On Monday, December 7, 7-9 p.m., the American Association of Retired Persons (AARP) will be hosting a Chili Supper at the Bailey County Coliseum.

The supper is a benefit for West Plains Medical Center Hospital.

Tickets are \$5 for adults and \$2.50 for children.

There will be a drawing for the following door prizes: Hand made quilt, bathroom set, Christmas wreath and hand made doll.

In a telephone conversation with Mart Long Tuesday morning at Lubbock, he said his six year old son, Marty, a patient in the Pediatric ICU at Lubbock General Hospital, is breathing 'on-his-own' now, and all life-support systems have been removed.

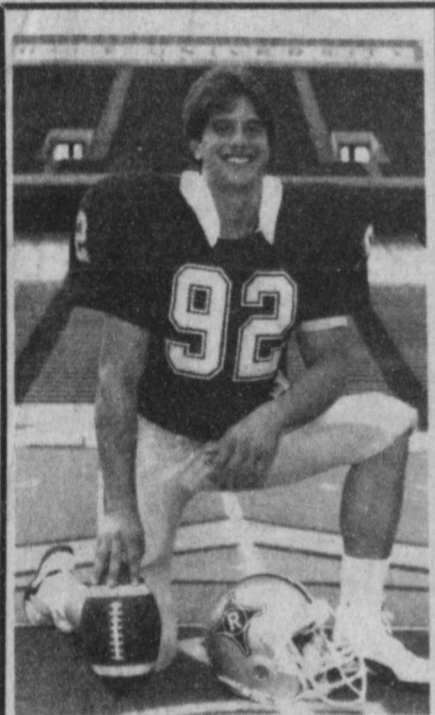

At presstime, Marty had opened his eyes some, although they are not focused, and is beginning to respond to light in his eyes, although he is still in a coma.

His father also said he is beginning to 'fight' the nurses attempts to adjust his IV or change dressings.

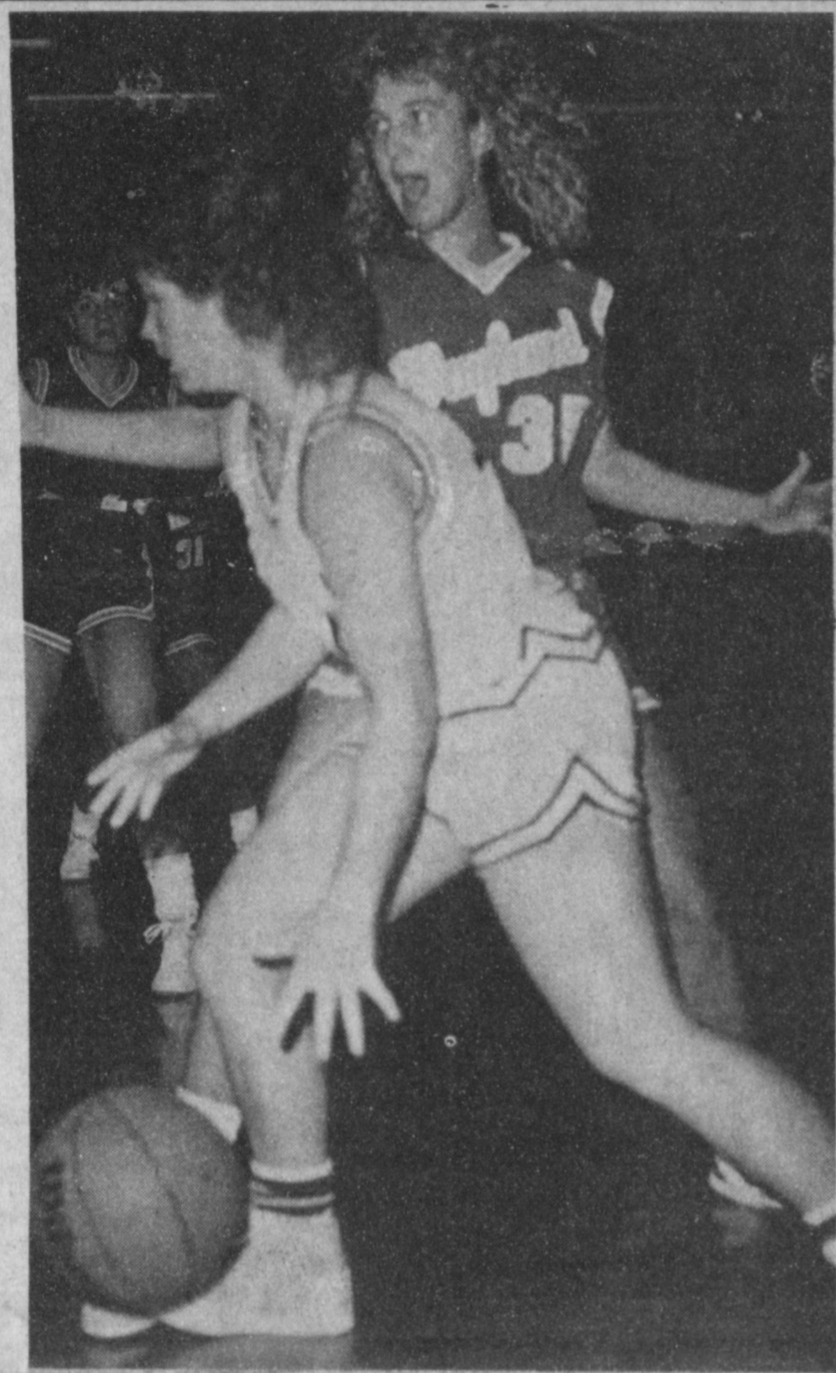

Mart said he looks at all this as being 'very positive' as his son is attempting to recover from recent surgery.

Donations to the Marty Long Fund are still being accepted at Muleshoe State Bank, at a teller window, the drive-in windows, or any bank employee. The fund will be used to help defray the high costs involved with Marty's

NOMINATED FOR HONOR—John Isaac, son of Mr. and Mrs. Charles Isaac, and a sophomore human physiology/pre-med student at Rice University. As a defensive tackle for the Rice Owls, he has been nominated for Academic All-America honors. He has a 3.6 GPA. He is a 1985 graduate from Muleshoe High School.

ACTION, HOT AND HEAVY—Despite best efforts by the Mulettes Tuesday night, they fell to the freshmen Flying Queens from Wayland Baptist University, Plainview. The action was in the Watson Junior High School gym in Muleshoe.

Christmas Card Project For Intercom System

Contributions to the Annual Community Christmas Card are coming in a little slow, says Sammie Ethridge, the volunteer chairwoman of the annual project this year.

"We are attempting to get enough funds to purchase an intercom system for the hospital and nursing home," she said. "The intercom system that was in the hospital was destroyed during remodeling, and such a system as this would save a lot of steps."

Although the Muleshoe Nursing Home and Hospital Auxiliary has always handled the annual project in the past, the Auxiliary was forced to disband when the hospital closed last November.

Mrs. Ethridge, who is very familiar with the project, has volunteered her time to see that the project is completed this year.

The suggestion is that you take the money you would use to buy Christmas cards and for postage for people in the immediate area, and donate it to the Project.

Your name, your family, or your business or organization will then be included on the Community Christmas Card to be published in the Christmas

issue of *The Journal*.

Since the project began, *The Journals* have cooperated with the program to help obtain funds for the annual project.

In the past, the funds have been used to help purchase mini-blinds; a screen and projector; help remodel the dining room and day room; and for many other items to help make life easier for residents of the nursing home.

Now, the only funds available for 'extras' is the Christmas Card project, the Snack Bar which has been turned over to the nursing home and by memorials.

You may make your donation to the Christmas Card Project by sending it to either bank in Muleshoe, or by sending it to Christmas Card Project, 106 West Avenue H, Muleshoe, TX 79347.

Deadline to be included is 5 p.m. on Friday, December 18.

Toy Project Gets Started With Coupon

Names are already being turned in to the Bailey County Ambulance Service from coupons currently being published, asking for the names and ages of children who will not have a Christmas this year without assistance.

Richelle Watkins, director of the ambulance service, said the first names were turned in to the service Monday morning at 715 West Second St.

She reminded that the coupon will be published periodically, and asks that all coupons be taken or mailed to the Ambulance Service, 715 West Second St., Muleshoe, Texas 79347.

No other place has been authorized to receive the coupons, she said, in order to avoid confusion, and keep all names, ages and addresses together, so some child or children will not inadvertently be left out.

A deadline has also been established to receive the requests for assistance. The final deadline for submitting the coupon, or any request, will be at 5 p.m. on Friday, December 18, in order to allow time for processing.

Motorcycle Chase Ends In Arrest

Late Sunday afternoon, what started out as an attempt to stop a motor vehicle violator, ended up in a chase involving city and state officers in vehicles, an airplane and officers in a foot race.

Sgt. Richard Bonham spotted a motorcycle he believed had no registration, and tried to stop it. The motorcyclist headed southeast of Muleshoe on Highway 84. Sgt. Bonham called for backup officers as he headed east on 84. The motorcyclist turned off into a pasture about one-fourth mile east of Valley Grain.

After going some way in pasture, he abandoned the motorcycle and started running. A pilot in a small, private plane, headed into the Muleshoe airport, saw the chase and kept up with the runner, dipping down to show officers where he was.

Texas DPS Trooper Lacie Kirk started into the pasture, from the east, and MPD City Patrol

It was a very attentive, and interested group of Rotarians who listened to Ivan Cottle, of Hereford, at the Tuesday meeting of the Muleshoe Rotary Club.

An employee of the Battelle Corporation, under contract to the Department of Energy, Cottle said he had been in Hereford since April. He is Construction Support Manager for the Nuclear Waste Project at Hereford and is currently residing there to supervise shaft construction in an effort to determine the best location for a nuclear waste dump.

He explained that first, five sites in the United States were proposed for the Waste Dump site, and this has been narrowed to three sites -- Hanford, Washington; Yucca Mountain, Nevada and Hereford.

According to Cottle, a decision on the site will be made on January 1, 1989.

During the next few months, according to a slide presentation made by Cottle, two mine shafts, each 12 feet in diameter will be sunk 2,600 feet into the earth north of Hereford.

This will be into a salt formation, well below the Ogallala Aquifer, he added.

He showed the rock formations and the salt bed, which he said is an evaporated river.

The DOE site is southwest of Vega, There are 'hot rods' from nuclear sites that would fill a

football field four feet deep, now, he said, and by the year 2,000 there will be enough of the fuel rods to cover a football field 12 feet deep.

Waste from the U. S. Weapons program is currently 12 feet deep, he added.

According to the Waste Policy Act of 1982, there will be a permanent DOE repository constructed; DOE will assume ownership of the nuclear waste; the nuclear power industry will pay for it; it requires EPA and NRC participation and defines the process and criteria for a site selection.

Cottle said the process is currently five years behind time at this time because of the delays in making a site selection.

In 1988, they will begin site characterization (sinking the shafts for testing); in 1995, the site will be chosen and by 2,003 they will begin storage at the site chosen.

According to Cottle, there have been 250 workers move into Hereford at this time; another 750 will be working out of Amarillo; and an additional 200 permanent workers will be obtained. This will include all types of technicians.

Some \$300 million will be spent checking for the site in the Hereford area; and if that site is chosen, an additional \$1 billion will be spent.

Cont. Page 6, Col. 2

ROTARIAN AND GUEST SPEAKER—Muleshoe Rotarian Larry Hancock, left, was in charge of the Tuesday program for the Muleshoe Rotary Club. He obtained Ivan Cottle, right, of Hereford as the speaker. Cottle is employed by Battelle Corporation, conducting test sites for the Department of Energy's proposed Nuclear Waste Dump site near Hereford. Cottle explained the process being undertaken to test for a site for the nuclear waste dump.

NEW FIRE ALARM INSTALLED SATURDAY
The Muleshoe Fire Department added to their equipment Saturday by installing a new and modern siren. The new siren is mounted on the standpipe tower and is operated electrically. It is the double siren type with a five horse motor. At an early date alarm boxes will be placed at convenient places over the city so that there will be no delay or confusion in turning in an alarm in case of fire. The department is to be congratulated on this very modern improvement.

CHRISTMAS PROGRAM INCLUDES PRIZE GIVE AWAYS FOR CHILDREN DOWNTOWN
Plans for the observance of the Christmas season in downtown Muleshoe moved a step nearer completion this week with the announcement that Santa Claus will arrive on December 7 in local downtown business houses. Plans for turning on the holiday street lights have not been completed, but are expected to be announced next week. Santa Claus is expected to arrive about 4 p.m. on the city fire truck and stop long enough to give children a bag of holiday treats and chat with as many as time permits.

Holiday Planning Gives Consumers Control

As the number of shopping days until Christmas decreases, it's easy to run out of money, as well as time.

"Christmas is the biggest spending season of the year, yet few families plan ahead for the added burden on their income," says Bonnie Piernot, a family economics specialist.

"A common strategy is to resort to credit spending for holiday expences, although that may just postpone the financial problem until after the first of the year."

But it's not too late to evaluate your financial situation and gain some control over holiday spending, according to the Texas A&M University Agricultural Extension Service home economist.

"Figure out the amount of money you have available for holiday expences, including money from paychecks you will receive between now and Christmas," she advises. "Then estimate your remaining expences, including holiday food and entertaining, cards, decorations, party clothes, gifts and other costs."

If your estimated costs exceed

available funds, Piernot suggests enlisting the entire family's help in curbing costs. Some options include establishing dollar limits for entertainment, clothing and holiday foods.

Since gifts are a major expense, she also advises setting dollar limits for each gift, making gifts and giving services, limiting gifts to certain members of the family or exchanging names to reduce the number of gifts.

"Once you know what gifts you plan to buy, go shopping with a list," says the specialist. "That will allow you to comparison shop for items at a specific amount and will reduce impulse buying."

"If you decide to use your credit cards, set limits on how much you'll charge, and keep track of credit purchases so you won't run up large bills that are difficult to pay off in a reasonable amount of time," cautions Piernot.

"Remember too, that the finance charges on any unpaid charge card balances will actually add to the cost of your gifts."

Making Holiday Cookies

Q. What's the secret to chewy cookies?

A. Most cookies have similar basic ingredients, but the proportions of ingredients and the method result in a dizzying array of cookie choices. Cookies that are higher in sugar and especially cookies made with honey and molasses tend to be chewier.

Q. How can cookies be stored so that the crisp ones stay crisp and the soft ones stay soft?

A. Store crisp ones in a container with a loose fitting lid. Cake-like cookies can be kept in containers with tight fitting lids. Either kind can be frozen, sealed in moistureproof, vapor-proof wrap, for three to four months.

Q. What's the best way to wrap cookies for holiday mailing?

A. Start with plain or lightly glazed bars of sturdy drop cookies. Wrap pairs in plastic wrap and arrange in a can, carton or other strong container. Pad the top with crushed paper and pack containers in cartons.

Pad the containers from each other and from the side of the carton. Secure carton with strapping tape and wrap with heavy paper.

Miss Middlebrook, Simpson Exchange Marriage Vows

Miss Patti Lee Middlebrook and James Lee Simpson exchanged marriage vows Saturday, Nov. 7 in the First United Methodist Church of Shallowater. The Rev. Everette Statler officiated.

Parents of the couple are Mr. and Mrs. Doyce Middlebrook of Shallowater and Mr. and Mrs. Ted Simpson of Maple.

Presented in marriage by her father, the bride wore a gown styled of ivory silk organza trimmed with Venise lace. A cascade of eleven wide ruffles of the organza formed the cathedral train in the back. In her bouquet, she carried her maternal great grandmothers handkerchief.

Mrs. Suzanne Wolmack and Mrs. Kim Middlebrook served as matrons of honor and Shelly Bennett was a bridesmaid. They

wore tea length dresses of navy satin.

Mark Brown of Crosbyton served as best man. Dan Simpson and Wesley Pool, brother and brother in law of the groom, served as groomsmen. Clay and Camie Enger, cousins of the bride, lit the candles. Kacee Hargis and Jonathan Pool served as flower-girl and ring bearer.

Wedding selections were provided by Mrs. Allie Ireland, accompanying Gary and Teresa Scoggins as they sang.

The groom graduated from Texas Tech with a Masters of Science degree in Entomology and is currently a crop consultant.

Miss Middlebrook is a Texas Tech student and a dance instructor at Barbara Thompson's Academy of Dance in Lubbock.

Following a honeymoon in Puerta Vallarta, Mexico the couple will reside in Shallowater.

Out of town wedding guests were: Mr. and Mrs. Carey Gouch of Wiley, Texas; Mr. and Mrs. L.D. Amerson and Mr. and Mrs. Mitch Malouf of Plainview; Mr. and Mrs. Phil Holtart, Tuesdee, and Kauli of Midland; Mrs. Ronda Alexander and Aaron of Amarillo; Jimmy Isbell of Fort Worth; Mrs. Gerald Grummer and Jacob of Little Rock, Ark.; and Peggy Robertson of Lorenzo.

Reception Honors Mr. And Mrs. Russell

Mr. and Mrs. S.H. Russell of Littlefield will be honored with a fiftieth wedding anniversary reception on Sunday, Nov. 29 at the First Baptist Church of Littlefield from 2 until 3:30 p.m.

Hostesses for the occasion will be their four daughters, Gracie Evins of Odessa, formerly of Sudan, Nancy Hoover of Hobbs, N.M., Louise Hoople of Littlefield, formerly of Sudan, and Patricia Bone of Westminster, Colo.

Russell and the former Eulalie Henderson were married on November 27, 1937, in the home of the bride's parents in Littlefield. They had both come to West Texas in the early 1920's.

Mrs. Russell is a registered nurse. She graduated from the Lubbock Sanitarium School of Nursing (now Methodist Hospi-

tal). Russell earned his bachelor's and master's degrees in agriculture from Texas Tech. He taught at Wilson, Sudan, and Whitharral High School. He was the County Coordinator for the Lamb County Vocational Schools. He also taught building trades at South Plains College and Levelland High School. He farmed in Lamb and Bailey Counties until his retirement.

Mr. and Mrs. Russell are members of the First Baptist Church of Littlefield, where he taught an adult men's Sunday

 Last year when going through your area, just outside Muleshoe the tongue broke on my trailer.

Some man there in Muleshoe helped me find help & get set up ready to go.
 Well, I didn't realize until this year when I went to sell the trailer that the serial # was on that broken tongue. Now, what I need is someone who can verify that this is my trailer or some proof of that serial #.

At 86 yrs. old, I know I can never make it back out there to find my trailer tongue. I've got to sell it & get my things in the best order I can. Please help me.

Storm Damaged Records Bring A Moratorium

State Comptroller Bob Bullock Wednesday said businesses whose records were destroyed in this week's tornadoes will get special tax consideration.
 "I know these people have a lot on thier minds trying to pick up the pieces and get things back into order," Bullock said, "they shouldn't have to worry about state tax deadlines right now."

Bullock announced that he was authorizing a moratorium on tax filings that will apply to any businesses whose records were destroyed in the storms, particularly those in the 24 Texas counties that were ravaged Sunday and Monday.

Bullock said his office has identified as many as 86 damaged businesses in Palestine alone, and he knows of more in Center and Jacksonville.

Bullock said he will waive any penalty or interest due on a return that cannot be filed on time because business records were destroyed or damaged by the violent weather.

"Help will be available throughout the affected areas," Bullock said. "We will be there to help reconstruct any business records that are in disarray."

Bullock added that these businesses could disregard computer-generated tax delinquency notices until a recovery is made.

The deacline extension applies to corporations required to file franchise tax reports as well as businesses responsible for filing state sales in tax returns.

Fancy Food?

This is the time of year many people order fancy foods sent to friends and relatives, for Thanksgiving or the Christmas season.

The ads for fancy foods attract us. They're usually more expensive than foods bought locally. Are these expensive mail-order foods worth the extra money?

The November issue of "Consumer Reports" indicates usually they're not worth the fancy price. Testing experts ordered, prepared, and consumed filet mignon steaks, smoked salmon, cheeses and coffees.

Most of the filets were not prime grade, as one would expect, but choice, the same grade you get at the local supermarket. But most were good. None of the salmon ordered, from various mail order houses, was rated excellent or even very good.

THEY DO MORE THAN PUT OUT FIRES AND HELP AT WRECKS--Sunday morning, wearing jackets, gloves and caps as protection from a sharp north wind, members of the Muleshoe Fire Department were on Main Street putting up Christmas decorations. This is the second year for the MPD to handle this cold, unglamorous chore to help make the city more cheerful during the holiday season. The lights will be turned on tomorrow night, Friday, the night after Thanksgiving. If you see a fireman -- thank him -- for what is another often 'thankless' job he performs as a civic duty.

Army Will 'March' Past Navy Saturday

It's Army-Navy time again. It only means bragging rights again this year, but it's still great football tradition. Army's been playing "who's at quarterback?" all season, winning some, losing some, compiling a 4-6 record. Navy won two and

lost eight. They beat Pennsylvania and Delaware and gave Pittsburgh a tough fight before losing 10-6. So-it's picking time. Army will win on December 5th.

The opposite kind of great tradition occurs this Friday in Birmingham as Auburn squares off against Alabama in what they call Alabama-hysteria. Auburn had to beat Georgia two weeks ago to stay in the battle for the Southeast Conference crown. It did. Now, if Auburn beats Alabama, the Tigers win the title outright with only a tie with Tennessee on an otherwise undefeated record in the league. If the Tide wins, they will tie L.S.U. for the championship. Picking a winner between the Tide and the Tigers is murder, but we'll slither into Auburn's corner.

Two years ago, Miami hosted Notre Dame in a season finale.

What a finale. The Hurricanes blasted the Irish 58-7. It was the third successive Miami triumph over Notre Dame. The Irish won in 1982, 16-14. This year both powers are at the top of the list of the major independent teams. However, Notre Dame is coming off three toughies with Boston College, Alabama, and Penn State. Miami "tuned up" with contests vs Miami of Ohio, V.P.I., and Toledo. Despite the contrasting schedules, we think Miami will solidify its claim to a national title with a close victory over the Irish.

A quickie: Harmon system picking average through Saturday, November 14: .724 with 1475 rights, 561 wrongs.

Finally, the Texas A&M Aggies host the Longhorns of Texas in THE traditional and all-important Thanksgiving Day shoot-out. There's still a scramble at the top of the Southwest Conference standings and the result of the Turkey Day meeting will do all the unscrambling. The winner, Texas A&M.

Texas' New Budget is Combination of Fiscal Restraint, Responsibility

Optimists have a great way of looking at misfortunes. When something bad happens, they can often be heard to say, "Well, things could have been a lot worse."

That's the way we need to look at the recently completed special legislative session which, more than anything, will be marked by the end of a year-long stalemate over state spending.

Meeting the financial demands of our state will cost \$38.3 billion during the 1988 and 1989 fiscal years.

To finance that budget, state lawmakers approved a \$5.7 billion tax increase, the largest in Texas history.

That's where it helps to be an optimist. That tax increase is dramatic, but let me assure you that "things could have been a lot worse."

At the start of the regular legislative session in January, some legislative leaders in the Texas Senate put forth a spending plan that would have cost about \$40 billion.

Financing a budget of that magnitude would have meant a tax increase of nearly \$8 billion. Texans would not—and could not—tolerate such a tax bill.

Personally, I find the \$5.7 billion tax bill finally approved nothing less than disgusting. Still, I signed the tax bill. I did so because schools—which rely heavily on state money—might not have opened if the budget stalemate was not solved quickly.

Nursing homes would have begun closing their doors to the elderly because no state money would have been available to help subsidize their operations.

The list of state-supported programs that would have been curtailed—or eliminated—if a spending plan wasn't in place by early August is staggering.

Fire Department Safety Tips

BYSTANDERS CAN TURN BAD TO WORSE

Curiosity seekers at the scene of an accident have made a bad situation worse in literally hundreds of cases by causing more mishaps -- braking suddenly, parking unsafely or walking around in the way of the emergency crews.

At many accidents, the bystanders become victims themselves by getting in a situation they cannot get out of. There may be times that the bystanders' help is needed, and perhaps even saving someone's life, but it is important to know what to do and when to do it. There are some things a person can do before the arrival of the emergency crews.

1. Park away from the accident scene, well away from the traffic. If you are trained in first aid, treat the injured to the best of your training. Leave the injured in the vehicle, unless there is the possibility of a fire or other life threatening conditions, for yourself or the victim.

2. Do not get in the way of the emergency crews (Ambulance, Police, Fire) as this will only delay treatment to the injured victims. If you are asked to help, obey their instructions, and give all the information about the accident that you can -- but, only when asked.

3. If an accident has already happened, and the emergency crews are on the scene, do not stop. Keep the flow of traffic moving, put yourself in the victim's place. Drive your vehicle at a safe speed and in control.

4. If you hear emergency vehicles responding to an emergency call, stay clear of the area. **DO NOT FOLLOW THE EMERGENCY VEHICLES.**

Tax Ruling May Allow Back Payment

A new ruling by the Internal Revenue Service may allow grain farmers to refile their 1986 taxes and receive a refund if they used a PIK (payment-in-kind) and Roll procedure in 1985.

According to Dr. Wayne Hayenga, this ruling nullifies a previous interpretation of Revenue Ruling 87-17 that farmers, who used PIK certificates to redeem grain in storage, had to report it as a taxable event.

"The new rule says if a farmer uses the PIK and Roll procedure, he does not necessarily have to treat it as a taxable event," says Hayenga, an agricultural economist with the Texas Agricultural Extension Service, The Texas A&M University System.

If a farmer pays his loan to the Commodity Credit Corporation with PIK certificates, he may choose to include the face amount of the loan as income for that year, Hayenga says.

When the CCC loan is repaid, there is no gain or loss unless the commodity was sold for a value greater than the amount of the certificates.

If the loan is not included as income and the farmer uses the commodity certificate to repay the loan, he will file the income in the year the loan is repaid, Hayenga says.

"The amount of income the farmer includes that year is the amount the face of the loan exceeds the amount of the certificates," Hayenga says. "When the commodity is sold, the farmer recognizes the gain for the full amount received on the sale."

Farmers who used the older ruling when they filed their 1986 taxes probably will want to file an amendment to their return using the new ruling, Hayenga says.

"They may be able to receive a refund of their 1986 taxes," he says.

Sandhill Philosopher

Editor's note: the Sandhills Philosopher on his Johnson grass farm on Sandy Acres discusses money this week.

-0-

Dear Editor:

Money seemed to have lost all meaning when Professional football players started getting a million dollars a year for working six months a year, but the meaning of money disappeared into the stratosphere when a painting recently sold for \$53 million.

That's right. A picture of some irises painted in 1889 was sold at auction for \$53 million. The picture, according to the article I read, measures 28 by 32 inches, which makes it cost about \$59,000 a square inch, which is far higher than the price of land near a booming city before the boom played out and the developers went broke.

Up to the sale of that picture, I thought the record was established a few years ago when somebody bought a Bible printed in 1455 by a man named Gutenberg. The buyer paid \$5 million for it.

I figured that to pay that much for a Bible a man must be in need of a mighty lot of salvation.

Back to that picture. It was painted by a man named Van Gogh, who at the time was confined in an insane asylum.

The man who paid \$53 million for it was unidentified and did his bidding over the telephone.

Makes you wonder where he was telephoning from.

Yours faithfully,
J.A.

THANKSGIVING

A Time for Thanks... and Sharing.

Let's thank the Lord for what we own,
And simple pleasures we have known;

As we recall the joys we've shared
And all the evils we've been spared

Which could have come along our way.
Our House of Worship bids us pray

That everyone to some degree
Could be as fortunate as we.

Content with what we now possess,
Who know that faith brings happiness.

Let's ask the Lord to bless this food,
Remembering our gratitude

For granting us this time on earth;
Any yet, for what our lives are worth

With blessings we cannot repay,
Each day should be Thanksgiving Day.

Government Contracting Focus At SPAG Seminar

"Bid Procedures in Government Contracting" will be the main focus of the SPAG Contracting Procurement Center's fall seminar. The seminar will be December 3 from 8:00 a.m. to 3:30 p.m. at the 50 Yard Line on South Loop 289.

There is a great opportunity for additional sales by entering the world's largest market: government procurement. The seminar/workshop is designed to provide information on opportunities in government contracting to experienced bidders and those just beginning to do business with the government. We want you to learn how to expand your market and begin increasing profits.

The seminar will open the doors for beginners but our main objective is for businesses

to learn how to sort through the government's "red tape". We will focus on bid packages and how to bid competitively and correctly. Bidding for government contracts goes far beyond costs. It is essential that a company be prepared for government regulations and surveys. Our purpose is to take you - the bidder - through the steps necessary to become a successful and profitable bidder in the government marketplace.

A panel discussion has been set aside for personal instruction or questions. This time can also be used to get registered with the CPC's program and start working towards a rewarding new opportunity: government procurement.

The SPAG Contract Procurement Center is pleased to

present two excellent speakers who are involved in working with businesses that want to do government contracting. David Godfrey was recently appointed Regional Director of GSA, Region VII in April of this year. He received his Doctorate of Jurisdiction in May 1975 from Texas Tech University. Godfrey has extensive management experience in the banking industry, real estate and oil/gas operations. Colonel Donald J. McCullough is the Deputy Commander for Resource Management at Reese AFB. McCullough has been at Reese AFB for six years. He is a Vietnam veteran and a Master Navigator. He is a graduate of West Point and received a Master's degree from Arizona State University. McCullough has served in the military for nearly thirty years.

We are pleased to have these

speakers and many more who are concerned about the difficulties involved in government procurement. With their expertise we can promise that you will leave the seminar much more knowledgeable about the procedures involved in contracting and solicitations.

The cost for the seminar is \$25.00 and includes lunch, refreshments and packet materials. For more information call SPAG at (806) 762-8721.

Thanksgiving, 1987

American Thanksgiving dates officially from 1863 when the nation was locked in a civil war.

Mrs. Sarah J. Hale, who had been proposing a national day of thanksgiving for decades in Boston and Philadelphia, wrote to President Abraham Lincoln—who in October of 1863 issued the first Thanksgiving Proclamation.

There had been earlier thanksgiving days; some date the American observance to the days of the early settlers—who gave thanks for their food supply and the opportunity America offered. The first probably

occurred in the Plymouth Colony in 1621.

There had been such observances in other lands but few had adopted annual thanksgiving days prior to the American observance.

An international thanksgiving day was held in Washington in 1909, having been conceived by the Rev. Dr. William T. Russell of St. Patrick's Catholic Church.

Thus, American Thanksgiving Day, this year on the 26th, is uniquely American. In 1987, it finds the nation blessed with peace and prosperity.

The End?

On cable television's Financial News Network recently, the attractive and capable hostess interviewed a guest who predicts stock market cycles and trends by movements of the stars!

It was stuff, one thinks, people wouldn't take seriously. But this was dead serious. No subdued snickers. No hint this was far-out. Straight

facts all round.

Predicted: a low under 500 in the Dow-Jones average by 1989. No pie in this sky. Since it's the football season, when one hears such potent exclamations as, "How 'bout 'dem Dawgs!" we offer, "How 'bout 'dem stars!" "Ain't they carrying on something 'awful?"

Texas Farm Bureau's Annual Meet Slated

Texas Farm Bureau, the state's largest farm organization, will hold its 54th annual meeting here Nov. 29 - Dec. 2.

More than 1,300 voting delegates from 216 organized county Farm Bureaus are expected to attend. They will decide policies for 1988.

Theme of the convention, which will be held in the Lubbock Memorial Civic Center, will be "Agriculture--Our Basic Industry."

Approved resolutions on national issues will be forwarded to the 69th annual meeting of the American Farm Bureau Federation, Jan. 10-14, at New Orleans. Adopted resolutions dealing with state-level matters will become state policies for 1988.

Grant Teaff of Waco, head football coach at Baylor University and dean of the football coaches in the Southwest Conference, will be the keynote speaker during the general business session Nov. 30.

TFB President S.M. Ture, a cotton and grain farmer from Plainview, will make his annual address that same morning. TFB Secretary-Treasurer Neal Burnett, also from Plainview, will also make his annual report at that time.

TFB Executive Director Warren Newberry will give his annual administrative report during the general session on Tuesday, Dec. 1.

A Young Farmer and Rancher breakfast Nov. 30 will feature Dr. James Blakely, a motivational speaker from Wharton.

Five special conferences will be conducted from 1 p.m. to 2:30 p.m., Nov. 30. These include legislative and TFB

AGFUND update; cotton and beef research and promotion; agriculture and the environment; international trade; and immigration and farm labor.

They will be followed by six commodity conferences from 2:45 p.m. to 4 p.m. These include beef cattle, wheat and feed grains, cotton, dairy, rice and soybeans, and forestry and hay or forage.

The business session begins Tuesday morning, Dec. 1 and continues until adjournment late Wednesday. The last order of business will be election of state directors from odd-numbered districts and a president.

Youth activities will include the selection of Miss Texas Farm Bureau and winners of talent find and free enterprise speech contests. The TFB this year is awarding a total of \$28,750 in scholarship money to the participants. Contestants have already won district competition and are assured of a scholarship with the opportunity to increase their awards in the state contests.

The speech and talent find contests will be Sunday evening, Nov. 29. The Miss TFB contest will be Monday evening.

Announcement of the winners of the Outstanding Young Farmer/Rancher and Outstanding County Young Farmer/Rancher Chairman awards will be made during the Miss TFB pageant.

Winners will each receive one year's free use of a 1988 1/2-ton Ford pickup provided by Bird-Kultgen Ford Co. of Waco. The Outstanding Young Farmer/Rancher, as in years past, will attend the AFBF annual meeting.

All six finalists in the two awards will receive a trip to the TFB Young Farmer/Rancher Legislative Development Semi-

nar in Washington, D.C., in March.

Enochs News by Mrs. J.D. Bayless

Mrs. Buford Peterson was in Littlefield the past week to visit Mrs. Alberta Bryant.

Mrs. Ellen Bayless spent last Wednesday night with a sister-in-law, Mrs. Clara Coffman in Muleshoe. Thursday morning they went with Mr. and Mrs. Wendell Lee Speck, and his sister, Mr. and Mrs. Doyle King to Azle where they visited Ellens sister and niece, Mrs. Ida Henderson and Mrs. Juanita Parsons, the Specks and Kings then went on to Ft. Worth to visit an aunt who is 87 and cousins. Thursday night Ellen & Clara went with Mrs. Henderson, Mrs. Lucy Parsons and Mrs. Juanita Parsons to a feed store where Ida, Juanita and Lucy played in the Senior Citizens kitchen band it was real good.

Mrs. Rose Nichols went to see her daughter and family Paula and James Grant & baby and spent the night with them the past week.

Mr. and Mrs. Goldman Stroud visited their daughter, Mr. and Mrs. Tommy Bevauiou in Lubbock Sunday to get to visit with a grandson Phillip Bevauiou, who was home from the service for a visit.

Several from our area went to Three Way School to the Thanksgiving dinner last Thursday which was enjoyed very much.

Tonya Graves had supper with Mrs. Ellen Bayless Tuesday night while her parents Rev. and Mrs. David Graves took Sidney and David to Lubbock to the Dr.

Mr. and Mrs. Robert George of Lubbock, Kelly Mosser of Slaton, Mrs. Marthan Walker and baby Trinity of Eager, Arizona spent Saturday night and Sunday with Mr. and Mrs. E.N. McCall and had their Thanksgiving dinner with them.

Mrs. Raymond Spencer and children Tammy and Logan of Friona, were guests at the Baptist Church Sunday and were supper guests in the home of her grandparents, Mr. and Mrs. Clifford Snitker.

The Baptist Church had their Thanksgiving dinner Sunday at the fellowship hall of the church the tables were decorated with folding turkeys, fall leaves, cotton and other fall colors.

USDA Announces New Beef Grade System

In response to consumer demands, the United States Department of Agriculture has changed the name of the USDA quality "Good" grade of beef to "Select." The new grade name was effective Nov. 23.

"Select conveys a more positive image for this grade of beef," says Dr. Dan Hale, a meats specialist with the Texas Agriculture Extension Service, The Texas A&M University System.

"The quality characteristics of the Select grade is the same as those for the USDA Good grade," Hale says.

The USDA believes this name change will help consumers identify leaner cuts of beef that will be more consistent in taste.

The USDA expects the new grade name to add marketing opportunities and build a demand among the public.

In 1985, the Texas Agriculture Extension Service and the Texas Agricultural Experiment Station, two agencies of The Texas A&M University System, conducted a study in Philadelphia and San Francisco which is part examined the use of the name Select at the retail counter.

In that study consumers had the opportunity to choose between USDA Choice and USDA Good--which was renamed "Select" for the study. Consumers in both cities reported Choice tasted better than Select, but Select was leaner than Choice. Both grades were rated equally high in the "definitely will rebuy" category, Hale says.

"Consumers should be aware that many retail grocers do not use the name USDA Good in their packaging," Hale says, "Because of the perceived lack of consumer appeal for that name."

These grocers may use "house-grade names," such as

texas Lean or Lone Star Lean, Hale says. These brands often include USDA Standard, USDA Commercial, or USDA Yield Grades 4 and 5 in the "house-grades," Hale adds.

"If retailers adopt the Select grade of beefcuts and include it exclusively in their house-grade, it will provide a much more consistent beef steak or roast, both in taste and in calories," Hale says.

Texas A&M researchers assess risk to minimize construction disasters

COLLEGE STATION — Engineering researchers at Texas A&M University say they have developed risk analysis techniques that focus on worker safety and may help prevent disasters.

"More engineering attention must be paid to a structure as it goes up," said Dr. Norris Stubbs, associate professor of civil engineering and construction science at Texas A&M.

Stubbs and graduate student Charles S. Sikorsky developed risk analysis techniques dealing with the safety of workers.

"Risk analysis, which takes into consideration the probability of occurrence of an undesirable event, as well as the consequences resulting from the event, can be useful to understand the nature of the construction process," Sikorsky said. "Risk analysis is also a tool to reduce the number of structural failures, deaths and injuries, and to control the uncertainty in the construction process."

Statistics show that one of every five construction workers in the United States eventually will be seriously or fatally injured at work, Sikorsky added.

ABOUT YOUR HOME

Add the white of an egg to cream and chill. It will not only whip better, but will add volume.

It's time to dig, dry and store dahlia tubers when frost has blackened the stalks.

To keep newly washed tennis shoes clean longer, spray them with a thin layer of starch.

Make your own bread crumbs. Save the heels of bread, dry in the oven, then roll with a rolling pin. Keep in plastic bag in freezer.

For a quick dessert, toast plain pound cake slices, spread with softened margarine and sprinkle with cinnamon. Spoon on applesauce and sprinkle with cinnamon. Place a scoop of vanilla ice cream by cake.

When trees lose their leaves, control the light in rooms with window shades that can soften natural daylight or shut it out completely—and add decoration to the room.

MICROWAVE COOKING

By Linda Attaway
The appearance of some foods cooked by microwaves may appear different than similar foods cooked conventionally, but many of the tests for "doneness" are the same.
Meat is done when tender to a fork. Less tender cuts of meat may split at the fibers. Standing time will allow some tenderizing of these cuts.
When reheating food, feel the bottom of the plate. If it is warm through the transfer of heat from the food on it, the food is usually done.

Fall Dangers

Bright outdoor colors, football, hunting, frost, longer nights, etc., which arrive in fall, shouldn't hide fall's dangers.
Gun accidents, wrecks on bad-weather highways, including football trip accidents, and other dangers of the season can take your life.
The first really cold weather for months arrives in fall; don't drive in it if possible and don't fly in it. Airline accidents invariably rise in November and December, in fall's first rugged weather.
Dampening!

WHERE'S PETE?--Sunday morning, the Muleshoe Police Department started getting calls - where's Pete? Pete, the famous Muleshoe Mule, was removed from his pedestal at the Santa Fe lot for refurbishing and grooming before the holidays. He was to be repaired, repainted and verathaned prior to the upcoming holiday season. He'll be back -- lookin' good.
