Producers Hear Farm Program Update

District Opener Goes To Mules

Mullettes Lose To Hornettes

Tuesday night, the Muleshoe Mules, who have been known to show fairly 'weak' during the third quarter of their basketball games, dug right in and played their best game of the season.

They defeated the Tulia Hornettes 61-55 to take the first district game for the 1988-89 basketball season.

All the varsity Mule basketball players got in on the action in the game, which saw the Mules with a two point lead, 16-14 at the end of the first quarter, and maintaining a four-point, 29-25 lead at the half.

Never relinquishing their lead, the Mules were 48-37 at the end of the third, and added an additional 13 points in the fourth.

Frank Precure proved to be the 'workhorse' of the evening, as he scored 25 points, and had numerous rebounds and assists.

Daniel Olivias and Brett Pylant each had eight points; Kevin King had seven; Brian Bush, six; Tim Shipman, three; and Colin

EMT Classes are scheduled to begin at the Bailey County EMS Building, 715 West Second, on Tuesday, January 17. Classes will be held 6:30-10:30 p.m. each Tuesday and Thursday, with instructors from Texas Tech University.

For additional information, contact Starla Black at the EMS Building, 272-4390.

The first MAC general membership meeting for 1989 is scheduled for 10 a.m. today (Thursday) in the meeting room at Muleshoe State Bank.

All members are urged to be present, as plans will be made for activities for this year will be discussed and voted on.

The Journal was notified Tuesday morning that James Alexander Beam, who taught and coached in Muleshoe in the late 1940's, died Monday at Big Spring.

He was born December 18, 1918 in Abilene.

Funeral services were conducted Wednesday at Myers and Smith Funeral Chapel in Big Spring. Masonic graveside services were conducted at Trinity Memorial Park in Big Spring.

Six hundred fifty-one West Texas State University students were named to the Dean's List and 157 earned mention on the President's List for the 1988 fall semester.

Included from Muleshoe were Tanya M. Steinbock and Nelda K. Wilhite on the President's List. On the President's List were Deborah S. Smith and Tanya Steinbock and on the Dean's List were Claire Brown and Nelda K. Wilhite, all from the Muleshoe area.

Forest Creamer is a patient in the Veteran's Hospital in Albuquerque, where he has undergone corrective surgery on his right eye socket. Repairs were made from injuries received in a vehicle accident in Las Vegas, Nevada in December, 1987.

He is expected to be hospitalized for 10 days to two weeks.

GETTING READY FOR THE AG CONFERENCE--Spencer Tanksley, standing, Bailey County Extension Agent, looks on as Mike Blanton, entomologist, left; Dr. Pat Morrison, entomologist; and Dr. Harold Kaufman entomologist, right, prepare for the annual Bailey County Ag Conference. Despite 4 degree weather early in the morning, the group of farmers and ag-related businessmen who attended the meeting, filled the room at the Bailey County Civic Center. (Journal Photo)

Monday Ag Conference Well-Attended Here

Although the temperature was barely above "zero" Monday morning, a good crowd showed up at the Bailey County Coliseum meeting room for the annual ag conference, sponsored jointly by the Bailey County Extension office and the Blackwater Valley Soil and Water Conservation District.

Opening the meeting and acting as moderator was Spencer Tanksley, Bailey County Agent.

He told the group "We were most fortunate to get through a good summer, and had a very good crop, for the second year in a row.

"But, we haven't had anything quite like the weather and soil conditions we have right now."

He introduced as the first speaker for the morning, Danny Noble, county executive director of the ASCS.

Noble said the 1989 farm program shows very little change from the 1988 Farm Bill.

This year cotton has gone to 25 percent mandatory set aside; where it was 12 1/2 percent last year. Feed grains show a 10 percent mandatory set aside and oats have a five percent mandatory set aside.

There are no diversions for 1989.

There is no change in haying and grazing, the program is the same as it has been for the past several years.

There is no change in the 50-92 on cotton or the 0-92 on feed grains.

According to the December, 1988 ASCS newsletter, producers may declare their intent to plant 10-25 percent soybeans or sunflowers that they may deduct from their original base.

Noble said there is limited cross compliance for 1989.

This year, warned Noble, guarantees are lower. In 1988, the guarantee on wheat was \$1.53. This year it is \$0.50. On corn in 1988, it was \$1.10 and this year it is \$0.89. The 1988

guarantee on grain sorghum was \$1.08 and this year it is \$0.90. The 1989 guarantee on barley is \$0.23. Last year, it was \$0.76. There is no guarantee on oats this year. Last year it was \$0.30. Cotton is not guaranteed. The current price is \$0.20, and Noble predicted it will possibly go to \$0.24.

Advance payments are available on feed grains for 40 percent and 30 percent on cotton. He said this will be paid in cash, not certificates.

Noble also cautioned that everyone must fill out ASCSS02 and no payments will be made until the 502 is completed and approved by the committee.

He also said it will be easier in 1989 to form a corporation, and the final day to form the corporation is April 15, 1989.

He was followed by Jim Lutz of the SCS office, who spoke on the Conservation Compliance Program for 1990.

Lutz said, by 1990 all individuals involved in the production of commodities must be in compliance. They must have on file the method being used to control erosion on their farm.

He reminded that December 31, 1989 is "right around the corner," and at this time, some 85 percent of the producers in Bailey County already have filed their erosion plans with the SCS.

Producers with no plan on file will lose all program benefits, including FmHA loans, CCC storage and certificates, CRP payments, or any other program involving money.

According to the SCS spokesman, this is a nationwide effort, and what may work here may not work in other states.

He also said that the Sodbuster, Swampbuster is part of Conservation Compliance.

Any producer who has converted any wet land, such as Playa Lakes, since 1985 will be out of any program whether they have compliance on file or not.

Lutz said 96 percent of the land in Bailey County has been termed erodible land; Cochran County shows 98 percent; Parmer County, 30 percent and Lamb County, 75 percent. One out of four acres nationwide has been declared erodible.

He said the program is to be totally implemented by 1995 and each year, 15 percent will be spot checked for compliance.

Bailey County director of the FmHA office, Jay McKay, said the FmHA doesn't have much

Don Clapp, Wildlife Refuge Manager, Has Rotary Program

Don Clapp, manager of the Muleshoe National Wildlife Refuge, took members of the Muleshoe Rotary Club on an impromptu visit to the Refuge Tuesday, after he was introduced by Bret McCasland, who was in charge of the program for the day.

Clapp interspersed a talk with a slide presentation on the Refuge, showing many birds, and much of the wildlife habitat that can be found on the first National Wildlife Refuge established in the State of Texas.

Clapp explained that the Refuge is a part of the U. S. Fish and Wildlife Services, and is administered under the Department of the Interior.

According to the Refuge manager, the Muleshoe National Wildlife Refuge, located 20 miles of Muleshoe on Highway 214, is one of 400 such refuges in the United States, Alaska, Puerto Rico and Hawaii. West Virginia is the only state in the U.S. that is without a Refuge.

Refuges vary from a few acres to over one million acres, such as one Refuge in Alaska.

Some refuges are set up for birds, and some are set up for bison, like a refuge in Montana.

Pelican Island, Fla. was the first U. S. National Wildlife Refuge, established in 1903. The Muleshoe National Wildlife Refuge was established in 1935, with WPA workers hired to build the dikes and buildings. The

Crime Line ALERT!

Bailey County Crime Line is offering a \$300 reward for information leading to the arrest of suspects involved in the burglary of the Needmore Co-op Gin office. Date of the crime was in the morning hours of January 10, 1989.

Call 272-HELP!

And, remember, you will remain completely anonymous.

Refuge covers 8,508 acres on both sides of Highway 214. It was established for water fowl, but is more famous for the overwintering lesser sandhill crane.

The refuge manager told of the new visitor's center at the office building on the refuge, and said the public is welcome at any time to visit and walk along the trails or along the caliche roads. There is no hunting permitted anywhere on the Muleshoe National Wildlife Refuge. An overnight camping ground has four-five camping slots, he added.

Boy Scouts and church groups most often utilize the camping facilities, he added. Some of the slides showed YCC (Youth Conservation Corp) workers, who work on trails and other parts of the refuge, including building and replacing fences, painting and general upkeep and repair in the summer. The youth are hired to work for two months in the summer, and a crew chief is also hired to direct them.

Lower Paul's Lake was on several slides. Clapp explained that the lake, in the northeast corner of the refuge is fed by an underground spring. Other lakes on the refuge dry up when there is no rain.

Also shown were bald eagles and golden eagles, which can be found on and around the refuge. The refuge manager told the Rotarians that although up to 250,000 lesser sandhill cranes have been counted on the refuge in the past, the population at this time is approximately 15,000.

He said the lesser sandhill crane nests in Canada, and some in Alaska. Each fall, they migrate to Texas. While they are nesting, they will lay two eggs in a very non-elaborate nest. Their nest is a depression scooped out of the ground. However, due to their harsh environment and hostile animals, usually only one chick reaches maturity.

Lesser sandhill cranes are known to mate for life, and when they migrate, they bring their

family with them.

While overwintering in Texas, the cranes usually travel 15-30 miles each day to feed. Some of them now scatter out to other refuges in the area, such as Grulla, a small National Wildlife Refuge near Arch, N.M., approximately 300 miles away.

Latest Sales Tax Check Reflects Big Increase

State Comptroller Bob Bullock said Friday that the first city allocation of 1989 continues to show promising increases in sales tax rebates to local governments.

"Most cities, counties and metropolitan transit authorities can expect a little extra spending money for their 1989 budgets. That additional money can be put towards needed local projects or set aside for a rainy day," Bullock said.

Checks totaling \$64.1 million were sent last Friday to 924 cities that collect local sales tax at either one or one and one-half percent. The payments to the cities reflect 19.4 percent more money than was sent in the January 1988 allocation, Bullock added.

In Bailey County, Muleshoe received \$16,500.74 for the current pay period. This is a 33.31 percent increase over the \$12,377.28 sent to Muleshoe last year. The figures show that Muleshoe is starting off the year of 1989 on a positive note.

For Morton, in Cochran County, the payment was down for the year for the first payment. Last year, Morton received \$4,233.43 for their first payment of 1988. This is down 12.72 percent in the \$3,695.05 received in January this year.

In Lamb County, Littlefield received a payment of \$14,918.85 in January this year. This is an increase of 10.07 percent over the \$13,553.99 received in January, 1988.

Friona, in Parmer County,

WILDLIFE MANAGER VISITS ROTARY--Tuesday at noon, Don Clapp, left, manager of the Muleshoe National Wildlife Refuge, was guest speaker for the Muleshoe Rotary Club. He was introduced by Bret McCasland, right, who was in charge of the program for the day. Clapp showed slides and talked about the National Wildlife Refuges and lesser sandhill crane. Bring Family Recipes Into Low-Cholesterol Age

Grandma's chicken and dumplings, dad's barbecue sauce, Aunt Edna's neverfail cake. They're family treasures, passed on generation to generation, by word of mouth, scraps of paper, sometimes even a formal "family cookbook."

Often these family recipes carry on a tradition of high-fat eating, according to the American Heart Association. Older methods of food preparation and use of "special occasion" ingredients, such as cream and butter, yield family menus that may not be the best for the heart.

"You don't have to burn the family cookbook, however, to change to a heart-healthy lifestyle," according to Janie Moynihan, president of the Bailey County division of the American Heart Association. "Many family recipes can be revised and made heart-healthy simply by substituting ingredients that are lower in fat."

Foods high in fat are major contributors to high cholesterol levels in the blood, and high blood cholesterol increases the danger of heart disease, according to the AHA. "By modifying the amount and kinds of fat in the foods one eats, along with controlling high blood pressure and stopping tobacco use, Americans can reduce, and are reducing the death rate due to heart disease," Moynihan said.

So, how can grandmother's chicken and dumplings be made more heart-healthy?

For starters, the chicken can be steamed or boiled a day ahead and chilled. Poultry carries a layer of fat under the skin and several large fat deposits near the tail. When boiled, this fat is released into chicken broth. By chilling the chicken and broth, the fat solidifies and rises to the top so it is easily skimmed off, leaving a tasty liquid which is lower in fat. Skin from the cooked chicken can also be removed before preparing the final recipe.

The same technique can be applied to other chicken recipes, such as creoles, pot pies and stir-frys.

Now, for dad's barbecue sauce and Aunt Edna's desserts, polyunsaturated oils and margarines and low-fat or non-fat milk products are readily available as substitutions for other fats and whole milk products.

Choose lean meats or chicken for the barbecue. Use the leanest cuts of beef, top round, top loin, round tip, eye of round, sirloin, tenderloin and lean or extra lean ground beef.

Desserts should be low in fat, try: fruits, sorbets and sherbets. You'll help your heart and, with reasonable portions, may help your waistline, too.

To reduce the fat, cholesterol and calorie content of your family recipes, the *American Heart Association Cookbook* (fourth Edition), suggests the following adaptations.

- When your recipe calls for sour cream, use cottage cheese blended until smooth, or cottage cheese, plus low-fat yogurt for flavor.

- Chocolate, which is high in fat, can be replaced with a mixture of cocoa blended with polyunsaturated oil or margarine or an oil high in monounsaturates. These are vegetable oils; cottonseed, safflower, se-

same seed, soybean, sunflower seed, rapeseed, and olive. For every one-ounce square of chocolate, substitute three tablespoons of cocoa mixed with one tablespoon of oil or margarine.

- Instead of butter, use one of the margarines or oils listed above.

- Buttermilk can be replaced with one cup of lukewarm non-fat milk, plus one tablespoon of lemon juice. This equals one cup of buttermilk. Let the mixture stand for five minutes and beat briskly before using.

You can use this mixture in making buttermilk biscuits.

By lowering fat and cholesterol in family recipes and experimenting with spices other than salt, you may improve even the most cherished family recipe.

"You're not re-writing the family cookbook," Moynihan says, "You're just revising it for better eating and a healthier heart."

Farmers And Computers Work Very Well Together

No farmer's computer software library should be without a spreadsheet program, says an agricultural economist with the Texas Agricultural Extension Service. To help farmers and ranchers make use of this versatile management tool, the Extension Service will hold a workshop in Levelland Jan. 11-13.

The spreadsheet allows the user to do computer programming without learning a computer language, said Dr. Jackie Smith, extension management specialist.

"It has proven to be the type of software most often used and most helpful to farmers and ranchers," Smith said. He said spreadsheets are used for budgeting, basic record keeping, financial planning and many other applications.

The two-and-a-half-day extension workshop at South Plains College will teach the use of Lotus 1-2-3, the leading spreadsheet program. It begins at 1 p.m. Jan. 11. Instructors will be Smith and Dawson County Extension Agent John Farris. It is limited to 15 participants to assure hands-on use of computers.

Spreadsheet programs are popular with farmers because they help make decisions, Smith said. "Cash flow budgeting, which has become very important, is one application in which computer spreadsheets really shine," he said.

Developing cash flow projections, enterprise budgets or cropping plans has usually been done with pencil and paper, Smith noted. A change in any part of those tabulations affects many other figures on the spreadsheet and, with pencil and paper, is very time consuming.

"A real problem arises when you want to redo a cash flow projection with a different selling price, a different level of fertilizer, more herbicide costs, or several possible combinations of yields, prices and input costs," Smith said.

If the cash flow is on a computer spreadsheet, however, such changes can be done in minutes, and a printed copy of each scenario can be provided.

"The computer spreadsheet allows you to go one step further," the economist said. "The information can be stored on a disk and retrieved for later use, updated at any time, the revised version stored, and these templates shared with other users."

The workshop will teach producers how spreadsheets work and how to develop ones which fit their situation. Participants will review available

Better Marketing, Crops To Be Discussed

Better ways of marketing, as well as producing, traditional vegetable crops and new alternative vegetables and strawberries on the High and Rolling Plains will be explained at the 1989 West Texas Vegetable Conference in Hereford Jan. 17.

The program in the Hereford Community Center, 100 Avenue C at Park Avenue, begins at 8:30 a.m. More than a score of scientists and experienced growers and shippers will address the theme, "Profitable Alternatives."

"For growers who are serious about the vegetable business, this program will present vital, practical information they can use to make profitable decisions for 1989 and beyond," said Dr. Roland E. Roberts, vegetable specialist with the Texas Agricultural Extension Service and conference coordinator.

The session will open with an update on research to improve one of the area's major vegetable crops, potatoes, and on a new entry into the marketplace, the Texsprout mungbean. This will be presented by Dr. Creighton Miller, professor of horticulture with the Texas Agricultural Experiment Station (TAES), College Station, and Doug Smallwood, TAES research associate, Lubbock.

Other specialty crops for Texas will be discussed by Tom Longbrake, Extension Service horticulturist, College Station.

Getting a profitable mix of specialty crops will be examined by Dr. H.L. Goodwin, assistant professor of agricultural economics, TAES, College Station.

Other speakers will detail the latest information on materials, equipment and strategies in pest and disease control, fertilization and irrigation, and production of onions, cucumbers, potatoes and spinach.

Educational and agribusiness exhibits will provide growers a look at new materials and equipment.

Muleshoe Journal
Muleshoe, TX

Dear Sir:
I would like to publically thank the "wonderful" folks who worked so hard to put together the book *Tales & Trails of Bailey County*. I know there are many people responsible for the "making" of such a beautiful book, and if I tried to name them I would miss someone.

It truly is a fantastic book and I'm so thankful for mine. And I was privileged to receive mine on Christmas Eve from the Postman, not Santa Claus!

I could not have been more happy with the biggest of gifts under my tree than I was of "my" book.

Thanks also to you folks who I'm sure contributed a lot also.

Thank you for allowing me to publically say "Thank You" to the workers for a job "well done!!!"

Sincerely,
Mrs. Mammie Bussey

NEW SIX CYLINDER CHEVROLET CREATES NATIONWIDE SENSATION
The new Chevrolet Six, which has been on display at Valley Motor Company the past week has made a hit with the hundreds of people who have seen it. The car is a sedan and is beautiful in design and sturdily built.

The writer was taken for a ride in the new model recently and we must say that the performance of the 'Six' is all that could be desired.

The announcement of the new Six Cylinder Chevrolet replacing the former four cylinder car with prices practically unchanged has created something of a sensation through the entire country.

40 COUNTIES IN STATE DO NOT USE HORSES OR MULES FOR FARM WORK
Texas farmers are making long strides toward complete mechanization of crop production, according to H.P. Smith agricultural engineer of the Texas Agricultural Experiment Station.
Smith has just completed analyzing information on power used on Texas farms in crop production furnished him by county agricultural agents.
No horses or mules are now used in crop production in about 40 Texas counties. With the exception of some hand hoeing and hand harvesting of cotton, crop production in these counties is completely mechanized, Smith said.
Tractor power is used almost exclusively in the production of all crops in the block of 77 Northwest Texas counties. It was reported that few farmers in these counties still keep a team or two for odd jobs about the farm or for hauling feed.
There are about 47 million acres in these 77 counties. The total devoted to crop production amounts to about 14 1/2 million acres.
Smith found that East Texas farmers still use a good deal of animal power. This is likely due to the farms being smaller units than in West Texas. East Texas farmers are reported to use horses and mules ranging in number from a few hundred per county to more than 6,000.

30 Years Ago

1959
BAILEY COUNTY POPULATION IN 1900-4 ESTIMATED 1958 POPULATION SET 9860
The growth of Bailey County parallel the growth of most of West Texas, which has shown an average increase of 22.7 percent between 1940 and 1950 and which has further increased more than 30 percent during the past

eight years.

Bailey County population has increased from 6318 in 1940 to 7592 in 1950, and to an estimated 9860 in 1958, according to a report just released by the West Texas Chamber of Commerce: 1900-4; 1910-312; 1920-517; 1930-5186; 1940-6318; 1950-7592; and 1958-9860.

LOW TEMPERATURE SETS

NEW RECORD

In what has been heralded as one of the coldest winters in the history of the Muleshoe area, temperatures early Monday morning dipped to below zero, and depending on whose thermometer was checked, was apparently between 14 and 19 below zero.

It was cold enough that very few vehicles started on their own, and most of the ones that did start were already in enclosed garages or sheltered locations.

The bad weather started Saturday morning around 8 a.m. with a light freezing mist, that turned to freezing drizzle, then to snow late in the day after a coating of sleet whitened the ground.

Daisy Scout News

Daisy Scouts met Wednesday, Jan. 3 at the Girl Scout Hut for their regular weekly meeting.

The meeting began with the Promise and Pledge. The girls then started on their projects which was to make a pouch, so the tooth fairy could find their teeth easier.

Refreshments were taken by Jamie Prather, which it was reported that the girls enjoyed while listening to the Daisies tell what they had done during the holidays.

Those present were Casey Tosh, Kinsee Estep, Chyla Torres, Kayla Claybrooks, Misty Garcia, Melissa Flores, Shari Alanis, Elizabeth Torres, Jamie Prather, Daina Gable, Lisa Marie Ramirez, Karen Jo Wimberley, Adrienne Ashford and Stephanie Kirk, Troop leaders are Cherry Estep, Linda Flores and Mary Ann Ramirez.

Brownie Scout News

Brownie Troop No. 200 met Friday, Jan. 6 at the Muleshoe Girl Scout Hut. The meeting began with the girls saying their promise.

Since cookie sales start Friday, the 13 at 4 p.m. the girls played games to help them learn about the cookies. The game, Setting The Stage, included posters with selling and safety information. Doodle Art Show cards with scripts and games and a dressing room full of masks and props. It was reported that the girls had fun acting out the different parts.

Kristal Hailey provided refreshments this week.

Those present were Leesa Gable, Kristy Hime, Marissa Beversdorf, Kristal Hailey, Lela Hancock, Chelyn Maddox, and two guests, Heather Musselman and Bobbie Benham.

Science increases our power in proportion as it lowers our pride.

Miss Kathy Powell, Gardner United In Marriage

Miss Kathy Diane Powell became the bride of William Thomas Gardner on Saturday, Dec. 17, 1988, in a Christmas setting ceremony held in the First Baptist Church. Jim Gardner, brother of the groom, read the double ring vows. Parents of the couple are Mr. and Mrs. Dwayne Powell and Mrs. Douglas Gardner, all of Sudan.

The church was decorated with two flocked evergreen trees

standing eight feet tall. They were decorated with red velvet bows and clear Christmas lights. The trees were accented with red satin tree skirts. They were topped with large velvet bows with streamers looped to the archway. The archway of white cast iron was decorated with greenery poinsettias, and clear Christmas lights. Under the archway stood the memory candle arrangement. Pots of poinsettias were placed around

the church to accent the Christmas theme. The pews were decorated with red velvet bows and baby's breath. The mothers pews featured brass candle holders with poinsettias. Georgeann Rasco of Sudan, organist, played traditional wedding music, accompanying Mr. and Mrs. Bob Gardner, brother and sister-in-law of the groom, as they sang "Whither You Goest", "Household of Faith" and "The Wedding Prayer".

Given in marriage by her father, the bride chose a formal length gown of white satin, featuring a wedding band neckline dropped from an illusion to a sweetheart neckline accented in schiffle lace and beaded with seed pearls, sequin, and teardrop pearls. The leg-o-mutton sleeves of illusion and satin were accented with motifs of schiffle lace and beaded in design. The natural fitting bodice featured motifs of schiffle lace beaded and highlighted with tear drop pearls. The basque waistline held the full floor length gown heavily applied with schiffle lace cut-outs in design and hemmed in large scalloped edge schiffle lace.

The gown flowed into a semi-cathedral length train. The bride selected a romantic headband of pearl spiral loops and crystals. Rhinestones delicately intertwined to give a shimmer of light. The fingertip length double illusion veil cascaded from puffs of illusion jeweled with pearls and rhinestones.

She carried a red cascading bouquet featuring poinsettias greenery and baby's breath with red and green streamers.

Following tradition, for something new, she chose her wedding ensemble; something blue, the traditional blue garter; something borrowed, her sister's diamond and sapphire ring; and something old was her grandmother's wedding ring. Sherri Foley, sister of the

bride, served as matron of honor. Bridesmaid was Kim Moss, sister of the bride, and bridesmaid was Cheri Ford, all of Sudan. They wore tea length gowns of red satin with a scalloped neckline of red lace. They featured pouffed sleeves, and a bustle and bow in the back. They wore red satin shoes to match their gowns. They wore wreaths of poinsettias and baby's breath in their hair and carried brandy sniffers with a red candle. It was accented with red poinsettias and baby's breath.

Brandi Nichols, niece of the bride, served as flower girl. Junior flower girl was Heather Nichols, niece of the bride. Brandi carried an umbrella basket accented with red poinsettias and greenery. Heather carried a basket accented with red poinsettias and greenery. They wore red satin tea length gowns with pouffed sleeves. Layers of lace made the skirts which were accented with a large bow.

He wore a black suit with a red bow tie and carried a ring pillow.

Cindy Nichols, sister of the bride, registered the guests. Patty Miller was coordinator.

The groom was attired in a white tuxedo. Charles Kessler served as best man. Groomsmen were Rick and Mike Hill. They were attired in black tuxedos with red accents.

Ushers were Troy Moss, Dan Foley, brothers-in-law of the bride, Darren Provence and Bobby Phillips.

Following the ceremony, a reception was held in the fellowship hall of the church.

The bride's table featured a four tier wedding cake with poinsettias and bows, nuts and mints of Christmas colors.

Serving at the bride's table were Jennette Powell, cousin of the bride, and Shannon Peck, and Kendra Whitten, of Sudan.

The groom's table had trays of meat, cheese rolls, beef log,

thumbprint cookies and coffee. Servers were Teresa Franks and Kimberly Gardner, nieces of the groom.

The bride is a 1988, graduate of Sudan High School and is attending South Plains College. Gardner is a 1987, graduate of Sudan High School and is presently employed by Robert Massie Funeral Home in San Angelo. They plan to make their home in San Angelo.

Out of town guests were Ron, Carol and Jennette Powell of Tulsa, Okla., Wanda Boone and Brenda of Lubbock, Lisa and Jordan Thompson of Amherst, Laura Powell of Lubbock, Bob and Maxine Donaldson of Muleshoe, Alton and Alma Burton, Doug, Tanya, Ashley Jason, and Tucker Crawford, all of Muleshoe, Rev. and Mrs. Jim Gardner, Kim and Niki of Hobbs, Mr. and Mrs. Bob Gardner and family of Midland, Kathy Frank

and Clifton and Teresa and Roy Colvin, Mr. and Mrs. Steve Turner and children, all of Eunice, N.M., and Mr. and Mrs. Pete Boyd and family of Pottsville, N.M.

A rehearsal supper was held at the church fellowship hall, hosted by Mrs. Douglas Gardner.

A bridal luncheon honoring Miss Powell was held at the home of Mildred Chisholm on Dec. 10. Hosting the luncheon was Paula Ford, Cheri Ford, Mildred Chisholm and Mayble Harragan. The hostesses presented the honoree with a crystal salad bowl and a SPS cookbook.

The menu consisted of sandwich loaf, relish plates, dips, potato salad wrapped with ham slices which were served from Christmas china. Fruit punch was served from crystal goblets. For dessert the hostesses served strawberry short cake.

Those attending were: the honoree, Mary Powell, mother of the bride, Frances Gardner, mother of the groom, Cindy Nichols and Brandi, Heather and Sherri Foley and the hostesses.

MRS. WILLIAM THOMAS GARDNER
[nee Kathy Diane Powell]

Heart Association Plans Annual Radio-Day

The Bailey County Division of the American Heart Association met Friday, Jan. 6 for their regular noon meeting at the Old Corral Restaurant.

Janie Moynihan, president, called the meeting to order and lead the invocation. She passed out a handout with information on the 1987 Texas Cardiovascular Death Statistics and also some very good information on teens and cholesterol and their lack of knowledge on high cholesterol foods.

There were no minutes of the previous meeting or treasurer's report due to the absence of the secretary/treasurer.

Program chairman, Georgia Pena, reported on the Heart at Work programs in the Muleshoe Schools. At Mary DeShazo, the school personnel have been made aware of the benefits of a good diet and by distribution of brochures and Heart Association information.

On Nov. 28, 1988, Mrs. Pena made a presentation of the Heart Explorers Training Program to the I.S.D. School Board. This was very well received by the board.

The Heart Explorer kits were distributed to grades one and two at Dillman Elementary and grade three at DeShazo Elementary.

Training for the first grade will be today, Jan. 12 at 3:30 p.m. in grade level meeting.

The second grade training was held on Jan. 11 at 3:30 p.m.

Development chairman, Winston Allison, reported that plans for Radio Day on Feb. 25 are well under way. He is also working on plans for Telepledge to be held in the near future.

Janie Balderas, communications chairman, presented a plan for Heart Month. The central theme for Heart Month is "Cholesterol and You."

It was reported that Janie has several activities schedules. She distributed to each member present, a Hypertensive's Guide for a Balanced Diet.

Carolyn Kennedy, regional director, made a slide presentation on telephone skills and information to relate to the public for making telephone pledge contributions to the American Heart Association.

Mules

Cont. from Page 1

Tanksley and A. J. Liles, two each. Although Doug Chitwood did not score, he proved to be an excellent defensive player in the game.

MHS Varsity Basketball Coach Wade Littlefield was probably filled with mixed-emotions Tuesday night as he watched his Mules solidly trounce the Tulia Hornets. Tulia is home for Coach Littlefield, and is where he played high school basketball.

However, he expressed his pleasure with the playing of the entire team in the first district game for the season.

Not so fortunate were the Muleshoe Mulettes, under guidance of Mulette Basketball Coach Ruben Osuna.

The Mulettes saw a three quarter lead dwindle away in the fourth, as they dropped their district opener to the Tulia Hornets, 32-36.

It was a purely defensive game that saw Mulette powerhouse player Heidi Bohler go out of the game about a minute and a half before halftime with a knee injury. The Mulettes' game was not helped by several controversial calls by officials, calls that

could have partially disoriented the Mulettes.

It was reported by the coaching staff at MHS that Heidi Bohler went to Lubbock Wednesday morning to have her knee injury assessed.

At the end of the first, it was a 14-9 game, and the Mulettes were still leading, 22-21 at the half. By the end of the third, it was still the Mulettes, 26-23, but the Hornets started pulling ahead in the fourth leading by 32-29 with three minutes left to play.

Debbie Brown made a free throw to draw the Mulettes within two and at 1:52 left on the clock, Brenna Matthews shot true at the basket to tie the game 32-32. But to no avail as the Hornets put an additional two points in the basket with :44 left to play.

With twenty-six seconds left on the clock, the Hornets managed to put the game away.

Coach Osuna said "We'll come back Friday and play another strong game (at Friona)."

Debbie Brown led scoring with 8; Michelle Cox, 7; Brenna Matthews, 6; Wendy Green, 4;

Heather Hutton, Amy Harrison and Jenifer Hayes, 2 each and Heidi Bohler, 1.

The Mules and Mulettes will travel to Friona Friday for their second district game of the season.

Check...

Cont. from Page 1
department received \$29.9 in rebates.

The increase in payments to the MTAs showed a 22.7 percent increase over the 1988 January payments.

Checks totaling \$6.1 million were also sent to 81 counties that collect the one-half percent county sales tax, Bullock said.

January's checks represent taxes collected by monthly filers in November and reported to the Comptroller's office by December 20.

Refuge...

Cont. from Page 1
imately 27 miles from the Muleshoe National Wildlife Refuge.

He concluded by inviting the Rotarians to the Refuge to see what goes on out there, and to view some of the birds and animals which can be found there.

George Nieman, president of the Rotary, announced that Dr. Lawrence Ward, new Muleshoe School Superintendent, was a new Rotary Member. He also said that Harmon Elliott was a patient in Methodist Hospital in Lubbock, being treated for a broken hip.

The next four programs are assigned to Mark McClanahan, Don McElroy, Kerry Moore and Charles Moraw.

Travis Bessire was winner of the Polio Plus drawing.

Visitors at the Tuesday meeting included W. G. Harlan, Noe Anzaldua, Nick Bamert, Lance King, Gant Barnhill, Marie Bass and Norma Jean Del Toro, student guest.

Junior High Girls, Boys In Tournament

The Watson Junior High School eighth grade 'B' girls and boys played in the Lazbuddie tournament last weekend.

The eighth grade 'B' girls won one and lost one during the tournament.

Dimmitt's eighth grade girls fell 23-17 to the eighth grade

Texas A&M counselor says family history affects career choices

COLLEGE STATION — Up to a quarter of students on college campuses across the nation may come from families affected by alcoholism or other chemical abuses, and few of those students realize how such a family history affects the way they cope with their new freedom — even down to what courses they take — suggests a Texas A&M University counselor.

Some counselors think a trend may be emerging among such students to go into high-pressure, high-profile professions like law, medicine, engineering or business, but no statistics exist to show how widespread this tendency is, said Dr. Mike Wilbourn of the Texas A&M Student Counseling Service.

"One of the problems most intensely felt by students we call Adult Children of Alcoholics (ACOA) is the issue of compulsivity. They become so involved in academics they often exclude other things — like socialization. Their grades never seem good enough to them. They get into difficult graduate programs or take very challenging undergraduate programs," said Wilbourn.

"They often pick those careers because they are very intellectual. They work with their brains, but may be out of touch with their emotions," he said.

University officials across the nation are recognizing the college ACOA as a significant part of the school population. They are dealing with the problem by setting up programs like Texas A&M's Drug Prevention and Education Program and encouraging the growth of support groups like ACOA.

Mulettes.

It was a 5-0 game after the first quarter and 13-10 at the half. The Mulettes held the Dimmitt Bobbies to five in the third and two points in the fourth to take the victory.

Shanna Hardwick with five field goals and two free throws was named Player of the Game. She also played a very good defensive game.

Keisha Kemp and Paula Ruthardt each had four points and Veronica Gonzales had two points while Stacie Harris had one point.

Their coach said the girls played a good game both offensively and defensively.

The eighth grade Mulettes had a 22-44 loss to Springlake-Earth in the tournament.

Although the coach said they played a great first half, and the score was tied 20-all at halftime, the girls came back slow in the third quarter and couldn't catch up.

Shanna Harwick had nine points; Keisha Kemp, four; and it was two points each for Latricia Gutierrez, Rebecca Green, Veronica Gonzales, and Paula Ruthardt, while Stacie Harris had one point.

Next game for the girls is at 5 p.m. tonight (Thursday) in the high school gym.

Also in the Lazbuddie tournament, the Muleshoe eighth grade 'B' boys lost two games. They lost 16-63 to Dimmitt and 17-34 to Springlake-Earth.

Their coach released no further information on the games.

Lazbuddie

Notes

BY: LHS NEWSPAPER STAFF

On the 12th and 13th of January, the Lazbuddie High School will be having semester exams. The exams for odd classes will be the 12th, and for even classes on the 13th.

January 13 is the deadline to mail registration forms for the ACT in February.

On January 28, the SAT tests will be given. The seventh graders who qualified to take the test will attend.

Wednesday, January 4, the Lazbuddie Senior Class of '89 met in the library to listen to a panel of alumni who were in the graduating class of 1988. This panel consisted of Scotty Mitchell, Tim Lust, and Amy Daniel who each attended Angelo State their first semester in college. The panel told the seniors about their college courses, living conditions, and how they spend their free time. The seniors asked

questions and got a better outlook on attending college.

On Tuesday, December 20, the Lazbuddie basketball teams traveled to Spade to challenge them in nondistrict basketball. The Ladyhorns came out ready to play and defeated Spade 78-28. The Longhorns played a tough game but they let Spade sneak away with a 64-67 win.

High Scorer for the Ladyhorns were Jonessa Jennings with 18. Other scorers for the Ladyhorns were Mia Jennings with 16, Amy McGehee with 15, Susan Redwine with 10, Ginger Jesko with 8, Britt Engelking with 5, Diana Cozby with 4, and Holley Morris with 2.

High scorer for the Longhorns was Scott Miller with 17. Other scorers were Kevin McGehee with 14, Wes Jarman with 12, Michael Williams with 9, Eddie Zamora with 5, and Donnie Holt and Chad Waddell with 3.

After a short Christmas break, the Longhorns and Ladyhorns came home with some bad news for Spade. Spade came to Lazbuddie, December 27, hoping to win, but they were trampled by the Ladyhorns 101-24, and by the Longhorns 70-47.

High Scorer for the Ladyhorns was Mia Jennings with 19. Other scorers were Jonessa Jennings and Stacie Hodges with 14, Ginger Jesko with 12, Amy McGehee with 10, Britt Engelking with 9, Holley Morris with 8, Susan Redwine and Diana Cozby with 6, Jana Vise with 2, and Jerri Cozby with 1.

High scorer for the Longhorns was Wes Jarman with 17. Other scorers were Kevin McGehee with 15, Scott Miller with 12, Brian Glover with 10, Michael Williams with 7, Donnie Holt with 3, and Eddie Zamora, Chad Waddell, and Gerardo Mata with 2 each.

Nursing Home

News

By: Joy Stancell

We are looking forward to a new year and look back to the good memories from last year.

Our many thanks to Howard Watson and the Boy Scouts for visiting and bringing gifts from the Salvation Army. We really appreciate the visit as well as the nice gifts.

Congratulations to Ernest and Ruby Lee Kerr who celebrated their wedding anniversary last week.

Roy Taylor, Pearl Cox, and Fluff Baldwin were among those going out during the New Year's Holiday. Ernest Kerr also went out.

The year started with a visit from the members of the Calvary Baptist Church Sunday afternoon. We think this was a wonderful way to start the new year.

The Joy Choir from the First Baptist Church came Friday afternoon and hosted our new year's party which we celebrated by singing, fellowship and refreshments of finger sandwiches and punch. Special guests were Mae Witherling, Winnie Berry and Wyona.

Sunday morning the Muleshoe Church of Christ brought Communion and held a service for the residents.

Mrs. Sanders came to have Bible Study with the residents.

Saturday J.C. Shanks came to cut the men's hair and give shaves. We thank him for the fine service that he gives.

Tuesday Laverne James, Olive Cox, Jackie Johnson, Lula Maye Shanks, Florene Upchurch, and Beth Watson, came to shampoo and set the ladies hair. Thank you ladies.

Our thanks to Barbara Blackman who runs the juice cart and visits with the residents on Wednesday.

Clifton Finley goes shopping for us on Wednesday and picks up the film from the library on Thursday. We appreciate this service.

Clara Lou Jones came Monday to play the piano, read and visit with the resident. She helped take down the Christmas decorations Tuesday morning.

Agriculture And New Research Focus Of Meet

Challenging issues affecting agricultural research in the next decade will be the focus of the 1989 Texas Agricultural Experiment Station conference in College Station Jan. 9-12.

Some scientific giants will be featured speakers in conference being developed around the theme, "Agricultural Research in the 1990s: Challenging Issues."

Scientists with Experiment Station research units around the state and those based at Texas A&M University will take part in the professional conference at the Rudder Center.

The opening general session on Jan. 10 will include comments by Dr. Neville P. Clarke, Experiment Station director. Dr. Charles J. Arntzen, deputy chancellor and dean of agriculture at Texas A&M, will introduce awards in excellence program winners.

Among speakers for the Jan. 11 theme session will be Dr. John Marvel, vice president of research, Ethyl Corp. and chairman for USDA Users Advisory Board; Dr. Bill Baumgardt, director of the Indiana Agricultural Experiment Station, Purdue; and Arntzen, vice president for research at Dupont before coming to Texas A&M.

Dr. David Forrest, researcher in animal science, is general conference chairman.

We are so pleased that Vera Gunstream and Mamie Askew are back with us after being hospitalized. Welcome back!

We have two new residents. They are Selma McKay of Bovina, and Maria Contreras of Muleshoe. Please join with us in welcoming them to our nursing home "family."

Our many thanks to Dorothy Green for the gift of the leather Bailey County History Book.

Martha Caskey Services Held At Springlake

Funeral services for Martha Caskey, 56, of Hampton, Virginia will be held at 2 p.m. Saturday in the First Baptist Church of Springlake, TX with the Rev. Steve Branson, pastor, officiating.

Burial will be in Earth Memorial Park under the direction of Ellis Funeral Home of Earth. Mrs. Caskey died at 5:30 a.m. Jan. 6 in Hampton.

Born Nov. 24, 1932, in Henderson County, TX, she had been a resident of Hampton two years moving from Springlake. She was a housewife and a member of the Springlake First Baptist Church. She married Ervin Caskey in Clovis, N.M.

Survivors include her husband, Ervin; a daughter, Mrs. Nadine Chrostier of Hampton, Virginia; her parents, Mr. and Mrs. R.G. Parker of Earth; four sisters, Mrs. Kay Campa of Earth, Mrs. Peggy Conner of Springlake, Mrs. Annette Mick of Canyon, and Mrs. Kathleen Sullivan of McKinney; two brothers, A.W. Parker of Earth and Curtis Parker of Lazbuddie; and one grandchild.

Farmers Get Shocked In Seeking Extension

Farmers may be in for a shock if they are expecting an extension on the 45-day deadline for submitting their loan restructuring applications to the Farmers Home Administration (FmHA).

Bill Stewart, the Lubbock county district supervisor of FmHA, told area attorneys and accountants Tuesday (Dec. 20) that the 45-day deadline was specified in the Agricultural Credit Act of 1987 and that he does not expect an extension of time to be granted by Congress.

The Agricultural Credit Act of 1987 is legislation that requires the FmHA, the Federal Land Bank Associations and the Production Credit Association to restructure distressed loans if restructuring is a less costly alternative than foreclosure.

FmHA has sent notices to borrowers who are more than 180 days late on their payments. These notices inform the borrowers that they have 45 days to decide whether they wish to try to restructure their debt and to prepare all necessary paperwork or to prepare for foreclosure.

"The 45-day period begins on the day the borrower signs the certified mail receipt attached to his package," said Stewart. "That date is entered into a computer program and it can't be changed."

Stewart said Congress designed the loan restructuring program with rigid rules and procedures to hamper any kind of

manipulation by borrowers or lenders.

Stewart was one of the speakers at the FmHA Loan Restructuring Process Seminar. The workshop was presented to attorneys and accountants with clients who have received FmHA letters. Texas Tech University Division of Continuing Education and the Texas Agricultural Loan Mediation Program co-sponsored the workshop Tuesday at the Lubbock Plaza Hotel.

Director of the Texas Agricultural Loan Mediation Program Gary Condra also emphasized the importance of immediate action by borrowers after they receive their letters from FmHA.

"The 45-day deadline is about to run out on a lot of borrowers. We want to assist borrowers in preparing their applications, but we can't help if they wait until the last minute," he said.

Condra, also a professor of agricultural economics at Texas Tech, said borrowers should telephone (806) 742-1949 immediately if they want help.

In November, the Texas Agricultural Loan Mediation Program at Texas Tech was designated by the U.S. Secretary of Agriculture as the state agency to mediate between delinquent farm borrowers and their lenders.

He hath a heart as sound as a bell and his tongue is the clapper, for what his heart thinks his tongue speaks.
—Shakespeare.

Mr. & Mrs. Jessie Stancell

would like to express their deepest appreciation to all those friends and relatives who attended their 50th Wedding Anniversary Celebration. Your Presence made the special occasion one to always be remembered. Thank you all for everything.

Sincerely,

Jessie & Lois Stancell

HOMESTEAD EXEMPTIONS

CAN LOWER THE PROPERTY TAXES ON YOUR HOME

A homestead Exemption

lowers the property taxes on your home by lowering its taxable value. For example, if your home is valued at \$50,000 and you receive a \$5,000 homestead exemption, your home will be taxed as if it were worth only \$45,000.

You qualify

for a homestead exemption if you owned your home on January 1 and used it as your primary residence on January 1. It doesn't matter whether your home is a house, a condominium or a mobile home.

Exemptions are available

to all homeowners on their school taxes. Additional exemptions are available to homeowners who are disabled or age 65 or over. Other exemptions may be offered to homeowners by school districts, counties, cities, and special districts. All taxing units offer exemptions to disabled veterans.

Ag Conference

Cont. from Page 1

money, and told the farmers if they could get money from another source to operate, to please seek the money elsewhere anything they can get.

He said Bailey County was not designated as one of the counties for emergency loans.

McKay also said the application packet for FmHA money is thicker this year. He said they will need records for the last five years.

Included must be a proposed plan of operation. There is 'some' money for real estate; for sprinklers and terraces; for the social disadvantaged.

He also explained that the package sent out 45 days ago contained information for re-scheduling FmHA loans; what methods available and ways to seek the re-scheduling.

There was no dollar amount released for FmHA money available in Bailey County for this year.

Terry Brandt talked about chemicals, showing the effects of Glean and Ally chemicals on herbicide resistant weeds.

He explained the effects of the various chemicals on some of the resistant weeds, and explained that the chemical manufacturer is not liable for any chemical, such as 2-4-D used after the cutoff date, causing 'drift' problems.

Dr. Pat Morrison, entomologist centered his discussion around the Texas Right To Know Law which will not affect many farmers in Bailey County because of the criteria necessary to be included in the program on the use of chemicals.

He also spoke on the problem of spider mites in corn and the use of Azodrin. He said that particular drug will not be marketed or sold in the U. S. after July 30, 1989, and cannot be used after September 30, 1989.

Dr. Morrison said very few alternatives are available at this time, and drugs such as Comite for early use, or Cygon 400 or dimethoate are available, as well as Capture.

Capture is very expensive, \$400 to \$425.00 per gallon and must be used before corn reaches the tasseling stage, added Dr. Morrison.

He also said chemigation has provided excellent control in two test plots, combining Capture with 2-4-D.

"We are looking for a good way to control spider mites, economically," he concluded.

Entomologist Mike Blanton talked about the dubious honor for Bailey County of being the first place in the United States for the Russian Wheat Aphid to show up in March, 1986, when it was first found by an aerial applicator, who did not recognize the aphid, and sent it to the TAES for identification.

Since March 1986, the Russian Wheat Aphid has spread all across the western United States and has started a trek eastward.

The aphid also moved into

Canada in 1988.

Parasites and lady beetles have been released to kill and eat the aphids, although they have trouble getting into the tightly curled leaf after aphids have invaded them.

Cottonseed quality was the focus of the talk by Dr. James Supak. He said the secret for good yields would be timely planting and cool, wet conditions.

Dr. Supak said most producers tend to overseed by 20-100 percent, and said the standard germ test is not a good indicator for emergence of cotton plants.

Utilizing slides to emphasize his discussion, Dr. Supak said now is the time to think about seed quality. Once the seed is in the ground, it's too late.

He said optimum planting dates are when the soil temperature is 80-96 degrees, and the minimal temperature is 54 degrees.

Emergence of plants is 100 hours when the soil temperature is above 64 degrees at seed level.

Dr. Harold Kaufman, plant pathologist, spoke on wheat diseases, including leaf rust and wheat streak mosaic virus.

He said leaf rust is the most widely distributed of all wheat disease, and can be found all over the world.

It reduces kernel size and the number of kernels produced.

Its symptoms include yellow flecks, and small round to oblong raised orange-yellow pustules.

He suggests producers start providing control immediately on first noticing the disease.

Another disease he discussed, the wheat streak mosaic virus is characterized by stunting, yellow streaks, and sterile heads. It is very unusual for this disease to show up before spring, he said.

There was an epidemic of mosaic in Kansas in 1988, said Dr. Kaufman.

He also showed slides of the wheat curl mite, and said egg to adult stage is only 6-10 days. This tiny mite is dispersed by the wind.

It can also be found in corn, who has been found to be a 'host' for the wheat curl mite.

Rounding out the morning's program was Dr. Allen Knutson, who discussed corn stalk rot.

He showed several diseased stalks and explained the fungi that attacks corn stalks.

Fungi causes premature stalk decay and lodging, he said, with little to no production.

Some of the causes of the fungi include loss of leaf area through spider mites and insects and hail.

Other causes include low potassium with hinitrogen, root

Be Logical

Husband—You are always wishing for what you haven't got.

Wife—Well, goodness, there's no sense in wishing for what I have got, is there?

and stalk feeding by insects and drought.

Dr. Knutson warned of premature death of plants, harvest losses due to lodging and the disease also creates threats to corn crops the following year.

Tanksley closed out the meeting by thanking the farmers who attended, and the speakers who spent the morning explaining various crop problems, and many possible answers, as well as the Farm Program, SCS programs and farm lending.

Area Women Chosen For Rotary Exchange

Four businesswomen from West Texas will travel to Belgium this spring as part of a Group Study Exchange sponsored by Rotary International.

Rotary District 573 will sponsor the exchange program, which is funded by the Rotary Foundation. Past District Governor Ralph McLaughlin of Big Spring and his wife, Billye, will serve as team leaders for the month-long exchange trip. They will lead a group of four women selected from among 24 candidates nominated by Rotary Clubs in Amarillo, Lubbock, Big Spring, Midland and Colorado City.

Area Rotarians who served with McLaughlin on the selection team for the exchange include George Fielding of Lubbock, Pat Northcutt of Dalhart, Don Nelson of Pampa, Steve Fraser of Big Spring, Gary Moore of Amarillo, Stan Smith of Midkiff, Jeff Smith and District Gov. J. D. Cage, both of Muleshoe.

Team members are Robin Bostic of Lubbock, Denise Crenwelge of Big Spring, Beth Duke of Amarillo and Alice Haynes of Big Spring. Ann Claire Ballengee of Amarillo and Teri Quinones of Big Spring will be alternates for the trip.

The team members represent a wide range of professional fields. Bostic is an insurance claims coordinator who is employed by Texas Insurance Co. in Lubbock. Crenwelge is news director of KBST Radio in Big Spring, bureau chief for KMID-TV in Midland and a correspondent for the Lubbock Avalanche-Journal in Lubbock.

Duke is family news editor at the Amarillo Globe-News in Amarillo and is the co-author of a textbook titled, "A Woman's Place: Management," published by Prentice-Hall. Haynes is a dentist and director of dental hygiene for Howard College in Big Spring.

Ballengee is vice president for public relations at Amarillo National Bank in Amarillo. Quinones is the coordinator of a downtown renovation project for Big Spring sponsored by the city and county governments as well as the chamber of commerce.

To prepare for the trip, team

CONTRACTOR NOTICE OF TEXAS HIGHWAY CONSTRUCTION
Mowing of State Department of Highways and Public Transportation Rights-of-Way.

Sealed bids for mowing highway rights-of-way will be received,

publicly opened and read on January 30 and 31, 1989, at the Lubbock District Office Training Center, 601 Slaton Road, Lubbock, beginning at 9:00 a.m. Bids will be opened on January 30 for the following contracts: Terry-9:00 a.m.; Parmer-9:30 a.m.; Floyd-10:00 a.m.; Dawson-10:30 a.m.; U.S. 84 from New Mexico State Line to Lubbock-11:00 a.m.; Swisher-1:00 p.m.; U.S. 84 from Lubbock to Post-1:30 p.m.; Bailey-2:00 p.m.; Yoakum-2:30 p.m.; Lubbock S.E.-3:00 p.m.; Lamb-3:30 p.m.; Loop 289 (Lubbock)-4:00 p.m.

Bids will be opened on January 31 for the following contracts: S.H. 114-9:00 a.m.; Castro-9:30 a.m.; Hockley-10:00 a.m.; Hale-10:30 a.m.; Garza-11:00 a.m.; Lubbock N.E.-1:00 p.m.; Crosby-1:30 p.m.; Gaines-2:00 p.m.; U.S. 62-2:30 p.m.; Lynn-3:00 p.m.; Cochran - 3:30 p.m.; and U.S. 87-4:00 p.m.

There will be a pre bid meeting on January 24, 1989 at 10:00 a.m., at Lubbock District Headquarters.

601 Slaton Rd., for all prospective bidders.

The State Department of Highways and Public Transportation, in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 C.F.R., Part 8), issued pursuant to that Act, hereby notifies all bidders that it will affirmatively ensure that the contract entered into pursuant to this advertisement will be awarded to the lowest responsible bidder without discrimination on the grounds of race, color, or national origin; and further that it will affirmatively ensure that in any contract entered into pursuant to this advertisement, minority business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award. Plans and specifications are available at the Maintenance Office for the above mentioned counties and at Lubbock, Texas, 79408-0771. Usual right reserved.

members will attend several orientation meetings before they depart April 4 for a week-long language school in Dallas. Following their week of language study, the team will leave for Belgium.

In Belgium, Rotary District 217 will be hosts for the exchange. A group of Belgian women visited West Texas in the spring of 1988 from the same district.

Team members will stay with Belgian families as they visit the cities of Brussels, Antwerp, Ciney and Willebroek. Their itinerary will include presentations to Belgian Rotary Clubs as well as field trips related to different career interests.

The Rotary Foundation pays for the exchange program as part of its mission to promote international understanding and goodwill.

ADVERTISEMENT FOR BIDS
MULESHOE MUNICIPAL AIRPORT CONSTRUCTION OF T-HANGER CITY OF MULESHOE, TEXAS

The City Council of the City of Muleshoe, Texas, will receive sealed proposals for the construction of T-Hangers at the Muleshoe Municipal Airport until January 24 1989, at the Council Chambers in the City Hall Building, Muleshoe, Texas, at which time bids will be publicly opened, read aloud and tabulated. Proposals should be addressed to the City Manager, City Hall Building, Muleshoe, Texas. The bids received will be considered by the City Council at its Next regular meeting or at a special meeting as may be required. No bid will be received or considered if received by the City Manager after the hour of 1:30 p.m.

Copies of plans and specifications together with contract documents are available for public inspection at the office of the City Manager, City Hall Building, Muleshoe, Texas and at the office of Leedshill-herkenhoff, Consulting Engineer's, 500 Copper Avenue N.W., P.O. Box 1217, Albuquerque, New Mexico 87103, and may be obtained from the Engineer upon a deposit of Fifty Dollars (\$50.00) which will be refunded to each contractor submitting a bid upon return of the plans within ten (10) days after bid opening. Each bidder shall be prepared to furnish the owner with satisfactory evidence of this competency to perform the work contemplated if requested.

Each bidder will be required to submit with his bid, a certified check, cashier's check or bid bond in the amount of 5 1/2% of his bid, made payable to the City of Muleshoe, Texas.

The City Council agrees to carefully canvass and consider each bid submitted. In consideration thereof, no bids may be withdrawn after scheduled closing time for receipt of bids for at least thirty (30) days.

The City Council reserves the right to reject any or all bids, to waive technicalities and to accept the proposal it deems to be in the best interest of the City to accept.

The work to be performed on this project consists of the supply and erection of a pre-engineered metal building (T-Hanger) including foundation, compaction of dirt floors, all primary and secondary structural framing members, connection bolts, wall and roof covering, exterior wall opening frames, doors and windows, flashings, fasteners, closures, sealants, and other miscellaneous items as required for a complete and weathertight enclosure. Also included are interior partitions as shown on plans and described in the specifications. Mechanical and Electrical systems, and site improvements shall be done by others, and the Contractor shall coordinate with them.
