We have been meaning to let you know what we have been doing. Oct. 13 , Sammy Teel was seven and we had a birthday party. It was not the first one we had attended. In Sept. Sybil Nunnelee was six and we celebrated with her. Then in the same month Ann Merritt had a party in Mrs. Lea's room and we were invited. We would like to have partys every day but I guess that would mean not ever having spelling, science and phonics. That is our schedule for the last hour of school Second graders are reading books right alongg. Nearly every one of
them have read at least 10 books the $m$ have read at least 10 books

## Chavez Takes <br> Trip to Spain

WASHINGTON, Oct. 16-(Special) -Senator Dennis Chavez left Oct. 14 for Spain on a mission for the Senate Appropriations committee in connection with the U.S.-Spanish pactt on air and naval bases in that stra tegic European nation.
senator Chavez said he had been designated by Senator Styles Bridges (R-N.H.) chairman of the Appropriations committee, to make the trip Harold Mor will be accompanied by Harold Merrick of the Senate Appro priations committee staff and by rs. Chavez.
The senator said he is to look over the proposed nine naval and air bases planned on Spanish soil and would aiso visit at U.S. military bases in North Africa on the trip, which will keep the senator overseas several weeks. his itmerary calls for headquarters at the Spanish capital of Madrid with official visits with U.S military pjersonne lo the following cia. El Ferrol, Barcelona, Valen Cadiz and Seville.

The senator and Mrs. Chavez will go to Europe by boat, arriving in Madrid about Oct. 26. The senator, fourth ranking Democrat on the Senate Appropriations committee, will be joined in Madrid by Merrick and by U.S. Air Force and naval personnel.
The U.S.-Spanish agreement sign ed a few days ago permits the United States to either take over existing Spanish military bases or build new ones as may be needed. The agree ment also calls for the U.S. to provide $\$ 215$ million in American aid for Spain to go for the modernization of her armed forces, highways and rail networks as a bolster to the country"s economy and as a defense gainst Communism
In North Africa, the senator expects to headquarter at the big U.S base at Rabat in French Morocco and make trips from there to various key areas in that continent and the Medi terraean.

And I will add Do it first. As that is what we are all doing anyway. Never mind ethićs Get the money.

For the past 20 years government spending on war and defense preparation has been the major stimulus for the American economy. In those 20 years the government has spent $\$ 775$ billion, which is 10 times more than the total amount of money in circulation in the entire world. This huge spending made the federal government a tremendous factor in the nation"s economic life. It cannot continue indefinitely to play this dominant role without breaking down the economic and political in stitutions that have made our free dom and prosperity possible.
Forty years ago the federal gov ernment spent two percent of the national income. Twenty years ago it spent 10 per cent of the national income. Today it is spending 25 per cent. If the people of America were to permit it, this percentage would go on up, and our economic free $\alpha \mathrm{sm}$ would be correspondingly restricted. Studies have shown that when taxation goes much beyond 25 per cent all freedom is affected. And history shows that a government will grow constantly in size and power unless the people put on the brakes.

## Paralyzing Rates

In order to get the big money it has been spending in recent years, the federal government has had to constantly push up the rate of taxation. It now has pushed tax rates up to as much as 92 per cent in the upper income brackets. The system leves these high rates on business incomes and then turns around and levies heavy taxes on the same moriey after it has been divided up in dividends to individual stockholders. The most successful businesses must pay out in federal taxes $\$ 9$ of every $\$ 10$ of its profits. This is a ridiculous situation.

In the 20 years of big spending, the family bread-winner earning \$4,000 a year saw his income taxes jump from $\$ 44$ to $\$ 488$ a year. The $\$ 25,000$ individual income of 20 years ago was taxed $\$ 2500$; today it's taxed $\$ 7500$. In the calendar year 1953 President Eisenhower gets $\$ 150,000$ in salary, and he has an additionated at $\$ 1000-$ a total of $\$ 160,000$. His federal ncome tax (Continued on Page 4)

## Today's Meditation

As a shepherd seeketh out his flock in the day that he is among his sheep that are scattered; so will I seek out my sheep, and will deliver them out of all places where they have been scattered in the cloudy and dark day. Ezekiel $34: 12$. Read Ezekiel 33:3 or Romans 13:1-6.
People are often troubled in spirit when they go to church They are all when they go to church. They are all the week round buffeted by the world. They are weary in body and sick in soul. They come to worsnip God, to find solace and health in His presence. It is good that by listening to the words of the preacher and joining in the hymns and prayers, the worshipers forget for one short hour the world with its bickerings and troubles.
And if sometimes the words of the sermon probe the deep wounds of their hearts, or the thunder of Sinai makes the sinner tremble and be afraid, that also is good The main thing is that the divine Voice be aud ible through and within the human voice or instrument. Then the preachvoice or instrument. Then the preach-
er is a er is a prophet, and the church is
doing its task of priesthood in bringing God near to men and men near to God.
Lord of life, Thou Shepherd of the sheep, Thou art faithful in Thy desire and tireless in Thy efforts to bring us into the fold of Thy blessedness. Help us to hear Thy voice and cry out for deliverance from evil. Speak to our hearts through Thy church. Keep us faithful. In the Shepherd's name. Amen

THOUGHT FOR THE DAY

 is $\$ 92,000$. Study MadeTax rates such as these put a heavy yoke on ambition and cripple the profit motive that has sparked our nation's progress. They would be permissible for a short time in exreme national emergency, but other wise they are detrimental to freedom and progress. The U.S. News, one of hee top news weeklies, has just completed an intensive study of taxes and how they operate to stitie or stimulate the private economy. Here are some significant conclusions:
Steep, progressive tax rates on income have resulted in diminishing urns in peacetime from ail income

Tax rates, whe
tax rates, when reduced," reports he magazzine, "have tended to bring an expansion in taxable income and 10 result in less loss of income linan the rate cut might suggest.
'Clearly, investment is discourag. ed by the present tax system. But if apitalism is to work, investment in isk-bearing enterprises is essential o gruwth and expansion."
It is true that in the last 20 years Imerican industry has expanded thut the expansion has been stimulatd largely by the federal governd largely by the federal governlent's huge expenditures on war. We dare not accept a war economy long. $r$ than is absolutely necessary beause of the danger of federal govnmeni dominance becoming perlanent. The transition away from is dominance should begin at once. 3 the shift is made private enterise can expand normally and whole meiy if tax rates are cut so that inntive for investment is restored. ven normal incentive the private terprise system will carry our nain to $h$ gher and higher living stanrds, whereas a government domin-
sted system would shortly begin low ering our standatd of living.

## Two Subjects

## To Study

So far as domestic problems and issues are concerned, two subjects are being given intense attention now. One is whether or not there is going to be a busines srecession of substantial proportions. The other is what, if anything, will happen to the tax system and the tax rates.
A high official view on these and other matters was recently provided by Secretary of the Treasury Humphrey in a question and answer ses sion at the National Press club
Mr. Humphrey made it clear at the outset that he doesn't claim to be outset that he doesn't claim to be
able to see into the future with accuracy. However, he found no reasaccuracy. However, he found no reasany calamity or any great difficulty." He pointed out that production and employment are at the hignest peak we have ever known. At the same, he recognized the fact that soft spots must inevitably appear. Then he made this observation: "The greatest thing that could happen to us in this, country would be to have one indusry at a time do a little readjusting n its own affairs and then be back again. The thing we don't want is to have everybody readjust all at once. i see no reason why anybody should be alarmed about business conditions
ioday. In fact, I am very encouraged about them and I am optimistic."
bout them and I am optimistic."
The Secretary was then asked if the Administration has plans to offset a recession should it appear. To this he replied with ${ }^{-}$an emphatic yes, though he did not go into specific details as to what the plans involve. No Administration, he said, could permit an economic catastrophe if said: "I think the proper way to stop it is think the proper way to stop it is to do the sound things in money
and finance, the sound things in and finance, the sound things in
business and production, in distribution, that can be done to let free, competitive enterprise operate itself
in the right kind of way.
Moving on, M!. Humphrey came to the question of taxes. A short time before the President had made an address in which he warned, in eflect, that the Soviet menace to the free world was unabated, and many commentators assumed from this that commentators assumed from this that
pasi Aammisuration plans for tax cuts pasi Aaminisuration pians ior tax cuts
would be abandoned. Going by Mir. would be abandoned. Going by Mir.
numphrey's remarks, that is not the numphrey's remarks, that is not the
case at ail. He said: "If the deficit case at all. He said: "If the defleit
we are going to run is as we now exwe are and anticipate, if we can conwane 10 make the progress in the reduction of expenditures for the rest of the year that we have made so far, I think the tax cuis should go through just as planned." specitically he said that, under these conditions, the excess profits tax wiil be allowed to expire, and the personal ncome tax reduction scheduled for the tirst of the year will go into ef rect.
The Secretary made another very important general statement on the tax question. As economist after eco nomist has argued, the federal tax sysiem is chaotic and inequitable -
like Topsy, it just grew without any like Topsy, it just grew without any cohesive plan. Apparently the Administration shares this view. Mr. Hum phrey said that the whole tax system is being intensively studied, and add ed: "There are many, "many things that determine how taxes react and rellect on earnings, on jobs, on em ployment, on the volume of produc tion . . . It isn't just who pays what; it is much broader than that. It covers the wnole field of the success of our economy. We are going to try 20 come up with a program we can de lend because we have tacts in abunfand because we have facts in abun aance to support us in it.

## Today's Meditation <br> If we walk in the light, as he is in

 the light, we have fellowship one with another.-1 John 1:7. Read John 2:7-11.When I was a boy, I once was walk ng toward my home late in the eve ming. The road ran through a forest i had no light to guide me. Before long, I heard the murmuring voices of two persons moving o nahead of
me in the darkness. 1 feit uneasy. me in the darkness. 1 feit uneasy.
Then a motor car approached from
Then a motor car approached from Quite clearly now I could see the persons walking ahead of me. At the Hoationc wien the motor car passed them, they turned their faces against the light. They were my brothers Without knowing anything about it we threc had been walking the same way. When the light came, we found and had fellowship one with an uther.
The light of God comes to us through His Holy Word and in the person of Christ. Living in this light people recognize one another as be longing to the same sreat family. In Christ, we have the best, most aderguaie fellowship possible upon earth.
Grant us, heavenly Father, in all times of spiritual darkness, the light of Thy Word. Clear our vision that we may have fellowship through CChrist. Teach us the art of living together in peace and good will. In Him who is our peace. Amen.

THOUGHT FOR THE DAY
Christ has called us out of darkness into His marvelous light.
