

Lanning Tells Of New Racket In New Mexico

Officer in Newly Created Game Association Says Organization Is Made To Stop Racket of Hunting on Preserve.

S. A. Lanning, Jr., president of the New Mexico Sportsmen's Protective association, denounced what he termed a "hunting racket" in New Mexico, in a prepared address before members of the Rotary club, at a luncheon program Tuesday. The New Mexico Sportsmen's Protective association, recently formed here was organized to combat this racket that has spread to other sections of the country, he said.

The racket referred to was the practice of the operation of private preserves and parks, over which the state game commission has little or no jurisdiction. Hunters, either local or out of state who care to patronize these preserves are not required to obey the game laws unless such obedience is voluntary on the part of the hunter. In other words, a hunter can go to a private preserve or a park either privately owned or leased from the state and federal government and hunt big game out of season.

Mr. Lanning told of one incident where an out of state car coming out of the hills in the summer time was stopped by an officer on suspicion the traveler had killed a deer out of season. The man had not only killed a deer out of season but a doe at that and instead of being arrested the man was freed with an apology from the officer after it had been determined that the doe was killed on the Harvey preserve with Mr. Harvey's permission.

Mr. Lanning further said: "I am told that Oliver Lee had 200 guests the past hunting season who paid \$100.00 each for the privilege of hunting in Oliver Lee's pasture in the Sacramento mountains. You can easily figure out the profit to Mr. Lee. Even though hunters paid their licenses, they can not hunt in the Lee pasture without a permit and when they venture over on the Lee preserve they are usually stopped by a mounted guard who displays a deputy game warden's badge and flashes a pistol if necessary. The Vermillion ranch is another that operates a preserve or park upon which paid guests only can hunt. This ranch is advertised as far away as Chicago and the ranch operators will guarantee to get a deer for its guests. And they are shooting game which every sportsman tries to protect when he buys a license. The ranch don't even require the guests to have a hunting license, although they usually observe the hunting season," he said.

Mr. Lanning also said the association of which he is president wanted better laws regarding posting. If land is legally posted it should exclude every hunter, even the land owner himself. Under the present posting law, a land owner is not excluded. He may hunt on his own land all he pleases and invite guests if he wishes.

Concluding his address the speaker said: "Since the sale of licenses supply the revenue for the preservation and propagation of wildlife, the New Mexico Sportsmen's Protective Association wants New Mexico game for New Mexico hunters and their guests."

J. W. Gage Dies At Carlsbad 11th

John W. Gage, 76, rancher near Pinon, died Thursday night in a Carlsbad hospital. His death was due to paralysis.

Gage came to New Mexico from Texas in 1902. He is survived by five sons, Floyd and Emmet Gage of Chihuahua, Mexico, and W. A., Edward and Roy Gage of Pinon. All were in Carlsbad at the time of their father's death.

The body was sent Friday to Pinon where funeral and burial rites were conducted Saturday.

Bats Migrate To Old Mexico To Spend Winter

Carlsbad Caverns have been abandoned as a winter home by millions of bats, who have discovered that they can hunt insects the year around in Old Mexico, Thomas Boles, superintendent, told the Current Argus at Carlsbad Monday.

About two-thirds of the caverns' estimated four million bats have migrated to caves in Old Mexico, Boles said. He estimates that only about one million will hibernate in the cave this winter.

The park superintendent's recent trip to Mexico, on which he visited the caves of that country, gave him a lead on what is happening to his bats this fall. Until this year, they started their winter sleep in October. They are still coming out nightly in great numbers, starting their flights at about 4:30 p. m., and returning in ever smaller numbers.

All of them will return in the spring, Boles said, to give the tourists their nightly show and keep the fertile Pecos valley free of insects.

Ed Markey, employe of the Continental Refinery here has been transferred to the Denver, Colorado plant of the Continental. Mr. Markey recently returned from Tulsa, Oklahoma, where he and Mrs. Markey and baby visited relatives. Mrs. Markey remained at Tulsa for a longer visit and will join Mr. Markey at Denver, probably next week.

Baby Prenatal Clinic

Mrs. G. C. Kinder, school nurse announces a baby and prenatal clinic to be held at the Central school next Tuesday afternoon, November 23rd from 1:30 to 3:30 p. m.

Johnny Prude brought in a ten point buck Monday, killed on the Prude ranch.

Artesia Hour Is Broadcast Over KGFL Saturday Morning

Station KGFL broadcasted the first of the series of Artesia hours here Saturday morning over remote control. The broadcast was held in front of the Artesia Chamber of Commerce building. Numbers broadcasted included several numbers by the Artesia school band, talks by Arba Green, manager of the Chamber of Commerce, Supt. W. E. Kerr on the school building program, the Rev. John Rice on the Red Cross roll call and Col. W. B. Pistole on why he chose Artesia for his home.

The broadcasts will be held here every Saturday morning as a weekly feature of Station KGFL until January and possibly longer.

Pneumonia Fatal To F. Richards

Frank Richards, aged 79, pioneer resident of Carlsbad and for twenty-five years Carlsbad's justice of the peace, lost a grim fight with pneumonia Saturday night when he passed away about 6:00 p. m. A heart attack suffered earlier in the afternoon is blamed by attendants for causing his death before the pneumonia crisis had passed. He suffered a stroke of paralysis last spring and was ill for about a week before he died.

Judge Richards' career was eventful. He was one of the state of Washington's first senators, having served four years in the senate after that state was admitted to the Union. He later lived in the territory for ten years from 1896 to 1906 and in 1906 moved to Carlsbad. In Alaska he served as United States marshal.

He was well acquainted here and had officiated at a number of wedding for local couples. Funeral services were held at Carlsbad Tuesday and the body was shipped to Chicago, Illinois for burial. He is survived by his widow and one brother, Milton R. Richards of Yakima, Washington.

Five People At Tucumcari Die Of Food Poison

Five mourners in party of ten are fatally stricken

Five mourners of a party of ten were dead at Tucumcari last night and physicians despaired of two others as the result of food poisoning contracted at a luncheon following funeral services.

Death claimed members of three families and threatened four members of another.

Governor Clyde Tingley rushed state health authorities there when a report of the public health laboratories at Albuquerque indicated that all of those who partook of the luncheon might be doomed.

Dr. C. H. Douthit, director of county health work, at once appealed for anti-toxin from the Hooper Foundation in San Francisco and from Kansas City in the belief others might have eaten of the fatal green peppers.

The deaths, it was determined, came from home-canned chili peppers, indicating botulism, customarily fatal.

The victims were Mrs. Eufalla Dominquez, 24, of Montoya; her mother-in-law, Mrs. Marie Benavidez, 40, of Tucumcari; Fay Marquez, 24, of Norton; Jose Rivera, 55, of Lubbock, Texas, and Lorenzo Rael, 29, Tucumcari.

Critically ill at Tucumcari hospital were Mrs. Joseph Lujan and Mrs. S. Marquez, whose condition was reported "serious." At the hospital, attaches said they were becoming "gradually worse."

Carl Gordon returned Sunday from Los Angeles, California where he has been under the care of a specialist for several months. Mr. Gordon's health is much improved.

NEW NASHS ON DISPLAY

A. L. Wilkinson of the Artesia Body and Fender Works announced Saturday that he had accepted the local agency for the Nash Motor Co., and had two new 1938 Nashs on display. The new cars on display are both four door sedans. These new cars offer many improved features in the 1938 models and the public is cordially invited to inspect these cars.

Telephone Employees Meet

Employees of the Mountain States Telephone Company were hosts to the construction crew at a meeting held in the Mountain States building last evening. A short business session was held after which the employes enjoyed refreshments of sandwiches, cake and coffee supplied by the lady operators. A social hour closed the evening.

The construction crew has recently completed a line into the oil field and a cable to the Continental Refinery, also improvements in the Keller-Ragsdale addition.

PWA engineers inspected the proposed retard dam site at Hope last week. This is expected to be the final step before actual construction can begin.

Mr. and Mrs. Don Myers are moving to Albuquerque where Mr. Myers has accepted a position with a bakery there. Mrs. E. J. Foster left Tuesday to drive with Mrs. Myers to her new home.

Typewriters for rent—Advocate.

Continental Housing Project Under Construction Here

Above is a reproduction of what the Continental Refinery project will look like when complete. This is not an exact picture of the local housing program, but a view of like houses built at another plant.

Employees of Continental Oil Company's Artesia refinery soon will be occupying new and modern homes, work having recently been started on a new community of houses just north of the local plant, according to Charles Morgan, superintendent.

This community will comprise seven houses of the bungalow type of architecture. Five will be four-room houses, and two will have five rooms, and all will be strictly modern, with tile baths, gas heating equipment, and electrical fixtures of the best design.

These seven houses will be erected on two sides of a hard-surfaced street, with concrete curbs and sidewalks. As soon as they are completed, a landscaping program will be started in order to add beauty to the surroundings of the community.

The houses in the new community will be as modern and up-to-date as can be found in any industrial community in America, testifying to the fact that Continental Oil Company is always interested in the welfare and comfort of its employes.

In addition to the houses, Continental Oil Company will construct a new building of the Spanish type of architecture, this building to be used for offices, laboratory and change room.

All local labor is being employed in this new housing project.

A story of the new Continental houses here was recently run in the Wall Street Journal.

Five People At Tucumcari Die Of Food Poison

Five mourners in party of ten are fatally stricken

Five mourners of a party of ten were dead at Tucumcari last night and physicians despaired of two others as the result of food poisoning contracted at a luncheon following funeral services.

Death claimed members of three families and threatened four members of another.

Carl Gordon returned Sunday from Los Angeles, California where he has been under the care of a specialist for several months. Mr. Gordon's health is much improved.

Half Red Cross Quota Is Secured

C. J. Dexter, local roll call chairman of the American Red Cross said Tuesday less than half of the Artesia Red Cross quota had been subscribed. The local Red Cross chapter serves practically the entire north part of Eddy county and includes the adjoining communities.

Approximately \$140 of a \$300.00 quota had been subscribed up until Tuesday, Mr. Dexter said. Saturday, booths will be maintained in the lobby of the post office and at the bank. The roll call ends Thanksgiving day. Donors should hold in mind that outside of a national membership fee of fifty cents, the proceeds from all contributions will remain in the local area to care for any disaster of local nature or for the needy.

If the contributions are liberal enough, Red Cross officials here hope to be able to establish a community chest fund sufficient to meet the local needs, so that a community chest campaign will not be necessary.

Members of the Legion Auxiliary have been assisting in maintaining stations at the post office and the bank lobby. Stations will be maintained for the last time here Saturday. In the mean time, if you wish to make a contribution to the Red Cross, leave it at the Chamber of Commerce office.

General News Briefs

One hundred and twenty deer were in storage at the Southwestern Public Service Co. plant at Roswell Saturday, it was announced. Quite a few turkeys and some bear have been brought to that point.

Elk hunters in the Pecos area had bagged only four buck elk Saturday, out of the fifty-four hunters granted a special permit to hunt in that section.

Three Rocky Mountain congressmen said they would oppose any (Continued on page 5, column 5)

Little Stockmen Are Being Frozen Out, Says Senator Chavez

Senator Chavez, charging government authorities with freezing out the small stockman said at Washington Saturday he would seek, during the special session, some kind of modification of the Taylor grazing act.

The senator said the stockmen are complaining that federal authorities in New Mexico are joining with large owners to freeze out the small fellows instead of trying to do away with the tremendous land holdings.

He said it appears that provisions of the Taylor grazing act, that owners of land adjoining the public domain, large or small, should have preferential rights in permits are not being carried out.

Numbering Houses For Mail Delivery

Patrons in the proposed free mail delivery district are asked to number the buildings so that a proper address may be established. The matter of numbering your business building or residence should be attended to at once so that there will be no delay or inconvenience by the postal department in inaugurating the system. A survey of the delivery route will be made probably next week by a representative of the local post office. Mail receptacles should also be erected in a convenient place and easily seen.

In numbering buildings or dwellings, the following facts must be kept in mind. Main street is the dividing line of the delivery zone or the city. Buildings or dwellings south of Main street will be referred to as South Second, South Third, etc., while dwellings located north of Main street will be referred to as 102 North Second, 105 North Third, etc. Residences, buildings, etc., should bear the name of the street on which the building faces, except when the building and lot or lots face in different directions and in that case, the street on which the lot faces will govern your number. Houses or buildings to the rear will go by half numbers.

If in doubt as to your correct street address or house numbers, consult the city officials.

Increased Flow Is Registered In Texas Co. Well

Well in Vacuum Area Flows 267 Barrels in Twelve Hours

SHUGART ET AL., WELL IS STILL IN LIMELIGHT

The potentiality of several oil tests at crucial depths are being closely followed by the oil fraternity interested in southeastern New Mexico. Chief among these tests is the State 1-L of the Texas Company, in the Vacuum area, western Lea county in SW NE sec. 1-18-34, which according to an early report was flowing at the rate of 267 barrels every twelve hours while drilling below 4,433 feet. Rumors that the Texas well was flowing at the rate of fifty-two barrels an hour yesterday could not be confirmed. First pay in the Texas test was found at 4,297 feet.

Ten miles southwest of the Maljamar pool in western Lea county, developments at the E. A. Shugart et al, Coulthard 1, SW sec. 15-18-31, is drilling below 3,523 feet in lime. Seventy-nine feet of sand was encountered in this test from 3,400 to 3,479 feet. No accurate estimate is available as to the amount of production of the test at the present time. Operators are hopeful of getting additional production in the next lime break.

In southern Chavez county, English and Harmon, Billingslea 1, SE sec. 9-15-29, is reported to have encountered another showing of oil between 3,665 and 3,669 feet, but the presence of water makes it impossible to determine how much oil was developed at this depth. Drillers are preparing to run five inch casing to shut off water developed from above.

In southern Eddy county, W. A. Snyder et al., Pecos Irrigation 1, SW sec. 15-25-28, is drilling in the fifth salt stratum below 2,198 feet. Fredrick et al., Reed 1, sec. 28-24-28, is drilling below 700 feet in salt. At 695 feet a rainbow showing of oil and a gas show was developed.

A Cap Rock well, the Nicholas et al., Johnson 1, NE sec. 36-16-31 is preparing to deepen 200 feet. When this test was recently opened up, it flowed 100 barrels in twenty-four hours through tubing and the following day pumped seventy-five barrels in the same period. Drilling is underway below 3,540 feet.

A wild cat in northern Lea county, the Crandall, Osmond and Maxwell, Maxwell 1, center SE SE sec. 2-11-36 is drilling below 5,050 feet in lime. No shows of any consequence have been logged.

The F. W. and Y. Oil Co., has spudded its Gissler 1-B, NE NW sec. 24-17-30, Eddy county.

The Skelly Oil Co., added further interest to the Vacuum area in staking its No. 1-J, center of the NE of the NW, sec. 31-17-35, northwest of the Texas Company well.

Mrs. M. C. Ross left Sunday to visit friends in Oklahoma City, Oklahoma.

Local Officials Urge Unemployed Register Census

City officials joined yesterday in issuing an appeal for the unemployed or the partly employed to register in the unemployed census now underway. J. L. Truett, post master said yesterday the response to the cards handed out had been poor. The census started Tuesday and will be concluded the 20th.

Those who are only temporarily employed may need aid before the close of 1938. Unless the card is properly filled out and returns made by the close of the 20th, such persons will not be able to participate in any sort of federal aid program, if such a program is launched to aid the needy.

The need for employment is expected to rise shortly after the cotton harvest season has closed, but unless those employed or partly employed respond to the appeal, it will be taken for granted that this section is able to care for its relief needs and Artesia or north Eddy county will not be able to participate in any program.

Norman Crowley and Bill Dooley arrived last week from Kansas City, Missouri. Mr. Dooley is employed with the Clay Products Co.

TRUCKER MOVES HERE

Mr. and Mrs. W. W. Gatewood and family have moved here and are domiciled at 202 Grand street. Mr. Gatewood is operating the Gatewood Trucking Company at both Artesia and Hobbs. He specializes in oil field hauling and has trucked for fourteen years for the Prairie-Sinclair Oil Co.

Mrs. Tom Runyan returned Tuesday from a fortnight's visit with her sister, Mrs. Feth Mills of Albuquerque.

Low Bid on New School Building Is Announced

Carlsbad Firm Submits Low Bid of \$141,722 For Consolidated High School Building—Work To Start By Dec. 13th.

Bids for the construction of the new consolidated junior-senior high school buildings were tentatively let at a meeting with the contractors here Tuesday afternoon. Although the low bidder was announced, final approval will be left to the PWA officials. J. J. Widmer and Company of Carlsbad was the low bidder among eight other contractors and submitted a bid of \$141,722. Other contractors submitting bids were: Lembe Construction Co., of Albuquerque; Heflin and Frisch, Artesia; Newstrom and Davis of Denver, Colorado; Ellis, Nicholson and Cramer of Oklahoma City, Oklahoma; K. L. House of Albuquerque; W. Frank Little Construction Co., of Amarillo, Texas, and Thomas Bate and Sons of Denver, Colorado.

The bid of \$141,722 includes construction of the new high school building and furnishing and equipping the new building and building a two room addition to the Central school.

The PWA requires that the building be started by December 12. Supt. W. E. Kerr said yesterday the school board would meet within the next week to decide what arrangements are necessary to make to house the high school and junior high school pupils while the building project is underway.

ALLEN STEWART DEAD

Allen Stewart, aged 45, oldest son of Cicero Stewart of Carlsbad and an employe of the Getty Oil Co., died Monday at Carlsbad after an illness of two months.

Stewart had lived in Carlsbad about forty years, moving there with his parents when a child. His father served as sheriff of Eddy county for about eighteen years. Funeral services were held yesterday afternoon in Carlsbad.

UNION THANKSGIVING

Union Thanksgiving service has been planned for Wednesday evening, November 24th at the First Christian church, it was announced here yesterday. Six churches will cooperate, including the First Baptist, the First Methodist, the First Christian, the First Presbyterian, the Church of the Nazarene and the Assembly of God. Music will be under the direction of Mrs. M. C. Ross. A detailed program will appear in our issue of the 24th.

W. W. Cain of Dodge City, Kansas visited Tuesday with Mrs. E. V. Haisley and Miss Grace Fowler. Mr. Cain is an old friend of the two ladies and stopped to visit with them on his way home.

GRAZING ELECTION

Election of the advisory board members for the New Mexico Grazing district 6 will be held at Roswell, November 26th, F. C. Dierking, regional grazier announced Saturday. John Lusk of Carlsbad is among the outgoing board members.

Something New Under The Sun

Something new under the sun! You may have seen it, but if you did you doubtless mistook it for something else. What we speak of is grinding alfalfa hay and straw and bagging it just like the sheepman bags his wool. Crawford and Smith, Carlsbad sheepmen hauled several truck loads of ground alfalfa straw from a local area this week. The alfalfa straw is ground and bagged in the field, loaded on the truck and trucked to the Crawford and Smith sheep farm south of Carlsbad, where it is fed. Bagging the straw after it is ground is about the only practical way of hauling it.

W. Leslie Martin, farmer south-east of Artesia is trying a feed method new to this country. Mr. Martin built two trench silos this summer and filled them with corn. The silage is supplying the principal feed for 450 sheep which are being fed out on the Martin farm for market. Mr. Martin is the first farmer to try out the trench silo in this community and is enthusiastic about the results so far.

THREE OUNCES OF WHISKY MAKES A DRUNKEN DRIVER

How much whisky makes an unsafe driver? Two jiggers! Dr. Rollo N. Harger, professor of biochemistry and toxicology at Indiana University, gave that estimate to highway traffic experts at the National Safety Congress.

Based on studies made with a new type "chemical breath smell" with which he seeks to replace the "policeman's nose test," Dr. Harger said that three ounces of whisky was sufficient to fog the brain and render an automobile driver unsafe. This moderate amount of liquor increases an individual's reaction time—the time required before the muscles obey the orders of the brain. Thus it appears that we need a new definition of intoxication in its relation to the operation of an automobile. To a person accustomed to alcohol, two or three drinks may produce no visible effect. The driver may seem sober in speech, actions and appearance. That same driver, turned loose on the highway with a car, is a menace to life and property.

Police reports from various representative states indicate that liquor is a definitely proven factor in ten to twenty per cent of automobile accidents involving fatalities and serious injuries. It is certain that liquor is an unseen factor in a much higher proportion of cases—cases where it is impossible to obtain legal proof of drinking.

One basic rule of safe driving must be, "Never operate your car after you have taken any liquor whatever, even though it be but a glass or two of beer." Alcohol and gasoline must be kept apart. The citizen who drives his car after a few cocktails, in the belief that he is perfectly sober, is basically as serious a public menace as the roaring drunk who goes careening down the streets and highways.

Dr. Harger describes successful experiments that have been made in developing chemical tests for intoxication. Every police department should keep up with the march of the times and take advantage of the new tests and machines that eliminate the human elements and make the determination of intoxication a scientific fact. Eliminate the drinking driver and we will have taken a long step toward highway safety.

ELIMINATE ADVERTISING

There are spasmodic demands to eliminate any form of advertising as an economic waste. The more recent agitation for the elimination of advertising is a brain storm of some of the national administration brain trusters, who have been encouraged by those who think we should become Russianized.

It is to be admitted that perhaps some forms of advertising over the radio, in newspapers and magazines is objectionable, but there would be just as much logic in trying to chuck the whole advertising scheme overboard as there would be in eliminating free speech because there are people who abuse this privilege.

Whether advertising appeals to you as an individual, fair minded people know that advertising furnishes the revenue for the entertainment and newscasts over the radio, the news and information received in the newspapers and magazines. Advertising is also credited with creating a demand for better living conditions which has enabled the American nation to enjoy the highest standard of living in the world. Advertising has created the demand which has made mass production possible and hence a luxury into a necessity. The American automobile is an outstanding example of a nation wide demand made possible by attractive prices and mass production. The American nation has three-fourths of the automobiles in the world today.

Those who should know tell us that advertising is not a factor in governing the desires of the European nations. It has been eliminated in Russia. The radio owners in most of these nations pay a tax on radios to hear programs under the government supervision. And the class of the European radio program is as far below the American standard of program as the European standard of living is below the American. Being under government supervision, the class of entertainment presented depends on whether the entertainers are in good standing with the government. The ability of the entertainers is not therefore a prime factor in selecting the kind nor the class of entertainment, which has come to be regarded as more or less of a propaganda spreader.

THE UNEMPLOYED

There may be some unemployed here among those who are physically unfit for physical labor, but there ought not to be a single able bodied laborer looking for work with the biggest cotton crop in the history being harvested. The unemployed census therefore should reflect a very favorable condition, temporarily at least.

The harvest hands are getting a break, too. The picking price is about the same as last year, but there is a big difference in the 1936 and the 1937 cotton market, which means that the farmer is not realizing as much from the present crop.

AN OLD CUSTOM

An ancient Greek once proposed that any legislator who proposed a new law should be required to enter the chamber with a rope around his neck. If the law he introduced failed to pass, the penalty would be death by hanging.

The merit of this is tremendous. Any legislator who proposed such a law in this country would be acclaimed, and if his colleagues refused to vote for it they should be lynched as a token of the people's disgust with the mass of crazy bills that jam the docket of every legislative hall in the country.

ON REDUCING CRIME

To reduce crime, to improve living conditions, no agency is better fitted than the local community itself. But the cause needs leaders—men who are intelligently aware of the problem and militantly determined to solve it. Millions of my own countrymen . . . need only to be awakened to their individual responsibilities to give to the underprivileged child an opportunity for a decent life comparable to that they insist upon for their sons.—Lewis E. Lawes, warden of Sing Sing Prison, in the Rotarian Magazine.

Many an outing intended for a petting party at a road house ends up in the morgue because of drunken driving.

Chislings

Back in biblical days it was looked upon as a miracle for an ass to speak. But, my oh my, how times have changed!

Many a fellow learns what's right at his mother's knee—and learns what's wrong at somebody else's knee.

Mae West says, "It's better to have a husband who comes in handy around the house than one who comes in unexpectedly."

"Chickens, sah," said the negro sage, "is de most usefulest animal dere is. You can eat dem fer' dey is bo'n and after dey's dead."

At the village picnic, two boys had competitive lemonade stands. Along came the village bully, and going to George's stand, said: "How much for your lemonade?"

"Five cents a glass," said George. Turning to Harry across the path he asked, "What's your price?"

"Two cents," was the answer. The big boy cast a sickening glance at George and said to Harry, "I'll take a glass of yours."

As the lemonade disappeared he smacked his lips and said, "That's good. I'll take another glass." And he grinned as he thought of getting two glasses for the price of one. "How can you afford to sell your lemonade for two cents a glass when George charges five?" asked the big boy.

"Well, you see," said Harry, "the cat fell in my lemonade and I'm closing it out."

Napoleon is quoted as saying that the only thing to conquer with permanent benefit is to conquer yourself.

Some women lead a double life, Her's and her husband's.

One Artesia woman has found a good use for her bridge table. She called it a sewing table when the preacher happened to call one day.

C. D. Marshall was handing out cigars Tuesday on being a new papa. Proud papas always do this on the birth of the first two or three, but this custom should be reversed and the boys who miss the experience of becoming a father, should provide the smokes. Anyway Marshall has been reading up on timely remedies for the colic and has been practicing walking the floor at nights in preparation to taking up his new duties.

Stockmen have been threatening to drive the old car another week since the housewives of the UAM at Detroit have led a strike on the high costs of meat.

RECORD WEIGHT CALVES

Boon Hardin, one of Lea county's most successful ranchmen, claims the record weight for calves this year. It has been his ambition for a number of years to have calves that would weigh out heavier than D. Jones and Lewen Culp—something that is hard to do. But this year he has succeeded in realizing this ambition. His steer calves averaged 504 pounds and his heifers 495 pounds.

Mr. Hardin says this is the finest country in the world for calves; that in no other place do they put on weight as rapidly during the summer fall months, especially when we have summer and fall rains.—Lovington Leader.

A daughter was born to Mr. and Mrs. James G. Williams Monday.

Kernels From An Old Nut

A new book came to the library last week entitled "Frontiers of the Mind." It gives the result of experiments that have been carried on at Duke University and a few other American colleges during the two or three years last past. The experiments disclose that a few people have what the author calls extra sensory perception, i. e. that they perceive some things outside the five senses to which are ordinarily accredited the source of all information.

The precautions taken against any possible pre-information appear to have been air tight. The relation of failures to success in the experiments are high enough to preclude accident and yet low enough to avoid any claim of being occult. Whatever faculty this is does not appear to have been improved by cultivation. Apparently the only value of the experiments to date is to demonstrate the fact that we do not yet know all that is to be known of the workings of the human mind.

The book is, or should be, of intense interest to the student of psychology. Some of the experiments that were conducted are so comparatively simple that like ones can be conducted by any two serious minded persons intent upon making such a test. A few such tests, conducted locally, should be of considerable interest.

The book is worth more than passing attention of careful investigators as well as of the curious.

WINS TENT

Buster Mulcock won the tent offered by the Brainard-Corbin Hardware Co. for the biggest buck killed with six points or less. The buck killed by Mr. Mulcock weighed 157 pounds and had four points.

Driver's License Law Is Explained

The following synopsis of the new drivers' license law was prepared by Col. W. B. Pistole and is timely. The article should be read by every auto owner:

The new motor vehicle driver's license law goes into effect on January first. In order that our readers may be informed as to some of its salient features an abstract of them is published herewith.

The law provides for two kinds of license: First, an ordinary drivers' license, costing one (\$1.00) dollar. Second, a chauffeur's license, costing two (\$2.00) dollars. A chauffeur is one who is hired for the principle purpose of driving an automobile or who drives a common carrier vehicle for transportation of persons or property. No chauffeur's license will be issued to any person under eighteen years of age. No driver's license will be issued to a person under fourteen years of age; but license will not be issued to those under eighteen except upon the written application of parent or guardian. Any license issued upon a false statement of a material fact shall be absolutely void and the holder thereof shall be deemed to be unlicensed. No license will be issued to a habitual drunkard or person addicted to the use of narcotic drugs including marijuana; nor to insane persons, idiots, epileptics, imbeciles and feeble-minded, nor to any person who has been convicted of reckless driving four times in any twelve month period; nor to any person twice convicted of a felony in the commission of which a motor vehicle was used. No person may operate a school bus who is not eighteen years of age, or a vehicle for the common carriage of passengers who is not twenty-one years of age. Every application for license must be in writing and verified by oath. And any false statement, knowingly made, is defined as perjury and punishable as such. (In a penitentiary).

The department shall forthwith revoke the license of any one convicted of manslaughter resulting from the operation of a motor vehicle, driving under influence of intoxicating liquor or narcotic drug; perjury or false affidavit in connection with the motor vehicle law; conviction of any felony in which an automobile is used; conviction of reckless driving three times in twelve months, or failing to stop and disclose identity at scene of an accident.

Courts have authority to suspend a license for ninety days on conviction of a misdemeanor in connection with the motor vehicle laws. Six months for a second offense and one year for a third offense. The holder must surrender his license to the court who retains it for the suspension period. Courts are required to make reports of conviction to the Motor Vehicle Commission. It shall be unlawful for the owner of an automobile to permit it to be illegally operated. It is likewise a misdemeanor to permit one's drivers license or chauffeurs badge or license to be used by another.

Chauffeurs are issued a badge which he must wear on his cap. Licenses must be carried by the persons to whom they are issued at all times.

COTTON GRADE IMPROVES

The report on cotton classed from the southwest irrigated section, which includes the states of Arizona, California, New Mexico and Texas, district 1 (that section of Texas west of the Pecos river) indicates a decrease in percentages of white good middling grades in Arizona, California and Texas, district 1 as compared with percentages reported last week. There is an increase in percentage of good middling grades in New Mexico this week compared with the report last week.

A very small percentage of the cotton classed was spotted in Arizona, California and Texas, district 1, but more than ten percent was classed as spotted in New Mexico this week.

A decrease is seen in the percentages of longer staple lengths in Arizona this week as compared with the report last week. Small change is seen in percentages of staple lengths in the report for California and Texas, district 1, this week as compared with the percentages shown in last week's report. The report shows that cotton classed from New Mexico this week ranged from shorter than 7/8 inch to 1 3/16 inches and longer.

Mr. and Mrs. E. J. Foster and son were called to Amarillo this past week because of a death. They returned home by way of the Texas Tech college at Lubbock for the homecoming football game scheduled at that time.

Press Opinion

Farmers Won't Join Labor

Anybody who surmises that there can never be an effective Farmer-Labor party in this country should ask a few farmers how they would feel if confronted with a union demand for higher wages in harvest time, on penalty of letting their crops rot. The American Federation of Labor, imitating the Committee for Industrial Organization, says it is going to organize farm workers on an industrial basis. The farmer may sometimes sympathize with labor, but not at the expense of his own pocket-book. Nobody in the world is quite so pocketbook-conscious in civic reactions as the farmer.

There are some communities where farm labor conditions are oppressive, but this is hardly ever true except in certain sharecropping areas and in those places that have brief seasonal employment, largely in the picking of fruit and vegetables. By and large, farm labor is well treated, in comparison with the standard of living of the farmer himself. If Messrs. Lewis and Green want the continued subservience of Congress and of politicians generally, they had better avoid provoking the farmer by trying to unionize his labor.

Mrs. H. A. Pope is improving from a recent illness.

SALMON EXPERIMENT IN STATE MAY BE FAILURE

SANTA FE—A five year experiment by the state game and fish department in the cultivation of Chinook salmon in fresh water was threatened with failure last week as tests indicated only the males of the species were surviving.

Jimmy Johnson, department fish specialist said he removed thirty-one salmon from Cienguello creek near Eagle Nest Lake and all were males.

The salmon were planted five years ago in what was believed to be one of the first attempts to bring the fish to maturity in fresh water.

Typewriters for Rent—The Advocate.

STRAPPING PLANT TO OPERATE SOON

Rom Holt, field auditor of the bureau of revenue, gasoline tax department said here Monday the strapping plant, used to measure tanks on oil trucks would probably be in operation the latter part of the week. The strapping plant, recently completed is located north of the L. P. Evans shop and is the only one in southeastern New Mexico.

SELLS FARM

H. C. Powell has sold his farm consisting of 160 acres, partly improved and located a mile south of the Cottonwood school to Monroe Howard. The farm adjoins that of Mr. Howard. Mr. Powell, a resident of the Cottonwood community for the past three years, was a former resident of the Pinon section.

TAKE IT FROM ONE WHO WOULDN'T FOOL YOU!

The model illustrated is the BUICK SPECIAL 4-door touring sedan—\$1047 delivered at Flint. Fenders, white sidewall tires and special accessories extra.

The prize Automobile Story of the year is wrapped up in Buick —with its DYNAFASH ENGINE and TORQUE-FREE SPRINGING

THERE are several hundred thousands of people who'll tell you from personal experience that Buick isn't one to promise what it can't provide.

So when we're all excited about the DYNAFASH engine and its companion-in-greatness, BuCoil TORQUE-FREE SPRINGING—we're not just gushing, we're stating facts you can prove out.

Step in—take charge—put this quick and quiet honey up against the kind of driving you know best—you'll sense instantly in its smoothness and lift that this car is really giving you more for your gasoline money!

Ask more of it than you've any honest right to ask of any car—and the fretless, gracious, joyous way it does things tells you that you've got something in that DYNAFASH engine!

And don't lavish all your praise on

the power plant! Great as it is, there's something equally great doing marvelous things at the other end!

That poised, jarless, winging ride is one thing that BuCoil TORQUE-FREE SPRINGING gives. Light-as-fluff handling—freedom from tail-wag—absence of wander—these also stem from those stout, easy-flexing, ever-soft springs of coiled steel.

You hold the road—even on sharp curves. You face fewer skid risks—even on ice-glazed streets. You find rear tires last longer, spring greasing is out, maintenance is simpler. All because BuCoil Springing is here!

Fool you? We wouldn't even try! Let us demonstrate, and you'll know which car you've got to have!

A SAFETY CUSHION ON EACH WHEEL!
Buick replaces the usual type spring with this special spring of stout coiled steel and big direct-acting Transpoort Type shock absorbers. Rigidly aligned by the Torque Tube, rear axle and wheels cannot twist or distort, cannot affect steering, greatly reducing danger from skids. No shackles, no grease points, no chatter, no premature rear tire wear.

MATCH THESE VALUES!

Complete with DYNAFASH engine and TORQUE-FREE SPRINGING, these models deliver at Flint, Mich. at these prices: Buick SPECIAL business coupe, \$945; Buick SPECIAL 4-door touring sedan, \$1047; CENTURY 4-door touring sedan, \$1297; ROADMASTER 4-door touring sedan, \$1645; LIMITED 8-passenger sedan, \$2250. All prices include standard accessories. Special accessories, local taxes if any and freight extra. Better Buy Buick on Easy General Motors Terms

SOCIETY.

CHURCH SOCIETIES

Young Matron's Missionary Meeting
The literary program of the Young Matron's Missionary society was in charge of Mrs. W. J. Bowden last Thursday afternoon, and a program of "Home Missions in Alabama and Georgia" was presented by the leader. Mrs. Herman Green and Mrs. Howard Stroup assisted with short talks on the stated subject. The devotional was led by Mrs. Bowden.

Owing to the holiday the attendance was not up to the usual quota for the organization but the meeting was one of value to the Methodist churchwoman. Mrs. Owen Haynes was hostess at her home for this meeting and following the program and business meeting, served light refreshments.

The meeting which is scheduled to fall on the twenty-fifth of November has been postponed until the next regular meeting which will be the second Thursday in December. This meeting will be a combined business and literary meeting at the home of the sponsor, Mrs. John Rice.

Baptist Missionary Society
The members of the Baptist Missionary society met at the church Friday for an all day meeting which was devoted to a study day. The book under consideration at this time was "Saved To Serve". Mrs. W. C. Martin reviewed the first three chapters of the book in the morning session while Mrs. J. K. Bivens and Mrs. Dan Walters took the remainder of the book during the afternoon hours.

The noon hour was a most pleasant break in the day's program of study and given over to a social good time at a covered dish luncheon served at the church. A large attendance of members marked this study day. Examinations of the book will be given at the church today at one-thirty. Both circles are asked to meet there for the test at this time.

ANNUAL SUPPER FOR O. E. S. HELD THURSDAY EVENING

A large crowd of Eastern Star members, their families and friends enjoyed the annual buffet supper of this organization at the hall Thursday evening. The pleasure of the affair was greatly added to by the generosity of Mr. and Mrs. A. P. Mahone who furnished Dr. Peppers for everyone. The very delightful meal was spread in the hall and following this a splendid program was given by the following: "The Good Ship Lollipop" was delightfully sung by Fild Hamill, accompanied at the piano by Mrs. John Runyan, Betty Barnett played a violin solo accompanied at the piano by her sister, Billy Sue, Mary Jo Lockridge read "An Essay on Husbands" in an amusing manner. A violin solo by Pat Runyan accompanied by her mother, Mrs. John Runyan closed the evening's program while a few tables of bridge rounded off the entertainment.

BACKYARD SUPPER PARTY FOR YOUNG PEOPLE

Mrs. I. L. Spratt entertained the following young people at her home Saturday evening with a supper party served in the backyard around the outdoor fireplace: Joy Ferne and La Donna Ferguson, C. B. and Delores Strebeck, Lewis and Wanda Story, Charlene and Rosemary Martin, Dorothy Linell, Jackie Clady, Johnnie Bert Lanning, Marbeth Jones, Christine Anderson, Mary Ruth Hearn, Hattye Ruth Cole, Sybil Pior, Helen Watson, Helen Louise Wells, Ruth Powell, Clara Ackerman, Bernice Marie Baldwin, Patsy Gormley and Louise Rice.

SUNDAY SCHOOL CLASS ENJOYS PARTY

Members of the Christian Home Builders Sunday School class of the Presbyterian church had the pleasure of a very lovely party given for them at the R. L. Paris home by Misses Mary Woods, La Verne Schnoor, and Fannie Woodruff, Tuesday evening.

After the short business session that was held a series of games, contests and stories provided the entertainment for the evening. Chrysanthemums and Mazanita berries were used to decorate the living rooms of the home.

The following guests had the pleasure of the affair: Mr. and Mrs. William Linell, Mr. and Mrs. Frank Smith, Mr. and Mrs. Hugh Kiddy, the Reverend Henry Stout, Johnny Bill Collins and the hostesses.

THURSDAY (TODAY)

Mr. and Mrs. E. J. Foster will entertain the dinner bridge club at their home at 7:30 p. m.

The Bridge-Its club will meet at the home of Miss Beulah Strang, hostess, for contract, at 7:30 p. m.

Mrs. M. A. Archer will entertain the members of the Thursday Bridge club, at her home, at 2:00 p. m. with dessert-bridge.

Mrs. A. G. Glasser will be hostess to the members of the Presbyterian Missionary society at her home at 2:30 p. m. Mrs. W. E. Kerr will be in charge of the program on "Siam."

The Methodist Missionary society will meet at the home of Mrs. George Frisch at 2:30 p. m., with Mrs. W. S. French in charge of the program on "Missions and World Peace."

The Episcopal Guild will meet at the home of Miss Addie Coll, hostess, at 2:30 p. m., with Mrs. E. N. Bigler, president in charge of the program.

The Home Maker's circle of the Baptist Missionary society will meet at the church for a covered dish luncheon followed by a work day.

The Charlotte Burnett circle of the Baptist Missionary society will meet at the home of Mrs. Dick Bynum for a quilting party.

Both the Charlotte Burnette circle and the Home Maker's circle will meet at the Baptist church at 1:30 p. m. for an examination on the mission study book just completed.

FRIDAY

Mrs. Fletcher Collins will entertain the Viernes Bridge club, at her home at 2:00 p. m.

Mrs. E. P. Malone will review a book of current interest at the regular meeting of the P. E. O., Chapter J, at the home of Mrs. J. B. Atkeson at 2:30 p. m.

The Miercoles Bridge club will be entertained at the Artesia hotel with a luncheon followed by contract by Mrs. Raymond Bartlett, at one o'clock.

Col and Mrs. W. B. Pistole invited the young people, eighteen years old and over, to enjoy their home at 1103 Main street and a moonlight party at 7:30 o'clock.

MONDAY

The Past Matron's club will meet at 2:30 p. m. at the home of Mrs. Reed Brainard, hostess.

TUESDAY

The First Afternoon Bridge club will meet at the home of Mrs. J. W. Berry, hostess, for their usual contract game at 2:00 p. m.

The So So club will meet at 2:00 p. m. at the home of Mrs. J. C. Bruce, hostess.

WEDNESDAY

Mrs. J. M. Story will be at home to the members of the Abnormis Sapiens Bridge club at 2:00 p. m.

LUNCHEON BRIDGE AT HOTEL FOR CLUB

Mrs. T. T. Flint entertained the members of the 1937 Bridge club at the hotel with a luncheon followed by contract, Friday afternoon. Mmes. John Lanning, Lucile Hare and Arthur Paton played with the club at this time as substitute guests.

Besides the substitute guests and hostess, places were laid for the following members at the luncheon table in the coffee room of the hotel: Mmes. Herman Terry, Kenneth Williams, Raymond Bartlett, Mary Evans, E. A. Metzger, D. A. Miller, Howard Whitson and E. N. Bigler.

At the contract game which followed the luncheon, Mrs. Bigler won high score and Mrs. John Lanning second high.

REBEKAHS HOLD INITIATION SERVICES

The Rebekah lodge met Monday evening for its regular meeting which was augmented by the initiation of Miss Pearl Naanes into the lodge. A large number of members attended the meeting and following the regular lodge ritual a social hour and refreshments were the pleasure of the guests present.

WOMEN OF AUXILIARY WORK FOR RED CROSS

The members of the American Legion Auxiliary unit here have taken over the work for the local Red Cross drive which is being conducted in the city this week. On Saturday, Mmes. John Lively, Craig Cornett, Frank Linell and Dick Vandagriff will be stationed at the post office to solicit the aid that is desired for this cause. At the bank will be Mmes. Herman Terry, Fred Cole, J. M. Story, and Charles Martin.

Advocate Want Ads Get Results!

DR. DANDO ADDRESSES WOMAN'S CLUB

Dr. William S. Dando of Carlsbad was the guest speaker at the Woman's club, Wednesday afternoon. A speaker of note as well as a clergyman of distinction, Dr. Dando chose for his subject "X-raying Our Mother Tongue." Handling his subject with very clever wit concealed in allegory, metaphors and simile, he led his listeners to the consideration of the inexhaustible combinations of the alphabet with the thought of the greatest books are yet to be written and the greatest thoughts are yet to be printed. Showing how a larger vocabulary increases one's power, Dr. Dando spoke of the English language as a vehicle for our use and regretted the fact that too many people travel about in a one cylinder vehicle of this sort which has often proven noisily inadequate, and one which would travel less noticeably so if the debris that causes the clamor were cleared away.

Taking in consideration that fifteen percent of the world speaks the English language and that seventy-five percent of the printed materials are in English, Dr. Dando spoke of the very definite possibility that the English language may become the universal one at some time. He advocated the club women as the custodians of the English language and stated that the index of character may well be found through the choice of words that is a real indication of culture. His closing thought was that education refines the tone and extends the area of appreciation.

The Rev. Dando was presented by Mrs. Martin Yates, hostess of the day and she in turn presented Mrs. Corbin, who introduced to the club two young girls in musical selections. Betty Irene Tope sang two numbers accompanied at the piano by Mrs. Corbin in a very delightful manner. The clarity and tone of this youngster is delightful to her hearers. Her voice has a most unusual flute-like quality and the handling of her numbers was creditable to a much older person. "Minstrels" by De Bussey was the piano solo selected by Sybil Pior. The modern time passages and harmonies of the number were very pleasingly done by the pianist.

During the business session of the club a new Fort Stanton committee was appointed with Mrs. Frank Wilson as chairman and Mrs. Charles Morgan. The next regular meeting will be the time for the box to be prepared for this hospital and the committee urges that club women keep this in mind bringing their contributions to the club house.

Mrs. H. A. Stroup, who has so faithfully served for a number of years as custodian of the club tendered her resignation from this duty because of her health and Mrs. Hightower was appointed in her place. Announcement of another substantial payment of the house debt was made. A very small balance is left on this debt. The rummage sales of the club have proven particularly remunerative and another one will be held at an early date. Club Women and their friends are urged to call members of the finance committee if they have any old clothing that may be used for this purpose.

WAFFLE SUPPER

Mr. and Mrs. W. Leslie Martin were host to a number of friends last evening at a waffle supper, honoring the Rev. and Mrs. Thomass Massie, who are leaving next week to make their home in El Centro, California. After a social hour the honored guests were presented with a coffee maker, as a token of esteem from the friends gathered at the Martin home.

Present were: Messrs. and Mmes. Mark Corbin, I. L. Spratt, W. C. Martin, Miss Mary Baird, N. M. Baird, Andy Corbin, Dick Burnett, the honored guests, the Rev. and Mrs. Massie and the hosts, Mr. and Mrs. Martin.

Mr. and Mrs. Hollis Watson and J. E. Robertson attended the bankers' convention held in El Paso this past week.

ENCHILADA SUPPER AND CARNIVAL AT HUT

Every one loves a carnival and the usual carnival spirit is promised in the one to be sponsored at the Legion hut Saturday by the Junior Auxiliary girls. Where fun for all, both big and small is promised and where an enchilada supper that will be topped off with pie and coffee is on the program for the evening a successful affair is expected.

The booths will be opened at four o'clock and serving will be done shortly after this time. Other dishes are included on the menu than the Spanish enchiladas. Prizes will be awarded and a general good time is anticipated.

PAST NOBLE GRAND SURPRISES MEMBER

Mr. and Mrs. George Johnson were very pleasantly surprised Friday evening as the members of the Past Noble Grand club arrived at their new home on Second street to wish them well and conduct their regular meeting.

A short business session was held before the social hour began. This hour of fun was a real one since the losing side with Mrs. Chase Davis as captain entertained the winners during this time. Members present included Mmes. Frank Thomas, Fannie Bruton, Ed Conner, Chase Davis, Effie Wingfield, G. B. Dungan, A. D. Whitener, C. Bert Smith, Misses Lina McCaw, Merrill Bradley and Elina Bauslin.

MRS. HOLLIS WATSON ENTERTAINS

The Fortnightly club were the guests of honor at a luncheon given for them, Tuesday afternoon by Mrs. Hollis Watson at her home. Chrysanthemums and other fall flowers were used in a pleasing manner by the hostess to decorate the home. Places were laid for the following members: Mmes. C. R. Blocker, Charles Martin, J. R. Attebery, Lewis Story, Leslie Martin, Glenn Booker, C. R. Baldwin, John Lanning, Landis Feather, William Linell, J. B. Atkeson and one substitute guest, Mrs. Grady Booker.

BIRTHDAY PARTY FOR JAMES INFELD

James Robert Infeld celebrated his birthday Saturday with several of his friends to help him with such a momentous occasion. Guests were invited by his mother, Mrs. J. E. Infeld, and when they had arrived at James' home were taken to the Clarke Lake for the party.

Games of various sorts occupied their attention and later ice cream and a birthday cake with candles and the usual decorations were served to the guests. Those present were Joe Watson, John Frank Herbolt, Bernice Marie Baldwin, Billy Fleming, Georgia Marie Infeld and Raymond Schoonmaker.

MRS. H. W. CLADY HOSTESS TO VIERNES

The members of the Viernes Bridge club met at the home of Mrs. H. W. Clady for their weekly session of contract Friday afternoon. All members were present for the delightful party. High score was won by Mrs. Boone Barnett and second high by Mrs. W. J. Bowden.

Following the contract game the hostess served a two course refreshment plate to the following guests: Mmes. Boone Barnett, W. J. Bowden, A. G. Glasser, Wren Barker, Fletcher Collins, Andy Comprany, E. E. Gillispie, Wallace Hastings, Owen Haynes, E. J. Foster and Dick Vandagriff.

D. WAYNE MILLER HAS BIRTHDAY PARTY

D. Wayne Miller was the guest of honor at a birthday party given for him by his mother, Mrs. D. A. Miller at his home Saturday afternoon. The following guests came to help D. Wayne celebrate his eighth birthday: George and Nancy Hart, Billy Wallace, June Anne Gissler, Jackie Clady, Merrill D. Sharp, Buddy Vandever, and Betty Bruce.

Many games were played by the little folks as they enjoyed this happy occasion. Later in the afternoon Mrs. Miller served two kinds of cakes, ice cream and candy, and presented the guests with balloons for favors.

Sale of a 240 acre farm near the Cottonwood church, property of W. A. Martin of Hastings, Nebraska to Buck Brothers was reported this morning by Judge N. C. Doering. It was understood the new owners will improve the farm and drill a shallow well.

Local Ginnings

Six local gins have ginned 2,006 bales since the report a week ago for the best week of the season. Total ginnings now run 12,265 bales against 12,033 bales at the corresponding period of last year. The present crop is approximately sixty five percent harvested against a ninety percent estimate at the corresponding period of last year.

The ginnings are divided as follows:
Lake Arthur gin ----- 350
Cottonwood gin ----- 3,010
Association gin, Española -- 2,243
Association gin, Artesia --- 1,887
Farmers gin, Artesia --- 2,259
Association gin, Artesia --- 2,525
Total ----- 12,265

Health Column

Conducted by Charles M. Cree, Director of Public Health Education

And Thou Shalt Have A Paddle

I feel that I should draw to your attention the early recognition of the urgent necessity for sanitation. In this connection one has only to read the 23rd chapter of the Book of Deuteronomy from the tenth to the fourteenth verse.

Naturally the methods ordered for adoption at that time in connection with sanitation were those of a primitive type. This of course was due to lack of knowledge by the people of more modern means of achieving the objective and was also due perhaps to the necessity for the adoption of some methods of sanitation adapted to the prevalent nomadic habits of the tribes.

The main point is not as regards the method but as regards the simple fact that even at this time sanitation was found to be imperative for the well being of the entire people.

Today, with the vastly increased population of the world, sanitation must play a most important part in the lives of all of us. The necessity for proper public and private sanitation has been increased tremendously from those ancient scriptural times, but today, the knowledge as to how best to accomplish the end is at the disposal of all of us for the asking. The sanitary disposal of human wastes can be accomplished even in remote areas without danger or offense to the people as a whole. The provision of safe water can be assured to all.

Is it not a disgrace to us as a progressive people that every day we hear reports of diseases caused without doubt by conditions of filth in and around the homes? Is it not a disgrace that we hear reports of diseases due to contaminated water supplies?

In the state of New Mexico up to and until the 30th day of October of this year, 234 cases of typhoid fever were reported. There were also reported some sixteen cases of amoebic dysentery, 141 cases of bacillary dysentery and eighty-three cases of dysentery (unspecified). In connection with the reports of dysentery it must be realized that only a modest percentage of such cases are actually reported and that the actual number, especially in connection with bacillary dysentery is probably very greatly in excess of the number reported.

The Public Health service is only too anxious to remedy the state of affairs but they can only lead and advise. It is up to you, and to you, and to you to take active steps to follow the advice and guidance of the health authorities.

It is up to you to clean up the home environmental conditions with regard to disposal facilities, home water supplies, localized fly menage, garbage disposal and the manifold ways, manners, and means whereby the individual can become, directly or indirectly, a menace to the public welfare.

Health Column

There is some food that just belongs to "high days, holidays, and bon-fire nights." Food that belongs on the table for an important domestic anniversary or when honored guests are present. At such moments the still small voice of economy falls on deaf ears—and you just must let yourself go! Among the high company of such special dishes is

Regal Chocolate Mousse

2 squares unsweetened chocolate; ¼ cup sugar; Dash of salt; ½ cup boiling water; 3 egg yolks, well beaten; 1 teaspoon vanilla; 2 cups cream, whipped.

Add chocolate, sugar, and salt to water and heat in double boiler 10 minutes, stirring occasionally. Then beat with rotary egg beater, until blended. Pour slowly over egg yolks, stirring well. Cool; add vanilla and fold in whipped cream. Turn into freezing tray of automatic refrigerator and let stand 3 to 4 hours. Or turn mixture into mold, filling it to overflowing; cover with waxed paper and press cover tightly down over paper. Pack in equal parts ice and salt 3 to 4 hours. Serves 8.

Oil Shorts

On a one-way voyage across the Atlantic, Great Britain's pride, the "Queen Mary," consumes 32,500 barrels of fuel oil.

Characteristics of motor fuel are changed with the seasons so as to assure satisfactory motor operation regardless of weather.

The petroleum industry produces each year more than 76,000 pounds of greases for use in lubrication of farm machinery.

Several oil wells in the United States have been drilled to depths greater than 10,000 feet, or about two miles. Drilling engineers say they can drill three-mile wells with present equipment.

It is estimated that federal and state sales taxes on gasoline will cost American motorists close to \$1,000,000,000 in 1937.

Petroleum, a hydrocarbon, now is believed to constitute a field as prolific and as productive of necessary chemical products as coal tar.

The average gasoline filling station operator collects \$4,500 a year in taxes from its customers, this amount representing one-third or more of gross receipts.

Oil is produced in twenty-two states, refined in thirty-five, and marketed in all.

Petroleum and its products constitute more than ten per cent of U. S. exports.

The average petroleum refinery becomes old-fashioned, inefficient, and sometimes obsolete in five years.

The average passenger motor vehicle now consumes more than 600 gallons of gasoline per year.

Mr. and Mrs. E. B. Bullock, Ethel, and Miss Mary Woods drove to Sitting Bull Falls Sunday afternoon for an outing.

ALMANAC

Two proud men cannot occupy one seat.

23—Crompton loom patented, valuable invention in cotton machinery, 1837.

24—Battle of Lookout Mountain, Tennessee, took place, 1863.

25—Printers' strike in New York ends with increase of 86 per week, 1919.

15 Years Ago
(From the files of the Advocate, November 17, 1922.)

Dr. E. E. Mathes, pastor of the Presbyterian church preached for the Roswell church last Sunday.

Mrs. Teas and Ed Whaley of Michigan have moved to Artesia to make their home.

Van S. Welch and Fred Knowles left the first of the week for the mountains on a hunting trip.

The New Mexico, Kansas and Texas Oil Co., have moved their offices to the room vacated by the Gem Cafe.

Miss Mary Thayer of Carlsbad was a visitor in the home of Miss Bertha Shattuck during the latter part of the week.

A regular meeting and program was conducted by the Parent-Teacher's Association at the Grammar school Monday afternoon.

The Artesia high school football team was defeated by Roswell Armistice day 33 to 0. Roswell will easily capture the state championship again this year.

Mrs. Clara Caraway and Jack Hastie, both well known in Artesia were united in marriage at Roswell Friday.

Last Saturday evening the democrats of Eddy county met at the American Legion hut in Hope and explained the trouble with the independents.—Hope Booster.

Basic Facts In Soil Control

There are a few basic considerations that have largely determined the provisions of the Soil Conservation Districts law, says E. C. Hollinger of the New Mexico State College.

1. Soil erosion is so intimately tied in with the management plan of the particular farm or ranch that a genuine attack on the problem will, in most instances, require changes of land-use practices. It requires such methods as strip-cropping, contour cultivating and contour furrowing, the seeding of waste, sloping, abandoned, or eroded lands to water-conserving and soil-holding grasses and legumes, adjusting the rates of grazing, modifications in cropping programs and tillage practices, and the retiring from cultivation of steep, highly erodible tracts.

2. Failure by particular farmers to control erosion on their lands can cause a movement of soil and water from such lands on to other lands, thus rendering erosion control on such other lands difficult or impossible. It follows that the problem of erosion cannot be met by conducting isolated demonstration projects by state and federal agencies. Virtually all lands in particular watersheds must be brought under some form of erosion control operations for the problem to be dealt with adequately.

3. A program for modifying land-use practices in the interest of soil conservation and prevention of soil erosion can be made effective only if farmers can be induced to cooperate in this work voluntarily. The legislation, therefore, creates machinery which can be used by farmers if they have been educated to the desirability of taking action.

The essence of the statute may be thus stated: It provides a procedure by which soil conservation districts may be organized, such districts to be governmental subdivisions of the state and to exercise, in the main, two types of powers: 1. The power to establish and administer erosion control demonstration projects and preventive measures; 2. The power to prescribe land-use regulations in the interest of the prevention and control of erosion, such regulations to have the force of law within the district.

HANNAH MOTOR CO.
Artesia — Kinder & Brooks Garage — Artesia

NOTICE STATE ENGINEER'S OFFICE
 Number of Application RA-1654
 Santa Fe, New Mexico, October 27, 1937.

Notice is hereby given that on the 4th day of May, 1937, in accordance with Chapter 131 of the Session Laws of 1931, V. L. Gates of Artesia, County of Eddy, State of New Mexico made application to the State Engineer of New Mexico for a Permit to appropriate the shallow ground water of the Roswell Artesian Basin to the extent of 912.5 acre feet per annum by the drilling of a 12 1/2 inch well approximately 200 feet in depth, located in the NW corner, lot 1, Sec. 31, T. 16 S., R. 27 E., N. M. P. M., for the purpose of irrigating 304.15 acres of land described as being 144.15 acres in lots 1-2-3-4, Sec. 31, T. 16 S., R. 27 E., and 160 acres in the NW 1/4 Sec. 6, T. 17 S., R. 27 E.

Any person, association or corporation deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source may file a complete sworn statement of their objections substantiated by affidavits with the State Engineer and file proof of service of a copy thereof upon the applicant with the State Engineer within ten days after the date of the last publication of this notice. The date set for the State Engineer to take this application up for final consideration unless protested is the 6th day of December, 1937.

THOMAS M. McCLURE,
 State Engineer.
 44-3t-46

NOTICE STATE ENGINEER'S OFFICE
 Number of Application RA-1440
 (Change Place of Use)

Santa Fe, New Mexico, October 28, 1937.

Notice is hereby given that on the 8th day of October, 1937 in accordance with Chapter 131 of the Session Laws of 1931, Owen Campbell of Artesia, County of Eddy, State of New Mexico made application to the State Engineer of New Mexico for a Permit to Change Place of Use of 240 acre feet of water per annum appropriated from the shallow well located in the SW 1/4 NE 1/4 Section 11, T. 17 S., R. 26 E., N. M. P. M., said change to be accomplished by abandoning the irrigation of 80 acres of land located in the S 1/4 of the SE 1/4 of said Sec. 11 and by commencing the irrigation of 80 acres of land described as being the S 1/4 of the NE 1/4 of said Sec. 11. The applicant's authority for the irrigation of the land located in the SE 1/4 of said Sec. 11 is contained in Permit No. RA-1440 granted by the State Engineer on December 8, 1936.

Any person, association or corporation deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source may file a complete sworn statement of their objections substantiated by affidavits with the State Engineer and file proof of service of a copy thereof upon the applicant with the State Engineer within ten days after the date of the last publication of this notice. The date set for the State Engineer to take this application up for final consideration unless protested is the 2nd day of December, 1937.

THOMAS M. McCLURE,
 State Engineer.

NOTICE TO BIDDERS

Sealed proposals will be received by Central Valley Electric Membership Corporation for furnishing all materials, labor and performing all work required by the Plans and Specifications for the construction of a rural electrical distribution system of approximately 80.6 miles located in Eddy and Chaves counties, State of New Mexico.

A bond with securities, satisfactory to the Owner and the Rural Electrification Administration, will be required from the successful bidder, in 100% of the amount of the contract.

Each proposal must be accompanied by a certified check for five percent (5%) of the bid price. In case the contract is executed and the bond furnished, or the bid is not accepted, the check will be returned.

The Owner reserves the right to reject any and all bids. Plans and Specifications with forms may be obtained from the Owner or from its Engineer upon payment of \$10.00 or Plans and Specifications with forms may be seen at the office of the Owner or its Engineers, E. T. Archer & Company, 609 New England Building, Kansas City, Missouri.

Bids must be enclosed in sealed envelopes and addressed to the Owner.

Bids will be received and publicly opened and read in the office of the Owner, Central Valley Electric Membership Corporation, Artesia, State of New Mexico at 10:00 o'clock A. M., November 29th, 1937.

Dated: November 8th, 1937.

P., located in Eddy County, State of New Mexico.

A bond with securities, satisfactory to the Owner and the Rural Electrification Administration, will be required from the successful bidder, in 100% of the amount of the contract.

Each proposal must be accompanied by a certified check for five percent (5%) of the bid price. In case the contract is executed and the bond furnished, or the

N. M. Crop Report

Weather during October was favorable in most parts of the state for harvesting and maturing of crops. Damage from frost during the past month was very light in counties where most of the state's crops are grown. Late planted feed crops are above those of a year ago. Cotton is being picked under very favorable conditions with heavy yields. Pastures and ranges are in better condition than at this time last year; and, with present feed supplies, livestock should be well cared for during the coming winter, according to the monthly crop report issued by Fred Daniels, agricultural statistician for the United States Department of Agriculture.

CORN: The 1937 corn production is estimated at 3,105,000 bushels compared with 2,185,000 last year and 3,528,000 for the five-year (1928-32) average. The November 1 indicated yield per acre is 33.5 bushels, while last year's yield was 11.5 bushels and the five-year (1928-32) average was 14.2 bushels. Favorable weather during October and early November aided materially increasing the grain yield and improving the quality of corn.

GRAIN SORGHUMS: The grain sorghum crop is estimated at 4,500,000 bushels as compared with 1,950,000 last year and 4,338,000 for the five-year (1928-32) average. The indicated yield per acre is 12.0 bushels compared with 6.5 bushels last year. Favorable weather has materially improved the yield.

BEANS: The bean crop on November 1 was estimated at 525,000 bags from a yield per acre of 300 pounds. The five-year average production was 615,000 bags. The ten-year (1923-32) average yield per acre was 324 pounds. Hot, dry weather during August reduced the prospective yields.

FRUIT CROPS: The total apple crop is estimated at 1,132,000 bushels as compared with 790,000 last year and 842,000 for the five-year (1928-32) average. The pear crop is estimated at 59,000 bushels. The grape crop is estimated at 1,180 tons. The production in 1936 was 1,300 tons.

THE REV. THOMAS MASSIE ACCEPTS NEW CALL

The Rev. Thomas Massie, pastor of the First Christian church here has accepted a call as pastor of the State Street Christian church at El Centro, California, he said Monday. The Rev. and Mrs. Massie expect to leave for their new home next week. The Rev. Massie has served as pastor here for the past two years and the First Christian church has grown and has been strengthened under his leadership. He has made many friends who will regret to see him leave.

THOMAS L. MASSIE, Minister.

Bids not accepted, the check will be returned. The Owner reserves the right to reject any and all bids. Plans and Specifications with forms may be obtained from the Owner or from its Engineer upon payment of \$10.00 or Plans and Specifications with forms may be seen at the office of the Owner or its Engineers, E. T. Archer & Company, 609 New England Building, Kansas City, Missouri.

Bids must be enclosed in sealed envelopes and addressed to the Owner.

Bids will be received and publicly opened and read in the office of the Owner, Central Valley Electric Membership Corporation, Artesia, State of New Mexico at 2:30 P. M., November 29th, 1937.

Dated: November 8th, 1937.
 Central Valley Electric Membership Corporation,
 Owner.
 Signed: G. R. BRAINARD.

Still Coughing?

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membrane and to loosen and expel the germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

CHRISTIAN SCIENCE SOCIETY
 613 West Main Street

"Soul and Body" is the subject of the lesson-sermon which will be read in all churches and societies of Christ, Scientist, on Sunday, November 21st.

The Golden text is: "My soul, wait thou only upon God; for my expectation is from Him."—(Ps. 62:5).

Among the citations which com-

Locals

A daughter was born to Mr. and Mrs. Frank Marshall Monday.

J. E. Hooten, Lower Penasco merchant was transacting business here Tuesday.

Chas. Perez, son of Mr. and Mrs. Juan Perez, underwent a tonsillectomy Monday.

Lewis Walker of Abilene, Kansas arrived here Monday to spend several days transacting business.

A seven and a half pound son was born to Mr. and Mrs. C. D. Marshall at a Carlsbad hospital Saturday.

J. S. Major of El Paso, Texas came over Tuesday to spend a short time attending to business matters and to visit old friends.

Mrs. Mary McDonald and daughter, Isabel, Mrs. E. J. Strang and daughter, Beulah and Miss Mary Woods were in Carlsbad Saturday.

Mrs. J. E. Robertson and Mrs. R. L. Paris, who have been visiting their father in Missouri, returned to their home Friday evening.

The small daughter of Mr. and Mrs. J. A. Venable was painfully but not seriously injured Tuesday when a pan of hot water fell in her face.

Mr. and Mrs. J. A. Brown and son of Oklahoma City, Oklahoma arrived Sunday for a visit with Mrs. Brown's parents, Mr. and Mrs. Jack Gribble.

J. E. Welch, formerly of Clovis has accepted a position as cleaner with the Jeffries Nobby cleaners. His family will probably move down later.

Glad Polk, Bert Shipp and Ray Everts were among the successful deer hunters returning from the hills Thursday. Each hunter brought in a nice buck.

The lesson-sermon is the following from the Bible: "Lord, thou wilt ordain peace for us: for thou also has wrought all our works in us."—(Isa. 26:12).

The lesson-sermon also includes the following passage from the the Christian Science textbook: "The identity, or idea, of all reality continues forever; but Spirit, or the divine principle of all, is not in Spirit's formations. Soul is synonymous with Spirit, God, the creative, governing, infinite principle outside of finite form, which forms only reflect."

Hope Items

Mrs. A. A. Smith motored to Roswell Tuesday where she was attending business on the Hope Nursery school.

Mr. and Mrs. H. J. Dunne of Odessa, Texas are spending a few days here visiting her mother, Mrs. N. L. Johnson and family.

George Curry of Albuquerque spent Wednesday in Hope attending business on the Hope Irrigation Readjustment project.

Mrs. J. R. Attebery and children, Margaret and Dickie, spent the week-end in Hope visiting her mother, Mrs. N. L. Johnson and family.

Mrs. Robert Parks and Wayland Hodges moved to Artesia Monday to take their mother, Mrs. Mollie Hodges, who is an invalid, to spend the winter.

Janet Parks returned Wednesday from El Paso where she spent a week visiting. Miss Parks was the house guest of Alice Ader-Hershey, while in El Paso.

Mary Plowman, who has been attending the Draughton's Business College in Lubbock for several months, returned to her home here the first of the week.

Mrs. Jack Closson and children left the latter part of the week for their home in Hatch, having spent several days here visiting her parents, Mr. and Mrs. Ben Miller.

Mrs. L. P. Glasscock and children, Mary, Grace and Nona of Artesia spent Armistice day here attending the program presented at the school auditorium by the Hope school students.

W. E. Rood has purchased a new printing machine for his print shop and beginning December 1 will publish a standard size weekly newspaper instead of the present Artesia Valley News.

H. H. Horton left the latter part of the week for his home in Okmulgee, Oklahoma, having spent several days here visiting his nieces, Mrs. Will Scoggin and Mrs. J. C. Bumgardner and families.

Mr. and Mrs. Charlie Hanna and son, Jack, returned Monday from Hot Springs where they had been for several days visiting their son and brother, Ford, who is a patient in the Carrie Tingley hospital.

Mrs. Gus Snyder and small son of Glenrose, Texas returned to their home the latter part of the week, having spent several days here visiting her sister, Mrs. Joe Parker, and her mother, Mrs. Tollifero.

Max Johnson, Clayborn Buckner, George Olin Teel and Phillips Reed returned Monday from the Guadalupe mountains where they spent four days hunting deer. George Olin Teel was the only one fortunate enough to kill a deer.

Mrs. Bonnie Altman, Mrs. Mark Brewer, Mrs. Billie Ballard and Mr. and Mrs. Cy Bunting motored to Artesia Wednesday where Mr. Altman joined them and they were the dinner guests of Mrs. C. J. Farrell at her home there.

Gene Pearl White returned to her home here Monday to spend a few days visiting her parents, Mr. and Mrs. Hilary White, Sr., having spent several weeks in Artesia and Roswell visiting her sisters, Mrs. Hal Hamill and Blanch Clark.

Mrs. Billie Ballard left Thursday for San Antonio, Texas where she will visit her brother and sister-in-law, Mr. and Mrs. Joe Mellard. From there she will go to Corpus Christi to spend several weeks with her sister and brother-in-law, Mr. and Mrs. Ernest Landreth before returning to her home here.

HURT IN HEAD-ON COLLISION

George Williams, driver of a Phillips Petroleum Co. truck was critically hurt last Thursday when the truck he was driving collided with a number truck at the Eagle Draw bridge on the Hope highway. Williams, it was understood, had just crossed the bridge when the collision occurred. It was described as unavoidable on his part. He sustained a mangled and broken left arm. He was rushed to a Carlsbad hospital and later sent to El Paso, Texas, where it was said physicians there had a good chance to save his arm.

Bulldogs Beaten By Score of 47-0

The war wasn't over for the Bulldogs Armistice day for on that day when others pause to observe the close of the greatest war, the gridders took a good licking from the Portales rams at Portales and came away carrying the small end of a 47 to 0 score. There were several causes but no alibis given for the poor showing of the local squad, the principal one of which was that the team failed to show interest or the necessary spirit to win a football game and the second cause was that Conner, the star ball totter was out on account of injuries.

Friday the Bulldogs will meet Tatum at Tatum and better results are hoped for.

The starting lineup of the Portales-Artesia game:

Artesia	Pos.	Portales
Ansel	QB	Hamilton
Phillips	E	Briggs
Morris	T	West
Ashton	G	Landess
Thornton	HB	P. Tyson
Sturges	HB	Wilburn

Roberts	FB	P. Tyson

YOUNG TURKEYS DO VERY WELL IN BREEDING FLOCK

Turkey growers, who will make a business of producing turkey hatching eggs this winter, may wonder whether to use breeding stock selected from this fall's crop of turkeys or whether older turkeys will make the best breeders.

Stanley J. Marsden, turkey expert in the United States Department of Agriculture, says research indicates that well-matured young hens and toms are fully as satisfactory for breeders as are older turkeys. In fact, the eggs from young turkeys are likely to be more fertile and are likely to hatch better. Furthermore, young hens will lay more eggs.

Of course, if a turkey grower has kept records of the number of eggs each of his older turkeys laid during their first year, those egg records may show that many of the older turkeys are likely to make better breeders than are the untried young turkeys. But the mere fact that one turkey is older than another is no guarantee that it will make a better breeder.

INJURES ARM

Joe Perrez, who works on the Wallace Buck farm on the Cottonwood had the misfortune to have his arm badly mangled near Espuella last Thursday evening when a car he was driving was sideswiped. He was given first aid here and sent to the Carlsbad hospital.

Mr. and Mrs. A. J. Basel of San Angelo, Texas arrived here Saturday to spend several days attending to business matters.

Well Plugging Aids the Water Level of Basin

In connection with the mention in last week's Advocate of the rising water level in the artesian basin due to the well plugging now being carried forward, a few facts of the water situation given by Dr. A. D. Crile, president of the Pecos Valley Conservancy district may be of general interest.

The Berrendo recorder north of Roswell showed a rise of 122/100 feet the past October over October in 1936.

The Orchard Park recorder showed a gain of two feet, and the Artesia recorder recorder a rise of 24/100 feet. Notwithstanding that there has been much more land watered from the artesian basin the past year than any year in the history of the valley. Also that there was more rain in the fall of 1936 than there was in the fall of 1937.

The facts are that our water level is rising, due primarily, in the opinion of the board, to the fact that there have been 286 leaking artesian wells plugged in the basin, and it is the opinion of the board that the wells would average 300 gallons of leak per well which would make a grand total of 85,000 gallons per minute.

With the increasing demand for water and the continued leaking of these wells it would be dismal to think of what might happen. But with the stoppage of the leaks the increase of acreage and demand this year over former years, due to the government soil conservation not requiring land to lay idle, has not lowered our artesian water.

Regarding the shallow ground water basin, readings have been taken on some of the wells since 1937. The decline has been gradual since that time but the readings on six shallow wells are as follows as between October, 1936 and October, 1937: Well No. 1, a loss of 9 24/100 feet. Well No. 2, a loss of 4 12/100 feet. Well No. 3, a loss of 4 17/100 feet. Well No. 4, a loss of 72/100 feet. Well No. 5, a loss of 9/10 feet. Well No. 6 a loss of 87/100 feet.

If anyone is interested in the details of the water level of any of the wells quoted, they can have this information by calling at the well supervisor's office in Roswell.

The well plugging is making splendid progress at this time. Eight badly leaking wells were plugged in October and by the help of the W. P. A. we are able to continue this very excellent program.

It might be mentioned that for the first time in six years the Berrendo gage shows a gain of 1 27/100 feet in spite of the increased demand for water.

Texas deer hunters are beating the bushes in the Davis and Guadalupe mountains for deer. The season started November 16 and ends November 30.

Lower Penasco (Mary Sunbeam)

W. A. Reeves visited in the Crockett home last week.

Mrs. Lloyd Curtis and Mr. and Mrs. Richard Joy of Felix were on the Penasco this week purchasing hay.

Earl Van Winkle of Weed was down last week getting his sheep which he had bought from Tom Runyan.

Charlie Schnaubert, who has been visiting relatives in our community, left last week for his home at Langtry, Texas.

Mrs. F. A. Clair of Roswell visited in our neighborhood one night last week. She was on her way to Alamogordo on business.

Mrs. May Rooney and son Ray and daughter, Mrs. Frank Phelps, formerly of Fort Stockton, visited in the Austin Reeves home last week.

Mr. and Mrs. Day of Eunice were up getting a load of lumber and visiting friends the other day. They report a good rain in their community.

Captain Hart of the Military Institute of Roswell called by Vada's grocery Thursday of last week. He was on his way to Oliver Lee's ranch to hunt.

Mr. and Mrs. Ralph Hooten of baby of Crane's saw mill came down for a visit with Mrs. Hooten's parents. The baby was quite sick with a cold.

Mr. and Mrs. Fred Griffin made a motor trip up James canyon last week to visit their son, Willard and family. Mrs. Griffin will also make a visit with her mother, Mrs. Danley of Tularosa.

The Rev. and Mrs. G. G. Mitchell were calling on friends in our community the other day. They will soon move to their new home in Loving, that being where they have been transferred for the next conference year.

Button Stone of Alamogordo and brother of California were visiting in the home of a son, D. L. Stone and family on McDonald flat. Mr. Stone and brother are starting on a tour through Texas and Oklahoma then to California. Mr. Stone will then return to his home in Alamogordo.

Elmer Latham and Miss Bradley Mayhill were visiting with friends in our community last Sunday. Elmer's sister and family, Mr. and Mrs. Marvin Jackson and two children of Artesia were visiting Mrs. Jackson's parents, Mr. and Mrs. Latham over the week end.

LOS ANGELES OIL MEN VISIT HERE

A group of Los Angeles, California oil men headed by Capt. C. C. Spicer came in Sunday to inspect the local oil field. In the group were: Capt. C. C. Spicer, George B. Knox, H. H. Madden and H. W. Palmerlee. All are interested in the Grayburg Oil Co., and the Premier Petroleum Corp.

Tract 23, consisting of 528 acres and located in 2-19-33 sold to the Gulf Oil Corp for \$2,642.40. Tract 24, consisting of 120 acres and located in 19, ranges 33, 34 sold to R. S. Magruder of El Paso, Texas for \$120.00.

No bids were offered on tract 25. Tract 26, consisting of 400 acres and located in 20-35 sold to Frank Staplin of Santa Fe for \$400.00. Tract 27, consisting of 360 acres and located in 21-34 sold to the Amerada Oil Co., for \$376.00.

SIXTEEN STORAGE DAMS TO BE BUILT IN STATE

WASHINGTON—F. A. Silcox, chief of the U. S. Forest Service, announced Monday that sixteen storage dams, designed to impound about 125 feet of water, are planned for completion in New Mexico National Forest by next March 31. The dams, part of a nation-wide program to conserve "little waters," will supplement eighty-nine previously constructed reservoirs with a capacity of some 140 acre feet, Silcox said.

In its soil conservation campaign, the forest service has built 21,000 check dams in New Mexico, and reseeded about 545 acres of range lands. It has also built fifty fish rearing ponds.

Friends of the H. C. Moorehead family, former residents of Artesia may be interested to know that Mr. Moorehead recently accepted the principalship of the Tucumcari high school. He was the former superintendent of the Vaughn schools.

Tract 28 attracted no bidders. Tract 29, consisting of 240 acres and located in 21-35 sold to Ralph Gallinger for \$257.00. No bids were offered on tract 30. Tract 31, consisting of 155 acres and located in 18-17-36 sold to the Gulf Oil Corp., for \$800.00.

The Electrical Way of Living Appeals to Me Particularly, Because: - - -

Of the happiness it has brought our family. For seven years my world was my room. And electric plate and an eager little daughter and we had tea and marvelous fudge! A radio brought World Series games and the opportunity to know my boy's friends. A bed-lamp for the long nights and when the hard days came, an electric pad and sun-lamp.

With my health improved, the vacuum and its appliances make work easy. With my gratitude for electricity goes the wish that every invalid mother may have the happiness I have had because of it.

HOUSEWIFE

Think you could write a letter this good? Of course you can. That's all you have to do to enter the great NEW AMERICAN BETTER LIVING CONTEST, sponsored by General Electric Company. To winners of First and Second Grand Prizes will go \$12,000 and \$8,000 respectively, to be applied to the building of a G-E equipped New American Home. In addition, ten awards worth \$200 each will be made every week until December 4th . . . so get your entry in today . . . YOU MAY BE A WINNER!
