

### 3 "White Collar" Projects Prepared

Three "white collar" type projects were prepared Monday by Fred Brainard, district WPA projects manager, for submission to state WPA headquarters in Santa Fe.

Included in the applications were a census project for the city of Carlsbad, a housing survey project for Artesia and Carlsbad, and an indexing project for the Carlsbad municipal library.

Four persons would be employed in the Carlsbad census enumeration. The project would cost \$460. The federal housing survey, sponsored by the FHA committee, would employ twenty-eight persons and would cost \$1,690. The survey would be made of all homes in Carlsbad and Artesia.

Three persons would be employed for a year at a cost of \$2,028 in the indexing project for the Carlsbad library.

The Carlsbad cemetery project, including construction of walks, a fence and improving of driveways, was returned for signature of forms. This project has been approved by the Santa Fe offices.

Fred Brainard, WPA projects manager, said yesterday morning application for a library project for the Artesia library had also been forwarded to the state office. He also said a sanitary project had been submitted for the three counties, Eddy, Chavez and Lea. Other projects submitted to the state office include new headstones and other equipment for the Hope irrigation district, a street grading project for Hope and the completion of the stretch of road on Highway 83 between Hope and the YO Crossing. Also a road grading project for the Cottonwood community and a road grading project for the rural section southeast of town.

### LOCALS

A son was born to Mr. and Mrs. Archie V. Welch Saturday.

Tom Wood, Carlsbad chief of police, was visiting here Tuesday.

Mr. and Mrs. M. E. Williamson announce the birth of a son, born Saturday.

Mr. and Mrs. Bob O'Bannon of the Cottonwood were shopping here Tuesday.

Judge N. C. Doering of the Cottonwood was trading in town Tuesday afternoon.

S. W. Blocker, chief inspector at the Carlsbad port of entry, was visiting friends here Tuesday.

Miss Florence Muncy returned last week from a visit with relatives at Wilmington, California.

New Hobbs property owners approved a \$40,000 bond issue last week to construct a sewer system.

Max Merrell of McCook, Nebraska, spent a short time here last week attending to business matters.

C. E. Estes, who underwent an appendix operation at Roswell about two weeks ago, was able to return home Friday.

Mr. and Mrs. C. W. Bartlett drove down from the Sacramento Camp Sunday to make a short visit here before returning Tuesday.

Mrs. W. S. French returned the latter part of last week from a short vacation trip to Oklahoma where she visited a son and family.

Mrs. Hugh Burch underwent a major operation Monday at the St. Francis hospital in Carlsbad and at the last report was recuperating nicely.

### 7,000 Indians Expected For Gallup Inter-Tribal Ceremonial Aug. 28-30

Gallup, New Mexico, "The Indian Capital," is now preparing for the seven thousand Indians of thirty tribes of the southwest who will invade that frontier, western town August 28, 29, 30, for their fourteenth annual Inter-Tribal Indian Ceremonial.

For three days and nights the primitive red men will present their traditional dances, chants and Indian magic, complete in their native sports, races and games, and display the products made by their best craftsmen during the last year. Cash prizes on the arts and crafts will exceed one thousand dollars.

Gallup has taken extra measures to accommodate Ceremonial visitors. Citizens have listed two hundred rooms in their homes for visitors that cannot be accommodated in the regular facilities. To meet the demand for housing the Ceremonial Association has contracted for four Santa Fe pullman cars that will be parked in the center of town and rented to visitors.

Tribes from Arizona, New Mexico, Oklahoma and other states have already asked to participate. Others are expected. Among the outstanding tribes to attend are the Navajo, Taos, Apache, Kiowa, Hopi, Zuni, Tesuque, Zia, Jemez, Pawnee, San Ildefonso, San Juan, Santa Clara, Pima and Ute.

The ceremonial is held in a natural amphitheater surrounded by colorful mesas. Arriving on horseback, in covered wagons, and more modern ways, the Indians camp here during their ceremonial.

In three days and nights at the Gallup Ceremonial the visitor, according to ceremonial officers, can see more authentic dances, weird ceremonies, arts and crafts, and craftsmen at work than he could in several months of travel over Indian reservations.

### Hope To Adjourn The Congress Soon

WASHINGTON—After a conference with President Roosevelt, democratic leaders in congress plunged Monday into a final legislative drive of tremendous scope.

Their aim was to obtain action on all or most of an eleven-point legislative program, including compromises on the \$250,000,000 tax bill and the utilities measure, and then adjourn by Saturday night.

Although the program was considered subject to change as the eleventh-hour situation developed further, authoritative sources stressed these measures as those on which action will be sought especially:

The utilities bill, the tax measure, the Guffey coal stabilization bill, the ban against damage suits against the government because of its gold policy, alcohol control, Tennessee Valley Authority Act amendments, a bill to impose NRA labor standards on firms which contract with the government, rivers and harbors legislation, the third deficiency bill, the oil regulation measure to ratify state compacts made at Dallas, railroad reorganization legislation.

After the conference, in which the leaders sat with the president until late Sunday night, Senator Robinson, majority leader in his branch, declared he believed "the work of the session will be completed this week."

The leaders did not publicly announce the eleven-point program, and the authoritative source who disclosed it emphasized that it might be subject to later change through addition or subtraction.

It was said that during the conference, the president expressed strong feeling in favor of the utility bill clause calling for mandatory abolition of "unnecessary" holding companies by 1942.

As for the tax measure which the senate and house adopted in very different form in response to President Roosevelt's call for "distribution of wealth," a compromise on several points also was indicated.

Concerning the new liquor agency projected as a successor to the defunct federal alcohol control administration, informed quarters predicted congress would permit bulk sales of liquor in kegs and barrels, and would set up an independent regulatory agency which, however, would submit its reports to congress through the treasury.

Among measures mentioned as lost in the shuffle so far as this session of congress is concerned was the new food and drug regulatory system. It was predicted that congress would not act finally now on railroad pension legislation to replace a law stricken off the books by the supreme court.

#### Snake Bites

From newspaper clippings and from medical reports particulars have been collected by Dr. T. S. Githens of 2,342 bites by venomous snakes in the United States during the last eight years. Of these, 723 bites occurred in southwestern states.

The legs get rather more than half of all the bites, as you might expect. In many cases the victim treads on a concealed snake, often at night. Nearly all the remaining bites are on the hands, wrists and arms. They are the result of gathering crops, picking up wood or reaching into rabbit holes and similar hiding places.

Many superstitions are still current regarding the treatment of snake bite. It does no good to spit open a live chicken and apply it to the wound. Kerosene and crude oil are useless. Whiskey does more harm than good.

Make a crisscross cut into the bite and suck out the poison with your mouth. As much as one-half of the snake's poison can be removed in this way. Place a tourniquet above the wound and keep the patient absolutely quiet. If he must be taken to the doctor move the patient with as little strain as possible. If there is a telephone ask the doctor for instructions. The use of antivenin (snake bite serum) cuts the death rate from 14.3 to 3.7 per cent. One citizen of this state writes me from a remote village, far from a doctor but near to many rattlesnakes, asking for a stock of the serum. A dose of antivenin can be purchased for ten dollars but the trouble is most people do not know how to inject it. It will do no good taken by the mouth. You will be wise to see that some drug store in the nearest town has this serum in stock and to ask your doctor for exact directions on what you should do if one of the children is bitten.

Mr. and Mrs. E. B. Bullock and Mrs. Bullock's sister, Mrs. Mattie Reese of Austin, Texas, drove up to Ruidoso Monday and will be the guests of Mr. Bullock's uncle, the Rev. Thomas Barcus at the Barcus cabin for a few days.

John Lanning of the Continental Oil Company conducted a dealers meeting of the company in Hobbs Wednesday. Earl Bigler, local dealer, attended.

J. H. Bridgman of Moor Park, California, former resident of Hope, is spending a short time here and at Hope attending to business matters.

Otice Brown, who was employed in a Hobbs drug store for several weeks, resigned last week to accept a position of salesman with the Guy Chevrolet Co.

Miss Bessie Muncy, sister of Mrs. L. M. Friend, who has visited here and at Dexter for the past two weeks, left for her home at Van Nuys, California, Sunday.

Chas. Bullock and Miss Virginia Woods drove up to the mountains Saturday for a week-end visit, returning by the Boyd Williams ranch for a visit with Miss Agnes Ann Williams.

Mr. and Mrs. W. H. Stiewig and family left this week for Atoka, Oklahoma, where they expect to make their future home. Mr. Stiewig was formerly an employee of the Artesia Auto Co.

Mrs. C. Bert Smith is in Waukegan, Illinois, with her daughter, Mrs. Edson Jones and family. Mrs. Smith will go to market in Chicago for the Baldwin store and expects to return here by September 1st.

E. N. McGregor of Wichita, Kansas, president of the Big Jo Lumber Co., and F. A. Berry of Santa Fe, secretary of the Big Jo were here Monday to attend a directors meeting of the Artesia Properties Co.

Mmes. W. H. Ballard of Artesia and Clark Storm of Roswell were called to Uvalde, Texas, Monday by the serious illness of their father, J. E. Carper, who suffered a stroke of paralysis. Capt. Clark Storm drove the ladies down.

Mr. and Mrs. Harry Jorren have returned to Artesia to make their home here. They formerly resided here and are well known to many local people. Mr. Jorren until recently was employed by Omer Kersey in drilling water wells on the Indian reservation.

### Gold Production Increased In N. M. Many Attractions At Tri-State Fair

Placer mining machinery and not the romantic weather-beaten prospector with a pan in "pay dirt" operated in 1934 to increase gold production in New Mexico \$277,702 in wake of the United States new gold policy, according to a report received by Charles W. Henderson, Washington, D. C., of the United States Bureau of Mines.

The state produced \$954,380 of gold in 1934, the bureau said, and \$686,400 of silver. Henderson said placer operations had offset a decrease in yield of gold from lode mines, which, however, increased in number from 92 to 153 since 1933.

San Miguel county produced more than half the gold and silver output of the state with \$546,352 gold and \$351,443 silver from a single lode mine. In gold production, Catron county was second with \$111,357, and Grant third with \$106,565. Grant county ranked second in silver output valued at \$234,390; Catron county third with \$78,453.

Gold only increased in total weight produced, Henderson reported. Silver, copper, lead and zinc fell off compared to 1933, but an increase in value of gold, silver and copper during the year more than offset this drop in volume and gave the state an increase in value of metals mined over 1933 of \$275,365 to equal 6 1/2 million dollars for the year 1934.

Curtailing of operations of the Chino Copper Company near Silver City in Grant county, the report showed, brought the decrease in copper amounting to nearly 3 1/2 million pounds for the year. Value of copper mined, however, increased from \$1,724,608 in 1933 to \$1,890,400 in 1934.

In value of all ores mined in 1934 Grant county was first with \$3,086,134; San Miguel county second with \$2,939,816; Catron county third with \$190,624.

### 40-HOUR WEEK BILL IS SIGNED

WASHINGTON—President F. D. Roosevelt Friday signed the bill providing for a forty-hour week for postal employees.

It is expected that the bill will provide for jobs for 10,000 additional employes on the substitute list.
