## COLORADO RIVER BILL READIED

### \$760,000,000 PROJECT BILL TO GO TO HOUSE

WASHINGTON, (AP) — A \$760 million Upper Colorado Project bill is ready for final congressional action, which may come next week.

House and Senate conferees who agreed upon the final draft of the bill yesterday said it will go first to the House for ratification. The House is in recess today and will meet next on Monday.

Chairman Engle (D-Calif.) of the House Interior Committee told reporters he was not sure on what day the conference committee's report will be presented to the House.

The chairman of the conference committee, which was set up to work out the separate Upper Colorado bills passed by the Senate and House, came after the report was filed Thursday.

The conference committee chairman, a 147-page bill, provides for the construction of 760 million dollars worth of power dams, reservoirs and irrigation units in Arizona, Colorado, New Mexico, Utah and Wyoming.

The conferees trimmed \$50 million from the bill, which would cost more than one billion dollars, in so doing they followed House action and threw out of the bill provisions for the construction of Echo Park Dam in Dinosaur National Monument in northwest Colorado.

Echo Park had drawn the ire of conservationist groups who claimed that its construction would be tantamount to an invasion of the national park system for commercial purposes.

The compromise measure would authorize these main units: Glen Canyon Dam, on the Colorado River in northern Arizona, to cost \$421,270,000; Flaming Gorge Dam, (Continued on Page Four)

Plane Wreckage Found; Occupants Apparently Die

SILVERTON, Tex. (AP) — The wreckage of an airplane, believed to be on a flight from S. 514 to be the light military plane miss Clovis, N. M., was found near here this morning.

Five persons were aboard the plane, which was last seen Wednesday flying over Childress, Tex.

The burned and scattered wreckage of an airplane were found 15 miles east and 2 miles north of Silverton. There were no signs of survivors.

### Gen. M. J. Maas Congratulates Local DAV Unit

Maj. Gen. Melvin J. Maas (Ret.), national commander of the Disabled American Veterans, and chairman of the President's Committee on Employment of the Physically Handicapped, today sent congratulations to the Artesia Chapter No. 19 for surpassing last year's membership. As of March 1 the chapter had a total 83 members.

Gen. Maas, in a message sent from National DAV Headquarters in Cincinnati, said the achievement of the local Chapter has brought national recognition to the unit for its fine work in bringing together disabled veterans.

"Please accept the congratulations of your National Headquarters on this membership achievement," Gen. Maas said. "Every eligible veteran in your area should join with you in protecting disabled veterans' rights as well as their future job security. The stronger the DAV is an organization, the less individual disabled veterans will have to worry about employment.

"It is our hope that no member of the DAV ever is without a job. Through strength of numbers, we can make this possible now and in the future."

Generally speaking, American veterans who have been wounded, gassed, injured or disabled while serving in the armed forces of the United States in America's wars, are eligible for membership. This DAV eligibility includes, in addition to World War I disabled veterans, those who have served in the armed forces at any time between December 7, 1941, and the conclusion of the Korean campaign.

### Chamber Speaker Urges Industry Development

Berl Huffman, managing director of the New Mexico Economic Development Commission, last night told 225 members and guests of the Artesia Chamber of Commerce at an annual Chamber banquet here, that rather than try to attract big industry from somewhere else, "We have to create—we have to look around us to see what we can develop in our own state."

Huffman said that 83 per cent of industry in the United States is located today right where it started out. "You don't just write a letter and move a \$100-million industry from one part of the country to another overnight," he said. "You will speak of the industrialization of the South," Huffman said, "but 75 per cent of the industry in the South today was developed from research carried out there to apply their own natural resources."

"We have to try to eliminate the extractive economy of New Mexico," he said. "The EDC director said that it is the ingenuity and ambition of the people that determine how a state develops. The people of New Mexico will have to believe in their state. They will have to develop a state pride, he said, and they will have to work together to build it."

He said that he doubts that any state in the U. S. surpasses New Mexico in mineral resources, only now beginning to be tapped. Huffman urged less criticism of leaders and more support. "We have to think bold if we are to progress, and we are bound to be criticized for it," he said. "To be criticized for it," he said, "to be in America today," he said, "I urge more people to accept the responsibility of leadership."

Huffman reminded those who scoff that they don't need the help of the Chamber of Commerce, that

called for a more firm policy toward these men.

In a conversation with an Advocate reporter, Huffman said that he is very pleased with the progress the EDC has made. "I hope that soon we shall have something good to report," he said. "We are working on a good many things."

### Thompson Appeal Set In Dismissal

SANTA FE, (AP)—Asst. Game Director Fred Thompson has hired an attorney to appeal his dismissal by Director Homer Pickens.

Thompson retained Frank Zinn, Santa Fe lawyer, to appeal to the State Game Commission after a letter officially firing Thompson was received by him Thursday.

The dismissal was effective on March 29. Zinn said Thompson will leave his desk that day. Previously, Pickens had requested Thompson to resign, but Zinn said he advised Thompson not to do so since such action would automatically prevent an appeal.

Zinn said it was ridiculous for Pickens to "dismiss an 18-year veteran of the department on such nebulous grounds." In Pickens' letter asking for Thompson's resignation Pickens said his reason was because of Thompson's "disloyalty and insubordinate activities."

The next regular meeting of the Game Commission is scheduled for April 2. The appeal may not be heard at the meeting, however.

By coincidence, on April 2 the state board of examiners for professional engineers has a hearing scheduled for Santa Fe engineer R. E. De Bolt. De Bolt was the engineer, later dismissed, on the Game Department's Clayton Dam project. Richard Allgood, a department engineer who resigned because of asserted failure of Pickens to support him in that fight, charged that De Bolt violated engineering ethics by accepting fees from both the Game Department and the contractor on the job. De Bolt denied any unethical practices.

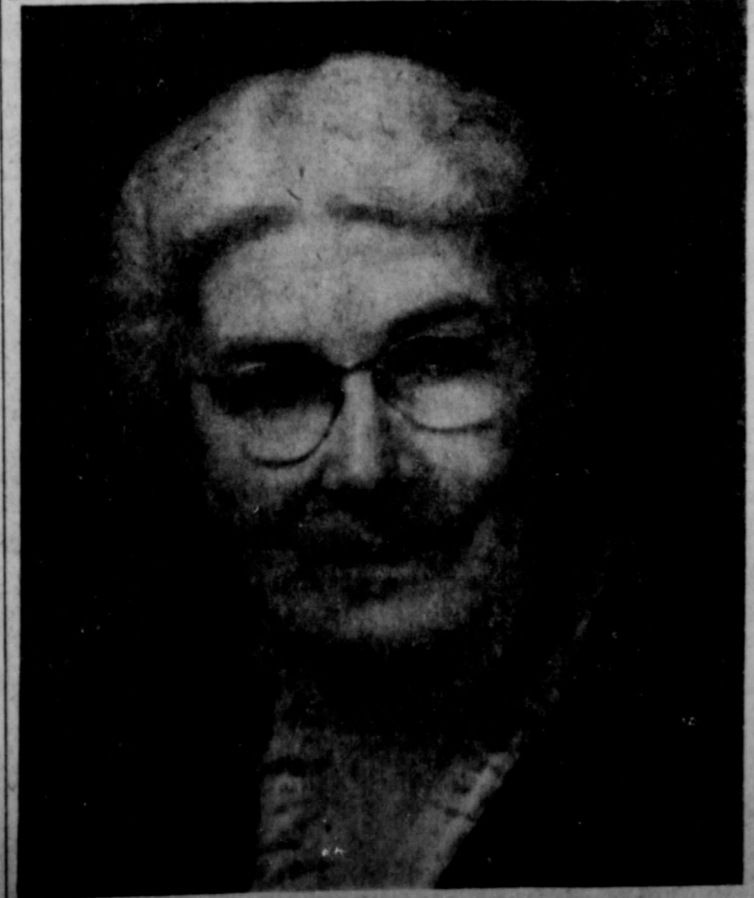

Pickens and Thompson reportedly have been at odds for some time but the climax to the two men's ill feeling reportedly came after the Clayton Dam controversy broke last year.

Richard A. Allgood, an engineer who resigned from state service while the Clayton Dam controversy went on, jumped into the fust again in a letter he wrote from his Las Cruces home to C. M. Botts, chairman of the Game Commission. He wrote, in part:

# HAGERMAN NEWS

Notice has been received in Hagerman that the District Health Office will set up temporary facilities probably at the Baptist Church or Presbyterian Church, and that Doctors J. P. Vouite and O. E. Pucket will administer polio vaccine to indigent children, six months to 19 years of age. Complete arrangements for facilities have not yet been made but the date will be March 20, beginning at 9 a. m.

A group of Hagerman children who received their first and second injection from seven to ten months ago will have an opportunity to receive an additional injection at this time.

The District Health Office urges parents to take their children to their family doctor for the polio vaccine.

To receive the greatest benefit from the vaccine the first two injections should be given approximately two weeks apart and the third one from seven to ten months later, according to the District Health Office.

Children whose parents have authorized this polio vaccine will be excused from school to go to the temporary site of the District Health Office in Hagerman March 20.

### Par-Busting Field Enters Second Round At St. Petersburg Tourney

ST. PETERSBURG, Fla. (AP)—A tightly bunched field of par-busters, with Lionel Hebert nursing a lead of one lone stroke, swung into the second round of the St. Petersburg Open Tournament today.

And from the way this classy collection of swingers manhandled the Lakewood Country Club course yesterday, par golf or better will be required to qualify for the final 36 holes and a shot at the \$12,500 prize money.

Fifty-three pros and one amateur bettered the par of 36-36-72 over the 6,489-yard course in the opening round. Another 21 matched par. The field will be cut to the low 60 pros and 10 amateurs, plus ties, for the final two rounds.

Hebert under the sandy layout in 31-34-65, seven under par. The short, husky French-Canadian from Erie, Pa., was one of the early starters and he lost his brilliant score with more than 100 rivals still on the course.

Until late in the day, when Frank Stranahan and Art Wall Jr.

came cruising in with 68s, it appeared no one was coming closer to Hebert. Stranahan, former British Amateur champion from Toledo, and Wall, a pro from Pocono Manor, Pa., had 4-under-par 32s on the back nine.

Hans Merrill, Mogadore, Ohio, and Don Fairfield, Casey, Ill., winner of last week's Pensacola Open, fired identical 33-34-67s to tie for fourth.

Nine others were within three strokes of first place with 68s. These included Hebert's brother Jay, who registers from Sanford, Fla.; Ted Kroll, Fort Lauderdale, Fla.; and National Open champion Jack Fleck, Davenport, Iowa.

### Nashville Team Hopes To Stop Wayland Women

ST. JOSEPH, Mo. (AP)—Wayland College of Plainview, Tex., hasn't been stopped in 74 consecutive basketball games but unseeded Nashville (Tenn.) Business College has high hopes of scoring its third straight upset to grab the Women's National AAU title tonight.

The Wayland Flying Queens had little trouble in beating fourth-seeded Iowa Wesleyan of Mount Pleasant, Iowa, 55-31 in the semifinals last night.

Nashville knocked off second-seeded Omaha Commercial Extension 34-26.

If Wayland continues its victory skem through tonight it will become the second team in the 28-year history of the tournament to have won the title three straight years. Tulsa (Okla.) Business College topped the trick in 1934-35-36.

### Texas Southern Favorite Team Of NIT Players

KANSAS CITY, Mo. (AP)—Texas Southern, a Negro team, is in the semi-finals of the National Intercollegiate Basketball Tournament to the delight of the crowd. Texas Southern is the major attraction as the nation's small colleges decide their cake kings for the season.

Especially is loose-jointed, long-armed Bennie Swain something to watch. This prospect for the Harlem Globe Trotters does tricks with a basketball that even that famed expert, Goose Tatum, might watch with interest.

The Globe Trotters, noted touring Negro basketball team, already have taken one star from Texas Southern-Woodrow Salsbury.

Swain, a sophomore, is 6 feet 8 inches tall and his arms are so long they almost reach to his knees. His hamlike hands pretty well cover the basketball.

Swain passes and bats the ball around so cleverly it's difficult to keep up with it. He'll pass it back or between his legs, or just hold it above his head and dare somebody to get it. He does what might be termed a reverse hook shot. That is, he moves one way on the hook shot but swings around and hooks it from the other direction. He also is a tip-in artist. And he averages more than 20 rebounds per game, has gotten as high as 36 in a single game. He averages 23.2 points per game in scoring.

WASHINGTON (AP)—Federal officials say 1956 may bring the biggest grasshopper infestation in many years to much of the South.

Dr. M. R. Clarkson, deputy administrator for regulatory programs, gave this forecast in asking a House appropriations subcommittee for added funds to fight the pests.

### Rain Interferes With Playing In Golf Tourney

GULFPORT, Miss. (AP)—The rain-plagued \$5,000 Gulf Coast Invitational Golf Tournament opened today with a stepped-up schedule and the weatherman playing major roles.

Nearly one half of the 150 entries had started play when the mid-morning downpour swept across the Great Southern Country Club course yesterday. Tournament officials watched rain-laden skies for more than one hour before calling a halt and postponing opening play.

There was a possibility of more rain today.

Tournament Chairman Charles Stewart and other officials scheduled 18 holes for today's opening round and another 18 tomorrow. A field trimmed to the 60 low scorers will battle for the title in Sunday's arduous 36-hole schedule.

Slender Tommy Morrow of Shreveport, La., who won the tournament title in his first try in professional competition last year, escaped yesterday's soaking. He and pre-tournament favorites were scheduled to start late. Only six golfers managed to finish 18 holes, but the downpour washed out their scores.

### Dave Lucas Says This Year's Home Buying Market Is Best

Those hesitating to make a home purchase should understand that a series of realty developments have made this year's home buying market one of the best in recent years, Dave Lucas of the Artesia investment company, said Thursday.

"A large volume of new home construction, easier home financing terms, and a more thorough check system of home quality—all of these have combined to make homes more readily available and desirable at this time," said the board leader.

In his comment, coming in the final day of Realtor Week, the local Realtors' leader declared:

"Substantially more than 1 million homes have been constructed in each of the last seven years. A total of about 10 million homes have been constructed since World War II ended. This means that the home building and marketing industry has been catching up with demand for homes across the nation.

"At the same time, this means that we now have a 'buyer's market' where the more adequate supply of homes is quickly reflected in more favorable prices for buyers.

"Meanwhile, financing arrangements which pave the way to home buying have been adjusted in the past 10 years to make home ownership available to many who could not have considered this step before.

"Ever since the closing period of World War II, for instance, veterans of that war and the Korean

War have been receiving from the U. S. government guarantees of portions of their home mortgages. This privilege will remain available until July, 1957.

"The quantity ranges up to \$7,500 of the mortgage and requires that the veteran-borrower pay only 4 1/2 per cent interest to the private lender advancing the funds. Down payments of only 2 per cent are available, and amortization periods range up to 30 years. These terms and this financing system are extremely helpful to those prospective home buyers who are eligible.

"For others, a similar government mortgage plan is available which provides almost as attractive terms. This is mortgage insurance provided by the Federal Housing Administration. As little as 7 per cent is required as down payment on a house of \$9,000, and somewhat higher amounts for higher priced homes.

Interest payments in all cases are 4 1/2 per cent, with a 1/2 per cent yearly premium required. Amortization periods— the periods for repayments— range up to 30 years, too.

"Conventional loans have become attractive for buyers in recent years also. Recent banking legislation has lengthened the periods during which money can be lent by banks and, savings and loan institutions have consistently been fine sources of loans for existing homes.

"It should be noted, of course, that in recent months mortgage loan funds have tightened somewhat, and loans have not been as easily attained as they were early in 1955.

**Chief Of Bloods Indians Is Dead**  
COURT DROPS

CARDSTON, Alta. (AP)—Chief Shot Both Sides, one of the last links with the free-wheeling days of the old West, is dead.

The 82-year-old chief of the Bloods, main tribe of the Blackfoot confederacy, died Thursday in the Indian Hospital in this southwestern Alberta town.

A son of Crap Eared Wolf, Shot Both Sides grew up in an era when his people still roamed the prairies in search of buffalo and raided the enemy for horses and women. He was born four years before the Bloods, the Blackfeet and the Piegans signed a treaty with the white man in 1877 and 32 years before Alberta became a province.

Shot Both Sides' people now live on 353,000 acres in southwestern Alberta, Canada's largest reservation.

Office girls and early shoppers clustered round as Malenkov stepped from his car with a broad smile across his sallow, pudgy face.

The Russians themselves broke down the security curtain Scotland Yard threw around Malenkov on his arrival Thursday to prevent anti-Communist demonstrations against him. Before the sightseeing started, a Russian official called photographers into the embassy grounds in Kensington's "Millionaires' Row." Malenkov, wearing a lightweight grey overcoat, posed cheerfully for a 10-minute picture session.

Then the Russian press attache, normally an uncommunicative person, handed round signed pictures of all Malenkov's 14-man delegation so newsmen could recognize them easily.

### Former Soviet Premier Visits London Town

LONDON (AP)—Former Soviet Premier Georgi Malenkov, smiling and gay, joined Londoners' morning rush hour Friday for his first real look at the teeming British capital.

From the Soviet Embassy he was driven through jam-packed streets past Hyde Park and Marble Arch to Oxford Street, London's busiest shopping area. He even made a slight detour past the U.S. Embassy in Grosvenor Square.

Malenkov, now Soviet minister of power stations, ended up at the offices of the Central Electricity Authority. They are hosts for the three-week tour of British power installations by Malenkov and his party of Soviet power experts.

**Bundesrat Meets In Divided City**  
BERLIN (AP)—West Germany's Bundesrat Friday unanimously approved measures to build a German armed link in the Western defense alliance.

The session was the first held by the Bundesrat in divided Berlin. The members came here from Bonn for a "symbolic" one-day meeting. It was intended to underscore the hope for a reunited Germany with Berlin once more its capital, and to reassure West Berlin residents that they are not forgotten by the Bonn government.

**Mineral Rights On NM Homesteaded Land At Stake In Series-Of Bills**  
WASHINGTON (AP)—Potentially valuable mineral rights on several tracts of homesteaded land in southern New Mexico are at issue in a series of bills now before the Senate Interior Committee.

The bills are similar to recently approved legislation granting mineral rights to Mrs. Pearl Marr on a homesteaded entry in the same area, near the Permian Basin oil field. They involve land in Roosevelt, Lea and Eddy counties.

The pending bills, all by Sen. Chavez, would grant mineral rights to Elmer M. Gandy of Lubbock, Tex.; Myrtle Golden of Milnesand, N. M.; Joseph E. Shipp of Snyder, Tex.; Richard L. Robinson of Jalisco, Calif.; and Walter T. Linam of Hobbs, N. M.

Oil companies holding leases covering the tracts are much interested in the bills.

At a hearing before the committee, Mrs. Agnes Kelso, daughter of Mrs. Marr, represented the mineral claimants.

She told the committee the homesteaded entries were filed under an old act which did not reserve mineral rights to the government. At that time, she said, the lands were not classified as being valuable for mineral deposits.

Chavez testified that before the homesteaded patents were issued, the government forced the settlers to sign waivers of mineral rights by threatening cancellation of the entries.

The bills are opposed by the Department of Interior. C. B. Bradshaw, assistant solicitor for the department's Bureau of Land Management, contended that in each instance his agency had acted

### NAACP Official Praises Body On Civil Rights

NEW YORK (AP)—Roy Wilkins, executive secretary of the National Assn. for the Advancement of Colored People, has praised President Eisenhower's proposed bipartisan civil rights commission to study segregation.

In a telegram made public here Thursday night, Wilkins told the President:

"Your proposal for a continuing governmental body to investigate the situation and keep an eye on developments should be helpful in accelerating compliance" with the U.S. Supreme Court school segregation decision.

Wilkins added that he was "happy to report that the majority of the 17 states which previously required public school segregation have taken some steps toward compliance."

**Israel, Egypt Charge Attacks**  
JERUSALEM, Israel, Sector (AP)—An Israeli army spokesman charged today that within the last 48 hours groups of Egyptian civilians penetrated three times into Israeli territory east of the Gaza Strip.

He said three Egyptian soldiers crossed the frontier in another incident in the same area.

In all four cases, Egyptian positions across trust line opened fire at Israeli patrols and outposts, he added.

"The infiltrators were forced back and Egyptian fire was returned," the spokesman said, adding there were no casualties on the Israeli side.

GAZA, Egyptian-held Palestine (AP)—Egypt protested to the Mixed Armistice Commission today an "aggression" it said was committed by an Israeli patrol in Khan Dunes, south of Gaza, yesterday.

An Egyptian military spokesman charged Israelis opened fire across the demarcation line wounding one woman and one man who were taken to a hospital.

### Dulles Confers With Chiang At Formosa Meet

TAIPEI, Formosa (AP)—U.S. Secretary of State Dulles and President Chiang Kai-shek conferred here Friday on joint defense of Nationalist China against Communist aggression.

Continuing his Far Eastern tour, Dulles arrived from Manila and soon after was driven to the generalissimo's home in the suburbs. The two leaders talked there for more than an hour.

Later Dulles and his party returned for a formal dinner given for them by Chiang and his wife.

Dulles in an airport statement on his arrival described this meeting with the Nationalist President as another consultative one provided for in the mutual defense treaty between their two governments. The treaty is concerned mainly with American protection of Formosa.

Chiang was assumed to have urged that the United States give an open commitment to protect the Nationalist-held offshore islands of Quemoy and the Matsus. There was no indication, however, that this plea had scored with Dulles.

**SANTA FE BID LOW**  
COLORADO SPRINGS, Colo. (AP)—Two Santa Fe, N. M., construction companies have started work on a \$598,000 road job at the Air Force Academy site north of here. The Haake Construction Co. and Jack Adams were awarded the contract as the lowest bidders among nine firms competing. The work covers 15 1/2 miles of road and is to be completed within 18 months.

**ELECTION RULE DEFINED**  
SANTA FE (AP)—Candidates for alderman or city councilman in municipalities do not need to be real property owners, Atty. Gen. Richard H. Robinson has held. Such a requirement would be unconstitutional, the opinion said, in reaffirming, in part, an opinion of 1934.

### Paddlings Bring Dismissal For Ohio Teacher

McCONNELSVILLE, Ohio (AP)—A high school teacher in Deavertown has been fired by the Deavertown Board of Education for allegedly paddling at least one of his girl students and for forcing Bible subjects contrary to law.

A. B. Mercer, attorney for the board, said the teacher, Eberle, 25, of McConnelsville, was supposed to have paddled the girl in class.

Eberle is free on \$500 pending grand jury action on charges of assault and battery brought by the parents of the girl, Kennel, 15, one of the charges. He denied the charges.

Eberle, graduate of the Jones Evangelistic College in North Carolina, was a member in English and government in his first year as a teacher.

**Nasty Weather Almost Ruins SW Conference**  
By THE ASSOCIATED PRESS  
Nasty weather almost ruined the Southwest Conference basketball schedule Thursday. Only Baylor and TCU were able to play. Baylor won 14-10. It was a conference game.

A game scheduled between Iowa and Southern Methodist was cancelled. A scheduled Oklahoma State game between Texas and Texas Lutheran was postponed until Tuesday.

Friday, Oklahoma meets University of Texas in the second of a two-game series at the Southern Methodist gym in South Houston State. Baylor will play for a two-game series at the University of Houston at 7 p.m.

**CON GARDENS ASKED**

# Massive Southwestern Track Field Meet Opens At Ft. Worth

FORT WORTH (AP)—More than 100 athletes were moving in to today for the massive Southwestern Track and Field Meet which may hang up the most exciting in its 33-year history.

Abilene Christian College is expected to spread-eagle a field that has 12 other teams in the college division. Texas, with its great relay teams and featuring Eddie Southern, talented middle-distance runner and hurdler, and Hollis Gainey, blazing sprint man, seems to have little competition in the junior college-college freshman class.

There are 68 high schools with defending champion Abilene in the field but with the Eagles accorded small chance of overpowering the brilliant all-around Sunset and Fort Worth Arlington Heights teams.

A golf meet is being run off at the same time as track and field with 74 schools entering teams in three divisions. North Texas State is favored in the university-college class over defending co-champions Oklahoma A&M and University of Houston. There are 16 universities and college, 14 junior college-freshman teams and 44 high school teams.

## Texas A&M Swim Champions Lead in Competition

AUSTIN (AP)—Favored Texas A&M held the lead in the Southern Conference Swimming and Diving Championship meet going into the second day of competition today.

Time trials were scheduled this afternoon for six events, the 50-yard freestyle, the 220-yard backstroke, 220-yard freestyle, 200-yard butterfly, one-meter diving and 50-yard freestyle relay.

Finals in those events are set for 8 p.m.

The Aggies snatched the lead last night in the 1,500-meter free event as Tetsuo Okamoto, Okamoto Olympic performer, kept to an easy victory in the record time of 19 minutes, 21.6 seconds. The Aggies took second and fifth places with Jose Merino and Rip Woodward, respectively.

The title-defending Texas Longhorns took third, fourth and sixth spots with Jerrell Holder coming third.

## Three Big Post-Season Tournaments To Answer Several Cage Questions

Can the Stuffer outscore the Whale? Are the Big Ten champions big enough to slow down the nation's biggest scorers? And how many more of the nation's collegiate basketball powers will be washed overboard by a wave of upsets?

These and other cage questions will be answered over the week-end in the three big postseason college tournaments—National Collegiate Championship, National Invitation Tournament and NAIA.

The far-flung NCAA tourney, with double-headers tonight in Philadelphia, Lawrence, Kan., Iowa City and Corvallis, Ore., gets most of the attention. Tonight's winners meet in the same cities tomorrow night, and the winners of those games converge on Evanston, Ill., next Thursday for the big win-up.

The NAIA, after a strenuous week, goes into the semifinals tonight in Kansas City and McNeese State meeting Pittsburg (Kan.) and Texas Southern playing Wheaton.

The NIT gets going with double-headers tomorrow afternoon and night in Madison Square Garden, New York.

Getting back to the unanswered questions, the big one is posed at Corvallis. That's where All America Bill Russell of San Francisco, named The Stuffer for continuingly ramming the ball down the basket, again runs afoul of UCLA's Willie The Whale Naulls. Russell won the last time they met, in New York's Holiday Festival in December, but since then has lost the help of guard K. C. Jones, a second-team All America ineligible for the NCAA Tournament.

Both San Francisco, No. 1 in the nation in the final Associated Press poll with a 25-0 record, and UCLA, No. 8 with 21-5, boast long winning streaks. UCLA has won 17 straight since the December loss of USF, while the Dons boast the all-time major college winning streak of 51.

The somewhat overshadowed second game at Corvallis matches Utah, champion of the Skyline Conference at 22-3, against Seattle (17-8).

Tonight little Morehead of Kentucky will meet Iowa, champions of the Big Ten for the second successive year. Morehead was the nation's highest scoring major team during the regular season with 96 points a game.

The other game at Iowa City also is a David and Goliath affair with little Wayne Mich., 17-1 during the regular season and surprise victor over DePaul in the

## Wes Santee Runs Mile Tonight; Court Battle Continues Monday

CLEVELAND (AP)—His court battle to remain an amateur continued tonight, Wes Santee runs the mile tonight at Cleveland's arena against taken opposition and the meet record he set here a year ago.

It will be the third race for the 23-year-old Marine lieutenant since the Amateur Athletic Union's Executive Committee by a 14-1 vote suspended him for life last Feb. 19.

After opening statements in the State Supreme Court in New York yesterday, a recess was declared until Monday in Santee's effort to get a permanent injunction preventing the AAU from enforcing its ban. Meanwhile, a temporary injunction remains in force against the AAU action, which was based on charges Santee took excessive expenses.

Santee's 4:04.6 time here last year was the best in the 15-year history of local Knights of Columbus indoor meets. In the two races he has run since the AAU suspension, he posted 4:10.5 at Milwaukee and 4:13.8 in New York.

There will be two sections of the mile race here, as there were in New York and Milwaukee. Other runners are wary of risking Olympic-year eligibility by competing against Santee until the court decides his case.

Santee probably will run in a second section of the mile against Ed Kirk of Lockbourne air base near Columbus and Bill Taylor, a fellow Marine from Quantico, Va. AAU rules permit servicemen to compete against any opposition.

The first section has these entries: Ted Wheeler, Big Ten champion from Iowa; Phil Coleman of University of Chicago Track Club; Ike Matza of New York University; John Walter, Michigan State graduate student; and Jack Blackburn of Ohio State.

## Retired Gordon To Pitch Game For Pittsburgh

FORT MYERS, Fla. (AP)—Unless Manager Bucky Harris changes his mind at the last minute, Detroit's starting lineup against the Pittsburgh Pirates today is to have this line in it:

Gordon, 2b.

Yep, you're right. It will be the same Joe Gordon, a 41-year-old youngster who retired in 1950 from the American League wars, after seven years with the Yankees and four with the Cleveland Indians as a master second baseman.

Maybe its just to point up Detroit's No. 1 deficiency, or to show the youngsters how, or maybe Harris is just kidding.

"Certainly not," says Harris. "At least I'm going to take a look at him for four or five innings. Who can say he is too old to play until after he has been in there. Sure, he's listed as a coach and that is what he is, but I still want to have a look."

## Two Fast-Rising Welterweights To Fight Tonight

NEW YORK (AP)—Two fast-rising young welterweights, Cub's Isaac (Kid) Logart and Mexico's Gaspar (Indian) Ortega, put their victory-studded records on the line tonight in the 10-round main event at Madison Square Garden.

Logart, 22-year-old sensation from Camaguey, Cuba, which sent former champion Kid Gavilan to the top of the welters, has a record of 41 victories, 5 defeats and 5 draws in 51 outings. Eighteen of his triumphs were knockouts. He has won his last four, including a Feb. 10 triumph over Ramon Fuentes.

Fifteen knockouts show on Ortega's record of 32 wins and 5 defeats. The 20-year-old Mexican boxer earned a main event shot by his spectacular performances in recent semi-windups. The night Logart whipped Fuentes, Ortega scored an impressive victory over Tex Gonzalez, a tough lightweight, in the semi-final.

The bout will be televised and broadcast (NBC) at 10 p.m. (EST).

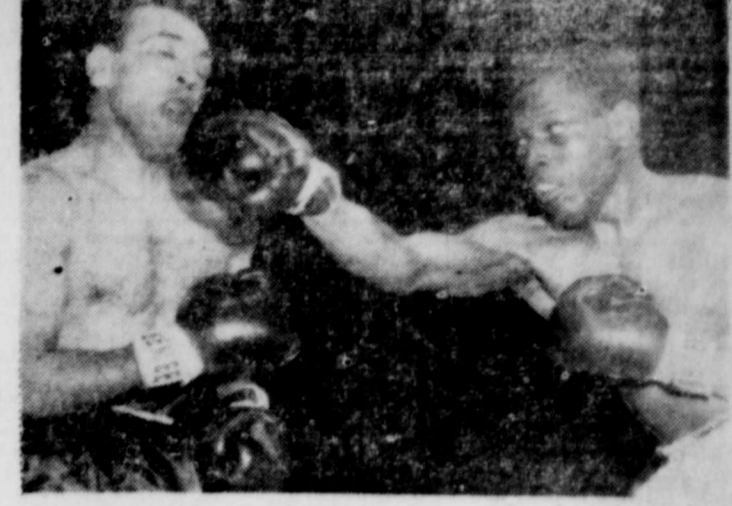

## AIRMAN WINS

WASHINGTON (AP)—A New York City boxer from Goodfellow Air Force Base, San Angelo, Tex., Herman McNeil, last night advanced to the finals in the heavyweight division of the U.S. Air Force Worldwide Boxing Tournament.

McNeil got past the semifinals with a one-sided victory over Russ Lee of Berkeley, Calif. The Air Force erroneously reported earlier that McNeil had been beaten Tuesday night.

The 20 remaining survivors will battle tomorrow night for the 10 Olympic weight titles.

## Two New Managers Get Off To Good Start In Major Leagues This Year

By The Associated Press

Bill Rigney of the New York Giants and Bobby Bragan of Pittsburgh, the only managers making their debuts in the major leagues this year, are off to a good start in exhibition games.

Rigney, up from Minneapolis, has seen his team win five of six while Bragan, brought in from Hollywood, has led his charges to three triumphs in five games.

Yesterday, Rigney got neat five-hit pitching from Ailan Worthington, Johnny McCall and Hoyt Wilhelm as the Giants defeated the Chicago Cubs 5-1. New York collected 15 hits, including a home run by Daryl Spencer.

The Pirates, a poor last in 1955, continued to show surprising strength in downing the Washington Senators 4-3 on Dale Long's three-run home run in the fifth inning.

Herm Wehmeier, Bob Miller and Saul Rogovin limited the St. Louis Cardinals as the Philadelphia Phillies came away with a 2-1 victory. Willie Jones' solo homer in the fourth inning off Ellis Kinder was the big blow.

The Kansas City A.s., being the five-hit chunking of Art Ceccarelli, Chuck Kowalski and Dutch Romberger, whitewashed the Chicago White Sox 1-0. The Athletics got the winning run in the fifth inning while Minnie Minoso dropped an easy fly ball, enabling Jim Finigan to score from third.

## Halt All The "Czars"

CONGRESSMAN J. J. DEMPSEY declares that unless C. D. Curtiss, Commissioner of the Bureau of Public Roads, changes his attitude and assuming he is the "Czar" when it comes to distributing federal funds for highways, he proposes to introduce an amendment to halt the practice.

Congressman Dempsey made his declaration after L. D. Wilson, Chief Engineer of the New Mexico Highway Department, conferred with Curtiss and was refused any consideration for the state and after Commissioner Curtiss advised the Roads Subcommittee he is virtually the "czar" in allotting roads to various states and there is no appeal from his decision.

Congressman Dempsey says that Secretary of Commerce Weeks told the committee he did not agree with Road Commissioner Curtiss' idea of absolute and final authority, nor did he feel that the Commissioner has been delegated any such power by him.

Congressman Dempsey says there is a serious question in his mind as to whether the present law conveys such broad powers to anyone. He points out if it does then this certainly was not the intent of congress when the law was passed since it would take all of the control out of the hands of those authorizing banking the roads as well as those who appropriate the funds.

But such an attitude has been displayed not only in Washington but elsewhere by the Bureau of Public Roads. It is also true that the Congressman will find others holding public offices or heading up departments have the ideas they are little "Czars" also.

When he gets around to dethroning this "Czar" we would suggest he go a few steps further and dethrone some of the others who have become a little confused about how much authority they have and who have forgotten that congress provides the funds and congress has some say as to how and where the money they appropriate is spent.

We have argued for a long time that those controlling the purse strings should have more to say about how the taxpayers' money is spent but up to now Congress goes along, appropriates the funds and never bothers to see how some of the little "dictators" spend this money.

We hope not only that Congressman Dempsey gets mad enough to do some things about this attitude but that the other members of congress also get a little excited and help him halt this practice.

### State Department Prieks Both Greeks, British Over Cyprus

By JAMES MARLOW  
Associated Press News Analyst

WASHINGTON (AP) — The State Department has foot-in-mouth trouble again, an ailment which afflicts it just as readily when Under Secretary Hoover is in charge as when Secretary of State Dulles is here.

It has just tried to please both the Greeks and British in their dispute over the island of Cyprus, a British colony whose inhabitants, mostly of Greek descent, want self-government and union with Greece. The Greek government backs them.

The State Department made two tries and found up making the British and Greeks both mad and glad, but not at the same time.

Dulles, who sometimes seems carried away with the possibilities of the English language, has made statements which caused him to spend a lot of time afterwards

on the Green River in northern Utah, to cost \$82,541,000, and Navajo Dam, on the San Juan River in north-west New Mexico, to cost \$36,592,000.

The measure also would authorize construction of Curcand Dam on the Gunnison River in western Colorado—if the secretary of the interior deems its benefits would exceed the cost.

Along with these main project units, the bill would provide for the construction of irrigation units in Colorado, New Mexico, Utah and Wyoming financed in part by excess power revenues from the big dams.

The revenues would be allocated among Colorado, New Mexico, Utah and Wyoming along a formula roughly comparable to the amounts of water allocated to each state under the Upper Colorado River Compact.

Planning of Juniper Dam on the Yampa River in Colorado would be given a first priority under terms of the bill, with final authorization still to come. The secretary of the interior would be permitted to decide if the project should be classed as a main storage dam or a participating unit.

The conferees also included provisions in the bill to (1) protect existing power contracts at Hoover Dam against any interference from operation of the Upper Colorado Project and (2) make effective at once a Colorado federal court consent decree which permits Denver to increase its water supplies from the western slope.

a deal car to the plea of Israel for arms as defense against the Arabs. The story became public, and in headlines. At once Hoover ordered the shipment halted. He had Eisenhower's approval for this. Forty-eight hours later he let the tanks go.

Now Dulles is touring Southern Asia. Last week, after months of trying to stop the terrorism of the Greek Cypriots, Britain suddenly exiled their political and spiritual leader, Archbishop Makarios of the Greek Orthodox Church.

On Cyprus there were shootings and a general strike. The Greek government asked the United States to intervene.

In Athens American Ambassador Cannon talked to the Greek government.

He expressed this country's "sympathetic concern" over the Cyprus dispute and he praised the "dignity and statesmanship" of the Greek government at a moment when the Greeks have the British in a fury by their support of the Greek Cypriots.

The British protested. After hurried conferences the department came up with a statement. It said the United States was not taking sides. But it couldn't afford, because of Greek reaction, to back away altogether from what Cannon said.

So it repeated what Cannon said but appeared to try to make it look more diplomatic. It said: "We view present problems with diplomatic concern." The British cooled off. But the Greeks got hot.

month later, Mr. Pickens had taken no steps to correct the situation and had failed to advise the commission so that they could take action to protect the department.

"I do not believe the Game Commission is informed of all facts concerning the Clayton Dam project specifically, that the department has continued to pay the increased rolling rate allowed by Mr. DeBolt that has cost the department many thousands of dollars even though the state engineer's office advised Mr. Pickens by letter shortly after taking over the project that there was no justification for the increase and advised the department not to pay this increased rate."

Allgood added: "Mr. Pickens personally ordered the department personnel to stop an investigation into a very obvious discrepancy in bill material paid for by the department amounting to approximately \$8,000."

He also asked, "Has the commission been informed of the amount of federal aid monies in jeopardy of being lost?"

Allgood concluded: "This squandering of public funds deserves the immediate attention of the commission and it seems that the commission would do well to ascertain all facts in the case before condoning this persecution of one of its employees for acting in the department's interests for such a practice is certain to cause a complete breakdown in the morale of the department personnel."

**42 LOSE LICENSES**

SANTA FE—Forty-two New Mexicans had their driver's licenses revoked from March 1-9. The state driver's license division reported. Thirty-five were for driving while intoxicated.

**AIRMAN IMPROVING**

DENVER—Hospital authorities at Lowry Air Force Base say A. Z. C. George Alvarado, 20, Santa Rosa, N.M., who shot himself in the chest, has been taken off the critical list. Base authorities said the airman apparently shot himself with a .22 caliber rifle in his barracks room Monday. No explanation was given for the shooting and a board of inquiry is continuing an investigation.

**Aircraft Hearing**

ADMITTING he got \$75,000-a-year job with Consolidated Vultee Corp., through help of Sen. Stuart Symington, retired Gen. Joseph McNarney (above) denies there is any connection between his employment and his previous defense of the B-36 bomber produced by firm. Armed services subcommittee is probing aircraft production and profits. (International)

**U. S. 8th Army Rushes Tents To Stricken Korea**

SEOUL, South Korea, (AP)—The U. S. 8th Army is rushing 50 tons of tent material to give temporary shelter to 35,000 Koreans along South Korea's snow-stricken east coast.

Korean army units in the area hit by snow and floods 10 days ago have been told to help distribute the material and rebuild and repair the more than 750 homes damaged.

**Peron Claims Big Following**

BUENOS AIRES, (AP)—Juan D. Peron says he still is the big man in Argentina but the rebels who booted him out just six months ago declare the ex-dictator's following has "declined enormously."

"This nation is well on the road to restoration of democratic life," Provisional President Pedro Aramburu asserted in an interview marking the half-year anniversary of the revolt which blew Peron off the pinnacle of power he had held for a decade.

Aramburu said he was confident Peron's reign "will serve as a lesson" to prevent Argentina from ever again falling into the hands of a dictator.

The Provisional President's statements coincided with publication in Santiago, Chile, of the memoirs Peron has written while in exile in Panama. "Force Is the Right of Beasts." Publication was

in the magazine *Vea* (See), which had close contact with Peron in the past.

"They can destroy Peron," the ex-dictator declared, "but that which I left in the soul of every Peronista they will never destroy, not with speeches or lies or calumnies."

**ESSAY WINNERS NAMED**

ALBUQUERQUE (AP)—Robert Fraga, 16, Los Alamos, has been chosen winner of the annual statewide essay contest conducted by the Governor's Council for the Handicapped. Jimmy Shiple, San Jon, was second, and Joyce Durcan, Hobbs, was third. Sandra Standridge, San Jon, was fourth, and Joyce Baker, Roswell, was fifth.

In addition to these services, our program includes a fully graded choir program, Woman's Missionary Union, Brotherhood, Nursery open for all services.

Whether building a life or a skyscraper is involved, a clear understanding of the project is necessary... a plan must be in mind. The man who starts to raise a family without first considering his earning power, cost involved and the necessity for God's help—faces serious difficulty. To correctly raise a building an architect, blueprint and a builder are essential. To properly build a man—prayer, Bible reading, Sunday school and church attendance are good tools to work with. To calculate the pitch a roof must be as easy but without God's help, to determine the worth of a young life is impossible. Architects design houses. Builders put them together. But only God can build a man out of a boy. The church, through these firm hands of mine, pictures to humanity the world's greatest designer... Jesus the Christ. World builders could not get along very well without Him. He has never poured a bad foundation, nor laid a sill out of level, nor raised a wall off plum. "Except the Lord build the house, they labor in vain who build it," Psalms 127:1.

**HOLY BIBLE**  
**YOU IN THE CHURCH**  
**THE CHURCH IN YOU**  
Character is a by product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we on Sunday "You in the Church and the Church in you" form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.
