Legion Enters

Charles Denton, Young Veteran, **New Commander**

An event, "historical in the life of the American Legion . . . which has a chance to become the most powerful organization in the world," was enacted here Tuesday evening, when Charles Denton, a veteran of World War II, became ommander of Clarence Kepple Post No. 41, according to Steve Lanning, a past commander, who served as installation officer.

Lanning pointed out that the oranization, one of the outstanding in the world, with its potential membership after the war is over will have a chance never before enjoyed to put across the ideals for which it stands. "We know our aims are right," he said, "and now it will be possible to carry them

The installing officer pointed out that if the American Legion does become the strongest in the world, it must build a foundation today on which can be built the superstructure.

He said that steps were being taken at the meeting, with the installation of a veteran of World War II. "Whereas the strength of an organization depends on the strength of the individuals, the national organization of the American Legion depends on strength of the posts," he said. "We must be sure all future steps are in the right direction."

he and the other younger members of the organization will do their best to carry on the ideals of the American Legion, but he said they will need the guidance and help of

The More They Wonder

DIFTEEN POUNDS of sugar to one housewive. Only five pounds per person for canning to another.

One section of the nation finds the 15 pounds per person continuing to be given. In other areas it remains five. No one investigates. Only the housewive complains. She is used the rights and liberties for which

to complaining. Much meat in one area — where it is raised. The family refuses

to go hungry. Little or no meat in the section where it is not raised. There is

no choice but to go hungry. So the OPA investigates. They intimidate. They harass and everything possible. There is

They do a good job in some respects. They are almost gestapos to be submitted or to be turned in in other ways.

And so we go on living through these days and times with promises, propaganda and with the boys on the OWI continuing to re-

ceive their pay. The land of liberty becomes almost something else. We wonder our personal and private business.

about that is all Goldsmith in "The Deserted Village" said "Still they gazed and still the wonder grew that one small head could hold all he knew.' And we might paraphrase it to read "Still we gaze and still

our wonder grew that we would let them do all the things they do.' Not in one line of endeavor in this land of free enterprise but in all do we find government interference. We have permitted it to appear, to grow, to spread.

We have permitted those, who have become employes of Uncle Sam for a brief while to perptuate themselves in office.

The goal and objective of government bureaus, agencies and departments has become one of "staying on the payroll," not serving

It is no longer a government of the people, by the people and for the people. It is one of directive, regulation and a continual ignoring of proper and legal legislation.

They have gone too far but they are going farther.

It was social security with little or no security. Next it will be socialized medicine and probably no medicine.

How far they go will depend on Americans, who have been im-

posed upon too long now for not only the good of Americans but of The only hope of the American citizen, the taxpayer - the

people is Congress. If not this one then one elected to clean house and one to cut the red tape, which has tied down all business until free enterprise is no longer a reality but merely a much discussed "something." which once existed-O. E. P.

No Place to Meet and Eat

A RTESIA IS THE second largest city in Eddy County. The oil center of New Mexico and a city, which bids to be one

of the outstanding cities of the state.

It is a city with a future, a bright future. A city with ample places where civic groups, communities, organizations might meet and eat - but they can't.

Artesia, a city with a beautiful six-story hotel - a hotel that is the envy of many cities its size. A hotel, which has been filled to overflowing for more than two years. Ample space for a coffee shop, equipment for such a coffee shop - yet no appropriate coffee shop or dining room in keeping with the beautiful hotel and for the fine patronage it has enjoyed.

Time will probably provide it but it is needed now. It was civic interest and pride and the need which provided the hotel,

The same fine interest will bring the needed place here to serve these patrons of this hotel, to accomodate our civic groups, organizations and clubs.

We believe the proper enthusiasm, proper interest and adequate effort will solve the problem.

It is just another instance of where united effort of purpose and desire can get the job done.

We have and secure those things we need, want and are willing to work toward securing .- O. E. P.

Universal Military Training Better

BY THE GRACE of God and virtue of the fact the British and Russians fought a delaying action in Europe and our own and other troops fought a delaying action in the Pacific, Germany has been defeated and crushed and the Japs will suffer the same ultimate

The United States was not prepared for either war, although Selective Service had gone into effect and we were building up in manpower and material strength, when the Japs struck at Pearl

to have and to engine to gain, to have and to engine to prepare before we really got into action is not likely to rights and liberties for which the in World War III, as it did in World Wars I and II. The day the bureaucrats are mightier day the bureaucrats are mightier than the constitution; than the courts of the land, yes even strongpairit of American men will have been the factors er than the Supreme Court of the officts and our potential enemies will try to dispose

the United States will be No. 1 on the list of countries to sahes, by means of invasion or long-distance robot could be possible, because of the constant improve-

hated States must be prepared to mobilize millions of men of hours, if and when such action comes, or if a threat

for universal military training unequivocally, in order th of our nation may become a fighting machine in the mible time. ADVOCATE ARTESIA, NEW MEXICO

THE AF SIA ADVOCATE APPESIA, NEW

GERMANS, JAPS UP AND DOWN MAIN AND BUREAUCRATS

The Germans have been conquered by America and her Allies and the all out effort is now directed toward whipping the Japs. How long that will take, six months, a year or longer, no one knows. But the fact is growing daily among Americans there is another fight, another battle, yes another war ahead. When they finish with the Japs it will be the American people, the taxpayers and the citizens vs. the Bureaucrats. And unfortu-\$2.00 nately they have grown in number, in size, in strength during the days that Americans have been busy trying to win the wars. Slowly but surely the government has invaded field of industry, every field of labor and every business and profession. The days of fun in operating a business are gone. They are not only gone but it is a pretty well known fact that those days will have to be won back to be enjoyed once again. It will require a fight. But for years now the constitution has been ignored; our forefathers fought and battled have been forgotten. The government has taken over telling us just how to do everything we do: telling us when we will do it: and collecting a fee or tax from us on report after another to be filed; and even after this has been done someone on the government payroll and whose sole desire and aim is to stay on that payroll, is probing around and stick his nose in

> Martin Yates declaring he could make it out to the oil field before the Rotary meeting at - George Currier and P. V. Morris doing a little checking on some abstracts - Dr. J. J. Clarke out of the city - Bun Muncy all set for his year as Rotary president Wesley Sperry going after the mail at the postoffice — Bill Briscoe enjoying the cup of coffee before returning to the cleaning shop — Artie McAnally popping back and forth between the new Alfalfa Mill and the Association office - Hugh Kiddy back from a fishing trip in the northern part of the state without a broken leg this time - Harry Mogill opening up the Hub about 6 o'clock each morning - Rodney Baldwin wondering why his stamps, which he had ordered. had not arrived - Dorothy Marler and Florra Coggin buying some office supplies - J. Schnoor checking up on a sub-scription — Mrs. J. A. Hoover reporting she had heard from son. Jimmie, and he was again heading out to sea - J. Farrar backing up his knowledge on Louisiana politics and declaring he collected on the bet - Tom Johnson visiting with friends before returning to the Artesia lumber company - A. C. Sadler still receiving most the buts of the jokes about OPA inspection - Sy Hogsetts tending to his knitting at the Artesia locker plant despite the OPA — Ralph Shugart finding the thumb tacks at the Advocate office -Dennis Higgs being reminded he needed some of these too - Ray Bartlett busy with plans for the picture show — Waldo Ports headed down the street and extremely busy - Chuck Aston declaring he was just sitting around waiting — Boone Barnett of the opinion that with another practice or so his Rotary would take the Lions into camp - The suggestion being made the recruit George Fox, who used to do an outstanding job for the University of Oklahoma — Folks still hoping that badly needed rain would arrive and the hopes were increasing with threatening clouds ruling more and more each week — That was Up and Down Main this week.

Yes, we are rather thoroughly convinced that the battle of the bureaucrats, the war to free this country of these, is the next on the agenda of this country. Americans will have to fight to gain, nation. And it begins to appear that a few Americans with the same courage and intestinal fortitude that their forefathers displayed are going to have to take and maintain their stand or we are going to have a country where the people are or-ganized for the benefit of the state

NEW JENETH RADIONIC HEARING AID \$40 Free Demonstration complete Model A-2-4

O. H. BROWN 113 Missouri Ave.

ed for the people. Some of the conduct and action in our country during the past two to three years has resulted in Americans branding the activities worse than those of the Gestapo of the Nazis in their heyday. They are not far wrong. It is interesting to note how these very people assigned the task of protecting the people usually forget the people and remember only their own salaries and their desires to perpetuate themselves in office. The right of trial by jury has been forgotten: the right to defend one's own home has been ignored: the right to Liberty and the pursuit of happiness has been something to only read about and not permit to prevail. the majority are rather firmly convinced it has all developed into tionary war and which have been taken away by directives and regulations, not laws, can only be she had left a roast - no matter won back when Americans fight she got it - in the oven. It was for them just as they fought back still there, but hardly recognizin 1776. Yes, it looks like it is the able war with the Japs and then the battle of the bureaucrats.

Do right and you'll fear no man: umcari Plans Dam Dedication.' don't write and you'll fear no wom-

PURINA CE

COPER, a fine name in gas ranges for over 60 years, will move into a prominent place in this "after-victory" picture of the News Freedom Gas Kitchen. This practical "dream room" of tomorrow calls for each unit to be designed to fit perfectly with every other. Each will be the most modern in features that American ingenuity can devise.

When you first see the smart new Roper, you'll want to have it for your very own. After watching it perform just once, you'll readily agree there'll be no more continuing then, with the range that war time requirements now make necessary. But if you have no range at present or if your range is beyond repair, there's a Roper gas range for you now. Stop in and learn how you can qualify for its purchase.
