posey has been linked in the shooting by his former wife and Paul Pendergrass, son of the slain man. The family they said had returned from church Tuesday night, when prowlers were heard around the house. Pendergrass carried a lamp around the house and found no one. Returning to the front of the house Pendergrass turned the light on a weed patch and found Posey lying with a double bitted axe beside him. Posey whipped out a revolver and shot Pendergrass in the mouth after being asked why he was there. Posey made his escape in the darkness.

### WARNING AGAINST N. R. A. COLLECTOR

A warning has been issued from Clovis and other towns of eastern New Mexico that a person representing himself to be connected with the N. R. A. movement has attempted to collect dues from certain unemployed persons on the pretext of getting jobs for them. There is no such thing as the N. R. A. dues as the government does not contemplate that participation shall cost anything in the way of dues or fees.

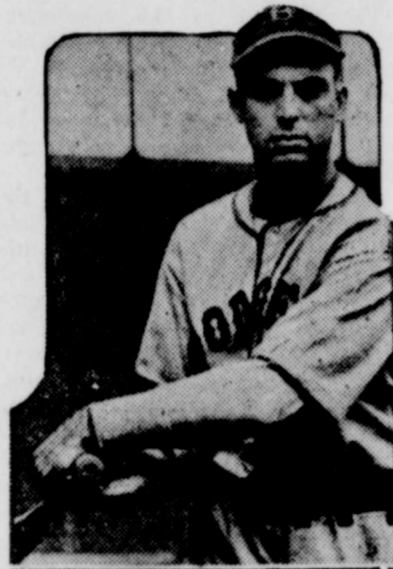

Wedding announcements, printed or engraved—The Advocate.

## Oil Code Is Expected To Stimulate Activity

Oil men are looking to the completion of the national oil code to bring about better prices and the resultant activity. While the national code has been signed by the chief executive, no one here has been able to give a clear interpretation as to what prices it will bring to the southeastern New Mexico oil district. Oil scouts and operators believe that it will be two weeks at least before anything definite is known as to the crude oil price schedule under the new code.

One completion has been made in Eddy county the past week, this being the State No. 66 of the F. W. and Y. Oil Co., sec. 30-18-38. Oil was developed in this test from 1,905-17 feet and drilled to a total depth of 1,939

### BOUGHT BY BROOKLYN

Joseph Hutcheson, the tall star of the Southern league who was bought from Memphis by the Brooklyn National league club, is doing very well in right field and at the bat. He is a Texan and is twenty-eight years old.

## PRELIMINARIES FOR N R A ORGANIZATION STARTED MONDAY

Skeleton Of Organization Is Formed—Roswell Men Working At Roswell—Officers To Be Named Soon.

A local organization to promote the NRA movement will be perfected soon. Preliminaries are underway looking toward the appointment of officers and a staff for Artesia. The organization plan to be followed will be similar to that operating in Roswell and in many other communities over the nation. A full corps of officers are to be named shortly, after which the organization will take up its work. Important functions of the NRA organization will include two surveys of the community, one to determine the number of business houses and individuals who have signed to abide by the provisions as set forth in the particular code of the interested business. The other will be made with a view to determining how many persons have been re-employed.

Roswell men, who came down to explain the provisions of the NRA and to answer questions concerning the relation of business to the NRA stated that a recent survey made in Roswell revealed that 101 persons had been re-employed in Roswell since July 1st.

W. J. McInnes of Roswell, who has assisted in directing the Roswell NRA came down with Claude Simpson, secretary of the Roswell chamber of commerce Monday evening at the invitation of the Artesia Chamber of Commerce board of directors and made a brief talk on the NRA. Later the meeting was resolved into a round table discussion in which several local business men participated.

Local effects of the NRA on this section will be published at a later date when a survey has been completed by an Advocate reporter.

R. M. McDonald left Tuesday afternoon with a truck load of furniture for Mrs. Floy Hartsfield at Gallup. Charley Flores and John Hartsfield accompanied him. Charley will return home but John will remain with his mother to attend Gallup schools.

## THE N R A MOVEMENT

Soon the NRA movement will be well underway in this community. It matters little how enthusiastically we enter the nation wide move to aid in giving the unemployed an opportunity to avoid suffering and hunger through the winter months, but its how we keep our pledge to do our bit in the months that are to come. Some have entered this move because they fear economic boycott; others have entered it because it is the last desperate effort to pull us out of an economic mire. It isn't a perfect plan by any means, but national leaders and right thinking citizens realize the seriousness of the situation and that something must be done, and done quickly to avoid internal strife.

Now isn't a time to commercialize our patriotism or to try and reap a personal benefit by pasting our business and car windows with NRA stickers when we have no thought of attempting to comply with the regulations it may impose on us.

To comply with the NRA regulations will work a hardship on a number of our local employers. It may make hypocrites out of a few. It isn't going to be easy for the remainder of us, but we have reached a point where we must undertake to give gainful employment to the needy during the cold months or part of them at least or else let those who are able to feed the hungry do so.

To make the plan a success isn't up to the employer any more than it is to the man who consumes the goods the employer sells or makes. The burden of supplying jobs for 6,000,000 needy must be borne by the public and it isn't right and just to shove an unjust burden on the shoulders of a few. Neither does it behoove the consumer or the employer to watch his pocket-book to the neglect of duty in this matter. It isn't my job, it isn't your job, but its our job to do our part.

While the NRA movement will not mean as much to a community the size of Artesia as it will to the larger population centers, the immediate effects thus far will no doubt be surprising to the public. A dozen representative business men at a Chamber of Commerce board meeting Monday night said they had employed thirteen new men. These business men must have business and a legitimate profit to continue to do business.

You may like low prices and it may please you to know that you are able to save a few dollars on your purchases, but we have had an era of low prices since 1929 and with it five to eight cent cotton, twenty-five to forty cent wheat and three cent cattle, and where are we?

## EDDY REEMPLOYMENT COMMITTEE ELECTS OFFICERS SATURDAY

The county committees of the United States re-employment service for Eddy county met Saturday afternoon in the office of William Dooley, laid preliminary plans for the activity of the organization during the fall and winter months and elected officers. Committeemen present from Artesia were: William Dooley and Mrs. M. A. Corbin; from Carlsbad, T. A. Wood and Caswell Neal. The following officers were chosen for the ensuing year: William Dooley, chairman; Caswell Neal, Carlsbad, vice-chairman; Mrs. Lilyan Robinson, Carlsbad, secretary and Mrs. M. A. Corbin of Artesia, assistant secretary. The committeemen from Artesia will direct the distribution of the funds and supplies for the north end of the county and the Carlsbad committeemen will serve in a similar capacity for the south end of the county.

## RESER'S BROTHER LOSES DIAMOND AND CAR TO HIJACKERS

W. K. (Kip) Reser, Wichita oil man and brother of I. S. Reser of the Cottonwood was robbed of a \$1,500 diamond ring and his automobile on August 11th, according to word received here last week. Reser was robbed by a man who posed as a deputy sheriff. The pseudo officer informed Mr. Reser that he was wanted in a hit and run accident, after displaying a badge. Seeking to clear himself Mr. Reser drove as directed until he came to a desert farm, where he was relieved of his diamond ring and automobile, after being bound and tied in a chicken house with a cord. Mr. Reser was soon freed, and reported the matter to officers, but so far as known no arrests have been made.

### PRE-SCHOOL INSTITUTE AT HOPE AUGUST 29th

A pre-school institute for Hope teachers will be held at the Hope school beginning August 29th and running until September 5th, it was announced by Superintendent Irvin P. Murphy, last week. Plans for the year's work will be discussed in the school office of the main building. School will be opened on September 5th, at which time the school buses will operate for the first time.

### OPEN HOME LOAN OFFICE

A branch of the federal home loan office has been opened at the Chaves county court house in Roswell, it was announced last week. J. D. Herron, Jr., of Roswell is in charge of the office and is ready to answer all inquiries regarding the function of this organization. The purpose of the federal home loan corporation is to aid home owners in distress.

## THE FIRST NATIONAL PAYS TEN PER CENT DEPOSITORS' FUND

The First National Bank has paid ten per cent to those who participated in the depositors fund in the re-opening of the bank. Practically all of those who participated in this fund have been presented checks. If you have not received your check, call at the bank.

Checks were made on the 10th, 12 days after the resumption of normal business, which was on July 28th. This action was quite a pleasant surprise to the depositors.

## CONTRACT IS LET TO PLUG 40 WELLS

Operations will start this week on the plugging of forty leaky and abandoned artesian water wells, it was announced Saturday after a meeting of the Pecos Valley Artesian Water Conservancy board in Roswell. The plugging is to be done by E. B. Guess, who signed the contract Saturday. The sum stipulated for the work was \$17,500 and work is to start this week. Clifford Smith, artesian well supervisor was appointed supervisor for the work.

Dr. A. D. Crile of Roswell, president of the board was authorized to appear before the public works board at Santa Fe and apply for \$75,000 for plugging 150 wells under the public works program.

George Frisch, board member stated Tuesday that Mr. Guess would start work in the Berrendo district north of Roswell. Actual plugging operations are not expected to get underway before September 1st.

## ROTARIANS TO EAT BEANS FRIDAY P. M.

Members of the Artesia Rotary club will eat mountain cooked beans Friday evening when they meet the Alamogordo club at Cloudcroft as result of an inter-city contest. While the Artesians are eating beans, the Alamogordians will be eating fried chicken, having won the right to consume this choice food in an attendance contest between the two clubs.

At the regular luncheon Tuesday noon, the five minute talk was made by Supt. W. E. Kerr. Mr. Kerr gave his impressions gained from visiting with the clubs at Oklahoma City, Paola, Kansas, Kansas City, Missouri and Iowa City, Iowa.

J. G. (Gus) Hoagland gave an interesting address on his native land, Sweden at the regular program hour, telling of some of the customs of his native country and some of his childhood experiences. Visitors present included: J. R. Ogden, Carlsbad; Bill Cheney and Gus Hoagland, city.

Mrs. Lester Dohner of Lake Arthur underwent an operation for appendicitis at the St. Mary's hospital in Roswell Friday.

## FOOTBALL SEASON FOR HIGH SCHOOL WILL START MONDAY

The pre-season football practice for the Artesia high school squad will start next Monday, Coach Allen announced recently. Indications point to an auspicious beginning. According to reports there is more interest and enthusiasm for the coming football season than has been evidenced for the past three years.

A large squad is expected to report for practice Monday. Among the former team members who will report for duty are: E. Champion, captain; Brown, Walker, Rowley, Vandever, Conner, Holeman, Haines, Champion, Denton, Cogdell, Fanning, Lewis, Williams, Webb and Wilde.

Chambers, Carlsbad's quarterback last year has moved to this section and will probably serve as mate for E. Champion in the position of quarterback this year. Fulton, a 180 pound tackle from Crane, Texas is also expected to report for duty. Fulton's presence will add much strength to the line.

## THE VOTERS MUST BE REGISTERED TO VOTE ON AMENDMENTS

Judge S. E. Ferree calls our attention this week to an item of interest to every voter. If you expect to vote on the four amendments September 19th, it is important that your name appear on the registration list. There will be no registration period this year before the election. If you voted in this precinct the last election in 1932, your name should be on the list of registered voters. If you have moved here in the meantime, it will be necessary for you to get your name on the list through a court order. If you are a new comer in this or any other voting precinct in Eddy or the adjoining counties you must get a court order to register and vote.

### COTTON CONTRACTS PRATICALLY COMPLETED

But four of the 323 cotton reduction contracts signed in Eddy county remained uncompleted Monday night, according to County Agent W. A. Wunsch's office.

There four were expected to be completed by last night, the deadline placed for such completions by the department of agriculture.

This will bring Eddy county farmers \$123,223.50 on the 9,017 acres destroyed and options to buy 6,218 bales of cotton at 6 cents per pound from the government. On the basis of the present cotton market this would give the Eddy county farmers a paper profit of approximately \$115,000 on the optioned cotton.

### HEAVY RAIN AT ROSWELL

Roswell was the center of a heavy rain yesterday afternoon when .72 inches of rain fell as far south as Dexter. The cloud passed to the east and missed this section. Threatening clouds for three days have failed to bring any moisture.

### NEW CAP FOR C. C. C.

Quite natty is Private James L. Goode of Bolling field in the overseas cap that the War department is issuing to the members of the Civilian Conservation corps forest army.

## D. CHAVES PROMISES ACTION IN FEDERAL FARM LOAN MATTER

Local Committee Confers With Congressman Chaves After Wichita Branch Again Turns Applications Down.

Efforts will be made by Pecos valley farmers to have the district office of the federal land bank at Wichita, Kansas reconsider its decision in the matter of making federal loans to farmers in the artesian basin under the emergency clause. This office has refused to make even an inspection of the basin with a view to making loans, notwithstanding an order from the land bank at Washington that loans may be made in irrigated or drainage districts on individual merits. A letter from C. G. Shull agent for the federal land bank commission at Washington published a month ago in The Advocate, conveyed the information that the emergency loan act made available loans to farmers where federal farm loans had not previously been made and that short term emergency loans would be made in drainage and irrigation districts on the individual merits of the farm on which the loan was applied for.

The bank at Wichita has apparently taken advantage of the clause in the emergency act where it is stated loans will not be granted on farms considered extremely hardous, basing the decision to ban loans in this section on engineers' reports, previously submitted. It has been charged that several land banks have used the emergency funds to place their loans in a better condition by loaning on farms where federal loans have previously been made and where farm owners have not been able to meet the interest and principal due.

Farmers here are preparing to protest what they term and what is unfair discrimination. Unless immediate action is taken, land banks in many instances will be permitted to apply the emergency funds to federal loans, where the loan was made in excess of the present day value. A second step in the fight to secure some con-

(Continued on last page, column 1)

## The School Opening Is Announced For Monday

Faculty Is Now Completed—First Two Days To Be Used As Registration Period—Compulsory Law Enforced.

At a meeting of the Artesia Board of Education Tuesday night the faculty for the coming year was practically completed and enrollment will begin Monday, September 4th. A complete list of the faculty will be announced at a later date. Not much change in enrollment is expected as compared with that of last year. High school enrollment will be as follows:

Seniors, Monday at 9:00 o'clock. Sophomores, Monday at 1:00 o'clock. Juniors, Tuesday at 9:00 o'clock. Freshmen, Tuesday at 1:00 o'clock.

All high school students coming from other schools must present a transcript of their credits from the school last attended before they can be permanently enrolled.

Pupils in the first five grades will report to Central and pupils in grades six to eight will report to the Junior high school on Monday at 9:00 o'clock. Pupils from other schools should present report cards from the school last attended.

Text books in reading will be furnished free by the state through the first three grades. Other books must be furnished by parents as usual, although the prices on some books have been reduced. No child will be admitted to the first grade whose sixth birthday comes after November 1, of this year.

The attention of parents and guardians is called to a notice in this issue of The Advocate in regard to the compulsory attendance of children between the ages of six and sixteen years old. It is possible that some children will have to be clothed and provided with books. The co-operation of the people and organizations of the community is requested in this matter in order that these children may be kept in school.

### STATE MAGAZINE AVAILABLE

The New Mexico Magazine, a popular state publication is now available to Advocate subscribers at a small additional cost to our regular subscription price. The New Mexico Magazine is said to be the best state magazine published and contains many interesting articles about the resources and vocational possibilities of the state as well as current fiction of interest to the southwestern section.

### POTASH SHIPMENTS

Potash shipments from the mine of the United States Potash Co. in the southeastern portion of the county will average more than twenty-four cars daily. The biggest shipment to be made recently over the Santa Fe north to Clovis was thirty-nine cars.

## Nine Months Term For Eddy Co. Rural Schools

Prospects are good that the Eddy county rural schools will have a full nine months' term this year, H. R. Rodgers, county superintendent announced here Tuesday. The prospect is due to the financial condition of the schools, which is much better than at the corresponding period of last year. Preparations have been made to hold a pre-school conference for the rural teachers at Carlsbad beginning August 28th and running through the remainder of the week. Mrs. Marie Hughes of Albuquerque with the San Jose training school will be in charge of the conference. Free text books will be furnished this year to the first three grades of the rural schools. It is hoped that the books will be here

in time for distribution before school starts. Efforts will also be made to boost the attendance over last year, which was poor, probably on account of the financial condition.

A few changes have been made in the corps of the north Eddy county teachers. The complete list is as follows: Lakewood—Lewis Stewart, Mrs. Julia Stewart. Dayton—Miss Frankie Wailes. Atoka—Mmes. Etta Douglas and W. R. Phillips. Oilfield—Miss Ruby Jenkins. Lower Cottonwood—F. R. Zumwalt, Misses Nolie Stephens and Ethel Bullock. Upper Cottonwood: I. H. Burgess, Misses Mabel Vowell and Margaret Williams.

# THE ARTESIA ADVOCATE

## LAND BANK FEATHERS ITS NEST

In the light of recent developments, it is apparent that the federal land bank at Wichita, Kansas, is seeking to feather its own nest at the expense of the taxpayer. Congress passed an emergency act, permitting the farm owner in distress to borrow money. The act was intended to aid the farmer regardless of where he was located. In a recent regulation we were told that loans on pumping plants, in irrigated districts and in drainage districts would be considered. The bank at Wichita like many other banks over the country has made some bad loans. It is evident that the bank officials hope to use funds under the emergency act to place the existing loans in better shape and thus feather its own nest at the expense of the farmer living in districts where federal farm loans have not hitherto been made available. Despite the fact that Pecos valley farms showed the highest net returns of any section of the Wichita district for the year 1932, which in round figures was approximately \$4.25 per acre against an average of \$1.10 for the remainder of the district, the Wichita office says our section is extremely hazardous, the decision being based on an old engineer's report.

The truth is that the Wichita office isn't going to place an emergency loan in the valley unless its hand is forced. It will place all emergency loan money on its already overloaded loans to make a good showing with the Washington land office. There are instances where farmers holding delinquent federal loans, have been granted money under the emergency act to take care of the federal loan interest and principal, on loans made which under the present valuation would be excessive. Based on present day valuation many of the federal loans on which the emergency loan has been made can be considered an outright dole, but what is an outright dole, if the Wichita office and other land banks over the country can take the \$200,000,000 allowed under the emergency act and make their own loans good once more?

### OPPORTUNITY IS KNOCKING

The saying that it's never too late to mend, doesn't apply to physical property. In these days, every community has its share of homes and business buildings which have been allowed to depreciate to the point where they are ready for the wrecking crew. Their degeneration may be laid to the door of false economy. While a dollar was "saved" temporarily, many dollars were lost because of it. There are hundreds of thousands of properties which can still be put in good condition at a moderate cost, but which will be gone beyond redemption if work is put off much longer. Today we can get in on bargain prices for most supplies and commodities—tomorrow will tell a different story. The wholesale price level has been skyrocketing, and now the retail level is beginning to follow. You don't have to take anyone's word for it that this is the time to build and repair—the cold and unprejudiced statistical tables tell you that and they permit of no argument. Build now, improve now—provide jobs and purchasing power—remember that investment and employment are cheaper than charity, and that they make charity unnecessary.

### TRAINED OFFICERS

There is a clamor in the big cities and large centers to divorce the police departments from politics. Appointment of the police officers and police heads have been made largely through political pull in the past. Untrained officers have been permitted to assume the responsibility of protecting the life and property of the citizenship they serve with the result that the gangsters and hoodlums have had a comparatively easy time. Officers not familiar with the use of fire arms do not stand much of a chance with the trained machine gunner of the gangsters. The Texas rangers and other western officers have usually been able to command the respect of the bad men because they were trained in the use of fire arms. A hand full of Texas rangers have often been known to clean out a gang of tough characters because these characters knew the reputation of the ranger. Trained officers, men who can shoot straight and think straight will go a long way toward ridding America of the present day crime wave. We ought to at least be able to meet the gangster on his own ground.

### THE VALUE OF A DOLLAR

An advertisement for a life insurance company makes the interesting observation that the dollar changes in value in terms of human need, as well as in relation to price structures and purchasing power. This is a statement not to be dismissed as being merely an example of an advertiser's extravagance of expression. A dollar means more to a widow than to the wife of a husband earning a good living—it means more to an old man who has outlived his earning power, than to a youth whose best years still lie ahead. The more difficult a dollar is to come by, the more we value it.

The suggestion of a Clovis police officer that machine guns and equipment of the gangsters be sent to the officers of the smallest towns appears to be a good one, if the nation is really desirous of curbing crime. The only way to fight the gangster is to give him some of his own medicine.

Failure comes to all persons who strive to do something. They are the mark of the man who tries. Few persons without scars have ever been in battle. Our greatest glory lies not in never failing, but in rising every time we fall.—Grit.

Don't repeat all you hear, even the devil is misquoted every once in a while.

## Odd—but TRUE

**ON THE DEVELOPMENT OF A CHILD'S FACE THE SIXTH YEAR MOLAR HAS MORE INFLUENCE ON ITS SHAPE THAN ANY OTHER SINGLE FACTOR**

**ON THOU GLORIOUS CABBAGE**

**THE EARLY EGYPTIANS WORSHIPPED AS GODS, NOT ONLY ANIMALS BUT VEGETABLES AS WELL**

**DOOR BELLS THAT RING ONLY WHEN A COIN IS INSERTED HAVE BEEN DEVISED TO DISCOURAGE PEDDLERS, BEGGARS, ETC.**

### PICKED UP ON MAIN

The difference between life and love is: Life is one d-n thing after another and love is two d-n things after each other.

The following is swiped from the Santa Fe New Mexican, which indicates the owner of the note below wasn't a member of the N. R. A.:

Somewhere a stenographer is looking for a job. A pocket notebook was found with the following entries:

- June 3—Advertisement for a stenographer, 50c.
- June 5—Violets for new stenographer, 85c.
- June 8—Week's salary for new stenographer, \$15.
- June 11—Roses for stenographer, \$3.
- June 15—Candy for wife, 60c.
- June 12—Lunch with stenographer, \$10.
- June 25—Stenographer's salary, \$25.
- June 25 — Dinner and theater with stenographer, \$10.
- June 26—Fur coat for wife, \$385.
- June 26—Advertisement for a stenographer, 50c.

"N. R. A. really means 'Now Run Along and Do Your Part'."—Tucumcari American. A lady here says her neighbor belongs and figures it means, "Never Return Anything."

A college professor says the average man can get along on a vocabulary of 500 words, but he did not say anything about the average woman. And that reminds us, we've just been on a vacation or rather a so-called vacation to the Century of Progress. Our real vacation consists of playing dumb while the Missus tells about the World's Fair. We tried to get a word in edgeways several times, but found it was a waste of effort.

And speaking of the World's Fair, all you folks who are getting the tin lizzy in shape to make the trip or are preparing to board the Santa Fe, better talk with a few of us who have been. It will save you time and effort and maybe some trouble. And don't pay any attention to this "hooy," about the Streets of Paris on the fair grounds. This is the most over-advertised attraction of the fair and all started from a nude girl fan dancer. There are several villages on the grounds trying to vie, in fact they have surpassed the Streets of Paris in many respects, if you like sensations and are passed the blushing point.

In some cases football training in bucking the line will come in right handy. When you hit the crowd in some of the exhibit building on the fair grounds, sorter forget your manners, if you expect to see anything. You'll probably push and shove and be pushed and shoved so much during your stay that you can appreciate how the New Mexico steer feels when he gets to the Kansas City stock yards. But after all its a vacation and is worth the money and effort you may put into it.

The lighting effect at night on the fair grounds is nothing short of marvelous. The individual lighting on some buildings is even more interesting. Back of the Firestone tire building, six conic shaped water fountains constitute the most remarkable exhibit of beauty and the connection between light and sound seen in modern history. The lighting of these fountains is controlled by a radio receiving set. These fountains are illuminated by the various colors according to the intensity of the sound.

Near the fountains is the Sinclair oil exhibit, also with its special lighting and displaying the pre-historic animals that breathe and act much like the ancient animals are supposed to have done.

To write or attempt to write what we saw in the time we were

on the fair grounds would consume several columns, but if you really want to see the fair go prepared to stay a couple of months. There are thirty-two free exhibit buildings, all interesting. Outstanding among these are the travel and transport building, the hall of science, the electric building, the food building, the general exhibit and the hall of states. The grounds are three miles long and from a quarter to a half mile wide. In this space there is plenty to see. You can see new things until you are so tired they begin to go over your head. Its time then to take a rest.

This depression story is some sixty-odd years old, so take what cheer out of it you can get. Salesman (beginning to unroll his samples): "I'd like to show you . . ."

W. C. Thompson (emphatically): "No, no, I'm not interested."

Salesman (eagerly): "But can't I just show you . . .?"

Thompson (firmly): "Not a chance. I'm not interested."

Salesman (wistfully): "Well, would you mind if I looked at them myself? I haven't had a chance to see them for three weeks."

### KIDDY-HNULIK SPECIAL

Since W. H. Kiddy has divorced himself from the chin scraping profession he has turned his efforts to emulating Burbank with success. In addition to the grass, burs, cockle burs, Russian thistle, cantaloupes, tomatoes, chili peppers, watermelons, etc., he has developed, with his father-in-law, H. Hnulik a tomato with two perfect horns, which looks like the devil.

### POSSE SEARCHES BAD LANDS NEAR RAMON

A posse of twelve officers from three counties searched the bad lands near Ramon Sunday in an effort to rid that hide-out section of bandits and gunmen.

## SCOUT NEWS

The appointment of committees for the expansion program of the eastern New Mexico area council of Boy Scouts was made recently by Lt. Governor Hockenull of Clovis, president of the council and all is in readiness for the opening of the program on September 1, it was announced at Roswell Saturday.

The purpose of the expansion plan is to make scouting available for more boys in the area. P. V. Thorson, local scout executive stated. There are 1,300 boys in this area who become of scout age each year. Committees as appointed by Hockenull are as follows: Roswell and district 1—F. L. Austin, chairman, Stig Santhoson, Rev. J. G. Anderson; publicity committee, A. E. Elmore, Dr. L. J. Johnson, J. B. Savage, R. B. Sanders; unit organization, Albert Stubbs, Claude Simpson, H. C. Anderson, Stig Santhoson; court of honor, Dr. N. Pope, Carl Bird, H. O. De-Shurley, Logan Hunter; leadership, L. B. Plumer, Rev. F. B. Howden, Jr., Walter Harrison, A. E. Elmore.

District 2. Curry and Farmer county, Texas: Ivan G. Bridges, chairman Sam Stone, A. W. Anderson, Carl Miller, Jack Hull, M. B. Kuntz, Rev. Pratt, Rev. Campbell, Reese Cagle, Judge Carl Hatch, Prof. James E. Bickley, C. C. Cagle, John Slayter.

District 3. Carlsbad and south half of Eddy county: J. B. Morris, E. B. Harrison, Gus Pierce; Darrell Swayze, M. O. Montgomery, Will Robinson, A. T. Foyer, Dr. Roberts, Arthur Hoese, J. B. Moore, C. L. Mills.

District 4. Tucumcari and Quay county: C. W. Bowen, R. A. Prentice, Jack Kimball, L. Felter, Paul Dodge, L. Grayson, Dr. Ferguson, Max Karshen.

District 5. Lincoln and Otero counties: P. A. Small, Vel Lane, Rev. Thurston, Doctor Cooper.

District 6. Guadalupe county: A. F. Tucker, H. C. Morehead, G. Mallard.

District 7. Lea county: W. D. Stafford, Rev. C. A. Ridge, R. R. Organ.

District 8. North half of Eddy county: E. B. Bullock.

District 9. Roosevelt county: E. M. Wheeler, H. C. Sparks.

Hogs Get New York City's Milk

During the milk strike in New York state great quantities of milk that should have been sent to the metropolis were fed to the hogs.

Catching the Bus

By JANE OSBORN

© by McClure Newspaper Syndicate. WNU service.

DAISY DREW turned the corner where the state highway crossed Main street in Hinton and drew her neat little car to the curb. Then she swung lightly from her seat and walked rapidly round the car, glancing at the tires. As she passed the tires on the left she glanced with seeming nonchalance across the street. It somewhat disconcerted her that the tall young man was looking intently at her when she looked intently but quickly at him.

She took time enough in starting to glance again at the young man who had remained in the region of the corner opposite. She started her car deftly, made a quick sharp turn and then drew up beside him on the opposite corner.

"I'm afraid you've just missed your bus," she said. "There isn't another for half an hour. I'm going out that way and I can easily overtake the bus that you've just missed. If you like."

The young man doffed his hat and bowed with more of a flourish than was usual among the young men of Daisy's acquaintance, stepped forward and assured Daisy that it was absolutely essential for him to get the bus.

"My name is Schuyler Wentworth," said the young man. "I am a stranger about here—I'd come out to look over a bit of property—which I find is located in—in—at the other end of the bus line."

"Barnbury," supplied Daisy. "Well, that's a half hour by motor—must be more than an hour by bus."

They started at breakneck speed, but as they went on, getting fruit for conversation out of the objects they passed on the road, Daisy found herself slowing down. Of course, there wasn't the slightest chance that she would catch a bus, because the last bus had gone nearly an hour ago and it was within five minutes' time of the next when she kidnapped the good-looking stranger at the corner. It had been a rather bold thing to do, Daisy admitted—and not the sort of thing that her sisters would have considered even decent. As a general thing, Daisy agreed with them—it wasn't safe to pick up strange young men and take them driving along the country highway to Barnbury—but the young man sitting beside her in her car was decidedly prepossessing.

Barnbury was in sight—and the bus had not been overtaken. It was a little settlement of some eight or nine houses, two gas-filling stations, a little store and the remains of an old wooden church. The young man had indicated that he had business in Barnbury. Obviously there was not much business to be done there.

"Here we are," Daisy told him. It was a desperately bold thing to do, but she told him that if his business wasn't going to take very long she would wait and carry him back to Hinton, assuming, of course that he wanted to go to Hinton. But the young man did not even get out of the car. He looked at her contritely and explained that as a matter of fact he had no business whatever in Barnbury. To his surprise the girl at the wheel showed no sign of resentment. They drove back to Hinton in silence that became mutually embarrassing.

"I take it for granted that you want to go back to Hinton," said Daisy, with an arch little smile. "Perhaps you have friends there."

"Not unless I might count you as a friend," said Schuyler. "The fact is I had never heard of either Hinton or Barnbury in my life until this morning. I was motoring from New York to Ohio and this morning I found myself in Hinton with some slight engine trouble which I could not attend to. I left my car in a garage and started for a stroll. That was when I saw you—you apparently thought you had a puncture."

"Really, I didn't," said Daisy. "I only stopped my car because I thought you looked—well, a little different from the men we meet here."

"And you don't exactly hate me because I let you think I was trying to get the bus?" said Schuyler. "Oh, I knew you weren't trying to get the bus. Only at the time I couldn't think of any better excuse to talk to you."

Daisy took her eyes from the road ahead of her long enough to look at him with a little pout of annoyance. "And I suppose you'll start right on your way as soon as we get back to Hinton?"

"Not if you'll let me stay—and get a little better acquainted. As a matter of fact there isn't anything the matter with my car. I just left it there. I had seen you earlier in the day as I came into Hinton, and I made up my mind that I wasn't going to leave the place until I knew you better. I think it was a case of love at first sight."

"I can't tell you how glad I am that you feel that way about it," said Daisy. "I'd hate awfully to feel that way about it all by myself."

IN FORGERY SCANDAL

Ronald Finney of Emporia, Kan., under arrest in Topeka in connection with the huge bond forgery scandal that stirred up the state's financial officers.

FREE TEXT BOOKS DISCUSSED FRIDAY

Explanation of free texts distribution and discussion of the coming year's work was mingled Friday at Santa Fe at the meeting of county school superintendents with denunciation of the 20 mill levy limit.

The future of upwards of 150,000 school children rested in the discussions—what they were to study and how. It was announced that several municipalities and counties had decided on what free texts would be used for the year, to be distributed by the state.

Oscar Moore, in charge of the distribution, explained the method to be used, his list showed Eddy, Roosevelt, Curry, Union, Dona Ana and Socorro counties have selected the Laidlaw readers, a sufficient supply of which will be furnished to equip each child of the primer and first three grades. Municipalities selecting the Laidlaw were: Carlsbad, Vaughn, Belen, Dawson, East Las Vegas and Hot Springs.

Vernon O. Tolle, told the meeting adoption of the 20-mill levy limit by voters September 19th would play havoc with the school system. Opposing any limitation on property taxes, he said if the amendment is adopted that Bernalillo county will be able to have schools only three months.

Mrs. Georgia L. Lusk, state school superintendent, who called the meeting, explained some of the plans for the coming year.

THE CHURCHES

CHRISTIAN SCIENCE SOCIETY 613 W. Main Street

10:00 a. m. Sunday school.

11:00 a. m. Sunday service.

The subject of the lesson-sermon on Sunday, August 27th is: "Christ Jesus." The golden text is from John 1:18th verse: "No man hath seen God at any time; the only begotten Son, which is in the bosom of the Father, He hath declared Him."

Among the scriptural selections in the lesson-sermon is the following: I Cor. 3rd chapter, 11th verse: "For other foundation can no man lay than that is laid, which is Christ Jesus."

A correlative citation from the Christian Science textbook states: "Jesus established His church and maintained His mission on a spiritual foundation of Christ-healing. He taught His followers that His religion had a divine principle, which would cast out error and heal both the sick and sinning."

FIRST PRESBYTERIAN CHURCH REV. W. B. McCrory, Pastor.

9:55 a. m. Bible school.

10:50 Preaching service.

Topic: "The Forgotten Christ."

7:00 p. m. union young people at the Methodist church.

7:45 union service in park.

Topic: "The Implications of Knowing God."

MANY USES FOR EDDY COUNTY LAND

SANTA FE—Not all land is used for a single purpose in New Mexico, witness one 640-acre tract in Eddy county.

This land, says Commissioner Frank Vesely, is bringing in 25 cents an acre for oil lease, 10 cents an acre on a potash lease, three cents an acre for grazing and comes now the Santa Fe railroad seeking a right of way lease over the same land—which is permissible.

Not all the possible revenue is developing from the land at that. There could be a business permit lease and a precious metals lease on it as well as all the others.

GOVERNMENT WILL SLAUGHTER HOGS

CHICAGO, Illinois — Slaughter of 5,000,000 hogs, give the meat to the unemployed, add \$55,000,000 to the farmers' income and increase the price of pork 25 to 30 per cent—that in brief was the corn-hog plan announced Friday by Secretary of Agriculture Wallace.

He told several thousand farmers in the court of states at the Century of Progress exposition the plan was a deliberate attempt to "change the economic facts" and give the corn and hog farmer "his share of the national income." He said the new deal for the farmer would be put into effect immediately and completed by October 1.

The secretary, a native of Iowa, said the government would buy heavily enough to reduce the fall supply of pork by 16 per cent and would pay more than the present market prices.

The terms of the plan, as he presented it, were: The government would buy enough pigs, light hogs and sows due to farrow in the fall to remove from the markets between 600,000,000 and 750,000,000 pounds of live pork. This would be done "as rapidly and effectively as possible," and the farmers would be paid prices "which encourage co-operation."

To pay for the hogs and the butchering a processing tax of "considerably less than a cent a pound" must be levied, to raise about \$55,000,000.

FUN AND FACTS

(Not by Arthur Brisbane) Frank Seale, local oil company agent, is a musician of rare ability. In his early years, he was a trombone player of note, being a member of the University of Arkansas band, while a college boy. He was also a "specialty" number player while a member of a show boat, which showed up and down the Mississippi river. His "clog" dancing was as big a favorite as his trombone playing.

L. P. Evans is another old timer of the canvas. Before settling down in Artesia as a bonafide business man he saw much of this country traveling with the canvas tops. At one time in a show of his own he boasted of one of the biggest snakes in America. This was a long time ago.

Tom Heflin, although a young man yet, has been in Artesia many years. As a lad, he assisted in the construction of the high school buildings, then known as Western College, the Junior high school building, and the old grade building, which was torn down a few years ago to make room for the present central school building. E. C. Higgins says that when he arrived in Artesia, he remembers Tom as a long-legged boy about ten years old, wearing a pair of suspenders about four inches wide. Tom must have been a pessimist.

The Artesia public was given a touch of metropolitan newspaper during the past two weeks in the absence of the editor, Ted Flint, who served as editor, is a former reporter for the Baltimore Sun. From all records, his favorite pastime was covering the police courts and sensational "scoops." He admits he does not know much about domestic science and household science. He still thinks babies diapers are made of muslin.

J. H. Naylor came to Artesia in 1903 and began erecting houses. he has lived here almost all the time since that date and a large per cent of the nails in Artesia homes and buildings have felt the blows of his hammer during the past thirty years.

Likewise J. A. Presley, concrete worker can point out hundreds of houses in Artesia, which are resting on foundations, which he constructed. He has left Artesia for short intervals but has always returned.

French Vets Honor Unknown Soldier

Ninety French war veterans came to Washington to return the American Legion's visit to Paris six years ago. The leaders of the visiting contingent are seen placing a wreath on the tomb of the Unknown Soldier at Arlington National cemetery.

CARBON PAPER—The Advocate

# Social Activities

## LEAGUE AND ENDEAVOR WATERMELON FEAST

The League of the Methodist church and the Endeavor of the Presbyterian church enjoyed a lawn party and melon feast at the home of Mr. and Mrs. W. R. Hornbaker last Thursday evening.

About fifty young people took part in the games on the lawn which ended in an exciting treasure hunt, the treasure being a number of large melons which were served to the young people.

## SINCLAIR FAMILY HONORED

The Rev. J. P. Sinclair, Mrs. Sinclair and their six children who are visiting here from their home at Caldwell, Kansas were honored by the members of the Presbyterian church Friday.

At four o'clock in the afternoon they gathered at the City Park where a picnic supper and social visit was enjoyed by a large gathering of both adults and children.

## LEGION AUXILIARY

The regular monthly meeting of the American Legion Auxiliary was held at the Legion hut on the second Monday of August.

Mrs. Alex McGonagill, the president, presided and Mrs. Ben Pior acted as secretary in the absence of Mrs. P. V. Morris.

August is convention month in the unit therefore at this meeting reports were heard from the state convention which was held at Tucumcari the first week in August. Delegates from this unit, Mmes. Ben Pior and Frank Linell were assisted in giving these reports by Mmes. Albert Richards and McGonagill who were also in attendance.

A nominating committee was appointed by the president at this time for the election of officers which will take place at the September meeting. Those appointed were: Mmes. Frank Linell, Bert Sinclair and J. L. Briscoe.

The September meeting will be an all-day session with a covered dish luncheon and the place of meeting will probably be in the country, announcement will be made in the social calendar at a later date.

Mrs. J. L. Briscoe and Mrs. Claude Hayes were hostesses and served delicious refreshments at the close of the afternoon.

## BARBEQUE AND DANCE AT WATTS RANCH

Mr. and Mrs. Ed Watts entertained a host of friends at their ranch home on the Penasco, near Dunken last Saturday, with an old fashioned barbecue and dance.

Those who attended from here were: Howard Williams, Messrs. and Mmes. Joe Clayton, Jack Clady and Roy Vermillion. Mr. and Mrs. A. C. Kimbrough and Mr. and Mrs. J. A. Clayton, Jr., accompanied by Mr. and Mrs. Penn and Mr. and Mrs. Karns of Hobbs joined the party from Artesia who attended.

## M. E. MISSIONARY SOCIETY

Mrs. L. W. Feemster and Mrs. Dave Gray were co-hostesses to members of the Methodist Missionary Society at the home of Mrs. Feemster on last Thursday afternoon.

The subject for the afternoon was the "Place of the Woman in the Church," in the District Conference and the Church at Large." Mrs. W. E. Ragsdale as leader assisted by Mrs. Reed Brainard and Mrs. George Frisch very interestingly discussed the above subject.

There were about twenty members present with one visitor, Mrs. George Dixon of Roswell. Following the program a social hour was enjoyed at which time the hostesses served a delicious salad course.

## MISSIONARY SOCIETY PRESBYTERIAN CHURCH

The regular meeting of the Presbyterian Missionary Society was held last Thursday at the home of Mrs. J. H. Jackson, with Mrs. Effie Wingfield as co-hostess.

The subject of "National and Foreign Missions" was very interestingly presented by Mrs. Jim Montgomery, leader for the afternoon. The devotionals were led by Miss Emma Clark.

The Rev. and Mrs. J. P. Sinclair were guests on this occasion and each spoke briefly on missionary work.

### TUESDAY

Fortnightly Bridge club meets with Mrs. John Lanning at one o'clock.

### WEDNESDAY

Abnormis Sapiens Bridge club meets with Mrs. Jeff Hightower at 2:00 p. m.

### BRISCOE—ROSS

Miss Hannah Katherine Briscoe became the bride of Mr. William M. Ross at a quiet ceremony performed Monday morning at the Presbyterian manse at Carlsbad, with the Rev. A. G. Tozer officiating.

Mrs. Virginia Briscoe, mother of the bride, Mrs. Emma Hughey, a sister and Mrs. Abbott, a cousin, Mr. Chase Davis and Mrs. William Anderson of Carlsbad were the only relatives and friends present at the wedding.

Mrs. Ross is the daughter of Mrs. Virginia Briscoe of Artesia and has been one of the popular sales ladies of the J. C. Penney Co., for a number of years. Mr. Ross who has made his home in Artesia for a good many years is a World War veteran and holds the position of bookkeeper with the Pecos Valley Garage and Machine Shop.

Immediately after the ceremony the bride and groom left on a honeymoon trip, going first to El Paso. They will visit a number of points of interest in this state before their return. They will be at home to their friends at 902 Quay street.

### KIMBROUGH—STERLING

Announcement was made here last Saturday of the marriage of Miss Evelyn Kimbrough to Mr. Terrill Sterling of Hobbs about three weeks ago.

Mrs. Sterling is the daughter of Mr. and Mrs. A. C. Kimbrough who are former residents of Artesia and who are at the present living at their ranch home near Hobbs. She is an attractive young lady and has a wide acquaintance with the younger social set here.

Mr. Sterling is a nephew of Dr. and Mrs. Sterling of Hobbs and has employment with one of the oil companies of that place. The young couple will be at home in Hobbs.

### COMPLIMENTS VISITORS

Miss Dawn Hornbaker entertained at the home of her parents last Tuesday evening with a slumber party complimenting the Misses Mona and Martha Sinclair who are visiting here from Caldwell, Kansas.

A picnic supper in the evening and breakfast in the morning was served on the lawn. Those who enjoyed this delightful little slumber party were the two honor guests and the Misses Mattie George, Joan Wheatley, Virginia Gates, Mary Louise Paris and Peggy Brainard.

### SLUMBER PARTY AT PARIS HOME SAT.

Miss Mary Louise Paris was hostess when she entertained with a slumber party at the home of her parents, Mr. and Mrs. R. L. Paris, Saturday night, in honor of the Misses Mona, Grace, Martha and Clara Sinclair of Caldwell, Kansas.

The young hostess was assisted by her mother in serving a delicious Sunday morning breakfast to the following: Misses Jeanne Wheatley, Virginia Gates, Dawn Hornbaker, Joan Wheatley, Marjorie Kerr, Mattie George and Helen Merideth Gates and the honor guests.

### LINE PARTY AND SUPPER

Mrs. V. L. Gates entertained with a line party at the Majestic Saturday afternoon which was followed with a lovely buffet supper at her home with Misses Grace, Mona, Martha and Clara Sinclair of Caldwell, Kansas named as honor guests.

Those to enjoy this compliment with the visiting young ladies were: Misses Marjorie Kerr, Virginia Gates, Jeanne Wheatley, Dawn Hornbaker, Joan Wheatley, Mattie George, Mary Louise Paris and Helen Merideth Gates.

Mr. and Mrs. Calvin Dunn and family are in Gallup this week visiting at the home of her sister and family and also seeing the Indian ceremonies.

## Simmons Quartette At First Baptist Church

The Simmons University male quartette of Abilene, Texas will present a sacred program at the First Baptist church on Sunday morning at eleven o'clock. This organization is making a tour of west Texas and eastern New Mexico and Artesia music lovers are fortunate that they have arranged their schedule to appear here at the regular Sunday morning service hour. The program, known as "A Sermon In Song," has received unusually favorable comment, where it has been presented.

The quartette is composed of voice students of Simmons University, one of the outstanding educational institutions of the south and the tour is made under the supervision of the voice department of the University. The boys have just completed a tour through the northern states, visiting the World's Fair before returning to the southwest.

The personnel of the quartette is Euell Porter, Bernard Richards, Pete Shaw and Tyler Cagle. Former Simmons University students have made arrangements for the entertainment of the visiting musicians while in Artesia. They will present the same program at the First Baptist church at Roswell on Sunday evening.

### MIERCOLES BRIDGE CLUB

Mrs. Lloyd Simon entertained the Miercoles Bridge club at her attractive home in the Keller-Ragsdale addition yesterday afternoon.

A session of contract was played at two tables with high score going to Mrs. W. C. Martin, who was presented a lovely prize.

Members present were: Mmes. Hollis Watson, Elza Swift, Aubrey Watson and Richard Attebery. Other guests were: Mmes. W. C. Martin, Ralph Shugart, J. Harvey Wilson and Howard Whitson. Mrs. Simon served a refreshing ice course at the close of the games.

### PICNIC AT FIGURE 5 RANCH

Mr. and Mrs. L. E. Beyers and their niece, Miss Melba Lee entertained a number of friends with a picnic at the Figure Five ranch last Sunday.

At the noon hour a bountiful picnic lunch was spread, and there was swimming and horseback riding for the young people throughout the afternoon.

Those who attended from here were: Mr. and Mrs. Mark A. Corbin, the Misses Kitty Gayle Flint, Virginia Woods, Pauline Clayton, and Lillie Mae Miller and Olen Woolridge, St. Clair Yates, Mark Corbin, Jr., and Martin Yates, III.

### DIMINISHING PARTY

Mrs. Reed Brainard was hostess at her farm home last Tuesday afternoon with the first of a series of parties known as diminishing parties. They are to be given by members of the Methodist Missionary Society in order to add to their funds.

In a Bible contest in which there were 72 characters, Mrs. Stroup received the prize for naming the highest number which was 47. The afternoon was spent with their hand work and a social visit.

Refreshments of sandwiches, salad and melons were served to the following guests: Mmes. Dixon, Mahone, Deard, Stroup, A. C. Douglas, Feemster, Nola Phillips, Matteson, George Gage, W. S. French and W. J. Jones house guest of Mrs. Stroup.

### HONORED ON 79th BIRTHDAY

Mrs. Mary Kissinger was surprised with a birthday party on her 79th birthday anniversary last Tuesday evening at the home of her niece, Mrs. Pete Lovng, her daughter-in-law, Mrs. Ed Kissinger was co-hostess with Mrs. Lovng.

A lovely picnic supper was served on the lawn to the following: the honor guest, Mrs. Mary Kissinger, Messrs. and Mmes. Chas. Rogers, George Frisch, William Schneider, W. T. Gissler, Mrs. Jim Simpson, Mrs. Naylor, Mrs. Boyce and Mrs. Herbold and children, Alf Schneider, L. P. Evans, little June Gissler, Pete Lovng and boys, and Ed Kissinger and children.

Mrs. Kissinger received many useful gifts, and enjoyed the social hour with old time friends.

Mr. and Mrs. Rufus Stinnett arrived Sunday for a visit this week with Mrs. Stinnett's parents, Mr. and Mrs. Arba Green. They have just returned from an extended trip in which they visited Chicago and the Century of Progress, Mrs. Stinnett's sister, Mrs. Robert LaFollette and family of Ann Arbor, Michigan and a number of the eastern cities including New York City and Washington, D. C.

## AMERICANS MAY LIVE 9 YEARS LONGER

NEW YORK—A campaign to make Americans live nine years longer is being instituted by the health agencies and insurance companies throughout the country. All that is necessary to increase the average length of life by nine years is summed up by Dr. Louis I. Dublin, insurance statistician, in a statistical survey published by the American magazine.

"The aim is to see that every community is thoroughly up-to-date in sanitation, that all health laws are modern and well enforced, that people take every advantage of the new knowledge of hygiene, have an all-round physical examination every year, and make their habits sensible and moderate."

If everyone will do this, Dr. Dublin states that the average life in America can be lengthened from 61 years to 70. "That we can raise it much above that I doubt," he adds, "because despite all our advances in improving the expectation of life, there is no indication that we have increased the life span—that is, the age at which thoroughly healthy old people naturally die."

Expectation of Life (Average remaining years of life)		
Age	Male	Female
0	59.49	63.07
5	59.64	62.44
10	59.21	62.90
15	58.63	63.23
20	46.24	48.75
25	41.99	44.45
30	37.74	40.17
35	33.51	35.90
40	29.38	31.66
45	25.41	27.53
50	21.62	23.52
55	18.07	19.70
60	14.80	16.15
65	11.88	12.93
70	9.30	10.80
75	7.12	7.67
80	5.37	5.75
85	4.05	4.32
90	2.84	3.22
95	1.92	2.30

All kinds of circumstances, however may vary the figure which you calculate for yourself from Dublin's table. Race, nationality, build, married or single, fat or thin, rich or poor, laborer or white collar man—all these affect the average length of life in America.

The female is longer lived than the male by 2 to 4 years; the native born American lives 2 to 15 years longer than the immigrant; the white collar man lives 5 years longer than the manual laborer. Clergymen live longer than doctors or lawyers; metal miners live ten years less than the average.

Divorced people show an exceptionally short expectancy of life. And married people live longer than bachelors or spinsters. "The advantage enjoyed by married people is partly due to selection," says Dr. Dublin. "In other words, people who are normal and well-organized physically are much more likely to marry than those who are not. Furthermore, marriage seems to be definitely beneficial. This is clearly shown by the fact that those who are released from the marital protection—that is, widowers, widows and the divorced—show definitely lower expectancy of life than those for whom marriage continues. Among divorced people there is considerable mental disease, maladjustment to life and sterility."

Americans today can look forward to living twice as long as their forefathers did 150 years ago, when the average span of life was only 35 years. During the 19th century living conditions improved rapidly, science advanced and life became less hazardous. By 1850 the average length of life was 40 years, and by 1900 it had increased to 48 years. In the past 30 years, however, the most rapid strides of all have occurred and the average length of life has increased from 48 to 61 years.

Dr. and Mrs. R. K. Hoover of Haddam, Kansas accompanied by Mrs. N. C. Else of Osborne, Kansas are visiting friends here and at Carlsbad. Dr. Hoover stated that he contemplated locating somewhere in the valley, probably here.

### NOTICE!

Please do not send money in an envelope for subscriptions—it is liable to be lost—send a money order or check.

### WILLIAM DEAN, 25, DIES ON HIGHWAY GOING TO DALLAS

William Dean, son of Mr. and Mrs. W. W. Dean of Pecos, Texas died Tuesday on the road to Dallas, where he was being taken for treatment for an acute attack of infantile paralysis. The body was taken back to Pecos and funeral arrangements were to be made there yesterday. Possibly interment will be in Carlsbad, where Mr. Dean was born, in the family lot at the municipal cemetery.

Mr. and Mrs. Dean are former residents of Lakewood. Miss LaVerne Schnoor left on Tuesday for Milford, Kansas where she will teach in the schools this next term. She expects to visit Chicago and the World's Fair before school opens. Mrs. W. J. Jones who has been visiting Dr. and Mrs. Stroup returned to her Kansas home with Miss Schnoor.

ENGRAVING—THE ADVOCATE

## SCOUT NEWS

A night in a Mexican casino will be the closing camp fire program Saturday night at Camp Mary White, Girl Scout camp in the Sacramento mountains.

Everyone will dress in Mexican costume, and as little English as possible will be spoken. A group of singers will serenade all campers after they go to bed.

Last Saturday three old time fiddlers lent added interest to the "Oldtimers' Night" program held in the camp.

Elza White, Sr., father of Miss Mary L. White, camp director, called square dances. A cowboy dinner, including barbecue and "hoecake" were served.

Girls in camp from Artesia are: Margaret Mahone, and Rachel Swift.

## HOPE ITEMS

Miss Frances Johnson, Reporter

D. E. Brownlie of El Paso, Texas is here this week visiting with friends.

Mary Louise Cole entertained a number of friends at her home with a lunch Sunday.

Earl Bynum is in the St. Francis hospital at Carlsbad recovering from an appendicitis operation.

Bernice Blakeney is in the St. Francis Hospital where she underwent an appendicitis operation last week.

Adine Shelton returned Sunday from Carlsbad where she has been spending the summer with her sister, Mrs. J. B. Leck.

Mr. and Mrs. John Rowland left Tuesday for Chicago to attend the Century of Progress exposition. They plan to be gone about a month.

Mr. and Mrs. Bill Glasscock have moved their home from the Swift apartment to the house occupied by Mr. and Mrs. Allen Johnson.

Joe Puckett returned to his home here last week after spending several days in Arkansas visiting friends and attending to business.

Gene Riley underwent a tonsil operation at the St. Francis hospital at Carlsbad Monday morning. Mrs. Riley brought her home Monday evening.

Wilhelmina Wilburn underwent an appendicitis operation at the St. Francis hospital at Carlsbad last Thursday. She returned to her home here yesterday.

Hoyt Keller, who has been visiting in Los Angeles, California returned to his home here Sunday evening, after visiting several weeks with his brother, Aubrey.

Frank Medcalf, of Valliijo, California is here visiting his father, W. S. Medcalf. He is a former resident of Hope. This is the first time he has been here in five years.

Mrs. Tom Runyan and sons, Edsel and Edmond and Mrs. and Mrs. Bryan Runyan, of Lower Pecosco left Saturday for Chicago to visit the Century of Progress exposition.

Miss Martha Scruggs and Miss Gertrude Van Horn, who have been here the past month visiting Mr. and Mrs. John Rowland, left Tuesday for their homes at Memphis, Tennessee.

Mr. and Mrs. J. D. Rice and daughter, Anna Maye, of Grants, returned Sunday from Mayhill where they have been visiting Mrs. Ira Scott and Mrs. Charlie Miller, daughters of Mr. and Mrs. Rice.

Betsy Parks, Frances Johnson and Max Johnson drove to Lubbock, Texas Monday and returned yesterday accompanied by Janet Parks who has been attending school at Texas Tech since January.

Mrs. J. H. Morriss, who has been here from El Paso for several weeks with her daughter, Mrs. John Klassen, returned to her home Monday. Mrs. Klassen and children returned with her to be in El Paso for several weeks.

Mr. and Mrs. Allen Johnson, who left Tuesday for Hobbs, D. E. Brownlie of El Paso, Texas and Frank Medcalf of Valliijo, California were honor guests at a picnic spread at the park Sunday afternoon. There were fifty present.

Mr. and Mrs. Allen Johnson and daughter, Mary Grace and Nettie Johnson of Loving, left Tuesday for Hobbs, where Mr. Johnson will be in the Hobbs school this year. For the past 8 years he has been an instructor in the Hope high school.

Mr. and Mrs. Ed Watts entertained at their home on their ranch above Duncan Saturday with an all-night dance. A barbecue with many other dishes was served. There were about 75 guests present from Roswell, Artesia, Hobbs, Weed, Pinon and Hope.

Mr. and Mrs. Anderson Young left Wednesday for Hamlin, Texas where they plan to visit Mrs. Young's parents, Mr. and Mrs. C.

## Dog Team Travel Is No Picnic for Passengers

Dog team travel is a strenuous matter for driver and passenger. Each dog is hitched to the sled, usually by a separate trace, and possibilities of disaster are numerous. Trails are narrow, often winding between rocks or through deep woods. The dogs weave in and out constantly, and every few miles icy traces must be untangled with bare hands. The driver must walk up every hill, and at the top be ready to fall on the sled before the frantic plunge down the opposite side. There are no springs in a "komatik" and bruises accumulate rapidly. Not the least hardship for driver and passenger is the aroma of dead seal meat which is carried for dog food. The dogs are guided entirely by the voice of the driver. Whenever the leader is in doubt he looks around for a directing gesture. In addition to the cries of "Hodi, Hodi" (right) and "Keepoff, Keepoff" (left), the Labrador driver incessantly "talks" to his dogs, to keep up their spirits and speed. This conversation ranges from promises of supper, and shouts of "look at the birds," to wordless gibberish which leaves a driver hoarse by the end of a day's journey.

## Antarctic Discovered by American Explorers

Commander Charles Wilkes in command of the American exploring expedition in Antarctic waters first sighted land January 19, 1840. Captain D'Urville in command of a French expedition sighted a high mass thought to have been land covered with snow on the same day. Actual land was not seen by the French until January 22, says Pathfinder Magazine.

Other explorers give full credit to Wilkes especially in view of the fact that D'Urville did not drop a day from his calendar when crossing the one hundred and eightieth meridian to make the time correspond with the eastern hemisphere, making the actual date of his seeing anything January 20. The United States has claim to the continent, as international law recognizes discovery as the prime test of ownership. If any question to the validity of the claim should arise it would probably be settled by international arbitration. No trace of man or land animals has ever been discovered.

## Alchemists Aided Science

Alchemy, the forerunner of the modern science of chemistry, was responsible for many of the basic facts known to chemists of the present. The alchemists labored, however, in a forlorn cause, for they sought to turn basic metals into gold and silver, but despite their best methods, they never succeeded. They employed a red preparation known as philosophers' stone which, they believed, would, if melted together with the baser metals, produce gold, while a white preparation was supposed to produce silver. This same magical substance was also given wide medical powers by the superstitious and was a sort of cure-all forerunner of some of our modern cures. The work of the alchemists mystified the populace and they were often suspected of possessing the powers of a wizard. Most of the ruling houses of the early centuries had alchemists attached to the royal household.

## Canada's Official Anthem

According to the department of the secretary of state at Ottawa, the only anthem which has official sanction in Canada is "God Save the King." It is always played and sung as the official national anthem. However, "The Maple Leaf Forever" is often called Canada's national anthem. It is known by almost every school child and is widely sung throughout the dominion. Another song which is widely sung and probably the most distinctive patriotic song among Canadians of French extraction is "O Canada." But neither "The Maple Leaf Forever" nor "O Canada," according to the department of the secretary of state of Canada, has official recognition.

## Opportunities

To the young men who think there are no opportunities for leadership today, I say that there are opportunities greater, more challenging than ever before in history. Great battles lie ahead of us, and in those battles the youth of today will have opportunities for service, honor, and a leadership no less courageous than that recorded in the book of "American Decorations."—Gen. John J. Pershing.

**"Buy American Made"**

C. Rowland and family. Audrey Rowland accompanied them to Hobbs where she will make her home this winter with Mr. and Mrs. Allen Johnson.

## Don't Let the Grass Grow

By OXLEY STENGEL

© by McClure Newspaper Syndicate. W.S.U. Service

"BETTER and better!" Ralph Wilcox exclaimed delightedly. "Why, I didn't believe you had it in you, Max!"

Max Crawford groaned aloud. "I say! Have a heart, can't you? Just because I tell you I spilled a cup of tea-like the clumsy ass that I was—spilling a dress and an afternoon for a pretty girl and generally making a fool of myself—you think it a huge joke."

"Drop a cup of it," Ralph corrected solemnly. His brown eyes twinkled. "Nevertheless wild horses couldn't have kept him away!" he exclaimed in an aside. "You see, she, the one-and-only-Girl-in-all-the-World, asked him to go. There is the answer."

"What of it?" Max demanded fiercely. "She's asked others, too?"

"What of it! That's what I'm asking you, curly head," Ralph returned. "Why, man, I didn't think you were so clever!"

"Clever in getting myself in messes, yes," said Ralph, "can't you let me alone?"

"Certainly, I can. But is it fair, I ask you, to begin a good love story and not finish it? I want to know how it is going to end."

Max did not follow his friend upstairs until the clock struck one. Had Mary really forgiven his clumsiness of the afternoon before? She had said so, of course.

On the 8:10 train bound for the city next morning Ralph made no mention of the tea and Max's part in it. For which Max was duly grateful. But as they were parting at the Grand Central station Ralph reminded him that he could finish "that story" on Sunday. "Don't let the grass grow under your feet," he warned. "Dinner at two, as usual. There may be company."

Acting on Ralph's advice, Max decided to call Mary up. He waited until evening, however. Miss Davis was out for dinner, he was informed to his dismay. That was Thursday.

On Friday morning Max was called out of town on business. He reached home late Saturday night. Too late to call Mary Davis! He tried at ten on Sunday morning. "Miss Davis is out of town for the week end."

Max started out and walked miles before catching the 12:32 for Tower Hill.

Max arrived at The Rookery just in time for dinner. Mrs. Wilcox greeted him cordially and ignored his silences. "Ralph is late, I'm sorry," she told him. "He drove down to the city early. He only said he would bring a girl home to dinner. I don't understand it at all. I thought—"

"I thought so, too, Mrs. Wilcox!" Max volunteered. Then in answer to her questioning look: "I thought Ralph was in love with Elizabeth Darrow—and she with him," he simply added.

Just then they both saw Ralph's car coming up the drive. It stopped in front of the plaza and Ralph jumped out. He was followed by a girl. Mary Davis! For a moment Max saw red. Then he realized another girl was being assisted out of the car also. Elizabeth Darrow.

Dinner was a wonderful feast. Max was seated next to Mary.

After dinner what was more natural than to wander over the hills to the Rookery with Mary? Ralph and Elizabeth had just disappeared.

It was nearing sunset. Max and Mary had been watching a sailboat on the Sound. Mary looked down at the carpet of green at their feet.

"Why, you can almost see the grass grow!" she laughed, tossing her dear brown curls out of her face.

"Oh, it mustn't!" Max exclaimed. "Stand on that rock, please, Mary!"

"What do you mean?" the girl was puzzled.

"I mean—I don't want to let the grass grow under our feet—I don't want to lose you, Mary."

Then he held out his arms and Mary's dear head was on his shoulder. He drew her close. It was their hour. A golden hour on a golden afternoon.

"Now, will you finish that story?" Ralph demanded when the two girls had gone upstairs with Mrs. Wilcox.

"Yes. And they lived happily ever after—thanks only to you! But how in the world, Ralph, did—"

"How did I find out about Mary? Easy. She and Elizabeth are friends, you remember. But even with your good start you surely needed help, old man!"

"I surely did!" Max grinned. "Thanks, pal. But congratulations are due you, too. All the happiness in the world!"

"Well, I go after mine! Here are the girls now."

## Firefly's Illumination Puzzles the Scientists

Once it was thought that phosphorus was the cause of the luminosity of the firefly and its larva, the glow-work, and the phenomenon was called phosphorescence.

But the substance of the luminous zones of these curious beetles has many times been exhaustively analyzed for phosphorus, without an indication of its being found, and the real nature of the firefly's glow remains a secret.

The key to the solution seems to lie in the fact that curious fats, oils and other substances exhibit luminosity when permitted to combine with oxygen in an alkaline solution. Just what takes place here is not known, but it is a form of combustion. In laboratory experiments the contact also produces a measurable amount of heat, while in the firefly and in luminous fishes and plants it does not appear to do so.

The light-producing organs of the firefly are unquestionably arranged to bring about this union of oxygen and a fatty secretion. The seat of the light is intensely luminous areas located in the abdomen or thorax. Each is a specialized portion of the fat body, a plate situated directly beneath the skin, and supplied with nerves and fine tubes connecting the trachea or windpipe.

The cells of these fatty places secrete, under the control of the nervous system, a substance which is burned during the appearance of light. This combustion takes place by means of the oxygen conveyed to the cells by the fine tracheal branches.

## Porcupine Does Not Hurl Quills at Its Enemies

That a porcupine throws its quills is a common error, made by Longfellow in his poem "Hiawatha" when he said: "From a hollow tree the hedgehog. With his sleepy eye looked at him, shot his shining quills like arrows." The quills are loosely inserted in the skin and may be detached by a violent shaking of the body or by contact with other objects. When attacked the porcupine thrashes about actively with its tail, often causing quills to be detached and embedded in the flesh of the attacker. John Burroughs says: "Touch his tail and like a trap it springs up and strikes your hand full of quills. The tail is the active weapon of defense; with this the animal strikes. It is the outpost that delivers its fire before the citadel is reached. It is doubtless this fact that has given rise to the popular notion that the porcupine can shoot its quills, which, of course, it cannot do."

## Running Water Not Always Pure

That running water purifies itself is one of our oldest sanitary axioms—and yet the suggestion it carries is entirely wrong, says "How to Live." Standing water purifies itself to a much greater degree and in a shorter time. Pollution consists almost entirely of solid material in particles of various sizes. In quiet water these particles settle out, carrying most of the germs with them. Running streams keep themselves constantly stirred up and any pollution they receive is carried for a long time. It is not wise, therefore, to trust water that comes from a pretty spring or waterfall. The only safe principle is not to drink from country supplies at all, or, if this cannot be avoided, to do so only after the water has been boiled.

## Prehistoric Burial Place

A prehistoric cemetery, which is believed to be four or five thousand years old, has been discovered at Anlesnes, on the outskirts of Paris. Workmen, digging the foundations for a new building, found in a bed of sand enormous blocks of stone and human bones. Many completely fossilized bones have been dug out and deposited at the Mairie. One interesting point about the discovery is that it shows the care with which our prehistoric ancestors buried their dead. One block of sandstone, weighing nearly two tons, indicated that men must have pushed it, probably on rollers, for many miles in order to make a worthy monument.

## Bees and Noise

Some beekeepers believe that any loud noise, such as shouting, ringing bells, beating pans, etc., will make bees settle. The Department of Agriculture has declared: "No one knows yet whether bees can hear or not, at least no one has ever discovered their hearing apparatus. A person is wasting his time when he hammers on a dishpan to bring down a swarm of bees." While it is a very old belief or superstition that bees can be made to settle by this means, it is at least questionable as to whether the bees hear any of the noise.

## Polarized Light

Polarized light is a condition of the rays of light, including those of the infra-red and ultra-violet parts of the spectrum, resulting in their exhibiting different properties in different directions. Ordinary light is due to vibrations transverse to the direction of the ray, but varying so rapidly as to show no particular direction of their own. When these vibrations are given a definite direction, light is said to be polarized.

## LAKE ARTHUR ITEMS

Miss Ella Ohlenbusch, Reporter

Miss Valdean Edington is visiting her sister on the plains.

Mrs. L. E. Dohner's mother, Mrs. Hadlock of Stanley, this state, is visiting here.

Miss Vallie LaPier spent Saturday and Sunday in Hagerman visiting friends.

Presiding Elder and Mrs. N. L. Linebaugh of Roswell were visiting in Lake Arthur Sunday.

H. A. Sims and daughter spent Saturday night in Roswell visiting Mr. and Mrs. Granville Sims.

Mr. and Mrs. Fred Hines are the proud parents of a baby boy born Sunday, August 13, at Artesia.

Mrs. Roper gave a very interesting program at the Methodist church Sunday afternoon. A large crowd attended.

Mrs. T. F. Schwarz was able to return to the D. Ohlenbusch home Monday from Carlsbad where she has been under medical care.

Mrs. W. L. Bradley left Friday for Carlsbad where she will visit her daughter, Mrs. I. R. Funk, who is suffering with rheumatism.

Mrs. George Walton, second grade teacher in the Lake Arthur school has resigned. The vacancy has been filled by Miss Maggie Lane.

Mrs. Len Gibson who has been in St. Mary's hospital at Roswell returned to the home of her parents, Mr. and Mrs. Ben McLarry Sunday.

Mr. and Mrs. Jim Spence and Mrs. Joe Price and baby motored to Albuquerque Monday, where the baby will receive medical treatments.

Mr. and Mrs. B. W. Knoll returned to Lake Arthur Tuesday from Las Vegas where Mr. Knoll was an instructor in the N. M. N. U. this summer.

Little Miss Georgia Benz of Carlsbad spent the past week with her grandparents, Mr. and Mrs. J. P. Shinneman. She returned to her home Tuesday.

The Church of Christ will begin a series of meetings next Sunday, August 27th at 10:30. Evangelist J. L. Musgrave of El Centro, California will do the preaching. There will be three services on Sundays.

Large crowds are attending the Methodist revival meetings. The Rev. Roper of Elida is doing the preaching. Mrs. Roper and Mr. Cummins have charge of the singing and the community orchestra is playing.

Mr. and Mrs. George Bryan and grandchildren Howard and George Ballinger left yesterday for their home in Pasadena, California. They expect to visit Mr. Bryan's sister in Sweetwater, Texas en route home. They have been visiting Mrs. Bryan's mother, Mrs. A. Russell and other relatives here.

Mrs. Fern Russell entertained Thursday at noon with a lovely dinner. Seated with Mrs. Russell were: Mr. and Mrs. George Bryan and two grandchildren, Howard and George Ballinger of Pasadena, California, Mr. and Mrs. J. B. Crook, Mrs. A. Russell and Mr. and Mrs. C. R. Nail and children of Hagerman.

Mr. and Mrs. Will Walden entertained with a birthday dinner Sunday honoring Mrs. Walden's mother, Mrs. A. M. Hedges' 79th birthday anniversary. Seated with the host and hostess were: the honoree, Mrs. A. M. Hedges, Mr. and Mrs. Ned Hedges and family, Mr. and Mrs. E. C. Latta and

## Meaning of Pyramid on Great Seal

The pyramid on the reverse side of the great seal of the United States signifies strength and duration; the eye over it and the motto allude to the many interpositions of Providence in favor of the American cause. The date underneath is the date of the Declaration of Independence and the words under it signify the beginning of the New American Era, which commences with that date.

## Courts-Martial

It is military practice to maintain secrecy concerning courts-martial, but, in his memoirs, recently transferred into English, Marshal Joffre says that while he was commander in chief of the French army he court-martialed 50 generals for offenses ranging from costly errors to cowardice. The number of officers of lesser rank was proportionately large.

## White House Aides

White House aides are chosen from the army, navy and marine corps. It is their duty to assist at receptions and also when foreign delegations make formal calls. The aides may be of any rank and their salaries vary according to their rank and position, but no special compensation is given for their services.

## First Patents Granted

The first United States patent was granted to Samuel Hopkins of Vermont on July 31, 1790. It was for a process of making pot and pearl ashes. The second patent was granted to Joseph Stacy Sampson on August 6, 1790, for the manufacture of candles, flour and meal.

## Monitor-Merrimac Fight

In the fight between the Monitor and the Merrimac there were virtually no casualties on either side. After Lieutenant Worden, the commanding officer, had been blinded as a result of a shot, the Monitor withdrew and the Merrimac steamed back to Norfolk.

## What The Darkness Holds No One Knows!

Don't be greeted by darkness when you enter your home at night. Let a shaft of cheerful light from your hall lamp greet you when you open the front door.

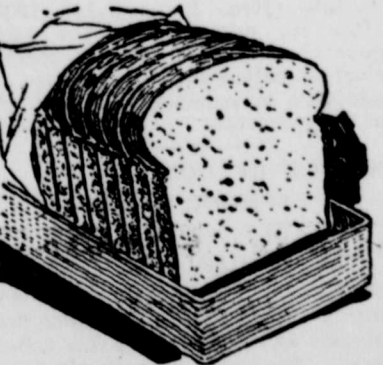

Then there will be no "spooky" feeling as you enter the house, for you can see what is ahead of you.

There should be a light in your home at night always. The cost of such service is almost insignificant—a penny for seven hours.

A 10-watt lamp gives a light all night for a penny and a half or less.

LEGAL ADVERTISEMENTS

NOTICE

State Engineer's Office

Number of Application Ra-1140. Santa Fe, N. M., August 9, 1933. Notice is hereby given that on the 21st day of July, 1933, in accordance with Chapter 131 of the Session Laws of 1931, A. A. Kaiser of Dayton, County of Eddy, State of New Mexico made application to the State Engineer of New Mexico for a permit to appropriate the underground waters of the Roswell Artesian Basin, the source of which is an abandoned oil well drilled by W. A. Scott, in the northeast corner of the west half (W½) of the southeast quarter (SE¼) of section 7, township 18 south, range 27 east, N. M. P. M. Applicant requests an appropriation of five hundred gallons per minute, the same to be utilized for domestic and industrial purposes.

Any person, association or corporation deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source may file a complete sworn statement of their objections substantiated by affidavits with the State Engineer and file proof of service of a copy thereof upon the applicant with the State Engineer on or before the 18th day of September, 1933, the date set for the State Engineer to take this application up for final consideration unless protested.

GEO. M. NEEL, State Engineer.

Proposed Constitutional Amendment to be submitted to the qualified electors of the State of New Mexico at the Special Election to be held September 19, 1933 pursuant to the provisions of SENATE JOINT RESOLUTION NO. 21.

THE FAMILY NEXT DOOR

What? No Fish?

per centum on the assessed valuation of the taxable property within such school district, as shown by the preceding general assessment.

Section 2. This amendment shall be submitted to the electorate for approval or rejection at any special election held before the next general election. If no such special election is held before the next general election, then this amendment shall be submitted at said next general election. 34-4t

Proposed Constitutional Amendment to be submitted to the qualified electors of the State of New Mexico at the Special Election to be held September 19, 1933 pursuant to the provisions of SENATE JOINT RESOLUTION NO. 21.

A JOINT RESOLUTION PROPOSING TO AMEND SECTION 2 OF ARTICLE 8 OF THE CONSTITUTION OF THE STATE OF NEW MEXICO, RELATING TO LIMITATION OF TAXES.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO: Section 1. That it is hereby proposed to amend Section Two of Article Eight of the Constitution of the State of New Mexico so as to read as follows: "Taxes levied upon real or personal property for state revenue shall not exceed four mills annually on each dollar of the assessed valuation thereof except for the support of the educational, penal and charitable institutions of the state, payment of the state debt and interest thereon; and the total annual tax levy upon such property for all state purposes exclusive of necessary levies for the state debt shall not exceed ten mills; Provided, however, that taxes levied upon real or personal tangible property for all purposes, except special levies on specific classes of property and except necessary levies for public debt, shall not exceed twenty mills annually on each dollar of the assessed valuation thereof, but laws may be passed authorizing additional taxes to be levied outside of such limitation when approved by at least a majority of the electors of the taxing district voting on such proposition.

Section 2. In the event of the passage of the foregoing resolution, the said amendment shall be submitted to the people for their approval or rejection at the general election in November, 1934; Provided, however, that in case a special election is held in this state prior to November, 1934, the said amendment shall be submitted to the people at such election. 34-4t

Proposed Constitutional Amendment to be submitted to the qualified electors of the State of New Mexico at the Special Election to be held September 19, 1933 pursuant to the provisions of SENATE JOINT RESOLUTION NO. 13.

PROPOSING TO AMEND SECTIONS 1, 12, 13, 16, 17, 23, 25 AND 27 OF ARTICLE VI OF THE CONSTITUTION OF THE STATE OF NEW MEXICO.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO: Section 1. That it is hereby proposed to amend Section 1, 12, 13, 16, 17, 23, 25 and 27 of Article VI of the Constitution of the State of New Mexico, said Article being entitled "Judicial Department" so that said sections are to read as follows:

Section 1. The judicial power of the State shall be vested in the Senate when sitting as a court of impeachment, a supreme court, district courts, and justice of the peace, and such courts inferior to the district court as may be provided by law. Section 12. The State shall be divided into twelve judicial districts and a judge shall be chosen for each district by the qualified electors thereof at the election for representatives in Congress. The terms of office of the district judges shall be six years. Section 13. The district court shall have original jurisdiction in all matters and causes not excepted in this constitution, including probate and juvenile matters as now exercised by the juvenile and probate courts of New Mexico, and such jurisdiction of special cases and proceedings as may be conferred by law, and appellate jurisdiction of all cases originating in

inferior courts and tribunals in their respective districts, and supervisory control over the same. The district courts, or any judge thereof, shall have power to issue writs of habeas corpus, mandamus, injunction, quo warrant, certiorari, prohibition, and all other writs, remedial or otherwise in the exercise of their jurisdiction provided, that no such writ shall issue directed to judges or courts of equal or superior jurisdiction. The district courts shall also have the power of naturalization in accordance with the laws of the United States.

Section 16. The legislature may increase the number of district judges in any judicial district, and they shall be elected as other district judges, but such increase shall be made only when the population of the district where such increase is proposed exceeds fifty thousand people, and the number may then be increased on the basis of one district judge for every fifty thousand people or fraction thereof actually enumerated in said district or officially reported by the United States Census.

Section 17. The judges of the district court shall receive for their services, a compensation, which shall not be increased or diminished during the term of their office. Section 23. Probate courts as distinct and separate courts are hereby abolished, and the jurisdiction heretofore vested in the probate courts of the State of New Mexico shall be vested in the district court.

Section 25. The State shall be divided into twelve judicial districts as follows: First District—Santa Fe, Rio Arriba and Taos. Second District—Bernalillo and Sandoval. Third District—Dona Ana, Otero and Lincoln. Fourth District—Colfax, Union and Mora. Fifth District—Chaves, Eddy, and Lea. Sixth District—McKinley and San Juan. Seventh District—Grant, Luna, and Hidalgo. Eighth District—Curry, DeBaca and Roosevelt. Ninth District—Valencia and Torrance. Tenth District—San Miguel. Eleventh District—Quay, Harding and Guadalupe. Twelfth District—Catron, Socorro and Sierra.

In case of the creation of new counties the Legislature shall have power to attach them to any contiguous district for judicial purposes. Section 27. Appeals shall be allowed in all cases from the final judgments and decisions of Justices of the Peace to the district courts, and in all such appeals trial shall be had de novo unless otherwise provided by law.

Section 2. This Resolution shall go into effect January 1st, 1937, after its approval at the next general election or at any special election called for the purpose of adopting or rejecting constitutional amendments. 34-4t

NOTICE OF COMPULSORY SCHOOL ATTENDANCE

The attention of parents and guardians of children of school age is called to the following provisions of the New Mexico school law. The school authorities of Artesia hope that no child will be denied the advantages of school during the coming year and will do all that is possible to make this a reality. Your co-operation with the Board of Education, Superintendent of Schools and the Attendance Officer are earnestly solicited in this matter. The attention of the public is invited to the following provisions of the New Mexico School Code: "Children between the ages of six and sixteen years, both inclusive, shall attend the public schools of the state for as many weeks as the Public Schools in the district in which such children reside shall be in session, except that children actually attending private or denominational schools maintaining courses of instruction approved by the State Board of Education, those physically or mentally unfit or incompetent and those residing more than three miles from the public school houses and to whom no free public means of conveyance to and from school are furnished shall be exempt from the provisions of the Act." 34-1t

APPEAL MADE TO HOWE TO STAY THE FENCE ORDER

SANTA FE—In the belief that Secretary of the Interior Ickes does not fully understand the complicated situation arising out of his recent fence removal order, the democratic administration in the state is making every effort within its power to have this order rescinded. While the interior secretary is carrying out provisions of a law passed nearly 50 years ago, the fact that New Mexico by special order has heretofore been exempt from this law, should entitle the state to special consideration at this time.

Land Commissioner Frank Vesely, acting with advice and encouragement of Governor Arthur Seligman, has appealed to Louis Howe, secretary to President Roosevelt, to intercede with Secretary Ickes in behalf of the state. An appeal to Mr. Ickes personally was denied on the contention that the order was based on law and the law should apply equally throughout the public domain.

Definite figures on number of miles of fence involved are not available, but G. G. Bywater, in charge of removal, states that there are over 300 miles of such fence. The administration should it fail in having the order cancelled altogether, will attempt to have the public domain withdrawn from entry of all kinds, except mineral, until congress meets and is given opportunity to provide adequate relief for local stockmen. The state will carry the fight directly to President Roosevelt in case Mr. Howe is unable to obtain relief requested through Secretary Ickes.

The Ickes order requires that all fences enclosing public domain be taken down. In New Mexico many of the large pastures contain one or more sections of public domain, but miles of fence might have to be removed in order to leave this one isolated section of public domain unfenced.

COUNTIES MUST MAKE EFFORT FOR CHARITY

SANTA FE—Every effort must be made by counties for charity before winter, or a special session of the legislature is inevitable, Governor Arthur Seligman has reiterated.

Some weeks ago the governor pointed out the conditions and he said then the legislature would have to be called if something was not done. Thursday, after conference with Miss Margaret Reeves, director of child welfare he renewed the position.

Some counties have not been levying the full half mill for indigent funds as provided by law. In fact only four counties have. They are Grant, Santa Fe, Chaves and Bernalillo. There was a reduction in Dona Ana county and all other counties remained at the same figure as last year.

Seligman said Washington was insisting each state do its utmost.

(Code '31, Chapter XI, Section 196). "Parents, guardians, and persons having control of children subject to the provisions of this act are hereby made responsible for the public school attendance of such children, and any parent, guardian, or person aforesaid who shall violate any of the provisions of this chapter, after any school authority shall have given public notice of the substance of the provisions of this Act, upon conviction, shall be fined not less than five dollars nor more than one hundred dollars or imprisoned in the county jail for not less than five nor more than ninety days." (Code '31, Chapter XI, Section 204). ARTESIA BOARD OF EDUCATION. 34-1t

CONSUMERS TO GET THE COST FIGURES

Consumers of farm products are to be furnished, in the near future, with weekly reports from the government on the reasons for any commodity price increases, and with information on who is getting the additional money. Field workers of the U. S. Department of Agriculture and the U. S. Department of Labor are to gather and report price figures, while the Washington agencies tabulate and analyze them, Dr. Frederic C. Howe, consumers' counsel for the agricultural administration, has announced. Dr. Howe intends to release the information on prices through the press, radio and special reports to groups and individuals.

The field staffs of the two departments will gather retail prices on bread, milk, meat and other food, in 50 cities and from more than 1,000 stores. In the department offices at Washington the prices will be checked and the portion that the farmer is receiving for raw materials will be determined. The reports will also cover any price increases resulting from the payment of higher wages and new employment, and will include any changes in prices of manufactured or other commodities that farmers buy. The latter item will provide an index of the buying power of the farmer.

"Farmers have too long been getting a small return for their labor in feeding us," Dr. Howe declared. "We are trying to increase their pay. At the same time we are going to do what we can to see that the consumers are protected at a time when the administration is trying to pull farmers and workers out of what President Roosevelt has called the 'economic hell' they have been living in for four years.

"Many of the manufacturers and distributors have declared their readiness to play fairly and

Here's One Good Way To END AGONY OF NEURITIS

Newark Man Knows How And Loses 10 Pounds

"Gentlemen: 'I used Kruschen Salts to try to get rid of Neuritis from which I had suffered for one year in my left shoulder and arm. . . . I took a little of the salts in the morning, sometimes in my coffee, other times in water. I would also occasionally take a dose in water at night before retiring. For 3 months I used the salts and while I lost 10 pounds in weight, the pain in my shoulder HAS ENTIRELY DISAPPEARED. During the time I was taking the salts I received no other medical treatment so I am fully convinced the Kruschen Salts did the trick.'" C. K. Murray, Newark, N. J.

Take one half teaspoonful of Kruschen Salts in a glass of hot water every morning—a jar lasts 4 weeks—get it at any drugstore in the world—costs but a trifle.

squarely with the administration in its efforts, while consumers are beginning to organize to insure fair dealing. In scores of cities in the last couple of weeks, Consumers' Councils have been formed, in many instances at the suggestion of the mayor. They are non-political and reflect consumers' interests. With these representative groups we will co-operate to the utmost."

WATER LEVELS HIGHER

Water measurement taken last week on the Berrendo north of Roswell by Clifford Smith, artesian well supervisor, indicated that the water level in that district has held up exceptionally well. Levels in that district are .8 of a foot higher than the corresponding period a year ago.

WILSON-ANDERSON TO START BUYING CREAM

Wilson and Anderson, local produce dealers will again start buying cream Saturday. Owing to the adverse market conditions, the cream station here was taken up more than a year ago, but now Messrs. Wilson and Anderson have arranged to buy for the Roswell Creamery and can handle your cream to an advantage, giving quick service with cash on the barrel head. See their announcement in this issue.

WANT FENCES ON PUBLIC DOMAIN INTACT

The Alamogordo chamber of commerce has sent an appeal to Secretary Ickes at Washington that all fences on the public domain be kept intact.

Buy Your Cotton Picker Sacks NOW!

AFTER September 1st there will be a Processing Tax placed upon all goods manufactured from cotton. This will amount to from 13 to 20 cents per sack. It will pay you to buy now.

Days We'll Never Forget

LOCALS

A daughter was born to Mr. and Mrs. Kirk Yeager Saturday.

Richard Westaway of Carlsbad county assessor was looking after duties connected with his office here Friday.

Mr. and Mrs. Carl Lewis and small baby were guests of Mr. and Mrs. Joe Clayton while they were in town Tuesday.

D. E. Brownlee passed through Artesia Tuesday en route to his home in El Paso, after a visit with friends at his former home in Hope.

Donald Pior, son of Mr. and Mrs. Ben Pior who was very ill for several days is rapidly recovering and is expected to be out in a few days.

L. P. Evans will go up to the Sacramento Camp Saturday and help Mrs. Evans close up their cabin for the summer. His family will return with him Sunday.

Dr. and Mrs. W. E. Womack and son, Paul and daughter, Ruth of Texarkana, Texas arrived Monday for a short visit at the home of their son, Dr. C. L. Womack and family.

Mrs. Sam Williams and daughter, Annadele, her mother, Mrs. T. C. Woods and sister, Mrs. H. J. Stromberg and sons, Stanley and Billie spent Sunday and Monday on the Ruidoso. Mrs. Stromberg and the boys left for their home at Ardmore, Oklahoma yesterday after a two weeks' visit with her mother and sister and family.

Sam Williams and his nephew, Stanley Stromberg, were Roswell visitors Tuesday.

Mrs. Roy Green of Roswell spent last week with Mr. and Mrs. Herman Green and children at their farm home.

Mrs. E. Watson who has been very ill was able to return from the St. Francis hospital at Carlsbad Monday afternoon.

The Rev. and Mrs. J. P. Sinclair and children who are visiting here from Caldwell, Kansas spent Tuesday in Roswell visiting with friends.

Mr. and Mrs. C. T. Porter and children of Corona left for their home last Saturday after visiting with her sister, Mrs. W. A. Jones and family for a week.

Mrs. Mary Abbott, Mrs. Howard Byrd and children and Miss Byrd drove over to Ft. Sumner Tuesday for a short visit with Mrs. Byrd's parents, Mr. and Mrs. R. E. Horne.

Earl Rhodes and Eugene Darter of New Bloomfield, Missouri are spending the week here as guests of Mr. and Mrs. William Batterton and their niece, Miss Wilma Robinson.

Messrs. Bill Mount and John Lanning drove up to the Ruidoso Sunday for Mrs. Lanning and children and Mr. and Mrs. C. Bert Smith. Friends of Mr. Smith will be happy to learn that he has shown considerable improvement in health during the past ten days.

FARM NEWS

The aphid, leaf hopper and leaf roller are causing very serious damage to grape vines and other vines around the house and flowers. Spraying should be done to control these insects and either of the following sprays will be found effective, says W. A. Wunsch, county extension agent:

No. 1—1 ounce pyrethrum, 1 ounce laundry soap, 1 gallon water, use soft water if possible.

No. 2—1 ounce black leaf forty, 1 ounce laundry soap, 1 gallon water. Use soft water if possible.

If no pressure spray is available this can be used in the ordinary fly spray. Spraying in the evening when it is quiet is most effective as the insects are hiding under the leaves and thus this kills most of them. By adding one ounce of lead arsenate this spray will be complete for both aphid and eating insects. It must be remembered that lead arsenate is poisonous and that if children are around or chickens are eating the leaves it should not be used.

Corn Preserved With Salt

This is a suggestion for those people who do not have a pressure cooker but who wish to preserve corn other than by drying.

Select corn in the roasting ear stage. Blanch in boiling water for ten minutes. Cold dip. Cut whole grains from the cob with sharp knife. To each six cups of corn add one cup of salt. Pack jars or crocks with layer of corn and then a layer of salt until jar is filled. There is no need to seal the jar, but care must be taken that corn is covered with the brine.

To prepare for table use, soak corn several hours in cold water. Change water a sufficient number of times until all the salt is removed.

When canning string beans the beans should be picked in the morning while fresh and should be canned as soon as possible. Many people make the mistake of washing the soil off the beans and rinsing the beans in the water and then pouring off the water. This should not be done as many times soil will remain in the bottom of the vessel and might get into the jars. The beans should be taken out with a spoon or the hands and removed from the vessel in which they were washed and placed in another vessel for stringing and paring. They should be pre-cooked for about five minutes then placed in jars and processed for 40 minutes.

Livestock Demonstration

There will be a livestock and grading demonstration at the Ned Shattuck ranch at Queen on September 6th. It will be an all day meeting and Mr. Shattuck is furnishing the barbecue. As usual the ladies will furnish the pies and cakes, etc., and a picnic lunch will be spread at noon. According to present arrangements Dr. H. L. Kent, president of State College will be present. Also J. K. Wallace specialist from State College Washington office and W. L. Black, extension livestock specialist from State College. Due to the rain a large number of people were unable to be present last year. All people interested in livestock, either as producers or feeders should make it a point to be present at this meeting.

Jelly

Good jelly can be made from many fruit juices, says W. A. Wunsch, county extension agent, if one understands the principles involved in jelly making and carefully follows them. To make good jelly, one must have a fruit juice that contains the proper kind and amount of acid and right amount of pectin, sugar in the proper proportion to pectin and acid, and proper cooking. If fruits are gathered during bright, clear weather, fruits contain less moisture and more pectin than when gathered in damp weather. One excellent means of increasing both the acid and pectin is to add the juice from tart apples to the juice that is lacking in one or both factors. Pectin can also be obtained by boiling the white inner portion of orange peel and straining it. Home made pectin extract may be added in the proportion of 1/4 to 1/2 cup to one cup of juice. Commercial pectin is available in both liquid and powder forms.

If acid is needed, the juice from tart apples, green grapes, or from citrus fruits, especially lemon juice may be used. One tablespoon of lemon juice can be added to one cup of other fruit juice.

The amount of sugar needed is determined by the amount of pectin present rather than by the volume of juice. The less the

NUDISTS FOILED

Tiny Shirley Eleanor Marsh and Jimmy Thatcher, Seattle youngsters, found luck against them when they attempted to launch a nudist colony on the shore of Puget sound, near Seattle. The minute State Patrolman Ben Rousch saw them he hauled out his summons book and then let them off with an admonition that clothes are still the thing.

proportion of sugar used to pectin the tougher the jelly, but the greater proportion the softer jelly.

To determine the amount of pectin present, put a tablespoon of cold fruit juice into a glass and add to it a tablespoon of denatured alcohol. If a thick, gelatinous precipitate forms, the juice contains a good deal of pectin. If it is a solid mass, one cup of sugar may be used for each cup of juice. If the mass is slightly broken, it is better to use 3/4 cup of sugar for each cup of juice. If only a small amount of precipitate forms, 1/2 as much sugar as juice is advisable. If only flecks of precipitate are formed, pectin should be added. Watch the test carefully as alcohol dissolves pectin in a short time.

Epsom salts may be used in a similar way as the denatured alcohol but the test is not as satisfactory and will not work for grape juice. To use, mix together one teaspoon of cooked fruit juice, one-half teaspoon of sugar and 1/4 teaspoon of epsom salts. Stir until all are dissolved and let stand fifteen minutes. If the mixture sets into jelly within this time, it is a good jelling juice.

After the sugar is added boil the juice vigorously. Stir well to keep it from scorching. When the jelly is finished, the juice drops off the spoon in a sheet. Pour it quickly into hot sterile glasses within 1/4 inch of the top. When the jelly is set, fill up the glass with hot paraffin. Put on the lids. Wipe glasses, label and store.

Tough jelly is caused by using too little sugar for the amount of pectin.

Gummy jelly is caused by overcooking, as long cooking tends to destroy the jelly-making power of the pectin.

Cloudiness may be caused by straining through too thin a cloth, by squeezing the jelly bag, by not skimming thoroughly, or by allowing the jelly to cool slightly before it is poured into the glasses. To avoid crystals in grape jelly the juice may be canned and the jelly made during the winter.

If you need other information on jelly making see, W. A. Wunsch, county extension agent.

ORIGIN OF THE BLUE EAGLE IS EXPLAINED

ALBUQUERQUE — Gen. Hugh Johnson, N. R. A. administrator, should be doubly sure of the success of his drive to increase employment over the nation inasmuch as his emblem, the blue eagle or thunderbird is the Navajo Indian's token of good omen, favorable weather conditions and good times.

The blue eagle, according to reports received here, was designed by Charles T. Coiner, industrial artist, after a close study of books and drawings borrowed from the Indian bureau in Washington. Coiner, himself, is understood to have admitted the blue eagle is the ancient American Indian emblem which had its true origin among the Indians of New Mexico and Arizona and is particularly prominent in the life of the Navajo.

Gen. Johnson selected the Coiner design after none of the emblems had pleased him. Because of the artist's selection of the Navajo design, New Mexico can lay full claim to the origin of the blue eagle.

Cranfill and Reynold, State No. 4-B, sec. 2-21-33 is drilling below 2,600 feet. The Texas Company, Lynch No. 3-A, sec. 34-20-34, is pumping 230 barrels daily following two acid tests made in the past few weeks. Two hundred and fifty gallons of fluid were used in the first test and 300 gallons in the next.

#### Chaves Promises— (Continued from first page)

sideration for the valley was made at a meeting of the Artesia Chamber of Commerce board of directors Friday evening, when it was voted to send W. R. Hornbaker and J. E. Robertson to Albuquerque Monday to confer with Congressman Dennis Chaves, relative to the necessary procedure to be taken to secure further consideration under the emergency act. Messrs. W. R. Hornbaker and J. E. Robertson returned from Albuquerque on Tuesday evening, where the previous day they had a conference with Congressman Dennis Chaves relative to the local situation. Congressman Chaves has promised to take the matter up immediately on his return to Washington the first part of September. Congressman Chaves was familiar with the situation, the same difficulty having been encountered in the Deming district and said he would take the matter up directly with Henry Morgenthau, farm loan commissioner. Messrs. Hornbaker and Robertson were gratified at the sympathetic understanding shown by Congressman Chaves and feel that their visit to Albuquerque and the subsequent contact with Mr. Chaves will bring definite results in the near future.

Mrs. Irvin Martin spent last week at the ranch home of her parents, Mr. and Mrs. Tom Runyan.

Mrs. A. T. Woods and daughter, Miss Emily and brother, Dwight Grant, expect to leave the first of the week for St. Joseph, Missouri where they will visit her sister, Mrs. Gayle Richmond and family. Miss Emily will enter the University of Missouri at Columbia in September. Mrs. Woods and her brother will probably visit the Century of Progress at Chicago before their return. They expect to be away for about three weeks.

ENGRAVING—THE ADVOCATE

#### HOBOES ADOPT CODE; FIX HOURS AND PAY

The silver anniversary of the hoboes of America convened in Chicago last week and lost no time in adopting the 'boes code of fair practices, says an Associated Press dispatch. The code provides: Hoboes will not wash dishes in a restaurant or work otherwise in a restaurant for a meal. No real hobo ever took a job away from a man with a wife and children. Pay for cleaning snow and ice off sidewalks shall be no more and no less than 50 cents an hour. Pay for shoveling coal shall be 50 cents an hour. Cleaning windows shall be worth 50 cents an hour or 10 cents for each window. 'Boes may chop wood on farms in exchange for a bed in the barn or a meal, but they shall not chop all day just for this, because it would compare to coolie labor.

#### EDITORS HERE

Harry Shuart, editor of the New Mexico Magazine and Orval Ricketts, editor of the Farmington Times Hustler and secretary of the New Mexico Newspaper Association, were in town Friday and while here were pleasant callers at The Advocate office. Messrs. Shuart and Ricketts are on a tour of the state together. Mr. Shuart in the interest of the state magazine and Mr. Ricketts representing the newspaper association to secure funds to send a representative to Washington to work out a national publishers' and printers' code under the N. R. A.

#### ENDORSE OILING OF THE LAS CRUCES ROAD

Directors of the Artesia Chamber of Commerce in a special session Friday evening, passed a resolution endorsing the oiling of a strip of highway 83 from Alamogordo to Las Cruces. Recently there was a controversy over whether the unsurfaced portion of the Alamogordo-El Paso highway should be oiled or whether the portion of highway 83 from Alamogordo to Las Cruces should be oiled.

#### BIG CROWD GOLFERS

About 100 golfers from over the state were ready to tee off this morning at Roswell, in the 19th state amateur contest. Eighty-five contestants were paired off in threesomes last night at a banquet and business meeting at the Roswell club house. More were expected to enter this morning. A heavy rain yesterday may slow the playing up some. Last night, T. C. Bird, A. C. Kimbrough and Scone were paired together.

#### LOCALS

M. E. Baish left yesterday on a business trip to Bartlesville, Oklahoma and other eastern points.

Mrs. J. J. Rodden of Roswell spent a short time here yesterday afternoon attending to business matters.

Irvin Martin, Paul Terry, Wailes Culpepper and S. O. Higgins are in the northern part of the state trout fishing.

Mrs. Blanche Williams of Bluffdale, Texas is here visiting at the home of her sister, Mrs. Ike Keller this week.

Mr. and Mrs. Lewis Story and children came in yesterday from a visit to the Century of Progress exposition at Chicago.

Mrs. Roger Durand and daughter, Miss Abbie drove up to Roswell Saturday to attend a matinee at one of the theatres.

Dr. and Mrs. C. L. Womack and children and their visiting guests Dr. and Mrs. W. E. Womack, Miss Ruth and Paul Womack of Texarkana, Texas enjoyed a picnic dinner at Sitting Bull Falls Tuesday.

Malcomb Mitchell of New York, who has been employed at the Malco refineries during the summer left this morning for his home. Mr. Mitchell is preparing to re-enter Yale University to study geology.

Miss Mildred Doss of Washington, D. C. arrived yesterday for a fortnight's visit with her parents, Dr. and Mrs. W. C. Doss. Miss Doss is librarian in the federal bureau of animal husbandry at Washington.

Mrs. W. H. Walsh left Sunday for her home in Kansas after visiting with her parents, Mr. and Mrs. J. S. Sharp for the last three weeks. She went with Mr. and Mrs. Louis Schnoor who will visit relatives in Sterling, Kansas.

Mr. and Mrs. R. G. Knoedler and family and Landis Ed Feather returned Sunday from a visit with relatives at LaHarpe and other Illinois points. They also spent a few days viewing the exhibits at the Century of Progress exposition in Chicago.

Mrs. Alethea Phillips and her daughter, Miss Margaret and her mother, Mrs. Hester Cutler who have spent the summer with relatives at Denver, Colorado and Lusk, Wyoming, are expected to return here the latter part of this month.

Mack D. Pior with his wife and small son, Robert of Amarillo, Texas stopped here last Friday for a short visit with his brothers, C. C., Roy, and Ben Pior and families. They were on their way to the west coast for a visit with other relatives.

Mr. and Mrs. Robert Wardlaw, Jr., left yesterday for their home in LaFayette, Georgia after spending a week here with Mrs. Wardlaw's parents, Mr. and Mrs. Tom Terry and other relatives. They will go by El Paso and other Texas points on the return trip.

Little Marjorie and Margaret Wilson, twin daughters of Mr. and Mrs. Harry Wilson of Pampa, Texas are here with their grandmother, Mrs. John Vogel. They expect to be here a number of weeks. Their father who was seriously injured in an accident recently is much improved.

Miss Bertha Richards returned Saturday from several weeks' vacation, in which she visited Miss Anna Mae James whose home is in Kansas City, and with Miss James visited the Century of Progress in Chicago. On the return trip Miss Richards visited with friends in Oklahoma City and was the honor guest at a number of social affairs.

Grumbler Helps No One  
The critter we can stand, for occasionally he drops a valuable hint. But heaven save us from the plain, ordinary grumbler. To him nothing is right. He doesn't know how to improve it. So he lives seemingly for the one purpose of growling at everybody and everything.—Grif.

Mr. and Mrs. E. A. Paton and children returned Monday from a five weeks' vacation spent visiting relatives at New Matamoras, Ohio and at points in West Virginia. They also visited the World's Fair in Chicago. Miss Irene Stewart, niece of Mrs. Paton, whose home is at Friendly, West Virginia, returned with them and will spend the winter here.

Mrs. Jordan Hale and three daughters, Mrs. Jasmine Birdwell, and Misses Eleanor and Lois Hale and her sister, Miss Lelia Jarvis and little granddaughter, Carolyn Birdwell stopped here Friday for a visit with Mrs. J. C. Floore and family. Mrs. Hale and Mrs. Floore are former class mates in school and have been close friends since girlhood days. Mrs. Hale and party had been to the Caverns and were on their way to their home at Troup, Texas.

#### Mountains Commonplace, but Sea Is Mystifying

To a man reared on the western prairie who for the first time goes down to the seashore, it seems an inexplicable mystery that he can reach a place where the land actually comes to an end—before his eyes. He has read about it, observes a columnist in the St. Louis Globe-Democrat, but nevertheless, there is the miracle; and usually he has to thoughtlessly get his shoes filled with the surf before he realizes the marvelous sliding powers of a rather innocent wave on the sand.

A commonplace soul will linger long by the sea, just looking. Mountains may be commonplace to him—made so by his western wanderings, but the ocean is not. And it never is, many times as he may afterward see it. One may climb over a mountain range and look down on the other side, but the seven seas have no end. They run the wide world around. Perhaps it is this sense of illimitability that so deeply impresses. It provokes the poetry, quoting it or writing it.

#### "Hansom Cab" Inventor Was Popular Architect

In 1833 Joseph Aloysius Hansom registered an invention with the British patent office—the drawings and model of "a one-horse, two wheel, safety vehicle"—and soon found a manufacturer for the article. So great was the demand that in 1840 he disposed of his patent at \$50,000. The patent was to become known all over the world as the "hansom cab."

Hansom was born in York in 1803, and was educated as an architect, and when he died, June 29, 1882, and was buried at the Church of St. Thomas of Canterbury, Fulham, London, he had been several times declared a bankrupt, but had nevertheless managed to design important buildings all over England, notably St. Asaph's college, Darlington convent, St. Walpurga's at Preston, and Plymouth cathedral as well as churches at Ryde, Dalkeith, Leeds, Ripon, Acomb and Manchester.

#### Beetles Live Under Water

"Beetles with their anatomy all organized for breathing air, yet which live under water and get air to breathe only once in their lives, have been found in the cold, swift brooklets in the Great Smoky mountains, between Tennessee and North Carolina," says a Science News Letter. Those curious insects, it is explained, hatch under water and there pass their entire lives, except for a brief period after they have reached the pupal stage when they come out into the upper air for a short flight to insure their distribution. How it is that insects that have no gills or similar apparatus and only a small reservoir of air under their wing cases can exist under water for months is a puzzle to scientists. That their oxygen requirements are very low on account of their inactivity is the only explanation that has been offered for this phenomenon.

#### Tea Plant Is a Tree

The tea plant is really a tree and left to itself will grow to a height of 20 to 30 feet, but scientific pruning keeps it to an average of three feet. This makes the young leaves and shoots more compact and accessible. The plants are perennial and the leaves are picked every 10 or 12 days throughout the year. The quality is determined by the part of the bush that is picked. That which is chosen from the buds and tips is called "flower." If young leaves are included it is orange pekoe. Then as subordinate in value, come pekoe, souchong, congou and dust.

#### First Letter Carriers

The First Congress of the United States convened March 4, 1789. On February 20, 1792, it passed an act to reorganize the post office system and to extend franking privileges to members of congress. The Second congress provided that "letter carriers are to be employed at such post offices as the postmaster general may direct, for delivery of letters, who may collect on each letter two cents, unless persons lodge in the post office a request that their letters be not delivered." The date was May 8, 1794, and the act was not repealed until 1872.

#### La Marseillaise Thrilling

The martial strains of "La Marseillaise" are always thrilling. It was composed by Capt. Rouget de Lisle, a young artillery officer, while quartered in Strasbourg in 1792. He wrote it one winter evening, and sang it the next morning to a group of friends at the home of Baron Dietrich, mayor of the city. It stirred the furor of patriotism whenever it was played or sung. The insurgents of the French revolution assembled at Marseilles marched on Paris to its straits, and chanted it during the attack on the Tuilleries.

#### Breathes While Drowning Prey

The breathing mechanism of the alligator is located so high on its head that this creature can breathe unrestrainedly while holding an animal under the water in its jaws until it drowns. The same is true of the crocodile. Their eyes being similarly located both the alligator and the crocodile can approach their prey almost unnoticed by keeping the rest of their bodies submerged.

#### Population of the World

There are many millions of persons on earth who are unknown to the census taker, so there are no reliable figures on the population of the world. But the International Statistical Institute of the League of Nations, at Geneva, estimated in 1930 that there were more than two billion human beings on the earth. In the United States there were 62,137,080 males and 60,637,965 females.

#### American Eagle on Coins

The American eagle was placed on the first coin issued by the United States in 1795. It was first adopted on the seal of the United States on June 20, 1782, against the protest of Benjamin Franklin, who regarded it as a Caesarian emblem and suggested the wild turkey as being more distinctively American.

#### Varieties of Pigeons

There are something like 200 varieties of the so-called "fanciers," among the varieties of pigeons. Included is the pouter, say nothing of the popular racing pigeons or "homers," and of those types that are bred chiefly because they are in demand for table use.

#### Find Old Art in Coblenz

Old mural paintings and a forgotten crypt under the altar were revealed by renovation of the ancient parish church of Moselweiss, near Coblenz, Germany. The crypt dates from the twelfth century when the church was built.

#### Economic Determination

Economic determination is the theory that all choices of action are the determined or necessary results of economic conditions; in other words, the result of the material conditions by which we are surrounded.

#### Battles Teach Us

"We learn by experience," said Hi Ho, the sage of Chinatown, "but no ancestor has succeeded in recording the experience clearly enough to make us seek progress by means of books instead of battles."

#### Entering Mexico

No passports are necessary to enter Mexico for a period not exceeding six months, but a tourist card, obtainable at Mexican consul office for about one dollar, is required at the border.

#### Should Spread the News

The Chinese have a saying that the maker of images does not worship the gods because he knows what they are made of.

#### Ought to Be a Critic

An English critic claims to have reviewed some 6,000 books in the past 40 years and to have read every one of them.

## MAJESTIC

SAT.—SUN.—MON.  
AUGUST 26-27-28

## What Can I Do To Help The

This answers the question, "What Can I Do To Help The NRA?"

Many of us are wondering why somebody does not do something about ending the so-called hard times, lack of employment and other troubles. It is easy to suggest that somebody else do something but that somebody else may be of the same mind. The proper thing to do is that every individual make up his mind that he will do something and then proceed to do it. The suggestion at this moment is that you buy what you need now, co-operating with merchants seeking to create employment in stores and factories by creating a demand for goods at this season, normally a dull month in the year. To spread buying evenly, is to speed work and employment and increase employment.

He who takes advantage of the present prices will save money in addition to helping the general recovery. And you who read this can co-operate by buying now and talking it over with friends. Now is the time to buy school supplies. Now is the time to buy clothing, shoes, etc., for prices are lower. Now is the canning season, buy fruits and vegetables for prices are low. Now is the time to buy household supplies, fur coats, cloth coats and cotton goods. Far more important than saving money is the fact that co-operating in a buying campaign now, by helping others, you help yourself and the general situation of the nation.

#### The Cotton Processing Tax

Also important to remember is that the federal government levied a processing tax on cotton amounting to 4.4¢ per pound. This tax will raise the cost of raw cotton going into merchandise you buy approximately 40 per cent. The processing tax will not be added to our merchandising stock until September 1.
