Cletha Newton, Former City Resident, Married on Coast

In a ceremony solemnized recently at the Evangelical United Brethren church in Riverdale, Calif., Cletha Jane Newton, formerly of Artesia, became the bride of Jack Meisenheimer. Rev. D. E. Kenney performed the ceremony.

The bride, who was escorted down the aisle by her father, Walter Newton, wore a white nylon net over satin ballerina length gown with a wide overpanel of lace. A fitted jacket with long pointed sleeves and a Peter Pan collar was worn over the strapless bodice.

The bride's chapel length veil was held in place with a pearl tiara. Her old fashioned nosegay bouquet contained pink roses in the center with white carnations on the outside and white satin streamers.

A ballerina length mint green net over taffeta was the attire worn by Betty Dostinich, the maid-of-honor.

The bridesmaids, Beverly Godker and Charlene Harp, wore ballerina length ice blue net over taffeta frocks. Their old fashioned nosegays had white carnations in the center and pink carnations on the outside. They completed their ensembles with pink carnations in their hair.

The ushers were Mac Hester, the bride's cousin, and Richard Meisenheimer, brother of the bridegroom.

Nancy Wheat was the flower girl. She wore a floor length pink

net over taffeta gown. Her white basket was laced with blue.

The bride's mother, Mrs. Walter Newton, wore a blue shantung suit with navy and white accessories. Her corsage was pink carnations.

Mrs. Basil Meisenheimer, the bridegroom's mother, wore an orchid shantung suit, with pink and black accessories. Her orchid corsage was of carnations.

Reception Follows—
Mrs. Betty Wheat, registered the guests at a reception held in the church social hall.

The bride's table was covered with a white linen cloth. The five-tiered cake was served by the bride's aunt, Mrs. Dewey Hester, and Mrs. W. P. Golden, life-long friend of the bridegroom's family. Punch was served by Mrs. Jess Tode and Mrs. Ivan McClung. Miss Marian Hawkins, and Mrs. Harold Oddy had charge of the gifts.

The bride changed to a powder blue suit with white accessories before leaving on a honeymoon trip to San Francisco.

The bride graduated from Artesia high school with the class of 1947. She was a member of the Order of Rainbow for Girls. She attended Fresno State College and is a teacher in the Jefferson school in Selma, Calif.

The bridegroom attended schools in Fresno. He served 3½ years in the Navy. He is employed in Selma by Pacific Telephone and Telegraph Co. His parents are Mr. and Mrs. Basil Meisenheimer of Fresno.

Daniel E. Booker Takes Martha Jean Jones Of Fernandia Beach, Florida, As Bride

At Fernandia Beach, Fla., Sunday afternoon, June 21, Miss Martha Jean Jones, daughter of Mr. and Mrs. Jess Jones of Fernandia Beach, Fla., became the bride of Daniel Emery Booker, son of Mr. and Mrs. Glenn Booker of Artesia, in the First Baptist church.

MR. AND MRS. DANIEL E. BOOKER

Officiating at the double-ring ceremony was Rev. John Hunt. A program of organ music was played prior to the ceremony by Mrs. Stover. Traditional wedding marches were used in the service. Claude Haddock, soloist, sang, "Ah Sweet Mystery of Life."

The altar of the church was adorned with fan-shaped arrangements of white gladioli and carnations against a background of magnolia foliage. Branched candelabra holding burning white tapers cast a soft glow over the scene. The family pews were marked with white carnations tied with large white ribbon bows.

Groom's Attendants—
The bridegroom had Joseph Ray Holcombe as his best man with Reese Booker, his brother, and Roger Howard as ushers.

The bride chose her sister, Mrs. Mary J. Mitchell, as matron of honor. She was gowned in pale blue marquisette with a matching lace yoke, fitted bodice and a full floor length skirt. She carried a bouquet of pink carnations.

The bride, given in marriage by her father, chose a gown of white marquisette with a lace yoke and bertha collar, the voluminous skirt fell in a graceful cathedral train. Tiny lace covered buttons extended down the front of the fitted bodice. The long sheer sleeves of the gown ended in calli lips points over the wrists.

Her fingertip veil of sheerest silk illusion was attached to a tiara of pearls. She carried a bouquet of white orchids and lily of the valley.

Mrs. Jones wore a pink linen dress with matching lace bodice, navy accessories and a white carnation corsage.

Mrs. Booker selected a huge linen dress with matching lace insertions in the skirt, beige accessories and a red rose corsage complimented her costume.

Reception Held—
A reception was held at the home of the bride's parents immediately following the ceremony for the wedding party, family and close friends.

The dining table, overlaid with a lace cloth, was centered with a crystal candelabra holding burning white tapers and balanced by the punch bowl and the three-tiered wedding cake topped with a miniature bride and bridegroom and embossed with clusters of roses.

Mrs. Booker cut the cake and Nancy Booker, sister of the bride

groom, and Joyce Jones, sister of the bride, presided at the punch bowl. Miss Norma Jean Crosby kept the bride's book. A delicious buffet supper, consisting of salad, sandwiches, canapés, nuts, mints, wedding cake and punch was enjoyed by the guests.

The couple left during the evening for Elizabeth City, N. C., where the bridegroom, who is in the U. S. Navy, is stationed.

Sharkskin Suit—
Mrs. Booker traveled in a white sharkskin suit trimmed in navy with matching accessories and white orchid corsage.

Out-of-town guests were Mr. and

Mrs. Glenn Booker, daughter, Nancy, son Mike, and Mr. and Mrs. Reese Booker, all of Artesia.

Mr. and Mrs. Glenn Booker entertained at the Sea Side Inn on Saturday evening, June 20, honoring the young couple following their wedding rehearsal.

A delicious dinner was enjoyed by the honored couple, their family, out of town guests and members of the wedding party.

The greatest width of the Pacific ocean is 11,000-mile stretch between Panama and the western part of the China sea.

Baptist Circle Sends Clothing

Members of the Homemakers circle of the First Baptist church prepared a box of clothing to be sent to the children's home in Portales at an all-day meeting on Thursday in the educational building.

Mrs. Robert Corbin, circle chairman, presided over the business meeting and Mrs. C. L. Hefley led in prayer.

At noon a covered-dish luncheon was served. Members visited and quitted in the afternoon.

Those present were Mmes. J. M. Story, M. W. Evans, J. G. Kille, E. B. Everett, W. P. Porch, G. T. Hearn, F. E. Murphy, W. C. Brown, J. S. Mills, C. L. Hefley, Charles Ransberger, A. G. Bailey and Robert Corbin, members, and Miss Barbara Everett, a guest.

Story League Members Hear Report On Central District Convention

Members of Artesia Story League were entertained with a soft drink party Tuesday morning, July 7, at the home of Mrs. F. A. Houston, president. Assisting Mrs. Houston were Mrs. Cecil Mitchell and Mrs. Ted Maschek.

Convention reports were given by six local league members who attended central district story league convention held in Wichita Falls, Texas, June 3-6.

Mrs. Owen Haynes reported on the groups' departure from Artesia and the hospitable welcome given them at the Kemp hotel convention headquarters by Wichita Falls story tellers. She also spoke on the reception held the opening night of the convention.

Mrs. Carl Lewis told of the day spent at the Bradley ranch, 20

miles west of Wichita Falls, Texas, and study sessions reported by Mrs. John A. Mathis. Mrs. Mathis also spoke of a luncheon held in Hotel Keesler square dance and story hour held at Harold Park and

cribbed by Mrs. Maschek.

Mrs. Houston reported golden anniversary banquet the evening of June 5 commencing story league's 50th birthday celebration. Newly elected officers were installed at that time by Mrs. J. Insall, national president.

A farewell breakfast was at the Women's Forum building was reported by Mrs. J. Mathis. Members were shown favors given to local delegates at the convention.

It was reported that the national story league convention will be held in Wichita, Kan., in June.

Refreshments were served by Mrs. D. D. Archer, Dave J. J. Clarke, Jr., M. A. Conner, Thad Cox, Robert Griffin, single, Hager, J. T. Haile, Owen Knorr, Donald Knorr, Carl Lewis, Mathis, Jr., F. M. McGinty, Smith, H. O. Miller, Hugh Mitchell, Maschek and a guest, Mrs. Lynn F. Alpine, Texas.

F. M. McGinty, president of Rotary club, extended to 20-30 club best wishes in behalf of the club he represented.

After the installation of officers, the club adjourned to the Veterans Memorial building for dancing.

Guests for the evening were Mr. and Mrs. Vernon Bryan, Mr. and Mrs. F. M. McGinty, Mr. and Mrs. Bill Allen, Mr. and Mrs. Lewis Gillespie, Mr. and Mrs. Boyce R. Howard, Rev. C. A. Clark and Miss Syble West.

Twenty-Thirty Officers Are Installed

Twenty-Thirty club met at Cliff's Cafeteria Thursday evening for their semi-annual installation of officers and a ladies' night.

Joe Bonfield of Hobbs, 20-30 International president, was in charge of the installation of officers, who will hold office for the next six months. Bonfield gave a very interesting talk on "20-30 and You."

Vernon Bryan, president of Kiwanis club, extended the 20-30 club best wishes from the club and expressed his gratitude to the club for the civic work 20-30 is doing.

Do's, Dont's in Gardening Outlined Before Artesia Garden Club Meeting

Artesia Garden club learned some important "do's" and "don'ts" of preparing entries for a flower show when Mrs. J. W. Jones and Mrs. Earl Darst presented a clever original skit on that theme at the regular monthly meeting held Friday at the home of Mrs. John Shearman.

Mrs. C. R. Blocker gave an interesting and instructive talk on the early preparation for flower shows from the horticultural standpoint, stressing preparation of soil and care of plants during hot weather. She also demonstrated arranging of flowers to show them best.

Roll call was answered by members telling of interesting flowers they had seen on their vacations. At the conclusion of the meeting Mrs. J. W. Jones showed pictures and told about her recent trip to Florida.

During the business meeting plans for contacting business houses who might wish to adver-

tise in the next issue of the "New Mexico Gardener" were made.

Mrs. J. T. Joplin assisted Mrs. Shearman in serving frozen fruit salad, chiffon cake, mints, and lemonade to two guests, Mrs. Malvin T. Peters, Jr., who has recently moved to Artesia from Tucumcari, and Mrs. A. J. Richards, and the following members: Miss Ruby Alexander, Mmes. Earl Darst, J. I. Funk, G. P. Ivers, J. W. Jones, J. W. Kennedy, Carl Lewis, Walter Solt, C. W. Smith, Paul Terry, Omer Kersey, C. R. Blocker and C. C. Nelson.

Mr. and Mrs. Dalton Loving were visitors during the past week with his parents, Mr. and Mrs. Pete Loving and his brother, Ormond. The Dalton Lovings are residents of Gardena, Calif., and visiting in Mississippi before arriving in Artesia.

AF Developing New Method For Spotting Crashes

Atlantic City, N. J. (APPS) — An airplane crash motor system which will save many lives is under development by the AF.

The new locator, explained Brig. Gen. Thomas J. Dubose, Commanding General of the AF Air Rescue Service, in a recent address here, consists of two phases. One will be known as the crash locator beacon and the second as the crash locator triangulation station, he said.
Beacons will be installed in the

tail sections of all large planes and so arranged that they will be tossed out automatically and parachuted to the surface. Through an antenna attachment they will send radio signals for five minutes of each 15 minute period for 24 hours.
The second portion of the system will consist of a crash locator

triangulation system designed to translate the received message into usable information, he explained.
To impress the populace with his importance, Roman emperor Nero had the leather soles of his sandals studded with precious stones.

Commander V-8 Staliner hard-top. White sidewalls, chrome wheel discs—and glare-reducing tinted glass—optional in all models at extra cost.

Exciting new 1953 Studebaker receives Fashion Academy Award

See and drive the new 1953 Studebaker that received the FASHION ACADEMY AWARD

The directors of Fashion Academy, noted New York school of fashion design, have named the 1953 Studebaker outstanding in smartness and styling.
This is more than a gratifying recognition of the talents of Studebaker designers.
It is also an endorsement of the unerring good taste of millions of Americans who consider the 1953 Studebaker the best looking automobile ever built.

You are seeing more and more of your friends and neighbors proudly driving new Studebaker Commander V-8s and Champions every day now.
If you are eager to own one yourself, you'd better come in right away and place your order. The sooner you do, the sooner you'll have the exciting new Studebaker sedan, coupe or hard-top you want. Prices are right down to earth.

Hope News

By MRS. E. L. COX

Mr. and Mrs. John Bush were Roswell visitors last Thursday. Mrs. Bush underwent minor surgery on her sinus while there. The Bushes were dinner guests of Mr. and Mrs. Austin Reeves.

Lincoln Cox took Mrs. Joe Bingham and her daughter Rita Mae Hudson to Artesia last Wednesday afternoon. They took Rita Mae to see a doctor. They took supper in the Lincoln Cox home in Hope before returning to the Cox ranch in the mountains.

Mr. Pap Hilton died last Sunday morning in an old peoples home in Tucumcari, N. M., where he had been living for several months. Pap Hilton lived with the Bryant Williams family for years before going to Tucumcari. Mrs. Bryant Williams and Mrs. Harve Walton attended the funeral held in Tucumcari last Wednesday.

Mrs. Ada Belle Trimble returned home last Tuesday from El Paso where she had undergone an eye operation several weeks before. Mrs. Trimble spent several days with a niece, Mrs. Lowell Randall and family in Las Cruces, after she was able to leave the hospital. Mrs. Altman went by Las Cruces on Sunday and got Mrs. Trimble.

Rev. and Mrs. Richard Rounds had as their guest over the July Fourth weekend, Rev. Rounds' parents of Albuquerque.

Mr. and Mrs. Denzil Burnman were business visitors last Wednesday.

Mrs. Hilary White Sr. is spending several days in her home here in Hope. Eula Marie Cox visited with Mrs. White on Monday and took her to her daughter's, Mrs. John Ward, home for the day.

Mrs. Ella Trimble, Mr. and Mrs. Arthur Dimmock, daughter Maureen, and Jackie Stephens, of California, are visiting in the Warrenton Nunnallee home for several days.

Mr. and Mrs. D. L. Jones of Odessa, Texas, spent the July Fourth weekend visiting their son Bob James and family. Mrs. Alex Pugh, also of Odessa, and grandmother of Bob James, also was here for the weekend. Little Donna James returned to Odessa with her grandparents to spend several days.

Mrs. A. J. Posey and Mrs. A. J. Van Winkle visited their mother, Mrs. Mark Fisher last Friday.

Mr. and Mrs. George O. Teel and children spent the Fourth in Pagosa Springs, Colo., as guests of Mr. and Mrs. Robert Parks. George

also took his horse and participated in the Red Ryder Rodeo in Pagosa Springs.

Mr. and Mrs. Ben Miller celebrated their wedding anniversary on July Fourth with a big dinner. All but one of their children were present.

Lloyd "Sap" Blakeney died in Carlsbad last Thursday after brief illness. Burial was in the Carlsbad cemetery. Several friends as well as relatives from Hope attended the funeral.

Mrs. Mark Fisher returned home Monday night from Albuquerque where she had spent several days visiting her daughter, Mrs. Robert Harlan and family.

Nelson Jones was an Artesia visitor Monday.

Miss Zona Jones spent the week-end visiting her parents, Mr. and Mrs. Bill Jones. Zona is a nurse in the hospital in Odessa, Texas. Mrs. Jones and children, Robert, Melissa, and Floyd returned to Odessa with Zona for a few days' visit. Mrs. Jones will also visit her twin sister, Ola, and family while in Odessa.

Mr. and Mrs. Lincoln Cox and family spent the Fourth in Cloudcroft. Ruth Ann Cox met her parents in Cloudcroft after having spent several days in El Paso visiting relatives. At the noon hour Mr. and Mrs. Charlie Shull were hosts to a covered dish dinner in their home. Those present for dinner were: Mrs. F. V. Yearwood and baby Joan, Mrs. H. R. Ledlow and boys, all of El Paso; Mrs. Dave Lawson and girls and Mrs. Lawson's mother, Mrs. Neilson, also of El Paso; Mr. and Mrs. Lonnie Reeves, Mr. and Mrs. Ernest Harwell and sons, and Mr. and Mrs. Raymond Davenport, all of Dunken. Mr. and Mrs. Austin Reeves of Roswell, Jim Reeves of Anaheim, Calif., Charles Hogsett of Artesia, Mr. and Mrs. Lincoln Cox of Hope, and the host Mr. and Mrs. Charles Shull.

Mr. and Mrs. Abbie Chandler and family spent several days vis-

iting Mrs. Joe Fisher and the Mark Fishers from their home in Central, N. M. Mrs. Fisher and Mr. Chandler are cousins. The Chandler's son is home on furlough from the Navy.

Mr. and Mrs. Martin Hibbard and children left last Wednesday for Buffalo, Wyo., to visit relatives. Hibbard returned home Monday, but Mrs. Hibbard and children will remain for an extended visit when Mrs. Hibbard's brother will bring them home.

Art Melson and son from the Lloyd Treet ranch are visiting her parents in Oklahoma for several days.

Wilma Seely visited Mrs. A. J. Posey in Artesia last Thursday. Mr. and Mrs. Rex Seely did some shopping while in Artesia while Wilma was visiting Carol Posey.

Raleigh Newbill had the misfortune to get his arm hurt while riding a Brahma bull in the Cloudcroft rodeo. Raleigh was taken to Alamogordo to a doctor and several stitches were taken in his arm.

Mrs. Bob James visited in the Lincoln Cox home Monday afternoon. Monday night Mr. and Mrs. James visited in the F. M. Martin home.

Mr. and Mrs. Alva Jernigan and children were visitors in Hope Monday. The Jernigans were en route to their home near Dunken where they will spend the summer.

Mr. Jim Reeves of Anaheim, Calif., is visiting his brother Austin, sister, Mrs. George Strickland of Roswell, and a brother, Lee, of Artesia.

Mayor Ethel Altman accompanied attorney W. M. Siegenthaler to Carlsbad to meet with Mr. Griffin, the engineer for the Hope Water Coop, to discuss further plans for the town well.

The Methodists held a choir practice in the church Monday night with only a few members present, but hope to make this a weekly meeting to practice new as well as old songs for church.

Mr. and Mrs. Lloyd Treet left last Saturday on their vacation.

Washington (AFPS)—The Agriculture Department knows that "the coming of the locusts" always brings about calamitous predictions about awful things to come. Since 1953 marks a periodic Cicada (commonly called "17-year locust") return, they have started early by putting out a pamphlet debunking the locust myth.

Comfortable Living—

Wall-to-wall carpet in dining and living rooms, a large den with knotty pine wall and colonial fireplace, fully landscaped grounds, 250-ft. wall in back, 800-sq. ft. patio with barbecue, three bedrooms. See this home at 804 Runyan. \$2500 down, reasonable terms.

IN FOCUS

U. S. SENATOR John Kennedy (D), Massachusetts, poses as his fiancée, Jacqueline Bouvier of Newport, R. I., and Virginia, takes his picture at the Kennedy summer place, Hyannisport, Mass., on Cape Cod. They are to wed Sept. 15. (International Soundphoto)

The appearance of the can be changed by the food when fed on a different assumes an entirely different appearance from its parents.

Modern sealing wax usually not contain any wax, although used in the Middle Ages was a mixture of turpentine and beeswax.

Cancer Alertness ACS Goal for MDs

A promising experiment in post-graduate medical education is being carried on by the American Cancer Society. The object of the program is to make every physician think of cancer first.

Because early detection is the key to curing cancer, the family doctor must be well-informed about the disease. The ACS says that the life of the cancer patient may be in the hands of the first physician who sees him. If diagnosis is missed the cancer will spread until cure is unlikely. Teaching doctors to recognize cancer and institute proper treatment is the aim of the ACS professional education program. A digest-type magazine is published for the busy practitioner and a technical journal is issued for the specialist. Monographs, lectures, refresher courses and specially-produced motion pictures also are used. Fellowships go to 70 young doctors each year. All this is financed by contributions to the Cancer Crusade. Last year more than 70,000 Americans died needlessly of cancer. Some died because they did not heed cancer's danger signals. Others died because the first physician they consulted did not recognize the disease. Remember! Cancer strikes one in five. Strike back. Give to conquer cancer.

Pontiac

GENERAL MOTORS LOWEST PRICED EIGHT

COLE MOTOR COMPANY

112 South Second Phone 13

It's very easy to see why Pontiac stands alone in its ability to match features and quality with the finest cars—yet at a price so low that it's within the means of any new-car buyer.

First—look at its beauty. Pontiac's distinctive styling is instantly recognized and universally admired.

Next—check Pontiac's performance by driving it yourself. You'll learn that under the hood there's more power than

you'll ever likely need. You'll find that Pontiac is easy to handle, that it takes the roughest going in stride with amazing road-hugging comfort.

But Pontiac's final proof of value is in its unsurpassed reputation for long life, dependability and economy of operation.

Why not come in and spend a few minutes getting the entire Pontiac story? That's all it will take to make you a Pontiac owner.

REPORT from WASHINGTON

The doctor draft law has been extended until July 1, 1955. President Eisenhower has signed the extension which requires medical doctors and dentists under 51 years of age to register with their local Selective Service boards.

Defense Department officials recently estimated that 12,250 doctors will be needed in the next two years. The July-August doctor draft call is 542.

Army and Air Force officers listed as captured or missing in action in the Korean War have had their temporary commissions extended in their present rank until released from active duty. Without this action by President Eisenhower a previous executive

and supervision of all matters affecting the USAF air base program world wide.

Gen. John R. Hodge, Chief of the Army Field Forces, has retired after more than 35 years of military service. No successor to Gen. Hodge has yet been announced.

The Army has announced promotion quotas for the month of July for the top four enlisted grades. They are: E-7, 750; E-6, 2,750; E-5, 12,800; and E-4, 35,000.

A distinguished-service certificate for the Defense Department has been accepted by Secretary Charles E. Wilson. The award was in recognition of the department's efforts to hire physically-handicapped workers. It was presented by the President's Committee on Employment of the Physically Hand-

Barracks, Camp Pendleton, Ocean side, Cal., Aug. 17.

Air-To Ground Radio Usage Being Stressed

OMAHA, Nebr. (SAC PS)—Improved air-to-ground radio procedures and elimination of unnecessary radio-telephone conversation will receive special emphasis at all Strategic Air Command stations in July, seventh month of the Safe Aircraft Campaign for '53.

Throughout the month, flying safety meetings at all SAC stations will stress the importance of proper radio discipline and encourage pilots to make full use of GGA and homing aids to increase their proficiency in the use of these facilities. At SAC bases where communications frequencies are overburdened by increasingly heavy traffic, flying safety officers will point out how proper use of approved radio-telephone procedures and elimination of unnecessary conversation enhances safety and efficiency.

"SHOW BIZ"

Universal International has added Charles Bickford to the cast of "The Magnificent Obsession." Jane Wyman and Rock Hudson will co-star in the roles played by Irene Dunne and Robert Taylor in the original production. Now that Beta St. John has joined MGM are "movies better than ever?" Lock the doors!! A new Scarlet O'Hara-type search is on. Warner Bros. have announced that they are in the market for a

Helen of Troy. The studio reports it is looking for a woman whose beauty could "believably launch 1000 ships." Got news for them... we've quietly for some time now... Judy Holliday and Peter Lawford in New York for stage location shooting of Columbia's "A Name For Herself." Columbus Circle, Central Park and the Zoo will be the locales... Edward R. Murrow of CBS inaugurates a new TV series in the fall. It will be based, he says, "on the old and honorable

custom of going next door for a visit." Networks report there are now 110 million radio sets now in operation—a jump of five million over last year... Paramount's "Stalag 17" will donate all proceeds from its New York premiere to the Air Force Association's program to aid Air Force widows and their children... Would like to thank Sailors Ed Kurtz and Kurt Zoeller for sending us their girl's pictures. Love to run 'em but we can't if they're smaller than 8 by 10 inches. We will be glad to, if you send us the right size prints.

men over 45

More than six times as many men of your age will die of lung cancer this year as died in 1933. Our research scientists still don't know why. They do know, however, that over half of those who will develop lung cancer can be saved... if they get proper treatment while the disease is still in the silent, asymptomatic stage. That's why we urge you to have a chest X-ray every six months no matter how well you may feel.

For more information call us or write to "Cancer", care of your local Post Office.

6th Bomb Wing Has Best Safety Record For June

The 6th Bomb Wing is the holder of the best traffic safety record in the current "Safe Wheels" Contest.

During the month of June the entire wing lost only three hundred fifty points—out of a 23,715 point total—with no injuries, only one minor traffic accident and twelve violations. Also, there were no reportable accidents involving

government vehicles. Walker's Ground Safety Division has stated that: "Personnel of the 6th Bomb Wing should be highly commended for their accomplishments, and be encouraged to make further improvements in traffic violations."

SOMETHING NEW? NAW!

To have Drouths and Severe Shortages of Water— but these conditions exist right here in our own Community!

IT IS NOT NEW OR NEWS... when our Federal Government step in and makes huge purchases of commodities that tend to be surplus to help stabilize the market prices in line with the production costs. We have read recently in our daily papers, that the Government plans to buy 200,000,000 pounds of beef to help support the Nation's Cattle Business which, we have learned from personal contact, is practically "on the rocks."

NOW... THIS IS NEW TO ARTESIA AND TO MANY CITIES WHERE A GREAT QUANTITY OF MEAT IS CONSUMED... THIS IS YOUR CHANCE TO BUY BEEF OF ANY GRADE THAT YOU WANT FOR YOUR PURPOSE... AT WHOLESALE PRICES... This includes Prime, Choice, Good or Commercial plus a small wrapping and processing charge per pound, all ready for your Home Freezer!

Help yourself and your government to keep our economy better balanced by buying more meat, thereby insuring that our Cattlemen stay in the Cattle Business. Surely meat prices are as low as they can be under the present economic conditions.

TAKE ADVANTAGE OF THE ABOVE GREAT SAVING by calling Number 220, PARK INN GROCERY AND PLACING YOUR ORDER NOW! Cattle prices are sure to rise soon. Act Now! We assure you OUR CUTTING and WRAPPING will please you!

These Cattle are being fed to top grades by the PAYNE PACKING CO. here in our own city, and dressed in a most modern Packing Plant. You need to visit Payne Packing Co. on the west truck cutoff road in the north part of the city and meet Mr. and Mrs. Payne. The genial Paynes are just "everyday western folks" who believe in helping our own first. Their coolers are full of the finest beef obtainable, but if the drouth conditions continue much longer the grade of beef to be placed on the market must be lowered.

AGAIN WE SAY... IF YOU WISH TO SAVE ON MEAT... Ready for your Freezer... Call PARK INN GROCERY, Phone 220 or TOM FRANKLIN, Residence Phone 358-R and see how quick you can get something started that is just as good as any Savings Account you have ever owned and if you need a HOME FREEZER... we have them for sale, too!

NOW IS THE TIME TO SAVE... PRICES SUBJECT TO MARKET CHANGES!

Low Irrigation Water Supply Demands Conservation

By L. C. BROWN
Soil Service Conservationist

Irrigation water prospects for New Mexico are less promising than last year. Indications are that there will be a deficient water supply in many of the irrigated areas of the state. This means that everyone concerned with the delivery and use of irrigation water will have to conserve water, and use it as efficiently as possible, in order to get the best possible production from the supply available.

There are a number of ways in which farmers can conserve water which farmers, can conserve water irrigation during periods of water shortages. Permanent practices, carried out on the land will save water year after year. Other practices can be used on a given farm, because each irrigated area, and often each farm, present different problems. But a farmer can select those which fit his particular conditions, and use them to conserve water and stretch a reduced water supply to produce all the crops possible on his farm.

Land Preparation—One of the best practices to save water is better land preparation.

The purpose of properly preparing the land for irrigation is to smooth and shape the land so water will flow over it evenly and uniformly. This eliminates the high and low spots, and permits more even distribution and penetration. With an uneven land surface, too much water is applied to the low spots, resulting in a waste of water. Not enough water reached the high spots to get good production. A farmer often has to waste considerable water trying to wet the high spots. There is also danger of the development of alkali spots from continued excess water applications to the low areas in a field.

A good ditch arrangement is essential for efficient irrigation. The ditch system should be laid out to deliver water where needed on the farm, with a minimum length of ditch. Ditches should be of a sufficient size to carry the size of heads of water needed and to provide sufficient quantities of water to meet crop demands during periods of peak use.

Seepage losses from unlined earth ditches are often excessive, especially where the ditches run

through very permeable areas. The lining of ditches, or the use of underground pipe, is often one serving irrigation water.

Clean Ditches—Another method of saving water is to keep ditches clean. In addition to the water used by weeds, ditch losses from both seepage and evaporation are greater in weedy ditches because the flow of water is obstructed and slowed down.

Another practice that will save water is using the proper length of runs for the kind of soil and the slope being irrigated. The object of an irrigation is to fill the root zone of the crop being irrigated, and any water going below the root zone is wasted as far as use by the crop is concerned. On very permeable soils, such as sandy soils, water percolates down through the soil rapidly. If too long runs are used on sandy soils, a good deal of water at the upper end of the field may percolate down below the root zone of the plants, and be lost as far as beneficial use is concerned. This excess deep percolation may leach plant food down beyond the root

zone, resulting in less growth and lower yields. Level land or flatter slopes on sandy soils should have shorter runs than steeper slopes, since penetration will be more rapid on the flatter slopes.

Longer Runs—On heavy or clay soils, longer runs will be required than on sandy soils, since these soils take water slowly, and the water must be run for a longer time to get penetration through the root zone. Again, flatter slopes on heavy land will also require shorter runs than the steeper slopes.

The size of the head of water to be used in irrigating must also be considered in relation to the kind of soil and slope being irrigated. In general, the aim should be to use a large enough head of water to complete the irrigation in a reasonable time without wetting the soil below the root zone of the crop being irrigated.

On sandy, permeable soils, larger heads should be used on level land or flatter slopes, pushing the water across the land rapidly, to avoid too deep percolation and consequent waste of water at the upper end of the run. On steeper

sandy slopes, smaller heads should be used, to insure sufficient penetration and to avoid excess erosion. On heavier soils, a smaller head of water should be used than on sandy soils, and the water applied for a longer time, to insure enough penetration at the upper end of the field is flooded. Heavy soils also require smaller heads on the steeper slopes to get sufficient penetration at the upper end of the run.

Fine Balance—In irrigating any particular field, or piece of land, there is a fine balance between the kind of soil, the slope, the length of run, and the size of head of water. There are no set rules that will apply to all conditions, but by running some trials, and using a shovel, soil auger or probe to check penetration, a farmer can learn the best combination to use under his conditions for any particular field or part of a field that he irrigates.

Where irrigation water is not measured to the farm, or where a farmer has his own well, it is important that some means of

measuring the amount of water applied should be used. An inexpensive metal weir can be installed near the well, or at some other convenient place, which will give a farmer a very good idea of the size of heads of water he is applying to the different fields on his farm. Directions for installing and using weirs can be obtained from county agents, or soil conservation service representatives working in cooperation with soil conservation districts.

Using more structures for better control of water in ditches is another method of conserving. Structures should be large enough to handle the heads of water used. They may be permanent, or temporary structures. For permanent structures, cement block construction is becoming popular with farmers in many areas, since the need of forming is eliminated.

Other Practices—There are a number of other practices that farmers may use to save water.

In row crops, running water through to the lower end of the field, then cutting down the flow

to the size of stream that will get penetration over most of the field by the time water reaches the lower end, will hold waste water to a minimum.

Also, in border irrigation, where larger heads are used, cutting off the water when it gets to within

100 to 200 feet of the lower end of the border will get the job irrigating done and often save surprising amount of water. Changing the direction of runs will sometimes permit better irrigation and save water. Continuing to irrigate during summer showers, rather than turning off the water, will give the maximum benefit from the rain, and often avoid a hurried and inefficient job of irrigating, during succeeding hot, dry periods.

Staying with the water, rather than making sets and doing other farm work at the same time, permits better water control and a more efficient job of irrigating. Reusing waste water is often practical and economical.

Suit Crops to Water—A selection of crops to fit the water supply is sometimes possible, or the use made of a crop may be changed—alfalfa, for example, may be seeded instead of cut for hay when water is short.

During periods of water shortage, a farmer, to get the maximum returns from his supply of irrigation water, should watch his crop closely, check frequently on soil moisture, irrigate only when needed, avoid over-irrigation, and apply the minimum amount of water needed at the proper rate and at the right time.

Flag Flies Over Veterans Building In Memorial of Alex McGonagill

The large flag flying over the Veterans Memorial building is being flown in honor of the late Alex McGonagill, long-time member of the American Legion, who died suddenly at his home 12 miles east of the city, July 4.

The flag was presented to Mrs. McGonagill, widow of the World War I veteran, by the government through the American Legion, Veterans of Foreign Wars, and Disabled American Veterans.

McGonagill had stated prior to his death he did not want the family to keep the flag in a box around the house, where it would serve no useful purpose.

He wanted it presented to some organization which could use it. The family decided to present it to the veterans organizations.

In accepting it, Bill Dumnham, veterans service officer, requested permission to fly it for the next 30 days in honor of McGonagill's memory. Permission was granted. Dumnham stated if there were

others who would like to have the same honor paid some other deceased veteran, the organizations would be glad to comply upon receipt of the flag.

Deceased veterans thus honored would not necessarily have to be former members of the VFW, Legion or DAV, but must have had an honorable discharge.

Rodeo Planned—

with vision of those in the bleachers.

Roads Paved—
Roads to the rodeo grounds have been paved this year.

Advertising and publicity on the event are scheduled to get underway in the near future. Solt said, "We are attempting to make this the biggest show ever." Solt said, "We're stressing the first day—we want to have a lot of people in town well before the show opens so that Opening Day and night can be a day-long affair."

Driller Players Prominent In Top League Statistic Spots

Artesia's much-discussed power row was again closely bunched this week in Longhorn league batting averages, according to statistics issued covering games through July 6.

Joe Bauman of Artesia is sixth in batting averages with .358, followed by Joe Fortin with .338, Les Mulcahy .333, and dropping one, Bill Haley with .325.

Jackie Wilcox is hitting .187, Joe Calderon .278, and Vince Di-Giantomasso .252.

Art Bowland of Midland leads the league with a .400.

Les Mulcahy of Artesia leads in doubles hitting with 29 and in runs batted in with 95.

Joe Bauman is tops in walks—he's been given a free ride 76 times—and Joe Calderon is tops in strike-outs with 72.

The home-run race is reported still close between Mulcahy and Bauman. Mulcahy as of July 6 had

Car Bought To Be Given By Ball Club

Purchase of a 1953 Chevrolet to be given away to a member of the Hit-Run club was announced Monday by Driller Gen. Mgr. Earl Perry.

Perry said the Hit-Run club will be organized in the next few days. Membership, which entitles the holder to a chance, will again be \$1.

Midland is credited with .959, San Angelo .958, Artesia .957, Carlsbad .953, Odessa .951, Roswell .949, and Big Spring .943.

Artesia is the top home run club of the league with 85 to July 6, easily topping the second place contender, Midland, which has 62.

Artesia still leads in doubles with 165, but trails in triples. The team is third in stolen bases and

third in walks. It has four runs under Midland and in RBI and first in strike-outs.

Len Ruyle of Artesia is near tops among regular pitchers with a 13-5, .722 average, following Audie Malone of Carlsbad who has .750 and 9 wins 3 lost.

Fidel Alvarez is throwing .463 and Pat Monahans .600, Hermfno Reyes is credited with .500.

John Nance Garner was the only man in history to hold the office of the speaker of the House and vice-president on the same day. On March 4, 1933, he was speaker until he took the oath at noon that made him vice-president.

The buffie-headed duck can dive into the water and emerge in full flight.

The prison system of punishing criminals did not begin until the end of the 18th century, although isolated prisons were used earlier than that time.

Food grown in France's Saar basin could supply the needs of only about 15 per cent of its population.

Andy Alonso Is Added to Driller Pitching Staff

Purchase of pitcher Andy Alonso from Big Spring was announced this week-end by Driller Mgr. Perry.

Perry also announced assignment of Frank Martin to a Quebec, Canada, club.

Alonso pitched 18 wins, 8 for Roswell in 1952, and played the Longhorn league all-star last year.

He is a first-year limited service pitcher.

Martin was assigned on a 12-month look for an undisclosed sum.

Farm Safety Week Proclaimed By President

All persons and organizations interested in farm life and welfare are urged by President Eisenhower to take part in the observance of

the 10th National Farm Safety Week, July 19-25, 1953.

In proclaiming the Week, President Eisenhower pointed out that accidents continue to rob the nation of much needed farm production.

Ned H. Dearborn, president of the National Safety Council, reviewed the results of the first nine Farm Safety Weeks briefly by pointing out that only two states

had farm safety committees in 1952, whereas today 28 states have active committees. He also commented on the comparatively few cooperating organizations in 1945, as compared with the hundreds cooperating today.

"Prior to 1944 the subject of farm safety had comparatively no consideration in public information media," Mr. Dearborn said. "The 9th National Farm Safety

Week was publicized on 34 network broadcasts, over 1,000 radio stations, in more than 600 newspapers, in nearly all agricultural publications, and by many advertisers."

"I hope that more and more people and organizations will take part in the observance of the 10th National Farm Safety Week," Mr. Dearborn said.

"Every farm family farms to

live," says Maynard H. Coe, director of Farm Safety for the National Safety Council, "and our efforts are aimed at persuading them to live to farm—not to die in accidents or to be laid up in a hospital. If every farm family in every community were to adopt this safety resolution for 1953, the whole nation would become more safety conscious and many lives would be saved and many accidents prevented.

"Naturally, the impact of National Farm Safety Week and its Farm to Live—Live to Farm theme will be determined largely by the reception it gets from advertisers and the public information media.

"The United States Department of Agriculture and the National Safety Council have sponsored nine previous farm safety weeks, and have seen the interest in accident prevention grow from year to

At Home With Hazel

Summer days demand summer foods, but these nevertheless can be substantial enough to satisfy those who like to eat regardless of the weather, and tasty enough to appeal to those whose appetites wane during the warmer months of the year. Ham Ring served with Swiss Cheese Potato Salad is one answer to the problem, and if you add crisp coleslaw and corn muffins you'll have a meal that's worth repeating again and again.

HAM RING

1 envelope plain gelatin
1/4 cup cold water
1 1/2 cups meat broth
2 tspn. lemon juice
2 cups ground cooked ham
1/4 cup chopped celery
1 hard boiled egg
1/2 tspn. onion juice

Soak gelatin in cold water, then dissolve in boiling meat broth. Add lemon juice and salt. Cool. When mixture starts to jelly, add all other ingredients except egg. Rinse ring mold in cold water. Slice egg and arrange in bottom of pan. Pour a

Local Doctor Discusses Cause of Kidney Trouble

The proper functioning of the kidneys is essential to the maintenance of normality in the body as the kidneys are continually on the job discharging broken down elements from the body. The kidneys are made up for many minute cells and these cells are under the control of the nervous system. The nervous system has its origin in the brain and nerve impulses are carried to all parts of the body, including the cells of the kidneys, via the spinal cord, spinal nerves and numerous nerve trunks. If the nerve impulses do not reach the kidneys, waste products are retained in the body and actually poison the body.

There may be an interference in the transmission of nerve impulses between the brain and the kidneys in the spinal column where the vertebrae may become misaligned or subluxated. The Chiropractor is trained and equipped to locate these subluxations and remove them, thereby restoring normal nerve energy to the parts that have been deprived of it. Instead of treating an effect, the Chiropractor gets to the CAUSE of the trouble.

It is not true to say "we are doing everything possible" unless Chiropractic is included.

For further information regarding Chiropractic you are invited to consult Dr. Kathryn Behnke, Palmer Graduate Chiropractor, 408 W. Richardson, phone 861.

little of the meat mixture over the egg slices and allow to harden. Then add remaining meat mixture. Chill until firm. Serves 6 to 8.

SWISS CHEESE POTATO SALAD

6 medium boiled potatoes
1/4 lb. Swiss cheese
2 tspn. chopped parsley
2 tspn. butter
1/4 cup chopped onion
1 tspn. flour
1 tspn. salt
1 cup top milk
2 tspn. prepared mustard
3 tspn. chopped green pepper

Peel potatoes and cut in 1/4-inch slices. Combine with diced cheese and parsley. Melt butter and saute onion and green pepper until tender but not brown. Mix flour and salt, add to onions and green pepper. Stir in milk. Cook, stirring constantly, until mixture thickens. Stir mustard into sauce. Simmer one minute. Pour over cheese and potatoes. Set aside (not refrigerator) for about two hours before serving. Makes 6 servings.

whip soft peanut butter into vanilla ice cream. Refreeze and serve with chocolate sauce.

Here's the most for your truck dollar —the price tag proves it!

WHEN you look at a light-duty truck price, you've got to know what you get for your money.

In a GMC, you get Dual-Range Truck Hydra-Matic.* 3 speeds for stepping smartly through traffic—4 for economical open highway travel. Clutch repairs or replacements are never necessary. Engine and drive line can't be strained. Getaways are quicker at every stop.

In a GMC, you get 105 horsepower and 8.0 to 1 compression. Up to 19% more power than comparable sixes offer. Crisper response. Mileage noticeably better. And you get all this on non-premium fuel.

In a GMC, you get: new, self-energizing brakes—Synchro-Mesh transmission—recirculating ball-bearing steering—a 45-amp. generator—double-acting shock absorbers—a big, "Six-Footer" cab.

Remember, a GMC price-tag gets you all these things. That's what makes a GMC the biggest bargain you've ever driven! Come in and see for yourself!

*Standard equipment on Package Delivery model; optional at moderate extra cost on all others.

Roswell Loan Agency to Aid Area Farmers

Depressed cattle prices resulting from forced sales due to lack of feed and water, a poor wheat harvest and unfavorable prospects for a feed crop in much of the Southwest have combined to create a need for credit among many farmers and ranchers, according to T. Judd McKnight, president of the National Farm Loan Association of Roswell. The association, a cooperative owned by local land owners, makes and services loans on farms and ranches through the Federal Land Bank of Wichita which, in turn, is owned by the national farm loan associations. A farmer or rancher may borrow up to \$100,000 through the association. Funds available are ample to meet all needs for farm mortgage credit.

E. M. Green, secretary-treasurer of the local association reports he has received a special request from W. E. Fisher, president of the Federal Land Bank, to make known to the farmers that this type of credit is available to them, and to make clear that it is the desire of the bank to serve their farm mortgage credit needs.

5th Amendment

REFUSAL to answer questions on the grounds of possible self-incrimination does not mean he is a Communist, Dr. Edwin B. Burgum, former New York university faculty member, tells the Senate investigations subcommittee in Washington. Recently Dr. Burgum was dropped from the faculty because he refused to tell the Senate internal security committee if he ever was a Communist.

IN THE PROBATE COURT OF EDDY COUNTY STATE OF NEW MEXICO

IN THE MATTER OF THE ESTATE OF ALEX GEORGE MCGONAGILL, DECEASED.

NOTICE OF APPOINTMENT OF ADMINISTRATRIX

Notice is hereby given that the undersigned has been appointed Administratrix of the Estate of Alex George McGonagill, deceased, by Honorable Ed H. Gentry, Probate Judge of Eddy County, New Mexico, and has qualified as such. All persons having claims against said estate are hereby notified to file or present the same as provided by law within six (6) months from the 14th day of July, 1953, the date of the first publication of this notice, or the same will be barred.

JULIA C. MCGONAGILL, Administratrix.
56-41-T-62

NOTICE

State Engineer's Office
Number of Application RA-3081,
Santa Fe, N. M., July 10, 1953.

Notice is hereby given that on the 7th day of July, 1953, in accordance with Chapter 131 of the Session Laws of 1931, Hope Water Co-operative Corporation of Hope, County of Eddy, State of New Mexico, made application to the State Engineer of New Mexico for a permit to appropriate 275 acre feet per annum of the artesian waters of the State of New Mexico by drilling a well 13 3/8 inches in diameter and approximately 500 feet in depth in the NE 1/4 NW 1/4 of Section 30, Township 17 South, Range 23 East, N.M.P.M., for the purpose of using same for municipal purposes.

Any person, firm, association, corporation, the State of New Mexico or the United States of

America, deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source, may protest in writing the State Engineer's granting approval of said application. The protest shall set forth all protestant's reasons why the application should not be approved and shall be accompanied by supporting affidavits and by proof that a copy of the protest has been served upon the

applicant. Said protest and proof of service must be filed with the State Engineer within ten (10) days after the date of the last publication of this notice. Unless protested, the application will be taken up for consideration by the State Engineer on that date, being on or about the 12th day of August, 1953.

JOHN H. DWISS,
State Engineer.

North Eddy Has Six Infant Diarrhea Deaths

Diarrhea deaths among infants in Eddy county is double the 1952 total so far in the first six months of 1953, Dr. O. E. Puckett, district health officer, has announced. Ten babies died in the county the first six months of 1953, compared to five in the same period last year, Dr. Puckett said. In 1950 two died, in 1951 seven, and in 1952 five. Five babies died in June, considered to be the greatest danger period for the illness. Six of this year's 10 deaths occurred in North Eddy county. Last year only one died from the same cause in North Eddy county, and in 1951, four died in North Eddy.

It was three centuries after the Europeans found rubber in use among the South American Indians before it was commercially available in Europe.

NOW! Ford Master-Guide the last word in Power Steering!

"WHO NEEDS MUSCLES?"

Master-Guide applies hydraulic steering power automatically... and in varying degrees as required... right at the steering linkage, close to the wheels. At the same time the system serves as a hydraulic shock absorber to keep road jars and jolts from your hands. As a result all you do is... guide the car... Master-Guide supplies the muscles.

It's the newest in a long list of Ford advancements that make this Ford the outstanding car for '53!

No other car near Ford's price has ever offered you so much! Ford was the first in its field to bring you V-8 power. Today, Ford alone of all the low-priced cars offers you the smooth, unsurpassed performance of a V-8 engine. And Ford's Six with Overdrive, won the Sweepstakes in this year's Mobilgas Economy Run.

Ford first brought to the low-price field a completely automatic transmission that combines the smoothness of a torque converter and the gas-saving "go" of automatic gears. In all, Ford offers 41 "Worth More" features.

And now, in addition, Ford brings you the newest and finest in power steering... Master-Guide, a system exclusive in Ford's field! It's no wonder, then, that Ford is the "Worth More" car... worth more when you buy it... worth more when you sell it.

Test Drive Ford with Master-Guide Power Steering!

still cuss the farmers because a given farmer lets water run in his ditch, and farmers who cuss city residents because of water found in the streets, nothing is achieved by exchanges of cuss words. Neither can escape responsibility by blaming the other.

It should be pointed out to date a great deal more has been done on the farms to conserve water than in the city. Tremendous programs of land leveling, of concrete ditching, of underground pipelines and clay-lined reservoirs have been carried through.

Thus far the city has done nothing. While it is a misdemeanor to waste water on the farm, there is no similar ordinance for waste of water in the city. While farmers spend hundreds and thousands of dollars for leveling and concrete ditches, there is no like expenditure in the city for \$15 recirculating pumps, for instance.

Solution Appears Possible

PROBABLY THE MOST controversial question which came before the American Medical Association at its recent annual meeting in New York was that dealing with osteopathic physicians and surgeons. Final action on the matter was postponed until June of 1934.

For some months now there has been indications that a solution to the question of whether osteopathic physicians and surgeons' patients are to be admitted to public-owned and operated hospitals may be reached. Indications have been that the American Medical Association would offer to place medical men in the chairs of medicine in the osteopathic colleges and there would be a consolidation of the schools and colleges.

The delay in the vote on some four questions was postponed on the recommendation of a majority committee report because of the length of the report, and to permit more time for consideration of the matter.

The four questions on which the medical men are being urged to be ready to act a year from now are as follows:

- 1.—That the house of delegates declare that so little of the original concept of osteopathy remains that it does not classify medicine as currently taught in schools of osteopathy as teaching of "cultist" healing.
- 2.—That the house of delegates state that pursuant to the objectives and responsibilities of the American Medical Association, which are to improve the health and medical care of the American people, it is the policy of the association to encourage improvement in the undergraduate and postgraduate education of doctors of osteopathy.
- 3.—That the house of delegates declare that the relationship of doctors of medicine to doctors of osteopathy is a matter for determination by the state medical associations of the several states and that the state associations be requested to accept this responsibility.
- 4.—That the committee for the study of relations between osteopathy and medicine or a similar committee be established as a continuing body.

Many are convinced that sooner or later the understanding between the two professions will be reached. When this occurs then members of the profession of osteopathy will be admitted to the staff membership of public-owned hospitals and their patients will be admitted for hospitalization.

When this agreement is reached it will mean hospital care for patients of both doctors and clear the question which has prevailed in many communities in our state for several years.

Hospital Management

DALPH LENNON HAS the very best wishes of Artesia's people with him as he steps into the administration of Artesia General hospital.

He is faced with a monumental mess to clean up, a mess which resulted in some \$13,000 of now uncollectable accounts receivable being charged off on the books, and another \$28,000 yet to be collected.

Audits have disclosed some insurance companies and some patients have never been billed for services because of an inefficient bookkeeping system. Other reports indicate sagging morale at the hospital.

But Lennon has been given the backing and encouragement of the city council and the hospital board as he sets out to do a big job.

Hospitals today are hard enough beset by financial difficulties without allowing inefficiency, if not maladministration, to accumulate large deficits.

Lennon, trained in business administration and operating the hospital with efficient management rather than a fear and favor policy, is capable of putting it on a sound financial basis. He has the backing of the city in attempting to do so.

RETURN OF FRANKENSTEIN

NEW MEXICO EDITORS ARE SAYING—

Acreage Allotment for Cotton Based on Past Five-Year Average Penalizes New State Crop

CHANGE
 The cards are stacked against New Mexico's—and Lea county's—growing cotton agriculture in laws now governing acreage allotments.

To get a fair deal for cotton growers, congressmen from the Southwest excepting New Mexico are asking for an amendment to the Agriculture Adjustment Act.

As now administered by the Department of Agriculture, cotton acreage is allotted on the basis of acreage planted in the preceding five years. This is all to the good for the Old South, where the cotton planting has been more or less stable for many years. But it is not favorable to the Southwest where cotton production is a new and expanding enterprise.

The southwestern lawmakers want acreage allotted on the basis of planting in the last three years. They also are asking that any cutback be limited to 25 per cent of a state's 1932 cotton acreage.

If cotton is to expand in the Southwest, such an adjustment of the Adjustment Act seems necessary. The Southwest can't let the Old South run away with the cotton acreage. —Hobbs News-Sun.

ISN'T going to strengthen the administrative element in the prison. It isn't going to make top officials men of good judgment and administrative ability, and it won't help the prison board any, so far as we can figure.

The recent outbreak, resulting in two deaths, apparently is now heading for a whitewash of the prison warden and his executive staff. The prison board and the governor appear to be of the mind to forget the whole thing. One may arrive at that conclusion from the fact that there has been no removals from office, no disciplinary action taken against the staff of officers that must have been responsible or the carelessness that led to the riot.

It stands to reason, therefore, that no one is going to put much confidence in the building of a new penitentiary as a solution to the problem that is obvious to almost everyone.—Roswell Record.

PATRONAGE AND POLITICS
 After reading Will Harrison's latest column on the Chavez-Hurley recount of Bernalillo county ballots, the light has dawned on why it is costing so much and dragging so long.

It is a wonderful patronage deal for both Republicans and Democrats. Each side has a platoon of waiters to see that the people who are counting the ballots and investigating things generally don't steal more ballots than have already been stolen. These people are not to be confused with squads of lawyers who argue over every cross and double cross on the ballots.

Luckily, the contest isn't costing anything—the U. S. government is footing the bill, as the wit once said.

The people who have been hired to watch, on the \$100,000 or so appropriated by the Senate, seem familiar. They are the kind who have an irresistible attraction for a public payroll where politics and patronage are involved. —Carlsbad Current-Argus.

WORTH IT
 The taxpayers Association of New Mexico presents some interesting and enlightening figures on public schools of the state, disclosing among other things, that teachers will average above \$3,800 per year beginning in September. This figure is more than four times higher than the average teacher pay for the 1933-34 school year.

Other comparisons: Salaries of school principals have jumped from an average of \$1,121 to more than \$5,000 in 20 years; superintendents from \$2,184 to \$6,600 in the same period; total schools budget from \$6,200,000 to \$45,000,000.

The higher professional salaries for teachers and administrators, and the vastly increased number of children in the schools accounts in great part for the 700 per cent increase in total school budget. And in assessing the propriety of major pay increases for teachers it must be considered that 20 years ago many teachers had only a high school education, whereas now they must hold a college degree and have specialized in education.

What are we paying for is better instruction and better facilities for more children. The cost seems well worth it.—New Mexican, Santa Fe.

THE CURE
 Now we are being told New Mexico's prison difficulties may be given the curative remedy within two years. That is, it may be possible to have a new state prison in that length of time, and some folks are of the belief that housing the convicts in different surroundings will do the trick.

We wonder, however, if the same sort of whitewash that has been used for the past year or so won't be just as effective inside new prison walls as it has been inside the old ones.

New housing for the prisoners

Who, ME? by Robert Osborn

COFFEE TALK—

If He Turns On His Sprinkler When Sky Clouds Up, He's New Mexican

HOW DO YOU TELL A New Mexican from all the Johnny Come-Latelys? Well, he's a New Mexican if: When the sky gets black and lightning flickers every other second, he serenely washes his car and then turns on the lawn sprinkler.

He'll drive to and from some place 250 miles away in one day to visit a friend or relative he hasn't seen in at least a month.

He considers driving 60 miles an hour as just creeping along.

That gully on either side of the road is, in his terminology a "bar ditch."

When he writes to people outside the state, he comments that the weather's nice—only 100 this week "but it's a dry heat you hardly notice."

He feels the state's so small that everyone knows you're talking about the honorable governor when you speak of "old Ed up there."

a desired social step than a political plum.

IF MAY OR MAY be significant, but a letter received in the Chamber of Commerce office the other day inviting an Artesia representative to a Southeastern Mexico road study scheduled for Hobbs mentioned Carlsbad.

According to the letter representative from Roswell, Artesia, Loving, Tatum would get together with Hobbs in the near future to up a priority program of road building in Southern Mexico.

THE COST OF BR the actual reservoir needs is comparatively in the bucket compared to what it will cost to connect the water to city water lines.

Cost of the reservoir will be \$71,000, plus \$30,000 for concrete, and \$112,500 for reinforcement rods.

If 16-inch cast iron pipe used to carry the water from the reservoir to the west of the city, it will nearly \$200,000.

But still the expense is necessary if the city is to further annual drilling of wells, which run to \$200,000.

THERE ARE NOW PLAINTS circulating town to the effect that from the schools always the superintendent as he said news.

Attempts by news men to pin the news issuance on of education members in recommendations with the school superintendent.

Maybe the janitors will be given the authority quoted in news release issuing the news, since some shallow criticism is doing it.

SOME SANTA FEANS visiting here the other day were commenting that despite all efforts to keep the ancient capitol in possession of its traditional quaint charm, the capitalists are bound and determined to spend money and make it a modern city.

ACCORDING TO ONE, "they're building a new bank there. Oh, it's pueblo all right, but it'll look new, and clean."

There must be a way to build a new building so that it'll look old and dirty, and thus charming and traditional.

ACCORDING TO THOSE working on the situation, there is a very likely chance that Artesia will become the location for the state-backed boys' ranch to be located in the fifth judicial district.

Artesia's advantages in this case are its central location and its genuine spirit in approaching the ranch establishment as

Hints for the Ladies

Freezing of Fruits and Vegetables

By Cricket Taylor

Are you trying to "beat the heat" these hot days? If you are, then one good way to do this is make better use of that home freezer in meal planning by "cooking for a day and being queen for a week." There are many main-dish meals, or one meal dishes that may be cooked, cooled and frozen in the container they were baked in. Weeks later they can be put right into the oven to heat, while you read your magazine or enjoy the cool of that outdoor patio. In a few minutes you have a piping hot, ready to serve meal for a hungry family. Casseroles that have covers can be sealed air tight for freezing by using a strip of freezer tape to seal. Small pans may be used, covered with freezer foil (not the thin household kind) and sealed with freezer tape. Here is a good recipe from ground meat that is good to freeze and may be served several weeks later. No one would ever guess that it had been made and frozen. Try this sometime in your casserole.

How to Select an Electric Range ...

All women know the feeling of frustration when a cake that the family was looking forward to has fallen in the oven. The same kind of misfortune may also befall a Sunday roast, and very few, if any of us, can afford to buy another because this one is spoiled.

Admittedly, we may all know the idiosyncracies of our own stoves (as we do of our husbands), yet, no matter how hard we try to adjust them—the stoves in this case—there are times when they get too exasperating. Then we make plans for better economy cooking, and think about the purchase of a new stove.

What are the basic features to be considered when buying a stove? Is a new electric range easier to operate, easier to clean and care for than your present range? How long will it last, will it pay for itself in the long run in time saved, better tasting foods, and improved health for you and your family. Ask your friends or neighbors who own one. They may give you some excellent ideas.

Thoughts in Selection—How can you as a prospective purchaser of an electric range know which one to select? There is one basic rule to follow—shop wisely. Get all the facts and then choose the one best suited to your particular needs. Read the literature on ranges. See demonstrations of electric cookery at your electric cooperative or appliance dealer, and here, too rely heavily on the

experience of friends and neighbors. Then analyze your individual needs and desires. Here are some of the major points to be considered: 1) The number in the family, their eating demands and habits; do they prefer fried, boiled or baked foods? 2) Consider your kitchen space and arrangements. Is there room for a large oven or are your quarters cramped? And then consider how many burners are necessary, whether a large grill or broiling area may come in handy. Perhaps you want a two-door stove. There is no single formula for deciding. The problem is that of balancing any given combination of features of one model against an equally desirable but different combination of features of another. With all of the available help in deciding, the choice shouldn't be too difficult.

Construction—You'll be fond of your electric range, and make it a close friend through the years. Notice how attractive and modern each and every model looks. Examine the sturdy construction in which the range frame is welded into a single piece of heavy steel which is reinforced with steel supports. See

Ballet, Accordion and Organ
808 Richardson Phone 1056.W

how the range top and back splash are joined in a one-piece construction that eliminates hard-to-clean crevices. Similarly the tops and sides are generally finished in that "shiny new look."

Cooking Economically—

Let us not forget the most vital point of any cooking appliance is how it affects the food we eat. The importance here lies not only in food tasting and looking good, we must also think of the preservation of the health giving elements in food. Vitamins and minerals must be preserved in cooking vegetables and the protein value of meats must not be destroyed. By avoiding excessive amounts of liquids, for example, the loss of water-soluble vitamins is held to a minimum. On an electric range, 1/4 cup of water is sufficient to cook vegetables for a family of four.

Care of Ranges—

Electric ranges are easy to care for. The outside may be washed with warm-soapy water. Try not to let spilled food dry and harden on the range. Remove spilled food on heating unit by burning off, not by brushing or scraping. And wipe the cool oven with a damp cloth frequently. Reflector pans and

drip trays may be washed like other kitchen utensils. Remove oven units and rack for cleaning. Here, ammonia will help remove baked on stains. You can leave ammonia in the oven overnight. Then in the morning clean the oven with hot, soapy water, rinse and dry.

Special Features—

Most ranges have TIMERS that are set by turning an indicator to the number of minutes food should cook. When this length of time has elapsed a bell will ring to indicate that the cooking period is over. Or they may have the WARMING DRAWER that warms your serving dishes and keeps your food hot. How about the AUTOMATIC OVEN TIMER which will turn oven units on and off at desired times, or the THERMOSTATIC HEAT CONTROL which insures even temperatures at all times? There are LIGHTS that illuminate the inside of the oven, as well as the INDICATOR LIGHTS which flash on to tell you the right heat has been reached or any fluctuation in temperatures.

APPLIANCE OUTLETS, BUILT SURFACE GRIDDLES, WELL COOKERS, ILLUMINATED OVEN DIALS, CONDIMENT

SETS, MASTER PILOTS, GLASS WINDOWS IN OVEN DOORS, all contribute to your comfort and convenience and health. Its fun to own an electric range. Imagine yourself going out for an afternoon and on returning home finding the food ready to eat. A new electric range can be the most important electric appliance in your home.

IN THE DISTRICT COURT OF EDDY COUNTY STATE OF NEW MEXICO
JESSIE NELL JENKINS, Plaintiff,
vs.
WILLIE ALECK JENKINS, Defendant.

NOTICE OF SUIT PENDING THE STATE OF NEW MEXICO TO WILLIE ALECK JENKINS, GREETINGS:
You will take notice that there has been filed in the District Court of Eddy County, New Mexico, a civil action numbered 13874 on the docket of said Court, wherein Jessie Nell Jenkins is Plaintiff, and you, Willie Aleck Jenkins, are Defendant; that the purpose of said suit is to obtain a divorce from you and that unless you appear, answer or defend herein on

or before the 29th day of August, 1953, the Plaintiff will apply to the Court for the relief prayed in her Complaint filed herein and judgment will be entered against you in said cause.
The address of Plaintiff is Artesia, New Mexico, and William M. Siegenhauer, of Artesia, New Mexico, is attorney for Plaintiff.
IN WITNESS WHEREOF, I have hereunto set my hand and placed my official seal this 8th day of July, 1953.
