Weekly Trades Day Set for Silverton

Street Crossing Paving Okehed By City Council

Connected Sidewalk System Going Strong, Conforming to Engineer's Established Grades

The city will run concrete paving across the streets wherever needed if connected sidewalks along property lines, are laid to the school buildings, as the decision of the council Monday night.

Agreement of the city to handle these street intersections is a big stride in promoting the paving projects and will speed the day when Silverton will be lifted out of the mud.

Pavements at the crossings will be along the street paving grades, said Mayor T. M. Nichols, so that in the future when the main thoroughfares are paved the present work will not have to be done over but will fit neatly into all future improvements along these lines.

It will be recalled that the council had Ernest Lee of the Roberts Engineering firm work out these sidewalks and paving grades last October when the sewer system was being installed. This foresight was presented upon the supposition that Silverton would soon take up the sidewalk idea in earnest.

In completing the work Mr. Lee expressed the hope that the citizens would adhere to the grades established by the surveys when they began to put down their permanent walks. "The establishment of such grades does not appear to the layman of any essential value," said Mr. Lee, discussing the matter at the time, "but it is recognized by engineers to be very vital. Especially in the laying out of grades important in this section where the proper drainage of streets is a hard thing to care for properly."

Mr. Nichols stated that the city would find a suitable way to finance the work on the intersections so as not to fail in assistance of the necessary improvement.

The six-foot walk leading to the First National Bank has been completed, put in by Jno. Burson. Also the Caprock construction company has finished the walk from the Good Eats Bakery to the corner on Broadway, fronting three lots owned by Mr. Skaggs, Mr. Shepherd, of Plainview, and T. M. Nichols. Wednesday much headway had been made on the walk for Willson & Son lumber company, running south along Broadway to the city hall property.

A connected system has been practically assured from the business district to the new high school building.

Extra Program in Store for Visitors

The regular Visitor's Day for the schools will be next Wednesday, March 12, and every one is urged to come out by the two school heads. Both schools are anxious that you come and observe the regular class work.

The Grammar school promises to have more than regular work for visitors to see. The primary pupils of Mrs. Wright's expression class will give the program for chapel services at 9 o'clock. Then the High School Dramatic Club will present a play at one o'clock. This play they are using for the contest and it promises to be above average.

The principal of the grammar school is offering a prize to the room having the greatest number of visitors during the day.

Visitors are invited to see Mr. C. B. Weaver, alias Moe Silbittsky, sell them at the high school auditorium, March 13.

Patton Uses Plane To Advertise Cars

Some up-town stuff was resorted to Saturday afternoon by Raymond Patton when he had a visiting airplane drop a few hundred circulars from the skies over Silverton and South Plains, advertising the big used car sale now in progress by the Patton Motor company.

All over the nation Chevrolet dealers are running special sales in their used car departments, offering real bargains to the trade.

Specialist in Eye Fitting Here Monday

Dr. S. F. Huneycutt, eye fitting specialist of Clarendon announces that he will again be in Silverton for one day, Monday, March 10, for the convenience of those needing glasses. He makes no charge for eye tests.

School Census Is Begun This Week

Six-Year-Old Children Will Be Counted This Year, Complying with New State Law.

Counting the children of the independent school district, annual task of the school board, has begun this week, in charge of Supt. C. R. E. Weaver and Chester Strickland, who will get the count principally through the enrolled pupils.

This year the six-year old children will be included in the census list in compliance with the new law entitling them to be enrolled in scholastic classes, beginning Sept. 1.

It is a state law that the school census be taken between the first day of March and the first day of April. The state allows \$17.50 per pupil for each year they are listed in the enumeration.

"It is important that the name of every child of school age be secured by the census, for each one counted adds \$17.50 allowance to the support of the Silverton school," said C. D. Wright, president of the board. Cooperation of the parents are requested in the census and prompt preparation of the count, including those six years of age, will eliminate much unnecessary trouble.

The number of children has nothing to do with one's school taxes. In many of the cities many parents refrain from making a complete return, being under the impression that they will be assessed an added amount if they have a certain number of children in school.

Entries for Annual Auction Due Mch 15

S. J. Payne of Tulia Is Chairman of the Sales Committee; Sale Will Be Held on April 10.

PLAINVIEW, March 5.—Entries for the annual auction sale of pure bred registered dairy cattle at the Texas Panhandle-Plains Show must be made to manager Maury Hopkins, at Plainview, not later than March 15. This announcement was made by S. J. Payne of Tulia, who is vice-president of the Texas Panhandle Plains Dairy Association and chairman of the sales committee. Other members of this committee are D. F. Eaton, county agent of Lubbock and F. R. Phillips, of the West Texas State Teachers College.

Chairman Payne is stressing the importance of all entries being in the hands of the manager on or before March 15 because a catalog must be prepared and the sale advertised. The committee also must pass on the prospective entries before they are allowed in the sale ring. The sale is one of the outstanding features of the show and will be held on Thursday, April 10, the final day of the exposition.

Lions Club Special In Big Success Harks Back to Olden Days

A few pages of time were turned back by the Silverton community Sunday, and a special excursion train of five coaches, sponsored by the local Lions club, was loaded down for an afternoon community picnic over the Denver railroad to the longest tunnel in Texas and other caprock scenics thirty-five miles down the line.

Sunday was Texas Independence Day, the state's 94th birthday, and the outing was timed to fit in with a proper celebration of the holiday. In this age of motor cars the tendency has been to individualism or family groupings in its holiday excursions. Two weeks ago the idea was advanced to bring the people together again, as of old before the family became motorized, and go out once more as a community over the rails for a get-acquainted tour.

The idea has gone over big, with Silverton and the Denver leading the way. Dimmitt is now planning to put on a similar special to these same beauty spots of the caprock, according to railroad officials. The plan bids fair to become extremely popular, and many other towns of the plains will likely follow Silverton's example.

Over 325 Passengers See the Sights.

Some 325 people from Silverton, Whitley, Sterley, Plainview, and South Plains joined in the trip and experienced the thrill of riding the train again on a special just for an outing. Stops were made at the tunnel and a lunch was eaten at the gravel pit, one of the largest in Texas. Hot coffee was furnished by the Lions club through the courtesy of Cowart & Son, owners of the "M" System store, who donated an excellent brand of coffee for the "making."

Bonar Drug company stocked the baggage coach with confections and eatables, and O. R. Tipps, county judge, applied his talents as train "butch" but losing fifty-five cents on his first round he resigned his job at once.

Every precaution was exercised to prevent any accidents among the

young folks who were unaccustomed to railroad travel, and the trip was reeled off in schedule time without any mishaps or serious injuries. The special left Silverton at one o'clock and returned at 7:30.

Compliments the Lions Club.

"We hope the popularity of our special train was deserved said N. M. Baird, genial station agent at Silverton for the Denver. "It's success was made possible by being sponsored by the Lions club. The unselfish service of the individual Lions in helping to promote the trip is deeply appreciated."

While Mr. Baird so generously and sincerely lauds the Lions club for its work in making the community tour possible, it must be admitted that his industry and personal work in promoting the plan, and his popularity among the citizenship, guaranteed its success and brought about, to a large extent, the Denver's decision to order the train long before the minimum of 150 tickets had been definitely placed. While the Lions club will graciously accept a bouquet for its part in the enterprise, the club will pin the rosiest bud from the bouquet on Mr. Baird's lapel.

Mr. Baird was one of the charter members of the Lions club, and has always taken an active interest in the club's work. In putting over the idea of a Lions club special he made several speeches at the weekly luncheons, and made talks at the schools to work up sentiment for this worthy undertaking.

Many Train Officials Made the Trip.

Many officials of the Denver railroad came out from Amarillo and Plainview to accompany the special. These included from Amarillo: W. A. Stegall, trainmaster; O. R. Bodeen, chief dispatcher; C. W. Ford, Road Foreman of Engines; F. T. Henderson, train dispatcher; Mr. Chandler, attache of superintendent's office; from Plainview: E. C. Kuykendall, general agent; D. R. Everett, agent; and W. O. Purcell, special agent.

Special Service at Church of Christ

Special preaching services at the Church of Christ for next Sunday afternoon at 3 o'clock are announced by Rev. J. Early Arceneaux, who will have many interested thoughts for the public. The subject will be, "What is it to You? Secret things belong to God, Revealed things belong to us." The public is invited to hear this interesting speaker.

Methodist Institute Conducted by Nance

The Methodist Sunday-School Institute held last Friday night at the Methodist church was an interesting meeting. B. L. Nance, conference dual secretary, was in charge of the instruction. While in Silverton Rev. Nance was the guest of Mr. and Mrs. T. M. Nichols.

City Election Is Called for Apr. 1

A Mayor and Two Aldermen Will Be Elected; C. D. Wright Appointed Presiding Officer.

Notice of election of a mayor and two aldermen has been posted by T. M. Nichols, mayor, and the day named is Tuesday, April 1. C. D. Wright has been appointed presiding officer who is empowered to name two judges and two clerks for recording the votes and making up the tally sheets.

Officials whose terms will have expired are Mayor T. M. Nichols and Aldermen T. R. Whiteside and J. S. Fisher. A mass meeting this Thursday night selected the nominees for the coming vacancies but the News was put on the press too early for carrying the names of the candidates selected.

All qualified voters under the laws of Texas will be entitled to vote in the city election.

Special Notice on Junior Study Club

The 1925 Study club is interested in seeing a junior literature club organized in Silverton, and the chairman of the committee to find out the sentiment for one is requesting that all women interested in the Junior Study club meet the committee at the club room in the courthouse next Tuesday, March 11, at 3 o'clock in the afternoon.

Entire School Staff Elected for 1930-31

Supt. C. R. E. Weaver and Chester Strickland of Grammar School Have Formally Accepted.

Reelection of the entire teaching staff for the high school, grammar school and ward school was made by the board of the Silverton independent district in its meeting Tuesday night. This was an unusual occurrence for any district, and the invitation for a full one hundred per cent return of the instructors is accepted as basis for a sound prediction of a good school year in 1930-31.

C. R. E. Weaver, superintendent of the public schools, and Chester Strickland, principal of the grade school, are the only teachers so far who have made formal acceptance of the positions for another year. The board's action has opened the way for all to continue their work here another year, and should acceptance of all be received a well unified corps for educational effectiveness will exist.

Don't fail to see Dinah, a "perfect '62", "The Ranch On Sunset Trail," will be given at the high school auditorium Friday night, March 7, at 8 o'clock p. m. Admission 15c and 25c.

First Feature Will Be Held Here Saturday

Business Men Unanimously Support Idea to Encourage Trading at Home

The business men of Silverton are announcing this week some good news to the people of the trade territory in the form of a weekly Trades Day to be held every Saturday during which cash prizes will be given.

During the past several years trades days in various forms have been discussed but no steps were taken. In the early part of this week some twenty-five business men were interviewed and a trades day was agreed upon, being staged each week on Saturday instead of the usual monthly affairs. Not every one was seen but they will be and the support seems to be about unanimous in making the necessary contributions to give the awards to the people who trade in Silverton.

The plan is to have a special feature on Saturday afternoon between 3 and 4 o'clock.

It is the hope of the committee that the citizens will adhere to the grades established by the surveys when they began to put down their permanent walks. "The establishment of such grades does not appear to the layman of any essential value," said Mr. Lee, discussing the matter at the time, "but it is recognized by engineers to be very vital. Especially in the laying out of grades important in this section where the proper drainage of streets is a hard thing to care for properly."

Mr. Nichols stated that the city would find a suitable way to finance the work on the intersections so as not to fail in assistance of the necessary improvement.

Slow Train Thru Mizzouary March 13

"Eczema! Eczema! Change keers feh Sassafra. Tizic, Caffish Junction, Turkey Run and all points in Arkansas. Eczema. Eczema! Twenty minutes stop feh dinnah."

While the P. D. Q. Special is stopping in Eczema, Mizzouary, look at the passengers. The loquacious old lady with the hunk of corn pone is Aunt Venus Hopkins, a lifetime sufferer from internal dyspepsy. That's Sis Hopkins, who, without missing a bite, is offering the chicken laig to the thin lady who has something wrong with her hair. (By the way, the thin lady is Miss Tessie Etta Codfish, who is looking for a man. Want her address?)

That very pretty, bashful youngster is so excited because she is eloping with Sir Gilbert Darkwood, a wolf in sheep's clothing, a human villain with a black mustache. The young ladies chaperoned by Miss Molecule of the Select School are reading eighteen pages of psychology because they have monopolized the conductor, Handsome Harry Equunk.

The Unecda Suspenders being shown by Moe Silbittsky may be used (when not in use) to make a swing for the little boy, to strop a razor, to make a fanbelt for an auto, or a fancy girdle for your wife.

Silverton people will have the privilege, at eight o'clock, March 13, of meeting these and other passengers on the Slow Train Through Mizzouary. Tickets for the excursion are fifteen and twenty-five cents, to be bought at the high school auditorium.

Booker—Plans are underway to organize Chamber of Commerce.

Mr. and Mrs. Jack Caro of Poteau, Okla., visited relatives here Friday. Mr. Caro will renew his work for Carl Wimberly of Francis community, where he worked last summer.

Mr. and Mrs. Fulton Gregg of the Lakeview Community were pleasant

Konjola Makes Good After All Else Failed--!

St. Louis Lady Glad to Relate Her Fine Experience with New And Different Medicine.

MRS. DORA BAUER

Konjola is a different medicine simply because it scores victory after victory in cases that have defied and resisted all medicines and treatments tried. This is not a boast. It is a fact established and proved in thousands of cases like that of Mrs. Dora Bauer, 3403 St. Vincent avenue, St. Louis. Read her grateful words:

"How I wish that every sufferer from neuritis could know what Konjola did for me. For ten years I endured agonies from this awful ailment. I had to keep my arms wrapped tightly to ease the pain. My digestion was bad, too, and this weakened me, making me still easier prey for neuritis. I can not remember how many medicines and treatments I tried, but found nothing to give relief, until I found Konjola. In just five weeks this remarkable medicine restored digestion, rid my system of poisons and impurities, and then neuritis left as if by magic. What a boon Konjola proved, more than a million friends. It should have a billion."

Konjola is sold in Silverton at the Silverton Drug Company, and by all the best druggists in all towns throughout this entire section.

visitors in the Mark Morris home Sunday afternoon.

Mr. and Mrs. J. T. Witcher of Lovington, N. Mex., spent the week end here with her parents Mr. and Mrs. Mark Morris and other relatives last week.

J. L. Watters is recovering from an attack of the flu.

Mr. and Mrs. Arthur Gregg spent Monday in the Newt Graves home.

Mr. and Mrs. Roy Hammond and daughter, Betty June of Sudan spent Saturday night and Sunday in the Mark Morris home.

Mr. and Mrs. J. L. Morris and family of Quitaque visited relatives here Sunday. Mark Morris purchased a Case tractor from the Whippet Motor Company of Silverton last week.

MORE USED CARS SOLD EACH YEAR THAN NEW ONES, SAYS PATTON IN REFERRING TO HIS USED CAR SALE

One of the bright spots in Silverton this week is the used car sale-room and lot of the Patton Motor Company. According to Mr. Patton, business conditions in Briscoe County must be good, if the number of deals closed at his lot during the first few days of the sale are any indication.

Mr. Patton gave the News reporter some very interesting facts concerning used cars during an interview yesterday.

The dealer declared that more used cars are sold per year than new cars and that the demand is steadily increasing due to dealers' faithfulness in completely reconditioning and guaranteeing the cars they take in trade before re-selling them.

"Cars are being built better today than formerly and are driven a shorter time by the original owner due to the yearly urge to trade in on the latest model; as a result, the majority of used cars have many years of service left, particularly when it is considered that the average life of a car is six years."

"The used car of today is not a piece of second-hand merchandise that should be regarded with suspicion by the prospective automobile buyer, but a genuine piece of high-grade merchandise with thousands of miles of unusual transportation."

The Spring Clearance Sale of the Patton Motor Company runs from March 1 to March 10 inclusive.

Come, Don't Miss

Don't miss "A Ranch On Sunset Trail" Friday evening, March 7, at 8:00 o'clock p. m. Admission 15c and 25c.

Booker—City may have sewer system soon.

Miss Murphy has inherited the Golden Valley Mine, after escaping the scheming clutches of Sir Gilbert Darkwood, a well business man of Silverton, Texas. She is now known by her real name, Pretty Pauline Petty, the Belle of Eczema, Mizzouri.

"I LOAN YOU MORE MONEY"

W. A. SCOTT

Room 26, Grant Building — — Plainview, Texas

ANALYZE THE ALLOWANCE ON YOUR USED CAR

If a dealer pays you more than the true worth of the car he must make up the difference by extra charges on the new car or re-sell it to some one else at too high a price

PERMANENT value is always better than a temporary bargain in the purchase of an automobile. It pays to look ahead and consider reliability and ultimate up-keep costs, as well as comfort, safety, speed, and beauty of line and color.

Since most automobiles are bought for replacement, the value set on your used car is a factor in almost every purchase. Frequently it is given an importance beyond its true worth.

Used cars have a definite market value and you are justly entitled to an allowance based on that value. It is not fair that you receive less. It is not to your best interests to receive more.

IF a dealer pays you more than the true worth of the car he must either re-sell it to some one else at too high a price or make up the difference on the new car. This he cannot do unless he is allowed an excessive profit on the car or on financing, extra equipment and other charges. In either case, you pay the bill, for no way has yet been found to give something for nothing. The money must come from somewhere.

You may not get the largest used-car allowance from the Ford dealer, but that very fact should give you confidence that you are receiving full value in the new car. Ford charges are not marked up or increased to cover a high trade-in allowance on your old car.

Because there is no waste, extravagance or undue profit in manufacturing, distribution or selling, every dollar you pay for a Ford brings a full dollar in return. In lower first cost, in reliability and long life, in the low cost of operation, service and replacement parts, the Ford will save you much more than the seeming difference in trade allowance.

FURTHERMORE, at least \$75 extra value is given to you in the new Ford in the Triplex shatter-proof glass windshield, the Rustless Steel, the five steel-spoke wheels, and the four Houdaille hydraulic double-acting shock absorbers. The unusually large number of ball and roller bearings, and the extensive use of fine steel forgings instead of castings or stampings, are other features that show the extra quality built into the Ford car.

- Roadster, \$485
- Phantom, \$440
- Tuxedo Sedan, \$590
- Coupe, \$500
- Sport Coupe, \$530
- Two-window Fordor Sedan, \$600

When You Think of Hardware and Implements Think of Silvertown!

Hardware . . . Implements . . . Service . . . in Silvertown are synonymous. Here we have many who carry an investment in Hardware and implements that would astonish most of the people if they were to read the invoices of the splendid firms who serve them.

These firms have on their shelves and in warehouses most any needs of householder or farmer in their line. The companies are ever ready to help their customers in the way of credit when circumstances justify this. They always keep many articles that serve as real accomodation to the patrons of the firm. In implements they handle all the well-known lines. Anything from floor-sweep to a five-ton tractor can be purchased at these leading firms.

Supply Your Wants in These Lines From SILVERTOWN—"The Power City." Headquarters in Briscoe County for the best in Power Farming.

(Note: This is the third of a series of articles sponsored by this publication about Silvertown business houses. This advertisement is contributed by the management, and the hdw. & implement dealers were not informed of intentions in publishing same).

FARM
FORUM—

HOW THE AGRICULTURE DEPARTMENT UNDER SUPERVISION OF THREE BOARDS FUNCTIONS IN SCHOOL COMMUNITY

(BY W. M. GOURLEY)

The awakening of high school boards to the importance of vocational agriculture this year and the many requests for allotment of funds to start the department in such schools as Wellington and Memphis, to mention a few in this part of the state, has brought about a demand on the part of the public for detailed information concerning the work.

In the preceding article on this subject I talked principally of the financial help the student accrued unto himself and the aid vocational agriculture furnished him in the way of making a living. The following paragraphs will cover a little different viewpoint.

In the first place the salary received by a vocational agriculture teacher is not understood. The public should know that the monthly salary paid from the school funds is considerably less than paid to the superintendents, less than that of the principals, and in some cases less than the amount paid to some of the other subordinate teachers.

It is true that the vocational teacher's pay check is supplemented by money from the federal board but the school district is relieved of the supplement. And another thing to consider is that such teachers are generally tax payers who contribute to the school fund, city tax fund, etc.

There are some people in the community who think the school board pays the car expenses of the agriculture teacher incurred in the promotion of school work, which is done outside of the class room in giving individual instruction to the boys at their homes and to the adults in the community. All car expenses throughout the year for community service trips and individual teaching of the students at their own homes are paid by the instructor. During the course of twelve months this expense will amount to no small sum.

Very often the question is asked what part of the agriculture teacher's salary is paid by the county. He gets nothing from the county whatsoever.

As to the time occupied by the teacher, probably there is not a teacher in the entire faculty that has as long hours as this instructor. He has at least six periods at school devoted to teaching and the preparation of material to be used in these classes. He must put on night school work which is strenuous at times. He must give the students individual instruction at their home during the year, after school in the afternoons and on

Saturdays. He must stand ready to answer community calls for service and day or night, Sunday or week days.

He must work with the farmers' organizations, county fairs, and the like. He must write articles for the community along agricultural lines. He must answer many letters of inquiry during the year relative to such questions as securing pure seed, good poultry breeding stock, etc. He must submit monthly and annual reports to the state department of education at Austin. He must attend agricultural meetings in his region at his own expense, and is frequently called upon to judge fairs and poultry shows. And he must train judging teams for the district and state contests.

Another erroneous idea on the part of a few concerns the affiliated credits allowed on this work. The state committee on affiliation and classification has given full recognition to vocational agriculture as a high school subject and has approved of a maximum of four full units in this subject, as much as is allowed for history, English, science, or any other high school subject.

The West Texas State Teachers College, the Texas Tech, the North Texas State Teachers College, Trinity University, Texas A. & M. College, and both junior A. & M. Colleges allow four full credits toward college entrance. Baylor University allows three and practically all other colleges allow credit in the work. It is expected, however, that nearly all the students who take agricultural work will likely attend one of the schools allowing four credits.

It certainly would be unfair to have the work of the vocational agriculture teacher not recognized when the most rigid scholarship requirements are set up for this group of teachers. In most instances every agriculture teacher in Texas holds a college or university degree; a number of them hold two degrees. In many cases they are graduates of several state or denominational schools.

Their work is the most closely supervised by the state department, vocational division, of any high school subject. They must deliver the goods or get out. Three different boards pass on their work as a teacher: the local school board, the state board, and the federal board.

Olton—Considerable building underway in this place.

FRANCIS
Mrs. Johnnie Young
Correspondent

There was no Sunday-School here Sunday.

Mr. and Mrs. Wade Steele of Plainview spent Sunday night in the J. Lee Francis home.

Several from here visited the tunnel Sunday; they were Mr. and Mrs. D. G. Joiner, Mr. and Mrs. J. L. Francis, Mrs. Alvin Redin and son, Harley, and Lois Edwin Joiner.

O. L. Dunn was a business visitor in Silvertown Monday.

Mr. and Mrs. W. E. Redin and Mrs. Ione Brown attended church at Silvertown Sunday afternoon.

Mr. and Mrs. Johnnie Young visited in the John Tucker home Sunday.

It was announced last week that a play, entitled "Deacon Dubbs," would be given here Friday night. We wish to announce that it has been postponed indefinitely.

P. D. Jasper sold some hogs Tuesday.

Mr. and Mrs. D. G. Joiner were dinner guests in the Alvin Redin home Sunday.

The Helping Hand Club met in the home of Mrs. U. D. Brown on Thursday of last week. The afternoon was spent sewing. Refreshments of peaches, whipped-cream and cake were served. An enjoyable time is reported.

HECKMAN
Miss Eloise Hamrick,
Correspondent

The past few days remind the farmers that spring is near, and all are busy preparing their land for a bumper crop we hope to have.

The patrons and young people of Heckman community met with Rev. Ingram, February 24, at 8 o'clock p. m. for the purpose of organizing a Sunday-School. The organization was as follows: Supt. John Messer; Secretary, Edoise Hamrick; teacher, Mrs. George Craft. Mrs. McCrary and Mr. Hatley. Everyone are invited to attend Sunday-School, that it may grow and be of much benefit to our community.

Our basketball teams, boys and girls, played Brice Friday afternoon and lost both games, however, our boys and girls showed much improvement over former games.

The pupils who made the honor roll for the past week are as follows: Novell James, Paul James, Clifford Richards, Ralph Mc Crary, J. Carrol Hamrick, Betty Wingsaw, Virginia Hamrick, Elizabeth Gail McCreary, Marie James, Allie Woods, Ruth Casper, Anice Southard, Agnes James, A. R. Morris and Flona Austin.

Mr. and Mrs. Jim Kimbree and son, Norman of Farwell's pent the week end in the Craft home.

Messrs Clemons, Woods and Mar-

cus McCreery made a business trip to Memphis last Monday.

Mr. and Mrs. Jim Davis of Lockney spent last Sunday in the Winsaw home.

Several of our people attended the programme at Brice, rendered by the Owen twins, all report a nice time and a splendid programme.

The women have begun to set incubators and plan their gardens. It will not be long until the fami-

ly call of the bob-white can be heard from the distant hillside, as this brave little fellow is usually first to greet the approach of spring. J. D. Hamrick was a visitor in the Earl Clemons home Monday night.

A turnover is nine-tenths of business. The faster money works the more profits it collects. A profit earned today picks up another profit tomorrow.

SOCIAL AFFAIRS

The Woman's Home Page

CHURCH AND CLUB

Baptist W. M. S. Had Important Meeting Wednesday

Members of the First Baptist Woman's Missionary Society met at the church Wednesday for an all-day session in observance of the week of prayer. Ten members were present and \$25.00 dollars were received as collection.

The society met Monday in business session with 13 present, and the subsequent meetings will be held at the church on Mondays at 2 o'clock. Next Monday Mrs. D. M. Morgan will be chairman of the royal service program. The topic is "Beyond the City". Other numbers are: Bible Study—Mrs. G. C. Patton, Talk—Our Debt to the Country—Mrs. R. L. Buchanan. Talk on changes affecting rural life in three parts: The City Trend by Mrs. O. C. Allard; Changes in Character of Population by Mrs. J. R. Foust; and Other Changes Brought by Progress by Mrs. Ralls Miller. Mrs. R. P. Davis will lead the general table discussion.

Each member on the program is urged to be present and those not on the program are needed to attend to help the speakers.

Junior Camp Fire Club Organized For Young Girls

A Junior Camp Fire club was organized the first of February among a group of the younger girls. It is sponsored by the Senior Camp Fire organization, and its activities will be under the wing of the older club.

Its members are Norma Lee Burleson, Delise Blackwell, Dorothy Dickenson, Jessie Buchanan, Lorraine Gollihar, Lois Hodges, Allyn Bain, Dorothy Jean Gollihar, and Pauline Shaw. The junior club had a bake sale last Saturday which was considered a success as a first public undertaking. The young girls proved industrious promoters.

Noted Illustrator Visits Relatives In Silverton

Mr. and Mrs. Leslie Turner of San Antonio are the guests of Mrs. Turner's parents, Mr. and Mrs. Jno. Burson. Mr. Turner is quite a noted illustrator for the national magazines, his work having appeared in a number of the periodicals in the East with a nationwide circulation.

Mr. Turner has prepared the illustrations for a human-interest story in this month's Holland's, "Rescue the Parishing," by Elinore Cowan Stone. For the year Mr. Turner has confined his art activities in the south, and friends of Holland's, "The Magazine of the South", will be pleased to note that the Dallas publication is using Texas talent.

SILVERTON SCOUTS —And Their Work

(Reported by George Snapka)

Scout meetings are no longer sessions just for play. We now have our business matters settled in a serious way, and we haven't yet failed to finish what we begin.

Tuesday night three boys took their tests for tenderfoot. Joe Earl Haynes, Roy King and Willie Snapka are now full-pledged tenderfeet and are working steadily for second class which they hope to finish before school is out. New registrations were Kenneth Davis and Tommy Stout.

The other boys are urged to hurry and turn in their registration fees, for the surprise held in store next Monday and Tuesday will not be shared with those who fail to respond before Wednesday.

Regrets are expressed that Powell Miller, junior assistant scoutmaster, was absent from the meeting. It is feared his absence will set a bad example to the others. If he was unavoidably detained, then apologies are in order.

Present at the last meeting were Jim Haynes, Ralph Gunter, James Patton, Charles White, Tommy Stout, Kenneth Davis, George Snapka, and the new scouts, Joe Earl Haynes, Roy King, and Willie Snapka.

Visitors were Marvin Harris, Hollis Evans, Earl Allard, Brice Kolb. Scout Benefit Show March 10-11

The biggest show we have ever had in Silverton will be shown Monday and Tuesday for benefit of the scouts who receive a generous percentage of the receipts. Mr. Flournoy, the manager, is trying to have a talking picture for the 10th and 11th.

Home Economics Will Present Three-Act Play At Auditorium Fri. Night

The Home Economics club of the economics department in the high school, in charge of Miss Francis Annis, instructor, will present a three-act play, "A Ranch on Sunset Trail," at the high school auditorium Friday night, March 7, at 9 o'clock.

Sixteen girls are in the cast, depicting some interesting ranch life, villains and romance. Much preparation has gone into the production and a rare treat in home talent is promised.

The economics girls are planning to enter a contest at Lubbock March 24, and will probably attend the state clothing meet at Houston in May. The object of the play is to raise a fund for expenses of these trips. A small admission charge is made for the entertainment.

Methodist W. M. S. Plans to Entertain Floydada Ladies

Plans for entertaining the Floydada auxiliary in the near future were discussed by the Woman's Missionary Society at its regular meeting last Monday.

Mrs. T. M. Nichols was leader for the study on the scriptural meaning of marriage. Mrs. M. G. Brotherton talked on home responsibility, and Mrs. N. R. Honea read a paper.

W. M. S. Study Missionary Boys' Program

A missionary boys' program was the outline for the W. M. S. of the Methodist church in its meeting at the church Monday at 2:30 o'clock. Mrs. T. M. Nichols was leader. Eight members were present for the study.

There isn't so much lost time to make up for now; get going on your own advertising.

Short Stories Was Theme for 1925 Study Club

Short Stories was the main theme of the 1925 Study club in its Wednesday session in the year's course on Southern literature, and several masterpieces by Southern writers were discussed.

Mrs. A. P. Dickenson was director for the afternoon. The roll call was responded to by quotations from any Southern author.

Mrs. M. R. Alexander read a paper on "The Georgia Cracker in Literature." Mrs. Ernest Tibbets gave a reading, "A Christmas Guest." Mrs. D. W. Cowart discussed Charles Egbert Craddock's Mountaineers. The round table topic involved local types in Southern literature.

The quotation for the day was, "Our highest respect for a well bred man is praise enough of literature."

Covenant Is Subject for Church Study

The church study group, composed of ladies from the Presbyterian and Methodist denominations, in a review of Exodus had for its subject Monday, Feb. 24, "The Covenant Sealed." Mrs. Bob Dickerson was the leader.

Four points were brought out on how the covenant was sealed between the Creator and the Israelites during their wandering in the wilderness: 1. Offering of sacrifice. 2. Catching the blood in two basins. 3. Promise of obedience. 4. Sprinkling of the blood. The significance of each step was thoroughly discussed.

The next meeting will be held Monday, March 10, at the Methodist church, with Mrs. M. C. Potter as leader.

Do not fail to see "A Ranch on Sunset Trail" Friday night, 8 o'clock p. m. Admission 15c and 25c.

Don't forget to include printer's ink in your estimate.
