

Mulcock Offers City \$1,000 Year For Disposal Plant Water

An offer to buy the city disposal plant's water discharge for \$1,000 a year was presented city council last night by J. B. "Buster" Mulcock, who owns a farm near the plant.

Mulcock in his application pointed out the city now receives no payment for 1 1/4 million gallons a day discharged from the plant and "given" to W. T. "Doc" Haldeman under the terms of a 1948 agreement.

Mulcock's attorney, Milford D. Estill, presented the council pictures and a statement alleging

Haldeman has violated the terms of the 1948 agreement by not keeping city disposal water within a ditch.

While Estill and Mulcock said the city received no consideration for the water, City Atty. Neil Watson said a consideration is involved in that Haldeman agrees to hold the city harmless for damage the water might do, prevent co-mingling of sewage plant and refinery discharge waters, and provided an easement for the ditch which carries the water from the plant.

Mayor W. H. Yeager appointed

a committee headed by councilman T. E. Johnson to investigate Mulcock's proposal. Other members are J. L. Walker, George Ferriman and Joe Alvarado.

MAYOR YEAGER said he feels "the water is of some value" and Mulcock's proposal should be given "due consideration." On the other hand, the 10-year agreement between Haldeman and the city may be binding, the mayor said.

It was pointed out by councilmen that Haldeman two years ago attempted to appropriate the city disposal plant water without notifying the city he intended to do so. The application was later withdrawn.

Estill presented a complaint by Everett Holt of Loco Hills, who owns property east of Haldeman's, declaring disposal water had overflowed onto his property. His land was made so wet, he said, he was forced to move hogs kept in the area.

Holt, according to a statement, said such overflows were "frequent."

Estill said it is not Mulcock's intention "to make anyone mad, but we do feel the city has something of value to sell and is not now receiving any consideration for it (the water)."

NAACP President Insists Carlsbad Has Segregation

ALBUQUERQUE — (AP) — **Hubert LaGrone**, president of the New Mexico chapter of the National Association for Advancement of Colored People, says as far as he can learn racial segregation still exists in Carlsbad schools.

He said he talked last night to a Negro woman in Carlsbad whose child attends school there and she told him her child still had to cross town to attend a Negro school.

"If the condition has changed, it has changed since the end of the school year," he said. "What we mean by the end of segregation is that each child will go to school in his own neighborhood school regardless of color."

Yesterday, the state chapter of the NAACP announced a drive to end segregation in schools in Artesia, Carlsbad, Roswell, Clovis, and Las Cruces in line with the May 17 ruling by the United States Supreme Court decision outlawing such segregation.

In answer to the mention of Carlsbad, a school official of that city said he could not see "by any stretch of the imagination how anyone could call Carlsbad schools segregated." He said segregation was abolished there two years ago after several years of "phased integration."

LaGrone said today that Carlsbad schools were integrated at the high school level two years ago with the promise of complete integration this past September, "but our information is that didn't take place."

LaGrone said that "several" years ago after a flood in Carlsbad "a large part of the colored population there was resettled, and a school was built in the resettled area. At the time all colored youth from all parts of the city were required to attend that school."

"As of the end of the past school year," he said, "I believe that condition still existed."

Carlsbad Plans 'Phased' Policy

CARLSBAD, (AP)—"We are dedicated to a non-segregated policy in the Carlsbad schools," Tom Hansen, new city school superintendent, said today.

Hansen was reached for comment at New Mexico A&M college where he is taking summer graduate work.

Non-segregation, Hansen said, has been a "long range policy" of the Carlsbad board of education, a voluntary program planned many years ago. He estimated the policy is about "three-fourths completed." He said non-segregation has not reached the elementary level yet.

Based on the availability of classrooms and personnel, the desegregation policy in Carlsbad will continue at its present pace, Hansen said.

Clovis to End Segregation

CLOVIS, (AP)—The Clovis municipal school board has taken steps to comply with the federal law which ends segregation in the schools, Travis Stovall, superintendent has stated.

Clovis school district zoning was completed last week which permits Negro children to attend the junior and senior high schools, Stovall said.

The junior and senior high school students in the Clovis school districts will now attend local junior and senior high schools, he explained. Formerly children attended Lincoln school.

Negro children of elementary age will have the choice of attending either Lincoln-Jack-Negro or La Casita grade school. Both schools are located in one in which most of Clovis Negro population live.

Practical Nurses To Meet Thursday Night in Carlsbad

Practical Nurses Assn. of district 5 will meet at 7 p. m. Thursday night at Our Grace Episcopal church in Carlsbad.

All practical nurses, as well as those seeking to become practical nurses, are invited to the meeting. Nurses without transportation may call the Artesia General Hospital, 567, for rides to Carlsbad.

Scattered Rains Dot State, More Is Promised

By the Associated Press

Those scattered showers and thunderstorms finally became rain Wednesday, dotting New Mexico with moisture and promise of more today.

The district weather bureau in Albuquerque reported measurable rain at seven reporting stations and traces at three more, with the amounts recording ranging up to .85 inch.

It said there is still a lot of moisture in the air and every chance for more showers during the afternoon and evening. Most of the state was reported partly cloudy.

Otto got the greatest amount of precipitation with .85 inch. Others getting measurable amounts were Grants with .63, Santa Fe .32, Las Vegas, 25, Zuni .13, Farmington .10 and Albuquerque airport .04. There were traces at Hobbs, Clovis and Clayton.

Carlsbad was high yesterday with an even 100 degrees while Las Vegas was coolest with 78. Gallup and Zuni were overnight lows with 53 degrees each.

Dulles Says U.S. To Use Veto to Bar Red Chinese

WASHINGTON (AP)—Secretary of State Dulles said today the United States would use its veto, if necessary, to keep Red China out of the U.N. Security Council.

Dulles expressed complete confidence the Red China regime would be unable to gain admittance at the fall session to any of the principal U.N. organizations, including the Assembly.

At a news conference, Dulles denounced the Peiping regime for flouting the United Nations in Korea, supporting the Communists in Indochina and generally failing to fulfill international obligations.

Dulles said firmly, in answer to questions, he did not believe there would be any occasion for the United States to withdraw from the United Nations if Red China is admitted, as Sen. Knowland (R-Calif.) has proposed.

Talk of pulling out of the United Nations, he said, strikes a note of defeatism which is entirely unjustified because the United States and like-minded countries have a powerful case for blocking Red China's membership.

NEW MEXICO TO BENEFIT
WASHINGTON (AP)—Rep. Dempsey (D-N.M.) says many New Mexico communities will be able to benefit by a lease-purchase bill just passed by Congress to repair or replace antiquated or inadequate federal office buildings and postoffices.

SHORTAGE ENDED TRUTH OR CONSEQUENCES

MAYOR T. B. WILLIAMS says that through "fine" cooperation of residents, this resort has overcome a water shortage and now has it "to sell." The shortage developed last month, but Williams said cooperation has let the community "catch up."

Denver Firm Is Apparent Low Bidder on Bonds

A Denver, Colo., firm is apparent low bidder on \$130,000 in Artesia general obligations bonds which would finance construction of a two-million gallon city reservoir.

Otto got the greatest amount of precipitation with .85 inch. Others getting measurable amounts were Grants with .63, Santa Fe .32, Las Vegas, 25, Zuni .13, Farmington .10 and Albuquerque airport .04. There were traces at Hobbs, Clovis and Clayton.

THE WALKER airman driving this car at midnight escaped without serious injury after first careening out of control over 100 feet, then crashing into truck, bouncing into telephone pole. Accident occurred about midnight near Jim's Drive-In. Reckless driving charges have been filed against the airman. (Advocate Photo)

Reckless Charge Filed Following Midnight Wreck

A reckless driving charge was filed today against Walter Hayes, 27, of Walker Air Force Base.

Hayes was taken to the hospital last night about midnight after his car went out of control and skidded over 100 feet into a truck owned and parked by the side of the Western Truck Co., S. First.

He received a cut on his nose and bruises as the car hit the truck and skidded into a telephone pole, just inches away from the company's office building.

The truck, which was parked well off the highway, was the newest one owned by the firm. Military police from the air base took Hayes back to the installation for a thorough check-up before bringing him back to Artesia to face charges in the police court.

L. A. Denton, manager of the trucking company, said an estimate of the damage done to the truck would run anywhere from \$750 to \$1,000.

Gas Pipe Firm Eyes Salt Lake City Headquarters

SALT LAKE CITY (AP)—The firm that recently got permission to pipe natural gas from the San Juan basin of northwest New Mexico to the Pacific Northwest may set up headquarters here.

Ray C. Fish, Houston, Tex., president of Pacific Northwest Pipeline Corp., says the company is considering Salt Lake City for its construction and operations headquarters.

Watson will report the finding to city council when it resumes its meeting this afternoon.

BOSWORTH & SULLIVAN bid 2,286,796 4 per cent.

Other bidders were Zaner & Co. of Kansas City, \$67.50 premium and 2.335 interest; Lucas, Eisen, and Beckerle, Kansas City, 2.35 per cent.

Final decision on award of the issue is expected to be made during this afternoon's council meeting.

Dulles said firmly, in answer to questions, he did not believe there would be any occasion for the United States to withdraw from the United Nations if Red China is admitted, as Sen. Knowland (R-Calif.) has proposed.

Talk of pulling out of the United Nations, he said, strikes a note of defeatism which is entirely unjustified because the United States and like-minded countries have a powerful case for blocking Red China's membership.

Krick Refuses Discussion Over Rainmaking

DENVER (AP)—Dr. Irving P. Krick, Denver, who has conducted rainmaking operations in New Mexico and several other states during the past few years, says he wants no argument with a New Mexican who contradicts his claims of success.

Lee S. Evans, Marquez, N. M., a veteran New Mexico rancher who once headed the New Mexico Cattle Growers Assn., claims rainmaking activities in New Mexico the past few years were a failure.

Krick said, in answer, he would not "get into a public argument with this man Evans." He added: "Mr. Evans' statements are not based on any realistic analysis."

Puerto Ricans Are Given Full Terms For Shooting

WASHINGTON (AP)—Four Puerto Rican terrorists who shot up the House of Representatives March 1 and wounded five of its members today were given maximum prison sentences ranging up to 75 years.

A fiery brunette, Lolita Lebron, 34, self-styled leader of the group, received a sentence of from 16 years and 8 months to 50 years.

Her three male companions received sentences of from 25 to 75 years each.

U.S. Dist. Judge Alexander Holtzoff said he felt maximum sentences were justified because the crime was "so heinous, so infamous, so daring and so atrocious as to shock the conscience of the nation."

The longer sentences for the three men resulted from the fact that a jury convicted them last month on five charges each of assault with intent to kill and five charges each of assault with a dangerous weapon.

Mrs. Lebron was convicted only on five charges of assault with a dangerous weapon.

Before hearing their sentences, the four Puerto Ricans protested anew that they merely staged a demonstration in behalf of Puerto Rican independence, and did not intend to kill anyone.

In their own minds, the Puerto Ricans said, they did not feel they were guilty of any crime.

Judge Holtzoff took a different view. He called the pistol attack on the House "dastardly, wicked and ruthless." Except for the skillful work of surgeons, the judge said, the Puerto Ricans would have been before him to hear death sentences, instead of sentences on lesser charges.

BIRD IS SPORTS FAN
HARTFORD, Conn. (AP)—The Hartford Courant reports that Mr. and Mrs. Sam Hyman have a parakeet who is indifferent to radio except when Sportscenter Bob Steele goes on the air over a Hartford station. In a story about the parakeet, the Courant wrote: "The bird perches in front of the radio the minute he hears Steele's voice and doesn't leave until Steele quits. He even laughs at some of Steele's sports prognostications. A smart parakeet."

Mine-Mill Rejects Wage Boost, UMW Still Mum

Charge Filed In Accident Death

ROSWELL (AP)—Charge of negligent homicide against William Elkins Taylor, 32, of Carlsbad, was filed in justice of peace court here this morning.

The charge was in connection with the death Tuesday in Artesia General hospital of Mrs. Laural Feller, 60, of Detroit, Mich. She died of injuries sustained in a two-car collision near Hagerman June 18.

Mrs. Feller was a passenger in a car with five other Detroit residents on their way home from a convention in Santa Cruz, Calif. All six, as well as Taylor, were hospitalized as a result of the accident.

Mine-Mill Slates Strike Vote July 21

BULLETIN

DENVER (AP)—The wage policy committee of the International Union of Mine, Mill and Smelter Workers announced today a nationwide strike vote will be taken July 21-22 among workers in the non-ferrous metals industry.

A spokesman said the strike call went out to "all local unions in plants or mines in basic non-ferrous metals jurisdiction."

The union is seeking a 25-cent hourly wage increase, an increase in pension benefits, severance pay for laid-off workers, health and welfare improvements, time and one-half for Saturday work and double time for Sunday.

CARLSBAD, (AP)—The president of local 415 of the International Union of Mine, Mill and Smelter Workers says the organization rejects a company offer of a retroactive wage increase.

E. N. Gibbs said, however, that the local is ready to negotiate a new contract whenever the company is ready. There was no indication a strike might threaten.

Meanwhile, word on the offer by five potash firms in the area still was awaited from Dist. 50, United Mine Workers. It was the only one of seven unions which had not decided whether to accept. The other five have signed contracts or agreed to company offers.

The increase would be retroactive to June 1. It provides for base and production bonus hikes amounting to 5 cents an hour.

An estimated two-thirds of the workers in the Carlsbad potash basin today were covered under the new union contracts granting about \$10 per month in pay boosts.

International Union of Mine, Mill and Smelter Workers and Dist. 50, United Mine Workers, let a Wednesday night deadline pass without accepting terms offered by potash firms. The potash firms set the midnight deadline for accepting the pay increases with a retroactive feature to June 1.

There was no indication from the companies that they planned to resume negotiations which had been going on since May.

Funk Fire Loss Set at \$4,000 This Morning

Fire this morning at 6:50 a. m. did about \$4,000 damage at the Jesse Funk farm at Cottonwood.

According to Fireman Dallas Golden, a John Deere tractor was totally destroyed, as were two overhead fuel tanks, their contents and three geese.

The fire reportedly started when the tractor was being refueled and the motor left running. Firemen arrived to find one of the tanks and the tractor already severely damaged and succeeded in extinguishing the other tank with chemicals.

Fire was kept off an adjoining implement shed and storage barn by the wind blowing at the time.

Eunice Woman Killed in Fall From Truck

HOBBS (AP)—Mrs. Mamie Ruth Roberts, 33, of Eunice, died late yesterday afternoon of injuries she received when she fell from a moving pickup truck about a mile north of Eunice. Mrs. Roberts did not regain consciousness after she was brought to a hospital here Tuesday night.

Her husband, G. W. Roberts, said he was driving about 30 miles an hour when the dor flew open and Mrs. Roberts fell out.

The death was the sixth automobile fatality in Lea county this year.

APPOINTMENT URGED
TUCUMCARI (AP)—Five local attorneys have asked Gov. Mechem to appoint J. V. Gallegos judge of the 10th judicial district to fill the six-month unexpired term of the late Judge David S. Bonem. Gallegos was selected Saturday as Democratic nominee for the judgeship. The place on the general election ballot was vacated by Judge Bonem's recent death.

Council to Move Back Property on Eleventh

Property owners on Eleventh street between Junior and Senior high schools are going to lose some of the city property they've taken as their own.

One of the reasons, the city council decided, is that school children who walk on lawns actually on city property have been squiring with hoses by encroaching property owners.

In bringing the matter to council attention, city councilman J. L. Walker said Junior high students during the school year walk home and to Senior high school cafeteria on Eleventh street. It poses a serious safety problem, Walker said.

If youngsters don't walk in the street they have to walk along its edges, where property owners have planted lawns and trees, and installed fences, Walker said.

There have been cases where property owners have turned hoses on youngsters.

Actually, much property on which the youngsters walk belongs to the city, the councilman said.

The council voted to instruct city engineer W. D. Fowler to survey the street and establish the city's right-of-way. It is 50 feet wide on the 35-foot Eleventh street.

Council said they would later discuss measures to be taken to give school youngsters a place to walk alongside the street, including moving back of property boundaries where owners have encroached on the city right-of-way.

Jal Road Plan Gets Land Use Committee Veto

A meeting of the 36-man Eddy county land-use committee yesterday in Carlsbad rejected a recommendation by the Carlsbad Chamber of Commerce to use funds set up by the state legislature for construction of a Carlsbad-Jal highway.

The \$91,600 given the county by the state body in 1952, is money left over after payment of high-way debt service bonds which were retired in that year. The money is to be used specifically for (1) purchase of urban right-of-way projects, and (2) the balance into the general kitty of the farm-to-market committee.

In accordance with the rules, the money will be used for the purchase of right-of-way for urban projects to be arranged for in Artesia next year, and the balance will probably be used for a road to be constructed in the Otis community, south of Carlsbad.

Richard Marek, Eddy county agent, is chairman of the land-use committee.

COTTON FUTURES
NEW YORK (AP)—Cotton futures closed 5 cents to one dollar a bale higher: July 33.00; Oct. 33.98; Dec. 34.16; March 34.39-40; May 34.50-51; July 34.07; Oct. 33.20; Dec. 33.25; Middling spot 35.30 up 10.

WOOL FUTURES
NEW YORK (AP)—Wool tops and wool futures were mostly lower today. Wool futures closed .7 of a cent lower to .1 of a cent higher: July 157.5; Oct. 168.1-168.3. Certificated wool spot 156.9n. Wool tops futures closed 8 of a cent to 1.0 cent lower: July 197.2b; Oct. 200.2b.

Weather

ARTESIA: Partly cloudy with an occasional afternoon shower or thunderstorm. Little change in temperature. Low tonight 70, high Friday 100. Low last night 69, high yesterday 101.

NEW MEXICO: Partly cloudy today, tonight and Friday with scattered showers and thunderstorms, mostly in the afternoons. Little change in temperature. High today 85-95 in north, 90-100 in south. Low tonight 40s in northern mountains, 60s elsewhere.

Carlsbad Tops Artesia 8-5 in Eight Inning

Johnson Set To Start on Mound Tonight

CARLSBAD—The Carlsbad Potashers scored three times in the eighth inning to defeat the Artesia NuMexers by an 8-5 score last night.

Gil Johnson has the nod to start tonight's game at Carlsbad, while Bob Weaver will go on the mound for the Potashers. Johnson's record is 4-3, Weaver's 11-5.

Last night's loss dropped Artesia from a tie with Roswell for Longhorn league first place to one game under the Rockets.

Hank Williams, Carlsbad's veteran hurler, chalked up his ninth win of the campaign against four losses and kept the Artesia nine scoreless in the last six innings last night.

Artesia hopped off to a three-run lead in the opening frame when with two out John Goodell singled to center and went down to second on Charlie Watt's single to left. Mickey Sullivan then banged a home run against the scoreboard in left field, scoring Goodell and Watt ahead of him.

The Potashers came back with two runs in their half of the first and knotted the count at three-all by having a lone run in the second frame.

Artesia went ahead in the third when two runs crossed the plate on Frank Gallardo's triple and Bob Herron's single, but that was all for the NuMexers.

Carlsbad scored once in the third on back to back doubles by Oliver Hardy and Duke Henderson. They added the tying run in the sixth on a double by Art Herring and a single by Raul Dieppa. Then came the big eighth.

San Angelo Tops Spudders In Ninth

SAN ANGELO—The San Angelo Colts pushed across an unearned run in the bottom of the ninth inning to nip the Sweetwater Spudders, 5-4, here Wednesday night.

Bob Hobbs walked after one was out, stole second and scored when Frank Salfiran erred Hillis Layne's ground ball.

The Spudders gave Wayne McMellon a run lead in the first inning when Ken Cluley doubled and Charles Tuttle singled. They added another in the second on a single by Rod Arco, a stolen base and McMellon's single.

San Angelo knotted the score in the sixth when Layne doubled. Bob Gonsalves tripled and Audie Malone singled.

The visitors took the lead in the eighth with a pair-off Malone when Bill Looney and Tuttle singled, Salfiran walked and Leroy Finkler singled.

But the Colts came back as Jim Morgan was safe on an error, Ed Peacock doubled and Malone singled to drive in both runners.

Bill Tosheff, of the Milwaukee Braves in the National Basketball League, now pitching for the St. Louis Saints in the Class B International League.

Rhubarb Over Diaz Breaks Into Tirade at Lanning

FANS WHO LEFT the Roswell ball park a little late Tuesday night were treated to a rhubarb which some who remained said has never been equalled in the Longhorn league.

Participants were Umpires Samples and Cook, loop Pres. Harry James, NuMexer Mgr. Jimmy Adair, and club Pres. Steve Lanning. It was staged in front of the visitors' dugout.

Reports indicate no public address system was needed to hear the goings on. Incriminations, vituperative statements, not to mention vitriolic remarks, were mingled with highly descriptive language usually considered out of place in even a ball park.

Attendance at the rhubarb was described as being fairly good for a post-game affair, considering the late hour.

Asked his version of the affair, this is what Lanning had to say: "I know how it got started but darned if I know how so many unrelated subjects got covered in so short a time. I was called into the dugout to hear the argument as to whether Mickey did or did not spit on the ball. I listened and did not say a single word until James, turning to me, said, 'And this gentleman has been doing everything in his power to wreck the league.'"

"With that I came unbound myself. His main argument of proof was that at the organization meeting in the winter I had presented the resignation of Artesia and was a holdout on the fielding of a club for the league. What he overlooked was my statement at the time that we took such action with regret, and that our decision was made after we had found out that the representations made by James to the local fans in open meetings were not true. I refer to his statements that Hobbs and an El Paso were definitely in the league.

"Why James wants to take the stand on many things that he does is beyond me. Instead of trying to help the clubs he has continually brought up differences of a petty nature and at times has far exceeded his authority in some major issues. If the league is wrecked as he says some are trying to do, you can look higher than some individual club.

"It is certainly a mistake to have as a league president a man that once headed a club in the circuit and especially if that club is in his home town.

"That is Lanning's story of the 'rhubarb' and his opinions as to what is wrong.

MICKEY DIAZ, over whom the spit ball charges arose, turned out to be the innocent bystander, if not the cause celebre.

Mickey stoutly denies he spit on the ball.

James volunteered his version of the alleged exhortation as an eye witness account of Diaz actually holding the ball in front of his mouth and thereon ejecting some spittle.

But the umpire who called Diaz on the charge said Diaz had his glove under his arm and spit on his ungloved hand, rather than the ball. Asked which hand, the umpire indicated the right. Diaz, of course, throws with his left hand.

Artesia fans at the game first thought a balk was being called on Diaz, since the call came as he started to throw. However, balks are largely being ignored in these days of rigid enforcement of rule 18.02.

Bauman Saves Roswell Game In Ninth

ROSSELL — Joe Bauman slammed a leadoff home run in the ninth inning Wednesday night enabling Roswell's Rockets to defeat Big Spring 11-0.

Roswell's win coupled with Artesia's 8-5 loss to Carlsbad put Roswell one game ahead of the NuMexers in the league lead.

It was Bauman's 39th home run of the season and his second of the evening.

The Rockets had moved to a 9-3 lead after seven innings before Big Spring rallied to knot the score 10-10 in the last two innings.

The Bronc came within a whisker of going ahead in the ninth but an alert cutoff play that was turned in to a double play by Bauman killed what could have been a big inning.

Steve Nunez, 3rd Roswell pitcher, was credited with the win, although he threw just three pitches. Manager Pepper Martin, who tossed the last two frames for Big Spring, was the loser.

Little League Contests Called On Dirt, Dark

Dirt, dust, dark, and rain combined to force calling off two Little League games yesterday afternoon after major portions of the contests had been played.

The Elks defeated NuMex 12-11 in a game called after five innings of play. It will go for a full game and will not be finished. Guy Chevrolet and the Bankers were tied 4-4 when the umpires forced postponing of the finish. After six full innings were completed. The contest will be played off Wednesday, July 14.

Today Clem Appliance is going after NuMex and Williams furniture will meet Guy Chevrolet.

CVE Softballers Capture Another Shutout Victory

CVE softball team took another win in the Carlsbad recreation league Wednesday night by defeating Southwest Potash 11-0.

The Artesia team, currently leading the league with a near-perfect 14-1 record, worked its way to the win behind the steady one-hit pitching of H. L. Coor. Dub Shields was behind the plate for CVE.

Coor's teammates collected 12 hits off the Potash hurler while he was shutting the Carlsbad team out.

The local team plays again Monday night at 8:45 against U. S. Mines.

Fourteen to Decide on \$7 Million, Air Conditioned Dallas Major Team

By HAROLD V. RATLIFF
DALLAS—(AP)—Fourteen wealthy men interested in Dallas spending \$7,000,000 for a major league ball club and an air-conditioned stadium will decide today whether to promote the project.

E. E. "Buddy" Fogelson, Dallas independent oil man and husband of movie actress Greer Garson, represents the budding syndicate. He said major league franchises were obtainable but that his group would not go after one without the endorsement of Dallas civic and business leaders.

Whether that endorsement will be forthcoming will be determined today in meetings of the Dallas Chamber of Commerce and Dallas Citizens Council, organizations that include the civic and business leaders of the city.

With such endorsement, the group will offer stock for sale to transportation facilities, hotels, stores, restaurants and other lines of business that would profit by a major league franchise operating here, said Fogelson, who revealed himself for the first time yesterday at a press conference as a member of the promoting group.

Others in the group include Col. D. Harold Byrd, Dallas oilman, and R. W. Burnett, owner of the Dallas club in the Texas league, who thinks minor league baseball is through but that major league baseball would pay a profit in Dallas.

Fogelson and Burnett said in the event major league baseball is brought to Dallas, the Dallas Texas league stadium could be enlarged from 10,000 to 35,000 capacity and, Fogelson added, air conditioning would be installed so the fans would be cooler out at the ball park than if they stayed at home.

Heat, Fogelson said, was one of the things that kept people away from ball parks.

They estimated it would cost over \$2,000,000 to get the park ready for major league ball.

Fogelson said no definite plans had been made, however, to use the present park, that they might seek to combine with Fort Worth, a city 30 miles west of here, in promotion of a ball club midway between the two cities—at Arlington, where a big race track still stands although there is now no horse racing in Texas.

Walter O'Malley, president of the Brooklyn Dodgers, owners of the Fort Worth franchise, said immediately that Brooklyn was sympathetic to such a move but wanted to see Dallas' money first.

Fogelson and Burnett estimated it would take \$7,000,000 to bring major league baseball to Dallas, including \$700,000 as an operating fund.

Reference was made to the fact that the Dallas club of the Texas league wasn't drawing very well and also that Dallas tried professional football two years ago only to have it fold up in midseason.

Burnett said Dallas drew better in minor league ball than Milwaukee, which entered the major leagues last year and set an all-time National league attendance record of 1,862,000. He declared Dallas had a greater potential than Milwaukee, with 2,165,000 people within a 100-mile radius. Milwaukee has 863,000 population in its area, he added.

Fort Worth Is 8-7 Winner Over Dallas in Tenth

By Associated Press
San Antonio got the door slammed on its foot Wednesday night, as the Missions tried to slip into first place in the Texas League.

They almost made it, defeating top-seated Shreveport 7-2 in the opener of a doubleheader and moving ahead early in the second game. But the Sports stopped things cold 6-4, with a seventh-inning rally in the nightcap that dropped San Antonio a full game back into second place.

Fort Worth beat Dallas 8-7 in 10 innings and Houston edged Beaumont 9-8 in other Texas League action. Oklahoma City and Tulsa had a double bill rained out.

Thursday night's schedule matches the same team again.

Gonzales Predicts Olson to Win Castellani Title

OAKLAND, Calif. — Take it from a man who has fought both of them:
Middleweight champion Carl "Bobo" Olson will beat Rocky Castellani when they meet for the title in San Francisco Aug. 20.

Pedro Gonzales, 21-year-old Negro boxer from Rankin, Pa., expressed the opinion last night after he had been knocked out in four rounds by Olson in their scheduled 10 round non-title bout.

Gonzales previously lost a close, split decision to Castellani in Rocky's home, Cleveland.

Sunrise Rebekahs Are Honored for July Birthdays

Members of Sunrise Rebekah No. 9 whose birthdays occur July 7-14 were honored with a fried chicken dinner Monday evening in the club hall.

Those honored were Mmes. E. H. King, E. A. Durham, LaVern Ison, Ruby Gooch, Mattie Story, and Nellie Cogdell.

Guests from Carlsbad lodge No. 13 were Mrs. Frona Collins, Mrs. Rose Huffsmit, and Mrs. Laura Buzzell.

The tables were decorated with red, white, and blue streamers and a miniature stand of flags with the centerpiece.

Following the dinner the regular

meeting was held with Mrs. Tom Franklin, noble grand, presiding.

Mrs. Collins was introduced as the state Rebekah assembly parliamentarian and Mrs. Effie Wingfield as assembly secretary.

The assembly treasurer, Mrs. C. Bert Smith, was unable to attend due to illness.

Mrs. Collins gave an address from Mrs. Ester Brockman, assembly president, who was unable to be present due to the serious illness of her husband.

Installation of officers will be held next Monday evening at 8 p. m. Mrs. W. S. Hogsett will be in charge of the ceremony.

of Mr. and Mrs. Austin Stuart.

Guests the past week in the home of John A. Mathis, Sr., and Mr. and Mrs. John A. Mathis, Jr., were Mr. and Mrs. Chandler Mathis and children, Jimmy and Sally of Dallas, who returned to their home Tuesday, Capt. and Mrs. H. V. Mathis and children, Lee, Steve and Virginia of Roswell, who returned home Tuesday, Mrs. O. W. Wicks and children, Wanda, Barbara, and Wayne of Patchogue, N. Y. who will remain for a visit and Mrs. John Chandler of Gilmer, Texas, and Mr. and Mrs. Wayne Chandler and two daughters of Houston, Texas, who arrived Tuesday and left Wednesday for their home. They had been to Canada and stopped for a visit. The group spent the week end at Ruidoso.

Mrs. Robert Corbin is leaving today from Carlsbad by plane for Carlisle, Ind., her old home, where she plans to make an indefinite visit.

THE STORY OF HAGERMAN— Hagerman Shows Continued Growth After Boom Start in 1894, Writer Concludes in Series

(The following article is a summary to the Advocate series on the Story of Hagerman, written by G. Y. Falls, and is the last in the series.)

By G. Y. FALLS

Since the summer and fall of 1894, when J. J. Hagerman began laying off the streets and alleys, the town of Hagerman has been gradually growing. Hagerman may not have grown by leaps and bounds as some of the neighbors, but the growth has been steady.

Originally, Hagerman might have been called a "boom town," because of the influx of settlers from the East, lured to Hagerman by some very excellent advertisements in the Eastern newspapers. Now Hagerman has settled down into an orderly stride—insurance against any slump in the future.

Generally speaking, all the officials of the town have been trustworthy, honest, and capable. In no instance does the city record show any case of embezzlement to have occurred. Some of the administrations have been lethargic, and others have been very energetic. Some of the town government originated at the very grass roots, so to speak, as the citizens were often presenting petitions to the town board to correct some situation or adjust some malady.

The mayor-council form of government has been used since Hagerman was incorporated in August 1905. For a small city, this seems to be the best form, as it is easier for the people to have a greater voice in the operations of town government. It is more democratic than giving to one man the power to make decisions involving a number of people. Not too much pressure is brought to bear, and a friendly atmosphere exists between the town's officials and its citizens.

AT THE TIME OF INCORPORATION of Hagerman, four trustees and a clerk were elected. N. J. Fritz was elected chairman of the first board of trustees and so served until the spring election of 1906.

After the organization of the first board of trustees, Hagerman held yearly elections for a mayor, board of trustees (composed of four men), clerk, police judge, and town marshal until 1914. The board of trustees' terms were lengthened to four years. The mayor continues to serve two years. Some criticism has been exerted in the direction of the mayor and what his position should be. No definite set of rules has been set up, so, in practice, the mayor can be a leader or a follower as he pleases. In any instance, the town board has

always had the final word.

That the efforts of the various administrations extended in the direction of bringing to Hagerman an ample supply of water can well be appreciated by its citizens. The water system is in excellent condition and is one of the prides of Hagerman. It is a money-making business at present, and with new equipment added as it is needed, the water system will continue to be a source of revenue.

THE FARSIGHTEDNESS OF the early administrations in securing for the town a fire truck was a source of comfort to the citizens. The succeeding administrations continued to and to the department until at the present time the town owns two trucks and has one of the finest volunteer fireman's organizations in the state.

Just this year a new modern fire department building has been completed. The new building also houses the new quarters for the city hall.

Rapid stride have been made in the care of garbage and its disposal in the past few years. The spraying of the town at its own expense is an important step taken in eliminating the possibilities of contagious diseases. The ordinance dealing with garbage and its disposal is one good ordinance which is enforced in Hagerman.

A well-kept park has added much to the enjoyment of Hagerman's citizens, and the town boards are to be congratulated on having provided a place for its future citizens to work off some of their surplus energy. The Lion's club has added many improvements to the park in the way of swings, see-saws, tables, and sand-piles.

IN MOST ELECTIONS THE citizens have been more or less apathetic. Records show that seldom has more than one-third of the people voted in the elections. Elections in which personalities were involved have been rare. In most instances the elections were fought out in the open without the usual campaigning which goes with election in larger places. The women have been content to let their husbands run the town government, for not one has served in any capacity with the exception of Mayre Losey, who for a short time served as Town Treasurer.

Various efforts and slogans have been put forth by some of Hagerman's citizens trying to entice other people to come to try the fine mineral waters around and in Hagerman. After each campaign some people have come, but the interest seems to cease on the part of the promoters each time that a group arrives.

The artesian wells around Hagerman and the canals for irrigation have been the basis for Hagerman's sound financial condition. Without these it is doubtful that Hagerman would have grown into the town that it is today.

The writer discussed the growth of Hagerman with numerous citizens. Mr. Clay Lemon, a long time employee of the Hagerman Canal Co. said, "I believe the economic growth of Hagerman is directly related to the amount of water that farms have access to. Undoubtedly the climate has contributed to the growth of Hagerman, as I believe we have the finest climate in the entire state."

Take the Precautions

A GREAT MANY of the illnesses, the troubles, the cares and the problems we have in this old world would never exist if we employed and used the knowledge we possess.

This, we believe, has been proven about highway and traffic accidents. It is true about other accidents and it is definitely true concerning our sanitation and our health programs.

There are many things we know we should not do insofar as our health is concerned and yet we go right ahead taking chances.

But this is the summertime. That means it is the polio season. And it also means that this is the time of year when we have to conduct and fight flies.

It is that season of the year when everyone is supposed to have and use garbage cans. It is the season of the year when we are supposed to cover these garbage cans.

We in Artesia do a pretty good job along this line but there are always instances when we neglect to cover that garbage can and to keep it covered. There are times when we permit breeding places of flies to exist and when we know that we should not do this.

It is true that no one knows or can be sure just what does cause polio. There are many ideas or opinions. But whether the fly carries polio germs or virus doesn't matter because we all know that he carries many germs and many types of virus and we know that he is responsible for much of our illness.

We need to join hands with our health and city officials and work together in our city to eliminate every condition and every situation which helps contribute in anyway to more flies in our community.

We need to stay busy not only at eliminating these breeding places for flies but to help destroy them during the summer months.

And one of the best things to do is to see that accumulated garbage does not exist around our places of business or our homes and to see that we have garbage cans, that we use them and that we keep the lids on those garbage cans.

Let's employ and use the health knowledge we have and take all the steps we know will bring us greater sanitation and less danger from disease.

Lone Completion Made in County

Only one completion, a two-barrel daily producer, was reported in Eddy county oil activity over the past week.

There were no new locations. The completion is Olen Featherstone No. 5 State, a shallow producer in NE NW 2-17-31, 34 miles east of Artesia.

Drilled to 3852 feet, it is pumping two barrels a day after acid. Drilling report is as follows: J. W. Baker No. 1 Raymond, SE NE 24-21-26.

Pipe-smoking Has Hazards Too

Coffee Talk

Area FBI Agent Has Few Jobs in Artesia

BOB CARNES, FBI agent stationed in Carlsbad, dropped around the office the other day. In answer to an eager query, Carnes smilingly replied he was in Artesia "just on a pleasure trip."

Carnes reports that while he is concerned with enforcement of 170-odd federal statutes, just as are all FBI agents, his business in this area runs largely to stolen cars and white slave act violations.

"I seldom have business in Artesia, though," he smiled. YOU SHOULD be receiving your daily Artesia Advocate earlier now.

Carrier boys yesterday left the plant at 3 p. m. on their routes. Addition of a new Intertype typesetting machine at the Advocate plant has removed one production bottleneck which had been delaying the paper.

Constant improvements are being made at the plant to provide a better newspaper, and we expect to be making more announcements in the near future on these developments.

HARRY HASELBY, the Advocate's mechanical superintendent, returned from a two-week vacation yesterday. Most of it was spent fishing on a lake far, far into Canada.

Harry and his two brother-in-law among them caught scores of northern and wall-eyed pike. As a vacation trip to actually "get away from it all," he is ready to enthusiastically recommend Canada—especially for fishing.

R. TAYLOR HOSKINS, Carlsbad Caverns superintendent, dropped in the mail the June report on automobile registrations at the Caverns.

Texas led the list with 6,489 cars, followed by California with 2,347 and New Mexico with 1,116. There were even 15 from Hawaii, six from the Canal Zone, and six from Alaska, not to mention the 22 from Canada, 14 from Mexico, two each from Cuba, Puerto Rico, and England, and one from Germany.

There were 66,920 visitors in June, compared to 76,460 a year ago, a 12 1/2 per cent decrease. The visitors arrived in 18,374 cars.

WE NOTE SOME dedicated Artesia boosters repeatedly driving their cars over those rubber hoses stretched across roads and streets in and around the city.

The hoses are hooked to federal bureau of public roads meters which count the cars crossing them. Supposedly, the more traffic is shown, especially on First and Main streets, the more the city might expect in the way of state and federal aid.

The chief purpose of the counting is to aid the city planning commission in its program. The count city to lots 9 and 11 Vaswood No. 2. Run pumice block foundation, convert porch into closed-in room, also add 12 by 16 foot frame addition at North Thirteenth street, June 23.

Joe Zarzosa, \$200, build house, 24 by 12 foot, sheetrock and stucco at 709 Cleveland, June 24. Champion Construction Co., \$10,000, build 6-room frame house, concrete floors, sheetrock, part of outside is stucco and part is brick veneer, 1 1/2 baths, also build garage same construction at 1002 Hermosa drive.

Miller Bros. Oil Co. No. 1 Capitol State, NW SE 6-18-28. Drilling at 139. Stanolind Oil & Gas Co. No. 1 State "A1", SW NE 3-19-28. Total depth 607, waiting on cement.

Plummer & McKinley No. 1 Gulf-State NW NW 23-18-28. Drilling at 922. John A. Yates No. 1 Gulf-State NW NW 26-18-28. Drilling at 1285.

Red Lake Oil Co. No. 19 State SE SW 28-17-28. Total depth 765, waiting on cement.

Completion Olen Featherstone No. 5 State NE NW 2-17-31. Total depth 3852, pumps 2 barrels oil per day after acid.

Owen Hensley Toastmaster At Club Meet

At regular meeting of Artesia Toastmasters held Tuesday night at Country club, Pres. Wallace Beck presided over the meeting.

Owen Hensley acted as toastmaster for the evening. Taylor Cole was topicmaster. His topics were based on club studies and how individual speakers would react to specific situations relative to toastmaster training.

Clarence Key was first speaker of the evening. His topic was "We Are All Suckers But We Like It." Ott Strock was second speaker with the topic, "Speech Expression." Harvey Yates was third speaker. His topic was on the impromptu subject, "The Telephone Problem Confronting Us Today."

Bob Siegel was awarded the certificate for best topic talk of the meeting. Harvey Yates was awarded the certificate for the best speech of the evening. Ben Caudle was his critic, J. L. Briscoe was critic for Ott Strock, and Vernon Bryan for Clarence Key.

Overall evaluator for the meeting was Bob Siegel. A brief discussion, to be continued at a later meeting, was held on the new instructional by-laws which provide for two vice-presidents for each club.

British Open in Second Round, 97 To Be Cut to 50

SOUTHPORT, England — (AP) — Ninety-seven golfers from 14 countries go out today in the second round of the British Open Championship — and poor results mean "sudden death" for 47 of them.

After today's play, the field is cut to the 50 low scorers. They compete over the final 36-holes Friday. First prize money is 750 pounds, \$2,100.

The 97, including the six Americans left from an original squad of nine, are chasing two Englishmen—43-year-old Sam King and 42-year-old Bill Spence.

King and Spence shot record-equaling 69s in the first round yesterday on the breezy 6,837-yard par-73 Birkdale course to tie for the lead with a one-stroke margin over their closest rival.

Behind them in closest contention is Norman Sutton, an Englishman, with 70, and a trio of 71s by Antonio Cerda of Argentina and Britain's George Howard and J. R. M. Jacobs.

The closest American challenger is Jim Turnesa of Briarcliff, N. Y., who played on the United States Ryder Cup team at Wentworth, England, last year, with a 72.

Jimmy Demaret of Kiamasha Lake, N. Y., and amateur Frank Stranahan of Toledo, Ohio, fired 7s.

Gene Sarazen of Germantown, N. Y., who tied Stranahan in the qualifying rounds, had a 75. Al Watrous of Birmingham, Mich., and Tony Pina of Cincinnati had 76s.

PHILADELPHIA — (AP) — Some 75 top leaders in Philadelphia meet with Mayor Joseph S. Clark Jr. today to plot the future of American league baseball in the city where the Philadelphia Athletics once were synonymous with championship teams.

Roy and Earle Mack have been quoted as telling Clark, in an appeal for help from the city, that unless the A's can draw 400,000 fans in the club's remaining home games, the franchise will be moved or sold.

Clark last week announced today's meeting for the purpose of discussing ways and means of bolstering the A's attendance, which was totaled around 135,000 paid so far. Clark said he plans to form a committee to be known as the "Mayor's Committee to Keep the Athletics in Philadelphia."

It is understood that the Macks told Clark that several cities, including Minneapolis, Dallas, Kansas City and Houston, were after the A's franchise.

Top Philadelphia Leaders Discuss Athletics' Future

PHILADELPHIA — (AP) — Some 75 top leaders in Philadelphia meet with Mayor Joseph S. Clark Jr. today to plot the future of American league baseball in the city where the Philadelphia Athletics once were synonymous with championship teams.

Roy and Earle Mack have been quoted as telling Clark, in an appeal for help from the city, that unless the A's can draw 400,000 fans in the club's remaining home games, the franchise will be moved or sold.

Clark last week announced today's meeting for the purpose of discussing ways and means of bolstering the A's attendance, which was totaled around 135,000 paid so far. Clark said he plans to form a committee to be known as the "Mayor's Committee to Keep the Athletics in Philadelphia."

It is understood that the Macks told Clark that several cities, including Minneapolis, Dallas, Kansas City and Houston, were after the A's franchise.

Giardello Nurses Sore Face, Gets Shot at Title

PHILADELPHIA — (AP) — Joey Giardello nursed a sore left side of his face today to ease his pain the Philadelphia middleweight had a nice fat check and a victory that kept him in line for a title fight.

The 23-year-old Giardello (tuned up last night for an expected 160-pound title shot in October by lambasting Billy Kilgore of Miami. He won a unanimous 10-round verdict with the use of a sharp left hook and a potent overhead right.

Kilgore, who earned this bout with the nation's third-ranking middleweight through a series of upset wins, was out of his class. If it hadn't been for an unintentional but that opened a severe cut about an inch under Giardello's left eye on the cheek, there wouldn't have been any contest.

Giardello was fighting two battles, protecting the badly damaged cheek and trying to pile up enough points to win the verdict. From the second round on, he had to be mindful of the blood flowing down his cheek. The ringside physician examined it before the third round started. But cut and all, Giardello proceeded to pound the 28-year-old Birmingham, Ala., native into submission.

Kilgore weighed 162 1/2, Giardello, 158. Electric generators on the battleship Missouri could supply a city of 20,000 people.

Home Field

Three teams—Amarillo, Abilene and Plainview—are now jammed up in third place ties, all five and a half games back of the leader.

Amarillo lost its game last night 12-4 to the lowly Lubbock Hubbers. Borger, in the next-to-the cellar spot, knocked off Plainview 8-5.

About 60 per cent of the world's population live in Asia and Africa. Six out of every 10 people in the world live on farms.

Frog eggs can be made to develop into frogs without fertilization by puncturing them with a fine needle.

New Russian Cruiser Comes As Surprise

By SIGRID ARNE WASHINGTON (AP)—Fifty people sat down here the other day to a lunch that was put together on some of Virginia's very old recipes.

The menu listed: "regent's punch, Southern frosted fruit shrub, Williamsburg fried chicken, asparagus hollandaise, Williamsburg baked tomatoes and queen of puddings."

"To one pint of strong black tea add rind of four lemons cut very thin. Add two pounds of sugar, juice of six lemons, juice of six oranges, one pint of French brandy, one pint rum and two quarts of champagne."

sure to take a head covering with you. This should be anything that will grip the hair and keep it in its proper place, whether bandanna or hat that ties under the chin.

Clarence Beaumont of Pittsburgh is the only National League batting champion who failed to hit a home run during the season. He won the 1902 crown with .357.

Golfers on Public Links Slow To Find \$1 Million Course

AP Newsfeatures PLEASANT VALLEY, N. Y.—There are mighty few uncrowded public golf courses, and these probably will be one fewer when they see it.

The course, now in its seventh season, was designed by the famous golf course architect Robert Trent Jones. He carved it out of more than 600 acres of Dutchess County farm land given to the New York State Park Commission by the late James Baird of Scarsdale, N. Y.

ing here know a good thing when they see it. It's like a private club. They've been keeping it that way, not talking about it.

teur. It is a par 73 layout measuring 6,638 yards. For ladies, it is par 75, and 6,006 yards. The fairways are wide. Half the holes have water hazards.

Perhaps the most feared hole is "Humpback Harry," the 565-yard 13th, where there's 20 yards of flat fairway in the middle, sloping down to woods and dense rough on both sides.

Looking to the future, the New York State Park Commission is considering using Baird Park as a model for entire family recreational facilities.

Small Boys, Youth Drown In Tragedy

WAGON MOUND — Two small boys and their older companion drowned yesterday in a small lake on the Diamond A ranch about five miles northwest of here. The victims were Lynn Quirt King, 3, and his brother, Rocky Roy King, 5, sons of Mr. and Mrs. Goodman King, who live on the ranch where King is an employee, and R. E. Roch, Jr., 29, Midland, Texas.

The tragedy brought to six the number of persons who have drowned in New Mexico since Saturday. Two girls drowned near Las Cruces Sunday, and a boy drowned in a watering trough near Chhill Tuesday.

Village Marshal W. G. Seedig said the three were on a 16-inch walk atop a concrete dam and were about halfway out on the 250-yard long structure.

He said Lynn King slipped and fell into the lake, Roch jumped in to try to save him and disappeared under heavy moss, and Rocky fell in during the excitement.

Seedig said the water level was about five feet below the walkway and there was nothing to hold on to for "many yards on each side of the spot they went in." He said the water was about 12 feet deep, and Roch went to the bottom but the two small boys were held up by the heavy moss about two feet under the surface.

The marshal said an unidentified boy of about nine, who was with the three victims, ran to a nearby group of workmen for help. They lowered an unidentified workman by rope to recover the bodies of the boys, but they had to obtain a boat and grappling hook to bring the body of Roch to the surface. Seedig said Mr. and Mrs. Roch were visiting the Kings.

Livestock Markets

CLOVIS — Cattle receipts 400. Market fully steady with Wednesday's close on all grades. Fat yearlings 17.00-21.50; good and choice fat calves 16.00-20.00; medium kinds 14.00-18.00; commercial cows 11.00-13.00; utility cows 9.00-11.00; canner and cuter cows 7.00-9.00; good bulls 13.00-14.50; medium and light bulls 10.00-13.00; stocker steer calves 17.50-21.00; stocker heifer calves 15.00-17.50; stocker steer yearlings 14.00-19.00; stocker heifer yearlings 14.00-18.50; good and choice feeder steers 17.00-19.50; medium and plain feeder steers 14.00-17.00; good and choice young stock cows 9.00-11.00; ordinary stock cows 7.00-9.00; ordinary stock cows 7.00-9.00; cows and calves 10.00-14.00. Hog receipts 50. Market opened about 50 lower on all grades. Top hogs 23.50-24.00; 160-180 lb. 21.00-23.50; 250-290 lb. 21.00-23.50; 290-350 lb. 19.50-21.00; sows 27.50-35.00; 17.50-18.00; sows 350-500 lb. 15.00-17.50; stags 9.00-13.00; shoats 18.00-19.50.

Hogs 1,800; slow barrows and gilts and sows 50-1.00 mostly 75 lower; most sales choice 190-230 lb. barrows and gilts 23.50-24.00; sows 15.00-19.00; few lots stock pigs and feeders 21.50-22.50. Sheep 1,000; slaughter spring lambs strong to 50 higher; others steady; choice to prime native spring slaughter lambs 22.00-23.50; cull to good shorn slaughter ewes 8.00-5.00.

SALT LAKE CITY — General Manager F. A. Wardlaw of the International Smelting & Refining Co. said lead-zinc reduction plant here has low metal prices force closing of the plant next week. He said the temporary action will affect 300 workers.

Board to Probe Strike By 4,500 A-Plant Workers

WASHINGTON — President Eisenhower today named a three-member fact finding board to investigate the strike of 4,500 atomic energy plant workers. The board began its inquiry at once.

Appointment of the board, headed by the former atomic energy commissioner Thomas Keith Glennan, is a major step toward ending walkouts at the Oak Ridge, Tenn., and Paducah, Ky., plants which threaten production of the vital ingredient for atomic and hydrogen bombs.

The government can apply for a court order halting the walkout as soon as the board makes its report.

Under a presidential order the board has until July 20 to complete its inquiry but White House counsel Bernard M. Shanley told reporters the report undoubtedly would be completed long before then.

There was unofficial speculation the government would seek an injunction by the end of this week.

The White House announced shortly after 11 a. m. EDT that the board already was in session at the Labor Department here with union and management representatives.

The strike directly involves the CIO Chemical Workers Union and the Carbon Chemicals Co., a division of Union Carbide & Carbon Corp.

Teenage Canteen Scheduled for Saturday Night

Another teenage canteen will be held in Artesia Saturday night under Rainbok-DeMolay sponsorship at Masonic Temple.

Music will be provided by the Crew Cuts of Carlsbad. Admission will be 50 cents a person. Refreshments will be sold.

More than 250 attended the first canteen held two weeks ago.

Mulcock—

(Continued from page one.) er and refinery waters made a poisonous mixture which had killed stock and ruined land.

Haldeman in his proposal agreed to accept responsibility for any such future suits which might arise, and to build a ditch which carry the water from the disposal plant to the Pecos river.

Under the agreement he may use the water in any way he sees fit—for irrigation or for dumping in the Pecos river.

Woman's Club Prexy Gets New Suite

WASHINGTON — Because there was no place for a queen to powder her nose when she visited headquarters of the General Federation of Women's Clubs, the new Federation president, Mrs. Theodore S. Chapman, has a beautiful new apartment at her disposal.

The world's largest organization of women has headquarters in a handsome remodeled residence on tree-shaded N Street Northwest. There are attractive reception rooms for teas and parties, offices and on the upper floor a few bedrooms.

When Queen Juliana of the Netherlands visited this country in late 1952 she was entertained at tea by the General Federation. Her majesty had received Mrs. Hiram Houghton, Red Oak, Ia., then Federation president, and other officers on a trip abroad.

That afternoon the clubhouse was decorated with chrysanthemums and jac-o-lanterns. The silver tea urns glistened. Everything was going along nicely.

The queen was rushing here and there, and photographers were constantly snapping her picture. Woman-like, she wanted to pretty-up. There was some scurrying around by club officers, embarrassed that there was no attractive guest suite.

Afterward it was decided to remedy that — another queen might come to call—and a suite of bedroom, bath-dressing room, sitting room and tiny buffet was built into which no president of 11 million women need be other than proud to usher royalty.

The business of the General Federation, which has 800,000 member clubs and affiliated clubs in this country, and a sizeable number overseas, requires the president to be frequently at its Washington headquarters. It is more convenient for her if she can stay in the building.

Mrs. Oscar Ahlgren, Whiting, Ind., the immediate past president, got to occupy the "royal suite" the last months of her two-year term. Its air conditioner will be turned on when Mrs. Chapman, of Jerseyville, Ill., arrives this week end.

Mrs. Chapman is a widow with no children. Back home in Illinois she operates a 270-acre grain farm.

HAGERMAN NEWS BRIEFS—

New Community Doctor Prepares Office Opening

Dr. J. P. Voute moved his office furniture into his offices in the rear of Irby Drug here Tuesday in preparation for opening July 15 or before. Work started Wednesday on Dr. Voute's new home. He and his wife and family are moving here from Eunice, N. M., and are recently from Holland.

Mrs. Jim King was in Roswell Tuesday morning on business. Mr. and Mrs. Jack Casabonne, accompanied by Mrs. Louise

Brown, and her daughter, Priscilla, left Friday for an extended vacation. They did not disclose where they were going, but according to "inside tips" they headed north, possibly to Colorado and Wyoming.

Mr. and Mrs. Jim Bob Clark and children of Sterling City, Texas, arrived Friday for a visit with relatives and friends here. They have been the house guests of Mr. Clark's aunt and uncle, Mr. and

Mrs. Bob Cumpsten. They accompanied Mr. and Mrs. Slick Boyce and family to the mountains Sunday. They plan to return to their home Wednesday July 7.

Slick Boyce, Hagerman post office employee, is now enjoying a vacation of a month's duration. Although his plans are not definite, he said they might go to El Paso to visit his sister and family, Mr. and Mrs. Charlie Criddle.

Mr. and Mrs. Jack Nail of Hagerman announce the birth of a baby daughter born Tuesday, July 6, at Artesia General Hospital at 11 a. m. The Nails have one other child, Larry, age 3, in September. The baby's name is Nona Ruth. Mr. and Mrs. Clint Nail are paternal grandparents, and Mr. and Mrs. B. W. Curry, mater-

nal grandparents. Mr. and Mrs. Bobby Williamson of Hagerman joined Mr. and Mrs. Reuben Williamson, Bobby's parents, in Ruidoso for the Fourth of July weekend. They attended the horse races.

Mr. and Mrs. Joe Ford and children of Hagerman will move to Ates, N. M. about the middle of August, where Mr. Ford has accepted a job as assistant coach and 6th grade teacher. Mr. and Mrs. Al Henry, both of whom are employed as teachers in the Hagerman school, will move into the Ford home located on the highway north of Hagerman.

Some historians believe that in the year 410, Rome did not have a single permanent inhabitant.

HEARING HELD — A corporation commission hearing was to be held at Ruidoso today on a Ruidoso Telephone Co. request for a rate increase. Residents of Ruidoso, Capitan, Greentree, Hollywood and neighboring areas would be affected.

OFFERS DISPLAY SPACE — Paul W. Stott, manager of the Artesia Chamber of Commerce, said today any club or organization which has something to display can feel free to bring it to the chamber office and use the big window in front. He said plenty of room is available.

The human body has about 12,000 miles of blood vessels.

Use of fingertips for identification was widely used in the development of the modern system not start until 1823.

COMPARE

See how **SAFEWAY'S** low prices can **SAVE YOU MONEY...**

You save more when *everything* you buy is priced low. That's why we say compare prices on *all* items—not just a few "specials." See how Safeway's prices are right—right down the line. Start with the items listed here. They are typical of the hundreds of values which make Safeway the place for regular savings. Shop Safeway and save.
