Vol. 19, No. 27

Hope Eddy, County, New Mexico

Friday, Sept. 26, 1947

### SCHOOL NEWS

Wilma Jean Watts, a freshman, enrolled in the Hope high school this week.

School is progressing nicely, but there are some students who are absent and tardy too much. The parents are urged to not keep their children out and to see that they get to school on time. The parents of high school students who are making low grades or are failing will be notified at the end of this week, which is the fourth week of school.

Miss Rose, the county nurse, visited the Hope school Wednesday. She plans to be in Hope every two weeks after she has made out her schedule.

The Hope Yellowjackets went to Lake Arthur last Friday and defeated the L. A. boys 34 to 9. The boys were all able to go, but of course all the boys did not get to play. The boys that played a very good game were Alvin Melton, Andy Roy Teel, Alfred Dee Wilburn, Thomas Lee Harrison. The Yellowjackets will go

to Lake Arthur today and will play the Hagerman nine. The Yellowjackets went to Weed Tuesday and lost to the Weed boys by the score of 15 to 16. The Yellowjackets looked as if they had not seen a softball before; maybe they were not looking at the ball at all, but at all the pretty girls that lined the wall around the ball park. Thomas Lee wanted to stay at Weed and come down next Tuesday when the Weed boys come to Hope and return our game. I wonder why? There were no stars in the Weed game, as the game was not a very well played game.

### Seventh and Eighth Grade News

The boys who did not go to Weed Tuesday played a game of softball under the supervision of Mr. Lipsitt. John Cole and Marvin Holly, captains, chose sides. The score was 24 to 12 in favor of Johnny's team. In our art class, we are studying color harmony. We are drawing

free hand pictures of flowers and designs. Glenn Harrison is back in school again. He has been ill. Last Friday the fifth and sixth grade boys played the seventh and eighth grade boys a game of softball. The score was 20 to 12 in favor of the seventh and eighth grades.

### Cox-Menefee Ceremony Held At Hope Tuesday

Miss Maxine Cox of Artesia became the bride of Clayton C. Menefee, son of Mr. and Mrs. J. P. Menefee, in a quiet service held at the Menefee home Tuesday afternoon. Rev. E. A. Drew, pastor of the Methodist church in Hope, read the ring ceremony.

A few intimate friends were present to offer their congratulations and best wishes for a happy and prosperous life together.

The bride has been employed by the Western Union Telegraph Company in Artesia for the past year. She was formerly of Paris, Tex., where her parents now reside.

Clayton Menefee is well known in this community for his sterling character. He is a graduate of the Hope high school and during the war he served as a pharmacist's mate on the U.S.S. "Solace" in the South Pacific for two years. He is now employed by the First National Bank of Artesia.

After refreshments of angel food and iced fruit punch, the happy pair left on a short wedding trip. Upon their return they will make their home in Artesia.

### What A Water System Will Do For Hope

It will double the population in two years.

It will increase business for our stores.

It will boost attendance at the school.

It will build up the churches.

It will increase the valuation of our property.

It will give us water whether there is water in the river or not.

It will give us pure water to drink.

It will do away with the filthiest, dirtiest and the poorest water system in New Mexico.

It will do away with the chance of an epidemic getting started in Hope.

Let's come to the meeting next Monday night at the high school prepared to do our best towards getting a water system for Hope.

### Sacramento To Have Resident Pastor

Rev. James J. Spurlin and family are moving into the Methodist parsonage at Sacramento this week. Brother Spurlin is returning to the Sacramento Circuit after six years away on other pastorates. His last church was at Sutherland, Neb., where he has been for the last two years. Brother Spurlin is a New Mexico boy. Mrs. Spurlin comes from El Paso, Tex. They have three children, Jerry 5, LaVerne 4, and J. K. 2.

Preaching services will be held at Sacramento on Sept. 28 and at Penasco Oct. 5. No definite arrangements have been made yet for the James Canyon Church.

### MR. AND MRS. LAWRENCE BLAKENEY RETURN HOME

Mr. and Mrs. Lawrence Blakeney returned home Tuesday from a 30-day vacation trip to New York. They visited relatives and friends at Elmira and Ithaca. They also called on Governor Dewey and discussed the political situation in New Mexico with him. Lawrence went fishing in Seneca Lake and caught a 26-pound trout. They had a wonderful time and enjoyed every minute of it. The only drawbacks were that it rained every day that they were there, the sun peeped through the clouds at intervals, and everything is laid out on too small a scale. You start to go somewhere and in a few minutes you're there. They had a wonderful time but were glad to get back to New Mexico sunshine and wide open places, where the wind blows and the coyotes yowl.

### RETURNS FROM PORTLAND, OREGON

Mrs. N. L. Johnson returned last week from Portland, Ore., where she visited her daughter, Marjorie, and her family.

### IMPROVEMENTS AT CAUHAPE FARM

Workmen this week finished the improvement work on the Cauhape farm, southwest of Hope. The residence and other buildings have been

### Valley Boys Are On Highlands Squad

Five boys from the Roswell Artesia area are candidates for the 1947 Highlands University football team. From left: Richard Greene, Dexter, end; Pete Hatch, Lake Arthur, tackle; B. C. Nelson, Hope, tackle, and Tom Sperling, Dexter, end.

Not shown in the picture is Jimmy Lower, Artesia, who is likely to get the starting nod as a halfback.

stuccoed and the roofs painted green. The interior of the residence has been remodeled and new hardwood floors laid. This farm is now one of the show places of the valley.

BE AT THE HOPE HIGH SCHOOL NEXT MONDAY NIGHT, SEPT. 29, AT 7:30 TO DISCUSS THE SUBJECT OF A WATER SYSTEM FOR HOPE. FARMERS, RANCHERS AND TOWN FOLKS ARE REQUESTED TO BE PRESENT. REMEMBER, NEXT MONDAY NIGHT AT THE HIGH SCHOOL IN THE HOME EX ROOM.

"EATING CAN KILL YOU." Some 40 million Americans face real danger if they continue their overeating and fail to check their diets with a physician. For your health's sake be sure to read this powerful article in the American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner. ADV REVIVAL SERVICES AT METHODIST CHURCH

Revival services will commence next Sunday at the Methodist church and will continue throughout the week, with services every evening beginning at 7:30 o'clock. Rev. Drew will preach. Members of other churches are invited to attend any or all of these services.

### A Little About This And A Little About That

Phillip Reed has bought the David Scott place across the pavement from the City Service Station. Hollis Buckner is progressing nicely at his school in Chicago; he will be home in about a month. Mr. and Mrs. Ed Watts and Mrs. Ida Prude were over to Alamogordo Sunday visiting. C. S. Lovejoy is building a garage for his new truck. Dave Lewis and wife are over in Texas visiting relatives. Emit Potter hauled a load of hay to Lovington Monday from Cottonwood. J. C. Stegall went to Santa Fe last week after a load of lumber. C. M. Livingston is planning new improvements for the City Service Station. Brantley Nelson, who is attending Highlands University at Las Vegas, went bear hunting over the week end. Mrs. Ida Prude has installed a new heating system in her tourist court; it was installed by J. M. Keeth of Hagerman. The REA boys have been erecting a line down to the Kincaid and Coates ranches. They are now working on erecting the poles around the school softball field. J. P. Menefee was in town Tuesday. Buster Mulcock, deputy sheriff, was up to Hope Monday night on business. Jess Musgrave is painting the interior of his residence. He is quite an artist with the brush. Mr. and Mrs. Bonnie Altman will soon install a cafe, where they will make a specialty of Spanish dishes. There is a young couple around Hope that will be married in October. Mrs.

Buck Wilburn will have another cutting of hay before frost. Ray Chalk was in town Tuesday. Mrs. E. C. George, who resides on the Penn Trimble farm, was in town last week. Madie Wasson is doing well up at Eastern New Mexico College at Portales; she was one of the star pupils at Hope last year. Mrs. Ethel Fowler's daughter, who went to school in Texas last year, has enrolled up at Portales. The test well southeast of Hope is now down about 1800 feet. A rotary rig will be installed soon. Joe Clements was in Artesia Monday. Jack Wasson sends a copy of The Penasco Valley News up to Madie every week; she reads it before she reads her letters. Ezra Teel and Rush Coates were down to the test well Tuesday. R. N. Teel and son, Maurice, went to Artesia Wednesday. J. P. Menefee got up before breakfast Wednesday morning and lit out for Artesia. Rush Coates and Jack Wasson perambulated down to Artesia town Wednesday A. M. C. S. Lovejoy and Ad Bam were around borrowing a cement mixer Wednesday morning; if the spirit moved, they were planning on running a cement floor in Lovejoy's new garage. Leonard Akers and wife and boy went to Weed Tuesday to look after their farming interests. Mr. and Mrs. Jimmie Thompson are planning to move to Morenci, where Mr. Thompson will be employed in the mines. We understand that Johnson Brothers have leased the land from Grandma Clements. You've heard of a "Help-Your-Self" laundry, but have you ever seen a "help-your-Self" lumber yard? Well, we've got one in Hope. Claborne Buckner was a visitor in Hope Tuesday. It might be well for all parents that have boys and girls going away to school to drop in at The News office and subscribe for a year for the younger set that are away from home. Got to quit this rambling and get out and find out who was married yesterday. See ya next week.

"Fortune Tellers Exposed." Fortune tellers reaped over \$125,000 last year, thanks to their glibbie victims. You can read how the hocus-pocus artists operate in the American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

### LARGE ATTENDANCE AT STATE COLLEGE

Hope is well represented at the State College at Las Cruces. Among those who have enrolled are Felix Cahape, Jr., and his sister, Mary Elizabeth, Bill Weddige, Glenn Menefee, D. W. Carson, Jr., Donald Menefee and Robert Kincaid.

FOR SALE—One propane 24,000 B.T.U. heating stove. \$20.00. Can be seen at The News office, Hope, N. M.

Mr. and Mrs. Summers from Artesia have rented the Garland Melard residence. Mr. Summers is drilling a water well for M. O. Teel.

New Mexico's Greatest

## STATE FAIR

OPENS SUNDAY, SEPT. 28

FOR 8 GREAT DAYS

HEAD FOR ALBUQUERQUE

**CHOICE** is the keynote of today's career

#### Would you go to Europe, Japan or Korea?

Or would you stay near home? Any man who has had prior service in the Armed Forces may elect to do any of these things if he enlists in the Army now for 3 years or more. He can choose to be assigned directly to duty in Europe or with one of five famous Infantry divisions in the Far East. Or he may choose to be stationed near home for the first full year of his enlistment (where there are vacancies). Men with or without prior service may choose one of the famous combat divisions in Japan or Korea.

#### Would you select a career in aviation?

This you can do, and be guaranteed the training you choose before you enlist! Only requirements beyond regular physical and mental examinations are that you be a high school graduate, or that you are in the Air Force and can qualify. It's today's great opportunity to write your own ticket in the Air Force.

#### Would you want to learn to fly? If you are

single, 20 to 26½, and have had two or more years of college education or the equivalent, you can become an Aviation Cadet with the U. S. Air Force. Nowhere else can you get better training, for nowhere else is aviation advancing as fast or as far as in our own Air Force.

#### Would you go to a leadership school?

If you have qualities of leadership, would you want to develop them to their fullest? U. S. Army Leadership Schools are now selecting likely candidates from servicemen to take these valuable courses.

The Army and Air Force are doing everything possible today to help each individual develop along the lines that he picks for himself. Army and Air Force training is thorough and take-home pay is better than most civilian jobs. Opportunities for advancement are wide open to every man in uniform. Make your choice today at your U. S. Army and Air Force Recruiting Station.

CAREERS WITH A FUTURE

WEEKLY NEWS ANALYSIS

**Corn Estimate Reduced Again; Swift Aid for Europe Urged; Set New Housing Investigation**

Released by Western Newspaper Union  
(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

**REPEAT: Less Corn**

The 1947 corn crop, estimates of which have been shrinking like a \$10 suit ever since August, was reduced by another 33 million bushels in the department of agriculture's September report.

Total estimate cuts since August 1 were 256 million bushels, and the expected outturn this year now has been placed at 2,403,913,000 bushels.

There was more potential bad news, said the department: In case

**MEAT SUPPLY**

Meat production can be maintained at a high level in the next year, despite the curtailed corn crop, animal feeding authorities declare. Extensive and efficient use of vegetable oil meal and other products will enable farmers to produce pork freely at less cost than if corn were used exclusively in feeding.

an early frost should blanket the corn belt, another reduction would be likely.

Crop reporting board said that "it now seems likely that at least 75 per cent of all corn in the 12 corn belt states will have matured by the average date of the first killing frost," but warned that if it were a week early, it would catch about 40 per cent of all corn at an immature stage. If frost came a week later, only a 15 per cent loss would be registered.

Latest estimates also foretold a sharp reduction in the record wheat crop. Output was set at 1,408,602,000 bushels, as compared with the August 1 prediction of 1,435,551,000 bushels.

**URGENT: Stopgap Aid**

George Marshall, U. S. secretary of state, was trying his best to pile up pressure for a special session of congress this autumn to finance immediate interim aid to keep Europe on its feet until Marshall's 20-billion-dollar, long-range rehabilitation plan begins functioning.

Stymied by Republican leaders who were either downright opposed or indifferent to an emergency session before January, Marshall was taking his case to the people, attempting to rally public opinion behind him.

Intolerable cold and hunger are the immediate threats facing Europe, he said. The crisis calls for "urgent consideration."

What would it cost this time? Marshall said that there was as yet no estimate of stop-gap needs, but he didn't deny reports that William L. Clayton, undersecretary of state, had cabled from Europe a request for a special session of congress to vote 2.5 billion dollars for aid now.

The special session was far from assured. If it came to a showdown, GOP leaders probably would oppose it openly, and they could, if they wished, stifle any economic aid legislation.

**ON AGAIN: Housing Probe**

Another in a long and distinguished line of housing shortage investigations was being organized in Washington by a joint house-senate committee.

First step, said the group, would be an attempt to discover basic causes of "skyrocketing" costs and shortage of material and labor. The congressmen also would look into reports that middlemen are receiving unnecessary pay-offs for their distribution of materials.

Conferring with housing officials, the committee learned that the U. S. needs 1.5 million new housing units annually; that materials in the coming year will be too scarce to allow construction of even a million units, and that more than two-thirds of available construction laborers are engaged in work other than the building of homes.

It was a gloomy beginning, even for a congressional investigation. Further complications were likely to arise from the fact that government officials are reluctant to take any drastic remedial steps, preferring to explore first the more orthodox (and futile) avenues to increased building.

Millions of ill-housed and un-housed Americans, hearing of the planned investigation, wondered idly whether this would be another case of "same song, umpteenth verse."

**He Admits It**

Convinced that race for Republican presidential nomination is a "wide open" contest, Harold E. Stassen, former governor of Minnesota, announced that he will make his formal entrance in the campaign at a Milwaukee rally November 24. Stassen is probably the only politician in the country who openly admits he wants to be president in 1948.

**GOP VICTORY: Straw in Wind?**

Jubilant Republicans were making much of Franklin H. Lichtenwalter's resounding victory over labor-supported Phil H. Storch, Democratic candidate, in a special election to fill Pennsylvania's eighth district seat in congress.

The issue, naturally, was the Taft-Hartley labor law, and the outcome was a two-to-one acceptance by the voters of the law and what it signifies. If Pennsylvania is as much a political weathervane as it is claimed to be, the Lichtenwalter victory forecasts a cold, bleak wind from the north for Democrats in 1948.

Republican hoop-la called the vote "a smashing rebuke to the radical labor bosses who chose to make the Taft-Hartley labor management act the paramount issue of the election."

The Democratic line, however, caught another meaning: "We carried seven of the eight wards (in Allentown, Pa.) where we concentrated our forces. We've just begun to fight. We don't consider the vote as a repudiation on the Taft-Hartley labor law issue."

**ATOM TRUST: Soviet Line**

Possibly ordered by the Kremlin to get his diplomatic dander up and turn on the theatrics, Andrei A. Gromyko, Soviet U. N. delegate, made one of the harshest speeches of his career before the United Nations atomic energy commission.

Gist of his oratory was that the U. S. is to blame for failure thus far to attain international control of atomic energy. He charged the United States with attempting to establish a world atomic trust. To U. N. delegates who listened, it was a familiar line.

Cause of the flow of Soviet vitriol was the atomic energy commission's report which calls for international operation and control of dangerous atomic activities. Russia has consistently opposed any plan for inspection of atomic armament operations.

**HEADLINERS**

**IN NEW YORK . . .** Margaret Truman, coloratura soprano, was unanimously approved by the board of governors for membership in the American Guild of Musical Artists (AGMA) as a junior vocalist in good standing.

**IN TOKYO . . .** Hidekei Tojo, former Japanese premier, now on trial for his life as a war criminal, peered into the future, chose an epitaph for his tombstone: "By Buddha's grace all sins committed while living are absolved."

**IN LONDON . . .** Elliodor M. Libonati, visiting Legionnaire from Chicago, paused in front of No. 10 Downing street, the prime minister's residence, wickedly waved a handful of dollar bills in the air, attracted no takers.

Tojo

**PROSPECTOR: Lend-Lease**

Latest idea to come from British Foreign Secretary Ernest Bevin, who seems to be full of surprises, was that the U. S. revive its wartime lend-lease program to give Europe the economic shot-in-the-arm it so badly needs.

Coming as it did on the heels of his enigmatic proposal that the U. S. redistribute its 22-billion-dollar gold hoard in Fort Knox, the lend-lease angle was a real show-stopper.

And Bevin began to appear to the American mind like the old prospector, lost in the desert, dying of thirst, who drags himself toward a mirage, crying hoarsely for water.

His reference to the revival of lend-lease was as brief and cryptic as was his proposal concerning redistribution of the gold. No one, on either side of the Atlantic, was able to say whether or not he was serious.

England would carry on, though, he added; and, in a watered-down imitation of Churchill's fighting prose, thundered: "We may be short of what is called the balance of exchange, but we have character, we have a tradition; we will win through. We won't let you down."

**IKE BOOM: Gathers Force**

Gen. Dwight Eisenhower, currently the army's chief of staff, is due to become president of Columbia university in January.

Whether or not he will become President of the United States on the following January is developing into a matter of burning urgency, at least in the minds of some optimistic Republican politicians.

Ike, of course, disclaims any presidential aspirations, but he can't escape the fact that the Eisenhower boom is gathering considerable force, particularly in the Midwest. The spontaneous wave of Eisenhower sentiment sweeping the nation is genuinely phenomenal, politicians say.

Loudest booming is in and around Kansas City, Mo., where Roy A. Roberts, publisher of the Kansas City Star, stated unequivocally that Eisenhower is available. Alfred Landon, 1936 GOP nominee, has lined up behind the general too.

**Eisenhower**

phenomenal, politicians say. Loudest booming is in and around Kansas City, Mo., where Roy A. Roberts, publisher of the Kansas City Star, stated unequivocally that Eisenhower is available. Alfred Landon, 1936 GOP nominee, has lined up behind the general too.

**MEN'S FASHIONS**

**No High-Waters**

Men, who, everyone admits, are more functional than decorative, have not permitted any major changes in styling of their clothes since the day when they skinned out of their cast-iron coveralls and slid into velvet knee-breeches and weskits.

Lapels expand and contract from time to time, buttons increase and

**Drape of Things to Come**

decrease, belts in the back come and go, but otherwise the male habit remains in status quo.

In view of all that, and on the unimpeachable authority of Gerald Brosner (he's chairman of the style committee for the national association of retail clothiers and furnishers) the vicious rumor that men's pants will be shortened this year so as to display an endearing expanse of sock between shoetop and cuff is nothing but a vicious rumor.

As a rumor, he says, it is someone's horrible attempt to compensate for the longer dresses the girls will be wearing.

These—not short pants—are the new developments in store for the well-dressed caballero: Three-button coat, with less shoulder padding, slit in the back so that it has coattails; broader shirt collars; larger knots in ties.

That's all. No short pants

**AROUND THE HOUSE**

When ironing, remember that double thicknesses such as hems, collars and cuffs should be ironed first on the wrong side, then on the right.

Leave about an inch of top on carrots when preparing them for grating. This serves as a button on which to hold while grating the carrots and prevents fingers from getting too close to the grater.

Two thin coats of paint give better results than one thick coat. Sandpaper lightly between coats.

Don't open the oven door too soon after baking has begun. Wait until one-quarter of baking time has elapsed before peeking into oven. Otherwise cake may fall.

Keep knives in a wall rack or in a special place in a drawer where they do not expose you to cuts.

To remove smoke from a room quickly, dip a towel in vinegar and hot water (equal parts) wring out, and whirl it gently over the head about the room.

**U. S. Mints Making Coins at Cost for Foreign Nations**

Since 1874, the mints of the United States have been making coins at cost for foreign governments, whose combined orders at times have exceeded the volume of domestic requirements.

For example, during January, 1947, our mints produced 190,414,400 coins, 60 per cent of which were for other countries.

**St. Joseph 10 ASPIRIN 12 TABLETS STILL ONLY 10¢**

**Good Baby**  
Pure Resinol Soap, mild and refreshing, specially suitable for gently cleansing the tender skin. Soothing, oily Resinol Ointment medicated to relieve itchy burning of minor skin irritations.

**BE SAFE!**

Acidproof glass cloth covered collector tube.

Glass cloth trap will not deteriorate when attacked by engine oil acids, — an exclusive AC advantage.

When you buy an oil filter or replacement element be sure it's AC "5-Star Quality." Only AC Elements have an acidproof glass cloth Collector Tube Trap that prevents pollution of the oil stream and assures a free flow of clean oil. That's just one of the new "5-Star Quality" features.

**THE BIBLE TODAY**  
International Uniform Sunday School Lesson  
By LOUIE D. NEWTON, D.D.

SCRIPTURE: Ecclesiastes.  
DEVOTIONAL READING: Ecclesiastes 5:1-7.

**Worthy Objectives**  
Lesson for September 28, 1947

**THE** Book of Ecclesiastes, written by Solomon, B. C. 977, is profitable in the fact that it discloses the findings of a very remarkable man on life. Solomon tells us that he had tried every tempting offer of the world, but found it vanity. "Vanity of vanities, all is vanity," he declares. Solomon is often referred to as the wisest of men. He does not make this claim, nor would I suggest it. As a matter of fact, Solomon was a very unwise man in many of the manifestations of his life. He had every advantage, but yielded to selfish pursuits of pleasure when he might have been serving his day and generation by the will of God.

Why do I point to Solomon as an unwise man? From his own testimony—"I gave my heart to know wisdom, and to know madness and folly; I perceived that this also is vexation of spirit. For in much wisdom is much grief; and he that increaseth knowledge increaseth sorrow."

**Excellent Advice**  
EVEN so, Solomon was ready, by the time he wrote Ecclesiastes, to give some excellent advice. He had discovered that pomp and ceremony are meaningless—that they turn at last to ashes. For example, "He (God) hath made everything beautiful in its time," chapter 3, verse 11. Solomon had dealt in the artificial. He had worn the most costly robes, lived in the finest palaces, had gardens set up to please any passing whim.

But now that he has come to see the vanity of men, he can at last open his eyes to the beauty which God creates.

**Words of Wisdom**  
THE next section of Sunday's lesson brings us to one of Solomon's greatest confessions. He says, chapter 3, verse 14: "I know that, whatsoever God doeth, it shall be forever; nothing can be put to it, nor anything taken from it; and God doeth it, that men should fear before him."

We do well to remember that God is, and that he is good, and that he is sovereign. "This is our Father's world," wrote Maltbie Babcock. Here is a truth for today. In our dismay over the atomic bomb, we are about to forget that God intended for man to discover atomic energy, and he expected man to have enough moral stamina to use this discovery for his good and God's glory.

Which brings us to the heart of the Preacher's message, chapter 12, verse 13: "Let us hear the conclusion of the whole matter; fear God, and keep his commandments; for this is the whole duty of man."

**Seeking the Best in Life**  
SOLOMON, by his own testimony, missed much of the finer things of life; but he admonishes the reader to profit by his mistake and seek the best in life. For example, in chapter 2, verse 24, Solomon says: "There is nothing better for a man, than that he should eat and drink, and that he should make his soul enjoy good in his labour."

Every boy and girl in the world knows the joy of honest work, at least I hope so. Have you grown a beautiful flower? A vegetable garden? Cut a cord of fire wood? Then you know that work is one of the essential ways of seeking the best in life.

**Testing Life's Philosophies**  
SOLOMON concludes his confessions with this probing declaration: "For God shall bring every work into judgment, with every secret thing, whether it be good, or whether it be evil."

What is he saying? He is reminding us that whatever may be our philosophy of life, such philosophy, together with our commitments thereto, will be tested out under the white light of God's ultimate truth. My conclusion is that I desire but one thing—to find and follow the will of God, which is always right and always best.

## HOUSEHOLD HINTS

Instead of sewing snaps on very fine material, sew them to a piece of silk tape and whip the tape along the hem where the snaps are needed. Prevents snaps from cutting through when garment is ironed.

For pressing dark wool clothes, use a piece of dark wool next to the clothing and a dampened cotton cloth on top.

A box of ordinary correspondence cards makes an excellent file for your recipes.

## CLASSIFIED DEPARTMENT

### BUSINESS & INVEST. OPPOR.

GO IN BUSINESS for yourself. Complete Snow Cone equipment with supplies ready to set up in profitable business. Only \$65. Blevins Popcorn Co., Nashville, Tenn.

Make \$75 to \$100 Per Day Net Investment about \$7,000. Government surplus ice equipment which can easily pay off in 1 year. Investigate possibilities in your own town and see us at once. Only 2 available at this sensational low price. REFRIGERATION SERVICE CO. 1515 Blake, Denver, Colo. KE. 3121

### Kidneys Must Work Well

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling.

Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

DOAN'S PILLS

DREW PEARSON

### Another Glamour Probe Due

MOST folks would think that congress had had enough of Hollywood after that Brewster-Hughes fiasco. However, another big extravaganza is being cooked up by the house un-Americanism investigating committee that will outdo the Hughes probe in names and glamour, if not in headlines.

Until the curtain goes up, a publicity blackout has been ordered by committee chairman Parnell Thomas of New Jersey. However, it is known that a swarm of big-name actors and actresses will be brought to Washington next month to testify on alleged communism in Hollywood.

Even if the probe doesn't prove anything—which it probably won't—it will keep Congressman Thomas' name on the front pages—always helpful when one aspires to be GOP senator from New Jersey.

Thomas and his investigators are mum about which movie stars and producers will appear. However, it can be revealed that those scheduled to be invited or subpoenaed include:

Charles Chaplin, who filmed "The Dictator"; Katharine Hepburn, who introduced Henry Wallace to a Los Angeles rally; Adolphe Menjou, Robert Taylor, Director Leo McCarey and Hans Eisler, a Hollywood composer and brother of Gerhardt Eisler, recently convicted of contempt of congress. Jack Warner, who produced Ambassador Joe Davies' book "Mission to Moscow," at a time when we were wooing Russia, also will appear.

WALTER WINCHELL

### The Washington Ticker

The administration is split right down the middle into two blocs—liberal and conservative. The conservatives are led by Secretary For- restal, for whom the President has great respect, and include Harri- man, Krug, Snyder and Clark. The liberals are Bob Hannegan, Gael Sullivan, Schwellenbach and Clark Clifford. . . . The conservative bloc wants to force the ouster of Prime Minister Clement Attlee in Britain by insisting the British will get no relaxation of the loan agreement or other financial aid until Attlee is out, a coalition government is in, and the socialization of industry is stopped. . . . With the elections coming on, Mr. Truman is listening to the liberals on domestic policy.

U. S. Ambassador Griffis is dwelling in a Warsaw hotel because the home provided by the Polish government was taken over by 30 squatters, who resist every effort to shoo them out.

Dwight Griswold will resign as head of Truman's commission in Greece. Because, he says, Greek monarchists (and our state department) are giving him "the finger." He bitterly adds that he "isn't gonna hold anybody's bag!" . . . Another Truman exec will quit and take an offer (at 60 Gs) in private industry, unless he inherits Hanne- gan's chairmanship of the Demo- cratic national committee. Now why would any man want a thank- less (hat-in-hand) job like that?

PAUL MALLON

### Treasury Juggles Its Figures

PRESIDENT TRUMAN found the lost figures in his fiscal midyear budget review. Although dollar volume of business and income have been increasing since January, no one around the treasury has been able to find the figures showing how much this would increase receipts, and thus justify the Republican tax reduction.

When the June 15 quarterly income taxes came in to the treasury till, the Democratic actuaries should have been able to estimate immediately how much more money they would take in this present year than they had figured. But the Republican tax reduction bill was then under consideration in congress, so the actuaries just looked dumb, and pointed to the daily treasury statement, which is an unrevealing generalization of matters fiscal.

By June 30, this statement showed receipts were actually down the first six months of this year over last, instead of up above the budget calculations. Even at the fiscal year end, Treasury Secretary Snyder merely estimated the surplus larger than expected for the closing year and warned against tax reduction, as you will recall.

By this, little fiscal ruse, the Democrats caused the Republicans to use the six-month-old budget estimates of last January, which kept them on the defensive and forced them to justify any tax reduction by the amount of economies they could make.

H. I. PHILLIPS

### Super Duper Russian Tomatoes

Russia has perfected a spray that grows tomatoes three times normal size. However, the effect of them dropped on an enemy city remains undetermined.

And we still consider Russia's production of a super tomato totally eclipsed by its production at U. N. meetings of the super hard-boiled egg.

How to annoy a Republican: Send him a ticket to "The Roosevelt Story."

VANISHING AMERICANISMS "Here's a penny for being a very good boy all week."

"A feature of the Elks' outing will be a sheep roast and barbecue."

"This beef stew is too thick, waiter."

"Make it 20 gallons, I wanna bust a two-dollar bill anyhow."

"I'm sick of meat; why don't we have fish once in awhile?"

"Whatever you do, don't let the women see you drinking."

There is this to be said of the liberation of India: Lord Mountbatten gave it an air that not even Tyrone Power could have improved on.

WALTER SHEAD

### Two-Party System Falter

SEN. RAY BALDWIN of Connecticut spoke truly when he chided his Republican colleagues: "If we are to remain the majority party we must act effectively in the interest of a majority of the people. If we act only in the interest of a minority of rock-ribbed Republicans, we shall again quickly become a minority party."

The record of the first session of the 80th congress bears out the Connecticut senator's charge, but the charge fits equally well the record of the 79th congress which legislated in the interest of a minority of rock-ribbed Democrats.

Our two-party system doesn't contemplate government by coalition, but during both the 79th and 80th congress it was evident the trend toward continued progressive government was halted and the clock turned back by this coalition of southern Democrats and Republicans, aided and abetted by the pressure groups of self-interest lobbyists.

The power of recall held by the voters of the nation is helpless against this kind of government and a return to strict party responsibility, essential in our democracy, will be the best insurance against the evils of communism and fascism spreading dangerously as a result of Tory irresponsibility.

### Ain't It So?

Everybody knows good counsel except him that has need of it.

A night club is a place where the tables are reserved and the guests are not.

Time is money to everybody but the forger. With him it's the other way round.

Many a person develops his opinions in the dark room of prejudice.

Many a girl who loves a man from the bottom of her heart finds room for another at the top.

### AROUND THE HOUSE

Before cutting out garments from patterns on the dining-room table, spread the asbestos mat on the table to avoid marring it.

When hanging clothes to dry hang large items first because smaller ones can be fitted into remaining spaces easily.

When you wash your ironing-board cover, put it back on the board while still damp and fasten securely. When dry, the cover will fit smoothly. This same idea can be applied to slip-covers.

Set aside a certain day of the week for answering letters. Lengthy epistles aren't entirely necessary. A brief note, but interesting, will fill the need. Write bits of information that you know your friends are interested in hearing about. The letter you write cements your friendship.

### Ancient Sealed Bottles

Owing to the method by which they were sealed, bottles found in ancient tombs have sometimes contained much of their original liquid contents, says Collier's.

Among recent cases, a bottle of wine discovered in a 1,700-year-old grave in Germany was one-third full; and a bottle of honey found in a 3,300-year-old tomb in Egypt had undergone no change whatsoever.

### With the Roar of a Lion Steam Organ Was Born

An Englishman by the name of Dennis invented a musical instrument which, when it was first tested in 1859, frightened people to such an extent that they thought the Day of Judgment had arrived and fell on their knees in the streets to pray. It was the steam organ "Calliope," meant to steam organ "calliope."

A trial performance was arranged at the Crystal Palace in London. There, a clumsy iron construction stood on the platform; on its left side it had huge metal cylinders in which hot air and steam were produced by burning charcoal. This hot air and steam were forced through the pipes of the organ.

### Works While Child Sleeps

To Ease Distress of Colds During the Night

PENETRATES into upper bronchial tubes with special soothing medicinal vapors.

STIMULATES chest and back surfaces like a warming, comforting poultice.

As soon as you rub VapoRub on throat, chest and back at bedtime it starts to work instantly to ease miseries of colds. It invites sleep and works for hours during the night to relieve distress. Often by morning most misery of the cold is gone. Only VapoRub gives this special penetrating VICKS action. Try it!

# All Iowa's Eggs Are Not Confined to One Basket

WNU Features.

DES MOINES, IOWA.—If all the eggs laid in Iowa in one year were fried "sunny side up" and stitched together into a giant patchwork quilt, they would blanket an area eight times the size of the Chicago loop.

Known as "America's egg basket" because it ranks first in production of eggs, Iowa earned \$119,105,000 from this product in 1945, latest year for which figures are available, according to a report compiled by the Iowa Development commission. In that year the state produced 4,327,000,000 eggs and grossed an income from eggs amounting to three times the gross income from all citrus fruit (lemons, oranges and grapefruit) produced that year in Texas.

Iowa produces 7 per cent of the nation's entire consumption of eggs, rated as one of the seven basic foods necessary to assure good health.

The state appears destined to lead all other states in production of this protein food for many years to come, the development commission maintains, pointing to Iowa's proper climate and enormous feed production possibilities as well as to the fact that producers are interested in exporting superior poultry and egg products.

Egg production in Iowa has encouraged considerable industrial development. Produce plants were organized in the state more than 60 years ago. With development of cold storage houses came introduction of refrigerator cars which deliver eggs in good condition to cold storage houses in various consuming centers. Iowa ships more eggs annually to Boston, Chicago, Philadelphia and New York, the four great egg markets of the country, than any other state.

Many of Iowa's eggs are reduced to liquid form, egg breaking plants having been established in 48 localities. Fourteen dried egg plants also are located in the state.

Trailing Iowa as top poultry states of the nation, on the basis of 1945 figures, are: Minnesota with 3,757,000,000 eggs produced, \$107,557,000 gross income; Texas, 3,309,000,000 eggs produced, \$94,084,000 gross income; Missouri, 2,890,000,000 eggs produced, \$78,474,000 gross income; Ohio, 2,781,000,000 eggs produced, \$88,306,000 gross income; Illinois, 2,757,000,000 eggs produced, \$76,916,000 gross income, and Pennsylvania, 2,491,000,000 eggs produced, \$93,526,000 gross income.

## Old-Timers Tour East In Wheezing 1902 Car

PETERSBURG, VA.—"In their merry Oldsmobile," William A. Worth, 70, of Petersburg, and his sister, Eunice, 69, of New York, are making a 4,000-mile vacation tour of the East.

Their Oldsmobile, however, is an ancient 1902 model. It has only one cylinder, a lever for steering, and is devoid of top, sides or windshield. Operation costs, Worth figures, total a cent a mile.

Worth set out from his home here, picking up his sister in New York.

**CHEEP! CHEEP!** The feeble sound which these baby chicks emit is not representative of the egg output of Iowa, which ranks as the "egg basket of America." This picture, submitted by S. W. Lock of Mason City, Iowa, won honorable mention in the Greater Iowa photographic contest sponsored by Iowa Development commission at the state fair.

## Pastor Preaches Sermon Without Saying a Word

MACON, GA.—One minister who admits that he preaches his sermons without saying a word is the Rev. James M. Johnston, 25-year-old assistant pastor of the Four-square Gospel church here.

He has inaugurated special services for the deaf and dumb members of the congregation, delivering regular Sunday sermons entirely through the standard hand signal alphabet.

The plan started one Sunday when Johnson noticed several deaf and dumb people in the congregation listening to the pastor preach. But they weren't hearing a word. Johnson stood beside the pastor, translating the sermon into hand signals.

Johnson admits the method has its drawbacks. When his congregation "sings" hymns, you can't hear them. You have to be content with seeing what they mean, he explains.

In some respects, Johnson feels, his mute congregation has it all over their brethren who can hear and talk. Using hand signals, Johnson says, he has three different ways to say "Praise the Lord" and three more ways to say "Hallelujah."

## He Misunderstood

The Washington Biological Survey has changed the wording of the metal bands used to "ring" birds released in connection with its researches into American bird life. It now reads: "Notify Fish and Wild Life Services, Washington, D. C."

The old inscription was the abbreviated: "Wash. Biol. Surv." and the change was made after an Alberta farmer sent in a complaint to the U. S. government.

"Dear Sirs," he wrote, "I shot one of your pet crows the other day and followed instruction attached to it. I washed it and biled it and served it. It was terrible. You should stop trying to fool the people with things like this."

## ASK ME ? ANOTHER ?

A quiz with answers offering information on various subjects

### The Questions

1. How many different castes are there in India?
2. How long is the Panama canal?
3. Is the red fox a native of North America?
4. Where is the force of gravity felt the least?
5. What is another name for tuna?
6. Can a horse run faster than a man for a mile?
7. Who was William Shakespeare's wife?

### The Answers

1. Between 3,000 and 4,000.
2. 40 miles from shore to shore.
3. There once was a native American red fox, but about 1750 the European red fox was introduced into this country, and the present red fox is the result of this mixed breeding.
4. At the equator.
5. Horse mackerel.
6. Yes, for several miles. But if they keep running long enough, the man will ultimately win.
7. Ann Hathaway.

## Set Up a Fortune Telling Booth at Your Party and Keep the Crowd Entertained

### Card Fortunes Thrill

WHETHER you're planning a charity bazaar or a party of your own, you can always count on a fortune-telling booth to keep the crowd entertained.

Bedeck yourself in a colorful turban and dangling earrings; get out a deck of cards, dice, dominoes, a crystal ball or the tea leaves—and you're set for some fun!

Our Weekly Newspaper Service booklet No. 65 explains fortune-telling by six fascinating methods. Send 25 cents (coin) for "Let Me Tell Your Fortune" to Weekly Newspaper Service, 243 West 17th St., New York 11, N. Y. Print name, address, booklet title and No. 65.

## Furniture Must Date From Before 1831 to Be Antique

Just how old does a piece of furniture have to be before it can properly be called an antique? The year 1830 has been accepted by antique furniture dealers in America as the last year of artistic merit, consistent with U. S. treasury department rulings, to warrant the stamp of antiquity.

Furniture produced after 1830 is considered semi-antique. In America nothing Victorian has been accepted as antique, but in Great Britain the first year of Victoria's reign—1838—has been accepted.

## Gagged Nagging Women

Women in the Seventeenth century were often tried for nagging. If they were convicted, they were led through the streets wearing iron muzzles over their heads with mouthpieces that formed a gag.

## STATE FAIR

OPENS SUNDAY, SEPT. 28

FOR 8 GREAT DAYS

HEAD FOR ALBUQUERQUE

### Meat Identification Contest At State Fair

Addition of two important exhibits in the 1947 New Mexico State Fair, opening Sept. 28, was announced by Leon H. Harms, fair manager. R. C. Pollock, general manager of the National Livestock and Meat Board, Chicago, wired Harms that he was meeting the joint request of the State Fair and the New Mexico Cattle Growers Association and is sending to the fair the meat board's famous Meat Identification Contest, a display that has

been a feature attraction at the major national livestock shows of the past two seasons. The display, elaborately mounted under glass, includes every merchantable cut of meat from the beef, lamb and pig carcasses. At the International Livestock Show, Chicago, last year, traffic officers were required to handle the crowd around this exhibit.

The other display is that of the United States Department of Agriculture, filling an entire freight car and now rolling toward Albuquerque from Lincoln, Neb., where it was a feature of the Nebraska State Fair.

The exhibit is 90 feet long. It illustrates planned production on the farm, soil and water conservation, pasture and range forage plants, the dairy industry, including a mechanical cow demonstrating the exhibit subject, "Cows Aid Conservation." Al Jarrett, Soil Conservation Service, Albuquerque, has been designated as supervisor of the exhibit. Both exhibits will be set up in Agricultural Hall, Harms said.

### COUNTY RESOURCES FROM EDDY AND QUAY

Entry of county resources by Quay and Eddy counties brought to 15 the number of New Mexico counties entering such exhibits in the 1947 State Fair, the fair management announced, following the Sept. 8 closing date for entries in the county exhibits division. It is the largest number of counties to make displays at the fair, Manager Leon Harms announced.

From where I sit ... by Joe Marsh

### We All Need Fun!

Nobody in Our Town is exactly lazy (even though Pete Swanson's missus claims he sleeps till seven A.M.). But the hardest working man of all is Doc Hollister—on call, morning, noon and night.

Funny thing, Doc's favorite prescription to his patients is: You ought to have fun. The pace of modern living, even on the farm, demands some relaxation.

And as Doc says—fun is a personal thing. For the missus it may mean a movie or a good book; for Dad, a mellow and refreshing glass

of beer; and for the kids, parcheesi or the radio. Doesn't mean everybody has to like the same thing—so long as they relax, have fun, together, in the home.

Doc doesn't have much time himself. After a hard day, he'll relax before the fire with a glass of beer—and wait for the phone to ring again. And from where I sit, Doc deserves each well-earned minute of that relaxation.

Joe Marsh

# HOUSEHOLD MEMOS... by Lynn Chambers

Pastry Makes a Delightful Dessert (See recipes below.)

## Pastry Tricks

Now that cooler weather has come, we can all indulge in a few of the richer desserts that we've been avoiding during hot, sweltering weather. Since it's cooler you won't mind using the oven if baking the pie is required, and you won't mind taking the extra time for their preparation.

There was a time when we thought of pie as something with a crust made of shortening, flour and water, but now there are many new crumb crusts from which to choose—and sometimes these are even better with certain types of fillings. If you want a real taste delight, experiment with new crusts, novel fillings, and gather yourself a new and delicious collection of pastries from which to choose desserts. We all grow tired of eating the same things day in, day out, and there's so much new in the way of foods, it's just not a smart homemaker who doesn't find different touches to add to her menus.

Since fall is on the way, you'll be using pumpkin quite often. Here are two excellent variations of the old fashioned pumpkin pie, both of which are guaranteed to make a hit with the family.

### Orange Pumpkin Pie (Nine Inch)

- 1 teaspoon ginger
- 1 teaspoon cinnamon
- ¼ cup boiling water
- ¾ cup brown sugar
- ½ teaspoon salt
- 2 eggs
- 1¼ cups pumpkin
- 1 cup evaporated milk (scalded)
- 3 tablespoons orange juice

Make a smooth paste of the spices and water. Add with the sugar, salt, and beaten eggs to the pumpkin. Stir to blend thoroughly, then add hot milk. Add orange juice and pour immediately into an unbaked pie shell. Bake in a hot oven (425 degrees) 15 minutes, then reduce to a slow oven (300 degrees) and bake until filling is just set.

### Pumpkin Chiffon Pie With Gingersnap Crust (Nine Inch)

- 3 egg yolks, slightly beaten
- 1 cup sugar
- 1¼ cups pumpkin
- ½ cup milk
- ½ teaspoon cinnamon
- ½ teaspoon salt
- ½ teaspoon ginger
- ½ teaspoon nutmeg
- 1 tablespoon gelatin
- ¼ cup cold water
- 3 egg whites

Combine egg yolks, ½ cup sugar, pumpkin, milk, and spices. Cook in double boiler until thick. Soak gelatin in water 5 minutes, add to pumpkin mixture. Mix and cool. When thick add remaining sugar and fold in stiffly beaten egg whites. Pour in pie shell and serve with whipped cream.

### Crust

- 1½ cups gingersnap or graham cracker crumbs
- ¼ cup butter (scant)
- ¼ cup confectioners' sugar

## LYNN CHAMBERS' MENU

- Green Peppers Stuffed With Meat
  - Buttered Rice
  - Asparagus Vinaigrette
  - Grape and Melon Salad
  - Muffins
  - \*Cottage Cheese Apple Pie
- \*Recipe given.

Combine all ingredients. Pat firmly into pan, chill for several hours. Fill with above filling and chill.

### Lemon Chiffon Pie (Nine Inch)

- 1 envelope plain unflavored gelatine
- ¼ cup cold water
- 4 eggs
- 1 cup white corn syrup
- ½ cup lemon juice
- ½ teaspoon salt
- 1 teaspoon grated lemon rind

Soften gelatine in cold water. Beat egg yolks, add corn syrup, lemon juice and salt. Cook in double boiler until of custard consistency, stirring constantly. Add softened gelatine and stir until dissolved. Add grated lemon rind. Cool, and when mixture begins to thicken, fold in stiffly beaten egg whites. Turn into baked pie shell or crumb crust and chill.

### Honey Crumb Pie Shell

- 3 cups oven-popped rice cereal
  - 2 tablespoons honey
  - ¼ cup melted butter or margarine
- Crush rice cereal into fine crumbs. Add honey and butter; mix well. Press evenly and firmly around sides and bottom of pie pan. Bake in slow oven (325 degrees) about 10 minutes. Cool before adding filling.

### \*Cottage Cheese Apple Pie (Nine Inch)

- 1½ cups apples, sliced thin
- ¼ cup sugar
- ¼ teaspoon cinnamon
- ¼ teaspoon nutmeg

Combine apples, sugar and spices. Pour into pastry lined pie tin. Bake in a hot oven (425 degrees F.) 15 minutes. Meanwhile add sugar and salt to eggs, combine with hot milk and cream. Add vanilla and cottage cheese. Pour over apple mixture. Continue baking in a moderate oven (325 to 350 degrees F.) 40 minutes, or until mixture sets and is a delicate brown.

### Date Cream Pie (Nine Inch)

- ½ cup sugar
- ¼ cup cornstarch
- 1 teaspoon salt
- 2 cups thick sour cream
- 2 eggs, slightly beaten
- 2 cups dates, quartered
- ¼ cup pecan meats, chopped
- 1 teaspoon lemon juice
- 9-inch baked pie shell

Combine sugar, cornstarch and salt. Add cream. Cook in double boiler, stirring constantly, until thickened. Add eggs, then dates and pecan meats, stir well, cool. Add lemon juice, pour into pie shell. Cool. Top with whipped cream.

Released by Western Newspaper Union.

# Smile Awhile

**Good Training**  
She—Where did you learn to kiss like that?  
He—Clucking at the horses.

**Come Back**  
Manager—Didn't you get my letter firing you?  
Boy—Yes, sir; but on the envelope it said "Return in five days!"

**Labor Lost**  
Math Teacher—And so we find that X is equal to zero.  
Frosh (amazed)—What? All that work for nothing?

**Doc's Orders**  
"Why do you come back day after day and knock on my back door?" asked the lady of the tramp.  
"My doctor told me that when I found a diet that agreed with me to stick to it."

For sale, baker's business; good trade; large oven; present owner has been in it for 7 years. Good reason for selling. — Advertisement. He should be browned off by this time.

## Gems of Thought

LET us have faith that Right makes Might and in that faith let us to the end dare to do our duty as we understand it.—Abraham Lincoln.

Great men undertake great things because they are great; fools, because they think them easy.—Vauvenargues.

You cannot prevent the birds of sorrow from flying over your head, but you can prevent them from building nests in your hair.—Chinese proverb.

Those who never retract their opinions love themselves more than they love truth.

## Jenny Lind's Concert Tour Created Greatest Furor

America's greatest furor was that created by Jenny Lind, the Swedish singer, during her concert tour (1850-1852), says Collier's.

Its extent is indicated by a collection of Lindiana owned by the New York Historical society which contains, among its thousands of items, scores of the countless articles on which her name and portrait were used as a trademark or decoration, such as bonnets, beds, whiskies, wallpapers and even men's fancy vest buttons.

## SNAP! CRACKLE! AND POP! SAY...

P.S. Be sure you get America's favorite rice cereal, the one and only Kellogg's Rice Krispies!

SEVENTEEN THOUSAND DOLLARS from 50 acres of single cross hybrid seed corn! That was one of the accomplishments last year of Champion Farmer John J. Gannon and his father, William P. Gannon, on their 785-acre farm near Valeria, Iowa. Hog sales totalled over 400 head. In a recent month, 16 purebred Guernsey cows, three of them dry, returned \$504.78 over feed costs. Seventy head of purebred Aberdeen-Angus cows, and their calves, provide a profitable outlet for roughage. So does a flock of sheep. The Gannons bale 7000 bales of hay annually. Careful pasture management, manure and commercial fertilizers, and a soil conservation program keep the farm highly productive. For economy and efficiency in operating their farm equipment, Champion Farmer Gannon has found it pays to depend on Firestone tires. When he and his father buy new tractors, they specify Firestone Champion Ground Grips. In the photograph, Shelia Ann Gannon with her grandfather, William P. Gannon, and her father, Champion Farmer John J. Gannon.

For more information about Champion Farmer John J. Gannon, write to The Firestone Tire & Rubber Co., Akron, O.

# Champion Farmers Specify Firestone CHAMPION GROUND GRIPS

TO GET extra pulling power... longer tire life... and smoother riding, Champion Farmer John J. Gannon and his father specified Firestone Champion Ground Grips for their new tractor.

Tests show that Firestone Champion Ground Grips clean up to 100% more effectively, pull up to 62% more, last up to 91% longer, and roll smoother over highways than any other tractor tires. . . important facts to cost-conscious farmers.

Only Firestone Champion Ground Grips are made with connected curved traction bars. These bars clean with a plowlike action . . . giving the Champions more pulling power. Extra tread rubber in the bar connections gives them a "Center Bite" in the heart of the traction zone. This, too, means more pulling power. The extra rubber in the connected tread increases tire strength . . . lengthens tire life . . . money-saving points you can't overlook when you buy new tractor tires. So when you buy . . . buy the best . . . buy Firestone Champion Ground Grips.

Listen to the Voice of Firestone every Monday evening over NBC Copyright, 1947, The Firestone Tire & Rubber Co.

OUT CLEANS  
OUT PULLS  
OUT LASTS

ANY OTHER TRACTOR TIRE

Only FIRESTONE CHAMPION Ground Grips take a "CENTER BITE"
