HELPING TO BUILD A GREATER ARTESIA

VOLUME FORTY-FIVE

ARTESIA, NEW MEXICO, THURSDAY, JULY 29, 1948

NUMBER 31

Help Underwrite V-J Day Celebration

New Peoples Bank Is To Open Next Monday

The newly-organized Peoples Bank of Artesia will open business Monday in temporary quarters at 205 South Fourth street, it has been announced by L. Sanderson, president.

An announcement that the bank was being organized was made in March, and its charter was issued more than two weeks ago.

As it will be some months before the bank building is erected, business will be carried on for the present in the temporary quarters.

It is planned to erect the banking building at the corner of Fourth and Avenue, facing Quay. Architects plans for the building have been received and contractors have been invited to submit bids for construction of the building on the site on which the Calvin Dunn residence formerly stood. It has been moved to a new location.

The bank will start business with a capital stock of \$100,000 and a reserve of the same amount. It is a member of the Federal Deposit Insurance Corporation and the Federal Reserve Banking System.

Besides President Sanderson, the

directors are W. W. Batie, J. W. Berry, Harold M. Kersey, H. M. Moutray, Frank Runyan, and William M. Siegenthaler, who is likewise the bank's attorney.

The new bank's president came here from Burbank, Okla., where he was in the banking business 19 years and was president of the Farmers State Bank several years. He has been in the banking business there and elsewhere about 30 years.

President Sanderson is married and has two grown daughters, one of whom lives in Burbank and the other of whom, a doctor, is living in St. Louis with her husband while he completes his medical education, which was interrupted by service in the Army during World War II. He plans to be an eye specialist.

John Ellicott, formerly connected with the Artesia Building & Loan Company, and Mrs. Floy Culbertson will be employed in the bank. Mrs. Sanderson, who is in California at present, will assist temporarily in the bank, her husband said.

Only 1.8 Per Cent Of Fish In Cleaned-Out Lake Are Game

An estimated 10,264 pounds of fish, of which only 1.8 per cent were game fish, were killed Friday in an eradication program at Lake six miles north of Artesia, under the auspices of the State Department of Game and Fish, with the North Eddy County chapter of the Game Protective Association assisting and co-operating.

Thousands of pounds of the rough fish were carried away by hundreds of onlookers, as workers gilled or seined them from boats and brought them ashore, and about a thousand pounds was hauled in a city pickup to the residents of La Loma and Negro sections.

All game fish recovered—bass, bluegill, crappie, and catfish, totaling 102 pounds—were given to Artesia Memorial Hospital.

Joe Hendricks, biologist of the department of Game and Fish, was in charge of the work. He was assisted by Deputy Game Wardens W. Simons of Artesia and Marlon Embrey of Roswell. The local IFA chapter furnished the boats, which there were nine on the lake at one time or another, and number of men to assist.

The lake was treated shortly after 5 o'clock with cube root, a chemical which in no way affected

the fish in taste or for human consumption. The treatment was completed shortly after 7 o'clock, when men in boats began to pick up the fish which were showing distress. All fish that had not been salvaged by 10:30 o'clock had sunk to the bottom, but people continued to remove the fish from the lake bottom throughout the day.

Hendricks said estimated weights of fish checked out at the gate during the day were: Buffalo, 2563 pounds; carp and suckers, 5966 pounds; bass, bluegill, and crappie, 64 pounds; catfish, 38 pounds.

A check-up Saturday morning of fish that had not been recovered but which were starting to decompose and had risen to the surface, revealed an additional 1993 pounds, for a total of 10,264 pounds in eradication of the lake of fish.

In the Saturday check-up it was interesting to note a two-pound gar and a three-pound gizzard shad, which Hendricks said got into the lake in the same method as the original carp, suckers and buffalo, by way of the minnow bucket.

Besides the gar and gizzard shad, the Saturday count included: Carp, 1784 pounds; buffalo, 108 pounds; catfish, 10 pounds; bass, 33 pounds.

Salvation Army Campaign Nearing Total Of \$2000

Adjutant I. James Wycoff, service extension director for the Salvation Army in this area, who has been conducting the annual campaign for funds in Artesia and the last week, said Wednesday total collections were nearing \$2000, which figure he hopes to pass before the campaign is over.

He left last night for Gallup, but he returns here Monday to finish the drive next week.

In the meantime, he said, anyone whom he may have been unable to contact, wishing to contribute, should mail checks to L. B. Feather, route to the Salvation Army, El Paso, N. M., at the First National Bank.

Adjutant Wycoff congratulated the local committee on the work accomplished in the community in the past with Salvation Army as part of the annual campaign. Another goal goes to the home and hospital for the unwed mothers, which serves this area.

He said the local committee is raising funds in aiding the needy. Its members are E. Bullock, Martin Yates, Jr., and others, all of whom have served in the army.

Adjutant Wycoff likewise expressed the thanks of the Salvation Army to the people of the Artesia communities for their generous response, and his personal thanks to the committee.

Two Men Fined Total Of \$500 For Killing Deer

Fines totaling \$500 were assessed against two Spanish-American men Monday morning by Justice of the Peace J. D. Josey on their pleas of guilty to charges of illegal killing and possession of deer, and a third man was fined \$25 later on a charge of aiding in the illegal killing of deer.

Tom G. Rubio, 48, was fined \$300 on a second offense, on his plea of guilty to killing one deer in the Guadalupe Mountains, and Dave Y. Torres, 24, who entered a plea of guilty to killing two deer, was fined \$200. Pilar Orduñez, who aided them by furnishing horses for the hunt, was fined \$25. Court costs for each was \$3.50.

Rubio and Torres were arrested about 9:30 o'clock Sunday night four miles south of Hope by Deputy Game Warden L. W. Simmons and State Patrolman Bill Lewis, who were checking cars in the Hope area for both game and automotive violations.

The two men were in a pickup, in which were three dressed deer, an adult buck, a yearling buck, and continued on Society Page

State Cop Lewis Warns About Brake Stickers

State Patrolman Bill Lewis issued a number of warnings Tuesday to motorists who are operating their vehicles without the newest brake and light inspection stickers, which were due May 1, nearly three months ago.

He said he will again check soon and will cite to court those who have not complied with the inspection law.

The patrolman said inspection stickers issued at this time will be good only until the Sept. 1 inspection date, when another inspection must be made, but that the correct stickers must be procured nevertheless.

Two Youths Are Injured As Car Strikes Bicycle

Two Spanish-American youths were injured, one seriously, about 8:30 o'clock Saturday morning just north of the city limits on Highway 285, when they and the bicycle on which they were riding was unavoidably struck by an automobile driven by B. F. Morris of Fort Davis, Texas.

The left leg of Alverto Tesillo, 11, who was peddling the bicycle, was badly crushed and he sustained other injuries, while Vesenti Anaya, 11, his "passenger," sustained minor injuries.

Witnesses said the Morris automobile, which was traveling south at a moderate rate of speed, overtook the boys on the bicycle. Suddenly the bicycle swerved towards the center of the highway and the right fender of the car struck the boys.

Tire skid marks indicated Morris pulled to the left in trying to miss the boys, whom he struck nearly in the center of the highway.

The driver of a vehicle coming from the opposite direction was far enough away and took in the situation in time to give Morris room as he darted his car across to the left shoulder.

The boys were taken in the Paulin ambulance to Artesia Memorial Hospital, where the Tesillo boy is a patient. It was thought at first it would be necessary to amputate his badly-injured leg, but it is probable it will be saved.

Morris was absolved of blame. With him was Lee Evans, also of Fort Davis.

REA Is Champ; Williams Pitches No-Hit, No-Run

The REA softball team defeated the VFW team 13-8 Saturday night in the second of a three-game playoff for first-half season championship honors, after having won the first in the series Monday of last week, thus ending the series and taking the championship.

Another highlight of softball the last week was a no-hit, no-run game pitched Tuesday night by Jim Williams, as VFW blanked Lake Arthur 13-0.

It was definitely the first no-hit, no-run game here this season, and is believed by fans to be the first ever in Artesia.

In league play last Thursday night, Lake Arthur defeated Artesia Shoe 14-9, and NuMex defeated the Westerners 6-4.

REA took the first game Friday evening, defeating Artesia Shoe 14-4. The second game went to NuMex over Lake Arthur 14-4.

The Westerners romped on Artesia Shoe 27-11 in the opener Tuesday night, while VFW took the no-hit, no-run game over Lake Arthur 13-0.

The Father Bear's Den team from Roswell badly defeated the REA champs here Saturday evening 11-3.

Prior to the championship game Monday evening, the Carper-Booker girls' team played the Carlsbad Pepsi-Cola team, which won 5-3.

REA was scheduled to play the Hagerman All-Stars there last evening.

League standings to date:

Team	Played	Lost	Won
NuMex	3	0	6
VFW	3	0	3
Lake Arthur	4	2	2
REA	2	1	1
Westerners	3	2	1
Artesia Shoe	5	5	0

Military Rites Held Wednesday For Pvt. Glenn Felix Mauldin

Funeral services for Pvt. Glenn Felix Mauldin, son of Mr. and Mrs. F. S. Mauldin of Lakewood, who died in France July 31, 1944, were conducted at 3:30 o'clock Wednesday afternoon from the First Baptist Church of Artesia by Rev. Howard Baldwin of Lubbock, Texas, and Rev. E. D. Morgan of Carlsbad.

Burial was in Woodbine Cemetery, with full military rites at the grave by members of the American Legion, Veterans of Foreign Wars, and Disabled American Veterans.

The body of Private Mauldin, which had been lying in France since his death arrived in Artesia by rail Wednesday morning and lay in state at Paulin Funeral Home until time for the services.

Private Mauldin was working on the Moutray farm south of Lakewood at the time of his induction Nov. 14, 1943. He shipped out for the European theater June 15, 1944, and was wounded on July 28, 1944. He died three days later at (continued last page this section)

S. E. Chipman Dies Suddenly On Tuesday

S. E. (Chip) Chipman, 63, of Loco Hills, switcher for the Grayburg Oil Company, died suddenly at his home at 10:45 o'clock Tuesday morning.

Funeral services will be from Paulin Chapel at 10 o'clock Friday morning, and burial will be in Woodbine Cemetery.

Shirley Edward Chipman, a son of Mr. and Mrs. Anson M. Chipman, was born at Meadville, Pa., Aug. 16, 1884.

He came here about nine years ago from Odessa, Texas, and in 1940 at Cisco, Texas, he married Mildred Potter, who survives him.

Mr. Chipman is survived also by a son and a daughter by a former marriage, Anson M. Chipman of Redlands, Calif., and Mrs. Shirley Ann Sullivan of Fort Stockton, Texas.

Four Barrels Oil Daily From Five Wells Is Report

In the poorest week in many months from a new production standpoint, Eddy County oil operators reported that of five wells completed only one was a producer, and it was a stripper of only four barrels a day. Seven new locations were staked, while a previously announced new location was abandoned.

The completions:

- Malco-Resler-Yates, State 92, NE NW 27-18-28; total depth 2902; pumped four barrels of oil per day, natural.
- G. B. Suppes, Johnson 14-B, SW SE 33-16-31; total depth 3798 feet; plugged and abandoned.
- Resler-Malco, Edith Riggs 1, SE SW 8-21-24; total depth 1456 feet; plugged and abandoned.
- Resler-Malco, Nickelson-State 1, SW NW 17-21-24; total depth 41 feet; plugged and abandoned.
- William Hudson, Hill 1, SW NW 1-18-27; total depth 1763 feet; plugged and abandoned.

New locations: Brewer Drilling Co., Hightower 1, SE SE 15-17-27; Southern Union Gas Co., Keys 8-A, NE NW 10-17-28; Barnsdall Oil Co., Dodd 7, SE SE 22-17-29; Neil H. Hills, Crosby 1, SE NW 1-20-28; Magnolia Petroleum Co., Burro Hills 2, NW NW 23-21-22; Street Investment Co., Bradley 1, SE SE 10-24-26.

The abandoned location was the W. M. Gray, State 1-X, SE SE 24-17-27.

Leonard Oil Co., State 2, SW SW (continued last page this section)

Gilmore Named Area Commander By State Legion

Harry B. Gilmore, past commander of the American Legion post here, was elected commander of area "C," which embraces South east New Mexico, at the annual New Mexico department convention of the veterans' organization in Hot Springs last Thursday through Saturday.

Don Bush, present commander of the local post, reported it was announced at the convention that the New Mexico department, having won many firsts throughout the national organization the last year, will lead in the national convention parade in Miami, Fla., in October.

Fred Lynn of Albuquerque was elected department commander for the coming year, and Las Vegas was awarded the 1949 convention. Delegates from Artesia attempted groundwork towards bidding next year for the 1950 convention.

Besides Gilmore and Bush, delegates from Artesia were W. C. Cunningham, J. L. Briscoe, A. R. Company, and A. R. Haralson. Gilmore, Bush, Cunningham, Briscoe, and Company were accompanied by their wives, who attended the American Legion Auxiliary convention, (continued last page this section)

Elks Urge That Members Have Blood Typed

The importance of having one's blood typed was brought out Wednesday night of last week at the regular meeting of the Artesia Elks Lodge, after Chester Miller, laboratory technician, had offered to type blood without charge.

Several members, who have had occasion to give or receive blood, or have knowledge of specific cases, stressed the need for a greater blood donor file.

W. T. Haldeman, exalted ruler of the lodge, appointed Stanley Jones, John Lanning, and Jimmie Welch as a committee to see that members of the lodge have their blood typed.

Five members of the lodge were elected delegates to the New Mexico state convention of Elks at Las Vegas Sept. 9-12. They were Exalted Ruler Haldeman, Tom Bryan, esteemed leading knight; Oren C. Roberts, esteemed loyal knight; Chester Miller, esquire, and John Lanning.

Peppers Baby Dies Last Thursday After Illness Of Few Hours

William Scott Peppers, 28-month old son of Mr. and Mrs. W. H. Peppers of Loco Hills, died at Artesia Memorial Hospital at 11 o'clock last Thursday night after an illness of only a few hours.

Funeral services were from Paulin Chapel at 2:30 o'clock Tuesday afternoon by Bill Decker, evangelist of the Church of Christ. Burial was in Woodbine Cemetery.

The baby was born at Scappoose, Ore., March 14, 1946, and came to Artesia with his parents about two years ago. Besides his parents, he is survived by two brothers, Walter and Richard Peppers.

Dog Poisoner Is Loose In Artesia Again

The pet dog belonging to Mr. and Mrs. Harry B. Gilmore of Osborn Avenue died Wednesday morning from strychnine poisoning, and the dog of a neighbor, which they were caring for, became violently ill, demonstrating that a dog poisoner is on the loose again.

Dr. N. M. Borthwick, veterinarian, said afterwards dog owners should know what to do—and do it fast—when their dogs are poisoned.

He said do not give the dog grease, which merely holds the poison and does more harm than good. On the contrary, he said give the dog a dose of mustard in a glass of water, or a quantity of concentrated salt water, to make it vomit.

That was the treatment given the neighbor dog, which was soon as well as ever.

New Ordinance Is To Regulate Sidewalk Laying

A new city ordinance regulating the laying of sidewalks in Artesia will become effective Tuesday, five days after publication of an official notice in this issue of The Advocate.

It has a provision for a fine of not less than \$10 or more than \$50 for violation of any portion of the ordinance, with each day a separate offense.

The ordinance provides that residence sidewalks shall be a minimum of five feet wide and four inches thick, with a maximum slope of an eighth of an inch to the foot towards the curb and to be constructed two feet from the property line, unless otherwise approved by the city engineer.

In the business district sidewalks are to extend from the property line to the curb, with the same slope, except the four feet back from the curb, which will be the natural slope from the other portion of the walk to the curb.

One section of the ordinance provides specific specifications for concrete to be used in the construction of all sidewalks in the city.

The ordinance recites that plans for sidewalks in new subdivisions are to be submitted to the city engineer for approval, and that sidewalks in which sections need to be replaced are to conform to the sidewalks already in place.

All sidewalks are to conform to the lines and grades as established by the city engineer, except in the case of new subdivisions, for which plans must be submitted.

Collection Rates On Garbage Will Be Raised Aug. 1

Effective with the Aug. 1 billings, a new city ordinance amending the garbage collection ordinance of June 16, 1944, will go into effect, establishing a new and slightly higher scale of charges for the service.

For a family unit on a residence lot not exceeding 7000 square feet, the charge will be a minimum of \$1 a month, whereas on a similar lot of more than 7000 square feet and less than 14,000 square feet the charge will be a minimum of \$1.50. If the lot is larger than 14,000 square feet the charge will be a minimum of \$2.

For each additional family unit on a lot the charge will be \$1, according to the official publication of the ordinance, which is published in this issue of The Advocate.

The collection charge for business property will be a minimum of \$3 and a maximum of \$10, as determined by the city supervisor for the City Council, based on a schedule of fees or prices as to volume of trash, garbage, refuse, and rubbish collected.

The charge established for tourist courts is a minimum of \$2 a month plus 50 cents for each family unit and 25 cents for each overnight or trailer unit, not to exceed \$8 a month.

Girls And Women Are Invited To Join Unit Of Civil Air Patrol

An invitation was issued this week by Lt. Hugh Barron, commanding officer of the Artesia Civil Air Patrol unit, to girls and women to become active members of the CAP.

At present there are about 15 cadets active in the unit, in addition to the adults, Lieutenant Barron said, and it is hoped the ranks will be swelled not only by more men and boys, but by women and girls. It is not necessary to be a pilot to belong.

The unit meets at 8 o'clock each Wednesday evening.

Paving Solution May Be By Sign-Up Of Owners

A probable solution to the proposed paving program in Artesia was reached last Thursday night, when the City Council authorized the Edgar Martin Construction Company of Alpine, Texas, to sign up individual property owners and pave the streets in question block block as sign-ups are obtained.

Martin, who attended the meeting, explained that he has followed the same procedure in the past—recently in Carlsbad—and that it has proved quite satisfactory.

He said that if all property owners in a block do not wish to sign a paving agreement, that block is by-passed until such time as all are agreeable.

It was pointed out the cost of the construction would be considerably lower than that under the previous plan, whereby the city would contract with the work on all blocks proposed in a survey.

Martin said the cost would be \$4.40 a running foot, less 10 per cent for cash, for the complete job, consisting of curb, gutter, and blacktop, meeting with the city's proposed specifications.

The cost for a 50-foot front would

be \$220 if deferred a year, or \$193 for cash, which is much less than the cost under the former proposition.

Martin proposed to install similar paving to that recently installed at Carlsbad, except that the gutter in Artesia would be 18 inches wide as compared with 24 inches on the Carlsbad job.

The contractor explained there would be no responsibility to the city, that the contract for the paving, would be made between his company and the property owners.

He did ask, however, that the city, or designated citizens in each neighborhood or block, assist in the solicitation of the paving with the property owners.

The city also is to furnish the engineering plan and to inspect for approval of the work.

Martin plans to start his campaign of solicitation in the near future.

The City Council had received many protests from citizens of the former plan and was reluctant to go ahead with the advertised proposal. Citizens had pointed out the (continued last page this section)

F. Mullenax, Young Trucker, Suffocates Under Cottonseed

Frank Mullenax, 19, young Artesia trucking contractor, suffocated Wednesday evening under cottonseed at the gin at Loving while loading his truck.

No one witnessed the accident, and his body, buried under the seed, was discovered by other truckers when he was missed and they started looking for him.

Investigating officers said last night they believed the chute through which the cottonseed is delivered to trucks became jammed and that Mr. Mullenax, working alone, had picked up a stick or similar instrument to gouge it out.

They said it is probable that when the seed became dislodged it poured down on him and buried him before he could get away.

It is not known how long he had been dead when found about 8 o'clock but it is believed Mr. Mullenax had been under the pile several hours before other truckers, seeing his truck but not seeing him, investigated and dug into the pile.

Funeral arrangements are pending this morning with Paulin Funeral Home in charge. It was learned, however, services will be from the First Baptist Church.

Frank James Mullenax, son of Mr. and Mrs. Frank J. Mullenax, was born Aug. 16, 1928, at Tatum. He attended grammar school at Lake Arthur and high school in Artesia, where he was an outstanding football player and athlete. He was a member of the "A" Club.

Surviving Mr. Mullenax are his parents, Mr. and Mrs. Frank J. Mullenax, Artesia; a sister, Mrs. Berntha Logsdon, Artesia; his grandmother, Mrs. Della Braggs, Morton, Texas, and a step-grandfather, Jeff Hart, Artesia.

New Richards Electric Opening Next Thursday

The Richards Electric Shop will have its formal opening in the new building being built by Albert Richards, owner, at 514 West Main Street next Thursday, which day will mark the silver anniversary of the opening of the original business in Artesia.

Construction work is being rushed this week, so as to permit moving in and arranging merchandise for the opening a week hence.

The 25x80-foot building is as nearly fireproof as is possible, the only inflammable material being wooden strips in the ceiling construction for nailing. The roof is all metal.

Richards said a number of demonstrators are expected here for the opening, especially demonstrators representing Hotpoint, the complete line of which the business will carry.

He said it is planned to have a complete electric kitchen by way of demonstration.

The Richards Electric Shop, which was founded a quarter century ago, on Aug. 5, 1923, is the oldest electric business in Artesia.

Winslow Indian Band Is Booked For Celebration

The famous Winslow Indian Band from Winslow, Ariz., has been procured for the second annual V-J Day celebration here sponsored by the United Veterans Club, and will be a feature of the activities Saturday, Aug. 14, in connection with the three-day rodeo Aug. 13-15.

The 30-piece band is composed entirely of Indians, representing eight tribes. It took first place at Phoenix, Ariz., April 9 on 30 bands at the world championship rodeo, and has received glowing press notices wherever it has appeared.

Members of the United Veterans Club committee on arrangements said tentative plans are for the Indian band to appear first in the big celebration parade Saturday morning, Aug. 14, and to present a concert and show with Indian dancers on Morris Field in the evening prior to the evening rodeo performance.

This is the 25th season for the band, all members of which are employes of the Santa Fe Railway. The railway will pay the expenses of the band in transporting it to and from Artesia, while several local businesses are underwriting the salaries of the members for the time away from their work, which is costing \$400.

The big three-day attraction, the rodeo, will be staged by Howard (continued on last page)

Riverside Tire-Battery Station On North First Will Open Saturday

Announcement was made this week that the Riverside Tire & Battery Station in the 500 block on North First Street will have a formal opening Saturday.

F. E. (Frank) Franklin, the station manager, came to Artesia from Roswell, where he was with Montgomery Ward five years. He has 15 years experience in the tire business, of which 10 was with Good-year prior to the war. He served four years in the Air Corps.

The Riverside Tire & Battery Station will be local distributor for Montgomery Ward tires and batteries and will handle NuMex products.

Pioneer Air Lines Representatives Are Guests Of Lions Club

Members of the Artesia Lions Club were given interesting information regarding Pioneer Air Lines, which it is hoped will operate out of Artesia in the near future, when two representatives conducted an informal round-table discussion at the weekly meeting of the club Wednesday noon.

The Lions asked many questions of James L. Tuttle of El Paso, district traffic and sales manager, and Joe Fowler, city manager for the company at Roswell.

The Pioneer representatives were in the city gathering data for hearings in regard to the company making Artesia a stop on the line between Amarillo and El Paso.

Guests of the club were Morris Pruett of Roswell and Bill Emery, Joe Starr, and Bill Hunter of Artesia.

May Take Long Time

IT MAY TAKE A LONG TIME to accomplish that particular project, which needs to be carried out in a community, but if the undertaking receives sufficient attention eventually it is accomplished.

It is a pretty well known fact that as individuals we can launch a campaign for a project with great enthusiasm. We discuss it pro and con; we form committees on the job, they make necessary arrangements.

Every effort apparently is made to get done the thing, which needs to be done. Yet for some reason or other it is not accomplished. And when these efforts fail the enthusiasm dies down; little more is done and sooner or later the project is dead or at least the movement launched to carry out the project is dead.

Public office holders know this. Governing officials know that when such movements are started with great enthusiasm that as a rule they will be completed. All they do is sit back while the committee is made and just wait for the enthusiasm to run out the project.

Some of these movements and projects, which are started with such effort, can be and usually are secured if the effort is continued for a long enough period.

For instance for years there was comment about the "S" dip at the west edge of Artesia on the Hope highway. But the matter was mentioned and after. Every opportunity something was said about that dip. It may have been dropped and forgotten while it was never forgotten and it was never permitted to die.

Because these efforts were continued year after year through the columns of The Advocate the dip is now straight.

It is true about Highway No. 23. Year after year efforts were made to obtain this highway. It was never forgotten and it was mentioned on every highway. And because there were those, who kept it in mind and continued to plug for that highway it is a reality today than ever before.

Those, who have helped to make Artesia the city it is today could mention other things, which have been the result of effort over a long period of time. There are projects ever been permitted to die then they would never have been secured.

There were those, who kept faith and were willing to continue to work for the things they wanted, those things were secured.

There are about the other things, which this city has secured. If the various individuals and organizations here continue to work for the things they want, they will secure them. They will not be forgotten, and let them die and be forgotten. Keep working at it until they can and will be secured.

It is a long time sometimes to get a thing done, but if it is worth getting or doing it is worth the time it takes and the effort.

A. & M. College

STATE COLLEGE is the state's largest business — only the Highway Department secures a larger appropriation.

The college receives considerable help from the state. It requires approximately \$1,000,000 to operate the A. & M. College. The state's actual operation of the college is the actual operation of the college.

The state puts up between \$400,000 and \$500,000 for the extension department of the college.

A half million dollars for the faculty and staff. The college is the most difficult thing to run in the college.

The college has been able to raise money. It is now encountering difficulties. The faculty members are not being paid those they are entitled to. They are not being paid wages in full.

The college has been able to raise money. It is now encountering difficulties. The faculty members are not being paid those they are entitled to. They are not being paid wages in full.

The college has been able to raise money. It is now encountering difficulties. The faculty members are not being paid those they are entitled to. They are not being paid wages in full.

lem, which faces them, also faces other institutions of higher learning over the state. They also are aware that the Legislature will have pleas from all institutions this next session and that the monies available will not be much more plentiful than has been in past years.

There is no question, of course, but what the A. & M. College through its experiments has brought millions of dollars into the state because of their work and improvement in agriculture products and livestock.

But their situation emphasizes all the more the real need for a new source or additional source of revenue for the institutions of higher learning in the state. The school tax has made it possible to raise the salaries of public school teachers and give more funds to the public schools but today some plan for providing additional funds for the institutions of higher learning in the state are badly needed.

There is no question, however, if New Mexico expects to continue to operate its eight institutions of higher learning it is going to have to provide more revenues for these schools to take care of increased costs and of the increased enrollment and their growth and expansion.—O.E.P.

Better Fishing Later

THE FISH ERADICATION program at Clark's Lake Friday demonstrated conclusively to sportsmen of this area why they have not been able to catch game fish there, as well as a practical remedial process.

Although there were some game fish killed and lost, as well as hundreds of pounds of rough fish, the program will lead to good game fish at the lake within the next few years. And there would never have been good fishing there had not all fish in the lake been killed by the chemical method.

It is true that sooner or later—in perhaps 15 or 20 years—the lake will again be overrun with carp and buffalo, because released minnows of those species will in time multiply.

But in the meantime we should have good fishing again at Clark's Lake by 1950 or 1951.

We commend the Game Department and Game Protective Association for having taken the step at Clark's Lake, and we recommend that other waters in this section be given the same treatment in order that fishing again may be enjoyed by those who like to wet a hook.—A.L.B.

Be Alive Tomorrow

"ALERT TODAY, ALIVE TOMORROW" is the slogan for "National Farm Safety Week," which is being observed throughout the nation this week. And it might be a good slogan for all of us to follow the entire year.

Although it is an especially good slogan for farm people—for farming is one of the most dangerous occupations—it is a good slogan for homemakers as well, for the kitchen is a more dangerous place than many people realize.

Last year 1,700,000 farm people in the United States were injured in accidents and more than \$90,000,000 worth of farm property was destroyed by fires. Accidents in farm homes killed 6000 farm people, while 4300 more were killed in accidents while at work and about 7000 were killed in motor vehicle accidents. Other types of accidents accounted for an additional thousand.

Some of these accidents were unavoidable, but many others were because of carelessness, sometimes on the part of someone other than the victim. But there are very few accidents which could not be avoided by a little caution and a little more alertness on the part of someone.

Don't join the ranks of those thousands injured or killed before "National Farm Safety Week" comes around again. Remember the slogan, "Alert Today, Alive Tomorrow."—A.L.B.

Real Loss To State

ARMY OFFICIALS have indicated that if present plans for renewing leases on the White Sands Proving Ground reservations are not renewed and this area cannot be enlarged that not only will rocket experiments be halted in the nation but that appropriations of approximately \$8,000,000 for installations at the Army and Navy base will not be spent in New Mexico.

The Army is requesting the withdrawal of approximately 1,000,000 acres of land lying north of the present reservation for approximately 33 miles. A part of this is in the present White Sands National Monument and other parts of it are in the lava beds between Carriozo and San Antonio.

Fort Bliss air activities, White Sands Proving Grounds, and the Almgordo Air Base now use approximately 1,000,000 acres of land lying between the Organ Mountains and the Sacramento Mountains as a compact area.

It is necessary and essential that all rockets fired be recovered in order to secure the scientific instruments, which are placed in these rockets. The New Mexico site is described as ideal from the standpoint of atmosphere and weather and because of the ability to recover the rockets.

The project being proposed and on which a hearing is to be held in Las Cruces in the Federal Court room of the federal building Aug. 1 not only calls for the withdrawal of the additional land from public use but also for the renewal of leases on practically all of the land now used by the government project. Present leases expire six months after all war emergency powers are gone.

Cattlemen, of course, are opposing the withdrawal of the land despite the fact of the co-use plan, which permits grazing on the land to continue. The ranchers object to the fact they cannot visit the areas more than three times per week. Rocket firing may be held on four days each week.

Most of the land involved, some 75 per cent, is owned by the federal government with 20 per cent being owned by the state and the other 5 per cent by private citizens.

The loss of the Proving Grounds, of course, would remove an outstanding defense project from New Mexico and the failure to spend the \$8,000,000 now appropriated also would prove a distinct loss to the state.

The Army has approximately \$3,500,000 to be spent, while the Navy has some \$4,500,000 for installations and improvements.

This, of course, will mean considerable to the state besides the actual payroll of the two bases every month in the year.—O.E.P.

'National Farm Safety Week' Is July 25-31

Needless hazards on U.S. farms continue to cause thousands of accidents each year which could be prevented by a positive safety program. To reduce the number of these accidents, "National Farm Safety Week" will be observed July 25-31 this year.

Goal for the 1948 observance, which is sponsored by the National Safety Council and the U.S. Department of Agriculture in cooperation with a number of other organizations, is the elimination of at least 30 million farm hazards. Each farm family is being asked to accept responsibility for eliminating at least one hazard for every member of the family.

The long-range purposes of "National Farm Safety Week" are to make every American farm and every American farm resident as safe as possible, to cut the annual toll of needless deaths and injuries to a minimum, and to make farm life safer, happier, and more prosperous.

Estimates by the National Safety Council show a 52 per cent increase in motor vehicle deaths to farm residents from 1944 to 1947. In other types of accidents, about 4300 workers were killed and approximately 300,000 workers were injured in 1947. If the 1947 non-work toll was similar to that of 1946, the National Safety Council believes the final figures will show 14,000 non-work deaths and 1,400,000 non-work injuries to farm residents.

As Artesia Grows

TWENTY YEARS AGO
(From The Advocate files for July 26, 1928)

Mrs. Fred Cole and baby girl are spending a few weeks with her mother, Mrs. C. E. Mann, in Ruidoso, where Mrs. Mann has a cabin for the summer.

Mr. and Mrs. Ike Keller and son, Osborn, and their guests, Mrs. Keller's parents and sister, Mr. and Mrs. W. M. Osborn of San Diego, Calif., and Mrs. Branch Williams of Texas, went through the Carlsbad Caverns.

Mrs. E. H. Perry and daughter; Mrs. E. T. Jernigan and daughter; Mrs. I. C. Dixon, and Miss Eva Terry visited Rev. and Mrs. J. H. Walker in Las Vegas over the week end.

Calvin Dunn and family and Mrs. Preston Dunn visited in Roswell Sunday.

Mr. and Mrs. Alva Southard and little daughter returned home from a visit with Mrs. Southard's parents.

TEN YEARS AGO
(From The Advocate files for July 28, 1938)

The new high school building had been equipped with the finest public address system to be had. The system was located in the principal's office with loud-speaker outlets running to all rooms.

The Artesia Advocate was holding an election return party in the office Tuesday evening for the benefit of the public.

Mr. and Mrs. J. E. Robertson of Carlsbad visited Mr. and Mrs. R. L. Thomas Sunday.

R. L. Thomas was running for superintendent of county schools.

Stanley Carper and Charles Bullock are vacationing on the West Coast. They are expected home within the next few days.

Mr. and Mrs. Frank Cogdell are

NEW AND OLD machines converted into electric, portables, or cabinets. Electric buttonhole attachments, motors, and parts repaired. Service calls in homes. All repair work guaranteed 18 months or money back. See Eddie's Machine Supplies. General Delivery, Artesia.

THEY HEAD THE DIXIECRAT TICKET

NOMINATED BY THE "STATES RIGHTS" Democrats as their Presidential candidate at their "rebel" convention in Birmingham, Ala., Gov. J. S. Thurmond (left), South Carolina, congratulates his running mate, Gov. Fielding Wright, of Mississippi. They will carry their fight against President Truman through the South. Mr. and Mrs. Chromer Smith and children of Savannah, Ga., a brother-in-law and sister of Ralph Shugart, visited here a week.

Stored Wool Is Moth Protected By DDT Spray

Housewives know that woolen garments must be protected from clothes moths during the summer months. Spraying with DDT has greatly simplified their problems in that respect, for the improved method makes it much easier to treat the inside surfaces of closets and storage chests and makes them deadly to moths.

The Commodity Credit Corporation of the U.S. Department of Agriculture has a far bigger job of protecting wool than any housewife, but it follows a similar method of protection. The CCC has outstanding loans on wool in storage. The CCC regulations require that walls, floors, and ceilings of storage rooms must be sprayed with a 5 per cent solution of DDT. Also the exposed surface of sacks in which the wool is stored must be thoroughly covered. Under conditions of wool storage, the DDT spray remains effective for a year. The treated walls are deadly to any moths alighting on them or emerging from cracks and crevices. The destructive moth has to pass through another deadly barrier on the treated sacks.

Farmers who still have wool in storage can take a tip from this regulation covering the CCC loans, says the department. Stored wool should have DDT protection.

REA Has Greatly Increased Power Use In State

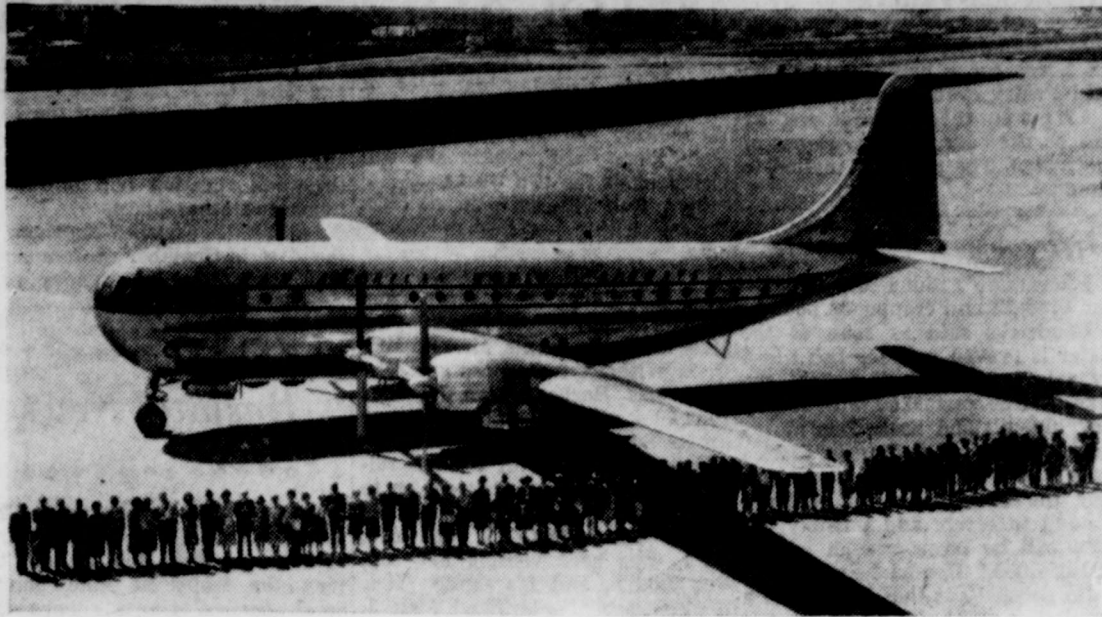

An estimated 10,713 farms in New Mexico have received central electric service since the Rural Electrification Administration was established 13 years ago, according to the U.S. Department of Agriculture.

REA was created by executive order of President Roosevelt on May 11, 1935. A report by Administrator Claude R. Wickard, marking the anniversary, reveals that more than 12,063 farms, or 40.6 per cent of all farms in New Mexico, are now connected to highlines. When the rural electrification program was inaugurated, only 1350, or 3.3 per cent, in New Mexico had electric service.

Farm power consumption in the state has jumped from 66 kilowatt hours in 1941 to 93 in 1947. The first REA loan to finance the cost of constructing rural power lines in New Mexico was approved in May, 1937. Sixteen months later, on Oct. 5, 1938, the first REA-financed electric line in this state was energized by the Central Valley Electric Co-operative in Artesia.

Wickard's report indicates that REA borrowers in New Mexico are in excellent financial condition and that they are making headway in

FIRST DOUBLE-DECK AIRLINER CARRIES 84 IN TESTS

SEVENTY-FIVE PASSENGERS and nine members of the crew line up beside the huge new air clipper America following tests which indicated that it could carry them all—and have room to spare. The \$1,500,000 strato-cruiser is the only airliner with a double deck, plus a spacious lounge and bar. The largest and fastest commercial landplane will cut the San Francisco-Honolulu flying time from 12 to 8 1/4 hours. (International)

FORRESTAL AT PERSHING BIEK

AMONG THE THOUSANDS who visited the Capitol rotunda, in Washington, to pay homage to the late General of the Armies John J. Pershing was Secretary of Defense James Forrestal, shown here with an aide. Waiting his turn, just behind them, is a little Negro boy. (International)

retiring their government loans. As of April this year, REA had approved loans amounting to \$10,714,000 to 15 borrowers in the state. REA had advanced \$6,328,275 of this amount, and the state's REA borrowers were operating 6830 miles of lines, serving 16,321 consumers.

Through the first quarter of 1948 New Mexico borrowers had paid \$504,472 on principal in advance on their loans. This included \$11,446 paid on principal in advance of the time it was due. Two borrow-

ers were ahead on their payments, only one was behind, and only \$11,009 was more than 30 days overdue.

Club members have donated toys, books, and other equipment for the children's entertainment.

The only drawback to the arrangement is that one club member must miss a meeting now and then, in order to look after the children." Mrs. Giacomelli says, "But that disadvantage is more than offset by the increased number of mothers who are able to attend the meeting."

A new circular, "Supervised Play for Young Children During Meetings," has been prepared by Mrs. Dosca Copeland, San Juan County home demonstration agent, to show members of other clubs in New Mexico how they, too, can attend their meetings and take care of their children at the same time.

The circular also contains suggestions about inexpensive play materials, problems of handling children in a group and how to deal with them, and other ideas to help the supervision of the children during play periods. Copies of the circular may be obtained from the county home demonstration agent or from the Extension Service at New Mexico A. & M. College.

Protects great...
Your engine, too, needs extra protection from summer heat... And the best protection "under the sun" is to make a date to OIL-PLATE with Conoco Nth Motor Oil, today! A special, added ingredient in Nth Motor Oil (Patented) forms an extra film of lubricant so closely to metal that your engine's working parts are actually OIL-PLATED!... This extra

OIL-PLATING stays up on cylinder walls... won't all drain down, even overnight! That means extra-protection... from high running-heat... from metal-eating combustion acids... from power-choking sludge and carbon due to wear.

Wise motorists save wear, save money, save worry when they make a date for...

...an OIL-PLATE!

I'LL REMEMBER JADA

Miss Anna Rita Baker Becomes Bride Of Jim Roden, Jr., On Monday

Miss Anna Rita Baker, daughter of Mr. and Mrs. Earl Baker was united in marriage to Jim Roy Roden, Jr., son of Mr. and Mrs. J. R. Roden of Friona, Texas, in a ceremony performed before their immediate families Monday morning in the rectory of St. Anthony's Catholic Church with Rev. Father Stephen Bono officiating.

The vows were read before an altar banked with baskets of white gladioli and baby's-breath.

The bride, who was given in marriage by her father, wore a dusty-rose suit accented with blue accessories. Her corsage was of pale blue gladioli. In keeping with the tradition, she carried a pink and blue hand-made handkerchief for something old; something new was her ensemble, and something borrowed and blue was a pair of garters belonging to Miss Gladys Morgan.

The couple was attended by Miss Mary Thomas of Aliquippa, Pa., and William Thomas of Artesia. Miss Thomas wore a beige suit with pink accessories. Her corsage was of pink carnations.

The bridegroom's mother and sister, Gladys Roden, were here from Friona to attend the wedding. Miss Roden was costumed in a gunmetal gray suit with black accessories. Her corsage was of red roses.

After the ceremony a breakfast was held at the Artesia Hotel Coffee Shop for the wedding party. A champagne wedding cake, topped with miniature figures of a bride and groom centered the table.

Guests of summer flowers decorated the lovely decorations. The couple left for an extended honeymoon in Michigan. Mrs. Roden wore a yellow linen suit with accessories as her going-away outfit.

Miss Roden attended school in Friona, until coming to Artesia where she graduated in 1946. She had worked at the theaters in Friona.

She graduated in Friona, spent four years in Army and is attending Texas Tech. He is majoring in law and will finish his law degree in Norman, Okla.

They will make their honeymoon in Michigan.

This Week Is Dues Deadline For Woman's Club

Mrs. R. J. Parks, membership chairman of the Woman's Club, announced that this week is the deadline for payment of membership dues. Dues are to be mailed to her at 1112 West Main Street, she explained. Mrs. Parks also said the regular dues are \$3 and associate dues are \$5.

Dozen Artesia Women Attend ALA Convention

The 27th annual convention of the American Legion Auxiliary was held in Hot Springs, July 21-24, with 12 members of the Artesia unit attending. This was said to be one of the largest and best conventions ever held in New Mexico.

Those attending from the Artesia unit were Mrs. H. R. Paton, past district president; Mrs. Alex McGonagill, past department president and past department national committeewoman; Mrs. A. R. Compary, department chairman of child-welfare; Mrs. C. R. Baldwin, local president and Mmes. L. E. Francis, J. L. Briscoe, Harry Gilmore, Earl Darst, D. M. Walter, Wade C. Cunningham, Lillian Bigler, and Albert Richards.

Mrs. H. R. Paton and Mrs. Alex McGonagill were elected to attend the national convention in Miami Beach, Fla., in Oct. as New Mexico delegates. Mrs. Compary was chairman of the nominating committee, which also elected Mrs. W. O. Dunlap, Jr., of Tatum fifth district president.

The Artesia unit brought two awards home. They were "Carter's Trophy on Americanism" and a national citation award on membership.

The Child Welfare Banquet, a highlight of the convention, with Mrs. Compary presiding was given Friday evening in the high school auditorium.

The headtable was centered with a miniature layout of the Carrie Tingley Hospital. Pictures of the hospital were on the placecards. The menus and programs had pictures of Mrs. Compary's grandchildren on them.

Distinguished guests present at the convention included Gov. Thomas J. Mabry, Mrs. William Dingle of Washington, D. C., national vice-president; Mrs. Josephine Kogler, national committeewoman; Mrs. Mildred Seelinger, department president, and many distinguished dignitaries of the Army and Navy.

The Past Presidents' Parley gave a beautiful luncheon in the dining room of a hotel in honor of the past presidents and new presidents. After the luncheon the group was conducted through the Carrie Tingley Hospital.

Hot Springs feted the members of the Legion and Auxiliary with a fish fry at Elephant Butte Dam last Thursday evening, when 1500 pounds of cat fish were fried.

On Friday afternoon the Veterans of Foreign Wars Auxiliary was host to the visitors at a tea in the new VFW home.

Artesia was represented in the 8 and 40 convention by Mrs. Earl Darst, "archivist," and Mrs. Lillian Bigler, "pouvier." Mrs. Albert Richards was elected "demi-chapeau deuxieme" of the organization.

Parades, dinners, luncheons, tours, teas, and many other forms of entertainment contributed to the success of the convention.

Mrs. Kermit Hoover Is Honored At Stork Shower On Friday

Mrs. J. A. Hoover and Mrs. Charles Gleghorn honored Mrs. Kermit Hoover with a surprise stork shower Friday afternoon in the Gleghorn home.

Delicious refreshments of punch, individual cakes with pink and blue frosting, and dainty cream cheese sandwiches were served to the guests.

Those present were Mmes. C. R. Jenkins, Jim Brisco, Frank Savoie, J. W. Parrish, John Gibson, Leo Cunningham, J. L. May, Bill Brock, George Lynch, B. E. Singleton, J. H. Porter, Ora Buck, Minnie Teague, B. E. Forister, A. P. Birdwell, Guy Waldrip, Dud Shields, Joe Williams, and R. E. Warren.

Gifts were presented by Mrs. J. A. Hoover, Mrs. Helen Vogel, Mrs. Hedy Adkins, and Mrs. Hoover.

Swackhammer-Hartley Nuptials Are At Carlsbad

Miss Audrey Swackhammer, daughter of Mr. and Mrs. W. H. Swackhammer, became the bride of A. R. Hartley, son of Mrs. Mary Kennedy, at a quiet ceremony performed in Carlsbad Saturday morning by a justice of the peace.

The bride wore a blue dress with white trimmings and accessories. Something borrowed was a purse belonging to her mother, something blue was her ensemble, something old was a ring, and something new was a lace handkerchief.

The couple was attended by Miss Aline Ham of Artesia and Wilson Walker of Carlsbad. Miss Ham wore a green dress with black accessories.

Miss Swackhammer's sister, Patsy was also present during the ceremony.

The couple will live in Lovington, where Mr. Hartley is employed by the Southern Union Gas Company.

Mrs. Hartley came to Artesia when she was 3 years old. She was a member of the Girls' Pep Club in High School.

Mr. Hartley has lived in Artesia since he was 8 years old. He graduated here in 1947 and has been employed in Lovington since his graduation.

Miss Lillie Mobley Is Married In Carlsbad To Preston Williams

Miss Lillie Mobley became the bride of Preston Williams, Jr., Saturday, July 10, in Carlsbad.

They left Artesia Monday morning for Amarillo where they will make their home.

Mrs. Williams is the daughter of Mr. and Mrs. S. M. Mobley who live east of town. She had been employed by the Artesia Laundry and Cleaners until the time of her marriage.

CARLSBAD TEAM DOWNS CARPER-BOOKER GALS

The Carper-Booker girls' softball team was downed by the Pepsi-Cola team of Carlsbad again Monday evening in Artesia with a score of 5-2.

The next week's schedule is full with a game with the Father Bear's Den team of Roswell Saturday evening in Roswell and a return game with the Pepsi-Cola team of Carlsbad to be played here Monday evening. On Wednesday evening they will play Boy Scout Troop 28 on the softball field.

Cottonwood 4-H Club Takes First Place In Camp Drama Contest

The Cottonwood 4-H Club won first place in the drama section at the Eddy and Lea County camp held at Camp We-Hin-Ah-Pay last Thursday through Sunday. As first place winner members will compete with five other first place winners at the state 4-H camp to be held at New Mexico A. & M. College in Las Cruces at a future date.

The group presented "Be Home by Midnight," a one-act play. Characters were W. L. Gray, Mary Lou House, Jack Donaghy, Mildred House, and Ralph Parnell.

Mrs. A. E. Stephens, leader, directed the play and will accompany the group to Las Cruces.

BOX SUPPER PLANNED AT OILFIELD FRIDAY

The male members of the Oilfield Community Club are to furnish boxes for a box supper being held Friday evening at the school.

All money received that evening will be used for the betterment of the school. The public is invited to attend.

Only -

(Continued From Front Page) and bluegill and crappe, 53 pounds. Hendricks said as soon as the water is proven safe for fish life—by actual test with live fish—the lake will be restocked with fingerling bluegill and bass. This means there will be no fishing in Clark's Lake this year, but by next summer the bluegill should be large enough to catch, and possibly the bass will be large enough by the fall of 1949," Hendricks said.

He pointed out that it is hoped a regulation will be in effect by that time prohibiting the sale and use of any rough fishes for bait, without which rule the lake would again in time be taken over by them.

In commenting that only 1.8 percent of the fish by weight were game fish, Hendricks said they counted only 198.

He said the fish that were left in the lake were not wasted, as they will quickly decay and furnish an excellent fertilizer for the plant growth that is necessary to support a large population of fish.

The eradication of the rough fish has caused the water to clear from a visibility of only nine inches to four feet, Hendricks said. The change is not from the chemical, but to the elimination of the rough fish, that kept the bottom mud stirred up.

In order to eradicate the fish, the department used 275 pounds of cube roof at a cost of approximately \$160.

Salvation -

(continued from page one) thanks for the people accepting him as a representative of the Salvation Army succeeding the late Baron J. V. Auremma, who conducted the local campaigns for more than two decades.

Plans Of Fly-Up Day Camp For Girl Scouts Have Been Announced

Several objectives, which the staff of the Brownie and Intermediate fly-up day camp will keep in mind when the camp opens Aug. 9, are to strive to stimulate real enjoyment and appreciation of the out-of-doors in the children, provide training in citizenship, and contribute to the physical and mental well-being of every day camper.

These objectives were announced by Mrs. W. M. Siegenthaler at the time she announced the special meeting for those interested in helping with the camp. The meeting is to be held in her home on Hermosa Drive at 9:30 o'clock Friday morning.

The day camp will open Aug. 9 and close Aug. 13 and is being held on the Jim Berry Farm east of town. It is hoped that in this way the younger girls will gain experience needed as preparation for future troop camps and as a foundation for happy experiences in established camp when they are older.

LOCALS

Miss Jan Crossley, daughter of Mr. and Mrs. C. R. Crossley, left Wednesday afternoon by bus for Hollywood, Calif., where she will visit friends for two weeks.

Mrs. Dub Shields is in Abilene, Texas, visiting her husband's parents.

Workman Is Knocked Down By Lightning While On Vacation

Jack Workman was knocked down and rendered unconscious by a bolt of lightning and Mrs. Workman was dazed, while they were visiting his parents, Mr. and Mrs. Carl Workman, at Longton, Kan.

They said that during an electric storm about 4:30 o'clock in the morning they went to the back porch and Workman reached for the screen door to look out.

The bolt evidently scattered and did not send its entire force into Workman and Mrs. Workman, who was holding his hand. It was thought at first he was dead, but after about 20 minutes he started breathing and soon he was talking incoherently.

Power Is Cut Off During Night For Equipment Installation

All electric power in Artesia was off from midnight Tuesday about two hours, while some new material, which had just arrived, was installed at the local substation.

J. D. Smith, local manager, said the precaution had to be taken, as the lines carry 33,000 volts.

Owners and managers of businesses affected had been warned the power would be turned off at midnight for a period of not more than three hours. However the work was completed in a little less than two hours.

The power went off here several times Monday evening during a severe electric storm on the line from Denver City to Carlsbad.

TRUCK LINES WILL HAVE WAREHOUSE HERE

The El Paso-Pecos Valley Truck Lines will soon open in the building at 801 South First Street formerly occupied by the Stroup Manufacturing Company, it was announced this week.

Docks must be built and the adjacent drive must be gravelled. It is expected the warehouse will be opened within about 30 days.

Maljamar Items

(Mrs. Kenneth Shields)

The Wednesday Bridge Club met last week at the home of Mrs. Kenneth Shields. High score was won by Mrs. Harold Adams and second high was won by Mrs. Cecil Holeman. Those attending were Mmes. Harold Adams, W. E. McClendon, S. E. Chipman, and Cliff Whitefield of Loco Hills, John McMurray, Cecil Holeman, A. W. Golden, E. R. McKinstry, and a guest. Mrs. Adams received a lovely gift from a "mystery friend." The next meeting will be in the home of Mrs. Cliff Whitefield of Loco Hills Aug. 4.

A total of 1.45 inches of rain fell within an hour at Maljamar Saturday.

Mr. and Mrs. Zealy Edwards, formerly of Maljamar, moved here from Sundown, Texas, Friday. He is employed by the Buffalo Oil Company. They have moved into the lease house formerly occupied by Mr. and Mrs. John Pruitt.

Mrs. Nettie McGeorge, who formerly operated the Maljamar Cafe, spent Saturday evening with Mr. and Mrs. Ott Vowell. Mrs. McGeorge is living in Nome, Texas, now.

The Joe McMurray family held a picnic at Maljamar Elm Park Saturday evening. Those present were Mr. and Mrs. Joe McMurray of Henryetta, Okla., and their sons, James and John, and families, and their daughters, Mrs. A. W. Golden and Mrs. Taylor Schussler of Chevery, Md., and their families.

Mr. and Mrs. George Williams returned home Friday from a vacation spent in Nevada and California. Mr. Williams' mother in Artesia suffered a light stroke and they visited her last Thursday before returning home.

Mr. and Mrs. Stev Carter entertained Mr. Carter's brother, E. L. Carter and his wife from Alvin, Texas. They were here from Sunday to Wednesday of last week.

They visited the Carlsbad Caverns while here.

George James and Vancille Doughty were married July 8 in Greenville, Texas. The couple has moved into the Luke Taylor home. Mrs. Ralph McGill honored Mrs. James at a bridal shower Friday. Homemade ice cream and cake were served to the guests. Each guest present told how she met her husband and how long she knew him before they were married.

Those present were Mmes. Cecil Holeman, Dru Taylor, W. G. White, A. W. Golden, John Farmer, Noble Melton, Carl Doughty, Floyd Doughty, Edgar Chase, M. Y. Doughty, Harley Doughty, Ira Pleasant, Stev Carter, H. C. Hunter, James McMurray, Luther Kelley, J. C. Davis, John Leo, Oscar Doughty, Lacy Dunlap, Oscar Loyd, W. W. White, John McCauley, M. P. Blakely, Kenneth Shields, Ralph McGill, and "Ma" Payne, and Miss Glenda Kelly. Those who sent gifts were Rev. and Mrs. James Barton, Mmes. O. H. Goodman, A. C. Hatfield, Bob Patterson, Curtis Hoover, Elmo Young, and Ott Vowell.

Mr. and Mrs. Ira Pleasant returned from their vacation last Thursday. They visited Otis Forster at Merkel, Texas, and went fishing and swimming at Bridge Port Lake.

Mrs. John Leo went to Hobbs last Thursday to see a dentist.

Mr. and Mrs. Ott Vowell returned from their vacation Friday. They visited Mr. and Mrs. L. D. Poer of San Angelo, formerly of Maljamar, and Mr. and Mrs. Vester Sanders of Stevensville, formerly of Maljamar, during their stay in Texas. They also went to Louisiana before returning home.

Haines Sanders, formerly of Maljamar, was married July 25 to Joy Thomas in Katy, Texas.

Mr. and Mrs. O. R. Blanton spent last week end in Texas visiting Mr. and Mrs. M. L. Spence.

Mr. and Mrs. Frank Ashlock and Mr. and Mrs. Oren Ashlock have been entertaining Mr. and Mrs. Orvil Ashlock of Kermit the last two weeks.

A supper was given at Maljamar Elm Park Sunday evening of last week in honor of O. Furrh on his birthday. Those present were Mr. and Mrs. Oscar Schroeder of Artesia, Mr. and Mrs. A. C. Hatfield and son, and Mr. and Mrs. Furrh and son, Dean.

A group gathered at the A. C. Hatfield home last week to see moving pictures of past picnics. Those present were Mr. and Mrs. H. C. Hunter and family; Mr. and Mrs. O. Furrh and son, and Mr. and Mrs. Hatfield and son.

Mr. and Mrs. Ed Miller of Hobbs were guests in the home of Mr. and Mrs. Kenneth Shields Sunday. They enjoyed a picnic supper in the yard. Mr. Miller was in Maljamar on business.

Mr. and Mrs. Stev Carter entertained Mr. Carter's brother, Marvin, and family of Alvin, Texas, over the week end.

Mr. and Mrs. Lacy Dunlap went to Hobbs on business and on to Denver City to visit relatives Monday last week.

Mrs. Luther Kelly went to Artesia Tuesday of last week to receive medical attention.

Mrs. A. W. Golden's parents and sister and families left Tuesday of last week after spending several days here.

Mrs. Zealy Edwards was ill Sunday. She went to Lovington for medical attention and stayed there Sunday night with her sister, Mrs. J. S. Lester.

Mrs. Jimmy Cunningham went to Carlsbad Monday of last week for a physical check-up.

Mr. and Mrs. Carter Wooten have returned from a vacation spent in Arizona. They visited Mrs. Wooten's brother, Pat Cullen, and family. They came home by way of Albuquerque.

Mrs. Lacy Dunlap and Mrs. Oscar Doughty visited Mrs. Standard in Buckeye, Texas.

Mr. and Mrs. Ott Vowell left last Thursday morning for El Paso where Mr. Vowell was to receive medical attention.

Mr. and Mrs. O. Furrh returned from a vacation recently which was spent in California and Mexico and points of interest in the lower West. They visited Mrs. Furrh's sister, Ruth Evans, in San Diego, took a

sight-seeing tour on the bay, went fishing near Ensenada, Mexico, and returned by the Coolidge Dam.

Mrs. Oscar Loyd, leader of the Young People's Training Union, gave a chuck-wagon party for the group Tuesday evening of last week at Maljamar Elm Park. Those attending were Travis and Glenda Kelly, Arthur Melton, Angie and Inez Ward, Travis Elliott, Medlin Lynch, Mr. and Mrs. J. C. Davis, Donna and Gloria Wellman, Mr. and Mrs. John McCauley, Virginia and Rock Ashlock, Dick and Bob Hunter, Jerry and Molly Cooper, Sally Glover, Patsy Edwards, Pat Blakey, Don Carter, Jackie and Peggy Castleman, Henry Payne, Margaret McCauley, J. C. and Junior Levrett, and Oscar Loyd.

Mr. and Mrs. Clarence Dozier and family went to Garden City, Texas, last week end to visit his parents, Mr. and Mrs. Mac Dozier.

Mr. and Mrs. Oscar Goodman went to Clovis Monday of last week to meet his daughter, Mrs. J. W. Sowel, Jr., and son, James Richard, of Canton, Miss. The group went through the Carlsbad Caverns last Thursday.

The new Maljamar Baptist Church has been plastered on the inside, with workers from Lovington doing the finishing job.

Mr. and Mrs. Luke Alexander of Regina, N. M., visited Mr. Alexander's sister, Mrs. Jesse Ward, this week.

Mr. and Mrs. M. G. Elliott visited Mr. Elliott's parents, Mr. and Mrs. S. H. Elliott, in Lubbock this week.

Arthur Melton, and Travis Kelly went to Hope over the week end to visit Arthur's parents.

Mrs. Jimmy Wellman's mother of Kemah, Texas, visited her this week.

A group of young people went rabbit hunting Wednesday evening of last week and ended up at Middle Well, where they built a campfire and made coffee. Those in the group were Margaret McCauley, Travis and Glenda Kelly, Arthur Melton, Bob Hunter, Gloria and Dona Wellman, Travis Elliott, and Medlin Lynch.

Patsy and Peggy Vowell are staying with their aunt, Mrs. Ken Whiteley of Loco Hills, while their parents are in El Paso.

Robert Ross, son of Mr. and Mrs. George Ross, is a member of the Roller Skating Rink Operator Association and has been enjoying the facilities of the rinks in Roswell and Carlsbad during his stay here.

Patsy Edwards went to a party at the Dou Wood ranch in Lovington Wednesday evening of last week with Shirley Woods and Mettie Glen Harden.

Robert Collins took the flight check for his instructor rating last Thursday from Robert Wisener of the CAA. After a three-hour check Wisener presented Collins a full-fledged flight instructor license. Immediately upon receiving this license he was offered a job with the B. & B. Flying Service at Roswell. Collins has taken every rating that pilots seem necessary to hold this type of a position, commercial, instrument, instructor, and ground school ratings. All this has been accomplished in about a year and a half at Artesia with "Sug" Hazel and Herman Fuchs, who take pride in Bob and feel that the B. & B. Flying Service will benefit upon his arrival.

H. P. Termain made several trips last week in the Cessna 190, to Fort Worth, Dallas, Illinois, and El Paso. Herman Fuchs and family returned home this week from more than a two-week vacation. They were accompanied by Marco Fuchs and family of Oil Center, Texas.

The C. T. McLaughlin & Company Cessna was in Artesia the first part of the week.

Leslie Corbett soled Monday afternoon.

Mr. and Mrs. Zealy Edwards, formerly of Maljamar, moved here from Sundown, Texas, Friday. He is employed by the Buffalo Oil Company. They have moved into the lease house formerly occupied by Mr. and Mrs. John Pruitt.

Mrs. Nettie McGeorge, who formerly operated the Maljamar Cafe, spent Saturday evening with Mr. and Mrs. Ott Vowell. Mrs. McGeorge is living in Nome, Texas, now.

The Joe McMurray family held a picnic at Maljamar Elm Park Saturday evening. Those present were Mr. and Mrs. Joe McMurray of Henryetta, Okla., and their sons, James and John, and families, and their daughters, Mrs. A. W. Golden and Mrs. Taylor Schussler of Chevery, Md., and their families.

Mr. and Mrs. George Williams returned home Friday from a vacation spent in Nevada and California. Mr. Williams' mother in Artesia suffered a light stroke and they visited her last Thursday before returning home.

Mr. and Mrs. Stev Carter entertained Mr. Carter's brother, E. L. Carter and his wife from Alvin, Texas. They were here from Sunday to Wednesday of last week.

SCOTT'S SCRAP BOOK

By R. J. SCOTT

YOU'RE TELLING ME!

By **WILLIAM RITT**
Central Press Writer

AN EXPEDITION will seek remnants, if any, of Noah's Ark on Mount Ararat. Old Captain Noah's log would make interesting reading at that.

For one thing—did he separate the two elephants so the Ark would be well-ballasted?

He'd also like to know just how well-behaved the pair of mosquitoes were as passengers.

Grandpappy Jenkins opines that since Noah must have been a mighty busy man settling fights among his cargo that he probably turned over his book-keeping to one of the secretary birds.

Though he didn't know it, Noah conducted the world's first traveling zoo. But there were no customers.

Hunting for an ancient ship on a mountain top may prove fruitless but at least it's a lofty occupation.

The voyage of the Ark must have been a trying experience for Noah—there is no record that he ever went yatching again.

quez cited the findings of a re- search project recently published by the department. Here is what the records on corn hog prices showed:

Corn crop failures rarely come in a row. In the last 40 years, crops 8 per cent or more below normal occurred in succession only during the drought period of the 30's. Usually the corn crop following a short one tends to be near average.

December corn future prices have been a much better yardstick of profits in fall pigs than spring cash corn prices. December futures usually reflect what can be expected from a normal crop.

When December corn futures in June are way below the cash price and the hog-corn ratio is under 10.5 (the April 15, 1948, ratio averaged 9.4), the ratio improves an average of 3.8 points by the next April. If the growing season in 1948 is average or better, therefore, corn production will exceed last year's small crop and prices will be closer to the December corn futures than to the current cash price. December corn futures closed on May 24 at \$1.65 1/8 per bushel, nearly 25 per cent lower than the April 15 farm price of corn. This would indicate a more favorable

hog-corn ratio for producers next fall and winter.

In other words, breed more fall pigs. Chances are it will pay.

State Renews 4-H 'Wear-Care' Demonstrations

Rural girls in New Mexico between 14 and 21 years old again have the opportunity to take part in a special 4-H "wear-care" clothing demonstrations awards program, which is being renewed this year.

The demonstrations, which will be held during the state encampment, Aug. 9-13, may apply to what the participants have learned regarding good methods of selecting, wearing, and caring for a clothing wardrobe. The care may include washing, drying, ironing, removal of spots or stains, and handling of garments when not in use.

State champions—either two individual demonstrators or two members of a demonstration team—named by the state club office, will each receive a \$25 cash award. The winners must have completed at least three years of 4-H Club work, including the current year.

Last year's individual winners in New Mexico were Evelyn McKay of Clayton and Eleanor Hay of Elida.

County extension agents will furnish complete information regarding the demonstrations.

Use Advocate want ads for quick results!

Tourists Bring Much Revenue To New Mexico

Tourists contributed \$125,000,000 to New Mexico in 1947, according to a recent study of state recreational facilities, by Dorothy I. Cline, instructor of government at the University of New Mexico, and Mrs. K. Peterson Rose of Santa Fe. Recreation is essential for modern man; the authors point out, and New Mexico is receiving substantial part of its revenue from helping people have a good time.

Miss Cline and Mrs. Rose uncovered 16 agencies that have some jurisdiction in New Mexico's complicated recreational set-up. This, they believe, tends to make the whole program an unco-ordinated maze and they make three major recommendations in their recent publication, "Recreation Administration in New Mexico."

First, they see a need for a state co-ordinating agency to protect the state's resources. Second, they urge a fiscal study by the New Mexico Taxpayers' Association to determine the needs of the state's recreational areas. And third a study should be made of the recreational facilities and their departments. They pointed out that roads and housing at state parks and monuments must be improved if tourists are to be attracted to these out of the way places.

In emphasizing the importance of the tourist industry to New Mexico the authors explained that during the 1946-1947 fishing and hunting season only 10 per cent of the fishermen and hunters were non-residents but that they supplied 50 per cent of the revenue for the Game and Fish Department. In order to entice more of these tourists to the Land of Enchantment, more adequate facilities must be made available to them.

Miss Cline is a graduate of the University of Michigan and the University of Chicago. She came to the University of New Mexico last year. She was assistant director of the housing project at Willow Run, and more recently served as assistant to the director of overseas clothing collection for UNRRA.

Mrs. Rose graduated from the University of Minnesota and has spent the last 15 years in New Mexico in various fields of social welfare. From 1939 to 1941 she was supervisor of social services in Santa Fe County. She has recently taken a position with the State Department of Public Health.

Makes 'Magic' Disks

ANNOUNCEMENT that a water-curer had been cured of malaria as the result of a "master cell" discovery has attracted wide attention to the claims of a farmer John Brown of Middleboro Mass. Here Brown is shown placing in water several disks containing the "cells." Various plants, from both the earth and sea, are used in his "discovery." He first tried it on poultry and, he said, helped 100 sick chickens. The vet who says the "magic water" cured malaria is Joseph Correia, Jr., Fall River, Mass. (International)

had three hundred and seven hundred... I wonder what he has done in the...
equipment: Maytag, and a well-ventilated and honey atmosphere.

Here's How You Can Protect Your Home

One of every six home owners dies before his home is all paid for.

But with the new low cost Woodmen Mortgage Protection Plan you can protect your family against loss of their home, should you die. If you live to complete payments before age 60, the remaining insurance, if \$500 or more, can be converted to any other type of Woodmen life insurance protection.

Let your local Woodmen representative give you full details of this low cost home protection plan. Call him today.

PLAN YOUR HOME

around these Electrical aids to Better Living

Whether you're planning to build or remodel, electric aids to better living are a "must" to today's modern home planners.

You'll want to plan your home around handy, work-saving electrical appliances... cool attic ventilation, an efficient, economical all-electric kitchen.

And all through the house make sure there is Adequate Wiring, and plenty of electric outlets for radios, lighting, fans, vacuum cleaners... all the appliances you will want to live better... electrically.

You'll find it the economical way of living, too... because electric service from Southwestern Public Service Company is cheaper today than ever before.

Officials For '48 State Fair Have Been Announced

Leon H. Harms, secretary-manager of the New Mexico State Fair, has announced the appointment of officials to supervise and direct 18 exhibit divisions in the 1948 fair Sept. 19-26. Superintendents for remaining exhibits will be announced soon, he reported.

Harms estimates that this year's State Fair will draw the largest attendance in its 11 year history. Nearly every county in the state is expected to be represented with an exhibit, in addition to the thousands of individual exhibits and entries.

Closing dates for entries range from Sept. 6 for all livestock divisions to Sept. 18, the evening preceding opening day, for rodeo contestants, home science, Indian crafts, and floriculture exhibits.

Exhibit officials named include: Rodeo, Floyd B. Rigdon, commissioner in charge, and Lynn Beutler, director; horse racing, Jerry E. Knott, secretary State Racing Commission; horse shows, Jack Dean; beef cattle, Ivan Watson; dairy cattle, J. D. Dickinson; milk dairy cattle, J. R. Dickinson; milk goats, W. L. Russel; sheep, Robert D. Rasmussen; wool show, Joe White man; angora goats, R. W. Reid; swine, L. C. Dalton; poultry, C. P. Hay; rabbits, Fred W. Davis; caviars, Frank C. Stuart; agricultural products, Cecil Pragnell; Indian exhibits, J. Ernest Watson; floriculture, Mrs. Adele Requad; home arts, Mrs. Beryl Krough; home sciences, Mrs. Carl M. Neilson.

Private Life Of Old Bossy Is Research Study

How does Old Bossy spend her time? What does she do while the hot summer days in her ribbed pasture?

Experimenters at Cornell University thought that June — the dairy month — was a good time to delve into the private life of the dairy cow. And here's what they found:
Bossy grazes only seven and a

half hours daily, regardless of how much feed she gets. She does 60 per cent of her grazing during daylight hours and 40 per cent at night. She spends five hours a day eating, with 50 to 70 bites a minute. She chews her cud seven hours a day and spends 12 hours lying down, at nine different times. While grazing, she travels two and a half miles in the daytime and one and a half at night. She drinks 10 times a day.
The cows studied at Cornell could eat 125 pounds daily of five-inch high forage, enough to produce 30 pounds of 3.5 per cent milk. Where the grass was two to three inches high, the cows were able to graze only 90 pounds of green forage a day. And where the grass was very short, Bossy got only 45 pounds a day.
Regardless of the amount of forage the cows got, there was little difference in the amount of time spent grazing.
The moral: If a cow chews her cud lying down, it doesn't necessarily follow that her appetite is satisfied. But, unless she is given other feed, she has to get along on what she has to get in seven and

Loco Hills Items

(Mrs. Earl Smith)
Mr. and Mrs. Jack Newport of Pasadena, Calif., have been visiting Mrs. Newport's parents, Mr. and Mrs. A. E. Schafer of the Grayburg Camp.
Mr. and Mrs. Willard Morris of Artesia visited Mr. and Mrs. Earl Smith Wednesday of last week.
Mr. and Mrs. R. R. Swan and children of Kermit, Texas, are newcomers in the Carper Camp.
Mr. and Mrs. A. L. Hearron and children of Freer, Texas, spent five days last week as guests of Ms. Hearron's sister, Mrs. R. L. Byrd, and family.
Mr. and Mrs. B. Newton were guests of Mr. and Mrs. August Rapp in Eunice Monday through Wednesday of last week.
Mr. and Mrs. Lake Arthur and children of the Snowden Oil Camp have moved into one of the houses owned by Tom Boyd.
Mrs. Sam Beal and children spent most of last week in Roswell with

THE OLD HOME TOWN

Mr. and Mrs. J. C. Danley, because of the illness of their son, Pat. Mrs. Beal returned to Roswell Sunday with Mrs. George Beal. They took Pat to a doctor and visited Roy Catron, Mrs. George Beal's father.
Jim Cook has returned from Paul's Valley, Okla., where he spent a week with his parents.
Mr. and Mrs. R. E. Thomas spent Saturday and Sunday with Mr. and Mrs. Claude Pascal in Roswell.
Franklin Oil Company moved two houses near the company house where the Claude Matthews family has been living. The houses will

be used for company employees and their families.
Mr. and Mrs. W. L. Case spent last week end in Kermit, Texas, with Mrs. Case's brother. Her niece, Betty Jean Mills, who had been visiting here, accompanied them to Kermit.
Mr. and Mrs. Clarence Hendrix were in Oklahoma City for the funeral of Mrs. Hendrix's father who was buried Monday of last week.
Mr. and Mrs. George Beal and

sons went to Eunice Monday.
Mr. and Mrs. J. L. Briscoe attended the American Legion convention in Hot Springs last week.
Both the upper and lower jaws of "Runt" McDaniel, a tool dresser for the Clower Drilling Company, were broken by a falling object while working Monday of last week. His steel helmet saved his life. He received treatments for the fractures in El Paso.
Mr. and Mrs. E. C. Thomas and children, Dickie and Cecelia, of Dallas, Texas, who were here visiting Mr. Thomas' parents, Mr. and Mrs. R. E. Thomas, left Friday for a tour of the Western state which will take a month.
Miss Doris June Catron, sister of Mrs. George Beal and "Son" Catron, has been taken to her home in Roswell and is improved to a great extent. She will not be able to use crutches for some time. She had been hospitalized in Arizona after an accident and recently flown to a Roswell hospital in a C-47 Army plane.
Janet Hammond, Willis Baker, and Mrs. Bill Briscoe are on the sick list.
Mr. and Mrs. "Rooster" Blanton were guests of Mr. and Mrs. R. R. Berry of the Carper Camp Friday.
Mr. and Mrs. Bill Briscoe en-

tertained a number of friends Friday and Saturday evenings with dancing parties.
Mr. and Mrs. Cleston Jackson of Jal are the parents of a daughter, Sharon Kay, who was born Saturday noon in Artesia Memorial Hospital. Maternal grandparents are

Mr. and Mrs. Al Earl Both families are former residents of Loco Hills. Ms. Earl and granddaughter, Linda, are here with Mrs. Jackson.

Scholarship Is Offered To Grad Needing Help

A new University of New Mexico scholarship has been announced by Mrs. Elizabeth Simpson, chairman of the awards committee. The Louis E. Ruffin \$900 scholarship will be awarded to a deserving New Mex-

ico high school graduate in financial need. The Louis E. Ruffin grant is a four-year scholarship which will give \$100 a semester to the winning student who must be a graduate of a New Mexico high school and unable to afford a college education. The applicant need only be an average student, but he must show courage and hard work in the studies of his choice, according to Mr. Ruffin.

"There are many people who need and deserve an education but who can neither qualify as 'A' students nor finance their own educations," said Ruffin in explaining his award. "I had little or no opportunity to study before I went to work and it is my sincerest desire to help some deserving New Mexico boy."

Ruffin said he would like the scholarship to begin next September if there are enough applicants by then. He has requested that the committee of awards at the university be the sole judges of the applicants. Interested high school graduates may make application to the Personnel Office, University of New Mexico.

Fence Won't Keep Farm On Place Hemphill Says

"Are you driving your farm away from home?" The question is raised by C. V. Hemphill, chairman of the New Mexico PMA Committee. He points out that there may be

Dignified Charm

Lace dinner dress.

By VERA WINSTON

THE LURE OF lace continues unabated, and this year's lace frocks appear to be more gracious, more charming than ever. Ideal for a dinner at home or at the country club is this gracious, dignified dinner dress of cafe au lait Chantilly type lace posed over a brown slip. The short sleeved bodice is easy to put, closing with jeweled buttons. The model has a self belt and modestly flared skirt.

a good fence around the place, but unless the soil is treated right it can jump the fence in a good wind or crawl under in a good rain. "The fence may still be there but the farm may be gone. And the part first to go is the top soil, the part from which come the crops." And, according to the chairman,

good top soil is getting away from most farmers every year. On some farms—where the land has been overworked and "underfed"—it may be getting away rapidly. Some soils erode more easily than others. Some farms are on hillsides and gravity helps in the movement.

The Agricultural Conservation Program is helping farmers with soil and water conservation practices which do a lot to keep the farm home, the chairman points out. At this time of the year pasture improvement is specifically emphasized. He explains that it is not so much how many more cows can be kept on a pasture after phosphate has been used as it is how much of the pasture can be kept on the farm instead of having it wash or blow away.

Improving the pasture so that it will keep more cows is important

but it is also important to tie the land down with grass and legumes so they will be there indefinitely and keep on producing.

Ledger outfits, large and small, from two to 30 columns, and special bookkeeping set-ups.—Advocate Office Supply.

Two-drawer, legal and letter size filing cabinets.—Advocate Office Supply.

Use of protein supplements in rations for hogs always has been profitable. Some farmers have failed to use these supplements, though, because of their cost. Now that grain is so high, the cost of protein supplements is relatively low. So if the use of supplements is more important one time than another, now is that time.

It looks now like the farmer who has a flock of good pullets in the laying house next fall will get good prices for eggs. The better care you take of pullets now, the better they will be able to stand up under the strain of heavy laying next fall.

Benzene hexachloride, recommended by swine specialists at agricultural colleges for control of hog lice and mange, now is being incorporated in hog oils that can be used in dipping vats, hog wallows, hog oilers or on rubbing posts.

Reviving Grindstone

This farm grindstone, although badly battered about its entire diameter and worn quite flat in one place, was easily trued-up by dressing it with the sharp-pointed tool shown attached to the small board. The dark "cutting tip" of the tool is made of carbide cemented carbide, the hardest metal made by man.

Tests Show Tung Meal Poisonous to Chickens

Tung meal proved unsatisfactory as a source of protein in chick rations in tests conducted at the Florida agricultural experiment station. The tung meal proved poisonous, whether raw, heated or heated and sifted. It caused heavy mortality at 10 and 15 per cent levels. At 5 per cent and higher levels the tung meal interfered with feed utilization and growth.

Fly Immunity to DDT Is Debatable Question Some Insects Develop Strain of Resistance

Do flies become immune or resistant to DDT after it has been used for a few years?

This question arises from the fact that a few fly-control failures on farms where DDT was effective in other years have been hard to account for. The explanation was that the flies probably had become resistant to the chemical.

Uncle Sam's entomologists admit that insects can develop resistance to the insecticides used against them, as in the case of the apple codling moth against which lead arsenate lost its effectiveness. Moreover, Uncle Sam's bug men say they have, in the laboratory, been able to develop a DDT-resistant strain of flies. It is not likely that a DDT-resistant strain would develop naturally in the short time since DDT was first used.

It is more reasonable to believe that the occasional failure on farms where DDT already has been used with good results is due to carelessness or inferior product.

One thing in particular that should accompany the use of DDT is the destruction or removal of fly breeding places, such as manure piles, weed piles, old stack bottoms and wet spots in barnyards. One or more such spots may be able to turn out flies faster than DDT can kill them, for DDT is not noted for fast action. A fly may survive for hours after alighting on a surface coated with DDT.

Herds and Flocks

New insecticide, pyrethone, has proved its effectiveness in control of flies on livestock. Better than some of the old-time fly killing insecticides, the new material is being used now in some livestock fly sprays.

and a host of other FREE prizes as well. Watch this newspaper for our next ad telling how you can win valuable FREE prizes for yourself!

- 1st Prize: "Silver King" Bike
- 2nd Prize: Philco Portable Phonograph
- 3rd Prize: Basketball and Goal
- 4th Prize: Spartus Full-View Camera
- 7 Additional Prizes—Including Roller Skates, Wrist Watches, Compacts, Kits, and other valuable gifts.

Contest Starts Tuesday, Aug. 2 - Ends Wednesday, Sept. 15

Don't Wait! Get Started At Once! It's Easy To Win A Prize! You Do Not Have To Spend One Red Cent To Enter Contest

Rules Of Campaign

Contestants must come to the store in person.

Must be voted for by self or a friend.

Must be voted for at the time of purchase and transferable after they are deposited in ballot box.

Ballots will be given out after the contest on the last day of the campaign having the greatest number of votes.

Ballots will be given to each contestant at the contest.

Ballots will be given at the rate of 1000 for every \$1000 of our store (2,000 for every \$2,000) and double vote will be given with every \$1000 for passing.

Positively no soliciting or campaigning for votes inside or directly in front of store.

The standing of contestants will be announced daily on bulletin boards in our windows.

Votes With Pass-Out Cards

2,000 votes will be given to the boy or girl who passes out special vote cards. These cards must bear contestant's name and must be presented by purchases at time or purchase in order to obtain these additional votes.

Registration Day

Every Tuesday during the contest, any adult coming to our store and simply entering their name will be entitled to 1,000 votes. Get your friends and rela-

tives to come in and register and vote for you every Tuesday. No purchase required, however, on this day, we will give double votes if purchases are made.

Double Vote Day

Every Thursday during this contest . . . we will give double votes. 2,000 with every \$1.00 purchase. Get all your friends to buy on Thursday and get twice as many votes cast for you.

Old Shoe Day

Every Monday during the contest we will give 2000 votes for every pair of old shoes brought into our store. Shoes must be tied in pairs. A limit of 100 pairs of old shoes from each entrant for any one Monday. These shoes will be turned over to Charity at the end of contest.

In Demonstration

PARALYZED from the waist down in a mining accident, Everett Boggs, of Cumberland, Ky., demonstrates how he learned to walk up and down stairs with the aid of leg braces and crutches. He was one of 400 miners to participate in a miners' rehabilitation program in New York. (International)

IN THE DISTRICT COURT OF EDDY COUNTY, STATE OF NEW MEXICO

IN THE MATTER OF THE LAST WILL AND TESTAMENT AND ESTATE OF D. E. BUCKLES, DECEASED

No. 10,242

NOTICE OF HEARING OF FINAL ACCOUNT AND REPORT AND PETITION TO INTERPRET WILL, ADJUDICATE HEIRSHIP OF SAID DECEDENT.

AND TO DISCHARGE EXECUTOR AND CANCEL EXECUTOR'S BOND.

STATE OF NEW MEXICO TO: Chester R. Buckles, nephew, Mahomet, Illinois, R. C. Buckles, brother, Troy, Ohio; and all unknown heirs of D. E. Buckles, Deceased, and all unknown claimants, claiming any right, title or interest in and to said estate; and all of the unknown heirs of the unknown heirs of the said D. E. Buckles, Deceased; and to whom it may concern:

Notice is hereby given that C. E. Mann, the duly appointed, qualified, and acting executor of the Last Will and Testament and Estate of D. E. Buckles, Deceased, has filed his Final Account and Report as executor, with the District Clerk of Eddy County, New Mexico, together with his Petition, praying for the adjudication of the heirship of said decedent, for the interpretation of the Last Will and Testament of said decedent, for the order for distribution of the residue of the assets of said estate, for his discharge, and for the cancellation of his executor's bond therein; and the discharge of his bondsmen; and the District Judge of the District Court of Eddy County, New Mexico, has fixed the 10th day of September, 1948, at the hour of 2:00 o'clock P.M., in the office

of the District Judge of Eddy County, at Carlsbad, Eddy County, New Mexico, as the time and place for hearing of objections, if any, to said Final Account and Report, the interpretation of said decedent's Will, and the discharge of said executor and the cancellation of his executor's bond, and the discharge of his bondsmen, and the District Court, at said time and place, will proceed to examine and inquire into the Final Account and Report, and if found to be correct, will approve same, and will interpret the Last Will and Testament of said decedent, and adjudicate the heirship of said decedent, and order the distribution of the residue of the said estate to the person or persons found by the Court to be entitled thereto, and discharge the said executor and cancel his executor's bond and relieve his bondsmen of further liability thereon.

G. U. McCrary, whose post office address is Artesia, New Mexico, is attorney for the executor.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the District Court of Eddy County, New Mexico.

Premium Awards For State Fair Are Increased

An increase of about \$10,000 in the cash premium awards for livestock at the 1948 New Mexico State Fair, Sept. 19-26, has been approved by the state fair commis-

sion, Leon H. Harms, secretary-manager, reported. "Livestock exhibitors in the 1948 fair will compete for about \$50,000 in cash premiums, the highest amount ever offered by the New Mexico Fair, Harms said. Clyde Tingley, chairman of the state fair commission, said the increase in premiums is being made in recognition of the increasingly important part the livestock in-

dustry plays in the economy of New Mexico. To encourage the continued participation of the excellent quality of livestock shown in past years, the fair commission approved the increased expenditure for livestock awards, Tingley said. The New Mexico State Fair has become one of the largest and best in the Southwest and the livestock exhibits have played an important part in building the fair to its present degree of success, he added. Harms said early indications point to the largest list of entries in the fair's 11 year history. The increase in cash premiums is an added incentive to the breeders of fine horses, cattle, and other livestock to enter their animals in the fair, Harms said. He added that entries are expected from every county in New Mexico and from all of the surrounding West-

Cotton Quotes

"The blame for land damage has often been placed on cotton. That, of course, is unfair to the crop. The real culprit has been too much of the practice of continuous planting of cotton and other intertilled crops, especially corn and tobacco, on unprotected sloping land. . . . Of the row crops, corn, tobacco, peanuts and soybeans can all be harder on the land than cotton." Soil Conservation Service report to cotton subcommittee, House of Representatives.

"If our present knowledge of cotton production was put into effect on every cotton farm tremendous improvement could be made almost immediately."—Dr. C. C. Murray, director, Georgia Experiment Station.

"If badly depleted soils could talk, they would beg for nitrogen, phosphorus and potash. Above all, they would ask for plenty of organic matter with which to make humus."—C. F. Lund, Arkansas extension soils specialist.

"Ralph Bell of Lee County, South Carolina, mounted cotton choppers on the front of his tractor and cultivating equipment on the back of it. Thus, one man was chopping and cultivating 15 to 20 acres of cotton daily."—J. M. Eleazer, Clemson extension specialist.

"Maintenance of a sound economic position of the cottonseed industry is of vital importance to southern agriculture. Cottonseed is the principal source of livestock protein feed for the South and is, therefore, the backbone of southern competition in the food markets of America."—Dr. W. D. Harris, Texas Experiment Station.

Poultry Raisers Overcome Costs With Good Birds

Higher feed cost is another challenge to successful poultry raising, but 4-H Club members taking part in the project are meeting this problem by good care of the flock and the keeping of quality producing birds.

One major objective of the 4-H'ers taking part in the 1948 National 4-H Poultry Achievement program is to find the place of poultry in the economy of the general farm. To do this, they study scientific developments in poultry production and demonstrate the application of new findings to their own poultry flocks.

Awards for outstanding records in the program include medals for county winners, National 4-H Club Congress trips for state winners, and \$200 college scholarships to each of 10 national winners.

Last year's state winner in New Mexico was Charles Franklin of Melrose.

Winners of county medals in New Mexico last year were Weldon Neel, Bernalillo County; John Townsend III, Presley Donaldson, Eddie Casper, Bobby Bursey, and Fred Mulloy, Dona Ana County; Wade Green, Eddy County; Bruce Bradford, Cody Sullivan, Pedro Mares, Alfredo Flores, and Albert Dee Sims, Guadalupe County; Roland Elkins, San Juan County, and Leta Roa Campbell, Union County.

Youth Building To Be Used At Fair This Year

Leon H. Harms, secretary-manager of the New Mexico State Fair, has announced that the \$200,000 youth building now under construction on the fair grounds, will almost be completed this year. By Sept. 19, opening day of the 1948 State Fair, facilities will be available to house and feed 1000

boys and girls. Earlier plans had called for facilities to house and feed only 500 youths this year, Harms said. At a recent State Fair commission meeting, it was decided to appropriate additional funds to rush the building to completion according to the original plan, he reported.

When finally completed the building will have one dormitory for 600 girls and one for 600 boys, with a central dining hall and kitchen. The dining hall can be converted to a 1000-seat auditorium. Members of 4-H Clubs, Future Farmers of America, Future Homemakers of America, and other youth organizations will be housed in the building. Space for most junior exhibits also will be available in the new building.

Harms said 500 Army surplus double bunk beds have been purchased from the War Assets Administration and will be installed before this year's fair. Both boys' and girls' dormitories will be closely supervised by adults, he added.

The building will be operated on a non-profit basis with a small fee being charged for sleeping quarters and meals.
