Dulles' Middle East Proposal | Drive to Curb Unnecessary Spending Getting Underway

Special to Central Press

WASHINGTON—Secretary of State John Foster Dulles left himself wide open for Democratic criticism for not having acted sooner than he did to help bring a permanent end to the Middle East conflict.

State department sources readily admit that Dulles advanced his proposals to stop the on-again-off-again Israeli-Arab clashes sooner than originally planned.

They say it was the secretary's intention to announce the United States proposals before the United Nations General Assembly, which opens in New York the week of Sept. 18.

But, when intelligence and diplomatic reports warned of the "imminent danger" of a full-scale war, Dulles decided he must act without further delay.

The proposals he made in a New York speech on Aug. 23, reportedly with President Eisenhower's approval, include an international guarantee to maintain present borders between Israel and her Arab neighbors, and an international loan to help Israel compensate 900,000 Arab refugees who left their homes when Israel became a state in 1948.

Had the United States acted sooner, say some observers, much bloodshed might have been averted. Both Israel and the Arab states have long urged the United States to take some measures to help end the border fighting, but the State department held that it was a matter for the United Nations to settle.

FEDERAL SPENDING CURB—A campaign is underway in government agencies to curb all unnecessary federal spending. The object is to help balance the budget.

The recently announced midyear review of the budget showed an upward spending trend and the order is now out to "hold the line—all the way."

There's talk in congressional circles, meanwhile, that it may be possible to cut taxes in advance of next year's elections. However, Rep. Daniel A. Reed (R), New York, ranking minority member of the tax-writing House ways and means committee, cautions that such thinking may be premature.

Reed wants military spending trimmed first. Senator Harry F. Byrd (D), Virginia, chairman of the Senate finance committee, is also against any "foolhardy" or premature action.

The government economy drive is described by Treasury Secretary George M. Humphrey as a series of "old-fashioned revival meetings." Budget Director Rowland R. Hughes is simply urging all agencies to get "more economy conscious."

DEMOCRATIC PUSH—The attack by Democratic National Chairman Paul Butler on Interior Secretary Douglas McKay bears out INSIDE WASHINGTON predictions. Butler hit out at McKay for alleged "strike-breaking" activities in the McKay family-run automobile agency in Salem, Ore.

McKay is a key Democratic target for criticism because he dropped federal opposition to private development of Hells Canyon dam in Idaho.

Further blasts against McKay can be expected. Democrats contend the Eisenhower administration is too closely allied with special business interests. They'll carry the public versus private power controversy into the 56 campaign.

AMERICAN TV BOOM—U. S. television manufacturers have turned out more than 40 million sets in the last 10 years compared with less than nine million sets produced elsewhere in the world.

During the decade, Americans paid more than \$15 billion for both sets and repairs, or nearly \$100 for every man, woman, and child in the nation.

The public's investment in TV receivers is estimated from an average retail price of \$270 per set over the 10-year period.

The Big Thirst—II

Most Heated Arguments in Nation Today Is Water Rights Fight Between States and Communities

By ROGER D. GREENE

WASHINGTON, Sept. 27 (AP)—America today is locked in a gigantic seesaw battle over one of nature's most abundant resources—water.

With the huge increase in population and the postwar industrial boom, the resulting scarcity of

water in many sections of the country finds farmer pitted against farmer for irrigation water, city against city and state against state for domestic supplies of all, struggling to find enough water to survive.

"Competition is keen and in some areas critical," a Hoover Commission task force told Congress in a midsummer report.

"We have reached a point where water stringencies are becoming more frequent and more numerous. The increasing demand for water supplies, together with increasing pollution of streams, is beginning to cause major concern even in humid areas."

The long-range outlook is far from bright. It is said 145 billion gallons will be needed daily—equivalent to the flow of about 11 Colorado Rivers.

Even the supply we have today is put to hard usage. The water we drink and use for cooking is often "reclaimed" water—filtered and chemically purified—that has run through sewers.

In the upper Ohio watershed, during periods of low river flow, one quart of every gallon of water has been gushed through a sewer," says the Hoover Commission task force.

In Ohio's Mahoning River, along a 25-mile stretch near Youngstown, so many steel mills and other industrial plants use and reuse the river water that at times it has become too hot (as much as 130 degrees) to be employed for cooling purposes.

Every gallon of the Mahoning's average flow of 500 million gallons daily is drawn into use 3 to 15 times.

For the first time, U. S. industry now uses more water than farm irrigation, and shortages in some sections of the industrial East have caused factories to look elsewhere for better supplies.

It requires 65,000 gallons of water to produce a ton of steel, 320,000 gallons for a ton of aluminum, 600,000 gallons for a ton of synthetic rubber, and 15,000 to make a new automobile. The water is used mostly for cooling.

Scores of far-seeing communities already are expanding their water supplies by building costly pipelines, dams, reservoirs and farm ponds, and are probing deeper into the earth than ever before.

Ohio is drilling 2,000 wells a month. Saltwater has just completed a new reservoir holding 23 billion gallons of water. Dallas will foot the bill itself for a dam-reservoir costing 20 million dollars.

Texas are talking of importing water from the Mississippi River. And some dreamy-eyed Californians have suggested towing icebergs up from the antarctic to bolster California's dwindling water supplies.

Southern California, the nation's fastest growing region, expects to reach a population of 10 million by 1975, but experts say its present water supply will support only 8,100,000.

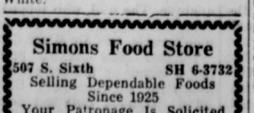

And in Colorado there's a bitter fight over water between east and west. The western slope country around Grand Junction, booming uranium capital, is battling to prevent Denver from tapping the Colorado River basin via a tunnel through the Rockies.

What is the government doing to alleviate the situation? The story of the Federal Reclamation Bureau's multibillion-dollar water projects is too long to be recounted here in detail.

But since 1824, when the government first entered the reclamation picture, the U. S. Treasury has spent more than 14 1/4 billion dollars on water projects. In addition, Congress has authorized projects totaling 18 1/2 billions. Other projects, proposed but not yet authorized, would bring the grand total to more than 84 billion.

At present the government is spending around three quarters of a billion dollars a year to develop

water resources such as flood control, irrigation, navigation and hydroelectric power. Major projects include:

World's four biggest and highest concrete dams—Hoover Dam in Arizona-Nevada (726 feet); Shasta Dam in California (602 feet); Hungry Horse Dam in Montana (564 feet); and Grand Coulee Dam in Washington (550 feet).

World's largest pumping plant—Grand Coulee, 511 million gallons per hour.

World's longest irrigation tunnel—The 13-mile Alva B. Adams Bore in Colorado, which carries water from mountain lakes on the western slope of the Rockies to irrigate farms on the eastern slope.

World's largest irrigation project—Missouri River Basin, over six million acres.

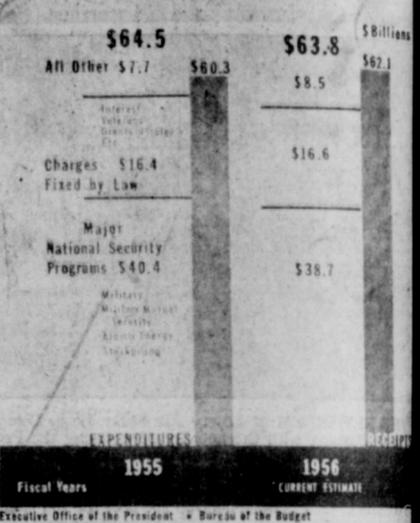

Loud outcries have gone up in the East against funneling much money for reclamation of the 17 Western states. There also been bitter complaints against boondoggling "waste" and duplication by prestige-hungry federal agencies. No less than 25 U. S. agencies have a thumb on the water conservation line.

But the Federal Reclamation Bureau says once arid West lands have flourished to such extent under irrigation that they have paid more than four billion dollars in U. S. income taxes since 1916.

With the magic touch of the bureau says, these reclamation now produce crops worth more than 800 million dollars a year—some 25,700,000 tons of prime fruit, vegetables, meat, products, etc.

Believing Old Adage Women Can't Play Poker Is Sure Way to Lose

By HAL BOYLE
New York (AP)—It has been an old secret for some time that women can play poker well. At the one thing about women that most men feel sure about is that they can't play poker well. This hardy superstition is perpetuated in a new book called "Poker's Choice," a collection of women's poker stories by Jerry D. ... a former New York newspaperman.

Dr. Hans Huth, curator of research at the Chicago Art Institute, has not seen the painting but has expressed doubt that it is really the work of Leonardo da Vinci, famed for his Mona Lisa. The painting, now kept in a vault, was identified as a Da Vinci by Dr. Maurice H. Goldblatt, director of the art galleries at the University of Notre Dame. Teichert, who specializes in church and theater interiors, bought the painting in a New York antique shop a year ago for \$450. He said he had a \$500,000 offer for the painting before it was attributed to Da Vinci. "I will never sell it," Teichert said. "I am collected and I am not in the business of selling paintings. I have other paintings that I could sell at a profit, but what would I do with the money?"

Buyers to Find Prices Down on Meat Cuts

By THE ASSOCIATED PRESS
Housewives will be pleased with what they find in the meat sections of the nation's food stores this weekend: prices on many cuts will be down from a week ago and there will be unusually good buys on a couple of items. The emphasis will be on pork. Wholesale prices on that meat went down quite a bit last week, and now the food store operators are passing these lower prices along to consumers.

Pork Loin Good
Loins of pork will be a particular favorite as a weekend special. They'll be down four cents a pound at some stores and even more in others. Pork chop prices are being cut nearly everywhere, with reductions averaging around four to five cents a pound from a week ago.

Other pork items mentioned as specials by a number of stores: pork chops, fresh hams and pork shoulder roast. Broiling and frying chickens are being prominently featured, and some markets will have unusually low prices. There'll also be specials on stewing chicken.

Prime Ribs Same
Prime rib prices will be about the same as a week ago, but sirloin steaks will be cheaper in a number of sections. Legs of lamb will be changed or a bit lower in price. There will be some good buys in lamb chops.

Egg prices will be up a couple of cents in some regions and down a bit in others. The same will be true of butter. Potatoes, onions, eggplant and peppers rate as the very best buys available. Produce men comment that the small and medium sizes of peppers offer the best value.

Lettuce On List
Lettuce—Iceberg, Big Boston and romaine—is back in the list of good buys. Others: Escarole, spinach, sweet potatoes, beans, beets and topped beets, cabbage and cauliflower. Corn is in lighter supply and good quality ears are somewhat higher. Cucumbers, squash and carrots are moderately priced.

Apples are an outstanding buy. Limes are cheap and pineapples are reasonable. Cantaloupe melons are about the same as a week ago while honeydews are a bit higher, with a wide range in price. Peaches are not too plentiful. Quite a bit of ripper stock is coming to market and can be picked up at reasonable prices for immediate consumption.

Fruit specialists rate oranges, grapefruit and lemons as moderately priced.

STATE FLEECE IN ROYAL
LAS CRUCES, (AP)—Several New Mexico wool growers are exhibiting fleeces at the American Royal livestock show in Kansas City next month. Included among exhibitors are T. J. Sutherland, Ruidoso; J. P. McKnight and the Fulmer and Slaughter ranches, Picher; the J. F. Sutherland estate, Roswell, and the A. D. Jones estate, Tatum.

Art Collector Will Donate Da Vinci To U.S. Museum

CHICAGO, (AP)—A Chicago interior decorator says he will not sell his newly discovered Da Vinci oil painting of Madonna and child, but adds that "sooner or later I will donate it to an American museum. I will keep it and enjoy it awhile," said Hanns R. Teichert of his \$450 purchase now valued at more than one million dollars. Teichert said he had not decided what museum he would give the painting. Dr. Hans Huth, curator of research at the Chicago Art Institute, has not seen the painting but has expressed doubt that it is really the work of Leonardo da Vinci, famed for his Mona Lisa. The painting, now kept in a vault, was identified as a Da Vinci by Dr. Maurice H. Goldblatt, director of the art galleries at the University of Notre Dame. Teichert, who specializes in church and theater interiors, bought the painting in a New York antique shop a year ago for \$450. American Cigaret Smoking Increases As Arguments Die

WASHINGTON, (AP)—The Agriculture Department has reported that Americans are smoking more cigarettes now than, in its view, the "main impact" of the cigarettes-health controversy apparently has passed. Reporting on "the tobacco situation," the department said Americans 15 years of age and over will smoke an average of nearly 10 pounds of tobacco in cigarettes during 1955. That would represent a 1.2 per cent increase over last year but fall 4.8 per cent shy of the 1953 figure—a record. Without elaborating, the report said: "The main impact of the publicity concerning cigarettes and health on cigarette consumption appears to have occurred during 1954." Medical authorities have made numerous studies, some of them with conflicting conclusions, on a possible relationship between cigarette smoking and lung cancer. The department said it expected cigarette smoking to continue on an upward trend next year. Over-all tobacco consumption, the department reported, has increased slightly this year but is 4 1/2 per cent below 1952 and 1953.

Improved Colorado Rams Take on Top Team in Skyline Associated Press Sports Writer Denver's Pioneers, given little chance at season's start to repeat, open defense of their Skyline Conference football championship in a Saturday night game at Fort Collins against the improved Colorado A&M Rams.

Despite early forecasts the Pioneers wouldn't do much because of the loss of last year's backfield.

The unbeaten Cowpokes will be heavy favorites Saturday to trounce the Utags, who lost 19-0 to Wichita at the Kansas town last Saturday.

Utah, 29-13 victory over Idaho at Boise last Saturday, continues its non-conference play with an inter-sectional contest at Columbia with Missouri of the Big Seven.

Brigham Young, a 33-0 winner over Los Angeles State at Provo Saturday, bows into conference play at Bozeman against Montana. New Mexico goes outside the conference play at Bozeman playing against Montana.

they've gained supporters with decisive victories over Iowa State, 19-7, and over Drake, 33-7, last Friday night.

The Aggies will offer a real test for Denver. Improved with the return of a half-dozen servicemen, the Rams sloshed through mud and rain Saturday at Fort Collins to beat New Mexico, 25-0. The Aggies were beaten previously by a good Arizona team, 20-7.

Wyoming's Cowpokes rallied in the second half to conquer Montana, 35-6, at Billings Saturday. Downtrodden Montana surprised all by battling the Cowpokes to a scoreless deadlock in the first half.

The unbeaten Cowpokes will be heavy favorites Saturday to trounce the Utags, who lost 19-0 to Wichita at the Kansas town last Saturday.

Utah, 29-13 victory over Idaho at Boise last Saturday, continues its non-conference play with an inter-sectional contest at Columbia with Missouri of the Big Seven.

Brigham Young, a 33-0 winner over Los Angeles State at Provo Saturday, bows into conference play at Bozeman against Montana. New Mexico goes outside the conference play at Bozeman playing against Montana.

they've gained supporters with decisive victories over Iowa State, 19-7, and over Drake, 33-7, last Friday night.

The Aggies will offer a real test for Denver. Improved with the return of a half-dozen servicemen, the Rams sloshed through mud and rain Saturday at Fort Collins to beat New Mexico, 25-0. The Aggies were beaten previously by a good Arizona team, 20-7.

Wyoming's Cowpokes rallied in the second half to conquer Montana, 35-6, at Billings Saturday. Downtrodden Montana surprised all by battling the Cowpokes to a scoreless deadlock in the first half.

Brooks Face Dreary Prospect Today After Initial Shellacking

Yanks Favored Again Despite Mantle Loss

By JOE REICHLER

NEW YORK, (AP)—Dreary indeed was the Brooklyn outlook today as the Dodgers, striving to win their first world championship, again came to grips with their nemesis New York Yankees in the second game of the 1955 World Series.

Downed in yesterday's opener by a left-hander, the kind they've blasted all over the National League during the regular season, the Dodgers faced the same south-paw dose today. Yankee Manager Casey Stengel, encouraged by lefty Whitey Ford's victory despite an admittedly mediocre pitching performance, came right back with Tommy Byrne 16-5.

Manager Walter Alston of the Dodgers was shaken somewhat by the Yankees' savage home-run barrage that blasted his ace righthander Don Newcombe off the hill and powered them to a 6-5 victory. But he decided to entrust Billy Loes 10-4, another right-hander, with the "get even" assignment. Fair and sunny weather was predicted.

With one game in the bag, the odds went up on the Yankees to make it six straight series victories over the Dodgers. The American League champions are now 9-5 to take all the marbles and 6-5 to take today's game despite the continued absence of Mickey Mantle from the starting lineup.

The ailing center fielder, still unable to run hard on his torn right thigh, reported after a light workout before yesterday's game that he didn't think he'd play at all in the series.

Yesterday's 63,869 cash customers saw a whole of a game.

Five home runs were blasted by both sides, one short of the record for one game. Three of them were hit by the Yankees, two by first baseman Joe Collins and one by left fielder Elston Howard. They drove in all but one of the Yankee runs.

Newcombe, Brooklyn's pride and only 20-game winner, was the victim of all New York's homers and runs and all but one of their nine hits before finally shuffling off the mound in the sixth inning.

Ford was the winner, but he was no ball of fire either. The compact little 18-game winner was tagged for nine of Brooklyn's 10 safeties, including home runs by Carl Furillo and Duke Snider. He also issued four passes but was good enough when he had to be except in the eighth inning when the Dodgers struck back for two runs to cut the Yankees' lead to one run.

The last Brooklyn run was an electrifying steal of home by Jackie Robinson that ignited the only real argument of the afternoon. Yankee catcher Yogi Berra argued Plate Umpire Bill Summers' decision, insisting he had tagged Robinson but the American League umpire stood firm.

The turning point of the game came in the fourth inning. With two on and one out, Yankee Billy Martin made a dazzling stop of Pee Wee Reese's wicked smash to his left and turned it into a double play.

Ford, who now has a 2-1 series record, retired the side in order in the seventh and eighth but after weathering a storm in the eighth, was removed by Stengel.

Bob Grim sealed the victory with a scoreless ninth.

Ruidoso Dominates Class C Gridiron

By THE ASSOCIATED PRESS

Ruidoso's Warriors, swaggering through the ranks of New Mexico's Class C high school football teams, slam into Capitán this week at the top of the little school's schedule.

The Warriors, sporting a spotless record, are heavy favorites to take it and move out in solid control of the Dist. 3C standings. In three games so far, Ruidoso has run up 108 points to their opponents' 0, naturally, they are unbeaten and untied.

Last week's victory was a 27-0 decision over Carrizozo, a team that has beaten Capitán 6-0. But even if Ruidoso should get through that one, they'll still have a big stumbling block in the way.

Rigney Gets Set For Move to NY

MINNEAPOLIS, (AP)—Lean Bill Rigney turned over his glossy credentials to the New York Giants today, a Little World Series championship that climaxed one of the finest managerial jobs of the season.

Named to succeed Leo Durocher as the Giant skipper just five days ago, the 37-year-old Californian last night brought Minneapolis its first junior series title in history in a 9-4 victory over Rochester of the International League. The game was the deciding seventh of the series.

Nobody Qualifies At Fair Rodeo

ALBUQUERQUE, (AP)—The riders had a rough night of it last night in the State Fair rodeo.

There were no qualifiers in the bareback riding, and only two men were able to last the eight seconds on the Brahma bulls.

Billy Wilton of Fort Sumner was the only New Mexico entrant to win day money. He placed second in calf roping with a time of 15.9.

Turning Point In Game Was Double Play

By TED SMITS

NEW YORK, (AP)—What was the decisive factor in the first game of the 1955 World Series: the three Yankee home runs? The pitching of Whitey Ford and the relief work of Bob Grim?

It was none of these, in the opinion of Carl Furillo of the beaten Brooklyn Dodgers. A great many baseball men such as Manager Casey Stengel of the Yankees agreed with him.

"The turning point was that double play that Billy Martin started in the fourth inning," said Furillo. "It looked as if we had Ford on the run and then boom—"

The score was tied at 3-3 and home runs by Furillo and Duke Snider as well as a booming triple by Jackie Robinson had perhaps unsteadied Ford a bit. Then in the fourth Don Zimmer drew a base on balls. Don Newcombe forced him, but Junior Gilliam worked Ford for another walk and the Yankee dugout began to stir.

Up came the always dangerous Pee Wee Reese. He cracked a sharp grounder deep to Martin, and the peppery Yankee second baseman made a clean stop and a fast throw to Phil Rizzuto. Despite Gilliam's hard slide into second, Rizzuto's leg reached first ahead of Reese.

The Yankees went on to win 6-5 and gain a jump that has proved vital in the series nearly two times out of three. The team that won the opener has won the series 32 times and lost it 19.

To baseball men this sparkling double play at the precise moment it was needed was all important. It overshadowed the five home runs and Jackie Robinson's spectacular steal of home in the eighth.

Highland Cowboys Hoping for First Upset Over Okies

By THE ASSOCIATED PRESS

The Highlands Cowboys, fresh from one upset and looking for another, take the spotlight in New Mexico conference games this week end.

The Las Vegas, N. M. team will travel to Goodwell, Okla., to meet the defending conference champion Panhandle Aggies in the top game on the slate for the little conference.

Highlands last week turned up with a surprising 19-12 upset of New Mexico A&M, showing power and promise that makes things look a little rough for conference opponents.

Panhandle last week got a surprise, too. The Aggies, opening conference play at New Mexico Military Institute in Roswell, saw a 14-3 lead fade away when the Cadets bashed through for three touchdowns in the last five minutes to take a 24-14 decision.

New Mexico Western and Adams State of Alamosa, Colo., will tangle in a conference match in Alamosa. Both are looking for improvement on records that are only so-so at this stage of the game.

In the only other game for the league, Arizona State of Flagstaff will travel to California to meet Whittier College. NMMI is idle.
