DON'T JUST JOIN! GIVE TO THE RED CROSS Most of us have come to think of our purchases of War Savings Stamps and Bonds as a contribution to the war effort.

We will admit, of course, that all such purchases do help win the war, that they do help buy guns and planes and ships and tanks, that they do help hasten the day when Hitler—or whoever is running the show for Germany these days—and Hirohito and Mussolini have been crushed.

In all of those ways we help our mite when we buy War Bonds and Stamps, but we have not contributed, in the true sense of the term, for we are merely making a twofold investment, first an investment in democracy and second a financial investment from which we will reap interest and will profit materially thereby ten or twelve years hence.

But we also must contribute directly to the war effort, that is, spend money from which we expect no return ourselves, and we can do that by giving freely to the Red Cross in its 1943 war fund campaign.

With a goal of \$125,000,000 for 1943, the American Red Cross will embark on the biggest campaign in its history Monday.

We've had wars before, wars in which the Red Cross played its big part, but the amount asked never was so large. You may wonder why it is so much greater than in World War I, but surely you realize why it is much greater than in peace years.

In case you don't know, we'll touch on that latter point first: Our little chapter in North Eddy County played its part on Bataan; it plays its part in North Africa, in the Southwest Pacific, in Iceland, in England, in India and in the frozen wastes of the Aleutians. We have boys in all of those places and every one has in some way received something from the Red Cross.

Probably some of our North Eddy County boys have received blood plasma through the Red Cross. Others have been carried from the stinking jungles to first aid stations. Some have been fed and clothed after they have been picked up off of rafts or lifeboats.

Volunteer nurses' aides are on the job in hundreds of places; canteen workers are helping to keep the boys happy wherever men in arms are stationed; the Red Cross home service is solving many domestic problems for the boys and their families.

And it all costs money! Heretofore the annual slogan has been: "Join the Red Cross." This time it is: "Give to the Red Cross."

And in giving, don't stop with the annual membership fee of a dollar or more; make it at least double what you ever have given; make it much more than double if you can.

WE FORGOT TO ASK THE MOTHER'S NAME!

This should be recorded somewhere for posterity, but it does not come under the heading of ordinary news, certainly does not belong with other vital statistics, we hardly wish to place it on the front page and the girls in the office seem to begrudge us the use of the society page, so, be it recorded here:

That an undersized, underfed female dog last week appropriated the doghouse of the Guy Chevrolet Company gasoline department—the place where the boys ordinarily fix flats and keep in out of the cold, when it is cold—and there became a mother of quintuplets: Yvonne, Annette, Marie, Celeste and—Elmer!

The grease monkeys—gentlemen all—turned the doghouse over to the mother and her offspring for a while, permitting her to make it her temporary abode and haven.

DON'T TAKE CHANCES WITH FIRES

Just another gentle reminder that the grass still is mightily dry and that this is the windy season.

There have been so many grass fires that it must seem every place in town has a fire barrier burned around it, but there are many places still unprotected. And a fire is no way to provide a fire barrier.

Have you stopped to think that every time there is a fire, it costs you money? The firemen can use the fees derived from run after run, but even they will admit it's a dickens of a way to make a living.

TRULY TWO GREAT OPTOMISTS

We didn't see this ourselves, but one of our operatives came in the other day and reported that the world's two greatest optomists were seated in a car at the curb just up the street with their engine running, that they both were laughing and carrying on no end and that—

The car carried only an "A" sticker!

LADIES!

are you driving with a HARD PEDAL?

There's no need to exert yourself by having to bear down on a hard brake pedal. This condition can be easily remedied by a simple brake adjustment. If your brakes no longer operate with a soft, easy pedal we suggest that you drive in and let us test them on our Bear Hydraulic Brake Tester. This machine tells in a hurry just what is wrong. To you it can bring many miles of comfortable, easy brake operation and safer driving.

Courteous attendants will handle the testing. The test is quickly made and you'll soon be on your way—happier, safer.

Don't Include Old-Age and Survivor Pay

Many beneficiaries under the old-age and survivors insurance provisions of the Social Security Act have been calling on Social Security Board offices for information concerning insurance payments. The problem in their minds seems to be whether they should include such payments in their income tax returns.

In response to such inquiries from individuals seeking information as to whether or not payments received from the United States government under the old-age and survivors insurance system of the Social Security Act are subject to income, W. Glyn Hearn, manager of the Roswell office of the Social Security Board, said that such funds are not subject to federal income tax. He based his statement on information which his office has received from the Bureau of Internal Revenue.

Exemptions include cash benefits paid, and in the hands of the recipient, such as primary insurance benefits as set forth in the law; wife's insurance payments; and payments made to children, widows, and parents. These exemptions not only include monthly benefits, but lump-sum death benefits as well.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ-laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Roswell. The story covers a long period of years since Mrs. Dow's grandfather first served as Roswell's postmaster. The Office of State Land Commissioner H. R. Rodgers announced that \$36,724.56 was netted at the department's February sale of oil and gas leases. Of thirty-nine tracts offered, thirty-six were bid in, the acreage sold totaling 21,285 highest price, \$12.71 an acre, was paid for a 122-acre tract in Lea County, north and east of Monument.

Claude Simpson and General Scanlon of Roswell were discussing the censored subject of the weather the other day. "Do you have many days like this?" inquired the General, when the wind was blowing. "Yes, we'll probably have quite a few during the spring," answered Mr. Simpson. "In fact we have a few days in the winter that are too cold for comfort; we have a few days in the summer that are too hot for comfort, and in the spring we have a few days that are too windy for comfort. I guess it's a good thing it's that way," he added, as an afterthought. "Why?" asked the General. "Well, if it weren't that way, this would be paradise, and we wouldn't be allowed to live here," responded the

secretary of the Roswell Chamber of Commerce. Rumors, as yet unconfirmed, of a black market in meat in Eastern New Mexico, were acknowledged by the OPA, but State Director S. M. Graf said an investigation had not yet been made. The black market, it was said, has supposedly sprung up through the closing of packing plants upon exhaustion of their slaughter quotas for the quarter. S. M. Graf, state OPA director, said that restaurants and hotels would receive both coffee and sugar allotments for March and April when they register between March 1 and 10 with their local rationing boards. Heretofore these establishments have received coffee allotments for one month, and sugar allotments for two months. New Mexico is among the first five states for which special allocations of steel have been made for repair of farm machinery. The action was announced by Murray Sprague, district manager of the War Production Board, with "assurance that unprepared farm machinery will not block attainment of the enormous 1943 'Food for Freedom' goals."

announced a refund of \$21,152 to the Red River Valley Company, Bell ranch. The amount represented over-assessments of \$20,548.12 for 1937 and \$603.99 for 1938 on income tax, surtax on undistributed profits and interest.

January cattle shipments from New Mexico totaled 17,355 head, as compared with 24,477 head in the same month a year ago, Sam McCure, secretary of the Cattle Sanitary Board, reported. January shipments by districts include: Tucumcari, 2,000; Alamogordo, 577; Roswell, 999; Farmington, 350; Deming, 869; Las Cruces, 768; Carlsbad, 733.

Non-resident automobile traffic in New Mexico decreased 52 per cent in January from January of 1942, State Tourist Bureau Director Joseph A. Bursey reported.

Capt. James O. Gibbens of Socorro, whose heroic action in rescuing seven wounded men under fire in Africa was recited in an Army publication, was a close friend of Adj. Gen. R. C. Charlton, the general said. Gibbens was one of two men who "pushed forward into an area which was being shelled and carried seven wounded men back to an aid station," the recruiting bulletin, Army Life, declared. Charlton said Gibbens was a veteran member of the New Mexico National Guard and commanded the Socorro unit for many years. His wife and children live at Socorro.

Open letters signed by thirteen farmers and ranchers of Grant County have been received by the New Mexico Educational Association, it was announced, protesting the sale of 8,334 acres of state-owned land as "entirely out of line with present values." The only bidder for the land is J. H. Alphin, Eldorado, Ark., who now leases the tract.

The land was to be sold at auction in Silver City. The letters, NMEA officials said, said that "There is not an acre of this tract worth less than \$5 per acre and in some instances, certain tracts would probably bring as much as \$10 an acre." The farmers and ranchers requested that "three disinterested persons be appointed to make a thorough study of the tract of land and appraise its value."

Raymond Maloff of Las Vegas was fined \$500 last week in U. S. District Court on a plea of guilty to selling a new automobile without a certificate from the OPA. In the case, first of its kind in New Mexico, Maloff's wife, daughter and a bookkeeper also were fined \$25.

U. S. District Judge Colin Neblett last week sentenced William M. Lackey of Deming to ninety days in jail on a plea of guilty to failing to return his draft questionnaire of his local board.

Gov. John J. Dempsey was notified that the Treasury procurement office is cancelling its lease of 1,536 feet of space in the State Public Welfare building effective March 10. It was explained by T. I. Runyan, procurement officer, that the office was being discontinued because of abandonment of the WPA.

New Mexico scrap yards produced 1,446 tons of iron and steel and 357,056 pounds of other metals, W. B. McCollum, executive secretary for general salvage for the War Production Board, reported. Auto graveyards produced 1,033 tons of iron and steel and 491,977 pounds of rubber, McCollum said.

Synthetic spices, including cinnamon, mace, nutmeg and ginger, have been developed to replace imported natural spices.

Estimated United States expenditures during the fiscal year 1942 is over one-third the total monetary cost of World War I to all belligerents, the Department of Commerce reports.

Eight trucks loaded with lumber traveled sixty-five miles to Spokane—but on the return trip it's four trucks loaded with four trucks.

What You Buy With WAR BONDS

The Aerial Camera for use on Scout and Observation and Reconnaissance planes is essential to both the Army and Navy air forces in planning battle formations and in obtaining information on enemy fortifications and movements. They look something like a cannon, and cost about \$3,400 apiece.

The aerial cameraman can plot wide territories in bold relief so that Army or Navy Intelligence can make accurate measurements of enemy territory. We need many of these cameras so necessary to the air arms of the Army and Navy. You can help buy them with your purchases of War Bonds. Invest at least ten percent of your income every pay day, and help your county go over its War Bond Quota.

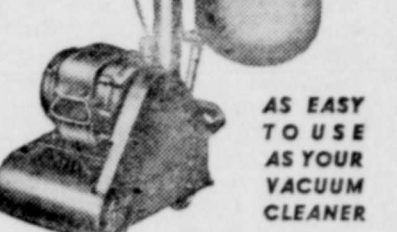

Two-thirds of the world oil supply comes from the United States.

Don't Slight Breakfasts

If there ever was a time for talking up breakfasts, it is the present. Almost every one of us is carrying an extra load of responsibility these days and we need an extra good start to put us on our toes bright and early. And we need a substantial breakfast also to see us through the entire morning without that mid-morning let down.

On these chill mornings, serve a piping hot main course like pancakes, waffles, or fried mush with heated syrup. Those favorites are better than the best alarm clock to get the family out of bed. Try it and see for yourself.

PANCAKES—Make them with prepared flour if time's an item, or with enriched flour for that extra Vitamin B. You can make the batter the night before with the exception of the melted shortening. Add it in the morning while the griddle is getting hot. I like to make my pancakes about the size of a dollar (an inflated dollar, maybe) and serve them in miniature stacks along with a pitcher of heated syrup. Have the breakfast all set and ready to eat as they come off the griddle.

FRIED MUSH—Here's an oldtimer worth repeating often. Make twice the family capacity for mush, corn meal, oatmeal, wheat cereal or any other favorite, and serve it the first morning as a hot cereal. Pack the rest in a loaf pan lined with waxed paper and put it in the refrigerator for the following morning. Come breakfast time again, take it out and slice it into 1/2-inch slices and fry in hot shortening until honey-brown on both sides. Speed them from the griddle to a hot plate and serve with heated syrup.

GET YOUR FREE FAMILY CIRCLE TUESDAY "Double duty for pancakes and waffles" is the title of the article by Julia Lee Wright in this week's Family Circle. Be sure to get your free copy Tuesday . . . the magazine your whole family will enjoy.

Miss Billie D'Arcy First Woman In New Mexico To Join WAFS

Miss Billie D'Arcy, the daughter of former Artesia residents and a sister of Mrs. W. F. Walker of Artesia, is the first New Mexico woman to be accepted in the Women's Auxiliary Ferrying Squadron.

Miss D'Arcy, who was born and reared in Artesia, and is well known here, having attended school through the eighth grade, left Roswell about a week ago for five months of intensive training at a school near Sweetwater, Tex., after which she will enter active duty delivering planes from factories to training fields and embarkation bases throughout the United States.

Membership in the WAFS five months ago was only five, and it was announced early this month that it had been increased to twenty-five. The ranks are being rapidly expanded by the enlistment of the best women pilots of the country. Every woman taken into the WAFS must have a private pilot's license and at least 200 hours of flying time.

Miss D'Arcy is a graduate of Jal High School and then attended Sul Ross College at Alpine, Tex. She learned to fly at Wink, Tex., while teaching in the nearby town of Mentone, and has been flying for four years. She was flown to Artesia a number of times. For the last year she has been living in Roswell and was a staff officer in the Roswell C. A. P. squadron. Since last May, she has been working at the Roswell Air Base.

Miss D'Arcy has a brother, Robert, in the flight wing of the Navy. Her mother, Mrs. Rena B. D'Arcy, lives in Fairfax, Calif.

Mrs. Blocker Hostess At Washington Tea Monday Afternoon

Mrs. Stanley Blocker was hostess to the Past Matron's Club Monday afternoon, when she entertained at a George Washington tea. A lace covered table was centered with a bouquet of red sweet-peas in a crystal bowl, flanked on either side with red tapers in crystal holders. Three officers were installed for the ensuing year. They were: Vice president, Mrs. P. V. Morris; chairman, Mrs. J. M. Story, and reporter, Mrs. J. D. Josey.

A lovely gift from the club was presented to Mrs. R. G. Knoedler, who expects to move to Clovis, and who organized the club. The gift was presented by Mrs. Arba Green with an appropriate verse, which she had written for the occasion. Cherry whip in individual cup cakes was served with finger-length frosted cookies. Those present were Meses, J. M. Story, Jeff Hightower, Arba Green, Lee Glasscock, John Rowland, R. G. Knoedler, Robert Cole, J. C. Floore, P. V. Morris and J. D. Josey, members, and Mrs. Hart Smith, a visitor.

Artesia Women Can Help Win War By Enlisting In WAAC

Women of Artesia have the power to help raise an army of 150,000, said Pvt. John Hill, WAAC recruiter of Carlsbad, when he was in the city Tuesday, in making an appeal to the women of Artesia community to enroll in the Women's Army Auxiliary Corps.

Every woman in the WAAC is really doing two jobs, said Pvt. Hill. She not only releases a man for combat duty, but also takes his place behind the lines and is doing vital and exciting work. Highly specialized positions are being given to the WAAC. To fill them three training centers have been set up at Fort Des Moines, Iowa; Fort Oglethorpe, Ga., and Daytona Beach, Fla. At these three centers WAAC's receive training which would cost them thousands of dollars in civilian life, he asserted. Every woman eligible should think of the double duty which she may perform by enrolling in the WAAC, said Pvt. Hill. Every member of the local recruiting committee has application blanks. Contact any member of the committee for assistance.

GIVE BOOKS TO THE "VICTORY BOOK CAMPAIGN"
Mrs. A. L. Bert, who is chairman of the American Legion Auxiliary "Victory Book Campaign" committee, asked that all members and others who have books to give call 351 and leave their names and addresses and someone will call for the books. Everyone is asked to do this immediately, as all books should be in soon.

CHILDREN'S STORY HOUR ON MONDAY AFTERNOON
"The Selfish Giant," by Oscar Wilde, will be the story told at the Children's Story Hour at the Presbyterian Church at 3 o'clock Monday afternoon. Story tellers will be Mrs. Mark Corbin and Mrs. Ross Wedemeyer. The Artesia Community Story League will meet at the home of Mrs. Curtis Bolton at 3 o'clock Tuesday afternoon.

RED CROSS INSTRUCTORS CITY HALL THURSDAY
Several members of the Red Cross first aid instructors met at the city hall last Thursday evening for the February meeting. An interesting and instructive demonstration of the resuscitator was given by Dallas Golden.

DeLouche, Mrs. M. W. Evans, Mrs. Arba Green, Mrs. Jeff Hightower, Mrs. B. E. Kennedy, Mrs. J. Hise Myers, Mrs. G. U. McCrary, Mrs. Beecher Rowan, Mrs. J. M. Story and Mrs. J. J. Clarke, Sr.

A salad course was served at the close of the rounds of bridge. Mrs. Jeff Hightower held high score.

Miss Edna Carder, a student at Eastern New Mexico College, Portales, spent a few days here with her parents, returning to Portales Sunday. Miss Carder presided at the guestbook at a Martha Washington tea held at the college Sunday afternoon.

The more bonds the less bondage.

Red Cross Activities

A night class in Red Cross home nursing will start soon. At least one person out of each family is urged to take this course. All those who are interested may call at the Red Cross office, 328-W, for information and to enroll. Mrs. Raymond Bartlett will be the instructor.

Mrs. Fay Hardeman, chairman; Mrs. Irvin Martin, vice chairman; and Mrs. Zane Smith and Mrs. Landis Feather, supervisors, of the surgical dressing room, are asking for more volunteers to work, in order to get the quota finished on time.

"I will give, for this is my Red Cross, and its work is my work, and the people who are helped are my people, and this is the way it shall be always." Enroll or volunteer today for Red Cross work. A splendid display on production has been fixed in the J. C. Penney Company store window and one on Red Cross home nursing in the Purdy Furniture Company window.

College Briefs

Miss Shirley Bartlett, daughter of Mr. and Mrs. Raymond Bartlett, has been named on the first semester honor roll at Ward-Belmont School, Nashville, Tenn. Miss Bartlett is a member of the freshman college class.

A MESSAGE TO THE STARS in our Service Flag

To you 3433 in the Armed Forces—our 3433 soldiers, sailors and marines—the J. C. Penney Company sends its tribute on birth week of George Washington, our first soldier.

You come from every corner of America carrying the might of our democracy to the far reaches of the globe, bearing arms so that freedom may ring and decency reign.

Today your tools of peace are beaten into bayonets. Today you operate the weapons of war, not the machines of commerce and industry. Today you calculate not goods bought and sold, but the speed and altitude of on rushing enemy planes.

So, hats off and hats off again to you, our game and gallant 3433!

YOU'RE ALL STILL PART OF PENNEY'S!

Every one of you is still a part of the Penney Company and of the store from which you came. And you and your store and your job are vital to the America That Is To Be as well as to the America That Was.

WE THINK OF ALL OF YOU WITH CONFIDENCE AND DEVOTION!

And we hope you think of us with trust and understanding—when the victory is won and the flags are furled we'll be proud and happy to welcome you back to your family, your friends and your Penney store.

INSPIRING STORY OF HAITI'S INDEPENDENCE

Jan. 1, 1804, was not only the first day of a new year but also the first day in the national life of a new American nation. On that date Haiti proclaimed her independence, culminating years of bitter fighting against the great Napoleon's France, a struggle from which emerged brilliant, unusual and colorful leadership, the second free nation of the Americas, and a national pride which has sustained the only French-speaking republic of the New World in many difficult periods.

Columbus discovered Haiti (the aboriginal name, meaning "mountainous land") on Dec. 6, 1492, and called it Hispaniola. When hard labor and warfare decimated the native population, African Negroes were brought over to work the plantations.

French association with the island began with French buccaneers who settled on the island of Tortuga and gradually shifted to the nearby western portion of Hispaniola. Spain ceded this part to France by the Treaty of Ryswick in 1697. Under French rule the colony prospered, producing large quantities of sugar, indigo, coffee and cotton.

The French Revolution of 1789 had repercussions in its New World possession, now called Saint Domingue. The colonists demanded the freedoms and privileges gained by the French. Such concessions were opposed by the plantation owners, leading to open conflict.

At this critical time, Toussaint Louverture appeared on the scene. Son of slaves and a former slave himself, Louverture by grim determination and ability had arisen to the rank of general in the French army and governor of the colony. He called an assembly in May, 1801, which adopted a constitution and appointed him governor for life. This looked like revolt to Napoleon, and he sent an expedition of seventy warships and 25,000 men to crush the uprising. After fierce fighting the colonists were defeated. Louverture was treacherously lured into a trap, imprisoned, and sent to France where he died a prisoner in 1803.

Determined not to submit to slavery again, the colonists were again rallied, this time under the leadership of Jean Jacques Dessalines, a Negro, and Alexandre Petion, a mulatto, both generals in the French army. The bitter struggle lasted a year and the

Haitians overcame all that Napoleon could send against them. Fifty generals and 45,000 French soldiers were killed in battle or fell victims to yellow fever, including Napoleon's brother-in-law, Leclerc. His successor, Rochambeau, signed an armistice on Nov. 18, 1803, and Dessalines proclaimed independence on Jan. 1, 1804, adopting the old Indian name of Haiti for the republic.

Storm clouds had not lifted completely, however, for internal strife seriously threatened the young nation. Dessalines, not content with being governor for life, took the title of emperor in 1804. An ambush put an end to his ambitions two years later, when Henri Christophe became Haiti's first president. It was Christophe who built the famous palace of Sans-Souci and the amazing fortress, The Citadel, on the summit of a mountain. He proclaimed himself king at the very time when Petion was being elected to succeed him. As a result, the country was split into two camps, a situation which prevailed until Petion died a natural death in 1818 and Christophe committed suicide a short time later.

And so, Haiti, the island republic which dared to resist the great Napoleon, and succeeded, took her place beside the youthful United States as a New World republic. Later Haiti was to contribute to the movement for independence by Spain's colonies, for at one of the darkest hours, Simon Bolivar found a haven there and laid some of the groundwork which led to the emancipation of continental America.

"I'm sorry to hear of your great loss," she said, sympathetically. "Oh, it ain't much matter," was the reply, "she wasn't up to much." "Indeed," said the surprised woman.

"Yes," continued Brown, "she was a rickety old thing. I offered her to my brother, but he wouldn't have her. I've had my eye on another for some time."

With that, the outraged woman fled.

When we tell you that out of 160 official Russian government cameramen assigned to make this film, thirty were killed in action, you get some idea of this month's issue of The March of Time: "One Day at War—Russia, 1943." On the day the picture tells about, these 160 cameramen were sent out and told to photograph what went on all over Russia, from border to border. The result is something we just can't tell you about. You'll have to see it for yourself at the Ocotillo Theater next Wednesday and Thursday, March 3-4. It's enough to say that much of what you see on the screen was taken from the cameras of those thirty dead men.

Briefly, the film gives Americans the best idea of just what is going on over there of any film to date. The Russians themselves say so. Also, it's different from any Russian film you've ever seen, because this is no film of Russian defense. Today the Russians are on the march—your newspaper tells you that—and this picture shows that Russia—the Russia of the winter offensive, sweeping everything irresistibly before it.

You don't need to be told how important Russia is in the news today. Americans want to know what's going on over there—how terrific offensive after all they've taken. This picture tells them—and show them. It doesn't just show the battlefronts—spectacular as those sequences are—it shows the Home Front as well, and it gives the best idea so far of what it actually means to live under the constant shadow of Nazi guns.

Simplified Form Reduces Income Filing to Five Minute Job

Federal Treasury is offering this year to people, 1943 income was \$3,000 or less, simplified income tax form may be filled out in five minutes. This is known as Form 1040-A. It may be used by anyone whose \$3,000-or-less income is wholly from wages or dividends, interest or annuities.

The twenty-ninth annual convention of the New Mexico Cattle Growers Association at Albuquerque March 12 and 13 will be "the most important meeting of its kind in the history of the state," Tom Clayton, president, announced, saying that problems today confronting the livestock and meat industry will be seriously studied by state cattle growers and recommendations for improved methods of distribution of meat and means for greater production of beef will be made.

Cattle Meeting March 12-13 Most Important Ever

At the same time, in recognition of the vital importance of the meeting and the food production program of the state, Gov. John J. Dempsey proclaimed the days of March 12 and 13 as "stockmen's mobilization days" in Albuquerque, "recommending cooperation of all stockmen and citizens of New Mexico in assisting the association to carry out aims of its mobilization for war programs."

About 500 advance hotel reservations by cattlemen from New Mexico, Arizona and Texas indicate that the attendance will be the most representative body of stockmen ever assembled in New Mexico. However, in spite of heavy advance reservations, association officials and the Albuquerque Chamber of Commerce gave assurance of sufficient hotel and court accommodations to provide for stockmen attending the meet.

One-hundred eighty six applications for membership have been received by the association office during the last two months, Clayton said, and approval of these members will bring the total membership up to more than 2,000.

CHEDDAR CHEESE FOR WAR

Fifty per cent of all cheddar cheese, commonly known as American cheese, is being reserved for direct war uses by a food distribution order, which becomes effective Feb. 15.

Producers of more than 8,000 pounds in any month since last Jan. 1 are required to set aside 30 per cent of production for sale to military and governmental agencies as designated.

Sam Sanders, who transacted business in Santa Fe the first of the week, was accompanied to the capital city by Miss Thelma Mitchell and Mrs. Forrest Warren.

Unrepaired Farm Machinery Will Not Block 1943 "Food for Freedom" Goals

Assurance that unrepaired farm machinery will not block attainment of the enormous 1943 "Food for Freedom" goals was given by the Denver office of the War Production Board to the farmers and ranchers of the Rocky Mountain West.

Culminating efforts which began early in October, the Denver regional WPB office has obtained several thousand tons of repair steels under a special allocation for distribution to farm machinery repair shops in New Mexico, Colorado, Wyoming, Utah and Montana.

The special allocation was announced by Leslie A. Miller, regional WPB director, who said the five-state Rocky Mountain area is the first WPB region in the nation to obtain the urgently needed repair steels for farmers.

The steel was obtained through the efforts of V. L. Board, chief deputy regional WPB director, and M. S. Coursen, regional materials manager, working closely with and regional officials of the U. S. Department of Agriculture War Board and with Robert Roemer, regional agricultural representative for WPB.

Allocation of the special steels is regarded as a major step toward achievement of 1943 crop goals in the region. Sufficient steel is provided, Mr. Board said, for the repair of all vital farm machinery and implements needed to plant, tend and harvest the increased 1943 crops.

Unrepaired farm machinery, in view of necessary curtailment in the production of new implements in favor of others and more immediate war weapons such as tanks and guns, had been viewed as one of the major stumbling-blocks in the path of Western farmers in their drive to meet the 1943 food goals.

The repair steel is being distributed through normal channels, Board said, and already is available at local farm machinery repair shops throughout New Mexico, Colorado and Wyoming. He said the program for distribution of portions of the allocation in Montana and Utah will be in effect within two weeks.

Provided in the special allocation are standard repair steels in ten sizes, some welding rod and plow steel. Supply of all these steels has been critically low throughout the region, according to Board.

Farmers who must have machinery repaired in order to plant, tend and harvest the record 1943 crop acreages can obtain these repairs

by going directly to the nearest farm machinery repair shop or blacksmith, Board said. The repair steels are not being rationed, he emphasized, but are being distributed equitably on a minimum inventory basis by jobbers working in cooperation with the Denver regional WPB office in the program. Safeguards are provided to guarantee the steel will be distributed only for repair of farm machinery.

The special allocation provides enough steel to carry through the crop season ahead, Board said, and assures farmers and ranchers of the mountain states that they will be able to get their crops in, care for them and harvest them.

"It would appear that there is no need for a single acre of land not to be planted, tilled and harvested for lack of steel and welding rod for repairs to farm machinery," Board said.

What Is Income Tax?

INCOME OF FARMERS

Farmers, including livestock raisers, fruit and truck growers, poultry raisers, and operators of plantations and ranches, are liable for federal income tax returns, provided their income is sufficient to require the filing of returns. Primarily, due to the reduction in the credit for personal exemption, many farmers will be liable for returns and to the tax for the first time for the year 1942.

Farmers may maintain their records and file their returns of income on either the cash receipts and disbursements basis or on the accrual basis of accounting. A consistent method must, however, be employed. If a cash basis is used, Form 1040F, "Schedule of Farm Income and Expenses," is required to be filled out and filed in conjunction with Form 1040. Use of 1040F is optional in the case of farmers who report income on the accrual basis. A farmer who reports income on the cash receipts and disbursements basis (in which no inventories to determine profits are used) must include in gross income for the taxable year (1) the amount of cash or the value of merchandise or other property received

during the taxable year from the sale of livestock or produce which were raised, regardless of when raised; (2) the profits from the sale of any livestock or other items which were purchased; and (3) gross income from all other sources.

Under the accrual basis in which inventories are used to determine the profits, farmers' gross profits are ascertained by adding to the inventory value of livestock and produce on hand at the end of the year the amount received from the sale of livestock and produce, and miscellaneous receipts of income during the year, and deducting from this sum the inventory value of livestock and produce on hand at the beginning of the year and the cost of livestock and produce purchased during the year. All livestock, whether purchased or raised, must be included in inventory at their proper valuation. Livestock acquired for draft, breeding, or dairy purposes and not for sale, may be included in the inventory instead of being treated as capital assets subject to depreciation, provided such practice is consistently followed.

If farm produce is exchanged

for merchandise, groceries, or the like, the market value of the articles received in exchange is to be included in gross income. The value of farm products which are produced by a farmer and consumed by his family does not constitute taxable income. Rents received in crop shares are to be returned as income as of the year in which the crop shares are reduced to money or the equivalent of money. Proceeds of insurance, such as hail and fire insurance on growing crops, are required to be included in gross income.

Amounts received as loans from the Commodity Credit Corporation may, at the option of the taxpayer, be considered as income and included in gross income for the taxable year in which received. The election once made is binding for all subsequent years unless the Commissioner approves a change to a different method of accounting. Amounts received under the Soil Conservation and Domestic Allotment Adjustment Act, as amended, and the Sugar Act of 1937 constitute taxable income to the recipients for federal income tax purposes.

Carl Folkner and Bob Reynolds Lease Hardwick Hotel, Bar

The Hardwick Hotel and Folkner's Bar have been leased from L. E. Folkner by his son, Carl Folkner, and Bob Reynolds of Carlsbad...

They will take over operation of the two establishments March 1, with Reynolds serving as the active manager.

Mr. and Mrs. L. E. Folkner expect to leave shortly thereafter for the West Coast on account of Mr. Folkner's health.

Carl Folkner and Reynolds said they will operate the two businesses under the old established names. They will not operate Folkner's Cafeteria, which has not been leased to them.

Mr. and Mrs. Reynolds and their son, Bobbie, now 11 years old, moved from Artesia to Carlsbad in July, 1939.

Mr. and Mrs. Fletcher Will Open "Marie's," Ladies' Ready-to-Wear

Mr. and Mrs. Adrian Fletcher will open a ladies ready-to-wear shop the latter part of next week at 322 West Main in the building formerly occupied by The Vogue.

The new establishment will be known as "Marie's."

Mr. and Mrs. Fletcher have just returned from market, where they purchased many striking patterns in spring merchandise for women and young misses.

The date of opening will be announced next week. Mrs. Fletcher, who will be actively in charge of the shop, had planned to open the latter part of this week, although not arrived, but she decided to postpone the opening a week because the store front was somewhat damaged and two of the plateglass windows were broken in corners when an automobile out of control Monday evening struck the front of the building.

Mrs. Fletcher formerly was employed at the same location by The Vogue.

Mrs. Earle McDorman Called to Oklahoma By Death of Father

Mr. and Mrs. Earl McDorman returned home Monday from Valliant, Okla., where they were called Feb. 13 because of the death that day of Mrs. McDorman's father, W. A. Merritt, at the age of 69 years.

Funeral services and burial were at Valliant Monday of last week.

Mr. Merritt leaves his widow, the daughter here, three sons, a brother and a sister.

He moved to Oklahoma many years ago and lived there the greater part of his life. He was a rancher and stockman his entire life.

War Information for Spanish-Americans At Meet March 7

A mass meeting for Spanish-speaking people of this community will be held in the auditorium of Artesia High School at 3 o'clock Sunday afternoon, March 7, for the purpose of explaining to them in their own tongue many pertinent matters of information in regard to the war effort.

The meeting will be conducted by Guillermo Bernardo O'Neill and will be non-sectarian and non-political.

A similar meeting was held Sunday in the Eddy County courthouse at Carlsbad and it was quite successful.

As an outcome of that meeting O'Neill is speaking in Spanish at 7:15 o'clock each evening over KAVE with news and information for the Spanish-Americans, many of whom have boys in the armed forces.

BUT THOSE FELLOWS STILL WANT TO LOAF

Artesia firemen feel as though they have had somewhat of a vacation during the last week, in which period they answered only one call, that to a small barbecue stand on the north highway.

The interior of the building was badly damaged by the blaze, started from an oil stove.

BROTHER OF DR. SCHNEBERG DIES IN TRINIDAD, COLO.

Dr. D. M. Schneberg received a telegram this morning informing him of the death of his brother, A. Schneberg, at Trinidad, Colo. He and Mrs. Schneberg are to leave Friday morning for Trinidad and expect to return home Sunday.

The doctor recently visited his brother, called to Trinidad because of his serious illness.

Records of the U. S. Patent Office, Department of Commerce, show that the trolley car, incandescent lamp, automobile, and cash register were among the inventions patented in 1880.

Max Schulze Joins Army Air Corps Reserve

The name of Max Schulze, son of Mr. and Mrs. M. G. Schulze, should have been included in the story about Artesia boys less than 18 years old who have signed up for the armed forces...

Young Max joined the Army Air Corps Reserve at Santa Fe last week, passing the mental and physical examinations, and was sworn in Feb. 15.

He was accompanied to Santa Fe by his father.

Jack Perry, son of Mr. and Mrs. E. M. Perry, who was graduated from Artesia High School and reported at Texas School of Mines, El Paso, to matriculate in order to get under the Feb. 15 deadline for entering the Naval Reserve under a special Navy ruling...

He has hopes that he still may enter the Naval Reserve, subject to call when he is 18 years old.

Registration—

bottles and jars of eight ounces or more of commercially packed fruits, vegetables, juices and soups, chili sauce and catsup owned on Feb. 21, less five such containers for each person included in the declaration.

No one may receive his War Ration Book Two unless he has first obtained his War Ration Book One and that may not be obtained from the registrants at the places designated for applying this week.

War Ration Book One may be obtained only by applying to the ration board.

Copies of the consumer declaration may be obtained at the ration office in the Ward building or at the places of registration. The official form, handy for clipping, also appears elsewhere in this issue.

Polk Property, Early Show Place Here, Is Sold to Texas People

Mrs. Tex Polk sold her residence property, located at the end of South Roselawn, to Mark Whelan, and with her daughter, Glenn, has moved to one of the Vandagriff apartments on Quay Street.

This property, built by Dr. Robert M. Ross about 1905, was one of the show places in the Pecos Valley in the early days of Artesia. Dr. Ross, a practicing physician and the first cashier of the first bank in Artesia, and his family lived there for a short time and sold the property to S. W. Gilbert.

Mr. and Mrs. Gilbert lived on the property for about eight years before the property was bought in 1915 by the late Tex Polk, a well known rancher. Gilbert this week recalled the orchard of bearing fruit on the place and the roses which blossomed along the entire east line of the property.

The Ross family now lives in Portland, Ore. Mrs. Ross visited Artesia about three years ago as she was passing this way and took time to go through the house again.

The new owner is a geophysicist, who has a contract with Flynn, Welch & Yates. He and Mrs. Whelan and their three children came last week from Meadow, Tex., to make their home here. The children are Paul, who is in high school; Lou Ella, in the eighth grade, and Marcia Leigh, in the seventh grade.

Jay Pendgrass, an employee of Whelan, and Mrs. Pendgrass and their year-old son are expected to arrive this week. They will live in the cottage on the place bought by Mr. and Mrs. Whelan.
