## Convict Held for Murder Recaptured

SANTA FE — Franklin L. Lindemuth, 24-year-old murderer and lifer who escaped from a city guard Monday, was recaptured in Santa Fe today, Prison Warden Morris Abram announced. The announcement came half an hour before noon and Abram said capture had taken place only a few days before. He said Lindemuth had been taken by city police. The warden yesterday had voiced the belief that Lindemuth might have been up somewhere in the city the night he had died down town to permit him to get away from this area. Lindemuth has served six years in the 1948 slaying at Albuquerque of Lucille Rameriz, a nurse, had gone to Albuquerque, Modesto, Calif., in response to her brother's telephoned plea for help. The prisoner was with a crew working at the prison-owned one Japanese internment camp on the edge of town when he walked away in mid-afternoon Monday.

## Artesia Weather Above Normal

THE ASSOCIATED PRESS reports weather continued to maintain a steady pace almost cloudless skies except for afternoon and temperatures several degrees upward from seasonal normals. Completion of the case before the Supreme Court left clemency by Gov. Edwin Mechem as the last hope of Heisler, who will be 34 years old Sept. 25. Heisler's attorney, Fletcher Catron, said last night he feels some effort may be made to gain executive clemency for Heisler. The bullet-riddled body of Gunnish, 40-year-old steelworker from Martins Ferry, Ohio, was found Oct. 12, 1951, several hundred feet off U. S. Highway 66. His blood-stained car was found five days later at Amarillo. Clues found in the car led to the arrest of Heisler at Adin, Calif., the following Nov. 1. At the trial the jury rejected his story that he had shot Gunnish in self-defense, a plea the attorney general contended "was a sham." The state charged Heisler killed Gunnish in cold blood with robbery the motive.

## Heisler to Die in October for Gunnish Murder

SANTA FE (AP)—Friday, Oct. 29, today was set as the date of execution in the electric chair of Frederick W. Heisler, Brooklyn-born hitchhiker slayer of John Gunnish near Tucumcari in October, 1951.

The State Supreme Court, which on July 14 denied Heisler a rehearing of its rejection of his appeal, sent the warrant of execution to the warden of the state prison.

This followed the expiration yesterday of the time in which Heisler could have filed a motion for leave to file a second motion for a rehearing. His attorney did not file such a motion.

Completion of the case before the Supreme Court left clemency by Gov. Edwin Mechem as the last hope of Heisler, who will be 34 years old Sept. 25.

Heisler's attorney, Fletcher Catron, said last night he feels some effort may be made to gain executive clemency for Heisler.

# Foreign Aid Budget Cut to Hurt U. S. Ike Declares; Defends General Marshall

## Studies Hassle In Senate On McCarthy

WASHINGTON — President Eisenhower, speaking of the McCarthy dispute in the Senate, said today that anything tending to divide the Republican party must be of concern to him and he must try to do something about it.

The president refused to express any opinion on the move by Sen. Flanders (R-Vt.) and others to censure Sen. McCarthy (R-Wis.).

In emotional tones, however, he gave a ringing defense of Gen. George C. Marshall. Marshall had been attacked earlier in a letter from former Secretary of War Harry H. Woodring. McCarthy produced the letter in the Senate debate on the Flanders resolution. McCarthy himself has sharply criticized Marshall.

Eisenhower explosively rejected Woodring's suggestion that Marshall would "sell out his grandmother" for personal advantage.

ON THE contrary, Eisenhower said, Marshall's 50 years of service showed the highest type of patriotism. It is a sorry reward, the president said, his eyes flashing, for someone to say at this stage that Marshall is not a loyal and fine American or that he served his country only to further personal ambition.

The president said he knows no one who deserves this verdict less than Marshall.

The discussion of Marshall and McCarthy came while Senate leaders were combing a list of about 20 senators hunting for what they called a middle-of-the-road committee to investigate McCarthy's conduct.

As for the McCarthy controversy he said, of course, that is going to effect the Republican party in some way or other.

BUT HE SAID he cannot evaluate that effect at this time.

And he said that until the Senate makes up its own mind, it would not be becoming for him to make (Continued on Page Six)

## Artesia Youth Tours Walker as Prizewinner

An Artesia lad, Gene Lowry, will be the guest of Walker Air Force base Wednesday as the result of his winning letter in a contest sponsored by the WAFB television show "Walker on Review."

Gene, who lives at 601 S. 5th, Artesia, was declared the winner over scores of other entrants in the letter contest, which called for a letter on "Why I Kill Pies and Mosquitoes" as part of an education program in polio prevention.

Today will be a big day for Gene.

At 9 a. m. Air Force staff car drove up to his home to take him to Walker Air Force Base. With an Air Police escort, Gene will tour the base and then go to the flight line to see the airplanes.

Lunch will be with the airman in one of Walker's dining halls. And then, it's off to the flight line again—this time right up to the 178-ton B-36 intercontinental bomber.

CLIMBING UP TO the pilot's seat, Gene will get a good description of the plane from the pilot himself. Then he'll go through the tunnel to the aft section of the big plane, looking at all the gadgets.

From the B-36, Gene will go to the KC-97 tanker to learn how the

Air Force refuels its planes in the air. The B-50 will be the last stop—except for the climactic thrill of climbing into the pilot's seat of a T-33 jet trainer. Here Gene will put on the plastic jet helmet and wiggle the controls a bit—just to get the feel of things in case in a few years he decides to be a pilot.

Then dinner at the Officers' club and Gene will be whisked off to the television station for a personal appearance on "Walker on Review" (KSW-TV Channel 8 at 5:55). Here he will receive a model of the B-47, the Air Force's fastest bomber and meet the cast of the program.

THE STAFF CAR will then take Gene back to Artesia to end his Air Force day.

A public service feature of KSW-TV, Roswell, "Walker on Review" has conducted the letter contest for two months, with entries coming in from southeastern New Mexico and west Texas.

A Jordan, N. M. 10-year-old, Russell Harris, won second prize, and Wesley McBride, age not given, of 1008 W. First, Roswell, took third place. Both of these will receive B-47 models.

Gene's sister, Ann, 10, was also an entrant in the contest.

RODEO DECORATIONS are being sold throughout the city by Artesia Hospital Auxiliary members, including Mrs. Bill Hart (left) and Mrs. W. M. Tipps, who sold bunting to Artesia Advocate Gen. Mgr. Vernon Eryan this morning. Auxiliary received 20 percent of proceeds for sales.

DEMING (AP)—An eight-month-old baby girl was swept from her mother's arms and drowned yesterday after her mother fell in a flooding highway "dip" as she left her stalled car.

The car, driven by Mrs. George Montgomery of Hurley, stalled in water flowing from a storm on the side of Cook's Peak 10 miles away.

State Policeman Dwight Marable said Mrs. Montgomery gathered up her baby and stepped from the car. She lost her footing in the rapidly flowing water, which was from one to one and a half feet deep in the dip on State Highway 26 between Deming and Hatch. She was swept several feet downstream.

The baby was torn from her arms by the flood, and was recovered a quarter of a mile down the arroyo by T. E. Dawson, who was in another car. He rushed the infant to a Deming hospital where she was pronounced dead about three hours later.

Artificial respiration was administered to the baby enroute to the hospital, some 16 miles from the scene of the accident. Her mother was treated for bruises and shock.

## President Says Ignorance Is Shown By Cut

EISENHOWER ROUNDUP

WASHINGTON — President Eisenhower said today the foreign aid cut voted by the Senate is too deep and will hurt the United States badly. He also said it reflects some lack of comprehension as to what the people in the Kremlin are doing.

The President told a news conference that before the bill went to Congress the administration already had trimmed the program as much as it felt was justified.

Eisenhower asked Congress for nearly 3 1/2 billion dollars for foreign aid. The Senate late yesterday voted to put the figure in an authorization bill at \$2,610,000,000. The House had voted \$3,368,000,000.

On other matters:

COMMUNIST CHINA — Eisenhower reiterated with great emphasis that he is opposed to admitting Red China to the United Nations under present conditions. But the President went on to say he is always ready to wait and see whether the sinner reforms and comes into the fold. He would be off his rocker, he added, if he attempted to say what conditions would be five years from now with respect to Red China and the UN.

ATOMIC POOL — The President said he does not propose to be defeated on his plan for an international atomic energy pool for peaceful purposes merely because Soviet Russia has refused to go along with the idea. He said he still is trying to find a way to put the plan into effect without Russia and intends to keep on trying.

POLITICS — So far as he is concerned, the President said, the main issue of the fall congressional campaign will be simply this: Is the record of the Republican administration a good one or is it not?

EUROPEAN FLOOD RELIEF — Eisenhower announced that both Austria and Germany—he did not say whether he was talking of West or Red-dominated East Germany—(Continued on Page Six.)

The actual celebration will begin Thursday evening with a booster rally in downtown Las Vegas.

Awk

Saturday the old timers will be honored with a "day in the country" as they are guests of the Pendaries Ranch. Sunday evening they will be guests of honor at a dinner to be held at the Castaneda hotel with Gov. Edwin Mechem as speaker. The governor was made an honorary member during last year's encampment.

First of the Rough Riders to arrive in Las Vegas this year was Dick Shanafelt, of Lawrence, Kans., who, with President-Billy McGinty, Ripley, Okla., will lead the Friday parade on horse back and take part in the grand entry at the rodeo. McGinty gives his official age as 81—since 1948. Another veteran who sits his horse with the best of modern cowboys is Jesse Langdon, chairman of the reunion committee, who calms to be the baby of the outfit at 73.

The Rough Riders have agreed to meet in Las Vegas "to the last man." Last year, 35 made it.

# NuMexers Work For 7-5 Win Over Sixth-Place Odessa Oilers

Sixth-place Odessa threw a tight scare into league-leading Artesia last night, but three NuMex hurlers and some timely work quelled an Oiler uprising as Artesia went on to win 7-5. Odessa never let Artesia feel during the entire game; two pitchers who got themselves into hot spots were pulled.

Al Chester, coming in during the eighth to relieve Gallardo, pitched a top relief stint for the rest of the game. He gave up no hits, whiffed two, and walked none, completely blocking further Oiler scoring.

Artesia pitchers were in trouble right by the way—only timely plays and Odessa miscues made the difference.

Barley Watts led off the Artesia scoring with a homer after Smartt had doubled in the first for the first two NuMexers. Odessa's pair in the fifth when Dick Jennings and Bob were walked and Barney and Tony Di Primo singled.

Artesia scored three in the bottom of that frame when Mickey was safe on a fielder's choice. He singled to home him, and Sullivan homered.

# Sawyer Gets Fifteenth Win As Roswell Downs Spudders

SWEETWATER — Tom Sawyer chalked up his 15th win of the season here Tuesday night for Roswell as he halted the Sweetwater Spudders, 9-2, on five hits.

Sawyer had a one-hitter going for 5 2/3 innings until Cluey came along in the sixth.

Wayne McMillan, first of three Spudder hurlers, suffered his third loss in seven decisions. Bob Abshire and Pedro Moreno followed him to the hill.

Roswell slugger Joe Bauman, who appears to be on his way to a minor league home run record with 51, went hitless in 3 official trips.

Roswell picked up two runs in the first but waited until the fifth to ice the game with a four-run rally which chased McMillan.

# Dallas Attendance Drops 40,000 From 1953 Season Mark

FORT WORTH — San Antonio is up more than 50 per cent in Texas league attendance and Houston more than 33 1/2 per cent as the campaign rolls into its final quarter.

On a per-game average, Houston has drawn 925 more and San Antonio 788 more. In total attendance Houston has attracted 202,416 for 54 games compared to 149,684 for the three-quarters last year.

Fort Worth, the only other club showing an increase, has drawn 91,796 this year for 49 games compared to 88,621 for last season.

Overall, the league is 32,400 behind last year but this is for 388 games compared to 400 last season and the game average for 1954 is only 18 below 1953.

League attendance for the season to date is 820,245 compared to 852,645 in 1953, indicating there will be another year of more than 1,000,000 paid admissions.

ODESSA outfielder Ray Mink was safe on this slide into third during NuMexer-Oiler game last night, despite dive by Paul Dobkowski with ball in his glove. Mink was later driven in to score.

# Hot Blazing Bat of Yogie Berra Biggest Menace To Cleveland, Gives Yanks 2-1 Win Tuesday

By JOE REICHLER • Associated Press Sports Staff

Cleveland's best chance of slowing up the New York Yankees' pennant drive is to cool off Yogi Berra's blazing bat.

The Yankee backstop is red hot. In his last seven games, Berra has hit safely 14 times in 27 times at bat for a .59 average. The Yankees have won six of those seven games. Two weeks ago, Berra was hitting .287. Today he is at .306 — and climbing.

Berra proved the difference in New York's 2-1 victory over Cleveland Tuesday night that chewed a full game off the Indians' American league lead and sliced their margin over the Yankees to 1 1/2 games.

Berra cracked a single off Art Houtteman, scoring both runners. That was the ball game. The Indians, who had drawn first blood on Larry Doby's first inning home run, his 23rd of the season, couldn't budge Whitey Ford after that as the young lefthander permitted only one hit in the last five innings.

The National league race remained unchanged as the top three — New York, Brooklyn, and Milwaukee — added to their victory column. The league-leading Giants maintained their five-game advantage over Brooklyn with a 7-1 triumph over Chicago's crippled Cubs. The Dodgers had to go all out, edging the St. Louis Cardinals 2-1 as Carl Erskine bested Vic Raschi in a pitching duel. The third-place Braves, 10 lengths off the pace, outscored Philadelphia's Phillies 3-1.

# Ashers Split Pair With Midland

MIDLAND — Carlsbad came back on Bob Weaver's three-hit pitching to gain a split in a doubleheader here Tuesday night after the Midland Indians won the opener, 4-1, on Paul Ortosky's bases loaded triple.

Weaver pitched shutout ball in the nightcap, scattering three hits, two of which were of the scratch variety.

Outfielder Goldie Gholson gave Weaver enough margin to win on in the second when he smashed a solo home run. Gholson also batted in a run in the fourth with a single and figured in the two-run sixth with a single.

After Oliver Hardy circled the bases on a bunt in the first inning of the opener Julio Ramos settled down to stifle the Miners on three hits to record his 13th win of the season.

Ortosky furnished the winning margin in the fourth when he hit

# Jimmy Carter, Flanagan Matched

CHICAGO, (AP) — Jimmy Carter, the 30-year-old battler who twice won and lost the lightweight championship, imperils his hopes of regaining it again in a 10-round bout with Glen Flanagan tonight.

Carter has set up a return match with Paddy DeMarco, the last man to dethrone him, for Sept. 22 in San Francisco.

He rules a 3-1 favorite over Flanagan, who has moved up from the featherweight division and at 125 pounds will be carrying the most weight of his career. He is a brother of Del Flanagan, a leading welter contender.

A defeat in tonight's nationally televised Chicago Stadium would be a serious setback for Carter.

# Roswell, Carlsbad Would Have to Play Top Form to Oust NuMexers

(This is part III in a statistical summary on the Artesia NuMexers first 100 games, completed Friday night. It shows, on the basis of percentages, what could happen to the NuMexers in the remaining games.)

The Artesia NuMexers, after their first 100 games—completed Friday night—had 40 games yet to play. Twenty of them were to be at home, 20 on the road.

Of the 40 games remaining after those first 100, five are with Big Spring, (two here, three there), five with Sweetwater (two here, three there), five with Midland (three here, two there), eight with San Angelo (four here, four there) six with Odessa (four here, two there), six with Carlsbad (two here, four there), and five with Roswell (two here, three there).

Only two first division clubs can now make a real bid to oust Artesia from first place and wind up at the top themselves at the end of the season. They are second-place Roswell, now trailing 5 1/2

games, and third place Carlsbad, now 6 1/2 games behind.

The standings could, of course, change almost overnight against Artesia. The NuMexers could get into a slump, which need not be too long to be damaging. Or one of the two contenders could get mighty hot, which combined with even a slight Artesia slump, would be disastrous.

THUS FAR, HOWEVER, Artesia has given no signs of slumping under Mgr. Jimmy Adair, nor is it likely the team members or Adair would allow it.

And this late in the season it is unlikely Roswell and Carlsbad will make the necessary changes which would make them stronger contenders.

Artesia has improved its club considerably of late. The NuMexers could easily wind up the season with a record of 96 won, 44 lost for a percentage of .685, which is only slightly more than the team is now doing—670.

If the NuMexers play the same

ball in the games remaining as in the first 100 games, they could, with the club's increased power through addition of new players, easily wind up the season playing 800 average at home, 600 on the road in the remaining 40 games.

That is possible because a large number of the remaining home games are with second division clubs. Artesia is now playing .778 ball at home. With its slightly increased power it could easily play .800 ball at home—an increase of .022 over the season record through the first 100 games.

ON THE ROAD it could easily up its percentage to .600, an increase of .012.

With that kind of team, Roswell would be required to play better than .800 ball the rest of the season to overtake Artesia. That would mean winning 33 of 40 while Artesia is winning 28 of 40 by playing .700 ball.

Roswell would thus have to win all five games remaining on their

Tiny deer fawns are captured, tagged and released unharmed, by Game Department Biologist Jim McClellan and District Warden Elmo Traylor. Extreme care is needed, to prevent fractures and other injuries to the squalling, kicking, fragile fawns.

When the deer is harvested as a game animal, the tag will be recovered. Since it indicates the place of birth and the hunter's report will indicate place of harvest, the migration pattern will be ascertained.

## More Floats for Rodeo Parade

IT'S WITH SOMETHING akin to shock that the general public learns how few floats have been entered in the annual Artesia V-J Day Ranch Hands Rodeo parade, now only a week away.

Deadline for entries is next Monday, Aug. 9. We hope readers who have been connected with civic clubs will note that, clip the registration blank printed every day in the Advocate, and get their organizations at work.

The parade is part of the rodeo spectacle which becomes better and better every year. For the parade to fall down this year would hinder the entire record of growth experienced by this coordinated summer celebration and rodeo.

Those who have been slow to register, although they have known they and their organizations will enter floats, are urged to do so.

Let's make this parade the biggest and best ever!

## Hope School Figures

WE NOTICED yesterday discrepancies in figures concerning Hope high school quoted to the state board of education.

The Hope delegation claims its average daily attendance last year was 23. Vernon Mills, spokesman for the Artesia school system as its superintendent, said the figure is 16.

This is the only discrepancy which came to light in the Associated Press report. There are doubtless others which have not been revealed but which are used as a basis for arguments and thinkings on both sides of the question.

Certainly before the Hope school problem can be worked accurate figures must be had on which to base sound thinking. Use of inaccurate and prejudiced figures can lead uninformed observers to erroneous conclusions.

The matter of transportation distances and how many children are affected should also be presented for study, as there is apparent controversy on sound figures for them, too.

Above all, we hope that Artesia and Hope can keep the discussion of school difficulties on an impersonal plane dealing with the issues at hand, rather than wandering off into the personalities of those concerned on either side.

A school controversy is among the most heated of any disputes, but we believe Artesia and the Hope community have the leadership to rise above the inherent difficulties and tendencies to emotionalism involved in this particular debate.

### Vermiculite Man Still Has Artesia in Mind

**CHARLES A. HOWE**, the man who is going to turn Artesia into the vermiculite capitol of the world, sends to this department a copy of a letter he wrote recently to Chamber Mgr. Paul Scott.

Writes Howe:

You may think that I have passed out of the picture but I haven't. I will be around after awhile. I am wading through the confusion that blankets the nation. I am not trying to say who's fault it is, in fact I believe it is a general condition that no certain people are to blame for.

About eight weeks ago I was offered the Vicksburg Consolidated mines here near Winnemucca. It's a group of three mining properties with mill mine camp and all. A very high class Engineer states it to be one of the very best potentials in Nevada. I decided to take it and landed here about three weeks ago with my contracts all drawn up, that was after I had spent some time here going over the deal.

The day after I landed here with the contracts the principal man went to the Hospital and was in an oxygen tent for days. He finally died a week ago today. My Lawyers were here this week going over the legal nagle now that this man is dead. However they think we can still close the deal soon.

I expect Mr. Whiteside here this week also a broker from San Francisco. I believe I am going to get going pretty good. Finance is not my worry it's the general confusion, and I will just have to wade through that as best I can, and will be over there as soon as I can get to it.

**DAVE BUTTON IS CLAIMING** that after two Artesia doctors sewed him up after his recent appendectomy, the MDs had nothing to do to while away their time for a couple of minutes.

So they scrawled in large figures with very red mercurochrome the legend "990" across Button's stomach.

The proof of the statement has long since been showered off, so why argue?

**FORMER POSTMASTER J. L. TRUETT** is turning to his typewriter in his "retirement," which is about as active as his hectic days in the post office.

From the Truett typewriter so far has flowed the beginning of an oil history of the Artesia area, and a number of excellent column-type essays, on which the Advocate hopes to get its hands soon.

**THE CITY HAS ALREADY PUT** that new asphalt truck to work, repairing streets. So far, Ninth and Sixth have been given coats of asphalt and stone chips along their entire paved routes.

City Engineer W. D. "Doug" Fowler told us the other day the city won't be able to do its own paving for another couple years until it comes into possession of several thousand dollars, beyond the current year's budget.

When the roller does come, Fowler thinks the city might be able to do what is called "triple penetration" paving. That involves a layer of asphalt, a layer of coarse stone, another asphalt coat, a layer of finer chips, still more asphalt, and a layer of still finer chips. Successive rollings would make this an inexpensive street paving.

Paving is one of the city's most pressing current problems, and it is to be hoped that methods to bring it to Artesia at low cost can be worked out.

**THE NEW HOUSING BILL** signed the other day by President Eisenhower brings cheer to Artesia home builders, who have been hedging somewhat until they see what Eisenhower would get from Congress.

The new bill chiefly liberalizes downpayments for non-veterans, opening up home ownership at lower initial cost for thousands of non-veterans, of whom not a few score live in Artesia.

A \$10,000 home, for instance, will require a downpayment of only around \$650.

The new bill should increase house construction activity in this area.

**COLLINS BID LOW**  
ALBUQUERQUE (AP)—Collins Motor Co. or Alamogordo was apparent low bidder on a Crops of Engineers contract for a ground water resources investigation at Holloman Air Force Base at Alamogordo. Collins' bid was \$21,150, the lowest of four.

South Koreans Demonstrate Against Truce

PANMUNJOM, (AP)—South Koreans demonstrated against Czech and Polish truce inspectors again today and the Communists charged that the outbreaks constitute a violation of the Korean armistice.

The expected protest against the demonstrations, which began during the weekend, was lodged at a meeting of the Military Armistice Commission here.

North Korean Lt. Gen. Lee Sang Cho angrily told U. N. delegates that the demonstrations were staged by "people under the military command of your side."

Earlier today headquarters of the neutral inspection team at Pusan, scene of a South Korean demonstration Saturday, was shifted from a hilltop to a former race track now used as living area for U. S. and U. N. officials.

Border Patrol Hike Sought to Stop 'Wetbacks'

WASHINGTON (AP)—Warning that the inflow of "wetbacks" is "posing a serious problem in law enforcement and welfare work," the head of a nation's immigration service has asked for another 200 Border Patrol inspectors.

Panel to Restore Indian School Budget Cuts

WASHINGTON (AP)—The Senate committee on appropriations has taken steps to restore funds deleted by the House for the building and equipping of school facilities in New Mexico and Navajo states to encourage attendance by Indian children.

Sen. Chavez (D-N.M.) said the 1954 supplemental appropriations bill approved by the Senate committee would restore entirely the three million dollars the House cut out for grants to states for the Indian school facilities.

## More Floats for Rodeo Parade

IT'S WITH SOMETHING akin to shock that the general public learns how few floats have been entered in the annual Artesia V-J Day Ranch Hands Rodeo parade, now only a week away.

Deadline for entries is next Monday, Aug. 9. We hope readers who have been connected with civic clubs will note that, clip the registration blank printed every day in the Advocate and get their organizations at work.

The parade is part of the rodeo spectacle which becomes better and better every year. For the parade to fall down this year would hinder the entire record of growth experienced by this coordinated summer celebration and rodeo.

Those who have been slow to register, although they have known they and their organizations will enter floats, are urged to do so.

Let's make this parade the biggest and best ever!

## Hope School Figures

WE NOTICED yesterday discrepancies in figures concerning Hope high school quoted to the state board of education.

The Hope delegation claims its average daily attendance last year was 23. Vernon Mills, spokesman for the Artesia school system as its superintendent, said the figure is 16.

This is the only discrepancy which came to light in the Associated Press report. There are doubtless others which have not been revealed but which are used as a basis for arguments and thinkings on both sides of the question.

Certainly before the Hope school problem can be worked accurate figures must be had on which to base sound thinking. Use of inaccurate and prejudiced figures can lead uninformed observers to erroneous conclusions.

The matter of transportation distances and how many children are affected should also be presented for study, as there is apparent controversy on sound figures for them, too.

Above all, we hope that Artesia and Hope can keep the discussion of school difficulties on an impersonal plane dealing with the issues at hand, rather than wandering off into the personalities of those concerned on either side.

A school controversy is among the most heated of any disputes, but we believe Artesia and the Hope community have the leadership to rise above the inherent difficulties and tendencies to emotionalism involved in this particular debate.

## Vermiculite Man Still Has Artesia in Mind

CHARLES A. HOWE, the man who is going to turn Artesia into the vermiculite capitol of the world, sends to this department a copy of a letter he wrote recently to Chamber Mgr. Paul Scott.

You may think that I have passed out of the picture but I haven't. I will be around after awhile. I am wading through the confusion that blankets the nation. I am not trying to say who's fault it is, in fact I believe it is a general condition that no certain people are to blame for.

About eight weeks ago I was offered the Vicksburg Consolidated mines here near Winnemucca. It's a group of three mining properties with mill mine camp and all. A very high class Engineer states it to be one of the very best potentials in Nevada. I decided to take it and landed here about three weeks ago with my contracts all drawn up, that was after I had spent some time here going over the deal.

The day after I landed here with the contracts the principal man went to the Hospital and was in an oxygen tent for days. He finally died a week ago today. My lawyers were here this week going over the legal nagle now that this man is dead, however they think we can still close the deal soon.

I expect Mr. Whiteside here this week also a broker from San Francisco. I believe I am going to get going pretty good. Finance is not my worry it's the general confusion, and I will just have to wade through that as best I can, and will be over there as soon as I can get to it.

DAVE BUTTON IS CLAIMING that after two Artesia doctors sewed him up after his recent appendectomy, the MDs had nothing to do to while away their time for a couple of minutes.

So they scrawled in large figures with very red mercurochrome the legend "990" across Button's stomach.

The proof of the statement has long since been showered off, so why argue?

FORMER POSTMASTER J. L. Truett is turning in his typewriter in his "retirement," which is about as active as his hectic days in the post office.

From the Truett typewriter so far has flowed the beginning of an oil history of the Artesia area, and a number of excellent column-type essays, on which the Advocate hopes to get its hands soon.

THE CITY HAS ALREADY put that new asphalt truck to work, repairing streets. So far, Ninth and Sixth have been given coats of asphalt and stone chips along their entire paved routes.

City engineer W. D. "Doug" Fowler told us the other day the city won't be able to do its own paving for another couple years until it comes into possession of a roller. That's another item of several thousand dollars, beyond the current year's budget.

When the roller does come, Fowler thinks the city might be able to do what is called "triple penetration" paving. That involves a layer of asphalt, a layer of coarse stone, another asphalt coat, a layer of finer chips, still more asphalt, and a layer of still finer chips. Successive rollings would make this an inexpensive street paving.

Paving is one of the city's most pressing current problems, and it is to be hoped that methods to bring it to Artesia at low cost can be worked out.

THE NEW HOUSING BILL signed the other day by President Eisenhower brings cheer to Artesia home builders, who have been hedging somewhat until they see what Eisenhower would get from Congress.

The new bill chiefly liberalizes downpayments for non-veterans, opening up home ownership at lower initial cost for thousands of non-veterans, of whom not a few score live in Artesia.

A \$10,000 home, for instance, will require a downpayment of only around \$650.

The new bill should increase house construction activity in this area.

COLLINS BID LOW ALBUQUERQUE — Collins Motor Co. or Alamogordo was apparent low bidder on a Crops of Engineers contract for a ground water resources investigation at Holloman Air Force Base at Alamogordo. Collins' bid was \$21,150, the lowest of four.

### Annie Lee Moss Again Suspended

WASHINGTON — The Army today again suspended Mrs. Annie Lee Moss, Signal Corps worker whom Sen. McCarthy (R-Wis.) named in earlier charges that the Army was coddling Communists and security risks.

The Army said Mrs. Moss, who was restored to her job on March 29 pending a final decision and another review of her case, was suspended today and given 30 days in which to present her side before a security hearing board.

The Army said the case was reopened "on the basis of information which was not previously available and which has not been satisfactorily resolved by an investigation."

TENNESSEE VALLEY AUTHORITY—The President said he chose Brig. Gen. Herbert D. Vogel to be the new chairman of the TVA board of directors because Vogel is the kind of a man the administration wants in that job.
