Talking It Over With Home Demo

It's 4-H Club Time

The interest and enthusiasm displayed at the first 4-H Club meeting was very encouraging. Now that the roads are becoming passable again, all the girls in the county between the ages of ten and twenty years will be given an opportunity to work with the 4-H Clubs, and if they show the interest that the Silverton girls did there is no doubt but that the Briscoe County 4-H Clubs will be on the map of Texas in time for Short Course next summer.

The girls will work on two demonstrations this year, clothing and gardening. Since the work is new in the county, of course all the girls are enrolling in first year work.

In the clothing demonstration the girls will equip their sewing boxes, learn to use their thimbles, or rather, put that knowledge into practice, supply their closets with 12 additional coat hangers, make a shoe rack, a cup towel, slip and school dress. A state-wide contest in girls' clothing is being sponsored this year with the girl who has done the most outstanding work in clothing in the county competing in the district contest and then in the state. Girls, let's show them what we can do.

The plans for the garden demonstration are not yet completed and therefore we cannot give definite information as to the goals just yet, but they will be expected to prepare the soil for a definite amount of row space in the garden, select seed and plant some vegetables, grow them, can them, and exhibit the canned products.

Silverton Girls Organize

A meeting of the Silverton school girls who were interested in organizing a 4-H Club was held at the Silverton school Wednesday morning with 36 girls present. After a discussion of the work and of the plans for this year, led by Miss Meadows, Home Demonstration Agent, 36 of the girls signed up as 4-H Club members. Mrs. Bruce Womack was chosen by the girls as their sponsor, and the following girls were elected: Nora May Thompson—President Vera Davis, Vice-president. Anna V. Burleson, Secretary-Treas. Georgia Kirk, Reporter Hudson Garrison will be clothing demonstrator for the club and Vera Davis, garden demonstrator. The club will meet each second and fourth Wednesday at the school house. Mrs. Bruce Womack, sponsor, will be in charge of the next meeting.

WORKS PROGRESS ADMINISTRATION

During the summer months when public school students were enjoying the vacation period more than thirty thousand adult Texans continued their efforts to conquer the rudimentary steps in obtaining an education by attending literacy classes. Works Progress Administration emergency education officials revealed today.

Although fluctuating according to the demands for seasonal employment enrollment in WPA literacy classes was maintained at a level of from 30,549 to 34,636 during June, July and August. Dr. J. E. Jackson, director of the department said. The number of teachers employed to conduct literacy classes ranged from 550 to 703 in the summer months.

Most recent census of illiteracy in Texas, tabulated in 1930 showed 208,121 persons who were unable to read and write. Attempting to further inroads already made upon illiteracy by emergency education work in this state, WPA teachers now hold classes for more than one tenth of that number. Emergency education records disclose that over ten thousand persons were taught to read and write in 1934 and 1935 and that 17,680 received literacy instruction in 1935 and 1936.

The average literacy class student spends seven months out of the year in regular attendance, Jackson estimated. "In this length of time an average illiterate student can learn enough to pass literacy tests necessary to obtain citizenship, to read ordinary newspaper articles, to sign and understand children's school report cards, to write checks, and to perform practically all of the fundamental reading and writing tasks required of the ordinary individual." Jackson pointed out a recent survey made of literacy classes in six eastern Texas counties. Of 2,000 students in attendance, 1,500 had learned to read and write after six months. The majority of the students were between the ages of 21 and 45. One hundred and seventy members of this group were above the age of 75.

PLENTY MOISTURE IN GROUND AND NICE SUNNY WEATHER

The week has turned off bright and clear, roads are getting smoothed up and everyone is feeling better. Farmers are getting into the fields and going ahead with their soil preparation or wheat planting.

In some places the volunteer wheat is big and rank and will have to be plowed under again before wheat is sown. Those lucky enough to have seed in the ground report that it is up and coming.

Barring extra early hard freezing, the county will make lots of feed and pasture. Many farmers are talking silo, to take care of their feed in the best shape. Cattlemen will profit a lot by the rain last week.

As for the cotton—???—one report will be to the effect that it is practically ruined. Another will say half crop, another worms, another good.

Anyway, the weather is bright—the roads getting better and a wheat crop on the way—let's all get happy.

Grand Jury In Court Again This Week

Grand Jury has been in session, again this week, adjourning Tuesday night. This is the only work taken care of the district court this week. Three more indictments for felony were returned in connection with the robbery of the McDaniel Phillips 66 Service Station at Quitaque a short time ago. Two bills for misdemeanors were brought in also by the jury. Ed Hayes of Childress was fined \$50 for contempt of court.

Petit jurors have been notified to appear in court Monday of this next week. Among other cases is one concerning Everett Boyles of Quitaque, who is charged with stealing chickens, three offenses; and Bob Miller is being tried for driving while intoxicated. Both of these cases will be heard Monday.

Men called for petit jury service are:

DAY --- FOGERSON

Miss Sylvia Day of Matador, and Mr. Ware Fogerson of Silverton, were united in marriage, Saturday, September 26, at Matador, by the Methodist minister there.

Mrs. Fogerson is the attractive daughter of Mr. and Mrs. Riley Day of Matador, and is one of the better-known of the younger set there. She graduated from the Matador, High School with the class of 1934. She took up the study of beauty culture after her graduation and was operating the King Beauty Salon until a short time ago.

Ware is the son of Mrs. Florence Fogerson of Silverton and has made Silverton his home for most of his life. He graduated from the Silverton High School in 1933. For about two years he was connected with a Hardware and Lumber Company at Happy. Since that time he has been with the Fogerson Grain Company here, engaged in the elevator business. Ware is one of the up and coming young business men of this vicinity.

Immediately after their marriage, the young couple started to Carlsbad Cavern for a short honeymoon, but were forced to turn back on account of washed out bridges and roads.

They are remodeling a home for themselves here in the southeast part of town, and until it is finished, will make their home with Mrs. Florence Fogerson, where they are at home to their friends.

Their wide circle of acquaintances and friends in Silverton and Matador wish them happiness and prosperity in their new venture together.

Markham Scores Modern Art

"It won't last," said Edwin C. Markham, 84-year-old poet, when he eyed Grant Wood's "American Gothic" at the Texas Centennial Exposition in Dallas. He declared it belonged to a rapidly vanishing era and the author of "The Man With The Hoe" much preferred Millet's famous painting of the same name.

October Month Of Good Shows Here

Those show calendars you see around town list the shows that are coming to the Palace Theater here during October. Manager Joe Mercer has some plenty good shows on the way—and late ones too—kinda makes it useless to go out of Silverton for a good show. Some of the better advertised shows are: "Rhythm on the Range", with Bing Crosby; "Sons-o-Guns" with Joe E. Brown; "A Message to Garcia" with Wallace Beery; "Private Number", starring Loretta Young; "Whipsaw", with Myrna Loy; "O'Malley of the Mounted" with George O'Brien.

A complete list of the October shows is given below in the order of their showing. Bank night is each Thursday and the shows on that night are of the same high caliber as on other nights.

Golden Arrow.
Three on the Trail.
The Country Beyond.
Sons-o-Guns.
A Message to Garcia.
Rhythm on the Range.
Brides are Like That.
Spendthrift.
Private Number.
Love on a Bet.
O'Malley of the Mounted.
Dancing Pirate (Technicolor).
Whipsaw.
Special Investigator.

You should attend these shows. They're good ones. The theater is good. The sound is better than the average by a lot, in fact Joe says it's the best there is.

And why are we boosting these shows? Turn about is fair play. Joe gets his printing done AT HOME—we go to Silverton shows. And incidentally, those Theatre Programs were printed in the News Printing Plant, and we can do just as good a job for you.

DAVE MAYFIELD

Dave Mayfield, of the east part of Swisher County, died Friday on the street in Tullia. His death was from heart trouble, and coming as sudden as it did, was a great shock to all who knew him. He was buried in the Silverton Cemetery Monday afternoon, after funeral services, held at the Church of Christ.

An appropriate obituary will be printed next week. We will be very grateful at the News Office if the obituary is turned in before next week.

SILVERTON 'WUZ-STARS PLAY HIGH SCHOOL FRIDAY

The Owls have no regular game this Friday and the town boys will play them a round here that afternoon. There's a lot of good players around Silverton. They think they can beat the youngsters. It's be a lot of fun and the money goes to the high school team to help out on the deficit they have from the two games played. 15c and 5c will be charged for the game. They'll even put you in a suit if you wish.

Help the boys out on this game.

F. F. A. BOYS TO HOLD AGRICULTURE MEETING

A F. F. A. (Future Farmers of America) meeting will be held on October 7, at 7:30 in the high school building. All boys who wish to join the F. F. A. please be there.

Saturday, October 4, four boys will go to Tullia. Groups will be there from Tullia, Hereford, Hale Center, Abernathy and Silverton. This meeting will be held to organize a District F. F. A.

The Agriculture boys in the first year classes have been culling chickens. If you would like to have some chickens culled they will be glad to do it. They also have been testing milk and now they are learning how to select grain seed from the field.

In the second year class the boys are studying how to prevent diseases of animals.

Last Rites Tuesday For Mary McClendon

Mrs. Mary E. McClendon passed away last Monday night at the hospital in Plainview, and the news of her sudden death was a great shock to everyone.

Following her fall on the street in Silverton about two weeks ago, she entered the hospital for treatment of a badly fractured limb, and every indication seemed favorable for her normal recovery. On Monday night, with her usual brave smile in the face of adversity, she was making light of her suffering and the plaster cast, and asked that no medicine be given her to induce rest. As the nurses turned to leave the room, she became unconscious before they reached her door, and she was gone within a few minutes. The diagnosis was, that a blood clot from a torn muscle or ligament had reached her heart or brain; and nothing known to medical science could bring relief.

It is hard to realize that her busy, ministering hands are folded in eternal rest, that her motherly heart will beat no more in loving sympathy for her loved ones. Hers was a spirit of "perpetual youth" manifested outwardly in her twinkling, undimmed eyes, her clear resonant voice, and firm young step. Her mind was above the average woman's in its quick grasp and clear insight; and she was widely informed in state, national, and world affairs of various lines. Loyal to her home and family, she discharged her duties there in faithful service, yet she found time to help her neighbors in their hours of need, to work for progressive things in the local community, and to keep abreast of the times in a world-wide sense.

Her ancestry was of the fearless, stern Colonial families, and from them she inherited a strong, fine character that made her hold to an exalted sense of justice and integrity. She met the hardships of pioneer days in this county, with no less courage and steadfastness than her forbears three centuries ago in the Atlantic wildernesses. She lived a Christian life and was a member of the Church of Christ, to which she was converted in 1896 in Silverton.

Mrs. Mary E. McClendon was born in Hunt County, Texas, February 21, 1867 and died September 28, 1936. She was married to J. H. McClendon, March 24, 1886 in Stephens County, Texas and came to Briscoe County in its earliest days.

She leaves to mourn her departure from this life, her husband, J. H. McClendon of Silverton; a brother, A. J. Askey, Silverton; the following children: Mrs. Johnnie McDonald, Amarillo; Mrs. Andrew Payne, Hensdale, Montana; Mrs. Clay Fowler, Mrs. John Folley, Ivor McClendon, Hugh McClendon, Haynes McClendon, all of Silverton; Johnnie McClendon, San Angelo; and her eighteen grandchildren.

The funeral rites were held in the Methodist church at Silverton, on Tuesday, September 29 at three o'clock. The Rev. Warwick Aiken, of St. Mark's Episcopal Church, of Plainview; and Rev. L. E. Kent of the Silverton First Baptist Church conducted the services. Interment was made in the Silverton cemetery with the Silverton Undertaking Co. in charge.

Her close friends, Mrs. Newman, Mrs. Ruby, Mrs. George Lee, Mrs. W. W. Martin, Mrs. Will Dunn and Mrs. Ida Schaffer carried the beautiful flowers that were sweet symbols of the love and esteem of her hosts of friends and bespoke the last tributes from the family.

The pall bearers were J. E. Wheelock, Stanton Crow, Guy MacWilliams, Bill Bingham, Will Newman, Arthur Arnold, T. L. Anderson and C. D. Wright.

Out of town relatives were Mr. and Mrs. Johnnie McClendon, San Angelo; Mrs. Johnnie McDonald and four daughters, and Mr. H. P. Hackler, Amarillo; and Mr. and Mrs. Henry McClendon, Dalhart; and Mrs. Della Keller, Plainview.

The entire town and community extends its sympathy to the bereaved ones.

Finley White's Agricultural Briefs

We are getting a thrill of a life time this week. Most of us had decided that the sun had milderewed, but to our surprise it popped out as bright and shiny as it was before the "floods." If the weather Gods will favor us with 15 to 20 days of sunshine and warm nights, Briscoe County will be ready to take the winter on the chin—or all over—as to that matter. Feed and grass too will make record growth with the season we have in the ground. Wheat too will do its stuff toward giving these cattle something to hold their ribs apart on.

Maps! Maps! Maps!

All day long and into the wee hours of the nite we figure on maps. Then we go home and have nightmares about maps—but still we want more maps. If you haven't measured your farm and made a map of it already, please do so at once.

Every farmer who signed a work sheet and who expects to get paid for "performance" on that work sheet will have to measure his farm and make a map of that farm showing exactly what usage was made of each field during 1936. By usage of the field we mean, show whether cotton, grain sorghums, sudan, peas, or what was planted on the field in 1936. If the field was summer fallowed, show that; if terraced, show that.

It will not be necessary for the farmers to figure out the area of the fields or farm—all we want is ALL the measurements, either in feet, yards, rods or chains. We will do the figuring of acreage here in the office.

When you make your maps please try to make maps and not jig-saw puzzles. It helps us out lots here in the office.

Always write the name of the operator and the landlord on the map before mailing it in. Thanks.

Wheat Payments

Many inquiries are coming in on "When do we get our 21½¢ wheat checks?" The only answer to that question is "I just don't know." It is possible that these checks will show up within the next ten days, but if I were guessing I'd add another zero to that 10 and feel like I wasn't far off. It being election year though, we may find that the check machine will grind out the money before November 3, anyway.

Cotton Tags

Who brought the idea of that Bank head bill again? We wouldn't have thought of that outfit for a ten spot but since the subject has come up, we'll have to say something about it. Recent communications from the Washington tell us that they are in the act of writing and issuing checks at the rate of 40,000 per day with only about a million to be issued.

The payment we receive on these tags will be at the rate of 4c per pound on the sold portion. They sold only about 20 per cent of the total which we turned in. The unsold portion of the tags will not be returned as they are useless. The unsold poundage will be kept in Washington, but any individual who wants his unsold poundage returned (so he can show his grandchildren that he and Uncle Sam used to be partners) may be able to get them returned by writing to Mr. E. L. Deal, Manager of the Certificate Pool—but who wants any useless paper on hand? Most of us have some oil, or some other kind of stock on hand if we need any useless paper.

Trench Silos

Since the rains we are having many inquiries about trench silos. This is a good omen. It shows that Briscoe County farmers are beginning to wake up to the possibilities of the trench silo. When we stop to consider the fact that anything that cattle will normally eat can be put into the silo, as a filler gives the most of us something to put up as silage—it may be tumble weeds, careless weeds, or something else but it all makes good silage.

Bulletin No. 84 "Trench Silos" is available at the County Agent's office for all who expect to dig a trench silo this fall. Come in and get yours or drop me a line if you are interested.

Yours Truly (?)

LET US LOOK AT THE record. Under Hoover, the income of America in 1932 was 35 billion dollars. After three years under Mr. Roosevelt, our income is 60 billion dollars. Our bank reserves reached under Mr. Roosevelt, three billion dollars in excess of the reserves required by regulation and law. The annual return to our farmers has been doubled. Merchants and industrialists are no longer in the red as they were in 1932 and the gross returns of 477 of our major industries have increased on an average of 61 percent over the year before, with thousands of them paying dividends to their stockholders.

To the thoughtful man, the issue to be presented on election day is "Am I better off now than I was in 1932?"

THAT PEP SQUAD at the football game looked mighty good. Give the boys another win and they'll begin getting some support. I believe that

they will win over half of the games this year.

SOME TALK IS GOING around by the wiseheads, that Silverton has gotten the breaks in the games played this season. Well they did! And what makes the breaks of the game? It's nothing but just plain old heads-up football. When the passer gets rushed until he throws the ball into Silverton arms—that's football. When a Silverton back takes one of the other teams passes, that's football again. And when a man fumbles behind his own line of scrimmage, it's usually because some lineman charges through before the play is started. So fellows, when they tell you about those breaks that came your way, casually turn your head, put your sleeve close to your lips, and let a gentle snicker therein.

FROST REPORTED FOR the 28th of September. Something should be done about that. Here's a former Kansas boy in the 'sunny south'—and about to freeze—in September.

BRISCOE COUNTY, SINCE September 17, has been included in the drought area, as are most of the counties of the Panhandle. Word to this effect was received recently by W. W. Martin, county judge, from Congressman Marvin Jones. This entitles Briscoe County farmers to a lower rate on feed and grain shipped in. The freight rate on feed has been reduced 50 per cent and the rate on cattle grain is down one-third. Maybe, now since the rains we'll be lucky enough that we won't have to ship in much outside feed to carry stock through the winter.

I KNOW OF TWO boys who took in the Streets of Paris at the Centennial—in fact they took in the whole show. One of them took second in a fist fight, and the other nearly broke an ankle jumping over the fence. That's good too—they sneaked in over the fence, and after visiting enough of the dispensers of good cheer, figured that they had to sneak out. Our hero fell rather heavily on the sidewalk outside.

Once when Wm. J. Bryan was making an important speech, his attention was drawn to a man in the audience who apparently was held spellbound by the flow of oratory—says Mrs. D. C. French in "Memories of a Sculptor's Wife." Later in the evening the man seized Bryan's hand, "I've watched you every minute," he said breathlessly. "I've never taken my eyes off you." Mr. Bryan felt deeply thrilled. "Yes," continued the man, "I'm a dentist and I've never before seen a speaker who, when he laughed, showed both full rows of teeth."—Kansas City Star.

Gas, Gas All the Time, Can't Eat or Sleep

"The gas on my stomach was so bad I could not eat or sleep. Even my heart seemed to hurt. A friend recommended Adierka. The first dose I took brought me relief. Now eat as I wish, sleep fine and never feel better."—Mrs. J. J. Miller. Adierka acts on BOTH upper and lower bowels with ordinary laxative act on the lower bowel only. Adierka gives your system a thorough cleansing, bringing out old, poisonous matter that you would not believe was in your system and that has been causing gas pains, sour stomach, nervousness and headaches for months. Dr. H. L. Shambaugh, New York, reports: "In addition to intestinal cleansing, Adierka greatly reduces bacteria and colon bacilli." Give your bowels a REAL cleansing with Adierka and see how good you feel. Just one spoonful relieves GAS and constipation. Leading Druggists.

Less Monthly Discomfort

Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUL, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food. Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated. Cardul, praised by thousands of women, is well worth trying. Of course, if not benefited, consult a physician.

Lesson for October 4

THE MACEDONIAN CALL

LESSON TEXT — Acts 16:6-15; Romans 15:18-21.
GOLDEN TEXT — Go ye therefore, and preach the gospel to all nations. — Matthew 28:19.
PRIMARY TOPIC — Paul's Wonderful Mission.
JUNIOR TOPIC — God's Call to a New Continent.
INTERMEDIATE AND SENIOR TOPIC — A Cry for Help.
YOUNG PEOPLE AND ADULT TOPIC — The World's Need of Christ.

The roots of American life, cultural and religious, reach back into the European soil on which our forefathers dwelt. The lesson before us is therefore of peculiar interest, for it relates the first step in the carrying of the gospel into Europe, and ultimately to America.

Paul, the missionary with a pastor's heart, felt constrained to go and visit the centers where he had ministered on his first journey. As he proceeded he was providentially hindered and led by the Holy Spirit to Troas. Here his next "stop" seemed for a time to be a "stop," but soon God in a vision called him into Macedonia—and the gospel had come to Europe.

It is of interest to note that Paul, as he thus began his second missionary journey, was

I. Obedient to the Spirit (Acts 16:6-12)

He had certain plans in mind. He set out with a purpose, but he was willing to have his own itinerary changed as the Holy Spirit led. It is significant that the guidance was negative as well as positive. The stops as well as "the steps of a good man are ordered by the Lord" (Ps. 37:23). Christ will do well to remember that providential hindering circumstances may be as much the leading of God as the heavenly vision. He gives but we are not to be merely passive, but actively submissive to His will. Paul was not waiting for the speaking of a voice from heaven. It is to such man or woman that the Macedonian call comes even in our day, for now it comes from China, India, South America, or Africa.

II. Faithful in Testimony (vv. 13, 14)

Paul, with his companion Silas, Timothy who had joined them at Thracia, and Luke (note that the "we" of v. 8 becomes "we" in v. 10) came to Philippi in Macedonia, but they found no Macedonian man waiting for them. Had they been mistaken in their vision of call? True missionaries are not thus discouraged. They had come to fishers of men. The fishermen do not expect the fish to come to him. He goes after them. Paul soon discovered that there was a place of prayer at the river, a daily gathering place of devout Jews for worship. There he met the man of Macedonia who seemed to be a woman. For the reason the men were absent from the place of prayer on that important Sabbath morning. Lydia was a woman of distinction, business ability, and of high moral character. But Paul knew that even good people need to be reached. He spoke the truth of God. He accepted the message as God sent her heart, and at once she believed into.

III. Fellowship in Service (v. 15)

Lydia proved herself to be one of that noble succession of women to have served Christ and the church. She and her household were in the ministry of Paul by their Christian hospitality, thus helping forward the missionaries. Serve carefully that she was not led by her works, but that her faith followed naturally after her action.

IV. Fundamental Missionary Principles (Rom. 15:18-21)

Those things which Christ had taught (Paul took no glory to himself) through him Paul had consistently directed into fields where no one else had preached the gospel. The spirit of the missionary of the cross is that of the pioneer, pressing ever onward, taking new territory, not duplicating the work of others, not jealous of their success, not seeking comfort or glory, but needing the gospel; they are lost to it. Let us press on into yet unoccupied territory.

Sorrow and Enjoyment

We are sent here, in one sense, to suffer; but, in another, to enjoy. The active day is the evening of repose; even pain and suffering has its alleviations, and there is a consolatory sense of duty discharged.—Scott.

Undermine the Character and gain are great perverters of mankind, and where either shall the judgment be violated.—Sam Penn, in "Some Fruits of the Cross."

WHAT DOES MARRIAGE MEAN TO MODERN GIRLS?

Men follow the line of least resistance; if a jumble of genial voices suggests all going to the "Rough House," it seems a good thing to do at the moment, and off the whole swarm goes.

By KATHLEEN NORRIS

MEN are afraid to get married nowadays," a middle-aged doctor said at a dinner party recently. "Women are so darned independent, and they can do so much on their own that there isn't much a man can offer them!"

"It used to be," he went on resentfully, "that a girl wanted to get married to be independent. Marriage meant freedom, it meant that she was more important than her sisters, who sat around waiting for beaus to show up. She had her new name and her new house and a lot of new clothes, and she was just in Heaven."

"But today they have their new homes without bothering to get married. When a girl feels like it she says to the old folks that she wants to live by herself, and off she goes. Thousands of young women have broken away from the home nest, just as the boys used to do, and they're making their own money, too, just like the boys. They can stay out nights, entertain their friends, go to what shows or what parties they like, and they think things over pretty seriously before they decide to settle down with just one man, and confine their amusements to what amuses him, and their expenditures to what he can afford."

"I'm looking," he concluded mournfully, "for one of those shy little retiring women who raise big grateful blue eyes to the man who's going to rescue them from parental tyranny, and who want to run for slippers and babble about the baby and adore the man of the family for the next fifty years!"

"Beth in 'Little Women,'" someone suggested.

"Exactly!" the first speaker said emphatically. "Why don't women get onto the fact that men like 'em loving and quiet and cuddly!"

Nobody was cruel enough to answer him as he should have been answered, but perhaps a good many of us were thinking the same thing. Perhaps we were all longing to remind him that twenty years ago, when he was twenty-five, no girl could be giddy or extravagant or artificial or shallow enough for him. He followed every will-of-the-wisp in petticoats that came his way, and finally settled his affections upon a certain pretty saucy little married woman who hadn't sense enough to control her own random affections, much less rebuff his.

The affair of the handsome doctor and the little married woman entertained their less charitable friends for several years; it was just one of those pleasant intimacies between a handsome man and an idle woman in which everyone knows that there is not the least harm, but which manages to make a good husband feel cheap and cheated, and which takes Mother away from a small boy in the late afternoons, at tea time. When the husband finally got up his courage to ask for a divorce and took the little boy away with him, the pretty little wife was less pretty and less pert, and the big doctor drifted instantly and quietly out of the picture in the way the beaus of married women always seem to know instinctively.

Now, a few years after all this, the doctor could perfectly well marry his one-time sweetheart, she's still free, but instead he rails at the independence of the modern girl and longs for a cuddlesome little wife like Beth March!

The truth is that young men don't want domestic, honest, affectionate wives, or they'd find them. Up to the age of thirty-five some men won't look at the girls who drink and jazz and pet, who obtain money somehow, by hook or crook, from Dad or a brother or in any other possible way, who waste it all on red finger nails and matinee seats, who "work" a man for champagne and orchids and then triumphantly tell the other girls how easy he is. The more completely imbecile a girl is the better she succeeds in the circles of night clubs and cocktail parties; indeed a good many girls assume a baby lisp and an idiot stare for those occasions. Waiting to hear Lucienne le Boyer I was sitting near one of these long-lashed, over-rouged, half-nude little anomalies one night, and over-

hearing—she didn't mind!—what she said. She said "yare," "says yew" and "oh, lissen," approximately a thousand times, and very little else. She varied the accent and intonation on the words cleverly, as jungle savages do their "huhh;" and she was a great social success, with young men stumbling, tumbling and tottering about her all evening long.

Right in the same Biggest City there were a lot of other girls tucked up and sound asleep at that hour, but with young blood in their veins, with young desire, young longing to be popular and do things and go places. There were girls who know that somewhere in the world are men who like honest planning and talking, like books and plays and gardens and politics and history and social questions along with the love-making, girls ready to become splendid wives, and the mothers of fine little girls and boys. These girls have their opinions too, like the doctor with whose embittered remarks I started this article.

"It seems a shame," one of them wrote to me a few weeks ago, "that when you feel the way I feel you can't admit it. I live at home because I love my home and my own people, but a widowed sister with three babies also lives there, and two brothers still in school, and seven other persons as well. My mother is dead, and my father loves us to be home playing cards with him, or reading, or talking, and consequently I don't have much of a chance to meet men socially. For the rest, I'm a kindergarten teacher—and that means a lot more work than it used to mean. The children begin to gather at half-past eight, and I have to be there, and what with organized games and rehearsals and late calls from mothers, and reports and putting up exhibitions, and distributing prizes, I'm rarely home until after five, and tired then."

"I'd just like some lonely man to know that I'm on the market," she ended. "Nobody has to ask me to marry him unless he wants to. But friendship and companionship are among the beautiful things in the world, and I'm twenty-eight, and I don't want all the miracles to pass me by."

This girl lives in a Missouri city. In that same city, on the quiet evening when she wrote this letter, night clubs were going full blast, and men without much money to spend were ordering quarts of champagne, and were leaning over girls who were scented with drink and tobacco, whose shoulders and backs were completely bare, and whose conversation was confined to the aforesaid yare, lissen, and says yew. Some of these men would much rather have been walking along some fresh quiet star-lighted street under trees, with an intelligent woman companion, discussing the question of a movie or a theatre, or a little supper somewhere after the walk. Most men even when young, like reality rather than sham; they like to get SOME value for the money they spend.

But we all do things we don't really want to do, in this queer world. We all see the persons who bore us, and miss the ones we really love; we all go to parties we despise rather than having the courage to say "no;" we all waste money on the letter, and let the spirit of living escape through our clumsy hands. Men follow the line of the least resistance; if a jumble of genial voices suggests all going to the "Rough House," it seems a good thing to do at the moment, and off the whole swarm goes. That the cover charge at the Rough House is \$5, that the air is thick with unwholesome smells of perspiration and dust and cheap food and cheap drink and cheap perfume; that the colored men who sing in the dim light are not musicians, and the men who toil in the kitchen are not cooks means nothing—until someone has to pay the bill.

Q. Can you give the date of the introduction of barbed wire in Texas and something of its early history.

A. S. Barbed wire was introduced in Texas in 1871 by John W. Gates, a hardware salesman, who gave a public demonstration of its resistance to cattle at San Antonio. By 1880-83 its use had become so general that wire-fence cutting had become so serious a problem that Gov. John Ireland called a special session of the Legislature in 1883 to pass laws regulating the building of wire fences and punishing fence cutting.

Q. What is the constitutional amendment to be voted on in November regarding teachers' pensions?

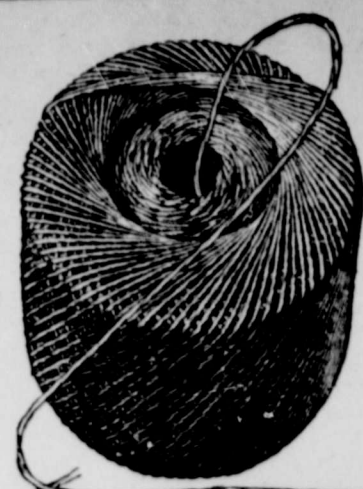

H. G. A. It would enable the Legislature to levy taxes to provide a retirement fund for persons employed in public supported wholly or partly by the State, with provisions that it applies only to those who have taught in State 20 years that the amount paid by the State shall equal the amount paid for the same purpose from the income of each such person and shall not exceed 5 per cent of the compensation of such person.

Q. How did Vice-President John Garner come to be known as "Cactus Jack"?

O. H. A. He was a member of the Texas Legislature in 1901 when the Colonial Dames of Texas had a bill introduced to designate the Bluebonnet the Texas flower. Garner moved to substitute the cactus for the Bluebonnet and a lively debate ensued; resulting in the nickname of which he is still proud, regarding it as a symbol of hardihood.

Q. Does timber grow to any size in West Texas or is it all dwarfed?

O. L. Columbus, KY. A. While most of the prairie timber is small, some attains large growth. A live oak tree in Irion County, on Edwards Plateau, measures 23 feet in circumference and has a spread of 90 feet. Although not in commercially marketable quantities, there is much large timber in West Texas.

Your Twine is Here!

McCORMICK-DEERING

And what twine it is! It came from International Harvester's modern American mills, where skilled workers combined the best fiber and the latest twine science to assure you twine satisfaction. It is wound in the "Big Ball" with the patented cover for your convenience and treated against destruction by insects for your protection.

We have plenty of this good McCormick-Deering "Big Ball" Twine to go around—and there is more where this came from—but, even so, it is a good idea to come in and get yours and solve your twine problem for this season.

Nearly any binder will do better work when its needle is fed this smooth, uniform McCormick-Deering "Big Ball" Twine. A phone call will reserve your supply.

PERHAPS IT IS BETTER TO Lose Your Husband Than Your Health

Husbands, generally speaking, are easily obtained; but good health, when once lost, is difficult and expensive to recover.

In making the above statement, we have no desire to break up any happy home in this trade territory—but rather we would emphasize the necessity of GOOD WHOLESOME FOOD for making and keeping that home happy and contented.

BURSON HAS IT!
