J. E. WHELOCK ELECTED PRESIDENT HIGH PLAINS TURKEY RAISERS ASSOCIATION

Last Friday the High Plains Turkey Association met for their annual banquet and election of officers at Muleshoe. The Kiwanis Club of that city sponsored the banquet, which was prepared by the Bailey County Home Demonstration Clubs and the girls from the Muleshoe High School Home economics class served the tables.

The first part of the program was a visit to the Warren-Churchill turkey farm, where they have about 145 hens for breeding purposes. The farm is cut up into small pens, with alfalfa as green feed. Proper sheds and runs are also a part of the equipment. Plenty of brooder houses are also found on the farm.

They raised over 500 turkeys on 2 and one half acres last season. Alfalfa was used for green feed.

After a wonderful turkey dinner with all the trimmings the following speakers were introduced by K. K. Smith the toastmaster. Former county judge Bill Kennedy welcomed the large crowd as they were seated in the American Legion hall at the feast.

President J. E. Wheelock, made a short talk. Dr. Bradford Knapp of the Texas Tech was the main speaker of the afternoon; O. G. Tumlinson, district farm agent supervisor; Roy Davis, manager Plains C-Operatives; Roy Malone of Texas Tech; Geo. P. McCarthy of College Station; H. M. Bainer, Santa R. R. farm agent; D. L. Jones of the experiment station of Lubbock. County Judge of Bailey County, Mr. Adams, Cliff Day, National Chairman advisory board.

Mrs. Bill Kennedy, in a very fitting manner thanked the speakers for all the nice things they had to say about the banquet. In her closing remarks she welcomed the crowd back to the "Water bowl and Turkey Platter" of the Plains.

The Turkey raisers have established a turkey hatchery at Plainview and the turkey business is on the up and up.

At the business meeting in the afternoon at the District Court room, J. E. Wheelock of this city was elected President. Mrs. Joe McDuff of Crosbyton was elected vice-president. J. C. Eiring of Plainview, secy-treas.

The following feeding formulas were given by Warren-Churchill turkey farms, as the best they have been able to find. We print them for the benefit of our turkey farmers.

LAYING MASH
100 pounds meat, 12 pounds bone, 60 pounds barley, 120 pounds wheat, 60 pounds alfalfa, 12 pounds pulverized charcoal, 8 pounds salt, 12 lbs. sulphur and mix fine grit in every feeding.

STARTER FEED
40 pounds wheat, 20 pounds oats, 15 pounds alfalfa, 25 pounds meat, 3 pounds fine charcoal, 1 pound sulphur sifted, 1 pound salt, ground fine.

GROWING MASH
35 pounds wheat, 5 pounds barley or corn, 15 pounds alfalfa, 30 pounds meat, 3 pounds charcoal, 2 pounds steamed bone, 2 pounds sulphur, 2 pounds salt, and add fine grit and shell.

After keeping the polts on the starter for about five weeks gradually shift them on to the growing mash by six weeks.

Those attending from Silvertown were: County agent Finley White, assistant county agent, Homer Thompson, Editor R. B. Boyle, S. R. Turner, Lee Bomar, and J. E. Wheelock, the newly elected president of the association.

The Hannah Hall Construction Company, who are doing the road work in Briscoe County have on the pay roll something like sixty people and in addition have asked for about thirty-five direct relief workers and thirty-five unemployed men of this county. The road work is progressing nicely on both 86 and the north and south road to Floydada. The highline and Telephone Company and well as the county are still busy moving lines and fences.

Wednesday of this week the citizenship of this part of the Plains was greeted with another snow storm. This has been a wonderful fall with rains and snow falling about every two days or oftener. The wheat farmers and stockmen tell us we have the best season in the ground we have had in several years. With a few rains in the spring, this old county will see one of the greatest crops it has ever harvested.

Nola Pearl Mosley and Durwood Gresham spent the later part of the week with Mrs. Charles Cowart and Ventillo Gresham.

HOW TO DEVELOP SCHOOL SPIRIT IN THE COMMUNITY

The development of school spirit in any community is a subject worthy of the best consideration of all sane thinking people. There is no American institution which has any more bearing on community life than our public schools. It therefore behooves each of us to develop a school spirit in the community that will be wholesome for the community. We cannot expect to turn out from our school the type of boys and girls who will make the best citizens unless we have the best schools.

The development of school spirit in the community rests with us individually and collectively. By cooperating one with the other we can develop the proper school spirit in our community so as to be a wholesome spirit which tends to build a good school there by making of our boys and girls better citizens.

In approaching the subject of developing school spirit in the community three distinct angles present themselves. Namely, the teachers part, the pupils part and the parents part.

The school teacher plays a most important part in the development of school spirit in the community. Teachers of the highest type, mentally, physically and spiritually should be selected to teach the school. Teachers should take an active part in all community and public affairs. They are recognized as leaders when they are placed in the school system and they should act their parts at all times. They should be duly careful not to assume the role of dictator in their leadership, ever keeping in mind in this Democratic Country of ours that the majority must rule. Teachers should cultivate the spirit of friendliness and helpfulness toward the pupils and parents. Every teacher should make one or more visits to each home represented in their school. By doing this the teacher will in a measure get a picture of the environments which surround their pupils before and after school hours. When a teacher has the background of a boy or girl they know better how to deal with that boy or girl.

The pupil's part in building school spirit in the community, the not as great as that of the teacher is never the less just as important. The pupil should learn early in school life that there are a few simple rules in every school that must be complied with. Being punctual, courteous and obedient just about covers the simple rules of school. If the pupil is punctual he stands in favor with his teacher. If he is courteous he stands in favor with teachers and the other pupils. If he is obedient he stands in favor with every one. Being punctual, courteous and obedient will make a good pupil grow into a good citizen. Good citizens make a good country in which to live.

The parents part in the building of school spirit in the community is as important a part as that of the teacher and pupil combined. Whether parents are aware of the fact or not the pupils in school are only imitations of the parents themselves. Parents should not blame the teachers and pupils too much if the pupil fails to "go over" at school. They should remember that the pupil is very likely doing in school pretty much as he did at home.

Parents should keep in close contact with the teachers. By so doing the teacher can give the parents lots of interesting information on the youngster—they can tactfully point out some of the outstanding faults of the pupil and show the parents where they could correct those faults either by council with the child or maybe in rare cases with the rod. Parents and teachers should council regularly about the youngsters; they should also council regularly with the youngsters.

Closer contact between teachers, pupils and parents will do more for building a wholesome school spirit in the community than any thing that could be done.

(The following paper was read by Mrs. Finley White, last Wednesday at the P. T. A. meeting. We think it is worthy of printing, so the public may also get this message. Remember the P. T. A. meets on the fourth Wednesday of each month. eCome a member and do your part.)

Turkey Meeting

On Friday of last week the Hi Plains Turkey Association held its annual meeting at Muleshoe. Mr. J. E. Wheelock of our own county was elected president of the association. Last year Briscoe County had to be satisfied with Mr. Wheelock as vice president but nothing less than president would satisfy us this year.

Terrace Lines

Terrace line running will be resumed as soon as the weather permits. Cloudy weather and dust storms makes it impossible to read the instruments, but we will be running them every day the weather isn't too bad.

The New Program

All we know about a new program to replace the AAA is what we see in the papers—and that isn't much. Secretary Wallace says that a new one will have to be out by the middle of next month or it will be too late for this years crop.

Here's hoping they have one. If you haven't written Marvin Jones, Morris Shepherd or Tom Connally do so this week so they will have some evidence to show the agricultural Committee as to what the people back home want. They may know what you want but the other members of the Agricultural Committee won't take their word for it, so let's supply our men in Washington with some black and white evidence with which to work with. Let's not put this off. It will only cost 3c.

TURKEY HATCHERY TO OPERATE HERE

A 7,500-egg capacity turkey hatchery will begin operation here the last of February. Roy B. Davis, manager of the Plains Cooperative, Inc., said today. The hatchery is located at the Plains Cooperative plant.

A total of 465 turkey hens have been certified for egg production to supply the hatchery. Only eggs from blood-tested birds will be used to supply the hatchery, Davis stated.

Plans to install a hatchery were made at the Southwestern Dressed Turkey Show held here early in December, the Hi-Plains Turkey Improvement Association members sponsoring the idea.

Hatching facilities will be available only to members of the association but poultis will be offered for sale to the public. A Jamesway electric incubator, specially designed for turkeys eggs, will be used.—Plainview Herald.

Time Lost is Money Lost

It costs money to be sick. You see it directly if your pay envelope is short. You lose out on some important work if you live on a farm or if you are one of the few who are not docked for lost time. You can't afford to show up on the job unless you are feeling fit. The boss wants results—not excuses.

How many times do Gas on Stomach, Headache, Sour Stomach, "That Tired Feeling," That "Morning After" Feeling, Neuralgia, Rheumatic, Sciatic, Muscular or Periodic Pains keep you at home or interfere with your doing a full day's work?

All these troubles are caused or made worse by too much acid in your body. To correct this condition take

ALKA-SELTZER

The New Pain Relieving, Alkalizing, Effervescent Tablet.

It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid. Alka-Seltzer is pleasant to take, harmless, non-laxative.

Why don't you try it? Get a drink at your drug store soda fountain for a nickel. Buy a package for home use.

Will you please tell me what a kilowatt hour is?

Certainly, madam, we'll be glad to!

A kilowatt hour is a unit of measurement. Just like a pound of butter, a peck of potatoes, a quart of milk. That's all—just a convenient unit to measure the amount of electricity you use in your home each month.

True, you can't measure it with your eye as you can a quart of milk or a pound of butter, but you can measure the work it does for you. For example:

ONE KILOWATT HOUR (or KWH as it appears on your bill) WILL

- Light a 100 watt lamp for 10 hours
- Run an electric clock for more than 2 weeks
- Run an average-sized electric refrigerator about 20 hrs.
- Run a 10-inch fan 27 hours

Kilowatt hours now cost less than ever before. In fact, some add nothing to your bill! By using all the electricity to which you are entitled you get the greatest benefits from the new ultimate rate now in effect.

In speaking of bridge playing, statistics claim nine out of ten married couples average a quarrel a day. The other couple don't play bridge, is our guess.

A story going the rounds is about a Memphis newspaper in Tennessee that started in after the city council. "Half of its members are idiots," the paper stated.

The council as a body called upon the publisher of the newspaper and demanded a retraction. And he was most polite and most agreeable and said that he would do it gladly. And in the next edition he wrote as follows:

"Half of the city council members are not idiots."

While lying in bed this morning just wishin' I had a million dollars, a carload of spending money, and could spend the winter in Florida beach lolling, I heard a faint voice in the next room saying "don't let your wishbone take the place of your backbone." I have a secret notion that it was only the voice of another radio announcer trying to fill in the gap between harmonies, but nevertheless, the thought almost dislodged my whole make-up. I am passing it on to you in case you too need a bit of an awakening. Too many of us today are using our wishbone instead of our originally gifted backbone. Nobody ever received anything "just wishin'". It takes push, ability, vitality, and ambition to achieve wishes in fully developed forms. Nice little lecture wasn't it? I'm somewhat of a wisher and hoper myself.—Jean Suits in the Lockney Beacon.

Boy! Oh Boy! But things are looking bad for the newspaper people in this part of the State. There is an awful sickness breaking out in the newspaper circles. We have not been able to figure it out. It may be due to the fact that it is leap year. Miss Lois Black, Secretary for Wilbur Hawk, of the Amarillo News, was married last week. And now comes the announcement that Judge Landis, sport editor and popular announcer over Amarillo's radio station, has married, or was married. We trust the ailment, will not spread over the entire Plains country and wreck the press gang completely. Leap year or no leap year the hungry presses must be fed.

Hell (High) has frozen. The G. O. P. boys are calling on us Democrats to hand over the postoffices like we said. Reports one of our exchanges.

A number have paid their \$1.00 membership fee to our public library since our last plea to you in the paper. And again we want to insist if you haven't already done so to do so at once. We can't have a library without everyone cooperating in the

matter. We will have we hope by this week end 100 new books from the extension loan library to be kept 3 months for circulation. They will include books of fiction, travel, science, biography and literature. Come in and get you something new to read. We will also have a number of new books purchased by our book committee such as "Discovery" a human account of the difficulties met and overcome by Byrd and his men. Also Anne Lindbergh book, North to the Orient and many others.

MCCORMICK-DEERING FARMALL TRACTORS

THE famous McCormick-Deering Farmall Tractor is now built in two sizes. The regular all-crop, all-purpose Farmall is a 2-plow tractor with plenty of power to meet the needs of the average farm up to approximately 200 acres. It plants and cultivates row crops as easily as it pulls the plow.
The 3-plow Farmall 30 embodies all of the desirable features of the original Farmall but is larger and more powerful. It meets the power needs of farms in the 300-acre class.
Let us tell you all about these modern farm tractors.

to the publication. The book also contains several pen and ink art reproductions from stencils and various poems by Texas authors. It is dedicated to the memory of Guy R. Johnston, late engineer of this division, and a pen and ink drawing of his likeness is included in the book.

Charts, maps, highway construction outlines, geological structures, etc., are also shown on its pages, and withall it is indeed a very valuable compilation as a record of history, economic and general progressiveness of this South Plains area.

It is understood that 400 copies of the book were printed and compiled by Mr. Garrett and his associates, and plans are now in the offing for enlarging the 100 or more pages of the present publication, having them regularly printed and bound for distribution to valid tourists and other vitally interested in learning more of the assets and virtues of this South Plains area with the view of making investment or purchasing homes in this section.

Announcement

I am announcing for representative of 120th district. I am a native Texan, 52 years old, 28 years in this district. At present I am a commissioner in Floyd County; however, I have stock farmed most of the time I have lived here. I know some of the ups and downs we have in the Panhandle.

I think we need more homeowners in this part of the state. I am in favor of more equalization in our taxes. I want to see every man bear his part of the taxes. I think we need fewer and better laws.

I will greatly appreciate your support and if elected—the best service I can give is yours.
