

Governor Tells Businessmen Of Highway Plans

Says Thirty-six Miles Of Highway East Will Be Finished Soon; Contractor Inspects Part Road Yesterday.

Governor Clyde Tingley, two highway officials and a Las Vegas publisher were guests of fifty Artesia business men yesterday noon at a luncheon served at the Artesia hotel roof garden. The governor and party were enroute home from Hobbs, where they met with more than a hundred Hobbs business men Tuesday night.

Fred Brainard acted as toastmaster and in a brief talk expressed appreciation for the visit of the Governor and discussing road matters told of the need of a highway to serve the oil fields to the east. Mr. Brainard also gave results of a traffic count made the first part of the month for a seven day period, which showed a heavy tonnage haul over the eastern portion of Highway 83 serving the oil fields.

Col. A. T. Woods, in a brief speech, welcomed the visit of Governor Tingley and praised the Pecos valley as being the Garden of Eden of New Mexico.

Lea Rowland, chairman of the New Mexico highway department; Grover Conroy, highway engineer and Hub Kans, editor and publisher of the Las Vegas Optic, were introduced by Mr. Brainard. Other visitors, including Dwight Lee, Rom Holt and L. R. Conarty, all of Carlsbad, were next introduced. Governor Tingley talked on highways. He said contractors were on the ground to start oiling twenty-four miles of road from the west edge of Lea county in this direction and that another contractor was also on the ground looking over twelve miles of road from Artesia to the edge of the oil field and that the contractor would have equipment on the ground ready to start work within about ten days. The twelve miles of road on which the grade was partly built by the WPA will be built by the state through the force account method.

He said Highway 83 leading east toward Lovington and serving the oil fields was the first road that should have been built. When the present projects are completed these will involve about thirty-six miles of road and this will leave only thirty miles to be finished into Lovington. "The thirty miles will be a winter's job," he said, adding that the first thirty-six miles east will be completed within ninety to 120 days.

Governor Tingley stated the highway department would build 1,000 miles of oiled road this year. The department has thirty-one jobs going at the present time and many more planned. By next year the department hopes to complete 2,500 miles of oil road, he said. The speaker also called attention to the fact that steel has been ordered for about twenty-four dips between here and Roswell, but that orders had been delayed due to labor troubles. The worst dips in the forty-five mile stretch of road will be eliminated as well as the road bed improved.

At Hobbs, Governor Tingley (Continued on last page column 6)

Water Protests Are Withdrawn

Approximately thirty-one protests filed against applications for appropriation of the shallow ground waters of the artesian basin, since closed to further applications by order of State Engineer Thomas M. McClure, were withdrawn Tuesday, it was announced at Roswell.

The effect this withdrawal of protests will have upon applications, it was said by authoritative source, is that it will no longer be necessary for the engineer to hold hearings upon pending applications previously protested.

Information received, however, indicates applicants who desire to do so, will be given opportunity to present testimony in support of their application before McClure, the source said.

Originally applications for more than 100 wells in the artesian basin were contested by protestants believed to be acting for a majority of the water users of the basin, on the ground that new wells in the shallow water district would deplete the valley water supply.

Artesia Rotary To Be Hosts To College Students

The members of the Artesia Rotary club will be hosts to students of this section who are going away to college on Tuesday, August 24th. A list of local students who contemplate entering institutions of higher learning has been compiled by Supt. W. E. Kerr. However some prospective students may have been overlooked. To avoid overlooking any student, kindly check over the names of students in the list below and report any missing name either to J. S. Ward of Sup. W. E. Kerr.

The students as listed are: Cooper Malone, Ernest Malone, Joe Hannah, Harold Hannah, Ernest Hannah, Osborn Keller, Tony King, Dean Martin, Justin Newman, Paul Womack, Ruthie Martin, Douglas O'Bannon, Chester Lapsley, Joe Richards, Stewart Box, Mary Lou McConnell, Laurel Sharp, Billie Bullock, Jennie Beth Bishop, Josephine Payne, Marjorie Funk, Margaret McCrory, Florine Muncy, Bert Muncy, Clarence Kaiser, Virginia Gates, Joan Wheatley, Gladys Thompson, Peggy Brainard, Berthold Alcorn, Clementine Cobble, Robert French, Joe Bill Funk, Edmond Runyan Edsall Runyan, Marian Coll, Fletcher Hornbaker, Dawn Hornbaker, Mary Louise Paris, Martin Yates III, Kitty Flint, Charles Brown, Bill Bartlett, Glen Stone, Cyril Stone, Peggy Wilson.

HEAVY FIGHTING IN SHANGHAI

SHANGHAI—Japan's fighters blasted last night against overwhelming numbers of China's strongest troops on both sides of the Whangpoo river. A Japanese bombing squadron, making the first night air raid in the six days that Shanghai has been a battleground, opened the heaviest aerial artillery duel so far. Japanese warships in the Whangpoo river joined in the fire below where daring Chinese soldiers earlier had scuttled six Japanese ships to barricade the upper stream. Guns from the Japanese men-of-war shelled Pootung, on the east bank, opposite the bund in the heart of the city.

Record Well For Gaines Co., Texas

The record well of the north basin area, Continental Oil Company No. 1 W. McCarty Moore, in the western pool of northwestern Gaines county, Texas, was shut in for storage after flowing 195 1/2 barrels of oil in one hour through open casing and tubing, with 9,680,000 cubic feet of gas, according to the Midland Reporter Telegram. The gauge was made following re-treatment of the well with 4,000 gallons. After initial treatment with 3,000 gallons, the big well flowed 111 barrels the last hour of a four-hour test. Total depth is 4,995 feet in lime, with main pay encountered from 4,971 to bottom. Location is 440 feet out of the southwest corner of section 46, block AX, public school land, a mile northeast of the pool opener.

Amon G. Carter No. 2 J. R. Sharpe, one mile due south of the Conoco well, flowed 434 1/2 barrels of new oil in fifteen hours after recovering oil load used with second acid job of 2,200 gallons, and was scheduled to re-treat, probably with 5,000 gallons. First treatment was with 1,000 gallons. Total depth of the producer is 5,000 feet in lime. It is 440 feet from the south and west lines of section 47, block AX.

Amerada Petroleum Corporation No. 1 Matthews, Wasson area test in the northeast corner of section 417, block G, C. C. S. D. & R. G. N. G. survey, set canvas packer at 4,995 and swabbed 64.8 barrels of fluid in nine hours, averaging eight percent water. Water percentage the last hour jumped to 30 percent, indicating failure of packer to hold. Operators will probably cement off the water. Total depth of No. 1 Matthews is 5,018 feet in lime. It has been acidized with 1,000 gallons at that depth.

A case of typhoid fever is reported here. The victim came in here recently from California. Three other typhoid victims are located southeast of Artesia.

Big Producer May Be Finished Sometime Today

Jackson 3-A of Nash and Windfohr Flowing 340 Barrels Daily

NUMBER TESTS START UP IN EAST EDDY

One of the largest potential producers yet drilled in eastern Eddy county will likely be finished today. This being the Jackson 3-A of Nash and Windfohr, SE sec. 13-17-30, reported yesterday to be drilling below 3495 feet. The well has been flowing by heads from two breaks, the first found at 3365 and the second from 3450-65 feet. The test has been flowing at the rate of 340 barrels in twenty-four hours, while drilling is underway. Drillers say part of the oil is lost and the natural flow would be much greater if permitted to produce in the regular manner.

Another producer was finished in eastern Eddy county in the Gissler 4 of the F. W. and Y. Oil Co., NE SE sec. 14-17-30. At 3430 feet production is estimated at 150 barrels daily. Workmen will acidize the producer again today.

In the Jal area, southeastern Lea county, Continental Oil Co., Stevens No. 1-A-34 sec. 34-23-36, has been completed as a gasser at 3600 feet for a gas flow of 62,000,000 cubic feet per day. The well was originally drilled to 3691 feet and plugged back to 3600 feet.

Workmen are preparing to re-run tubing in the Collins et al., Weiler No. 1, NW sec. 13-24-36 in the Black river section, Eddy county. Intermittent swabbing tests have been made and conservative estimates place the production of the Weiler at twenty to thirty-five barrels daily. Further development will be made of the area, but extensive development of this section may be hindered until oil operators find an outlet for their production.

In southern Chaves county, English and Harmon are drilling below 3550 feet on their Billingsley No. 1, SE sec. 9-15-29. A third showing of oil was found at 3365 feet. Operators may acidize the next showings if commercial production is not found within the next 250 feet.

Two failures were reported for wildcat areas of Lea county recently. Ailes No. 1 of the Continental Oil Co., SE SE sec. 25-25-38 is being plugged at 4841 feet, after developing a small show of sulphur water. Also the Lea No. 2 of the Texas Co., NW sec. 15-20-34, which was drilled to 3703 feet and plugged back to 3685 feet to shut off sulphur water. The test was bailed dry after recovering only one barrel of oil in sixteen hours.

Four additional tests will soon be drilling in eastern Eddy county. These are: Emperor Oil Co., State No. 3, 660 feet from the north and 1980 feet from the west lines sec. 24-17-31. Joe Danciger, Turner No. 3, center NE SW sec. 18-17-31, building roads. Graybird Oil Co., Burch 8, SE NE NW sec. 19-17-30, rigging. Graybird Oil Co., Burch 9, SE NW NW sec. 19-17-30, building road.

Stanolind Oil and Gas Co. will soon start its Gilluly No. 9-A, 660 feet from the north and 1,980 feet from the east lines of sec. 24-20-36, on the southwest edge of production in the Monument pool, Lea county.

STATE GOLF TOURNEY

Approximately 108 golfers will participate in the New Mexico state golf tournament at Roswell, starting this morning on the Roswell eighteen hole country club. Carl Jones of Roswell is the defending state champion. Albuquerque was awarded the 1938 state tournament at a banquet held at Roswell last night.

Showers In Four Day Period Break Month Dry Heat

Showers which fell over southeastern New Mexico for a four day period ending Monday brought cooler weather to this section and moisture amounting to about an eighth of an inch. The rain here fell between 6:00 and 7:00 o'clock Monday morning. The showers extended north and east of Roswell and at Roswell a tenth of an inch of moisture was reported.

The rains broke a month of continued dry heat, when the mercury ranged from 100 to 108 degrees. Since the showers, the thermometer readings have been under the 100 degree mark.

Alfalfa Seed From A 20 Acre Patch

Jim Vogel's experience with alfalfa proves that cotton has not entirely replaced alfalfa as a money crop and that's not saying anything about the value of alfalfa as a soil builder. While considerable new acreage has been planted to alfalfa in the past three years, alfalfa has gradually lost ground to cotton as the principal crop. Mr. Vogel lives on a farm that has been in cultivation for the past thirty years. He recently sold the alfalfa seed from a twenty acre patch. The seed yield on the twenty acres amounted to 10,261 pounds and he sold the seed locally at fifteen cents a pound, which netted him \$1,744.37. He had previously cut twenty tons of alfalfa hay from the twenty acres which he sold at \$12.00 per ton or \$240.00. He was offered \$6.00 per ton for the alfalfa straw after the seed was threshed. The straw amounted to ten tons for a value of \$60.00. He figures that he will have at least one more good cutting or twenty tons which adds \$240 to the value of the total return this year. All told, the twenty acre patch of alfalfa should yield a cash income of \$2,384.37 or a per acre return of \$114.21.

Legion Installs New Officers On Saturday Night

Charles Martin Of Artesia Is Made Second Vice Commander

RATON CHOSEN AS NEXT CONVENTION CITY

The New Mexico department of the American Legion Saturday night installed Dr. Wallace B. Martin of Clovis as its new commander and adjourned until next year's convention at Raton.

The selection of Raton for the next convention came as business sessions of the 18th annual department convention drew to a close. Other cities seeking the meeting withdrew in favor of Raton and Lubbock. Raton was picked by a wide margin in the first ballot.

Together with Dr. Martin, the veteran selected the following other officers, who also were installed Saturday night:

E. L. Hinton, Encino, first vice commander; Charles Martin, Artesia, second vice commander; Frank Vaughan, Las Vegas, third vice commander.

H. C. Neuffer, Albuquerque, past commander, national executive committee; Edwin G. Hobbs, Melrose, alternate committee; the Rev. Harry P. Stagg, Gallup, reelected chaplain; Conrado Lucero, Las Vegas, sergeant-at-arms. H. W. Neely, Albuquerque, was reappointed department adjutant, at an executive committee session following adjournment of the convention.

The convention adopted resolutions advocating a reserve officers training corps unit at the state university in Albuquerque and at other state institutions which may be eligible and requesting a civilian conservation corps camp for veterans in New Mexico.

The following district commanders were elected: Felipe Garcia, Albuquerque, No. 1; Fred L. Ashley, Melrose, No. 2; Philip Larmie, Lincoln, No. 3; Claude S. Saunders, Lordsburg, No. 4; Dr. W. B. Cantrell, Gallup, No. 5.

Antelope Season October 1 To 5 For 275 Permits

The antelope season for New Mexico will open this fall from October 1 to 5, Elliott S. Barker, state game warden announced at Santa Fe Saturday. Five areas in three counties will be thrown open to the hunters with 275 permits to be issued.

Open seasons were ordered for the Mossman ranch west of Roswell, the Flying H ranch, northwest of here. In Sierra county, hunting will be on the Diamond Cattle company range. The first two hunting areas are located in Lincoln and Chaves counties. Applications for permit should be filed not later than September 20th. A permit will entitle the hunter to kill one buck only.

A survey of the Lincoln-Chaves county areas made about three weeks ago indicated there were approximately 3,000 antelope on these ranges. (Continued on last page, column 6)

Cotton Picking To Be General By September 15

Middle valley cotton farmers will soon start harvesting what promises to be the largest prospective cotton crop on record. Cotton is opening in quite a few earlier cotton patches and picking may start within the next ten days. The cotton picking, however, will not be general before September 15th and where cotton was planted late before the latter part of September.

Gins are being repaired ready to start the ginning season. The picking price will likely open at sixty-five cents per hundred pounds, but several factors may govern whether the price will be advanced or decreased. Under the present market conditions, growers say sixty-five cents is a fair price.

The labor supply here is problematical. Pickers are not as plentiful as at the corresponding period of last year and few transient laborers may be available until the bulk of the Texas crop is harvested. Relief officials will likely be asked to suspend any form of work relief, but the relief rolls have been cut so low that this form of labor may not affect the labor supply.

Rural Schools Of Eddy County To Open Sept. 7

Eddy county rural schools will open September 7th, for regular class work and on September 1st registration and text book assignment will start. A meeting of all rural teachers will be held at Carlsbad August 30th in an all-day session.

The rural schools will open with thirty-six teachers, although this number will probably be increased to forty or forty-two later in the fall when the full enrollment is reached. The Otis schools will open with seven teachers, El Paso Gap one, Dark Canyon one, Rocky Arroyo one, Lakewood two, Loving nine, Malaga six, Harround Farm two, Dayton one, Oilfield one, Cottonwood five. Atoka school will not be opened until November 1.

Following a regular meeting of the county board of education, at Carlsbad last week, announcement was made that a strict enforcement of the compulsory school law would be made for all children under the age of ten from the opening date of the school term. Children above that age who are employed in the cotton fields will be required to attend regularly after the cotton picking season is ended.

In line with this action, the board appointed Francisco Pompa as county truancy officer for the balance of 1937. Resignation of Miss Armenda Carpenter, primary teacher in the Lakewood school, was accepted by the board and Mrs. Hattie W. Singer, of Artesia, was elected to fill the vacancy. Miss Carpenter plans to attend normal school at Las Vegas during the winter term.

COUNTERFEIT BILLS

Counterfeit \$20 notes have begun to appear again in New Mexico although none have been reported in Eddy county to date, according to official reports.

Description of the man passing the bills in the state lists the man as being about 36 years old, 5 feet 7 inches tall and weighing about 135 pounds. He has a dark complexion and is alleged to be a narcotic addict.

Bogus bills reported being passed by the counterfeiter are made on the Federal Reserve Bank at Dallas and are of the series 1928-A. They may be distinguished by broken lines on the face of Andrew Jackson, on the bill. Lines on the windows and shrubbery of the White House on the back of the bills are said to be broken.

Heavy Rains Fall Over Range East Of The Pecos River

Scattering showers continue to add moisture to this section. Tuesday night a rain storm swept in from the northeast, drenching a greater part of the range country east of the Pecos river. A heavy downpour fell in the vicinity of Hobbs and Lovington, flooding the roads in that district and the moisture was general between here and that section of the country. The rains were lighter to the south. Much rain has fallen east of Roswell.

Yesterday afternoon a grass shower fell on the range west of here, on the Elzie Swift ranch west. (Continued on last page, col. 7)

Roswell Youth Fatally Shot At Night Club

William Gilbert Shot At Past Time Night Club Tuesday and Brother Is Lodged In Jail; Bartender Held.

William Gilbert, 21, son of J. C. Gilbert, Roswell attorney, was fatally wounded in an affray which occurred at the Past Time Night club, southeast of Roswell Tuesday night about 8:55 o'clock, and J. C. (Sonny) Gilbert, a brother, lodged in the Chaves county jail. Cole C. Agee, 36, bartender at the Past Time club, was held for investigation immediately following the shooting. He is said to have admitted firing the shot that killed Gilbert. Young Gilbert was rushed to the St. Mary's hospital, but died immediately from loss of blood from an abdominal wound. Agee is said to have stepped forward and handed officers a .356 army colt single action pistol when they reached the scene of the shooting.

Murder charges were filed at Roswell yesterday in the justice of the peace court against Cole C. Agee and the preliminary hearing is scheduled for Friday at 1:30 p. m. J. C. (Sonny) Gilbert, brother is being held in the Chaves county jail without charge. No inquest was deemed necessary by the officers.

Funeral services will be held this afternoon at the Ballard chapel with Rev. O. L. Wilborn, Church of Christ minister officiating. Survivors include Mr. and Mrs. J. C. Gilbert, his parents; two brothers, J. C. Jr., and Gatewood and a sister, Mrs. Robert D. Haire of Hobbs.

LAND REVENUE UP

SANTA FE—State Land Commissioner Frank Worden reported Monday revenues from state lands yielded the state a total of \$238,170.59 during July, an increase of \$58,489.52 over the same month last year. Oil and gas lease rentals and royalties returned a total of \$209,450.82 or \$55,238.10 more than in July, 1936.

TELLS OF VISIT TO WASHINGTON

Jack McClure, of the Cottonwood, outstanding 4-H club member, was the principal speaker at the luncheon program of the Artesia Rotary club Tuesday noon and told of his recent trip to the national 4-H club encampment at Washington, D. C. Jack was one of the 4-H club members of the state allowed to make the trip, which included a visit to interesting points in and around the national capitol.

Two baby members of the Rotary club, Col. W. B. Pistole and Grady Booker were introduced to the club. Col. Desk Pearson of Roswell, past district governor, addressed the new members briefly.

Visitors present included: Chas. Allison, Col. Desk Pearson, Herb Smyrl, King Polk, T. H. Boswell, all of Roswell, Bob Thies of Dallas, Phil Porter, former of Clovis, Jack McClure of the Cottonwood and the Rev. E. E. Baird of Alamogordo.

Twenty WPA Projects In Dist.

WPA work is being carried on through twenty projects in the zone of Chaves, Eddy and Lea counties under the direction of the newly created district zone manager, Harold Mendell.

Work just completed in some parts included the museum at Roswell, a school building at Roswell and one down in the central valley. New projects to be started are the school district buildings at the Diamond A ranch, twenty-two miles west of Roswell, and a teacherage combination home-economics building at Hagerman.

There are 530 persons working under WPA in the zone, each county having a distributed group at work on civic like construction.

Hattie Ruth Cole, daughter of Mr. and Mrs. Fred Cole, was painfully injured Friday evening when she fell from a horse she was riding home. The accident occurred when the horse stumbled and fell near the City park, throwing Hattie Ruth over its head. Fortunately, she sustained no broken bones.

WHEN AMERICANS DIED

A generation has passed since the sinking of the Titanic, yet that great disaster is still well remembered. Fifteen hundred persons died.

The Johnstown flood will never be forgotten—the world was agast when the total of 2,209 was tabulated.

The World War was the most sanguinary conflict in history. In it, 50,000 Americans lost their lives, and they are still mourned.

The recent Texas school explosion, which killed 294 children, brought universal sympathy and horror.

Yet last year 111,000 Americans met accidental death—more than twice as many as were killed in the great war—and it caused hardly a ripple in the flow of news. We read of some of those accidents in our paper—"John Jones, aged 45, died in emergency hospital after being struck by an automobile"—turn the page, and forgot them. This astounding callousness—this attitude of "Accidents always happen to the other fellow, not to me or mine"—is death's greatest ally.

Among men, heart disease is the only thing that kills more men than accidents. Such plagues as cancer, tuberculosis, pneumonia—plagues which are being fought by all the resources of science—are down the list. Recklessly driven automobiles, burns, falls, drownings, and so on—these are the great killers.

Practically every accident is preventable—and this is especially true of the motor car, greatest of all the killers. Care, competence, courtesy—these make up the accident prevention triumvirate. It's up to you—to all of us.

THE YELLOW PERIL

Students of history have read much of the so-called "Yellow peril," but up to now we have had little to fear from such a threat. Future generations may have something to worry about, even in isolated America, if Japan gains control of the four hundred odd million people of China with the resources of the Chinese nation. Then the "yellow peril" may cease to be a "bugaboo" and become a reality, if Japan keeps up its aggressive policy of acquiring new territory.

Insiders who know something of the current political and economical history of Japan say its same old story of the administration in power trying to get the attention of the people diverted from the bad state of affairs at home by picking a war with another country. Hitler has tried the same psychology in picking on the Jews and the Catholics. The psychology is based on the theory "if I can get you mad at somebody else, naturally you will forget, at least temporarily, your own troubles."

The yellow peril will become a real menace if the Japs are able to win the present conflict with China, which most military observers believe they will. For instead of having to deal with sixty or seventy million aggressive war-like people, if China is acquired it will be a half billion people.

THE HIGHWAY POLICY

We hold no brief for the New Mexico highway department regarding its policy of road building. We have not sought to find fault with the department in its efforts to build a connected system of highways so that the tourists or citizens may cross the state either north or south, east or west on a paved road. If and when such a connected system of highways are constructed it will fill a long felt need.

With a paved road traversing the state in the four directions we believe the highway department next owes it to the citizens of the state to build highways that will serve the greatest need and this need should not only be based on the amount of travel, but on the amount of taxes any particular locality or county pays into the state, also whether or not the particular roads or highways will serve the industries of the particular section.

It is an admitted fact that southeastern New Mexico pays a major portion of the taxes into the state and it is also an admitted fact that up until recently, southeastern New Mexico was sadly lacking in highways to serve its industries, not saying anything about the tourists who may come our way. We need and we hope to get better highways into the oil fields of Eddy and Lea counties.

LIMITED POSSIBILITIES

In commenting on New Mexico, one man says "New Mexico has possibilities and is a good state; the only trouble is that if you have anything to sell or to market, it is hard to get rid of it. And its going to be that way too as long as it costs so much to ship oil, farm produce, cattle or what have you to Albuquerque, a distance of 274 miles as it does to Chicago, a distance of some 1,700 miles. When a New Mexico resident has anything to sell, he is handicapped to start with because of hauling charges, for no matter what you grow or produce, you have to meet competition.

We have never heard of a logical explanation as to why such condition exists, but must confess that as long as it does exist the state of New Mexico will never be able to live up to its full possibilities.

GOOD ROADS, AUTOS TEND TO DECENTRALIZE CITIES

"Highway transportation by motor vehicle is the first great decentralizing transportation agency," says Thomas H. MacDonald, chief of the United States Bureau of public roads. Beginning with water transportation and continued by railroad development, transportation in the past has tended to concentrate large populations in small areas. Motor vehicles are now winding the ball which has been tightly wound with too many people in the center.

ies today is the first step in this decentralization. The automobile, together with suburban rail service, has allowed city workers easily to commute fifty miles daily, allowing a more wholesome mode of life for themselves and families. The next logical step, he believes, is the breakdown of oversized industrial units into smaller units that will be free of many of the undesirable characteristics of overconcentration, such as high living costs and overcrowding, but remain of sufficient size to retain the economies of mass production.

We Buy and Sell Typewriters, Adding Machines, and All Kinds of Office Equipment—The Advocate.

Chislings

Some modern mamas say rocking the baby isn't good for it. Hot ashes sometimes burns the little thing.

The Mountair Independent says worrying may make you patriotic. It will make your eyes red, your hair turn white and your feelings blue.

A resident of south Artesia says he often gets the idea that he is in the army because a young squirt in his neighborhood plays reveille every morning at 5:00 a. m. on his horn.

Electrician: "What's the matter with your hand, son; cut yourself?"
Son: "Nope. I picked up a bee and one end wasn't insulated."

The absent-minded professor is dead at last.

He came home in his cups the other night and, mistaking himself for his pants, hung himself on the bedpost.

First Girl: "Can I trust him?"
Second Girl: "Why, he's so crooked that the wool he pulls over your eyes is half cotton."

Excited Young Father: "Quick! Tell me! Is it a boy?"
Nurse: "Well, the one in the middle is."

A valuable riding horse once strayed away from its stable. Long and diligent search by the owner and those in his employ failed to locate it and the search was finally abandoned.

A few days later, the village dumbbell calmly strolled into town leading the horse to a clothesline halter. To amazed inquiry as to how he succeeded when many smarter men had failed, he replied: "I just figured where I would go if I was a horse—and I went thar and thar he was."

Here lies a pedestrian.
As cold as ice.
He jumped only once when
He should have jumped twice.

All of us are working for the Government. The trick is to get paid for it.

Asked to stay for church service after Sunday school was over, a little girl replied:
"But, mother, I don't want to stay for two shows."

Last week the Valley Theater had an electric sign on the front of the theater that made stockmen wonder. It read: "Painted stallion, Air conditioned."

The following invoice, kept by an editor, may be of interest. It was clipped from the Advocate of fifteen years ago: Been broke 361 times; praised the public 89 times; told 720 lies; missed prayer meeting 52 times; been roasted 431 times; roasted others 52 times; washed office towel 3 times; missed meals 0; mistaken for preacher 11 times; mistaken for capitalist 0; got whipped 8 times; whipped others 0; cash on hand at the beginning \$1.57; cash on hand at the ending 15 cents.

Health Column

Conducted by Charles M. Cree, Director of Public Health Education

COMMUNITY SANITATION

Traveling through New Mexico or any other state for that matter, there is often seen a condition which reflects neither beauty on the landscape nor credit on the local community. The condition referred to is the insanitary and unsightly collection of garbage, tin cans, discarded automobile parts, tires, and what-nots, that far too frequently garnishes the entries and exits of many of our communities.

On leaving town all one has to do is to take a look at the first arroyo and in many cases there is the local advertising of the communities. Civic or community pride should not tolerate conditions of the sort for which no valid excuse can be found. The housewife who cleans her house by sweeping the dirt under the rug can at least point out that the dirt cannot be seen, but here in the arroyo the community refuse is left in all its glory for the inspection of the passer-by.

Sometimes the tin cans in these monuments of civilization are burnt before they are dumped out but just as often as not they are merely dumped and consequently the piles are only too frequently convenient man made breeding places for flies. Whether or not, however, the condition is unsightly and disgusting and we in New Mexico who cater to the trade and goodwill of the tourist should not and must not permit promiscuous dumping of trash of all kinds to continue.

Organized dumping grounds should be established at some convenient place near the town or village but away from the traveled

Kernels From An Old Nut

A man, who through some misfortune or another was minus hands, or arms below the knee, was doing a considerable business at Main and Roselawn Friday as a card writer. Handicapped as he is he can write better without hands—holding the pen between the ends of his mutilated arms—than all but one in a thousand men can write unhandicapped.

At the same time there were upon the streets one or two apparently able bodied men seeking alms. So runs the world. I am reminded of the story of the two frogs who, in some way, got into the farmer's milk can on the way to market. When he opened his can at the market he found the two frogs—one dead, because he had given up, and the other blinking contentedly upon the chunk of butter that he had churned in his fight against his environment.

Whatever defects there are in our crippled friends ideals—and he gave evidence of some—dependence is not one of them. No good man is wholly indifferent to the appeals of the needy. There is no sane man but is inspired by the accomplishment of the man who overcomes his handicaps. There are few of us who cannot learn something from this humble cripple. Our young people might even look upon his penmanship with profit.

GATHERING HONEY CROP

Beemen have been busy the past week gathering the new honey crop. The crop will soon be marketed. The yield this year is said to be above the average with the honey comb well filled out. Bee culture, once an important biproduct of alfalfa, is not as extensive here as it once was, but has made some gains the past two years.

highways. For most communities a trench and fill method of handling this disposal is convenient.

Most communities have access to scrapers and graders and it is no very hard task to obtain the use of one of these for a few hours which is all that is necessary for the purpose.

The trench and fill method consists simply of a long trench of suitable depth with the excavated dirt piled up on one side. This leaves the other side available for trucks and wagons to drive up and release their loads. When the original trench is filled the scrapers or graders are again pressed into service and the dirt is piled back and the place where the dirt was is replaced by a new trench.

Another phase of community sanitation is the maintenance of vacant lots. It is not very fair to expect the owner of the lot to keep it cleaned up when as a general practice many members of the community use the lot as a convenient refuse pile for the disposal of many old or worn out articles. Community sanitation involves community cleanliness and it is up to the entire population to maintain a standard.

If we have any pride or interest in our own community let us see that we give our community a "Saturday night" every now and then, and let us begin by seeing that our community sanitation problems are properly taken care of. Community problems are our own problems and our own yards is the logical point at which to start, after which we can reach out further and further by organized community effort and make the towns and villages in which we live real advertisements of our pride in the state of New Mexico.

Crop Report

From indications as of August 1, all crops in the state, with the exception of tame hay, potatoes and grapes, are in line to produce better than last year's harvest, according to the monthly crop report issued by Fred Daniels, agricultural statistician for the United States Department of Agriculture. CORN: The condition of this crop as of August 1 was seventy-five percent compared with sixty-four percent August last year and seventy-four percent for the 1923-32 average. The present condition indicates a crop of 3,220,000 bushels, which is 1,035,000 bushels more than last year's harvest and 308,000 bushels less than the 1923-32 average production.

WHEAT: The winter wheat production is estimated at 2,829,000 bushels, from an acreage of 246,000. Last year the harvested acreage amounted to 125,000 from which 750,000 bushels were produced. The five-year (1923-32) average production for the state amounted to 3,766,000 bushels. The spring wheat crop is indicated at 3,100,000 bushels compared with 273,000 bushels harvested last year and 428,000 for the 1923-32 average production. The condition of the crop at this time is seventy-eight percent and compared with sixty-three percent August 1 last year.

TAME HAY: The August 1 production of the state's tame hay crop is estimated at 264,000 tons compared with last year's harvest of 266,000 tons. The condition at this time is eighty-two percent and compares with seventy-five percent last August and eighty-one percent for the 1923-32 average. The alfalfa hay crop has an indicated production of 213,000 tons compared with 209,000 tons harvested last year.

GRAIN SORGHUMS: The acreage of grain sorghums in the state is estimated at 375,000 acres compared with 300,000 acres harvested in 1936. The condition of the crop is seventy-three percent compared with sixty-six percent last year. The indicated production amounts to 5,625,000 bushels compared with 1,950,000 bushels harvested the past year and 4,338,000 for the 1923-32 average production.

FRUIT CROPS: All fruit crops in the state as of August 1 show an increase in the indicated production over last year. Apples have increased 310,000 bushels over last year's crop of 790,000 bushels to 1,100,000 bushels. The condition of apples is seventy percent compared with only thirty-nine percent a year ago. Peaches show an indicated production of 101,000 bushels from a fifty-four per cent condition. Last year the production was 56,000 bushels with a thirty-two percent condition. A crop of 56,000 bushels of pears is indicated as compared with 34,000 bushels last year. The percent condition of the crop is sixty-three percent compared with forty-five percent August 1, 1936.

According to the crop reporting board of the United States department of agriculture, excellent weather for corn, cotton, potatoes, beans, rice, sugar beets and most fruits and various other crops has resulted in a very marked improvement in crop prospects in the United States, and gives assurance of an adequate supply of food, feed, forage and fiber crops this season. Potatoes, cotton and rice are expected to show the highest yields per acre on record and most other crops are expected to yield much better than in recent drought years. Instead of crop yields about four percent above the usual average, as expected a month ago, present conditions justify expectation of crop yields nearly eleven percent above average, providing there are no unusual weather difficulties during the remainder of the season.

STATE CONSUMES SIXTY TONS OF FISH FOOD

SANTA FE—New Mexico's domesticated fish consumed some sixty tons of food during the last fiscal year at a cost of \$9,350, the state department said Saturday.

Principal items of the diet of the finnies in the state hatcheries, Jimmy Johnson, department fish specialist said, was beef liver, beef melts, horse meats and 22,893 pounds of dry food.

The dry food, he said, is equivalent to three times as much liver or other common fish foods.

So listed for the fish was an item of twenty gallons of cod liver oil.

We have forms to comply with the Social Security law—Advocate.

Hope Items

Miss Frances Johnson, Reporter

Dick Terry returned the first of the week from Carlsbad where he spent a week visiting relatives and friends.

Paul Bond of Carlsbad and David Olson of Los Angeles spent Friday in Hope visiting in the Will Keller home.

Foy Young left Sunday for Carlsbad, where he plans to spend the fall and winter, and where he has employment.

Mr. and Mrs. C. B. McCormack returned the first of the week from Brownsville, Texas where they spent the week-end visiting her parents.

Mrs. H. S. Cokes and daughters of Sweetwater, Texas arrived here the first of the week and are the house guests of Mr. and Mrs. Russell Lee while visiting here.

Mattie McClellan left Saturday for her home in Fort Worth, Texas having spent several weeks here visiting her cousins, Mr. and Mrs. Bryant Williams and family.

Mrs. Howard Williams and small daughter left Saturday for their home in Abilene, Texas, having spent the past month here visiting her parents, Mr. and Mrs. E. P. Cox.

Jesse Young, student of the Abilene Christian College, of Abilene, Texas arrived here Tuesday to visit his parents, Mr. and Mrs. T. E. Young, and other relatives and to attend business.

Mrs. David Buckner and children of Alamogordo spent several days here the latter part of the week visiting in the home of Mr. and Mrs. C. V. Prude and Mr. and Mrs. Calvin Buckner.

Mr. and Mrs. Ruie Powell of Los Angeles, California arrived here Monday to spend the next three weeks visiting their sister and brother-in-law, Mr. and Mrs. Andy Teel, and friends.

Raymond Elms of Lordsburg, formerly of Hope, spent the weekend at home visiting friends. He was the house guest of Thomas and Paul Coffin at their home here while visiting.

Mr. and Mrs. Dave Bunting and daughters, Maxine and Josayle, left Monday for Roswell where they will make their future home and where Maxine and Josayle will attend the public schools.

R. T. Mellard and daughters, Mrs. Billie Ballard and Lytal Mellard, and Philmore Mellard left Thursday for San Antonio, Texas where they are visiting their son and brother, Joe Mellard and family.

Newt Teel and sons, Andy and Morris, sold fourteen truck loads of cattle to parties in the Texas Panhandle last week. Parties who purchased the cattle trucked them to Texas, making two trips in six large trucks.

Marjorie and Frances Johnson motored to Pecos, Texas, Wednesday to take their sister, Mrs. Horace J. Dunne, to meet her husband who met her there to take her to their home in Odessa, Texas, having spent the past two months here visiting and acting as instructor in Camp Mary White.

Mrs. George Melton and children of Tularosa spent several days here the latter part of the week visiting her sister, Mrs. H. Crook ett, and brother, Buck Wilburn, and families. From here she went to Lower Pecos where she is visiting her sister and brother-in-law, Mr. and Mrs. Tom Runyan.

The Rev. and Mrs. Lynn Richardson and small daughter are here from their home in Fort Worth visiting her sisters, Mrs. Will Seoggin and Mrs. C. Bumgardner, and families. The Rev. Richardson is also conducting a revival meeting being held at the Baptist church, Mrs. Richardson was formerly Miss Florence Scott.

A water pump has been installed on the well at the school house to provide water for citizens whose cisterns and water tanks are empty of water. Due to the lack of rain in this vicinity farmers, ranchers and some of the town residents are having to haul water for domestic use and for cattle and sheep. This same condition was experienced during the drought of 1934 and the

Federal Grand Jury Indicts Potash Officials

A federal grand jury ended a two-week session at Santa Fe Monday, returning five more true bills including two re-indictments of officials of the New Mexico Potash and Chemical Company, Inc., and the Royalty Bond and Share Corporation.

The grand jury indicted more than eighty defendants in its incomplete report handed down August 9.

First indicted by a federal grand jury February 13 at Albuquerque, these officers of the New Mexico Potash and Chemical Company again were charged in the one indictment with using the mails to defraud and with conspiracy with intent to commit an offense against the United States:

George E. Montgomery, W. G. Halthusen, Hugh H. Williams, Charles Lamb, A. C. Nedeker, E. Ralph Seward, Sarvey O. Garst, George Edgar, W. R. Seward and H. E. Seward.

Similarly charged for the second time were these officers of the Royalty Bond and Share Corporation:

C. J. Little, Hugh S. Williams, Harvey S. Bowman, A. C. Nebeck, Harvey O. Garst, E. L. Hanson and E. J. Fox.

GROUND WATER CONDITION STUDIED

The ground water conditions along the Pecos river in the vicinity of Lovings and Malaga are being studied by the United States Geological survey, department of the interior.

This is in cooperation with the State Engineer of New Mexico, primarily for the purpose of determining the quantity and source of salt that is contributed to the water of the river in this area.

The data obtained in this investigation are filed at the office of the United States Geological survey at Carlsbad.

These data include the location, depth, and log of the wells and the available records of the water levels in them; also the location and altitude of the springs and the records of their discharge.

Loose Leaf Note Books—25c and 50c—The Advocate.

school well, being the most centrally located, has been equipped to provide water for those who need it.

Kenneth Goddard and Mr. and Mrs. Ted Hardy left Thursday for their homes in Worcester, Massachusetts, having spent a week here and in the Pecos valley visiting friends. Mr. Goddard visited Mrs. Goddard and their small daughter, Marylon, who are spending several months here visiting her parents, Mr. and Mrs. Robert Cole.

Navajos Launch Mustang Roundup

WINDOW ROCK, Ariz.—The Navajo nation prepared Monday to identify ownership of its horses—one of the tribe's marks of wealth since days when the war-painted braves used them to raid wagon trains and Mexican settlements in northwestern New Mexico and northern Arizona.

Four hundred white cowhands and Indians will within the week launch a giant roundup to put rope and branding iron "before the snow flies" on the 70,000 mustangs which the Indian service estimates range on the 16,000,000 acre Navajo reservation.

To the Navajo men, the roundup is actually about as popular as the paleface income tax return.

The Navajo today who has about twenty-five horses is regarded as wealthy.

Actually the animals are worth very little—small, scrawny, underfed, a cayuse in white stockings in white men's parlance—and the Indian service classifies them as "non-productive."

INSTALLS NEW REFRACTOR

In order to give his patients the special care and attention that their eyes deserve to attain both comfortable vision and eye protection, Edward Stone, optometrist, announced Monday he had installed a new Green's Refractor specially designed and constructed by the Bausch and Lomb company. This instrument is the very latest in scientific and mechanical perfection for the determination of refractive errors and functional imbalances. He said: "It is our desire to be able to render to our patients the most complete and up to date advice and service possible, and with the addition of this instrument we are better qualified to do so than has been our privilege until now."

WALTER KNOWLES TO TUNE PIANOS

Walter Knowles, blind musician of Lake Arthur, will tune pianos again this year. He has had several years experience in tuning all kinds of pianos and guarantees his work. Mr. Knowles, blind for several years, has been able to earn his own way by playing in orchestras and tuning pianos. He is a home boy and will do good work and will appreciate your patronage. See his announcement in this issue.

SOCIETY

HAGERMAN WOMAN HEADS AUXILIARY COMING YEAR

At the annual convention of the Auxiliary units of the state, held at Las Vegas this past week, Mrs. Jeanette Michelet of Hagerman was elected as president of the state auxiliary for the year 1937-38. Mrs. Ben Pior of Artesia was chosen as her secretary while Mrs. Norville Thacker of Carlsbad will serve as sergeant at arms. Mrs. John McCann goes into office as fifth district president.

The convention was one of the most successful with the reports of the year's work standing as a real tribute to the work of the out-going president, Mrs. Roy Cook, of Albuquerque. An executive meeting prefaced the opening of the convention Wednesday evening of last week and Thursday morning found twenty-two units answering to roll call at the convention hall. The entire morning was devoted to officers' reports which were of much credit to the administration. One of the outstanding features of the convention was the parade held Friday morning. The most striking note of this was the drum and bugle corps of the Junior Auxiliary of Albuquerque. These girls, attired in white satin blouses and blue skirts, were decidedly the hit of the parade.

Much time was devoted to child welfare thought during this convention and the honor guest of the convention was Governor Clyde Tingley, who spoke to the assembly on child welfare and the Carrie Tingley hospital for crippled children that has recently been completed in Hot Springs. A social evening was scheduled on the program in the form of a banquet held in the patio of the Castaneda hotel at which main event over two hundred guests attended. Frank W. Darrow of Albuquerque was toastmaster and the theme of the evening was child welfare. This banquet was sponsored by Mrs. W. B. Cantrell of Gallup, who has served the organization this past year as department chairman of child welfare.

Artesia unit was honored with two awards presented at this time. First prize for the Poppy poster contest, which is held each spring, was awarded to Delores Mayerhofen of Artesia. A citation for having the report of membership turned in first of the year was made to the Artesia unit at the same time.

Concluding the business of the convention was the election of delegates and alternates to the national convention to be held in New York City in September. They included Mrs. Michelet of Hagerman, Mrs. Roy Cook of Albuquerque, Mrs. Verna McMains of Santa Fe, Mrs. Alney Atherton of Albuquerque, Mrs. Lucero of Santa Fe and Mrs. Ben Pior of Artesia. Mrs. Pior was elected as one of the alternates.

The following members of the Artesia unit attended this convention: Mmes. Ben Pior, H. A. Hamill, Chas. Martin, Alec McGonagill, John Lively, H. W. Clady, Irvin Martin and S. A. Lanning.

ANNOUNCEMENT PARTY
Mr. and Mrs. Everett Arthur Paton announced the marriage of their eldest daughter, Wilma, to Mr. Kyle Clark, August 4th, in Clovis, New Mexico, at a dinner given Saturday evening to which twenty close friends and relatives were bidden.

The lace covered dinner table was centered with American beauty roses, the place cards were in the form of bridal bouquets. A beautiful three-tiered wedding cake was cut by the bride and served with the dessert course. At the close of the dinner, the happy couple were presented with a complete set of Gorham silver by the bride's parents.

The bride, one of Artesia's most charming girls, graduated with the class of 1937 from the Artesia High school. The groom made his home here for several years, and is employed in the oil field. Following a brief honeymoon at Colorado Springs, Mr. and Mrs. Clark will be at home to their friends in Artesia.

BUFFET SUPPER FOR CALIFORNIA VISITOR

Mr. and Mrs. John Rowland entertained honoring Mrs. Bill Bunting of San Pedro, California, Sunday evening. A long table was spread on the lovely lawn of the Rowland home and a buffet supper with barbecued lamb and fried fish as the entrees was served to the guests of this affair. The guest list included Mr. and Mrs. Bonney Altman, Mr. and Mrs. Robert Cole, and Mr. and Mrs. Cy Bunting of Hope, the honoree, Mrs. Bill Bunting, Miss Viola Brackett, and Mr. and Mrs. Lewis Story of Artesia. Mrs. Bill Bunting has been here for the past several days. She is the guest of her relatives in Hope.

THURSDAY (TODAY)

The Methodist Missionary society will meet with Mrs. Frank Wilson at her home at 3:00 p. m. Mrs. H. A. Stroup will be in charge of the program which will deal with the "Christian Missions and Rural Life" and she will be assisted in presenting the theme for the afternoon by Mmes. Landis Feather, Pat Gormely, R. O. Cowan, C. R. Baldwin and John McCann.

The Christian Women's association will meet at 2:30 p. m. with Mrs. Walter Graham. They will devote their afternoon to quilting a quilt they have just completed piecing.

The Presbyterian Missionary society will meet at 2:30 p. m. with Mrs. Rex Wheatley, hostess, at her home.

The Atoka Woman's club will hold a picnic supper at the home of Mrs. Howard Stroup at 7:30 p. m.

FRIDAY

The Past Noble Grand club will meet at the country home of Mrs. G. B. Dungan at 7:30 p. m.

H.2.O. Bridge club will meet with Mrs. Roy Lowe at 2:00 p. m.

Viernes Bridge club, which was postponed from last week will meet with Mrs. Owen Haynes, hostess at her home at 2:00 p. m.

SATURDAY

The girls of the local 4-H club will hold a demonstration of the cooking and sewing with a style parade at the Chamber of Commerce office all day Saturday. All who are interested in the activity of this organization are urged to attend some time during the day.

TUESDAY

The Fortnightly Bridge club will meet at the home of Mrs. Charles Martin for a one o'clock luncheon, followed by contract.

WEDNESDAY

Abnormis Sapiens bridge club will meet with Mrs. Jeff Hightower at 2:00 p. m.

YOUNG MATHON'S MISSIONARY SOCIETY MEETS

Mrs. Howard Stroup, who heads the Young Matron's Missionary society of the Methodist church as their president, was the hostess on Thursday afternoon, at her home south of town. The theme for the afternoon's thought was "Mexico," which was given to the group by Mrs. Stroup. Mrs. Herman Green conducted the Bible lesson for the day and Mrs. Donald Myers was in charge of the meditation and worship part of the program. The missionary paper called the "World News" was briefly but adequately reviewed by Mrs. John Rice who serves this interesting group of young matrons as their sponsor.

During the business session that prefaces the program at each meeting a lively discussion of some welfare work was given. Completed plans along this line will be announced at a later date. The hostess served a salad course during the social hour following the program.

FIRST AFTERNOON BRIDGE CLUB WITH MRS GREEN

Mrs. Arba Green was hostess to the members of her bridge club Tuesday afternoon at her home. Four substitute guests were invited to play with the First Afternoon club at this time and were Mmes. P. V. Morris, J. B. Atkeson, I. L. Spratt and E. A. Metzger. Club members who attended the party were Mmes. C. R. Blocker who won high score at the contract game of the afternoon, J. J. Clarke, Beecher Rowan, Jeff Hightower, J. W. Berry, Jessie Morgan and H. A. Hamill. The hostesses served a delicious ice course following the game.

ATTEND BAPTIST ASSOCIATIONAL MEETING

Several members of the First Baptist church here attended the annual Pecos valley Baptist associational meeting at Carlsbad Tuesday and Wednesday. Among those in attendance were: The Rev. and Mrs. P. G. Woodruff, Mmes. J. H. Myers, J. M. Story, W. C. Martin, Dell Walters, Ernest Seoggin, Carroll Brown, Perkins, Hearn, K. A. Bivens.

PICNIC SUPPER AND SWIM AT CLARK'S LAKE

Mr. and Mrs. Al Woelk, Mr. and Mrs. Johnny Williams, Mr. and Mrs. Howard Stroup and Mr. and Mrs. Fletcher Collins had the pleasure of a picnic supper and swimming party at Clark's lake Tuesday evening.

Homemakers' Exchange

of Helpful Household Hints and Recipes

Conducted by ELEANOR HOWE

Connect a light to the underneath side of the bed instead of at the head. Then you can turn it on at any time during the night without either blinding yourself or awakening your room mate. You can forget all about window-shades, too, and tramp around partially dressed, because the light shines only on the floor. It will save you from stubbing your toes against the furniture, too.

What is more useful than an excellent recipe for a fruit sherbet? Served with a meal or served as a dessert, it is equally popular with every member of the family. Try this recipe!

PINEAPPLE MILK SHERBET
Scald 1 pint milk, add to it ½ cup of sugar and blend well. Soak 1 tablespoon plain gelatin in 1 tablespoon cold water and dissolve in the hot milk. Add 2 beaten egg yolks, remove from flame and cool.

Combine 1 cup crushed pineapple and 2 tablespoons lemon juice and add to the milk mixture; then fold in 2 beaten egg whites. Add 1 teaspoon lemon extract.

Freeze in ice cream freezer using proportion of 3 parts of ice to 1 part of rock salt, by volume. Note: The modern ice cream freezers, now available on the market, will freeze ice cream and sherbet mixtures in 5 minutes turning time, and the desserts so made are deliciously smooth, creamy, and delicate in character.

If the little metal ends have come off the children's shoe-strings just mend them in this manner: dip them into a bottle of glue, then twist and let dry. The children will find them easy to handle and the purchase of many pairs of new shoestrings will be avoided.

Sandpaper baby's new shoes and he will not slip when learning to walk.

If chewing gum gets stuck in carpets or clothing, or even in the hair, hold a piece of ice against it. That will harden the gum so that it can be scrapped off like dust.

Here's a recipe for a NUT BREAD Mix you will enjoy making and serving. Sift together 1 cup of flour, 2 teaspoons of baking powder, sugar, then blend in ½ cup of whole wheat flour. Cut in ½ cup of shortening and add ½ cup of nut meats. Store in modern air-conditioned ice refrigerator until desiring to bake.

The mix will keep fresh until needed because the air-conditioning chamber of the modern ice refrigerator prevents the rapid drying out of foods and eliminates the mingling of food flavors. When ready to bake remove mix from ice refrigerator, beat 1 egg and add to it 1 ¼ cups of milk; then add these liquid ingredients to the dry mixture. Mix thoroughly. Pour into greased loaf pan and bake in a moderately hot oven (375°) for one hour.

Open asparagus cans from the bottom. The asparagus can then be pulled out by the ends, without spoiling the tops.

Use your empty flour sack for rolling out cookies or pie crust. Turn it inside out, stretch across a damp table top, sprinkle with more flour, if necessary, and the dough can then be rolled out on it evenly and without sticking.

THE FUN LOVER'S DANCE

The regular dance of the Fun Lover's club was held at the Woman's club house Friday evening with the following girls as hostesses: Misses Annadele Williams, Rachelle Swift, Helen Gates and Lela Bess Mann. Attending the dance were Misses Mamie Bell Terry, Mary Woods, Jessylee Cunningham, Cora Lea Ansley, Billie Green, Vivian Haldeman, Geraldine Beckett, Edith Coleman, Dorothy Berry, Bette Cornett, Eunice Cadell and Virginia Gates, and Bert Muncy, Jr., Douglas Phillips, Joe Hawkins, Carey Thompson, Arlene Reno, Benton Reed, Warren Clendenen, Clyde Dungan, Rell Johnson, Clyde Tidwell, Charlie Floore, Blaine Haines, Robert Garner, William Dunn, Gene Chambers, Hoyt Traylor, Max Johnson, George Teel, Lloyd Evans, J. H. Ansley, Alfred Manley, Olin Woodside, Chester Lapsley and Preston Dunn. Mr. and Mrs. I. L. Spratt were chaperones.

HOPE WOMAN'S CLUB PARTY

The Hope Woman's club met Tuesday afternoon at the home of Mrs. Curry. Miss Katherine Whitechurch, county extension agent led the discussion of family relations. Members present sang group songs and discussed plans for future meetings. Plans were made for a community party to be held on the Hope school lawn next Tuesday, August 26th at 7:30 p. m. Luck supper will be served and each family in the community will be asked to bring a covered dish and attend the luncheon. Miss Whitechurch will have charge of the entertainment.

MR. AND MRS. CLAYTON ARE HOSTS TUESDAY

Mr. and Mrs. Leon Clayton were hosts to a number of their friends with a picnic supper at the John Fanning home Wednesday evening. Attending the party were Messrs. and Mesdames Vernon Bryan, Ralph Pearson, Cruze Corkran, Donald Fanning, Crawford, Harvey Yates, Harold Dunn, Orville Gray, and Mmes. J. A. Clayton and Roy Langston. After the picnic supper which was served on the lawn, various games occupied the attention of the guests until a late hour.

PRESBYTERIAN SUNDAY SCHOOL PICNIC

Approximately eighty Sunday school teachers and pupils of the Presbyterian church attended the annual picnic at the Dark canyon camp yesterday and enjoyed the outing. The day was spent pitching horse shoes, swimming and eating watermelon. Four cars were drowned in the Rocky Arroyo yesterday afternoon, following a heavy rain in that section, but arrived home without further trouble.

EXTENSION CLUB NEWS

The following weekly calendar for the extension clubs over the county was announced Saturday by Miss Katherine Whitechurch, county extension agent.

The Hope 4-H club girls met Tuesday morning with Miss Bobbie Woods. The Hope Woman's club met Tuesday afternoon. The Cottonwood 4-H club will meet this afternoon at the Cline home.

The Atoka Woman's club party will be held tonight at 8:00 o'clock at the Howard Stroup home.

Friday the Loving Woman's club will meet with Mrs. C. L. Reed at 2:30 p. m.

Miss Whitechurch will discuss family relations with the various women's clubs and plans will be made at the 4-H club meetings for the county achievement day here August 21st.

Mr. and Mrs. I. C. Dixon and daughter plan to leave Thursday for Deming, where they will visit with friends and relatives.

Mr. and Mrs. Leland Price, G. V. Price and Mrs. Thompson returned Sunday from the Ruidoso where they spent a short vacation.

HEAVY ROAD EQUIPMENT ORDERED

Highway officials said here yesterday that heavy equipment consisting of two auto patrols had been ordered for maintenance work on the western portion of highway 83. The equipment should have already been received, but is believed to have been delayed due to labor troubles in the industrial centers.

We Buy and Sell Typewriters, Adding Machines, and All Kinds of Office Equipment—The Advocate.

The Advocate's Tested Recipe

By Frances Lee Barton

SUMMER traffic in the picnic lunch department is as heavy as it is on the highways. By mid-season we have used up just about all of our bright ideas for varying the picnic fare and racking our brains only leads to assorted nervous disorders. About now a good suggestion is as welcome as food to a starving man. I've found in my experience that one of the best little picnic lunch "breach-billers" is

Sandwich Nut Bread
3 cups sifted flour; 3 teaspoons double-acting baking powder; 1 teaspoon salt; 1/2 cup sugar; 1 cup chopped nut meats; 2 eggs, well beaten; 1 1/4 cups milk; 4 tablespoons melted butter or other shortening.
Sift flour once, measure, add baking powder, salt and sugar, and sift again. Add nuts and mix well. Combine eggs and milk; add to dry ingredients and blend. Add shortening. Bake in greased loaf pan, 8x4x3 inches, in moderate oven (350° F.) 1 hour and 15 minutes, or until done.

SPANISH FOE... Premier Mussolini reported ready to send 50,000 Italian troops to Spain to aid rebels if Fuehrer Hitler will provide 25,000 German soldiers. Meanwhile, scores were reported killed as rebels opened aerial bombardment over Madrid.

SENATE LEADER... Alben W. Barkley, Kentucky, chosen by vote of 38 to 37 over Sen. Pat Harrison, Mississippi, to assume Democratic leadership left vacant by death of Sen. Robinson.

RICE BELLE... Clad in a costume of rice, brunette Juliette Bonnette will reign as harvest queen of Louisiana's \$17,000,000 rice crop, which scientists reveal as having new possibilities for the state's industrial expansion.

Water Carnival Queen Rules... Miss Virginia Coe, of Hollywood, Calif., chosen queen of the International Festival and Water Carnival at Long Beach, Calif.

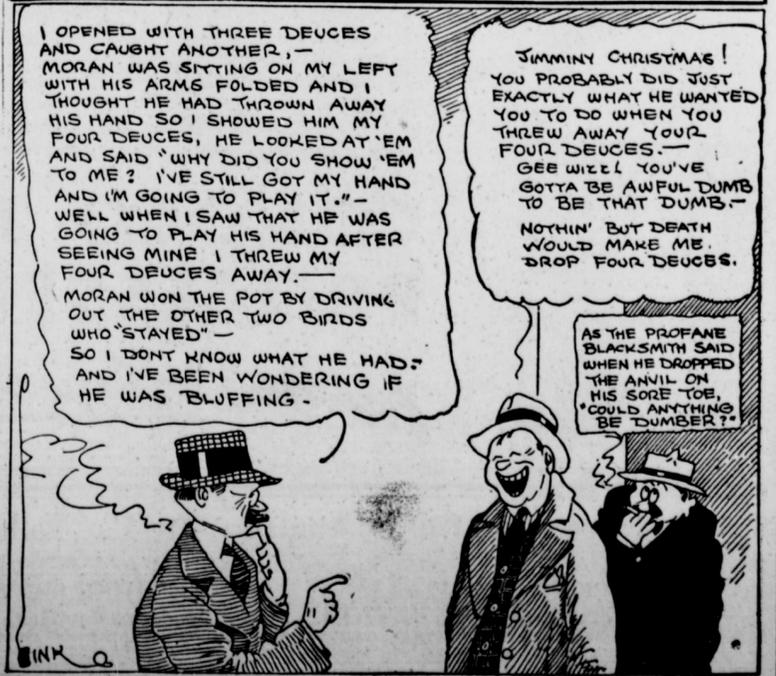

Charles W. Drossen, manager of the Cincinnati Reds.

Demo Leaders Try To Put Through 3 Key Measures

WASHINGTON—Administration leaders, reluctantly junking wage-hour legislation until next year, buckled down Monday to jam three key measures through Congress before adjournment.

They conceded they could not pry loose the controversial labor standards bill from the house rules committee and that even if they could, members were in no mood for a long floor fight.

This decision left these measures on the program, which probably can be completed Saturday night or early next week.

1. A bill to seal tax loopholes, against which little opposition has been recorded. The house agreed to debate it Tuesday and the senate was to take it up Wednesday.
2. A low-cost housing program, approved by the administration and already passed by the senate.
3. A deficiency appropriation bill, end-of-session routine. It provides for necessary federal expenditures which developed after regular appropriation bills were passed.

B. E. Spencer, Plaintiff, vs. Lena E. Staley, et al, Defendants. No. 6478

NOTICE OF PENDENCY OF SUIT

STATE OF NEW MEXICO, TO: Lena E. Staley, Winifred M. Staley, M. Melroy Staley, and William F. Staley, if living, and if dead, all of the unknown heirs of the said Lena E. Staley, Winifred M. Staley, M. Melroy Staley, and William F. Staley, if living, and if dead, all of the unknown heirs of the unknown heirs of all of said last mentioned defendants, and all unknown claimants of interest in the real estate hereinafter described, to wit: A tract of land, 250 feet wide by 300 feet long, situated in Section 8, T 1 S, R 26 E, NMPM, and more particularly described as follows, to wit: Beginning at a point 398.5 feet west and 340 feet north of the southeast corner of the SW 1/4 SW 1/4 of said Section 8, thence west 250 feet, thence north 300 feet, thence east 250 feet, thence south 300 feet to the place of beginning; The Estate of Amanda A. Hilton, deceased, the Estate of W. M. Carson, deceased, Diek Carson, Delbert Carson, the known heirs of the said W. M. Carson, deceased, Pearl Spencer and Lula Hipp, if living and if dead, all of the unknown heirs of the said last above named defendants, if living and if dead, all of the unknown heirs of the unknown heirs of all of the defendants last above named; and all unknown claimants of interest in the real estate hereinafter described, to wit: A tract of land 71.4 feet wide by 250 feet long, situated in Section 8, T 17 S, R 26 E, NMPM, and described as follows, to wit: Beginning at a point 398.5 feet west and 268.6 feet north of the southeast corner of the SW 1/4 SW 1/4 of said Section 8, thence west 250 feet, thence north 71.4 feet, thence east 250 feet, thence south 71.4 feet to the place of beginning; and a tract of land 49.6 feet wide by 250 feet long, situated in Section 8, T 17 S, R 26 E, NMPM, and described as follows, to wit: Beginning at a point 398.5 feet west and 189 feet north of the southeast corner of the SW 1/4 SW 1/4 of said Section 8, thence west 250 feet, thence north 49.6 feet, thence east 250 feet, thence south 49.6 feet to the point of beginning; The Estate of T. A. Standliff, Sr., deceased, and T. A. Standliff, Jr., and Elizabeth Standliff, all of the unknown heirs of the said T. A. Standliff, Sr., deceased, if living and if dead, all of the unknown heirs of the said T. A. Standliff, Sr., deceased, and all of the unknown claimants of interest in the real estate hereinafter described, to wit: A tract of land 250 feet wide by 300 feet long, situated in Sections 8 and 17, T 17 S, R 26 E, NMPM, and more particularly described as follows, to wit: Beginning at a point 398.5 feet west and 111.4 feet south of the southeast corner of the SW 1/4 SW 1/4 of said Section 8, thence west 250 feet, thence north 300 feet, thence east 250 feet, thence south 300 feet to the place of beginning.

GREETING: You and each of you are hereby notified that a suit has been filed and is now pending in the District Court of the Fifth Judicial District Court of the State of New Mexico within and for the County of Eddy, being Cause No. 6478 on the civil docket of said Court, entitled: "B. E. Spencer, Plaintiff, vs. Lena E. Staley, et al, Defendants."

That the general objects of said action is to obtain a decree quieting the title to the following described real estate:

A tract of land, 250 feet by 300 feet long, situated in Section 8, T 17 S, R 26 E, NMPM, and more particularly described as follows, to wit: Beginning at a point 398.5 feet west and 340 feet north of the southeast corner of the SW 1/4 SW 1/4 of said Section 8, thence west 250 feet, thence south 300 feet to the place of beginning; A tract of land 71.4 feet wide by 250 feet long, situated in Section 8, T 17 S, R 26 E, NMPM, and described as follows, to wit: Beginning at a point 398.5 feet west and 268.6 feet north of the southeast corner of the SW 1/4 SW 1/4 of said Section 8, thence west 250 feet, thence north 71.4 feet, thence east 250 feet, thence south 71.4 feet to the place of beginning; A tract of land 49.6 feet wide by 250 feet long, situated in Section 8, T 17 S, R 26 E, NMPM, and described as follows, to wit: Beginning at a point 398.5 feet west and 189 feet north of the southeast corner of the SW 1/4 SW 1/4 of said Section 8, thence west 250 feet, thence north 49.6 feet, thence east 250 feet, thence south 49.6 feet to the point of beginning; A tract of land 250 feet wide by 300 feet long, situated in Sections 8 and 17, T 17 S, R 26 E, NMPM, and more particularly described as follows, to wit: Beginning at a point 398.5 feet west and 111.4 feet south of the southeast corner of the SW 1/4 SW 1/4 of said Section 8, thence west 250 feet, thence north 300 feet, thence east 250 feet, thence south 300 feet to the place of beginning. You and each of you are further notified that you or any of you fail to appear or answer or plead in the above entitled and numbered cause on or before the 4th day of September, 1937, a decree by default will be rendered against you and each of you failing to appear or answer as aforesaid in above

cause; and that the allegations in Plaintiff's Complaint filed in said cause will be taken as confessed by you, and the relief prayed for in Plaintiff's Complaint will be granted by the court.

G. U. McCrary of Artesia, Eddy County, New Mexico, is the attorney for plaintiff in the above entitled and numbered cause, and his business address is Artesia New Mexico.

Witness my hand and the seal of said court at Carlsbad, Eddy County, New Mexico, this 27th day of July, 1937.

R. A. WILCOX, County Clerk. (SEAL) 30-4t-33

IN THE MATTER OF THE LAST WILL AND TESTAMENT AND ESTATE OF WILLIAM DAUGHERTY, DECEASED, C. E. MANN, EXECUTOR, PETITIONER, VS. CORA MATTESON AND ABBIE MCKINNEY, KNOWN HEIRS OF WILLIAM DAUGHERTY, DECEASED, AND ALL OF THE UNKNOWN HEIRS OF THE SAID WILLIAM DAUGHERTY, IF LIVING AND IF DEAD, ALL OF THE UNKNOWN HEIRS OF THE UNKNOWN HEIRS, DEFENDANTS. No. 6484

NOTICE OF PENDING PETITION TO SELL REAL ESTATE TO PAY DEBTS OF ABOVE ESTATE.

STATE OF NEW MEXICO: TO CORA MATTESON AND ABBIE MCKINNEY AND ALL OF THE UNKNOWN HEIRS OF THE SAID WILLIAM DAUGHERTY, IF LIVING AND IF DEAD, ALL OF THE UN-

Rules Governing Grazing Leases On Public Lands

Section fifteen of the Taylor Grazing Act of June 28, 1934, as amended by the act of June 26, 1936, provides that in the issuance of leases preference shall be given to owners, homesteaders, lessees, or other lawful occupants of contiguous lands to the extent necessary to permit proper use of such contiguous lands, except that when such isolated or disconnected tracts embrace seven hundred and sixty acres or less, the owners, homesteaders, lessees, or other lawful occupants of land contiguous thereto or cornering thereon shall have a preference right to lease the whole of such tract, during a period of ninety days after such tract is offered for lease, upon the terms and conditions prescribed by the secretary.

Notice is given that the vacant, unreserved and unappropriated public lands of the United States, exclusive of Alaska, and not included in any grazing district established under the provisions of section 1 of said Taylor Grazing act, and all lands included in outstanding one-year grazing leases issued pursuant to departmental instructions of October 22, 1936, are hereby offered for lease for grazing purposes.

Said outstanding one-year leases will expire on various dates and upon their expiration, the lands embraced therein will become subject to new leases without prejudice, however, to the rights of the present lessees to file timely renewal applications.

Any and all persons desiring to lease any part thereof for grazing purposes under the authority of said section fifteen of the Taylor Grazing act, as amended, or those having adverse or conflicting claims in the to such lands should file proper grazing lease applications or notice of their claims in the appropriate United States District land office or in the general land office for lands in the states in which there are no district land offices. Anyone desiring to assert a preference right to lease isolated or disconnected tracts of seven hundred and sixty acres or less will be allowed ninety days from July 31, 1937 within which to file proper applications for lease.

The holders of one-year leases issued under said departmental instructions of October 22, 1936, should not file new applications to lease lands embraced in their applications upon which such leases were based but instead should file petitions for renewals on forms provided. Said one-year leases will in no way be disturbed as a result of this action, nor will the preference rights of the holders of such leases be jeopardized thereby.

Notice is also given that all lands not on the date hereof subject to lease under this section of the act, by reason of their appropriation or reservation, but which become subject to lease at a later date, are offered for lease as of the date they become subject to such appropriation and anyone desiring to assert a preference right to lease isolated or disconnected tracts of seven hundred and sixty acres of such lands will be allowed ninety days from the date they become subject to lease within which to file proper lease application.

KNOWN HEIRS OF THE UNKNOWN HEIRS, OF THE SAID WILLIAM DAUGHERTY, DECEASED, AND ALL OTHER PERSONS HAVING ANY INTEREST IN THE ABOVE MENTIONED ESTATE, GREETING:

You and each of you are hereby notified that C. E. Mann, Executor of the Last Will and Testament and Estate of William Daugherty, deceased, has filed a petition in the District Court of Eddy County, New Mexico, which said petition is now pending in said court and wherein C. E. Mann, the Executor of the above mentioned estate is named as Petitioner and you and all of you are named as defendants.

You are further notified that the general objects of said action is to obtain an Order from the District Court authorizing and directing said Petitioner to sell Lot 2 in Block 15 Clayton and Stegman Addition to the Town of Artesia, New Mexico, same being property owned by said estate, to pay the debts of said estate.

Notice is further hereby given that unless you the said defendants above named and all persons having an interest in said real estate, enter your appearance in said cause on or before the 30th day of September, 1937, judgment will be rendered against you by default and Petitioner will apply to the court for the relief demanded in his petition and will apply for an Order to sell the real estate herein last above described and will apply the proceeds of the sale thereof to the payment of the above mentioned indebtedness.

The Petitioner's attorney is G. U. McCrary whose post office address is Artesia, Eddy County New Mexico. Given under my hand and seal of the District Court of Eddy County, New Mexico, this 11th day of August, 1937. R. A. WILCOX, Clerk of the District Court. (SEAL) 32-4t-35

Man Who Says He Explored Caverns Alleges He Never Heard of Jim White

The man who worked a claim in Carlsbad caverns in 1906-07 but never heard of Jim White at that time stopped at Midland, Texas for a brief visit last week, says the Midland Reporter.

Chas. Doss of Bonham, stock farmer in that section and rancher in Oklahoma, passed through Midland enroute to visit relatives in Odessa. He paused to visit his friend, Fred Wemple.

Doss had with him a set of photographs made in 1907 when he and some associates operated the El Paso Guano & Fertilizer works. Their business was selling guano from Carlsbad caverns to the Swift and Armour companies. In 1907 they sold the placer claim, with all equipment, to the Orange Growers association of California. While they operated the claim; they got out sixty-four loads of fertilizer from the "bat cave."

They worked from an opening a half mile east of the present main entrance to the cavern. They had a track on which cars ran near the opening and had a cable 400 feet long with which a "wagon" holding 700 pounds of guano could be lifted from the cave to the surface.

After the first few loads, they found that by using a "drying out" process, the guano could be reduced in weight and simultaneously increased in value, thereby producing much higher revenue. They bought the placer claim for \$6,500, in-

Joe H. Patterson and niece of Oklahoma City, Oklahoma arrived Monday. Mr. Patterson planned to spend a few days transacting business and visiting friends.

Dr. O. E. Puckett, district health officer of Carlsbad, was a business visitor here Tuesday. Dr. Pickett was here looking after some typhoid fever cases.

Milestones of American Genius

Where the noted industrialist rests, in Wheaton, Illinois.

ELBERT H. GARY

THE name of Judge Elbert H. Gary will always rank high in the roster of American business genius. His keen legal intelligence and financial acumen contributed greatly to the development of many important industrial corporations, so that in the public mind he became almost a symbol of big business.

Born on his father's farm at Wheaton, Ill., he was brought up for a legal career, studying at the office of an uncle and at Union College of Law, which has since become a part of the Northwestern University. Though he practiced law chiefly in Chicago, Gary maintained contact with his native town, in which he served two terms as Mayor. One of his earlier business projects was the establishment of the Gary-Wheaton Bank, of which he became the President.

At the age of thirty-six he was elected a judge in DuPage County. By the time he entered his forties he had become an authority on corporation law and active in numerous corporate business enterprises and railroads, quickly expanding his wealth. Gary might almost be called the father of modern business mergers. His first large effort in this direction

was in combining the steel and wire industries. He formed the Federal Steel Company, and was an important factor in the organization of the United States Steel Corporation with a capital stock of one billion dollars—the largest in the world at that time.

The great American steel center, Gary, Indiana, is named after Judge Gary. Under his guidance what was a wasteland was developed into an important industrial center.

Judge Gary's cool foresight is aptly indicated by the fact that the stately mausoleum shown in the sketch above was built in his own lifetime. Instead of leaving his final resting place as a task for his family, he planned it carefully himself.

"Every man," he is reported to have told the memorial builders, "should prepare for death, just as he prepares for every business deal. So I want you to build a mausoleum for me in Wheaton. When the time comes, I wish to rest amid the scenes of my boyhood."

The time came in 1927 and Judge Gary's body now rests in Wheaton as he wished, in the mausoleum constructed when he was still alive.

Lowly Burger Burgoons Into Society And Acquires A Raft Of Relatives

The burghers of old Hamburg, where the viand got its name, would be astounded to see the bounds the hamburger has made! From a lowly start at roadside stands and picnics, the burger has made the grade at the smartest tables, and turned every hostess into a "burgeroo!"

Picking up brothers and cousins along the way, we now have cheeseburgers, nut-burgers, bean-burgers, corn-burgers, bacon-burgers. Now we indulge in burger-plates, burger-bats, burger-buns, and enjoy every minute of it!

To mix a lot of hamburgers at once, put your ground meat in a bowl, then mix in your prepared seasonings. Shape into patties (not too thick, please) and, to carry them, stack them up between sheets of waxed paper.

For your seasonings, use plenty of salt and pepper. And try adding, one or several: Worcestershire sauce; chopped onion, mustard; tomato catsup; chili sauce or garlic!

Burgers should be cooked in plenty of shortening (a modern cooking oil. Cook them slowly, or brown them quickly in hot oil and then let them steam until done.

First of all, be sure to try a "Burger Plate"—seasoned hamburgers, served with sauteed bananas!

Cuban Hamburger
 1 lb. hamburger 1/4 teasp. garlic-salt
 1 tbsp. tomato 1/4 teasp. celery salt
 catsup 2 green-tipped or all yellow bananas
 1 teasp. salt 2 teasp. butter
 1/2 teasp. poultry 4 slices bread
 seasonings

Mix hamburger thoroughly with catsup and seasonings; form into six flat patties about four inches in diameter and 1/4 inch thick; fry slowly in hot shortening until browned on both sides, turning once. While hamburgers are frying, cut the bananas in half lengthwise and then crosswise and saute in butter. To serve, place the hamburger patties on toasted bread, top with the bananas, using two quarters for each hamburger. Garnish with the remaining bananas. 6 servings.

Mexican Bean Burgers
 1 medium sized 1/4 teasp. chili onion powder
 1 bud garlic 1/4 teasp. pepper
 2 tbsps. masala 1/4 teasp. cayenne
 2 cups canned 1 lb. hamburger
 baked beans 1/4 teasp. celery salt
 1/2 cup tomato sauce 6 slices toast
 1 teasp. salt 1/3 cup grated American cheese

Sut onion in thin slices; chop garlic fine fry both in hot oil until tender and lightly browned; add the beans, tomato sauce, and seasonings. Simmer for about 15 minutes, stirring frequently. Mix the hamburger with the chili sauce and celery salt; form into six flat patties about four inches in diameter and 1/4 inch thick. Fry slowly until browned on both sides. To serve, place the patties on toasted bread. Cover with generous portions of beans and sprinkle with grated cheese.

Arrange four or five hamburger patties and thick slices of firm tomato on broiler rack or in pan in oven. Broil on one side, remove from oven and turn hamburgers and tomatoes; cover with two short strips of bacon, and arrange segments of good canned grapefruit on top of tomatoes on broiler. Sprinkle segments lightly with brown sugar and return rack to oven. Continue broiling until bacon is crisp and grapefruit segments are delicately browned.

Hearty Cheese-Burgers
 1 lb. hamburger 1/4 teasp. garlic salt
 1 tbsp. chili sauce 1/4 teasp. celery salt
 1 teasp. salt 6 slices pasteurized American cheese
 1/4 teasp. Worcestershire sauce 12 slices rye bread

Mix hamburger thoroughly with chili sauce and seasonings; form into six flat patties about 4 inches in diameter and one-fourth inch thick. Fry them in hot oil until browned on both sides, turning once. Toast six slices of cheese on untoasted side; heat in moderate oven (350 degrees F.) until cheese is melted—about 5 minutes. To serve, place hamburger patties on the remaining 6 slices of bread. Top with cheese-toast, cheese side down.

DAM REPAIR PROGRESSES

Repair work at Avalon and McMillan dams north of Carlsbad on the Pecos river by local CCC groups is progressing rapidly, according to Earl Shepard of the Carlsbad reclamation office.

The eastern embankment of McMillan dam is being strengthened by a dirt fill, and the western embankment is being reinforced with rip-rap, Shepard said. Work is preliminary to rebuilding the upper fifteen feet of the dam, Shepard said.

At Avalon a rock retaining wall is being laid in the spillway channel, he said.

CARBON PAPER—The Advocate.

15 Years Ago

(From the files of the Advocate, August 18, 1922.)

The weather continues dry and farmers and stockmen are in need of moisture. No general rain has fallen this year.

Artesia will have a three day Chautauqua next year.

Chauncey Yeager, popular high school athlete, returned to Artesia this week after spending the summer in Kansas.

The annual cowboy reunion and rodeo conducted near Hope last week was a great success. The business houses of Artesia closed Thursday and hundreds of people attended the event.

H. C. Altman and Ed Gill have returned to their home near Harper, Kansas. They filed on land near Hope.

About twenty young people attended the social Tuesday evening at the home of Earl Collins.

Mr. and Mrs. V. L. Gates and family left last week for the mountains where they will spend some time at the Ruidoso summer camp.

Harve West, who was seriously injured about a month ago on the Cottonwood in a run-away, is improving.

Many families are moving here to secure the public school advantages for their children.

Mr. and Mrs. John Dunn were given a charivari party Friday night.

CAR OVERTURNS AFTER COLLISION

A Terraplane sedan driven by Mrs. Zula Riley of Wewoka, Oklahoma overturned at the intersection of Quay and Second streets Sunday afternoon after the Riley car was struck by another car. Mrs. Riley, who was traveling south at the time of the collision, lost a rear wheel from her car. The top of the Terraplane was also damaged. Early reports were conflicting as to the identity of the driver of the other car involved, said to be a 1930 Chevrolet. Fortunately, no one was injured.

Mrs. Riley, a sister of Mrs. G. D. Woodside, has been visiting in the Woodside home for about three weeks.

ACP Program Improves Ranges

New Mexico ranchers, who complied with the 1936 ACP program, are now beginning to enjoy the long-time results of their practices, says W. A. Wunsch of the New Mexico State college.

In the state of New Mexico, 3,846 acre of range land were contoured under the ACP last year. For this practice, ranchmen received benefit payments from the government. The real value of the practice is now becoming apparent, however, as ranchmen find that grass is lush on contoured land that normally grows almost no grass at all. On the same ranch may be found hillsides that were not contoured, which are badly eroded and almost nude, and hillsides that were contoured and where grass is definitely established.

Another practice that was widely followed in New Mexico under the program last year was the building of tanks and reservoirs for watering livestock. More than 750 ranchmen followed this practice, some of them building 20 or 30 tanks on one ranch. In every county in the state, except Otero, these tanks have filled with water and the operators have water on ranges that heretofore were practically worthless several months of the year because of lack of water.

Another water development phase of the program was the drilling of wells. A large number of wells were drilled on ranges where proper distribution of livestock had been impossible, due to lack of sufficient water. The value of such redistribution is inestimable.

The building of fences was an important factor in the redistribution problem and 980 livestock producers took advantage of the 1936 ACP program to build 764,490 rods of fence.

"From this survey of only a few of the practices paid for by the AAA in 1936," says Mr. Wunsch, "it can be seen that ranchmen not only profited in 1936 by participation in the ACP, but will continue to benefit over a period of years."

TREE SPRAYING FINISHED

The spraying of trees in Artesia, under direction of Chas. Barley of Hope has been finished, it was learned here yesterday. The trees were sprayed for aphid and caterpillar worms. Workmen used a spray equipped with two nozzles mounted on a truck.

Inspect Cotton Fields Sept. 7-8

Valley farmers have been notified by Fred Barham, county extension agent, that Tom Reid, of State College, will visit Eddy county soon to inspect elite and registered cotton fields. Reid will be accompanied by a representative of the U. S. Cotton field station.

The men plan to inspect fields in the south portion of the county on September 7 and will inspect those in the north district September 8.

Barham explained that there are three classes of cotton seed recognized for record. Elite seed is genetically pure, originating from a single plant, the progeny of which has demonstrated its value in plot and field trials. No seed can be classed as elite unless under the direct control of the originator or breeder.

LEE STORE BURNED

The general store building of M. C. Lee at Lakewood burned last week. The fire of unknown origin is said to have threatened the Dauron building across the street. It was not learned if insurance was carried on the building and stock. The loss of the Lee building left only two business buildings on the main thoroughfare of Lakewood.

Social Security Program Is Now In Full Swing

SAN ANTONIO—Following observance of the second anniversary—August 14—of the signing by the president of the social security act, designed to bring greater security to men, women and children, Oscar M. Powell, regional director of the social security board announced this week that millions of people in the United States are participating in one or more of the programs administered by the board under this legislation.

As to the accomplishments of the board's responsibilities—public assistance, on a basis of need, and the two insurance plans, unemployment compensation and old-age benefits, Powell stated that:

- 1: The act's federal old-age benefits program is now in full swing with approximately 32,000,000 applicants for accounts;
- 2: All states and territories and the District of Columbia have passed unemployment compensation laws and the latest estimates indicate that about 21,000,000 workers are employed in jobs covered by these fifty-one laws, and
- 3: Approximately 2,000,000 of the needy—the aged, the blind and dependent children—are receiving public assistance from federal, state and local funds in forty-seven states, the District of Columbia, Alaska and Hawaii.

Progress also has been equally nationwide in the service programs administered by other federal agencies. With the aid of the federal government, the states have expanded their public-health services, have extended and strengthened programs for the promotion of maternal and child welfare, and have extended vocational re-education services for the disabled.

E. N. Thomasson of Denver, Colorado president of the Thomasson Production Co., stopped here briefly Saturday enroute to his home in Denver, Colorado after inspecting his oil holdings in south Eddy county. Mr. Thomasson said he was blocking acreage to drill a test well just south of Malaga.

Christ Jesus." (Phil. 2:5)
 Among the citations which comprise the lesson-sermon is the following from the Bible: "That your faith should not stand in the wisdom of men, but in the power of God." (I Cor. 2:5)
 The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "There can be but one mind, because there is but one God and if mortals claimed no other mind and accepted no other, sin would be unknown. We can have but one mind, if that one is infinite.

Just broke for . . .

GOOD BUY FOR RIGHT NOW!

WHEN you've got this fleet-heeled, smooth-powered, man-size Buick straight-eight to put a lift into the rest of the summer, why try to squeeze out the last long mile on a car that's already ripe for retirement?

Its trade-in value, you know, isn't getting any greater.

And new car prices, as you can well understand, certainly can't be expected to go down!

Meantime here's this valve-in-head straight-eight Buick. Selling at the lowest prices in all its history. Actually delivering, in some models, for less than certain sixes.

And so jam-packed with stirring action and solid worth that others can't hope to match it for value—no matter what they do next!

Go see for yourself! Turn yourself loose in a Buick of today—let it show its wares in its own entrancing way—and ask yourself if you can ever again expect to get so very much for so mighty little money!

You bet it's a buy! It has been for months. It's a good buy for right now—if only as a hedge against the future! Call us any time for a test-ride and we'll prove our words with some lively Buick action!

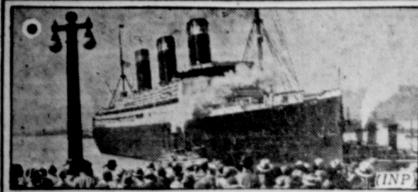

"It's Buick again!"

In The WEEK'S NEWS

CURRENT EVENTS PHOTOGRAPHED FOR THE MESSENGER

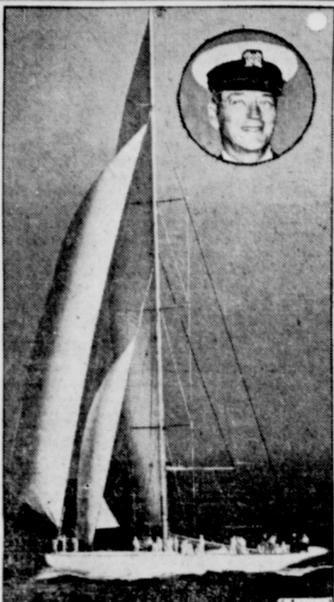

RECORD TRADE-IN—The government will allow \$2,000,000 to owners of the Leviathan, long the flagship of the U. S. merchant marine, on a new and greater flagship to cost \$16,000,000. The Leviathan at current rates will bring only \$1,000,000 as scrap. She transported 200,000 troops during the war.

THESE CHINESE!—Second son Edson Tung doesn't seem to like his first birthday party, which cost his father, Charlie Tung, laundry tycoon, \$4,000 to entertain 500 guests at the swanky Hotel Roosevelt in New Orleans. "Just an old Chinese custom," said Tung, Sr.

OUSTED... Rogers Hornsby's dismissal as manager of St. Louis Browns is said to have been due to rumor he plans to head Cincinnati Reds next year.

AMERICA'S CUP VICTOR—The sleek, white Ranger, owned and skippered by Harold S. Vanderbilt (inset), which ran away from the English challenger, T. O. M. Sopwith's Endeavour II in four straight races off Newport, R. I., and kept the "aud mug" in America.

LOST AT SEA—Believed to have struck with such force that it was destroyed by explosion and fire, a Pan-American Grace airplane with 14 persons aboard. Inset shows Pilot Stephen Dunn, of Miami, Fla., who was at the controls.

Wild and Woolly

By DUFORD JENNE

"NOW look here, Dorothy," her father said with a sudden contraction of his thick eyebrows, "out there against his plains and mountains your western hero may have looked all right, but get him here in the East and facing a finger-bowl and he wouldn't know what to do with it. He'd probably drink the water."

"But I don't see—" "I know you don't, Honey, but I do. Just now, you won't think of these things, so your dad must. Anyhow, mother and I are going to invite him here, and we're all going to get a good chance to look him over."

Dorothy's feelings were mixed when she left her father. To see Maylan again—she had been plotting and scheming herself, but she had thought more of going out to his father's ranch again rather than having him visit her aristocratic home in the East.

When he did come and she went to greet him, her first wild desire was to throw herself into his arms, but she knew her father did not think "things had gone that far."

She dressed for the evening in a simple white dress that she knew would please him and went down from her room. The guests were arriving, and she found herself busy greeting them.

Suddenly a stir among them made her turn. Down the broad stairs came two men; one white-haired, distinguished; and beside him, dark of hair and eye, serene, in evening clothes that fitted him perfectly, another, powerful of form and poised of bearing.

"I might have known with his commonsense and intelligence he would be at home anywhere," she thought to herself.

The last kink unraveled in the situation when she heard her father in the hall, later on, say with a new hearty note in his voice: "Man, you didn't need the coaching I have been giving you the last three days. You made too much of the social stunt and of this game. As for Dorothy, ask her any time; if she doesn't say the right word, I'll spank her!"

"My dear!" she said softly, then—"Come, let's run up to father's den, and talk of things—lots of things!"

FIVE MILLION COTTON SACKS

Will be required to harvest this year's cotton crop—The mystery crop, predicted by the Agricultural Department as being the largest per acre crop on record.

We, too, are predicting a record breaking sales season on pickers sacks because we have ALL lengths, ALL weights, and ALL styles at attractive prices. Think of us when you think of buying your pickers sacks.

Artesia Alfalfa Growers Assn.

STATE PRESS ELECTS OFFICERS

Richard Hinely of the New Mexico Press association and Mountair was selected as the next convention city Saturday at Las Cruces.

Officers chosen were Vincent Jaeger, Gallup, vice president; H. Kirby, Portales, secretary, and David Bronson, Las Cruces, treasurer.

Directors named are F. B. Rigdon, Carlsbad; Carey Holbrook, Albuquerque; C. W. Morgan, Alamogordo; E. E. Southard, Magdalena; Elda G. Mason, Gallup; J. C. McConvery, Santa Fe, and Orval Ricketts, Farmington.

Locals

A. P. Mahone underwent a minor nasal operation at the Carlsbad hospital Friday.

Mrs. C. J. Buck of the Cottonwood was taken to the Carlsbad hospital Saturday, seriously ill.

Louis Ogg, Jr., son of Mr. and Mrs. Louis Ogg, underwent a tonsillectomy Saturday morning.

Mr. and Mrs. M. G. Schultz and family are spending a few days vacationing in Ruidoso this week.

Mr. and Mrs. Lloyd Simon and son, Bobby, returned the latter part of the week from a short trip to El Paso.

V. S. Welch was a patient at an El Paso, Texas hospital several days last week, following an attack of bronchitis.

Wedding Announcements, printed or engraved—The Advocate.

Governor Tells—

(Continued from first page)

told the delegates there the state would build fourteen miles of road to connect Lea county with the new oil territory recently opened in west Texas near the state line.

Contractor Here
Ernest Everly of the state twelve miles of road to be completed from Artesia to the edge of the oil field, was here yesterday looking over the work to be finished with W. R. Eccles of Roswell, district highway engineer. Mr. Everly is expected to have equipment on the road ready to start work within the next ten days.

Antelope Season—

(Continued on last page column 6)

The permits are divided as follows: On the B. C. Mossman ranch west of Roswell, fifty permits; on the Flying H or Hendricks ranch and Scarbauer ranch, northwest of here, 125 permits and on the Diamond A ranch, north of Engle, 100 permits. A \$5.00 fee must accompany each application which must be in the state game office by September 20th. If more than 275 permits have been received up to that time a drawing will be held to determine which applicants will be granted permits.

Mr. and Mrs. J. W. Lively and Mr. and Mrs. Van Delaney, all of Bluff City, Kansas drove down last week for a visit with Mr. and Mrs. Lively's son, John Lively and wife here. After a trip through the caverns, Mr. and Mrs. Van Delaney left for home Friday, going by the way of Colorado, while Mr. and Mrs. Lively remained for a longer visit.

August 18	10.29	10.10

Congress will adjourn soon. That will be a relief since it is getting nowhere and seems to upset everything it tries to handle. Early January action on crop control legislation is promised but not necessarily guaranteed. Much opposition is in evidence already to crop control, however such legislation will come up for consideration as promised. Based upon such a promise the Administration has promised crop loans on such commodities as cotton, wheat, corn and a few others. Such loans will tend to establish a price at which these crops may sell, therefore unless a crop disaster overtakes us now we can reasonably expect this year's crop to sell around ten cents basis middling seven-eighths.

Additional payments which the President terms a bounty (which in reality is a subsidy) will be paid to those farmers who will cooperate in the crop control plans of the administration to be formulated and which are expected to become law next January. This additional payment will quite likely be the difference between the ten average spot markets and twelve cents and will be paid to all farmers on this year's crop whether they are co-operators of this 1937 season or not providing they do cooperate next year 1938 crop. This subsidy will be paid a year hence after it is possible to establish the fact of cooperation.

Under such conditions, if the market moves up the normal so as to run the ten average spot markets above eleven cents there will not be so much inducement to cooperate since five dollars a bale can easily be offset by most farmers with free unlimited production. Because of this condition the future course of the market is, as it always has been, entirely in the hands of the farmers. To us it looks lower right now, and during the heavy movement of the crop.

James McNeill, certification officer of the state department of education at Santa Fe, resigned his position Saturday to become assistant registrar of the Normal University of Las Vegas. McNeill is a former resident of Dexter.
