NUMBER 39

ACTIVITY IN OIL SECTOR IS NORMAL

Six Wells Added To The Production Column and Location for Seven New Wells Staked; Two Oil Tests Abandoned.

Oil activity in the southeastern oil area is keeping about an even keel now. During the past week, six wells have been added to the production column, two have been abandoned and locations staked for seven new wells.

In Eddy county the Repollo-Premier, Parke No. 3-X, sec. 15-17-30, was given a final test after treatment with 3,000 gallons of acid at 3450 feet and flowed 505 barrels in twenty-four hours.

In Lea county, the Amerada Oil Co., State No. 2-F, sec. 36-19-36, was completed at 3939 feet. The well was given five acid treatments totaling 9,000 gallons and responded by flowing 1,050 barrels of oil in thirteen hours with 800,000 feet of gas. The State 1-G of the Amerada, sec. 18-19-37, was also acidized at 4041 feet, using 3500 gallons of acid. Following the treatments the well flowed 309 barrels in four and a half hours with 890,000 feet of gas.

The Continental Oil Co., had two completions this week. The Meyers B-17 No. 1, sec. 17-21-36, of this company was drilled to a depth of 3820 feet and after acid treatment flowed forty barrels of oil per hour with 917,000 feet of gas thru tubing. The State B-13 No. 2 of the same company in sec. 13-18-37, was drilled to 4040 feet and flowed at the rate of 6,382 barrels of oil and 10,000,000 feet of gas after acid treatment.

The Gypsy Oil Co., also recorded two completions in the period. These being the Culp No. 1, sec. 19-19-37, drilled to 3970 feet. The initial production of the oil was 1,500 barrels of oil with 1,500,000 feet of gas on a natural flow. The Orcutt No. 1 of the same company in sec. 5-21-36, was drilled to 3890 feet and made an initial production of 300 barrels of oil with 500,000 feet of gas flowing natural.

Among the locations made the past week include the Penrose & Rowan, Will Cary No. 1, sec. 22-22-37; Skelly Oil Co., Coates No. 1, sec. 3-24-36; Gypsy Oil Co., J. M. Cooper No. 2, sec. 14-24-36; Gypsy Oil Co., North Bell No. 1, sec. 6-21-36; Humble Oil and Refining Co., Adkins No. 1, sec. 10-21-36; Stanolind Oil and Gas Co., Myers 2-B, sec. 11-24-36; Stanolind Oil and Gas Co., Capps No. 7-X, sec. 3-19-38.

Two wells abandoned are the V. P. Welch, State No. 1, sec. 23-17-28, drilled to 2170 feet, and the Cuberson and Irvin, Eva Brown No. 1, sec. 23-21-32, drilled to 3602 feet. Both wells were abandoned as dry.

SENATORS VISIT CAVERNS

Senator Robert F. Wagner of New York, author of the Wagner labor bill, accompanied by Senator Carl Hatch of Clavis, were guests of Col. Thomas Boles, superintendent of the Carlsbad Caverns on a trip thru the Caverns yesterday.

Sensor Wagner is on a tour of inspection as chairman of the public lands committee.

PUCKETT EXAMINES THE FOOTBALL BOYS

Dr. O. E. Puckett, district health officer, was here Tuesday and gave an examination to members of the football squad. Dr. Puckett also examined all the high school teachers and some of the teachers in Junior high school. All were given an OK by Dr. Puckett.

Artesia Gridsters To Be Ready For The First Ball Game of Season

Coach Donald Maudsley is gradually whipping his high school football charges into shape for the first conference game of the season. About twenty candidates have reported for practice, he said last week. Arrangements are being made for a game with the high school alumni, probably tomorrow.

A scrimmage session was held at Roswell with the Roswell high school eleven last Friday and both Coach Maudsley and Coach Corn of Roswell expressed satisfaction over the performances of their teams.

Efforts Made To Extend Boy Scout Movement In Area

Troop of Mexican Boy Scouts To Be Organized Here; Effort Also Made To Organize Cub Pack In Artesia.

A troop of Boy Scouts for boys of Spanish descent is to be organized here this week and good progress is being made, P. V. Thorson of Roswell, area executive, announced. Benny Juarez is to be the scoutmaster and the troop will be sponsored by a group of interested citizens. The boys are enthusiastic and very anxious to enter into the activities. The first meeting was held last night at the office of Wm. Dooley.

An effort is also being made to organize a pack of Cubs for boys aged 9, 10 and 11. This is the program of the Boy Scouts of America for younger boys. A meeting was held last night at the First Baptist church of the parents of Cub-age boys and plans made to organize.

Scouts of troops 8 and 29 will hold joint meetings for a while under the direction of Frank Smith, assisted by W. F. Collins, who is an Eagle Scout. Russell Knoedler, scoutmaster of troop 29 will continue in that capacity but at present is unable to give the time necessary. Troop 28, sponsored by the First Baptist church is doing some fine work under the leadership of Carl Everett, the scoutmaster. This troop was organized last winter. An invitation is extended to all boys of Cub and Scout age to join the movement.

Local Curb And Gutter Project Is OK—Report

The city's curb and guttering project, consisting of approximately 17,000 feet or about sixty blocks, has been approved by the administration at Washington, according to week-end press dispatches from the capital city, although city officials have not been notified of the approval of the project, it was said Monday.

Fred Brainard, WPA project manager, said it would likely be at least three weeks before a start would be made on the curb and guttering. In the meantime a street graveling project has been commenced and it is probable the employees will be shifted from one project to the other. Friday night a protest hearing will be held at the City Hall to provide an opportunity for those opposing the project to be heard.

Canning Project Making Headway
The vegetable canning project, operated under the WPA here, is making progress with the canning operations, it was reported the first of the week. The cannery, located in the old creamery building, has been in operation about three weeks and has turned out more than 10,000 cans of tomatoes. It is hoped that 50,000 cans may be put up before the close of the season.

Roswell Stadium Started
Work was started Monday on the new stadium at Roswell, to provide that city with a lighted field for night football and baseball.

COYOTE DIES FROM SHOTS FROM PLANE

A mauring coyote, described as a constant threat to sheepmen in the Pecos area for about two years, was hunted down and shot last week from an airplane on the Roy Treat ranch southwest of Pecos, says the Roswell Dispatch.

A group of some thirty ranchers and their employes from that area and Ray Baumgardner with his plane from Fort Stockton, Texas, were needed in the two-day chase before the animal was shot down from the plane's machine gun.

The coyote was reported to have been jumped on the second day and sighted by the flyer who dove to kill him, and had to return, after wounding the animal, to the ranch for gasoline. Upon returning, a group of horsebackers and dogs, owned by Geo. Clements, had sighted the coyote and pointed him for the flyer who flew within about fifty feet to make the final kill, it was reported.

Miss Phoebe Welch returned home the latter part of last week after spending several weeks in El Paso.

Rodent Control Work Started At Local CCC Camp

Fifty men from the CCC camp west of Lake Arthur have started the rodent control work and are poisoning prairie dogs under the direction of Homer Holmes, foreman. Mr. Holmes said Saturday eighty to 100 men would be employed as soon as the rodent control work is fully underway. The men are now working in the territory within a radius of twenty-five miles of the camp, but when this territory is covered "fly camps" will be established to work the area, which embraces a large part of the southeastern part of the state.

The soil erosion work is expected to start at an early date at the camp. Other enrollees of the camp have been employed in building roads.

The City School Enrollment 892

Initial Enrollment High; Expected To Pass Total Of Last Year.

The initial enrollment of the Artesia schools was given as 892 by Supt. W. E. Kerr yesterday. This is probably the record for the initial enrollment, although last year the entire total enrollment ran to 1,051. So far this year there are a number of prospective pupils to be registered or enrolled later.

It will be noted also that the enrollment at the Junior high school is one ahead of the High school, which is an unusual condition. Enrollment by grades is as follows:

Central School—First, 131; second, 82; third, 70; fourth, 74; fifth, 80.
Junior High School—Sixth, 104; seventh, 71; eighth, 53.
High School—Freshman, 72; sophomore, 60; Junior 46; senior, 44; post graduate, 5.
Enrollment by schools: Central, 437; Junior High, 228; High School, 227.

JUNIOR COLLEGE HAS RECORD ENROLLMENT

Showing an increase of one-third over last year's fall registration, the Eastern New Mexico Junior College at Portales is rapidly becoming an outstanding educational institution of the state. As was true of the student body last year, the freshmen outnumber the sophomores. Of the 228 students enrolled during the first week, there are 190 freshmen and 130 sophomores, the other four being classed as special students. This number does not include the students in extension classes which are being held in several of the towns of eastern New Mexico.

While Texas is well represented, New Mexico forms the majority; the following counties being represented: Curry 73, Roosevelt 180, Quay 29, Chaves 17, De Baca 8, Lea 7, Union 5, Colfax 5, Eddy 4, Mora 1, and Bernalillo 1.

JOHNSON CALLED BY LOCAL CHURCH

The Rev. Allen Johnson of Hobbs has been called to serve the Church of Christ here, it was announced this week. The Rev. Hobbs, who has served as pastor of the Church of Christ here for several months, plans to leave this week for Clinton, Oklahoma, to take up his work there. The Rev. Hobbs will preach his final sermon tonight to the local congregation.

Trucker Is Hijacked Near White's Camp On Saturday Night

Hijackers ran a truck belonging to Fred Boes, Carlsbad Malco dealer, off the road near White's camp about 8:00 o'clock Saturday night, took an undetermined amount of money from the driver and took his truck, Carlsbad police were informed late Saturday night. A search by J. A. Campbell and Fred Hill of the sheriff's office, and Albert Ares, city policeman, failed to reveal any information as to the identity of the hijackers immediately.

The driver, whose name was not learned, delivered gasoline at White's camp a few minutes earlier. Shortly after he left the camp two cars approached from behind and drove him off the road. The truck was taken down the road about a mile from the scene of the robbery and abandoned.

Co. Tax Rate Schedule Is Now Complete

State Rate Same, County Rate Is Slightly Lower; Westaway Working On 1935 Tax Roll Which Will Be Ready On Time.

County Assessor Richard H. Westaway is working on the 1935 county tax roll. Despite the fact that the making of the roll was delayed waiting for the state tax commission to approve the county budget, Mr. Westaway hopes to have the roll ready on scheduled time.

There has been a slight reduction in the county tax rate as will be seen in comparing the 1935 tax rate schedule with that of 1934. Our readers may find a comparison of the various tax items of 1934 and 1935 interesting:

	1934	1935
State	\$.60	\$.60
County	1.0525	1.0399
Total County-State	1.6525	1.6399

FUNERAL RITES OF MRS. OLIVER TO BE HELD 27th

Mrs. Wes Oliver Died Last Night At A Carlsbad Hospital Following An Operation Wednesday Morning.

Mrs. Wes Oliver (Minnie Dungan), age 29, died last night at a Carlsbad hospital shortly after ten o'clock, following a major operation yesterday morning. The announcement of the death of Mrs. Oliver made here last night, was a distinct shock to friends of the family, although the nature of the operation was known to have been serious.

Mrs. Oliver was born in Oklahoma. She had lived here with the family for the past twenty years, attended school here and was well known to the people of the community.

Funeral services will be held tomorrow afternoon at the Methodist church with the Rev. A. C. Douglas, pastor, officiating. Burial will be made in the Woodbine cemetery. Her husband, Wes Oliver of Artesia, this state, has been notified and is expected here today. Mr. and Mrs. Lee Dungan and family of Carlsbad and Homer Dungan of Santa Fe, uncles of the deceased, are expected here for the funeral.

Mrs. Oliver is survived by her husband, Wes Oliver of Artesia, her parents, Mr. and Mrs. G. B. Dungan of Artesia, two brothers, Clyde and George Dungan of Artesia, and a sister, Mrs. Herman Green of Artesia, and two uncles, Lee Dungan of Carlsbad and Homer Dungan of Santa Fe.

Mr. and Mrs. J. K. Wallingford and small daughter, Martha, left early this morning for Lubbock, Texas, where they will spend the week-end with friends.

COMMUNITY EXHIBIT IS CALLED OFF

The community display to be exhibited at the Eastern New Mexico State Fair at Roswell has been called off, W. B. McCrory, manager of the Chamber of Commerce, announced this morning. Difficulty in getting suitable exhibits since the wet weather has been a major factor in the decision to call off the effort to have the exhibit, he said.

Local Proration Agreement OK By Commission

Local oil operators were notified last week the state conservation commission had accepted the compromise proration plan, submitted by the oil producers at Santa Fe on September 6th, covering the Maljamar and Eddy county oil fields. The proration agreement will be effective October 1, 1935.

A committee of four, composed of Van Welch, chairman; C. J. Dexter, secretary, and M. E. Baish and Hugh Burch, will aid in administering the agreement with the assistance of Glenn Staley of Hobbs, umpire.

The output of the Eddy county fields is based on demand and is expected to run in the neighborhood of 70,000 to 80,000 barrels monthly, while the Maljamar output will be a minimum of 12,000 barrels and a maximum of 15,000 barrels monthly.

Good Rains Fall Over This Sector

Rain Three Nights Brings Over Inch of Moisture To Artesia Section.

This section has been thoroughly wetted by the best rains of the season, the first three days of the week. Rainfall has varied from a half to over an inch of rain in places. The plains of Lea county has received several downpours as well as the south part of the county while over an inch or 1.04 inches had fallen here up to yesterday morning. The Lovington area experienced a near cloud-burst Sunday when an inch of rain fell in fifteen minutes. The Loving section in the south part of the county was also hit by a hard rain Sunday and reported about an inch of moisture.

Heavy showers fell in the southwestern part of the county Tuesday afternoon and streams between here and Carlsbad were running bank full.

The moisture has helped up crop gathering operations, scheduled to start in full blast this week. Farmers said yesterday they hoped to be able to start cotton picking by this afternoon, if no additional rain fell.

The best rain of the fall season fell here Monday night and measured almost an inch or .94 of an inch, according to tabulations at the local weather station. On the previous night a total of one-tenth of an inch fell, bringing the precipitation to that time to practically an inch. The moisture covered a wide scope of country and extended over much of the state as well as in the panhandle of Texas, reports received here stated.

The rainfall varied in intensity over this immediate area. Showers fell between here and the mountains and between here and the Cap Rock at intervals Monday and Tuesday. The area west of Hope received a heavy rain as well as the vicinity in and around Carlsbad.

Ranges in the Pecos valley are probably in the best condition in history. The recent moisture will be of material aid in insuring fall and winter grass.

SANTA FE WOMAN GETS AN AUXILIARY OFFICE

Mrs. John Wayne Chapman of Santa Fe was elected Monday at St. Louis national vice-president of the American Legion Auxiliary for the western division. The election was made at a divisional caucus.

A Community Fair Is Planned Monday Eve for Cottonwood School

The Cottonwood school is sponsoring a community fair to be given at the Cottonwood school on Monday evening, September 30th, F. R. Zumwalt, principal, announced here yesterday.

Mr. Zumwalt said efforts would be made to have exhibits in sewing, flowers, vegetables, grains, home canning, poultry and domestic animals. The cooperation of the public is solicited in aiding the school children to get any of the above exhibits to the fair grounds. In addition to the exhibits other attractions for the evening are planned. A gate fee of one cent for children and five cents for adults will be charged.

The public is cordially invited to attend.

A. L. Terpening Dies Suddenly At Dexter Sun.

Heart Attack Fatal To A Pioneer Resident; His Funeral Services Held At Methodist Church Tuesday Afternoon.

The sudden death of A. L. Terpening, aged 65, resident of Dexter, which occurred Sunday afternoon at the Terpening home, came as quite a shock to friends of the family here.

Death came to Mr. Terpening a few minutes after his daughter-in-law, Mrs. Hester Terpening, and Mr. and Mrs. W. M. Schneider and Mrs. Ella Stanley had left for home. Mrs. Terpening, her parents and Mrs. Stanley, had spent the day at Dexter visiting Mr. and Mrs. Terpening. A short time after the visitors left, Mr. Terpening went into the house to wash his hands and fell dead at the wash basin. Mrs. Terpening heard him fall and rushed to aid him, but he had passed on and was beyond medical aid. He had been suffering with heart trouble for several years and his untimely death was not unexpected to members of the family.

Mr. Terpening and family moved here in 1909 and up until about eight years ago, operated a farm southeast of town. In about 1927 Mr. and Mrs. Terpening moved to Dexter where they have since lived and where Mr. Terpening operated a Rawleigh Products route.

Funeral services were held here Tuesday afternoon at the Methodist church with the Rev. Johnson, Methodist pastor of Carrizozo, and formerly of Dexter, officiating, assisted by the Rev. A. C. Douglas. Interment was made in the Woodbine cemetery.

Surviving the deceased are a widow, one son, Henry Terpening of Artesia, a daughter, Mrs. A. N. Burkland of Centerville, Iowa, and four sisters, Mrs. Schumacker of Bellingham, Washington, Mrs. Maggie Abbey of Zering, Iowa, Mrs. Casyart of Potomac, Illinois, and Mrs. Chas. Weiner of Potomac, Illinois.

Large Number Of Farm-Livestock Exhibits At Fair

ROSSELL — With additional communities from different parts of New Mexico being heard from in the daily, officers of the Eastern New Mexico State Fair which starts here next Wednesday, October 2, predict by far the largest attendance in the history of the Fair. Last year's attendance figure was placed at 50,000 for the four days, but advance information indicates this figure will fall.

Because of the unexpected rush of entries in both the products and livestock departments it has been necessary at the last minute to provide additional space. Interior of the general exhibit building is being re-arranged to make more table and booth space, and a new 100-foot livestock barn is being erected.

Everything, however, will be ready for the grand opening parade on Wednesday morning at ten o'clock, says H. A. Poorbaugh, president of the fair.

Former Governor J. F. Hinkle, chairman of the Old Timers association, is sure the crowd of Old Timers on Friday will far exceed any previous year. A complete day's program has been arranged for them.

Spectacular events of many kinds have been planned for each day and night of the four-day fair, the rodeo each afternoon being one of the outstanding features.

THE REV. W. A. DAWSON DIES

The Rev. W. A. Dawson, father of Mrs. Alf Coll, died at the Dawson home in Amhurst, Massachusetts, Monday after an extended illness, according to word received here. He had been in ill health for some time and his death was not unexpected. The Rev. Dawson, a veteran minister of the Christian church, has served as pastor of the First Christian church here in 1911 and 1912 and was well known to many of the earlier residents.

Funeral services were held at Amhurst yesterday and the body was shipped to Grand Rapids, Michigan, where it will be interred in the family mausoleum.

PROBLEM OF STOCKMEN DISCUSSED

180 Livestockmen Attend Meeting At Carlsbad And Hear Warnings From Dr. Black and J. K. Wallace.

Approximately 150 stockmen and farmers of Eddy county attended a meeting held in the Eddy county court house on September 24th. The principal speakers at this meeting were Dr. W. L. Black, animal husbandman of the extension department of State College, and J. K. Wallace of the bureau of economics of the U. S. Department of Agriculture.

Dr. Black discussed in great detail the New Mexico stock and grain situation and the future outlook. The cattlemen were warned by Dr. Black that although the range seemed to be in very good condition due to the recent rains, actual tests made by the extension department have proven that from 22% to 82% of the grass roots on the range are actually dead. This fact can very easily be overlooked by ranchmen because at this time the grass is tall and numerous weeds have grown up somewhat filling in the vacant spots caused by the dead grass. Due to the very attractive prices at this time there is a great temptation for ranchmen to carry more cattle on their range than grass will support. The cattle population of the state was not reduced during the drought by as large a percentage as most people naturally assumed. Dr. Black pointed out that 600,000 cattle were purchased during the drought period in New Mexico, and there still remains on the New Mexico range at least 1,500,000 cattle. Therefore, it was pointed out that it would be to the welfare of the rancher as well as the range to sell heavily the calves and steers which are bringing a good price at the present time.

J. K. Wallace presented a natural picture of the economic situation of the United States and the entire world, and how this situation would affect the Eddy county stockmen and farmers. He assured the ranchers that their business was in the best position it has been since the war to receive a fair return on their investments. He also warned the ranchers, however, to be very cautious about holding for too high prices, pointing out that the present high demands for feeder cattle is for a very limited supply; in other words, the feed situation in the United States is 40% higher than it was last year, and the general tendency is to buy feeder stock to consume this supply of feed and place the finished product upon the market at a very attractive price. Due to the gigantic unemployed population there cannot be an unusual high demand for beef or pork upon the retail market until this unemployed population is again absorbed by providing industry. Mr. Wallace pointed out that beef and pork are direct competitors upon the market, and it is an established fact that the pork supply in 1936 will be materially higher than the supply in 1935. This naturally would reduce the demand for beef.

In conclusion, Mr. Wallace urged the ranchers not to over-burden the range because it is quite probable that prices are higher this fall than they will be in the fall of 1936. He urged careful grading of cattle and the production of only fancy beef type which has a very distinctive place in the market.

The farmers and ranchers of Eddy county are extremely fortunate in having these facts brought to their attention and should be able to plan their activity in such a manner that they will derive the greatest possible value out of their products.

New Model Buick To Be Displayed By The Guy Chevrolet Co.

Saturday, September 28th, the Guy Chevrolet Co., will have the first of the 1936 Buick models on display at its show rooms. The model to be displayed is known as the Club Sedan and represents a distinct improvement in appearance. The change in the general looks of the car is perhaps the most striking one inaugurated by the Buick Motor Co., in several years.

The public is cordially invited to view the new model.

THE STATE'S ADVERTISING CAMPAIGN

New Mexico will soon complete the running of a series of fourteen advertisements in national magazines, such as the Saturday Evening Post, the Literary Digest, the National Geographic, etc. The advertisements prepared by the New Mexico Tourist Bureau, tells of the unusual things to see in the state. Earlier in the year, the New Mexico Tourist Bureau released a series of advertisements to the newspapers of the southwest. No doubt many of our readers have seen these advertisements as they have appeared from time to time.

We know that the Carlsbad Caverns have enjoyed the best year in history and we are told the entire state has had a banner year. If we did not realize these things, we could probably accept the mounting gasoline tax receipts as an indication that the state is enjoying increasing attention from the outside tourists.

Unfortunately there is no yardstick for measuring the exact value of the state's advertising campaign and the same is true of local advertising. The Tourist Bureau may be able to get a fairly accurate check on the results of this advertising through the inquiries received, but the future results of the advertising campaign may never be determined because there is no way of knowing how many people have been influenced to include New Mexico in their next vacation trip, possibly a year or two from now and there is no way of determining how many people have come or will come into the state without taking the trouble to make an inquiry through the bureau.

New Mexico needs a connected system of highways if we are to get the full benefit of an advertising campaign and we will never get anything like 100 percent results until such a highway system is built. We feel sure state officials have recognized this as a prime need and we hope plans will be inaugurated looking toward the completion of at least two major highways.

THE CLEANUP CAMPAIGN

If you are interested in a cleaner, more prosperous-looking city, you must recognize some of the problems that will beset those who attempt to direct such a campaign. The approach to Artesia on the principal highway was never chosen from the standpoint of appearance, otherwise a different route might have been selected. This is unfortunate because it would be difficult to halt the construction of some of the unsightly buildings which have been erected north of town within the past two years.

In cleanup campaigns of the past, the junk piles have never all been removed, although some progress has been made. Until the junk piles are removed or hidden and until the looks of the unsightly building are improved, we can never accomplish much toward impressing the tourist, who may never see any part of the city except from the highway.

And in this connection the erection of neat fences of either lumber or adobe will do much to hide the piles of tin and machinery. Attractive fences can be built at a small cost and the construction of fences should be encouraged.

In the district away from the highway, much good can be accomplished in burning the trash and rubbish on both the unimproved and improved property and the removal of tin cans, rusting machinery, etc., to the junk piles.

A clean city denotes wide-awake citizens, who are aware not only of their personal responsibility to the friends and family, but who are mentally and morally alert.

Prospects of another European war have made a better market outlook both on farm products and potash. If it were not for the fact that Europe owes us for the last war, we might be inclined to get excited over the outlook. As the situation stands, the national government ought to adopt the same policy paper houses have with some newspapers, send out the stuff COD with a reminder we would like to have our money for the last war.

The Rev. Father Coughlin, the raving radio priest, has not stopped telling the country what is wrong with it. The only trouble he comes out with a new scheme every few weeks. Now he is said to be organizing labor unions and has adopted a high-sounding slogan. If he is as erratic on his work as a sky pilot, we don't see how he could get very far as he would be coming out every few weeks with a new plan to get to heaven.

The other day a fellow passed up Main street at sixty miles per hour, ran about 200 yards and turned. Apparently he was just motoring. Some time we would like to hear an explanation of the hurry in police court.

When we think of high priced pork we think of the pigs destroyed by the AAA some time ago that would have been hogs now.

Many refuse to join public movements because they'd rather remain on the sidelines and criticize.

Just when you think you can make both ends meet, somebody moves the end.

What father would like most to get out of his new car is the rest of the family.

Today is the tomorrow you worried about yesterday—and all is well.

A fish never gets caught by keeping his mouth shut.

If you must us a hammer—build a house.

REGISTRATION NEAR 1400 AT UNIVERSITY

ALBUQUERQUE—Registration at the University of New Mexico, which opened its fall term September 16, will near the 1,400 mark for the first semester, if predictions of the registrar's office are realized.

1313 PROJECTS SUBMITTED

SANTA FE—WPA officials announced Monday that 1,313 projects have been submitted to Washington asking for \$20,031,707.87 federal funds and two and a quarter million dollars in sponsored funds.

Good Reception At Any Time With the NEW 1936 PHILCO RADIO MANN DRUG CO.

Chislings

The late Huey Long is said to have accumulated an estate worth from \$2,500,000 to \$5,000,000 within a few short years. Now his brother, Dr. Long of Tulsa, Oklahoma, is willing to sacrifice himself on the public altar in order to carry on the "Share the Wealth" campaign, if the dear public insists. Lots of us would like to share the wealth in the same manner.

It is rumored that the Wops are going to use a garlic barrage in the first attack on Ethiopia, but our guess is the natives have smelled worse things and will refuse to retreat.

Parson Smith of Louisiana, whose shoulders are drooped with the responsibility of carrying on the "Share the Wealth" campaign in Louisiana, has apparently about faced on his exhortations. He's telling the public to have a good time with the distribution of wealth here on earth rather than trying to prepare for a better world and he's probably got a bigger following than when a minister because he says he can influence 300,000.

A local lady rides horseback to try and reduce her weight. The lady hasn't lost a pound but the horse has lost 108.

An old country boy was about to take a trip and he bought a ticket and inquired as to the price of a sleeping berth.

"Upper or lower?" asked the agent.

"What's the difference?" "A difference of fifty cents. Besides, the lower is higher than the upper. The higher price is for the lower. If you want it lower you'll have to go higher. We sell the upper lower than the lower. In other words, the higher, the lower. Most people don't like the upper, although it is lower on account of its being higher. When you occupy an upper you have to get up to go to bed, and get down to get up. You can have the lower if you pay higher. The upper is lower than the lower because it is higher. If you are winning to go higher it will be lower."

"I have called to see why your daughter Emily hasn't attended school lately," said the school attendance officer as he stood at the cottage door.

"Cause I think she's learnt enough," retorted Emily's mother shortly.

"Why," exclaimed the visitor, "she's only passed through two classes yet."

"Well, ain't that enough?" asked the woman. "I dunno what education is comin' to. When I was young, if a gal understood the elements of distraction, provision or replenishin' an' the common dominator, an' knew all the rivers and their tributaries, the provinces and the empires, she was reckoned to have education enough to see her through."

The average fellow regards the ravings of the congressmen in the national capitol as innocent "bull," but if he alone paid the bill his attitude might be different. It is said the last issue of the Congressional Record will cost the taxpayers \$771,750 and contains lots of imaginary speeches that were never made. In this case you pay for the hot air, but you don't know it.

A newspaper man wants to know if we reckon Huey Long can start a filibuster where he went. Our opinion is the bouncers are too tough.

Cottonwood 9-22-35. Dear Chislings Ed: I have a little pet bear. What shan't I feed him on?

A READER. Answer: Don't give him green corn, green watermelons or frijole beans. They have the same effect on bears as green apples does on boys, only frijole beans have been known to be fatal.

A young man working for a Hebrew merchant asked for a raise. The Hebrew got out his pencil and paper and began to figure there are 365 days in a year—you work eight hours a day.

May Still Get Project Thru To Plug Old Wells

Approval by the president of WPA projects allotments does not necessarily mean work will be started on them, Lea Rowland, New Mexico WPA director, warned Monday at Santa Fe.

Some of the projects may never be built, he said, because "we may never get the money. No project is to be started unless the money is here, cash in the hand as it were."

Several projects, Rowland said, have had the money allotted by the president, but on return to the WPA officers in Washington the projects have been turned down and the money returned to the general WPA fund. For example, Rowland said, there were the cemetery projects at Gallup and Springer, and the Gallup community building.

Another couple of projects refused were capping wells in the artesian basin. Rowland said the load had been put on his shoulders and he has practically the last word on the projects. So, he said, he arose and demanded the capping projects—and they might come through, he added.

There will be no road work, either, until actual cash is in hand, Rowland said, and when such, if any, road work is begun it will be with proper and ample equipment.

"I will not approve start of any road job," Rowland said, "until we get enough and the right kind of equipment to do a first-class job. I am not going to throw any money away on road projects when there is a lack of equipment, or where there is improper equipment."

JOURNAL SUE FOR \$10,805.61

ALBUQUERQUE—The board of regents of the State Agricultural college last week filed a suit in district court here asking judgment of \$10,805.61 with interest from the Journal Publishing company, allegedly due for rental and payment on a supplemental contract for purchase of new equipment for radio station KOB.

That makes 122 days that you work. There are 52 Sundays which leaves 70 days. There are 13 legal holidays, which leaves 54 days. You get one hour for lunch, which makes 40 days, date leaves 14 days. Den I give you two weeks holidays every year, so ven in the hell do you work?

"Do cats go to heaven, mother?" "Why, no. They don't have souls so they could hardly be expected to go to heaven."

"Then where do the angels get the strings for their harps?"

"Come, dear, it's time for you to go to bed."

The butcher was surprised when a young woman entered and asked to have twenty-five pounds of beef cut off in one piece.

"Do you wish to take it with you or have it delivered?" he asked.

"Oh," she said blushing, "I didn't want to buy it. I just wanted to see what it looked like in a lump. You see my husband says I have lost twenty-five pounds."

The question is if Mr. Noe was nominated governor of Louisiana, would he develop into a yes man.

Here's to the drug store cowboy! He's a man and a half. He throws the bull. He punches the cow. And keeps an eye on the calf!

She: "And when he looked the door, took off his coat, and turned out the light, I thought I'd better be on my guard."

Gas Station Man: "How's your Oil?"

Fresh Freshman: "Fine. How's yo' all?"

Bounds of Fear
The fearless perish. That is a law of life. But for the fear of death we should have neither medicine nor law. A real menace to our modern social welfare arises from our insufficient fear. War, implemented by science, threatens to destroy us. The automobiles on our highways vie with and in many respects surpass the destructive efforts of disease, simply because man has not matched his caution against the fury of this late offspring of his genius. Carelessness is not a sign of courage; it shows simply a want of imagination.

The fearful perish too, and perish miserably. "Cowards die many times before their deaths." The commonest cause of indigestion is fear of indigestion. Mothers who fear and fuss over their children teach them to magnify every minor symptom into a portent of disaster. Every doctor learns to recognize, by the great variety of his complaints, the patient who suffers from anxiety which is chronic fear. One half of the complaints are imaginary and due to excessive attention to normal function or to slight variations in these. The other half of the complaints are due to real disturbances of function which result from worry.

How shall we strike the happy mean between a fear which keeps us off the highway and a fearlessness which results in broken bones and bitter self reproach? How shall we avoid both the hypochondria which wastes our money on doctors' bills and the foolhardiness which keeps us outside the doctor's office until an inflamed appendix ruptures or an operable "lump" becomes a "cancer that is now too late?"

Fear must be kept in bounds by reason. And this also is true: that, if good judgment contributes to good health, a healthy body alone makes possible the sagacity of an unclouded mind.

STONE IS MEMBER OF McMURRY BAND

ABILENE, Texas—Following up a band and orchestra record in high school, Cyril Stone, son of Mr. and Mrs. Edward Stone of Artesia, was given a berth in the Indian band of McMurry College by Harold Lawrence Thomas, director. He will play a clarinet.

Stone also made one of the highest grades in the freshman English placement tests and as a result of his record has been classified in an honors course in English by Miss Julia Luker, head of the department.

WOMAN ASLEEP SEVEN MONTHS IMPROVES

KANSAS CITY—Missouri's encephalitic sleeper, Mrs. George A. Chandler, crept closer to wakefulness Friday, but remained far from the healthy, normal person she appeared before she was stricken here seven months ago.

Her physicians said Mrs. Chandler, wife of a Kansas City landscape artist and florist, was "showing continued signs of improvement," but declined to elaborate.

FARM HOMES EXPECT

● Maytag was the first washer to be equipped with gasoline power. Because of its leadership in both farm and city homes, the Maytag owner expects more of it than she would of an ordinary washer—and she is never disappointed.

● Only the Maytag has a one-piece cast-aluminum tub, the Roller Water Remover, the Gyrtator washing action originated and perfected by Maytag, and a score of other features which result in quicker, easier, cleaner washings.

GET IT NOW AND SAVE MONEY
Maytag prices represent real value per dollar and finer Maytags were never built.

THE GASOLINE MULTI-MOTOR is Maytag built—a masterpiece of simplicity and fine construction—built for the woman to operate.

Farmers Can Now Save 75 Percent On Tire Purchases

"Farm prices have advanced so rapidly in the last two years, as compared to tire prices, that the farmer today in terms of his own commodities can buy a new U. S. Royal at a saving ranging as high as 75 per cent."

This announcement was made today by Dunn's Garage, local U. S. Tire dealer. Mr. Dunn said that the United States Rubber Company had just completed a survey which revealed the advantageous buying position which farmers are now enjoying.

"Why, only two years ago it took 282 pounds of hogs to buy a 4.75 x 19 U. S. Royal, one of our most popular sizes," said Mr. Dunn. "Today only 103.4 pounds are needed. The same thing goes for wheat. Two years ago I would have insisted on 24.4 bushels of wheat for that tire. Now 9.3 bushels will finance the deal."

"The buyer in 1933 needed 206.4 pounds of cattle, now 120.4 pounds; 41 bushels of corn, now 9.7; 143 pounds of cotton, now 68.3; 642 pounds of milk, now 560; 73.3 pounds of tobacco, now 38.5; 2,040 pounds of hay, now 1,100; 12 bushels of apples, now 7.2."

Practically every farm commodity has increased in price sufficiently to provide a tire bargain for the farmer today, Mr. Dunn said. Regarding the need for new tires at this time, Mr. Dunn continued: "Everyone knows that tire purchases, like everything else, have been put off in the last few years on account of financial conditions, generally and individually. The result is that at least one of every three cars on the street today is running on one or more tires which have been worn smooth. It is hardly necessary to point out that the smooth tire constitutes a great danger to both the passengers of the car and to other motorists on the highway."

"This danger should be given special consideration just at this time, for records show that more

Lindbergh Lands With Scientist At Roswell Sunday

Col. Charles A. Lindbergh, accompanied by Harry F. Guggenheim, diplomat and benefactor of scientific aeronautical research, arrived in Roswell late Sunday by plane for a visit with Dr. R. H. Goddard, famous rocket scientist, who has been conducting experiments near this city.

The visitors, whose arrival at Roswell was a complete surprise, landed at 3:30 o'clock Sunday afternoon in a private ship piloted by Col. Lindbergh.

Although maintaining his usual reticence concerning his plans, the famous flier announced through Dr. Goddard he would remain in Roswell a short time.

This is the second visit of the famous flier to Roswell since Dr. Goddard, who is working under a money grant from the Daniel and Florence Guggenheim Foundations, established himself in Roswell in September, 1934.

Col. Lindbergh is a member of the board of control of the foundation which acts in a supervisory capacity.

Guggenheim, who served with the naval aviation corps during the World War and holds the rank of lieutenant commander, was president of the Daniel Guggenheim fund for the promotion of aeronautics which terminated in 1930.

Previously Dr. Goddard, who has been termed the foremost rocket scientist in the United States, described the main object of his experiments to "send up recording instruments on rockets to a great height—theoretically to exceed the height attained by a balloon."

The rocket used by Dr. Goddard is twelve feet long and about two feet in diameter, and although he has fired the projectile at various times the results have never been made public.

Dr. Goddard said his main work during this year of study at his specially equipped laboratory about six miles east of Roswell would be to develop a stabilizer which would guide the angle of the rocket's flight from the earth.

That the work of Dr. Robert H. Goddard, noted stratosphere rocket experimenter will continue in this vicinity was made certain Tuesday by the announcement of Harry F. Guggenheim, former Ambassador to Cuba, who is visiting Dr. Goddard, that due to the successful results obtained thus far in the experiments, the Daniel and Florence Guggenheim Foundation would continue to finance the work.

In making this announcement, Mr. Guggenheim declared that the flying colonel had interested his father, the late Daniel Guggenheim and himself in the scientific endeavor in 1929. "Since that time, Dr. Goddard has carried out more than thirty actual flights with rockets, using liquid oxygen and gasoline for fuel," he explained.

It was also understood Tuesday the two noted visitors would remain in Roswell for a short while conferring with Dr. Goddard with reference to his experiment. No announcement was made as to when the rocket Dr. Goddard is working on would be fired into the stratosphere.

REMODELS HOME

R. G. Knoedler has remodeled and made extensive alterations to his residence on his farm, four miles south of town. The new building contains six rooms and bath room. Workmen will soon be stuccoing the exterior of the residence.

auto accidents occur in the fall season than in any other period of the year. In 1934, for example, there were 10,700 fatal accidents in the fall, as compared to 9,000 in the summer, 8,600 in the winter, and 7,700 in the spring.

"With the farmer enjoying comparative prosperity today, there is no reason for him to gamble with his life on old, unsafe tires. He is in a position to buy, and a bargain awaits him."

School Days

The sudden change from vacation leisure to the mentally and physically active life of schools is bound to be a strain on children. Safeguard their precious health and energy by giving them plenty of pure, good milk. A glass at every meal is not too much. Milk of guaranteed purity is a child's finest food. It is quickly turned into energy, and contains every important food element in healthful proportions.

Hope Items

Frances Johnson, Reporter

Mr. and Mrs. D. G. Wilkins of Roswell returned to their home Sunday after having spent several days here visiting and attending to business.

Tom Plowman, who is with the U. S. Navy, arrived here the first of the week and is spending several days visiting his parents, Mr. and Mrs. John Plowman.

C. A. Buchanan and son, Tommy, returned Friday from Lubbock and Post, Texas, where they went to take Mr. Buchanan's father, who has been visiting him here several weeks, to his home and to visit relatives.

Mr. and Mrs. John Prude returned to Bullice ranch Monday after having spent the week-end in Hope and Artesia visiting. Mr. and Mrs. C. G. Prude accompanied them to their ranch and will spend several days there visiting.

Mr. and Mrs. David Lewis of Bisbee, Arizona, left Thursday for Phoenix, Arizona, after spending a few days here visiting his mother, Mrs. Mary Lewis, and his brother, John Lewis. They were accompanied to Phoenix by Mrs. Lewis who will visit her son, Benet Lewis, who is seriously ill.

Mrs. J. W. Reed, Mrs. Oliver Scoggin, Mrs. Frank Curry and Mrs. E. A. Traylor entertained at the home of Mrs. Traylor Wednesday afternoon with a surprise miscellaneous shower honoring Mrs. Merel Ogle. Mrs. Ogle received many beautiful gifts. Refreshments of punch and tea cakes were served to the guests.

Mrs. Bryant Williams and Miss Frances Johnson were joint hostesses Saturday afternoon when they entertained at the home of the latter's mother, Mrs. N. L. Johnson, with a miscellaneous shower honoring Mrs. Rex Seeley. Miss Dorothy Clark, an accomplished pianist, furnished music during the social hour. As the guests arrived they registered in a "Bride's Book," presented to Mrs. Seeley by Mrs. Anderson Young. A basket of gifts carried by Marynet Gordon and Fid Hamell, both holding small umbrellas over their heads, was presented to the bride. Following the presentation of the gifts, refreshments of cake and chocolate were served to the guests.

Find Old Cave

John Prude, rancher, and his son-in-law, Bob Means, were riding over the range a few days ago on Mr. Prude's ranch at Bullice Springs when they noticed some rocks which seemed to have been piled as a breast-work in front of a small cave. Upon investigating they found that the cave had been inhabited years ago. It was estimated to be large enough for two beds and a fire. The smoked walls and ceiling showed that a fire had been used. About thirty feet from the mouth of the cave, under the cliff, another pile of rocks attracted the men's attention. Digging into the rocks they found sixty-four six shooter cartridges, two different kinds, two hundred and four Winchester cartridges, three different kinds, most of them rim-fire and the rest were center-fire, twenty-five pieces of tobacco, "Purity" brand, four boxes of reloading caps, one pint can of powder, one bread pan, one horse shoe nail, "old timer," a hand full of sulphur matches and several lead bullets and empty shells and a small bag of shot, all in one three-gallon bucket. This was all bedded in grass and the date on these caps was 1874 and the name of the powder was "Dupont Superfine, H. F. Powder." All of these supplies were well preserved. The

Prudes have owned and lived on this ranch since 1899 and know that no one has been there since that time and think this cave had been inhabited years before that.

8 Hundred Million In WPA Funds Are Ready For Work

WASHINGTON — The Works Progress Administration's cash register Monday rang up an additional eight hundred million dollars intended to stimulate its dragging campaign to transfer three and a half million individuals from the dole to jobs by November 1.

One of the first official acts of the president upon returning to the capital from Hyde Park, New York, was to add this sum to the nine hundred million dollars set aside in the work-relief act for loans or grants on non-federal works projects.

WPA officials said broad cuts in funds for such activities as highway construction, grade crossing elimination, and rural rehabilitation and electrification would be necessary to obtain the eight hundred million dollars.

But no authoritative predictions were ventured on just where the curtailments would fall.

The president's executive order boosting the total for WPA loans or grants to one billion seven hundred million dollars was based on a provision in the four billion eight hundred million dollar work act allowing him to use twenty per cent of the total to increase any individual appropriation "if he finds it necessary" to effectuate purposes of the act.

With only 936,000 persons moved from relief rolls to payrolls at the close of last week, WPA faced the gigantic task of creating an average of more than 64,000 jobs daily to reach the November goal.

No new reports of progress of the drive were expected before today. Officials said, however, they expected a big bulge in new jobs to come in about a fortnight, as projects were being lined up rapidly and materials brought to project sites.

Another branch of the works program, relied on by officials to provide directly and indirectly around 300,000 jobs in the next year, was virtually ready to get under way. Secretary Ickes told a gathering of all state public works administrators that a new list of WPA projects were ready Monday night to lay before the president.

PWA will get only two hundred million dollars more for new projects under the revised set-up, Ickes said, however, that the list which probably will be announced

Prudes have owned and lived on this ranch since 1899 and know that no one has been there since that time and think this cave had been inhabited years before that.

TELLS OF BOY SCOUT WORK

P. V. Thorson of Roswell, area Boy Scout executive, and Louis Fay, also of Roswell, gave interesting talks on the Boy Scout movement at the luncheon program of the Artesia Rotary club Tuesday noon. Mr. Fay, who has been connected with the organization of troops among the Mexicans of Roswell, told of the work accomplished in that vicinity and of the difficulties encountered in organizing and maintaining troops among the Mexicans. He said the possibilities were good of organizing a Scout troop among the local Mexicans.

Mr. Thorson, area executive, gave a brief history of the Scout movement in the area and supplied some interesting information with reference to the possibilities here. He said the Scout movement was started in eastern New Mexico about twelve years ago and that now the Scouts number about 1,000, in addition to 135 Cubs. He said his work was essentially in a rural territory and the big problem was serving the scattered area in an effort to maintain the same standard as in the populated eastern areas.

He said every year 1,160 boys in the area out of a population of approximately 105,000 people, become of Scout age and it is the Scout official's job to interest as many boys as possible. A program for the boys of Cub age from 9 to 12 (under Scout age) has also been inaugurated.

Visitors at the luncheon included: J. R. Ogden of Loving, Flay Austin, Herb Smyrl, Louis Fay and P. V. Thorson, all of Roswell.

Mr. and Mrs. W. B. Linell left for their home at El Reno, Oklahoma, Tuesday, after a few days visit here with his brother, F. A. Linell and Mrs. Linell and other relatives.

in about a week, would be sufficient for several thousand developments spread equitably among all the states.

December 15 Deadline Set
All the new projects must be under contract by December 15, and finished a year later. Ickes asserted FWA would be more "rethless" than ever before in withdrawing allotments to projects whose sponsors were not able to meet the requirements of speed.

A report that 9,000 men will leave the Civilian Conservation Corps next week to take jobs in industry was given to President Roosevelt by Robert Fechner, director.

NOVEL WAY OF FIGHTING WORMS

A farmer over in the Las Cruces area adopted a novel way of fighting the worms in his cotton field this year, according to a story related here. This farmer planted a row of Indian corn around his entire cotton patch. The corn planted on the outer edge of the cotton served a useful purpose in that it told him when the army worms were coming in to eat his cotton and also told him when to start spraying his cotton.

SCIENCE HAS DISCOVERED

Means To Aid the Eyes of Both the Student and the Adult

And Make Reading A Pleasure!

New lamps are available in the floor, the table and the bracket type. These lamps are designed to spread the light and eliminate the glare.

Many of these new type lamps have been sold in Artesia and the surrounding communities and they are giving satisfaction because they are supplying the exact amount of light needed.

Another important thing connected with your lighting problem is the use of the right size bulb in the right socket. The student, your friends around the bridge table, the house guest who likes to read in bed, can be made comfortable or uncomfortable by the size of the bulb used.

Protect the eyes of both your guests and your family. Follow these simple rules. Don't risk eyestrain when good light costs so little.

1. **BRIDGE:** Old fashioned bridge lamps do not provide adequate light for cards. Ideal for bridge is the new indirect lamp with a 2-filament bulb that uses either 100, 200, or a total of 300 watts.
2. **READING LAMPS:** Use one 100-watt lamp, or two 60's, or three 40's—depending upon the number of sockets.
3. **WALL BRACKETS:** 15 to 25 watts for decorative lighting. 60 watts on each side of the bathroom or dressing table mirror. For kitchen, 40 to 60 watts.
4. **ALL BULBS SHOULD BE SHADED** to prevent glare. Shades should be light-colored inside and open at the top to throw light to the ceiling.

Social Activities

MISSIONARY SOCIETIES

The literary meeting of the Methodist Missionary Society was held at the home of Mrs. Frank Wilson, Thursday afternoon, with Mrs. R. O. Cowan as co-hostess. About twenty-five members were present.

The meeting opened with Mrs. George Frisch, president, in the chair, and sentence prayers by each. Mrs. E. B. Bullock read a letter from the community house in El Paso, expressing thanks for the aid received from this auxiliary. Mrs. Ann Kinder, public school health nurse, was allowed \$5.00 cash which is to be matched by the state in same value for corrective work of school children. A committee was appointed to solicit second-hand school books which might be in the homes of Methodist church people; these books to be placed in the hands of the principals of the two grade schools to be loaned to children who do not have books. Cash donations will also be accepted by this committee.

The devotionals were led by Mrs. Frisch and Mrs. John McCann was assisted by several of the members in presenting an interesting Mission study on Korea.

A salad course with hot chocolate was served by the hostesses during a social hour which followed the lesson.

The Christian Woman's Association held its regular monthly literary meeting at the home of Mrs. Ballard Spencer, Thursday afternoon. A large number of the membership were present.

Mrs. Ira Reser was assisted by Mrs. Albert Richards and Mrs. Walter Graham in presenting the lesson study on "Paul."

The hostess served a delicious refreshment course.

Mrs. G. R. Brainard entertained members of the Presbyterian Missionary Society at her farm home last Thursday. Mrs. C. Russell was co-hostess.

Miss Emma Clarke was assisted by Mrs. R. G. Knoedler and Mrs. William Linell in giving an interesting program on "Challenging Facts in Foreign Missions."

Light refreshments were served by the hostesses during the social hour which was observed at the close of the program.

MRS. BOOKER HOSTESS TO FORTNIGHTLY CLUB

Mrs. Glenn Booker entertained members of the Fortnightly Bridge club at the Artesia hotel Tuesday. Luncheon was served in two courses in the Coffee Shop from a long table decorated with bowls of beautiful cosmos and roses. A session of contract followed on the mezzanine floor which was decorated with large floor baskets of dahlias. Mrs. William Linell held high score at the conclusion of the games.

Mrs. Booker's guests were: Meses. Lewis Story, William Linell, Albert Richards, Frank Seale, J. B. Atkeson, John Lanning, Charlie Martin, C. R. Blocker, Howard Williams, J. R. Attebery and Mrs. Henry Caudle, a newly-elected member to fill the vacancy made by the resignation of Mrs. I. L. Spratt.

P. E. O. MEETS

A delightful afternoon of visiting and reminiscence started Chapter J off on its winter course of meetings after a four-months vacation, Friday afternoon. The meeting was held at the home of Mrs. Rex Wheatley and the members related their summer thrills, there being no formal program. The president, Mrs. V. L. Gates, who represented Chapters J, and K of Roswell, and L of Albuquerque, at the supreme convention recently held in Yellowstone Park, will give her formal report at the next meeting, which will be held at the ranch home of Mrs. T. R. Flint.

Sixteen members responded to roll call and the hostess served delicious refreshments.

PAST NOBLE GRAND CLUB

Mrs. C. M. Cole and Mrs. Harry Whitner were co-hostesses in entertaining members of the Past Noble Grand club at the home of Mrs. Cole Friday evening.

Mrs. Ed Conner, chairman, presided during the business session, which was followed by a social hour. Refreshments of ice cream and cake were served by the hostesses at the close of the meeting.

Those present were Meses. Nellie Cordell, Beulah Jones, Mary Abbott, Effie Wingfield, C. Bert Smith, Walter Amstutz, George Johnson, W. H. Cobble, Ed Conner, D. Buckles, Misses Mary and Linna McCaw, Merrill Bradley and Ella Bauslin.

Social Calendar

TELEPHONE 99

The Baptist W. M. U. will meet at the church at 2:30 p. m.

INFORMAL BRIDGE-SHOWER HONORING BRIDE

Mrs. Van P. Welch and Mrs. Malcolm Mitchell very charmingly entertained with an informal bridge-shower Wednesday afternoon of last week at the beautiful Spanish home of Mrs. Welch, honoring Mrs. Herman Terry, a recent bride.

Guests were seated at three tables for the games of contract in which Mrs. J. K. Wallingford was the winner of high score prize, Mrs. Carl Bildstone, consolation. At the conclusion of the games, Mrs. Terry was presented with a lovely miscellaneous shower.

A dainty salad course was served by the hostesses at the close of the afternoon. The invited guest list included only close friends of the bride: Meses. J. K. Wallingford, J. S. Ward, Howard Whitson, Carl Bildstone, Preston Hare, Wendell Welch, Henry Caudle, Lloyd Simon, Misses Edna Bullock, Jack Ward, Helen Bullock, Mrs. Poe W. Corn of Roswell and Mrs. Earl Bigler, mother of the honoree.

JOINT CLASS PICNIC HELD FRIDAY EVENING

The Senior and Junior classes of the local high school held a joint class picnic at the Oasis last Friday evening. Members of the high school faculty and their families were guests of the boys and girls on this occasion.

Miss Lucille Forsyth, sponsor of the Senior class and Miss Nilson and L. C. Reynolds, sponsors of the Junior class, assisted class members in all arrangements which were carried out in a successful manner. There were about eighty present to enjoy the weiners and marshmallows toasted over the open fires.

TO ADDRESS WOMAN'S CLUB

Dr. Lucinda de L. Templin, head of the Radford School for Girls in El Paso, Texas, is scheduled to address a meeting of the Artesia Woman's club here October 2nd, beginning at 2:30 p. m., Mrs. I. L. Spratt announced Tuesday. Her topic is "Modern Interpretation of Education." Dr. Templin is said to be a very interesting speaker and the public is invited to hear her.

COTTONWOOD LADIES AID.

Mrs. W. H. Rambo was hostess to the Cottonwood Ladies Aid last Thursday afternoon with twelve members present and two visitors. A very interesting program was rendered. Mrs. E. P. Malone was in charge of the program. Delicious refreshments were served by the hostess.

LOVELY LUNCHEON COMPLIMENTS BRIDES

Mrs. J. K. Wallingford and Mrs. C. J. Dexter entertained at the Dexter apartment at the Artesia hotel Wednesday with a lovely one o'clock luncheon, complimenting Mrs. Herman Terry, who before her recent marriage was Miss Ruth Bigler, and Mrs. T. C. Williams, a recent southern bride, and a cousin of Mrs. Wallingford.

Georgous fall roses and multi-colored zennias were used in decorating the Dexter home. Guests were seated at three quartet tables which were beautifully laid and centered with small vases of sweet scented roses. The delicious menu was served in three courses. Each guest brought her knitting and the afternoon was spent visiting while they plied stitches.

Those sharing this compliment with the honorees were: Meses. Carl Bildstone, Malcolm Mitchell, Howard Whitson, Earl Bigler, L. P. Evans, Raymond Bartlett, J. S. Ward, Preston Hare, Van P. Welch, Wendell Welch, Katherine Archer and Miss Phoebe Welch.

BRIDGE OF THE MONTH

Mrs. Henry Caudle entertained members of the Bridge of the Month club at the Artesia hotel Friday. This was the first meeting of the club after the summer vacation.

Club members present were: Meses. Howard Whitson, Herman Terry, Malcolm Mitchell, Van P. Welch, Earl Bigler, and two substituting guests, Meses. J. K. Wallingford and Glenn Booker.

Luncheon was served in the Coffee Shop at one o'clock and followed by games of contract. Mrs. Wallingford received high score prize and Mrs. Mitchell second high. Meses. Bigler and Caudle are new members of the club.

ABNORMIS SAPIENS BRIDGE CLUB MEETS

Members of the Abnormis Sapiens Bridge club enjoyed their bi-weekly session of contract with Mrs. J. M. Story, Wednesday afternoon.

Fall flowers decorated the spacious living room where the games were played. There were three substituting guests: Meses. Frank Smith, James Nellis and Perl Morris. Mrs. J. Hise Myers held high score at the close of the games.

Mrs. Story was assisted by her young granddaughter and grandson, Wanda and Lewis story, in serving a delicious refreshment course.

BOOK CLUB WITH MRS. BAIRD

The opening meeting of the Book club at the close of the summer vacation was held at the home of Mrs. N. M. Baird, Wednesday afternoon with nine members present.

Mrs. J. B. Atkeson was elected secretary to fill the vacancy made by the resignation of Mrs. Leslie Martin. Mrs. H. A. Stroup, chairman of the club, presided.

At this first meeting items of interest were given by each member present with discussions following each. The next meeting will be held on the second Wednesday of October at the home of Mrs. Carl Bildstone, the review will be given by Mrs. Stroup.

CARD OF THANKS

We wish to express our sincere thanks to our many friends who so kindly assisted at the time of the death of our husband and father. Also for the beautiful floral offerings.

Mrs. A. L. Terpening, J. Henry Terpening and family, Hester Terpening and family. 39-1tp

A Community-School Fair To Be Given At Hagerman Tomorrow

A number of people from the various points in the valley plan to attend the Hagerman community-school fair to be given at Hagerman tomorrow. The productive resources of the middle valley will be presented at the fair as well as displays of domestic art, cooking and canning to be seen at the school gymnasium.

Displays to be seen include the school farm products, the school livestock, the school poultry, the school domestic arts and home economics, the school cooking and canning, school manual training. School sports will also be seen during the fair. The community division includes the community livestock, the community farm products, community domestic arts, community canning. A free picture show will be shown at intervals during the day Friday at the Hagerman school auditorium. A dance at the gym in the evening will conclude the social event of the fair.

J. B. Stapp, who has been associated here in the practice of law with G. T. Watts for several months, has moved to Albuquerque, it was announced last week. Mr. Watts will retain his office here, coming down from Roswell on Tuesdays and Fridays.

New Brand Law Will Be Enforced

State brand laws are to be clamped on strictly, according to word received by Ed Toner, Eddy county brand inspector, from W. A. Naylor, secretary of the cattle sanitary board of New Mexico.

Cows without proper brands offered for shipment are to be considered as stray starting January 1 and will be held until ownership is proven.

The following outlines brand laws: Under the state law no one is allowed to use a brand unless it is placed on record and the brand must be used exactly as it is recorded and on the identical place on the animal where it is recorded to be used.

It is also a violation of the law to sell any unbranded stock, so please notify all parties in your district who are using unrecorded brands or using brands different from the way they have them recorded that it is ordered by the Cattle Sanitary Board that on and after January 1, 1936, all cattle offered for shipment or movement in the state carrying brands not on record or branded differently from what they are recorded will be held as strays until they prove ownership and get a brand recorded to be used on their stock. Persons refusing to get brands recorded or who are using unrecorded brands will be prosecuted under statutes made and provided for such.

If you will report to this office any parties you know of who are using unrecorded brands we will notify them directly from this office of what action will be taken on and after January 1.

You are instructed by the Cattle Sanitary Board to see that this brand law is enforced.

Eddy County Farmer Diversifies Farming Growing Beet Seed

J. R. Ogden of Loving is the only Eddy county farmer to undertake the growing of sugar beet seed on anything like an extensive scale. Starting about four years ago, Mr. Ogden has gradually increased the acreage to beet seed until last year he planted forty-five acres. He has recently planted for the 1935 seed crop. Plantings are usually made by September 15th. He has a contract with a Colorado beet firm to use what seed he can produce.

Last June he harvested about 1,000 pounds to the acre. The yield was cut due to curley top infestations, but on a previous occasion he raised 1,700 pounds on a half acre. He said the only other beet seed growing in the valley was done on a small scale in and around Roswell. All told the beet acreage amounted to about 150 acres this year in the valley.

Mr. Ogden is growing beet seed because he believes they supply an opportunity for diversification. There is a demand for more acreage in the valley, but up to the present time local farmers have taken little or no interest in the possibility.

Locals

W. A. Grice, resident of the Lower Penasco community, was attending to business matters here Friday.

Mrs. Jim Berry expects to leave for Temple, Texas, Sunday where she will enter the Scott-White hospital for a major operation.

Mr. and Mrs. Hollis G. Watson and Mrs. Mary McDonald returned Tuesday from a trip to the San Diego exposition and a visit with friends and relatives at Los Angeles, California.

Mrs. Frank Wilson of the Cottonwood community, underwent a major operation in a Carlsbad hospital Sunday. Her daughter, Mrs. H. C. Moorehead, and niece, Mrs. Reed McCall of Vaughn, were driven down by Mr. Moorehead to be with her.

State Superintendent Rodgers and family drove down over the week-end from Santa Fe for a visit with Mrs. Rodgers' parents, Mr. and Mrs. Box, and Mrs. Rodgers' sister, Mrs. A. L. Woelk and Mr. Woelk. Miss Helen Vera Funk, employed in Supt. Rodgers' office, drove down with them to visit her parents, Mr. and Mrs. Jess Funk of the Cottonwood.

Typewriters for rent—Advocate.

Lake Arthur Items

Miss Ella Ohlenbusch, Reporter

The home of Mrs. Mamie Walton is being remodeled this week.

Mr. and Mrs. John Griffith are re-roofing their house this week.

Mr. and Mrs. Don Riddle spent the week-end visiting friends in Roswell.

Sy Murphy from Clovis is working on the railroad section for a few weeks.

Fred and Arvel Edington motored to Mentone, Texas, last Friday afternoon on business.

Warren B. Scott from Portales spent the week-end visiting with his brother, Ben B. Scott.

The Misses Mozelle Holden and Maggie Rue Taylor were in Lake Arthur visiting the school Monday.

Miss Hannah Gerard and her sister Jessie Mae visited their father in Dexter last Saturday.

Last Friday afternoon the high school softball team was defeated in a game by Hagerman, 10 to 5.

Mr. and Mrs. Fred Edington, who have been living near Mentone, Texas, are now living in Lake Arthur.

Mrs. Ed McWenig and son Fred arrived Sunday afternoon for a visit with her parents, Mr. and Mrs. G. R. Pate.

Mr. and Mrs. Walter L. Bradley have finished moving to Portales where their daughter Gertrude is attending the Junior college.

The Epworth League of the Methodist church plans to go to Roswell this coming Sunday to a Fifth Sunday League meeting.

Mrs. Dougle Downs has returned from Clovis where she has been with her husband who is in the hospital and is reported to be some better.

Last Sunday night a very interesting program was enjoyed at the Methodist church before the preaching services were held by the Rev. McGrew. The program was directed by Miss Emmarie Perce, who was assisted by the Epworth League.

The sophomore class and their sponsor, Miss Eva Deering, entertained the high school students at a party given at the auditorium last Friday evening, initiating the freshmen. After a gay evening spent in playing games, refreshments of sandwiches, potato chips, cookies and Koolade were served.

Mrs. J. R. Spence gave a stork shower for Mrs. Fred Edington last week. Those present were the Mmes. J. M. Jones, Lesley Ellington, Otto Dorrer, Tom Derrick, John Turner, Lyle Moots, Mary H. Moots, Orin Smith, Roy Hammons, E. L. Cummins, Homer Ingle, L. T. Alexander, Roy Vermillion, Z. Pate, Roy Buck, John Buck, and Will Walden. Many lovely gifts were received. Refreshments of cake and ice cream were served.

20,000 To Be Employed On New Mexico WPA Projects November 1st

SANTA FE—With about 1,500 persons now employed on state WPA projects, the state administration plans to find employment for 20,000 by November 1, State WPA Director Lea Rowland said Wednesday. Rowland said that De Baca, Luna, Lea and San Juan counties have had enough projects approved to care for their entire loads.

"We're going out of the relief business by November 1," he said, adding that state machinery for direct relief is expected to be set up next month.

Mrs. E. E. Coll and Miss Addie Coll have closed the Coll cabin on the Ruidoso for the season and returned to their home here. Alf Coll brought them back Monday.

Corn-Hog Output May Be Increased

WASHINGTON — Some AAA quarters indicated yesterday that efforts may be made to increase hog production next year while at the same time curtailing corn acreage.

This word was given as corn-hog farmers representing thirty-four states converged on Washington to discuss the 1936 adjustment program with AAA officials.

Technically, the hearing is to determine whether or not there should be a corn-hog program next year. The farm administration will express its views to the farmers, and then receive their opinions on the need for an adjustment of production next year.

The AAA amendments provided that a hearing must be held before an adjustment program can be placed into effect by the secretary of agriculture. Hearings were held recently on proposed tobacco and rye programs.

A ten per cent reduction in corn acreage and hog production was required under contracts this year, but AAA officials have maintained that almost no farmers were able to produce as much as ninety per cent of their base hog production. The production for 1932 and 1933 was used as the base.

Local Ginnings

Cotton picking scheduled to start this week in full blast has been delayed by the rains. Four of the six gins serving this section have started the ginning season, while two in the upper area, the Cottonwood gin and the Lake Arthur gin, have not started operations. A few bales have been stored in the cotton houses at the gin plans ready to be ginned. So far only thirteen bales have been ginned, according to tabulations compiled yesterday. The Artesia Farmers gin has ginned one bale; the Association gin at Espuella, three; the Association gin at Artesia, five, and the Association gin at Atoka, four.

Some farmers will start picking again today if no additional rains fall.

Wanda Funk, daughter of Mr. and Mrs. Kersey Funk, and Warren Tidwell, Jr., son of Mr. and Mrs. Warren Tidwell, were tonsillectomy patients here Tuesday morning.

Cotton Letter

(Courtesy Artesia Alfalfa Growers Association)

As to the market, trade during the past week has just about absorbed the increased hedges. The market has held fairly steady. No doubt the threat of war has had much to do with the increased demand but the domestic demand is due largely to improved business

conditions and the further fact that wholesalers and retail establishments are both very low on cotton goods.

We see but little chance of a decided decline, at least below the 10 cent level, and rather favor the long side. However this fact is not as important as the basis which should remain comparatively strong all season on Pecos valley high-grade staple cotton.

The entire Pecos valley is pulling together this year to make the Eastern New Mexico State Fair the best in its history and we are broadcasting an appeal to you to come and bring the family. Not only will the exhibits this year be outstanding in many respects, but the entertainment and amusement features of the Fair will far surpass anything ever attempted.

Those of us who have made the Fair possible believe that you will find it educational and aside from this feature we feel sure you will enjoy your visit to Roswell and will enjoy meeting your friends and acquaintances here.

The undersigned merchants and business firms are anxious to serve you during your visit to the Fair. We hope that your stay will be pleasant and that you will find an occasion to come not only once but many times during Fair week.

The Churches

CHRISTIAN SCIENCE SOCIETY
613 West Main St.

10:15 a. m. Sunday school.
11:00 a. m. Sunday services.
"Reality" is the subject of the lesson-sermon which will be read in all Churches and Societies of Christ, Scientist, on Sunday, September 29th.

The golden text is: "Every good gift and every perfect gift is from above, and cometh down from the Father of lights, with whom is no variableness, neither shadow of turning." (James 1:17).

Among the citations which comprise the lesson-sermon is the following from the Bible:

"But my God shall supply all your need according to his riches in glory by Christ Jesus." (Phil. 4:19).

The lesson-sermon also includes the following passage from the Christian Science text book:

"Christianity causes men to turn naturally from matter to spirit, as the flower turns from darkness to light. Man then appropriates those things which 'eye hath not seen nor ear heard.' Paul and John had a clear apprehension that, as mortal man achieves no worldly honors except by sacrifice, so he must gain heavenly riches by forsaking all worldliness."

May Try To Force Opening of Old Vacuum Well On The Cap Rock

There is considerable talk at present in Lovington of making a concerted effort on the part of the business men of this place to see if something can be done toward forcing the opening for production the Vacuum oil well. This well is located about eleven miles southwest of Lovington and has been shut in ever since its completion.

The Vacuum was one among the first wells to be drilled in the plains area of Lea county. Both oil and gas were encountered in this well in what is believed to have been paying quantities. The oil also was of a much higher grade than any yet found in this section of the state, being only a little below that of the oil found in the San Juan country.

It is certain that the well was a better one when first brought in than were any of the wells recently encountered in the great Monument pool before they were given the acid treatment. There is little doubt if the same treatment were given to this well that has been given to the wells in the Monument area in the way of acidization, the Vacuum would make as good a well as any in the Monument area, if not better.

The Vacuum well is located on a large block of state leases which were issued to a man by the name of Bridges of California. This block included about thirty-five thousand acres located on the plains west of the Caprock. This lease was taken when a majority of oil geologists contended that the Caprock constituted a distinct fault and that no oil would ever be found east of it.

Bridges placed little faith in this contention and made arrangements for drilling a wildcat and the Wyatt test was located near the Caprock. A derrick was erected,

between them and Penasco they were winners. They lost to Mayhill, score being 7 to 10.

Saturday Bernard Cleve held a round-up and calf-branding at his ranch. Among those present were: Mr. and Mrs. R. Hunter, Mr. and Mrs. Oris Cleve and daughter, Mr. and Mrs. Jack Vickers, Mrs. H. Gregg, Mrs. Tom Gates, Mr. and Mrs. Earl Paxton and daughters, Mr. and Mrs. A. L. Cleve, Messrs. Rip Van Winkle, Boyd Williams, Jr., Tommy Wagner and Elbert Schultz, Miss Ernestine Chesser and Joe Green, Jr.

machinery moved in and the Wyatt was spudded in. Later the management was turned over to Ingelfield and a new location was made by him further to the east than the Wyatt.

The Ingelfield was drilled and both oil and gas were encountered. Although not in paying quantities, with an acid treatment it is believed this well could be developed into a commercial producer. This well was of vast importance to Lea county and to the oil industry because it proved the falsity of the geological theory that oil did not extend east of the Caprock. It was this find that started the extensive drilling operation in the county which resulted in the discovery of the Hobbs pool as well as the oil fields south of that place.

Later, Bridges gave the Vacuum Oil Company an interest in certain state leases to drill another test in that area and the Vacuum well was drilled to the south and east of the Ingelfield about eleven miles southwest of Lovington. A large flow of both oil and gas was encountered in this well and no one who ever saw it in operation ever doubted that it was a real oil well. Prospectors and investors began pouring into the town and Lovington enjoyed a real boom. Vacant lots sold for as much as \$5,000 on the strength of this showing and had the field been developed there is little doubt that Lovington would have been the oil center of the county.

When the well was first brought in, the pressure was so strong that the operators were afraid to shut it in completely. Two pipe lines were run out to a considerable distance from the well. A watchman was kept constantly on guard at a gauge that had been installed to register the pressure. When it reached the danger point, the gate was opened and the well permitted to flow until the excessive pressure was relieved, when it was again closed. This was kept up for several days.

Since all the land in that area is owned by the state of New Mexico, no one except that state land commissioner can force the opening of the well. It is believed by some that he could either force the well to be put on production or cancel the lease now existing on it, since the state is losing a large sum of money every year by reason of the failure of this well

BANK OPENS IN CARLSBAD

The American Bank of Carlsbad opened Monday morning. Many called at the bank, E. M. Brickley, cashier, said, to get acquainted with officers and employees. Brickley was highly pleased at the number of deposits made in the bank, according to the Current-Argus.

While the bank has been handling business it had before the transfer from Carrizozo, the formal opening of the Carlsbad institution did not occur until Monday. Brickley is a former president of the New Mexico State Bankers' association and a former state senator.

The building contained a great many bouquets of flowers from local firms.

PLAN FOR ANNUAL MEETING OF OIL MEN

Plans were made Monday in Oklahoma City, Oklahoma, in the office of Wirt Franklin, president, for the annual meeting of Independent Petroleum Association at Dallas, Texas, November 4, 5 and 6. Several local operators expect to attend the annual meeting.

CARBON PAPER—The Advocate

to be put on production. Anyway, it is thought to be well worth effort to try to have a producing well made of the Vacuum. —Lovington Leader.

FDR ASKS COOPERATION

WASHINGTON—President Roosevelt opened the 1935 mobilization of human needs Monday with the assertion "in spite of definitely brighter economic skies," the problem of welfare services "demands the best" of both the government and private agencies.

Speaking from the sun-drenched south portico of the White House to several hundred delegates of welfare organizations gathered on the green lawn below him, the president reiterated "the government is withdrawing as rapidly as possible from the field of emergency home relief." It is, he asserted, moving "successfully toward the substitution of work."

"For the third time we have the opportunity, face to face," he told Chairman Gerard Swope and the delegates, "to pledge at once the substance and sinews of government and of private organized welfare agencies in the service of the less fortunate of the land."

Mr. and Mrs. E. T. Jernigan and their daughter, Miss Elsie, spent Sunday in Hobbs with their sons, Jerry and Harry and their families.

FIRST FATALITY OF DOVE SEASON

The first fatality of the dove season in New Mexico was reported at Silver City Sunday when Estee Hickson, 15-year-old son of Mr. and Mrs. Clifford Hickson of Hurley, was accidentally shot and killed by a hunting companion, 14-year-old Huntly Thomas, Jr.

The Hickson boy was hunting in the mountains near Silver City when the fatal accident occurred. He was shot through the heart and died instantly.

LOCALS

R. L. Cole, Hope rancher, was attending to business matters here Tuesday.

Hugh Burch and T. H. Flint were El Paso visitors over the week-end.

Mrs. Jim Ferguson and children spent several days last week in Albuquerque.

Harry Leonard, oil operator of Roswell, was attending to business matters here Monday.

J. Will Taylor, rancher in the Maljamar section, was attending to business matters here Monday.

D. I. Clowe underwent an eye operation at El Paso, Texas, last week. Mr. Clowe returned home Sunday.

L. H. Burgess, accompanied by L. A. and C. J. Curtis, all of Mayhill, were business visitors here Saturday.

Mr. and Mrs. Sig Iverson of Dallas, Texas, were week-end guests at the home of her father, Van S. Welch.

Chas. Montgomery of Carlsbad, general manager of the Joyce Fruit Co., was transacting business here Monday.

Mrs. Mary A. Hill of Roswell and her son John, Jr., spent Sunday here with her daughter, Mrs. Van P. Welch and family.

Mrs. C. C. Pior and her daughter, Mrs. Richard Rockwell, were both brought home from the Eddy County hospital in Carlsbad the latter part of last week. They are both improved.

Friends of the Rev. F. B. Howden, Jr., local Episcopal rector, may be interested to learn that he has recently been appointed chaplain of the New Mexico Military Institute at Roswell.

The Rev. Thomas Massie and his bride, who comes from the state of Connecticut, are expected some time next week. The Christian church parsonage is being put in order for the bridal pair.

Mrs. G. M. Stewart and family of Dexter, daughter of Mr. and Mrs. Carl Gordon, and Mrs. C. H. McLenathen and L. T. Rayroux, sister and brother of Mrs. Carl Gordon, were visiting in the Gordon home Sunday.

Mr. and Mrs. Harvey Muncy returned from a month's vacation trip to California, Friday. They visited their children in the Los Angeles vicinity, the San Diego exposition and returned by Boulder Dam and Grand Canyon.

Jack, Marvin, Robert and Miss Hannah Belle McCaw, sons and daughter of Will McCaw, arrived a few days ago from their home in Arkansas. Their father is expected soon and the family, who are former residents, will again make their home here.

Grandpa Perly George is stepping sprightly these days. Last week he received an announcement of the birth of a grandson at the William Beaumont hospital in El Paso. The son, born to Mr. and Mrs. John Fullilove, September 20th, weighed eight pounds at birth.

Mr. and Mrs. Modelle Reigner and son, J. K., of Tahoka, Texas, are visiting her parents, Mr. and Mrs. Barton. Miss Juanita Barton, who had visited in the Reigner home for several days, returned home with them. Mr. and Mrs. Reigner may locate here, it was said.

Dist. Health News

Is your child among those who are safe from the terrible disease—DIPHTHERIA?

Many thousands of fathers and mothers have made sure that their children will never take diphtheria, by having the doctor give them toxoid or toxin-antitoxin. These children need never fear the disease.

Have you given your child this treatment? Although fewer children are dying from diphtheria now than ever before, your child, if exposed to the disease, is in as much danger as he was before toxoid or toxin-antitoxin was discovered, unless you have given him this protection. Toxin-antitoxin is not being used any more as one dose of toxoid is much more satisfactory.

Last year an average of about 100 children died weekly from diphtheria in the United States and Canada. At least fifteen times as many more children suffered from the disease.

We can only guess why these children had not been given toxin-antitoxin or toxoid. In a few cases the mother or father, or both, did not believe in such treatment; a few parents did not know it was important; some could not get to a doctor or a clinic; but most of these children were left unprotected because their fathers and mothers just put off having it done.

Putting off where diphtheria is concerned is always dangerous. In these cases it was tragic.

The same thing will happen this year. Many unprotected children will suffer with diphtheria and every day some of them will die of it. If your children have not been given toxoid or anti-toxin they may be among the victims. You can do something about protecting them now, and it should not be put off another day.

In 1934 there were six cases of diphtheria in Eddy county. So far in 1935 there have been six cases and two deaths. In 1934, 743 children were immunized against diphtheria. This year in 1935, 441 children have been immunized.

What You Should Do
Take your children to your doctor or to the county health office and ask to have them protected against diphtheria. All children, when they are six to nine months of age, should have this treatment. Children under five years are in the greatest danger. They are most likely to get diphtheria and to die of it. The treatment is only one dose. It is a simple, harmless and quickly given. It takes a few months for the protection to develop.

DR. O. E. PUCKETT,
District Health Officer.

Woodstock Typewriters for sale at The Advocate.

Joe Louis Wins

YANKEE STADIUM, NEW YORK—A brown tornado, merciless, savage Joe Louis, swept over the magnificent Max Baer Tuesday night, picked him up in the most devastating whirlwind of punches the prize ring has seen since the heyday of Jack Dempsey, smashed him down three times and finally crushed him in four rounds before the first \$1,000,000 crowd of boxing's new era.

Baer was knocked out after two minutes and fifty second of the fourth round. In little less than twelve minutes he faced Louis, a bridegroom of a few hours. He took a beating so unmerciful, so complete, that the crowd of 90,000 nearly filling the huge ball park, gasped at the cruelty of it.

Three times the giant, curly headed Californian, trying to grin to the last through the crimson mask of his torn features, was hammered to the floor under two fisted blasts that hit him with all the suddenness and deadly accuracy of a tommy gun at point blank range.

So badly had he been beaten, so complete was his thrashing that his eyes were opaque, his knees trembled, as he slowly shook his head from side to side.

RIOT CASE TRIALS PUT OFF TILL OCT. 7

SANTA FE—District Judge J. B. McGhee of Roswell Friday fixed October 7th for the opening at Aztec of the trial of ten defendants on first degree murder charges arising from a riot at Gallup on April 4th when three persons were killed.

The postponement from the original date, September 30, was granted when defense attorneys asked for time to further prepare their case.
