GPA Stands Firm in Gun Proposal

Three-page letter from the president of the New Mexico Rifle and Police Assn. last night... The GPA members stuck to their guns, literally, and decided to send another letter to state representatives and telegrams from individual members against registration of firearms.

In other business, volunteers for committees and work details in the coming months were solicited. The main committees to be filled by the members will be salt program, pheasant growing, predatory control and helping ranchers to continue feeding birds.

JUNIOR candidate for Valentine Vanities Princess is Terry Jane Gray, daughter of Mr. and Mrs. Orval Gray. Balloting closes at 5 p. m. Monday.

Miss Gray Is Leader Again For Princess

The see-saw lead in the Valentine Vanities Princess contest has changed again, finding Terry Jane Gray in first place, Gaynelle Brown in second, and Darla Jones in third.

According to Justin Bradbury, high school band director, this is the first time Darla has moved into the top three spots. Bradbury said it's "still anybody's guess who'll make the final winning plunge."

Valentine Vanities will start next Tuesday for three shows, the climax of two months' planning and one month's practice by members of the high school music department and dramatic department.

Weather Forecast For Weekend Says Skies Fair

By THE ASSOCIATED PRESS Weather conditions for the state were expected to be generally fair the rest of today and Saturday.

Skies cleared over most of the state with scattered clouds still in evidence in the northwest portion and with light snow in the higher mountains.

Temperatures were to be considerably cooler today in the south east and were expected to drop some 15 degrees from yesterday's highs.

Precipitation reported during the past 24 hours was light. Las Vegas recorded .08 yesterday morning, Zuni had .06 late yesterday and early today, with four inches of old and new snow, and Farmington had a trace of snow during the night, raising the amount there to three inches.

Temperatures tonight were expected to range from 15 below zero in the higher valleys in the north to 30 above along the southern border.

The warmest spot around the state yesterday was Hobbs with 67, and the coldest early this morning was two above at Grants.

Seven Clubs Back Recreation Plans

Seven Artesia civic organizations and clubs already have endorsed a program calling for a city recreation program financed by a 1-cent tax on cigarettes sold in the city.

Backers of the movement are seeking still further endorsements as they prepare their case for presentation to city council next Wednesday night, according to Dr. W. E. Toney, chairman of the citizens' committee.

Endorsing this program thus far are Twenty-Third club, Kiwanis Lions, Artesia Woman's club, Business and Professional Women's club, Altrusa, and Delta Kappa Gamma.

Dr. Toney said committee members will appear before city council next Wednesday to discuss the proposal, which would raise an estimated \$12,000 annually for recreation. Income from the cigarette tax could be used for no other purpose than recreation, as provided by state law.

The program was made possible by legislation in the 1951 legislature and first proposed in Artesia early in 1954. No action was then taken because of city finances.

The proposal calls for a recreation board to be appointed by the city council. It would guide the recreation program, and would employ a full-time, year-around professional trained director.

The proposal calls for use of present physical facilities in schools, parks, churches and other public buildings, and specifies the program shall be designed for all age groups.

It would include numerous and varied activities, from handicrafts and social activities to hobbies and sports, with a detailed program to be worked out by the professional director.

Under the proposal, part-time volunteer workers would be used in their specialty fields to aid the full-time director in actually putting the program into effect.

The committee points out the average smoker of cigarettes would pay \$3.65 a year in tax as his share in financing the recreation program.

Pay Increases Sought for Lea, Eddy Officials

SANTA FE — A bill aimed at raising—by 25 per cent in some cases—the salaries of county officials in Lea and Eddy counties has been introduced in the Senate.

Sen. A. E. Lusik (D-Eddy) introduced a bill creating class "B" counties and defining such counties as those having a full assessed valuation in 1954 of more than 75 million dollars and a population of less than 100,000.

80-Acre Well Spacing Asked In Lea County

SANTA FE — A petition for approval of 80-acre well spacing in a Lea county pool is one of the top subjects slated for hearing on the new Mexico oil conservation commission's heavy docket this month.

The request is by Warren Petroleum Co. and Jake L. Haman for 80-acre spacing in the South Knowles-Devonian pool southeast of Lovington.

William Macey, state geologist and OCC member, said there now are only five exceptions to the general rule providing there must be one oil well every 40 acres. There is one exception in the San Juan basin and there are four in the southeastern New Mexico fields he said.

Forty-four cases are docketed for the Feb. 16 hearing and Macey said it is expected that hearings will run for three days. He said 14 of the cases, brought on the commission's own motion, direct companies to show cause why orders written administratively on proration units should not be rescinded. Macey said this step was decided as a means of testing whether the orders should have been commission orders, rather than accomplished administratively.

Construction Firm Prepares for Job

Preliminary plans and living accommodations are being made in Artesia by the Irby Construction Co. of Jacksonville, Miss.

Chamber of Commerce Mgr. Paul Scott said this morning he has received a request from an official of the construction company for housing accommodations and board and room homes.

The Irby Construction Co. will be in Artesia soon to start work on the Pensaco Valley Telephone Co. job which was approved two weeks ago by trustees of the CVE and is now awaiting final approval from the REA offices in Washington, D. C.

The \$196,000 construction job will call for telephone lines and equipment from Artesia to Lakewood, Cottonwood, Hope and Hopdo and will service about 250 people to start with.

Stanolind Given Prorating Rule Rehearing

SANTA FE — Stanolind Oil & Gas Co. has been granted a rehearing on prorationing rules for the West Kutz-Pictured Cliffs Gas Pool in San Juan Basin.

William B. Macey, director of the oil conservation commission, said rehearing has been set for March 17.

The original case was instituted by J. D. Hancock for prorationing of gas production in the pool. After a hearing, the OCC wrote prorationing rules pegged to a unit size of 160 acres. Macey said Stanolind would like to see that changed to a unit of 320 acres.

Officials study Case of 48-Cent Stamp Burglary

SANTA FE — Authorities today studied the case of a man charged with stealing 48 cents in stamps from a bank at Chama Tuesday night.

Edward F. Andrews of Holly, N. Y., said Dist. Atty. Bert Prince, told officers he committed the burglary, but his pregnant wife and their two small children had nothing to eat for the last two weeks except potatoes and cornmeal.

Andrews, a comparative newcomer to the small town in northern New Mexico, was arrested after residents told officers he was seen near the bank. They found 16 three-cent stamps at his quarters.

Officials said Andrews didn't try to open safes or locked drawers and took the only things he saw in the open, the stamps and a pack of cigars.

Prince said he had withdrawn action against Andrews, who was held at Tierra Amarilla for possible FBI action.

VA Official Sets Visit to Artesia

William E. Hall, contract representative in the veterans administration office at Carlsbad, will be in Artesia Tuesday to confer with veterans and others unable to visit the VA office.

He will be at Veterans Memorial building from 9 a. m. to 4 p. m.

Galvan Funeral Service Slated For Saturday

Funeral services are planned Saturday at 3 p. m. for Domingo R. Galvan, 49-year-old Artesia farmer who died Wednesday morning at St. Mary's hospital, Roswell.

Father Stephen Bono, pastor of Our Lady of Grace church, will conduct the rites. Interment will be in San Marcos cemetery.

Rosary services were held on Thursday night at Paulin Funeral Home chapel.

Mr. Galvan is survived by his wife, the former Vincenta Gonzales, whom he married 23 years ago at Hondo, Tex., three sons, George, Fort Hood, Tex., and Henry and Pete, Artesia; and a daughter, Miss Maggie Galvan.

Uranium Search Increases

TUCUMCARI — A sale company is filling up with uranium agents. But there have been no official reports of new commercial deposits. County Clerk J. L. Jordan said Thursday he recorded over two dozen mining claims during the first few days of the week.

British Give Up Cease-Fire for Formosa Strait

LONDON — The British government today wrote off all immediate chances of a United Nations cease-fire in the Formosa Strait.

Instead, it turned to Asian leaders of the world-wide British Commonwealth, meeting here, in the hope of finding a solution to the explosive situation and averting a major shooting war in the Far East.

Shocked and disappointed by Red China's refusal to come to the U. N. and talk things over, Prime Minister Churchill's government saw the best prospect of peace in secret, behind-the-scenes diplomacy instead of public negotiation through the U. N.

Four-Year Terms Out Until 1959, Easley Declares

SANTA FE — If the Legislature and the people go along with Gov. Simms' proposal to put state officials on four-year terms, it won't be until 1959 that the system will take hold.

The 1958 elections are the first in which anyone would be named to four-year terms, according to Rep. Mack Easley, Hobbs Democrat. Easley has introduced a proposed constitutional amendment to make officials spend four years in office, then becoming ineligible to run again.

At present state officials' terms are two years each, with two successive ones permitted. Simms has said a single four-year term would offer greater efficiency.

Easley says the governor and all other state officers affected except the attorney general and land commissioner would be elected to four-year terms in 1958. They would take office in 1959.

THE ATTORNEY GENERAL and land commissioner would be elected for their first four-year term in 1960, taking office in 1961.

After that, the attorney general and land commissioner would be elected in presidential election years, while the other officers would be elected in "off" years.

All of the present officials and those who will be elected next year as attorney general and land commissioner would have the opportunity to serve two two-year terms, Easley explains. After the four-year terms become effective, an officer would have to be out of office for two years before being eligible to run for any elective office.

A bill to make public the names of adults receiving public welfare is on the governor's desk after receiving passage by the Legislature.

SIMMS HAS SAID he is far from satisfied with the bill in its final form, but he said he does not know whether he will veto it.

"But I will say it is my personal belief that when a bill goes to the executive it represents the collective legislative judgment of the voters and the presumption is in favor of signing the bill," Simms said. "The burden of proof on the veto is with the opposition."

Dairymen Fight Ranchers, Cotton Men on Mellorine

SANTA FE — A fight is shaping up over mellorine—a frozen dessert New Mexico dairymen say should be illegal.

Present laws prohibit sale in the state of the dessert. It resembles ice cream, but contains only skim milk solids and vegetable and meat fats.

The Senate is considering two bills, backed by cotton and cattle growers, that would legalize mellorine while strictly regulating its sale and manufacture.

Dairymen object to mellorine on grounds similar to those in the long-time margarine fight. Cattlemen and cotton growers support making it legal because they could sell the fat products that go into it.

The Senate yesterday sampled the dessert as both for and against forces appeared.

Two ranchers and two cotton gin owners appeared in argument for mellorine. Winston Lovelace, Loving, and W. L. Griffin, Deming, were the cotton representatives. Albert K. Mitchell and Gilbert Wynn represented the ranchers.

Mark Peterson, vice president of El Paso Price Creameries, appeared in opposition with Walter Jensen, Santa Fe, secretary of the New Mexico Dairy Producers Assn.

The bill would provide that the expression "cream" could not be used in labeling or advertising the dessert. Texas and several other states authorize its sale.

British Give Up Cease-Fire for Formosa Strait

The British hopes rested mainly on India's neutralist Prime Minister Nehru, who has been in constant touch with the Chinese Communist government and has been a chief negotiator between East and West in the past.

The Commonwealth prime ministers began a series of urgent consultations this morning on new ways to bring a quick end to the shooting between Red China and Kating Kai-shek's Nationalists.

Responsible informants said Nehru, Churchill and the other Commonwealth premiers are studying these alternate cease-fire moves.

1.—A personal approach by Nehru to the Chinese Reds in an effort to arrange a de facto "unwritten" cease-fire.

2.—Acceptance of an Indonesian proposal for mediation in the Formosa dispute by the Colombo powers. They include the neutralist Asian nations—India, Indonesia, Burma and Ceylon—plus Pakistan, which is militarily linked to the West. Burmese Premier U Nu already has begun an independent effort through diplomatic channels to arrange a cease-fire.

3.—A major international conference outside the U. N. to deal with the Formosa situation as a threat to world peace. The United States, Britain, Russia, India and the two Chinas were listed as prospects for the conference table.

Government Says Appeal Planned On Lattimore

WASHINGTON — The government announced today it will appeal the decision by Federal Judge Luther W. Youngdahl dismissing a new perjury indictment against Owen Lattimore.

The decision to take the issue to the U. S. Court of Appeals was announced by U. S. Dist. Atty. Leo A. Rover.

Lattimore, controversial Far Eastern affairs specialist, was accused in the indictment of lying when he denied to a Senate committee that he had ever been a follower of the Communist line or a promoter of Red interests.

Judge Youngdahl in a decision Jan. 18 described the charges as "formless and obscure." He said that to require Lattimore to stand trial on them would "make a sham" of the Sixth Amendment, which requires that a defendant be advised specifically of charges against him.

Rover made the announcement of the intention to appeal before Chief Judge Bolitha J. Laws of U. S. District Court.

Lattimore had been scheduled to go on trial Feb. 14 but Rover suggested that in view of the appeal the trial be continued to some indefinite date or set far enough ahead to allow the Court of Appeals to rule.

Police Probing Break-in at Auto Sales Company

Police are investigating a break-in at Scarborough Auto Sales last night.

According to police reports, two used tires, one new tire, one new battery and a used radiator were stolen from the auto supply room. The break-in was reported last night.

Police are presently searching for a Carlsbad youth also wanted for misuse of license plates in connection with the break-in.

HOME COLLEGE

SILVER CITY — New Mexico college draws more students from its immediate locale than any other college or university in New Mexico. President J. Lloyd Miller said records show 65.8 per cent of Western students come from Grant county.

PICKS WRONG COUNTY

SANTA FE — McKinley county might be without a county seat if someone hadn't caught an error in a Senate bill yesterday. Sen. Calvin Horn, Albuquerque, introduced a bill that would amend a section establishing Gallup as county seat. What Horn had in mind was another section affecting revenue for a hospital.

Controversial M Policies on Pejoy Outline

Five points to be discussed by the University of New Mexico President Tom L. Popejoy, scholarship and student aid will probably be the most controversial.

Pejoy is slated to speak before Artesians Monday night in part of a Town Forum series, presided by the city council of Teachers Assn. in Artesia.

Pejoy's policy of "inter-collegiate Supplement Education," based Current-Argus Sports Editor John Alexander, who has been snapping at UNM athletics several months, has already earned a seat for the Town Forum according to word received yesterday.

Alexander said planning to "ask a few questions" about scholarship and student aid at the university, Pejoy speak on the aims and purposes of the university, the part collegiate athletics and physical education play in these purposes, the relation of the university to schools of the state and the of education in world affairs.

Pejoy has consented to question after his talks. He has under fire from several corners of the state for the university's "ax athletic program."

A forum will be held at Herschell's new multi-purpose starting at 7:30 p. m. Monday.

Walker Airmen in Chase

Walker Air Force airmen might allegedly stole two hubcaps from an Artesia car, then had a chase with city police which they won.

According to police reports, E. Rouch, 313 N. Fourth, reported seeing two men in a 1954 Hudson take two hubcaps off his car near the house.

He reported the theft to police found the Hudson and gave chase. However, the car managed to get away, headed for Roswell. He radioed Walker Air Force to stop the car if it went past their gates.

According to the police reports, the car was stopped and the men detained, although it was not determined by the report whether the hubcaps were recovered.

Maljamar Gives MOD Over \$1,000

Maljamar netted more than \$1,000 for the Lea county March of Dimes, Chairman Kyle Taylor has reported.

Key fund-raising event was a dance recently held, generously supported by auctions and a spaghetti dinner.

A Hobbs man—who won a calf donated by the Taylor & Holeman ranch, re-donated it back to the MOD campaign, Taylor reported.

McCaw hatchery of Artesia donated turkeys which also were auctioned.

Many tickets for Maljamar MOD events were sold in the Artesia area, Taylor reports. "We couldn't have done so well without a lot of generous support," he said.

SHOW SCHEDULED

SILVER CITY — Several faculty members of the University of New Mexico in Albuquerque will be among exhibitors at the show "Albuquerque Painting Today" here Feb. 6-20.

NEW MEXICANS IN WASHINGTON— More to Come in Hassle Over Importing Potash

AP Special Washington Service WASHINGTON — There's more to come in the controversy over potash imports.

On Jan. 25 five Carlsbad potash mining companies sent spokesmen before the tariff commission to protest that potash mined in East Germany was being "dumped" at less than fair value on the American market.

On Feb. 8, a similar complaint will be made that domestic producers are being harmed, or are likely to be harmed, by potash imports from the free countries of France and West German Republic.

than most branches of the mining industry, in fact.

After the tariff commission has completed its study, it will make recommendations to the treasury and the White House as to what, if anything, should be done, particularly whether the imports should be subjected to higher duties.

What the commission recommends isn't always followed, however. New Mexicans here recall that the commission last year proposed higher zinc and lead tariffs to protect the hardhit metal mines of New Mexico and other parts of the West but that the recommendation was turned down by the White House.

What will happen with respect to potash is anybody's guess right now.

SOME INTERESTING FIGURES were brought out at the first potash hearing. For instance, F. O. Davis, vice president of the Potash Co. of America, testified that wages of the Carlsbad potash (Continued on Page 6.)

Christian Church Looted

Christian church has been victim of another break-in, although this time nothing was stolen.

Report from Rev. Orvan Gilchrist to city police said someone entered the church yesterday afternoon and attempted to get into a small bank in the church. At previous times, the burglars managed to get money out of the bank, but this time they were unable to open it.

### Rev. Fred Klerekoper Views Americanism at Woman's Club

Rev. Frederick Klerekoper spoke on Americanism at the meeting of Artesia Woman's club Wednesday afternoon at the clubhouse.

Rev. Klerekoper stressed that along with the blessings our country affords, also goes the responsibilities of citizenship, that people the world over list the American standard of living as the highest. He has lived in the near East and told of some of his experiences and how those people would like to live in the U. S.

The meeting opened with the pledge of allegiance by Mrs. H. R. Paton, Americanism chairman, and the group joined in singing the national anthem accompanied by Mrs. R. E. Glaze at the piano. Mrs. Paton read a poem dedicated to the American flag.

Mrs. Louis F. Hamilton, president, presided over the business session which preceded the program.

### Altar Society of St. Anthony's Schedule Supper

St. Anthony's Altar society met Thursday evening in the rectory with Mrs. Louis Campanella, president, presiding.

Mrs. W. J. Cluney, Mrs. Campanella, Mrs. Charles Solga, and Mrs. J. J. Clarke, Sr., will attend a deaconry meeting of the National Council of Catholic Women to be held Thursday, Feb. 17 at Lovington with a luncheon at noon.

Plans were made to hold a potluck supper on March 20 with following committees appointed: Mrs. J. L. Long, to see about the Veterans Memorial building, and entertainments, Mrs. J. J. Clarke, Jr., Miss Kathryn Walterscheid, and Mrs. George P. White.

Members voted that a check be given each year to the parish priest to apply on the expenses of the altar.

The meeting closed with a prayer by Mrs. J. J. Clarke, Sr. Those present were Mrs. Campanella, Mrs. Clarke, Sr., Mrs. Charles Solga, Mrs. W. J. Cluney, Mrs. Ted Carder and Mrs. Long.

Manchester, England, claims it has the longest single railroad station platform in the world—2,195 feet—although many stations have more than that length of platform broken into several sections.

Experts estimate that if the work now being done by Diesel locomotives on American railroads were done by steam locomotives, it would cost two million dollars a year more.

# Travelers Roll Up Fourth Consecutive League Win, Lick Allen-Bradley 87-68

## Rejuvenated Club to Take Up Road Trip

CVE Travelers rolled up their fourth consecutive victory and secured a straight win over Allen-Bradley in polishing off the Milwaukee team 87-68 in an NIBL game at well last night.

The Travelers, after leading through much of the first half, had come from behind at start of the fourth quarter to turn the trick. Allen-Bradley threw a full-court press on the Travelers' set-up, the resulting foul play gave CVE 17 points on 30 free throw attempts in the final period alone.

Next National Industrial Basketball League games scheduled for the club will be Monday and Tuesday in Houston, when CVE meets the Oilers. They'll return home Saturday, Feb. 12, for a game with the Tiltonson college of Austin, Tex.

Last night CVE built a nine-point lead in the first 10 minutes, and held an eight-point margin at half-time.

But they were behind 61-57 when the fourth period started. Allen-Bradley held a six-point lead through most of the third quarter. CVE tied the game up in the last four minutes of the final 10-minute period, then began reaping the rewards as Allen-Bradley began full-court defensive against the man three-man.

Bill Sharp of CVE and Grant Utberger of Allen-Bradley led scoring with 20 points apiece.

Last night's victory gave CVE a 13 record in league play, Allen-Bradley 7-7.

## Kentucky Players Vote Confidence in Coach, Back It Up With 87-63 Victory Over Florida

By ED WILKS  
The Associated Press  
Kentucky Coach Adolph Rupp has himself a vote of played confidence today, whether he needs it or not.

The controversy involving Linville Puckett, starting guard on the

No. 1 team in the Associated Press college basketball poll, left some loose strings dangling. Particularly since his departure from the squad in a training rules squabble with Rupp gentleman who has not had much chance to learn how to lose—followed Georgia Tech's

second upset of the Wildcats. Puckett got off a parting shot about basketball being a matter of life or death on the Lexington campus. That left the question of whether Puckett was the only player out of step with Rupp.

The question was answered last night as Kentucky rolled over Florida 87-63 in what Rupp termed the Wildcats' best effort in a month.

Kentucky worked smoothly and with team finesse. It was 45-35 at the half and the Wildcats—who dropped both games to Georgia Tech at the foul line—hit on 27 of 33 free throw attempts.

Phil Gravemeyer led the assault with 20 points. Bob Burrow, just recovered from a sinus infection, chipped in 16, as did Captain Billy Evans.

Puckett's replacement Gayle Ross scored 12 in his first starting job. Jerry Bird, the other starter, also hit for 12.

ALL IN ALL, a very neat job for Kentucky's 13th victory in 15 games.

Florida, incidentally, was fresh from an upset of Alabama, the Southeastern conference leader. Kentucky is No. 2 in the league.

In other games, George Washington, No. 7 nationally, knocked off high scoring Furman 76-71 after a scare; fifth-ranked Utah won No. 16 with an 81-49 job on Los Angeles State; and Dayton, No. 15, disposed of Murray (Ky.) State 49-45.

At New York's Madison Square Garden, Cincinnati had trouble but won its seventh straight, 68-78 over Seton Hall, and Manhattan ran its streak to nine, 88-61, over St. John's of Brooklyn.

Two upsets occurred too. John Carroll, 8-12 for the season, knocked off St. Francis (Pa.)—the team that surprised high-ranked Duquesne earlier and had bopped John Carroll 115-94 a week ago. And Drake surprised Detroit 93-86 despite Guy Sparrow's 33 points that set a Drake field house record.

GEORGE WASHINGTON, defending Southern conference champ, stayed within reach of a repeat with its victory, but the Colonials made the mistake of underestimating Furman.

Darrell Floyd, top scorer in the nation, joined Fred Fraley in a shooting exhibition to pull Furman into a 46-39 lead after seven minutes of the second half, and it was only the great floor work of 6-5 Joe Petcavich that enabled George Washington to rally.

ment jaw that absorbed the toughest punches in 117 fights has begun to crumble. It remains to be seen if the mamba routine and the three-day chores of a dancing M. C. have taken their toll from his legs.

Gavilan and Durando, a crude puncher from Bayonne, N. J., don't belong in the same ring if—and it's a big if—Gavilan is 50 per cent of the Gavilan of old. The former welterweight champion always had too much speed, boxing skill and ring savvy for Durando, whose style could be summed up in one word—punch.

The odds favoring Gavilan at 1 to 3 indicate that expert opinion still thinks they don't belong in the same ring. Still, Gavilan's unimpressive (to say the least) fights against Bob Olson and Johnny Saxton, plus a three-month layoff, hardly justify unlimited faith. Incidentally, this will be the Keed's first fight for his new manager, Banker Yamil Chade.

Ike Williams in 1948 and Carmen Basilio in 1953 are the only men who ever knocked Gavilan off his feet. He got up each time, so he never has been stopped in a career dating back to 1943.

Utah State had to struggle to build up a 38-32 halftime advantage, but the Aggies poured it on in the final 20 minutes for their fourth win in seven conference games. New Mexico now has a 1-6 mark. Bart Johnson of Utah State was high with 22 points.

Utah's Art Bunte and Gary Bergen combined to score the first 19 points made by the Redskins, and Bergen wound up with a total of 20. The Utes grabbed an 11-0 advantage. Los Angeles State pulled up to 25-20 and Utah then scored 13 successive points for a 38-20 halftime lead.

## West Texas Is BC Leader, But Not in Stats

By THE ASSOCIATED PRESS  
West Texas State leads the Border conference basketball race but you wouldn't think so from the statistics.

The Buffaloes are second in offense, fourth in defense and also out of the lead in accuracy.

The Buffs beat Texas Tech 87-78 last week to take over their conference lead but Tech maintained its lead in team offense, averaging 80.5 points per game. Tech also tops in field goal completions with 43.4 per cent.

New Mexico A&M has replaced Texas Western as the league's defensive quintet, holding opponents to an average of 67.6 points per game. Arizona State of Tempe pushed ahead of West Texas State in free throw shooting, hitting 75.3 per cent of its shots.

Jim Reed of Texas Tech is the leading scorer, however, meshing 122 field goals and 85 free throws for 329 points.

Parker resigned after signing with the New York Giants organization. He managed the team to a second-place finish in Big State league last season.

## Resigning Cager Denies Asking Reinstatement

LEXINGTON, Ky. (AP)—A first-string guard on the University of Kentucky's No. 1 ranked basketball team, who quit after criticizing Coach Adolph Rupp's tactics, denied Thursday he had asked reinstatement.

Linville Puckett, 6-foot junior, took exception to a Rupp statement that Puckett had asked to be reinstated and had been turned down. Rupp said he told Puckett the situation had gone too far to take him back.

"I didn't ask him to put me back on the team," said Puckett. "I just told him I didn't want to leave the impression that I quit because I was mad at him."

Puckett gave his version of a meeting with Rupp as he packed preparatory to moving from the basketball dormitory on the university campus. He said he didn't know where he was going.

"I broke training, but I'm not the only one," said the 21-year-old player. He refused to elaborate.

When he announced his resignation Wednesday night, Puckett was quoted as saying he was leaving because basketball at Kentucky "isn't regarded as a game, but as a matter of life or death with resemblance of one going to war."

## Albuquerque Wrestling Coach Sees Mat Sport As Top Body-BUILDER, Inexpensive, Inclusive

Wrestling Coach Jack Rushing has informed athletic directors in high schools throughout New Mexico that wrestling can be one of the best major sports a school can offer.

Rushing, coach at Albuquerque high school where wrestling has been in effect for seven years, said the sport "meets the needs of all boys in high school regardless of their weight or stature."

He explained that there is a class for each boy, ranging from 97 to 175 pounds and over.

Rushing says no other sport gives boys a chance to compete against men of his own stature and weight. One of the biggest arguments against wrestling is expense, but Rushing related to coaches many schools have found a way around large expenses.

According to the wrestling coach, each school should have tumbling mats, and with very little effort covers can be made or the mats at a nominal fee, giving the only equipment outside of uniforms necessary. He said uniforms run about \$35 per dozen and the whole wrestling team consists of only 10 men.

He continued explaining "traveling expenses have been overcome quite successfully." He said wrestling teams now hold the home team responsible for lodging the boys—but the home team has a different way of providing food and shelter. Each opponent is the guest of the home boys whom he was matched against in the wrestling.

Rushing said "this not only cuts expense, it affords a boy an opportunity to see how other people live, it gives both boys the pleasure of discussing the merits of their sport, of sharing ideas for its betterment, and it affords the home-boy the experience of being a host and a good sport, regardless of the win."

Rushing said he thought wrestling worked out well with all other sports in the high school field in that it developed muscles for all other seasonal sport. He said "I personally know of no other sport that develops a boy as wrestling will."

Presently only five schools in New Mexico have high school wrestling teams—the five Albuquerque schools and the Alamogordo School for the Visually Handicapped.

## Artesia to Meet Title-Hungry Clovis, Portales on Weekend

Artesia's Bulldogs, riding the waves of only a fair season, take on the title-contending Clovis team which dumped Carlsbad once, then took a loss at Roswell and a loss to even the score with Carlsbad.

Clovis team has been leading at halftime in the majority of games played this year.

Saturday, the Bulldogs will take on the Portales team at Portales. Portales has been the surprise team of the state, having come out on top of every heap so far.

Davis said the Bulldogs might be able to outlast the Clovis five in the game tonight, "if all goes well." Clovis, he said, is still working on

a good team for the playoffs in March. The Clovis basketball team has always been a surprise package at tournaments by breezing through to the top spots with little or no trouble after having a 50-50 season record.

The Bulldogs now have 10 wins to their credit and five losses. A win over the Clovis and Portales team would definitely set the Bulldogs up as contender for the district crown in playoffs this March. Feb. 11 they take on the Roswell Coyotes, who drubbed Clovis last week but lost to Portales three weeks prior. The week after that the Bulldogs get a chance at Carlsbad again.

### The Grace of God

### ILLUSTRATED SUNDAY SCHOOL LESSON

Scripture—Luke 15:11-24; Ephesians 2:1-10; Titus 2:11-14; 1 John 4:10.

By Alfred J. Buescher

Jesus told a parable, saying that a man had two sons, and the younger asked him to give him his portion of his goods. The father divided their inheritance between the two, and the younger son left home for a far land.

In this foreign country the younger son wasted all his inheritance in wild and riotous living until he had nothing left. Then a famine struck the land and he became ragged and hungry, and no one came to his help.

Realizing how foolish and wicked he had been, the son thought of his father whose servants were well clothed and fed. He resolved to go home, confess his sins and ask his father to make him one of the servants.

Nearing home, his father met and kissed him. He put new clothes on him, and had a feast prepared, saying, "For this my son was dead and is alive again; he was lost, and is found."

MEMORY VERSE—1 John 4:10.

### The Grace of God

HE SENDS HIS SON TO DIE FOR OUR SINS

Scripture—Luke 15:11-24; Ephesians 2:1-10; Titus 2:11-14; 1 John 4:10.

By NEWMAN CAMPBELL

THE PARABLE of our lesson was told in Perea, on the east coast of the Jordan river, in January of 90 A. D.

Jesus told the Parable of the lost sheep and the shepherd's rejoicing when the lost lamb was found and restored to the fold.

"A certain man had two sons; and the younger of them said to his father, Give me the portion of goods that falleth to me. And he (the father) divided unto them his living."

Nothing in this Parable suggests this father's faculties were failing, however, but the demand for his portion of his father's goods was not an unusual one. The father immediately gave to each son his portion, which, according to law was one-half or

bread enough and to spare, and I perish with hunger!

"I will arise and go to my father, and will say unto him, Father, I have sinned against heaven, and before thee, and am no more worthy to be called thy son; make me as one of your hired servants."

He was learning, wasn't he—"the hard way," as we say? Home must have looked like heaven to him as he thought of it, and we may suppose he wondered why he had left it.

So he went home—walking all the way, we may surmise. What would be his reception? Would his people refuse to let him in? Would they scold and rave at him?

"But when he was a great way off, his father saw him, and had compassion, and ran, and fell on his neck, and kissed him."

"And the son said unto him, Father, I have sinned against heaven, and in thy sight, and am no more worthy to be called thy son."

However, the father called to his servants to bring forth the best clothes and put them on him, and a ring on his finger (a sign of dignity) and shoes on his feet. And he ordered the servants to kill a fatted calf and prepare a

MEMORY VERSE  
"Herein is love, not that we loved God, but that He loved us, and sent His Son to be the propitiation for our sins.—1 John 4:10.

one-third to the younger of that of the older brother.

Why did this young man want his portion of his father's possessions? From what followed it seems that he was tired of staying at home and wanted to get away and be on his own.

"And not many days after the younger son gathered all together, and took his journey into a far country, and there he wasted his substance in riotous living."

Like so many young people he didn't appreciate the love and comforts of home and had a great yearning to go away where he could do as he pleased without criticism. Also, like many such young people, he was not wise enough to direct his own life in constructive ways, but lived riotously, wildly, spending his money lavishly, until it was all gone.

Then in this far country a famine struck, and without funds he "began to want. And he went and joined himself to a citizen of that country, and he sent him into the fields to feed swine." Work that he would have despised at home and feel humiliated to do, he took gladly now, in his misery.

He even looked hungrily at the husks the swine ate, but no man helped him. Then "he came to himself," and said, "How many hired servants of my father's have

feast. "For this my son was dead, and is alive again; he was lost, and is found. And they began to be merry."

Many of the children will be able to picture the scene because they will have brothers, uncles, cousins or friends who have returned from far countries where they have been serving their country.

They know what it means to rejoice at the return of some loved one. Members of the family older than themselves may have returned from far away, and have been welcomed home to love and comfort after much suffering.

We all have sinned, some grievously, but God will forgive us, if we truly repent and ask Him, for "God, being rich in mercy, for His great love where-with He loved us."

"For the grace of God that bringeth salvation hath appeared to all men, teaching us that denying ungodliness and worldly lusts, we should live soberly, righteously, and godly, in this present world."

God loved us and loves us still, as our Memory Verse says: "Herein is love, not that we loved God, but that He loved us, and sent His Son to be the propitiation of our sins."

## Biggest Firms Report Sales Off, But Profits Climbing

By SAM DAWSON

NEW YORK — "Sales off, profits up." Some of our biggest corporations are reporting that today as they published their 1954 tally sheets.

Lower taxes often get the credit for making last year's net income look better than 1953's. But this year taxes aren't likely to be lowered again.

And still, for many companies the outlook is for better profits in

relation to volume of sales. The answer is greater productivity, which has been lowering the break-even point in some industries. It is the fruit of the billions of dollars which industries have poured into new plants and more efficient equipment since the war.

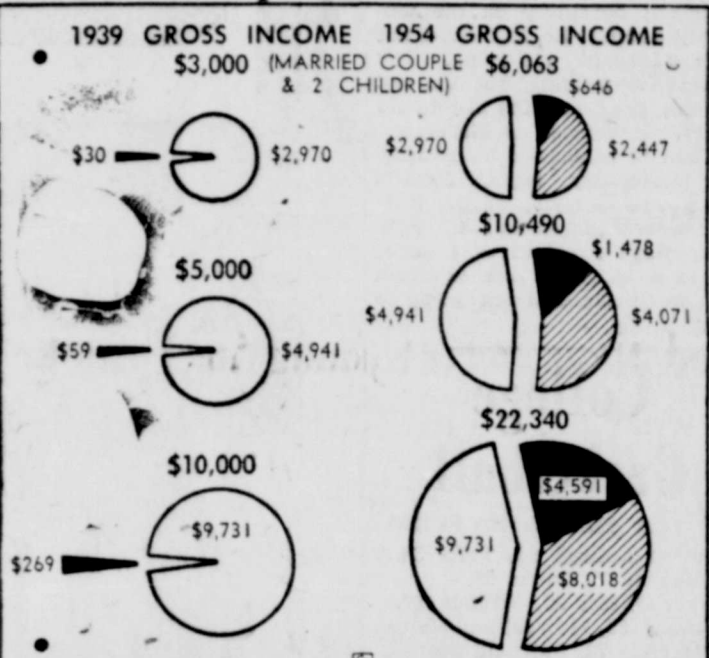

MUCH of the big stock market interest in steel shares can be traced to this. Steel sales have been rising, to be sure. But the

### Your Income Compared to 1939

THIS CHART, made from a chart issued by the National Industrial Conference board, New York, shows you how much income you have to have today to equal 1939 income. For instance, top circles show income of \$3,000 for 1939, with \$30 income tax taken out, which leaves \$2,700. In 1954 you had to have \$6,063 income to equal 1939's \$3,000, because the tax bite was \$646 and dollar depreciation of \$2,447 bit off rest. Other circles show higher incomes.

thing that interests investors is that although production rates range between 80 and 85 per cent of capacity, the break-even point for steel companies has been lowered well below that in recent years. And steel corporation directors feel justified in raising dividends.

The nearly seven billion dollars which steel companies have put into more productive plants since the war are bearing fruit.

The Chase National Bank of New York, in its quarterly economic review issued today, notes that for American industry as a whole, productivity—that is, the amount of goods put out per each man hour of work—grew at the rate of 2.1 per cent a year from 1909 to 1942.

"IN THE POSTWAR period it has been growing at the even more remarkable rate of 3.7 per cent per year," the bank reports. It predicts that "our increased emphasis on research and development may make our potential for driving up productivity even greater than in the past."

### Food Sense—Not Nonsense

More Than A Pattern—Cut It To Size

From foods to furniture, patterns are available for everything now that it is the vogue to "do-it-yourself." Breakfasts, too, should be made from patterns. These patterns, however, should be adjustable with mother "cutting to size" breakfasts to suit nutritional needs of each family member.

On every hand is the reminder, "Eat a Good Big Breakfast." How big is big when it means breakfast? From one of the surveys of the breakfast habits of young people, comes a basic pattern for adequate breakfasts. Purdue University judged breakfasts of women students by the following yardstick: (1) fruit or fruit juices; (2) cereal with milk, or an egg; (3) milk or cocoa made with milk; and (4) whole grain or enriched bread with butter or margarine. Of the students, approximately one-third included three of these types of food and another third, only two types. Only a few had all four and the remainder ate only one food or did not breakfast at all.

These breakfast habits were developed at an early school age. They were found to be an indication of the student's total daily diet. If breakfast is eaten, though inadequate, the total diet will score higher than if breakfast were skipped.

Research workers at the University of Iowa found the calorie to be one of the gauges to determine the bigness of the breakfast. Young men and women whose balanced breakfasts supplied one-fourth of their daily caloric needs, were able to work more efficiently throughout the morning than when they had less or more food.

Physical activity tests revealed that a basic cereal breakfast consisting of fruit, cereal, milk and enriched bread or butter or a bacon-and-egg breakfast were equally efficient energy-wise, providing each supplied 25 percent of the daily caloric needs.

So measure and cut breakfasts to energy needs; up calories for youngsters and active adults. Be certain to include the protein and B vitamin contributing foods—enriched bread, cereals and milk.

# BOY SCOUTS 45<sup>th</sup> ANNIVERSARY

## SALUTING THE BOY SCOUTS!

We consider it more than an ordinary pleasure to extend a sincere salute to the Boy Scouts of America!

"Be Prepared" is the motto that inspired thousands of young American Boys in their Boy Scout work. And, they are preparing for a worthwhile future as outstanding American Men.

We cannot estimate the greatness of the work of this fine organization, but we can pause and pay tribute to them as they celebrate and observe the 45th Anniversary of their founding.

And, our sincere thanks to those business and professional men who so willingly devote much of their time and efforts to this fine organization. Please keep up this good work!

## Control Means Many Things

SENATE JOINT Resolution No. 2 introduced in the state senate by Senators T. E. Lusk, John P. Cusack and R. S. Palmer would call for the addition of another amendment to the constitution and would provide for one state regulatory board instead of the two we have today.

At the present time, we have a three member state Corporation Commission with the members elected. We have a three-member public service commission to which the members are appointed by the governor.

The state corporation commission has to do with a good many things but does not regulate the power and light companies and their rates or the gas companies and their rates. These come under the public service commission.

It has been proposed for some years now that the two bodies be consolidated, be composed of five members to be elected. Others want the members appointed.

Whether this would accomplish the results wanted remains to be seen.

However, under this Senate Joint Resolution No. 2 there probably is one thing the citizens do not want. Among other things this resolution calls for the legislature to define, regulate and control all public utilities.

We are sure that the people of the state want these public utilities, their services and their rates regulated but we are not sure they want them controlled. Controlled means that the governing bodies would have actual control over the companies. It means they would control the things they do and how they do them.

We cannot see just how we could do that or we are not convinced we want to do that. As we pointed out we are sure we do want these utility companies regulated but we do not believe we want them controlled and yet this resolution if it were approved by the legislature, approved by the governor and the voters would do just that.

The time to either eliminate that word "control" or to definitely define it so that its true meaning can be determined is now before the legislation is passed by the house and senate.

We are confident there will be plenty of opposition voiced to this resolution as it is now worded but sometimes these things slip through when in reality even the legislature isn't in favor of them.

## Cinemascope Artesia Specialists Gain Rank in NIBL Statistics

A look at the NIBL standings of teams and players shows that the CVE Travelers have a lot of teamwork and specially men on one team.

In fourth position for leading scorers by average is Don Heathington with a total of 290 points or an average of 16.1 points per game in NIBL play. In total games 29, Heathington has 472 points to his credit. So far the Travelers have played 18 NIBL games, including the Allen-Bradley game Wednesday night.

Billy Sharp is in 10th position of scoring leaders in NIBL play with 217 points to his credit and a 12 point average per game. Next is Gary Shivers in 12th position with a total of 183 points and 10.1 points per game.

In field goal leaders, Gus Lovett is hold the 5th position with 14 field goals and an average of .44 per cent. He is the only leader in the Artesia club.

Don Heathington grabs another top spot in free throw leaders with 158 completed and an average of .81 per cent, placing him 6th with other NIBL players.

Gary Shivers is leading in rebounds, having taken the ball 133 with 19 assists to his credit to take 6th place in the league standings.

Heathington once again finds a rank among the top in personal fouls with 60 to his credit or a 3.7 average.

The American continent will be divided into two parts of Act III of the musical, part depicting music from North America, and the second, music from South America. Featured will be Alvin Baca singing two popular numbers and Gretchen Thorp and Brent Booker—giving an interpretive dance of South America.

One dance group includes South American dancers, Gannelle Brown, Nancy Booker, Kathleen Clowe, Betty Lou Fairry, Sharon Mermis and Gayla Morgan, in spectacular costumes.

To conclude the final act, the audience will have an opportunity to witness the most glamorous "bunny rabbits" ever to appear before the Artesia group, Bradbury promises. The bunnies are Kay Ingram, Annette Connor, Jean Simmons, Betty Burch and Jeanette Blackburn.

The finale will be the presentation of the Valentine Princess and her court.

## Little Leading Second Round in Phoenix Open

PHOENIX, Ariz. — Youthful Gene Littler, who came out of the Navy a year ago to become a pro golfing leader, calmly leads a crowded field into the second round of the \$15,000 Phoenix Open today.

Littler, 24, reached the 18th green yesterday needing an eight foot putt for a birdie to finish with a 66 and take the lead from three other professionals. With the coolness of a seasoned veteran, who plays out of Palm Springs, Calif., sank it to finish 4 under par.

That left him a stroke ahead of Walter Burkemo, former PGA champion from Franklin, Mich.; Johnny Palmer, veteran from Charlotte, N. C.; and Jack Fleck, Davenport, Iowa.

All had finished earlier, with 67s over the 6,684-yard Arizona Country club course.

At 68 was Jimmy Clark, Laguna Beach, Calif., and 10 were bunched at 69. Included was Cary Middlecoff, Kiamesha Lake, N. Y., who lost in a playoff to Ed Furgol here last year. Furgol, the U. S. Open champion, had a 70 for his first round.

A chilly breeze bothered the golfers throughout the day despite the bright sunshine.

## Loco Hills

By Mrs. O. C. Rogers  
Loco Hills Sewing club met at the home of Mrs. Ira Pleasant Friday afternoon. Sewing and visiting was enjoyed. Cookies and Cakes were served to Mrs. C. A. Briscoe, Mrs. George Miller, Mrs. James Thacker, Mrs. Joe Haney, Mrs. Earl Brown, Mrs. Doyle Pennington and Mrs. F. A. Blum.

Cub Scouts held their first meeting Friday afternoon. Mrs. Garel Westall and Mrs. Frank Collins are the den mothers. Children present were Jackie and James Swan, Richard Harvey, Roy and Bobby Collins, Dennis Nevins, Roger Melton and Sherwood Shook. A number of boys were absent due to the chicken pox in the community. Each Friday the packs will meet.

A new family has moved into the Texas New Mexico camp from Crane, Tex. Mr. and Mrs. Guy Schultz and son, Guy Bob. He is a mechanic.

Mr. and Mrs. Harry Gilmore of Artesia spent Saturday night with Mr. and Mrs. Carl Jones of the Texas New Mexico camp.

Howard Znyder and Gordon Leonard of Bradford, Penn., spent last week end visiting with Mr. and Mrs. Forest Blum. Znyder is a cousin of Blum.

Mr. and Mrs. Carl Rothrock, Tatum, spent Sunday visiting friends in Loco Hills. They were former residents, and were dinner guests of Bill Fescenmeyer.

Mrs. Truett Loyd and son, Ronnie of Artesia, spent Saturday night visiting with Mr. and Mrs. Pete Williams.

Mrs. Pat Ranspot entertained members of the Adult Women's Sunday school class of the Baptist church at a luncheon Thursday of last week. Those present were Mrs. James Thacker, Mrs. Raymond Jones, Mrs. Earl Bean, Mrs. O. C. Rogers, and Mrs. Ranspot.

part of any of the lists.

The lawmakers had the bad news in front of them today on just much money they're being asked to dig up for the next two years.

Total demands on the general fund by departments and agencies, counting the colleges, come to 16.3 million dollars next year compared with estimated revenue of about 15.3 million. The general fund spending came to about 12½ million this fiscal year.

## THE NEW ADMINISTRATION

—only in office one month—made no recommendations for budget cuts, but Budget Director C. R. Sebastian wrote:

"It is obvious that the requests are to be reduced by three million dollars in order to balance the proposed expenditures with the anticipated revenues of the state general fund.

"It is the opinion of your state budget director that a reduction of the requests should be effected in order for expenditures to conform with the revenues available

workers are the highest of any industry in the United States, which, he said, means "the highest wages in the world."

Quoting department of labor statistics, Davis said that as of last September, the Carlsbad potash miners were earning \$2,717 hourly, or \$110.98 weekly.

The average weekly earnings of workers in several other industry classifications were listed by Davis as follows:

All metal mining, \$84.23; non-metallic mining and quarrying, \$79.21; anthracite mining, \$56.68; bituminous coal mining, \$79.36; petroleum and gas production, \$93.10; all manufacturing, \$71.86.

The Carlsbad companies represented at the initial hearing were the United States Potash Co., Potash Co. of America, International Minerals & Chemical Corp., Duval Sulphur & Potash Co., and Southwest Potash Corp.

Together, they mine 90 percent of the potash produced in this country.

## MEMBERS OF THE New Mexico delegation in Congress are taking an active interest in federal-aid-for-schools legislation.

Both Sen. Anderson and Rep. Fernandez have introduced bills to authorize up to 500 million dollars a year in the next two years for such purposes, and Anderson has testified before the Senate labor and education committee in support of the legislation.

Anderson said property values in New Mexico are not sufficient to warrant a state building fund such as is available in some of the wealthy states, and continued:

"We must start somewhere to provide suitable and adequate buildings and facilities for the children of our schools. I do not believe we can delay any longer, or we will be so far behind we will never be able to catch up. The important thing is that we do something quickly."

## REP. DEMPSEY was host Jan. 31 at a luncheon for Seaborn Collins, national commander of the American Legion, at the Capitol.

Invited to meet Collins were Speaker Rayburn, Anderson, former speaker Martin (R-Mass) and Reps. McCormack (D-Mass) Short (R-Mo), Albert (D-Okla), Vinson (D-Ga), Kilday (D-Tex), Rogers (R-Mass), Thomas (D-Tex), Cooper (D-Tenn), Davis (R-Wis), Brooks (D-La), Van Zandt (R-Pa), Mahon (D-Tex), and Fernandez.

Tucson Stealing Thunder for U.S. Squaw Dresses

By DOROTHY ROE Associated Press Women's Editor

TUCSON, Ariz.—Everybody who goes to Arizona for a vacation comes back with a squaw dress.

And if they made a stop at Tucson, chances are it was made by Bill and Zib Macey, a couple of former New Yorkers who came to the land of the purple sage for a two-weeks vacation seven years ago and have been here ever since.

This authentic garb of the Indian squaws has been glamorized considerably by clever Western designers, but it retains its basic flavor and charm, its brilliant colors and the yards and yards of bright cotton that go into its tremendous skirt.

Zib Macey may have started the current rage for the squaw dresses when she ran one up on the sewing machine and wore it to a New Year's Eve dance in Tucson shortly after their arrival in 1948.

Says this smiling, tanned, attractive wife: "Before the evening was over a dozen friends wanted to know where they could buy a dress like it, and we were in business."

Bill, who now looks like a born-and-bred Westerner, but who used to be a merchandise manager for Macy's in New York, bought a small factory famous for its cowboy shirts. Up to the advent of the Maceys the Arizona Ethri Co. had done a limited but specialized business in supplying the cowboys with those form-fitting fancy shirts they wear in rodeo riding. Being a man trained in merchandising, he sensed the possibilities of authentic Western wear for women—and the squaw dress was the answer. Today the dress business far overshadows the company's shirt production.

The Maceys conduct their business together in a bright, informal showroom on Tucson's main strip, drive home in the evenings to their nearby ranch, where the neighbors like to gather for steak fries and singing sessions under the Arizona moon.

They love the way of life they discovered on that memorable vacation. Says Bill: "When I think of the New York subways I take another big gulp of Arizona air and thank my lucky star."

That critical hour when every woman and every man must have counsel will surely come. How important then to have made a path to the Church and to your pastor. *Our ministers are serious and their counsel good.* They are as near as your telephone. The minister knows how to help women and men know themselves. *But better still, he knows the way of access to God.* There is no comfort like that which comes from Heaven. Why not visit your church and let your pastor show you the way, in the light and will and gracious assistance of God. Heaven is not far away for the seeking soul. Jesus said, "Seek and ye shall find, knock and it shall be opened unto you."
