

BRISCOE COUNTY NEWS

OFFICIAL PAPER FOR BRISCOE COUNTY

VOLUME 19—NUMBER 32

PUBLISHED WEEKLY AT SILVERTON, BRISCOE COUNTY, TEXAS

THURSDAY, JULY 11, 1929

Silverton

Have you noticed that the new \$10,000-bills bear the picture of Samuel P. Chase? Well, neither have we.

According to news dispatches the portrait of James Madison adorns the new \$5,000 currency. Several Silverton capitalists are debating whether to organize a Chase or Madison club, and have about decided to let the question be determined by which one appears in circulation here first.

Don't stampede, boys, children and women first. The doors will soon be open to the Abraham Lincoln circle, and it will cost only a dollar to possess old "Honest Abe's" face. The genuine American club will be ready for membership about July 15 according to announcements from the federal reserve bank at Dallas.

A peculiar will has been filed for probate in Indiana. The will set aside five Samuel P. Chasers for a period of 2900 years. At the end of that time the \$50,000 fund will have amounted to 160 million dollars. Verily, the man was no fool who invented interest.

The enormity of Briscoe county's hail damage can be appreciated most by comparisons. No one knows how each individual has planned to use the income from his wheat; in legitimate channels of trade we are certain. Within those few minutes enough value was destroyed to have built each of the four churches here \$15,000 brick edifices; a \$5,000 community park; a \$5,000 community building; and at least six \$5,000 rural school buildings of brick.

As staggering totals are soon run up when summing individual losses, in like manner are costly and great constructive efforts achieved by the many in cooperation and seemingly impossible accomplishments attained.

Don't blame the little girls in the telephone office if the so-called telephone mechanical equipment in service here has fallen flat and exasperated you into a tantrum.

The system in Silverton is bad, just about worse than having any at all, but it is not the girls' fault. They have been performing admirably, much more so than we would under the same conditions.

While they remain calm and poised and patiently do the best they can without a murmur, plugging numbers when they know they won't work and trying to make connections when they know all the lines in town are crossed up or out of order, we would be either swapping rough epithets with the customers or meeting them out in the open for a free-for-all.

There are better days in store for telephoning in Silverton, according to one of the officials who was here several weeks ago. He stated that the improvement schedule of the States Telephone Company calls for a new mechanical system out and out within the city limits, from poles to switchboard, and that the work might be reached some time this summer.

The improvements here are to be taken up immediately following the overhauling of the system at Floydada. No information is at hand as to what is being done in the Floyd county capital, when it will be started or when it will be finished.

Like Christmas an improved system, a new one, is coming down the line, and as regards the weather about all we can do is talk much without being able to do anything about it.

However, we believe that a dignified protest to the district office from some official sources here would aid in making more serviceable the makeshift that is in use in Silverton.

Raised Cash for New Church in Two Days

McCAMEY, July 9.—McCamey claims a population of 5,000 people, with only 300 church members. But these few wanted a church and went out and raised the cash within two days; just that simple. Former Postmaster General Albert S. Burleson at one time owned the land on which McCamey is built.

West Texas Gas Company Starts Work On Line

DITCHING BEGAN AT KRESS MONDAY; ANOTHER CREW ON CAPECOCK; STORE AND OFFICE OPENED HERE.

The West Texas Gas Company has opened its office and retail store in the Northcutt building here and two crews of men have begun work on the natural gas line into Briscoe and Hall county, tapping the main line in Swisher county.

The ditching crew began work Monday near Kress, and the construction crew will follow welding the line in the ditch. Another large crew is at work on the right-of-way at the caprock leading from the plains to Quitaque.

T. P. Divens has opened the gas headquarters here, and is receiving applications from prospective customers for meter installations. It is the intention to have all meters put in place and property lines and building plumbing done as soon as possible before the main line reaches the city.

There is no relation between these applications and the coming of the gas to Silverton," said Mr. Divens. The line will be built regardless of this preliminary action, he stated. But if a customer desires to be served first, it is necessary to file his application and put up the customary meter deposit at earliest convenience. These applications are being numbered, and meters will be set in the same order. Under this arrangement there will be no delay in turning on the gas, for cooking or heating, immediately upon completion of the mains.

"Silverton will have natural gas well before cold weather arrives, and this is an assured fact," said Mr. Divens.

New Residences Seen In Silverton

Modern and Model Homes for Permanency Have Become the Order When Building Plans Are Made.

North and West Silverton are now enjoying the building of several new residences, all modern and substantial and a credit to any city. It has now become the custom that when building plans are being worked out only the modern type is considered, with a view of comfort, beauty, and permanency.

W. L. Jewett has under construction in Sunset addition a fine residence of concrete, brick and stucco. Hardwood floors and other modern features will be installed.

Jeff Simpson is adding to the desirability of North Broadway for home sites by building an attractive residence at the intersection with Fifth street.

Mrs. J. E. Minyard has just completed and moved into her new five-room stucco home in the north part of the city.

Guy Whitacre is building a modern bungalow on West Commerce street.

Fred Lemons has just finished laying concrete sidewalks at his home in the north part of town, leading the way for a much needed improvement of like nature in every section of Silverton.

Plainview Coming for Ball Game Sunday

The Silverton ball club had such good luck with Gasoline and ran up a top-heavy score that it has decided to run in faster company. A game has been matched for Sunday with the Plainview club. The game will be called at the Silverton ball park at 3:30 o'clock Sunday afternoon.

Both these clubs have played many games during the summer and should be in finest of fettle. Both will put the best in the field, and a tight score is expected.

Big Celebration In Tulia July 17

TULIA, July 10.—A big time has been planned for the 38th annual anniversary celebration here commemorating the organization of Swisher county and in honor of the county's pioneers. The date has been set for July 17 by the chamber of commerce, and complete committees have been appointed to handle the various phases of the event. There will be dinner on the grounds and concessions let, and the entertainment committee will arrange entertaining features for the day. The reception committee will be made up of all who were in the county when it was organized.

Booker—Farmers' cooperative association will operate oil filling station.

Big Wrestling Bout At Theatre July 12

"Hammerlock John" of Abilene and Young "Sampson" of Quitaque Meet Here on Mat Card.

A big wrestling match has been arranged at the Palace theatre Friday night, July 12, between Hammerlock John of Abilene and Wallace Mobley of Quitaque. The wrestling feature is shown in addition to the regular picture schedule, and on the same night a special picture is billed, according to Hubert Simmons, manager.

For some time "Hammerlock" John has been sending challenges from Abilene for a chance to meet the Quitaque young "Sampson", and the latter's manager, E. R. Dudley, who is now a Silverton resident has accepted the challenge. From all indications there should be a real interesting match from the word go. The winner must take the best two out of three falls. The Abilene challenger will weigh in at 172 pounds, while Mobley will tip the scales at 165.

It is planned to stage regular wrestling feasts here in the future, matching the best wrestlers that are in this section of the state, according to Manager and Promoter Dudley, who states that no extra charge will be made above the regular admission price to the theatre's special shows.

Turkey, July 10.—C. L. Franz, prominent stock farmer, has been notified of his appointment as assistant swine division superintendent of the Texas State Fair at Dallas, which exposition will be held Oct. 12-27.

Park Site Bought By Lockney Council

Magnificent Playground and Community Now Under Construction By City.

LOCKNEY, July 9.—A municipal park of seven and one-half acres and a community building have been secured by the city authorities in purchasing the ground and buildings of the former Lockney College. In addition to a modern auditorium, club rooms, banquet hall, and park equipment, plans are under way for a bathing beach, gridiron, baseball diamond, and tennis courts.

The women's club will establish a library in the community building which will be of Spanish design, similar to the Alamo, and the Rotary club will handle the landscaping features of the acreage with an eye to attractiveness.

Noted Baptist Pastor Refuses More Money

DALLAS, July 9.—Rev. George W. Truett, who pastors one of the largest Baptist congregations in the United States, steadfastly refuses to accept a raise in salary to \$10,000 yearly. He is getting \$8,000 now. His church will spend a quarter of a million dollars this year in its manifold work. Its Sunday-school building alone is worth three-quarters of a million.

Planning to Build Sewer Ahead of Gas

Important developments will come soon to Silverton's sewer project, states Mayor T. M. Nichols for the city council which is arranging to get ahead of the gas company in laying the sewage lines down the alleys. Announcement of definite steps will be made soon.

Quarterly Conference For Methodist Sunday

Rev. M. M. Beavers, presiding elder, will preach at the Methodist church Sunday morning at 11 o'clock, and in the afternoon at 2:30 o'clock he will preside at the quarterly conference, according to an announcement of Rev. Marvin Brotherton, pastor.

Joint Revival Will Begin Sunday Night

Preaching by Rev. R. P. Davis, Baptist, and Singing by Rev. Brotherton, Methodist.

A two-weeks' joint revival begins next Sunday night at the Baptist church, according to an announcement of the pastors of the Methodist and Baptist Churches here. The evangelistic efforts of both the churches will be consolidated in the announced series of meetings.

For the union meeting Rev. R. P. Davis, Baptist pastor, will do the preaching, and Rev. Marvin Brotherton, Methodist pastor, will have charge of the singing. With this cooperative spirit shown by the heads of the churches, a successful revival is practically assured with pronounced benefit to the entire community.

Postal Carriers Meet Next Year at Lubbock

The Rural Letter Carriers Association will hold its state convention in Lubbock next July, according to J. H. Williamson, local carrier, who returned last week-end from the four-day meet in Dallas. Lubbock became the future convention city by a two to one vote, said Mr. Williamson, who added that the carriers of North and West Texas invaded Dallas with the set purpose of bringing the next meet to the Plains.

A. E. Frieze, postmaster, also attended the convention in which all postal men participated. It is expected that all other associations of the state postal service will select Lubbock later, and the annual assemblages will be held there at the same time.

Old Settlers' Meet Yellowhouse Canyon

A 3-Day Program Arranged for Re-Union On Old Igo Ranch July 18-19-20.

Special to The News:

SLATON, Texas, July 11.—Plans are practically complete for holding the three days' Old Settlers' Re-Union, July 18, 19, and 20, at the old Igo Ranch, five miles north of Slaton, in the Yellowhouse Canyon. This is announced by H. L. (Bud) Johnston former Lubbock County sheriff, one of the ranch owners.

The 3-day program of entertainment will include swimming, fishing, boating, rodeo performances, many kinds of sports, buffalo riding, pony racing, chariot racing, a terrapin derby, band concerts, public speaking and other forms of diversion.

Extensive improvements on the 5,300-acre ranch, which is a natural playground, furnish excellent facilities for entertaining the several thousands of West Texans who are expected to attend, Johnston said. Included among the visitors will be hundreds of old-timers, he has announced after receiving scores of letters from all parts of West Texas.

Big Spring—\$75,000 depot and freight house will be erected for Texas & Pacific railway in the near future.

Is It Good Business?

(AN EDITORIAL)

All business men and most others who are not in business recognize the sound principle of retaining as much cash money in circulation as possible within the confines of the community where it is earned. The larger the amount in circulation, and the more it travels in a circle, the same money coming back again and again to the same owner, the more prosperous is everybody.

If all the money earned by salaried people and farmers were spent in Floydada, Tulia, Plainview, and Amarillo just for a period of a few months, Silverton would become a deserted village and "hard times" would grip the entire trade territory. It is circulation, the swapping of dollars for goods and goods for dollars, the trading with one another right here at home, that keeps the life-blood from congealing in rigor mortis.

It is the same in trading with home industries. If grain growers carried all their wheat to Tulia, there would be three less business concerns here and many less families. If we bought all our ice from Quitaque, there would be no ice company and still less people here. It is possible to dry the town down to the bone.

Above all, the business men should observe this business principle of refilling their shelves from industries at home where the product is just as good and price the same. Silverton has a bakery, and we think the public receives its products as ranking with the best, but if we continue to buy our bread from Floydada bakeries, we lose the bakery here, its operators will move away, the owner of the building is without rent, merchants go short just that much trade, and Floydada gets richer, more bakers are hired down there with our money, rents are paid in Floydada with Silverton money. We have deliberately crippled ourselves by chopping off a finger just because we could. That's our right; other people may think we are a little crazy but it's our privilege to lop off a toe or two with the axe when we feel like it.

Messrs. Reynolds and Irvin are experienced bakers, we understand. They claim to be able to put out whatever kind of bread and pastries the people want, and we do not doubt it. Their prices are standard. If all this be true the baking trade should be theirs for all those reasons enumerated above. Surely, we must be forgetting our own self-interest if we would force a non-competitive business out and pour a steady stream of dimes into another county where they have no chance to return. If we had no bakery here, there would leave Silverton every day \$50.00 or more for bread and baking products, and it never circles back here.

If you want a certain kind of bread that the Sally Ann Bakery is not running out, tell the managers. Let's give them a fair chance and a square deal, and see if we don't profit by it.

Gasoline Boys Were Outclassed 18 to 3

Polling out 16 hits the Silverton ball club defeated Gasoline here last Sunday 18 to 3. Silverton made ten runs in the fifth. Bean, Morgan and A. Taylor making two scores each before the third out. Batteries for Silverton: Walker and J. Taylor; for Gasoline: Bedwell and Morrison.

Lockney, July 8.—Chas. R. Mickey, age 65 and a native of Missouri, postmaster and storekeeper of Mickey, died at his home June 25 from a stroke of apoplexy. Funeral services were held by a Church of Christ minister, Elder George Mickey, a nephew.

Tulia, July 8.—Forty-six people attended the birthday dinner given by Mr. and Mrs. R. E. Lumpkins for Grandmother Knight, 83 years old, here June 21. Mrs. Knight has been a resident of Swisher county 40 years, and was able to entertain the party with real Indian stories.

Better Spirit for Rural-Urban Was Speaker's Theme

CAPTAIN C. S. NUSSBAUM ADDRESSED LIONS ON COMMUNITY FESTIVALS; NOTED ATTACK CASE FINALLY BROUGHT TO TRIAL.

Unifying the interest of the farmer and the merchant, the rural and the urban, and the creating of a better fellowship among all members of the community was the sense of an address of Capt. Cyrus S. Nussbaum, visitor at the Lions club luncheon at the King Cafe Tuesday.

Capt. Nussbaum is a former district deputy governor of the Lions in California, an ex-captain in the Red Cross service, and was for many years on a chautauqua circuit. He is now engaged in community building work, holding community festivals wherever arrangements can be made. His work calls for the awakening of cooperative interest, of mutual helpfulness, such as mutual trade, community pride, and the perils of building of other cities by failing to spend every dollar possible with those whose spending and tax-paying and charitable contributions come naturally in and around the home-town.

McClister Counted Out by Judge.

A feature of the luncheon was the "trial" of W. W. McClister, proprietor of the McClister popular drygoods establishment, for an alleged attack which is supposed to have occurred when a Mexican woman several days back attempted to pilfer a few of the store's valuable woman's apparel. Prosecuting Attorney Tipps bitterly arraigned the defendant, and Judge Ovan Boman was rather slack in polling the jury, and as a result defendant was found guilty and fined twenty-five cents. Several avenues were opened up during the case, and other charges are likely to be filled at the next meeting.

Tax Levies Fixed By Commissioners

Rates On County's Taxable Valuations Proportioned to the Various Funds.

The various tax levies for 1929 on all taxable valuations in Briscoe county were fixed by the commissioners court in regular session last Monday. Road District No. 6 has the highest levy, \$1.25. The different funds and levies are as follows:

July 15 cents; general 25 cents; courthouse 25 cents; road and bridge 30 cents; road district No. 6, 55 cents; No. 7, 40 cents; No. 8, \$1.25; county poll 25 cents; occupation tax, one-half of state taxes. Schools, No. 2, \$1.00; No. 3, \$1.00; No. 4, \$.75; No. 5, \$.25; No. 6, \$.50; No. 7, \$1.00; No. 8, \$.75; No. 9, \$1.00; No. 11, \$1.00; No. 12, \$1.00; No. 13, \$1.00; No. 14, \$1.08; No. 15, \$.75.

Dalhart—Work started on new 18,000 bushel grain elevator and large warehouse for Dalhart Grain Company.

A LITTLE STRUT

"The greatest newspaper in the world is not published in New York or Chicago or California," said G. S. Crane, of the Campbell-Ewald Co. "The greatest newspaper in North America yields ten times the influence, is read by a hundred times more readers, gets closer to the readers, is read longer and believed in more confidently than any large city paper. It is published in 8,000 different towns, once a week, and is the home-town paper, better known to most of us as the country weekly."

Know Texas

Conservative estimate is that
Texas' wealth is increasing at
the rate of more than \$1,000,-
000 a day.

Texas leads the Southern
States in income tax payments.
Building permits in eleven
Texas cities since 1920 totaled
\$725,000,000.

Bank debits of 15 leading
centers in Texas average \$950,-
000,000 a month. In 1920 the
average of the same cities was
\$700,000,000 a month.

Resources of Texas building
and loan companies are \$100,-
000,000—a 1300 per cent in-
crease since 1920.

There is \$2,500,000,000 life
insurance in force in Texas
now, an increase of \$1,750,000,-
000 since 1920.

NEIGHBOR PRESS
FOLKS SAY—

McLean News—No man would
start a fire and expect it to keep
burning without adding fuel regularly,
and if the sales fires for the busi-
ness man are to be kept burning
there must be regular advertising. Re-
gular advertising boosts the profit
side of the ledger for the dealer who
consistently uses it.

Pampa Daily News—Heard: That
a tourist halted here by rains took it
for granted the highways get as
muddy as the streets, and that he
remained here for a day unnecessarily.

Higgins News—All roads used to
lead to Rome, but now all roads lead
to most any place you want to go and
the roads must be kept in good condi-
tion because of heavy tourist travel.
Now days if a town values its
trade territory, it does not forget that
people will not travel over a bad road
to town if a good road is kept up by
another town not far away. Thus the
question of road building is one that
is vital to every community. And,
also, the streets of a town have con-
siderable to do with town building
and trade getting.

NEWS
BRIEFS FROM TOWNS
NEARBY

Amarillo, July 9.—Boyd Jones, 15,
dressed as a cowboy, is on his way,
horseback, to invite President Hoover
to attend the Tri-State fair here this
fall. It is not stated if he will swim
the Mississippi.

Dimmitt, July 8.—Having over 200
meter installations here and doing
over 100 per cent more business in
June this year than last the Texas
Utilities company is sharing in the
rapid growth of this town.

Tulia, July 8.—Mrs. Lucy J. Man-
ess, native of Tennessee and age 82
years, was buried here June 24, with
funeral services at the Church of
Christ in charge of Rev. J. T. Corder.

Turkey, July 10.—If the fields of
the watermelon growers association
hit this summer, about 200 carloads
of melons will be grown on the 115
acres planted. The soil here is adapted
to melon culture.

Lockney, July 8.—Newly elected
Masonic officers for the lodge here
are C. H. Huffman, W. M.; J. C.
Cummings, S. W.; J. M. Cox, J. W.;
J. C. Broyles, treasurer; E. C. Martin,
secretary; and W. E. McClure, tiler.

Eden is endeavoring to install a
sewer system, and work is being done
to interest fifty home owners into ty-
ing in on the system in the near fu-
ture so that work may start.

NEWS ODDITIES

COURT MUST HAVE THOUGHT
ATTORNEY WAS A MULE

Oklahoma City, July 8.—Howard
Tucker, local newspaper man, pub-
lished a story of the fight between
the county attorney and sheriff un-
der the heading, "Mule Kick Puts
Klan Sheriff in Hospital", in which
personal encounter the attorney had
kicked the sheriff in the stomach,
putting the latter out of commission.
Tucker was fined on libel charge \$100
in lower court, but the appeals' court
reversed the decision and ordered
charges dismissed.

FOUND A HAPPY MAN
WITH TOOTHACHE

Cleburne, July 8.—Usually it pays
no one but the dentist to have the
toothache, but Raymond Garza, who
lives over his store here, saved a
large part of his stock of goods when
he had to arise to doctor an aching
molar. When he turned on the light
he heard a car drive away. Next
morning he found a plate glass re-
moved but nothing was missing.

DON'T TAKE ANESTHETIC
WHILE WIFE PRESENT

Freeport, Ill., July 8.—Murmuring
endearingly the name Florence while
on the operating table under anes-
thetic, Ralph T. Calam has lost his
wife, whose name was Gertrude,
through the divorce route who over-
heard her husband's sub-conscious
ravings.

SOUNDS LIKE A
WET ARGUMENT

Floydada, July 8.—Della Plains,
once the thriving trading center of
what is now Floyd county, is only a
farm now. The owner in dedicating
it for a townsite in the early days
was restrictive in that no intoxicating
liquor should be made or sold on the
land. Della Plains with so pleasant a
name deserved to be perpetuated but
was abandoned when Floydada be-
came the county seat.

WHAT'S DOING IN
WEST TEXAS TODAY

Pampa's building permits totaled
\$181,100 for one week recently mak-
ing the total for the year \$777,640,
and placed Pampa second in the Pan-
handle and among first 10 cities of
the state. The largest permit was is-
sued to Horace and Guy Saunders,
who will erect a \$54,000 two-story
garage building.

Albany is seeing over \$100,000 put
into homes by its citizens. Most of the
residences are of brick or other per-
manent construction and range in
value from \$100,000 to \$35,000.

San Angelo is to have a large dam,
the contract for which has been bid
on by 6 well known construction com-
panies. The project includes a 45
foot dam, 6,000 feet in length, top
width 20 feet, bottom width 225 feet,
with the reservoir to have an aver-
age width of five-tenths miles and
to extend several miles up the river.

Floods plans to celebrate the big-
gest event of its kind ever held in
Texas west of Lubbock on July 12
and 13. The leading features of the
program are a free barbecue, rodeo,
baseball, dancing and state wide
known speakers. Judge Hamlin of
Farwell, manager of the Capitol Res-
ervation lands, will speak on the
opening day.

Turkey is adding the finishing
touches to the large, 200,000 gallon
reservoir for the city the contractor
is furnishing the pump houses which
complete one of the most modern,
up-to-the-minute water supply plants
in West Texas.

Ballinger, the starting place of the
Fourth Annual Motorcade sponsored
by the West Texas Chamber of Com-
merce, is planning an elaborate
luncheon for those who start the pro-
tracted tour of the scenic spots of
West Texas and eastern New Mexi-
co. The dates for the motorcade
are from July 10 to July 20. B. M.
Whitaker is in charge.

ming pool and filling station.

EXECUTION SALE

THE STATE OF TEXAS
COUNTY OF BRISCOE

In the District Court of Briscoe
County Texas.

Willson & Son Lumber Company vs.
J. N. Green, et al.

Whereas by virtue of an execution
issued out of the District Court of
Briscoe County, Texas, on a Judg-
ment rendered in said Court on the 17
day of May, 1929, in favor of the said
Willson and Son Lumber Co. and Jno.
Burson against J. N. Green et al. No.
633 on the docket of said Court, I did
on the 1st day of July, 1929, at 10
O'clock a. m., levy upon the following
described tract of land located and
situated in the City of Silverton, Briscoe
County, Texas, and belonging to the
said Green Gin Company, said
Green Gin Company composed of G.
C. Green, J. T. Green and R. C. Green,
said property thus designated and de-
scribed, all of Block No. 146, consisting
of twelve Lots numbered from one to
twelve inclusive, being out of and a
part of Sec. No. 20, in Blk. "A", Cert.
No. 70, and known as the Green Gin
Property, in the S. E. Part of Silver-
ton, Texas; And on the 6th day of
August, A. D., 1929, the same being
the 1st Tuesday in August A. D., 1929
between the hours of 10 O'clock a. m.
and 4 O'clock p. m., on said day at
the Courthouse in Silverton, Texas,
said county of Briscoe, I will offer
for sale and sell at Public Auction for
cash, all right title and interest of
the said G. C. Green, J. T. Green and
R. C. Green, in and to said property,
to satisfy the judgement of the plain-
tiff Willson and Son Lumber Com-
pany; however said sale shall be made,
and the purchaser shall take said land
subject to a Senior Lien and debt in
favor of Jno. Burson, in the principal
sum of One Thousand (\$1,000.00) Dol-
lars.

Dated at Silverton, Briscoe County
Texas, this 1st day of July, A. D. 1929.

N. R. HONEA, Sheriff of Briscoe
County, Texas. 7-4-11-19

AN ORDINANCE

AN ACT MAKING IT UNLAWFUL
FOR ANY PERSON, INDIVID-
UAL, ASSOCIATION, PARTNER-
SHIP, JOINT STOCK COMPANY,
OR CORPORATION, to erect, man-
age, carry on, or pursue certain
occupations or business within the
City limits, unless said occupation
or business be carried on within
"the industrial district" of said
City; and defining and setting out
said industrial district, and making
it unlawful for any person, associa-
tion, partnership, joint stock com-
pany or corporation to permit or
allow any old abandoned automo-
biles, or parts, or any other old
worn-out implements or junk of any
kind outside said "industrial dis-
trict", left or remain on any land
or lots owned by said parties, de-
fining and setting out the penalties
for such violation, and declaring an
emergency.

RE IT ORDAINED BY THE CITY
COUNCIL OF THE CITY OF SIL-
VERTON, TEXAS:

Section 1.

It shall hereafter be unlawful, for
any person, individual, association,
partnership, joint stock company or
corporation, to run, manage or carry
on any of the following named busi-
ness or business enterprise, tanneries,
foundries, gins, compresses, flour,
grist or feed mills of any kind,
slaughter pens, hide establishments,

or any establishment for making soap
or rendering lard for commercial pur-
poses, or junk yards within the cor-
porate limits of this city; unless said
business, factory, plant or establish-
ment be located within the limits of
the "Industrial District" of said City,
of Silverton, Texas, as herein after
set out and defined.

Section 2.

It shall hereafter be unlawful for
any individual, association, partner-
ship, joint stock company or corpora-
tion, to permit or allow any old aban-
doned automobiles, or parts, or parts
of old machinery, or any old machi-
nery that has been abandoned, or
any old binders, wagons, or imple-
ments of any kind that have been
worn out, or any old junk of any kind
whatsoever, to be left or to remain
on any lots, lands or premises, own-
ed, leased, rented or controlled by
them, except it be within the limits
of the "Industrial District", as here-
in after set out and defined.

Section 3.

Said "Industrial District", shall be
located on the following described
parts of Blocks, and shall embrace
the territory contained within said
territory, to-wit: Beginning at a point
in Commerce Street, same being the
North East Corner of Lot No. 4, in
said Block; Thence South along the
West side of the Alley passing north
and south through Blocks Nos. 45,
66, 71, 92, 97, 118, 123 and 144 to the
South East Corner of Lot No. Seven
(7), in Block No. 144 of the town of
Silverton, Texas; Thence East along
the South line of Blocks Nos. 144,
145, and 146 to the South East
Corner of Lot Number 9,
in Block No. 146; Thence North al-
ong the East line of Lots Nos. 9, 8,
7 and 4 in Block No. 146 and along
the East side of Lots Nos. 13 and 8
in Blocks Nos. 121, 120, 95, 94, 69,
48 and 43, to the North East Corner
of Lot No. 8, in Block No. 43, of said
City of Silverton, Texas; Thence
West to the place of beginning.

Section 4.

Any Person or individual who shall
violate any of the provisions of Sec-
tion No. 1, of this Ordinance shall,
upon conviction, be punished by fine
not to exceed One Hundred (\$100.00)
Dollars, and each day, said ordinance
is violated, shall be a separate of-
fense.

Section 5.

Any person or individual violating
any part of the provisions of Section
No. 2, of this Ordinance shall upon
conviction be punished by fine not to
exceed One Hundred Dollars, and
each day said ordinance is violated
shall be a separate offense.

Section 6.

The fact that it is for the best in-
terest of the City for all industries
to be located within a certain defin-
ed district, and that there is danger
of some of the above named business
being located in different parts of
the city if not prohibited and the fact
there has been a custom of people
leaving old junk and worn out auto-
mobiles, and machinery around the
different blacksmith shops and gar-
ages in town and that said custom is
against the best interest of the City,
creates a public necessity and re-
quires the regular rules be suspended
and that this ordinance take effect
upon its approval and publication in
accordance with law, and it is so en-
acted.

Passed and duly enacted as an or-
dinance of the City of Silverton, Tex-
as, in accordance with the Laws of
the State of Texas, on this 1st
day of July A. D. 1929.

T. M. NICHOLS, Mayor of the City
of Silverton, Texas.

Filed June 29, 1929. Attest: (Seal)
J. E. MINYARD, J. E. MINYARD,
Secretary of the City of Silverton, Texas.
City of Silverton, Texas.

Sinton—After selling his home-
grown kaffir to 25 hogs at a price
well over \$30 per acre, Clifford Pow-
ers, farmer at West Sinton, has clear-
ed \$88.83 above feed cost on these
porkers sold in a local co-operative
pool. He found that a few acres of
oats and rape pasture helped him to
produce pork at little less than eight
cents per pound. He is feeding out
29 more pigs for the fall market.

Gas
Notice

Two Crews are now at work on the gas
line into Briscoe County. In order to facil-
itate gas connections and the setting of
meters, all who intend to make connec-
tions are requested to call at our office in
the Northcutt building and arrange for
meter installations. As your application is
received, a number will be designated and
meters set in this numerical order.

These applications have nothing to do
with the coming of gas. The line will be
here before cold weather, but must get
your applications in and deposit up early
in order to secure connections promptly.

Poultry Lice in
Silverton Flocks

A Few Words on Killing Poultry Insects to Keep Up Egg Production.

(BY W. M. GOURLEY)

The ravages of common poultry insects and pests always reach the high point during the months of July and August. During these months the poultrymen should adopt a schedule of eradication.

There are two very great losses in poultry raising due to poultry lice, mites, and intestinal worms. In the first place the summer production of eggs is greatly reduced, and in the second place the vitality of the flock is lessened to the extent that the birds develop summer rump and go into the Fall and Winter season in such weak physical condition that they are unable to lay many eggs, when market prices are high.

Poultry lice is found in practically every farm flock around Silverton. Then, due to the fact that this is a very common insect, organized effort should be made to eradicate the pest. Poultry lice are easily destroyed if a definite program of control is set up. Leading poultry raisers agree that sodium-fluoride is the most effective insecticide and is easily applied.

At this season of the year, the dip method is the most practical and most economical. Use one ounce to one gallon of water. Keep mixture stirred thoroughly when applying. A good plan is to mix up about 1-2 pound in 8 gallons of water. Use a zinc tub. It usually requires one pound for every 100 birds. Be sure the solution is measured and that in dipping, the skin of the fowl is thoroughly wet. Ruffle the feathers and keep fowl in water for a minute or so. Dip head under last and then allow to drain before releasing. A sunny, windy day is preferred for this treatment. There should be at least three dippings 10 days apart.

Another method of treatment highly recommended is the use of Blue ointment. A small amount about the size of a bean is applied around the vent of the fowl and under each wing. This should be repeated every ten days for three treatments.

For the destruction of mites used equal parts of burnt crank case oil and kerosene. Spray every week for at least six weeks. If house is heavily infested, never treat fowls for mites as they most invariably breed in the crevices of the roosts, falls and nests. Every inch must be thoroughly soaked with the oil mixture.

New for the control of worms in poultry, which is the most difficult perhaps, the following methods might be used. Give each bird one capsule of nicotinic sulphate. These capsules come in ready prepared form and can be secured at the local drug store. Follow this individual treatment with epsom salts in the drinking water. About one pound to every hundred birds. This is an effective method for control of round worms. For tape worms use kamala tablets. The desire is one grain to a mature bird. May 10-15 in capsule also.

In administering capsules place them well down the bird's throat and with the thumb and forefinger work the capsules down into the birds crop or "crop". The birds under 8 weeks of age, and weak ones that are older, should not receive as much of the dose given to the rest of the flock.

Quitauque Hog Buyer
Ships \$85,000 Worth

QUITAUQUE, TEXAS, July 9.—Forty-seven cars of hogs, with an average value to the farmer of \$1,800 per car, have been shipped from Quitauque since January 1st by P. C. Hamilton, local hog and cattle buyer. In addition to the \$85,000 worth of hogs shipped from this point, the local man has shipped 11 cars from Turkey and Silverton, he reports.

To better serve the farmers of the community, Mr. Hamilton has installed a set of scales just south of the Denver depot, and will have a man there at all times to receive hogs and pay the owner, he states. An increasing number of farmers of the community are raising hogs as a sideline, Mr. Hamilton says, and are finding it a profitable business proposition.

Prices the first of the week were around 9.75c per pound at Quitauque, and are expected to hold up.

Cotton Acreage 3.2
Per Cent Increase

Following the government's report Monday that the cotton acreage was 3.2 per cent larger than in 1928, cotton advanced on the New York market from 19 to 25 points. The acreage was lower than expected, according to information gained through private sources, and the price was advanced to fit the expected yield. No estimate was made by the government on expected yield, being prevented by law venturing into this field of speculation.

Terracing Checks Blows
And Retains Water

ABILENE, July 10.—Water stood on P. G. Self's level terraced farm at Tuscola 36 hours after a recent quick rain, whereas nearby farms lost most of this water immediately. Other farmers there lost a fourth of their crops by sand storms this spring while Mr. Self lost only two percent of his crops by sand storms. Terracing and contouring check blowing, and this is one reason that 25 farmers in that community have asked the county agent to help them in terracing this fall.

Happy—Branch studio of Amarillo College of Music will reopen here this fall.

Take out of the capsule 1-4 to 1-2 the powder. It would be a good idea to have the druggist prepare half doses for such individuals.

Poultry worms cause summer rump and no doubt have some effect on the birds carrying fowl paralysis. The certainly low or vitality of the young stock and lower egg production among the laying hens.

For prevention of worms keep house and run clean and disinfected with kerosene dip Number 1.

SILVERTON, TEXAS

Better Dairy Showing
Up in Scurry County

Several bull circle heifers just fresh in Scurry county are reported to be producing from 25 per cent to 33 per cent more milk than their dams, and in Jones county two such heifers are giving 3 1-2 and 4 gallons of milk daily, which is said by their owner to be a decided increase over their mothers' production.

For Winter Profits
Feed Hens Now

COLLEGE STATION, July 9.—It pays to feed hens a laying mash straight through the summer, even if eggs are cheap. This is the experience of hundreds of poultry demonstrators in past years and will probably hold true this year, E. N. Holmgren, extension poultryman thinks.

"Our demonstration flocks show that eggs may be produced during the summer for a feed cost of 13 cents or less per dozen," he explains. "But where a balanced ration is abandoned and the fowls left to shift for themselves in an attempt to save a feed bill we have found that the egg production often falls off so much that the cost of producing a dozen eggs is nearly if not quite as high as this, and the birds are left in bad condition."

"The high cost of not feeding hens in the summer time is felt most in November and December when eggs are high. A summer-starved flock just can't come through with many high priced eggs at that time."

"One of several good rations is known as the Big Five, made up by mixing 100 pounds each of wheat bran, wheat shorts, ground corn or milo, ground oats, and meat scrap of 50 per cent protein content. This is fed as a mash kept before the flock in hoppers. For scratch grain, cracked corn and wheat and oats are mixed together in a 2-1-1 proportion."

Lubbock—West Texas Cow Testing Association now in operation.

Snyder—Marking of streets and numbering of houses underway in this place.

COTTON CROP IN
FINE CONDITION

Some Flea Infestation is Reported—Crop Late But Growing Well, is Report.

QUITAUQUE, TEXAS, July 9.—With 20 years' experience in this section to back up his observations, Amos Persons states that the cotton crop of the Quitauque community is this year as promising as any he has ever seen during his residence here.

Admitting that the crop is from 10 days to two weeks late, favorable growing conditions are rapidly making up for any tardiness in planting. Ample moisture, helped by a hot sun during the past two weeks and intensive cultivation in most of the fields, is making the plant shoot upwards.

Some flea infestation has been reported in local fields, but a comparatively small amount of damage is expected from that source.

Ginners, farmers and business men all unite in predicting the bumper crop in the history of the Quitauque community. Row crops are also reported to be making a fine growth.

No Regular Sag
In Summer Business

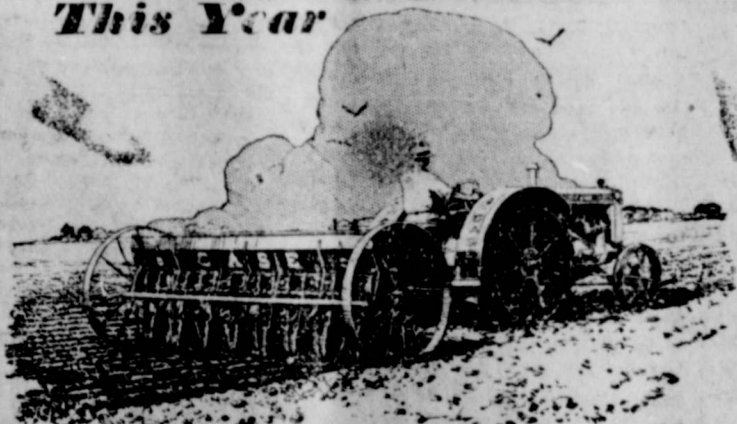

NEW YORK, July 8.—There was no June business slump seen this year nationally. The clash and rumble of huge freight cars furnished a bass note to the industrial symphony. Sidetracks and spurs were dotted with cars taking on and unloading, and this is taken evidence that business was well, without the usual June sag. The last of June saw the movements of new crops from the Southwest get into full swing, and with June safely passed, no depression is looked for in 1929.

Canadian—Will burn gas here August 15th.

New CHEVROLET Sixes
on the road since Jan. 1st!

Today's Chevrolet is scoring a huge nationwide success because it represents one of the most sensational achievements in automotive history—a Six in the price range of the four.

The Chevrolet six-cylinder engine delivers its power freely, quietly, and easily throughout the entire speed range—delightfully free from annoying vibration and rumble. Combined with this remarkable six-cylinder smoothness are equally remarkable speed, power and acceleration—and an economy of better than twenty miles to the gallon.

In addition to such sensational performance the Chevrolet Six offers the outstanding advantages of Bodies by Fisher. And no car ever provided a more impressive array of modern convenience features—adjustable driver's seat and VV one-piece windshield in closed models, easy action clutch and gear-shift, ball bearing steering, and instrument panel complete even to theft-proof Electrolock and electric motor temperature indicator!

HOLLEY RESIGNS C OF C POSITION EFFECTIVE AUG. 1

FIRST SECRETARY - MANAGER
QUITAQUE CHAMBER OF COMMERCE
TO SEEK OTHER
FIELDS - RESIGNATION AC-
CEPTED WITH REGRET.

QUITAQUE, TEXAS, July 9.—Effective August 1, Claud Holley, first secretary-manager of the Quitaque Chamber of Commerce, will no longer be connected with the organization, his resignation to take effect on that date having been tendered the organization at the regular monthly meeting on Monday night of last week. While his future plans are indefinite, Mr. Holley stated that he expects to continue his work as a commercial executive at some other point.

The resignation was accepted with regret by the meeting. H. E. Berry, presiding, tendering Mr. Holley the best wishes of the Chamber of Commerce in his future activities and assuring him of the appreciation of the community for the work which he has done while at Quitaque.

Coming to the organization as its secretary and to the city as city secretary in October, 1928, Mr. Holley has proven a civic leader during his nine months' incumbency, and under his leadership many projects have been successfully undertaken by the Chamber of Commerce.

No action towards securing a secretary to fill the place vacated by Mr. Holley has been taken by the Chamber of Commerce, the matter being left in the hands of the board of directors.

A Live Town That Has Kept Its Trade

QUITAQUE, TEXAS, July 8.—"Of 193 towns I have visited during the past few years in my work as a community builder, Quitaque is the second community of all that number, in which the local postmaster reports that there has been no increase in the mail order business transacted by his office during the past four or five years," stated Capt. C. S. Nussbaum to a group of local business men.

In most communities the mail order business is a problem which besets the local merchant. Capt. Nussbaum stated, adding that he was greatly surprised when Cletus Dunham, local postmaster, reported that no more packages were received in Quitaque from mail order houses now than were received five years ago, when the receipts at the local office were one-fourth of today's total.

Week of Baseball Planned for Quitaque

QUITAQUE, TEXAS, July 8.—A ten-team baseball elimination tournament, which will give Quitaque a solid week of high class baseball, and incidentally provide a champion for this section, is the plan of officials of the Quitaque Athletic Club, according to O. C. Arthur, president, who states that contracts have already been mailed to all of the representative teams of this section.

Under the plan as outlined by the club, the tournament would start on Monday, August 5th, and would continue throughout the week, a double header being played each day, with the championship to be decided on Saturday, August 10th.

In order to complete the tournament and determine the winner within the week, entries are limited to ten teams, and the first ten managers to return their signed contracts will represent the teams to be entered in the competition.

All entries must be received on or before July 20th, and the lists will be closed on that date, officials of the athletic club state.

According to the terms of the contracts being mailed out, each signed contract returned will be accompanied by a certified check for \$100, payable to the Quitaque Athletic Club. On the morning of the start of the tournament, each manager whose team is ready for competition will be refunded \$50 of the \$100 fee posted.

Prize money will be awarded the clubs competing as follows: First place, one-half of the total entrance fees received; second place, two-thirds of the remaining one-half of the entrance fees, and third place, the balance of the entrance fees.

Neutral umpires from towns not represented in the tournament will be provided by the management.

No difficulty in securing entrants to the tournament is expected by club officials, who state their belief that a week of good sport will be appreciated by the residents of Quitaque and surrounding territory.

Encouragement has been received from managers of baseball teams in neighboring towns who have been approached on the tournament plan.

Quitaque C. of C. Has Disbursed \$18,000

Over \$1800 Collected and Disbursed
in First Nine Months of
Operation.

QUITAQUE, TEXAS, July 9.—A financial report showing receipts of \$1884.10 and expenditures of \$1876.65 during the nine months of his employment as secretary was submitted at the meeting of the chamber of commerce on Monday night by Claud Holley, retiring secretary.

On motion of G. Tunnell, the report was accepted by the organization.

Principal disbursements given in the report were as follows:

Salary, Claude Holley, \$800; stamps, trips telephone calls, telegrams, and office supplies, \$129.25. Decorating city, railway celebration, \$200; to Silverton and Turkey fire departments, \$200; annual banquet, work on road south of Quitaque, street lights for every other month, office furniture, printing, street cleaning for railroad celebration, charity before charity fund made up, and coal bills during winter months make up the balance of funds expended.

Home Brew Artists Warned by Sheriff

PLAINVIEW, July 8.—A warning to the public that he will rigidly enforce the prohibition laws respecting home brew beer was made by Sheriff Nath Burkett of Hale county in a statement published recently. Burkett issued an appeal to the people of this county to respect the prohibition laws, and stated that the officers of the county would not shrink their sworn duty to stamp out the making of home brew beer.

Ford Tudor Race Winner in Denmark

Winning first and second place in the recent Copenhagen-Paris-Copenhagen, 1440-mile race, the Model A Ford car has again demonstrated to Europe its endurance, speed and durability.

Details of the performance of the two cars have just reached here. From those accounts it was learned that the car winning first place—a Tudor sedan not in any way outfitted for racing—already had been driven 23,000 miles by the owner before the race.

"My car is now as good as ever," said the owner, Paul Tholstrup, of Roskilde, Denmark, at the conclusion of the race. "I am ready to drive to Paris again without even giving it a once-over."

Dormitory Required for Tech Freshmen Girls

LUBBOCK, July 10.—Beginning with the fall term of 1929 freshmen women students at Texas Tech College will be required to live in two privately owned dormitories, College Inn and Annex A. These two buildings with a capacity of 120 have been designated by the regents as dormitories for freshman women and they will be operated under the direct supervision of the dean of women, Mrs. Mary W. Doak. The buildings are stucco and tile and are located on College Avenue opposite the campus. The cost of room and board will be \$25.00 a month.

"Robert," said the teacher, to drive home the lesson which was on charity and kindness, "if I saw a man beating a donkey and stopped him from doing so, what virtue would I be showing?"

"Brotherly love," said Bobby promptly.—Open Road.

RIGHT OF WAY IS ASSURED ROADS

Two Lateral Roads for Quitaque
Community Are Assured—Road
Committee Reports.

QUITAQUE, TEXAS, July 9.—All right of way for the improvement of the road leading from Quitaque to the river bridge towards the Goodnight community has been assured at a cost not to exceed \$500, according to a report of the road committee given to the Chamber of Commerce on Monday night by G. Tunnell and O. C. Arthur.

A survey of the road was made by the committee on Thursday, June 27. L. E. Graham, county commissioner, and O. R. Tipps, county judge, also making the trip.

Total cost of the construction of the road, including the cost of gravel where necessary, is estimated by Graham not to exceed \$1,500, and precinct road bonds will be sold to cover the cost of construction.

All of the necessary right of way for the road to Gasoline and on to Flomot has been secured, according to Mr. Graham, and work on both roads will be pushed as rapidly as possible.

Perryton-Baptist Church will be completed soon.

Let's Have Some Sidewalks in Silverton

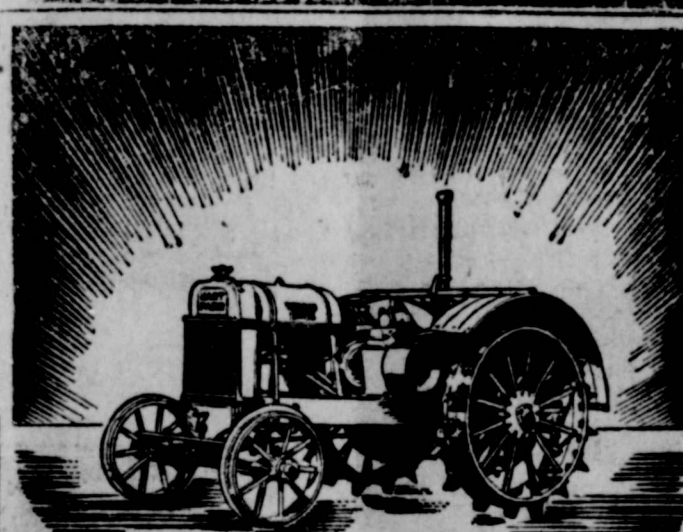

Says everybody. Now that gas and sewer are assured, all property owners want sidewalks. They are good property investments; you enhance your values probably double what the sidewalks cost.

Easy PAYMENTS

There is a number of good concrete men in town, and we are willing to finance sidewalks for property owners on monthly payments, in order to encourage this kind of improvement.

Willson & Son Lumber Company

Silverton, Texas

World-Famous, Three- Fuel Hart-Parr 18-36

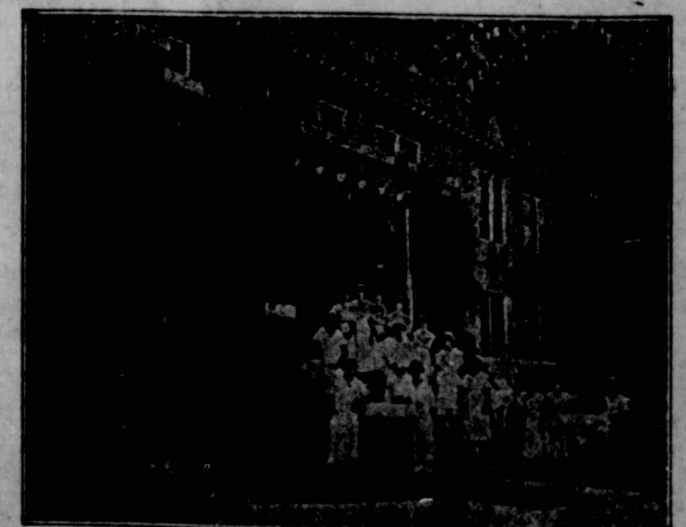

In official tests, conducted by nationally known engineers, who used cheap distillate for fuel, the great Hart-Parr 18-36 registered a drawbar pull of 5,535 pounds at two miles an hour, and 4,075 pounds at three miles an hour. On the belt it easily pulled the amazing load of 43 horsepower. The Hart-Parr is a three-fuel tractor, burning gasoline, kerosene or distillate equally well. It is the one tractor that develops its power from the cheapest, low-grade fuels. Hart-Parrs are made for small, medium or large farms and have three forward speeds to speed up hauling and field work. Drive one yourself and experience the thrill of controlling tremendous power.

PURE—
WHOLESOME—Old-Fashioned Fish Fry
Enjoyed on the Fourth
At Dickerson Fish Pool

The largest social gathering in Silvertown for several weeks was the fish fry party which observed Independence Day at the ranch of Mr. and Mrs. Chas. Dickerson, five miles southwest of the city. Mrs. Dickerson was chief hostess, assisted by members of the old Forty-Two club. More than twenty cars of people were present, with several out-of-town guests, to enjoy the freshly caught fish fried over a regular campfire, and all the other savory foods prepared by ladies who are cuisine artists.

The Fourth was an ideal day for an outing, a cloudless sky, a gentle Plains' zephyr to keep the sun's rays moderate, and there was a real holiday zest in the air of the evening as the party was assembling under the shades of the big cottonwoods at the Dickerson fish tank.

There was no forgetting the main idea of the evening, catching fish for the multitude, and a few fishermen were hurried into the job. For a while the fans were loyal, but when it seemed that the fish were also taking a holiday out some where, they sharpened up their wits and let loose a volley of wise-cracks. But to the everlasting credit of the hostess who urged the front rank to remain on the firing line the fishermen found a school of more than a hundred and saved their reputation and at the same time filled a hungry void of a famished crowd.

The shadows of evening were close when the repast was set and the crispy, browned fish removed from the popping skillets and passed around, ample for all even though the capacity of each was equivalent to two and the appreciation expressed to the principal host and hostess, Mr. and Mrs. Chas. Dickerson, and to the Forty-Two club members, lacked nothing of the genuine, as did that simple statement made long ago, "it is good to be here."

Floral Club
Will Not Give
Up City Park

Last Friday afternoon the Floral club enjoyed the hospitality of Mrs. N. W. Haynes and her two popular daughters, Mrs. F. B. (Mary) Buford and Miss Jo Haynes, who are spending the summer with their mother.

"Watering Plants and Gardens" was ably discussed. Some of the ladies had been trying the mid-day leaf-watering plan, the theory having been offered that a wet plant, if wind-blown, will be cooled instead of scalded, even in most intense heat. Root irrigation was advocated for early morning and late evening.

The city park committee was instructed to keep trying for a park site. The club's hopefulness and optimism concerning the project has not yet weakened, even though the delay seems long and cooperation slow.

The August meeting will be at the home of Mrs. J. J. Breaker, with Mrs. C. L. Dickerson as leader for "Fall Planting."

Sandwiches, cake and cream were served by Mrs. Haynes and her daughters. Those answering the roll call, besides the president, Mrs. Minger Crawford, and the hostesses, were Mesdames Anderson, Campbell, Jno. Burson, Bob Dickerson, C. S. Dickerson, Jim Daniel, Fogerson, Gunter, Meeker, Morgan, and Wright.

Mrs. Roy Allard
Bridge Hostess.

Mrs. Roy Allard was the charming hostess to the London Bridge club on Wednesday afternoon at the home of Mrs. Wood Hardcastle.

High score was won by Mrs. Elmer Allard.

Delicious refreshments were served to Mesdames Elmer Allard, Dean Allard, Roy Allard, Bruce Burleson, Max Crawford, W. L. Bain, Leo McAnaw, R. Patton, Wood Hardcastle, Hubert Simmons, Marion Williams, True Burson, Jim Meeker, T. C. Bonar. Guests of the club were Mrs. John Bain, Jr., and Mrs. Chick Northcutt.

At present the visitors, with Ware Fogerson accompanying them, are sightseeing in Ruidosa Springs, Carlsbad, Capitan, Roswell and other points in New Mexico.

Judging of Quitaque
Beautiful Yards and
Gardens Starts July 15.

QUITAQUE, TEXAS, July 10.—Judging of yards and gardens entered in the City Beautiful campaign sponsored by the Quitaque Chamber of Commerce will begin on July 15, according to Mrs. A. F. Van Meter, chosen chairman of the contest committee in place of G. S. Dowell, who has removed from the city. Other members of the committee are H. G. Gardner and Rev. E. L. Yeats.

According to Mrs. Van Meter, the first judging will take place soon after July 15, and yards and gardens will be judged a total of four times between July 15 and September 15, when the contest closes and the winners will be announced.

The average score of the contestants will figure in determining the final results, so that a yard which perhaps stands low in the records on July 15 will have a chance of winning a prize if continued improvements are shown during the length of the contest.

W. M. Gourley, professor of vocational agriculture at Silvertown, has agreed to act as chairman of the judging committee, and will select his own assistants.

Effects of the contest are already being noticed throughout the city. Mrs. Van Meter states, as the promise of beauty is seen in yards and gardens which are being improved for the first time. The committee realizes, the chairman states, that such improvements must come gradually, and that the real results of the contest will be more apparent next year and in succeeding years, than now.

Miss Violet Maye Fisch
On Tech Honor Roll Again.

Miss Violet Maye Fisch, who was in Texas Tech the last session and who has received a number of honors in her school work, both high school and college made the honor roll for the spring term at Lubbock, according to a report of the registrar's office released this week.

Higgins—Contract awarded for paving five blocks on Main street extending from depot to north line of school property.

'TIS A GINGHAM SEASON IN
SUMMERTIME VACATIONLAND

It is very old-fashioned to think of gingham in terms of kitchen aprons and workaday house frocks, for gingham this year registers in the "clancy" fabric list. The smart set having adopted gingham for its very own, is wearing it throughout the informal hours of the day. In gingham the style-wise play tennis, play bridge, go swimming or stroll in dress parade on the beach. For town and country wear there are gingham ensembles, too, and they are too swapper for words.

Somewhere, although it does not show in the picture, there is very liable to be found a gingham short jacket to "go with" the frock as shown here, for as suggested above the gingham ensemble costume is one of fashion's favorite themes this season. Simple checks, such as employed for the making of this dress, are no doubt in the lead, although gingham any patterning "stands in" with them.

As practical as they are modish are the jacket and skirt gingham suits which women are wearing for shop-glad, for motoring and for general daytime wear. The skirts are often plaited buttoning over sheer lingerie tucked-in blouses, while the jackets are that simply fashioned they tumbler without the least trouble. It adds to the sum of chic when a necktie of matching gingham is worn with the white or pastel tinted blouse. For the blouse, organdy, handkerchief linen or plique are favored materials.

Red and white gingham for the vacation time ensemble is very popular. The entire costume is carried out in the color combination, even to the shoes and hat including probably a red leather belt and a pocketbook to match.

Along with its other accomplishments gingham has succeeded in making itself generally popular in the beach and bathing suit realm.

COLLEGE STATION, July 9.—A home maker must take short cuts to the necessary three meals a day if she has time left to enjoy her family, her friends, her club and have an occasional pleasure trip. In recognition of this, Texas home demonstration agents are showing housewives how to save time in preparing meals.

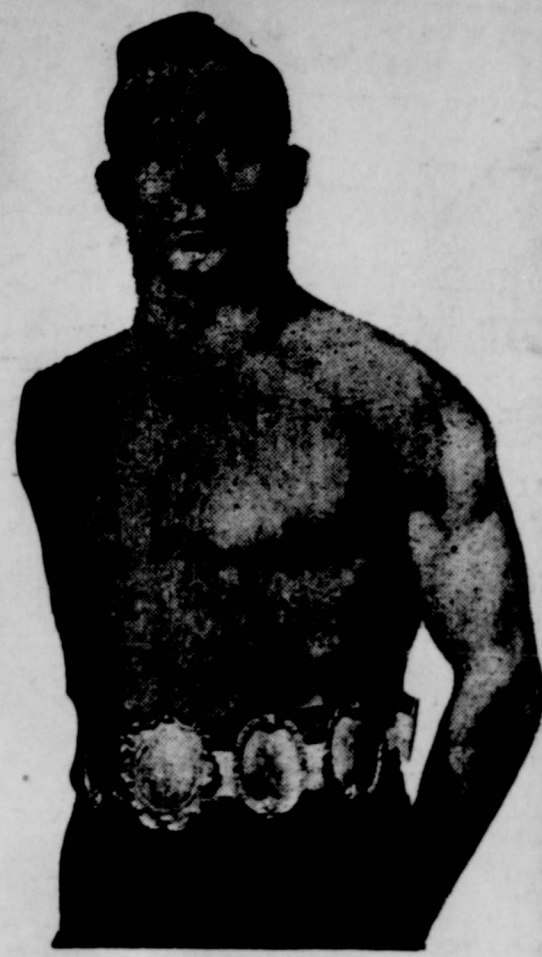

Among the methods demonstrated is the use of labor-saving utensils and tools, such as fireless, pressure and waterless cookers, double boilers, dish drainers, food choppers, light weight egg beaters, measuring cups and spoons, casseroles, toasters and broilers. It is shown to be important also that tools and fixtures be kept as close together as possible and convenient to the places where they are most needed. Trays and wheel stands are step and time savers in carrying food to and from the dining room, many women are finding.

One dish dinners are becoming popular among home demonstration club members, since they are easy to prepare, simple to serve and require little dish washing and clearing away afterwards. A casserole dish of meat and spaghetti, or beans, or beef hash and tomato sauce, or Irish stew, or corn chowder make a complete meal when combined with a fresh salad, tea, coffee and milk and bread.

Meats, vegetables and fruits arranged in season can be made ready for the table in a few minutes, and with this in mind hundreds of women are

The Medicine
For Pellagra

Dr. J. L. Leverett, prominent Paris, Texas, Specialist, is attracting National attention with his NEW method of treating Pellagra and certain forms of stomach trouble closely resembling Pellagra. Under a rigid test of more than 3000 patients the treatment proved to be all that was claimed. A 28-day trial treatment for \$5 and this money back if the patient is not benefited and the patient alone is the judge. The medicine doesn't make you sick to take it. For particulars, testimonials and blank for FREE diagnosis write J. L. LEVERETT M. D. Paris, Tex.

FASHION

The distator of our day. When it was fashionable for the ladies to wear puffed sleeves and hoop skirts, it was also customary for them to spend days and days putting up pickles, peaches, and berries. They spent many hours over a hot stove. What a contrast compared to what our stores do for the women of today. That was thrift in that day.
