Milo J. Warner, national commander of the American Legion, will make a public address in the auditorium of Artesia Junior-Senior High School at 8 o'clock next Tuesday evening in an official visit to the state.

His talk should be of great interest not only to veterans of World War I, but to every citizen, as Commander Warner recently returned from an inspection trip to England, where he was shown every courtesy and was personally conducted through the various bombed areas.

### Continental Dealers Of Pecos Valley to Meet Here Tonight

E. N. Bigler, local representative of the Continental Oil Company, announced the company will hold a dealers' meeting at the Artesia Hotel at 7:30 o'clock this evening. In addition to local dealers, dealers from the other Pecos Valley towns are expected.

The purpose of the meeting will be to discuss the summer and fall sales and advertising campaigns.

Officials of the company from the division office at Albuquerque also are expected to attend.

### Miss Minnie Drake, Former Local Woman, Dies in Northwest

Miss Minnie B. Drake, a former well-known resident of this city, died March 28 in Portland, Ore. Burial was made in the Lincoln Memorial Park Cemetery in Portland.

The Drake family once owned and lived in the residence now owned by Arba Green on West Main Street.

Miss Drake will be remembered as a stenographer in the J. B. Atkeson law office more than thirty-five years ago and as an employee in the city office. She homesteaded west of Atoka many years ago.

### Fines Four \$10 Each for Racing After Apparatus

Judge W. H. Ballard disclosed this week that he had fined four persons \$10 each for following too close behind the fire truck going to a recent fire, but he withheld the names.

"But," the judge declared, "the next time I will give you the names and I will expect them to be published."

And besides, he said, the fine will be much greater than the minimum \$10. "Tell them that too," Judge Ballard said.

The judge, city, county and state police, members of the fire company and this newspaper have talked time and again about the dangers coincident with racing after fire apparatus, but the practice continues, Judge Ballard said.

He pointed out that the practice endangers the lives of firemen, those who race after the trucks and innocent bystanders, as well as creating a possibility that the trucks will be delayed in arriving at the fire scene.

So Judge Ballard has given final warning. The next time, if there is a next time, arrests will be made and the court will show no leniency.

### LEACH GETS JUDGMENT ON NOTE OF C. E. SPECK

Omar Leach of Roswell was granted judgment by default for \$1,325.64 from C. E. Speck of Artesia in a suit on a note in District Court at Carlsbad Tuesday.

#### Baptists Plan An Educational Building Soon

Members of the First Baptist Church of Artesia at a meeting last evening gave final approval for construction of a new educational building, to be built west of the church and to cost in the neighborhood of \$5,000.

Action by the members at the meeting last evening was taken after the board of deacons and trustees recommended the building at a recent meeting.

The building, in which it is planned to have eight classrooms and a large general assembly room, is planned in order to handle the Sunday school overflow and will be used for adult classes.

The Baptist Sunday school averaged 200 persons during 1940 and averaged 306 last month, with a peak of 356 on Easter Sunday.

The educational building is to be of tile, stucco construction.

#### REBEKAH LODGE MEETS ON MONDAY EVENING

The Rebekah Lodge met Monday evening at the lodge hall for its regular monthly business meeting and birthday supper. Birthday guests were Miss Ina Cole, Miss Ruth Lewis and Mrs. Margaret Smith.

After the supper a business meeting was held, at which time members turned in dollars, each telling how they had been earned. About forty members were present.

#### SEVERAL ARE GUESTS OF ROSWELL P.-T.A. FRIDAY

Mrs. E. J. Foster, Mrs. P. V. Morris, Mrs. T. C. Hopkins and Mrs. T. E. Johnson were guests of the Roswell P.-T.A. Friday afternoon, when the Roswell association gave a travel shower, honoring Mrs. P. V. Thorsen, the new state president.

Mrs. E. J. Foster, state vice president and district president, will accompany Mrs. Thorsen to Boston to the national convention May 16-23.

#### Livingston Courts Grocery Is to Be Open on Saturday

The Livingston Courts Grocery at 612 South First Street is announcing its opening Saturday, at which time the public is invited to call and inspect the new building.

The store, which is managed by W. W. Dunn, and office for the courts and a new apartment recently were completed at the south corner of the Livingston Courts.

The exterior of the new unit is stucco, in harmony with the rest of the courts, and the interior is bright and new, lighted by fluorescent lights.

Mr. Dunn and his recent bride, the former Miss Louise Beard, plan soon to make their home in the new apartment.

#### Mexican Church Dedication To Be Here on Sunday

Dedication of the Spanish Methodist Church will be at 3 o'clock Sunday afternoon, with English-speaking people of all denominations invited to share in the affair with the Spanish-Americans, the Rev. Constantino Gonzalez, pastor, announced.

An hour earlier, at 2 o'clock, there will be a program in Spanish for the celebration of Mother's Day, on which day two years ago the cornerstone for the church was laid.

The Spanish pastor has invited the pastors of Anglo churches to be present and have a part in the dedication exercises.

At the conclusion of the exercises soda pop and ice cream, which have been donated, will be served free.

Remembering the splendid turnout two years ago when the cornerstone was laid, the Rev. Mr. Gonzalez urged that again there be a good-sized crowd of both Anglos and Spanish-Americans.

### Two Completions Made By Emperor Of Puckett Wells

Both Are Producers — Premier Makes Only Location This Week

Emperor Oil Company made the only completions in Eddy County the last week, putting both the Puckett 11 and Puckett 1-B on production, while Premier Oil Company, staking the Beeson 6-B in NW SE section 27-17-30, made the only location reported. (Continued last page this section)

#### A Two-to-One Calf Ropin' Contest Twixt Watson and Marrs

Maybe not of as great interest as the roping contest at Carlsbad last Sunday between Bob Crosby and Carl Arnold, but at least causing a lot of stir, is a scheduled roping between two Artesia men at the arena of the Carlsbad Goat Ropers' Club next Sunday.

Only three calves are involved in the fray, of which Dan Watson will attempt to rope and tie two in the same length of time it takes Ollie Marrs to tie one. The men will rope Brahma calves.

It's a good stunt if he does it; it's a good stunt even if he doesn't.

#### Artesia Boxers Shine in First Night Tourney

Five of six Artesia High School boxers won their bouts, one by a knockout, last evening in the Carlsbad Lions Club's two-day boxing tournament. And seven local boys are scheduled for the championship scraps there tonight.

Dallas McCasland, classy Artesia scrapper, took the class "A" bantamweight championship by knocking out Skivinski of the CCC camp at Carlsbad in the second round.

In the class "B" featherweight division R. D. Taylor of Artesia High School won the decision over Miller of Carlsbad.

Johnnie Herbolt of the local high school team took the decision over Goff of Carlsbad in the "B" flyweight class.

And Merrill Tidwell of Artesia won a decision in the class "B" featherweight division. The name of his opponent was not learned.

Besides Taylor, Herbolt, Juarez and Tidwell, Artesia High School will be represented in the championship bouts this evening by "Kit" Carson, Jay McCasland and Oscar Cassidy.

In all, nine Artesia boys are entered in the bouts this evening, including the seven who are in the championship brackets.

Coach Joe Greeno said this morning his team is out to win the team trophy offered by the Carlsbad Lions Club, as well as individual trophies. From past performances, including the sweeping victory won here a few weeks ago in the Artesia Lions Club boxing tourney by the Artesia High School team, the local boys stand a good chance of fulfilling Coach Greeno's hopes.

### Gas Company Men Prove to Be Safe Drivers

The above ten men and one other, all employees of the New Mexico Eastern Gas Company out of the Artesia office, received safe driving awards at a banquet on the Roof Garden of the Artesia Hotel April 25, as total awards for the Carlsbad district were made representing 103 years and 1,533,436 miles.

The awards were made at a banquet accorded the employees of the district and their wives or husbands by Albert Sidney Johnson of Dallas, president, who was host for the continuation of new business activity and customer relations on the part of the employed personnel. In the picture, back row, left

to right, are the following men, their capacities with the company, the number of safe-driving years for which awards were given and the number of miles of driving involved:

## A RARE OPPORTUNITY FOR ARTESIA

Seldom does a community as small as Artesia have an opportunity to entertain the national head of any organization, so the coming visit of Milo J. Warner, national commander of the American Legion, is somewhat of an occasion. And if for no other reason than that he is the head of an organization of more than a million members and has consented to honor us, he should be given a rousing reception and every possible citizen should turn out to hear him speak.

But there are other reasons—reasons of great importance at this time. Commander Warner, were he the national head of any other group—religious, fraternal or otherwise—would be an important figure and well worth hearing, but it happens his group is composed of veterans of World War I. And at this time World War II is being waged, with the United States on the brink.

Furthermore, Warner returned only a few weeks ago from England, where he studied conditions first hand, conferred with leaders and learned where we may expect to fit into the jigsaw puzzle of totalitarianism vs. democracy.

As an officer in the A. E. F. in major engagements during World War I, Warner learned considerable about war. As national commander of the American Legion—a non-military, but a 100 per cent patriotic group—he has had an opportunity to study world conditions as he has helped direct the actions and policies of his strong American group. And as a distinguished visitor to England he had an opportunity to gain further knowledge.

Surely that adds up to an informative address. The several dozen Artesia citizens who drove to Roswell a little more than a year ago to hear Raymond J. Kelly, then national commander of the American Legion, remember how he opened their eyes as to subversive elements of which the public was little informed—yea, only a year ago. Commander Warner likewise will have something to say, which every American should know.

An unusual opportunity is being given Artesia next Tuesday evening, when National Commander Milo J. Warner of the American Legion visits here and speaks in the high school auditorium.

## NOTHING ACCOMPLISHED

Sometimes we think we should stop writing editorials—or those scribbles which go into the editorial column as such.

It is one type of writing for which we never cared, out of a dozen changes of pace at which a country editor must be able to make some sort of stab.

Of late, it seems, we continually get into jams, no matter what we mean to say.

Our latest seems to have been our piece last week in which we attempted to set forth our thoughts on the theory that Artesia can best be served by only one newspaper.

After our typewriter had clicked off the final word of that editorial, we gave it no more thought until a friend, a professional man, informed us that it "stunk."

Then before we had time to read it again in order to smell out the offensive odors which might have crept in, another man of the same profession as the first dropped in to tell us it was a dandy.

So there you are. We were generalizing and not talking personalities.

We are reminded that we have not used for many months our old standard Latin phrase: "Nihil fit!"

As we glance back in retrospect we sometimes realize where we have muffed a dandy chance for a headline, such as the time a hurler won his own game with a homer, cleaning the platter, when we might have headlined: "Ball Fans See Moving Pitcher!"

The worst trouble is that the Lone Eagle, although he has clipped his own wings, still has a sharp beak.

It's an ill wind that blows no good. The cotton farmer's losses from too much rain are the rancher's paradise.

Too many cooks spoil the broth, unless all but one are watching and listening to an expert cook at The Advocate's Happy Kitchen Cooking School.

Double parking is bad enough, but it is almost unforgivable when a person does it in front of open parking spaces.

The Golden Text is: "If by one man's offense death reigned by one; much more they which receive abundance of grace and of the gift of righteousness shall reign in life by one, Jesus Christ." (Rom. 5:17)

Among the citations which comprise the lesson-sermon is the following from the Bible: "And this is the promise that He hath promised us, even eternal life." (I John 2:25)

The lesson-sermon also includes the following passage from the Christian Science textbook: "Jesus said (John VIII: 51), 'If a man keep My saying, he shall never see death.' That statement is not confined to spiritual life, but includes all the phenomena of existence. Jesus demonstrated this, healing the dying and raising the dead."

### Miller Declares "Europe's Present War Foretold 2,500 Years Ago"

(While Artesia citizens are talking about the predictions made 400 years ago by Nostradamus, French astrologer, many of which have come true, J. R. Miller of Artesia and El Paso, geologist, has written some predictions of his own, based on the Bible, and has pointed out that Europe's present war was foretold 2,500 years ago. Some of his former articles have appeared in The El Paso Times, where they created considerable speculation. His latest article will be published by The Advocate in several installments, the first of which appears below. It is not being published in any controversial sense, but merely as an interesting analysis of certain portions of the Bible by Mr. Miller. The ideas expressed are those of Mr. Miller.)

This is a continuation of the articles, under the above caption, carried in The El Paso Times. Quite a number retained the articles, and to those who did not read them if you will secure copies you will find it most interesting how God in speaking through the prophets described Hitler, perfectly. He foretold us through "craft" Hitler would conquer the world, that the bear would stand alone on one side (Russia), just as she is doing today, that the lion's wings would be plucked (England blasted with the plane and destroyed as an empire), and "dominion was given" the leopard, Italy. A foreign correspondent, months ago, published a map showing just how Hitler, Stalin and Mussolini had divided Europe. Hitler has taken practically every country that was mapped for him,

and now he is fulfilling the prophecy of Daniel in "giving dominion" to Mussolini.

The prophets foretold us sometimes in an allegory and at other times spoke directly. We were foretold when World War No. 1 would begin, and that the present war would continue for forty-two months, and yet the military experts stated it would be over in ninety days, or not to exceed six months at most because of the modern equipment.

The prophets foretold the plane would play a major part in the present war and described it in detail; stated it would be different from anything that had ever flown, as the wings would be rigid, and not flap as the wings of the fowls. "Their wings were joined one to another; they turned not when they went; they went every one straight forward."

Ezekiel repeats over and over the fact the plane could fly and the wings remain perfectly stationary... "they turned not when they went." Up to that time not anything had ever flown without flapping its wings. He foretold us they would have wheels, rubber tires ("and the soul of their feet was like the soul of a calf's foot"), that the wheels would fold up into the planes and they would have speed as the appearance of a flash of lightning. He stated the noise of their wings was like the noise of great waters, foretold the color of the plane just as they are today, observed that instead of folding their wings like the fowls when they fly, and fold their wings when they light, the plane's wings "were stretched upward (not folded); two wings were joined one to another and two covered their bodies." He saw the pilots in the planes and stated:

### Cottonwood Items (Ora Buck)

Most farmers of this community will have to replant their cotton.

Mr. and Mrs. J. W. Buck and son, Ted, of here were business visitors in Roswell Saturday.

E. P. Malone of Upper Cottonwood went to Kansas City with a car of sheep last week.

Mrs. J. B. Prientes of Cottonwood, who has been on the sick list, is feeling somewhat better.

Mr. and Mrs. John Gibson of Cottonwood announced the arrival of a son, born April 30, and weighing 9 pounds 2 ounces. Both mother and son are doing fine.

Mrs. H. B. Worley of this community, who accompanied Mr. and Mrs. Buster Knowles to Rochester, Minn., underwent an operation there and will remain a month. It is reported she is doing nicely.

Mr. and Mrs. Monroe Howard of this place motored to Portales last week end to take Mr. Howard's father, J. M. Howard of Artesia, to see his brother, who is quite

"And they had the hands of a man under their wings on their four sides." He further stated, "and their feet were straight feet." What did he really mean by that statement? We never saw an animal walk without bending its legs. However, a prophet of God foretold us 2,500 years ago we would live to see such a phenomenon. When I read this astounding statement in the book of Ezekiel, and that "their feet were straight feet," the thought came to me, how can a \$100,000 bomber with such weight land without having the landing gear and wheels trussed with rods from the body of the plane at an angle something like forty-five degrees. From the time I was a lad, picking cotton in the fields of North Texas, I had been taught by a darling mother that the Bible was an infallible book. So there I was, confronted with an infallible statement that to the finite mind seemed an impossibility. At this time the great bombers were new and I had never seen one after they were converted into fighting ships. I laid the Bible down and drove out to the airport. As though it was timed, in order that a fallible creature might see a prophecy made 2,500 years ago fulfilled before his very eyes, three of the bombers had just landed. Had Ezekiel at the time of the prophecy been standing there viewing one of these bombers he could not have described them any more perfectly. There they were without any forty-five degree truss rods, and "their feet were straight feet," as Ezekiel had described them. He further stated, "And when the living creatures (planes) went, the wheels went by them; and when the living creatures were lifted up from the earth, the wheels were lifted up. Whithersoever the spirit was to go (the pilot) they went, thither was their spirit to go; and the wheels were lifted up over against them: for the spirit of the living creature (pilot) was in the wheels." (To be continued)

ill there. They returned home Sunday.

Mr. and Mrs. Virgel Worley and children expect to leave soon for California, where they will make their home. Mr. Worley, who has been a successful farmer here for several years, sold out to his brothers.

Mr. and Mrs. Lewis Buck and daughter, Mrs. Fannie Equials, of Tulsa, Okla., arrived Saturday for a visit of a few days here with relatives. They plan to go to Tularosa this week, where they will visit a few days with his brother, John Buck, and family. From there they will go to Hot Springs, N. Mex., where they will visit Mrs. Buck's relatives.

E. D. Mitchell of Lindsay, Okla., is here visiting his brother, Cecil Mitchell, and Mrs. Mitchell.

Curious echo of the rich old baron's secret romance. For thirty years, only his executors knew that the little girl he met in a railroad station had shared a love-nest with him, but now England's wartime income tax laws have revealed his sentimental double life. Don't miss this unique true-life love story in The American Weekly, the magazine distributed with next week's Los Angeles Examiner.

Guy Stevenson, who was called to Roswell due to the death of his father, M. Stevenson, will visit his mother, Mrs. M. Stevenson, here for a few weeks.

There's no such thing as a happy accident.

Dr. Stroup made a professional visit to Alamogordo the latter part of last week. Mrs. Stroup accompanied him. They visited the White Sands before returning home.

Mrs. William Best and small daughter, Barbara, who have been visiting Mrs. Best's parents, Mr. and Mrs. A. E. Crain, returned to their home Friday in Austin, Tex. Mr. Crain took them by automobile.

## Mrs. E. M. Perry Installed President Artesia Woman's Club Wednesday

Mrs. E. M. Perry was installed president of the Artesia Woman's Club at the closing meeting of the club year at the clubhouse Wednesday. Mrs. Perry, who came to Artesia from Carlsbad about two years ago, served as first vice president of the club and program chairman last year. The programs this year were in most cases outstanding and well attended to the last meeting. With a marvelous personality and a wealth of experience, Mrs. Perry as president is expected to conduct club affairs and continue to render a service to Artesia which no other club can render.

Installed to serve with Mrs. Perry were Mrs. D. M. Schneberg, who will by right of her office become program chairman for next year. Mrs. Schneberg with her husband Dr. Schneberg, dentist, came to Artesia from the northern part of the state more than a year ago. She is an experienced club woman and an accomplished musician. Mrs. Dave Bunting was installed as second vice president, who by right of her office is membership chairman. Mrs. Bunting, who operates the Artesia Beauty Service, is familiar with the duties of her office. Others installed were Mrs. Hollis Watson, recording secretary; Mrs. C. R. Baldwin, recording secretary; Mrs. Howard Williams, treasurer; Mrs. Morrison Livingston, custodian, and Mrs. Albert Richards, parliamentarian. The last five mentioned have been affiliated with the federated club of Artesia for many years, have served in many departments of the club and have served faithfully.

In the closing meeting of the club annual, reports were read which indicated an outstanding year in club history, under the leadership of Mrs. Irvin Martin, outgoing president. In addition to splendid programs, increased activity and interest in the literature and music divisions, the clubhouse was remodeled, making one of the nicest auditoriums in the city, as a crowning achievement of the term of office of Mrs. Martin. One thousand dollars was paid on the clubhouse indebtedness, leaving about \$1,500 to be paid. The club was also incorporated and all matters of the club taken care of in a business manner, thereby leaving a splendid record.

Mrs. Leslie Martin was guest speaker on this occasion, using for her subject "Charm and Personality." It was a program which every club woman might have enjoyed. No one can completely change his personality, but he can improve his individual personality, said Mrs. Martin. In mentioning factors which might improve individual personality, good health and moderate habits were first mentioned as contributing factors, and a religion to have completeness. In closing, Mrs. Martin quoted: "Be pretty if you can, be witty if you can, but be agreeable if it kills you," and as a challenge to each woman: "I am the Captain of My Fate and the Master of My Soul."

About 100 members and guests were in attendance at the 1 o'clock luncheon at the clubhouse, preceding the program of the day. The large auditorium was beautifully decorated with roses and garden flowers.

At the close of the program, Mrs. Martin and Mrs. Perry were each presented a large bouquet of cut flowers in appreciation of their leadership. The presentation was made by Mrs. C. R. Blocker.

## Favorite Recipes, Which Were Contributed by Artesia Women

Women of the Artesia trade territory admit that Miss Jessie Hogue, who will teach the Advocate's Happy Kitchen Cooking School next Monday, Tuesday and Wednesday mornings, May 12, 13 and 14, at the Ocotillo Theater will be able to teach them some more about cooking and help to iron out some of the wrinkles and put in some new crinkles, but they still have favorite recipes of their own that can't be beat.

Mrs. J. B. Muncy, president of the American Legion Auxiliary, says to try this one: Plain or layer white cake—Two cups of sugar, one cup shortening, one cup water, two and one-half cups flour, one rounding teaspoon baking powder and five egg whites. Cream sugar and shortening real well, add water, mix well. Add flour and baking powder. Sift flour twice, last time sifting baking powder. Add egg whites unbeaten one at a time. Beat one or two minutes each time.

Here's a favorite of Mrs. C. C. Dannenbaum, president of the Junior Woman's Club: Nutty Nuggets—Seven-eighths cup flour, one half cup butter, two tablespoons sugar, one cup chopped nuts, one-eighth teaspoon salt, one teaspoon vanilla and powdered sugar. Sift flour, measure. Cream butter, add sugar gradually, creaming until light and fluffy. Add flour, nuts, salt, and flavoring, stir until thoroughly mixed. Form in hands into balls size of walnuts. Place on lightly greased cookie sheets. Bake in moderate oven at 350 degrees F. for fifteen minutes, or until lightly brown, remove from oven and roll slightly in generous amount of powdered sugar.

This one is a favorite of Mrs. Irvin Martin, president of the Artesia Woman's Club: Cream Cake—One cup whipped cream, two eggs, one cup sugar, one and one-half cups cake flour and two teaspoons baking powder. Whip cream and then whip two whole eggs into cream. Gradually add sugar. Sift flour, baking powder and salt together three times and mix in above ingredients. Add vanilla. Bake in oven 350 degrees for forty-five minutes.

Mrs. Leslie Martin, president of the P. E. O. sisterhood, gave these two as favorites: Butter Scotch Sauce—One egg yolk, five tablespoons butter, four teaspoons water, two-thirds cup brown sugar, one-third cup corn syrup. Beat egg yolk slightly, add remaining ingredients and cook over hot water, stirring frequently until a thick syrup is formed. Beat thoroughly before using. May be stored in jar in ice box. O-So-Good Pie—One and one-half cups sugar, three tablespoons melted butter, three tablespoons vinegar, one tablespoon water, one-half teaspoon cloves, one teaspoon cinnamon, three-fourths cup chopped nuts, three-fourths cup seedless raisins and three well-beaten eggs. Mix all ingredients together, adding eggs last. Pour into an unbaked pie shell and bake in a hot oven five minutes, lower to moderate oven and bake thirty minutes longer, or until a crisp golden brown crust is formed.

## June Wedding of Miss Mary Luther Announced at Lovely Tea Saturday

The approaching marriage of Miss Mary Luther, teacher of home economics in Artesia High School the last three years, to Jack Carr of Portales, was announced at a lovely formal tea at the home of Mrs. L. C. Reynolds Saturday afternoon. The wedding date has been set for the month of June.

A profusion of lovely roses, irises, snapdragons and larkspur, artistically arranged, decorated the attractive Reynolds home.

Heading the receiving line was Mrs. Reynolds, wearing a floor-length gown of powder blue sheer. Others in the receiving line were Miss Luther, attractive in a navy and white striped sheer; the mother and sister of the bridegroom, Mrs. Henry Carr, gowned in a two-piece formal of pink and orchid and Miss Mildred Carr, wearing an old rose jacket ensemble. Matching corsages worn by the hostess and others in the receiving line were presented by Mr. Carr.

Mrs. Leon Schumpert, a second sister of the bridegroom, wearing a delicate blue taffeta gown, presided at the guest book in which seventy-five registered.

Miss Natilie Murdock, physical education instructor in the Artesia schools and a cousin of the hostess, wore a spring formal of modish design with red tulips on a plain orchid background. Miss Murdock presided at the tea service.

The lovely tea table was covered with snow white hand embroidered linen and laid with crystal and silver. The dainty centerpiece was of rosebuds and columbine, combined with baby's breath and fern, in a crystal bowl. Tall lighted tapers in crystal holders reflected a soft glow over the beautiful table.

Small individual hand-dipped cakes in pastel colors of pink and green, each topped with a miniature white dove, were served with dainty confections. A card on each plate carried an announcement of the approaching wedding. Miss Alyce Erickson, a teacher of English in the Artesia schools, assisted in serving. Miss Erickson wore a pale blue satin formal gown.

Miss Luther, whose home is in Albuquerque, is a graduate of the University of New Mexico in Albuquerque. She was active in literary circles at the university and a member of the Kappa Omicron Phi, an honorary home economics

sorority. Miss Luther has done graduate work at Columbia University in New York City.

Mr. Carr, whose home is in Portales, is a graduate of West Texas Tech in Lubbock. He not only excelled in athletics but held honors in the music department in college.

The wedding will be in Portales, where the young couple expect to make their home.

Mrs. Carr and her two daughters, mother and sisters of the bridegroom, drove down from their homes in Portales for the announcement tea.

### Will Predictions of Nostradamus Be Enacted as Written in 1555?

As related last week in The Advocate, Pete Cassabone, Hope rancher, has an interesting account of the prophecies of Nostradamus, French astrologer of 400 years ago, which caused considerable comment when read at the weekly meeting of the Lions Club.

The story, originally from The Huddersfield (England) Daily Examiner for Sept. 9, 1940, and republished in the January issue of Health Culture, was brought to this office by Cassabone. It is again published here in its entirety.

Nearly 400 years ago a grey-bearded astrologer known as Nostradamus shut himself up behind locked doors in Paris and tried to see into the future. Night after night he studied books of ancient Egyptian lore and hurriedly burned the yellow pages as soon as he had committed the contents to memory.

Then he published his great book of prophecies, "The Centuries." Ever since then the name of Nostradamus has been an enigma in the minds of men. He not only correctly foretold the date of his own death, but from his vantage-point in 1555 he looked ahead and saw the full course of history.

It isn't often that forecasts can be preserved with impunity, yet those of Nostradamus tick over with startling accuracy every time. The French Revolution began in 1792. He foreshadowed "the revolution of the century" for that year. After four Saturnian revolutions of about thirty years, he declared France would go against another enemy. This totals up to 1914.

He also forecast the Franco-Prussian War in 1870, the Great Fire of London, the British Revolution in 1648—and Napoleon. "From a common soldier will be made an empire. From a short coat he will go to a long mantle," the prophecy read. "Valiant in arms, he will be a thorn in the side of the church and priests." All this was fulfilled.

How's this too, a 250-year forecast concerning Louis XVI and his flight to Varennes: "The night will come to the forest of Rheims," wrote Nostradamus. "A black monk in grey, under the name of Cap, will cause tempest, fire, blood and knife." In actual fact, Louis XVI fled in monastic disguise through the forest of Rheims by night, was arrested at Varennes, returned to face the guillotine, and was given the name of Capet. It is an astonishing prevision of names and places.

In our own immediate day, more startling still, Nostradamus foresaw Hitler, and even named him. True, he calls him "Hister," but spelling was never his strong point, and this Hister was scheduled in 1940 to lead Germany in invading France, after feigning friendship for "France by a neglect shall be assaulted on five sides. Tunis, Algeria, shall be

moved." Great destruction was to be caused, Paris would be gained and even so Hister would eventually end in an iron cage. Does this

### Two-Tone KC Cake Is to Be Featured in Cooking School

½ cup butter, 1½ cups sugar, 4 egg yolks, 3 cups Kitchen Craft flour, 3 teaspoons KC baking powder, ¼ teaspoon salt, 1 cup milk, 1 teaspoon vanilla, 2 squares of unsweetened chocolate, 4 egg whites.

Method: Sift together five times the flour, baking powder and salt. Cream butter, add sugar slowly, add egg yolks carefully

beaten, then milk and flour alternately. Divide in two parts. To part 1, add 2 egg whites, beaten stiff. To part 2, add chocolate (melt over hot water, not boiling). Let cool, then fold in the whites of two eggs beaten stiff. Bake in separate pans at 350 to 375 degrees, 20 to 30 minutes.

mean ultimate madness or imprisonment for Hitler? Looking ahead just a few more months, he sees a German invasion of Switzerland and Italy, the Pope in flight from Rome—and the end of the war in 1944 with an ultimate victory for the French by a newly-risen "king" at Poitiers. Will time prove Nostradamus right again? His prophecies, numerous as they are, have rarely failed.

In his own lifetime the fate of each of the children of Catherine de Medici, the exact form of death of Charles IX and many other events of his day. Between now and 1948 war is forecast between Russia and Japan. In 1999 a terrible leader from the north of Asia will assault Paris from the sky: "The great city will be desolate. "Not one of the inhabitants will remain there.

"Walls, temples and virgins will be violated. "Multitudes will die by fire, iron, cannon." In 7000, according to this great seer, the greatest deluge since the flood will herald the final catastrophe.

Nostradamus has been a mystery through the ages, and today the riddle of his second-sight is stronger than ever.

### Surplus Foods For Month of May Announced

The U. S. Department of Agriculture has announced the surplus foods which will be available during May to families taking part in the food stamp plan. These are the nationally designated foods which will be obtainable in local stores in each stamp plan area in exchange for blue surplus food stamps.

The May list of blue stamp foods does not include fresh onions, which were obtainable in all areas during April, nor fresh kale, which was available that month in designated areas. Otherwise, the May list is the same as the April list.

The complete national list of blue stamp foods, available in all stamp plan areas for May, is as follows: Fresh grapefruit, oranges, apples, carrots, Irish potatoes, butter, raisins, pork lard, all pork (except that cooked or packed in metal or glass containers), corn meal, shell eggs, dried prunes, hominy (corn) "grits," dry edible beans, wheat flour, and whole wheat (graham) flour.

In addition to the nationally listed surplus foods for all stamp plan areas, vegetable shortening, to be used for cooking and not as table spread, sold to consumers in bulk or in paper or cardboard containers, and labeled "Made Entirely From Domestic Vegetable Oils," this label appearing on the consumer package or the container from which sold in bulk, will continue available during May in designated stamp plan areas. As the entire state of New Mexico is in a stamp plan area, foods listed above may be purchased with the blue stamps in any county in the state.

### WHAT'S WHAT in NEW MEXICO

News Briefs of the "Sunshine State," Gleaned from Many Sources

The Luna County Electric Cooperative, Inc., has been chartered by the state corporation commission, which also granted the Edison Electric Appliance Company of New York a permit to operate in New Mexico.

When seventy-three seniors of Albuquerque's Indian school make a tour of Mexico this month they will demonstrate to the Mexican boys and girls the latest jitterbug capers as well as the Indian tribal dances. The students raised \$2,000 for the 3,500-mile trip through sale of hamburgers, candy and soft drinks and by working in CCC camps. After they do the Navajo, Apache and Pueblo tribal routines the students say they will be loose with some fancy American rug-cutting—all for the "goodwill" effect on their cousins south of the border.

New Mexico bank loans, as of April 4, totaled \$5,862,224, compared with \$5,483,349 on Dec. 31, State Bank Examiner Nolan Walter said Friday. Bank resources were down from \$16,538,945 to \$16,143,524—a seasonal decline.

The "Gregg Writer," a New York publication, announced that the Las Cruces High School had been awarded its "High School and College World Trophy" for 1941.

Growing New Mexico payrolls sent jobless insurance payments during April to the lowest point since June, 1940, employment security commission officials said. April payments to jobless workers totaled only \$91,116 for the entire state, a 10 per cent drop under the figure for March, and a similar decrease from payments for April, 1940. New claims for benefits also remained at a low figure. Only 1,563 first claims were filed in the state, compared with 1,389 in March. Most benefit checks written during April, officials said, went to workers who were idle because of seasonal unemployment, and because of inclement weather's holding up employment in lumbering, agriculture and construction.

A total of 474 accidental deaths happened in New Mexico in 1940, Miss Kay Parker, statistician at the State Health Department, said. Of that number nearly half, 220, were highway fatalities. Following the list of automobile deaths, accidents in the home contributed the second greatest number. The homes were the scene of 101 accidental deaths while 97 occurred in public places other than the highways. Occupational accidents took a toll of 68. A break-down of the home accidents showed that burns and explosions claimed 25; falls, 18, and poisonings, 13.

Miss Marbeth Jones has accepted a position at the office of the Central Valley Electric Coop. Inc.

### What to Eat When Spring Showers

#### Set Aside Stores For Pluvius Days

Mr. Jupiter Pluvius' untimely and frequent visits during April may be responsible for May you-know-what, but you are still responsible for the daily three-squares!

Putting aside for that rainy day is no idle theory; foodwise speaking it's sounder still! Take advantage of sunny days to set aside stores for the rainy ones; heap larders high with ready-to-eats that keep you high (in spirits) and dry. Be sure there's enough coffee, enough bran for breakfast, enough baking powder (rainy days were made for baking!). Lay in jars of heat-and-eat spaghetti, baked beans; Vienna sausage; stock plenty of ready-to-serve grapefruit sections and shrimp.

Then, when "falleth the gentle rain from heaven upon the place beneath," set the table with gems like these:

#### Rainy Day Shrimp Casserole

1 pkg. fine noodles, 1 12-oz. can whole kernel corn, 2 cups shrimp (2 No. 1 cans), 1 8-oz. can mushrooms, sliced, 6 tbsps. butter, 5 tbsps. flour, 2 cups milk, 1/2 lb. American cheese, salt and pepper. Cook noodles until tender in boiling salted water. Arrange corn, shrimp and sliced mushrooms over the noodles (saving liquid from shrimp and mushrooms). Make cheese sauce by melting butter in frying pan, add flour and stir until smooth; add shrimp and mushroom liquid, and milk; cook until smooth and thick. Stir constantly. Add cheese, saving some to sprinkle on top of casserole. Season with salt and pepper; pour sauce over shrimp mixture. Mix gently. Sprinkle with cheese. Bake in moderately hot oven, 400 degrees F., until heated through (about 30 minutes). Serves 10-12.

#### Honey Bran Waffles

2 eggs, separated; 1 1/2 cups milk, 1 tsp. honey, 3/4 cup all-bran, 1 1/2 cups flour, 4 tbsps. baking powder, 1 tsp. salt, 1/4 cup melted shortening.

Beat egg yolks well; add milk and honey and mix thoroughly. Add all-bran and let soak until most of moisture is taken up. Sift flour with baking powder and salt; add the first mixture and stir only until flour disappears. Add cooled, melted shortening. Fold in stiffly beaten egg whites. Bake in hot waffle iron until no steam is visible. Yield: 7 waffles (6 1/2" in diameter).

#### Deviled Tomatoes

1/2 tsp. salt, 1/4 tsp. dry mustard, dash of pepper, 1/2 tsp. Worcestershire sauce, 1-lb. jar (2 cups) tomatoes, 2 tbsps. butter, 1 1/2 tbsps. honey, 2 slices crisp buttered toast.

Blend salt, mustard, pepper and Worcestershire sauce in sauce pan. Add tomatoes, butter, and honey. Bring to a boil and simmer about 5 minutes. Just before serving, add toast cut into small cubes. Approximate yield: 4 portions.

#### Banana Prune Betty

1 1/2 cups cooked prunes, pitted; 2 cups sliced firm bananas (2 to 3 bananas), 4 cups stale bread crumbs, 3/4 cup firmly packed brown sugar, 1/4 tsp. cinnamon, 1/2 tsp. salt, 1 cup prune juice, 2 tbsps. lemon juice, 2 tbsps. butter.

Use all-yellow bananas. Cut prunes into large pieces. Combine prunes and bananas. Place alternate layers of bread cubes and fruit mixture into a well-buttered baking dish, using bread cubes for bottom and top layers. Combine sugar, cinnamon and salt. Add juices and blend. Pour over top layer of bread cubes. Dot with butter. Bake in moderate oven (350 degrees F.) about 30 minutes, or until bananas are tender... easily pierced with a fork... and bread is browned. Serve with cream or hard sauce. Eight servings.

#### April Showers Cake

1/2 cup shortening, 1 cup sugar, 1 egg, 2 cups sifted flour, 2 tbsps. all-phosphate baking powder, 1/4 tsp. salt, 1 cup milk, 1 tsp. flavoring.

Cream shortening, add sugar gradually, creaming until light and fluffy. Add egg, beating thoroughly. Sift flour, baking powder and salt together and add to creamed mixture alternately with the milk, stirring only until smooth. Add flavoring. Pour into two oiled 8-inch layer cake pans. Bake in moderate oven (375 degrees F.) 25 minutes. Frost with

#### Coffee Scotch Frosting:

1 cup sugar, 1/4 cup brown sugar, firmly packed; 2 egg whites, 2/3 cup double-strength, freshly-made coffee; 2 tbsps. white syrup.

Combine sugars, coffee and syrup in sauce pan. Place over heat and stir until sugar is dissolved and mixture boils; continue cooking without stirring until a small amount dropped from the tip of a spoon spins a thread (240 degrees F.). Beat egg whites stiff, pour the syrup slowly into the egg whites, beating constantly. Continue beating until the frosting holds its shape.

Edward J. Boans, a former employee of the Big Jo Lumber Company of Artesia, who is stationed at Fort Sam Houston, in San Antonio, Tex., has been promoted from private to corporal after two months in training.

Miss Madge Cabot has been employed as the secretary of W. E. Kerr, superintendent of schools. She fills the vacancy made by the resignation of Miss Ruth Bigler.

Mr. and Mrs. G. R. Brainard and their daughter, Mrs. William Knorr of Fort Wayne, Ind., who has been visiting here, left the first of the week for Nome, Tex., where they are visiting their son and brother, Guy Reed Brainard, and Mrs. Brainard and children.

## These DOUBLE-UPS unite meat course and salad in one dish

says Dorothy Greig

As mother used to say, "Nothing so rejoices my soul as finding a way to make one dish take the place of two." That's the way it is with meat and chicken salads. They're meat course and salad combined.

Meat and vegetable salad served in tomato-jelly ring and set in crisp greens is meat course and salad combined.

For luncheon or supper parties I often serve such double-up dishes. For them I start fresh with meat and chicken specially cooked for the occasion.

At other times, though, this same type of main course salad is a marvelous way to end Sunday's roast with a flourish and use up those odds and ends of cooked vegetables reposing lonesomely in the refrigerator.

Now meat, chicken or fish are dry. Therefore, to give them relish and zest in a salad, marinate them awhile beforehand in salad dressing. And the character of that dressing makes all the difference between just a so-so salad and a glory-gory one.

The dressing I like for many of my meat salads is sharp and given extra flair and flavor by tomato soup... you know, the condensed kind that comes thick from the can like sauce. But here is the whole story on two of these salads:

#### Meat and Vegetable Salad

2 cups cooked pork, cut in 1/4 inch cubes

1/4 cup French Dressing with Tomato

1 cup cooked green peas

1/2 cup celery, diced

1/4 cup mayonnaise

1/2 tablespoons salad dressing or mayonnaise

Roast loin of pork or roast fresh ham into 1/4 inch cubes. Pour the "French Dressing with Tomato" over the meat, and put in refrigerator for 2 hours, stirring occasion-

ally. Then add the cooked green peas and diced celery and just before serving mix well with salad dressing or mayonnaise. Serve on lettuce, watercress, or other salad greens. Or place in center of tomato jelly ring. Serves 6.

#### \*French Dressing with Tomato

1 teaspoon dry mustard

1 teaspoon salt

1 cup salad oil

1/2 cup vinegar

1/2 cup condensed tomato soup

Mix together the dry mustard and salt. Then add the remaining ingredients and beat with the rotary egg beater until thoroughly mixed. Makes approximately 2 cups dressing.

And this same dressing is equally delicious when blended with chicken:

#### Chicken Avocado Salad

2 cups chicken, cut in 1/4 inch cubes

1/2 cup French Dressing with Tomato

1 cup celery, diced

1 cup avocado pear, diced

2 teaspoons lemon juice

1/4 cup salad dressing or mayonnaise

Cut the chicken into 1/4 inch cubes. Pour the "French Dressing with Tomato" over the chicken, and let stand in refrigerator about 2 hours, stir occasionally so that the dressing is well mixed through the meat. Add diced celery and avocado pear sprinkled with lemon juice just before serving, then blend with the mayonnaise or salad dressing. Serves 8.

### Household Hints

Hot cheese biscuits and fruit or fish salad make a pleasing pair to serve for informal evening refreshments.

Attractive garnishes may be made of pineapple rings by dipping edges in paprika.

Mix cream of mushroom and cream of pea soup, heat, and serve over hot boiled rice, macaroni or noodles.

Baste roasting duck with orange juice. This produces added flavor and helps cut excess grease.

To avoid lumps in batter, add a pinch of salt to the flour before it is wet.

ALMOND MOCHA PUDDING

Melt 4 tbsps. butter and mix in 4 tbsps. Kitchen Craft flour, 1/2 cup granulated sugar, 1/3 tspn. salt, 1/2 cup strong Admiration coffee, 1/2 cup milk. Cook slowly and stir constantly until creamy and thick. Add 4 egg yolks, 1 tspn. vanilla, 1/2 cup shredded almonds. Lightly fold in beaten whites and bake at 350 degrees for 25 minutes in a buttered baking dish in a pan of hot water. Cool and serve plain or cream topped.

PRIME RIB OF BEEF

Select a 5-rib standing roast. Wipe off with a clean damp cloth. Sprinkle with salt, pepper and Kitchen Craft flour. Place in open pan without water and roast at 350 degrees. If meat thermometer is used—rare, 140 degrees; medium, 160 degrees; well-done, 180 degrees. Roast 30 minutes per lb.

ORANGE CAKE

3/4 cup Mrs. Tucker's shortening, 2 cups sugar, 3 eggs (well beaten), 1 1/4 cups milk, 3/4 cup orange juice, 1/2 tspn. salt, grated orange rind, 1 tspn. lemon extract, 4 cups Kitchen Craft flour, 4 tspns. KC baking powder, 1/2 tspn. orange coloring.

Cream butter and sugar well, add beaten eggs. Mix dry ingredients and add alternately with orange juice and milk. Pour into greased stew pan and bake at 350 degrees for 1 hour.

KC BAKING POWDER BISCUITS

2 cups Kitchen Craft flour, 2 tspns. KC baking powder, 1 tspn. salt, 4 tbsps. Mrs. Tucker's shortening, 3/4 cup sweet milk.

Mix dry ingredients. Cut in shortening until mixture is as fine as meal. Toss onto floured cloth. Roll 1/2 inch thick, cut, place on baking sheet and bake 12 to 15 minutes at 450 degrees. Cheese biscuits, cinnamon pinwheels, tiny biscuits cut and placed on your stews, are a few variations.

BISHOP'S BREAD

3 eggs, 1 cup sugar, 2 cups Kitchen Craft flour, 2 1/2 tspns. KC baking powder, 1/3 cup cherry juice, 1/4 tspn. salt, 2 cups broken nuts, 1 cup dates, 1 cup maraschino cherries, 1/2 lb. sweet chocolate.

Beat eggs until light and add sugar. Mix and sift flour, baking powder and salt. Cut dates, nuts, cherries and chocolate coarsely. Mix with dry ingredients, then add to egg and sugar mixture. Pour into greased and wax paper lined loaf pans (small ones). Bake 1 hour at 325 degrees. Cool and slice very thin for serving. Lovely for teas or whenever dainty food is desired.

SALAD SURPRISE

Sliced pineapple, 1 lb. pimiento cream cheese, fruit salad dressing, dates (pitted). Fruit Dressing: 1/2 cup pineapple juice, 1/2 cup orange juice, 1/4 cup lime juice, 1 cup cream, salt, 4 eggs, 3/4 cup sugar.

BROILED STEAK (PORTERHOUSE, T-BONE OR SIRLOIN)

Select clear red meat with creamy fat, 1 1/2 to 2 inches thick. Cut through fat around edge. If there is long end on steak, skewer it in so

meat is compact. Place meat on broiler rack. Broil on one side 10 to 15 minutes (depending on position and degree of doneness you desire). Turn and broil on other side 10 to 15 minutes. When finished, remove to hot platter, pour over seasoned butter sauce. Serve at once very hot.

NOODLES

3 egg yolks, 1 egg (whole), 3 tbsps. cold water, 2 cups Kitchen Craft flour, 1 tspn. salt. Combine egg yolks and whole egg in mixing bowl. Beat with rotary beater until very light. Beat in the water. Sift flour once before measuring. Sift flour and salt together and stir into egg mixture to make stiff dough. Divide dough into 3 parts. Roll out each piece of dough as thin as possible on flour cloth-covered board. Place rolled-out noodle dough between 2 towels until dough is partially dry (not too dry). Roll up dough as for jelly roll and with a thin sharp knife, cut to very thin strips. Shake out strips and allow to dry before using or storing.

NOODLES ROMANOFF

Noodles, 1 cup cottage cheese, 1 cup sour cream, 1/4 cup minced onion, 1 clove garlic, 1 to 2 tspns. Worcester sauce, dash of hot sauce, 1/2 tspn. salt, 1/2 cup well-aged cheese (grated). Cook noodles in 3 quarts of boiling water to which 1 tbspn. salt has been added. Drain. Mix cheese, cream, onion, garlic, Worcester sauce, hot sauce, and salt. Place in baking dish, sprinkle with grated cheese. Bake 40 minutes at 35 degrees.

STUFFED EGG PLANT

Cut egg plant lengthwise, place in salt water about 1 hour. Scoop out egg plant, cut in cubes and cook until tender. Blend 1 tbspn. minced onion, 2 tbsps. butter, 1 cup crumbs, 12 bearded oysters, 1/2 tspn. salt, bit of hot sauce, top with buttered crumbs and bake 20 minutes at 350 degrees.

BAKED CHOCOLATE PUDDING

Mix as for cake, put in a square pan (8 inches) and top with 1/2 cup white sugar, 1/2 cup brown sugar, 2 rounded tbsps. cocoa and 1 cup water. Sift the topping over first mixture, pour over water and bake. Serve warm or cold with cream.

Mix thoroughly, add salt to milk and stir until hot. Beat egg yolk, stir in with confectioners sugar. Beat until creamy, spread on sides and top of cake.

ANGEL PARFET

2/3 cup sugar, 3/4 cup water, 1 pint whipping cream, 1 tspn. vanilla, 1/4 tspn. salt, 3 egg whites. Boil sugar and water until syrup will thread when dropped from

Soak gelatine in cold water for 5 minutes. Heat milk and add sugar, then pour over beaten egg yolks. Cook 2 or 3 minutes, add gelatine and peanut brittle. Chill thoroughly and fold in beaten egg whites, whipped cream and vanilla. Pour into refrigerator trays and freeze. Stirring unnecessary.

## Second Flood—

(Continued from page 1)

The second time in less than a week and the flood waters went over the west approach of the new bridge east of Artesia about midnight Saturday, cutting away considerable of the roadbed and halting all traffic.

The water, at a new stage of 11.3 feet, rushed through four breaks of 50 to 100 feet each, spread out over several hundred yards of the low part of the approach, after Highway Department crews worked in vain to hold the flood back by means of a dike. At the peak of the flood, the water north of the bridge approach stood as high as two feet above the road surface, held only by the puddly gravel dike, which was thrown up Monday of last week, when the previous flood threatened to cut out the new work.

Continued strengthening failed to hold the water back, and shortly after the flood cut through in one place Saturday night, it found its way through in three other places.

Seep water and continued local rains had so softened the approach in places Saturday afternoon that only vehicles which had any definite destination were allowed to cross. All other vehicles were turned back from both ends of the approach, as the attempt was made to hold the dike.

When the waters subsided late Sunday, highway crews immediately began to fill the breaks and traffic was again opened Monday over temporary repairs.

In the interval between the first and second floods at Artesia, the State Highway Department announced Friday that bids would be opened at Santa Fe May 16 for four box culverts near the bridge, as well as for other work over the state.

It was learned unofficially that the road surface on the approach also will be raised 3 1/4 feet in the near future. With the four box culverts to help carry off flood waters, along with the two bridges, the one over the river and the one just west of it, and with the height of the highway raised, it is believed a repetition of the dangers to the highway will be eliminated.

Locally 3.90 inches of rainfall was recorded on the gauge of the New Mexico Eastern Gas Company since April 25, with some rain nearly every day for more than a week, an unusual precipitation for this locality at this time of the year—or any time.

The heaviest rainfall for twenty-four hours, read on the gauge at 7 o'clock Saturday morning, was in the day prior to that, during which 1.60 inches were recorded. It was accompanied at 4:30 and 5:30 o'clock Friday afternoon and again at 8:30 o'clock that evening by heavy hail storms at Artesia. And considerable hail fell in other localities, beating down small cotton plants and packing the earth over unsprouted cotton seed, so new plantings will be required on many farms.

Readings by days: April 25, .70 inch; 27, .10; 28, .05; 30, .10; May 1, 1.60; 2, .30; 3, .28; 4, .07; 5, .70. Highest stage during the flood last week end, read on the gauge at the new bridge, was 11.3 feet at noon Saturday, after the rapid rise started late Friday. That stage was considerably higher than the peak of 10.9 feet in the flood a week earlier. The water had dropped to 11 feet by 2:30 o'clock Saturday afternoon, but a slight rise added another tenth by 6 o'clock, before it began to drop again. Aided by the breaks, the water subsided rapidly Sunday, so crews could start to work that night with repairs.

During the time the traffic was halted, many oil field workers were marooned across the river and others could not get across to their work.

## Oil Activity—

(Continued from page 1)

The Puckett 11, in NE SE section 24-17-31, was completed at a total depth of 3,930 feet, flowing 200 barrels of oil a day through open tubing.

Emperor's Puckett 1-B, in SW SW of the same section, flowed twenty-five barrels of oil a day from a total depth of 3,965 feet.

## Legionnaires—

## Cooking Won't—

(Continued from page 1)

were not enough inducements to the women of the Artesia area to attend, a record-breaking array of free gifts has been piled up, any one of which would more than repay anyone for the time spent at the school.

Most of the time each of the three mornings will be taken up with demonstrations by Miss Jessie Hogue, but she will step aside a few minutes near the end of the sessions while the prizes are awarded.

The doors will open at 9 o'clock, school will start at 9:30 and will be over about 11:30 o'clock each morning.

Of course, the greatest of the prizes will be a Roper range, the gift of the New Mexico Eastern Gas Company, which will be the grand prize and will be given away Wednesday morning.

Then there are two baked hams! Peoples Mercantile Company is giving a Wilson's Certified at the school Tuesday morning. That ham will be baked the night prior in the oven of Ross Baking Company. And on Wednesday morning the Pecos Valley Packing Company will have a ham to delight some woman, which will have been baked during the night by Star Bakery. At least one of the hams will be glazed on the stage by Miss Hogue, using Coca-Cola in the process. Fresh meats used in the school will be furnished by Pecos Valley Packing Company.

And, speaking of Coca-Cola, the Pecos Valley Coca-Cola Bottling Company will serve cold Coca-Colas to everyone at the Tuesday school. The company also will give away twelve orders each day for six-bottle cartons of Coca-Cola, and on Wednesday will give in addition an order for a case for a grand prize, the orders to be filled by any retail dealer.

Doubling back to the two home bakeries, Ross and Star, each will give a cake all three days. In the cake line, there are four prizes for the four best cakes baked by men or women of this locality on Tuesday morning. Complete details of the baking contest, sponsored by the manufacturers of Mrs. Tucker's shortening, will be found on the first page of the second section.

The stage kitchen of Miss Hogue will have a homey aspect, for there will be fresh flowers there all three days, with the compliments of Terpening's Greenhouse and The Flower Shop. And both of those firms are giving prizes the final day. The Flower Shop a potted novelty and Terpening's Greenhouse a potted plant.

The Safeway Store will give a forty-eight-pound sack of Kitchen Craft flour each day. And Miss Hogue, incidentally, will use Kitchen Craft flour whenever flour is indicated in a recipe.

Brown Mercantile Company will give an order on Wednesday to some woman for a basket of groceries, and Star Grocery will give a basket of groceries each day.

Miss Hogue will use milk products exclusively from Leslie Martin Dairy throughout the school. And the dairy will give to someone attending a free quart of milk each day for a month.

And last but not least are the manufacturers who are cooperating with The Advocate in making the school a success. The prod-

all of which will be used in Miss Hogue's cooking, as well as dozens of packages given away each day, are Mrs. Tucker's shortening, KC baking powder, Admiralty coffee and Kellogg's All-Bran.

The Advocate is indebted to McClay Furniture Store for the use of a Frigidaire electric refrigerator, to Mann Drug Store for a tie-in with another important household appliance, the Easy Home Laundry, to Southwestern Public Service Company for loaning electric kitchen appliances which will be used, to Artesia Beauty Service and to many others.

Also from the Artesia office and receiving an award, but not appearing in the picture, was W. C. Hughes, truck driver, who received a two-year award and holds a record of 50,715 miles without an accident.

Of unusual interest was the issuance of certificates of award to four of the company's key men, in whose departments there were no vehicular accidents the last few years.

Charles Gaskins, manager of the Artesia office, and E. C. Reddy, manager of the Carlsbad office, received such awards respectively for the years 1936-41 and 1938-41. Neither Jack Phillips, district construction superintendent, nor any man under him had an accident for the period of 1937-41 for which he was awarded. But the longest time for no accident by a department head or his men was recognized in the certificate of award to Laurence Carrell, manager of the Roswell pumping district, for the years 1935-41.

## Problems of Cooking Changed From the Days of Grandmother

Cooking was considered the servant's problem in grandmother's day, but times have changed and the modern homemaker knows it is her job to be interested in the food that is served at her table.

Modern methods take the place of makeshift, and cooking becomes an art that takes its place in the front row of health. Knowing this to be a truth and realizing its importance to all homes, The Advocate takes pleasure in presenting Miss Jessie Hogue, well-known home economist and lecturer, who has talked to thousands of women, and who now comes to conduct the Happy Kitchen Cooking School at the Ocotillo Theater next Monday, Tuesday and Wednesday mornings.

Each day the Happy Kitchen Cooking School will present new and interesting hints on homemaking. The problem of making each dollar of the budget reach farther will be discussed. New methods in planning the meals will be given, as well as new ways to serve the old stand-bys that are favorite dishes in every family. How to arrange your kitchen to save steps and work, what you need in a properly equipped kitchen. Every phase of homemaking will be covered and so many interesting highlights on modern home management that you will want a notebook with you so you can jot down notes to keep for future reference.

It will be to your advantage to attend each day of the Happy Kitchen Cooking School. Something new and interesting will be given each day, including new menus, new recipes and new household hints. Make arrangements now to attend each day.

Hold the dates of May 12, 13 and 14 open to attend the Happy Kitchen Cooking School which will be presented under the auspices of The Advocate in the Ocotillo Theater. It is free to all.

### Miss Hogue Is To Use Kellogg's All Bran Cereal

Kellogg's All-Bran is being featured in The Advocate's Happy Kitchen Cooking School. This familiar package of cereal will occupy a prominent place on the demonstration table of Miss Jessie Hogue.

Of greater importance to health than most people believe is breakfast, Miss Hogue says. And probably the most important part of the meal is cereal. That's why the famed culinary expert took particular pains to reserve a place on her tables for the Kellogg cereal package.

Women who attend the cooking school will be informed of the importance she places on the morning meal and exactly what it should consist of, by Miss Hogue. She will give combinations of fruits with Kellogg's breakfast cereals demonstrated, ideas on how to serve them in tempting delicious ways and information on the correct fruits and juices to combine with the various cereals.

The lecturer will prepare and recommends these delicious Kellogg's All-Bran muffins:

2 tblspns shortening, 1/4 cup sugar, 1 egg, 1 cup Kellogg's All-Bran, 3/4 cup milk, 1/2 tspn. salt, 2 1/2 tspns. baking powder.

Cream shortening and sugar thoroughly, add egg and beat well. Stir in All-Bran and milk. Let soak until most of the moisture is taken up. Sift flour, salt and baking powder. Add to first mixture and stir only until flour disappears. Fill greased muffin pans 2/3 full and bake in moderately hot oven—400 degrees for thirty minutes.

### Those Savory Odors Are Coming From the American Legion Hut

Nose-tickling odors have been coming from the direction of the American Legion hut today, where Legionnaires are busy getting many pounds of meat ready for the Legion's annual barbecue and dance this evening.

Work began last night barbecuing the beef on the pit at the hut and the savory odors attracted would-be helpers and samplers.

But everyone will have an opportunity to sink his teeth into the succulent meat this evening, when Loren E. Neeley, "major domo" of the affair, will preside at the serving, as well as at the dance.

The gorilla is the largest and fiercest of the anthropoid apes.

### Luscious Hams Will Be Baked at School Tuesday, Wednesday

Luscious baked hams have been selected for demonstration at The Advocate's Happy Kitchen Cooking School.

The ham baked and given away Tuesday will be a Wilson's Certified, with the compliments of Peoples Mercantile Company. The Peecos Valley Packing Company will give one of its select hams on Wednesday.

### Can you bake a cake?

If you can, here's a chance to win a prize in connection with The Advocate's Happy Kitchen Cooking School, to be held at the Ocotillo Theater next Monday, Tuesday and Wednesday mornings, May 12, 13 and 14.

The cake baking contest, which will be held Tuesday morning, is being sponsored by the manufacturers of Mrs. Tucker's Shortening, in cooperation with The Advocate, in a crusade for better baking, and it will be one of the outstanding features of the school.

Mrs. Tucker is offering four

worthwhile prizes for the best cakes, including two sets of bright and shiny, sturdy, chrome steel cooking ware.

To the person—man or woman—baking the best cake, in the opinion of Miss Jessie Hogue, cooking school demonstrator, Mrs. Tucker will give as first prize a five-piece set of Everedy chrome steel cooking ware, consisting of chicken fryer, skiddle, two different sizes of skillets and a Dutch oven. Appearance, texture and taste will be considered by Miss Hogue.

Second prize will be a three-piece set made up of chicken fry-

er, skiddle and skillet. A twenty-four-pound sack of flour will be given for the third prize and a twenty-five-ounce can of KC baking powder for fourth prize.

The only provision made by the shortening manufacturers is that Mrs. Tucker's Shortening must be used in the cakes submitted. And The Advocate makes a single provision, that the recipe used be submitted along with all cakes entered. The recipes may be sealed, if desired. However, they will not be consulted in the judging of cakes, but for publication of the winning (Continued on page 5, this section)

### Misses Bentley and Wells Are to Assist Miss Jessie Hogue

Miss Jessie Hogue will not be the only home economist at The Advocate's Happy Kitchen Cooking School at the Ocotillo Theater Monday, Tuesday and Wednesday mornings of next week.

She will have as assistants Misses Dorothy Wells and Geneva Bentley, second year home economists of Artesia High School.

Fashions in foods, a comprehensive array of new foods for your table, is coming to Artesia for the benefit of every woman in the community. Miss Jessie Hogue, well known culinary artist and designer, will conduct this fashion show in foods when the Happy Kitchen Cooking School gets under way here next Monday, Tuesday and Wednesday mornings. According to reliable food experts, the series of entertaining and informative demonstrations will contain many new streamlined recipes to add zest and pick-up to future meals.

"Since you would not think of going through every season wearing the same style clothing, why not add a change of styling to your meals," says Miss Hogue. "It will add to the family's enjoyment and women will quit saying, 'It's the same old thing.' These new recipes will be but a part of the presentation of the Happy Kitchen Cooking School.

There will be tips on budgeting the food situation in the home to get the maximum results with the minimum expenditure. There will be practical solutions of appetizing ways to use leftovers. There will be helpful suggestions to give the women better insight into home management. And stress will be placed upon new party foods to serve guests when entertaining.

Miss Hogue will be open to your questions, so that your particular household problem can be solved on the spot.

And to all this program of fashions in foods, every woman present will have the opportunity of securing gifts and food products. So plan now to attend every session of the Happy Kitchen Cooking School. It will be the most practical and entertaining time ever spent by any woman in this community.

The dates of the Happy Kitchen Cooking School are May 12, 13 and 14.

### Makers of KC Baking Powder For 50 Years

The makers of KC baking powder, the brand featured in The Advocate's Happy Kitchen Cooking School, and a favorite in millions of homes, are observing the golden anniversary of that popular brand. Miss Jessie Hogue, who uses KC in her demonstrations, recommends that brand and offers the following suggestions for the proper use of baking powder to insure best results:

Use the amount of baking powder recommended on the can or in the recipe book issued by the manufacturer. Because of the high strength of KC baking powder which she is using in the cooking school, only one level teaspoonful should be used to a cup of well-sifted flour for most recipes. This is equivalent to one heaping teaspoonful to a quart of flour.

Careful measurement is very necessary as using more or less than a recipe calls for will not produce best results.

Another secret of good baking is to be sure that the baking powder is thoroughly mixed with the flour and other ingredients. The more thoroughly the baking powder and flour are mixed before you add moisture, the better your results are likely to be. Sift three or four times.

For biscuits, make a smooth dough that can be handled without sticking, and bake in moderate oven. For cakes, have your oven slow to moderate at first, until the cake is fully risen; then increase heat so as to just brown lightly.

KC is manufactured by baking powder specialists who make nothing but baking powder. It is always uniform in quality and can be relied upon to produce for you, the kind of bakings you will be proud to serve.

Additional helpful information and a great many practical, tempting recipes will be found in the KC Cook's Book. You will receive a copy, postage paid, by mailing your request, with a slip taken from a can of KC baking powder, to Jacques Manufacturing Company, Chicago, Ill.

At Indianapolis, when a dog bit Dogcatcher Marion Woods, his nose was news. He showed up at police headquarters with the nose in bandages and explained. "I bent down to look at a dog in front of 337 West Fourteenth and he reached up and bit me."

To foil cracksmen, Herb Meier and Art Bode hung a sign reading, "Nothing inside," on the safe, in their filling station at Richmond, Ind., and listed the combination. Somebody broke into the place, took twenty-four cartons of cigars, opened the safe and stole a \$35 gold watch which had been left there by mistake.

"If the French aren't in France, where are they?" a puzzled student asked History Professor J. C. Truman at Independence, Mo. But the French for the most part still are in France, he explained. "I don't get it," she answered. "I keep reading about unoccupied France."

He volunteered in Nazareth, Pa., and was at Bath, Pa., when ordered to report for service, and was sent to Wilkes-Barre for physical examination and induction.

At Warsaw, Ind., three days after he lost his cat, Robert Slocum put a classified advertisement in a newspaper. That afternoon the cat walked into the newspaper office and the adtaker turned it over to the owner.

Dave Holopeter's jangling telephone awakened him. "All your children in bed?" someone asked. "Yes—certainly." "Better look again." Holopeter did and found Bobby Ray, 7, missing. Walking in his sleep, he had made his way down the block in Pratt, Kan., and wandered into a mortuary.

Mrs. Laura Cooper of Harrisburg, Pa., is in good health but she won't be for long if undertakers don't stop knocking at her door and asking for her "dead" body. It's all very annoying, she says, even though obviously the work of a practical joker. The first time a hearse arrived was bad enough. The second time was worse, but the pay-off came when a florist delivered a huge wreath tagged "from husband."

Everything was operating smoothly on the Nickel Plate Rail-

At Camp Robinson, Ark., Capt. Charles Taylor said, "Why?" when Private Frank Furlan, St. Louis, insisted on a furlough. Twice, explained Furlan, he received letters from his selective service board demanding he report for examination. Twice—thinking his enlistment should satisfy the government—he threw the letters away. Came the third letter with a threat of arrest. Captain Taylor suggested a polite postcard instead of a furlough.

Mr. and Mrs. Charles Chamberlain have been living in Pleasantville, N. Y., for nine months, but until the other day didn't know their address. Their four-block-long street bore the names Chamberlains Drive, Bedell Place, Rock Way and Pierce Drive until the Chamberlains' plea to the village board resulted in abolition of the first three.

Charles Payne, 63, walking by the Wabash River, saw a dog struggling in midstream, weighted down by a collar and chain. He took off his coat and shoes, put a pocketknife between his teeth, swam out and cut the collar off. The dog, freed of the weight, swam to the bank with Payne.

He was only a squirrel but, he bit a 76-year-old woman, chased her and her daughter into the house; jumped on another woman's shoulder, nipping her arm three times; left a fourth woman with a lacerated leg; bit a 9-year-old boy on the hands. Ten Kansas City policemen came to the rescue, frightened the animal up a tree with BB shot, then used a

riot gun. The first charge went wild. The second brought down the squirrel—and the treetop.

Arne Sveen, 22-year-old Norwegian midshipman, was in Oslo, and he wanted to get to Canada. Leo Herzig, Salina, Kan., assessor, lent a helping hand and got stuck. Aiding a merchant list his property, the assessor asked: "Aren't you going to list this typewriter?" "Naw, it ain't worth it. I'd sell it for \$2 any day." Herzig bought it—for \$3.

At Camp Robinson, Ark., a tongue-tied whippoorwill has the officers of the 137th (Kansas) Infantry tearing their hair. The night bird haunts the officers' quarters. It starts out on the "whip-poor—" call in great shape but can't get out the "will." "The damned thing is driving us mad," said Capt. Guy E. Vining of Horton, Kan., adjutant of the regiment. "It's like hearing an orchestra play everything in a song but the last note."

Henceforth when the skipper of an Axis ship sees the signal—W-B-A—he'd better toe the mark. For that signal means that a British warship is nearby and will open fire if any scuttling is attempted. According to the British admiralty, the new signal, W-B-A—means: "Stop—do not lower boats. Do not scuttle. Do not use radio. If you disobey, I open fire."

## Duncan Coffee Founder Pioneer Correct Blends

In the laboratory of the Duncan Coffee Company at Houston, Tex., a pleasant-featured, middle-aged man sits at a round table and sips coffee. The laboratory is a practical miniature of a coffee roasting plant and from its small, fragrant ovens, grinders and maker, come cups of brewed samples from every coffee producing region on the globe.

The man is Herschel M. Duncan, president and founder of the company, who is recognized by the trade as being one of the world's foremost experts. From the dictates of his palate have come the formulae that have placed Admiration coffee and tea among the leading brands in the Southwest.

Millions of pounds of these coffees are blended and roasted annually in the Corpus Christi and the Houston factories of the company, and the Duncan enterprises support a labor roster of approximately 400 employees with an annual payroll of \$650,000. While the bulk of production is consumed by Texas coffee drinkers, an appreciable amount is also marketed in the remainder of the Southwest and in the South. A tribute to the quality of Admiration coffee is the fact that it is served exclusively in the House of Representatives and the Senate at the National Capitol.

The first coffee roasted by the Duncan Coffee Company was the famous Admiration blend, "The Cup of Southern Hospitality." So pleasing and successful was this original blend of expensive coffee that after twenty-three years this same blend is hailed as one of the world's finest coffees.

Always a step ahead in pioneering coffee roasting and packing improvements, the Duncan Coffee Company was the first in offering coffee lovers of the Southwest such refinements as tailor-made grinds. In order to insure the goodness of Admiration coffee in all types of coffee-makers, the Duncan Coffee Company spent thousands and thousands of dollars in research and experimentation, seeking to determine the grind best suited for each coffee-making method. In 1932, the Duncan Coffee Company startled the coffee industry in announcing the creation of the patented "Driprut." This distinctive grind met with such immediate response all over the Southwest that soon other companies attempted to market a similar grind. Then, just seven years later, in 1939, the Duncan Coffee Company again matched the progress made by manufacturers of coffee making equipment when it announced the perfection of "Glassdrip," the precision-cut coffee for aluminum and glass coffee-makers. This grind today stands alone as the only perfect grind for glass coffee-makers available in the Southwest.

Thermo-roasting—a scientific method of heat application which roasts the beans thoroughly and evenly to bring out all the fine flavor of the superb Admiration blend—represents still another "first" for Duncan.

Dedicated to the purpose of offering the public the finest coffees and teas obtainable and determined to maintain its independence as one of the Southwest's own industries, the Duncan Coffee Company proudly looks forward to the future.

recipe after the school. Cake and recipes must be on the stage of the Ocotillo Theater by 10 o'clock next Tuesday morning. All winning cakes will become property of the school.

Miss Hogue recommends Mrs. Tucker's especially for cakes, because it is so creamy-smooth. She advises that this shortening has been featured in more than 250 cooking schools each year for several years and that the experienced demonstrators have found Mrs. Tucker's creaminess the most desired quality in a shortening. These experts say that Mrs. Tucker's is multi-creamed at the factory so that it mixes easily with other ingredients at any temperature.

"Besides this ease of use," Miss Hogue says, "Mrs. Tucker's is desirable for cakes because it is made exclusively from choice vegetable oil. There is no animal fat in this shortening, which digests quickly and easily. Then, Mrs. Tucker's is packed in airtight cellophane-lined cartons and in three pound airtight cans, so that it keeps its sweet, pure factory-freshness. And, finally, Mrs. Tucker's goes farther for real economy."

Mrs. Tucker's is also fine for frying and all other shortening purposes, according to cooking school demonstrators who have tested it for every kind of use. They feature Mrs. Tucker's lack of moisture, which assures no popping, its high-burning point and the fact that it does not absorb odors or flavors of foods fried in it. These women say one can strain Mrs. Tucker's and use it over and over for economy.

## WHAT'S WHAT in NEW MEXICO

News Briefs of the "Sunshine State," Gleaned from Many Sources

A \$100,250 Hobbs airport improvement project has been approved by the Civil Aeronautics Authority, G. D. Macy, state coordinator for aviation activities, announced Saturday. The project brings to seven the number of New Mexico municipal airports under improvement, including Carlsbad, Roswell, Deming, Las Vegas, Albuquerque and Santa Fe.

Total Carlsbad city revenue for April was \$4,996.96, City Manager Hoyt E. McMinn said. Broken down, the report follows: License fees, \$2,187.50; fines, \$462; rental, \$100; permits, \$325.38; taxes, \$530.41; drivers' licenses, \$179.20; irrigation fees, \$22.50; garbage fees, \$330.40; gasoline tax, \$847.82; and miscellaneous, \$11.75.

State Comptroller C. R. Sebastian said that an incomplete audit of the Santa Fe County treasurer's office indicated a shortage of between \$40,000 and \$50,000.

New Mexico Women's Clubs will fall in line with the national defense plan wherever they can serve, Mrs. Fred E. Dennis of Clovis, newly-elected president of the State Federation, said.

Assistant Attorney General Howard F. Houk has ruled that it is not a criminal offense to issue a post-dated check. The check writer, even if the check is worthless, is not subject to criminal prosecution if he "advised the payee that said check is post-dated and does not attempt, through stealth, to post-date the check without the knowledge of the payee," Houk explained.

Dr. Hester B. Curtis, state director of maternal and child health, urged extension, rather than curtailment, of health work in the present defense emergency. The "high proportion" of young men found unfit for military service, she said, emphasized a need for greater efforts to guard the health of the state's mothers, infants and growing children, regardless of financial status.

New Mexico's ports of entry, rechristened "Division of Courtesy and Information" by the recent Legislature, are going to live up to their new name, Director Earl Stull said. Ports are to be beautified, markers are to be repainted and "men who can't measure up to standards of courtesy" to be discharged, said the director, who even is toying with the idea of hostesses—"cute girls, dressed in short, fringed buckskin skirts, cowboy boots and ten-gallon hats."

State sales tax collections continued their upward trend during April, while compensating and severance tax revenue fell off, the Bureau of Revenue announced. Sales tax receipts for the month totaled \$326,775.33, up \$24,409.11 from the April, 1940, figure and \$9,953 from collections last March. Use tax revenue dropped from \$40,280.03 in April, 1940, and \$25,388.86 last March to \$20,122.59.

## Stress Good Nutrition As Defense Need

Today nutrition authorities are stressing the need for guarding the national health in carrying on an effective program of defense. In calling attention to the importance of proper food, it is pointed out that a survey has revealed that approximately 45 million of our population are living below the "safety line" of what is considered an adequate diet.

What factors are essential in our foods to assure that the diet fully meets body needs? Protein is necessary to build and repair body tissue. There must be vitamins to promote growth and protect health, and calories to supply heat and energy. Minerals, such as iron, copper, phosphorus and calcium, are needed to build blood, bones and teeth.

**Importance of Iron**  
In considering the minerals needed, medical authorities point to the special importance of iron as a blood builder. It ranks first among the nutritive elements in this respect.

The iron in the body of an average adult is only about the weight of a penny, but this element is vital to health. Iron enters into the structure of every active body cell. Iron is a constituent of the hemoglobin or red pigment of the 25 trillion or more red blood corpuscles, and thus helps to carry oxygen to every part of the body.

Foods rich in iron must be added to the diet at six months or earlier and continued throughout life, according to nutrition authorities. The adult requires at least 12 milligrams of iron daily.

**Iron Prevents Anemia**  
The penalty for an insufficient iron supply is a condition known as nutritional anemia, characterized by fatigue, digestive disorders and other symptoms.

As early as 400 to 500 B.C., a condition corresponding to anemia was described by Hippocrates, the Father of Medicine. Menghini an Italian, is given credit as the first to discover iron in the blood—in 1747. The present view that an iron

deficiency is the principal cause of anemia, was first advanced in 1889. In 1849, a serious form of anemia, known as pernicious anemia, was described. In the year 1934, Drs. Minot, Murphy and Whipple were awarded the Nobel prize in medicine for their discovery that liver was effective in the treatment of pernicious anemia which was previously regarded as a fatal disease.

Division Director G. S. Carter said the unfavorable comparison was due chiefly to the fact the bureau received a large tax payment, approximately \$22,000, from the El Paso Natural Gas Company in April, 1940; and another large lump sum payment from the Chino mines last March. April severance tax collections totaled \$57,353.97, a decrease of 4.28 per cent from April a year ago

O Copper content not determined

**IRON and COPPER IN A SERVING OF SOME COMMON FOODS INCLUDE IN THE DIET FOODS CONTAINING IRON and COPPER**

The accompanying chart carrying the seal of acceptance of the Committee on Foods and Nutrition of the American Medical Association, presents the most up-to-date information on the iron and copper content of our common foods. The iron of foods is better utilized in the presence of small amounts of copper. Liver, which heads the list, is recognized as pre-eminent among blood-building foods. An average adult would be assured an adequate daily supply of iron if the following amounts of foods are taken each day: 2 servings of meat (1 serving of liver each week); 1 egg; 2 servings of vegetables; 2 servings of fruit.

deducted to aid experiments in using and storing the energy, is being done at twenty other stations in the United States, Alaska and San Juan. But only four are equipped with the newest instrument which keeps a record of all solar radiation throughout the day. Measurement of the sun's energy was started in New Mexico in 1914, according to Hardy, who took some of the earliest observations

in the state. It was discontinued in 1922 and resumed two years ago when the station moved to its present location at the Municipal Airport.

Governor Miles spoke from personal experience Saturday when he sympathized with office visitors who have had to wait for hours in the ante-room. Before taking office, he did some sitting in that room himself. Whoever designed the ante-room chairs did it with a shrewd eye to discouraging loiterers. They are handsomely upholstered in native tapestry, but the seats, instead of sloping back, slope forward. As a result, any occupant must hold himself rigid, brace his feet and grip the seat firmly to keep from sliding off onto the floor. Visitors' chairs in the governor's office proper, however, are leather-upholstered and tilt back comfortably.

Oil and gas leases on more than 11,800 acres of state land in South-eastern New Mexico will be offered bidders in Santa Fe May 10 at the state land office's monthly lease sale, Land Commissioner H. R. Rodgers announced.

Chief Auditor Walter Barnes of the Bureau of Revenue predicted an increase of \$100,000 in state income tax collections for the current fiscal year. The receipts at present are about 30 per cent ahead of those for the same period last year which totaled \$500,000. "I expect we will collect at least \$600,000 this fiscal year," said Barnes. Collections for the

taxes had totaled \$286,764.79 by March 1, compared to \$192,710.32 for the same period last year.

Jose Martinez, 86-year-old Carlsbad farmhand, has decided to abandon agricultural labor for a "job with a future." Martinez applied for a social security number at the Carlsbad office of the New Mexico State Employment Service, and explained: "I have worked on farms and ranches for 75 years, and I've decided there is no future in it. I want to get a job in town so that I can start earning some insurance for my old age."

New Mexico district court clerks were notified by the state comptroller's office to begin immediate collection of an additional \$1.25 filing fee for court cases. The fee was established by an emergency law passed by the recent legislature to finance a new compilation of New Mexico statutes. It raised costs from \$10 to \$11.25.

What the railroad industry means to New Mexico is outlined in a report of the Association of American Railroads, which esti-

mates that the railroads expended in the state a total of \$14,097,162 in 1940 for materials and supplies of all kinds and for wages of employees. The 1940 tax payments are not yet available, but for 1939 the railroads paid \$1,848,812. Railway purchases in New Mexico in 1940 of fuel, materials and supplies and new equipment totaled \$2,309,027. In addition, the railroads paid \$11,788,135 in 1940 in wages to employees located in the state, the total number of such employees in July, 1940, having been 6,071. The number of employees represents the total number receiving pay in July, some of whom, however, only worked a part of the month.

### Old Stuff to da Vinci—

About the only "modern" invention that Leonardo da Vinci didn't invent was relativity. Probability is, he just didn't get around to it! As it was, he spent a fairly busy lifetime tossing off his masterpieces, the "Mona Lisa" and "The Last Supper," and dreaming up the automobile, the air-conditioning plant, the diving rig, the helicopter and the parachute, not to mention nearly 200 other "devices" which predate by four centuries the scientific achievements considered so painfully up-to-date today.

his machines made it possible to sharpen dozens of needles for textile work, automatically and simultaneously. Does that have a familiar sound? Previously a single needle had to be laboriously sharpened by hand.

Another colorful invention was an hydraulic ventilator, fashioned for hot-weather comfort in the home of Beatrice d'Este, wife of Ludovico il Moro, who was Leonardo's patron in Milan. Forerunner of the modern air-conditioning machine was a large wooden cylinder, the interior of which was divided into four sections, two for water and two for air. The flow was regulated by a series of valves. The cylinder was turned by a slave who trod the steps on the outside of the shell and thus caused the water in the two compartments to drive the air before it, cooling it and forcing it out through an opening into the room. At the end of the 15th century da Vinci devised an hydraulic pump for use in the building of a canal from Florence to the sea.

Today's wistful dream of "cities of the future" in which traffic is regulated on a series of levels, was a practical reality to Leonardo. His notebooks contained plans for such a city in which streets were designed on two levels, the upper for pedestrians, the lower for vehicles. His interest in marine engineering led to the designing of apparatus for a diver, a double-hulled ship and a paddle-wheeled vessel, in addition to three models pertaining to warfare at sea—an armored ship, an apparatus for tearing a ship's keel, and a device for piercing the keel.

From hydraulics to architecture, from machine tools to astronomy and from practically anything else that can be mentioned to anything else that can be conceived, da Vinci had a machine for it. In confidential moments, scientists admit that he was more modern than most of the "moderns" today.

Armies March on Tanks—  
Napoleonic armies marched on their stomachs. Today's armies march on a steel tank filled with gasoline. Tanks consume a gallon of gasoline every three miles. On rough ground, one gallon for every mile. Gasoline is fed by drivers using foot pedals. Supplementary gadgets are tachometers, oil pressure indicators, oil temperature gauges, and panel lights. Levers on either side of the drivers turn the tanks by acting as brakes. Drivers pull them backward and forward, much as aviators work the stick of a plane. Five forward and one reverse gear control the

250-horsepower seven-cylinder radial airplane-type engines.

Top speed of tanks, under favorable conditions, is between 55 and 60 miles an hour. The crew is composed of four—driver, assistant driver (although there is only one set of controls), the commander, who operates the heavy, 50-caliber machine gun from one of the turrets, and the radio-gunner.

Tank drivers get plenty of ad-

vice, but not from the back seat. They respond to foot signals on the shoulder and back from the tank commanders' boots. Several kicks mean go ahead. Pressure on the right shoulder calls for a right turn; on the left shoulder for a swing to the left. "More speed" signals are a rapid tattoo on the back of the neck. The sign to "slow down" has a gagging effect, some commanders pulling back on the drivers' collars.
