Be Prepared

BEFORE THE END of the present month, probably on October 24, you will be contacted and invited to make a contribution to the Boy Scouts, the Girl Scouts, the Community Chest and to the

The campaign will be made at one time in one drive. You will only be contacted once to sary to eliminate stories of considerable importmake your contribution to all four causes-and ance you are urged to remember when you write that check or make your gift you are giving to four causes and not to just one.

Plans are being completed here for a whirlwind one-day campaign to raise a quota of \$5000 for these causes. Sufficient volunteer workers, it is hoped, can be secured so that no one individual will have more than six calls to make.

We don't know of a more disagreeable task than to go out and solicit money. It is never pleasant to go to others and ask them to give to some cause. It is never pleasant to go out and sell a program on which everyone in the community should already be sold.

Yet it is always necessary.

Boy Scout funds go to maintain the Boy Scout movement and to maintain area offices and leadership. Girl Scout funds go to maintain their organization. Community chest funds here create a fund to aid and help the less fortunate and those, who may be in need of medical care, medical supplies or even food and shelter. And everyone is familiar with the fine job the USO has done for the boys in service.

So just bear in mind that the fellow, who calls to see you, is doing a job, which is yours and ours. He is doing one of those community tasks, which have to be performed if we keep our civic and community programs functioning.

He will take as little of your time as possible. You can help him do a job, which is everyone's, in the least possible time by having your check ready for him when he calls.

Artesia has always more than subscribed her quotas in various civic and community undertakings. We are sure that will be the case in this drive for four causes .- O.E.P.

Highway No. 83

THERE REMAINS less than three weeks to secure that pledge that State Highway No. 83 will be completed under the administration, which the county but there is practically a full Republigoes into office.

We still believe that the most important thing the voters of North Eddy County can be given is the completion of Highway No. 83. The fact is that this highway is vital to the state of New Mexico because of the products, which could be moved to market on this road.

But if the pledge is not secured to construct this highway then plenty of work is going to have to be done on the administration, which goes into office following the election.

They will have funds to build roads in the other sections of the state. That is if we follow election on Tuesday, November 5, in so far as the usual procedure. The trouble has been, up to the present time, that too much of the money spent to build roads has been spent in the same cast their ballots. spots in the state

when sufficient demands are made - then this highway will be secured.

We can appreciate the fact that the clamor about it all. has been made for many years but sooner or later the highway will be secured if and providing the the day by, either forget to vote or refuse to go pressure is continued.

That highway means thousands and thousands of dollars to the producers of fruits and vegetables erican the right to cast a ballot. American citiin the mountains. It means thousands of dollars | zenship also imposes on that citizen the obligato Artesia and to Eddy County.

If there was ever a section of a state, which had a strong case for a needed highway, Southeastern New Mexico has just such a case in their request and demand that the state of New Mexico complete State Highway No. 83 .- O.E.P.

Deserve Support

THE ARTESIA FIREMEN deserve the complete and full support of the entire community in their plans to purchase an iron lung.

This community needs that iron lung in case of an emergency. There are some in the state, of course, but in

the case of a real emergency here it would require time to secure them.

Under the program of the Infantile Paralysis | O.E.P.

Association, of course, iron lungs, which are not in use, can be made available in the case of an

But they could be in use. It would require time to make contacts; to make delivery of such an instrument. And in the case of emergencies often times a short period can mean the question

The firemen, of course, are inviting the public to join with them in the buying of this iron lung. They are going to need gifts and contributions in order to make the purchase.

We have already heard many say they wanted to make a contribution toward the purchase of that iron lung. Let's get that fund raised and the iron lung purchased and delivered here ready for any emergency. Make your gift or contribution today to the Artesia firemen or to any member of this group.-O.E.P.

Belligerency Doesn't Help

NEWSPAPER SERVES in many ways, only one of which is the dissemination of news, both of things which have happened or are to Apparently we find rumors and happen and of things which trades people have gossip more interesting.

Another service which is used and sometimes abused is the publishing of propaganda, submitted especially because it will serve some purpose of the person who makes it available. Much of this is welcome and a newspaper is happy to publish

On the other hand there come times, such as was the case last week with The Advocate, when space runs out and it is impossible to use all the type which has been set for the issue. When such is the case, it becomes necessary to wed out—a paragraph here, a paragraph there, a complete news story, perhaps, or a propaganda release.

the resentment we show when rumors or reports or even sometimes the truth is told on us. We can go along our merry way gossiping and telling tales. Whether they are true or false doesn't concern us. We are having a good time—

a good time at the expense of someone else. But let someone news story, perhaps, or a propaganda release.

fected understands and is cooperative and bears with the newspaper, because he knows it just can't concerd. Yet we are highly in-

of each paragraph or story concerned. But sometimes, such as last week, when we had more than six columns of type crowded out, it becomes neces-

again, not because of belligerent actions, but in spite of them .- A.L.B.

Cut Those Weeds

NUMBER OF REASONS could be given for A the removal of weeds from vacant lots, any one of which should suffice. But we imagine frosts, and freezing, and winter will come and go, and only some of the weedy lots will have been cleared because they will have been burned off. Among the reasons for clearing lots, the fire

hazard is but one.

To name only a few others: On some corners high weeds are an obstruction to the view, causing a traffic hazard; weeds make excellent places for mosquitoes are particularly fond of weeds-that is, in which to lurk and swarm, not for eating purposes; some kinds of weeds, such as the tumbleweed, will roll and blow and clutter up streets and yards, after freezing weather; weeds give a community an untidy appearance.

Choose your own reason from this list, or find some other reason of your own, but let's clean up the weeds in Artesia.—A.L.B.

American Right

TUESDAY, NOVEMBER 5, Eddy County voters are to elect a state ticket, county officers, a United States senator and two members of con-

There is, of course, only one party ticket in can ticket in the state races.

The campaigning is underway and candidates are seeking votes.

The clamor has been rather pronounced for many months now that the nation needs a change. Many are of the opinion that only a change in the party can result in the change needed.

In the past the nation has apparently been pretty well satisfied with the party in power because they have given that party an overwhelming The important thing isn't who wins in the

the nation is concerned. The important thing in New Mexico is that the voters go to the polls and For too long now we have stood on the street

But when sufficient pressure is applied and corner and complained about the situation and conditions. We have lambasted this or that. We have shouted that something should be done

But when election day came around we pass and cast our ballot.

But American citizenship gives to every Amtion of going to the polls and casting that ballot.

Far too many of us for far too long have refused to accept that obligation and that responsi-But the fact remains that we owe it to those

in office and seeking re-election to either go to the polls and give them our approval or then elect their opponent to that office, showing them we do not approve of the manner in which they have transacted our business.

The important thing is not so much how we vote on November 5 but that we vote. It doesn't matter whether you are a Democrat or a Republican. What does matter is that you are a good

A Better Product Is Worth More Money

So beginning November 1, 1946 there will be a slight increase in the Advertising Rates of The Artesia Advocate to help meet increased costs. For some five years The Advocate has been absorbing these costs as they steadily advanced while striving and endeavoring at all times to afford the advertiser a better advertising medium.

The new schedule of advertising rates is not only designed to help take care of the increased costs of producing a newspaper but also to afford to the advertiser a discount on his advertising in keeping with the amount of space, which he uses each month.

To the user of a larger amount of advertising space the increase rate is small.

The user of a medium amount of space also enjoys a good discount. For the occasional advertiser, of course, there is little or no discount.

But increased costs of production have continued from month to month while The Advocate has carried on. In the case of newspaper or newsprint, the largest item used in the producing of a newspaper, the cost has almost doubled while every other item, which goes into the production of a newspaper, costs more today than it did a year or five years ago.

And the only way The Advocate can meet these increased costs is with the increase of its advertising rates.

These rates apply only to display advertising.

Guaranteed Circulation

That is what membership in the Audit Bureau of Circulation means. The Artesia Advocate is the only weekly newspaper in the State of New Mexico holding ABC membership.

There is no guessing about our circulation-paid net circulation. It is audited. You are sure when you buy space in The Artesia Advocate you are reaching 2,160 paid subscribers. But you are actually reaching more than 8000 readers and prospective buyers in this trade territory. In many families more than four read The Advocate—every reader is a prospective customer of yours.

You reach guaranteed readers and circulation only through The Artesia Advocate in the Artesia trade territory.

Here are your cash-contract discounts. In order to secure these discounts a contract must be signed to extend over one year. However, the contract does not require the use of a single inch of advertising, but in order to receive the discounts a contract must be signed. The cash discount is then based on the inches used each month. It is granting to advertisers the rate, which they earn on the basis of the advertising they use.

MINDING OTHER PEOPLE'S BUSINESS

Life is so complex and specialized, the chances are you mind someone's business as your way of earning a living. The part of your business Optometry minds is your seeing—a work you cannot possibly do for yourself. It goes deeper than your eyes or even eyesight, it is a matter of your comprehension of what you see. Slow seeing, seeing that tires easily, that makes mis-takes—these are of vital concern to your welfare and that is the part of your business that Optometry minds.

The school bell should ring a bell in your mind. Does your scholar have a well-lighted place to study?

Whether the books are brought out in the kitchen, in the living room, or a bed room, you can easily make sure that there is proper lighting. And good lighting is vital, not only for all-important eyesight in later life, but as an aid to better school work.

Keeping shades, lamp bulbs and reflector bowls clean and bright makes a lot of difference when there's work or studying to be done

And having enough light makes it easier for eyes to do their work of seeing . . . reliable electricity is so cheap.

RHYMES OF REASON Words and Music By uncle CHARLIE & FRED

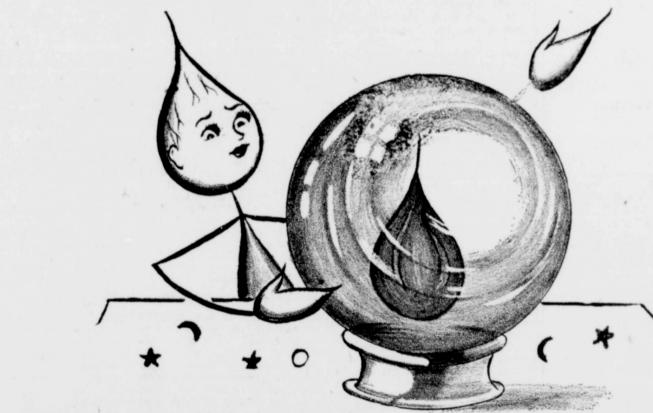

There's MAGIC IN THE Blue FLAME

A blue flame . . . tiny . . . silent . . . an independent little flame ... works day and night performing silent magic ... of power, energy and comfort. The magic of the blue flame fills the air with cool breezes, bringing the atmosphere of snow-capped mountains into your home. The magic of the blue flame fills your home with the warmth of summer on the coldest days. The magic of the blue flame performs as your domestic servant, refrigerating your food . . . cooking your meals . . . automatically heating an abundance of water for your baths and laundry. The magic of the blue flame makes a life of luxury . . . makes the home a palace. The magic blue flame of Natural Gas . . . another wonder of the world . . . is performing for you day and night.

THE WHITE HOUSE

(Because he was cleared with Sidney)

in a radio address Monday night reluctantly announced the removal of price controls on meats, grains and their products. He stated THE REPUBLICANS had forced him to do this, naming specifically Senators Taft and Wherry, Republican stalwarts, as leaders of those who defeated him.

There Is No Place in America For OPA. The Idea Was Stolen By the Democrats From Adolf Hitler

It has done more to create and nourish disrespect and disregard of law and order than anything in the history of this nation. It has not controlled prices, BUT IT DID BRING PRODUCTION ALMOST TO A STANDSTILL. Almost every business it touched, was stricken with paralysis.

Pat Hurley, Republican candidate for U.S. Senate, said: "There are 57,000 OPA Bureaucrats and they can't regulate the price of a pound of butter."

Removal of these price controls, three weeks before election, may be a temporary vote-catching scheme. If the Democrats win the November election, there is no assurance they will not restore these and other price controls, IF THE PAC, COMMUNIST PARTY AND OTHER COMMUNIST-DOMINATED ORGANI-ZATIONS DEMAND IT.

Your best insurance is to send to the U.S. Senate and the lower house of Congress, Republicans

-but many calls are going through without delay...

· Since last year almost 20,000 miles of long distance circuits have been added in the states we serve and nearly 70% of all long distance calls are being completed while the person calling holds the line.

· However, especially during busy periods, some calls are delayed. Generally the busiest hours are during the latter part of the morning and early evening.

· The job of adding more circuits is going ahead despite shortages. Every expedient is being used. We have installed Army surplus material to relieve many congested areas, added substantially to our operating force and frequently rearranged existing facilities to handle peak

· Your understanding during this period of expansion is sincerely appreciated.

We Pick Up and Deliver

GET SET NOW

for the tough driving months that are coming

New Ford deliveries are still behind schedule - so we suggest a winter-proof service for your present car right away

The Ford factory is still catching up with back orders for new Ford cars. And we're in the same fix. But even though we can't get new cars to everyone as fast as we'd like, we can do something about your present car's ability to serve you through the winter weather

ahead. First, let's check it over for you . . . see what's needed immediately. Then we'll put our experienced Ford mechanics on the job. And you'll drive out with a car that's a lot safer, lots easier on your mind.

Bring your Ford "back home" for service ARTESIA AUTO

SENATOR CHAVEZ

Is such a good friend of the New Mexico oil business, will he kindly explain why he

VOTED AGAINST THE MOORE AMENDMENT

Which would have decontrolled petroleum products. Senator Chavez voted to retain these unjust restrictions on the oil industry, despite solemn promises that ceiling prices would be removed as soon as they were assured supply equalled demand. There is not now, nor has there been at any time in recent years, and certainly not since the war's end, any shortage of petroleum products.

Specialist In Clothing Tells Women How To Plan Their Handbags

Much fun has been poked at vomen's handbags, says Mrs. Pearle Gehl, extension clothing specialist. But most women will have to admit the average handbag is not arranged to carry its load conveniently. Now that handbags, pockets, and purses are high in price and scarce, here are a few suggestions given by Mrs. Gehl to women who are making
