## MISD Observes Red Ribbon Week

#### around Muleshoe

Jog on over to the Muleshoe High School Cafeteria for the FHA pre-game dinner Friday, October

Enchiladas, Taco Bar, Beans, Rice, Tea and Coffee and Mexican Chocolate Cake will be served between the hours of 5 and 7 p.m.

Tickets are \$5.00 for adults an \$3.50 for children. Deliveries will be made.

Kevin Smith told the Journal Tuesday morning that he still has the antique iron that was left at the Civic Center during the Bailey County West Plains Fair.

If this is your iron you may pick it up between the hours of 9 a.m. and 12 noon or 1:30 to 4:30 p.m.

S.C.-Pvt. Warren L. Duke has completed basic training at Fort Jackson, Columbia, SC.

During the training, students received instruction in drill and ceremonies, weapons, map reading, tactics, military courtesy, military justice, first aid, and Army history and traditions.

He is the son of John E. and Deanna L. Duke of Friona.

The private is a 1992 graduate of Friona High School.

#### Former Mayor Darrell Turner To Be Honored

The Jennyslippers are honoring former Mayor Darrell Turner with a reception Sunday, November 1 from 2 to 3 p.m. in the Old Depot, Heritage Center on West American Blvd.

Anyone who wishes is welcome to attend the reception, according to the Jennyslippers.

'SAY NO TO DRUGS'-- Julian Dominguez, Muleshoe City Policeman presented Mrs. Donaldsons' third grade class at Mary DeShazo Elementary phamplets concerning Drug Abuse, Tuesday morning. (Journal Photo)

## **Needed Crop Insurance Deadline Approaches**

The Federal Crop Insurance Corporation (FCIC) is reminding farmers of the October 31 sales closing date for insurance on seven major crops. "This deadline is especially important to many growers," stated FCIC manager James E. Cason, "because they must purchase insurance for 1993, on the same crops for which they will be seeking 1992 disaster assistance payments." The seven crops include under the October 31 sales closing date are wheat, barley, oats, rye, nursery crops, potatoes and sugercane.

The 1990, Farm Bill established mandatory linkage between crop insurance and disaster assistance. The law requires that, with some exceptions, farmers must purchase crop insurance on their 1993, crops as a condition for receiving disaster payments on the same crop for losses suffered in 1992.

"As the primary federal program to provide reliable and predictable assistance to farmers to manage the risk of crop failure, federal crop insurance provides an essential element of economic protection and stability for both farmers and taxpayers," Cason said. "This program assures that crop losses do not cause economic catastrophe for the farmer or the federal budget," he continued.

In order to help farmers comply with the law, FCIC granted an extension on the original sales closing date allowing producers insurance. Farmers cannot avoid the crop insurance requirement by lelaying disaster sign-up and are equired to obtain a 30 percent or nigher market price election to qualify for disaster assistance.

FCIC is a wholly-owned

#### Trick-Or-Treaters Urged To Be Careful Halloween committee's second choice was a 7-

Saturday, October 31 is Halloween and the Muleshoe Police Department and Department of Public Safety want to encourage all the trick-or-treaters to be careful.

"Parents please have your children carry flashlights and wear light colored or reflective clothing," said Phil Provence. "This is a fun time of year for our children and we do not want it marred by tragedy."

Major Vernon Cawthon, Regional Commander of the Texas Department of Public Safety, says, "It's a good idea to insure costumes fit well, not too tight or too loose, causing a child to trip and fall. Painting the child's face with makeup is preferable to wearing a mask, which obstructs vision. Make sure all costumes are made of non-flammable material, especially wigs and masks. Young children should always be accompanied by an adult. If you do not accompany your child, instruct him to go out with a group and not stop at homes which are dark. Costumes should be reflective or a place of reflective tape placed on the costume and bags. Everyone should carry a

Major Cawthon went on to say that all candy should be taken home and checked prior to anything being eaten and if a suspicious treat is found contact the police. For those who plan to participate in handing out treats turn on your porch light to let children know

government corporation established in 1938 as an agency within the U.S. Department of Agriculture. It currently offers insurance coverage Cont. Page 6, Col. 2

Red ribbons and classroom activities are only two of a number of things students and teachers in the Muleshoe Independent School District are doing to help combat Drug Abuse in Muleshoe. The week of October 24 has been declared National Red Ribbon Week by the Region 17 Educational Service Center.

Muleshoe High School is celebrating National Red Ribbon week with a full slate of activities. MHS Student Council are selling "Just Say No" bracelets. All week will be slogans and theme days.

On Monday the students observed "Neon" day, "Never Ever on Drugs Day" and with students and faculty encouraged to wear Neon Clothing.

Tuesday was "Put a Cap on Drugs Day" and students and faculty were encouraged to wear caps to school.

"Shade Out Drugs Day" was observed on Wednesday, with students and faculty encouraged to wear sunglasses to school.

Today, Thursday is "College Day" "Don't let drugs ruin your future. Students and faculty are encouraged to wear college slogans on clothing.

Completing a full week of Drug Abuse activities, Friday was "Reverse Peer Pressure Day." Students and faculty are encouraged to wear clothes inside out.

Shelley Turnbow told the Journal Monday morning that students had put red ribbons on all of the lockers at Watson Junior High. All students in Advisory were presented pamphlets advising them on the hazards of drug abuse. On Tuesday all of the students were dressed in

red and received "Say No" pencils.

A video advisory was shown Wednesday and will be shown again Friday at WJHS. On Thursday a drug skit will be presented. Along with the other activities, students participated in a T-shirt design contest Wednesday, with the winner being announced today, Thursday.

Gayla Gear, counselor, stated that in addition to classroom activities, students at Dillman Elementary were wearing red ribbons. They were presented pencils and book markers.

Mary DeShazo Elementary students are also wearing red ribbons and having class room activities all this week.

The leaflets and "Say No" items were provided as a public service by people who care, Five Area Telephone Co-Op, Muleshoe Co-Op Gin Co., 1st Bank of Muleshoe, Western "66" Company, Irrigation Pumps and Power, Inc., McCormick Seeds, Inc., Thriftway, and Muleshoe State Bank, in cooperation with the Muleshoe Police Department, Wayne Holmes, Chief.

Some of the most commonly drugs, used by students are Tobacco, Alcohol and Marijuana.

Even though some people do not realize it tobacco is a drug. The psychoactive ingredient in tobacco is Nicotine which has a stimulant effect on the body initially, yet can have other effects. Nicotine is a powerful poison of which one drop can kill a man.

Approximately 1200 other chemicals enter the body every time a cigarette is smoked, including many dangerous gasses, tars, toxins, carcinogens (proven cancer causing chemical), and other noxious organic chemicals.

Statistics show that using tobacco almost always precedes the use of illegal drugs in young people.

Tobacco use causes more deaths in two months than all the American deaths in the entire Vietnam war. Tobacco use causes between 350,000 and 400,000 known deaths a year in America.

Smoking mothers may condemn their unborn children to a 60 percent higher chance of death due to stillbirth or complications in the first year according to a Swedish study.

Alcohol--the getaway drug, one of the most available legal and illegal, alcohol is still the most Cont. Page 6, Col. 1

#### Fall Festival Set Saturday Night

Muleshoe PTA will be sponsoring the Fall Festival Saturday, October 31st from 4 to 7 p.m. at the Civic Center.

Tickets will be sold, four for

All pumpkins need to be turned in at the Civic Center Saturday morning between 9 and 12 noon.

## School Board Accepts Voting District Plan

The governing body of the Muleshoe Independent School District conducted a Public Hearing Monday night at the School Administration Building.

Cindy Purdy, president, called the hearing to order, before turning the floor over to Bob Finney, chairman of the Citizens Committee.

Finney stated that the committee recommended the board adopt a plan providing for five single-member districts and two trustees elected atlarge. Two of the single-member districts should include a majority of Hispanic residents.

"The committee also feels it is important for the district to retain the current provision for candidates to be able to run in any district regardless of residence. The 0 plan with two majority minority

districts," said Finey. Finney explained that one of these districts will be made up of 65 percent and another 64 percent

The only opposition came from Alberto Daniel and Juan Chavez, who asked the board not to approve the 5-2 plan. They were in favor of a 7-0 plan.

It was explained that the 7-0 plan would not meet the requirements of the Justice department, who have the final say.

Finney explained that the 7-0 plan cannot insure the minority of getting anyone elected. The

#### Police Ask Cooperation From Citizens

The Muleshoe Police Department is asking the cooperation of the citizens of Muleshoe, asking that all drivers obey the traffic laws in the school zones.

All streets surrounding all of the school campuses have a speed limit of 20 miles per hour while school is in session.

The school limits in the school zones on South 1st St. and West American Boulevard have the speed limits posted on the School Zone light poles.

"We also would like to remind drivers to stop for all loading and unloading school buses," said Phil

SUPPORT STAFF OF THE MONTH AWARD RECIPIENT -- Monday night Sam Harlan, school board member, presented Danny Navejar the Support Staff of the Month Award, during the school board meeting.

## Superintendent Explains until October 31 to purchase insurance. Farmers cannot avoid the **Public School Changes**

By Bill Moore Superintendent of MISD

In this season of politics, debates, and elections, one of the most popular political footballs being tossed (actually kicked) back and fourth is public education. Is it really as bad as we are sometimes led to believe? Before answering that question, I would like to share with you some facts that are often overlooked or unknown to most folks:

In 1920 only 20 percent of the young people eligible to graduate from high school did so. As a matter of fact, unless you were a white male, your chances of graduating were almost nil. Students with special needs were either institutionalized or left out of the educational process entirely. These numbers have improved every year until today we are graduating, in both numbers and percentages, more students than ever before in history. However, we must continue to improve because students dropping out today have far fewer career opportunities awaiting them than ever before. We are the only nation in the world that offers educational opportunities to every child. Needless to say, if we allowed only our best and brightest to continue school after the eighth grade, many of the comparisons that are made would look quite different.

You'd have to have been on another planet to not realize how our society and therefore our schools, has changed in recent decades. In the 1940's, teachers said their biggest discipline problems were students chewing gum, talking in class, and littering classrooms. Today one may read about violence, drugs, and teen pregnancy in any newspaper or magazine. These are not school problems. They are problems of our society that manifest themselves in school. We must and do deal with them in public schools. But schools can't address these problems without help from churches, communities, and families. (You've heard a lot about family values these past months!)

When you look at student performance there also seems to be some encouraging signs. Norm-referenced test results, which compare Texas students to the nation, indicate that our kids are achieving at or above the national average in the elementary grades and close to or slightly below the national average in high schools. This is impressive in light of the fact that Texas ranks 36th in the nation in total expenditures per student. Shouldn't we do better? You bet we should! That trend toward improvement has started and will continue.

Also, scores on the SAT test have improved. Did you realize that 30 years ago only about the top three percent of the high school students took the SAT, and today that number has grown to about 35 percent.

This, too, seems to be an encouraging sign. Back to the original question: Are our schools as bad as we are led to believe? I think not. Shouldn't we improve? No doubt. And we must improve faster than ever before. With technology changing at a mind boggling pace, and information doubling every 18 months we have no choice. But we have top quality professionals that can and will meet the

challenges before them. The governor has indicated that she will call a special session after the

#### Facts About Breast Cancer

Breast cancer is a leading cancer killer among women in the U.S. Unfortunately, the incidence is increasing. One out of every nine American women will be struck with breast cancer at some point in their lives. In 1922, it is estimated that 180,000 new cases will be diagnosed in the U.S. An estimated 46,300 cancer deaths will occur (46,000 women and 300

Since the cause of breast cancer remains unknown, early detection offers the best defense. Chances for cure are excellent when breast cancer is detected and treated early while a tumor is still small.

The American Cancer Society recommends monthly breast selfexamination as a routine good health habit for women 20 years or older. Most breast lumps are not cancer, but only a physician can make a diagnosis.

The American Cancer Society and the National Cancer Institute, in their joint Breast Cancer Detection Demonstration program, found that mammography (x-ray examination using a low level of radiation) can reveal cancers too small to be felt by the most experienced examiner.

The society recommends a mammogram every year for asymptomatic women age 50 and over, and a baseline mammogram by the age of 40. Asymptomatic women 40-49 should have a mammogram every 1-2 years. In addition, a professional physical examination of the breast is recommended every three years for

women 20 to 40, and every year for those over 40. The 5-year survival rate for breast cancer has risen to 91%.

October is the month of Breast Cancer Awareness. The American Cancer Society will meet Thursday. Nov. 5, 1992 at the Methodist Church at 12:00 noon.

The Breast Cancer Detection Unit will be available for mammograms November 6, 1992 from 3:00 p.m. to 7:00 p.m. It will be parked a the Muleshoe Area Medical Center. Call Anita Gardea at 272-4524 for an appointment.

#### Vertigo May Be Minimized Through Exercise

Exercise can help people with Vertigo learn to adapt to dizziness.

"It is strange, but true," said Dr. Helen Cohen of Baylor College of Medicine in Houston. "By making them dizzier through special motion exercises, people suffering from vertigo caused by inner-ear disorders that destroy balance and orientation can force their inner ear to compensate.

Cohen calls the process habituation.

"In essence, these exercises train the brain to ignore the dizziness,"

Repetative head exercises such as nodding the head up and down or moving it from side to side help the brain recalibrate more quickly its responses to information coming from the inner ear. How the brain does this is unknown.

Cohen is conducting studies to understand better how exercises can help people with inner ear

Hollywood Hits Bring Halloween Horror and Hilarity

From the horrifying sci-fi thriller, "The lawnmower Man," and the frightfully funny slapstick "Ernest Scared Stupid," to wrestling's "Halloween Havoc," there's Halloween entertainment for everyone on Primestar, the nation's premier Direct Broadcast Satellite (DBS) service.

"It's a month of thrills, chills, and great entertainment!" says Shana Cook of Cox Cable, which distributes Primestar here. "In addition to a great lineup of Halloween movies, we're featuring live ABC college football matchups, Travis Tritt and Marty Stuart plus movies like "The Mambo Kings" and "White Sands".

Sci-fi fans won't want to miss the "Lawnmower Man" starring Pierce Brosman as Dr. Lawrence Angelo. This brilliant scientist is dedicated to accelerating intelligence, but his experiment in virtual reality goes horribly awry when an evil assistant switches chemicals. As a result, the "lawnmower man" a slow-witted gardner (played by Jeff Fahey) whom Dr. Angelo is trying to help, turns into a superhuman on a rampage of violence.

Comedy and Halloween goblins go hand-in-hand in "Ernest Scared Stupid" with Jim Varney as knowit-all Ernest P. Worrell. Ernest has a devil of a time when he accidentally unleashes the demon who put a hex on his family 200 years ago. With the help of a host of outrageous characters, he vows to end the curse.

Moving away from the Halloween theme, "The Mambo Kings," based on Oscar Hijuelos' Pulitzer Prize-winning novel, offers first class drama. Armand Assante and Antonio Banderas star as Latin brothers Cesar and Nestor Castillo. Fresh from Havana, they go to New York seeking show songs and dreams. The film also features a cameo appearance of Desi Arnez,

For wrestling fans, the October 25 WCW Halloween and the Addams Family," "The Howling V: The Rebirth; "Tales From The Crypt," "Dracula," "Night Of The Living Dead," and many more fright night movies. In addition to Halloween favorites, watch for "Down and Out in Beverly Hills" starring Bette Midler and Richard

Dreyfuss, "Summer Rental" with John Candy, "A Cry in the Dark" with Meryl Streep and "The River" starring Mel Gibson and Sissy Spacek. Every month Prime Television presents more than 500 movies plus more than 1000 programs with family comedy,

Prime Cinema also offers five sequels to the popular past Halloween titles. The schedule of thrillers includes "Amityville 1992," an update of the classic true story of a Long Island haunted house that turns into a gory nightmare for those who dare to enter, plus 976-EVIL 2; The Resurrected; Basket Case 3; The Priogeny and Waxwork II: Lost in

#### Muleshoe Area Retired Teachers Meet

On Friday at 3:00 p.m., the Muleshoe Area Retired Teachers met in regular meeting with Vice-President Ann Oyler presiding and leading the Pledge of Allegience to the American and Texas Flags.

Joan Lewis was introduced and reported the need for volunteers to help in a High School Reading Program. The volunteers would read stories or study material on tapes that would be used by students as read along, listening, etc. Several members volunteered.

Clara Lou Jones gave a very interesting demonstration on how to decorate a T-Shirt.

Refreshments of pie, cookies, tea, and coffee were served by the hostesses, Mabel Wolfe and Letha Patterson to Betty Jo Davis,

Margie Moore, Alene Bryant, Maude Blaylock, Elizebeth Watson, Ruby Lee Kerr, Maxine Ragsdale, Lucy Faye Smith, Mary Nell Bluker, Letha Patterson, Katherine Sanders, Joylene Costen, Ann Oyler, Ethel Allison, Jean Moore, Clara Lou Jones, guest. Our next meeting will be, November 20 at 3:00 p.m.

#### Nebraska & Colorado Meet Saturday In Lincoln

has thoroughly convinced anyone that it's the best team in the country, and this week's games could further confuse the rankings. Could--but probably won't. The Hurricanes host west Virginia, and the major last week. difference between the two teams may be Miami's Halloween home crowd and the toll of previous competition. In the past two weeks Miami has played TCU and Virginia Tech, while the Mountaineers have been tested by Syracuse and Penn State. Our pick is

also at home and also coming off relatively easy games, with Oregon and Pacific. Stanford has played forecasting average has been rising solidly since its opening loss to steadily the past few weeks. Through Texas A&M, but the Cardinal is up games of Oct. 17, we've picked 993 against a team that has something to right and 322 wrong, for an average prove to Miami-biased coaches and of .755. The secret? Tea leaves and writers every time it plays. well-read palms. Washington should win.

Elsewhere, Nebraska and Colorado butt heads in Lincoln, just make a decision and stick to as they've been butting heads in the it--no mater how wrong he is.

Neither Miami nor Washington Top 20 all season, If these teams prove as predictable as their up-anddown defenses, this one is anybody's guess, but for what it's worth, the Cornhuskers, our favorites, had a week off before they played Missouri

In a game that UCLA has been looking forward to all season, the Bruins travel upstate to face California, seeking revenge for their embarrassing 27-24 loss to the Bears last season--which followed their embarrassing 38-31 loss to the Bears in 1990. Maybe UCLA should show The Huskies take on Stanford, up in costumes appropriate to the season--say, Stanford uniforms.

We shouldn't brag, but our

Mrs. Blanche Lenderson

Journal Photo Art Exhibit Features Muleshoe

Artist

A Muleshoe resident, Blanche Lenderson, is being featured in an art show in Lubbock Christian Anderson Bros. University's Pioneer Gallery. Mrs. Athletic Supply Lenderson's art went on display

October 12 and the exhibit will continue through October 30. A reception will be held in honor of Mrs. Lenderson. It is scheduled for Tuesday, October 27, from 11:30 a.m. to 1:00 p.m. in the Mabee Learning Center of the

Genes Discovery May Improve Anesthesiology

cannot be accepted.

Shriners Hospitals.

application.

November 9th.

University Library. The exhibit is entitled "Works in Retrospect". It is a collection of the artist's paintings on various "created canvas" surfaces. Lenderson has painted on a variety of surfaces including canvas, plywood, masonite and cheese cloth stretched across masonite. "The range she portrays overwhelming," commented LCU Art Department chairperson, Karen Randolph. "Usually an artist is good in one or two areas; Mrs.

Lenderson is good in all areas. Blanche F. Lenderson was born near Ennis,TX and moved with her family in 1929 to a farm just south of Sudan where she grew up, met and married A. Jack Lenderson in 1937. She and her husband moved to Muleshoe in 1939. Jack was the John Deere dealer and their daughter Leona Kay was born. Their daughter Kay, a beautiful child and outstanding student in the Muleshoe schools died of polio at the age of 14 in August 1955.

It was after the death of their only child, mid 1950's, that Lenderson began attending painting lessons and workshops taught by Raymond Froman of Cloudcroft, NM. Mrs. Lenderson learned quickly and began teaching private lessons and workshops throughout Muleshoe and the surrounding area.

Lenderson's work shows great flexibility. She utilizes a very wide range of media and subjects. "Which ever media I am working in at the time is the one I enjoy the most," said Lenderson. "I like art

techniques."

#### Don't fool around!

(WITH CRACK!)

If you're thinking that crack is something to try, then you're really not thinking at all. It's an inexpensive form of cocaine that's unpredictable, highly addictive and very deadly. In fact, you could die from just one time's use, and if you do live through the experience, you'll more than likely be addicted. That's the nature of it. Make the mistake of trying crack just once, and you'd be making the mistake of your life. Maybe it's time to realize that drugs are not what they're cracked up to be. Only a clown would fall for crack.

on 51 crops in over 3,000 counties across the United States, serving the national interest by improving the economic stability of agriculture through a sound system of crop insurance. FCIC currently offers insurance on crops that comprise 75 percent of agricultural production. According to Cason, the agency plans to expand coverage over the next five years to include 95 percent of agricultural production.

Producers who need additional information concerning crop insurance requirements under the 1992 disaster relief legislation should contact their nearest FCIC field office or insurance agent.

#### Public School

Cont. from Page 1

November 3 election to address the school finance dilemma with which they have wrestled for the last decade. The leadership in Austin has served notice that there will be "no new state money for public education in the next biennium." This follows a pattern of shifting increased costs to the local level. In fact, in 1991-92, the state's share for funding public schools had decreased to about 46.4 percent. One thing that would benefit schools in Texas would be a stable, constant, financial system. Hopefully by June 1, 1993, (which is the judge's deadline) we will realze that.

I don't believe finger-pointing and fault-finding ever solved any problem. It is equally counter-productive to deny or ignore areas needing improvement or to make excuses for poor performance. There is nothing more important to the future of this state and nation than the eduction of its children, We can, will, and are improving and will explore every avenue to continue to do so. We need the help and support of everyone in the community because, as someone said, "Educating everyone takes

play a major role in determining their child's alcohol use patterns. It is estimated over 75 percent of men and 60 percent of women drink

Alcohol is an addictive drug affecting approximately eleven million alcoholics in the United States. Of this group, three million are teenagers. To say ours is a drug oriented culture is an understatement.

Regardless of the source, drugs have one thing in common. They produce changes in our physical and/or mental feelings.

Marijuana is a dangerous drug it changes brain chemistry and can affect thinking, learning abilities, and short term memory. It can also produce panic, anxiety, flashbacks and toxic psychosis, depending on the potency of the drug and the suscepibility of the user. Long term use can cause tissue damage.

Marijuana can interfere with driving and other skills involving mental and physical coordination. Marijuana delays a person's

response to sights and sounds. When you use marijuana, part of your brain seems to go to sleep. This makes it hard to finish schoolwork and carry out plans. Some marijuana smokers get in car crashes or accidents because they cannot think clearly or drive safely.

Following an executive session, the board voted to accept the 5-2 plan to be recommended to the Justice Department.

Following the Public Hearing, the board met in regular session.

Mrs. Purdy called the meeting to order and routine business was conducted.

Superintendent Bill Moore introduced the October Support Staff of the Month recipient Danny Navejar, assistant director of maintenance. In making the presentation, Moore said, "Danny is a native of Muleshoe, and a product of the Muleshoe schools. It is not surprising that nominations for this award came from every campus, and from several different departments. A nomination from the food service department noted "He never says no--he just does what he can to make things better". Another nomination said, "He does a lot for the school, and has a big smile all the time". This past summer, he shouldered the responsibility for an ambitious summer maintenance program while Ray Bara was convalescing

Danny has worked for the ISD since May 1, 1988. He has four children--Jesse Navejar and Leticia Cruz of Amarillo; Margaret Mendoza, Muleshoe; and Daniel, Jr., a student at Watson Middle School.

"Danny spent most of his adult life working on irrigation pumps. He says it is much more enjoyable working with people--- and out of the weather---it beats pulling pumps in below zero weather.

'We are proud to recognize this capable, likeable member of our staff as the Support Staff Member of the Month.'

No decision was made on the acceptance of the library addition to Dillman Elementary. The group will meet at noon today, Thursday, and take a tour of the library and hold an emergency meeting on its

Others get kicked off sports teams because they forgot about practice or could not remember the plays.

People who use marijuana need help, if students know of anyone who is using marijuana they are encouraged to tell their mother, father, teacher or some adult that they can trust so they can get help.

#### Longhorns Bomb Panthers In Six Man Football

In six man football, quarterback Brett Thomas bombed away for 283 yards and seven touchdowns as the unbeaten Lazbuddie Longhorns clashed with the Whitharral Panthers Friday night. The Longhorns defeated the Panthers 60 to 14, before the game was called on the 45 point rule.

Whitharral held Thomas relatively in check for the first quarter as he could only hit Matt Crosby on a three yard touchdown with 4:20 left. Thomas found his rhythm in the second quarter and chalked four touchdown passes.

Cozbey scored on a three yard pass from Thomas and Brockman kicked the extra point.

Martinez scored on a 38 yard pass from Thomas and the kick failed.

Adding more scores to the scoreboard, Hernandez scored on a 19 yard pass from Thomas and Brockman kicked the extra point.

Cosby scored on a 21 yard pass from Thomas and again the kick

Zamora scored on a 13 yard pass from Thomas and Brockman kicked the extra point.

Whitharral scored on a 24 yard pass in the second quarter and the kick was good.

Brockman came back and scored a touchdown for Lazbuddie with a 44 pass run from Cosby and the kick

Whitharral scored again on a 10 yard run. The kick failed.

The next three touchdowns were all Lazbuddie's. Miller scored on a three yard pass from Thomas. The kick failed. Copp scored again on a three yard run. Again the kick failed. Cosby added the final score of the game with a nine yard run and no attempt was made for the extra point.

#### New Law Requires Social Security Card

Beginning November 1, Texans applying for a driver's license and persons renewing their license or seeking a duplicate will need to show their Social Security card, according to the Texas Department of Public Safety.

Social Security numbers already are required for Commercial Driver's Licenses, which the DPS began issuing in September 1990.

"We think this new policy will make it harder for an individual to fraudulently obtain a driver's license," explained DPS Driver's License Inspector John Hall. "This should pay off by reducing crimes where a fake identification is important, like hot check cases. It also should make it much more difficult for a minor to obtain a license with an incorrect year of

#### Shrode Took First Place In Weekly Contest

This was another one of those week's where there were apparently a number of upsets in college football. In the weekly football contest, first, second and third place all missed six games and the Journal judges were forced to go to the tiebreakers.

Steve Shrode took first place being three points off on the tiebreakers. Second place went to Alene Bryant, who was 10 points off in the tiebreakers, and another first time winner, J.E. McVicker came in third. He was 25 points off in the tiebreakers.

Nine of the entries missed seven games and a number of entries

missed from 10 to 14 games. At this point in the contest, the contestant with the most points is Tony Nicolas with 16. Coming in close behind Nicolas is Rosa Hernandez and Terry Field, each with 14 points.

Only Social Security cards issued by the federal Social Security Administration will be accepted,

"I realize almost everyone knows his Social Security number by heart, but we need to see the actual card issued by the U.S. government, not a commerciallyproduced metal or 'flea market' card," the inspector said. "If you do not have the government-issued

#### Lillian Courtney Funeral Services Set Today

Funeral services for Lillian Courtney, 79, of Morton will be held at 2 p.m. today, Thursday in the First Baptist Church in Whiteface with the Rev. Jim Green of Lubbock and the Rev. Harold Harrison, pastor, officiating.

Burial will be in Morton Memorial Cemetery under the direction of Ellis Funeral Home.

Mrs. Courtney died at 1:05 p.m. October 27 in the Methodist Hospital at Lubbock.

Born January 24, 1913, in Blue Ridge, Ms. Courtney was a lifetime resident of Morton. She was a homemaker and a member of the First Baptist Church of Whiteface. She married William Courtney on August 14, 1937 in Enochs. He died May 7, 1986.

Survivors include two sons, Melvin Courtney of Tatum, N.M. and Edward Courtney of Morton; three daughters, Lois Gibbs of Ft. Worth, Sandra Edmiston of Midland and Nancy Brownlow of Levelland; a brother, Henry Pryor of Paradise, CA; two sisters, Hazel Cox of Crosbyton and Ethel Martin of Abilene; nine grandchildren; and two great grandchildren.

The family requests memorials be made to the American Heart

card, income tax documents, W-2 forms, payroll or other employer records may be presented."

Applicants for DPS Identification Cards also will be asked for a Social Security card, but it is not a requirement for the ID card, Hall

The Inspector said Social Security numbers would not be printed on driver's licenses and were for DPS internal use only.

Signs explaining the new policy will be posted in DPS Driver's License offices across the state, he

#### Cross Country **Teams Compete** In District

The Muleshoe High School Cross-Country teams competed at the district meet on Saturday, October 17 at Mae Simmons Park in Lubbock. Both Varsity teams placed first with outstanding races from all participants.

The girls had a total of 29 points. Julie Gilleland placed first overall with a time of 12:36. Becky Viss placed sixth with a time of 12:54.

Rebecca Green placed ninth with a time of 13:09. Keetha Glover placed 10th with a time of 13:18.

Gloria Mendoza and Dacia Stewart also ran on the Varsity team. Gloria placed 24th and Dacia placed 31st. Crystal Sharp ran on the Junior Varsity team and she placed ninth.

Eric Cisneros blew away all of

the other competition. He placed first overall with a time of 15:53. Second place was Edward Olivas, he ran the course in 17:23. Shawn Wheeler placed third with a time of

Placing sixth was Russell Reyes with a time of 18:09. Salome Cisneros placed seventh with a time of 19:00. Charlie Acosta and Mason Conklin also ran on the Varsity. They placed eighth and ninth respectively.

Ernie Paez and Ricky Cisneros ran for the Junior Varsity teams. Ernie placed first and Ricky placed second. The Varsity had a total of 19 points.

Both Cross-Country teams competed at the regional Qualifiers meet Saturday, October 24 at Ruidoso, N.M. They will compete in the Regionals meet Saturday, November 7 at Mae Simmons Park in Lubbock.

"All of these runners should be commended for the great races they have run these past two months and for representing Muleshoe in such a fine way," said Angela Crawford. "Please wish these students the best of luck for this next pursuit to go to the State competition in Georgetown on November 14."

#### **Commerce Creates Fund To Assist Businesses**

Texas Department of Commerce Executive Director Cathy Bonner announced the creation of the Texas Economic Development Program to help businesses expand.

With the assistance of Bank One, Texas, the first phase of the Texas Economic Development Program begins with the funding of the \$25 million Texas Leverage fund. The Fund will provide loans to local businesses through the community's Industrial Development Corporation. commerce estimates 2,000 jobs will be created over the next 18 months by the expansion of businesses that access this money. The Texas Leverage Fund is one of several economic development finance programs commerce is developing, all aimed at helping Texas businesses access the capital they need to expand.

"Texas businesses that we are trying to assist tell us there is a shortage of capital available in the marketplace," said Bonner. "Thanks to the backing of Bank One, Texas, the Department of commerce can help Texas businesses fill that financing gap, getting the capital to the businesses creating the most job growth in our state right now-small and medium-sized businesses."

The Texas Leverage Fund will leverage the money raised by communities through a local sales tax option for economic development projects. The Fund will be capitalized from \$25 million in State of Texas taxable commercial paper, issued by Commerce principally to institutional investors. Bank One, Texas has provided a letter of credit guarantee to investors, resulting in no risk to the state.

By using the Texas Leverage Fund, communities will not only be able to help local businesses grow, but they can do so without the upfront costs usually associated with a bond issue. Businesses interested in applying for Texas Leverage Fund loans will apply through their local Industrial Development corporation, set up to administer the city's sales tax for economic development purposes.

"This fund creates a cooperative partnership between the state, private financial institutions and local communities to help local businesses," Bonner said. "The Texas Leverage fund fulfills governor Richards' commitment to growing jobs through helping small businesses access more capital," Bonner added.

"It is a privilege to be this venture, as it clearly acknowledges Bank One's excellent financial rating in Texas. More important, though, this makes it possible for us to make credit available in a responsible way to borrowers and communities who might otherwise not have good access to credit," said Harvey Mitchell, Chairman and Chief Executive Office of Bank One, Texas. "Through this creative program, Bank One can continue contributing to Texas' economic development.'

Participating in the commercial paper issue with Commerce and Bank One, Texas were: J.P. Morgan Securities, Inc.; Walton Johnson & Company; Fulbright & Jaworski; Barnes, McGhee, Neal, Poston & Segue; McGinnis, Lochridge & Kilgore; Rafael Quintanilla, P.C.; Vinson & Elkins; Morgan Guaranty Trust Co. of New York; Sequor National Bank of Texas; and Haynes & Boone. Other state agencies participating include the Texas Attorney General's Office, the Texas Bond Review Board, the Texas State Treasury and the State Comptroller's Office.

Businesses or communities that need more information on the Texas Leverage Fund and the application process should call Tom Larkin at the Texas Department of Commerce, Office of Business Finance, 512/320-9634. Loan applications will be available November 15.

#### **TxDOT** Targeting Teen Deaths In Traffic Accidents

The Texas Department of Transportation (TxDOT) is working with an insurance company to fight the No. 1 cause of death among teen-agers: traffic

TxDOT traffic-safety experts are distributing an educational kit developed by Liberty Mutual Insurance Group for teens, parents and teachers. "Avoid Collisions: How to Survive the Teen-Age Driving Years" promotes a nonthreatening atmosphere for teens to talk about their driving habits openly with adults. The kit, which includes a videotape, was developed in cooperation with Students Against Drunk Driving (SADD) and the National Safety Council.

Last year in Texas, accidents killed 362 teens between the ages of 15 and 19.

"The program challenges teens to re-evaluate their driving habits by examining four subjects key to their survival: speeding, night driving, using safety belts and drinking and driving," said John Connors, executive vice president of Liberty Mutual. "We want teens to realize that a license to drive is a privilege that carries responsibility."

Arnold Oliver, TxDOT executive director, said, "Too many of our young people are killed needlessly, with so much of life ahead of them. But we are encouraged that programs such as this one can make a difference.'

Project Graduation, another program administered by the department, has helped reduce traffic deaths among graduating seniors by 10 percent. The program helps schools pay for alcohol-free proms and graduation parties.

TxDOT safety specialists are using the educational kit to make presentations in schools and will lend it free on request. To borrow the kit, call your local TxDOT district office or a Liberty Mutual sales office. Teachers may call Modern, a distribution company, at 800/243-6877.

A great man will not trample upon a woman, nor speak to an emperor.

-Thomas Fuller.

HIGHLIGHTS

By Lyndell Williams TEXAS PRESS ASSOCIATION

AUSTIN -Two of the governor's top confidants scrapped publicly over ethics last week, and Texas legislators facing re-election learned they'll face a \$3 billion deficit in January.

Senate Finance Committee chairman John Montford, D- Lubbock, told a taxpayers group that despite a \$2 billion increase in state revenues, it will take at least \$3 billion more to fund other needs.

Meanwhile, former congressman Barbara Jordan, now the ethics advisor to Gov. Ann Richards, stunned everyone when she advised embattled Lena Guerrero to resign if she wins the Railroad Commission election next week.

Guerrero resigned from the commission after she was forced to admit that she had lied for years about having a bachelor's degree from the University of Texas.

"Ethical High Ground"

Richards gave protege Guerrero the first political plum in her "New Texas" administration by appointing her to an unexpired term on the Texas Railroad Commission.

Likewise, the governor honored Jordan by naming her ethics advisor; In 1966, Jordan became the first black woman to serve in

the Texas Senate, and later the state's first black woman to serve in Congress.

"In my opinion, if Lena Guerrero is elected, the high ethical ground position would be for Lena Guerrero to resign that seat and allow the governor to have a new appointment," Jordan said.

In a prepared statement, Guer-rero said "I have great respect for Barbara Jordan, but I believe that since I have already resigned my seat on the commission, I have placed this matter before the people of Texas."

Hispanics Denounce Jordan

Hispanic leaders across the state criticized Jordan for her anti-Guerrero statement, which came only a day before top independent oil industry leaders endorsed her

The timing of Jordan's remarks and her motivation - had political advisors spinning.

Was Guerrero hurting Clinton in Texas? Was Richards damaged by their friendship? Were black Democrats angling to get one of their own appointed to the railroad commission?

Probably none of the above. Jordan was responding honestly to a reporters question at a press conference on an unrelated matter. She is the ethics advisor, she was asked about ethics, she was doing

Asked if she still supports Guerrero, Gov. Richards said: "I looked down the list and didn't find any attractive alternatives."

**Bullet Train Torpedo** The ballyhooed Texas bullet

a coalition of rural lawmakers next promises of early release.

One of its leaders, state Rep. Dan Kubiak, D-Rockdale, has drafted a bill to strip the project of its power of eminent domain to condemn farm and ranch land for the track right-of-way.

It would also abolish the high speed rail authority and put the project under the Texas Railroad Commission.

**Judicial Campaign Reforms** Chief Justice Tom Phillips of the Texas Supreme Court proposed that basic changes be adopted in the way Texans elect their judges.

Included: limit campaign contributions, such as those imposed on lawmakers and top officials; shorten the campaign season to allow judges to spend more time deciding cases; and tighten financial disclosure requirements and strengthen their public access.

Influence Peddling Charged

Former state parole board chairman James Granberry - now a parole consultant - is reported to be under federal investigation for

train project, already in financial alleged influence peddling, taking trouble, faces more hurdles from money from prisoners' families for

Granberry denied the charge.

A few weeks ago, he was questioned by a state Senate panel wanting to know if he solicited clients from a confidential list of potential parolees leaked by prison system employees.

**Early Voting Double** 

The pace of early voting in the 1992 election is about double that of the first seven days of extended voting in 1990 in the state's metropolitan counties, figures from the Texas Secretary of State's Office show.

Early voting began Oct. 14. During the first seven days, the number of ballots cast in person (as opposed to mail-in ballots) was more than double the number cast during the same period in 1990 in Houston, Fort Worth and San Antonio.

Other Highlights

 Sometime after the election, the 15-member State Board of Education will decide whether to approve proposed rules allowing girls to play high school football next year.

#### Mary Hicks Elected To Office

Mary Hicks, City Secretary, City of Muleshoe, Texas, was elected a trustee of the Texas Municipal Clerks Association, at its annual meeting (held in conjunction with the Texas Municipal League), Houston, Texas, October 8, 1992.

The Texas Municipal Clerks Association is a 41 year old organization and a non-profit corporation with 683 members; fourth largest organization affiliated with Texas Municipal League.

Association missions are: 10 maintain standards of professional excellence and 20 provide for continuing professional education. Association publishes three books: Texas Municipal Election Law, Texas Municipal Law and Procedures Manual and Texas Municipal Clerks and Secretaries Handbook. Association operates the Texas Municipal Clerks Certification Program, a legislatively recognized program.

Position of city secretary or city clerk described by statute for Texas cities, towns, and villages. Duties of city secretary prescribed in Local Government Code and Texas Election Code. Muleshoe, a home-rule city, prescribes duties of eity secretary Mary Hicks, eonsistent with Muleshoe charter and state statute.

The city secretary is an officer of the city and the city is a creature of statute. The city secretary is bound by the rules of law and operates within a law way of acting and thinking, which overlaps other social ways of acting and thinking.

#### MICROWAVE TIPS

One can sometimes defrost beef strips or chunks (for use in stew or hash) on Medium Power rather than Defrost.

This is done in a casserole with cover which allows venting but allows heated sauce and steam to make beef pieces tender. Time for cooking will be only slightly shorter than for conventional cooking.

#### Cotton Board Holds Annual Meeting

At it's recent annual meeting, Chairman Bill Baxter, of Dermott, AR, pledged that the Cotton Board will continue to be responsive to producer questions and concerns while embracing new constituencies, namely importers.

The Cotton Board, administrator of the Cotton Research and Promotion Program, recently completed implementation of an import assessment which was approved by producers and importers in a July 1991 referendum.

Baxter reminded Cotton Board members and alternates that the greatest challenge the cotton industry faces is holding on to its current share of the market while striving to gain a larger share.

Also, during the meeting, the Cotton Board adopted a 1993 budget of \$45 million for Cotton Incorporated, the non-profit agency which conducts the Cotton Research and Promotion Program. The Cotton Board will recommend the budget to USDA for final approval.

The 1993 budget includes \$2.3 million for the State Support program, \$25 million for advertising and \$500,000 for cottonseed research and promotion. The remainder is allocated for textile and agricultural research.

In additional business, the Board re-elected officers for 1992: Chairman, W.A. Baxter, Dermott, Ark; Vice Chairman, Keith Streety, Levelland, Texas; Treasurer, David L. Burns, Laurel Hill, N.C.; and Secretary, Fredrick A. Wegis, Buttonwillow, Calif.

Other speakers at the meeting included Ann Veneman, Deputy Secretary of Agriculture; Dr. Keith Collins, Director of USDA's Economic Analysis Staff; J. Nicholas Hahn, President and CEO, Cotton Incorporated; and Jerry Calvani, President, National Cotton Council.

#### Local Candidates Debate

Texas Tech University Center Program's Ideas and Issues Department in conjunction with the League of Women Voters will sponsor a debate for the candidates running for office in Lubbock and surrounding areas. This event will take place on Tuesday, October 27 at 7:00 p.m. in the University Center Ballroom.

Candidates who will be attending the debate include the race for the 83rd District State Representative, Bidal Aguero (D) and Delwin Jones (R). Democrat, H.L. O'Neal and Republican, Robert Duncan for the 84th State Representative Seat.

The format will be one moderator and a panel of two League members and two Tech students. The panel will ask questions for approximately 30 minutes and the questions will be taken from the audience for a time period of fifteen minutes. The debate is free and open to the public. An attendance of 50-100 is expected.

Program's Ideas and Issues department with the assistance of the Phi Sigma Alpha Political Science honorary will sponsor a debate between the Tech chapters of the College Republicans, Young Democrats and Ross Perot supporters. This event will take place on Thursday, October 29 at 7:00 p.m. in the University Center Ballroom. The students will debate each other and answer questions presented to them from a panel, as well as the audience. The focus will be on the presidential race and their respective candidates' platforms.

Texas Tech University Center

The debate will consist of five twenty-minute segments, each focusing on a specific election topic. A panel that consists of representatives from the Lubbock Avalanche Journal, a local television station and the Texas Tech Political Science Department will ask questions related to the topics of education, the economy, the free trade agreement and social programs including social security, health care and welfare. The final segment will be miscellaneous questions from the panel members. Questions from the audience will be addressed as time allows.

This event is free and open to the public.

OBSERVING RED RIBBON WEEK---Tuesday morning Julian Dominguez, Muleshoe City Policeman, presented Drug Abuse pamphlets to students in Mrs. Lackey's fourth grade class in observance of National Red Ribbon Week.

(Journal Photo)

Know The Weather

Can one use nature's signals to predict the weather, the sea- hair is long, or the band of the sons? Some think so.

Many old weather folklore sayings have a scientific basis. For example, red sunset, dry weather, nature (not guaranteed): often proves an accurate forecast because the sun sets in the west, where most prevailing winds ter mild. come from and if the sun is red that means dust is in the air to be severe. the west--on the way to you.

Others believe that if a dog's woolybear worm is wide, a cold winter is ahead.

Here are some other omens of

If leaves fall early, Indian summer will be short and win-

If leaves fall late, winter will

## TAKE DRUGS AND TURN A PARTY FOR SIX INTO A TABLE FOR ONE

Alcohol is the most abused drug among teenagers today. Reports indicate nearly 100,000 ten and eleven year-olds get drunk at least once a week. It is currently estimated that 4.6 million adolescents age 14 to 17 either have a serious drinking problem now or will in the future.

The numbers are staggering. To some people the numbers don't matter until their own

number is up. Some teenagers are paying attention to the statistics. But the facts remain: Licensed drivers age 16 to 24 account for 42% of all fatal automobile accidents involving alcohol.

Obviously, it's smarter-and healthier-to say no to drugs.

#### Rotavirus Plays Havoc With Children

The flu bug is not the only virus parents should watch for warns an expert in gastroenterology. The rotavirus plays havoc with young children each winter.

"Usually, children are hit between November and March," said Dr. Mark A. Gilger, an assistant professor of pediatrics at Baylor College of Medicine in Houston. "The rotavirus causes vomiting and diarrhea and is commonly transmitted at daycare centers.'

The rotavirus, literally "wheel virus," is so-named for its hub- and spoke-like appearance under the microscope. It is the number one cause of viral diarrhea in infants, a condition that can lead to dehydration and in some rare cases, death.

"This can be very serious--and fast," he cautions parents. "Typically, 12 to 24 hours after they are exposed to the virus they begin vomiting. This is followed within 6 to 24 hours by diarrhea."

Gilger says that most children are not severely affected by the virus.

"Only about five percent get ill enough to be admitted to the hospital. Most kids don't get that sick, but they are still miserable, with their symptoms lasting up to a week," he said.

Rotaviruses strike children ages 6 months to 3 years most often. Typically they experience repeated episodes of vomiting followed by loose, watery diarrhea.

"Parents usually call their pediatrician at this point," Gilger said. "They are generally told to give plenty of fluids."

When the bug hits harder, Gilger cautions parents to waste no time in getting their child to the emergency room.

"The real danger is dehydration from severe diarrhea," he said. "It is then vital to replace those fluids and the body's electrolytes through oral rehydration therapy.'

Oral rehydration uses a special solution that restores fluids while replacing electrolytes, naturally

#### Procedure For Treating Aneurysms Involves No Surgery

A new non-surgical procedure treats brain aneurysms from the inside out and is much less traumatic than surgery.

"Traditionally, surgeons have operated on the brain and used metal clips on the aneurysm to cut off the blood supply, said Dr. Please include a telephone number Michael E. Mawad of Baylor where you can be reached. College of Medicine in Houston.

A catheter is inserted through the groin into an artery leading to the brain. The catheter is positioned just inside the aneurysm opening.

A thread like wire is pushed through the catheter into the aneurysm where it coils into a gnarled ball. The part of the wire entering the aneurysm is platinum, the remainder stainless steel.

When the coil fills the aneurysm, a mild electric current is sent through the stainless steel section. The current produces a blood clot and severes the wire. The platinum coil left inside the aneurysm prevents blood from entering and promotes clotting.

occuring salts that are necessary for bodily functions.

The best treatment, however is prevention. Gilger says that while no one is completely safe from contracting rotaviruses, certain precautions can be taken.

The virus is transmitted through the fecal-oral route, so good handwashing is the best defense. Also, check out your child's daycare center carefully to ensure that proper hygienic standards are followed," he said.

Vaccines are being developed, but none are currently available.

#### **Volunteers** Needed To Help People File Tax Returns

Do you like to help people? Then VITA may be just what you're looking for. VITA-Volunteer Income Tax Assistance- is a program that uses volunteers from many walks of life to help taxpayers who cannot afford professional tax assistance.

VITA helps older, handicapped and non-English speaking, and lower income taxpayers. VITA volunteers explain the many special credits and deductions and how people may claim them on their tax returns. In fact, the volunteers will help individuals complete the return, right down to any refund that may be due.

Who are these volunteers? people just like you--college students, law school students, housewives, members of volunteer or community organizations, and women. You name it. An accounting background can be helpful, although it's not necessary. The IRS provides VITA volunteers with free instruction and all training materials necessary to prepare basic income tax returns. Training generally is conducted in January. January seems like a long way away but now is the time to sign up. Training is conducted at locations and times that are convenient for the instructors and volunteers.

VITA programs can be sponsored by local civic or fraternal organizations, educational institutions, churches and social groups. Assistance generally is provided at schools, churches, libraries and other neighborhood locations for the convenience of taxpayers who cannot travel to an IRS office.

If you or your organization want more information about starting a VITA program, write to Donna Powers at:

Internal Revenue Service Room 315, Federal Building 1205 Texas Avenue Lubbock, Tx 79401

Now You Know

Examiner: "And what is the white line in the middle of the road for?" Woman: "Bicycles."

Tough Diner--Say, this sure is a tough steak

Waiter--You bet. We don't handle sissy food around here.

#### Health News

Memory loss is often associated with growing older, but with "mental exercise," the memory can be better at age 60 than at age 16.

"Many people mistakenly believe that memory loss is a normal part of aging," said Dr. Francis Pirozzolo, a neuropsychologist at Baylor College of Medicine in Houston. "There does tend to be some short-term memory loss as we age, but we have found that most people can improve memory with mental exercises.

Pirozzolo's work with the elderly and people with Alzheimer's disease includes several exercises that most people can use to improve memory capacity.

"People who worry about losing their memory are not able to concentrate on remembering a name or a shopping list, because they are anxious," said Pirozzolo.

Pirozzolo helps people to develop good attention habits such as relaxation and concentration. He advises stepping away from the mental stress and anxiety by focusing on the items or tasks to be memorized.

Once attention is improved, several techniques can be helpful in memorizing information, or even just remembering the last place the car keys were set down.

MEMORY LOCATION: Designate a specific drawer or table for hard-to-remember items like keys, reading glasses or appointment books.

SCAFFOLDING: Organize information to be memorized in a logical sequence. If a grocery list needs to be remembered, group the apples and pears under a mental

heading of fruit. Place butter, yogurt and milk under dairy. Think of paper to recall that napkins and toilet paper are on the list. Make a habit of practicing with short lists on trips to the store and scaffolding will become easier for other tasks.

IMAGERY: Use emotion to remember words. To remember the word "man", think of a very old man sitting alone on a park bench. When memorizing "car", think of a favorite car from the past--

#### TEXAS

A Musical Drama

The musical drama, Texas, ended its 27th season in spectacular style. The Institute of Outdoor Drama has proclaimed it the best attended outdoor drama in the United States.

A total of 100,022 people attended the show's 64 performances. Once again they represented every state and almost 100 foreign countries. The pioneer Amphitheater in Palo Duro Canyon State Park was filled to 94 percent of its capacity with an average attendance of 1,613 persons each night.

Even before the season ended, preparations already had begun for next year. The 28th season of "Texas" will open beneath Palo Duro Canyon's towering red cliffs on June 9, 1993 and play nightly except Sundays through August 21. An extra performance is planned for Sunday, July 4.

The basic story of "Texas", told through song and dance by a cast of 80 professional performers, never changes. Director, Neil Hess, keeps the story fresh and exciting by using the latest sound and light technology to accentuate the romance and drama of Paul Green's New costuming, choreography changes and creative special effects keep audiences coming back year after year.

anything that evokes an emotion associated with that word.

PNEUMONICS: Use a series of letters or sounds that spell a word to remember items on a list. If you have four errands to run-get gasoline, pick up laundry, buy apples, make a deposit at the bank-remember them with the world GLAD (Gasoline, Laundry, Apples, Deposit).

SEQUENCE: Remember things in sequence. If you can easily visualize and remember neighbors' homes, then memorize a list in the order of the houses. Go down the block and visualize each house to trigger a certain item on a

SPACE PRACTICE: It is better to learn or memorize something over a long period of time. Ten minutes a day for six days is more effective than one hour for one day.

ALTERNATING CONCEN-TRATION: Learn to concentrate more effectively by practicing in

difficult situations. Read a book for 10 minutes with the television on very loud. Then put down the book and look at the television for 10 minutes. Repeat this several times to develop the ability to block out distractions.

Studies have shown that, on average, most people can memorize between five and nine items of information as a group.

"The phone company recognized the limits of most people's memories by limiting phone numbers to seven digits," said Pirozzolo. "It is important that when exercising the memory; the individual recognize these limits as well. Do not try to memorize too much or the exercises will become more frustrating than helpful."

> Conversational Gambit? Where have you been for the last two hours?"

Talking to a girl." "What did she say?"

#### Now Is Best Time To Refinance Home Mortgage

With today's home mortgage interest rates the lowest in more than two decades, a wave of refinancing activity has hit the nation's mortgage companies. The interest rate "limo stick" currently hovers around 8 percent. Inviting as today's rates are, some homeowners may wonder if they should refinance now or wait for rates to drop further.

"Take the plunge and refinance," says Jack C. Harris, research economist with the Real Estate Center at Texas A&M University. "Because interest rates are not predictable, no one is certain where rates will end up even in the short term. By waiting to refinance, you may get a slightly better rate. But because you will be making higher payments while waiting, any saving will be marginal."

A borrower also may wonder if applying for an adjustable-rate mortgage (ARM) instead of a fixedrate mortgage (FRM) is a wise move. Most ARMs are offered with first-year rates from one half to three percentage points lower that FRMs. Thereafter, the interest rate on most ARMs is adjusted annually based on a selected index of prevailing market interest rates. So an ARM's rate may go up--or

"Generally, people want to know whether they are making the right decision. That's why investors have devised various strategies to forecast interest rates. Despite extensive research, however, no consistently effective strategy has been developed."

In a recent study, Harris constructed strategies based on selected economic indicators and applied them to hypothetical refinancing decisions involving mortgage interest data from 1968 to 1990. Using indexes such as the stock market, money supply, government securities (T-bonds and T-bills) and business cycle flux, he tested each strategy to see how well it indicated the "correct" financing decision during the 22-year period.

Says Harris, "No strategy was reliable for the entire period, although several strategies worked well some of the time. None were as effective as simply choosing to refinance immediately rather than wait for a lower interest rate."

He adds, "Loan refinancing decisions involve more than interest rates. Emphasis should be on projected savings compared to refinancing costs. Because it takes about two to three years to recoup

#### Pregnant Women Who Exercise May Need More Calories

Pregnant women who exercise may need to increase their caloric intake to compensate for calories burned during exercise.

There is some evidence that rigorous exercise results in low birth weights," said Nancy Butte of the USDA's Children's Nutrition Research Center at Baylor College of Medicine at Houston.

Traditional advice is that women add 300 calories a day to their diet during pregnancy and 500 calories a day during breast feeding.

But, Butte suspects these recommendations may not be high enough for exercising moms.

To study the effect of exercise on birth weights, on breast feeding and on maternal weight changes, Butte is conducting a two-year study involving 80 healthy volunteers aged 18-35.

refinancing costs, homeowners first should consider how long they expect to be in their present home. Harris' study is explained in more detail in his 18-page report Timing a Home Mortgage, available for \$1 from the Real Estate Center, Texas

A&M University, College Station, Texas 77843-2115. Request publication NR-946 and add \$1 handling per order.

The Real Estate Center was created in 1971 by the Texas Legislature to meet the needs of many audiences, including the real estate industry, instructors, research and the general public. The Center's comprehensive program of research and education yields publications, audiovisuals and computer software distributed widely under the slogan "Solutions Through Research."

#### Texas Water Development Board Approves Loan

The Texas Water Development Board approved a \$1,000,000 loan from the Agricultural Water Conservation Bond Program to High Plains Underground Water Conservation District No. 1. The District will use loan proceeds to make low-interest loans to individual farmers and ranchers in the District's service area to purchase and install more efficient water conservation equipment.

High Plains Underground Water Conservation District No. 1's jurisdictional area covers more than 1,000 square miles in northwest \* Texas including all of Cochran, Lubbock, Lynn, and Parmer Counties, and parts of Armstrong,

Bailey, Castro, Cosby, Deaf Smith, Floyd, Hale, Hockley, Lamb, Potter, and Randall Counties.

#### State Law Requires Employers To Allow Time Employees To Vote

As the November election approaches, it is important for Texas employers to remember that they are obligated under state law to provide employees time off from work to vote, Commissioner Mary Scott Nabers said.

or vacation time.

There is only one exception to this law, according to Nabers. Time off from work to vote is not required, if the polls are open for two consecutive hours outside the voter's working hours. For example, if polls are open from 7 a.m. to 7 p.m., an employee is not covered by the law if he:

\*gets off work on or before 5 p.m.

or after 9 a.m.

shopping malls.

work with pay to vote.

"It is always a surprise to some people to learn that it is a class C misdemeanor under state law for an employer to deny an employee time off to vote," Nabers said. "Likewise, it is against the law to dock an employee's pay or threaten to reduce wages for taking time off to vote." A reduction of wages includes deducting from an employee's accrued leave for illness

#### Shriners Hospitals For Crippled Children

Amarillo's High Plains Baptist Hospital will host the 8th FREE Shrine Hospital Clinic for 1992 on Friday, November 13.

The hospital has literally opened its doors to provide a complete diagnostic center for use by Dr. Wendell Erwin, Assistant Chief of Staff of the Houston unit of the Shriner's Hospitals for Crippled Children, and his staff.

Any crippled child, regardless of race, religion, or relationship to a Shriner from infancy to their eighteenth birthday, whose parents or guardians are unable to pay for the type of medical care rendered by Shriners Hospitals for Crippled Children, will be treated free of charge.

To refer a child to Shriners Hospitals, or to obtain an application for admission, you can call 1-800-237-5055. (In Florida call 1-800-282-9161 and in Canada, 1-800-361-7256.) All calls are toll-free

#### Safety Tips For Halloween

Parents need to be certain their children follow a few, simple safety tips this Halloween so that the festive occasion turns out to be a happy and healthy event.

Supervised parties at home or school are the safest way for children to enjoy Halloween," said Charles L. Branton, head of the Product Safety Program at the Texas Department of Health (TDH).

He warned that if small children go trick-or-treating, they should be accompanied by an adult. The adult should carry a flashlight to show the way and to make the children more visible to motorists.

Branton offered these additional safety tips:

\*For clear vision, use make-up, instead of masks.

\*When buying a costume, look for the label stating it is fireresistant. Costumes should be brightly colored, and dark colored ones should have fluorescent or reflective tape on them.

\*Teach children not to eat any treats before bringing them home for examination by an adult. Remember, many hospitals offer free X-raying of treats.

\*Keep children out of the street

It's Like A Whole Other Country.

by Dec. 11, 1992.

20. Public

and never let them run between parked cars.

\*Parents should control the amount of treats children eat to avoid stomach aches and indigestion.

Branton said that children should stop only at homes with outside lighting and not enter the home of anyone they do not know.

He has some safety tips for the hours will take care of homeowners, as well. "Homeowners welcoming trick-ortreaters should turn on their porch lights, restrain their dogs and clear the lawn of objects that a trick-ortreater might trip over," he said.

In addition, jack-o-lanterns and other candle-lighted devices should be kept away from doorsteps and walkways to prevent igniting a costume.
