Cruces Scribe Says Jack Tinson Has Slipped Out

Jack Tinson, the new football coach at Artesia, is another localite who slipped out from underneath our fingertips, writes Terry Callahan in "Sport Shorts," a column in The Las Cruces Citizen. He continues:

His past record can be matched by few coaches in the country. To bring out a few highlights, won both basketball and football letters in college .In pro football, he played these same two sports, at the same time he was coaching at a private school in

Columbus, Ohio. In 1932 he turned to take a position that most coaches with his background would have refused. He went to McKeesport, Pa., to take over the reins of a team that had not won a game in five years. From what his friends tell me, this is the way that Jack likes it, just as rough

and tough as is possible. With McKeesport, he won 29 games in one stretch, four years of undefeated ball, at the same time he was coaching basketball and golf. After 11 years at McKeesport, during which time he became a very close friend of Paul Brown, present mentor of the Cleveland Browns, Jack moved on to Cory, Pa., for two years and then on to

Louisville, Ky., in 1945. While in Kentucky, his daughers came down with a sinus and Jack was told to leave with his famlew Mexico Boys State at El al for the state, county commission- ily for the Southwest. Advocate To Expand

OR MORE THAN TWO YEARS The Artesia Advocate has endeavored to get into the position of increasing its frequency of publication. It as now definitely announced that the paper will e published twice a week, starting in September.

We have looked forward to being able to make ement for these many months. We had hree problems facing us. One was the securing of nt; the obtaining of additional help in the ont office and the obtaining of sufficient help in he back office.

We have not as yet, obtained as large a stockof newsprint as we desired or were promised. nt we hope and expect that we will have this be-ore September. It has been promised.

And we, of course, refer to buying newsprint We Want Inside Turns ular market price and not on the black maret. The newsprint situation has improved and is

in the back shop between now and the date we go twice a week.

For more than two years we have been endeavoring to obtain a flatbed web perfecting press-a press, which feeds from a roll of newsprint and which produces a folded eight-page paper. This is not only a time saver as well as a man-hour saver, but it also does a complete job. We have not as yet acquired that press, but we expect to obtain it.

We can produce the twice-a-week paper on

There are some details to be worked out regarding the twice-a-week paper, such as the exact ate the first issue will be published, as well as the day the paper will be printed. It is likely the days will be Tuesdays and Fridays and we expect to step up the frequency of the paper by the middle of

The announcement that The Artesia Advocate ld be published twice a week is just another The People Speak step in the expansion program of The Advocate. We have continued to try to improve our shop, our equipment, our facilities and the service we can render and are rendering to our community.

We expect to continue this progress as busitimes per week and then when the community will trict. support it, to publish The Advocate daily.

The circulation has grown from 2230, our first ABC report, to over 2500 at the present time. There has been no effort to increase our circulation. We feel sure it will continue to grow and that eventually it will reach the 3000 circulation mark.

Many months ago we added the second linotype machine; we added the Miehle verticle automatic press and we have installed other equipment needed to serve the community with best service possible both from the standpoint of commercial printing and from the newspaper service.

And we shall continue to do this in the weeks and the months ahead.

After all, The Adovcate is a local institution striving and seeking to help build a greater Artesia; providing jobs; providing a payroll and making its contribution to the growth and expansion of the

And it is our pledge that this progress and expansion will continue in the weeks and months ahead as business conditions will justify and warrant.-0.E.P.

The Heart Of God

THE FURNITURE OF AN ALTAR is but the symbol of religion . . . in the face of a flower heart of God is revealed."

Thus Nora Waln, author of "Atlantic Harvest." ed an abbot in China, whose flower garden was cept from sliding down the mountainside by a low wall of carefully-placed rocks.

The Chinese, it seems, appreciate Nature and see a living God in flowers.

We believe that many of us in America, those who perhaps are not overly religious, although not conscious of the thought, subconsciously have the

We wonder if that is why we like to go to the ntains. Many times we have said that nothing delights us more than to sit under and lean against a tall evergreen on the side of a mountain—and

When one just sits and looks out over the vistas a vantage point high on a mountain, he can eel his own minuteness and realize the vastness and odness of Nature, just as he can when gazing at myriad stars at night.

Surely the Chinese was right, but he did not far enough.—A.L.B.

She Stands For Justice

THE STATUE STANDING WITH THE SCALES in one hand above most of the court houses of our land stands for justice.

It is our desire as American citizens that all individuals accused or charged with a crime be given a fair and just and honest trial. Our American system provides that all individuals are innocent until proven guilty.

Not only our system of government provides for this but the law provides for this.

Individuals are not placed on trial by officers. Officers are charged with the responsibility of enforcing the laws, making arrests and gathering evidence. They do not have the authority to convict individuals or to try these individuals.

Under the American system of government, all individuals have certain rights and privileges under the law. It is just as much the duty of the law enforcement officer to see they enjoy these rights as it is their duty to see they obey the law or that they arrest them for violating the law.

Unfortunately this is not always proven to be

It has been learned that not only are the rights of individuals being denied prisoners in Dona Ana County, but they are being denied these rights in other counties of this state.

It has been learned that far too often some of the so-called courts of justice are no more than "kangaroo courts"-courts where the prisoner is convicted before he is tried, before the evidence i heard and sometimes even before he is brought be fore the so-called bar of justice.

It is up to the citizenship of the community to know what is going on in its courts. It is up to the citizenship of the community to know whether i has a court of justice or whether it has a "kangaroo ourt." It is up to the citizens of the community to grant the rights and privileges of all Americans to see that the officers and officials in that community see that the officers and officials in that community assembled for public showing, will citizens. The mere fact some individual has been be held here, July 1 to 4. arrested and charged with a crime is no proof that he is guilty of that crime.

He is entitled to a fair and just trial in a court f justice. It is the duty and responsibility of the state to prove his guilt, not to judge him before National Advisory Committee for themselves with different kinds and trial is held .- O.E.P.

MARABLE of Roswell brought out at the Artesia Rotary Club lunch-We have secured additional help for our front eon last week a point we have made numerous times cast of leading Broadway and Holly- their 21st, are eligible to particioffice and we hope and expect to have the full staff and have tried to have enacted into a city ordinance, wood stars. that of making left turns inside of the center of an intersection, rather than a wide, sweeping turn such County Agent as is necessary when one goes around the marked or unmarked center spot.

By means of a blackboard and chalk, he demonstrated the feasibility of the inside turn, which has less tendency to lead to a traffic snarl than the buggy days, when a large vehicle had to have plenty of space for a turn.

AIR NATIONAL GUARD CAN WEAR NEW BLUES' of space for a turn.

Officer Marable pointed out that when two cars meet at an intersection and both turn outside, they cross each other's path twice, whereas inside turns speed up traffic and cause the smallest post to protect themselves against fu- Maj. There oughta be a law!-A.L.B.

investigate, to check and to determine what sort and kind of job public officials are doing and to downward procession and productive and kind of job public officials are doing and to downward procession and productive items has been held up by priority a needed donation this week to the new city hospital, which is nearing one of the most effective methods ness conditions will justify. We hope and expect determine whether there are those favored few ers are caught in the squeeze that considerations but will soon be new city hospital, which is nearing eventually to step the paper up to probably three among the citizens of any county or of a court dis. forces many to bankruptcy."

It is perhaps possible that grand juries have not been used as much as they should be.

It is possible that if grand juries had been financial reserve and have the addcalled into session more often that much of the po- ed advantage of being readily turn- detectives working regularly." litical graft and corruption, which has been per. ed into cash in an emergency, mitted to prevail over the nation, would never have

Over in Dona Ana County, the citizens had one along with "rotten politics" for many years. heavily in savings bonds during It was a well-known fact that slot machines were the present 'Opportunity Drive'. operated not only in private clubs, but in other places of business. It was a well known fact that the now famous Valley Country Club had operated apparently with the blessings of state politicians.

It was known that even invitations were sent out to some to pay in \$100 per week for the privilege of operating slot machines.

not been solved. But it served to show the way. It served to arouse the good people to the fact that all was not as it should be.

And they decided it was time for a complete and thorough investigation of their affairs and of their government.

The outcome of the investigations of that grand jury are being watched with a great deal of interest the 1947 figure. Accidents / re over the state. And there is little question but what reduced 14 per cent and injuries other counties may follow the example that has been set in order to eliminate graft and corruption in politics in the various counties if any exists.

When the conditions become bad; when the public becomes convinced their officials are not performing their duties and their tasks; when the him. Tell him I'm ill." public realizes that it is time for them to demand that the officers perform their duties; that the laws be enforced and clean and honest government prevail-they can do so by calling a grand jury to investigate their affairs.

And most of us would be far better off by calling such a grand jury to halt these practices before they get started than to seek to halt them after they have gotten underway.-O.E.P.

The difference between a statesman and a politician is that the first works for the public and the second has the public working for him.

A bridge expert in Michigan will undergo an operation. Your cut, doctor!

Pity the lowly hen-her son will never set.

National Air Fair Slated July 1 to 4

GRAND JURIES are for the purpose of permitting the people to speak—to permit the people to investigate, to check and to determine what sort investigate, to check and to determine what sort investigate, to check and to determine what sort investigate.

Rierson describes agriculture as highly speculative business in which safe financial reserves are needed. "Savings Bonds are a safe done for humanity?" he emphasizes. "Therefore, I hope SUBSCRIBE TO THE ADVOCATE Tuesday afternoon, entertaining that Eddy County farmers and ranchers, for their own good and the good of the nation, will invest

Air Force Receives Honor Safety Award

Washington (AFPS) - The Air Force has received the National Safety Council Award of Honor for outstanding improvement in Then along came a vicious murder that has its motor vehicle accident rate in the United States.

The honor went to the Air Force because of the reduction in the number of accidents and injuries by their motor vehicles dur ing 1948. The Air Force operated vehicles a total of 105,700,000 miles, an increase of 1,800,000 over 54 per cent.

This is the USAF's newest penetration fighter, the XF-90. It is designed to operate deep within enemy territory against enemy aircraft and ground targets. The fighter has two turbo-jet engines and it employs 35 degrees of swept-back wing. Flight test data was obtained through the use of six steel and plastic models. Serve Cottage Cheese Often

wholesome cottage cheese creamed to luscious smoothness.

Noodle Cheese Casserole served with broiled tomatoes adds up to a good luncheon or supper dish. For 6 servings cook 6 oz. noodles in boiling, salted water until just tender. Drain and rinse well. Mix 2 thsp. flour, ½ tsp. salt and dash of pepper in bowl. Add one c. sour cream; stir until smooth. Fold in one c. sieved cottage cheese. Add noodles and ½ tsp. grated onion. Mix well. Turn into buttered shallow baking dish (one qt.). Sprinkle with paprika. Bake at 50 F. for 20 min. or until browned. For a pleasant, healthful salad, mix one c. cottage cheese and tbsp. chopped parsley. Dip cottage cheese by spoonfuls and roll in one c. coarsely grated carrot. Serve on greens with dressing as a salad, or serve as an accompaniment to green salad. Makes 3 to 4 servings.

SPRING is cottage-cheese time, and the wise menu-maker includes plain and vegetable salad cottage slices; peel. Sprinkle both sides with snacks. Dieters dote on creamy wholesome cottage cheese creamed to luscious smoothness.

Noodle Cheese Casserole served.

FARMERS MUTUAL HAIL COMPANY

FIFTY PLACENT (50%) QUOTA SHARE HAIL

This agreement is made in duplicate and entered into on the 16th. day of May, 1949 by and between the FARMERS MUTUAL HAIL INSURANCE COMPANY OF IOWA, Des Moines, Iowa, hereinafter referred to as the "Reinsurer", and the FARMERS-MUTUAL HAIL COMPANY, Artesia, New Mexico, hereinafter

ARTICLE I.

The Insured agrees to cede to the Reinsurer and the Reinsurer agrees to accept from the Insured Fifty Percent (50%) of the Insured's liability on each and every risk assumed by it during the year 1949 by way of direct insurance against hail damage to growing wheat and cotton crops located in the State of New Mexico, up to an aggregate premium cession to the Reinsurer of One Bundred Thomand Dellars (3100,000,00).

The Insured shall retain at its own risk Fifty Percent (50%) of each and every risk ceded to the Reinsurer.

It is further agreed that if the Insured assumes risks with an aggregate premium in excess of Two Hundred Thousand Dollars (\$200,000.00), then the Fifty Percent (50%) of the risks to be ceded by the Insured to the Reinsurer as provided above shall be reduced to such a percentage as One Hundred Thousand Dollars (\$100,000.00) (\$100,000.00) bears to the total aggregate premium on the risks assumed by the Insured.

The rates of premium charged by the Insured under this contract shall be the rates charged by the Insured on its risks assumed as set out in its rate chart, a copy of which is hereto attached.

The obligation of the Reinsurer commences and expires in all cases simultaneously with that of the Insured and is subjected to the same conditions, stipulations and valuations assumed by the Insured under its original contract or policies reinsured hereunder

The Reinsurer agrees and obligates itself to follow the fortune of the Insured in every respect with its quota share as fixed in Article I. of this contract with regard to alterations, cancellations, losses, errors, and advices, as well as every other detail of the business is question. of the business in question.

In witness whereof the Reinsurer has caused this contract to be signed by its President and attested by its Secretary on this 26th day of May, 1949.

Phil Perry And At Rotary Meet

Phil Perry, who was co-sponsored by the Artesia Rotary Club and American Legion at New Mexico Boys State at El Rito last week, gave an interesting report on the week's activities Tuesday noon at the weekly Rotary luncheon.

Also on the program was R. L. Paris, chairman of the club's ruralurban relations committee, who pointed out the necessity of people in the city and rural areas working together in order to get things accomplished.

As an example, he said the cotton compress plant, now building north of the city, would not have been obtained if it had not been for the co-operation and united efforts of the city people through the Chamber of Commerce and the

Perry's report was similar to that given for all of the local boys at Boys State in another news story n this issue.

He said he feels personally that e and the other boys gained considerable knowledge about running of the government through the classes and activities of the week. Irrigation Water Young Perry was accompanied by J. T. Easley, commander of the Forum Is To Be American Legion post and chair-man of the post's Boys State committee, who spoke briefly of the attainments of the six boys sent from Artesia.

NORMA GAYLE GRAY IS BORN AT HOSPITAL

Norma Gayle, daughter of Mr. and Mrs. Doyle Gray, was born Wednesday of last week in Artesia Memorial Hospital.

The Best Things in Hudson Cost Nothing Extra!

... but just try to buy them in any other car at any price!

You're not asked to pay extra for the extra beauty you get only in Hudson-or for any of the other advantages that make the New Hudson-America's "4-Most" Car!

1 - MOST Beautiful! A low build is for really modern beauty, and the New Hudson, thanks to "step-down" design, is the lowest car of all—yet there's full road clearance.

2 - MOST Roomy! The most seating room, leg room to spare, amazing head room...the most comfort as you ride ahead of rear wheels and within the base frame, down where riding is most smooth, most relaxing.

3 - MOST Road-worthy! Hudson, with exclusive "step-down" design and recessed floor, achieves lowest center of gravity in any stock car.

Result: the safest, most hug-the-road ride ever known—plus the advantages of unit body-and-frame construction.

4 - MOST All-round Performance! Choice of high-compression Hudson Super-Six engine, America's most powerful Six, or the even more powerful Super-Eight.Center-PointSteering for easiest handling. Triple-Safe Brakes for utmost safety. Many more highperformance, low-upkeep, features.

Yes, the new Hudson is so far ahead, it is a protected investment for your motor car dollars. See for yourselfwith a thrilling Revelation Ride!

From their cash income, farmers and ranchers paid out large amounts for stock, feed, labor and other operating costs.

Milk By-Products Hold

Infant Food Source An infant food made from edible by-products of milk may soon open a new market for dairymen in tests w going on in Mexico continu show favorable results. This is he conclusion drawn by Dr. Harold Macy of the University of

Dr. Macy and Irvine McQuarrie, pediatrics head at the university, have visited Mexico where they conferred with leading pediatricans on the tests.

The new baby food will offer pportunities for use in many counries if future experiments prove

Calf Which 'Sits Down' Interests Veterinarians

Cattle don't sit down ordinarily, o it was news when the American Veterinary association expressed professional interest in the strange case of a Hereford calf on a farm in Tennessee. The AMV journal said the Tennessee calf often sits on the ground with her hind legs sprawled forward.

The calf usually lies down again before trying to rise to all four feet, the journal reported.

Uncle Sam Says

Flag Day, June 14, holds significance for every American. Under the waving Stars and Stripes each citizen knows that he still possesses the most cherished of all ambitions—freedom and opportunity. He also knows he can retain these just so long as our country is economically sound, and he knows, too, that one of the most effective methods ever devised to keep it strong is an investment in U. S. Savings Bonds. Your purchase of Savings Bonds strengthens not only your own economy but your country's as well. If omy but your country's as well. If you are not now enrolled for the Payroll Savings Plan where you work or, if self-employed, the Bonda-Month Plan at your bank, now is your BIG CHANCE to start.

Mermis Invents Devise To Unscrew Heavy Pipeline Lengths Rapidly

Alfred (Fred) Mermis of the Mermis Welding Service, with which he and crew completed the six miles of seven-inch water pipeine in the amazingly short period of eight days.

And the device itself is amazing n its simplicity of operation.

In the main, it is a wrenchlike ontrivance, which is attached to one end of a joint of connected pipe

mple, but that is the general idea. Mermis explained that the pipe be recovered for the Southern Inion Gas Company, which had

hat the wrenchlike contrivance could be placed over the end of This can be quickly he pipe. lamped down to grasp the pipe And then the power hrough the take-off was applied, rning the joint of pipe.

Asked if a tight joint at the far nd of the length of pipe being crewed might not cause the ento stall, Mermis said the power great that "something has to preferably the threaded

Mermis said the same hook-up ld be used for jointing lengths ipe, but that it would be necesto build in a clutch or gauge ome sort, so that when the reads were seated properly, there ould be no further turning or anger of twisting a pipe in two. In order to make it possible to ip the wrench over the end of a ength of pipe readily, there are hree universal joints built in beween the power take-off and the vrench itself. This speeds up oprations, making it unnecessary to se the pipe section to an exact eight or backing the truck too ex-

As it is, the wrench head can be slipped over the pipe and secured readily. In fact, Mermis said, the rew averaged about 100 joints a ay and that at times an operation Mermis said that

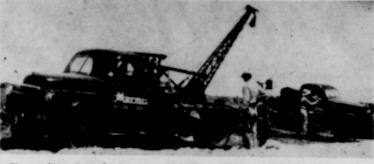

were to be operated regularly the ruck cab could be reversed, so the driver-operator would be facing the winchline and take-off, making for easier operation.

(Mrs. Earl Smith)

Mr. and Mrs. G. T. Lunsford and children, Glenda Gene, Tommy and Gary Duane, of Artesia have moved to the S. P. Yates lease house south of Lucas Store, formerly occupied by Mr. and Mrs. Andy Melton and children, who have moved to the R. R. Woolley Camp house formerly occupied by Mr. and Mrs. Charles

Mr. and Mrs. Rufus Swinford and son, who left Maljamar about a year ago to live in Pampa, Texas, are moving here and will live in the Carper Camp. Mr. Swinford is employed by Carper Drilling Company. The Swinfords are staying tempor arily with Mr. and Mrs. E. L. Clark at the Simon lease until they can get their furniture moved here. Mrs. Swinford owns and has been operating a beauty shop at Pampa, Texas, which she is selling. The son broke his left arm above the elbow a month ago and the arm is still in a cast.

Guests in the Pat Ranspot home are their daughter and grandson, Mrs. J. R. Sargent and son, of Monahans' Texas and Mrs. Ranspot's parents, Mr. and Mrs. W. C. Knight of Sheffield, Texas. Mrs. Ranspot went after them and brought them

with her parents.

Mr. and Mrs. Glen Brown and daughter, Glenna, have returned ask of taking up and disjointing from a 3700-mile vacation trip. They were gone two weeks, during time they visited Brown's parents, Rev. and Mrs. Lonnie Hill and children at Qua-

and is then turned by means of the winch take-off of a truck. Of course, it is not quite that

bought the six miles from the Potash Company of America, was first exposed by means of a ditching machine. Then joint by joint, the open end of each was raised by means of a sort of claw on the end of the winchline to approximately a certain height out of the ditch and bove the ground. The claw permits he pipe to turn within it.

Then the truck was backed so
