

Take a Holiday and Attend the Fair October 3, 4, & 5

BRISCOE COUNTY NEWS

OFFICIAL PAPER FOR BRISCOE COUNTY

VOLUME 19—NUMBER 43

PUBLISHED WEEKLY AT SILVERTON, BRISCOE COUNTY, TEXAS

THURSDAY, SEPT. 26, 1929

Silverton

Silverton will have many visitors this week, singly and in groups. Our city will be hostess to many people who will be here for the Briscoe County Fair, October 3, 4, and 5.

There will be scores of exhibitors, bringing their products to the show, with the pride of achievement in their eyes as result of toil and knowing no greater pleasure comes to a human breast than that of accomplishment, of doing well a task, whether humble or sublime; in creating or assisting to fruition a thing of excellence, be it an ear of corn or an immortal character.

Others to come within our gates will seek information, will view the exhibits that have been produced under adverse conditions with an open mind to learn; will take home with them something worthwhile as result of seeing the tangible fruits of neighbors who were more successful than they.

And there will be the throng who seek amusements for the day, entertainment of the hour, the lovers of the show, and most of us belong to the throng. Life is serious enough, but we must find time to laugh and play with others, equally in the evening of life as in the sunburst of morning and be merry with us in the city of the season.

And we must not forget that group delegates from our neighboring towns, Floydada and Plainview, are planning to visit the fair. They will be strangers within our gates, and unbounded welcome should be accorded them.

It is being said that Silverton as a community is selfish. As individuals it can't be true; the open heart of the West is branded upon the brow of all; individual hospitality is the characteristic of the Plains people. As a group apparently there is something to the charge of selfishness. In group action it is too close its reception of both new people and ideas.

The fair will be held in our very business doors. Give our visitors, friends and strangers, such a welcome as you will not forget. It will pay, in dollars and cents, too.

Free Fair At Lubbock Is Ready

LUBBOCK, Sept. 25.—Only the finishing touches are left to be put on before the Sixteenth Annual Panhandle South Plains Fair will be pressed up like a million dollars and will be ready for the hundreds of thousands Plains people who will be strong in here to see the free acts, fire works, football games, livestock, poultry, agricultural products, art, flowers, implements, textiles and all other kinds of exhibits, articles and amusements, Sept. 30 to Oct. 5, inclusive.

Future Farmers Elect Officers; R. D. Wheelock President

At a meeting of the local Future Farmers of Texas, R. D. Wheelock was elected president. Other officers elected were Klee Dickenson, vice-president; Bailey Hill, secretary-treasurer; and Vaughn, Norman Brown, and Al Stevenson were named as delegates to the state convention at Dallas, October 26.

A large per cent of each agricultural class will attend the state convention of the F. F. of T., which will be held on the State Fair grounds, according to information received from the department of the Silverton high school.

Happy—Construction started on new brick store building for Schofield and Moore.

\$1500 In Damages To Grain Company

Criminal Cases Come Up Next Week; After Recess Judge Tries Non-Jury Suits This Week.

After a recess of four days district court was resumed Wednesday with Judge Kenneth Bain taking up non-jury cases. The petit jury of the second week was dismissed until next Monday when several criminal cases will be brought to trial.

In Roberts Grain Company against Roberts Construction Company for damages, plaintiffs were awarded \$1500 damages and costs of suit were taxed on the construction company. This was a closely contested case before a jury, to whom special issues were submitted. The jury answered that the elevator built at Morse for plaintiff was not up to specifications, would not load without use of hands, and that contract for the Silverton elevator had been awarded to defendants upon strength of the Morse construction. Answers were returned last Thursday by the jury, and the judge rendered his verdict Monday, Sept. 23. R. F. Pruitt and R. L. and M. C. Roberts comprise the Roberts Grain company.

In Roberts Construction company against Miller Mutual Insurance Company, evidence submitted direct to the court without jury, costs were placed on plaintiff; \$5,326.65 were awarded to W. O. Allen, note holder, and remainder of funds ordered paid to A. F. Roberts. This case arose over destruction of the elevator by fire.

GRAND JURY REPORTS FOURTEEN TRUE BILLS

The grand jury, headed by E. D. McMurry, made its report to the court last Thursday, returning 14 true bills, five of which were felonies. The nine misdemeanor cases were transferred to county court. Adjournment was made until the following Wednesday, Sept. 25.

Other States Hear Of Briscoe County

Silverton Men Contribute for Advertising Section in Fairs of Other States This Fall.

Financial support was lined up here last Thursday for the Panhandle-Plains, Inc., by I. V. Bennett, who personally interviewed the business men in contributing money toward advertising the plains region in the north and east.

Three dollars for every dollar raised in Silverton has been put up by Amarillo business men, according to Mr. Bennett. The present work that is being done now is the showing of agricultural products at fairs in the middle west and north, coming in direct contact with possible exhibitors. It is claimed that the exhibits will reach a million people this fall.

One hundred dollars were asked as Silverton's part, but the total fell somewhat short of this figure.

"The Bellamy Trial" Coming to Palace

"The Bellamy Trial," which comes to the Palace theatre next week, Tuesday and Wednesday, is a gripping mystery tale that will hold your interest from the beginning. Mimi Bellamy, a beautiful married woman, is found slain in a vacant house of a country estate. Who was the murderer?

The Saturday Evening Post featured this mystery story by Frances Noyes Hart, holding the interest of its close to three million readers to the last word. The hand of justice is watched with bated breath as it wavers from one character to another in the effort to unravel the mystery and find a motive. Since appearance of "The Bellamy Trial," mystery tales have become very popular with all the national magazines.

Give Exact Address Says Postmaster

Due to growth of Silverton with the consequent increase in similarity of names and initials, confusion of mail delivery to the right patrons is resulting at the postoffice, states A. E. Frieze, postmaster.

Mr. Frieze requests that holders of local boxes and patrons of the routes have their mail directed to specific addresses; the number of the box at Silverton or the number of the route if rural. Where people have the same name and initials, and the only address is Silverton, no distinction can be made as to delivery, he said. With this in mind, patrons are cautioned to have their mail sent to specific and detailed addresses.

"In many postoffices," said Mr. Frieze, "mail is immediately returned to the sender, unless it has an absolute and distinguishing address wherein no possible error can be made by the postal officials."

Catalogs Are Ready For Fair Exhibitors

Growing Interest Shown in Approaching County Exposition; No Swine Or Poultry Show This Year.

Much interest is being shown by the people of the county in the fair which will be held here October 3, 4, and 5; and preparations upon the part of the association are being rushed to have every thing in readiness upon the opening date.

The catalogs have been received and over 1,000 were mailed out last week to prospective exhibitors. In case any one desiring a catalog did not receive one through the mail, he should see W. M. Gourley, secretary of the fair, at the agricultural building of the high school from 9 to 3:15 o'clock during school days, or call at the office of the Briscoe County News at any hour of the day.

Many inquiries have been received about a swine exhibit. Owing to the lack of funds for premiums, the association cannot provide for any livestock excepting dairy cattle.

There will be no poultry show, as this is the wrong time of the year to show birds. If sufficient interest is shown, an exclusive poultry show will be held for one or two days this winter when the birds have their best appearance.

There will be a ladies department at the fair but only awards of ribbons can be given. A booth will be provided for those who may bring exhibits, but no cash premiums are available this year for such entries.

Gas Deposits Reach Close to Century

Roy H. Leslie Supplants Herbert Divens As Local Manager for West Texas Gas Co.

Roy H. Leslie has been named the new manager in charge of the gas distributing system in Silverton, effective last Saturday, taking the place of Herbert Divens, who has been transferred to Hereford.

Mr. Leslie, who is a brother-in-law of Ernest Tibbetts, is a resident of the northwest part of the city. He is a competent young man, and that the affairs of the West Texas Gas company will be handled here with dispatch under Mr. Leslie's direction, is the prediction of his friends.

The gas company has been busy this week setting meters, the last link in putting the fuel into the homes and business houses. Several houses were burning gas in ranges and heaters Monday morning.

Mr. Leslie takes charge as the construction work concludes, and his duties will be principally that of gas service to customers.

Close to 100 meter deposits have been made by Silverton prospective users, according to information given out at the local office.

Outside Delegations Coming to the Fair

Plainview and Floydada Intend to Send Bodies Here October 4, Second Day of Co. Fair.

Plainview expects to arrange to have a large delegation of business men attend the Briscoe County Fair on the second day, Dairy Day, Oct. 4, according to advices received from the chamber of commerce of that city.

"We have been extended a personal invitation by the secretary of the fair, W. M. Gourley, to send a delegation to Silverton on one of the three days at least," states Maury Hopkins, secretary of the Plainview chamber of commerce. "As in the case of Floyd county, a dairy cattle show will feature the Briscoe County Fair this year. We expect to have quite a number of people from here to visit the fair at Silverton."

Floydada has been given a similar invitation, and a number of Floyd county folks will probably come over to see what Briscoe has in the way of fine dairy stock.

Local Boys Fill Order for A. & M.

John Tarleton College Gets Grain Sorghum Supplies From Silverton Vocational Agriculture Class.

The Junior A. & M. College, John Tarleton, at Stephenville placed an order the first of the week with the vocational agriculture class of the Silverton high school for heads of grain sorghums to be used in the class work of students in the college.

The order consisted of 150 heads of Blackhall Kaffir, 150 of yellow milo, and 150 of Hegaria at a price of five cents a head, or a total of \$22.50. This is the second year in succession that this college has come to the Silverton class for its material, states W. M. Gourley, instructor. The above order will be the complete list of grain sorghums used at Stephenville during the present school session, and the heads will be studied there in the class rooms as to types and character.

The order for the 450 heads of grain sorghums will be supplied from the farm projects of the boys who had successful fields in these grains.

Super Service Station Is Painted

The buildings of the Super Service Station have been in charge of a painter, R. L. Campbell, the past several days, and the station is showing attractive under the Magnolia colors, red roof and Magnolia gray walls. The Super Service is operated by the genial manager, M. K. Summers.

Stephens Family Leaves Silverton

Mr. and Mrs. I. A. Stephens left Monday for Bowie, Mrs. Stephens' former home. The Stephens came to Silverton from Brownfield in the early part of the summer, and he was proprietor of the Toggery until he sold stock to A. R. Castleberry in August. Mr. Stephens stated he would probably go into business in Paducah the first of the year.

McClister to Happy With Phillips Co.

Popular Silverton Man Is Happy Distributor; Lions Club Loses Experienced Tamer.

W. W. McClister is now wholesale distributor for Phillips Petroleum company in Happy, having taken over the station there Tuesday. The McClister family moved to Happy Monday afternoon.

Mr. McClister is well-known in Silverton. He was proprietor of a dry goods establishment up to about July 22 when he sold to A. R. Castleberry. Since that time he has been with Phillips Petroleum company, operating their new retail oil and gas station on Main street. According to indications, the new business in Happy is of considerable proportion, said Mr. McClister, and satisfactorily remunerative.

A vacancy has been created in the Lions club by "Mc's" departure. A Lion tamer must be supplied, and the club fears it will have to look long and afar to find a tamer as deft of finger in extracting and as full of magical touches in performing the duties of that office as manifested by McClister.

Borger—City fruit store opened.

Owls Annex Game Over Lockney High

Thrilling Game Reveals Excellent Material for Winning Team; Shows Up Defects.

The new gridiron was dedicated in right manner last Friday in the opening football game when Silverton defeated Lockney 12 to 7 in an encounter that had all the thrills of the intercollegiate sport.

Individual stars and revelation of the fact of first class material on hand for the formation of an excellent football machine were features brought to light in the season's first go. Strength as individuals but weak in coordination, strong offensively and slack in defense, fast with some good ground gainers but very poor in furnishing interference for the ball-carrier are some of the characterizing observations from the sidelines. With the proper material on hand and the correct attitude, all these defects may be cured by practice and experience, according to all football history.

The Silverton Owls scored early in the first quarter after recovering a fumble. The marker was counted on a fake line buck. Try for extra point failed. The half ended 6 to 0. The third quarter was Lockney's easily. The Longhorns ripped off a touchdown mostly with straight football through the line. An end run secured the extra point after goal.

Third quarter ended 6 to 7. It looked shaky for the Owls, headed by one point and being clearly outplayed. In the latter part of the last quarter things began to move. A long pass was completed by the Owls. The next play was for a pass, but Haynes McClendon took the ball, skirted right end, then turned back into the mass and hammered his way through for the second touchdown, covering about 25 yards. A pass for extra point was intercepted. The game ended 12 to 7.

Silverton's starting line-up: Hill, I. e.; Chandler, I. t.; Wheelock, I. g.; Thompson, c.; Davis, r. g.; Foust, r. t.; Brown, r. e.; McClendon, q.; Carr, h.; Strickland, h.; and Patton, full. Substitutes: Dickerson for Davis; Davis for Wheelock; Wheelock for Foust.

Big Lions Meeting Set for Friday

Silverton Lions Postpone Tuesday Meet for Important Luncheon Friday in Group Session

The weekly luncheon meeting of Tuesday for the Lions Club was postponed in order to prepare for the group meeting here Friday, Sept. 27.

Representatives from several clubs in this group will visit here Friday in a consolidated session, and a luncheon will be served, according to W. Coffee, jr., president of the local club.

W. C. Davis of Childress, district governor, will be here to introduce a speaker from Lions International. A full attendance of the Silverton Lions is urged for the zone luncheon, and the Tuesday meeting was postponed in order that every one might be able to be present Friday for the more important session.

Luncheon will be served for the Lions by Hotel Barson at the regular hour.

Reduced R. R. Rates To Dallas State Fair

Special rates for round trip tickets to the Dallas Fair via the Ft. Worth & Denver are announced, according to the local Denver agent, Nelson Baird, as follows:

Dates of sale for round trip excursion tickets to Dallas Fair: Oct. 12 to 20, for first special rate—final limit being Oct. 29; price \$18.24. The second special rate is for those—final limit only: Oct. 12 to 15, price \$9.72, which is scarcely 75 per cent of one way regular fare.

Fair Program

OCTOBER 3—PREPARATION DAY

All Exhibits and Community Booths must be set upon this day. Flower booths must be arranged. Also school exhibits. All exhibits must be ready for judging by 9 a. m., October 4.

9:00 A. M. to 11 P. M. Carnival Attractions.

OCTOBER 4

8:00 A. M. to 10:30 P. M. Exhibits Open.
9:00 A. M. Carnival Attractions.
9:00 A. M. Judging begins in all departments.
10:30 A. M. County School Parade. Out-of-town visitors will join in this parade.
3:00 P. M. Football Game—Silverton vs Kress.
9:00 A. M. to 11:00 P. M. All American Shows and Midway Attractions.

OCTOBER 5

9:00 A. M. Carnival Attractions.
8 A. M. to 5 P. M. Exhibits Open.
2:00 P. M. Awards of ribbons and cash prizes and announcement of winners.

THE GIST OF THE TARIFF

The chief purpose of the tariff is to protect the high wage and living standards enjoyed by our workers. If foreign goods can undersell American products we must equalize the difference by levying a tax. If foreign goods cannot undersell our goods, no tariff is necessary.

The tariff is an economic question. It should be taken out of politics and placed in the hands of experts. A tariff which is either too high or too low would prove detrimental to our prosperity.

EDITORIAL OF THE WEEK

RECIPES OF DESTRUCTION

Here are a few good recipes for destroying your home, factory or any other property:

Let your electric wiring go without repairs or inspections over a long period of time; leave piles of oil soaked rags or other waste lying around in corners of your garage or basement; don't use tire-resistive construction in building, because it costs a little more; drop lighted matches and cigarette butts wherever you may happen to be; light your fires with gasoline.

No one, of course, is going to consciously use these "recipes" of destruction, or any of the many others of the same nature. Yet it is safe to say that millions of Americans have equal fire risks in their homes or places of business. Laziness, carelessness, ignorance—these are the best friends of the fire menace.

Every time the fire engines dash out in their race against time it means that someone has done something or failed to do something that a little intelligent thought would have warned him against. We Americans are the most careless of peoples when it comes to fire, and the most wasteful.

Fire Prevention Week will shortly be here. It will be a good time to profit by the knowledge and teachings of the experts who are fighting the discouraging war against fire. Almost every great conflagration would be prevented if we spent a few more dollars or a little more time in guarding against risks. Begin now.

Borger—Borger's gas supply assured for this year.

Spearman—Forty-room fire-proof hotel to be erected here at approximate cost of \$125,000.

She's Entered in Women's Air Derby

Mrs. Claire Mae Fahy, of Los Angeles, who has declared her intention of competing in the first National Women's Air derby, has been trained by her husband, Lieut. Herbert J. Fahy, for seven years. The race starts at Santa Monica and ends at Cleveland, Ohio.

Friends Visit With Miss Rosetta Carter

Friends of Miss Rosetta Carter, who is under treatment at Lockney, gave her a pleasant surprise Sunday when they drove over to see her. The visiting party was Rev. and Mrs. R. P. Davis, Mr. and Mrs. Formby, Mr. and Mrs. Clifford Allard, Mr. and Mrs. J. Foust, Mrs. R. E. Stevens, Misses Studie Lee Foust, Mildred Jackson, and Nellie Formby. Miss Rosetta is reported improved in health.

THE TOWN DOCTOR (THE DOCTOR OF TOWNS) SAYS

TO THE MERCHANTS OF SILVERTON

A few years ago the people of Silverton and surrounding territory HAD to buy from you, or go without. As you know only too well, that is not now the case. Good roads and motorcars, magazines, metropolitan papers and radios, plus free mail delivery, has changed all that.

Today people can get anything they need or want, from whom and whence they please—not only CAN, but DO. They CAN get it from you, but whether they do or do not depends on you.

In practically every community we hear: "Outside advertising is enticing our people"—"Competition of combines is taking our business." Maybe this is true, but what are YOU doing to counteract it?

As an excuse and alibi for lack of business, thousands of merchants say, "People don't buy like they used to." That is absolutely true—people don't buy as they used to.

But how about you—do you still sell "like you used to?" Why should people stick to the old, humdrum, weekly "tradin'," when shopping and buying are now made such a pleasure? Why go to a funeral when a festival is on?

If other stores INVITE the people and give them a REASON WHY they should buy from them, of course your customers are going to accept the invitation at least once. Then, if those extending the invitation sell and serve as today's buyers LIKE to be sold and served, they will continue to accept the repeated invitation. You would do it yourself under similar circumstances.

Still, the average man and woman, by far the majority of the people in Silverton, would RATHER do business with you, and they WILL do business with you IF you will profit by the experience of others. That is not idle talk, but a fact based on human nature, backed up by actual proof obtained from the people themselves in every setion of the country. But, you must have a "reason why" and that reason must be kept before all of the people ALL of the time.

Say to yourself, "Why do people buy elsewhere?" Ask yourself, "Why should the people of Silverton buy from me what I have to sell, in preference to my competitor?"

Answer both of these questions—they must be answered not only to yourself, but to your customers if you are going to continue in business and keep out of the red.

Business GOES to the place where it is INVITED—you can't expect business if you DON'T ask for it.

Business STAYS at the place where it is well treated, backed up with an INVITATION to continue the pleasure of such treatment.

Business COMES BACK to the place where it is served best and where the INVITATION to profit from such service is kept constantly in the forefront. Your newspaper is your ally—use it.

Gasoline 'Chef' Controls Diet Of Your Car

PHILLIPS PETROLEUM COMPANY DISCOVERS GASOLINE "CHEF" IN ANNOUNCING NEW MOTOR FUEL FOR MODERN HIGH COMPRESSION ENGINES.

Vitamins, calories, roughage, mineral salts—for your car? Not exactly. But, according to experts on automotive fueling, your car has dietary problems just as surely and equally as important as your body. And it is the business of the "gasoline chef" to see that the car gets the type of diet that will give it the ambition, pep and resistance it needs to keep on the job, refrain from catching cold, and stay out of the class of sluggish auto dyspeptics.

Who is the gasoline chef? He is a scientist who spends his days, and often his nights, working, studying, testing, and discovering better ways to feed your motor. His kitchen is a great research laboratory maintained by the concern whose motor fuels you buy at the filling station.

"Yes," says R. C. Jopling, of the Phillips Petroleum Company, Bartlesville, Oklahoma. "The research man in the motor fuel industry is really, among other things, a 'gasoline chef'. In our laboratories we have experts who are continually studying the dietary needs of the motor car and producing fare that meets those needs.

"For example, our experts realized that the gasoline in use a few years ago would not adequately fit the requirements of modern high compression motors. They knew, too, that a gasoline 'diet' upon which a motor could thrive in winter or in a cold climate was not necessarily the correct diet for that same motor during the summer or in the warmer summer climates."

"It was this knowledge which prompted our 'gasoline chefs' to discover how literally to take gasoline apart—then to combine and recombine its various parts so as to meet different seasonal and climatic requirements of the modern motor. The motorists naturally want his car to start easily in any kind of weather, to accelerate quickly, to have plenty of pep for the open road, to deliver real mileage, to have a vast reserve of power and to run smoothly and quietly at all times of the year. Thanks to the 'gasoline chef,' who not only knows a motor's needs but knows how to supply those needs, the careful motorist is now in a position to keep his car on a healthful diet that assures uniformly high standards of performance.

Father Copies Son In Feeding Hogs

COLORADO, Sept. 24.—The method of feeding hogs in 4-H club work used by George Draper of Lone Star, Mitchell county, proved to be such a success that his father is now feeding two hogs ground threshed maize and tankage in a self feeder. They gained 44 and 53 pounds each in the first 30 days on feed, and at the end of three months weighed 104 and 109 pounds respectively. The boy's pig weighed 296 pounds at six months of age but Mr. Draper expects his pigs to beat that record a little.

HOW TO SELECT STALK FOR NATIONAL COTTON SHOW

ABILITY, or at least indications of ability, to produce large amounts of a quality product, is the basis of award at all agricultural fairs. This is true whether the entries are dairy cows, swine, chickens or field crops. Heavy production of quality cotton should be the ambition of all cotton growers. The One-Stalk Cotton Show to be held under the auspices of the Sears-Roebuck Agricultural Foundation, and The National Fertilizer Association, in connection with the Mid-South Fair at Memphis, the South-eastern Fair at Atlanta, and the State Fair of Texas at Dallas, was inaugurated to stimulate interest in economic production of better cotton. Prizes totalling several thousand dollars are being offered.

In judging the single stalks at the show, a score-card which has been prepared by some of the leading cotton authorities in the South will be used. This score-card has been carefully prepared in order to give proper weight to the various plant characters. Actual judging will be done by competent authorities from each section.

According to the score-card, a perfect plant would secure 100 points total score. Since productivity of the cotton stalk is probably of greatest single importance, production, as measured by the amount of seed cotton on the plant, is given a possible 25 points. Thus heavily fruited stalks would secure a high rating under production.

A possible 25 points has been allotted to lint. Percentage of lint in seed cotton, length, character and uniformity, strength and color, are all factors that will be considered in studying the lint. The plant, as a whole, has been given a possible 20 points. Symmetry of form, amount of wood in proportion to fruit, character of branches, and maturity, are considered in studying the plant unit.

Character of bolls has been allotted a possible 12 points. Size of bolls will be considered and well opened bolls are desirable, although a cer-

tain amount of storm resistance is also to be desired.

Seed has been allotted a possible 5 points. Plump, heavy seed, uniform in size and color, are desired.

Freedom from disease has been given a possible 3 points, making a total of 100 points.

Any farmer, whether landlord or tenant, white or colored, or any one member of his family, will be allowed to enter a single stalk for competition. Only one stalk may be shown from each farm unit.

The stalks exhibited must be grown in 1929.

Stalks must come from a field where at least one acre of cotton was grown in 1929. However, any spacing, fertilization, protection or cultural practice may be used.

Stalks shown must contain the cotton that grew on the stalk. Picking and refilling will not be permitted.

Branches must not be cut from stalks exhibited. All leaves must be removed.

The name of the variety must be shown on the stalk.

Exhibitors need not necessarily accompany exhibits, but may ship same, charges prepaid, to the National One-Stalk Cotton Show, in care of the fair in their districts. Entrants living in Virginia, North Carolina, South Carolina, Georgia, Alabama and Florida should enroll by sending their names and address to The National Cotton Show, Atlanta, Ga.; those in Oklahoma and Texas to The National Cotton Show, Dallas, Texas; and those in Tennessee, Mississippi, Arkansas, Louisiana, Missouri and Kentucky to The National Cotton Show, Memphis, Tenn.

The premiums for the best single cotton stalks include \$1,000 as total prize, including sectional award, for the best stalk of cotton in the South. Premiums at the three sectional fairs at Atlanta, Memphis and Dallas follow: first \$500 at each fair, second \$300 each, third \$200 each, fourth \$100 each, fifth \$50 each, sixth to tenth inclusive \$25 each, eleventh to twentieth \$10 each.

Well Fed Hens Keep Up Dividends

COLLEGE STATION, Sept. 23.—It pays to feed hens during the summer months according to the records of 204 poultry demonstration flocks reported by county and home demonstration agents to the Extension Service. Eggs were produced by some 30,000 hens in these flocks for 12 cents per dozen feed cost during June and July. The average number of eggs laid each month per hen was about 14, and the profit per hen above feed cost was a little more than 22 cents each of these months.

"The real gain will come this fall and winter, however, for the well fed hens will then be producing when eggs are high in price, whereas hens poorly fed last summer will probably defer their laying until spring," E. N. Holmgren, Extension specialist explains.

Another point brought out in the demonstration records is the fact that the production per hen was lower in flocks of less than 100 birds, and the mortality higher. The feed cost per dozen eggs was about the same but this is attributed to the fact that the laying hens in the larger flocks were charged with the feed bills of large numbers of growing stock.

Sure Remedy to Prevent Grain Smut

CHANNING, Sept. 24.—Practically every field of wheat not treated for smut in Hartley count last year was so smutty that it drew a dock at local elevators of from three to twenty cents per bushel, according to E. R. Duke, county agent. Not a single case of smut was reported by farmers who used the copper carbonate method of treatment recommended.

Ten More Made Happy
Get the BEST!

PLAINVIEW BUSINESS COLLEGE Students have recently taken positions in Amarillo, Lubbock, Lockney, Wichita Falls, Dalhart and Plainview. There are POSITIONS for all graduates of P. B. C. Our THOROUGH TRAINING and Free Employment Service have created a BIG DEMAND for our Graduates.

Those who enter now will be in positions long before this time next year. Boys and girls with a little money at their command can have a Business Education and a position—and they will find the means to get it—if they truly want it. SUCCESS DOES NOT JUST HAPPEN. Each individual must MAKE his SUCCESS come true. There are real positions available for young men as well as for young women. WHY NOT JOIN OUR NEW CLASSES NEXT MONDAY? We have a few more places where boys and girls can earn living expenses while attending college. Address J. E. Watson, President, Box 532, Plainview, Texas.

NOW THE GASOLINE OF CONTROLLED VOLATILITY ADDS ETHYL

Today in ONE gasoline you can get ALL the famous Phillips 66 advantages—year-round easy starting, quick acceleration, power and mileage—plus the feature of "no-knock". Ethyl is a no-knock compound placed in gasoline—a few drops to a gallon. But don't overlook this: the quality of an Ethyl gasoline depends upon the qualities of the original gasoline to which it is added. Make sure the station pump says Phillips 66 Ethyl. Dispensed from sealed tanks to protect you against substitution.

GENERAL MOTORS SURVEY REVEALS HOW MOTORIST MAY INCREASE MILEAGE TWO TO FIVE MILES

A survey made by General Motors sets down specifically a number of factors, which, if observed, should increase your mileage two to five miles to the gallon. There are:

- 1. When standing or waiting for the light to change, don't race your motor.
2. When you are to make a stop of more than a minute, turn off your motor.
3. Don't drive at excessive speed unless the occasion demands.
4. Remember that the faster you drive the more gas you consume.

Suggested MENU

REAL ART TO MAKE DELICIOUS GRAVY
Life has lots of fancy things. Yes, fancy things at fancy prices. The platter that the waiter brings is heaped with jellies, sweets and spices.

—Douglas Mallock. This is the sentiment of many a man, and of most women, too. But there is gravy and gravy. Some is good and some not so good. Gravy is made from the extracted juices of meat, so when there is much juice extracted, which is especially true with the less-tender cuts of meat, the gravy will retain the flavor.

Many cooks will follow a recipe carefully for the cooking of the meat but when it comes to the gravy they make it without even guessing as to the measurements, says Miss Inez Willson, home economics director of the National Live Stock and Meat Board. Care should be taken so that the right flavor, shade of brown, and consistency is obtained. Here is a recipe for brown, or pan gravy:

- 1-4 cup pan fat
1-4 cup flour
1-2 teaspoon salt
1-4 teaspoon pepper
2 cups boiling water.

Put pan on stove and add flour, salt, and pepper. Stir until flour is brown, but not burned (about 3 minutes). Add the boiling water slowly and bring to the boiling point, stirring constantly. Boil 3 minutes. Strain. This makes a gravy of medium thickness.

This recipe may be varied by adding a slice of onion, 1 tablespoon of sour cream just before serving, mushrooms or chestnuts, or orange juice. Milk may be used instead of water.

DEATH OF A CHILD

Dedicated to the Memory of R. E. Junior Young.

(By W. W. Martin, Silvertown) There is a story in mind That I will dare to write Of how a little boy has died And sleeps in death tonight.

His mama ill and far from home Had left him just that day, With daddy, aunts and little girls To supervise his play.

No one can watch as mother can, And so he stole away. His sisters did not miss him then, For they were hard at play.

He ran off to the water tank To clean it out for dad; He tried to help his papa dear; Instead, he made him sad.

For when his sister made the search, What do you think she found? Her little brother cold in death— Yes, he'd fallen and drowned.

She took him by his little hand; She kissed his snow white cheek; She cried, and called, and plead with him; She wanted him to speak.

His ear was deaf to her kind voice; His soul had gone above. He lives today with Jesus Christ, Encompassed by his love.

Mother must know the awful news;

Away the message went; The sudden shock did break her heart, And sad, sad days she spent.

Dear little sisters one and all, Your hearts are full of pain; If you are good as R. E. was He'll play with you again.

God bless the parents of this child, Help them to feel and know That where their Junior boy has gone They too some day can go.

C. of C. Meet At Shamrock Important

SHAMROCK, Sept. 25.—Sen. C. C. Small of Wellington will be the principal speaker here at the district convention of the West Texas chamber of commerce, October 3. He will cover the topic of the "Small Land Bill," which is claimed to be of vital importance to the Panhandle. There has been much unrest recently in the Panhandle concerning the future of the chamber of commerce, and for this reason the convention will probably be highly significant.

'26 Senior Girls Entertained by Mrs. Wood Hardcastle

The Senior class of 1926, S. H. S., was entertained with bridge and progressive forty-two at the home of Mrs. Wood Hardcastle last Friday afternoon. The '26 class is composed of ten girls and all were present excepting Mesdames Aubrey Montague of Amarillo, Earl Cantwell and True Burson of the city.

After two hours of interesting and enjoyable playing, high scores were figured. Mrs. Ione Brown won high in forty-two, and Miss Kathleen high in bridge.

Delicious minced sandwiches, pineapple cheese salad, cake and punch were served by the hostess, assisted by Mrs. Roy Allard. Stick candy with purple and white ribbon, carrying out the old class colors, were plate honors.

Those enjoying the lovely affair with the hostess were Mesdames Jim Stevenson, Roy Allard, Ione Brown, Manley Wood, Milton Dudley, and Misses Eloise Morgan, Gladys Olive and Kathleen Smith.

Gas Demonstration Conducted By South Plains Lumber Co.

The South Plains Lumber Company, under management of W. Coffee, Jr., conducted a highly interesting gas appliance demonstration all day Monday. An appliance demonstrator was present to instruct in the uses of natural gas. This was the first demonstration to be staged after the arrival of gas into the city.

Mesdames T. R. Whiteside, O. R. Tipps, and W. Coffee were the ladies in charge, or hostesses, who served generous sandwiches, cake and coffee from ten to five o'clock. Mrs. Whiteside made and baked the cake on the White Star range, a delicious cake that the appetites of all visitors complimented spontaneously.

Mrs. J. R. Foust Named President Baptist W. M. S.

The Womens Missionary Society of the First Baptist Church met Monday in mission study with eleven members present. Mrs. Jim Bomar resigned from the presidency, as sickness in the home prevented regular attendance. Mrs. J. R. Foust was elected to succeed her.

The Society will meet Monday afternoon at 3 o'clock in the home of Rev. and Mrs. R. P. Davis in a social meeting. Each member is cordially invited to be present.

Delightful Bridge At Burson Home

A smart affair of the week was the bridge-party Thursday for members of the London Bridge Club and a few guests. In the lovely Jno. Burson home, Mrs. True Burson received her friends; and they were presented with attractive tallies. The house was gay with late summer and fall flowers. In the games, Mrs. Howard Lemond won high. The hostess served a very delicious salad course.

Club members were Mesdames Dean Allard, Elmer Allard, D. O. Bomar, Tom Bomar, Dick Cowart, Bruce Burson, Roy Allard, Max Crawford, W. L. Bain, Archie Castleberry, Hubert Simmons, Leo L. McAnaw, Wood Hardcastle, James Meeker and Raymond Patton. The guests were Mrs. Howard Lemond of Hale Center, Mrs. Leslie Turner of Conn., Mrs. Bland Burson and Mrs. John Bain, Jr.

Lamesa Visitors In McCasland Home

Guests in the Dr. McCasland home, who came to honor the new baby, are Mrs. McCasland's mother, Mrs. Zeek and Dr. McCasland's mother, sister and brother: Mrs. McCasland, Miss Pearl and Mr. Buford McCasland, all of Lamesa. Dr. Ann West of Tahoka also visited Mrs. McCasland last week.

Farwell—interlocking plant being installed here for Santa Fe Company.

Hayder—\$21,500 worth of building permits issued in this city during August.

ATTRACTIVE THINGS THAT MAY BE MADE AT HOME

If you liked to play with dolls when you were a youngster, you can have the fun all over again, making the very attractive "doll pictures" such as the one shown in this illustration.

In the realm of interior decoration these pictures have become quite a factor. Young girls are particularly keen about them for their rooms. For that matter they are equally as attractive hung on the walls of living room or sun parlor—it depends upon the subject of the portrait.

For his "den" a smiling little Japanese maiden dressed in gorgeous kimono brings into the scheme of things just the needed dash of color. A dimpled babe cuddled under a coverlet of flowered crepe paper to a lace-draped crib is just the thing for the nursery.

A daintily arrayed maiden, whose frock and parasol are lace-ruffled, like the one in this illustration lends an atmosphere of enchantment to the young girl's boudoir. You can get the entire paraphernalia for the making

of these charming pictures most anywhere, that is, at any counter where they sell fancy crepe paper for flower making and such. In other words the dealer supplies the materials in "sets" so to speak (and they are not expensive) and you do the work (it's more like play) of dressing the quaint maiden in a beflowered crepe paper frock with myriads of lace ruffles, ready for her debut in the picture, which is to hang on your wall or that of some friend whom you wish to delight with this charming gift.

You can mount these picture dolls on black velvet or black cardboard, and when framed appropriately they are a work of art craft of which to be proud.

The art of home picture making may be as variously interpreted as one may choose. A parrot of brilliant plumage made entirely of red, yellow and green crepe paper, is a clever subject.

(© 1929, Western Newspaper Union.)

Misses Morgan Rated Most Alert Teachers By "Musician"

Sometimes perhaps we fail to appreciate the importance of the work our home people are undertaking until the world applauds and we gasp "That was one of our Boys," "One of our girls!"

Last summer we were vaguely aware that two of our Silverton girls, Misses Eloise and Marguerite Morgan, went somewhere—to study something—perhaps music.

And this month, "The Musician," an educational magazine for musicians, published in New York, appears with the pictures of the Misses Morgan among other whom "The Musician" calls "Some of the most Alert Piano Instructors who attended the Notable Normal Session for Progressive Series Teachers in St. Louis."

An article in "The Musician," written by Paul Kempf, a widely recognized authority in music circles, says, concerning the Washington University course of last summer and its "demonstration of our national interest and growing standards of efficiency in piano teaching:"

"Here were assembled more than 250 teachers hailing from thirty different states. Their eagerness to carry back to their communities the advanced methods and authoritative foundation principles embodied in the work under the auspices of the Progressive Series College could be gauged by the sacrifices made in traveling from so many distant points to enjoy this inspirational privilege."

"The faculty included such people as Arthur Edward Johnstone, Gottfried Galston, Hilda Forsberg, Mary Pearson, Jean Williams, Harriette Stuart and Eugene Habel (and others).

"The subjects included practice teaching and interpretation, text lessons of intermediate grade, harmonic analysis, music history and interpretation, choral work, public school music, organization and conducting of elementary, junior and high school orchestra, principles of artistic piano

Mrs. W. M. Gourley At Canyon Taking Special Courses

Mrs. W. M. Gourley has entered the music department of W. T. S. T. C. at Canyon for special courses in public school music, violin, orchestra, and choral directing work. She is taking music courses to the exclusion of any other college work.

Mrs. Gourley's present plan is to attend the American Conservatory of Music at Chicago next spring or summer, where she intends to take post-graduate work in piano. She is a graduate of Baylor University, majoring in piano.

She and her little daughter, Doris, left last Friday for Canyon, where Doris entered the college training school which opened Saturday.

Silverton regrets Mrs. Gourley's announcement that she will not be identified this year with local class work in music. Her work here last year was outstanding, and the success of her pupils in the Musical Festival in Amarillo last May was astonishing. It may be recalled that there was an honor earned for every entry made, or a total of 24 hours honors out of 24 entries for the fifteen students participating from the class trained by Mrs. Gourley, making a most admirable record.

Last Friday evening the Methodist ladies gave a farewell picnic supper at the church with Mr. and Mrs. Gourley as honor-guests. The affair was a token of appreciation for Mrs. Gourley both as a woman and as an accomplished musician, who has been loyal and lavish in using her gifts to serve the church.

Further evidence of their high esteem was given by the ladies in a lovely handkerchief-shower bestowed upon Mrs. Gourley at the close of the evening. The honoree expressed her thanks graciously and with deep feeling.

Booker—Several new building projects underway here.

playing and studio management, and private work."

New Church for Methodist Assured by Committee Act To Start First Unit Soon

The Methodist are to have a new church, according to a final decision of the building committee in session Wednesday night. It was voted to begin at once collection of the first payment of pledges and the erection of the initial unit of the new brick church on the present site, states the pastor, Rev. Marvin Brotherton. Plans

and specifications follow the blueprint which has been approved and upon which bids have been submitted.

AT THE CHURCHES

PRESBYTERIAN CHURCH
(Rev. P. B. Henderlite, Pastor)
Sunday-School at 10 a. m.
Preaching every Sunday, 11 a. m. and 8:15 p. m.
Everyone is cordially invited to all the services of the church.

FIRST BAPTIST CHURCH
(Rev. R. P. Davis, Pastor)
Sunday-School at 10 a. m. each Sunday.
B. Y. P. U. at 7:30 p. m.
Morning services at 11 o'clock;
Evening sermon at 8:30 o'clock.
Prayer meeting Wednesday evening at 7:30.
Everybody welcome.

CHURCH OF CHRIST
Sunday-School at 10 o'clock each Sunday.
Communion Service at eleven o'clock.
Everybody welcome to these services.

METHODIST CHURCH
(Rev. Marvin Brotherton, Pastor)
Sunday-School at 10 o'clock.
Preaching services at 11 o'clock - Epworth League at 7:45 p. m.
Prayer meeting each Wednesday at 8:30 p. m. No church without a praying membership can have very vital religious experience. Come to prayer meeting.
The public is invited to worship with us at all our services.

Dinner Guests In Dean Allard Home

Mr. and Mrs. Dean Allard entertained last Sunday with a lovely family dinner, complimenting their uncle and aunt: Mr. and Mrs. John Stevenson of Lone Star. Besides the two out of town guests there were Mrs. Allard's uncle, A. G., her parents, Mr. and Mrs. Bob Stevenson and her sister, Miss Zell Stevenson.

Pleasant Outing On Holmes Creek

In the pleasant last days of summer, before frost and storms house us in, the call of the outdoors comes with an especial appeal to nature-lovers. Among those who answered that alluring call in the pleasant weather of last Sunday were Mr. and Mrs. R. E. Douglas and children, Gaynell, Bob and Rex, Mr. and Mrs. F. P. Bain, Allyn and George Piner and Wilma Dickerson. They enjoyed the beauty and peace of the streams and forest and canyons at Holmes Creek during the afternoon and had supper there before coming home.

Big Spring—Airport opened recently.

Autumn Flowers In Bridge Decoration

A very enjoyable social occasion this week was the bridge party at the home of Mrs. Roy Allard on Monday afternoon. There were autumn garden flowers used in decoration. The other appointments were simple as this was not a formal party but just a happy gathering of the following friends: Mesdames W. L. Bain, Elmer Allard, Bruce Burleson, Lee L. McAnaw, James Meeker, Dean Allard, Raymond Patton, John Bain, Max Crawford, Wood Hardcastle, Sarah Mrs. Snapka won high score.
