142 Men Are Employed On Projects Yesterday

Five Work Programs Are Started — Will Apply for Three More—Asks Cooperation of All the Farmers.

One hundred forty-two laborers were at work on the various civil works projects in north Eddy county Wednesday morning, it was announced at the Chamber of Commerce office. It was also learned that the Artesia Welfare board would likely ask for three additional projects under the civil works program. The projects to be applied for include the cleaning out and the conditioning of the Lake Arthur drainage district, located in north Eddy county, the improvement of a road from Lake-wood connecting highway 2. Improvement of the road from Lake-wood to the McMillan dam. Another project which may be included is the cleaning out and repairing of the Eagle draw, running through the north Artesia. These projects are expected to give twenty-eight men employment.

Not Enough Trucks
Shortage of trucks has hampered the starting of the work on some projects, Mr. Brainard said Wednesday. On that date seventeen additional trucks were needed. The pay is \$8.00 per day for a man and a truck.

Cooperation Urged
The Artesia Welfare board also urged the cooperation of the farmers in the communities under the civil work plans are under way. Communities must furnish twenty percent of the cost of such projects and so far the response has not been very great.

LOCAL GROCERYMEN MEET—FIX HOURS UNDER NRA CODE

Retail grocers of Artesia have approved the retail NRA grocery code. At a meeting Monday night, representatives of thirteen establishments met and discussed the code and established the weekly hours. Jess Truett, chairman of the NRA committee, met with the grocers and explained the purpose of the meeting. G. V. Price was elected chairman and Willis E. Morgan was chosen secretary. In the discussion of the store hours, the local grocers agreed to a weekly schedule of 6 1/2 hours. This will permit the grocery stores to open at 7:30 and close at 5:30 on week days and open at 7:30 and close at 9:00 p. m. on Saturday. The necessity of observing the 6 1/2 hour schedule was stressed, however, individual grocers are not bound to keep the opening and closing schedule as is now practiced among the local stores. Representatives of eleven stores voted the 6 1/2 hour schedule. Two stores represented did not vote. It was agreed to exempt Cave Brothers and McCann grocery from the provisions of the code as long as these firms catered to transients.

Jess Truett, chairman of the NRA committee, in addressing the grocers assembled, stated the interest shown at the meeting was very gratifying, but that some firms had not shown a willingness to comply with the agreement. He said, "So far as I can ascertain, the buying power which is with the consumers is in sympathy and accord with all business firms who have carried the burden of leadership and are endeavoring to comply with the agreement. In my opinion there is nothing to be accomplished by any person or firm who is not willing to give his or her wholehearted support to the president's agreement and the efforts of the local committee to carry out the same to the fullest extent."

Dr. C. L. Womack returned Friday evening from a visit to Fort Worth and Dallas, Texas.

DIPHTHERIA IS FOUND—FOUR CASES IN ONE FAMILY

Four cases of diphtheria have been reported in one Mexican family, living southeast of town. Of the four patients, three are adults. The Eddy county health department is endeavoring to prevent the spread of this disease. Dr. O. E. Puckett, county health officer, here on his weekly visit Tuesday, advised that all children be given a dose of toxoid by the family physician. He will be at the Central school next Tuesday to administer toxoid to those unable to pay the family physician for this service.

Medical science has developed a vaccination that will immunize the individual with one dose of toxoid and such vaccination is harmless to the individual, he said.

TWO CREWS WORK ON HIGHWAY NO. 83

Two crews of men are at work on highway 83 according to W. R. Eccles, district highway engineer, who is supervising the repair work. Approximately twenty-five men are at work this side of Maljamar, grading and draining the road. A ten foot surface of gravel will be applied to about seven miles of roadway. The bridge over the Pecos east of town will be repaired under the present schedule of improvements. As soon as this job is finished the crew will be transferred to the portion of the highway west of Hope.

A second crew of about twenty men are working on the Reeves hill on the Penasco. The road will be graded and drained to the forest line and the low places surfaced.

SURVEYING HIGHWAY 62
A group of engineers are surveying highway 62 leading east from Carlsbad to Hobbs, according to advices from Carlsbad. The survey is preliminary to making improvements on this route.

296 APPLICANTS FOR HOME LOANS GET APPROVAL

A total of 296 applications for loans have been approved by the federal home loan office, State Manager E. C. Robertson of Albuquerque announced Saturday. Total value on the loans is \$864,151.43. The amount paid out so far is \$143,612.76.

The new peak was made possible, Robertson said, because the home loan machine for New Mexico is gaining more speed every day. The first loan was made in October.

POLITICS IS WARMING UP OVER DISTRICT

Over in Lea county where politics has come to life and one candidate has announced for a county office, it is being talked that George Reese, district attorney of the fifth judicial district, may become a candidate for attorney general. Reese, a former resident of Lovington, has recently moved to Carlsbad and according to the Lovington Leader, it seems to be the unwritten law of the democratic party that its candidate for attorney general shall hail from the city on the Pecos near where the bats congregate. The precedent was set when Judge Armstrong of Carlsbad, now deceased, was nominated and elected to the office of attorney general. Since that time three men including the present incumbent, E. K. Neumann, have been elected from Carlsbad.

Lea county democrats point out that Reese would have nothing to lose should he become a candidate for attorney general. His present term of office does not expire for three years and should he lose the contest for attorney general he would still be the district attorney.

CLOTHING STOLEN

Mr. and Mrs. Roy Vermillion, who were called to Amarillo, Texas, last week by the serious illness of Mr. Vermillion's father, had the misfortune to have a suitcase of clothing stolen. They drove up to a hospital and left the car only a few minutes. Thieves ransacked the car in the meantime and took all the clothing and wearing apparel items to be found.

BANKERS MEET AT ROSWELL SATURDAY SUBMIT WORK CODE

Submit Bankers Code for NRA Approval; Service Charges in Prospect—Carrizozo Man Heads the Association.

Bankers of the Regional Clearing House No. 3 of New Mexico met at Roswell Saturday and discussed and adopted a uniform banking code for this district. A uniform code covering banking hours, rate of interest, methods of computing service charges were submitted to members of the NRA committee. The code was sent to the committee of the American Bankers Association who will approve or make recommended changes and the code in turn will be submitted to the NRA committee at Washington.

Details of the code will be made public as soon as approved by the administration. A uniform rate of charges will be used by all banks of the district. A guarantee fund for the national bank guarantee law of one half of one percent must be provided for. The initial cost of the new national banking law to the First National Bank here will be approximately \$2,000, but will vary from time to time according to the amount of money on deposit.

Bankers attending the meeting from the First National of Artesia included H. G. Watson, L. B. Feather, Fred Cole and William Linell. From the Otero County State Bank at Alamogordo: R. D. Champion and Jack Spence. From the Carlsbad National: E. Birch Harrison, Frank Snow and Roy Carey. From the First National of Carrizozo: E. M. Bickley. From the Lea County State Bank at Lovington: C. L. Creighton and Lester Alston. From the First National, Hagerman: W. A. Losey and R. W. Conner. From the Bank of Commerce, Roswell: R. H. Carter and Grady Southworth. From the First National, Roswell: Claude Hobbs, Floyd Childress, Jack Moore, Paul Schultz and Fred Bloxom.

TAXPAYERS MEET

A call has been issued for a meeting of the Eddy county taxpayers association at the court house in Carlsbad, Tuesday, December 5th. The purpose of the meeting is to elect officers and to attend to such other business as may come before the organization. Every taxpayer is invited to attend the meeting.

G. V. Price of Artesia, president of the association, said the meeting was an important one. Matters of interest to every taxpayer will be discussed and the association should have a full representation.

ARTESIA HAS A GOOD CHANCE OF GETTING MUNICIPAL AIRPORT

Artesia can have a municipal airport if the citizens want it. Fred Brainard, manager of the Artesia Chamber of Commerce, explained the plan Wednesday morning. The federal government will furnish all the necessary equipment incidental to an airport except the land. Citizens must either buy or lease the land. The government has appropriated \$10,000,000 for the purpose of constructing airports in small towns in an effort to encourage the buying of small planes. Airplane manufacturers have said they could manufacture a small plane for as little as \$700.00 provided they could get the volume of business.

TAX MEETING AT SANTA FE

Tax assessors, county commissioners, county clerks and municipal clerks have been invited to sit with the state tax commission at Santa Fe Monday, for a discussion of tax measures passed by the 11th New Mexico legislature. Other persons interested are extended the same invitation, according to Byron O. Beall, chief state tax commissioner.

BOSS OF ALCATRAZ

W. T. Fenton, who for 21 years has been warden of the Nebraska state penitentiary, will be boss of the new prison for major convicts on Alcatraz island, off the California coast. Warden Fenton's masterly handling of several difficult jobs in connection with the Nebraska prison recommended him to the federal authorities.

State and National Briefs of the News

No Crime No Debt
MONTONE, Texas—No crime, no bonded indebtedness and no cemetery. Such is the happy state of affairs in the 753 square miles of Loving county, Texas' youngest subdivision, organized two years ago.

Only one death occurred in the two years. A cowboy named Shady Davis, who had fallen off a horse in New Mexico, died here. There is no resident minister and only one lawyer. Thirty-nine law suits have been filed but no grand jury indictments have been returned since the county began functioning. It has 250 registered voters.

The county built its sheet-iron courthouse, 20 by 40 feet, for about \$3,000 cash. Its district school owes about \$3,000 on its cream stucco building.

Kidnapers Lynched

SAN JOSE, California—While a whooping, jeering crowd of 6,000 persons looked on approvingly, Thomas H. Thurmond and John M. Holmes, confessed kidnapers—slayers of Brooke Hart, were lynched at San Jose, California, Sunday night by a mob of 100 men who had smashed their way into the county jail after a two hour battle to seize the pair.

Thurmond, first to confess, was unconscious when dragged to St. James Park, 100 yards from the jail, partially stripped and hanged to a tree.

Holmes, powerful and adamant, fought for his life in vain against his swarm of executioners. Twice he wrenched his hands free and lifted the noose from his head, but the third time it was put there to stay and still kicking, he was yanked into the air.

In the glare of torches and flashlights the bodies dangled for half an hour or so—a macabre picture for the thousands who had assembled swiftly after the news of the lynching movement had spread through the city. Then the lifeless forms were cut down. The mob was satisfied and there was no further attempt to interfere.

Carlsbad Man Is Crushed at Dayton

A Carlsbad man, whose name was not learned, was critically injured Tuesday afternoon about 1:00 o'clock when crushed by concrete blocks while helping to tear down a building in Dayton. A heavy concrete block, which struck him on the head almost scalped him and he almost bled to death before medical aid arrived. He also sustained several bruises about the body when the concrete wall toppled on him. Dr. C. L. Womack, who was called on the case, said he did not learn the man's name.

FOOTBALL CURTAIN TO BE RUNG DOWN IN THE GAME TODAY

Annual Classic Will Not Be an Easy One for the Bulldogs—Few Regular Men May Be Out of the Lineup.

The Turkey day football game between Artesia and Carlsbad at the Brainard park today promises to be a real contest in addition to ringing down the 1933 football curtain for the Bulldogs. Notwithstanding Artesia has enjoyed a successful season up to the present time, the dope bucket has been upset more than once in the meeting of the two teams on Thanksgiving day. During the past four years, Carlsbad has won one game and three games have resulted in ties.

The Bulldogs, who have been without the services of Coach Allen several days the past week due to his illness, started a rigid training period Monday for the final game. Carlsbad has been practicing hard for two weeks in preparation for the Thanksgiving clash.

The Cavemen starting lineup for today includes: Farrell, end; Stiff, tackle; Hughes, guard; Buce, center; Britain, guard; Ingram, tackle; Bailey, end; Pope, quarterback; Winborn, halfback; Hughes, halfback; Schnaubert, fullback. Artesia's starting lineup: Williams, left end; Denton, left tackle; Cogdell, left guard; Brown, center; Conner, right guard; Holeman, right tackle; Rowler, right end; Champion, quarterback; Vandever, left half; Walker, right half; Chambers, fullback.

The game today is threatened to be hit by inelegibilities. Reports from Carlsbad say that four of the team may be declared ineligible. A like number here are also facing the same difficulty according to unauthentic reports caused by poor grades in school. Carlsbad, however, is coming prepared to shoot the works. And should the burden fall on some of Artesia's secondary men, a mighty battle is in prospect. These men want to make good and are willing to work hard.

PARKER'S PUBLIC SALE

H. V. Parker, living on the Epper farm, eight miles north of Artesia on the old highway and a mile south of the Cottonwood gin, will hold a public sale next Tuesday, December 5th. Mr. Parker is offering to the highest bidder for cash thirty-eight head of dairy cattle including seventeen cows and thirteen heifers, two teams of mares, three mules, four young horses, two mares and twenty-three shoats.

Mr. Parker is also offering a complete line of farming implements, a few household goods and seventy-five or eighty white leg-horn hens. Thos. McKinstry of Hagerman will auction the sale and H. G. Watson will act as clerk.

DROUGHT THREATENS THIRTY-TWO OF THE NATION'S 48 STATES

WASHINGTON—Farmers in 32 of the 48 states are faced with a drought which the weather bureau describes as the most general need for rain since the great drought of 1930.

This lack of moisture has been accumulating for the last five or six months, weather bureau records show, until the dryness has become acute in many states, and in other large areas is a handicap to fall farming operations and is causing a shortage of water for both man and beast.

"Precipitation during the fall season has been decidedly scanty," says the weather bureau, "and for some time there has been a need for moisture over much the greater portion of the country. State weather summaries show a nearly universal need of moisture to a greater or less degree. x x x."

FANNING ILL

John Fanning, well known Dayton rancher, was taken to the Eddy county hospital Tuesday in a critical condition suffering with a ruptured appendix. He underwent an operation on the same date and was apparently improved Wednesday morning, according to reports.

POTASH TAX HELPS BOOST THE COUNTY VALUATIONS IN 1933

According to a quotation from Richard Westaway in the Amarillo News, the total value of one potash company for taxable purposes is placed at \$806,906. The narrow gauge railroad of the United States Potash Co. is valued on the tax rolls at \$103,856, the refinery of this company at \$281,321 and the ore production and mine operation at \$215,139. No figures are available on the valuation of the mining properties of the Potash Company of America, now in the process of completion.

Andrew Dooley of Hillsboro, this state, is spending a short time visiting his brother William Dooley, Mr. Dooley reports interest in the mining activity of his district is still running high.

DOOLEY PROTESTS EMPLOYMENT RULES

In a letter addressed to the Hon. W. Frank Persons at Washington, director of the United States reemployment service, William Dooley of Artesia, chairman of the National Reemployment Service for Eddy county, has protested some of the present rules and regulations. Some of these regulations Mr. Dooley contends are impractical for sparsely populated areas as in New Mexico, particularly with reference to the necessity of filing applications through the county manager. A contractor located in one end of the county can not select his laborers from the registered list of the men who may be on the ground, but under the present ruling must file his application through the county manager, wherever the manager may be located. Mr. Dooley points out that in emergency cases such regulation often works a hardship on the contractor and asks that the regulation be changed. Mr. Dooley also protested the small expense account allowed the county manager to cover the county.

WALNUT CANYON PROJECT TO BE LET

Bids will probably be asked for within the next two weeks on the \$180,000 cavern highway construction job up Walnut canyon. Superintendent Thomas Boles of the Carlsbad Caverns National Park, announced Monday.

Money was secured for this work several weeks ago, and work has been awaited anxiously for the start of this project due to the large number of men to which it will give employment.

TRUETT WANTS A DISTRICT PRIMARY

J. L. Truett, Eddy county democratic chairman, says he favors three counties of the fifth judicial district holding a primary on the same date this year. Mr. Truett said Tuesday he would communicate with the democratic chairmen of Chaves and Lea counties and if agreeable the three counties could meet and set a date later, preferably in August. This would give each county time to complete its registration list, which is usually finished some time in July.

U. S. POTASH CHANGES WORKING SHIFT PLANS

C. A. Pierce, manager of the United States Potash Company at Carlsbad, announced last week that there would be a consolidation of the shifts at present working in the mine and mill of the company holdings.

The usual three shifts will be consolidated into two shifts and the men working on these shifts will work only four days a week, Pierce said.

SPEAK AT HOPE

Otice Brown and Fred Brainard met with the citizens of Hope Tuesday evening and explained the civil works project which will be undertaken in that community.

Projects Are Approved For North Eddy County

The Civil Works Board Approves Four Road Projects and Four for City—Gives Payroll of About \$12,000 a Month.

Eight projects for north Eddy county under the civil works program were outlined by Fred Brainard, manager of the Chamber of Commerce, at a meeting with the City Council, Cemetery Association and the Artesia Welfare board Friday evening at the Artesia hotel. Mr. Brainard, with Arba Green, G. R. Brainard and Otice Brown, attended a meeting with the civil works board at Santa Fe last week and remained at the capitol city until all projects asked for were tentatively approved. At the Santa Fe meeting Eddy county was allotted a quota of 284 men for the various projects.

For now until the 15th of February, at which time the projects will be ended, the eight programs for north Eddy county is expected to supply a pay roll of approximately \$12,000 per month. Unskilled labor in the urban section will be paid a wage scale of forty cents per hour and skilled laborers may be paid as high as \$1.00 per hour. Road workers will be paid a minimum wage scale of fifty cents per hour for a thirty-hour week work schedule. Sixty-five percent of the cost of the various projects must go to labor. Communities in which the work is undertaken are asked to supply twenty percent of the cost of the work.

Among the projects requested was improvement at the Wood- (Continued on last page, column 3)

BULLOCK IS ELECTED PRESIDENT OF AREA BOY SCOUT COUNCIL

E. B. Bullock of Artesia was chosen president of the area council of the Boy Scouts of America at the annual meeting in Roswell Friday to succeed Governor A. W. Hockenbuhl. Other officers elected were Governor Andy W. Hockenbuhl, president emeritus; F. L. Austin of Roswell, first vice-president; M. B. Kuntz, of Clovis, second vice-president; G. C. Sparks, of Portales, third vice-president; C. G. Mason of Hagerman, secretary; George E. Jewett of Roswell, treasurer; Major L. B. Plummer of Roswell, commissioner; J. B. Morris of Carlsbad, national representative.

The business session in the afternoon was held in the Roswell Women's club building and the business session was followed by a banquet. New members of the executive board chosen were Jack Haven and Warren Cobean of Roswell; J. B. Morris of Carlsbad; W. G. Head of Clovis; C. J. Dexter of Artesia; E. A. Hunt of Portales.

P. V. Thorson, area Scout executive, spoke on the subject of "Goals of the Future," describing the ten year program on scouting which is now under way. Two Scout awards for meritorious service were made to Albert Stubbs of Roswell on the ten year award and Major Plummer of Roswell received the fifteen year award. Owing to the conflict with warfare work over the state, the attendance was not as great as anticipated and a call meeting of the executive committee will be held later, it was said at the close of the meeting.

Attending from here were: E. B. Bullock, Dr. H. A. Stroup, R. G. Knoedler and son Russell, S. W. Gilbert, Armond Loving and C. J. Dexter.

Officials voted to change the official Scout year to end January 1st instead of November 1st.

Mrs. Walter Douglas arrived yesterday from Albuquerque where she has just completed a three months training course in the San Jose Training School.

IN THE HOLE

Ex-President Hoover was the target for a lot of uncalculated criticism previous to March 4th, just as Mr. Roosevelt is beginning to be since that date. Some men pull themselves into a hole; others are steered into it. The latter was the position of Mr. Roosevelt when he took office March 4th. Fast and furious action was demanded with little thought of the consequences. Now some of the folks are taking about the same attitude as the sand lot baseball fan, who expects the home team to win every game without a bobble. Nothing but a super-human can show the results some people expect.

And incidentally some people are expecting a lot. They are expecting nothing short of a miracle from the government. We used to think the government was formed to protect the rights of the people. Now those who would lean heavily on the government, demand not only protection but material sustenance as well. And if permitted to have their way, we as a nation, would show up Russia within less than ten years.

A lot of things attempted by the administration have been experimental. President Roosevelt has been frank enough to tell us that. Under these circumstances it would be unfair to anticipate 100 percent results from all of the undertakings.

And again there are a lot of things the success of which are in the hands of the public, for instance the NRA.

THE OPPORTUNITY

Citizens of Artesia and north Eddy county as well as other communities nearby have an opportunity to make your community a more desirable place to live, through the civic and public works program. Public spirited citizens have been alert to our needs and have secured out quota of public works to meet a need for employment. This is a splendid start, but it will be up to the people as to how well the job is finished. We can make the dollars spent by the civic works commission yield us a hundred cents or sixty cents, depending on our willingness to cooperate. Communities in which the work is undertaken are asked to furnish twenty percent of the cost of such projects. We can go even better than this and receive returns in proportion to our efforts.

Desirable citizens are not satisfied with community standards such as were maintained twenty or thirty years ago. They demand public advantages equal to their standard of living. It is wasted energy to attract a high type of new people to a community when we have nothing to offer in the way of civic improvements.

During the past ten years, what development has been made here has been stable, but in this time we turned down one opportunity that may never return. What can we say at the end of the next ten years? Will it be a period without regrets?

THE SEASON OF THANKSGIVING

The season of Thanksgiving which we commemorate today will have a real meaning to many people; to others it will be just another occasion to celebrate. In reviewing the material blessings, which have been bestowed upon us, many will no doubt feel an inclination to find fault rather than be thankful for the position we occupy. It is true numbers have suffered reverses during the past year and have witnessed material wealth vanish, but we still have health and we ought to have a will to do.

When the season of Thanksgiving was first commemorated, the Pilgrim fathers were facing a future of uncertainties. Their position was far more perilous than that we generally face at the present time. They were starting from "scratch" as it were in a new country. Possibilities with them were largely experimental. They realized they held their own destinies largely in their own hands. The prospect held only hopes for the stout hearts, but with a stout heart and a determination, which the modern generation seems to have largely lost sight of, the Pilgrims found time to pause and give thanks.

A CREDITOR NATION

Possibly you have heard about how hard hearted a creditor can be, but it has not worked that way with Uncle Sam, who has tried to look after too many cousins in Europe during the time we thought we were having prosperity. When Uncle Sam quit acting a sorter Santa Claus, debtor nations began to look out for something to hate us about, just as the creditors of a merchant develop a dislike for the merchant when paying time comes around and the debtor decides he does not want to pay. As result of our generosity we have become the most cordially disliked nation among the seventy odd countries.

Now we are trying to bring prosperity home by the controlled monetary system, but the goods we have to sell the debtor nations won't buy, unless we'll loan them more money to buy with, so it looks as though we'll have to develop a market all of our own or else just wait and let nature take its course. Maybe as the cotton men would say we are on the second leg of the inflation program.

The Tucumcari News says:

And one of the things that got us where we are was that when we drew \$25 a week we paid our bills; at \$50 per we began to charge it; and at \$75 we just quit paying.

Maybe ex-secretary of the treasury Woodin, who is quite a musician, will publish his swan song now that he's resting.

It's a mighty sturdy building that stands until the last bond issue for its construction is paid off.

No newspaper is worth two hoots in a barnyard that never steps on anyone's toes.

A full week's pay for half a week's work is just plain dishonesty.

A man failed in business. With his head down he departed from his store and went home, where to his wife, he said: "A receiver has been appointed for my business." "Why, isn't that lovely, John; and when will he hold his first reception?" his wife exclaimed. Can a woman really be that dumb?

A city woman, somewhat uptight, went to the country to visit her cousin. "Is there any society in this neighborhood?" the city woman asked. PROCLAMATION

Executive Office,
Santa Fe, New Mexico,
November 28, 1933.

To the Public:

A health survey will soon be undertaken throughout the state by the New Mexico Tuberculosis Association, with special reference to tuberculosis, and in this important service, the association has secured the cooperation of the National Tuberculosis Association, the American Public Health Association and the American Social Hygiene Association.

In order to carry on this survey which is of vital importance to the health of our people, the New Mexico Tuberculosis Association will place on sale Christmas seals between Thanksgiving and Christmas for the purpose of raising funds to further the work. I earnestly urge that this Christmas Seal sale be generously patronized by the people of the state. I suggest that all children be taught the purposes of this sale so they may gladly put aside a portion of their Christmas pennies for these seals with the understanding that they are contributing to a great constructive enterprise of untold benefit to the future citizens of the state.

Respectfully yours,
(Signed) A. W. HOCKENHULL,
GOVERNOR.

5,000 IN FORESTS

Between 4,000 and 5,000 residents of New Mexico will be employed on national forests in the state when the forest service puts its quota of civil works men into use, according to figures obtained from Regional Forester F. C. W. Pooler.

One thousand are now at work on fence building, road or trail work, and other improvements financed by N. I. R. A. funds. That work has been under way since September.

An additional 2,100 New Mexicans are in the C. C. C. winter camps. While a quota of 2,000 for civil works on New Mexico forests has been mentioned, distribution of the national quota among states may reduce this to 1,000 or 1,500. The lowest figure would make a total of 4,100 men given emergency relief work in this state by the forest service.

The forest service civil works force will be in addition to the 8,250 men allowed New Mexico for civil works in cities and counties.

WAKE UP YOUR LIVER BILE—WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rinin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounces of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes three good, old CARTER'S LITTLE LIVER PILLS to get these two pounces of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't take for liver pills. Ask for Carter's Little Liver Pills. Look for the name on the red label. Resist a substitute. Buy at drug stores.

ARMY HERO HOME FINDS WIFE WED

Shell Shocked War Veteran Regains Memory.

Vienna.—It took Joseph Meirer, sergeant in the Austrian Eighty-fourth Infantry, fifteen years to get home after the war.

He walked into the Vienna police headquarters, snapped to salute and reported his return, the last Viennese prisoner of war.

A week before the armistice was signed, Sergeant Meirer, while on outpost duty, was buried by a sudden explosion. He was dug out senseless by French sappers and carried to one of their dressing stations, where it was found that he had lost power of speech and memory.

After eighteen months in French hospitals he finally found himself in a Moroccan military cantonment. There he began slowly to recover the power of speech. He was dismissed half cured after several months.

He worked for a time as a helper in a French munitions plant. Later, he says, he was back in Tunis working as a master mechanic. In the meantime he had learned French perfectly and was quite satisfied with his job.

In Meirer's twisted account there appears to have been an interim when he was a fireman in the crematory at Sidi Bel Abes. Then he got a job as fireman on a freighter bound for Singapore.

It was there in February, 1932, that his memory came back to him naturally and without the usual attendant strain.

Stranded and without a cent, he finally reached Constantinople from there he walked to Vienna.

Meirer's wife is now married to another man. His children refused to recognize him—shabby, stuttering, old—their war-hero father. His friends have moved away. His job is gone.

He is no longer a man without a country, but he finds little happiness in it.

Expert Says Rattlers Strike Without Warning

Post, Texas.—Rattlesnakes don't always rattle a warning before they strike, says J. E. Adams, who has hunted them for ten years.

A rattler will run a few yards from trouble then turn and fight until he is dead, Adams has observed. Young snakes will run into the mouths of their mothers when frightened, he said.

During his ten years at the dangerous sport Adams has had many of the poisonous snakes strike at him, but none has ever bitten him. Many have brushed his head or his hand as they have struck and missed.

His only weapon is a 7-foot pole with a hook on one end and two prongs on the other. He catches the snakes for museums, circuses or laboratories. It is no trouble for him to get a dozen or so of them.

He carries no serum for emergency. His pocket knife would be his only medicine—to "slash the affected part and let the poison out."

VESLEY SAYS CAVERN BELONGS TO NEW MEX

SANTA FE—The Carlsbad Caverns belong to the state of New Mexico, and not to the federal government, according to Frank Vesley, state land commissioner.

Delving into the question, Vesley found the enabling act by which New Mexico became a state and through which it obtained its area, expressly forbids transfer, exchange, sale or lease of any of the school lands as defined by the act, except at public auction and then only to the highest bidder.

This procedure was not followed in giving the federal government the land which comprises the caverns. The late President Coolidge by proclamation named certain areas national monuments. Included in these was the caverns land.

That same year, the New Mexico legislature passed an act deeding this property to the federal government for the monument. This act is only a scrap of paper, Vesley finds. It has no merit.

Vesley says he has been roundly criticised for taking the position the caverns belong to the state. "Understand," he said, "and make it plain and clear—I think the federal government should have the caverns and should maintain the national monument there. At the same time, that property is a school section and the schools need money. They could use the profit that comes from the caverns."

"Now I have an alternative. Let the federal government give us 3,000,000 acres of the 16,000,000 of public domain in New Mexico in exchange for the caverns. At three cents an acre for grazing, the schools would get \$90,000 a year. Now they get nothing."

Title to Section 36, location of the caverns, was vested in New Mexico in 1885. It was reserved to the territory in 1850. Specific detail for disposition of this, and similar school property, is set out in the enabling act.

An amendment to the state constitution and an act of congress will be necessary, Vesley is advised, to properly exchange the caverns for the 3,000,000 acres of public domain. If these two are not passed, then title to the caverns reposes with the state.

TEN COUPLES SECURE LICENSES TO MARRY

November 25 was one of the busiest days in the county clerk's office at Carlsbad, says the Carlsbad Current-Argus.

Ten marriage licenses were issued Saturday. The licenses were issued to P. P. Cooper and Weala Nail of Lubbock, Texas; H. E. Timon and Alvina Bartz, of Fort Stockton, Texas; Alvin H. Groves and Ouida McKenzie of San Angelo, Texas; Archie Crabb of Carlsbad and Grace Bradley of Hice, Texas; William Arrington and Nona Marie Richmond of Carlsbad; Ernest Millman and Veva Lewis of Artesia; Otis Latham of Weed and Verda Joy of Elk, and Candelario Pinedo and Santiago Ortiz of Loving.

THE GEET

Here's a new type of livestock, developed in a cross between a sheep and a goat. The following clipping from the Midland, Texas, Reporter-Telegram may be of interest to local sheepsmeat:

Some call it the "Geet." You can call it what you want to. It is a cross between a billy goat and a not too self-respecting ewe. It is about a year old, lively and ready for anything.

T. D. Wood, whose ranch lies between Ozona and Sonora, has led in experimental cross breeding of goats and sheep and has successfully raised forty of these animals. It grows both mohair and wool, but that doesn't mean anything, for mixing them makes both practically worthless. So the "Geet" is of no commercial value from that standpoint. The wool grows to about the length that you will find on the ordinary sheep while the mahair fibres grow faster and push ahead of the wool.

The "Geet" might be good eating. We've never tried a "Geet" chop but figure that a chop from this animal would come closer to being a lamb chop than some sold in the butcher shops. So don't jump on your butcher the next time he is selling you a lamb chop—Maybe he's half right.

A good way to get called a liar right off a few years ago was to say that goats and sheep could be crossed. Don't let them back you down now. It's been done and Mr. Wood has the proof.

It's something like the animals the sheepsman dreams about after a big celebration.

Owen Haynes arrived last Thursday with his wife coming from Eden, Texas, they are located in the Ragsdale apartments. Mr. Haynes is a nephew of the three Richards brothers. He has employment with the Guy Chevrolet Co.

Pagoda Replica Is More Valuable Than Original

A miniature reproduction of a famous Chinese pagoda has the unusual distinction of being valued at an amount that may be greater than that of the original structure.

This particular miniature was painstakingly carved out of a solid piece of green jade and is one of the finest and most valuable pieces of art in the world. Although this pagoda of jade is only 4 feet and 5 inches high, its total value is estimated to be \$1,000,000.

The pagoda, which is a familiar type of architecture in China, India and other parts of the Far East, is a building constructed somewhat in the shape of a pyramid and used for sacred purposes. These many-sided towers which are familiar sights in Buddhist countries, are also used as store houses for holy relics.

The word pagoda was introduced in the Sixteenth century by Portuguese adventurers in India, and results from a phonetic spelling of a Persian word, "but-kadah," which was the name of a house for an idol.

The name pagoda is also given to a gold-plate worth about \$1.75, and once current in southern India. It was the name of this coin that gave rise to the expression, "the pagoda tree," a synonym for the "wealth of the Indies."

Peacock's Gorgeous Tail

The gorgeous tail of a peacock, like the wings of most butterflies, has no color made into dyes. The brilliant color scheme, explains a writer, is merely the concentrated effect of myriads of miniature rainbows. The surfaces of a peacock's feathers and a butterfly's wings are covered with millions of tiny prisms. The rays of white light from the sun passing through them are broken up into the seven colors of the spectrum, and it is the blending of these before they excite the nerves which control sight that produces the mental picture of a peacock or a butterfly. Just as no two people see precisely the same color scheme in one rainbow, so the color pattern of a peacock or a butterfly is different to every person who sees them.

Origin of "Hot Dog"

Although the making of sausage has not attracted the attention of historians, we know that the name "frankfurter Wuerstchen" originated from the fact that these sausages have been made according to a particular recipe for over eighty years as a specialty in Frankfurt, Germany. Frankfurt was the first town to make sausages for simmering. Undoubtedly this is how the name frankfurter originated. In Frankfurt they still make their Frankfurter Wuerstchen according to the recipe of their grandfathers. While the first recipe includes only pork, the frankfurter as made in America contains selected beef as well as pork.

Police Man Arctic Posts

About half of Canada's Eskimo population is in the eastern Arctic and over 1,500 of these natives are on Baffin Island. At all the Baffin Island posts, therefore, there are trading stations, but the islands farther north have scarcely any permanent native population and the posts there are purely of government administrative purposes and are manned by the Royal Canadian mounted police. From these posts extensive patrols are conducted. The government posts in the eastern Arctic are visited annually by steamship by an expedition sent out by the department of the interior.

FOREST NOTES

Camp At Mayhill Started

The CCC camp at Mayhill was occupied the latter part of last week by a contingent of young men from the Santa Fe forests, about 200 in number. They are in charge of Capt. Hilton, of the U. S. Army. Mr. Roy Hunter is work superintendent. The barracks were about completed when the men arrived and the winter program of work has already been begun.

Highway Equipment Moved

After using the state equipment on betterment of about 20 miles of road from Weed to Agua Chiquite it has been turned over to the New Mexico highway department and will be used on a \$25,000 project from Elk east on highway No. 83. During the time the forest service had it the road between Weed and Agua Chiquite was improved and 11 cattle guards were placed on the 20 mile stretch.

Work Program Started

S. Strickland, assistant supervisor, is at the Mayhill CCC camp this week assisting in getting the work program started.

Roger Morris, assistant supervisor, is in Lincoln county this week assisting in the program of NRA work. Ten crews are at work on the Lincoln division.

BALLOON ASCENDS 61,237 FEET

WASHINGTON—Calibration of the barometer carried by Lieut. Commander Settle in his stratosphere flight showed that the balloon ascended 61,237 feet last week.

The National Aeronautic association said the figure would be forwarded to the Federation Aeronautique Internationale as a new world height record.

Soviet stratosphere balloonists claimed a height of over 62,000 feet but Russia is not a member of the federation and the mark is not officially recognized. The official record now is 53,153 feet, set by Auguste Picard, the Belgian.

GRANT TIME FOR SB 144 HEARING

An extension of time has been granted by the supreme court for filing a motion for a rehearing in SB 144, the new delinquent tax law referendum case, allowing up to December 9. The time originally would have expired November 28.

The motion for the extension was filed by former Gov. A. T. Hannett.

Smart buyers ARE PUTTING ON NEW GOODYEARS Now!

FIRST for non-skid safety and protection against trouble on winter's slippery, darker, colder roads.

SECOND for greater mileage. New rubber wears longer on cool roads. Goodyears put on now will still be almost new next spring.

THIRD for low-cost economy. Most Goodyears today are still lower-priced than a year ago.

Good reasons, these, for buying now. Why not trade us your troubles before they happen?

Most sizes as low-priced as a year ago—yet you get a 20% thicker tread with Full Center Traction and greater mileage.

REPEAL WILL NOT AFFECT UNIVERSITY

ALBUQUERQUE—Repeal of the national dry laws on December 5 or 6 will not have much effect on the present customs and traditions of the University of New Mexico.

At the present time, the state university has no written rule prohibiting the drinking of liquor at university functions, but it has always been a tradition among the students that no liquor of any sort be served or brought to authorized school functions. It also has been an unwritten law that any student, man or woman, caught conducting himself in a disorderly fashion either because of intoxication or for any other reason, shall be summarily dismissed from the university.

When asked what effect the repeal of the national prohibition law would have on the faculty's policy toward drinking, Dr. James F. Zimmerman, president of the school, said as far as he knew there would be none.

Rainbow Arch War Memorial

In a huge former power house in New York George Grey Barnard the sculptor, exhibited this full-size model of his rainbow arch war memorial, begun on Armistice day 15 years ago. The arch stands 100 feet high and 60 feet wide. The 42 figures of heroic size now appear in plaster; the body of the arch, which eventually is to be of labradorite, now is represented by white cloth; the rainbow above it, which will eventually be of mosaic, is now painted. The central niche, portraying the graves of Flanders fields overgrown by poppies, also will be in mosaic. The arch is to be Mr. Barnard's tribute to the American young men who lost their lives in the World war.

ROTARY ANN BANQUET
TUESDAY EVENING

Members of the Rotary club very delightfully entertained the Ann's with a banquet at the Artesia hotel roof garden Tuesday evening.

Bundles of grain and pumpkins from the harvest were used very effectively as decorations. The long banquet table was beautifully decorated with golden pumpkins filled with fruits and with the lighted candles which shed a soft glow. The Thanksgiving turkey with all the trimmings was served in courses.

Each lady drew for her banquet partner, with not a single fine collected for the husband eating beside his wife. Howard Williams, president of the Rotarians, was master of ceremonies until Chester Dexter, as toast master, took the chair. The usual wit and humor of Mr. Dexter was displayed on this occasion. Between courses Mrs. J. K. Wallingford rendered two beautiful vocal solos, accompanied by Mrs. Willis Morgan. Club singing was joined in by all present. One of the feature numbers was a vocal duet by Willis Morgan and Rufus Wallingford entitled "I Am Heading for the Last Roundup." It is expected that these two local stars will give a concert in the near future.

In the rose and lemon contest Mrs. Hugh Burch received a lovely box of candy as prize. L. P. Evans received the lemon which contained the bill for the box of candy. Miss Ethel Bullock who represented her mother on this occasion won the box of candy given in the mother contest.

Rugs and living room furniture were moved to the roof garden and with the aid of the Thanksgiving decorations the effect of a cozy mezzanine floor was provided for those who wished to play cards following the dinner. Others enjoyed dancing.

This was considered one of the most successful entertainments ever given by the club.

Those present were: Messrs. and Mmes. Hugh Burch, C. J. Dexter, L. P. Evans, S. W. Gilbert, Gail Hamilton, W. E. Kerr, Willis Morgan, J. S. Ward, J. K. Wallingford, H. S. Williams, Martin Yates, Hollis Watson, E. N. Bigler, W. E. Flint, D. E. Clowe, Col. and Mrs. A. T. Woods, the Rev. and Mrs. W. B. McCrory, E. B. Bullock, Miss Ethel Bullock, and Mrs. Charles Morgan.

BRIDGE-DANCE WITH MR. AND MRS. ROCKWELL

Mr. and Mrs. Richard Rockwell entertained a number of relatives and friends with a bridge-dance last Thursday evening at the home of Mr. and Mrs. Ben Pior.

Guests were seated at five tables where a session of auction bridge was enjoyed. Mrs. Ray Welborn received the lovely high score prize and Miss Marjorie Kerr consolation. Delicious refreshments were served at the quartet tables by the host and hostess. The evening was rounded out by dancing to piano and radio music.

Those complimented by Mr. and Mrs. Rockwell were: Messrs. and Mmes. Roy Pior, Ben Pior, Roy Spivey, Max D. Pior of Carlsbad, Raymond Welborn of Hagerman, and the Misses Bertha Richards, Marjorie Kerr, Jimmie King and Frances Welborn of Hagerman, and Messrs. Ed Shockley, La Dean McCrory, Floyd Gray and Warren Wilkes of Hagerman.

CHORAL CLUB

Work in the Choral club is progressing in a most pleasing manner, five names were added to the membership when they met at the home of Mrs. Mark A. Corbin Monday afternoon.

The new members are: Mmes. Albert Richards, J. Harvey Wilson, Lewis Story and the Misses Mary Louise Paris and Kathleen Blount.

It was decided at that time to hold a vesper service at 4:00 o'clock on the morning of December 24th. The place to be decided later.

LEGION AND AUXILIARY HONOR MR. AND MRS. LINELL

Mr. and Mrs. Frank Linell were honored guests of the American Legion and the Auxiliary last Friday evening at the Legion hut. The golden wedding anniversary of Mr. and Mrs. Linell was celebrated last week, with their children as hosts and hostesses. On this occasion members of the American Legion and Auxiliary were hosts and hostesses.

It came as a complete surprise and they found that more than fifty members had gathered to pay them honor when they were ushered into the hut. Mrs. John Runyan and Mrs. Skelt Williams sang a number of old time favorites with a number of the "buddies" joining in on war time songs. About ten tables were set up for bridge which was enjoyed for a period of time after which sandwiches, cake and coffee were served.

Following the refreshments, a grand march was led by Mr. and Mrs. Linell and dancing was enjoyed the remainder of the evening.

Mrs. Linell is a very active member of the Auxiliary and Mr. Linell is an honorary member of the Legion post here and he is said to be the only honorary member listed in the American Legion in the United States.

The above organizations presented Mr. and Mrs. Linell with lovely and appropriate gifts on the date of their anniversary and it was on account of the illness of Mr. Linell that this entertainment was not given before last Friday.

VISITORS COMPLIMENTED WITH BRIDGE PARTY

Mrs. Elza Swift and Mrs. John Dunn were joint hostesses Monday evening when they entertained at the home of Mrs. Swift complimenting Mr. and Mrs. V. M. Bass of Wilmington, California.

A very delightful evening was spent at auction bridge, with the following guests present: Messrs. and Mmes. V. M. Bass, Joe A. Clayton, John Prude, W. W. Rester, Skelt Williams, Aubrey Watson, Hollis Watson and Messrs. Swift and Dunn.

At the conclusion of the games a lovely guest prize was presented to Mr. and Mrs. Bass and high score prize to Mr. and Mrs. Rester. A delicious refreshment plate was served by the hostesses.

REBEKAHS HAVE DIMINISHING PARTY

Last Thursday evening another of the series of diminishing parties which are being given by the Rebekahs was given by the following who were hostesses: Mmes. Ed Conner, W. H. Cobble, Beulah Jones, Nellie Cogsdell, Dave Gray, D. E. Buckles, Jack Hastie, Miss Ella Bauslin and Mrs. J. M. Story.

Their guests numbered about thirty-five and they entertained at the lodge hall. Games furnished amusement until the old fashioned taffy pulling took place. Each guest, men and women alike, pulled their own taffy. A genuine good time was reported by the guests.

BRIDGE OF THE MONTH

Mrs. Howard Whitson entertained members of the Bridge of the Month at her apartment home Friday afternoon. Fall flowers were used as decorations and the Thanksgiving scheme was carried out in the menu and appointments.

The one o'clock luncheon was served in two courses and followed by a session of contract bridge. Mrs. Mark A. Corbin received the high score prize and Mrs. Willis Morgan second high.

Members present were: Mmes. T. C. Bird, J. Harvey Wilson, Stanley Blocker, A. T. Woods, Willis Morgan, Bildstone and two substituting guests Mrs. Mark A. Corbin and Mrs. Jack Spratt.

IDLEWHILES CLUB MRS. SMITH HOSTESS

Mrs. Frank Smith entertained the Idlewhiles Bridge club at her home Tuesday afternoon.

Those enjoying a session of contract with Mrs. Smith were: Mmes. J. Hise Myers, Thomas S. Cox, Arba Green, J. M. Story, Jim Berry, Nellis, Alethea Phillips, M. W. Evans, G. U. McCrory, J. H. Jackson, Chester Russell, and one substituting guest Mrs. Lewis Story.

Mrs. M. W. Evans held high score at the close of the games. The Thanksgiving scheme was carried out in the delicious refreshments served by the hostess.

M. E. YOUNG WOMEN'S CIRCLE

Mrs. C. R. Blocker was hostess to members of the Young Women's Circle of the M. E. church last Thursday afternoon.

The scripture lesson and a beautiful passage entitled "It Comes From Me" was read by Mrs. Leslie Martin. The lesson on Facing the Future in Indian Missions was given by Mrs. Blocker.

Mrs. George Frisch, the incoming president of the adult missionary society, was a guest. Light refreshments were served by the hostess.

MRS. LANGSTON ENTERTAINS B. C. CLUB

Mrs. Roy Langston was hostess to members of the B. C. club at her home Tuesday afternoon.

Mrs. Carl Bildstone was a substituting guest for the only absent member. At the close of a session of contract bridge the high score prize went to Mrs. John Dunn and second high to Mrs. W. W. Rester.

Delicious light refreshments were served by the hostess. Mrs. Rude Wilcox and Mrs. Ed Gillispie have been recently elected to membership in the club.

TUBERCULOSIS SEAL SALE TO START SOON

Plans are going forward for launching the Christmas seal sale of the New Mexico Tuberculosis association immediately after Thanksgiving, Mrs. G. C. Kinder, chairman of the Artesia committee, said recently. The seal sale this year has assumed added importance because part of the funds thus secured will be used in conducting a health survey of the state. In addition to the Christmas seals, which will be offered to the public, Bangle pins will also be offered for a penny each. The Bangle pin, resembling the insignia on the Christmas seals may be worn by any contributor. Funds secured from the sale of Bangle pins will also go to the community to supply milk for the undernourished children and to the state for making a health survey. The local committee has adopted the slogan: "For 1933, a Bangle pin for every one who has passed his fifth birthday."

It might be of interest to explain at this point where funds secured from the sale of seals and Bangle pins go: Sixty per cent of these funds stay in the local community, five percent is used for expenses and thirty-five percent goes to a health survey to be made principally in New Mexico and Arizona. The survey is now under way in Mora county and will be made in various parts of the state as fast as the present facilities of the health department permit.

142,000 ACRE NATIONAL PARK

A national park of 142,000 acres, including the Carlsbad Caverns in New Mexico and the Guadalupe mountains in Texas, with famous Signal Peak as the feature there, is seen as a result of the movement well under way to create Guadalupe National Park, according to information from Carlsbad.

The proposed Texas park would extend north to the New Mexico line and would include 60,000 acres. Plans are being discussed by the national park service, it was learned today, to extend the Carlsbad Cavern park south to the Texas line, adding 72,000 acres to the 10,000 now included in the park, and to link the New Mexico and Texas parks.

CLOSED Thanksgiving Day

A bountiful harvest inspired the first Thanksgiving day of our Pilgrim fathers. Surely if they could make merry for so little, we of today ought to be celebrating the event this year as never before. For we have every reason for it with better times here and happier days ahead for everyone.

Let us pause to give thanks for the good things that have come our way the past year and resolve to face the future with stouter hearts and an unwavering determination to make next year a period of spiritual and material advancement.

"God the Only Cause and Creator" is the subject of the lesson-lesson which will be read in all Churches and Societies of Christ, Scientist, on Sunday, December 3rd. The golden text is: "I am the Lord, your Holy One, the creator of Israel, your King."

Among the citations which comprise the lesson-sermon is the following from the bible: "O Lord, how manifold are thy works! In wisdom hast thou made them all: the earth is full of thy riches."

The lesson-sermon also includes the following passage from the Christian Science textbook: "The spiritual reality is the scientific fact in all things. The spiritual fact, repeated in the action of man and the whole universe, is harmonious and is the ideal of truth."

A mule cannot kick while pulling nor pull while kicking. Even so with believers in Christ. Would it not be a blessing to the cause of Christ if all believers were one as our Savior prayed for, then all pull together for one common cause? Why do we have our denominations and divisions? Because some have departed from the word of God and, in its stead, substituted and made binding opinions of men formulated into names, creeds, and disciplines.

MINE TO BE COMPLETED BY CHRISTMAS DAY

CARLSBAD, Nov. 27—(Special)—Completion of the Santa Fe spur to the Potash Company of America mine site and the completion of the mine to its full depth will be reached at about the same time, probably about Christmas time, it was indicated here last night by W. A. Smith, president of the company laying rails on the spur, and by C. M. "Bud" Harris, an official of the Potash Company of America.

The potash shaft was at 880 feet last night, Harris said. About 10 feet of hole is being made daily, which should bring the shaft to its full depth some time between now and Christmas.

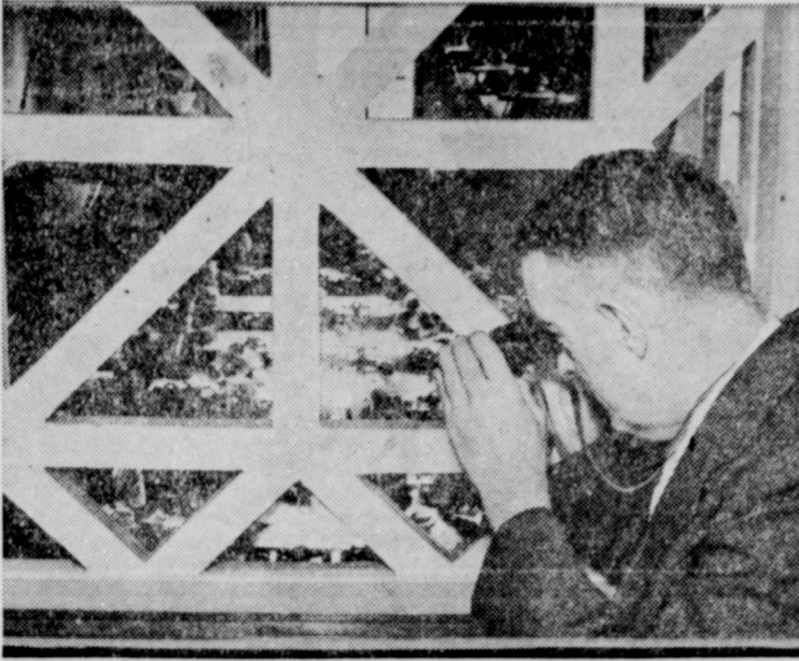

Twelve miles of the track have been laid on the spur and about 3,000 feet of track is being laid daily. Eight more miles have to be laid. Then ballast must be placed on the track and the track surfaced.

WARM NOVEMBER

The month of November, which ends today has been another unusual fall month. Rarely did the thermometer drop below 27 degrees. The average high temperature has ranged around 80 degrees. Two killing frosts occurred in the early part of the month, but some of the hardier vegetation still survives. November was also a dry month, with practically no moisture.

MISSOURI NEGRO IS LYNCHED BY ANGRY MOB ON TUESDAY

ST. JOSEPH, Mo.—Lloyd Warner, 19, negro, who confessed attacking a white girl was hanged and burned across the street from the courthouse lawn Tuesday night by a mob which battled peace officers and national guardsmen to seize him in the Buchanan county jail.

Shooting broke out as the crowd surged through the jail to subdue a defense force of 40 officers. No casualties were reported, however.

Sheriff Otto Thiesen estimated 7,000 persons made up the crowd which battered down the jail doors, regardless of tear gas, and swarmed through the building seeking the negro.

"I'm ready to plead guilty," Warner said, asking an early arraignment on a charge of attacking the girl, 21, member of a prominent family.

Governor Guy B. Park ordered out the 35th tank company, Missouri National guard, stationed here. Tanks puffed to the jail.

They raced through the corridors and along cell tiers.

Tear gas filled the building as officers, some with masks and some without, discharged bombs. Fist fighting broke out as the officers strove vainly to hold back the mob.

Sheriff Thiesen gave up as the crowd was battering at the last door separating it from Warner.

The muscular negro, striving to find some place to hide, was dragged from the building and beaten by the throng as it marched across the court house lawn.

ASK \$50,000 DAMAGES OF HOBBS SCHOOLS

ALBUQUERQUE—The New Mexico School Supply company Tuesday filed suit against the board of education at Hobbs seeking \$50,000 damages. The suit alleges the board of education in 1930 knowingly represented as legal and valid certificates of indebtedness which it gave the company for supplies and equipment purchased and that the board immediately afterwards disclaimed and still disclaims any liability in connection with the certificates. The suit charges the board with "false and fraudulent" representation of the certificates.

HUNDRED TO GET WORK AT CAVERNS

One hundred men will be given work at the Carlsbad Caverns under the civil works program, Thomas Boles, superintendent, announced this week. The government has allotted \$26,800 for this project which will practically all go to labor. Col. Boles has recommended that the men, who must be south Eddy residents, live in Carlsbad or other communities of the south part of the county to save expenses of constructing a camp at the caverns. Work to be done will include cleaning up the 10,000 acres of land in the national monument.

DENNIS CHAVES' FAMILY IS ILL

WASHINGTON—Representative Chaves of New Mexico, newly elected national committeeman from that state who has been absent from his office more than a week due to the illness, is still confined at his home, his secretary said Monday.

Mrs. Chaves also has been ill for several days and is recovering from a slight heart attack. A daughter, Gloria, is recuperating from a minor eye operation performed last week.

Chaves' office said none of the family is seriously ill.

CROP LOAN DISTRICT THREE IS IN LEAD ON REPAYMENT OF LOAN

Crop loan collections are coming in at a satisfactory rate, according to G. V. Clayton, field supervisor for district 3, composed of Eddy, Lea, Chaves and Lincoln counties. This district has the highest percentage in collections of any region in the southwestern district Mr. Clayton says. The percentage of loans repaid averages eighty and incidentally Eddy county leads the district. This splendid record is made possible by the cooperation of the borrowers with the county loan committee, County Agent W. A. Wunsch and the Eddy business men.

The southwestern district, composed of Texas, New Mexico and Arizona, under the supervision of Owen W. Sherrill at Dallas, also has the best record of any district in the nation, Mr. Clayton asserts.

C. BARROW HIDING

Clyde Barrow, west Dallas desperado, wanted in a half dozen cities for murder and kidnaping including the kidnaping of Joe Johns, Eddy county treasurer, in Carlsbad about a year ago, is being hunted over a wide area. W. D. Jones, youthful companion of Barrow, has been arrested at Houston and brought to Dallas to face charges of murder in connection with the killing of Malcom Davis, Fort Worth, Texas, deputy sheriff.

After commandeering a car of two Fort Worth men, Barrow and his woman companion, Bonnie Parker, made their escape last week near Grand Prairie, Texas, when pursued by officers. Barrow is now believed to be hiding in western Oklahoma.

A. C. Crozier and wife left the first of the week for Centerville, Kansas, in response to a message that his mother, Mrs. E. A. Shout, was critically ill.

For Your Inspection

THE MERCHANT and manufacturer who advertise, actually are placing their merchandise before you for inspection. They invite your most critical attention and an uncompromising comparison. And their advertisements, so to speak, say to their products: "We have introduced you to the public—now stand on your own merits."

If the manufacturer and merchant did not have confidence in their wares, they would hesitate to call attention to them. For advertising rigidly tests the maker, the seller and the merchandise. Business so tested, and found not wanting, is prosperous.

In the long run, you can depend on the man who advertises, as well as on his product. That is one reason why people have found that it pays to read advertisements.

It is thru advertising that the excellent things of the world are brought to the attention of those who are seeking for the best and most economical way to spend their money.

Read the advertisements. They are NEWS.

IN THE MATTER OF AUSTIN W. HENDERSON, Bankrupt.
No. 1303 IN BANKRUPTCY

NOTICE OF FIRST MEETING OF CREDITORS

TO THE CREDITORS OF THE AFORESAID BANKRUPT:
NOTICE IS HEREBY GIVEN that on the 24th day of November, A. D. 1933, the said Austin W. Henderson, a farmer of Artesia, New Mexico, was adjudicated bankrupt, and the first

FEDERAL RELIEF FOR TEACHERS OUTLINED

be furnished by federal emergency monies and which is expected to put 1,000 persons to work, was worked out at a conference between Dr. N. B. Giles, Washington, representing the office of education; state department of education officials and Raymond Huff, active president of the state board of education, at Santa Fe Thursday forenoon.

The cost won't be known until the budget is completed. They were at work on this Thursday afternoon.

The program includes aid to the rural schools. Money is to be advanced to those unable to open so far so they can throw their doors open and ring the bell December 1. Aid is to be extended also to schools which find themselves unable to complete their standard term.

Adult classes for illiterates are to be opened in cities or rural communities, open to all persons unable to read, write or speak English better than a fifth grader, or who cannot pass a fifth grade test in arithmetic.

Commercial subjects will be added to the vocational curriculum, paving the way for the opening up of new classes in various parts of the state.

Additional federal aid will be allowed, out of the emergency relief fund, for rehabilitation of the physically disabled; that is in over and above the present federal appropriations.

The program also contemplates the organization of adult classes in any useful subject—music, painting, journalism, anything in fact. Nursery schools for children of pre-school age are included.

"The idea is to put not only teachers to work but anybody who can teach anything or who can learn to teach anything useful," said Huff. "Thus, if there is an unemployed musician and he can get six or seven persons together who want to take music he can organize a class."

Teachers to be employed under this plan do not have to be certified by the state department, said Huff; but all have to be approved by the department.

MEDICAL ASSOCIATION TO MEET IN EL PASO

Addresses by prominent physicians and surgeons of West Texas, Arizona and New Mexico will feature the annual convention of the Southwest Medical and Surgical Association in El Paso, on December 7, 8 and 9th. The program will occupy the full three days.

Three topics will be discussed by the speakers. The first day will be devoted to allergy, which includes hay-fever, asthma and allied diseases. The second day will be devoted to tuberculosis and the third day to thyroid diseases.

Other features include a clinic at William Beaumont Hospital, Thursday evening, December 7th, and the Medical and Surgical clinics at Hotel Dieu, Masonic Hospital, Providence Hospital and El Paso City-County Hospital, December 8th and 9th.

The business meeting will be held the evening of December 9th at Hotel Hussmann.

Discover Thigh Bone of Huge Elephant in U. S.

Los Angeles. — Forty thousand years ago giant imperial elephants, 14 feet in height, with hair covering their bodies, and with tusks 12 feet in length, roamed the forests of southern California.

Recently workmen unearthed the huge thighbone of an imperial elephant, 4 feet in length, nearly a foot in diameter and weighing nearly 100 pounds.

The discovery was made in a drain excavation in Signal Hill, 26 feet underground.

Officials of Los Angeles museum supervised the removal of the bone and voiced elation at the discovery. Also found in the same excavation were small bones of prehistoric camels, horses and bison.

Texas Cotton Grower Is Vexed by Nudists

Fort Worth, Texas.—Whether nudism will affect the prices of wool and cotton is one of the worries the practice gives to Arnett West, contributor to the open letter column of the Fort Worth Press.

"Nudists," the letter began. "God made you to be white, just as he did the negro to be black and brown. Try to be as you are born."

"Will this be another case for a slump in wool and cotton when these 'animals' become as hairy as dogs?"

Husband's Pockets Sacred, Court Rules

Montreal.—Even though wives may not think so, the Canadian law considers a man's pockets inviolate, according to a decision rendered by the Superior court here.

The court made the ruling when the lawyer for a wife demanded an increase in alimony, contended that the husband was able to pay and asked that he turn out his pockets to show how much money he had. The husband refused and was upheld by the court.

FARM PROGRAM TO ADJUST PRODUCTION

One should not lose sight of the fact that the real purpose of the agricultural adjustment program is to adjust production to meet consumption demands at a price that will yield the farmer pre-war purchasing power, says L. H. Hauter, Agricultural Economist of the New Mexico State College. It is important to emphasize this fact because there is a tendency to emphasize the immediate benefits that are to be received.

While processing taxes and immediate cash benefits are an essential part of the plan, they are only incident to the real objective of the program. They are essential because past experience has shown that it is not feasible to secure adjustment unless the individual who does the adjusting does not do so at the expense of the one who does not. People by nature are inclined to look after their own interests first, and we cannot expect individuals to make large sacrifices for the benefit of others.

Benefit payments is the method that has been devised to make it possible for those who do the adjustment to receive the benefits therefrom. When proper adjustment of production has been secured, few processing taxes and adjustment payments will be necessary. While they are necessary to bring about the adjustment, they should be considered as the means to an end, rather than the objective of the plan.

The agricultural adjustment program will mean much to New Mexico farmers for at least two more years. It is important that everyone understand the real objectives of the plan.

NORTH LEA ACTIVITY IN WILDCAT LEASES

Northwestern Lea county appears to be attracting some attention, judging from inquiries received by Californians holding leases in that district. While nothing definite has yet been offered, efforts are being made by companies and firms engaged in assembling leases to get into touch with leaseholders and to sound them out as to what they will accept for their holdings.

Prices for leases appear to be going up. Unquestionably, they have advanced quite materially in some areas, while nowhere are offers made of merely nominal sums. Two years ago, as low as \$1 an acre was offered. Now there is talk of several hundred dollars for 40-acre tracts, sometimes with an over-riding royalty.

North of Lea county, according to reports, in one area \$1,000 has been paid for 40 acres, and royalties are reported ranging from a fraction of 1 percent up to 4 1/4 percent. The state gets one-eighth on its lease.—Hobbs News.

GOTTON GRADE IS HOLDING UP WELL

The cotton classed from Arizona, New Mexico, California and Texas, district 1, continues very high in grade. No state represented is reported to have less than 90 per cent strict middling extra white and better. An ideal harvesting season together with sufficient pickers in most areas have been the contributing factors. The proportion of cotton having staple lengths of 1 inch and longer increased in all states with the exception of California, which remains unchanged. It is of interest to note that 99 per cent of the cotton classed this week has staple lengths of 1 inch to 1-1/8 inches. Texas, district 1, is reported as having 100 per cent within these lengths. The proportion of cotton classed as good middling extra white and better from New Mexico showed an increase from 70 per cent last week to 72 per cent this week. Strict middling extra white and better accounted for 94 per cent of this week's receipts. A small per cent was classed as white cotton and less than 1 per cent as spotted. Staple lengths of 1 inch and longer remains unchanged this week, 99 per cent being reported. To date 95 per cent of the cotton classed from this state has been strict middling extra white and better, and 95 per cent 1 inch and longer.

THE TAX RATE IS LOWER THIS YEAR

A substantial saving will be effected by the Eddy county taxpayers in 1933 over 1932, according to figures compiled by Richard Westaway, Eddy county assessor.

The following figures is a comparison between 1932 and 1933, as shown by the county tax roll for the city of Artesia.

Tax rate 1932, \$4.1075. Tax rate 1933, \$3.9514. Valuation 1932, \$1,176,485.00. Valuation 1933, \$1,117,754.00.

LOCAL GINNINGS

Six gins of the middle valley have turned out 507 bales since the last report, according to tabulations made by the Advocate Wednesday morning.

Ginnings of Eddy county on November 14 totaled 22,317 bales. Since that time about 5,000 bales have been ginned.

Ginnings of this district are divided as follows:

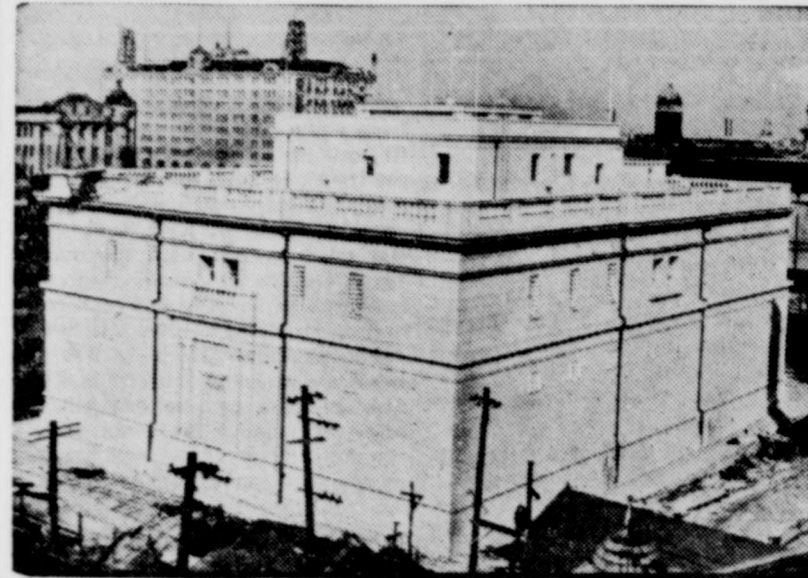

Total 11,495. Estimated.

1934 TEAMS TIE

Friday at Carlsbad the 1934 Artesia and Carlsbad squads played a scoreless tie. The game was played on about even terms, with the players contending with a high wind, which hampered both the punting and passing.

The Artesia 1934 lineup included: Johnson, right end; Newman, right tackle; Scarborough, right guard; Burnett, center; Cogdell, left guard; Tidwell, left tackle; Woolridge, left end; Champton, quarterback; Sheldon, left half; Haynes, right half; Conner, fullback.

The feature of the week in the cotton trade was receipt of notices for 30,000 bales causing heavy liquidation of December. Speculative rallies then occurred but profit taking kicked it down again.

There is a very general feeling that we may see a further decline in our market due to the fact that foreign buyers are paying around six cents for our cotton in terms of gold while ours is selling at ten cents at home.

SANTA FE—With jobs on 172 projects for 3,955 men, the state civil works board was moving along ahead of schedule and was expected to have New Mexico's December 1 and 15 quotas for work filled far ahead of time.

Huey Long Defends Self

NEW ORLEANS—Senator Huey P. Long Tuesday temporarily took charge of the senate committee hearing into the election of Senator John H. Overton,

hurled defiance and sensational charges at his critics from the witness stand and put on an oratorical performance before the investigators which prompted a woman anti-Long leader to rise and ask: "Is the United States afraid of Huey P. Long?"

SALISBURY—A mob of more than a thousand men stormed the state armory here Tuesday in an unsuccessful effort to free four men accused of participating in last month's lynching at Princess Anne.

Beaten back by tear gas and bayonets, the mob dispersed only after the state troopers, sent by Governor Albert C. Ritchie to arrest the alleged slayers of George Armwood, a negro, abandoned their headquarters in the armory and returned to Baltimore with their prisoners.

Cries of "lynch Ritchie" and "lynch Lane" could be heard as the soldiers surrounding the armory. William Preston Lane, Jr., is the state attorney general and was during his investigation of the lynching of Armwood last month that the names of nine alleged participants were obtained.

His requests that the state's attorney of Somerset county, John B. Robins, order the nine men arrested were refused by the state's attorney, who contended a grand jury investigation was the proper procedure.

No Action in Lynching

SAN JOSE, Cal.—No action is contemplated by the 1933 county grand jury on the lynching of Thomas Thurmond and John M. Holmes, confessed kidnapers and slayers of Brooke L. Hart, when it holds its first meeting today.

SHAKE-UP COMING IN HIGHWAY DEPARTMENT

SANTA FE—Changes are contemplated in the state highway department personnel, C. E. Mauldin, business manager, Monday told Gov. A. W. Hockenbush. He added that he was not ready to make public names of employees affected.

CHICAGO—Dr. Alice L. Wynkoop, through her attorney, Monday repudiated her confession that she shot her daughter-in-law after chloroform had made the girl senseless.

The feature of the week in the cotton trade was receipt of notices for 30,000 bales causing heavy liquidation of December. Speculative rallies then occurred but profit taking kicked it down again to about the lowest figure for December while that month has been active.

There is a very general feeling that we may see a further decline in our market due to the fact that foreign buyers are paying around six cents for our cotton in terms of gold while ours is selling at ten cents at home.

Chas. Morgan, superintendent of the Continental Refinery here, left yesterday afternoon for El Paso, Texas, to attend a meeting of the refining committee of district No. 4.

NOW

IS A GOOD TIME TO BUY SALES BOOKS

You are watching the markets closely. You know that recent events have strengthened the entire commodity price structure.

We do not claim the gift of prophecy, but we do believe it would be advisable to place sales book orders now for either immediate or future delivery.

Check your stock today, anticipate your requirements, and buy on today's low market. You can't lose and you may win.

hurling defiance and sensational charges at his critics from the witness stand and put on an oratorical performance before the investigators which prompted a woman anti-Long leader to rise and ask: "Is the United States afraid of Huey P. Long?"

SALISBURY—A mob of more than a thousand men stormed the state armory here Tuesday in an unsuccessful effort to free four men accused of participating in last month's lynching at Princess Anne.

Beaten back by tear gas and bayonets, the mob dispersed only after the state troopers, sent by Governor Albert C. Ritchie to arrest the alleged slayers of George Armwood, a negro, abandoned their headquarters in the armory and returned to Baltimore with their prisoners.

Cries of "lynch Ritchie" and "lynch Lane" could be heard as the soldiers surrounding the armory. William Preston Lane, Jr., is the state attorney general and it was during his investigation of the lynching of Armwood that the names of nine alleged participants were obtained.

His requests that the state's attorney of Somerset county, John B. Robins, order the nine men arrested were refused by the state's attorney, who contended a grand jury investigation was the proper procedure.

No Action in Lynching SAN JOSE, Cal.—No action is contemplated by the 1933 county grand jury on the lynching of Thomas Thurmond and John M. Holmes, confessed kidnapers and slayers of Brooke L. Hart, when it holds its first meeting today.

Whiskey Goes Under NRA Code WARM SPRINGS — President Roosevelt Monday established federal supervision over the liquor industry which becomes legal next week and extended government control over 21 more businesses, including the motion pictures.

Mr. Roosevelt signed the code governing the new whiskey trade in time to make it effective when national prohibition dam is formally repealed December 5.

172 Projects Approved SANTA FE—With jobs on 172 projects for 3,955 men, the state civil works board was moving along ahead of schedule and was expected to have New Mexico's December 1 and 15 quotas for work filled far ahead of time.

Approval Tuesday of additional projects put 22 counties on the list and the remaining nine counties of the state expected to have projects up for approval Wednesday.
