Big High School
Carnival This Week

VOLUME FIFTY

FIRST ARTESIA youngsters taking part in weekly radio book quiz Saturday were, left to right, Janice O'Brien, Barbara Hoag, Bill Edmondson, Marie Herbert, Lana Jana Garner, and Lin Patterson, all sixth graders. Weekly event is designed to promote reading and is sponsored by Artesia branch of American Association of University Women. (Leone Photo)

Zumwalt Elected Secretary Of National Future Farmers

Hunt Zumwalt of Artesia has been elected secretary of the National Future Farmers of America organization during their annual convention in Kansas City.

Funeral Is Held In Mayhill for Monroe Brantley

Funeral services for Monroe D. Brantley, 64, postmaster at Mayhill for 26 years, were held in Mayhill cemetery Monday. Services were conducted by Robert Waller and Clifford Stark of the Church of Christ.

Mr. Brantley's nephews served as pallbearers. He died Sunday, Oct. 19 in Carlsbad hospital. Funeral arrangements were conducted by Carpenter Funeral Home, Carlsbad.

Survivors are his wife, Mrs. Edith Brantley, three daughters, Mrs. Roy Kemper, Carlsbad; Mrs. Oliver Underwood, Deming and Mrs. Herbert Rendick, Elgin, Ill.; two brothers, Lee Brantley, Mayhill and Elza Brantley, Caksbad; four sisters, Mrs. Maggie Frizzell, Carlsbad, Mrs. Betty Fleming, Pinon and Mrs. Nora Watson, Hagerman and six grandchildren.

He was postmaster at Mayhill 26 years. He moved to Hope from Mayhill and has been in Artesia the past two years. While in Mayhill he helped develop public roads and was interested in the public school system. While in Hope he worked to obtain and develop the REA in Hope.

He was born in Mayhill April 30, 1889. He was a member of the Church of Christ, Artesia.

GAME DATE CHANGED

This week's St. Mary's of Albuquerque and Artesia game has been changed from Friday night to Saturday night at Albuquerque. Coach Reese Smith announced this week.

Artesia men passed through General hospital this week following a series of week-end operations.

Russell called police at the Ross Cafe on the corner of 12 1/2 a. m. Sunday to report a had been stabbed. A few minutes later Lester Walker, 20, stabbed himself in the police station.

Artesia men were admitted to the hospital following a stabbing at the Our Lady of Grace parsonage. Their names were given as Steve Sanchez, Felipe and Jesus Jimenez, Felipe and Eugenio Martinez, and others.

Six Boys Enter First Junior Golf Tourney

Six boys qualified Saturday for the Artesia Country club Junior Boys' Tournament sponsored by A. W. Harral and Joe Estrada.

Qualifying were Hugh Burch, Freddie Crawford, Dewey Sutton, Jimmy Harral, Jesus Estrada, and Paul Turner.

Qualifying rounds are continuing through this week. Harral and Estrada have announced. Final play is scheduled for Saturday at the Country club.

The remaining 40 per cent stays in Artesia, where it will be used to benefit the Lions club local sight conservation program, which spends more than \$1,000 a year here for eye examinations and glasses for those who need them but cannot afford them.

A portion of Lions club's share in the proceeds will also be devoted to the organization's Christmas party for underprivileged children.

Lions will begin their residential sale at 5 p. m. Thursday and Friday, conducting a house-to-house campaign.

All products, reports Ed Shockley, Lions president, are top quality and better than the commercial equivalent for the same price.

Lions club members will act as salesmen in the campaign. The products will be brought from Alamogordo Thursday by Mark Shoemaker, director of the adult center, who is himself blind, two assistants, and a chauffeur to drive the center's large truck.

The Broom Sale will be the first of its type to be held in Artesia, Shockley reports.

Schools Gather \$178 for Red Feather Drive

Artesia Public Schools Monday presented to Community Chest collection totalling \$178. Mrs. Wallace Beck, Council of Social Agencies secretary, reports.

Red Feather is past the \$3,000 mark in its month-long campaign, but has more than \$6,700 to receive before reaching its campaign quota to be distributed among five participating agencies.

Red Feather workers gathered Friday as guests of Artesia Hotel for a campaign luncheon in which workers were urged to complete the drive as soon as possible.

Those Barleys at Hope are the prize-winning people around here.

This time they've taken a parcel of prizes at another state fair, the Texas State Fair in Dallas.

Only two weeks ago they won a flock of prizes at the New Mexico State Fair, including nine firsts.

The competition is evidently stiffer in the Texas event, for the Barleys won only one first, but nevertheless had a total of 13 prizes from first to tenth.

The Barleys' first place winner was shown by Mrs. Bob Barley, whose Perfection Lashbrook Grey

Artesia Feature On TV Program

Artesia will be highlighted on a television program scheduled for 9:30 tonight over KSWV-TV, Roswell, Chamber of Commerce Manager Paul W. Scott has been informed.

Scott said the television station has notified him a film made in Artesia during a Roswell booster's trip advertising the Eastern New Mexico Fair will be shown. It will feature Artesia as a good place to live, highlighting its business, industry, homes, and other facets of the community.

Kermit Man Kids Team, Ends Up in Street Ruckus

What reportedly started as a friendly jibe at the Kermit Yellow-jackets by a former Kermit resident after Friday night's Artesia-Kermit game turned into a street fight in downtown Artesia.

A former Kermit resident who recently moved to Carlsbad with an oil crew called from his car "why didn't you take 'em, 'Jackets" or word to that effect.

Since he had lived up to New Mexico law by swapping his Texas plates for the red and white of New Mexico, the Kermit boys didn't understand, and several flung some cuss words after the Eddy county car.

Perturbed, the former Kermit resident got out of his car and went over to explain. But the atmosphere wasn't right for explanations. A fight followed.

That's the former Kermit resident's story, as told to Eddy county sheriff's officers Saturday.

Artesians were deeply perturbed Kermit fans might think an Artesia resident hit a Kermit player, stirring up a misunderstanding which might cause competition between the two teams to end.

Actually, no Artesia residents were involved, and several cooperated with police to find the man involved.

E. J. Chandler Rites to Be Held At Mayhill To day

Funeral services for Eldridge Jay Chandler, 71, of Mayhill will be held at 3 p. m. today at the Church of Christ, Mayhill. Evangelist Robert E. Waller will conduct services.

Interment will be in the Elk cemetery.

Mr. Chandler died at his home in Mayhill at 4:30 a. m. Monday, following an extended illness.

He came to New Mexico in 1903 from Texas.

He is survived by two daughters, Mrs. Dorothy Dockray of Mayhill and Mrs. Francine Taylor of Hope; and four sisters, Mrs. Maggie Fouché, Dallas; Mrs. Virginia Hinaman, Dallas; Mrs. Beulah Archibald, Tampa, Fla., and Mrs. Blanche Morgan, Aberdeen, Md.

He was born in Rockwell county, Texas, Dec. 31, 1881, the son of Mr. and Mrs. H. W. Chandler. Feb. 10, 1916 he married W. Lorene Paxton at Elk. Three children were born to the couple.

The conference, designed to raise farm living standards and reduce agricultural production costs through increasing profitable use of electricity on farms, is scheduled Oct. 27-28.

Frost will leave Artesia Oct. 21 to attend a regular meeting of the National Rural Electric Co-Op association in Mineral Wells, Texas. He will attend as secretary of the New Mexico association and a member of NRECA's national public relations committee.

Big Future Farmers, 4-H Show, Sale Opens Friday

Eddy county's big annual Future Farmers of America and 4-H Livestock Show and Sale is scheduled to open Friday in Artesia for what is predicted as its biggest year yet.

Entries in the livestock division of the big show will be housed in the large Artesia Wool Co-op barn near NuMex and Continental refineries. Four-H displays will probably be held in Central School auditorium.

Screening committees are scheduled to tour Eddy county today to pass on animals of quality for the show so that only animals meeting standards will be admitted.

Under sponsorship of Artesia Kiwanis club and the Carlsbad Farm and Ranch Improvement association, the show this year will be celebrating the eighth anniversary of its founding and the second anniversary of its growth to a two-day show.

The show and sale actually combines two events. One is the show of animals, and the sale climaxing the show. The other is display and judging of entries made by 4-H members, ranging from handicraft items to baked goods.

The large wool barn is being readied for the livestock show and sale by members of the Artesia vocational agriculture classes under direction of Truman Short, instructor.

At a planning meeting held Friday under chairmanship of Ken Aldridge of Artesia, arrangements were made for buyers of stock to be put in the sales ring next Saturday.

The show has continually expanded through the years to become Eddy county's top agricultural event, and has consistently outgrown housing made available for it. Last year it became a two-day show and was held in the Carlsbad armory.

Lions to Open Broom-Selling Drive Thursday

Top quality products from the adult work center of the New Mexico School for the Blind at Alamogordo will be sold in Artesia three days this week to benefit visually handicapped at the school and in Artesia.

The sale is scheduled for Thursday and Friday nights in residential areas and in downtown Artesia Saturday morning. It is under sponsorship of Artesia Lions club.

Sixty per cent of proceeds from the sale of brooms, mats, assorted brushes, and other products will be returned to the adult center at Alamogordo in payment for materials and labor.

Artesia will be highlighted on a television program scheduled for 9:30 tonight over KSWV-TV, Roswell, Chamber of Commerce Manager Paul W. Scott has been informed.

Scott said the television station has notified him a film made in Artesia during a Roswell booster's trip advertising the Eastern New Mexico Fair will be shown. It will feature Artesia as a good place to live, highlighting its business, industry, homes, and other facets of the community.

Senator to Talk On Farm, Ranch Problems Today

U. S. Senator Clinton P. Anderson will trade ideas with North Eddy county farmers and ranchers this afternoon on problems which threaten the area's multi-million dollar cotton and livestock business.

The senator, who is also a former secretary of agriculture, will address Artesia Rotary this noon. He is scheduled to confer later in the day with farm and ranch leaders before driving to Carlsbad late today.

Similar conferences are scheduled in Carlsbad tomorrow. He will be the guest of T. E. Brown, Sr., during his stay in Artesia.

Farm and ranch leaders are reported primarily interested in learning Anderson's information and views on:

1.—Cotton quotas, reportedly in the works for producers across the U. S.

2.—Aid in one form or another for beef producers hit by a combination of drought, high feed prices, and skidding market prices despite continued high meat prices to the consumer.

This afternoon's session, Brown said, will be a meeting in which farmers and ranchers may learn information from Anderson on what is possibly in store for them, as well as to give him their ideas on needs for their industries.

How much proposed cotton acreage quota would cut Eddy county production is not generally known. Continued drought in North Eddy county had cut winter rangelands to a point where they cannot by themselves support cattle, stockmen have said.

Fanning, Lee Are Elected County PMA Officials

Donald Fanning of Artesia and Forrest Lee of Lakewood have been elected top county officers in the production and marketing administration committee.

Fanning was re-elected vice-chairman of the county committee and Lee chairman of the Artesia area community PMA committee.

Re-elected county chairman is O. E. Moore Jr., Carlsbad. Third member of the county committee is Roy Thompson, also of Carlsbad.

Other members of the Artesia area committee are Sanders Terry, vice chairman; Howard R. Stroup, member and H. L. Green, alternate.

The election was conducted by five delegates elected by 231 Eddy county farmers participating in PMA programs. Among the five were Joe Bill Funk, Cottonwood, and Lee. Others were Elmer Hepler and Enea Grandi, Carlsbad and Ray Howard, Loving.

Southard Based On Rocket Ship At San Diego

William W. Southard, radarman third class, USN, son of Mr. and Mrs. Thomas A. Southard of Artesia, is on board the landing ship medium rocket USS LSNR, based in San Diego.

The ship took part in the Pacific Fleet's Operation Salt Wave from September 28th to October 2nd. The training exercises was aimed at testing the techniques and procedures for amphibious and mine operations, air defense and atomic warfare.

Active North Eddy GPA Sets Annual Barbecue Thursday

Plans for the highly active North Eddy County Game Protective association to follow will be outlined at the organization's annual barbecue and meeting scheduled for 7 p. m. Thursday night in Senior high school cafeteria, Ormond Loving, president, has announced.

The event is free to all members. It will highlight a month-long membership drive which to date has been about 250 members signed up. Goal for the campaign is 400 to 500 members.

Loving pointed out membership is important to local GPA organizations, since units receive one vote for every 25 memberships when the state convention is held. Highlight of the barbecue is award of a 30-30 rifle to a member whose membership ticket has the lucky number printed on it.

Loving pointed out "GPA is not a law-enforcement agency, although we will work with the department of game and fish in every effort to punish those who molest our wild life and abuse privately-owned land and property."

He added that votes in the state convention "mean a lot toward the amount of work and interest shown in this area by the game department. The New Mexico GPA is fast-becoming a very strong force in the passage of legislation pertaining to the betterment of the sportsman."

During the past year the North Eddy GPA has been highly active. It has raised and planted more than 400 pheasants in the Artesia area, and has stocked Eddy county waters with nearly half a million fish, planted in the Pecos river between Boling Springs and Avalon, in the Cottonwood, the Upper Pecos, and local farm tanks.

It has conducted a successful rough fish contest in cooperation with the state game department to remove rough fish from the Pecos river.

Planned for the future are support of the tri-county organization of Lea, Chaves and Eddy county GPAs for the betterment of game and fish management.

Loving also points to a need to create greater cooperation between sportsmen and land owners. If local sportsmen desire, the pheasant-raising project will be continued, he added.

State and Federal aid is needed in predatory animal control, Loving said, and the North Eddy GPA, if strong, should continue in removal of rough fish and planting of game fish in Eddy county waters.

Woman Nuclear Physicist at Los Alamos Tells AAUW of Varied Work, Acoustics to Radium

Dr. Alice H. Armstrong of Los Alamos was guest speaker at a regular luncheon meeting of the American Association of University Women Saturday.

Dr. Armstrong who is doing research in nuclear physics at Los Alamos, told how she began her research work in X-ray after she had received a fellowship award from the AAUW which enabled her to attend Radcliffe college and work toward her doctor's degree.

Although the fellowship was only for one year, Dr. Armstrong said she became so interested in research while studying that year she continued her study in nuclear physics.

Before completing her work for her Ph.D. she worked in the radium section of the bureau of standards, Washington, D. C., at the Rockefeller Institute for Medical Research, and for the Harvard Cancer Commission.

While working at the Rockefeller Institute she was, without her knowledge, exposed to radium to such a degree that it should have been fatal, but through medical treatment and after a long period of rest she was able to return to her work.

Undergraduate Work— Dr. Armstrong took her undergraduate work at Wellesley college and after several years in research work returned there as a member of the physics department. While at Wellesley she had a Sabbatical

leave which she spent at the University of California at Los Angeles where she studied acoustics of musical tones.

She also had a wartime leave of absence for work at Harvard Underwater Sound Laboratory during the latter part of World War II. After the war she spent two years at Los Alamos, then returned to Wellesley as chairman of the physics department.

She returned to Los Alamos in August 1953, where she is continuing her laboratory research in physics. Dr. Armstrong stated that her work is not of a secret nature. She works with a group of 20 women and two men.

Dr. Armstrong is a member of the American Association of University Women at Los Alamos and was accompanied to Artesia by Mrs. Osborn, also of the Los Alamos branch.

Fellowship Sponsors— The meeting Saturday was sponsored by the Fellowship committee whose chairman is Mrs. C. H. Parker. Members of the Artesia branch are asked to contribute \$1 each year to the National Fellowship Fund. Since the beginning of the association these contributions from branches have made it possible for talented women scholars to continue study and research on a graduate level.

All AAUW Fellowship awards are financed by contributions from the 1,234 branches and by the income from the fellowship endowments which now total more than \$1 million.

Fellowships for American women are given without restriction as to geographical location, subject or place of study. The primary consideration in making fellowship awards are whether the subject to be studied will make a definite contribution to knowledge and whether it has promise of creative scholarly work. The recipients of course must have already demonstrated their intellectual ability in their undergraduate work.

Hostesses— Hostesses for the Saturday meeting were Mrs. C. H. Parker and Mrs. Leota Williams. Twenty-eight members and three guests attended the luncheon and meeting.

Four new members of the Artesia AAUW are Miss Jo Ann Johnson, a 1953 graduate of the University of New Mexico; Miss Marian Wood and Mrs. Harold Kersey, graduates of Northeast Missouri State Teachers college, Kirksville, Mo.; and Miss Joann Nicks, 1953 graduate of the University of New Mexico, Miss Nicks is a teacher at Hagerman.

Chapter Plans for B&PW District Convention Here

Mrs. Ruth Joss, gave a report on plans for the coming district convention of Business and Professional Women's club to be held in Artesia at the regular meeting of the Artesia chapter Tuesday evening.

The meeting was held in the home of Dr. Kathryn Behnke and was a luncheon for prospective members.

Mrs. Joss stated that plans had been made for all the women attending the convention to attend 11 a. m. services Sunday, Nov. 8, at the First Methodist church. Rev. R. L. Willingham will bring a special sermon for B&PW.

It was announced a special meeting would be held Monday, Oct. 19, at the home of Mrs. Joss to make definite plans for the meeting place for the district convention.

Miss Hazel Hockensmith extended the club an invitation to a luncheon being given by American Association of University Women Saturday, Nov. 21. The program will be of interest to all women.

Mrs. J. E. Turner asked the club to make a donation to the community chest.

Thirza Parmer and Loretha Teed became new members.

son, a 1953 graduate of the University of New Mexico; Miss Marian Wood and Mrs. Harold Kersey, graduates of Northeast Missouri State Teachers college, Kirksville, Mo.; and Miss Joann Nicks, 1953 graduate of the University of New Mexico, Miss Nicks is a teacher at Hagerman.

Cause of Nervousness Discussed by Local Doctor

Subluxated (misaligned) vertebrae in the spinal column producing a pressure on the spinal cord and spinal nerves are often the cause of nervousness. Tiny nerve fibers carry nerve impulses from the brain, through the spinal cord and spinal nerves, to all parts of the body. If anything prevents these fibers from carrying the proper supply, certain tissues of the body will become abnormal in their function.

We often find that the vertebrae of the spine becomes misaligned, producing a pressure on the nerves and interfering with the normal transmission of the nerve impulses. When the Chiropractor removes the nerve pressure through his scientific adjustment, he removes the cause of illness.

It is not right to say "everything possible has been done" unless Chiropractic is included.

For further information about Chiropractic you are invited to consult Dr. Kathryn Behnke, Palmer Graduate Chiropractor, 408 W. Richardson, phone 861.

Eight Candidates Initiated Into Artesia Does

At a meeting Wednesday evening of the Benevolent and Patriotic Order of Does held at the Elks club-building, eight candidates were initiated into the drove. They are Mrs. Martin Hibbard, Mrs. Frank Mullenax, Mrs. Jim Murdock, Mrs. Charles Ray, Mrs. Ozeil Ryan, Mrs. Hersholt Scott, Mrs. Trent Schmitz, and Mrs. Charles Slentz.

Initiation was under the direction of the president, Mrs. Robert Parks, and the conductor, Mrs. Kenneth Williams.

Following the initiation and business meeting of the drove, refreshments were served. The table was decorated with fall flowers and a centerpiece by Mrs. J. W. Jones which won a blue ribbon in the recent flower show.

The next meeting of the drove will be a covered dish dinner for the Does and their husbands to be held at the Elks club Wednesday, Oct. 28.

Social Calendar

Tuesday, Oct. 20— Cottonwood Community club, meeting at the home of Mrs. Floyd Howard, 2 p. m. Park school Parent-Teacher association, meeting in music room, 4 p. m.

Wednesday, Oct. 21— Xi Iota chapter, bundle party at the home of Mrs. Donald Fanning, 7:30 p. m. Bulldog Parents club, 7:30 p. m. Senior high library.

Thursday, Oct. 22— Artesia Junior Woman's club, welcome tea and introduction of members, clubhouse, 2 p. m. Lakewood Extension club, meeting at the home of Mrs. Forrest Lee, demonstration on small furniture and suggestions for next year's programs, 2 p. m.

Friday, Oct. 23— CWF meeting in social hall of First Christian church at work afternoon, quilting, callig. folding bandages and work on choir robes, 2:30 p. m. Delta Kappa Gamma, meeting and initiation at Old American dining room, 6:30 p. m.

October 20 Alpha Nu chapter of Epsilon Sigma Alpha will meet in the home of Mrs. Gene Chambers at 7:30 p. m. for regular meeting.

Christian Church Women Hold General Meeting

Christian Women Fellowship of the First Christian church had a general meeting in the social hall Thursday afternoon.

The meeting opened with a song, "Lift Thine Eyes" with Mrs. Curtis Bolton at the piano and prayer by Mrs. G. P. Ivers. Lesson was conducted by Mrs. Artie McAnally and Mrs. N. T. Kelly had the worship service.

The hall was decorated with autumn flowers. Cake, mint, coffee and iced tea were served.

The first watch was invented by a German, Peter Henle, in 1500.

THEY CHOSE THE EPISCOPAL CHURCH

You have heard many people say, "Sure, I know I should go to church, but there are so many different churches I just don't know which one to join." So, they do nothing.

Chad Walsh, a former college English professor wrote, "I grew up as an agnostic, perhaps even an atheist. . . . I took the time to do something about it. As he says, "I went shopping," and found his answer in the Episcopal Church.

In the new Episcopal Mission recently started in Lovington, several members have voluntarily told others about why they could not go to other churches. One woman who was recently confirmed said, "All my life I have been looking for a Church of my own, and now I have found it in the Episcopal Church."

If you have put off joining a church because of the multiplicity of churches, come to the Confirmation Classes at St. Paul's Episcopal Church each Friday night, from 7 to 8 p. m. Learn what we have to offer. Maybe you will find the Episcopal Church is your choice also.

St. Paul's Episcopal Church

Artesia, New Mexico

Mrs. F. E. Waltrip Reports on PEO International

Mrs. F. E. Waltrip who has just returned from the PEO convention in Vancouver, B. C., gave a report on the convention at a meeting of PEO Chapter "J" Friday afternoon at the home of Mrs. T. H. Flint with Miss Ruth Russell as co-hostess.

Mrs. Waltrip returned Friday from the PEO International convention, attended by 2200 visitors and delegates. Mrs. Waltrip represented four New Mexico chapters.

Delegates to the convention of the United States and Canada well as from Hawaii, and Alaska. The sisterhood is a philanthropic organization promoting education for women. During 84 years it has built its chapters to 32,000 with a membership of 116,000. It owns and manages Cottey College at Nevada, Mo. has assisted more than 10,000 through its educational loans. Artesia chapter has two loan girls this year.

Central Valley SCS Officers, Sixth Graders From Roselawn on TV Tonight

Officers of the Central Valley soil conservation district and 12 students of Roselawn school will be featured tonight on a KSW-TV program scheduled for 6 to 6:15.

Taking part will be Ray F. Zumwalt, supervisor of the district; Keith J. Dampf, SCS technician, and Robert R. McFadin and 12 students of Roselawn school.

Title of the program is "Your Home and Your Land," with the theme "Conservation concerns the young."

Soil and water conservation is being taught in all elementary schools in the Central Valley district of the Artesia area, Dampf points out.

The program will stress that since proper use of soil and water is of vital importance to the continued well-being of the nation, it does concern young people.

Journeyman Plumbers Wage Set at \$2.87

Wage negotiation meetings between the conference board of the Associated Plumbers, Heating and Piping Contractors of New Mexico and the United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry of the American Federation of Labor, local 412, were closed last week with signing of a new two-year wage agreement.

Contributions Requested for Hospital Room

A request was made this week for contribution of articles which might be used in the furnishing and decorating of a recreation room at Fort Stanton hospital.

Quarters to be used for the recreation room are those formerly occupied by the Seaman's club. The quarters are being refurbished in Indian style, and contributions of magazines, records, record players, Indian relics, blankets etc., will be gladly accepted.

The quarters are entirely bare at the present time as the furniture and fixtures that were in the club belonged to the former patients and were removed when the ownership was transferred to the state.

Fort Stanton Hospital Starts Patient Therapy

Utilizing equipment already in the hospital when it was transferred to state ownership, seven occupational therapy courses have been started at Fort Stanton hospital for the benefit of the patients.

State Welfare Director Alva Simpson announced today Earl G. Simmons, a trained professional occupational therapist will be in charge of instruction.

The courses include carpentry, leather work, weaving, light metal work, heavy metal work, mechanical training, newspaper composition and type setting.

Simpson said it was hoped that a coordinating policy could be worked whereby convalescents from both Fort Stanton and the tuberculosis sanatorium at Socorro would be able to participate in the occupational therapy cases. In many instances it is believed the

Top Girl Wrestlers Slated For Mat Card Here Thursday

Judy Glover and Mary Jane Mull, top girl wrestlers, will be featured on the wrestling card Disabled American Veterans of Artesia will show Thursday evening.

The feature is to start at 8:15 in Veterans Memorial building. Judy Glover is from Columbus,

JUDY GLOVER

Ohio, from which she was flown last week to fill out El Paso's card when Lilly Bitters suffered an injured back.

Mary Jane Mull is a 5 foot 5 inch blond who was once a professional model in the larger department stores of Toledo, Ohio. She is billed as a star performer

MARY JANE MULL

Government Gives \$29 Million For Special Wheelchair Homes

Federal grants for "wheelchair" homes totalling more than \$29 million have been made to 3,123 seriously disabled veterans, including those of the Korean conflict, the veterans administration announced today.

Another 1,735 veterans have received preliminary approval for such grants.

All veterans of war or peacetime service since 1898, who cannot get about without the aid of wheelchairs, braces, crutches, canes or the like may be entitled to these special grants.

THESE VETERANS MUST BE entitled to compensation for permanent and total service-connected disability for the loss, or loss of use, of both legs due to certain specified conditions.

VA defrays 50 per cent of the cost of "wheelchair" homes for eligible veterans up to a maximum of \$10,000 under grants which were first authorized by Congress in 1948.

Such special features as ramps (instead of steps), doorways wide enough to accommodate a wheelchair two years after her debut as a girl wrestler.

Her advance publicity reports Mary Jane is apt with a needle, making all her own clothes. In her spare time, she releases, she is either sewing or listening to her "fabulous collection" of jazz records.

USDA Yearbook Discusses Plant Diseases, Remedy

The US department of agriculture today announced publication of the 1953 yearbook of agriculture entitled, "Plant Diseases."

chair, special bathroom fixtures, and exercise rooms equipped to meet the needs of the individuals are incorporated into these homes. Model plans, specifications and blueprints of such specially designed homes, which the veteran may use if he wishes, are supplied by VA.

The grants may be used in several ways. The veteran may buy a lot and build on it, remodel his present home to suit his needs, or apply the grant against his mortgage if he already has a suitable home.

AS OF AUGUST 31, 1953, a total of 6,167 veterans had made applications for the grant. VA gave preliminary approval to 4,858. Of that total, 3,123 veterans were given grants totalling \$29,013,578. Another 223 grants were pending and 12 were withdrawn. Of the total number of grants paid, 2,662 were for new homes, 267 for remodeling, and 194 went to pay off the mortgages on homes already equipped.

Living Insurance Policy Holders Get \$4 Million

Payments to living policy holders in New Mexico from their life insurance companies were \$3,036,000 in 1952, which was 56 per cent of the year's total life insurance payments to the families of this state, the Institute of Life Insurance reports.

These payments were in addition to \$3,143,000 of death benefits paid to the families of this state and compared with payments of \$3,371,000 to living policy holders the year before. The "living benefits" include matured endowments, disability benefits, annuity payments, cash surrender values paid out and dividends to policy holders.

"Living benefits have become an important part of the flow of funds paid by the life insurance companies to their policy holder families," Holgar J. Johnson, institute president, commented. "More and more families are setting up life insurance programs which call for specific living benefits as well as the basic death benefits. Last year the total of all payments to policy holders and beneficiaries in this state amounted to \$7,179,000."

Of the total living benefits received in 1952 by the families of this state, \$602,000 was for matured endowments; \$172,000 for disability benefits; \$554,000 for annuity payments; \$1,370,000 for policy cash surrender value payments and \$1,338,000 for dividends to policy holders.

"Look, Daddy," said the six-year old, "I pulled this cornstark up all by myself."

"My, but you're strong!" said his father.

"I guess I am, Daddy. The whole world had hold of the other end."

Commercially speaking, the Douglas fir is considered the most valuable of all trees

He adds in the foreword that the new yearbook will help greatly in the achievement of the goal for American agriculture; "Ample food for all, efficient farm production and marketing, prosperity for farmers, economy in administering round agricultural programs, continuing cooperation among all segments of society."

He points out, however, that some of the diseases will not be easy to conquer "New diseases and new races of old disease-producing organisms appear all the time . . . The cost of materials and equipment for fighting the diseases has become enormous. And, finally, our efforts against plant diseases are made harder by the lack of information about them among many persons who have to do with plants and plant products."

Commercially speaking, the Douglas fir is considered the most valuable of all trees

Commercially speaking, the Douglas fir is considered the most valuable of all trees

Commercially speaking, the Douglas fir is considered the most valuable of all trees

THE INTERMEDIARY, Robert T. Lederman (middle), business of Robert C. Greenlease, Sr., tells a reporter in Kansas City the story of how he helped deliver the \$600,000 ransom money kidnaped Bobby Greenlease, 6. At left is Norbert O'Neil, Greenlease associate and intermediary. (International News)

14 OF THE ABOVE OWNERS FORMERLY OWNED COMPETITIVE MAKES OF MECHANICAL PICKERS

These "Fingers" Hold Your Future in Cotton...

Never have these mechanical fingers meant more to cotton farmers than now. They help to complete the mechanization of a crop for years shackled with high labor requirements . . . particularly at harvest time.

Now, Allis-Chalmers brings mechanical picking at lower cost to cotton farmers.

The self-propelled, two-row model is made to order for growers with large acreages, because of its greater capacity. Hundreds of long, grooved, barbless spindles pick the lint from open bolls. There's less staining of lint, and less trash in the cotton. Plants and unopened bolls are left intact for later pickings.

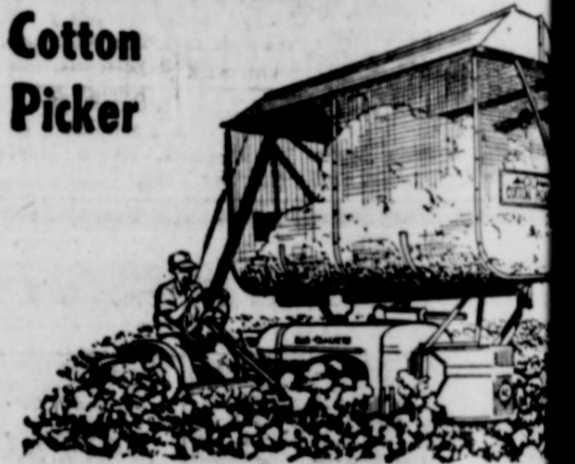

Pick at the right time at lower cost with an Allis-Chalmers Two-Row Cotton Picker. Let us show you how easy it is to beat high labor requirements at harvest time.

SERVICE Smith Machinery Co., Inc., have thoroughly trained and experienced field mechanics who have had several years experience servicing mechanical cotton pickers in the field. A complete stock of parts is always available.

WARRANTY Not only have we always guaranteed the mechanical equipment we sell, but we have honestly and faithfully stated what our machines would actually do.

PRICE One-Row Allis-Chalmers Picker and fully equipped, delivered price in the Pecos Valley to attach to a Model WD or CA Allis-Chalmers Tractor is only \$3100 Two-Row Allis-Chalmers Picker, fully equipped delivered price in the Pecos Valley, only \$9138

IT'S NEW... The Allis-Chalmers One-Row Cotton Picker

Now, growers of small and medium acreages, can pick their cotton crop mechanically . . . at low cost!

The Allis-Chalmers One-Row Cotton Picker is designed for quick mounting on regular CA and WD farm tractors. It's a spindle-type machine . . . getting a high percentage of open cotton the first time around. Unopened bolls are left intact for later pickings.

As cotton is picked, it is elevated and blown into a closed wire-mesh basket. For unloading, the basket is raised and lowered by hydraulic power, and gravity loads the cotton instantly. Basket capacity, 725 pounds.

The Allis-Chalmers One-Row Picker is the answer to harvest labor problems. Let us show you how you can pick more cotton . . . on time, and at lower cost.

NOW IS THE TIME to Find Out All About A-C PICKER Watch Them Work! Talk to the Owners!

Kermit Outshines in Everything but Score; Artesia Wins 19-12

In a game replete with nearly every type of football development from a called-back TD to a successful goal line stand, Artesia's weakened Bulldogs shaved Kermit, Texas, 19-12 Friday night.

The contest, in which Kermit overshadowed Artesia in total offensive yardage and threatened to overshadow in the scoring department, was repeatedly described as the best to be displayed at Morris Field in many a year.

Kermit netted 209 rushing yards against 204 for Artesia, picked up 53 passing against Artesia's 23, for a total net gain of 262 compared to the Bulldogs' 227.

Artesia had a slim, 9-8 edge on first downs. Two of them were by penalties. Kermit was heavily penalized in the contest, 70 yards as against five for the Bulldogs.

Friday night's game also put Artesia's defensive play to the acid test, when it showed up to best advantage to date in the 1953 season, especially in a spectacular stand on the 6-yard line against Kermit charges.

The Bulldogs had a disheartening called-back on their razzle-dazzle first TD of the game, when Freddie Sanders on the second play of the game ran all the way from the Artesia 41 for a 59-yard dash into the Kermit end zone. But an off-side penalty nullified the play.

Artesia easily dominated the first quarter, running 21 plays against seven for Kermit.

The 'Dogs made it count nine minutes later in the opening period.

After a punt and 15-yard penalty against Kermit, the Bulldogs were set up on the Kermit 27. Sanders carried to the 19. Kermit a play later was penalized for off-side, setting the ball on the 14. Sanders went over left guard to the 11. Larry Beadle to 9, Johnnie Riddle around right end to the 5, and Beadle to the 3.

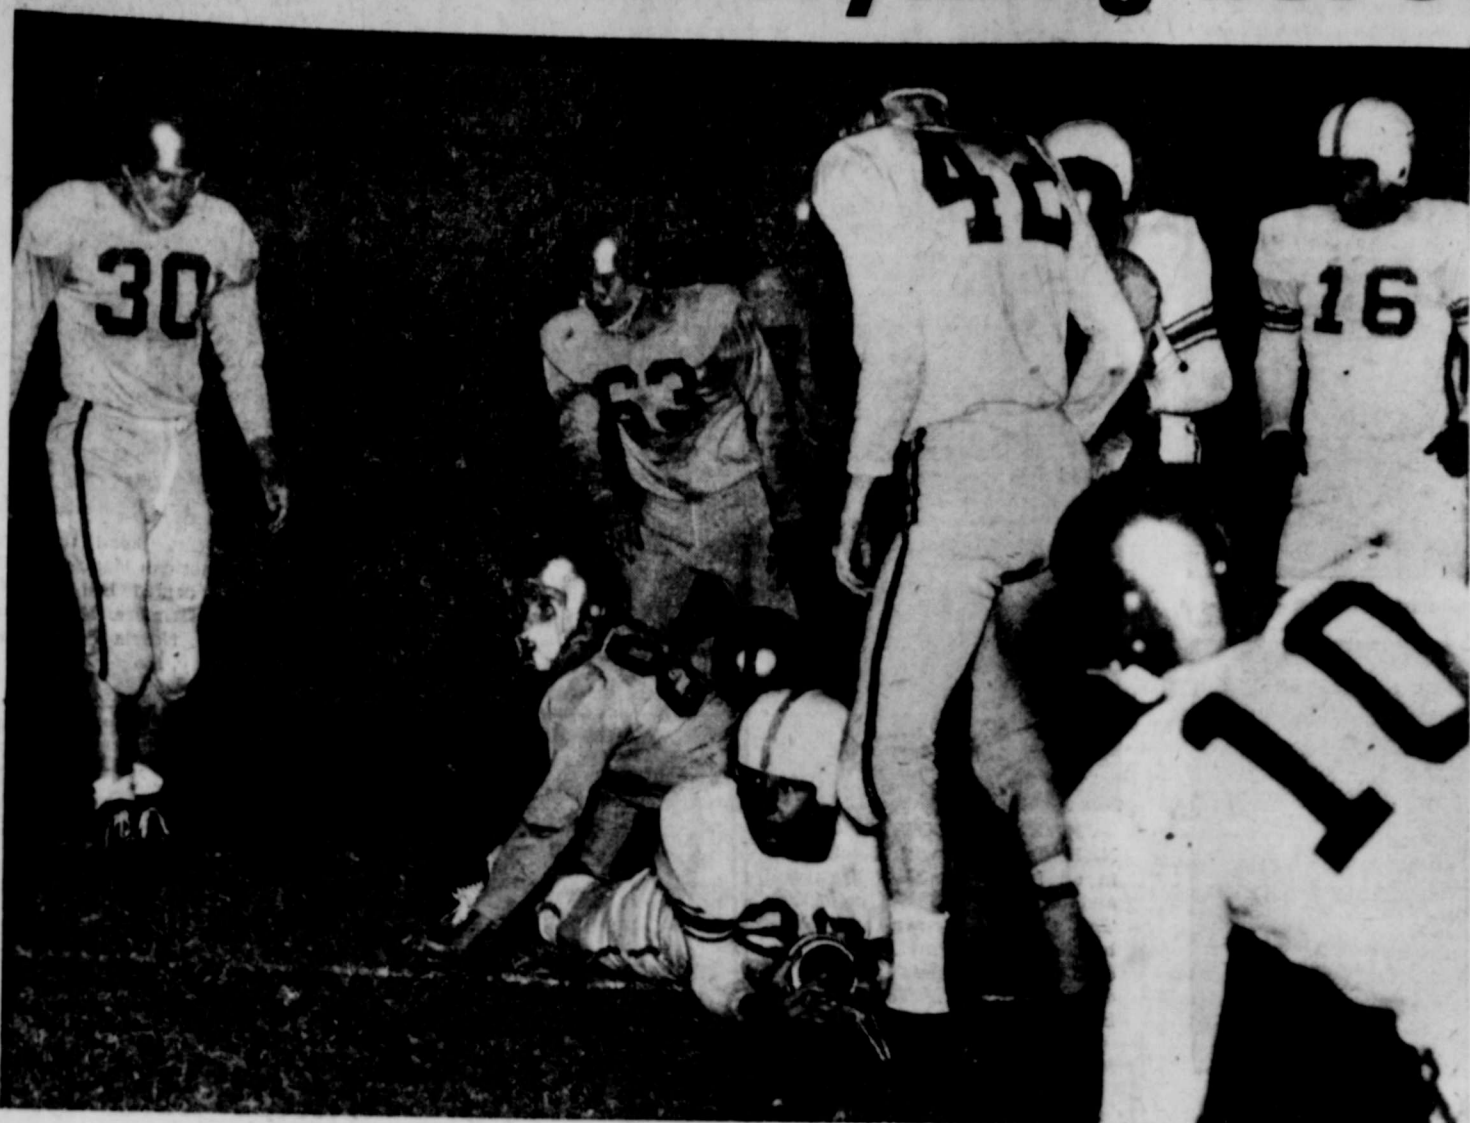

In two tries, Beadle went over with two minutes left in the period. His kick conversion was good, the only point after touchdown scored by either side in the game.

Kermit's first TD 6 minutes into the second quarter was set up by Larry Beadle's fumble on the 32 after being hard hit by the Kermit line.

The Yellowjackets scored on the first play after gaining possession of the ball, with left halfback Glenn Hopkins tearing away for 33 yards into pay dirt. The kick was blocked.

Artesia protected its slender lead with another touchdown with less than a minute in the half throwing on the clock.

Don Lewis returned a fourth down Kermit punt to the Kermit 46. Johnnie Riddle attempted three passes. A 15-yard penalty against the Yellowjackets put the ball on the 31, where Riddle

WHAT ABOUT IT, ump, says Larry Beadle's look after he pushed the ball across goal line (foreground) halfway through first quarter in Friday's Kermit-Artesia game. But the ump said no go here, put the ball back on the two-

foot line, and Beadle made it over next time for the first score of the game. Other Artesia players in photo are Don Price (No. 10) and Lou Campanella (No. 16).

(Gable Photo)

went up the middle to the 27.

In a surprise show of form, Riddle scored. Beadle's kick was blocked on a fast charge by Kermit.

After the half Artesia scored again three minutes into the third period with Riddle again breaking away. Kermit, repeatedly nailed in attempting to mount an offense, punted on the fourth to the Artesia 40.

Sanders returned to the 46, where Riddle on the first play took off for a 54-yard dash, outpacing the Kermit secondary down the west side of the field.

A flag on Beadle's first conversion kick set up the second try on the 26. The repeat try after the 15-yard Artesia penalty was less than a yard off, but still no good.

Kermit broke loose to score halfway through the period in a campaign that started on the Kermit 2.

Hopkins toted to the four, and on the second play scooted to the Artesia 35, tackled by Sanders and Lewis only in the nick of time. But after two tries at the line, Jimmy Schlosser set up a spread line, then kept in a deceptive play that paid off to the 27. Hopkins raced to score from the 27 on the next play. Brad Huckabee's kick

was blocked.

The fourth quarter saw no scoring but was featured by Artesia's goal line stand against four Kermit assaults from the 6-yard line.

Kermit reached the 5 through a brilliant show of power. The scoring drive began on the Kermit 30. Jim Elliott carried to the 44 in three tries.

Schlosser completed a pass to Huckabee to the Artesia 25. After a ground play in which Hopkins gained a yard, Schlosser completed another long pass to Bill Weldy on the Artesia 6.

With a first down on the 6, Kermit settled down to batter the Artesia line. Weldy drove to the five on the first down. But Hopkins was thrown back to the 6 on the second, and Ron Price and Louis Campanella nailed back a third down line smash.

Schlosser pitched-out to Hopkins on the fourth down, but Hopkins was driven back to the 9 by the right side of the Artesia line.

Artesia began a drive from the nine, with Lewis carrying to the 14 and Beadle to the 41 in four successive punches.

Riddle and Lewis reached the 46, where Riddle punted to the 34. Kermit in four plays made into a stall. Between cagey Kermit time-outs to stop the clock, Artesia managed to get to the 35.

five yards, where Artesia with 1 minute 20 second left settled Kermit took over with 15 seconds on the clock, but fumbled on the first play. Gressett recovered, giving Artesia possession as the gun went off.

Fish Planting Program Year 'Round Project

The New Mexico department of game and fish plants fish the year around to assure good fishing for the anglers during the regular season.

The department reports that the Lisboa Springs, usually known as the Pecos hatchery, planted 13,225 rainbows (6 1/2 to 7 inch), totalling 1,675 pounds. One load was planted in Nogal lake, and two loads in the Pecos river from the town of Pecos to Cowles. Airplane loads of 1-inch Yellowstone Natives totalling 45,000 and 48,000 were planted in Lake Kathryn and Baldy lake. This makes a grand total for the Pecos hatchery planting of 106,225 fish during September.

The Red river hatchery, one of the larger hatcheries in the United States, planted 4,636 7-inch rainbows in three places on the Red river, the upper Hondo, and upper Rio Pueblo.

A total of 33,723 rainbow fingerlings were planted by truck in the following waters: Laguna Larga, Kaufman pond, Cater pond, Lake Malaya; and by plane in Pioneer lake, Goose Creek lake, Middle Fork lake, Lost lake, Horseshoe lake, and Lake Ruth. Yellowstone Natives fry, totaling 78,750, were planted by airplane in Laguna Encantada, Pacheco lake, Lake Alice, Middle Fork lake of the Rio La Casa, San-Leonardo, Heart lake, and Lucero lake.

The total planted from the Red River hatchery in September was 117,109 trout.

The Parkview hatchery in the Chama country planted a total of 8,400 10-inch rainbows in two separate loads in the Brazos river and seven loads in the Chama river. There were also 78,624 Yellowstone Natives planted in the Brazos, Nutrias, and Canjilon lakes. A total of 87,024 fish was planted from the Parkview hatchery.

Beaver Not So Eager a Fisher As Some Believe

One of nature's most persistent workers is the beaver, and not only is he a fine worker but an engineer as well. But he many times gets blamed for things he is not responsible for.

The New Mexico department of game and fish recently apprehended a man who had clubbed a beaver to death laboring under the supposition that the beaver was destroying the fish in the streams. In court he claimed a tree had fallen on the beaver.

The department states the beaver is not a fish killer; he is primarily a vegetarian and certainly is not guilty of fishing on the side (however, coons and mink do eat fish). They are the beavers' next of kin, and are probably the culprits that the man saw fishing.

Gallinaceous Guzzler Units Are Successful

Howard Campbell, in a survey of the effectiveness of the gallinaceous guzzler units, reports it is pretty certain that one might encounter some surprising things in his neighborhood. Campbell is a biologist and project leader for the New Mexico department of game and fish.

The gallinaceous guzzler is a man-made "watering hole" primarily for game birds. It is designed so that quail and doves may use a natural habitat, that exists except for watering conditions.

It is a water trap that the birds can walk into and get water where otherwise no natural water holes exist.

However, some of the surprising things that can be seen in this particular study with Campbell include: on one occasion he found a young bobcat dragging a trap of one of the department trappers.

Pete Hibler.

Also occasionally box turtles are seen, and once in a while some type of spider, or a common sight consists of cottontails and jack rabbits; however, upon one occasion Campbell extracted a young fox from one of the guzzlers.

Many so called "Dickie-birds" patronize the guzzlers extensively and our state bird the roadrunner evidently enjoys the water "so thoughtfully provided for him." Many times there is evidence of bobcat, fox, and coyote invading the area, but the guzzlers are designed so as to prevent the animals from reaching the water.

Among plant life, green algae thrive near the entrance to several guzzlers, but in spite of all the competition, Campbell ends his report stating, "Yes, quail and doves use the guzzlers in spite of all this miscellaneous competition, certain rumors to the contrary not withstanding."

The term "flash in the pan" originated during the gold rush of 1849. Miners who found gold only in the topsoil referred to it as a "flash in the pan."

The Princess Pats were members of a famous fighting regiment of Canada during World War I.

BUY A BROOM

THURSDAY AND FRIDAY EVENINGS

AND SATURDAY MORNING

OCTOBER 22-23-24

...THEY WILL CALL ON YOU

Members of the ARTESIA LIONS CLUB of Artesia will make a city-wide canvass, Thursday, Friday and Saturday, Oct. 22, 23 and 24. They're all friendly fellows, taking time out from their regular work. They want you to answer the knock on your door in the same friendly spirit. If you are not contacted, or are

not at home at the time of their call, you can buy your broom down town Saturday morning, Oct. 24. And all our friends in the country are invited to take part, too! Come to Artesia Saturday morning and buy a broom from the Lions on the Corner of Fourth and Main.

...AID THE BLIND

The Biggest Project of Lions Clubs is to aid the blind. The brooms to be sold in Artesia Thursday, Friday and Saturday morning are bought directly from the ADULT TRAINING CENTER of the NEW MEXICO SCHOOL FOR

THE BLIND. When you buy this merchandise you will be aiding by: Creating more employment for the blind and contributing funds for the SIGHT CONSERVATION and YOUTH PROGRAMS. It's All for Good!

Artesian Invited To Buy Advance Sun Bowl Ducats

Sun Carnival officials in El Paso today extended to residents of Artesia an opportunity to purchase tickets to the annual Sun Bowl football game on Jan. 1 in advance of the general public sale.

Out-of-town guests at the Sun Carnival each year are extended the courtesy of purchasing their tickets before the sale is thrown open to the public.

Information on tickets, seating arrangements, and other factors may be obtained either at the Artesia Chamber of Commerce or information may be obtained by contacting the Sun Carnival office in El Paso.

Another capacity crowd is expected for this year's bowl game. The annual guessing game of who is to play in the Sun Bowl starts shortly as teams across the nation begin to compile their won and lost record for the 1953 season.

Two of the most startling football upsets of the current season have been registered by last year's Sun Bowl teams. Mississippi Southern upset the University of Alabama and College of the Pacific also turned in a major upset when they beat Stanford university.

COP was the winner in the Sun Bowl game last year over the

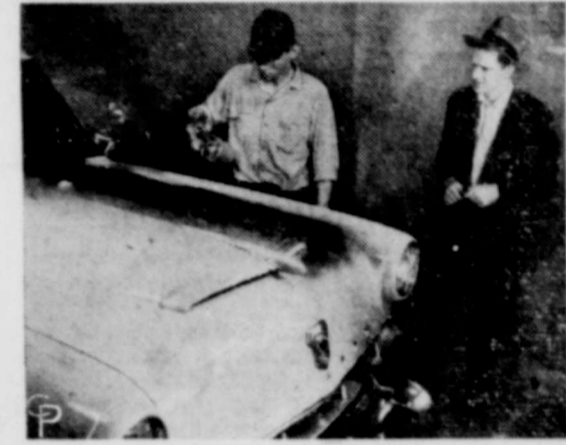

Lurking thief . . .

HOW YOUR CAR MIGHT BE STOLEN

THESE PHOTOS illustrate what often has happened when a motorist goes back to where he left his car and finds an empty parking space. Leaving the key in the ignition, of course, makes the job easier for auto thieves, but they can get around that stymie. (International)

. . . Moves in with accomplice after motorist is out of sight.

Theft accomplished, on goes new paint job.

Then a garage payoff as license is changed.

Southern.

The Jan. 1 football game will share honors this year with the mammoth Sun Carnival parade which will be held in the morning. As estimated 100,000 persons watch the three mile long parade each year.

The week long festivities actually start with the crowning of the Sun Queen Dec. 29-9.

Cancer Alertness ACS Goal for MDs

A promising experiment in post-graduate medical education is being carried on by the American Cancer Society. The object of the program is to make every physician think of cancer first.

Because early detection is the key to curing cancer, the family doctor must be well-informed about the disease. The ACS says that the life of the cancer patient may be in the hands of the first physician who sees him. If diagnosis is missed the cancer will spread until cure is unlikely.

Teaching doctors to recognize cancer and institute proper treatment is the aim of the ACS professional education program. A digest-type magazine is published for the busy practitioner and a technical journal is issued for the specialist. Monographs, lectures, refresher courses and specially-produced motion pictures also are used. Fellowships go to 70 young doctors each year. All this is financed by contributions to the Cancer Crusade.

Last year, more than 70,000 Americans died needlessly of cancer. Some died because they did not heed cancer's danger signals. Others died because the first physician they consulted did not recognize the disease.

Remember! Cancer strikes one in five. Strike back. Give to conquer cancer.

A&M Chemistry Unit Recognized By U.S. Society

The chemistry department at New Mexico A&M college has been added to the list of college departments approved by the American Chemical Society, according to an announcement just received by Dr. A. D. Boston, head of the department and dean of the school of arts and sciences.

As a result of this action, students who major in chemistry at New Mexico A&M college and who have fulfilled the minimum requirements for professional training adopted by the American Chemical Association are eligible for membership, senior grade, in the society within two years following graduation and after two years of experience in the field of chemistry.

Both undergraduate and graduate degrees in chemistry and an undergraduate degree in chemical engineering are offered at New Mexico A&M college.

THREE MAYORS plead their cases with Will Harridge (seated middle), American league president, in New York before the league vote which denied Bill Veeck's request to move his St. Louis Browns to Baltimore. Mayors are (from left) Thomas D'Alessandro of Baltimore, Norris Poulson of Los Angeles, and William Kemp of Kansas City, Mo. (International)

FOR RENT—Modern five-room house, unfurnished, carport.

'Puss n' Boots' to Be Staged Friday as First Play for Kids

"Puss in Boots," first of the Clare Tree Major plays to be presented in the 1933-34 year by Artesia Girl Scouts, Central Parent-Teachers, and Artesia Story League, will be staged here Friday.

The Children's Theater production is "one of those delightful whimses of which children never tire, reports Mrs. V. P. Sheldon, chairman of the play committee.

The wily "Puss," with his big feathered hat, his high boots, and his big bag over his shoulder, setting out to make a fortune for his penniless young master, is a familiar character to children of every country.

The story was written by a 17th Century Frenchman, Charles Perrault, a well-known writer of political articles and other critical analyses. Like the author of "Alice in Wonderland" he wrote for children as a relaxation from his serious work.

He was so fearful of the effect on his scholarly reputation that he disclaimed authorship of "Puss," "Sleeping Beauty" and other such gems of child literature, and said they were written by his son.

The lucky children who will enjoy the antics of "Puss" on the stage at the high school auditorium, the tricks by which he turns his penniless young master into the Marquis of Carabas, who rquires the lovely princess, and his clever beguiling of the wicked ogre to win a great castle for his master to live in, will remember the happy experience as long as they live, as children always do, and as Perrault will be remembered when his critiques will have been completely forgotten.

Cullins Enrolls In Milwaukee Engineer School

George E. Cullins, son of Mr. and Mrs. Buster Cullins, 1109 W. Missouri, has enrolled with the Milwaukee School of Engineering, Milwaukee, Wis., for the fall term.

women over 35

While breast cancer is the commonest cancer among women of your age, it is also highly curable if treated properly before it has spread beyond a local area in the breast itself. Doctors tell us that women are much more likely to be the first to discover the earliest signs of breast cancer. That is why you should know the correct and most thorough way to examine your breasts for any lumps or thickening. For information as to where to see our new life-saving film "Breast Self-Examination" call us or write to "Cancer" care of your local Post Office.

Murder Outs

Joe Massa, alias George Florea, enters cell in Mount Vernon, N. Y., after being arraigned in the 1925 robbery-killing of two Mount Vernon streetcar employes. Massa's downfall stems from indictment of William C. Dekoning and nine associates, including Massa (known as Florea), on Roosevelt Raceway extortion and kickback charges. Fingerprinting of the indicted men led to discovery of Massa's true identity. (Int. 'tional)

Cullins attended Artesia high school and is registered in electrical service and radio and television technician courses. He is an Army veteran with 40 months of active service.

Day school enrollment for the fall term of MSOE reached 1,038, according to Glenn A. Christians, director of admissions. This total includes 504 new students, which is the largest freshman class since 1949 and 40 per cent higher than last year, when 363 new students enrolled with the school.

Total day school enrollment is up 30 per cent over last fall, when 800 students enrolled at MSOE. Electrical engineering, mechanical engineering, and radio and television courses have the largest number of registrants.

The school is celebrating its 50th anniversary this year. More than 50,000 students have registered at the school since it was founded in 1903. The annual enrollment includes students from all 48 states, the U. S. territories, and 25 foreign countries.

One feature of the services this week is the men's meeting. Dr. Polston has been speaking to a large and enthusiastic group of men each morning at 6 a. m. This

of the First Baptist church of Roswell. He formerly occupied the position of secretary of the music department of the Baptist convention of New Mexico. He grew up in New Mexico and received his degree in music and education from the Southwestern Baptist seminary of Fort Worth.

Both young men are native New Mexicans. They know New Mexico people and are gifted in working with the churches of this section. Rev. S. M. Morgan, pastor, announces.

Evangelist Charles F. Polston, assisted by Ted Roberts, evangelistic singer, is currently conducting revival services at the First Baptist church.

Dr. Polston is secretary of the training union department of the Baptist convention of New Mexico and spends his entire time working with the young people of the Baptist churches of New Mexico.

He is known for his youth work and evangelistic efforts throughout the Southwest.

Singer Roberts is music director

State Welfare Agency Assists 598 in County

State Director Alva A. Simpson stated today 598 needy cases in Eddy county received \$31,054 for maintenance during the month of August from the department of public welfare.

Of this amount, payment was \$14,903 to 568 children under the aid to dependent children program. The department paid \$14,495 to 345 old age assistance cases; \$419 to 10 cases receiving aid to the needy blind; \$1,104 to 31 aid to the disabled cases; and \$132 to six general assistance cases.

In addition, 61 children received care under the child welfare services program; 163 children were assisted under the crippled children's services program; and 11 persons were aided by the division of services to the blind. Thirty-seven cases received other special services.

Personal Mention

Mrs. R. J. Reed of Deming arrived Sunday afternoon to visit her parents, Mr. and Mrs. W. C. Gray, 317 W. Dallas, and other relatives. She plans to return home today.

Mr. and Mrs. Winford Knowles of Beaumont, Texas, has been visiting his sister, Mrs. Glenn O'Bannon and family on Cottonwood and Mr. and Mrs. Carter Izard in Artesia. They had attended IOOF

convention in Roswell. After visiting here they left for Tucson, Ariz., to visit with Mrs. Bill Zerman.

Mr. and Mrs. Bus Brown and Bobby spent the week-end out town to see their sons play football. They saw Bill play at Albuquerque Friday and Buster play at El Paso Saturday.

Mr. and Mrs. William Wall spent Friday in Carlsbad to visit her son and family.

READ THE CLASSIFIED AD

START HIM ON A STEINWAY

So wise music teachers advise parents. Buy the best for a beginner. A child studying on an inferior piano rarely becomes a good player. But a Steinway will inspire your children, speed their learning, develop a finer sense of tone! This is the *only* piano with the Diaphragmatic Soundboard—the *only* piano with Accelerated Action. The cost at the outset is a little more—over the years, a great deal less! Dividends are: rare beauty of tone, unapproached durability, steady value. Your old piano accepted in part exchange—3 years to pay the balance.
