ARTESIA, NEW MEXICO, THURSDAY, JANUARY 30, 1936

NUMBER 5

BIG GASSER HIT AT 1390 FT. LATELY

Tigner, Etz and Keyes
Get Five To Ten Million
Foot Gasser In Local
Field; Seven Complete
and Nine New Wells.

The various civic organizations were well represented at a meeting of the Better Artesia Association, held in the office of C. J. Dexter Monday evening. Three community projects came in for a major share of discussion at a round table meeting.

H. G. Watson, mayor, requested those present to discuss the proposed municipal hospital with the organizations represented. Mr. Watson said the City Council would like to obtain an opinion as to whether the people actually want a hospital and if the hospital is not wanted, then an election in April will not be necessary so far as voting bonds is concerned.

Tree planting was also discussed and the necessity of planting now was stressed. Trees planted now will be more likely to thrive than if planted later in the spring. Two years ago the people of Artesia planted about 1,600 trees, principally Chinese elms and practically all the trees are thriving where they have been cared for.

The city is maintaining a tree nursery on West Main street. Although comparatively small, about 800 of these trees (Chinese elms) are ready for transplanting and these may be had for the cost of handling, fifteen cents per tree. The Roselawn Nursery also has a nice stock of all kinds of trees ranging up to fifteen feet in height.

Revival of the annual flower show was also discussed and it was agreed that the annual show would be worth-while if revived. Mrs. J. M. Story gave a brief history of the past flower shows staged here and suggested that cash prizes be offered for the various events. Definite information as to the best plan of procedure will likely be available at the next meeting of the association, February 17th.

President C. J. Dexter called attention to the coming district conference of Rotary to be held here in April and of the necessity of "dressing up and cleaning up Artesia."

Mrs. I. L. Spratt, president of the Artesia Woman's club, suggested that the association talk over two or three objectives at each meeting. S. E. Ferree agreed to supply an outline for a constitution and by-laws of the association and the matter of adoption of a constitution and by-laws will be discussed at the next meeting.

Projects Outlined By Better Artesia Assn. On Monday

Hospital, Tree planting,
Flower Show Discussed
By Members At Called
Meeting of the Local
Organization.

The various civic organizations were well represented at a meeting of the Better Artesia Association, held in the office of C. J. Dexter Monday evening. Three community projects came in for a major share of discussion at a round table meeting.

H. G. Watson, mayor, requested those present to discuss the proposed municipal hospital with the organizations represented. Mr. Watson said the City Council would like to obtain an opinion as to whether the people actually want a hospital and if the hospital is not wanted, then an election in April will not be necessary so far as voting bonds is concerned.

Tree planting was also discussed and the necessity of planting now was stressed. Trees planted now will be more likely to thrive than if planted later in the spring. Two years ago the people of Artesia planted about 1,600 trees, principally Chinese elms and practically all the trees are thriving where they have been cared for.

The city is maintaining a tree nursery on West Main street. Although comparatively small, about 800 of these trees (Chinese elms) are ready for transplanting and these may be had for the cost of handling, fifteen cents per tree. The Roselawn Nursery also has a nice stock of all kinds of trees ranging up to fifteen feet in height.

Revival of the annual flower show was also discussed and it was agreed that the annual show would be worth-while if revived. Mrs. J. M. Story gave a brief history of the past flower shows staged here and suggested that cash prizes be offered for the various events. Definite information as to the best plan of procedure will likely be available at the next meeting of the association, February 17th.

President C. J. Dexter called attention to the coming district conference of Rotary to be held here in April and of the necessity of "dressing up and cleaning up Artesia."

Mrs. I. L. Spratt, president of the Artesia Woman's club, suggested that the association talk over two or three objectives at each meeting. S. E. Ferree agreed to supply an outline for a constitution and by-laws of the association and the matter of adoption of a constitution and by-laws will be discussed at the next meeting.

Drive For Scout Funds Is Started

Members of the local Boy Scout finance committee, composed of C. J. Dexter, E. B. Bullock, J. S. Ward, H. S. Williams and Martin Yates, started the annual canvass for Boy Scout funds Tuesday. The quota of the Artesia trade area this year is \$638.00. At the beginning of the canvass members of the committee said they were hopeful of completing the drive for funds at an early date. They said some difficulty was anticipated in raising the quota due to the fact some contributors might not subscribe the amount asked for, however, the Artesia part has been raised in years past.

In a brief review of last year's Scout work it was learned that twenty-five communities in the area have active Scout units, sixty courts of honor were held to recognize the individual achievement of over 600 boys. Thousands of individual good turns have been performed and the cost of the program per boy, \$4.00, was even less than the minimum of last year which was \$5.00 per boy.

DR. FREDRICK OWEN ADDRESSES STUDENTS

Dr. G. Fredrick Owen, who is conducting a revival at the Church of the Nazarene, addressed the students at the Artesia high school twice this week. Monday he spoke on the interesting subject of "The Social Customs of the Arabs," and yesterday morning on "Archaeology of Palestine."

We have forms to comply with the Social Security law—Advocate.

Birthday Ball To Start At 9:00 P. M. This Evening

Committees from the American Legion Auxiliary and the Woman's club, composed of Meses. John Runyan and Albert Richards of the Auxiliary and I. L. Spratt of the Woman's club are selling tickets today for the Birthday Ball for the President to be held at the Central school auditorium this evening, beginning at 9:00 p. m.

The public is no doubt familiar with the President's Ball held in former years and realize the proceeds of the ball goes toward aiding a good cause: to help stamp out infantile paralysis. More than 5,000 dances are being held this evening over the nation and a substantial sum is expected to be realized from the sale of tickets. In some places, those attending the ball will be privileged to hear the president's address. Here the installation of radio in the Central auditorium was not practical, so other entertainment features have been arranged.

Popular prices are being charged here for the ball, which is in charge of the American Legion.

A total of 5,000,000 people are expected to help celebrate President Roosevelt's birthday this evening.

CARLSBAD PEOPLE INJURED IN WRECK

Mr. and Mrs. Y. D. Buckalew of Carlsbad figured in a head-on collision seven miles from Lubbock, Texas, Tuesday which cost the life of a man and woman. Mr. and Mrs. Buckalew were rushed to a hospital at Lubbock, but neither was dangerously injured, according to an early report.

The charred bodies of the other car in the collision were identified as Leonard Moffet and Mrs. V. H. Milligan. Further details of the accident were not available.

ALLEN DIES SUDDENLY

BATON ROUGE, Louisiana—Governor Oscar K. Allen, for years the political associate and successor to the late Huey P. Long as political "boss" of Louisiana, died suddenly Tuesday after suffering a cerebral hemorrhage.

Governor Allen was 55 years old. He became leader of the powerful political machine after Senator Long's violent death and was nominated to succeed Long in the United States Senate.

DIPHTHERIA IN COUNTY

Health officials Monday warned mothers of children of pre-school age to have them immunized at once after a diphtheria case was found in the county.

The case was removed to Fort Bliss a few hours after it was found, Dr. O. E. Puckett, district health officer, said.

The camp was quarantined for mumps at the time the case was discovered, and it was not necessary to extend the quarantine, Dr. Puckett said.

CRACKS DOWN ON RECKLESS DRIVING

Justice of the Peace Frank Richards of Carlsbad is cracking down on reckless driving. This week Richards fined one man \$20 and costs and added a ten-day jail sentence on charge of reckless driving.

LETTER ON WRECKED AIRLINER FOR BURCH

Hugh Burch, Artesia resident, received a letter in El Paso, Texas, last week which was being carried on the ill-fated American airliner that crashed in the swamps in Arkansas last week. The letter was from his son, Hugh Donald Burch of Washington, D. C.

SCHOOL CONTRACTS OKED

Contracts for the construction of two new school buildings in Carlsbad have been approved by Carlos Powell, WPA representative, it was learned here Tuesday. Heflin and Frisch of Artesia were the low on the south ward school building.

Mrs. Dick Vandagriff Underwent Major Operation at the Scott- White Hospital in Temple, Texas, early Wednesday morning. She is reported doing satisfactorily.

Miss Phoebe Welch is expected home this week from Fort Worth, Texas, where she has been visiting her sister, Mrs. Sig Iverson and family.

Mr. and Mrs. M. M. Jackson and family of Mayhill were visiting the parents of Mr. Jackson, Mr. and Mrs. J. M. Jackson, the first of the week.

TEXAS AIR PILOT DIES IN CRASH

Five Passengers Injured
As Plane Makes Forced
Landing Near Denton,
Texas, In A Blinding
Snowstorm.

DENTON, Texas—Ted Kincannon, 38, veteran airman pilot, was killed and five passengers suffered minor cuts and bruises in the crash of an American airliner yesterday as the ship failed to clear a clump of trees in making a forced landing in a blinding snowstorm.

"Ten feet more and we'd have been all right," said a passenger who refused to identify himself over the telephone, "but the snow was so thick it's a wonder we came as near as we did. You couldn't see."

C. M. Kurtzinger, owner of the farm where the plane fell just on the edge of a field that would have afforded landing space, said passengers told him Kincannon saved all their lives by shutting off the gasoline cocks and warning them to buckle their safety belts. He said they all agreed the pilot probably could not see the snow-covered trees.

One wing caught on the boughs and tore partly away, whirling the eight-passenger (Vulcan) plane into the ground. The motor fell about ten yards from the remainder of the wreckage.

Kurtzinger said the survivors told him Kincannon was found in the rear of the ship with the passengers, apparently torn from his seat by the impact.

Livestock Moved From the Ranges In Large Numbers

Several cars of livestock were shipped from Artesia this week. With the exception of the cattle and lambs on feed and in the fields, the recent shipments represent practically all of the livestock to be moved from the range for some time to come.

Tex Folk reports the sale of three cars of stocker cattle from the Bunting Brothers ranch near Hope. One car of cattle was shipped to Jim Bledsoe at Abernathy, Texas, Tuesday and two cars were shipped to C. C. Freeman of Canadian, Texas. A. C. Hendricks of the Flying H ranch shipped out two cars of cattle to Littlefield, Texas, Monday and Tuesday. W. Leslie Martin is preparing to ship two cars of lambs to the Kansas City market. P. Moody, local cattle buyer, is shipping a car of stocker cattle to Gerlaue, Kansas, today. The livestock shipped to (Continued on last page column 6)

Local Ginnings

The movement of cotton to the gins continue slow on account of the inclement weather. A total of 176 bales were ginned by the six gins during the past week to boost the season's total to 8,654 bales. The principal part of the 1935 crop to be gathered in is in the Cottonwood and Lake Arthur districts. A day or two steady running by gins of this community would clean the crop up.

The ginnings are divided as follows:

Lake Arthur gin	487
Cottonwood gin	2,141
Association gin, Espulla	1,534
Farmers gin, Artesia	1,534
Association gin, Artesia	1,727
Association gin, Atoka	1,231
Total	8,654

Lambs Fleece Tops Local Wool Market At 25 Cents Per Pound

A small clip of lambs wool sold here Tuesday topped a new record high for several years past. The clip from the lambs of Roger Durand, fed on the Woods farm east of Artesia, sold to Chas. Walker of Roswell, representing Draper and Co., of Boston, for 25 cents per pound. The clip, said to be choice wool weighed 11,000 pounds. The lambs on feed were sheared last week preparatory to placing them on the market.

GRAZING DISTRICTS WAIT ON CONGRESS

Establishment of two proposed grazing districts in New Mexico must await action of congress in increasing public domain available for this purpose, A. D. Molohon, regional grazer, for New Mexico and Arizona said at Albuquerque yesterday.

Rules for Better Mail Service Are Given Out Here

In order to promote more efficient mail service through the local post office, J. L. Truett, local post master, Tuesday made the following statement: "It appears the public has given but little study to the regulations and rates governing the mailings and the service of the mails other than temporary information secured from postal employees at the time of mailing. There are many details involved in the handling of mails which never come to the attention of the public and many of which if properly explained would mean a saving of both time and money to the patrons as well as the department.

For the benefit of patrons of the local office, we have from research of the postal guide compiled some of the most essential suggestions applicable to the best service and these suggestions are being printed on a 4x10 card board and these cards will be distributed to the postal patrons for convenience and information.

These cards should be kept available for future use after they have been studied as they contain certain regulations, which must be followed by both the patrons and the postal clerks."

SIMMS DECLARES HE'S NOT SEEKING OFFICE

ALBUQUERQUE—Albert G. Simms, republican national committeeman and former congressman, declared Tuesday he "was not a candidate for any elective office, including committeeman" and "as a citizen . . . propose to do everything within my power to assist my party in the coming election."

Simms' declaration was made in a signed statement issued from his office here. It follows:

"I wish to correct what appears to be a misunderstanding of my position as republican national committeeman."

COLD WEATHER

The Pecos valley and the Artesia vicinity was in the grip of a severe cold spell in the first of the week. While the mercury hit eighteen and twenty-four degrees, Sunday and Monday, the weather appeared to be much colder and seem to hurt worse than similar ranges of temperature experienced this winter. The high temperature for the first two days of the week was thirty-eight degrees.

Threatening clouds failed to develop moisture except in the northern part of the state.

CAR DEADLINE FEB. 15th

New Mexico motorists will become liable for penalty and interest on February 15th, if 1936 car licenses are not secured, it was announced at Santa Fe Monday. The deadline for the purchase of 1936 plates had been formerly set at February 10th.

J. R. Attebery, deputy collector, said here Tuesday he had sold about 1,000 plates for passenger cars and 200 truck plates. Approximately 300 plates remain yet to be sold.

WATER LEVEL HOLDING UP

The water level of the Artesian basin continues to hold up well, according to information from Roswell. Only one gauge out of three gauges in the district failed to show a higher level than last year and this was at Berrendo, north of Roswell which showed 0.45 foot lower than on the corresponding date of last year, which was January 24th.

PETROLEUM CORPORATION ANNOUNCES NEW GRAVITY SCHEDULE FOR LEA CO.

DALLAS—The Atlantic Petroleum Purchasing Corporation Tuesday announced a revised gravity schedule for Winkler county, Texas, and Lea county, conforming to that finally adopted by the Humble Oil and Refining Company. The schedule ranges from 75 cents below 29 gravity through 76 cents for 29 and 29.9 and thereafter by 2-cent increases per degree of gravity to a top of 90 cents for 36 and above. The change was made retroactive to January 23rd.

RURAL RESETTLEMENT TO REMAIN AT LAS CRUCES

The state unit of rural resettlement administration probably will remain at Las Cruces for some time.

This was indicated in a letter Governor Tingley of Santa Fe received from Joseph Dailey, rural rehabilitation director in Washington which explained fifteen eastern New Mexico counties will remain under the jurisdiction of the Las Cruces office at least until a new office at Amarillo is prepared to take it over.

INSTALLS NEW BRAKE TESTING MACHINE

Dr. Loucks has installed a new brake testing machine. The machine will test the brakes while your car is running and will give the distance in feet it takes the car to stop at twenty, thirty and forty miles per hour. The new instrument also tells the condition of the brakes.

1st Monthly Sales Day To Be Held On February 12th

Preliminary Plans Being
Worked Out; General
Plan To Be Patterned
After Sales Days Held
In Other Communities.

The Artesia Chamber of Commerce, cooperating with the local merchants and other business men, will inaugurate a monthly auction sales day in Artesia. Arba Green, manager of the Chamber of Commerce, announced here Monday. The first monthly sales day or public auction will be held here on February 12th. Preliminaries for the first monthly public auction are underway and a committee consisting of Messrs. H. G. Watson, Mark Corbin and M. G. Schulze, will select the location for the auction. The place of the auction will be announced in our next issue.

The plan to be followed here is similar to the auction held monthly in other sections of the southwest. Farmers are asked to cooperate by bringing in any livestock, household goods or other small articles they wish to dispose of. Articles to be sold to the highest bidder should be brought to the designated place of the sale. Usually two auctioneers are employed, one to sell livestock and one household goods. Goods or livestock sold are subject to a commission from two to six percent to cover expenses of the sale, as a customary in other public auctions or public sales held in this area in the past.

The work of selling articles is usually handled by a committee. Goods brought on the auction lot are usually received for the fee is collected immediately after the sale and money is forwarded the seller as soon as possible.

Additional details of the monthly sales day or auction will be announced in our next issue.

BOARD TO ORDER SALE OF BONDS

Meeting of the Eddy county school board has been called for Friday, at 1:30 p. m., to pass a resolution ordering the sale of \$17,000 school bonds for the projected Malaga building to the federal government.

Action was taken on receipt of a message from the state attorney general with the information that the Malaga school bond transcripts had been approved.

PAY CURB-GUTTER COSTS

Local property owners in the curb and gutter district will have until February 1st, 1936, where the curb and gutter has been completed, to obtain a ten percent discount for cash payment.

If your property is in the project and the curb and gutter has not been completed, you may obtain the discount for cash by paying for the curb and gutter twenty days after the work has been completed.

Statements have been mailed out of the City Clerk's office showing amount due on each piece of property where the work has been completed. The amount shown on each statement is subject to a ten percent discount, if above requirements are met.

Sweeping Probe Of Loeb Killing

JOLIET, Illinois—A sweeping investigation in the sordid secrets of prison life was begun yesterday to uncover the whole story behind the fatal slaying Tuesday of Richard Loeb, "thrill slayer" of Bobby Franks in 1924.

As county prison and state authorities sought details of the slaying, Loeb's wealthy relatives tried to give a hurried, secret burial to the young intellectual whose experiment in murder was a 1924 sensation — the "Loeb-Leopold case."

Loeb's body, bearing fifty-six wounds from a straight-edge razor, wielded by a fellow convict, James Day, 23, lay in a South Side Chicago undertaking establishment, guarded from the curious. It was reported there would be no funeral services — nothing but a silent burial.

STATE SUPERINTENDENT H. R. RODGERS HERE

State Supt. H. R. Rodgers and wife of Santa Fe visited friends and relatives briefly here yesterday en route home from Carlsbad, where Mr. Rodgers was called on business.

Alamo Dam Bid Is Awarded Recently

WASHINGTON — Secretary H. L. Ickes Saturday awarded a \$1,132,547 contract to Hallett Construction Company of Crosby, Minnesota, for construction of the Alamo dam on the Carlsbad reclamation project in New Mexico.

He directed the company to start work on the structure, which will replace the old McMillan dam, on the Pecos river near Fort Sumner, within thirty days.

The dam must be completed within 700 days.

The Hallett Company was lowest of thirteen bidders when bids were opened at the Carlsbad office of the Reclamation Bureau on December 21.

Mrs. Helen Bowers and daughter, Miss Catherine, returned the first of the week from a visit with Mrs. Bowers' mother and other relatives at West Point, Nebraska.

SNOW ADDS MOISTURE TO NEW MEX.

Three Inch Fall Brings
Gladness To Farmers,
Ranchers Here; Roads
Slow But Passable; Low
Temperature 20' Here.

The biggest snow of the season is thawing today under a rising temperature. The snowfall was general over the state with the heaviest fall in northern New Mexico and on the Panhandle of Texas, where a mercury reading of sixteen below is reported north of Amarillo, Texas.

Three inches of snow fell here, adding about a quarter of an inch of moisture. Two inches was reported at Carlsbad and four inches in the Clovis vicinity this morning. The temperature here yesterday varied only seven degrees, the low was twenty degrees and the high was twenty-seven.

A heavy snow fell in the Sacramento mountain area around Weed after an all night rain Tuesday night. The fall varied from six to twelve inches, according to reports.

While it was snowing here, rain fell in many places in southern New Mexico and west Texas. Rainfall was reported yesterday at El Paso, Texas, and Las Cruces and in Texas the rain extended as far as Pecos.

Reports from over the state indicate the highways were all open but travel was precarious in some sections. Air traffic through the state was at a standstill. Bus drivers reported rain extended to the west coast. Silver City reported almost three-quarters of an inch of rain or 7/8 of an inch from a steady rain mixed with some snow. Here ice covered streets caused some inconvenience to moving autos and trucks.

The moisture the greatest of the winter season from snow will be beneficial to both farmers and stockmen. Snow will not only mellow the ground for the farmers but it will add substantial moisture to both the farms and ranges and will provide moisture for early grass and weeds to aid an early lambing season.

Local property owners in the curb and gutter district will have until February 1st, 1936, where the curb and gutter has been completed, to obtain a ten percent discount for cash payment.

If your property is in the project and the curb and gutter has not been completed, you may obtain the discount for cash by paying for the curb and gutter twenty days after the work has been completed.

Statements have been mailed out of the City Clerk's office showing amount due on each piece of property where the work has been completed. The amount shown on each statement is subject to a ten percent discount, if above requirements are met.

NEW MEXICO'S ROAD BUILDING PROGRAM

The state will soon be engaged in its greatest road building program; a program that will give employment to thousands of men.

The present administration is working toward a connected system of highways and this is something we have needed for many, many years for only through a system of connected highways, where the motorist can get on a paved road and ride at least the length of the state, can we hope to get full benefit from the tourist.

Unfortunately the federal government has not been as prompt in supplying its share of the funds as the state and this has caused some embarrassment, because roads cannot be built until the money is ready.

The need for a paved highway into the Pecos valley connecting the Lea county and Eddy county oil fields has not lessened and from all appearances this need has been recognized by the state administration and is being remedied as fast as funds will permit.

Lea county, the richest mineral county in the state, is badly in need of paved roads and these needs have been made known to the administration and the position of Lea county is fully appreciated, but the governor says he cannot build roads until the state's funds are matched by the federal government and the money is ready.

Improvements cannot always be made as rapidly as the public would like to have them. This condition often works a hardship in communities experiencing a rapid growth such as many Lea county communities have had in the past few years and in some instances has made for an unwholesome living condition, but the situation has to be tolerated at least for a time until permanent improvements can be inaugurated.

VISION!

The secret of achievement is a clear vision of a goal. Something definite at which to aim. The clearer the vision the more certainty of accomplishment. If one has such a vision clearly and vividly stamped upon his mind it tends to fire ambition to the end that every energy is directed toward the achievement of a goal. When one's vision of a goal is obscure or imperfect, effort toward its achievement will be half hearted and scattering. This is the reason some individuals seem to go straight towards what they want and others seem never to get started.—Enterprise, Mansfield, Louisiana.

The small town merchant who succeeds is the one who has what people want and lets them know about it. People are busy today. They will not take time to shop where merchants insist on keeping their wares and prices a secret. The busy stores are those who send to their customers' living rooms the home newspaper containing the stores' advertisement of products and prices. Advertising has become the greatest service in time-saver and money-saver to the busy housewife. She knows from the advertising where she can buy what she wants at the price she wants to pay. She does her shopping on a third of her original shopping times.—Journal-Transcript, Franklin, New Hampshire.

An exchange has this to say about a dollar: "A dollar is something the average business man enjoys more in anticipation than in realization. It is the price of a day's work for some men and the price of a drink for others. It is what the good wife frequently needs, but seldom has. It is the power that makes or unmakes men. It is the hardest thing to get and the easiest thing to get rid of known to mankind. It is a blessing in a small measure and a curse in many instances. No man ever had more than he wanted and no man ever will. A dollar is a delusion, and all of us are chasing the delusion."

If those people who throw bricks would only start laying them, look what a prosperous community we would have.

Health Column

Conducted by Dr. J. R. Earp,
Director, New Mexico Bureau of
Public Health.

Left Handed

Left handedness is just as natural as blue eyes. It need not be any more of a disadvantage but it does tend to be a handicap because the majority are less tolerant of left handed children than they are of fair complexions.

Students of hereditary will understand, when they learn that left handedness behaves as a Mendelian recessive, that about one-quarter of all babies born tend to become left handed. The tendency becomes obvious to watchful parents some time before their baby has learned to talk. Almost all the specialists now are agreed that no attempt should be made to thwart this tendency.

To "madly cram the right hand foot into the left hand shoe" is a painful process (it made the poet weep). Not less painful is it for the left handed youngster to be crammed into right handed behavior. It makes him feel that he is "inferior" to other children and hence he may begin to stammer. It confuses him so that he will read as if it were written saw and mad as if it were written dad and even bam. Such confusion makes it very hard for him to learn how to read and write. The specter of inferiority haunts him once more and multiplies his difficulties.

Well trained teachers of the primary grades are on the look out for left handed pupils. A word of encouragement from them may go far to preserve or restore mental health. To be told that some local hero of the baseball diamond also

Government Tries For AAA Taxes

WASHINGTON — Officials of the Department of Agriculture said Tuesday an attempt soon will be made to recover AAA taxes refunded to processors.

They said the department probably would proceed along one of two lines—ask congress to enact a retroactive tax or an excess profits levy.

They said retroactive taxes could be levied on all revenue from the time the old processing tax was enacted to the day of its invalidation at the hands of the supreme court.

Assessments would be refunded to those who already had paid taxes to the government, but not to those whose payments had been impounded and returned to them by court order.

The second measure would aim at regaining as "excess profits" the \$180,000,000 in processing taxes refunded under the so-called "rice millers" decision.

Officials said many questions are being received from the public along three lines:

1. Does the government intend to continue 1936 crop adjustment contracts with the farmers and remunerate them?
2. Will taxpayers have to make up for the money that is being paid back to processors?
3. Has money been spent by the AAA in anticipation of receipts held in escrow?

SUBSCRIBE FOR THE ADVOCATE

had trouble in learning to write, because he too is left handed, may be quite sufficient to restore a youngster's confidence and fire his ambition at the same time.

Chislings

This Ethiopian war has developed into a liar's contest with each side claiming victory every day. Now has the League or Nations a remedy?

A golf professional, hired by a big department store to give golf lessons, was approached by two women. "Do you wish to learn to play golf, madam?" he asked one. "Oh, no," she said; "it's my friends who wants to learn. I learned yesterday."

↑↑↑↑
"And now," said the teacher, "will someone please give us a sentence using the word 'candor'?"

"Please," said the bright little boy in the front seat, "my papa had a pretty stenographer, but after ma saw her he candor."

↑↑↑↑
Higgs: "I hear your daughter is to marry a man of means."

Briggs: "Well, I don't know what he means or she means, but that's what her mother means."

↑↑↑↑
"How is it that you can kiss so divinely?"

"Oh, I used to blow the bugle in the Boy Scouts."

↑↑↑↑
First Suburbanite: "Let's get our wives together tonight and have a big evening?"

Second Suburbanite: "Okay, but where will we leave them?"

↑↑↑↑
Diner: "Didn't your ad say this cafe was under new management? I notice the same old manager is still here."

Waitress: "Yes, but he got married."

↑↑↑↑
"Suppose you call your car 'Shasta' because she's a daisy?"

"Nope. Because she has to have gas, she has to have oil, she has to have something all the time."

↑↑↑↑
Now, children, said the teacher, what would the interest be on \$3,000 for one year at two per cent? Isadore, please sit still and pay attention. Aren't you interested?

Not if it's only two per cent, I ain't interested, retorted Izzy.

↑↑↑↑
An Irishman—a lifer in the penitentiary—sent for the warden.

"What do you want, Mike?" the warden asked.

"Warden, I want you to do me a favor," the Irishman answered.

"Well, what?"

"When I die, Warden, I want you should bury me in the Jews burying ground."

"What? You want me to bury you—an Irishman—in the Jews burying ground? What's the idea?"

"Well, Warden, I figure that is about the last place the devil will come looking for an Irishman."

↑↑↑↑
A hillbilly edged up to the ticket window of a little jerkwater railroad station.

"Mister," he said, "I aims to go to New York to fiddle in Zeb Stewart's Kentucky band. Can you fix me up for to get there?"

"Certainly," replied the agent. "The Special goes through here in about five minutes, and I can flag her for you—but what about your trunk?"

"Trunk?" asked the puzzled mountaineer. "What's a trunk for?"

"To put your clothes in," replied the agent.

"What?" cried the scandalized hillbilly, "An' me go naked!"—Tips and Topics.

Still Coughing?

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

Mines of State Show A Large Gain Over '34

Eleven months actual mine production with an estimate by the mine operators for December indicates that the output of gold, silver, copper, lead, and zinc from New Mexico ores and gravels in 1935 in terms of recovered and estimated recoverable metal, was 33,560 ounces of gold, 1,052,900 ounces of silver, 5,045,000 pounds of copper, 15,385,000 pounds of lead, and 44,834,000 pounds of zinc, according to Chas. W. Henderson, and A. J. Martin of the Denver office of the United States bureau of mines, department of the interior. These figures compare with a production in 1934 of 27,307 fine ounces of gold, 1,061,775 fine ounces of silver, 23,630,000 pounds of copper, 17,729,000 pounds of lead, and 53,043,000 pounds of zinc.

The gross value of the New Mexico metal production at average yearly prices of \$35 per ounce of gold, \$0.738 per ounce of silver, \$0.084 per pound of copper, \$0.040 per pound of lead, and \$0.046 per pound of zinc in 1935 was: gold \$1,174,600, silver \$777,040, copper \$423,780, lead \$615,400, and zinc \$2,062,364; total of \$5,053,184, as compared with \$6,505,002 in 1934, a decrease for 1935 of \$1,451,818 or 22 per cent.

There were approximately 160 producing lode mines (including dumps and prospects) in New Mexico in 1935, but the bulk of the metal output was made from six regularly operated mines. In 1934 the precise count of 153 mines with seven large producers. The number of large and small scale placer mines operations was 328 in 1934;—mint receipts for 1935 indicate a decrease of about forty-five for the individual small placers and an increase of two in the large scale operations.

REPUBLICANS TO MEET

ALBUQUERQUE—State republican central committee decided at Albuquerque Monday to hold a state convention to select delegates for the national convention, to be held March 22.

The committee elected George Craig, Bernalillo, state chairman to succeed P. L. Rapkoch, resigned.

ANNOUNCES \$25-A-MONTH TIME PAYMENTS AND A NEW UCC 6% FINANCE PLAN

Any New Ford V-8 Car
Can Now Be Purchased for \$25 a Month
with Usual Low Down-Payment

This \$25-a-month time-payment plan enables you to buy a New Ford V-8 car through your Ford dealer on new low monthly terms.

After the usual low down-payment is made, \$25 a month is all you have to pay for any type of new car, including insurance and financing.

Your cost for this extension of credit is only 1/2 of 1% a month on your original unpaid balance and insurance. This plan reduces financing charges for twelve months to 6%. For example, if you owe a balance of \$400 for your

car and insurance, you pay \$24 for the year of credit; if the balance is \$200 you pay \$12. Your credit cost for one year is the original unpaid balance multiplied by 6%.

UCC plans provide you with insurance protection at regular conference rates. You have not only fire and theft insurance, but \$50 deductible collision, and protection against other accidental physical damage to your car.

The Universal Credit Company has made these plans available through all Ford dealers in the United States.

Artesia Cagers Drop Hot Game To Forrest, But Win Two From Dexter

The Artesia high school cage team continues to strengthen the standing of the quintet with consistent improvement. Playing the strong Forrest high school here Friday, the locals were defeated during the last few minutes of play by a score of 20 to 26.

The two high school teams won a double bill here Tuesday night from the junior and senior teams of Dexter. The junior game was won by a lone point, the final score was 18 to 17. The Artesia team took the lead after the first few minutes of play and maintained the lead, although the score was close throughout the contest, which was hard fought from start to finish. Buchanan led the scoring for Artesia with five points, while Adams of Dexter was high point man for the visitors with seven points.

In the senior game, the visitors scored first, but soon lost the lead as Artesia hit the basket with timely shots. Artesia also displayed good defense which enabled the team to lead at the half 13 to 8.

Tidwell made five field goals and one free throw to aid in winning the game for Artesia. The five field goals and one free throw made by Stone and Adams for the visitors was not enough to keep Artesia from winning 34 to 28.

Federal Reserve Board Is Named

WASHINGTON—An approving word from Senator Glass (D-Va) foreshadowed quick senate confirmation for the six members of the new seven-man federal reserve board named Monday by President Roosevelt to control the nation's credit structure.

Eccles, named for a four-year term, was not specifically designated by the chief executive as chairman. But the president had previously said he would hold that post.

The only other member of the present board re-nominated was M. S. Szymczak of Chicago, whom the president named to a twelve-year term. The other nominations were: Joseph A. Broderick of New York, for a fourteen-year term; Ronald Ransom of Georgia, for six years; John McKee of Ohio, for ten years, and Ralph W. Morrison of Texas, for two years.

The president left one vacancy, to be filled by a representative of agriculture, but his appointments automatically would remove four of the present members of the board: J. J. Thomas, Charles S. Hamlin, Adolph C. Miller and George R. James.

The new board of seven was created to replace the old board by the bank law enacted at the last session of congress after a bitter conflict between Glass and Eccles. It will have far greater power than the old organization over the nation's banking and credit structures.

U. S. Senate Passes Bonus Bill 79 to 19

WASHINGTON — Immediate payment of the soldiers' bonus was made law by congress Monday over President Roosevelt's veto.

The senate, with its big democratic majority, voted 76 to 19 to override the chief executive's veto. The house had smashed it down last week 324 to 61.

The two ballots, which saw top democratic leaders go against the president on the sixteen-year-old issue, put the \$2,491,000,000 bond payment plan on the statute books.

They raised also for Mr. Roosevelt and his financial advisers the serious problem of finding funds to meet the new drain on the treasury.

Whether new taxes will be asked to meet this extra-budget outlay—estimate to require an immediate expenditure of \$1,000,000,000—remained to be seen.

The new law itself merely authorizes an appropriation of \$2,237,000,000 and makes available \$240,000,000 already in the bonus certificate fund to pay the bonus 1945 maturity value in \$50 cashable bonds.

It provides for payment in bonds that could be cashed after June 15 next at local postoffices, or held for three percent interest for nine years. The bill passed the senate originally 74 to 16 and the house 346 to 59.

Extension Agents Plan New Program

The county and state extension workers of New Mexico in session at annual conference at State College which closed January 29, made plans for readjusting the extension program of the state to meet the new situation created by the supreme court decision of January 6 which did away with the Agricultural Adjustment program. While preparations are being made to be ready to help with any new type of agricultural adjustment that may be put into effect, plans were also made to meet the situation to the best possible extent providing no adjustment program is established.

The Agricultural Adjustment Administration program followed several years of depression in agriculture and much readjustment in farm and ranch management methods is now necessary. Plans were made for helping in improvement work in range livestock and ranch management, field crops, fruit and vegetable crops, poultry, dairying and home economics and the live-at-home program. Special stress was placed on 4-H club work and other work with rural young people.

As a part of a nation-wide program planning movement, a state-wide program planning campaign was inaugurated. In this program planning campaign data is to be assembled in regard to the needs for adjustment due to depletion of soil fertility and soil erosion as well as to keep farm production in line with market demands. Regardless of what national adjustment program is promoted, this work will be of vital importance to the farming and ranching in the state.

FOUR NEW MEXICANS NAMED "GRAZIERS"

ALBUQUERQUE — Four New Mexico men were appointed "graziers" in the division of grazing, Department of Interior, which administers the Taylor grazing act.

Howard Major, Santa Rosa, has been assigned to Colorado; Hugh M. Bryan, Albuquerque, and J. Eckert Stabelin, Las Cruces, to New Mexico, and Huling Usery, Carlsbad, to Utah.

FOLKNER CAFE REMODELED

The Folkner Cafe interior has been remodeled and the fixtures arranged more conveniently. The lunch counters have been enlarged to accommodate patrons of this cafe and some new equipment has been added. See the announcement of the Folkner Cafe in this issue.

A Menace on the Highway

The modern car is made for high speed travel, as nearly perfect as modern manufacturing methods can produce. When this car is permitted to develop mechanical imperfections and is in need of repair, it becomes a menace on the highway, a menace to the life of the owner and other motorists traveling the same highway.

200,000 Ducks In Pecos Valley Now

Dispersing fears held by Pecos valley sportsmen during the past two years that the numbers of ducks were rapidly decreasing and were reaching the vanishing point, cold weather to the north and east has been responsible for the flight into this area of many thousands of various species of ducks, according to authentic reports received at Roswell Monday, according to the Roswell Dispatch.

Definite information has been obtained on the number of ducks in Chaves county during the past few days by Ed Roberts, who has just completed a three-day survey for the United States Biological Survey and the State Game and Fish Department.

This survey was made on January 24, 25 and 26, by Mr. Roberts, who selected what he believed to be the best six lakes and marshes west of the Pecos river, beginning at Salt Creek, north of Roswell, and ending at the E. P. Malone farm lake on the Cottonwood, a distance of fifty-five miles.

In making this survey, Mr. Roberts visited each unit—lake or marsh—at the same hour daily. Estimates on the numbers of ducks were made under the direction of P. C. Lincoln, in charge of the distribution and migration of birds, division of wild life research.

The area over which the count was made, Mr. Roberts said, would represent only approximately ten percent of the water and marshes of Chaves county. No attempt was made to check the number of ducks on the Pecos river for the reason that birds on the river would fly from one place to another and duplication would result.

Mr. Roberts said that where large rafts were resting species were figured on a percentage basis, species such as Ring neck, Ruddy ducks, Greater Scaup, Blue Winged Teal, Red Head, Wood duck, Black duck and others numbering less than one hundred were not taken into consideration.

During these three days Mr. Roberts said he saw 58,700 Mallard; 7,900 Gadwall; 30,900 Baldpate widgeons; 6,800 Green Winged Teal; 6,800 Spoonbill; 12,900 Pintail; 1,700 Canvasback; 400 Goldeneye; 400 Bufflehead Butterballs and 3,200 Coot or Mudhens.

This report shows that Mr. Roberts in this survey saw a grand total of 129,700 ducks on ten percent of the water in Chaves county in three days. Just how many duplications there might have been in the three days, it is impossible to estimate, however, official observers said that they were sure that 100,000 ducks in the county at this time would be a most conservative estimate.

Penasco Items
 Miss Madie Reeves, Reporter

J. W. Harwell left Sunday with a load of cattle, taking them to Arizona.

Frank Crockett and Austin Reeves were Roswell business visitors Saturday.

Mr. and Mrs. Oren Peck are visiting the latter's sister, Mrs. J. W. Harwell.

The Ladies club gave a six o'clock supper at the Banham place Saturday night. Members of the club and their families were present.

The Elk and Lower Penasco schools turned out from the 24th to the 27th while Miss Edna Page and Miss Ernestine Chesser went to the teachers meeting.

Among the young people who attended the shower at Miller Flat Saturday night in honor of Mrs. A. J. Fisher (nee Wanda Jones) were: Messrs. Loren Reeves, Lee Reeves, Ernest Harwell and Roland Wiley, Misses Eva and Madie Reeves and Hazel and Rachel Powell.

Negro Is Arrested At Lubbock On Monday In Hobbs Killing

Deputies Bedford Carpenter and Grady Harris of the Lubbock county sheriff's office at Lubbock, Texas, Monday night announced the arrest of Chick Jackson, 35, negro, who is wanted in Hobbs on a charge of the shooting to death of A. V. Miller, another negro, in a Hobbs cafe Sunday.

According to the officers, Jackson has confessed to the shooting. They declared that they had encountered Jackson and another negro in Lubbock in a bally car, and had pushed the vehicle and its occupants to a local garage.

Becoming suspicious they arrested the pair, later releasing the other negro.

SOCIETY

Woman's Club Silver Art Tea At The Club House Well Attended

The Woman's silver art tea was well attended at the club house Wednesday afternoon, the heavy snow prevented very few from being present. Mrs. Elizabeth De Huff of Santa Fe was guest speaker.

Fifteen oil paintings were hung at the club house, including those of a number of well-known artists. Two of the pictures displayed were pictures of one of Artesia's own artists, Miss Violet Robinson. Her pictures, each Indian subjects, were greatly admired beside those of better known artists.

In receiving line with Mrs. I. L. Spratt, local club president, were: Mmes. Carl Birdstone, Donald Marshall, Fred Cole and F. G. Hartell.

Hostesses for this lovely tea were Mmes. Howard Whitson, Charles Morgan, John Rowland and Hollis Watson.

Mrs. C. R. Blocker presided at the beautiful tea table, which was adorned with a lovely lace cloth.

An ivory bowl of calendulas formed the attractive centerpiece, tall white tapers in ivory holders cast a soft glow over the table. Dainty white individual cakes decorated in yellow were served with a cup of tea and confections. Mrs. Hollis Watson and Mrs. Jeff Hightower assisted in serving.

The Violin Choir, composed of Misses Elaine Frazier of Lake Arthur, Josephine Payne, Anadele Williams, Mary Katherine Woods, Elnora Gage, Margaret Mahone, Jane Shugart, Nina McLean, with Mrs. Doris Deter Welborne at the piano, played several numbers. Miss Frazier gave two beautiful numbers on the violin with Mrs. Spratt at the piano. Two vocal numbers were rendered by Miss La Verne Schnoor, Mrs. Spratt at the piano.

Mrs. Elizabeth De Huff, well-known lecturer and writer of Santa Fe, was guest speaker. She used as her subject, "Indian Mythology," dealing with the Indians of New Mexico and the early Spanish invasion.

Very few if any in New Mexico are as well informed on the above subject as Mrs. De Huff. The local club was pleased to present her Wednesday afternoon.

Mrs. De Huff was accompanied by Mrs. Ina Sizer Cassidy, also of Santa Fe, wife of the late GERALD Cassidy, internationally-known artist.

More than fifty members and friends called during the tea hour.

RUSSELL FLOORE IN RUSSIAN BALLET

Russell Floore, son of Mr. and Mrs. J. C. Floore, an honor student for the past year and a half at the Woodbury College in Los Angeles, was one of the twenty college boys chosen from hundreds in the city to appear in "Ballet Russe de Monte Carlo," at the Philharmonic auditorium in Los Angeles, January 24 to February 1st.

This ballet is the greatest in the world and the only genuine Russian ballet in this country, coming direct from the Metropolitan in New York City to Los Angeles.

The college boys took the part of Persian soldiers, carrying huge simitars, mowing down women and slaves. They wore colorful uniforms bedecked with jewels, designed from those of 5,000 years ago.

Russell's greatest thrill was being back stage with really great artists.

SUSANNAH WESLEY BIBLE CLASS AT PATON'S

Mrs. E. A. Paton and Mrs. Alwilda Shearman were lovely hostesses Thursday afternoon when they entertained the Susannah Bible class at the Paton home.

Mrs. E. B. Bullock, president, presided during the business session. The devotionals were led by Mrs. Roger Durand and Mrs. McDonald.

At the close of a social hour a delicious salad course was served by the hostesses to the following guests: Mmes. Ed Stone, E. T. Jernigan, W. S. Williams, Grover Kinder, H. A. Stroup, George Frisch, T. S. Cox, Roger Durand, W. R. Hornbaker, Ella Stanley, Mary Forsythe, S. S. Ward, W. S. French, McDonald, T. H. Flint, E. B. Bullock, O. E. Matteson, Mrs. Collins of Kansas City, and Miss Olive Buell.

H 2 O BRIDGE CLUB WITH MRS. BRAINARD

Members of the H 2 O Bridge club enjoyed their regular session of bridge with Mrs. G. R. Brainard Friday afternoon. Mrs. S. E. Ferree was elected to membership to fill a recent vacancy. Mrs. Maude Ployhar was a substituting guest.

At the conclusion of the games Mrs. Jessie Morgan held high score. The hostess served dainty light refreshments.

Social Calendar

TELEPHONE 99

FRIDAY

The Viernes Bridge club meets with Mrs. Albert Glasser at 2:00 p. m.

MONDAY

The Library Board meets at the library building at 2:30 p. m.

TUESDAY

The First Afternoon Bridge club meets with Mrs. F. G. Hartell at 2:15 p. m.

The Idlewhites Bridge club meets with Mrs. Arba Green at 2:00 p. m.

WEDNESDAY

Woman's club at the club house at 2:30 p. m. Miss Maurine Lewis, teacher of home economics in the local high school, and Miss Minnie Fisher, teacher of violin with the Pecos Valley Orchestra, will each appear on the program.

THURSDAY (NEXT WEEK)

The Presbyterian Ladies Aid will meet at the Presbyterian Manse at 2:30 p. m.

The Methodist Missionary Society will meet at the church parlor at 2:30 p. m.

The Christian Woman's Association will hold their monthly all-day meeting with covered dish luncheon at the home of Mrs. Ben Dunn.

The Baptist Woman's Missionary Society meets at the church at 2:30 p. m.

The Cottonwood Woman's club will meet next Thursday, February 6th, with Mrs. Clarence Pearson.

MRS. BARNETT AND ALF COLL HONORED

Mrs. Boone Barnett and Alf Coll were surprised with a birthday dinner, Sunday evening at the Barnett home. When Mr. and Mrs. Barnett returned from a drive they found the house filled with guests and a delicious chicken dinner ready to be served. Mr. Coll was among the guests but did not know that he was also to be one of the honorees until later.

Mrs. Barnett was presented a lovely lamp. Mr. Coll was presented with a shirt and tie.

Those joining in the celebration were Mr. and Mrs. Ed Gillispie, Mr. and Mrs. Albert Glasser, Mr. and Mrs. L. M. Friend, Mr. and Mrs. Alf Coll, Mr. and Mrs. Boone Barnett and Mr. and Mrs. Jack Havens of Roswell.

SWASTIKA BRIDGE CLUB

Members of the Swastika Bridge club enjoyed a covered dish supper at the home of Mr. and Mrs. L. C. Reynolds Thursday, retiring to the home of Mr. and Mrs. Donald Marshall for the games of auction.

Scores are being kept for a series of games after which the six lows will entertain the six highs. J. Clarke Bruce and Miss Winifred Deterick held high scores at the conclusion of the games Thursday evening.

Those enjoying this delightful evening at bridge were: Messrs. and Mmes. George Hart, J. Clarke Bruce, Donald Marshall, L. C. Reynolds, Misses Maurine Lewis, Winifred Deterick, and John Clarke and Donald Mandley.

MRS. WATSON ENTERTAINS MIERCOLES BRIDGE CLUB

Mrs. Hollis Watson was hostess in entertaining members of the Miercoles Bridge club, Friday afternoon at her home.

Seated for the games of contract with Mrs. Watson were: Mmes. Raymond Bartlett, C. R. Baldwin, P. V. Morris, Donald Marshall, Lewis Story, Ben Pior, A. P. Mahone, Howard Williams, J. R. Attebery, and Mrs. William Linell and Mrs. Charlie Martin, who were substituting guests. The lovely high score prize was presented to Mrs. Attebery at the conclusion of the games.

A delicious refreshment plate was served by the hostess.

CLASS ENTERTAINED BY MRS. HUGH KIDDY

Mrs. Hugh Kiddy entertained her Sunday school class with a delightful puzzle party Friday evening at her home.

Eleven girls were present to join in the fun of working the large assortment of puzzles; they were: Delores Mayerhoffen, Barbara Wheatley, Jane Shugart, Lucia Hnulik, Marjorie and Margaret Clowe, Darleen Frazier, Thelma Hancock, Catherine Louise Williams, Peggy Linell and Virginia Gordon.

Mrs. Kiddy served light refreshments at the close of the evening.

We have forms to comply with the Social Security law—Advocate.

MRS. JOHN LANNING ENTERTAINS BRIDGE CLUB

Members of the Fortnightly Bridge club were entertained by Mrs. John Lanning Tuesday.

A delicious luncheon was served in courses at one o'clock. Games of contract followed with high score going to Mrs. Albert Richards. Mrs. Leslie Martin was elected to membership to fill the vacancy made by Mrs. Henry Caudle, and Mrs. Howard Williams was a substituting guest. Others playing were: Mmes. Akteson, B. D. Clark, Baldwin, Feather, Wm. Linell, Charlie Martin, Richards, Seale, Lewis Story and Watson. Mrs. C. Bert Smith and Mrs. A. L. Bruton were luncheon guests.

MRS. FLOORE PRESIDENT OF PAST MATRON'S CLUB

Mrs. Jeff Hightower entertained the Past Matron's club Monday afternoon.

The annual election of officers was held with Mrs. J. M. Story, the retiring president, presiding. Mrs. J. C. Floore was chosen president; Mrs. Arba Green, vice president, and Mrs. Jess Funk, secretary and treasurer.

The remainder of the afternoon was spent on the star quilt. Refreshments of cake and coffee were served by the hostess.

THURSDAY BRIDGE WITH MRS. MORGAN

Mrs. Charles Morgan entertained the Thursday Bridge club Thursday afternoon at home.

All members were present for the session of contract with Mrs. C. R. McDermond substituting for the hostess. High score prize went to Mrs. Marvel Archer, second high to Mrs. Frank Seale and low to Mrs. Merrill Sharp.

Light refreshments were served by the hostess at the conclusion of the games.

BRIDGE OF THE MONTH

Mrs. Earl Bigler entertained members of the Bridge of the Month at the Artesia hotel Friday afternoon.

Games of contract followed the delicious one o'clock luncheon served in the Hotel Coffee Shop.

Miss Catherine Ragsdale was elected to membership to fill the vacancy made by Mrs. Henry Caudle. Mrs. D. A. Miller was a substituting guest.

High score prize went to Mrs. Herman Terry and second high to Mrs. Howard Whitson.

BIRTHDAY DINNER AT SPRATT HOME

Mrs. Jack Spratt entertained with a dinner Sunday evening, complimenting her husband on his birthday anniversary.

Pink and white sweet peas were used for the centerpiece at the attractively laid table with covers laid for Misses Lucille Morriss, Beulah Strang, Mary Woods, Ethel Bullock, Mr. Spratt and the hostess. The delicious menu was served in four courses.

THE VIERNES BRIDGE CLUB

Mrs. Ed Gillispie entertained the Viernes Bridge club at her home Friday afternoon.

At the close of the session of contract Mrs. Boone Barnett was awarded high score prize, Mrs. Lawrence Carroll second high prize and Mrs. Andy Company consolation. Mrs. W. H. Barker was a substituting guest. Others playing were Mmes. Albert Glasser, Joe Foster and Owen Haynes.

CONTRACT STUDY CLUB

Mrs. Jim Berry was hostess at the Artesia hotel Tuesday when she entertained members of the Contract Study club.

Luncheon was served in courses in the Coffee Shop. Games of contract were played on the mezzanine floor. Mrs. Jeff Hightower was the winner of high score of the afternoon. Substituting guests were Mmes. Herman Terry, Frank Smith and James Nellis.

CARD OF THANKS

Members of the local Catholic church wish to express their appreciation to the Joyce Fruit store and its customers for the large dividends received during the past year through the local benefit coupons.

Locals

John McCann left Wednesday afternoon for Temple, Texas, in response to a message stating that Mrs. McCann had undergone a major operation early Wednesday morning. Her conditions was reported good.

Justin Newman, son of Mrs. Vina Newman, who has been attending high school at Midland, Texas, returned home Friday and has entered the local high school. It was necessary for him to return in order to receive treatment for his eyes.

THINK OF IT!!

MORE THAN HALF THE STATES HAVE DEFERRED AUTOMOBILE REGISTRATION DATES, SO THAT OWNERS WON'T HAVE TO PAY LICENSE FEES ON TOP OF XMAS AND NEW YEAR'S BILLS!!

THE EARLY AMERICAN INDIANS DISCOVERED OIL SPRINGS AS SAVED AND FRODO MOOPISHED THE LIQUID!!

OPEN UP YOUR MIND AND YOUR PURSE!!

THE GASOLINE TAX IS THE "BIRTHDAY OF CHEER" IN 1914 AT FIRST LEVIED IN THE AMOUNT OF 1¢ A GALLON IN 1914 IT IS NOW 15¢ A GALLON!!

AS RECENTLY AS 1896 THERE WERE ONLY FOUR AUTOMOBILES IN THE U.S. USING GASOLINE FUEL!!

THE \$7,000,000 PAID YEARLY IN FEDERAL GASOLINE TAXES WOULD BUY ENOUGH FUEL TO FILL THE TANK OF EVERY U.S. AUTOMOBILE 3 TIMES AND RUN IT 500 MILES!!

I CAN'T KEEP THIS UP FOREVER!!

ABOUT 12% OF ALL TAX REVENUE COMES FROM THE PETROLEUM INDUSTRY AND ITS CUSTOMERS!!

The Advocate's Tested Recipe

By Frances Lee Barton

BECAUSE it is made of apples and because there rises from it that mingled savor of brown sugar, butter, lemon, and spice in a limpid, sparkling sauce—and all of it so tempting! That's why it is called "Eve's Pudding." Serve it with plain or whipped cream, with foamy sauce, lemon, orange, or hard sauce—it's always delectable.

Eve's Pudding
3 cups hot water; 2 tablespoons lemon juice; 2½ cups sliced tart apple; ½ cup quick-cooking tapioca; 1 cup brown sugar, light (firmly packed); 1 teaspoon salt; ¼ teaspoon mace; 3 tablespoons butter.

Add water and lemon juice to apples in greased casserole. Bake, covered, in moderate oven (375° F.) 15 minutes, or until apples are partially cooked. Add remaining ingredients, mixing thoroughly. Continue baking 30 minutes, stirring well after 5 minutes, then every ten minutes, and again when removing from oven. Serve hot or cold with hard sauce or with whipped cream. Serves 6.

Lake Arthur Items

Miss Joyce Alexander, Reporter

C. L. Evans and Wilson Sellers made a business trip to Clovis last Sunday.

Mr. and Mrs. William N. Olive were all-day visitors in Hagerman last Monday.

Oran Smith is enlarging his store so as to be able to handle more business.

Two of Bob Allison's nephews from Cherokee, Oklahoma, are now visiting in his home.

Several high school students are absent from school this week due to the epidemic of mumps and flu.

D. F. Johnson of Lamesa, Texas, has been visiting friends and relatives in Lake Arthur the past week.

Coach Lewis of Dexter attended the Hope-Lake Arthur basketball game in Lake Arthur last Friday night.

Mr. and Mrs. Clovis Taylor were the guests of her parents, Mr. and Mrs. W. E. Taylor, last Thursday night.

Mrs. Luke Alexander and children spent the week-end with her husband on the ranch east of Artesia.

Mr. and Mrs. Ripley and family of Buffalo Valley were visiting Mr. and Mrs. Z. T. Wallace last Monday.

Miss Lavora Hedrick spent the week-end in Carlsbad visiting her sisters, Miss Alfa Hedrick and Mrs. Smith.

Mrs. Eva Crook and mother, Mrs. Dora Russell, were present at Sheb Russell's birthday supper last Friday evening.

Miss Vernese Davis and sister, Ditta Mae, spent last Friday night in Lake Arthur in the home of Mrs. J. B. Crook.

Mr. and Mrs. Homer Ingle of Hagerman were visitors in the home of her mother, Mrs. J. R. Spence, last Sunday.

J. B. Crook and Lillard Johnson returned home last Friday from Lake McMillan where they had been on a hunting trip.

Mrs. Elgin Douthitt from Roswell was visiting in the home of her mother, Mrs. J. R. Spence, in Lake Arthur last Friday.

Mrs. J. M. Frazier and daughter, Mrs. Edra Smith, are both ill with pneumonia. However, they are now reported some better.

The new addition to the school building is now completed. The high school will be moved into the new rooms in a few weeks.

Mrs. Roy Vermillion and children of Artesia were visiting in the home of her parents, Mr. and Mrs. J. R. Spence, last Sunday.

dren of Artesia were visiting in the home of her parents, Mr. and Mrs. J. R. Spence, last Sunday.

Mrs. Don Riddle taught in the high school last Thursday and Friday in Miss Eva Deering's place as she was ill and unable to teach.

Frank Mullinax has been very ill with blood poisoning in his right leg which was broken last fall at the fair. He is now reported better.

Miss Gerlene Flowers, who was injured in an automobile wreck last Thursday morning is now reported to be improving after her cuts, bruises and shock.

The Lakewood junior and Cottonwood juniors played a game of basketball on the Lake Arthur court last Friday afternoon. The score was tied at the end of the game.

Tuesday night the officers of the Epworth League and the two committees, social and community service, and Miss Emmarie Perce, the chairman of both committees, had a business meeting at the Methodist church.

On January 21st, L. H. Ellington entertained the seventh and eighth grades and the junior basketball team with a party, given at his home. Games were enjoyed by all, then the refreshments of sandwiches, fruit and soda pop were served. About twenty-five were present.

Peggy Sims of the sixth grade was the only student in her room who made the honor roll last month. Peggy had an average of ninety and had neither been absent nor tardy. Marguerite Nelson made the required average, but had been absent from school one day, therefore she could not be on the honor roll.

Dr. Hoyt C. Graham, president of the New Mexico State Teachers College, and Dr. John J. Fuller, head of the Department of Education, were business visitors in the Lake Arthur school last Friday afternoon. They were en route to Roswell where they spoke before the Chaves County Teachers meeting last Saturday.

Last Friday night the Hope basketball team journeyed to Lake Arthur to play the Lake Arthur Panthers. The junior team also came and were defeated with a score 22-11. The Hope Yellow-jackets were defeated by the Panthers 37-14. Their pep squad was also present and everyone present enjoyed the game immensely. After the game the junior class of the Lake Arthur high school entertained the Hope team and pep squad and the Lake Arthur high school with a party in the auditorium. A plate lunch consisting of sandwiches, cocoa, bananas and cake was served to about one hundred young people who were present.

The President Speaks

Talking by telephone to a dinner meeting of the National Committee for the Birthday Ball for the President at the Waldorf-Astoria on Jan. 18th, President Roosevelt's words were picked up by radio and broadcast to the nation. The address marked the first time in Birthday Ball history that the Chief Executive spoke to the nation previous to a birthday ball, urging support for the benefits to raise funds for a nation-wide war on infantile paralysis. Col. Henry L. Doherty, chairman of the National Committee, presided at the Waldorf dinner, attended by nearly one hundred of the nation's leaders. Millions of Americans listened in.

Locals

A daughter was born to Mr. and Mrs. Fred Savoie yesterday.

Mr. and Mrs. Harry Jorren are making a fortnight's visit in Fort Sumner.

Mr. and Mrs. Lincoln Cox of Mayhill announce the birth of a daughter here yesterday.

T. Russell Bowles of the Roswell

Morning Dispatch, was a business visitor here Tuesday afternoon.

Miss Edna Bowman and Herbert C. Upton, both of Artesia, were licensed to wed in Roswell Monday.

Miss Louise Newman, a teacher of the public school at Weed, visited home folks here over the week-end.

Mrs. Mary Maples of Albuquerque spent the week-end here visiting her sister, Mrs. M. A. Lapsley and family and friends.

Mr. and Mrs. R. C. Withers, accompanied by Mrs. Wayne Withers all of Carrizozo, were here the first of the week visiting their son, J. W. Withers and family.

W. A. Losey, Hagerman banker and former member of the state game commission, plans to attend the conference on American wildlife in Washington, D. C., February 3 to 7. Elliott Barker, state game warden, will also attend.

**NOTICE
STATE ENGINEER'S OFFICE**

Number of application RA-1331 Santa Fe, N. M., Jan. 10, 1936.

Notice is hereby given that on the 30th day of December, 1935, in accordance with Chapter 131 of the Session Laws of 1931, V. L. Gates of Artesia, County of Eddy, State of New Mexico, made application to the State Engineer of New Mexico for a permit to appropriate the shallow ground waters of the Roswell Artesian Basin to the extent of 1500 gallons of water per minute by the drilling of a 16 inch well approximately 225 feet in depth, located in the SW corner SW 1/4 Section 10, T. 17 S., R. 26 E., N. M. P. M., for the purpose of irrigating 160 acres described as being the SW 1/4 of said Section 10.

Any person, association or corporation deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source may file a complete sworn statement of their objections substantiated by affidavits with the State Engineer and file proof of service of a copy thereof upon the applicant with the State Engineer on or before the 19th day of February, 1936, the date set for the State Engineer to take this application up for final consideration unless protested.

THOMAS M. McCLURE, State Engineer.

"Love" is the subject of the lesson-sermon which will be read in all Churches and Societies of Christ, Scientist, on Sunday, February 2nd. The golden text is: "My little children, let us not love in word, neither in tongue; but in deed and in truth." (1 John 3:18)

Among the citations which comprise the lesson-sermon is the following from the Bible:
"No man hath seen God at any time. If we love one another, God dwelleth in us, and his love is perfected in us." (1 John 4:12)

CHURCH OF CHRIST
Corner 7th and Grand Ave.

Jesus says if you love father, mother, son or daughter more than me you are not worthy of me. What about the Sunday newspaper, the Sunday morning "oversleep," the Sunday dinner, Sunday company, the Sunday visit with relatives, etc? Do you love them more than you love Jesus? If so, actions speak louder than words.

Prayer meeting Wednesday 7:00 p. m.
Ladies Bible class Thursday 2:30 p. m.
Our Bible school meets at 10:00 a. m., Sunday morning.
Preaching at 11:00 a. m., and 7:00 p. m.

The young folks will study Japanese and Korean missions at 6:15 p. m., Sunday.

The public is cordially invited to attend all services.
ALLEN E. JOHNSON, Minister.

FIRST CHRISTIAN CHURCH

Announcements for the week:
Thursday—
7:00 Choir rehearsal.
8:00 Play rehearsal.
Sunday—
10:00 Morning worship, preaching and Communion.
11:00 Sunday school.
6:15 Young people's meeting.

During February, the group will study the movies. Next Sunday night Mr. Bartlett will be our guest speaker and will tell us some of the problems of the theater manager in securing pictures which the people approve. A period of discussion will give opportunity for asking questions. Also the group will decide what picture they will see together, which picture will form the basis for discussion later in the month. All young people are cordially invited to make this study with us.

7:30 Continuing our study of religious bodies, we shall consider next Sunday evening "Points of Difference Between Catholics and Protestants." A discussion will follow the presentation by the pastor.

Monday—
7:00 Meeting of the Board of Church Officers.
Wednesday—
7:00 Bible study at the church.

WANTED—Clean Cotton Rags at The Advocate.

LOCALS

Uncle Tom Blakney of Hope was trading in town Tuesday.

Mrs. A. L. Kite spent Sunday in Roswell with her home folks.

T. H. Flint is confined to his home with an attack of the flu.

An unsold wool clip of about 90,000 pounds in Wyoming last week sold for 23 1/2 cents per pound.

Dallas, Texas, officers last week refused to let two cowboys hitch their horses to the newly installed parking meters.

Mr. and Mrs. Lewis Story drove over to El Paso early Saturday morning to attend the funeral of Dr. Jenkins, a wholesale druggist.

Mr. and Mrs. Pentecost and two little girls have moved into the T. J. Stagner home. Mr. Stagner will continue to make his home here.

Mrs. Mary Abbott, who was a patient in a Carlsbad hospital for several weeks, was removed to her home here the latter part of last week.

Mr. and Mrs. Roy Spivey have moved to the American Potash mines where Mr. Spivey has employment. He began work the first of the week.

The Rev. and Mrs. A. C. Douglas and baby daughter drove to Abilene, Texas, Tuesday with their son, Freeman, who entered the second semester at McMurry College.

T. W. Conway, formerly of Las Cruces, has assumed his duties as special rehabilitation supervisor of the Hope community ditch and will assist H. B. Elmendorf, project manager.

Mr. and Mrs. Bill Stiewig and family of Atoka, Oklahoma, returned to Artesia Sunday to make their future home here. Mr. Stiewig is employed at the Continental Service Station.

J. R. Ogden, loving farmer, will grow forty-one acres of sugar beet seed this year. It is understood he has contracted with a sugar production company to purchase his output for \$7.60 per hundred pounds.

Mrs. John McCann, who went to Temple, Texas, last week to go through the Scott-White clinic, will remain in the hospital there for treatment to prepare for a major operation. She will be away for several weeks.

Mr. and Mrs. H. L. Gusing of Terre Haute, Indiana, arrived the latter part of last week for a visit with Mrs. Gusing's sister, Mrs. T. S. Cox and Mr. Cox. They expect to leave for their home some time this week.

Mrs. Roy Pior and little son Tommy came over from Hobbs, Sunday. They are guests at the home of Mr. and Mrs. Ben Pior while Mrs. Pior is working on income tax returns for the Pior Rubber Company.

Miss Shirley Bartlett, daughter of Mr. and Mrs. Ray Bartlett, underwent an operation for appendicitis at the St. Francis hospital in Carlsbad Saturday night at midnight and is recuperating satisfactorily, according to an early report.

Ross Conner, Jr., employed at the Artesia Auto Co., filling station, was painfully, but not seriously injured, when hit in the face by a truck crank handle Friday. It was first feared the crank handle might have broken Mr. Conner's nose, but an X-ray of the injuries did not reveal any broken bones.

PRESIDENT ROOSEVELT'S SON TO DRILL YOAKUM COUNTY OIL TEST SOON

Elliott Roosevelt, son of President Franklin D. Roosevelt, has become interested in the oil game and will drill a wildcat well in Yoakum county, about fifteen miles east of the Lea county, New Mexico, line. This test is to be about twenty miles northwest from the Bennett wildcat, in which oil was discovered at 5,089 feet, but which has been shut down since that time without the test having been made.

Roosevelt will be associated with Lou Stogner of Amarillo and Fort Worth, and the well will be drilled in section 215, block D, north of Plains on a block of acreage owned in fee by Mr. and Mrs. Roosevelt.—Lovington Leader.

WANTED—Clean Cotton Rags at The Advocate.

Science Discovers Modern Means To Cure the Malady of Monotitis

Slight or Severe Cases Succumb To Treatment

Recognized by the profession as "monotitis," the ailment known to laymen as "same-old-thing" afflicts at least twenty per cent of all menus this month, according to this column's own expert.

This ailment, ranging from "slight" to "severe" in character, is caused, we are told, by a lack of new ideas. The cure is the simple application of new "flairs" and new flavors—and watch those menus pick up!

"Remedies" You'll Like
Ever make a natural "mayonnaise" just by whipping a ripe banana into a cream? That puts life into any salad or even a sandwich filling. That whipped-cream horse-radish sauce everybody likes on meat loaf is twice as good made with a banana base.

Newest of them all—no, you haven't tried it yet, it's hot off the griddle—is Mexican Fiesta Salad, and there's a brown-sugar-pencan-lime delicious called Praline Bananas!

Other good things too, line up in array to knock the blues out of your menus and drive monotony far, far away. Try them, and banish kitchen-boredom!

Mexican Fiesta Salad
2 oranges
1 grapefruit
2 ripe bananas
2 apples
4 small beets
1 tablespoon lemon or lime juice
1 1/2 tablespoons salad oil
1/2 teaspoon salt
1/2 teaspoon chili powder
1/4 cup coarsely chopped peanuts
2 tablespoons crushed peppermint candy

Peel oranges and grapefruit, remove membrane from sections and dice. Peel and dice bananas, apples and beets. Make a dressing of the lime or lemon juice, salad oil, salt and chili powder. Combine all ingredients lightly but thoroughly. Serve well chilled on crisp lettuce leaves. Serves six to eight.

Praline Bananas
4 partially-ripe bananas
1/2 cup brown sugar
1/2 teaspoon salt
1 tablespoon lime or lemon juice
1 tablespoon melted butter
1/3 cup chopped pecan meats or walnut meats

Peel bananas, cut in half lengthwise and fry for about one minute in a small amount of butter. Place bananas into a well-greased baking dish. Mix brown sugar and salt together and sprinkle onto bananas. Pour lime or lemon juice and then the melted butter over sugar. Cover with chopped nuts. Bake in a moderately hot oven (375° F.) about ten minutes, or until sugar melts and bananas are tender. Serve hot. Serves eight.

Banana Cream Dressing
1/2 ripe banana
1/3 cup heavy cream
1/3 cup mayonnaise
1 teaspoon salt
Peel banana, slice into bowl and beat until smooth and creamy. Add cream and continue beating until mixture is stiff. Fold in mayonnaise and salt. Makes about one cup—eight servings. This dressing keeps well in a cool place for about

Farm Almanac and Facts Book To Be Distributed Soon

Publication of a "Farm Almanac and Facts Book" which will be distributed to the rural population in all parts of the country was announced recently by the Ford Motor Company.

The book is of a convenient pocket size, containing forty-eight pages. It is unusual in makeup and content, presenting an extensive array of handy tables, statistics and charts for the assistance of the farmer and business man. Other sections are designed to aid the farm wife.

This first Ford Almanac is published for 1936 and is now being distributed. It carries a readily available calendar on the back cover and contains tables showing the time of rise and set of sun and moon in all parts of the country every day of the year. Other helpful and interesting astrological and astronomical information is included.

Among the other prominent sections of the book are: A list of memorable historic events for each day of the year, facts about the universe, explanations of physical phenomena, a list of important festivals and anniversaries for the year, rules for forecasting weather conditions, population statistics, facts and records on farming as an industry, discussion of the farm of the future, information on citizenship and naturalization, a brief review of the history and development of the United States, "do's and don'ts" for use in emergencies, poisons and their antidotes, instructions for flower and vegetable gardening, crop seed sowing instructions, a list of places of interest to the tourist, parcel post rules and regulations, temperature and rainfall chart, dates of killing frosts in all parts of the country, and a table of distances between the principal cities of the country.

Stories on the founding and development of the Ford Motor Company and about the Ford Rouge Plant, word pictures of famous Edison Institute Museum and quaint Greenfield Village, established within a few miles of the Rouge Plant, are other features of the Ford Farm Almanac.

All Set for Wool Growers Meeting

ALBUQUERQUE — Arrangements for the annual convention of the New Mexico Wool Growers' Association were completed today, Floyd Lee, president, said.

Added to speakers already announced will be C. M. Botts of Albuquerque, chairman of the land use committee of the State Planning Board, who will discuss the Taylor act.

Sidney Gottlieb, association representative who visited numerous eastern markets last year as a guest of Swift and Co., will report on his trip.

Prof. Lewis H. Moe of Oklahoma Agricultural College will discuss stomach worms and how to combat them.

How wool use has been increased will be explained by a representative of the Associated Wool Industry, illustrating his discussion with exhibits and motion pictures.

Gov. Clyde Tingley will address the convention on opening day, February 5, at which Mr. Lee will give his annual address. Mayor Charles Lemke will welcome the visiting shepherms.

Judge Roger Gillis of Del Rio, president of the Texas Association, and Byron Wilson of Wyoming, chairman of the national legislative committee, will be on the program.

C. J. Fawcett will tell of work of the National Wool Marketing Corp., and R. C. Pollock will give an illustrated talk on the eat-more-lamb campaign of the Livestock Meat Board.

The Department of Agriculture will have a big wool exhibit on display.

C. T. Howell of the Soil Conservation Service will illustrate his

Church Votes To Change Order of Sunday Service

The Rev. Thomas Massie, pastor of the First Christian church, said his church had voted to change the order of church services to stimulate additional interest.

He said of the change: "At a business session last Sunday morning, January 26th, the church voted to try as an experiment for the next ten Sundays, beginning next Sunday, February 2nd, and lasting through Easter, a reversal in the order of Sunday morning services as follows: Service beginning at 10:00 o'clock, including with the Communion; the Sunday school will follow immediately, which will be at 11:00 o'clock, lasting for one hour. In this arrangement, we hope to have a closer unity of the church in preaching and teaching services and make a greater appeal for those to attend both services. If, at the close of the experiment of ten days, it is considered successful, it may be voted as a permanent order of service; otherwise, it shall return to the original order. Between now and Easter, a special emphasis will be placed on church attendance. We are asking each member to try not to miss a single Sunday during this period, as a part of this emphasis, we shall check attendance to see who maintains a perfect record.

Mr. and Mrs. Roy Spivey have moved to the American Potash mines where Mr. Spivey has employment. He began work the first of the week.

The Rev. and Mrs. A. C. Douglas and baby daughter drove to Abilene, Texas, Tuesday with their son, Freeman, who entered the second semester at McMurry College.

T. W. Conway, formerly of Las Cruces, has assumed his duties as special rehabilitation supervisor of the Hope community ditch and will assist H. B. Elmendorf, project manager.

Mr. and Mrs. Bill Stiewig and family of Atoka, Oklahoma, returned to Artesia Sunday to make their future home here. Mr. Stiewig is employed at the Continental Service Station.

J. R. Ogden, loving farmer, will grow forty-one acres of sugar beet seed this year. It is understood he has contracted with a sugar production company to purchase his output for \$7.60 per hundred pounds.

Mrs. John McCann, who went to Temple, Texas, last week to go through the Scott-White clinic, will remain in the hospital there for treatment to prepare for a major operation. She will be away for several weeks.

Mr. and Mrs. H. L. Gusing of Terre Haute, Indiana, arrived the latter part of last week for a visit with Mrs. Gusing's sister, Mrs. T. S. Cox and Mr. Cox. They expect to leave for their home some time this week.

Mrs. Roy Pior and little son Tommy came over from Hobbs, Sunday. They are guests at the home of Mr. and Mrs. Ben Pior while Mrs. Pior is working on income tax returns for the Pior Rubber Company.

Miss Shirley Bartlett, daughter of Mr. and Mrs. Ray Bartlett, underwent an operation for appendicitis at the St. Francis hospital in Carlsbad Saturday night at midnight and is recuperating satisfactorily, according to an early report.

Ross Conner, Jr., employed at the Artesia Auto Co., filling station, was painfully, but not seriously injured, when hit in the face by a truck crank handle Friday. It was first feared the crank handle might have broken Mr. Conner's nose, but an X-ray of the injuries did not reveal any broken bones.

PRESIDENT ROOSEVELT'S SON TO DRILL YOAKUM COUNTY OIL TEST SOON

Elliott Roosevelt, son of President Franklin D. Roosevelt, has become interested in the oil game and will drill a wildcat well in Yoakum county, about fifteen miles east of the Lea county, New Mexico, line. This test is to be about twenty miles northwest from the Bennett wildcat, in which oil was discovered at 5,089 feet, but which has been shut down since that time without the test having been made.

Roosevelt will be associated with Lou Stogner of Amarillo and Fort Worth, and the well will be drilled in section 215, block D, north of Plains on a block of acreage owned in fee by Mr. and Mrs. Roosevelt.—Lovington Leader.

Freedom of Judgment

Is essential to sound banking policies.

This bank has no special interests to serve or motives to satisfy other than strict adherence to the principles and practices of good, every-day banking. It is free to use its best thought and to exercise its honest opinion on the merits of every transaction presented for its consideration. Its judgment as to the loans it grants and the investments it makes are unswayed by considerations that are not directly a part of safe, conservative and constructive banking.

We believe that this is fundamental to sound banking practice—that it is also the friendliest type of service we can render our depositors and our community.

Frances Johnson, Reporter

and Mrs. Eliza Swift were Monday from Artesia visiting Mr. Swift's parents, Mr. and Mrs. Dee Swift.

Hamill returned Saturday from Roswell where he spent several days attending the Grazing Association meeting.

Mr. and Mrs. Watson, Kenneth and Chit Hunter, who are doing geological survey work here, returned the week-end in El Paso.

Mr. Carl Lewis and son, Sam, returned from Roswell Sunday night. Mrs. N. L. Johnson while Mr. Lewis spent the day at the ranch.

A birthday ball honoring President Roosevelt will be given at the League hall Thursday evening. A barbecue dinner will be given at the same time.

Johnnie White was in over the week-end visiting her family. Mr. and Mrs. Hilary White and family, who is tutoring on the Hilary White, Jr., ranch.

John Teel and son, J. W., returned from Roswell Sunday to be here a few days before returning to Roswell where J. W. is in the care of a doctor.

The Hope basketball team was defeated at Lake Arthur by the team from the Lovington team Friday and Saturday night.

Bonnie Altman drove to Roswell Saturday afternoon to visit her sister, Mrs. Ada Belle Trimble, who has been ill for several weeks, but who is improving now.

Miss Dixie May of Clarendon, Texas, arrived here Friday night to visit Mrs. Bill Glasscock in Artesia. She is a friend of Mrs. Glasscock and has visited here because of the illness.

Mrs. Calvin Buckner entertained at a wrestling party Monday afternoon with a shower honoring Mrs. Martha Scoggins. During the afternoon the ladies quitted a quilt for Mrs. Scoggins.

Mr. and Mrs. Ray B. McGrew and small son Wesley left Monday morning for Dallas, Texas, where Mr. McGrew will work on his M. A. thesis at S. M. U. They plan to return in two weeks.

Hot cocoa is being served to the children in the grades of the Hope school who bring their lunch. This program is being sponsored by the P. T. A., under the direction of Mrs. Anderson Young, Miss Agnes Cook, county nurse, and Dr. O. E. Pickett, district health officer.

Marjorie Johnson of Hope and George Nihart of Lake Arthur, president and vice president of the Pecos Valley League Union, will speak at the Methodist church Sunday morning in connection with the Young People's convention at Memphis, which they recently attended.

Mrs. Billie Ballard and Miss Bess Mellard entertained at their breakfast honoring Cy and Dave Bunting on their birthday. Guests were Mr. and Mrs. Howell Hamill, Mrs. and Mrs. Bonnie Altman, Mrs. Cy Bunting and Mr. and Mrs. Dave Bunting.

Four eagles, the largest measured seven feet and six inches, were shot on the Coffin ranch near Roswell Sunday by Paul Coffin and Bill Riley of Hope. The other three birds measured seven feet and six inches, six feet and seven inches, and six feet and six inches. The largest bird was shot by Bill Coffin from a car window after it had been chased three miles. The birds were brought into Hope Sunday afternoon where they were weighed and measured.

WIN BACK \$10,000.00 IN AAA PAYMENTS

ALBUQUERQUE—Three New Mexicans who contested the constitutionality of the AAA processing taxes will be returned approximately \$10,000 in levies held in escrow under a U. S. district court order on file at Albuquerque Friday.

The order directs S. P. Vidal, internal revenue collector, to return \$5,878.98 to Joseph C. Schwartzman, Albuquerque meat packer, and \$4,147.46 to Lucian and Anna B. Hock, operators of the 48 Star Mills at Albuquerque, and the Las Vegas Roller Mills.

HORSES FACE FUTURE OF "UPS AND DOWNS"

Farmers who raise horses and mules face conditions different from any that existed during the years for which figures on these animals in the United States are available, says the annual outlook report of the United States Department of Agriculture. Shorter cycles of increasing and decreasing numbers and prices are in the picture for the future.

Horses and mules increased rapidly—except during the late twenties—until about 1917 or 1918. Then there was a sharp decline which is expected to reach bottom in 1936, although the number two years old and over is expected to decline for several years because of the many old animals which will die.

About 785,000 colts were raised in 1934, the largest number in ten years, an increase of twenty-four percent over the 1933 crop, and of fifty percent over the number raised in 1931—the year of the smallest colt crop this century. An annual crop of slightly more than 1,000,000 colts—about the number raised in 1935—probably will maintain the number of work animals raised in the years to come.

Horses and mules on farms at the first of 1935 numbered 16,200,000 head—about 266,000 or 1.5 percent fewer than at the beginning of 1934. This decrease was the smallest in fifteen years. Animals two years old and over decreased about 493,000, but this was partly offset by the sharp increases in numbers under this age class born in 1933 and 1934.

Lea Co. Oil Leases \$400,000 Is Asked For Taylor Act

Two recent sales of Lea county oil leases show how big and quick money has been made by people who have had the nerve and faith to make investments. These two sales made recently are only among the hundreds which have brought vast returns to the investors and are only indications of what may be expected in the future in a large way.

Miss Louise Wulff, a public stenographer in the Hotel Hayward, Los Angeles, California, recently sold the state lease on west half of the northwest quarter of section 17, township 20, range 37 east, in the Monument field, to a Los Angeles capitalist for the handsome sum of \$50,000 cash and in addition received an over-riding royalty of one-sixteenth.

This is said to have been one of the best sales since the boom days in the Hobbs field when as much as \$5,000 an acre was paid for leases in the most favored territory.

The eighty acres transferred by Miss Wulff is adjoining the famous section 7, where the Barnsdall recently completed two of the largest wells in the great Monument pool.

The records of the state land office disclose the fact that this lease, B-1616, was dated January 11, 1933. Miss Wulff renewed her lease at that time and it was a little less than three years until the sale was made by her.

Another big sale bringing C. F. Wood and associates of Oakland, California, a sum reported at \$25,000 cash for an 80-acre lease in Section 32-20S-37E was reported during the past week. The sale was made to the Repollo Oil Co., (A Sinclair subsidiary) operating extensively in the Lea county fields.

Mr. Wood and his associates did not receive any over-riding royalty, although an additional \$25,000 was said to have been provided for out of oil produced from the lease.

The Wulff and Wood sales have certainly set a fast pace for brokers and lease dealers at the start of the New Year and is further proof that the year 1936 is to be the biggest yet for New Mexico oil development.—Lovington Leader.

CCC Camp News

(Camp DG-41-N Co. 2842, Lake Arthur, New Mexico) (Contributed)

Dr. Hinky with Driver Clare H. Blackman visited Mayhill camp Monday. They brought the new pastry cook back with them.

Educational Adviser A. B. Corum and Mrs. Corum stopped a few minutes here on their way back to Mayhill camp from Roswell. He is interested in promoting a boxing tournament between the three junior camps of the Carlsbad sub-district as soon as possible after the quarantine is lifted.

The basketball team is proud of their new green suits which were received last week. They hope to be able to use them to a good advantage when the quarantine is lifted. They plan to play teams in the neighboring towns.

Cecil Stoddard, camp barber, is the proud owner of a new barbering device run by electricity. He was the first to receive a haircut by it and you may take our word for it that it is worth fifty cents of your money to see the finished product. (It was almost finished to say the least).

The grand tournament prize of four cartons of cigarettes was won by the boys of Barracks C. With four hundred points to their credit they were acclaimed the champions in basketball, and ping pong singles. They won second in softball and call shot pool and third in ping pong singles. Barracks A won second place with 325 points. The boys enjoyed these contests as they could not go anywhere or did not have much work to do in camp Saturday and Sunday. It is hoped that such a program will be repeated this week-end.

We have forms to comply with the Social Security law—Advocate.

Number of Cattle On Feed Increases

WASHINGTON, D. C. — The number of cattle on feed for market in the eleven corn belt states on January 1, 1936, was forty-one percent larger than the very small number on feed a year earlier, according to the estimate of the Bureau of Agricultural Economics. The percentage increase this year over last is the largest ever shown in the fourteen years for which such estimates have been made, whereas the decrease from January 1, 1934, to January 1, 1935, was the largest decrease ever shown. Despite the sharp increase over last year, the number on feed January 1, 1936, was materially below the average for January 1 for the years 1930 to 1934. This decrease from the five-year average was probably from 25 to 50 percent.

The number of stocker and feeder cattle inspected through stockyard markets, shipped into the corn belt states during the last six months of 1935 was about seventeen percent larger than for the corresponding period in 1934 and but little different from the five-year average (1930-1934). All of the increase in 1935 over 1934 came in the last three months of the year since up to the end of September, the shipments in 1934 were larger than in 1935. The largest increase over the corresponding month a year earlier was in December, when the increase was over 100 percent.

SHelterbelt Trees SET TO SOUTHWEST

LINCOLN, Nebraska—Federal shelterbelt officials announced Friday the first of twenty-two million trees for drought relief in six mid-west states will be set out immediately in southwestern Oklahoma and northwestern Texas.

McCRORY TALKS ON JAPAN

W. B. McCrory, member of the international service committee of the Artesia Rotary club, was the principal speaker at the luncheon program of the club Tuesday noon and made an interesting speech on the rise of Japan, the rapid progress of which has been one of the modern marvels. Commercially Japan is only slightly over 80 years old, yet today, this nation ranks as one of the leading world powers, the speaker said. A study of the history of Japan will better enable the average American to understand the Japanese people, he said.

Newland Oldham of Carlsbad, assistant manager of the Pecos Valley Gas Co., was the only visitor present.

Quoth Mr. Anthony, "And I'll hand you the 'beer facts!' BLATZ—they call it—is seen in the very best places. Ambitious Caesar would have gladly traded an evening with Cleo for a case of BLATZ OLD HEIDELBERG—and why not? Isn't it the best beer that ever raised its 'head' out of a Pilsner glass? Yow suh, Mr. Bernie—the very bestus! What a pity Milwaukee wasn't on the seventh hill of Rome.

The Smoke House OF COURSE

Question: What is an I. E. S. Lamp?

Answer:—

It is a lamp that was created by the Illuminating Engineering Society, a non-profit organization, for the sole purpose of giving you the abundant, glareless light that your eyes need when you read your evening newspaper.

It gives you more useful light than a light bulb by itself.

It gives a comfortable, well-diffused light.

It provides a general illumination throughout the rest of the room.

It gives you light where you need it.

It gives you beauty that will blend admirably into any room.

It will NOT correct faulty eyesight, but will prevent defective vision.

Our overnight trial . . . at no obligation whatever . . . will prove to you that "seeing is believing."

"I'D RATHER HAVE A BUICK BUT"

What do you mean, BUT!

WHAT keeps you from driving a Buick—not next year—but now—today?

Is it the money?

Time payments on a Buick are but two or three dollars a week more than on the lowest-priced cars—less than that, when you figure the "extras" a smaller car usually calls for.

Is it the upkeep?

Buick is a big comfortable car that gives small-car gas mileage, small-car mileage on oil. You'll keep a Buick at least a year longer than you'll keep a lesser car—and probably spend less on it for service and repair in the meantime!

Could it be *habit*?

Maybe you get used to buying in the low-priced field—you get the idea a big car costs too much to run—you resign yourself to small-car comfort, ability, performance—and plain human nature keeps you from inquiring further!

Maybe a Buick is a bit beyond your reach. But let's not admit it until we've got the actual figures!

We'll gamble our time against yours to show you just what a Buick will cost—to buy—to run—to keep in good condition. We've surprised many a small-car owner with our thrifty figures, thrilled them with a demonstration.

Let us show you our arithmetic—and what a Buick can do out on the road.

It won't cost a penny—and it may make you a lot happier—with a Buick!

IT COSTS LESS NOW TO BUY ON TIME!

The new GMAC 6% TIME PAYMENT PLAN not only makes it easier to figure the cost of buying on time, but saves money that you can use to get a better car. For example, a Buick Special Business coupe listing at the factory (safety glass included, standard and special accessory groups extra) at only . . . **\$765***

No. 4—OUR BRAKES

We've all noticed that whenever a train makes a long enough stop in a station, there's somebody on the job, dodging in and out under the cars making sure that everything is in good shape for the train to continue its trip. One of the things checked at every inspection point is the brakes. For nobody knows better than railroads how important it is to be able to stop when you have to stop.

Now, if we think of it in a certain light, we people who own automobiles are all running little transportation systems of our own . . . just like the railroads and airlines and bus companies. Home is the main terminal and there are lots of stops along the line. . . flag stops, you might say, and regular scheduled stops—like the office, the grocery store, the school, the theatre, and our friends' houses.

Just like the railroads, one of the main things we need to look out for is our brakes. Of course, everybody knows this and yet somehow or other we're apt to be a little careless about it. Not that brakes don't give us plenty of notice when they're going to need adjustment. As time goes on we find that we can push the pedal lower and lower, till after a while we can shove it down almost to the floor-boards before the brakes take hold. Even then we sometimes wait quite a while before we have them adjusted. It just seems to be human nature to put off things like that. They tell us the result is that one-third of all cars on streets and highways at any given time have something wrong with their brakes.

The trouble is that when we let our brakes go like that, all of a sudden we may have to make an emergency stop, and we may find it rather embarrassing.

Engineers say that if we realized what goes on in brakes we would see why we ought to keep them checked up. As they explain, it's a story of momentum and friction, the same old forces we've talked about before.

They say that when we get going we build up a certain energy in the form of momentum. Now when we want to stop, we can't just destroy that energy, because, scientists tell us, Nature never lets any of its energy be destroyed. We can only convert it into some other form of energy.

What brakes really do is to convert speed-energy into heat-energy. When we push down on the brake pedal we press the brake lining against the brake drums and this creates friction that changes the energy to heat. When we have changed all the speed energy to heat, then we come to a stop.

Now modern brakes are very powerful. In fact, a 100-horsepower car will have about 500-horsepower brakes. They can stop us pretty quickly even from high speeds. But when they do, they simply change those speeds into a great deal of heat, in a very short time. The fact is we sometimes build up temperatures in our brakes as high as 1400 degrees!

It's easy to see that heat like that can cause a lot of trouble. Some of us may think it's fun to rush up to sudden stops, but we might as well realize that we have to pay for that kind of fun in excessive brake wear. It simply doesn't pay to build up brake heat a lot faster than it can be thrown off. And we certainly get hardly anything back in time saved. For instance, if we're going 30 miles an hour, our brakes can stop us in 40 feet if they are all right; but it takes them less than two seconds longer to stop us in twice that distance. How much better it is, under any normal circumstances, to begin to apply the brakes a few seconds earlier and, with gradually increasing pressure, bring our car to an easy stop. As a matter of fact, smooth, gradual stopping wherever the circumstances permit, is generally taken as a sign of a good driver.

Now if we want to keep our brakes safe and sound, it's important to remember what these fast stops do to them. But it's just as important to remember that all stops generate some heat in our brakes. That's what gradually wears down the linings, and sooner or later makes a brake-adjustment necessary. And that's why we must watch them and see that adjustments are made when they are needed.

So maybe it would be a good idea to keep on thinking of our cars as private transportation systems. If we keep them in good running condition, they will serve us with safety and satisfaction.

JOB PRINTING AT THE ADVOCATE

LOOSE LEAF DEVICES AT THE ADVOCATE

Ford Inaugurates \$25-A-Month Plan

A new "\$25-a-month" plan for financing retail purchases of new Ford V-8 cars is now in effect throughout the United States.

The plan, involving substantially reduced finance charges and broad insurance protection for the car purchaser, is to be offered through Ford dealers by the Universal Credit Company, authorized Ford finance company.

The plan has three important features:

1. Maximum monthly payments of \$25, plus the usual low down-payment.
2. Finance charges at the rate of one-half of one per cent per month (6 per cent for 12 months), computed upon the total of the original unpaid balance plus insurance cost.
3. Insurance protection at regular Conference rates, including not only fire and theft coverage, but also \$50 deductible collision insurance and protection against other accidental physical damage to the car.

The number of monthly payments may be reduced, or monthly payments less than \$25 may be arranged, if a larger down payment is made or if a late model car, valued at more than the usual down payment, is turned in for exchange. The account also may be discharged at any time by full payment of the balance due, in which event a rebate of a portion of the credit charge will be allowed.

Lonely Tangier Island

Tangier Island, Va., is a hilly little island with a population of about 1,500 in the Chesapeake bay 12 miles (2 hours) by boat from Crisfield, Md. The islanders have always made their living entirely from the water—from fish, oysters, crabs and plants. One peculiarity about the island is that there are absolutely no means of artificial transportation, neither automobiles, buggies, nor street cars, and in addition neither telephone nor wireless stations.

To Close-Haul Sailing Ship

To close-haul a sailing ship means trimming the ship's sails when sailing close to the wind—the nearest direction possible to the point of the compass from which the wind blows. When a ship is close-hauled her tacks are hauled close aft. In this manner of sailing square-rigged ships will make an angle of six points with the line of the wind, but fore-and-aft rigged ships will sail much closer. In each case there is always a certain amount of lee-way.

Two Havanas

Havana, Cuba, like Lima, Peru, is sometimes called the Paris of the western world. There are really two Havanas. There is the old city, breathing the spirit of the past in its narrow crooked streets, in its picturesque fortresses and defense works of a former age, in its old cathedral and its grilles and latticed balconies. Then there is the new Havana—a modern city of broad boulevards.

Small Cranberry

The small cranberry, *Vaccinium oxycoccos*, is a small plant some six inches high, with narrow evergreen leaves less than half an inch long and a prostrate rootstock which serves to multiply the plant. It is a native to Europe and Asia as well as to North America, occurring in bogs and swamps. It differs from the cranberry of the larger size.

Red Bluff Dam Is Half Finished

The normal flow of the Pecos river was diverted yesterday as the Red Bluff dam, near the state line, neared a crucial stage. The flow of the river will be diverted from its natural channel through conduit pipes laid for this purpose and immediately construction work on the river bed will commence. Work on the river channel is expected to be completed in about six weeks.

A statement made by the Red Bluff Water Power Control District directors said the construction of the dam was fifty percent completed. In order to make the required bond payments in 1937, it will be necessary to assess and collect taxes from all land owners in the district for the calendar year 1936, the board said. Collections will be made whether the land is in cultivation or not.

Water will be stored in the reservoir as early as September of this year, if the amount is sufficient.

Total estimated cost of the dam is \$2,884,000, of which \$2,175,000 is to be paid by bonds, and \$709,000 in the form of a grant from the federal government.

The dam will be 9,150 feet in length; will have a maximum height of 104 feet and maximum width at the base of 555 feet. Storage capacity will be 300,000 acre feet; and estimated annual storage 200,000 acre feet. The reservoir area will comprise 11,500 acres; and distance around the shore line will be seventy-six miles. The reservoir will drain 22,500 square miles. Capacity of the hydro-electric power plant will be 1,500 HP; and the net annual production 11,000,000 KWH. Approximately 60,000 acres can be irrigated.

Total amount of land in the district is approximately 140,000 acres; of this amount 15,000 acres is now in cultivation and about 25,000 acres more ready to be cultivated. Balance of the land will require construction of improvements before being placed in cultivation.

First payment on the bonds to be obtained through raising funds from taxation will become due in January, 1937.

GOLDEN PHANTOMS

Fascinating Tales of Lost Mines

Edith L. Watson

MISSING MUSKETEER

WHEN a London syndicate employed Herbert Hoover, then an engineer, to hunt for a lost mine, it was a rather good sign that there really must have been such a mine.

Its name was the Musketeer. It lay—and surely it still lies—in the Fraser river region on the border between the United States and Canada. It was found by Jacob Henshaw, an old prospector, and his partner.

The two men had lived with the Indians for several years. Perhaps they first heard of the mine from these humble friends—or perhaps they stumbled onto it as they followed after the golden phantom. But they found it rich enough to stay their steps. They built a little cabin, and went to work.

In September, 1873, Henshaw came into Vancouver—then a small place just beginning to grow—with a donkey which carried two sacks of ore. He took this to an assayer, and presently word spread about that here was something which assayed the richest north of the Comstock lode.

There would have been a gold rush in no time, had anyone known where to rush. But Henshaw, who could neither read nor write, had a deep-rooted suspicion of his fellow-men. He felt that no good would come of it if he gave out even the faintest of clues. He knew that he should file his claim—but that would place on record the exact location of his find. In the meantime, men bothered him continually, asking all sorts of questions, watching every move he made.

To get rid of them he invented various stories, hoping that they would believe his tales and go away. But somehow there lacked the ring of truth, and no one bothered to take his stories seriously.

Henshaw was being driven to desperation. At last he figured that if he could go back and consult his partner, they could work out some way of filing the claim in secret. But here was another problem, to get away without detection.

How he managed it, no one knew, but somehow Henshaw "turned up missing" one day. Everyone thought that he had eluded his annoyances, and that after a while he would return to Vancouver with more ore, or else that his partner would show up, to try what he could do in Henshaw's stead.

Weeks went by; months; years. Neither of the miners came. No one heard of them. No one knew what had happened. Everyone guessed; perhaps Henshaw had been caught in a blizzard; perhaps his partner had been killed by Indians; perhaps—

And perhaps some day the Musketeer will be discovered again. So far it has managed to stay a mystery. Men have hunted for it, certainly, time and time again. Those who have faith in spirits have often been told by these unseen influences just where to search—but something must be wrong, for they seek but never find.

Taxpayers In 11 Western States Pay \$30,000,000

WASHINGTON—Taxpayers in the eleven far western states poured \$30,000,000 more into the treasury tills during 1935 than they did in 1934.

An internal revenue report disclosed the increase came chiefly in income tax collections from corporations and individuals. Of the \$30,248,355 increase in collections from all sources, \$25,778,852 was in the income tax division. Corporations paid \$11,478,799 more in income taxes and individuals an additional \$14,300,053.

Total collections from the eleven states, comprised of income, and AAA processing taxes and miscellaneous receipts were \$256,093,017 in 1935, compared with \$225,844,662 in 1934.

In 1935 the state paid \$102,119,755 in income taxes, while in 1934 they paid \$76,340,903. Corporations paid \$51,851,521 in income taxes last year, and individuals paid \$50,268,231.

Following is the comparative statement of internal revenue collections from New Mexico during the two calendar years: (The 1934 collections precede those of 1935)

New Mexico—Income taxes: Corporation, \$164,131, \$287,505; Individual, \$184,025, \$297,335; Total, \$348,157, \$584,841; miscellaneous: \$496,235, \$401,424. Processing: \$110,931, \$75,693. Total all sources: \$927,784, \$1,061,959.

Could End Smallpox

The public health service believes that if vaccination were universally practiced, smallpox could be practically eliminated from the earth.

Empire State Is Lightning Rod

The Empire State building in New York city is the tallest, most elaborate and most successful lightning rod ever erected by man.

Java Men Dress Like Women

In Java the men dress like women because this ignominy was placed on them after their defeat by the army from Sumatra.

Potomac Appalachian Trail Club

The Potomac Appalachian Trail club was organized in Washington, D. C. in November, 1927, by a group of eight people for the dual purpose of constructing the Appalachian trail along the crest-line of the Blue Ridge in Virginia and fostering appreciation of the recreational and scenic attractions of Shenandoah national park.

Business Changes Include Removal Of Two Stores To New Location

Lakewood Items

Mrs. M. C. Lee, Reporter

Mrs. Taylor has been ill several days with flu.

Jim King is working for Dece House grubbing out salt cedars.

M. C. Lee went to Carlsbad Saturday and Tuesday for eye treatment by an eye specialist.

Mr. and Mrs. John Norwood spent Monday with their sons Buster and Willie at their home near Artesia.

Dale Floyd drove the horses across country to the potash mine for his father who will use them in road construction.

Mrs. Alice Angell visited her sister Mrs. Fannie Lee at the Emery Carper home in Artesia Monday, January 20th.

Jim Howell, wife and little son and Eloise Adams spent Wednesday with Mrs. Howell's parents, Mr. and Mrs. R. G. Adams.

Mrs. Eunice Norwood came down from her home near Artesia Sunday and spent Monday and Tuesday with her mother.

Oliver Brazeal, wife and daughter Alma, Frank Ivey and wife, Mr. and Mrs. Bob Bean visited the Taylor Ross family Sunday evening.

A physician was called to the Garcia home for Manuel Garcia who had symptoms of blood poisoning caused from an injury to one of his legs.

Albert Foster, J. N. Foster, son Carl and Mrs. Mollie Millman and daughter Edna made a trip to Clovis Monday going up and returning the same day.

I. W. Floyd, Elbert Hughes and D. S. Montgomery left Tuesday for the American potash mine where they will build a road for the potash company.

Our basketball team went to Lake Arthur Friday afternoon and played the team there. The score was a tie, but our boys would have won had not one of our boys pitched one goal for Cottonwood through a mistake.

Business changes which occurred or will occur in Artesia include the removal of the Baldwin store from the Zeleny building of the Brainard-Corbin Hardware Co., to the Flynn, Welch and Hardware building, one door east of the office, formerly occupied by Sanitary Grocery and Market. Sanitary Grocery and Market moved into the building formerly occupied by C. H. Phair, across street from the McClay Furniture Store.

C. R. Baldwin, manager of Baldwin store, said yesterday work of removing the stock of goods and ready-to-wear will likely be completed by February 10th. Workmen are remodeling the interior of the new building and will inaugurate a sale and will offer attractive prices on items in both the dry goods and ready-to-wear departments. The announcement of the Baldwin store in this issue.

Except for a few minor changes the grocery and meat stock of Sanitary Grocery and Market have been moved and arranged.

Red Bluff Dam Is Half Finished

The normal flow of the Pecos river was diverted yesterday as the Red Bluff dam, near the state line, neared a crucial stage. The flow of the river will be diverted from its natural channel through conduit pipes laid for this purpose and immediately construction work on the river bed will commence. Work on the river channel is expected to be completed in about six weeks.

A statement made by the Red Bluff Water Power Control District directors said the construction of the dam was fifty percent completed. In order to make the required bond payments in 1937, it will be necessary to assess and collect taxes from all land owners in the district for the calendar year 1936, the board said. Collections will be made whether the land is in cultivation or not.

Water will be stored in the reservoir as early as September of this year, if the amount is sufficient.

Total estimated cost of the dam is \$2,884,000, of which \$2,175,000 is to be paid by bonds, and \$709,000 in the form of a grant from the federal government.

The dam will be 9,150 feet in length; will have a maximum height of 104 feet and maximum width at the base of 555 feet. Storage capacity will be 300,000 acre feet; and estimated annual storage 200,000 acre feet. The reservoir area will comprise 11,500 acres; and distance around the shore line will be seventy-six miles. The reservoir will drain 22,500 square miles. Capacity of the hydro-electric power plant will be 1,500 HP; and the net annual production 11,000,000 KWH. Approximately 60,000 acres can be irrigated.

Total amount of land in the district is approximately 140,000 acres; of this amount 15,000 acres is now in cultivation and about 25,000 acres more ready to be cultivated. Balance of the land will require construction of improvements before being placed in cultivation.

First payment on the bonds to be obtained through raising funds from taxation will become due in January, 1937.

GOLDEN PHANTOMS

Fascinating Tales of Lost Mines

by Edith L. Watson

MISSING MUSKETEER

WHEN a London syndicate employed Herbert Hoover, then an engineer, to hunt for a lost mine, it was a rather good sign that there really must have been such a mine. Its name was the Musketeer. It lay—and surely it still lies—in the Fraser river region on the border between the United States and Canada. It was found by Jacob Henshaw, an old prospector, and his partner.

The two men had lived with the Indians for several years. Perhaps they first heard of the mine from these humble friends—or perhaps they stumbled onto it as they followed after the golden phantom. But they found it rich enough to stay their steps. They built a little cabin, and went to work.

In September, 1873, Henshaw came into Vancouver—then a small place just beginning to grow—with a donkey which carried two sacks of ore. He took this to an assayer, and presently word spread about that here was something which assayed the richest north of the Comstock lode.

There would have been a gold rush in no time, had anyone known where to rush. But Henshaw, who could neither read nor write, had a deep-rooted suspicion of his fellow-men. He felt that no good would come of it if he gave out even the faintest of clues. He knew that he should file his claim—but that would place on record the exact location of his find. In the meantime, men bothered him continually, asking all sorts of questions, watching every move he made.

To get rid of them he invented various stories, hoping that they would believe his tales and go away. But somehow there lacked the ring of truth, and no one bothered to take his stories seriously.

Henshaw was being driven to desperation. At last he figured that if he could go back and consult his partner, they could work out some way of filing the claim in secret. But here was another problem, to get away without detection.

How he managed it, no one knew, but somehow Henshaw "turned up missing" one day. Everyone thought that he had eluded his annoyers, and that after a while he would return to Vancouver with more ore, or else that his partner would show up, to try what he could do in Henshaw's stead.

Weeks went by; months; years. Neither of the miners came. No one heard of them. No one knew what had happened. Everyone guessed; perhaps Henshaw had been caught in a blizzard; perhaps his partner had been killed by Indians; perhaps—

And perhaps some day the Musketeer will be discovered again. So far it has managed to stay a mystery. Men have hunted for it, certainly, time and time again. Those who have faith in spirits have often been told by these unseen influences just where to search—but something must be wrong, for they seek but never find.

Two Havanas

Havana, Cuba, like Lima, Peru, is sometimes called the Paris of the western world. There are really two Havanas. There is the old city, breathing the spirit of the past in its narrow crooked streets, in its picturesque fortresses and defense works of a former age, in its old cathedral and its griled and latticed balconies. Then there is the new Havana—a modern city of broad boulevards.

Small Cranberry

The small cranberry, *Vaccinium oxycoccos* is a small plant some six inches high, with narrow evergreen leaves less than half an inch long and a prostrate rootstock which serves to multiply the plant. It is a native to Europe and Asia as well as to North America, occurring in bogs and swamps. It differs from the cranberry of the larger size.

No. 4—OUR BRAKES

WE've all noticed that whenever a train makes a long enough stop in a station, there's somebody on the job, dodging in and out under the cars making sure that everything is in good shape for the train to continue its trip. One of the things checked at every inspection point is the brakes. For nobody knows better than railroads how important it is to be able to stop when you have to stop.

Now, if we think of it in a certain light, we people who own automobiles are all running little transportation systems of our own. . . just like the railroads and airlines and bus companies. Home is the main terminal and there are lots of stops along the line. . . flag stops, you might say, and regular scheduled stops—like the office, the grocery store, the school, the theatre, and our friends' houses.

Just like the railroads, one of the main things we need to look out for is our brakes. Of course, everybody knows this and yet somehow or other we're apt to be a little careless about it. Not that brakes don't give us plenty of notice when they're going to need adjustment. As time goes on we find that we can push the pedal lower and lower, till after a while we can shove it down almost to the floorboards before the brakes take hold. Even then we sometimes wait quite a while before we have them adjusted. It just seems to be human nature to put off things like that. They tell us the result is that one-third of all cars on streets and highways at any given time have something wrong with their brakes.

The trouble is that when we let our brakes go like that, all of a sudden we may have to make an emergency stop, and we may find it rather embarrassing. Engineers say that if we realized what goes on in brakes we would see why we ought to keep them checked up. As they explain, it's a story of momentum and friction, the same old forces we've talked about before.

They say that when we get going we build up a certain energy in the form of momentum. Now when we want to stop, we can't just destroy that energy, because, scientists tell us, Nature never lets any of its energy be destroyed. We can only convert it into some other form of energy. What brakes really do is to convert speed-energy into heat-energy. When we push down on the brake pedal we press the brake lining against the brake drums and this creates friction that changes the energy to heat. When we have changed all the speed energy to heat, then we come to a stop.

Now modern brakes are very powerful. In fact, a 100-horsepower car will have about 500-horsepower brakes. They can stop us pretty quickly even from high speeds. But when they do, they simply change those speeds into a great deal of heat, in a very short time. The fact is we sometimes build up temperatures in our brakes as high as 1400 degrees!

It's easy to see that heat like that can cause a lot of trouble. Some of us may think it's fun to rush up to sudden stops, but we might as well realize that we have to pay for that kind of fun in excessive brake wear. It simply doesn't pay to build up brake heat a lot faster than it can be thrown off. And we certainly get hardly anything back in time saved. For instance, if we're going 30 miles an hour, our brakes can stop us in 40 feet if they are all right; but it takes them less than two seconds longer to stop us in twice that distance. How much better it is, under any normal circumstances, to begin to apply the brakes a few seconds earlier and, with gradually increasing pressure, bring our car to an easy stop. As a matter of fact, smooth, gradual stopping wherever the circumstances permit, is generally taken as a sign of a good driver.

Now if we want to keep our brakes safe and sound, it's important to remember what these fast stops do to them. But it's just as important to remember that all stops generate some heat in our brakes. That's what gradually wears down the linings, and sooner or later makes a brake-adjustment necessary. And that's why we must watch them and see that adjustments are made when they are needed.

So maybe it would be a good idea to keep on thinking of our cars as private transportation systems. If we keep them in good running condition, they will serve us with safety and satisfaction.

Ford Inaugurates \$25-A-Month Plan

A new "\$25-a-month" plan for financing retail purchases of new Ford V-8 cars is now in effect throughout the United States.

The plan, involving substantially reduced finance charges and broad insurance protection for the car purchaser, is to be offered through Ford dealers by the Universal Credit Company, authorized Ford finance company.

The plan has three important features:

1. Maximum monthly payments of \$25, plus the usual low down-payment.
2. Finance charges at the rate of one-half of one per cent per month (6 per cent for 12 months), computed upon the total of the original unpaid balance plus insurance cost.
3. Insurance protection at regular Conference rates, including not only fire and theft coverage, but also \$50 deductible collision insurance and protection against other accidental physical damage to the car.

The number of monthly payments may be reduced, or monthly payments less than \$25 may be arranged, if a larger down payment is made or if a late model car, valued at more than the usual down payment, is turned in for exchange. The account also may be discharged at any time by full payment of the balance due, in which event a rebate of a portion of the credit charge will be allowed.

Lonely Tangier Island

Tangier Island, Va., is a billy little island with a population of about 1,500 in the Chesapeake bay 12 miles (2 hours) by boat from Crisfield, Md. The islanders have always made their living entirely from the water—from fish, oysters, crabs and plants. One peculiarity about the island is that there are absolutely no means of artificial transportation, neither automobiles, buggies, nor street cars, and in addition neither telephone nor wireless stations.

To Close-Haul Sailing Ship

To close-haul a sailing ship means trimming the ship's sails when sailing close to the wind—the nearest direction possible to the point of the compass from which the wind blows. When a ship is close-hauled her tacks are hauled close aft. In this manner of hauling square-rigged ships will make an angle of six points with the line of the wind, but fore-and-aft rigged ships will sail much closer. In each case there is always a certain amount of leeway.
