RAISE THE PRICE OF CRUDE

It seems to us that if the price ceiling on anything should be raised, petroleum should be considered.

In the name of parity, this should be considered and allowed. Millions of dollars have been invested in the oil business in the study, 7:30 p. m. Bring your Bibles United States for drilling and well equipment. The operation of a and study not about but the Bible. well costs considerable money, on top of which must be added a certain amount for the amortization of the well. When a well produces third Thursdays; circles second and fourth Thursdays; brotherhood, below a definite amount of pay oil it is being operated either at a loss third Thursday.

It is the same proposition as with common carriers; rates are founded on expected performance, by way of traffic. When that traffic falls below the expectation, the carriers operate at a loss.

Now the production of oil wells, at least in New Mexico and West Texas, has been curtailed greatly, to the point where profits have each Sunday morning; classes for dwindled almost to the disappearing point.

We believe sincerely in price ceilings, by way of avoiding inflation. But we do know that drillers and tool dressers are leaving the oil fields for defense industries, where they are obtaining more money. The drilling operators cannot afford to meet the demands caused by this condition. Even the operators of producing wells are faced with church are always welcome. Newa similar condition, on top of the cutting of allowables.

Our congressional delegation could do no greater good for New Mexico than to protect one of its greatest industries by seeing that a their church home while in the city. fair profit is forthcoming for the efforts of the men who have been and are removing black gold from Mother Earth.

That is what we told John J. Dempsey yesterday and that is what we would tell Senators Dennis Chavez and Carl Hatch and Congressman Clinton Anderson.

TRULY A SAFE AND SANE FOURTH

It took one war to start it and another to stop it! We are referring to the shooting of firecrackers!

It was a splendid thing for our great-grandpappies to start are always delighted to have you the custom of shooting firecrackers each Fourth of July.

And when we were a small sprout we thought it would have been wrong were we not allowed to have plenty of the dangerous little exstand.

But as we grow older-and heaven forbid that we are getting aged -we thought less and less of the custom, even to the point of exasperation, when on the afternoon of the Fourth we attempted to take a nap. But this year-ah!-it was peaceful!

Very little good comes out of armed conflict, compared with the Spanish, you will feet at home, for REV. A. F. WALLER HOLDING sadness and loss of life and property and we would not go so far as the Spanish-speaking people enjoy to say the elimination of firecrackers makes the war worth while, but having you and will extend a spirit it at least is small compensation.

Perhaps when World War II is over, the youth of America will find another and better way to celebrate, not only the independence of the United States of America, but the independence of the world.

GUESS WE WERE RIGHT IN THERE PITCHING

It was with considerable satisfaction that we saw The Advocate on the news stands along with upwards of seventy-five national publi- a. m. cations in a galaxy of flags last week.

Among our exchanges we did not note another newspaper, daily or weekly, which used Old Glory in colors and we doubt if there were many over the nation, especially among weeklies.

The use of the American flag on the magazines was no happenstance, but was the result of an agreement reached some weeks ago, for which the publishers of both the "slicks" and the "pulps" deserve

And it was no happenstance that The Advocate dressed up its front page with a two-color job of the flag, for it required planning ahead and considerable additional press time, whereas the magazine

presses are equipped for several colors at once. So it is with pride that we toot our own horn a mite, not by way of waving the flag, but because of the satisfaction it gave us-and, we hope, our readers-to see Old Glory in color on our issue of July 2,

WAR EAGLES OVER ARTESIA

Although the number was relatively small, the people of Artesia now have a vague idea what it is like to have bomber after bomber fly over the city and they can realize in a way what might have been the reaction of the people of various German cities when upwards of a thousand planes swept over, dropping their messages of death.

Only we viewed the planes unafraid and with pride, as they helped us observe the Fourth of July, while the citizens of the German cities realized that a bomb might at any time snuff out life.

As we watched the graceful Army birds sail over Artesia, we were given a certain uplift, in the knowledge that the men in those ships and thousands of ships like them soon will be winging over foreign soil, determined that the forces of evil shall be destroyed and through destruction shall pave the way for building the world anew-a better world for more peoples.

SETTING A GOOD EXAMPLE FOR ELDERS

Ingram Pickett, "Your Seven-Foot Safety Friend," relates that just outside Encino he saw two small boys, 10 to 12 years old, walking along the shoulder of the highway, picking up scraps of rubber, and doing right well too, thank you.

Evidently they had caught rides out of town and were gleaning the rubber on their way home, thus making it less of a task to carry the precious war material.

The point is not that they were going to make a few pennies for their efforts, but that they were doing something to help. Are you?

The field of service has no fence around it.—Kiwanis Magazine.

* Cottonwood Items

(Ora Buck)

Quireno Navarreto of the Cottonwood expects to leave in a few days for Army training.

Miss Dorothy Norris of here visited her parents, Mr. and Mrs. John Norris, at Hagerman Sun-

Mrs. O. E. Puckett of Carlsbad visited her daughter, Mrs. Ray Zumwalt, and Mr. Zumwalt and children last Thursday.

A number of persons from the Cottonwood community attended the Roswell Army Flying School's open house on the Fourth.

Several truck loads of alfalfa hay were moved from Tom Terry's farm the first of the week. Others in the community also are moving their hay out.

A good rain fell Monday night on Cottonwood. The wind did some damage. It blew part of the tin roof off of Dayton Reser's new barn, for the second time recently. A county singing convention will be held at Cottonwood at 10:30 o'clock Sunday morning. Everyone is invited to come and bring their singing friends. Lunch will be served at the noon hour.

The little daughter of Mr. and Mrs. Edgar Havins of Artesia spent several days with her grandparents, Mr. and Mrs. Fred Chambers, while Mr. and Mrs. Havins were on a vacation in California.

Mrs. Jesse I. Funk of here suffered a painful injury to her foot Wednesday of last week, when she stuck a pitchfork in the top of her foot. She had the wound dressed. Mrs. James Thigpen and two children are staying with her at this

Mrs. I. P. Johnson of Cottonwood entertained the Cottonwood Woman's Club at her home last Thursday afternoon. The president, Mrs. Jesse I. Funk, called the meeting to order. After the roll call and business, a "war-work-at-home" program was of much interest to members. Several members took part in reading about what could be done at home. A first-aid demonstration by Mrs. J. J. Terry and Mrs. Orval Gray was of much interest. At the close of the meeting the hostess served a refreshment plate to sixteen members and visitors. The June meeting was at the home of Mrs. Jesse I. Funk, which members reported very interesting. The August meeting will be at the home of Mrs. B. E.

It's most important these days to prevent spoilage of foods in the refrigerator. Cheese may be kept soft and moist by spreading a thin coating of butter over the edge.

Be sure to check over the food in your refrigerator every day, so that leftovers may be used up while they're still good.

Glassed fruits and vegetables may be stored in the original jars, after being opened, until the contents are gone. Just press the lid back on. In this way, you can tell at a glance how much food you have on hand.

SAFEWAY Homemakers' Guide

NUMBER 51 * Tips worth reading on menu planning * A list of foods you'll save money by checking * What one girl learned about so-called "week-end specials"

Want to know how to save lots of time in your food shopping?

The answer to the above question is "Plan your menus ahead of time". Planning meals in advance not only saves you time, money and trouble, it is, today, practically your patriotic duty. For today every minute must countevery meal contribute to health and morale. These few tips suggested by the Safeway Homemakers' Bureau, should help a lot in your menu planning.

Tip No. 1-Plan menus several days in advance, a whole week if possible, so you'll see your food picture as a whole. Then you can check to make sure you've included plenty of variety and a balance of foods needed for good nutrition.

Tip No. 2-For good nutrition, each day's meals should include at least a pint of milk for adults, a quart for children; an egg per person, or at least 3 to 4 eggs a week; some enriched or whole grain bread or cereal; a tomato or citrus fruit or their juices; another serving of fruit; at least two servings of vegetables besides potatoes, one preferably green, leafy, or yellow; a serving of meat, fish, chicken, or sea food; some butter or vitamin A fortified margarine; and whatever desserts and special treats you like.

Tip No. 3-Even the best food tastes better served attractively. Be sure to include in every meal a pleasing contrast of shapes, colors, and textures, as well as contrasting temperatures and flavors. A well-known nutritionist has said that if you are color-conscious and include food that's white, green, yellow, and red in each day's menus, your vitamins and minerals will take care of themselves.

Tip No. 4-Plan menus on a regular, definite day in the week, whenever's most convenient for you, and allow yourself plenty of uninterrupted time to do a really good job.

Tip No. 5—It's more fun to plan meals when you're a little hungry, and your ideas may be better then, too.

Tip No. 6-Many homemakers find it easiest to plan breakfasts for the week first, next dinners, and finally lunches or suppers. This scheme lets you check over breakfast and dinner for each day before planning the third meal, so you can make sure it completes the nutri-

Tip No. 7—Decide ahead of time how to serve any leftover foods (with careful planning you won't have many) in appetizing guise.

Do your children cook well? Read the article in this week's issue of Family Circle Magazine on getting children interested in cooking. Family Circle comes out every Thursday-free at Safeway.

to be moved to the home of her Miss Velma Springer daughter, Aileen Rowan, in Manthree weeks. She is reported to be improving.

Bill Sweet of Hobbs, formerly of Artesia, expects to leave Friday to report back to the Fort medalist for the ladies' city golf prised Bliss placement center.

Lowe Brothers HIGH STANDARD **HOUSE PAINT**

"I've painted a lot of houses and I can tell you that LOWE BROTHERS HIGH STANDARD HOUSE PAINT is good news for your pocketbook. It covers solidly more square feet per gallon than 'cheap' paint, and spreads evenly and freely. That speeds up my work—and what saves my time, saves your money. So I may, be dollar-wise and use LOWE BROTHERS HIGH STANDARD HOUSE PAINT."

Join Our Once-a-Week Club

Let us check your car once each week-tires, oil, radiator, battery -and keep it rolling longer.

PIRTLE'S CONOCO NO. 1

Opposite Artesia Hotel — Phone 91 — Your Mileage Merchant

TOM: Gosh, Ann, I'm glad I could get back in time for our wedding anniversary. Being on the road as much as I am, it seems like I'm never home. Here's something for you.

ANN: You darling! Flowers!

TOM: It could have been a new hat if that blamed car of mine hadn't had to have a new set of piston rings.

ANN: I know wives shouldn't interfere in their husband's business, Tom, but Mrs. Reardon was telling me how much money Jack saved on the maintenance of his car. He drives even more than you do.

TOM: What all did she tell you, Ann?

ANN: Well, Jack Reardon uses Conoco Nth motor oil. That's the oil that oil-PLATES the engine and saves a lot of wear and tear. And it contains a new synthetic that helps keep the oil from fouling up, too. Mrs. Reardon says Jack has to make his car last two or three years longer now and Conoco Nth motor oil will help him do it!

TOM: That settles it, Ann! I'm going to change right now to Conoco Nth!

ANN: Good boy! And maybe I can still get that new hat?

You'll agree that it's orchids to Conoco Nth motor oil, once you prove to yourself how it is so economical, clean-running and wear-saving. See Your Conoco Mileage Merchant today! Continental Oil Company
