City Council To Let Bids For the Oil To Surface City Streets

The City Council at a meeting Monday evening signed a publication order calling for bids on oil to be used in the paving of eighty blocks of streets. Details connected with letting the bids are expected to be completed within about ten days, at which time surfacing work on the streets is expected to start. H. G. Watson, mayor, said special equipment furnished by Armstrong and Armstrong would be used in spreading the oil and that no delay was anticipated so far as the machinery was concerned. The street improvement program is a WPA project.

Mrs. Pauline Garrett, widow of Sheriff Pat Garrett, who is credited with the slaying of the southwest's notorious Billy the Kid, died suddenly at her home at Las Cruces yesterday after a heart attack. Daughter of the prominent Gutierrez family, New Mexico pioneer, she was born at the family home in Fort Sumner. She leaves four children, Miss Elizabeth, composer of Roswell, and Pauline of Las Cruces, and two sons, Oscar of Kingston, and Jarvis of Mexico City.

Malaga Farmer Killed Sunday

Funeral services for Enrique Vasquez, 47-year-old Malaga farmer, killed instantly early Sunday in an automobile accident near Malaga, were held at 3:00 p. m., Monday at the St. Edward's Catholic church in San Jose.

Catarino Carrasco, who was driving the small roadster in which Vasquez was killed, escaped with minor injuries.

The accident occurred on the road west of Malaga when Carrasco lost control of the car and it hit a culvert, spun into a five-foot irrigation ditch and turned, bounced out again.

Vasquez died of a crushed skull. Persons living in a nearby ranch house, who heard the crash, ran immediately to the aid of the victims, but Vasquez apparently died instantly.

A flat tire was blamed for the accident. Carrasco said the car suddenly went out of control and crashed into the culvert, and that a tire was found to be flat after the accident.

Sheriff Dwight Lee investigated the accident and said it was unavoidable.

Martin Brown Is Victim of Fatal Accident On 18th

Car Driver Fails To See Brown As He Lay On Highway In A Drunken Stupor; Burial Is Made Here Tuesday.

Martin Brown, aged about 55 years, employed for the past three years on the W. Leslie Martin farm, three miles southeast of here, met his death Sunday night near 11:30 p. m., when he was run over by an auto a mile and a quarter east of Artesia on highway 83. His death, however, was not instantaneous. He lived until Monday night at midnight. His death was the result of a crushed left shoulder and possible internal injuries.

According to the story told of the accident, Brown left Artesia about 11:00 o'clock Sunday night for his home. He is alleged to have been drinking heavily and became so intoxicated en route that he fell in the highway with his head facing north. Tom Brown and Paul Calloway of Carlsbad, driving into Artesia, saw Brown lying in the road, allegedly in a drunken stupor, but did not see him in time to make a complete stop. They were backing their car up to make a further investigation when Conrad Keyes, driving in from the oil field, passed them. Keyes said he did not see Brown until too late to stop. One wheel or possibly two wheels of the Keyes car passed over Brown's body near the left shoulder.

Brown's hip was also bruised and it was Brown's hip that presumably bent the housing over the fly wheel on Keyes car so badly he did not attempt to run his car on in under its own power.

Roy Ansley, night watchman, was notified and in the meantime a man by the name of Crutchfield stopped and picked up Brown, who was able to get in the Crutchfield truck. He was rushed here for medical attention. Although complaining that his shoulder hurt him severely, Brown was believed to be on the road to recovery up until a short time before his death.

Brown, a native of New Mexico and a resident of Otero county for a number of years, was at one time an official of that county. He was well educated and was said to have been a very influential citizen of Otero county at one time. Funeral services were conducted here Tuesday and burial was made in the Woodbine cemetery.

Police Court

Floyd Fisher and Doc Miller, employed with a fence building crew west of Hope were found guilty of killing a deer out of season in a trial by jury here yesterday in the court of Justice W. H. Ballard and were given a fine of \$25.00 and costs. The defendants were alleged to have killed the deer on July 12th in or near the Casabonne ranch, west of Hope.

The two men were lodged in the city jail on a failure to pay their fines and unless fines are paid will be given a sixty-day jail sentence. They were prosecuted by M. Stevenson, deputy game warden, of Roswell.

THROWN FROM CAR

Irvin Hagan, high school youth and son of Mrs. J. H. Woods, was rendered unconscious yesterday when he was thrown from a car while riding over a dip, at an upland tank about a mile and a half southwest of Artesia. Young Hagan was thrown through the windshield, clear of the car and was unconscious for some time after the accident. His injuries are not believed to have been serious.

Deer Season To Start On October 25th In Mountains

Big game hunters are oiling up their long range firing arms preparatory to starting the annual deer season on October 25th. Approximately 200 hunters from this area are expected to make camp either in the Guadalupe or Sacramento mountains in the next few days to start the season.

Game experts anticipate about the same kind of a season the hunters enjoyed last year, which was a good one.

Mrs. Garland Stuart underwent an appendectomy at the St. Francis hospital in Carlsbad yesterday and at the last report was resting well.

Watkins Given Year In Prison For Buel's Death

Saturday Judge James B. McGhee passed sentence on several defendants convicted by a jury at Carlsbad in the Eddy county district court last week. Julia Kelly, charged with robbing a Mexican, was given fifteen to twenty-four months in prison. Roselio Besera, who plead guilty to stealing sheep from the Swift ranch west of Artesia, was given from one to three years in the state penitentiary.

G. O. P. Speakers Address Voters Here Saturday

H. H. Errett of Clayton, republican candidate for state superintendent, and two county candidates on the fusion ticket made brief speeches to local voters here Saturday afternoon. The speakers made their talks with the aid of a loud speaker attached to a sound truck. Row Lowe, local attorney, introduced the speakers and also Adolph Heinz of Carlsbad, republican county chairman.

Mr. Heinz spoke briefly regarding the fusion ticket and the reason such ticket was placed in the field. He said the so-called fusion ticket (a fusion between democrats and republicans) was made because of the gang politics practiced by "the court house crowd," and was made in the interest of good government. Opponents were not selected for all democratic nominees because he said these nominees have made good, efficient officers. Practically all the opposition to the democratic nominees was because of the "gang politics" with one exception. This one exception is in the assessor's office where the nominee is efficient beyond question. Opposition to the assessor is based on the fact that she has held office for more than the two terms.

Fulton Baker, candidate for sheriff, spoke briefly asking for local support, as did Ed Weaver, candidate for commissioner.

H. H. Errett of Clayton, candidate for state superintendent, the principal speaker, deplored politics in schools, lauded the republican platform, and said the platform of any party should be kept sacred. He said the port of entry law should be repealed and closed his address by paying his respects to the republican candidate for governor, Jaffa Miller, also to Ernest Everly, candidate for United States senator, and to M. A. Otero, also candidate for United States senator, and to M. Ralph Brown, candidate for congress.

Two Meet Death Highway Crash Near Portales

Portales Woman and Her Young Son Killed; Two Others Injured When A Big Truck and A Coupe Collide.

A woman and her five-year-old son were killed and two others were injured, one seriously, when their coupe sideswiped a truck and overturned on the highway east of Portales last night.

The dead were Mrs. L. E. Giles, 30, of Portales, and her 5-year-old son, Jimmie, who was decapitated in the crash. R. L. Yokum, also of Portales, driver of the car, was seriously injured and hospital attendants said his recovery was doubtful. Cecil Ray Giles, about 7, daughter of Mrs. Giles, and the only other occupant of the machine, escaped with slight injuries.

Investigating officers said the coupe was almost demolished. J. C. Anderson of Oklahoma City, driver of the truck, escaped injury.

BADLY BURNED

Bill Tigner and Bill Wells of Sapulpa, Oklahoma, were painfully burned Saturday while en route to Cloudford about six miles this side of the Runyan ranch, while Mr. Tigner was trying to prime a carburetor on his automobile. Mr. Tigner had a half gallon bucket of gasoline and was pouring gasoline into the carburetor when the gasoline ignited probably from a hot manifold. When the ignition occurred Mr. Tigner threw the burning bucket of gasoline back over his shoulder, the gasoline struck Mr. Wells and burned the clothing off his back and left arm, inflicting painful injuries. Mr. Tigner sustained severe burns on his left hand.

Mr. Wells was given first-aid treatment at the Runyan ranch and later was sent on to Cloudford while Mr. Tigner was brought here. Mr. Wells is a brother-in-law of Mrs. Jack Boren and is here visiting relatives.

Local Ginnings

The Cotton movement of this section continues to break all records and reached a new high total for the ginnings in a six-day period. Since tabulations were completed last week 2,356 bales have been moved to the six gins of this area for a season's total of 6,656. Gin plants, now running 24-hour shifts, have not been able to keep up with the cotton gathering operations. Cotton has opened so rapidly farmers are rushing to get it gathered before a loss occurs. It is nothing uncommon to see a bale per acre open in many of the fields.

Last year at the corresponding period only 2,057 bales had been ginned. Eight gins in the Carlsbad project reported a total of 5,225 bales up to last Saturday.

Local ginnings are divided as follows:

| | |
|--------------------------------|-------|
| Lake Arthur gin..... | 155 |
| Cottonwood gin..... | 1,641 |
| Association gin, Espuella..... | 1,474 |
| Farmer's gin, Artesia..... | 1,171 |
| Association gin, Artesia..... | 1,230 |
| Association gin, Atoka..... | 985 |

Big Increase To Be Registered In Grain Acreage Over Area

According to present intentions to plant there will be a decided increase in both small grain acreage and in winter legumes over this section for another year. Need for fall and winter pastures and to cooperate with the soil conservation program is the principal factor in the prospective increase of both winter and spring plantings. While small grain plantings are comparatively insignificant in comparison with other crops, a sharp increase in winter wheat acreage will be registered at Hope. Increase in the size of wheat and oat patches will also be registered here.

NYA Camp To Open At Capitan

(Special to Artesia Advocate)—Four Months of intensive training in cooking, sewing, sanitation and various kinds of craftsmanship are available to New Mexico girls at Camp Capitan, which reopens November 5.

Attendance at the camp is restricted to 100 girls between the ages of 18 and 25 from families certified for relief. All county NYA supervisors and county relief and security authorities are able to take applications now.

Camp Capitan is located in the Capitan mountains, fifteen miles from Capitan, in an abandoned CCC camp. Three barracks remain for the girls' use, all in good condition, and each under charge of a house mother.

Situated but eight miles from Fort Stanton marine hospital, the girls from the camp are taken there for medical care when necessary. The hospital medical staff cooperates most generously.

In addition to maintenance (lodging, food and laundry) while attending camp, the girls are given an allowance of \$5.00 a month.

Besides their regular classes they are allowed freedom to develop any craft which interests them. Tinwork, colcha embroidery, wool spinning, dyeing and weaving, making packets and moccasins from sheep pelts are but a few of the professional opportunities open to them.

All work in cooking and sewing is taught with the limited equipment to which they are accustomed, in order that they may learn the widest use of simple household articles.

Camp Capitan still has a few vacancies, soon to be filled.

Drilled to 3888 feet, the Lambert made an initial production of 597 barrels in six hours flowing natural with 1,250,000 feet of gas.

Other completions which the oil fraternity have followed closely and which are of general interest include the Continental Oil Co., Eaves A-30 No. 1, NE sec. 30-26-37, in the sand belt south of Jal, southeastern Lea county, which was drilled to a total depth of 3232 feet and made an initial flow of 230 barrels of oil in ten hours, flowing thru half-inch choke on tubing with 500,000 feet of gas. Also the Elliott A-21 No. 1 of the Continental Oil Co., SE sec. 21-22-37, in the same area which made 125 barrels per day from 3559 feet with 200,000 feet of gas.

THE FUSION TICKET

Mr. Adolph Heinz, republican county chairman, went into great detail here Saturday afternoon in introducing candidates on the so-called fusion ticket, to explain to the public why the ticket was launched at this particular time. Mr. Heinz mentioned the movement was precipitated by a precinct convention held in Carlsbad several months ago, but it is our contention that the movement was projected farther back and the purpose of this article is to review briefly some high lights of county and state politics in the meantime, since a reviewing of the record seems to be in order.

Nearly every political movement of any significance has a slogan. The slogan of the fusion ticket is "turn the rascals out," that is the hand-picked rascals among the court house crowd, because these rascals have pulled too many fast political moves. We use the term hand-picked rascals because the disgruntled democrats and not the republicans under the present fusion agreement had the pleasure and privilege of picking the rascals who were to have opposition and who we would say roughly comprise about sixty per cent of the court house family.

Four short years ago or in 1932 to be exact, the Eddy county democracy had its method of choosing candidates switched and the convention method was substituted for the primary. The substitution made as an economy measure was neither the will nor the wish of the rank and file. The depression was on hand and we were told the candidates could not afford the expense of a primary.

At that time we find Caswell Neal, Carlsbad attorney, acting as general chairman and cheer leader of the proposed convention method. Neal was a candidate for district attorney and he realized of course that to be Eddy county's choice for district attorney, he would merely contact the powers that be in the convention and presto, the nomination would be sewed up. A much easier method than having to contact all the voters under the primary. But for some reason, Caswell's plans went wrong and his labor in promoting the convention method was lost. He was not nominated. But the straw that broke the camel's back was when in 1934 the state democratic convention refused to nominate his papa on the supreme court bench. Caswell did not take an Al Smith walk, but literally ran from the democratic to the republican camp and lost no time in announcing through the Albuquerque Journal what a bunch of dirty crooks the democrats were.

Since becoming a republican Caswell has advocated everything from the adoption of the Townsend plan to the repudiation of the national debt, hoping to get political recognition, but has got nowhere, although he started out to be a candidate for the U. S. senate and would have compromised by being a candidate for congress at the last republican convention.

Jim McCall of Carlsbad, another advocate of clean government, had a hand in the 1932 convention. He had previously been beaten in a democratic primary for the office of assessor. Altho a bit beaten at his defeat he did not take a walk from the democratic party until the state convention refused to nominate him for attorney general in 1934. After his walk he said he could not stand the party leadership. What he meant was he wasn't sport enough to take it.

Cicero Stewart, another exponent of lily white democracy, is for the pure and holy ticket. He was one of the cheer leaders for the 1932 convention because his daughter, Mrs. Ruth Nye, was a candidate for reelection to the office of county clerk. Stewart was on the public payroll for eighteen years as sheriff of Eddy county, or four times and a half over the two term constitutional limit of the state. He was made deputy district clerk under Mrs. Nye. When Joe Johns, county treasurer, held up his warrant because he owed Eddy county back taxes, Stewart became furious and was infuriated with the court house gang. Joe Johns has been a gangster to him ever since. He tried a comeback as a candidate for sheriff in 1934 and failed miserably.

The public is led to believe the county candidates with opposition with exception of the assessor have used gangster methods to promote selfish interests. For this reason we felt the review of the three fusion leaders was timely. The present set of county officials are not angles, but if your memory is good you will probably agree that the boys casting the stones should move out of the glass houses. The only political objection to the present assessor is that the family has held office more than two terms, a violation of the law. If every law was sacredly observed this might be a valid objection or if the law was designed to promote efficiency it might be different. If the two-term law is a good one, it should be made part of the federal constitution. At least we would say the people should be given the opportunity to regulate the terms of office of those who serve them. The two term law has created lots of opposition, but so far as we know the politicians have been careful never to give the voters a chance to express their opinion of it.

The fusion movement has not been of a primary concern to residents of north Eddy county so far. The fight has been centered at Carlsbad. No reflection is intended on local republicans who are candidates on the fusion ticket. They are good men, who are willing to make a clean fight if necessary for nomination. The historical data given above is to refresh your memory on political events in Eddy county the past four years.

THE SIXTY-FIVE PER DRIVER

The experience of a Texas panhandle driver, given below is not original with us, but fits lots of local cases so well we think it is worth reprinting:

"On a trip of 100 miles the other day, just as I started out, a fellow in a long car passed me, making about sixty-five I judged. Down the road a piece, I passed him fixing a flat. He'd had a blow-out and narrowly missed wrecking his car at a bad corner. Directly he passed me again, making faster time. Near a pretty good sized city, I came upon him again. He'd dart in and out of the heavy traffic, and just as he'd get going good he'd have to stomp on his brakes. He finally got out of the crowd of cars again and shot ahead again. But I passed him later about twenty miles on down the road. He had stopped for gas at a service station. Sure enough, just as I expected, he passed me a few miles later, tearing up the road. But, do you know, I passed him once more, when he stopped at a road-

A POLITICAL PROMISE

Goody, goody, Jaffa Miller, republican candidate for governor, this week makes us a political promise. The voters can decide whether this promise was made out of the goodness of Miller's heart or whether it was made as a desperate political move, but anyway Mr. Miller says he favors the construction of an oiled highway to serve the oil field east of here and to connect with Lovington and Hobbs. So far as we know the statement from Miller was unsolicited and in the event of his election, we shall await with interest the fulfillment of this promise. At least Mr. Miller will have ample opportunity to read his statement appearing in this issue, if he is to occupy the governor's chair and is forgetful. Perhaps he can boast that he is one resident of Roswell who can uncross some of the doublecrosses Roswell has given us in the past year and a half on highway matters.

Relection of Roosevelt Likely, Say Editors of 5,145 Newspapers

NEW YORK—Franklin Delano Roosevelt will most likely be re-elected to the presidency, according to results of the third annual political poll taken among 5,145 newspaper editors by Liberty magazine.

Liberty asked each editor who he thought would be elected president. About 400 editors turned this question down, leaving some 4,600 lined up as follows:
Franklin D. Roosevelt.....2,875
Alfred M. Landon.....1,814
William Lemke.....18
Norman Thomas.....0
Earl Browder.....0

The editors predicted as follows:
1. Mr. Roosevelt will receive a minimum of 269 electoral votes—three more than he needs to win, and a number that may be increased by Roosevelt victories in any one of four doubtful states.

2. The democrats will win 266 seats in the house of representatives to 159 for the republicans, 7 for the progressives, and 3 for the farmer-laborites.

3. The democrats will win 20 of the fall's 36 senatorial elections—giving them 67 seats in the senate to 27 for the republicans and 1 each for the progressive and farmer-labor parties.

NEW SCRIPTURES FOR NEW MEXICAN INDIANS

In New Mexico is a group of about 5,000 Indians known as the Keres tribe living in seven pueblos in the neighborhood of Albuquerque. They are related to no other Indian tribe anywhere in the Americas. The language they speak is unlike that of other American Indians and has many points in common with the ancient Japanese and the Korean.

The American Bible Society shipped the first consignment of 2,000 copies of the Book of Acts in Keres to these Indians recently. The translation was made by the Rev. H. Carroll Whitener, North 4th and Griegos Road, Albuquerque. Mr. Whitener is connected with the Board of National Missions of the Presbyterian church in the U. S. A., and has served as a missionary among the Keres for many years.

STATEMENT BY JAFFA MILLER

Republican Candidate for Governor

"It has come to my attention that the New Dealers of New Mexico are conducting a whispering campaign spreading the false report that I am supposed to favor a severance tax. I wish it clearly understood that realizing fully that southeastern New Mexico pays an enormous portion of the taxes that support this state, and having been all my life familiar with the producing businesses of New Mexico,

I AM NOT IN FAVOR OF ANY TAX THAT WOULD IN ANY WAY INTERFERE WITH THEIR PRESENT AND FUTURE DEVELOPMENT AND WELL BEING. I AM, THEREFORE MOST DISTINCTLY NOT IN FAVOR OF A SEVERANCE TAX.

"I am one of the many residents of these southeastern counties who regrets deeply the neglect with which the State Highway Commission as administered by Governor Tingley, has neglected these southeastern counties and has failed to meet their highway problems. I am not only in favor of building those roads in southeastern New Mexico which the people of the region feel to be necessary for their economic or social well-being, but I am determined to see that they shall be built.

"I am told that the people of the oil fields lying east of Artesia are in favor of the immediate construction of an oiled highway connecting Artesia, Lovington, Hobbs, and thence south to the state line, and they regard this road as necessary to the proper and speedy development of the area. This being their need, I favor such a program, and will use my best efforts as Governor to secure the immediate building of such a road. I shall endeavor to make this road an example of what will be the entire policy for prompt attention to the development of needed New Mexico highways, which are for the benefit of New Mexicans and New Mexican interests first, and which meet the needs of our citizens wherever they may be in our state.

Paso Plans Sun Carnival

Towns that have promised floats in the Pageant of Beauty include: Alamogordo, Las Cruces, Deming, Hot Springs, Carlsbad, Pecos, Alpine, Marfa, Ysleta, and Juarez, Mexico.

Local firms and organizations have entered fifty-one floats.

Eight bands from southwestern cities will compete for prizes in the Pageant of Beauty Parade. Seven of these already are entered. The eighth band will be that of the college whose football team is selected to play the Border Conference champion in the Sun Bowl Classic New Year's Day.

Bands entered include Hot Springs, Bisbee, Arizona, Odessa, Fort Stockton, Sul Ross College of Alpine, New Mexico Aggie Band and Juarez.

Sun Carnival officials announced today that out-of-town bands will not compete with El Paso bands for prizes but will compete among themselves.

Officials said today that the enthusiastic cooperation they are receiving from local merchants and professional men promises to make this year's Sun Carnival an even greater success than last year.

Who Are the Fit?

The law about gleaning given to the Israelites in Leviticus, chapter 19, verses 9 and 10, is sometimes quoted as the earliest of social welfare laws. It does not appear from the record that the rugged individualists of those days made any serious protest but they may not have foreseen to what this social precedent would lead. There are not wanting today those who view with alarm society's proneness to protect the feckless and those who are physically unfit to fend for themselves.

I have read recently of a country where the conveyor belt, symbol of high speed production, is deliberately slowed down for workmen who have had tuberculosis. What are we coming to? Undoubtedly active cases of tuberculosis are a menace to their neighbors and the sooner they die the smaller the chances of spreading infection. A tendency to succumb to tuberculosis infection is probably inherited and the survival of the tuberculosis to the age of reproduction thus tends to perpetuate a susceptible race. Are we really engaged in promoting the survival of the unfittest?

The logical alternative is found in Erewhon where a person convicted of having tuberculosis is condemned to life imprisonment or to death. Why do we shrink from this alternative?

The truth about competition and cooperation is that each encourages the survival of certain desirable traits. Qualities that bear such labels as "mercy" and "loving kindness" may not be carried in the genes but they are certainly inherited through social tradition. And the failure of such qualities to survive may easily be more fatal to the human race than a failure to stamp out susceptibility to tuberculosis. Look, for example, at Spain!

Seventy thousand persons die of tuberculosis in the United States each year. Nearly two hundred deaths from tuberculosis were reported in New Mexico last year.

Artesia Upsets Dope To Defeat Hobbs Friday

The Artesia high school football team won a hard fought football game from the Hobbs high school on the local gridiron last Friday afternoon to the tune of seven to nothing, before the largest crowd to witness a football game this season on the new high school gridiron.

The game was the most spectacular game of the season and with the added color and enthusiasm displayed before the game and between the halves by the Hobbs band and pep squad, the spectators were given a real treat. The visitors' band and pep squad, in snappy uniforms, furnished excellent entertainment with their music and intricate maneuvers on the gridiron, and they deserve much credit for their part in the program.

The game was anybody's game throughout the contest with the fans on edge at all times until the final whistle. Hobbs kicked off to Artesia, who were unable to gain any ground and were forced to kick. Hobbs then marched down the field to the ten-yard line where they fumbled and Artesia recovered the ball for the first favorable break of the game. Johnson immediately kicked out of danger but Hobbs again advanced the ball by means of line plunges and a cleverly manipulated lateral pass, to scoring distance. Artesia held for downs and got possession of the ball. Johnson again kicked after unsuccessful attempts to advance the ball from scrimmage.

In the second quarter Hobbs advanced the ball to the ten yard line for the second time in the game and again fumbled the ball which was recovered by Shearman for Artesia. Artesia kicked out of danger, but Hobbs immediately punted back and Conner fumbled the ball on the catch. Roberts recovered for Artesia, however, but Artesia being unable to gain again kicked out of danger. Hobbs then began a passing game and had just completed a pass Walker to Gould on the one-yard line when the half ended. Hobbs had made five first downs while Artesia had not made a single first down in the first half of the game. However, three lucky breaks of the game for the locals kept the goal line uncrossed by the visitors who clearly outplayed Coach Maudsley's men.

Hobbs received the ball on the kickoff of the second half and made some excellent gains by the speedy shifty running of Clements, diminutive halfback. However, Artesia seemed to be inspired and began to hold their visiting opponent. They seemed over-zealous and anxious and were penalized many yards for holding and off-side play. Womack blocked a punt on the thirty yard line and recovering the ball raced across the goal line for a touchdown. However, the score did not count and Artesia was penalized for holding, losing fifteen yards and possession of the ball. The third quarter ended after some excellent gains by Conner around the ends and some unusual gains through the line by Womack. Garner and Richards were clearing the way through the right side of the line for the ball carrier, who made three successive first downs. Yates, captain and guard for Hobbs, was a tower of strength for the visitors on the other side of the line and the locals could not get through him. His defensive work was outstanding, as the offensive work of Richards and Garner were outstanding for the locals.

With only a few minutes to play, Tidwell came from right end on a reverse play and then passed a left handed pass to Irby for twelve yards. Irby then raced the remaining distance to the goal line for a touchdown after netting thirty yards on the play. Johnson kicked goal for the extra point. Score was then seven to nothing.

Hobbs was desperate and attempted many passes but the alert secondary defense for the locals broke up four passes and then intercepted one, which stopped the Hobbs drive.

Summary of the game:
First downs: Hobbs 9, Artesia 5.
Fumbles: Hobbs 4, Artesia 3.
Recovered fumbles: Hobbs 2, Artesia 5.

Passes: Hobbs attempted fourteen passes, 8 incomplete; 3 intercepted, and three completed for thirty yards. Artesia attempted seven; completed one for touchdown.

Penalties: Hobbs 35 yards, Artesia 60 yards.

Punts: Hobbs, three times for an average of 21 yards. Artesia seven times for an average of 23 yards.

Use Simple Ways Enjoy Hallowe'en

Hallowe'en is the very best time of the whole year to have fun. There should be a party in every neighborhood for the children, especially. But grown-ups love them too, says Miss De Maier of the New Mexico State College. The farm home, a large barn, or some community building make fitting settings—any one of them may be decorated beautifully without cost.

In planning the decorations for a Hallowe'en party, always remember that this is the time that Nature decks herself in the brightest and loveliest of colors. You can't go astray here. Select corn-stalks, branches of gayly colored leaves, pumpkins and other vegetables from the garden, apples and pears. These can be arranged about any room to give just the right background for Hallowe'en fun.

Tables may be made most inviting by decorating them with centerpieces of fruit arranged around a small pumpkin, and surrounding these with branches of autumn leaves. Of course, if one has a number of pumpkins, jack-o-lanterns with their comical faces add a final touch to both the room and table decorations.

Refreshments may be very simple. There are always the old stand-bys of cider and pumpkin pie or doughnuts. The pie may be made with cooked pumpkin, squash, or sweet potatoes. All three of these make a delicious product. Children like popcorn balls with the cider, or just ginger-bread when made by this recipe:

- 1/4 cup butter
- 1/2 cup granulated sugar
- 1/2 cup sorghum syrup
- 1/2 teaspoon soda
- 1 teaspoon baking powder
- 1/2 cup sour milk
- 1 1/2 cups flour
- 2 teaspoons ginger
- 1 teaspoon cinnamon
- 2 eggs

Cream butter and sugar, add soda to syrup. Beat egg yolks and whites separately, add whites last. Bake in layer cake pans. While hot, place marshmallows cut in halves between layers, then serve with whipped cream over top.

When planning a Hallowe'en party, don't forget the last requirement—plenty of good games, ghost stories and stunts.

VOTERS ATTENTION!

PLEASE READ ABOUT THE COURT HOUSE GANG

A FUSION TICKET has been placed in the field in Eddy County under the Republican emblem, composed of Republicans and Democrats who are pledged to honest local government. This ticket meets the demand of hundreds upon hundreds of citizens of Eddy County, New Mexico, both Democratic and Republican, who are opposed to the present Democratic "Court House Gang" in Carlsbad who have held public office for many years.

THIS "GANG" IS LEAD BY JOE JOHNS, DICK WESTAWAY, RAY RODGERS, DWIGHT LEE and a few lesser lights.

The leader of the "Gang," Joe Johns, has openly boasted that he can elect or defeat any man who runs for public office in Eddy County. This "Gang" of politicians feel they have Eddy County by the political tail with a down hill pull.

It is time the citizens of Eddy County break up this machine and elect people, who are interested in government and not jobs, to public office.

JOE JOHNS

Joe Johns, the brains of the outfit, started his political career many years ago and was elected County Assessor. He has served as County Assessor, as Sheriff, as Deputy Sheriff, as County Treasurer and is now running his Assistant County Treasurer with the hope that he will be appointed assistant if Harry Christian is elected. During this period of time he has drawn thousands of dollars of the taxpayers money and evidently wants to suck the public tit the rest of his life.

He attempted to defeat District Attorney George Reese for re-election because in doing his sworn duty, Reese stepped on the toes of Democratic Boss Joe Johns by prosecuting him for operating an open gambling game. The undisputed testimony at the trial showed that Mr. Johns and "Gravy" Swartz procured a concession on the basis whereby they were to furnish the gambling paraphernalia and money to bank the game and were to split the profits. Joe said he was not interested in the profits; that they all went to "Gravy" Swartz. They imported some professional gamblers into Carlsbad from Texas and opened the game with crap tables, roulette wheels and other gambling paraphernalia. Joe admitted on the stand in the case that he helped check the "take" every night. The testimony in the case developed that the ministers of Carlsbad had gone to Sheriff Dwight Lee and received the promise of Dwight that he would not permit an open gambling game to be run.

Dwight Lee was seen in this gambling room while gambling was going on full blast talking to the gamblers. The ministers of Carlsbad sought to close the place and Dwight Lee, Sheriff, went to the Methodist Minister in Carlsbad to ask him to let the game go on without interruption. The minister refused to do this and a warrant was sworn out for the operators, including Mr. Johns. Mr. Lee left town and went to El Paso and other officers served the warrant. The place was raided and the paraphernalia seized, including approximately one thousand dollars in cash.

Because Mr. Reese did his duty by prosecuting Democratic Boss Johns, the Court House Gang attempted to defeat him.

THE DEMOCRATIC SQUABBLE

After the Primary a group of Democrats in Carlsbad attempted to take hold of the Democratic County Convention. A precinct convention was held in Carlsbad which the Court House Gang packed with relief workers in Carlsbad who were taken from their work to attend the Democratic precinct convention although nothing was deducted from their pay for the afternoon they attended the convention. The Johns-Westaway-Rodgers-Lee Machine refused to recognize

the several hundred Democrats lead by Mr. Reese, resulting in a turmoil and several fights at the precinct convention. The convention was conducted on a gang rule basis. It was dominated by jobholders of the Court House Gang. As a result of this display of gang rule in politics and lack of fair play, several hundred Democrats in Carlsbad held a convention of their own electing delegates to the County Convention.

The Democratic County Convention, also under the control of the Court House Gang, was guarded by members of the State Police, called for that purpose, by deputy sheriffs, special deputies, policemen and deputy policemen and a number of port of entry hirelings brought to the Democratic County Convention by the Court House Gang to intimidate the honest Democrats who sought to take part in the Democratic organization in Eddy County. As a result of this, hundreds of Democrats in Eddy County who believe in honest government, believe it is time to break up the Court House Machine and clean out the Court House Gang and are going to vote the County Fusion Ticket composed of good citizens, both Democrats and Republicans who believe in honest government.

THE TWELVE YEAR WESTAWAYS

For twelve years Dick Westaway and his wife have held the County Assessor's office by rotating the office between themselves to defeat the purpose of the laws of New Mexico which prohibits one person from holding office over two terms. During the time one has been County Assessor the other has been his assistant, being guilty of the worst kind of nepotism in public office. In 1930 when the Westaways ran against Jim McCall in the Democratic Primary the people of Eddy County were promised that if they could run one more time they would not seek the office again. The next election the Court House Gang ramrodded a convention and held no primary and Dick slipped in again. At the last election he announced publicly that if he were elected one more time he would not seek the office again. The Westaways have drained about \$50,000 from the public trough.

Are the voters of Eddy County going to give this office to the Westaways for life? It is one way to help keep in power the Court House Gang. LET'S CLEAN HOUSE!

RAY RODGERS

Ray Rodgers, in a public speech at Carlsbad two weeks ago, said: "I don't plead guilty to having any sense." He further said: "You see I don't have much of a reputation for veracity."

He further said: "When I went to Santa Fe . . . any high school girl . . . who was 18 years old . . . could get a teacher's certificate . . . I felt perhaps that was all right in County Schools, but it must not be done where MY child goes to school."

From the last quotation it is evident that Ray doesn't think the country school children are entitled to equal school privileges with other children.

Ray Rodgers comes down to attend Democratic meetings in state-owned cars.

When he spoke at Carlsbad he was accused in the newspaper with having made a deal where he agreed to sell the gasoline business of Eddy County to a wholesale gasoline dealer in Carlsbad for the sum of \$25.00 per month to be paid to Rodgers. He refused to deny the truth of this charge. WHY? Because we could prove it.

He is one of the big four in the Court House Gang.

VOTERS

This gang boasts of being invincible in Eddy County. It practices nepotism in office. It practices machine politics and gang rule. It permits the Democratic party to be dominated by political job holders. It has permitted the registration as voters of dead people and inmates of the state penitentiary. It has played politics with relief, and its leaders have openly boasted that it is undefeatable. WE BELIEVE IT IS TIME FOR THE GOOD CITIZENSHIP OF EDDY COUNTY TO BUST THIS MACHINE.

VOTERS

Please remember that District Attorney George Reese, County Clerk Rude Wilcox, and County Superintendent Spencer are not a part of the Court House Gang. They are good, conscientious officers and deserve the vote of the people of this county.

The Court House Gang is complaining now because there is no opposition to Rude Wilcox. They would like to defeat him if they could because he will not join them in their political gang rule and will not permit himself to become a tool in their hands. The Fusion Ticket endorses the candidacy of Reese, Wilcox and Spencer.

CONCLUSION

We earnestly request every citizen of Eddy County who believes in fairness in politics, who believes in good government, and honest government and in economic conduct of the offices in Eddy County, to go to the election booth and vote the straight Republican county ticket. In doing so you are voting for both Democrats and Republicans who have combined to clean the Court House Gang from its grip on the throats of the citizens of Eddy County.

"Probation After Death" is the
subject of the lesson-sermon which
will be read in all Churches and

Sunday, October 25th.

The golden text is: "The right-
eous also shall hold on his way,
and he that hath clean hands shall
be stronger and stronger." (Job
17:9)

Among the citations which com-
prise the lesson-sermon is the fol-
lowing from the Bible:

"But unto every one of us is
given grace according to the
measure of the gift of Christ."
(Eph. 4:7)

The lesson-sermon also includes
the following passage from the
Christian Science text book:

"To divest thought of false
trusts and material evidences in
order that the spiritual facts of
being may appear—that is the
great attainment by means of
which we shall sweep away the
false and give place to the true."

Livestock and Range Report

RANGES: General rains during
the last week in September have
furnished the much needed soil
moisture in all parts of the state,
and has improved ranges in most
counties. In some parts of eastern
counties where range grass has
been exceptionally short, and in
northern counties where cool
weather is setting in, very little
improvement is expected in ranges
before the first killing frost. There
is still time for much improvement
in ranges with the recent rainfall
in southern counties. Unless the
coming winter is severe, the supply
of hay and feed grains will be
ample in most counties.

CATTLE & CALVES: Cattle
and calves are reported in better
condition than a month ago. The
condition of cattle in most counties
is above normal for the beginning
of the winter. Shipments of cattle
are light. There has been very
little improvement in recent prices
and the demand is reported very
weak for all classes of cattle. Old
cows, steers, and steer calves will
be sold rather close. If sufficient
feed is available, there will be a
tendency to retain most heifer
calves. The condition of cattle and
calves is reported at 87 per cent of
normal compared with 84 per cent
last month, and 88.6 per cent for
the average of the past ten years.

SHEEP & LAMBS: There has
been an improvement in the con-
dition of sheep and lambs during
September. Ewes are in good con-
dition, with losses only nominal.
Lambs have gained in weight.
Heavy shipment of this year's lamb
crop will begin in October. With
present prices, it is expected that
quite a number of ewes will be sold
as there is a tendency to ship
weather lambs rather close and
retain enough lambs for replace-
ments and to increase numbers.
The number of lambs fed the com-
ing winter is expected to be con-
siderably increased over previous
years. The condition of sheep and
lambs is reported at 90 per cent of
normal compared with 86 per cent
last month and 88.7 for the average
of the past ten years.

Three females to every male dies
of tuberculosis.

6:30 Training Union service.
7:30 Song service and sermon.
Prayer meeting on Wednesday
evening at seven-thirty.

As neither the president of the

C. E. was dismissed. Let's all try
to be present, on time, and willing
to cooperate each Sunday from
now on. It must be quite dis-
couraging to our pastor when we
fail to do our part.

referring to the new Plymouth.

NOW You Can Read In Comfort AGAIN!

Most of us can recall days when it was easier
and more pleasant to read in the evenings. As
we grow older the pupils of the eyes become
smaller. Applied science tells us that as we
grow older we need better light.

The best light known is glareless or well
shaded. It is well diffused or spread evenly
over the area used by the eyes, and there
should be enough of it for the work or recrea-
tion at hand.

The new I. E. S. Lamps are designed to give
plenty of well diffused, glareless light, on an
extremely efficient basis.

You will be more comfortable after you try
one, because you will be able to read so much
easier and faster.

DEMOCRATS bring PROSPERITY

Under Governor Clyde Tingley, New Mexico has had a
business administration.

The State has worked in harmony with President Roose-
velt, with the result that every line of endeavor, every person
in New Mexico has profited.

Prosperity has been restored.

If you are a merchant, a business man, you profited from
increased building activities in New Mexico. From the in-
creased payrolls. From the State's National advertising cam-
paign which has brought additional thousands of tourists to
the State. You profited directly or indirectly from the \$127-
000,000 which the Roosevelt program made available to the
State in gifts or grants.

If you are the father or the mother of children, you have
profited or will profit from the 250 new rural schools, the
vast improvements in our educational system, the building
program at our Institutions of Higher Learning . . . a pro-
gram financed largely by outright Federal grants.

If you are a taxpayer you have profited from the State's
economy program which has resulted in a one-half mill de-
crease in the State tax rate. This decrease means a saving
of \$125,000.

The Republican candidate for Governor has laughed at
this decrease, calling it "infinitesimal."

Business interests of the State are dependent for their
prosperity on the purchasing power of the people as a whole.

Under the New Deal administration in New Mexico, the
people have been so prosperous that the following results
have been achieved:

During the last two years 22,000 new automobiles have
been registered. The increase in new car registration in 1935
over 1932 is 293%.

Gasoline sales increased more than 30 per cent.
Retail sales increased more than 30 per cent.
Sale of life insurance is up 22%.
Not a bank in the State has failed.

Republican candidates have bitterly opposed the Roose-
velt Works Program, and are pledged to scrap the New Deal
—the very instrument which has brought prosperity.

CONTINUE PROSPERITY By Re-electing The Democratic Ticket

For this reason, if there ever was a time when business-
men, farmers and ranchers should unite for their common
good and work to elect the Democratic Ticket, it is now.

If there ever was a time when labor, which has profited
greatly under the New Deal, should be solidly united for the
Democratic Party, it is now.

If there ever was a time when educators of the State
should fight for their own interests, it is now. (Jaffa Miller,
Republican candidate for Governor, has publicly opposed im-
provements at our institutions of higher learning, and all Re-
publican candidates have branded the WPA, under which 250
new schools are being built, as boondoggling and waste.)

The Democratic record in the State is so good that Re-
publican criticisms are based on misrepresentations and un-
truths. For instance, they've declared the State owns 1,000
motor vehicles. They say they can operate the State with
800 motor vehicles.

The State owned on October 10, only 479 motor vehicles
and of this number 358 were trucks, and five were school
buses. By their own admission the Republicans will need 321
more motor vehicles to operate the State than the State owns
at the present time.

(NOTE: The figures quoted here are taken
from an audit report of Horton & Bixler,
dated October 17, 1936.)

They've said the 1935 Legislature appropriated more
money than any other Legislature in the history of the State.
This is not true.

The 1935 Legislature appropriated \$9,587,122. The 1929
Legislature, under a Republican Administration, appropriated
\$12,110,623, an all time high. In both cases we have taken
our data for the total appropriations, including Highway De-
bentures, from bulletins issued by the New Mexico Taxpayers
Association.

Other charges by the Republican candidates are equally
as untrue. When a party resorts to falsehoods in an effort
to win an election, it no longer deserves the confidence of the
people.

Senator Carl A. Hatch, Senator Dennis Chavez, Con-
gressman John J. Dempsey, Governor Clyde Tingley, and the
entire Democratic Ticket are pledged to work with Roosevelt
to advance the prosperity of New Mexico.
