WHY PUBLISH A NEWSPAPER?

The merchant who says that everyone knows his place of business and therefore he doesn't have to advertise, may be found right here in Camden as well as other communities in the county. This same merchant also says that customers come to him when in need of goods he handles, so why should he waste his money in advertising? An answer has been made to that question by a newspaper whose advertising man no doubt stumbled into places of business where the owner possessed that frame of mind. This newspaper answered the question, "Why should I advertise?" as follows: "Everyone in this community knows all that happens here, so what's the use of reporting the news, what's the use of having a newspaper?"

If the community can get along without a newspaper, it can get along without a number of other things which are of value. For instance; the adults are educated and can teach the children, thus doing away with the need of schools. The parents are religious therefore, they can train the young ones in the creeds, thus doing away with ministers and the churches. Folks can lend their money to one another and thereby eliminate banks. They can swap their old clothes or learn how to make homespun, thereby greatly reducing expense and actually putting the clothing merchant out of business.

All trade is based upon a desire for goods. Necessity is, mostly, an augmented desire. Advertising has the function of reminding people of their requirements, but its greatest function—a prime factor in all progress and prosperity—is the creating of new desires; therefore stimulating trade and production and making for the greatest possible of employment.—Camden (Me). Herald.

JEFFERSON'S GREAT DREAM

The more closely you scan the trend of affairs in the United States over the past century, the more you must be of the opinion that the present era is the forerunner of a great transition in our theme of government. This nation was founded, and Thomas Jefferson visioned it as such, on the theory that the average man would own his own land, and also that a majority of the population would remain in agricultural centers.

But this dream of Jefferson's has not materialized; most people work for others, and they do not depend upon their own land for sustenance. The result is that we now have a generation of voters, the majority of whom are products of city industry; they do not know the feel of an ax as it clears farm land in a forest; they do not thrill to the turn of a furrow as they sow crops; they have no recollection of the beat of wind and rain and snow and sleet upon their bodies as winter tried to drive them from the conquest of nature's elemental environment.

The net result of all this reveals a majority of American citizens unable to appreciate the priceless heritage of free self-governing privileges; the resulting citizen apathy and disinterest therefore leave the way of government open to the demagogue, the predatory and mercenary politician; and, unless human being reform, you can figure out for yourself how and when some form of state piracy and dictatorship will eventually become sovereign in our beloved America.

Artesia people are again at work on the proposal for building good roads into the oil fields in that part of the state, not for the tourist trade but for the business accruing to New Mexico towns through building such highways. This is a good move for Artesia or for any other community, for "secondary roads" mean just as much and likely more in the long run to New Mexico business concerns than the tourist business. Tourist trade is a sort of "seasonal" affair, while the local business is a steady year-around proposition which all businessmen need to cater to.—Ft. Sumner Leader.

Ignorance of the law is no excuse, the courts rule. Of course, anyone should be able to remember the two million or more laws which we are supposed to obey.

In principle there is no difference between those who want to do half a half week's work for a full week's pay and those who demand full pay for doing nothing.

Founder's Day At Las Vegas Was Celebrated

The celebration of the one-hundredth anniversary of the town of Las Vegas and the founding of the Las Vegas grant was held last Friday and Saturday. The town of Las Vegas, one hundred years ago was known as Nuestra Señora de los Dolores de Las Vegas.

At the plaza, reports were read of the many land grants distributed one hundred years ago. In the parade of the anniversary celebration were descendants of old families, who were there at the time of the founding of Las Vegas, also two wheeled carts and covered wagons filled with pioneer residents dressed in typical 1835 costumes. Last in the procession were descendants of grantees who were driving their livestock as was done in 1835 when the land grants were given to families.

Mrs. C. Bert Smith expects to move the latter part of this week to her home which has been made into a duplex since moving it to

Health Column

Conducted by Dr. J. R. Earp, Director, New Mexico Bureau of Public Health.

VICIOUS CIRCLE

A vicious circle in public health is a circular racing track around which disease germs run and run growing thicker and stickier all the time that they are running. One of these circles is the vicious track of summer diarrhea. The germs of this disease all come from the human intestine with the diarrhea. Then they go into a privy. Then they become attached to a fly. Then they are left by the fly on some food. Then they go back through somebody's mouth into a fresh human intestine. There is another case of diarrhea and the germs start round the track again.

There are some short cuts but let us overlook them just now and consider what sort of obstacles we can place on that circular track to stop the germs from running round and round.

There are two big obstacles which hygienists try to build. One is to stop fly breeding and the other is to make privies fly proof. Either obstacle is good. I prefer, myself, to start with the second in New Mexico. And this is why: If you wipe out half the breeding places for flies there will still be enough breeding places left so that the total number of flies may not be noticeably affected. But if you make half the privies fly proof you will reduce the cases of diarrhea by something like half. This is because it is not so important to the fly to visit a privy as it is to find a suitable place for her eggs (for her eggs she prefers above all a stable).

CANCER OF THE STOMACH

Out of 234 cancer deaths reported last year in New Mexico 114 were attributed to cancer of the digestive system including cancer of the stomach.

Cancer of the stomach can be cured by an operation if the operation is done in time. Unfortunately the trouble is usually recognized too late. This is because the early symptoms from stomach cancer are simply the symptoms of indigestion. Many people consider indigestion is too small a matter for medical consultation. Others go to a doctor who tries to cure the patient without at first putting him to the expense of an X-ray examination. But if the patient has cancer naturally the doctor's remedies will fail. Then instead of going back to the same doctor the patient goes to another doctor who may start all over again with simple remedies; or else the patient tries some patent remedy from a drug store.

That great cancer authority, Dr. Bloodgood, has said, "When people seek X-ray examinations of the stomach as they seek sodium bicarbonate when they have indigestion, cures of cancer of the stomach will increase tremendously."

A change in appetite, such as distaste for meat, is often a symptom of cancer. Pain at the pit of the stomach and vomiting, even without visible blood, are serious

Constipation
If constipation causes you Gas, Indigestion, Headaches, Bad Sleep, Pimples, Itchy Skin, get quick relief with ADLERIKA. Thorough in action yet entirely gentle and safe.

Land Grants Are Sold For State Taxes In Socorro

Sale by the state tax commission of the first real estate it ever has sold for taxes was accomplished at Socorro with disposal of the LaJoya grant—the biggest sale of land in the state.

There was due and owing over a 20-year period some \$225,000 taxes on this grant. It was sold to the highest bidder for \$125,000 Friday. The bidder was A. A. Hofstutler of Houston. Another bid of \$75,000 was received. The highest offer heretofore has been \$75,000.

The grant sold includes 216,000 of the original 277,000 acres. It was a grant from the Mexican government, May 29, 1819 to Carlos Gabaldon and others. After going through the U. S. court of private land claims, the land was patented December 4, 1893.

The land lies along either bank of the Rio Grande in Socorro county. Some parts of it have been on time with taxes, but never has the entire grant been paid in full at one time. The paid part was segregated and the delinquent property offered for sale. The state and county have had title to the land for four years by decree of the district court. The land has been in litigation since 1923 and twice has been in supreme court in the course of this litigation.

The sale means that Socorro county will not only be able to pay off its debts, but will have a cash balance, according to Byron O. Beall, chief tax commissioner. The state will receive costs of the sale and about five per cent as the state's share.

There were some school warrants outstanding in Socorro county, as a result of the delinquency as far back as 1919, Beall said. The tax accumulation over the score of years on some parcels for all the time, amounted to only part of the time, amounted to about \$1.08 an acre for the 216,000 acres.

CHURCH TO HAVE NEW ROOF AND PAINT

Work began last week on the Presbyterian church building is progressing rapidly. The new roof will soon be completed, after which the interior will be refinished and the outside will receive a new coat of paint.

danger signals. Every case of indigestion which is not quickly curbed for examination by the X-rays.

COUNTY HEALTH NURSE TO STUDY IN NASHVILLE

Mrs. Edith Hardy of Carlsbad, county health nurse and her small son, Joe Allen accompanied by Mrs. Mike Graves left last week for Palacios, Texas where they visited a few days with Mrs. Hardy's parents. Joe Allen remained in Palacios while his mother and Mrs. Graves are taking a six week's graduate course in public health nursing, at George Peabody College at Nashville, Tennessee.

During Mrs. Hardy's absence, Miss Violet Middleton and Carl Henderson, county sanitary engineer, will be on duty in the office.

WANTED—Clean Cotton Rags at The Advocate.

NO LEVY FOR COURT FUNDS

District Judge James B. McGhee, Roswell has advised the board of county commissioners it would not be necessary for the Eddy county board to make a levy for the court fund the coming fiscal year.

The economy has been affected, Judge McGhee advised the board, because of the saving of sufficient money out of the levies made for the two preceding years. He said sufficient funds are now on hand.

Expenditures from the court fund during the period July 1, 1934, to June 1, 1935, amounted to \$4,494.50, and out of this money Eddy county has paid a pro-rata portion of salaries and expenses of the district attorney, his assistant and stenographer, Judge McGhee said.

TERRAPLANE ... with most that's really NEW today ... has most to insure top trade-in value

"Climb up on top, too, if you want to... It's steel, you know!"

WHEN you choose your 1935 car, think how it will compare with the new cars a year or two from now! That's what will decide its trade-in value.

Who will want to be driving—then—with anything less than complete steel protection? Terraplane gives you that protection now, in America's only bodies all of steel.

Will you want brakes that are up to date or out of date? Terraplane's police-tested brakes have cut "perfect stopping" almost in half in public tests from coast to coast.

Performance is always important ... and Terraplane has record-breaking performance today, certified by 36 official marks on the A. A. A. record books.

So it is with many other features found in no other lowest price car. Drive a Hudson-built Terraplane today. See for yourself how far ahead of its time it is—in ruggedness, performance, safety—as well as style.

See the New Hudson Country Club Sedan—124" Wheelbase—113 or 124 H. P.—\$880.00 f.o.b. Detroit. More inside body length by 5½ to 7 in. than sedans costing \$180.00 to \$375.00 more.

TERRAPLANE \$585
and up, I.A.A. Detroit for closed model.

Hope Items

Frances Johnson, Reporter

Charlie Cole and Wallace Johnson were Carlsbad visitors Tuesday.

Roy Jernigan, Lester Donagan and Ernest Wolf of Pinon were transacting business here Saturday.

Wert Roney of Roswell is visiting Sammie Buchanan at his ranch home southwest of Hope this week.

Miss Marjorie Johnson left Monday for Albuquerque where she will attend the university this summer.

Marshall Puckett returned to his home here Sunday after spending several days visiting relatives at Carlsbad.

Mrs. Ed Bryant and Mrs. Peas Puckett of Carlsbad visited Mr. and Mrs. Dee Swift at their home here Sunday.

Henry Monroe and son, H. C. were brief visitors here Monday enroute to their ranch headquarters near Elk.

Miss Margaret Williams left Sunday afternoon for Boulder, Colorado where she will attend school this summer.

The Elk basket ball team motored down Sunday afternoon to play ball with the local team. The score was 20-7 in favor of Hope.

Miss Virginia Glascock returned to the home of her grand parents in Artesia Monday after spending a few days at her home here.

Mmes. John Tweedy and Margaret Allen of Roswell visited Mrs. Luther Trimble here at the home of her sister, Mrs. Bonnie Altman.

Miss Alice Ruth Williams left Sunday afternoon for Greeley, Colorado where she will take special training in primary work this summer.

Lon Holt and W. H. Anderson of Kerns, Texas were business visitors here last week. They were guests of Mr. and Mrs. W. M. Coates while here.

Howell Hamil and children, Peggy and Howell, Jr., and W. S. Medcalf motored to the Pecos river where they fished last Wednesday and Thursday.

Mrs. L. P. Glascock returned to her home Monday after spending a week in Artesia where she visited her parents, Rev. and Mrs. A. J. Cox at their home there.

The Civic League is doing some remodeling on the dance hall this week by building in three new windows in the west side of the hall. Ray Hill is doing the work.

Mr. and Mrs. Mark Brewer of Weed and Mrs. Anna Brewer of Berkeley, California visited Mr.

Reed Brainard and his daughter, Miss Peggy and his father and mother, Mr. and Mrs. C. V. Brainard spent Sunday at Sacramento visiting Mrs. Brainard and Betty Joe who were in attendance at the Methodist Assembly. They brought them home Sunday afternoon.

NO SHOES, NO SCHOOL—"There, Mr. Truant Officer, that's why we can't go to school." The children of George A. Burgees, of Newark, N. J., an unemployed salesman, show plausible reasons for their absence. Shoes have been ordered by the ERA inspector.

QUEBEC CELEBRATES in summer of festivals and historical pageants commemorating King George V's silver jubilee and anniversary of Jacques Cartier's second voyage and arrival at Hochelaga, now modern Montreal. Above, French Canadian mademoiselles ready for celebrations in attire of their 17th century ancestors.

GOOD STYLE—Gertrude Michael demonstrating how the well dressed girl should be undressed in a bathing suit—a one-piece swimming suit in all-white Jersey.

LARGEST SHIP—The Normandie will arrive in America next month. She has 160,000 horsepower turbo-electric motors—and they are lubricated by Socony-Vacuum, which recently announced a new kind of Mobil-oil for motorists.

STRANGEST ANIMAL—The Aard Vark or Earth Pig, termed the world's strangest animal, is now in the New York Zoo. It feeds on ants and termites.

DISABLED VETERANS from hospitals near Washington were guests of the President and Mrs. Roosevelt recently. Photo shows the President and Mrs. Roosevelt receiving their guests on the White House Lawn.

Camp Mary White To Open

June 30—Ideal Camp For Girls

Leave your money at home but bring your wits and enthusiasm with you, to all the Girl Scouts who hope this summer to visit Camp Mary White in the Sacramento mountains which will open for the summer on June 30th and end September 5th.

Camp Mary White is a kind of up-to-date Utopia, where there is no buying or selling, no rivalry even in athletics, no straining for any goal. It is a place where only things count that have enduring value, the kind of things that are at once the substance and the source of life.

Meals, sleep and exercise for mind, soul and body are the main ingredients of the camp program. The exercise, mental and otherwise, includes dramatics, nature lore, nearly all the arts, athletics, swimming, riding and other things indefinable, such as watching the clouds drift on a windy day or waiting hours in a wood to photograph a bird or animal.

Water sports are a feature of the camp program. It is the hope to make every Girl Scout a swimmer this summer. Life-saving is taught under the American Red Cross rules, and every camper is encouraged to be as much at home in the water as on dry land. But no elaborate physical set up is necessary as a rule for the study of anything else. The best materials for nature study, for example can be found on the camp site.

Life in camp, divested as it is of all that is artificial and strenuous, presents its problems in the raw, so to speak, and one cannot solve them by running to mother or the nearest telephone. A girl who has been to camp usually discovers what she is made of; whether she is dependable and resourceful as an individual and whether she is kind and co-operative as a member of a group. That is excellent training for citizenship as well as for happy family life.

But the main point at camp for the girl is that she should have a good time, and that is the first concern of Camp Mary White.

More than fifty Girl Scouts have registered thus far for Camp Mary White with mail registrations coming in each day. Local scouts are urged to register early. Camp opens officially June 30th with three two-week periods, ending September 25. Sunday, August 11th is annual governor's day which will be celebrated as usual, with a wonderful barbecue and chuch wagon dinner. Governors of the Cactus Region, New Mexico, Oklahoma, Texas and Arizona are invited as well as parents and friends of scouts. Camp activities will include swimming, riding, handicraft, pioneering, trailing, dramatics and archery.

Miss Mary White of Roswell, camp foreman has announced a splendid staff for the summer activities, the personnel of the staff numbers about thirty.

It is understood at this time that there will be a larger number of local scouts attend this year than in any previous year.

CARBOLIC ACID FATAL TO ROSWELL MAN

Charles A. Benson, 26, formerly of Amarillo, Texas who has resided in Roswell for the past few months, died late Monday afternoon in what officers termed a suicide. Benson was found in the alleyway back of the New Modern hotel in a semi-conscious condition, and died a few minutes later. Beside him was found a bottle labeled "carbolic acid."

The young wife who has been employed in Roswell, though her husband had not, could not throw any light on the act. The man was a jeweler by trade.

DEMPSTER VERTICAL CENTRIFUGAL PUMPS

Cost Less to Install and to Operate

Dempster Vertical Centrifugal Pumps do away with the expense of big holes, posts, timbers and costly equipment. The only pump designed to be placed in a 24-inch casing. Drive shaft runs in oil bath in oil-tight housing. Timken Roller Bearings carry belt pull and thrust. Sturdily constructed for years of expense-free service.

Figure No. 1004—6-inch pump with normal capacity of 1,000 to 1,200 gallons per minute. Supported entirely from platform. Discharge pipe supports pump and its weight in the well.

Woman To Head Pueblos In N. M.

SANTA DOMINGO, N. M., — Though the Indian women have no actual voice in government, a woman is to be the superintendent of all Indian pueblos in New Mexico. She is Mrs. S. D. Aberle, whose appointment was announced Sunday at a meeting of the 20 pueblo councils of the state.

Her job is the greatest ever given a woman in the Indian service, though she is not the first woman superintendent.

Mrs. Elida C. Bowler was the first woman superintendent, but she had only the relatively small western Nevada pueblos.

Mr. and Mrs. W. H. Cheney were in the city Friday getting their fishing equipment ready for a trout fishing trip to the northern part of the state this week. They expect to fish in the Chama, Brazos rivers and in Laginetas and Eagle Nest lakes.

DON'T LET A Blow-out RUIN YOUR TRIP!

PUT GOLDEN PLY TIRES ON YOUR CAR

Proved 3 Times Safer From High Speed Blow-outs

Motorists, it's mighty fortunate that the B. F. Goodrich Company developed the new Goodrich Safety Silvertown with the Life-Saver Golden Ply. For today, high speeds are common and protection against blow-outs is more important than ever.

Here's what happens at high speeds. Terrific heat is generated inside the tire. Rubber and fabric separate, and, sooner or later, BANG! A blow-out. But Goodrich Golden Ply Silvertowns resist internal heat, and these high-speed blow-outs are prevented before they start.

Get this Golden Ply blow-out protection now. And you'll also get months of extra mileage at no extra cost.

Thousands are killed or injured in blow-out accidents every year.

I'LL RISK A LOT FOR A NEWSREEL SHOT BUT Blow-outs HAVE ME SCARED!

Says STUYVESANT (DUTCH) WRIGHT of News-reel Fame

"It's the unexpected danger of blow-outs that I really fear. I was driving on a highway in Maine. My right front tire blew out. I was knocked 'cold', but by luck came out alive. For my own safety I've equipped my new car with Goodrich Silvertowns."

NOTICE TO BIDDERS

The County Board of Education will receive until 5 o'clock P. M. on June 17, 1935, sealed bids for the following school transportation routes. All bids must be made at so much per mile.

- 1. Transportation of High School pupils from Otis District to Carlsbad.
2. Transportation of Grade pupils of the Otis District living west of the canal, to the Otis School.
3. Transportation of ALL pupils of District No. 3 to Carlsbad.
4. Transportation of ALL pupils of District No. 4 to Carlsbad.
5. Transportation of high school pupils of District No. 6, and approximately 15 pupils of the Carlsbad District to Carlsbad.
6. Transportation of Grade Pupils of the Lakewood Dist. to Lakewood.
7. Transportation of the High School Pupils of the Lakewood District to Artesia.
8. Transportation of ALL Pupils from the American Potash Mine to Carlsbad.
9. Transportation of Grade Pupils living west of Loving to Loving School.
10. Transportation of pupils living at the Refinery and east of Loving to the Loving School.
11. Transportation of High School Pupils from Loving to Carlsbad.
12. Transportation of High School Pupils from Malaga to Carlsbad.
13. Transportation of Grade pupils of the Malaga Dist. to Malaga.
14. Transportation of Grade pupils living east of the river to the Harroun Farm School.
15. Transportation of High School pupils and some Grade pupils from the Oilfield to Artesia.
16. Transportation of part of Grade pupils of the Oilfield to the Oilfield school.
17. Transportation of High School Pupils from Dayton to Artesia.
18. Transportation of part of Grade pupils of the Atoka Dist. to Artesia.
19. Transportation of pupils of lower part of District 27 to the Cottonwood School.
20. Transportation of pupils from the Cavern to White's Camp.
Specifications covering these routes will be on file in the County Superintendent's office, Carlsbad, New Mexico, on and after May 30, 1935. Anyone interested in bidding on these routes is requested to call for specifications covering the route they wish to bid on, as these specifications will be made a part of their contracts.
The County Board reserves the right to reject any and all bids.
THE EDDY COUNTY BOARD OF EDUCATION.
By WALTER CRAFT, President.

NOTICE STATE ENGINEER'S OFFICE

Number of application RA-1273 Santa Fe, N. M., May 21, 1935.
Notice is hereby given that on the 20th day of May, 1935, in accordance with Chapter 131 of the Session Laws of 1931, Joe H. Patterson of Oklahoma City, State of Oklahoma, made application to the State Engineer of New Mexico for a permit to appropriate the underground water of the Roswell Artesian Basin to the extent of 1200 gallons per minute by drilling a 12 1/2 inch in diameter shallow well to the approximate depth of 200 feet located in the NW corner of the NW 1/4, Section 21, Township 17 South, Range 26 East, N. M. P. M., for supplementing the water for 191 acres of land with rights under two Artesian wells, said acreage described as follows:
N 1/2 NE 1/4 Section 21, T. 17 S., R. 26 E. ----- 71 acres
N 1/2 NW 1/4 Section 21, T. 17 S., R. 26 E. ----- 50 acres
N 1/2 SW 1/4 Section 21, T. 17 S., R. 26 E. ----- 40 acres
191 acres

Any person, association or corporation desiring that the granting of the above application will be truly detrimental to their rights in the waters of said underground source may file a complete sworn statement of their objections substantiated by affidavits with the State Engineer and file proof of service of a copy thereof upon the applicant with the State Engineer on or before the 1st day of July, 1935, the date set for the State Engineer to take this application up for final consideration unless protested.
THOMAS M. McCLURE, 22-3t State Engineer.

IN THE PROBATE COURT OF EDDY COUNTY, STATE OF NEW MEXICO.

IN THE MATTER OF THE LAST WILL AND TESTAMENT OF WILLIAM M. CARSON, Deceased. No. 624.

NOTICE

To: Leduska Kline, Leo A. Carson, Ernest H. Carson, Valie R. Zieh, Amanda P. Stewart, Dick W. Carson, Martha Buckner, a minor, and Eileen Buckner, a minor.
You and each of you are hereby notified that Leo A. Carson, executor of the estate of William M. Carson, deceased, has filed his final report as executor of said estate, together with his petition praying for his discharge and a judicial determination of the heirs as set forth in the decedent's will, and that the Hon. P. J. McCall, Probate Judge of Eddy County, New Mexico, has set the 25th day of July, 1935, at the hour of 2:00 p. m. at the Court room in said Court in the City of Carlsbad, New Mexico, as the day, time and place for hearing objections, if any there be, to said report and pe-

CONOCO TRAVEL BUREAU IS ROUTING THOUSANDS OF CARS

The tourists are coming to the rocky mountain section in greater numbers than ever before, reports Joe H. Thompson, national director of the Conoco travel bureau, which operates the largest travel information service in the world, with national headquarters in Denver.

Thousands of letters, telegrams and long distance calls are pouring into the Conoco travel bureau from all sections of the United States. These inquiries indicate definitely that the tourists, who intended to visit this section during the coming summer, are not discouraged by the recent temporary interruptions to highway traffic, but on the contrary seem more interested than ever in coming to this region. Since the start of the recent rains, inquiries received have been increasing constantly, which caused all records in the bureau to be broken. Mail in one day totaled 12,425 inquiries which is over three times the usual amount previously being received.

Thompson states that these inquiries are not "Shall I come to the rocky mountain section?" but all want to know "How can I get there?" and "What shall I do and see while in that section?"

Over a thousand telephone calls daily were received during the past week at the information counter on the ground floor in the Continental Oil building. These inquiries came from tourists actually on the road and enroute to scenic playgrounds. The Conoco

travel bureau, in its replies to these and mail inquiries, emanating from every state in the United States, is pointing out that the state highways are in good shape to handle the present large traffic, and the tremendous numbers of tourists soon to come; also pointing out that the scenic playgrounds are undamaged and open as usual.

This same information is going out to every one of the 22,000 field branches of the Conoco travel bureau throughout the nation. In this manner, the entire country will soon be advised that the rocky mountain region is in position to handle the greatest influx of tourists in its history.

This tremendous quickening of interest by tourists all over the nation has necessitated an increase in personnel in the bureau to a force consisting of 250 employees, working on three shifts of twenty-four hours.

Business Is Up In Trend, With Progress Evident

The major trends in trade and business were toward improvement during the last week, said Dun and Bradstreet of New York City in their weekly summary of business conditions.

Progress was evident in many directions in spite of adjustments necessitated by developments of the previous week which terminated the NRA, and "retail sales rose to the highest level in many weeks at a number of centers."

In wholesale markets, the review reported, volume was bolstered almost entirely by reorders and future commitments were held in abeyance awaiting the establishment of a more definite price trend.

"With the temperatures more reasonable than at any time in the past month," the review continued, "consumer buying broadened rapidly in most parts of the country. Summer wearing apparel for both men and women, sports clothes, beach togs, toiletries, notions and stationery contributed heavily to the week's volume."

"Retail volume for the country as a whole succeeded in reaching an estimated total 6 to 15 per cent above that of a year ago."

"With the long overdue advent of favorable weather in the south west, retail sales were larger by 15 to 20 per cent than a week earlier, and 20 to 25 per cent ahead of the comparative 1934 figures. In the northwest the gains of recent weeks were extended, sales averaging 10 to 20 per cent higher than a year ago."

In the middle west, southern and pacific coast areas gains were smaller, according to the Review. The general average of industrial operations indicated the beginning of the summer recession to a moderate degree and most of the decline in activity, said the summary was recorded for the divisions identified with the production of automobiles and steel.

MacDonald Hands In His Resignation As Prime Minister

White-haired Ramsey MacDonald, veteran fighter for peace, stepped out as Great Britain's prime minister Friday and Stanley Baldwin, who typifies "John Bull," himself to Americans, stepped in.

The leader of the conservative party, who has been prime minister twice before, lost no time in reconstructing the cabinet, in which MacDonald took Baldwin's former place as lord president of the council.

Five new faces appeared in the ministerial line-up, which retained the "national government" complexion, three former ministers retired, one of them, Sir Edward Hilton Young, outgoing minister of health, to be raised to the peerage.

So smoothly was the cabinet shift accomplished that only four minutes intervened between MacDonald's presentation of his portfolio to King George in his majesty's private apartment at Buckingham Palace and Baldwin's arrival to receive the mandate.

Failing health coupled with eye trouble, led to MacDonald's decision to end six years and two days as prime minister. His belief was obvious, for he smiled broadly as he arrived in top hat and morning coat, at the palace.

The new administration made its first official pronouncement—that it would not pay an installment on the war debt owed the United States, which falls due this month.

A note delivered to Washington said Britain saw no reason for altering his decision suspending the war debt payments but again offered to discuss new settlement of the problem. This was taken to indicate there would be no great changes in Brit-

ain's foreign policies under Baldwin's leadership.

1935 ACREAGE INCREASED

Farmers of New Mexico have planted increased acreages of all crops this season including, corn, wheat, oats, barley, grain sorghums, beans, potatoes, tame hay, cotton, broomcorn, melons and vegetables. The state's alfalfa acreage has also been increased.

EVERYONE WELCOME— COME!

50% of all motor wear occurs during the starting period

... say automotive engineers

Measuring cylinder wear with a precision gauge—accurate to a hundred-thousandth of an inch!

Only the oil with the "Hidden Quart" will stay up in your motor and cut down this starting wear!

Here are the facts: Oils not lubricating value. Cars using Germ Processed Oil were driven 15 to 75 miles with the crankcase empty but without motor damage!

Germ Processed Oil protects your motor another way. All cars built since 1931 have greatly increased pressures and must have oil of extra high film strength for safe lubrication. Straight mineral oils have no more film strength than they had 10 years ago—some have less!

Conoco Germ Processed Oil, with 2 to 4 times the film strength of mineral oils, gives modern motors the lubrication they need.

Only Conoco Germ Processed Oil gives full motor protection—when you start, while you drive. You will cut motor wear if you use it!

CONTINENTAL OIL COMPANY • Est. 1875

CONOCO GERM PROCESSED MOTOR OIL

*Motorists who know these facts will save money:

Motor oils refined by the usual methods have some oiliness and film strength, but they may form carbon and sludge, which lead to expensive motor repairs.

Other oils may form almost no carbon and sludge, but are so over-refined that they are robbed of oiliness and film strength they need to prevent motor wear.

Germ Processed Oil is refined to eliminate carbon and sludge troubles and then the Germ Process adds extra oiliness and 2 to 4 times more film strength than any straight mineral oil, as tests on the Timken machine have proved.

They took a planned trip and enjoyed it

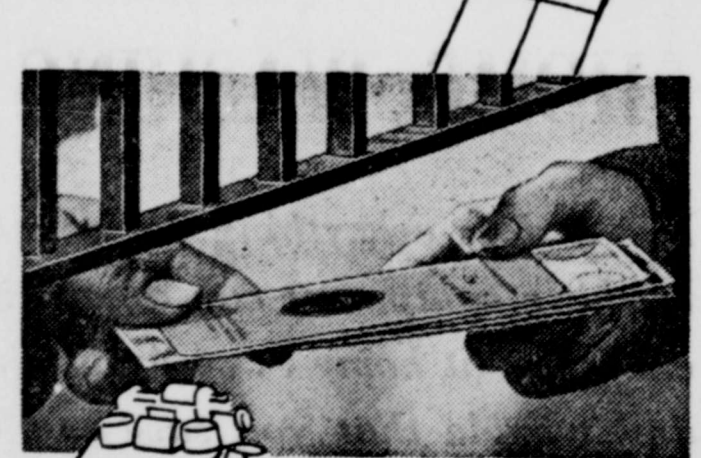

"The Conoco Travel Bureau at Denver sent a complete free plan for our trip—marked road maps of every state and

... travel booklets and hotel and camp directories. They also sent excellent information on where to fish."

"We stopped at Conoco stations along our way for many helpful, free services. You can apply at any Conoco station for such a plan for your motor trip."

WHAT happens

When you make A DEPOSIT?

SOMEbody once said: "There are three American institutions upon which the stability of the nation depends—the Government, the Insurance Companies and the Banks."

Depositing money in a sound bank like the First National Bank is, indeed, similar in many ways to buying a treasury bond or an insurance policy. For in each case the money you turn over is safely reinvested—in public works, industries, in homes, in commercial enterprise. In a word, the instant you deposit them your funds become a part of the great river of credit that turns the mill wheels of the nation.

First National Bank Artesia, N. M.

"THAT LITTLE GAME" — A STRONG FINISH

RUIDOSO CABIN BURNS

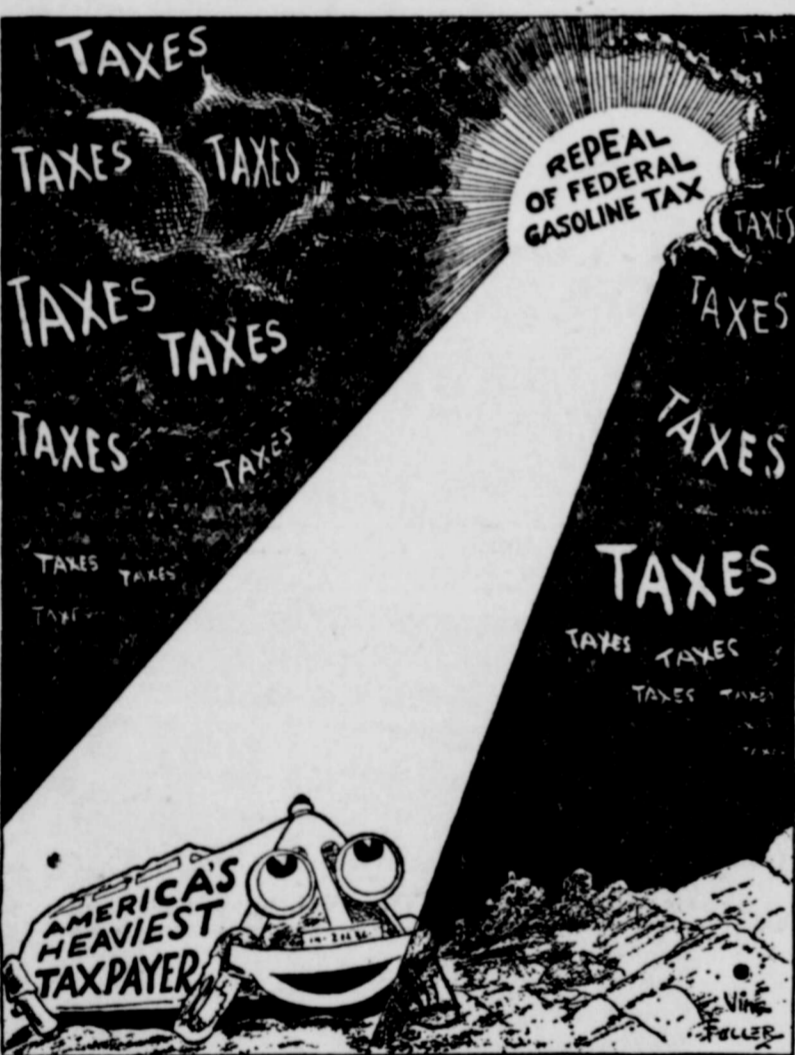

Fire of an unknown origin consumed the E. T. Amonett cabin on the Ruidoso, early Sunday morning. Mrs. Amonett escaped uninjured when she was aroused by the odor of smoke. It is believed that the Ruidoso proper was saved from a devastating fire only through the fact that not a breath of air stirred and that the ground and trees were still damp from a rain Saturday.

such a distance that tall pines near the cabin caught in the very top and burned toward the ground. A bucket brigade brought water from the river and saved adjoining property. A canine pet of the family, a canary and bowl of gold fish were lost in the fire.

AMAZE A MINUTE SCIENTIFACTS BY ARNOLD

LOCALS

Olan Woolridge of Roswell visited here over the week-end.

Dr. C. L. Womack was an El Paso visitor the first of the week. Miss Juanita Barton and Miss Jeniva Baily are spending this week with Juanita's grandfather, J. R. Coor, near Weed.

R. F. Barton and family and Richard Bynum and family spent the week-end near Weed with Mrs. Barton's father, J. R. Coor.

Harry Egbert of Alamogordo, small brother of Mrs. Howard Whitson is here and will spend the summer with Mr. and Mrs. Whitson.

Mrs. J. B. McLeod of El Paso, house guest of Mrs. J. Hise Myers for several days was called back to El Paso, Tuesday, going before her visit was completed here.

Howell Gage who was reported as critically ill, with little chance of recovery the latter part of last week is very much improved. He is a patient at St. Mary's hospital in Roswell.

Mrs. Frank Middleton and Miss Mary Middleton of Marion Indiana, mother and sister of Mrs. Ralph Shugart, arrived Sunday and will visit the Shugart family for several weeks.

Rude Wilcox, Eddy county clerk Mrs. Wilcox and two children, George and Jimmy and Sheriff Dwight Lee of Carlsbad were in town Monday, transacting official business and calling on friends.

Mr. and Mrs. Frank Bauslin of Hagerman were here Sunday. They were called here on account of the critical illness of their cousin, Miss Mary E. Bauslin, who passed away early Monday morning.

Mrs. Ferris Arnold and small daughter, Janet who have visited her parents, Mr. and Mrs. Beecher Rowan and friends here for the past three weeks, left for their home in Tucson, Monday morning, driving through.

Mrs. C. L. Womack and children and her sister-in-law, Miss Kate Womack of Texarkana, Texas spent Monday in the mountain section. They drove to Capitan, through the Mesalero Indian reservation and returned by Cloudcroft.

Mrs. Gladys McDermott of Hobbs, spent Sunday with her mother, Mrs. B. B. Thigpen and her sister, Mrs. Ben Dunn and family. Mrs. McDermott's two small daughters, Margaret and Catherine who have visited here for the past week remained for another week's visit.

Jimmy the 10-year old son of Mr. and Mrs. Kersey Funk of the Cottonwood community was operated upon in El Paso the latter part of last week, for a correction in one of his limbs. The trouble was caused by infantile paralysis. He and his parents returned Monday. The little fellow will have the limb in a cast for six weeks, then will return to the city for another operation which will also keep the limb in a six weeks cast.

CHURCH OF CHRIST REVIVAL

The Church of Christ will begin a meeting Monday night June 17. The preaching will be conducted by Evangelist Clarence C. Morgan who formerly labored with the Church of Christ in Clovis, but is now giving his time to general evangelistic work. His work with the church in Clovis was a decided success. He conducted ten mission meetings and four meetings with other congregations while there and also kept busy broadcasting over the radio. During his recent revival at Roswell, he conducted a radio broadcast each afternoon. The church here feels fortunate in securing his services for the present revival.

The Church of Christ has had a splendid growth especially during the last two years. There was a steady growth and improvement in the work during the recent ministry of A. C. Wiggins who was known and respected by the town of Artesia. Since the first of the year with their present local evangelist, forty-six have been added to the local membership.

Everyone is invited and urged to attend the coming meeting. Services will be conducted twice each day at 10:00 a. m. and 8:00 p. m.

There will be congregational singing under the direction of Howard Haines, the local song leader of the Church of Christ.

SECOND CROP OF HAY TO BE MOVING SOON

The second crop of alfalfa hay is ready to move and is getting well underway. Both quality and quantity yield is reported good, many will cut from a ton to a ton and a half to the acre.

The first cutting of hay topped the market at \$20 per ton, the price of the second cutting has reached a lower level which is expected to be steady, netting the farmer \$10.

Rev. W. B. McCrory and Mrs. McCrory left Monday morning for a week at the Presbyterian Young People's conference in the Sandia mountains. Rev. McCrory is one of the instructors for the week. The local church was not represented by young people at this conference.

Organize Artesia Activity League

The organization of the Artesia Activity League for the summer has been completed. This movement is being sponsored by organizations of the city who realize the need of supervised activity, especially for the youth of the community who have so much leisure.

Rules and regulations have been worked out by a committee composed of D. I. Clowe, Boone Barnett, B. D. Clark, Arba Green and the playground supervisor, Alton D. Partee.

Name—The name of this organization shall be the Artesia Activity League.

Object—Its object shall be to create interest in some form of activity, whether it be soft ball, volley ball, tennis, basket ball or golf; to promote coordination of muscles and minds of the young fellows; to promote clean language; to teach one to be a sport, and above all, to promote sportsmanship.

Management—This organization shall be governed by a committee consisting of a member from each club organization in Artesia, and a playground supervisor.

Governing Rules—Games shall be governed by the 1935 official rules in all sports.

Eligibility of Players—There is no restriction as to age, or to membership providing the girl or boy is of good character, clean sport, and a good citizen of Artesia.

Dues—A small fee of twenty-five cents will be collected from each member. This fee not to be returned at end of summer, nor to be refunded if one is expelled from membership.

Rules—There is to be no profane language used on the playground. A member can be expelled from the organization by violation of this rule. Any disputes will be settled by the playground supervisor. When playing on these grounds at any time, these rules must be observed. Captains of teams must not assume too much authority. Consult the supervisor. When using playground all members are requested to preserve order and property.

Signed: D. I. CLOWE, Rep. C. of C. BOONE BARNETT, Rep. Rotary Club B. D. CLARK, Rep. American Legion ARBA GREEN, Rep. Board of Aldermen. ALTON D. PARTEE, Playground Supervisor.

Delbert Jones, son of Mr. and Mrs. W. A. Jones who attended state university of Texas last year arrived home Saturday with his parents who drove to Austin for him. He left again, Monday for Lubbock, where he will attend the summer session of the West Texas Tech. Delbert is majoring in architecture.

BELOW 50 DEGREES FOODS Are SAFE AFTER exhaustive tests extending over several years, the United States Department of Agriculture recommends that unsealed foods held for human consumption be stored at a temperature below 50 degrees Fahrenheit. A few simple summertime observations convince you of the wisdom of this recommendation. It is common knowledge that tainted moulded, or spoiled foods do cause certain severe discomforts, and not infrequently serious illness especially among children during the hot summer months. Your Electric Refrigerator Dealer can positively guarantee that his refrigerator will constantly hold a uniform temperature below 50 degrees Fahrenheit, no matter how hot the weather. It is important that you be assured of this point. "Milk, fresh meat, poultry, fish, and many fruits and vegetables should be kept at a temperature of 50 degrees Fahrenheit, or preferably lower, to check the growth of microbes that cause souring and decay." U. S. Department of Agriculture, Bureau of Home Economics. Southwestern PUBLIC SERVICE Company

White Rats Prove Magic of "Sunshine" Vitamin

ATLANTIC CITY, June 11—Over 15,000 pure-bred white rats annually lay down their lives for humanity in the laboratories of the Wisconsin Alumni Research Foundation at Madison, Wis., that babies everywhere may grow into strong, sturdy, well-formed children, doctors in attendance at the annual convention of the American Medical Association here learned today. The rats are used to test continuously the accurate content of Vitamin D in irradiated medicines and foods. Photos (above) show a laboratory attendant at the Foundation's exhibit here in a part of this famous "potency test." Vitamin D is the "sunshine" vitamin and is one of the most important factors in the prevention of rickets.

Lakewood Items

Mrs. M. C. Lee, Reporter

Several Carlsbad boys came up Sunday afternoon and played ball with the Lakewood baseball team.

Word has been received that Boyce Scarbrough and Arthur Ross arrived safely in Denair California and like the country there fine.

Clayton McDonald, son of Mr. and Mrs. Archie McDonald of Duoro, came in Monday and will visit a few days with friends in Lakewood.

Mrs. Jim Foster and daughter Lois and Mrs. Cosper left Tuesday morning for Seminole, Texas and will spend a few days with relatives there.

Mrs. M. C. Lee and Mrs. Forrest Lee left Wednesday of last week for Rochester, Minnesota where they will go through the Mayo Brothers' clinic.

Mrs. Ralph Shafer and small daughter left Saturday for their home in Wienert, Texas after spending several days here with her daughter, Mrs. Carl Ross.

Quiller Ross underwent an operation for appendicitis at the Eddy county hospital Saturday. His case was considered serious at first but he was slowly improving at last report.

Thursday night of last week Mr. and Mrs. Oliver Brazeal and daughter, Mr. and Mrs. Carson Howard and Mr. and Mrs. Frank Ivey visited with Mr. and Mrs. Taylor Ross and Mr. and Mrs. Carl Ross. They gave several musical numbers which were enjoyed by those present.

Lake Arthur Items

Miss Ella Ohlenbusch, Reporter

Mr. and Mrs. Bob Bailey and family were in Roswell Saturday transacting business.

Rev. and Mrs. R. A. Hingt and son, Donald, made a short visit at the D. Ohlenbusch home Sunday afternoon.

Mr. and Mrs. J. W. Coker and family were visiting and shopping in Roswell. They also visited the Bottomless Lakes.

The farmers and stockmen are again rejoicing over the bountiful rain which fell here on Tuesday afternoon and night.

Mrs. D. Ohlenbusch and daughter, Ella, returned Tuesday from Roswell, where they had been the past two weeks taking treatments.

Walter Mays of Batesville, Arkansas and brother Marlin Mays of Woodriver, Illinois are here for an extended visit with their mother, Mrs. J. W. Coker.

Rev. and Mrs. C. R. Mathews of Wilson, Texas, will be in Lake Arthur to assist Rev. McGrew in a ten day revival at the Methodist church, beginning June 20th. The first night of the meeting, Thursday, there will be an informal, get-acquainted affair on the lawn of the church. Instead of the regular preaching service, there will be a free ice-cream social and games will be played. Everybody in the community is invited.

Rev. and Mrs. McGrew will also be in Lake Arthur for church services next Sunday.

SAMUEL INSULL ON TRIAL

Samuel Insull of Chicago, awaits with confidence of victory of what he believed to be a "trial to end all Insull trials."

The former utility magnate went into federal court Tuesday to answer to the last charge remaining against him as a result of the collapse of his industrial empire in 1932.

Insull, 75 years of age is charged in this final case with violating the federal bankruptcy laws by transferring some \$2,500,000 in assets of Corporation Securities Company, after he allegedly knew it was bankrupt. Co-defendants in the action are his son, Samuel, Jr., and Harold Stuart, investment house head.

LEGAL ADVERTISEMENTS

NOTICE STATE ENGINEER'S OFFICE

Number of Application RA-1047 Santa Fe, N. M., May 27, 1935.

Notice is hereby given that on the 24th day of April, 1935, in accordance with Chapter 131 of the Session Laws of 1931, J. H. Everest of Oklahoma City, County of Oklahoma, made application to the State Engineer of New Mexico for a permit to change the location of a well in the Roswell Artesian basin by deepening well filed under RA-1047 from approximately 800 feet to 1100 feet and replace the rights of well filed under RA-953 located in the SE 1/4 SE 1/4 Section 15, T. 18-S., R. 26-E., N. M. P. M. to RA-1047 located in SW corner NE 1/4 SE 1/4 Section 15, T. 18-S., R. 26-E. Applicant agrees to plug well filed under RA-953 and restrict rights of well RA-1047 to those of original declaration and permit of RA-953 and RA-1047.

Any person, association or corporation deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source may file a complete sworn statement of their objections substantiated by affidavits with the State Engineer and file proof of service of a copy thereof upon the applicant with the State Engineer on or before the 7th day of July, 1935, the date set for the State Engineer to take this application up for final consideration unless protested.

THOMAS M. McCLURE, State Engineer.

CAVERN TRIP TAX IS OFF

The 15 cent tax on the \$1.50 guide fee at the Carlsbad cavern national park was removed, beginning last Saturday, according to an announcement made by Thomas Boles, superintendent.

The fee for the cavern trip will be a flat rate of \$1.50 for all persons over 16 years of age. Those under 16 years of age are permitted to make the trip free. However, children must have their names written on the ticket of some adult who holds a fully paid ticket and the adult is held responsible for the child while underground.

There is no limit on the number of children on an adult ticket. It was explained by Boles that a teacher or scout master might take a dozen or more children through if he chose.

The charge of 50cents each way for the elevator for adults and 25 cents for children remains the same.

HOME OWNERS SLOW IN SEEKING LOANS

State manager of the HOLC, E. C. Robertson, stated that New Mexico home owners are slow in taking advantage of the opportunity to apply for federal loans, under the recently amended home loan act. The last-chance filing period ends July 27th.

The new applications total 76 and ask for loans totalling \$156,000.

The Churches

CHRISTIAN SCIENCE SOCIETY
613 West Main St.

10:15 a. m. Sunday school.
11:00 a. m. Sunday services.
"Life" is the subject of the lesson sermon which will be read in all Churches and Societies of Christ, Scientist, on Sunday, June 16th. The golden text is: "How excellent is thy loving kindness, O God! therefore the children of men put their trust under the shadow of thy wings. . . and thou shalt make them drink of the river of thy pleasures. For with thee is the fountain of life." (Ps. 36:7-9).
Among the citations which comprise the lesson-sermon is the following from the Bible: "Verily, verily, I say unto you, he that heareth my word, and believeth on him that sent me, hath everlasting life, and shall not come into condemnation; but is passed from death unto life." (John 5:24).
The lesson-sermon also includes the following passage from the Christian Science text book, "Because life is God, life must be eternal, self-existent. Life is the everlasting I am the being who was and is and shall be, whom nothing can erase."

FIRST CHRISTIAN CHURCH

Services for the week:
Sunday:
9:45 Bible school. Ben Dunn, superintendent. Let us not permit the 'summer slump' to attack our attendance. God does not let the warm weather or vacations interfere with His care for us. We should at least honor Him on His day.
11:00 Morning worship, including communion. "And upon the first day of the week, when the disciples came together to break bread, Paul preached unto them." (Acts 20:7. Sermon subject: "Remembrance."
5:00 Junior Christian Endeavor.
7:00 Young people's meeting. Topic "Why Is Gossip Harmful?"
8:00 Evening preaching service. Sermon subject: "What Kind of God Do You Believe In?"
Monday:
6:30 Fellowship supper at the church, followed by an anniversary program celebrating the founding of the local Christian church thirty-one years ago. All members of the church are urged to be present, and we cordially invite all friends of the church who are interested.
Wednesday:
8:00 a play entitled "Youth in Conquest" will be given at the church by the young people. The public is invited. An offering will be made at the conclusion of the play, and will be used to help pay the expenses of four young people to the summer conference for a week in July. Come and enjoy a very fine play, and give encouragement of the young people.
Thursday:
All day meeting of the Woman's Association at the Legion hut. At the noon hour, guests from Roswell, Hagerman and Carlsbad will be served. An interesting program is scheduled for the afternoon.

THOMAS MASSIE, Pastor.

FIRST METHODIST CHURCH

A. C. Douglas, Pastor
Church school for every age at 9:45 a. m. George Frisch, superintendent.
Morning worship at 11 o'clock. Sermon topic: "Trust in the Lord." Special music. Mrs. I. L. Spratt, director.
Senior Epworth League devotional service at 7:15 p. m. The young people attending the summer assembly at Sacramento will report their impressions of the assembly following the devotional service. Come.
Evening worship will begin at 8:00 o'clock. The pastor will speak on "The Two Paths of Life." We are especially anxious to

LOCALS

Charles Montgomery, manager of the Joyce-Fruit store in Carlsbad, was in the city on business, Saturday.

Mrs. Harry Jernigan who came over from Hobbs, Friday for a visit with home folks returned to her home Sunday.

Arthur Payton, son of Mr. and Mrs. E. A. Payton left Saturday for McCamey, Texas. He expects to be gone several weeks.

Mrs. Ben Dunn has accepted a position with the Richards Electric Shop, relieving Mrs. Albert Richards for the summer months.

Mr. and Mrs. T. C. Bird of Hobbs, and former residents of Artesia were here from Friday to Monday as guests of Mr. and Mrs. Stanley Blocker.

A. L. Kite who is at St. Francis hospital in Carlsbad suffering with malaria fever is reported as improving. Mrs. Kite spent Sunday at the hospital with him.

James Welch, son of Mr. and Mrs. Van Welch, Sr., returned the latter part of last week from Berkeley, California where he attended college this past school year.

Albert Linell, small son of Mr. and Mrs. Wm. Linell was out Saturday for the first time after an illness of several days in which he suffered with an infected gland of the ear.

James P. Fitch of Dallas, regional director of the Boy Scouts passed through here Saturday. He was enroute to Roswell to confer with P. V. Thorson, area director of the scouts.

Word from Mrs. F. G. Hartell who was called to Roberts, Kentucky a few weeks ago to be with her mother, who was critically ill at that time, states that her mother is very much improved.

Miss Jack Ward, daughter of Mr. and Mrs. S. S. Ward returned last week from Henderson, Texas where she had spent several weeks visiting her sister, Mrs. Guy Reed Brainard and Mr. Brainard.

Mr. and Mrs. Leon Barker are expected home Saturday from a two week's vacation in which they visited their parents at Hamilton, Texas and also visited in Lubbock and Fort Worth. Mrs. Barker's brother, David Smith who has lived here for the past year returned to his home with them.

E. C. Higgins and Judge G. U. McCrary left Friday by train for Temple, Texas where Mr. Higgins will go through the Scott White clinic. They expect to vacation on the gulf coast before their return. Judge McCrary took his fishing tackle for some deep sea fishing. In Corpus Christi they will visit Mrs. McCrary's brother, W. W. Duckworth and family.

welcome those without church homes to our services, and we invite visitors and strangers within the community to come and join us in worship.

BARBERS LOOSE TO MAVERICKS IN A FAST GAME

In a fast and hard hitting game of soft ball, Monday the Mavericks team, composed of the local stars, overthrew the dope and brought home the winning score to the tune of 25 to the Barbers "All Star" 19.

It was everybody's game until the last inning when the locals found Chambers and practically drove him from the box.

The winning pitchers were Brown and Jackson, losing Chambers. Francis Adams umpired the game.

The lineup was as follows:

SUMMARY			
Barbers	AB	R	H
Shearman, lss	5	2	4
Horne, 1b	5	1	1
Lewis, c	4	2	2
McGuire, 2b	5	2	3
Kiddy, cf	4	1	1
French, 3b	5	2	3
Roberts, rf	4	0	2
Cunningham, lf	4	1	2
Goff, (Capt.) rss	5	3	3
Chambers, p	5	5	5

A HOLE IN ONE BY CLARKE

B. D. Clarke who made a hole in one on the local golf course on Memorial day, says he has been shouting the news from the house tops, however the Advocate reporter did not locate one of the house tops until this week. Mr. Clarke is the third man to make a hole in one on this course. It was made on the 9th hole, a distance of 159 yards.

AGRICULTURAL COMMITTEE

Announcement has been made from Las Cruces of a five-man agricultural information committee which has been named to work with the recently formed state organization. Members of the committee are C. W. Beeman, Loving; Charlie Rogers, Artesia; Jesse I. Funk, Lake Arthur; W. C. Bates, Carlsbad; and A. C. Bindel, Carlsbad.

Doctor Pleads Guilty In Cases Of Manslaughter In Oklahoma

Dr. Guy E. Brewer, physician of Garber, Oklahoma pleaded guilty to six charges of manslaughter resulting from illegal operations on women, and was sentenced to four years in prison on each charge. The sentences to run concurrently. The above charges were changed from murder to second degree manslaughter.

The mild-mannered country doctor was brought quietly into the court room by officials who arranged the procedure secretly to avoid a crowd. He entered a plea of guilty through his attorney.

The doctor who was arrested and jailed on April 30, had not been arraigned on any of the charges which had been accumulating since that date. Dr. Brewer's only statement in connection with the charges was: "All my boys are working and their future is being worked out, so why should I worry?"

"His 'boys' are many young men of Oklahoma whose college expenses have been paid by the doctor. The bald country physician, famous for his philanthropic in giving scores of boys and girls of Oklahoma, college educations was silent throughout the brief, dramatic procedure.

SANTA FE WINDOW DISPLAY

The Santa Fe local officials in keeping with the railroad week which is being observed by the Santa Fe system, have arranged an interesting window display in the west window of the Oasis Cafe. Paintings, railroad magazines and time tables for most every destination are on display.

LARGE NUMBER OF SOIL EROSION DAMS ARE COMPLETED BY CCC

During the last fiscal year CCC camps located in the national forests of New Mexico have completed 116,115 soil erosion dams according to figures released by the regional forest office in Albuquerque recently.

17,168 acres of eroded soil was materially benefited by these dams the figures showed.

Approximately 1,561 miles of forest roads were also constructed and maintained along with 547 miles of telephone lines. More accessible roads and better means of communication will aid greatly in combating forest fire, it was said.

In conjunction with these major projects, recreational areas, stream improvements, surveys and many other works were completed in the year's building program.

Surveys of 112 miles and 317,400 acres were finished. Timber stand improvement covered an area of 6,110 acres. Eradication of many poisonous plants, much rodent control, and revegetation of range country was carried out, it was said.

Many miles of roadside clearings and building construction was also completed.

Mrs. (showing husband expensive fur coat): "One really can't help but feel sorry for the poor thing that was skinned for this."
Mr.: "I deeply appreciate your sympathy."
