Glenn Wallace Meets Tragic Highway Death

AGGIE BRIEFS

By Clyde Hutsell

The good rain we have just had through lots of inquires as to much wheat we will be allowed. This leaves us still wondering much wheat we can plant still be in compliance. To date we have not heard a word about it. All I can say to you is that we are not less than 31 percent then if you are over planted you get you allotted acreage will be a way for you to get men for payment either by bringing up or seeding a mixture of the acres in excess of your allotment.

Some are still in doubt about a mixture to seed on the acres above and the allotted acres. If you have as much as 40 percent barley or rye mixed with your wheat you are OK. Example: 45 lbs. wheat; 15 lbs. barley.

1938 Compliance

We will soon be waiting on the office to say go with our compliance papers. We will soon be complete so far as this is concerned. We have been in long hours and lots of getting this job done, but we are glad to do anything that will get the payments up.

Subsidy Checks

We are still getting a few subsidy checks. Have not received any on the late work sheets and expect any for at least another week, and then we will be looking for them.

Wheat Insurance

To those of you who were lucky enough to apply for Crop Insurance, but have not paid your premium yet, remember your policy will not take effect until your premium is paid. You still have a chance to pay if you can make the payments (you know what I mean, raise the cash) or you can deliver the number of bushels on your premium notice. Corporation will set a time limit on which time the application on which the premiums paid will be void. Come in and we will talk this matter over.

Cotton Marketing Cards

All of you that are ginning cotton and most of you are at this time, be sure to take your marketing cards to the gin with you even if you are not selling your cotton. The ginner must have this card to make up his report and I am sure he will appreciate it if you will remember to take your card with you.

Range Program

All of you who have signed applications, please call at the office at your earliest convenience as we have some papers for you to sign so that we may get them to the State offices as soon as possible.

COTTON BUT BETTER STAPLE THIS YEAR

With around 250 bales of cotton when the rain came, it is expected that the Silverton Gin here will gin around 1,000 to 1,200 bales of cotton, which is a much smaller crop than last year.

Bryant, owner of the gin is urging upon everyone, the importance of letting their cotton get thoroughly dry before putting it in the gin. The gin here makes out all papers for government loan cotton and is ginned one day and the other ready for the farmer the

Is Struck By Pampa Car And Instantly Killed Near Quannah

Glenn Wallace, 31, prominent young farmer-stockman of the Wallace Community, met instant death on the highway four miles east of Quannah, Sunday afternoon when he was struck by a motorist, as he was walking along the roadside.

Wallace was walking by himself in the direction of Quannah and was struck by a Pampa car containing two women. In the excitement, no clear details of the accident were given. However evidence showed that it was an unavoidable accident and the driver was absolved of all blame.

Funeral services were held here Tuesday afternoon at the Church of Christ conducted by Rev. Earl Cantwell. Interment was made in the Silverton Cemetery.

Obituary

James Glenn Wallace, son of Mr. and Mrs. T. D. Wallace of this county, was born June 5, 1907, and passed away October 9, 1938, at the age of 31 years, four months and four days.

He was a member of the Church of Christ and became a member at the age of fifteen.

He was united in marriage to Miss Mary Justice in 1928, and to this union were born three children, all of whom survive.

Other relatives left to mourn his passing are: his father and one brother and three sisters; C. T. Wallace, Silverton; Mrs. W. T. Wallace, Tucumcari; Mrs. M. R. Alexander, Port Neches; and Mrs. Alinger Turner of Turkey, Texas. Many other relatives and friends mourn the loss of Glenn Wallace.

The entire community joins in extending their sincere sympathy to the bereaved ones.

WORD ON JAIL PROJECT

Word to County Commissioners this week from George M. Bull, regional director of PWA, says that the application is being given attention at that office and will be forwarded immediately to Washington for final approval. The application was received in time to be considered immediately, according to Bull.

CARD OF THANKS

We shall always remember with deep gratitude the many kind and helpful courtesies, the comforting expressions of sympathy, and the lovely floral offerings from our friends at the death of our loved one.

Mrs. J. Glenn Wallace and children
Mr. and Mrs. T. D. Wallace
Mr. and Mrs. W. L. Wallace and son
Mrs. E. H. Wallace and family
Mr. and Mrs. C. T. Wallace and family
Mr. and Mrs. M. R. Alexander and family
Mr. and Mrs. Alga Turner and family
Mr. and Mrs. J. N. Justice and family.

SPANISH CLUB ORGANIZED

The Spanish II Class met and organized a Spanish Club Friday. The name of the club is El Circulo Espanol. The following officers were elected: President, Alice Vaughan; Vice-president, Wilma Joyce Smith; Secretary-Treasurer, Vivian Burleson; and Reporter, Phyllis Allred.

The club song is "Mexicali Rosa." Red, black and yellow were chosen for the club colors. Our motto is "Poco a poco se va lejos." The club meets every Friday.

LOCKNEY and Silverton will play football here Friday. Come!

Strip Crops Check Erosion

Strips of close-growing crops such as Sudan grass or other sorghums alternated with strips of clean-tilled crops such as cotton, corn and beans, afford protection from both wind and water erosion. Soil Conservation Service technicians report. On this farm in one of the demonstration project areas Sudan grass, which resists erosion, is alternated with cotton, which does not resist erosion.

Tule Canyon Crossing To Be Improved

JUDGMENTS TAKEN THIS TERM TO COLLECT BACK TAXES

Tax collecting agencies of school, city, county and state went to work pretty seriously this term of court in collecting back taxes. Judgments were rendered against the following property owners and for the amounts given where shown on the records:

| | |
|-------------------------------------|----------|
| J. L. Nunn, et al | \$381.00 |
| N. M. Lawler, et al | \$236.08 |
| Lee D. Bomar, et al | \$169.00 |
| T. W. Ziegler, et al | \$ |
| S. P. Brown | \$ |
| Texas Compress and Warehouse, et al | \$ |
| H. R. Braly, et al | \$401.62 |
| D. W. Fyffe, et al | \$50.47 |
| T. L. Anderson et al | \$443.81 |
| Mrs. L. A. Baird, et al | \$223.69 |

Many other suits have been filed and disposition will be made of them as soon as possible. Something like \$80,000 is delinquent in state and county taxes here, with no figure available on school and city. The authorities feel that it is time to collect.

Application for Project Seems Likely To Go Through At Once

Application has been made by Briscoe County for a WPA project to improve the Claude Crossing of the Tule Canyon. Approval of the proposed work is expected this week from the Texas Relief Commission at San Antonio, according to Woodson Coffee, county judge.

The project is being set up to provide work for the Briscoe County men who have been at work on the Cap Rock on Highway 86. The project there will be discontinued for a short time owing to lack of WPA funds for that particular project. It will take a month or six weeks to get work going again on the Cap Rock and if possible the men will be working the Tule Crossing during the interval.

The project on the Tule will widen the road there and cut the grade to not more than seven percent in any place. It will in no way complete the crossing but will make it possible for trucks to cross if not too heavily loaded. It is the first step toward a thru highway north via Claude and Panhandle, leading on north thru Oklahoma and Kansas over the Federal Highway 83.

State engineers are at work now looking for suitable caliche for use in paving the eight miles east through Silverton on 86. It is hoped that nearby beds will be found as it will cut the cost considerably, and as only \$49,000 has been made available for the job, it may lengthen the strip. It is expected that bids will be advertised for this month.

LAW AND LOVE

Two boys were playing on a narrow ledge, worn smooth in the face of the sea-side cliff. Some twenty feet beneath, the deep sea-green water lapped against the rock. One of the boys was the miller's son. He had been warned again and again of the peril of the path. This day a careless step to the edge paid its penalty and he fell into the smooth, deep water below. Death seemed to his fate. But his keen cry was heard in the nearby mill, and his father ran out with anger on his face. But when he saw his son struggling with death the frown became a spasm of anguish, and at risk of his own life he plunged in and rescued him. As the boy lay in his exhaustion, tended by loving care, he knew that the world which seems to be all law, is really all love, and that mercy rejoices against judgment. You ought to hear this thought continued in the Presbyterian Church next Sunday morning. Evening service at 7 o'clock.

COTTON GINNING REPORT

Census report shows that 533 bales of cotton were ginned in Briscoe County from the crop of 1938 prior to October 1, as compared with 665 bales for the crop of 1937.

Mrs. B. F. Clemmer and daughter Rowena of Slaton spent Saturday night and Sunday here in the home of her son Jim and family. Jim took his mother and sister home Sunday evening.

Owls Win First Conference Game

NEWS BITS

From Neighboring Towns

Falls From Bed—Dies

Little Lois Addington fell from a bed in her home in Miami and died of her injuries the next day in an Amarillo Hospital. The baby was eight months old, says the Miami Chief.

2,000 Bales Ginned

According to the Turkey Enterprise, 2,000 bales of cotton had been ginned in the gins of that city last Thursday. A late report from Turkey tells of the complete destruction of one of the gins there by fire the last of the week.

Dam Under Way

The recreational dam three miles northeast of Tulla is now under actual construction, according to the Tulla Herald. 25 trucks and 40 laborers are being used and about 4 laborers. With the exception of 4 or 5, all are local Tulla people.

Briscoe County Man Arrested

Among five arrests made last week by the Sheriff of Hall County, was the arrest of a Briscoe County man, name unknown, for driving while drunk. It was the only felony charge of the five arrests, says the Memphis Democrat.

Notes Down Bonds

A vote of 37 against and 29 for, is the story of the bond election held in Happy last week. No further steps will be taken by that city toward installing a modern sewage disposal plant, according to the Happy Herald.

Trades Day Program

In spite of much opposition from ministers of the city, a Trades Day Drawing was held at Hale Center last Saturday. The general idea of the plan is that whoever draws the money accept it as a salary, and his work consists of boosting the town for one week, explains the Hale Center American.

BAPTIST MISSIONARY SPEAKS HERE

Rev. A. C. Huff, our District Missionary, will speak at the First Baptist church next Sunday at the evening preaching hour (8:00 o'clock).

The other time Brother Huff was scheduled to speak at the Calvary Church he was rained out and we were disappointed. We hope he will come and leave us a rain this time as well as many spiritual blessings.

The First Baptist Church and the Missionary cordially invites the Calvary Church and all others who will to come and enjoy this service with us.

W. H. JACKSON, PASTOR

\$25 FOR OLD RADIO

Charles Cowart, Zenith radio dealer here, is offering a special value this week on a farm radio. He will accept any old radio as \$25 payment on a new Zenith farm set and Wincharger. The offer is for a limited time only.

FRESHMEN NEWS

A group of forty-five Freshmen met Tuesday and organized their class. Miss Opal Cross and Mrs. R. D. Wheelock were elected sponsors. The following were elected as officers: President, Vance Burson; Vice-president, Carl Dean Bomar; Secretary-Treasurer, Evelyn Coffee; Reporter, Billy Rampley; Assistant Reporter, Freda Wimberly. At a second meeting, a social committee composed of Charlene Garrison, Faye Jean Davis, and Marvin Allen was elected. Another very important committee known as the Money Making Committee consists of Patricia Bomar, Willie Smith, and Wyona Lee.

Merchants Are Offering Special Bargains for Monday Sale

The first Silverton Livestock Auction was held here last Monday on an ideal day, and a good crowd of both buyers and stock attended. Most of the livestock was brought in, was sold, and a pretty fair price.

Another livestock auction will be held here next Monday, the 17th, with the same auctioneer, M. E. Ray, in charge. Mr. Ray was well pleased with the possibilities of a livestock sale here as a regular event.

Silverton merchants are co-operating with the Auction Day Monday, with the best line of Special Prices we have seen in a long time. On an inside page you will find a large ad announcing the sale and a few of the bargains to be offered by the merchants. Among other inducements to come to Silverton Monday is a special agreement among all filling stations to reduce the cash price of gasoline a cent a gallon Monday.

The same buyers and several more, will be on the ground at the sale. Wide publicity is being given the sale and both stock and buyers from many other towns are expected.

Plan now to come to Silverton Monday. Not only will it be a livestock sale, but practically every merchant in town is making a special effort to attract your business.

If the Sale and Bargain Day is a success this Monday, it will assure it being held here at least every other week for some time.

SILVERTON RECEIVED .86 INCHES RAIN SUNDAY NITE

Silverton and vicinity received nearly an inch of rain here Sunday night in a slow steady fall that lasted for several hours. The exact amount, according to the gauge here was .86 inches. Outlying communities report similar amounts and other papers report that the rain was general over the Panhandle.

Cotton picking has been at a standstill all week with very little ginning done. Wheat growers however are jubilant and many that have been waiting for rain before sowing, are already in the fields. In most places it is thought that the Sunday rain will go deep enough to meet the subsoil moisture, and give a good seed bed. More moisture is needed at once to give the wheat any kind of a start.

F. F. A. NEWS

By Bob Brooks

The Silverton FFA Chapter is coming along pretty well. We held a meeting Monday the tenth, and selected the boy we were to send to Kansas City to the National Convention. William Long was the lucky boy that was chosen to go. Last year Pascal Garrison was chosen to go.

The FFA boys put grass on the football field this summer and was given the right to sell pop and candy at the football games. Next Friday when you come out to see the Owls in action, come around to see the boys.

We are going to give a play entitled, "A Hoodooed Coon". The money we get out of the play will go to buy a heifer for the winner of this year's points. Each year the winner of the heifer, will give the first calf to the winner of the next year. We have two pigs to be given away this year too.

O. C. Rampley has culled, wormed, and deliced his 500 hens. O. C. has also made a mash to feed them.

Gaynelle Douglas Elected Vice President of Dramatics Club

Miss Gaynelle Douglas, of Silverton, prominent student at West Texas State College, has been elected vice president of the Dramatics club. The club is one of the most active on the campus.

Peace Wins Shallow Victory, Compared to That of Hitler

By Joseph W. La Bine

Foreign

Since early August, when Czechoslovakia's Sudeten area first began attracting Reichsfuehrer Adolf Hitler's serious attention...

Another rebuff came when Franklin Roosevelt drafted his first note to Germany and Czechoslovakia...

PREMIER BENITO MUSSOLINI... heading into the headlines.

not to Italy. Sorely hurt, Il Duce was ready to jump headlong into the headlines first chance he got.

That chance came unexpectedly. Night before, in Europe's capitals, frenzied governments rushed mobilization, prepared for air raids...

In such a crisis, as President Roosevelt paved a smooth entre with his second note to the Fuehrer...

By daybreak the last question was answered. To Munich, Adolf Hitler summoned Britain, France and Italy...

Terms: (1) Czech evacuation of Sudetenland by October 10; (2) supervision of evacuation by international commissioners...

As Europe's peacemakers headed for home, a world well accustomed to treaty breaking might well wonder how long the Munich pact would stand...

For peace, only victory at Munich was that the world's war lords had avoided unspeakable disaster...

Transportation
Though 928,500 members of 19 railroad unions voted to strike October 1 in protest against a 15 per cent wage cut...

Committeemen: Prof. Harry A. Mills of Chicago university, Dean

James M. Landis of Harvard university's law school. Chief Justice Walter P. Stacey of the North Carolina supreme court...

When committeemen finish their inquiry, unions must wait another 30 days before striking. Chief hope is that a solution of railroad financial difficulties will obviate a strike...

White House

"This country can best be served by putting in positions of influence men who believe in peace and who will resist this administration in seeking to give free advice to either side in Europe."

Day after he recited this opinion of Franklin Roosevelt to Chicago Republicans, Iowa's onetime Sen. Lester J. Dickinson might have admitted that he spoke too hastily...

Next day, as Iowa's Dickinson was speaking, came Adolf Hitler's reply disclaiming responsibility, maintaining the "terrible fate" of Sudeten Germans made delay impossible...

"There are two points I sought to emphasize: first, that all matters of difference could and should be settled by pacific methods; second, that the threatened alternative... of force... is as unnecessary as it is unjustifiable."

Credibly phrased to maintain U. S. neutrality, the President's message nevertheless contained the word "unjustifiable" which connoted a measure of sympathy for Britain and France...

No President in modern U. S. history has ever taken such a step, nor did much time elapse before tongues started wagging. Would Franklin Roosevelt's intervention embroil the nation in Europe's squabble?

By daybreak the last question was answered. To Munich, Adolf Hitler summoned Britain, France and Italy for peace negotiations...

Unnoticed, shoved into the background by Europe's crisis, was the U. S. political picture which nonetheless may change definitely as an upshot of the President's action...

IOWA'S DICKINSON No "free advice" to Europe.

poll which showed the New Deal's two most favored features were rearmament and foreign policy.

Whatever might result from Munich's peace parley, the Czech squabble proved (1) that Germany's expansion efforts will continue to threaten Europe, and (2) that the U. S. cannot escape some measure of participation in world affairs...

Floyd Gibbons' ADVENTURERS' CLUB

HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELF!

"The Roar of Death"

HELLO EVERYBODY:

Here's a story I don't believe has ever been told before in English. It happened during the World war, and a country at war doesn't let news of its internal troubles leak out if it can help it.

Worked in German Munitions Factory.

Margaret Loeschner, who lives in the Bronx, N. Y., is today's Distinguished Adventurer. Margaret was born and brought up in Germany.

Both of them were ambitious. They worked at piece work—were paid according to the number of finished articles they turned in at the end of the day.

Their work consisted of sewing together the powder blades that were used for gun charges. They worked at it steadily—industriously—except at such times when the alarm rang for a fire drill.

Fire Was Sweeping Through the Plant!

On July 18, there was fire drill, and the munitions workers all filed out of the factory. And the very next day the alarm rang again.

They do not compare with milk as a source of calcium, but substantial amounts of this bone-and-tooth-building substance are to be found in leaf and stem vegetables...

Clothes aflame, girls were jumping to the ground.

trying to get in a few extra stitches. But this time it wasn't just a drill—it was the real thing.

For a moment they sat at their benches—then a dull roar sounded somewhere at the end of the plant and the building began to quiver.

Explosion Blew Her Through Window.

Margaret remembers a scream—a sharp, piercing shriek from the throats of the sixty or more girls who still remained in the room.

Margaret is 36, now that they had so many fire drills in that plant. When she rose to her feet, she was dazed. But habit instilled in her in previous drills guided her.

Flames Were Closing In on Her.

Inch by inch the cherry-red glow of hot metal was closing in on her. Sooner or later it would reach the spot where she was standing.

Margaret doesn't know what happened after that, and she was never able to find out. When she next awoke she was in the hospital, and the horrors she witnessed in her ward were worse than those of the fire.

It was in the hospital, too, that she first learned of the death of her mother. She was one of the 400 or more victims who died in the fire and the explosion.

Copyright.—WNU Service.

Swordfish Can Defeat Shark

Since swordfish have no teeth they swallow everything whole. In case they make a mistake and eat something that disagrees, nature has provided a neat arrangement for getting rid of it.

Nationality and Citizenship

The dictionary definition of one's nationality is: "The state, quality or fact of belonging to or being connected with a nation or state as by nativity or allegiance."

What to Eat and Why

C. Houston Goudiss Discusses Significance of Fruits and Vegetables; Tells the Truth About Canned Foods

By C. HOUSTON GOUDISS

A GENERATION ago, except in mid-summer, fruits were a luxury that only appeared, with nuts, at the end of a festive meal, and vegetables, except for the root crops, had no regular place in the daily diet.

With the discovery of vitamins they achieved new distinction, because in their content of these vital substances, they rank with milk and eggs as "protective" foods.

Foods That Safeguard Health

In addition to providing nutrients that are indispensable for buoyant health and normal growth, they possess another important virtue: the indigestible cellulose or bulk yielded by the fibrous framework of the leaves, stems and fruits of plants, has a natural laxative value which helps to insure normal elimination.

Green Vegetables for Iron

Fruits and vegetables supply varying amounts of practically every mineral element the body requires. They do not compare with milk as a source of calcium, but substantial amounts of this bone-and-tooth-building substance are to be found in leaf and stem vegetables.

Vegetables for Vitamin A

We usually think of milk and other dairy products as our most important sources of vitamin A. But recently, it has been determined that the thin green leaves of vegetables are also outstanding in this respect.

Sources of Vitamin C

Vitamin C, which is essential for maintaining the health of teeth and gums and for preventing the degeneration of muscle fibers generally, is obtained almost entirely from fruits and vegetables.

What About Canned Foods?

I frequently receive letters from readers who question the merits of canned foods. They ask whether it is true that canned foods are devoid of vitamins; whether canned foods are wholesome for children; whether or not canned foods may spoil on the grocer's shelves; and if it is dangerous to eat foods that have stood in the can for a few minutes after being opened.

Questions Answered

Mrs. A. B. M.—There is not the slightest reason why a normal person should not drink coffee after middle age unless the beverage has been expressly forbidden by a doctor.

If and When—

If a man trusts to luck for his happiness, he will be lucky indeed if he gets it.

But It's Difficult to Know

One may disregard a prejudice if he knows it to be such.

We need critics or this world would be a place of futile mush and gush.

Lonesome people like to be slapped on the back.

There is one good thing about the man with trouble on his mind. He never breaks into your office humming jazz tunes.

Hustle to Make Their Own Those who become famous do not study too long the footprints of others in the sands of time.

Ambition is a balloon which carries no parachute.

People sometimes have to believe a pessimist, although they hate to.

A Superlative Canned Food

An outstanding example is called salmon which has been called by one of America's leading food experts, "the cheapest and most nutritious animal food that can be had for children over six."

Fallacies Disproved

Canned foods will keep indefinitely without spoilage, as long as nothing occurs to make the can leak. It is not necessary to remove canned food from the container as soon as the tin is opened, though many homemakers often do so because the food presents a more attractive appearance in a dish or bowl.

Thus canned fruits and vegetables are not only "as good as" fresh ones, but are often superior in food values.

Every homemaker should see to it that she uses both liberally in the diet of every member of her family, as a means of providing liberal amounts of minerals and vitamins.

BRISCOE COUNTY NEWS

"Official City and County News"

ROY W. HAHN
Editor and Publisher

James L. Allred Sports Editor

Entered as second-class mail matter at the post office at Silvertown, Texas in accordance with an act of Congress on March 3, 1879.

Take a tip from Nature. A man's ears are not made to shut, his mouth is.

I HEREBY RESOLVE—that this line shall remain in the Briscoe County News until our city managers start a little constructive work toward surfacing our streets, or at least until the death of Yours True ly. Dated this 9th day of June, 1938. (I've been wanting to know for a long time, how long a snoutype slug will last.)

HERE I SWORE off on harping about the streets and so got scooped. They tell me that there is an engineer in town today and he is going to mix up a few feet of street surface with asphalt to see what it will do. Do tell!

BROOKSHIER WAS telling me that the city was far too broke to undertake any work. I have no doubt but that he is right. It is a sure thing though, that it could not be shown by the financial statements they have had published.

THE HIGHWAY 86 boys had a little mixup Tuesday on where to hold their meeting. Half went to Quitaque and the other half to Turkey. Consequently there was no meeting held.

WELL, SILVERTON is batting in the 1,000 column on conference games won and lost in football. They blanked out Matador Friday and surprised everyone on the field—including themselves.

IT SHOULD SHOW the team just what it means to play heads-up football—which they didn't do in the Dimmitt game.

LOCKNEY COMES here Friday and they are plenty tough. They have won every game and last week skunked Turkey 45 to 0. And that's quite a score. What we can do toward stopping their winning streak will be seen Friday. If the boys are "right" we will still be on top—if not—it will probably be bad.

I JUST NOW got a telegram from Barb and she is ready to come home. I guess that will make some of you birds quit wondering how much alimony I'll have to pay.

I'LL TAKE OUT of here after her about next Wednesday morning—and the paper will be in charge of Mr. Allred (the wonderful). And I'll sure appreciate it if you folks will give him all the help you can toward getting news and ads in to him.

I HAVE BEEN here for nearly three years, and have never been out of town on Wednesday or Thursday. You folks need a rest from this monotonous tripe. And next week is the week. Make the most of it.

AND MONDAY FOR my Sale Day Special, you can subscribe or renew for a dollar. Monday only. I'll appreciate it too, if enough of you folks would come in and pay up to finance that Kansas trip.

A NEWSPAPER man never gets broke. That is impossible. But at times all that keeps ME from being broke are the holes in my pants pocket.

IF YOU MISS YOUR locals this week, blame Lola Fern. She says she delivered them in per-

(stuck them under the front door) — anyway they are gone. Yes, she is a very careful young girl. It's a good thing that I am an even tempered boss.

IN THE PAST week or so, I have had several folks ask me what I got for running the Aggie Briefs. Which is a very foolish question. I don't get anything in money. I do get a very valuable piece of news each week—and one I think is about the best in the paper. Some folks think that a country paper is the right hand branch of the U. S. mint, and that we never punch a key without getting paid for it.

MEET J. T. LUKE, the new manager of the Farmers Produce. Nice, fine looking young man—but gals, it's the same old story—he's married. There ought to be a law agin it—let's start a Sadie Hawkins day. (from Lil Abner.)

W. A. McJIMPSEY was telling me of an ancient newspaper that he found in an old family trunk. It was printed in Yale County, Tennessee, and is dated January 4, 1800, which makes almost 139 years old. It is probably worth a nice sum of money.

A LADY WAS in the office today writing of a "tea". She asked me if I could give her some descriptive terms for describing the ladies and their gowns. And I couldn't. But after thinking it over, how would this be? "The lovely and beautiful gowns of the lovely, and enchanting ladies were surpassed in beauty, only by the unsurpassable personality and beauty of the tantalizing ladies themselves." — Would that work or not? I confess I don't know.

MRS. ROSS STILES HONORED WITH TEA

Last Thursday afternoon, Mrs. Finley White and Mrs. Clyde Wright entertained at the Wright home with a "42"-Tea, honoring Mrs. Ross Stiles, recently here from Levelland; and other newcomers, Mrs. P. D. Wheelock, and Mrs. L. T. Wood, also Mrs. J. C. Thorns, a Silvertown visitor, who will go to Kansas this week, were honorees.

Mrs. W. E. Sherman assisted in receiving the guests, and in seating them at the tables where "42" and Chinese Checkers were played.

A Halloween motif was carried out in tally cards, score pads, and refreshments. Huge bowls of gorgeous dahlias decorated the living rooms, baskets of zinnias were used in the hall, and a profusion of snap-dragons, exquisite roses and fern gave the tea table and dining room a festive air.

The table holding the tea service and dainty sandwiches, Halloween cakes and candies, was covered with beautiful lace.

Mrs. Johns Thorns presided at the tea tray, Mrs. W. H. Jackson served amber fruit punch for the first group of guests. The second hour, Mrs. B. P. Harrison and Mrs. Allen Peacock had charge.

Those attending were Mesdames: Ross Stiles, R. D. Wheelock, J. C. Thorns, L. T. Wood, W. H. Jackson, B. P. Harrison, John Thorns, A. A. Peacock, Herman Ely, Allen Kellum, Ted Roussin, Boots Bryant, Lem Weaver, W. H. Street, Conrad Frey, W. E. Sherman, D. O. Bomar, Tom Bomar, Joe Mercer, True Burson, Tony Burson, Wayne Crawford, Miner Crawford, A. L. Kelsay, Bob Hill, Barney Wilson, Noel Landers, H. S. Williamson, Dick Cowart, Woodson Coffee, Della Griffith, James Patton, Keltz Garrison, Chick Northcutt, Sid Richards, and Misses Gregg and Graham, and hostesses Mesdames White and Wright.

FLORAL CLUB

Mrs. B. P. Harrison and Mrs. W. H. Jackson were joint hostesses at the home of Mrs. Jackson on Friday afternoon for the October meeting of the Floral Club.

Mrs. Miner Crawford, Chairman, presided during the business session. Mrs. Ab Stevenson led the round table discussion of miscellaneous helps for home-making. Many splendid new ideas were presented. It was decided at the next meeting, which meets with Mrs. Stevenson, the club members will quilt their quilt, at the home

of Mrs. Clyde Wright. This election day for next year's officers, and also the time for naming the annual December committee's report. Everyone is bringing a covered dish and come 10 a. m. for an all-day meeting. Mesdames Harrison and Jackson served coffee and pumpkin pie to 12 members.

TRY DICKERSONS Hand L after doing the dishes or wash the hands in water. It will keep them soft and white. Bomar

FIRE PREVENTION PAYS

By Eugene Sanders,
Fire Prevention Chief
Fire Insurance Department
Austin, Texas

Fire prevention is a REALITY, not merely an idea. It is a successful business when intelligently and successfully practiced. It pays a real dividend in saving human lives and property from destruction by fire. It is economically sound, and pays a real dividend in lower insurance cost.

Fire prevention is also an individual responsibility. Fire will not be prevented unless each individual recognizes and accepts it as his responsibility to be fire conscious and do his part to prevent fires. Fire prevention is simple in principle but difficult to put into practice because the average individual is inclined to be careless with fire and the things that cause fire. Education and promotion of fire prevention can be introduced into the home, the office, the mercantile and manufacturing districts. Each individual should learn to recognize that many hazards so prevalent in the

home and other places, and then it is his responsibility to see that all fire hazards are promptly removed or corrected, or better still, that proper methods are applied to prevent the occurrence of the hazards.

Every individual knows that the careless use or misuse of matches, kerosene, gasoline, electricity and electrical appliances, defective chimneys and flues, lightning, smoking and many other things, will cause a fire, and it is the failure on the part of each individual to stop and "think" of the danger attached to each fire hazard that causes a fire. A housewife will attempt to clean some clothing apparel, or the floors with gasoline without ever giving a little "thought" to the danger of gasoline when carelessly or improperly used. No individual would think of taking a stick of dynamite into the house for the reason that he has been taught that dynamite is a dangerous article and is likely to destroy his life and property. He has learned to respect it for the reason that he "fears" it. People must learn to FEAR fire and the things that cause or promote

it, and until they do, we will continue to have many hundreds of lives destroyed and millions of dollars consumed by it each year.

The home should be a safe place in which to live free from the dangers of fire, but during the years of 1931 more than 368 lives and \$17,565,457.00 in property were destroyed by fire. Approximately two-thirds of these lives were sacrificed in the home, and approximately 54 percent of the total fire loss occurred in the home. In 1935, when Texas experienced an unusually low fire loss of \$6,008,363.00, more than 463 lives were destroyed by fire. Approximately two-thirds of these lives were sacrificed in the home, and approximately 47 percent of this amount of fire losses occurred in the home.

The home can become a safe place in which to live free from the dangers of fire by each individual in the home accepting fire prevention as an individual obligation. Each member of the home should become a fire inspector about the home and in this way prevent the occurrence of so many fires therein.

Fire prevention, like "charity" should begin in the home. Each member of the home, including the smallest child, should be trained in the methods of fire prevention.

The home owner who lives in a Texas city or town can call upon the local fire department to send a fire inspector to his home to assist in giving lessons to the members of the family in fire prevention. The home owner who lives in a rural community can likewise call upon the local fire department for information and lessons about fire prevention, as the fire department can supply the home owner with fire prevention lessons about home fires in the country. A live and awake fire department should have this information available.

Fire prevention is a permanent business and one when neglected proves oftentimes to be expensive. It is a business that should be practiced every day of the year not only in the home but wherever there is a possible danger of fire occurring. Fire prevention is sound economy. It pays to prevent fires and the saving is to be found in the preservation of human lives from fire and in cheaper fire insurance cost. During the year of 1938 the insurance buyers of Texas will enjoy a saving of approximately SEVEN MILLION DOLLARS in insurance cost by reason of the low fire loss record experienced between the years of 1933-1937, inclusive.

Law enforcement is a business and it is the duty of every citizen

to help enforce all laws, and especially our criminal laws. Crime is expensive and each individual is his part in its cost. Each individual of Texas is helping to pay the cost of every incendiary fire, and the only way this cost can be avoided is the strict enforcement of the Arson Laws. The Fire Marshall's Division of the Texas Fire Insurance Department has been instrumental during the years of 1931 to 1937, inclusive, in helping to secure approximately 700 indictments and 250 convictions for the offense of Arson. This form of law enforcement has materially helped to bring about a reduction of the annual fire loss in Texas since 1931, which has meant a substantial reduction in insurance cost.

LIBRARY NOTES

"SONS"
By Pearl Buck

"Wang Lung lay dying", thus the action of "Sons" begins immediately after that of the last chapter of "The Good Earth".

This novel carries on the saga of the house Wang, of Pearl Blossom and the aging Lotus, of the three sons of Wang Lung, their wives and their children. The chief character is the youngest son, Wang the Tiger, leader of men, who through raids and sieges and pitched battles comes to power and fame as a war lord and revolutionary general.

"Sixty-seven fewer books were published in August than in the same month last year, according to "The Publisher's Weekly", only 635 altogether. This is in line with the movement toward fewer and better books, and is a cheering bit of news. It is a literary season for the kiddies, for 94 were juvenile; 82 were novels with history down at the bottom with 49.

"Whitewashed Elephant"

By John Gincano

A colorful and humorous treatment of the old fable of the greedy merchant who sold a whitewashed elephant to the Rajah.

"Noodle"

By Munro Leaf

The Dachshund is top-dog in popularity to day, and this story of the lovable and ridiculous Noodle, by the author of "Ferdinand" is one of the good books for young readers.

"Jane of Lantern Hill"

By L. M. Montgomery

Three generations of readers know and love the humor and wholesome romance of L. M. Montgomery's novels. The author

of "Anne of Green Gables" has created in this story of Jane Stuart, a high-spirited girl repressed by her wealthy guardian, a refreshing and warmly human book.

GRIDIRON FANS ADVISED TO TAKE TIP FROM PLAYERS

Gridiron fans should take a tip from football players this fall and protect themselves at games by keeping in good physical condition, the Texas State Department of Health advises.

"The nervous strain brought on by the Southwest's razzle-dazzle style of play, exposure to extreme climatic conditions for long hours in an open stadium and sudden changes in weather are particularly dangerous to football spectators who have been leading sedentary live indoors," Dr. Geo. W. Cox, state health officer, warned. "The healthy person, like the athlete who adheres to strict training rules, won't be kept away from games because of illness. The spectator who keeps fit maintains his 'eligibility' throughout the season. But one who is careless with his health is apt to miss a few games or be out for the season with a cold, influenza or more serious illness. This is particularly true of the late fall games when the weather varies greatly from week to week.

Again using the players as an example, Doctor Cox urges fans to dress carefully for the games. It is a foolish gamble with ill health to wear heavy garments to opening games when the thermometer is hitting 99, no matter what fashion decrees. And late season games necessitate warm clothes and wraps, of course.

Doctor Cox also asks football fans to cooperate with the Department of Public Safety in driving carefully to and from football games. Congested week-end traffic and the probability that some drivers are over enthusiastic and careless, add to traffic hazards, and serious accidents.

DID YOU KNOW THIS?

A fact not generally known is that most of the Bibles sold in this country are printed in Belgium. Partly on this account, printing is to be displayed in historic fashion in the Belgium Building at the New York World's Fair 1939. Art binding, particularly in leather, is a fine craft in Belgium, so many examples of it are to be shown.

BIRTHS AT THE FAIR

More than a dozen babies will be born at the New York World's Fair 1939, it is expected by the Fair's Department of Medicine and Public Health. The Department will be all prepared to deal with these emergencies. Six such babies were born during the Century of Progress at Chicago.

Ted Roussin, Mgr. Phone 22-M

To the Taxpayers Of Briscoe County:

At this writing there is around eighty thousand dollars in delinquent and unpaid taxes due the State and County. As the years mount, this sum continues to grow, and unless paid, the Tax Collector and the Commissioner's Court will have to take steps to collect these back taxes. The money collected in taxes goes to the upkeep of our government and when we fail to meet our obligations in that way, we are imposing on our fellow man. We are receiving the benefits that some one else is paying for. Is that fair?

In their work, they have made an effort to equalize that burden on all of us alike and when one of us fail, it makes it hard on some one else. Our Commissioners have been very lenient on us and the question now is whether or not we are going to force them to take drastic steps to collect them, or will we make every effort to avoid this by starting now and paying one or more years at a time and relieve this situation.

Check your tax account and make the decision. We will be glad to furnish a statement of all taxes due.

Yours truly,

N. R. Honea, Tax Collector

SELLING THE SURPLUS

By T. C. Richardson, Secretary Breeder-Feeder Association

Cotton and wheat are bringing disappointing returns. Both are sold as raw products, for both require factory processing before they can be consumed. The farmer has no choice (outside the small amounts of cotton he can use for mattresses and quilts, and whatever wheat he uses for seed or feed) but to sell them in raw form at the market. He does have a choice in the matter of selling feed grains and forage.

Feed grains and forage do not all have to go to a distant and costly factory for processing into form for human consumption. Livestock and poultry are the machines, the farm is the factory. At present prices a bushel of corn in a hog's hide will bring more than double what it brings on the market.

With a surplus of feed on hand the farmer is interested in selling it to the best possible advantage. The type of feed, the proportion of grain and roughage, and the pastures available, determine the sort of livestock best adapted to the circumstances. If there is a high percentage of grazing on pastures or crop residues cattle or sheep are indicated. The same is true if the feed crop consists largely of grain sorghums which carry a large proportion of good roughage. You want to sell the whole crop, not merely the grain part of it.

Dairy cattle will usually pay most for green grazing and silage, with the concentrates necessary to balance the ration. Beef cattle and sheep come next in the utilization of silage and pasturage, and unless the grain supply is sufficient to fatten them out for market, stock cows and ewes are better for the purpose than feeder calves or lambs.

When grain predominates in the feed supply hogs and poultry offer the best outlet. Roughly speaking five pounds to six pounds of grain (whole and in mash form) will produce a dozen eggs, or a pound of turkey. Four to seven pounds of sorghum grains (depending on the protein

supplement used and feeding practices) will make a pound of pork on foot. Ten bushels of corn, for which Texas farmers were being paid 25 to 33 cents at harvest time, with proper management would become 100 pounds of pork worth twice to three times the cash grain price.

A certain small north Texas blackland community has shipped more than forty carloads of shelled corn, bringing the growers less than \$250.00 per car, or about \$10,000. Turned into pork under good feeding methods each carload of corn would have made 7,000 pounds of pork, worth at the time \$560 or better on the Fort Worth market.

Half the potential returns to both the individuals farmers and to the community as a whole were lost by selling a raw product instead of a finished product, and the community is \$10,000 poorer than it could have been had it raised the hogs to eat the corn. Last summer at oat harvest the same thing happened, and thousands of farmers in hundreds of Southwestern communities regularly throw away a part of their year's work by quitting too soon. We quit too soon whenever we stop short of manufacturing feed into its logical products before offering it for sale. As shelled corn the farmers in the community above mentioned probably got no more than \$10 to \$15 per acre gross for their labor and rent of the land. In the form of livestock and its products they might as well grossed two to three times as much, with good pay for the extra labor of feeding and caring for the animals.

A common mistake in buying livestock for feeding is to buy scrubs which lack feeding quality and capacity. The other extreme is to pay highly for high class animals. The amateur feeder should leave the fancy stuff to experienced men but should avoid starting at the other extreme because scrubs are cheap.

Mr. Faunce Faulkenberry of Floydada was in Silvertown on business Monday.

Mr. E. H. Cox and two sons of Floydada visited Mrs. Bettie Stinson and family Monday.

Dan Nelse Dean underwent a tonsilectomy in the Odom Hospital at Memphis Tuesday.

Henry Edens and daughter and Mrs. Oscar Bullock and daughter Janice Carol returned from a visit with relatives at Ft. Worth and Grandbury Wednesday.

W. N. Bullock spent several days last week with his son Walter at Borger.

Jimmy Rufus, the eight-year-old son of Mr. and Mrs. Oscar Bullock received a broken collar bone and bruises when a trailer loaded with a tank of water on which he was riding overturned. The car pulling the trailer was driven by his Uncle, Henry Bell Edens, Jr., who rushed him to the Odom Hospital at Memphis where he received emergency treatment.

Mr. and Mrs. Dan Dean and sons, Zack and Dan Nelse, were in Memphis Thursday where Dan Nelse received medical treatment.

Mr. and Mrs. Tobe Blackman, who have been visiting relatives here, returned to their home at Winters Thursday.

Mr. and Mrs. Oscar Bullock and son Jimmy Rufus and daughter Janice Carol and Gussie Marie Bullock were in Memphis Friday where Jimmy Rufus received medical treatment.

Milton Sanders, of the R. O. Ranch, spent the week end here.

Mr. and Mrs. A. R. Northcutt entertained with a dance Friday night.

Mr. and Mrs. S. A. James and Mr. and Mrs. C. C. Brown and children attended the Singing convention at Wellington Sunday.

Mr. and Mrs. Jeff Hukill and children and Mr. and Mrs. Glen Morrison and children of Brice visited Mr. and Mrs. Elmer Sanders Sunday.

Mrs. John Rhea and sons Burrel and Beverly and daughters Joan and Ramona of Paloduro spent Sunday in the W. N. and J. C. Bullock homes.

NEW MANAGER HERE

J. T. Luke, formerly of Crosbyton, moved here this week and has assumed active management of the Farmers Produce Company. He takes the place of Earshell Garrison, who resigned last week.

Mr. Luke has been in the produce business with the Lubbock Poultry and Egg Company for the past six years and is an experienced buyer.

Mr. and Mrs. Luke are living in the Fowler house at the hotel.

Local Happenings

Mr. and Mrs. Finley White and Emery Mills attended an agricultural meeting in Lubbock Wednesday.

L. G. Mathes of Floydada was in Silvertown Wednesday. He represented Jim Woods, of Quitaque in a court case.

Mr. and Mrs. C. L. Cowart will leave Sunday for Roswell, New Mexico, where Mrs. Cowart will be under a doctor's care. They plan to stay for several days.

Homer Gregg and Dennis Gregg of Quitaque visited here Monday with Miss Lizzie Gregg.

Uncle Charley Heisler, of Wayside, was in Silvertown Wednesday visiting at the A. L. McMurtry home, and greeting his many Silvertown friends.

Mrs. Emma Frieze left Tuesday to visit her daughter, Mrs. Cecil Knox, at Krum, Texas. She will return the first of next week. She accompanied Wells McClendon.

Rev. and Mrs. J. C. Thorns and their three children, Jack, Joan, and Jimmie, who have been visiting in the home of their parents, Rev. and Mrs. John Thorns, left Wednesday for Eldorado, Kansas, where they have been called to take charge of the Presbyterian Church.

Mrs. Minyard, who has been seriously ill was able to be up for a few minutes this week.

Mr. Kenneth Bain of Floydada visited his parents, Mr. and Mrs. J. A. Bain, Sunday.

Mr. Alexander from Eastland, is here visiting with his daughter, and son, Mrs. Bland Burson and Mr. R. G. Alexander.

The Ladies Rest Room at the court house is being divided. The west end is to be another County Resettlement office.

Johnny Lanham has purchased the Smylie house from the Smylie estate.

MANSFIELD

Cushion Balloons
for new fast Cars.

Cord-Lock makes them 31% SAFER

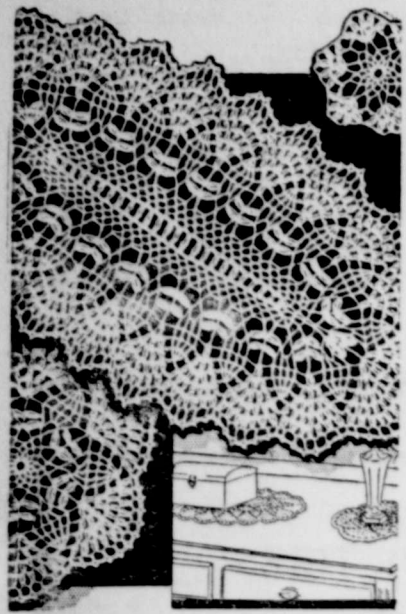

Mansfield Cushion Balloons are built the Mansfield way --- three ways differently from other tires. They have Cord-Lock construction that gives a 31% greater safety factor in the sidewalls --- anchored-in piano wire beads, seven times stronger than actually needed --- wide, flat, tough Duro-mix treads that wear like iron and grip tight on slippery pavements.

MANSFIELD EXTRA MILEAGE Tires Add to this the fact that Mansfield Cushion Balloons are the "low cost" tires of the day --- that they give consistently longer mileage on all makes of late model cars. When you ride on Mansfields, you know you have safety, service and savings of a new order. Every Mansfield Tire gives you more mileage than you pay for.

Star Dust

- ★ Charlie Is Stumped
★ Goddard and Rainer
★ Gracie Going It Alone

By Virginia Vale

HAVE you heard that there is one thing that Charlie Chaplin has not yet been able to buy? And it's something that he wants very much.

It is some of the first comedies that he made, years ago, for Essanay, in Chicago. Since he became famous and wealthy he has bought most of those early pictures, but he missed a few, which were acquired by somebody else.

They've been put together, with a prologue by someone else, and the great comedian, who won't talk for the screen, can't do anything about it.

Paulette Goddard's first picture was "Modern Times." She is now working in her second one since that one, "Dramatic School," in which Luise Rainer also appears. And—

PAULETTE GODDARD

they will be co-starred! Better see the picture when it's released, and find out whether Miss Goddard is a genius, or whether experience just doesn't mean a thing where acting in pictures is concerned.

The executives of Twentieth Century-Fox feel that something ought to be done about an outrage that somebody else plans to commit. And Shirley Temple is involved in it. New Grand National wants to do "A Life of Shirley Temple," in which several shorts made in the days before Shirley was America's Sweetheart would be used. Looks like another case for the lawyers.

While we're on the subject of Shirley: It was discovered that she photographed better without make-up for technicolor shots. You'll see her just as she is in "The Little Princess."

Gracie Allen

Auditions were held recently at NBC for a client who didn't know what type of singer he wanted for his program. Finally his choice simmered down to two of the people he heard, a soprano and a tenor.

That evening Mr. and Mrs. Fred Hufsmith were discussing their day. Both are singers, both had had auditions that day. Not until then did they discover that they had been trying out for the same job; he was the tenor, and she, known on the air as Muriel Wilson, was the soprano.

Avalon Time, one of radio's new shows, is strictly All-American. It features the Andrews Sisters (the girls who did so much to make "Bei Mir Bist Du Schoen" a hit), Red Foley, Kitty O'Neill, the laughing lady, the Neighbor Boys, the Rhythm Singers, the Avalon chorus and a 16-piece orchestra. The comedy dialogue will be written by Latham Owens, who has done scripts for Joe Penner, Al Jolson, Ken Murray and others. It will be heard once a week, from coast to coast—and if you don't like it it won't be the fault of all the people who have slaved to make it what it is!

ODDS AND ENDS... Tommy Riggs and his trick voice, "Betty Lou," have their own program now: his is the first child voice to head a show... Those children's voices seem to be popular, what with Fanny Brice's "Snooze," and Molly, of Fibber McGee and Molly, using "Tina," and of course, Bergen's Charlie McCarthy... Barbara Blair started it long ago with "Snoony," on Fred Waring's programs... "The Lone Ranger" boosted the receipts at so many movie houses that now we're to have "The Lone Ranger Returns"... Noah Beery may be the new "Charlie Chan"... Another cartoon strip has hit the movies: it's "Blondie," and Shirley Deane, who appeared in so many of the "Jones Family" series, will have the lead.

THE SUNNY SIDE OF LIFE

Clean Comics That Will Amuse Both Old and Young

By ED WHEELAN

Comic strip 'BIG TOP' by Ed Wheelan. Characters: Myra, Skookie, Alta. Plot: Myra and Skookie are in a circus tent. Myra is surprised at Skookie's behavior. Skookie suggests they act with Alta, the elephant's present trainer. Myra agrees, but Skookie suggests they tell Alta about it, too.

Peace Bought by Pieces of Nation Likely to Last Only for 'A While'

Such a Situation in Central Europe Has Not Been Told; Roosevelt and Hull Handled Affair With Ability; Versailles Treaty Blamed for Trouble.

By WILLIAM BRUCKART

WNU Service, National Press Bldg., Washington, D. C.

WASHINGTON.—It appears that the world is going to be spared a general European war for a while. Yet it should be recognized that the period of peace that has been bought with pieces of a nation is likely to be only "a while." From the information available in Washington's diplomatic corners...

to live again in the demagoguery of Hitler. He has used it for his selfish ends, to maintain his own power, to satisfy an ego that some folks regard as approaching an unbalanced mentality.

4. The German people have been and continue to be a people requiring inflexible leadership. Hitler supplies it. He promised them new life, and he apparently has made good on just enough of his promises to provide him with continued power.

Is Hitler Through With Demands? Is the Question

5. We must not be too confident about the purity of purpose of those who guided the affairs of Czechoslovakia. The glory that was theirs, I am afraid, than most of us Americans know. It is hard to believe all of the things, all of the methods of oppression, charged against the Czechs.

What of the settlement? Is Hitler through with his demands? Are there other underlying motives and conditions yet to be dealt with and outside of the desires of the German minority to get back to the Reich?

The answers to these questions explain why I said at the outset that the peace appeared only for "a while." The Czechs probably have been "sold down the river" to save the continent of Europe.

We who follow the Lord Jesus are not to swear by either things sacred or things that might be called secular. Perhaps He has in mind that our lives should be so true that men will not need to have any kind of an oath to be assured of our sincerity and honesty.

Hitler Plans to Make Germany Self-Sufficient

Underneath all of the problem, too, lies Hitler's program to make Germany self-sufficient, to make the nation independent of foreign sources of supply. The Rumanian oil fields, rich and productive, are coveted by more than one nation.

Finally, in Britain and in France, there are differing groups. Prime Minister Chamberlain, Daladier, I wonder if two men, especially, with regard to Chamberlain, ever carried a greater burden when they went to meet Hitler; when they were seeking to prevent a catastrophe by what the Czech partisans called, "selling the Czechs down the river?"

And so, the final question is: can Hitler bring his own people back from the brink of war, from the fervor of war preparation, to the life and economy of peace? That is a very real problem.

LESSON

By HAROLD L. LUNDQUIST, D. D., Dean of The Moody Bible Institute of Chicago, © Western Newspaper Union.

Lesson for October 16 REVERENCE FOR GOD

LESSON TEXT — Exodus 20:7; Matthew 5:33-37; 12:33-37. GOLDEN TEXT — Our Father which art in heaven, Hallowed be thy name. — Matthew 6:9.

Character reveals itself through the words and deeds of a man. He may try to conceal his real spiritual condition and may assume an out-balanced appearance of piety but he need not say many words, nor meet many of life's problems, before his true condition is revealed.

Our lesson for today touches primarily on the matter of the words of men, presenting first God's command that in speaking we are to show reverence for His name, and then leading up to the expression of that reverence in abstinence from swearing and from idle talk.

I. Reverence Commanded (Exod. 20:7).

The forbidden thing is the taking of the name of the Lord "in vain." Our use of the word "vain" carries the meaning of "useless, without purpose or meaning." This is part of what is in mind in this commandment, for the name of Jehovah is sacred and is to be revered as standing for the eternal God. It is never to be used carelessly, or for a frivolous purpose.

The Hebrew word translated "vain" has the additional meaning of "evil" and "falsehood." Men are so bold that they may even use the name of God to support themselves in a lie. God hears and will in no wise hold them guiltless.

II. Swearing Forbidden (Matt. 5:33-37).

The Sermon on the Mount (so-called), from which this portion of Scripture is taken, is difficult to interpret to the satisfaction of all. Some disregard its evident application to the kingdom and, attempting to apply it in the midst of an ungodly generation, fall into such inconsistency that they abandon the effort and regard the teaching of the passage as impossible idealism.

Others, who rightly interpret the passage as presenting the laws and principles of life in the kingdom of God when it shall be fully set up on earth with Jesus as King, fail to make any application of those principles to the life of those who are now living in this world—though not of it—but rather have their citizenship in heaven. This is also an unfortunate error.

We who follow the Lord Jesus are not to swear by either things sacred or things that might be called secular. Perhaps He has in mind that our lives should be so true that men will not need to have any kind of an oath to be assured of our sincerity and honesty. Some believe that all oaths even in court are forbidden, while others, with due respect for the feelings of those who hold this view, regard the taking of oaths in official matters as not being in mind.

Swearing is also entirely beyond the pale with Christian men and women. It is all too common with both men and women. A great church has organized a "Holy Name Society" to keep its members from using the name of the Lord in profanity. What a telling comment on the times in which we live!

III Judgment Assured (Matt. 12:33-37).

Jesus had cast out a demon who had possessed a man and made him blind and dumb. The Pharisees could not deny the miracle but attributed it to the power of Beelzebub, prince of the demons. Jesus closed their mouths by pointing out that Satan did not work against himself, and went on to speak solemn words regarding their and our responsibility for what we say.

A day of judgment is coming, when we shall answer for the idle and ticked words which we speak. While we would not bring condemnation upon those who indulge in the innocent pleasantries of life by making too severe an application of these words, neither should we destroy their evident import by failing to apply them to our daily conversation. One need but listen to the casual small talk of men and women in public places to realize that we need to give attention to the matter of elevating not only the conversation of others but our own as well to a nobler and more helpful level.

The way to accomplish this worthy purpose, and the only way, is to have the heart and life filled with the good treasure of God's Word, for verily out of the abundance of the heart the mouth speaketh. What do your words and mine indicate to others regarding what is in our hearts?

© Western Newspaper Union.

Ask Me Another A General Quiz

- 1. When are lunar rainbows most likely to occur? 2. What is the term of an original copyright? 3. The age of only one woman is given in the Bible; whose age is it? 4. How was the statue of Liberty paid for? 5. Were napkins used in the days of the Greeks? 6. What is a caryatid? 7. From what is the term sabotage derived? 8. Who was the author of the following quotation: "Men do not make laws. They do but discover them?" 9. Who paid for the construction of Boulder dam and appurtenances?

The Answers

- 1. After showers on nights when the moon is bright but low. 2. Twenty-eight years (with 28 years additional if a second term is applied for). 3. That of Sarah, half sister of Abraham, 90 years old (Genesis 17:17). 4. By popular subscription by the people of France. It was presented to the U. S. in 1886. 5. In place of napkins, small pieces of bread were used and then thrown on the floor for the dogs to eat. 6. A female figure used in architecture as a pillar. 7. From the French "sabot," meaning a wooden shoe, and derived from the fact that French workmen threw their wooden shoes into the machinery to put it out of order. 8. Calvin Coolidge. 9. Congress allotted \$70,000,000 for the construction of the dam and Lake Mead, created by it, and \$38,200,000 for the construction of the power plant. Revenues from the sale of power, it is planned, will pay all operation and maintenance expenses, and the cost of the construction of the dam and power plant, with interest, will be amortized within 50 years.

HOUSEHOLD QUESTIONS

See to Your Lighting.—The type of lighting used can change the entire effect of a room at night.

Sift the Flour.—Flour is one of the easiest ingredients in baking to mismeasure. For best results always sift flour and measure by spoonfuls into a cup, being careful not to shake the filled cup.

Faulty Heels.—Wear a comfortable shoe in the house. Runtown heels, or heels that are too high, cause fatigue and harm the feet.

A Few Extra Winks.—If you are loath to get up in the mornings, you would be wise to prepare for breakfast just as many things as possible the night before.

Breaking in New Shoes.—Sprinkle talcum powder into the new shoes. They will seem more comfortable when worn for the first time.

A Slim Waist for Glamour

HERE are two charming new designs that give you the tiny, Victorian waistline—almost an hour-glass effect—that's so fashionable right now. Both accentuate it, too, with perked-up sleeves and full skirts. Both give you a most feminine and appealing look!

Hearthside Coat.

You can relax so thoroughly in this charming design. The fitted-in waistline, the full skirt, are too flattering for words! Make it of taffeta, flannel, challis, moire or velveteen—choosing colors that do nice things to your eyes and hair. This pattern is perforated for short length, too.

Daytime Dirndl.

Of course you want a fall-into-winter version of the flattering dirndl—and here's the way to make it. With a tailored collar, big buttons down the bodice, Vic-

Ancient Non-Skid Tires

Non-skid tires date back to chariots of 2800 B. C., and are really not a new idea at all. Non-skid wheels were invented for chariots ages ago, and a model of one of these was excavated by the Iraq expedition recently. The wheel was made rough by studs of copper to keep the chariots from skidding on fast turns in racing and in war.

GAS SO BAD CROWDS HEART

"My bowels were so sluggish and my stomach so bad I was just miserable. Sometimes gas bloated me until it crowded my heart. I tried Adierka. Oh, what relief. The first dose worked like magic. Adierka removed the gas and waste matter and my stomach felt so good." —Mrs. S. A. McAmis. If gas in your stomach and bowels bloats you up until you gasp for breath, take a tablespoonful of Adierka and notice how the stomach GAS is relieved almost at once. Adierka often moves the bowels in less than two hours. Adierka is BOTH cathartic and osmotic, carminative to warm and soothe the stomach and expel GAS, exhalations to clear the bowels and relieve intestinal nerve pressure. Recommended by many doctors for 25 years. Get genuine Adierka today. Sold at all drug stores.

torian sleeves and (a highlight of charm!) the shirred waistline that looks so delightful on young and supple figures. For this, choose challis, silk print, taffeta or cashmere—preferable in some of the new, rich, warm, lively colorings.

The Patterns.

1498 is designed for sizes 14, 16, 18, 20, 40, 42 and 44. For long coat, size 16 requires 4 1/2 yards of 39 inch material. For short, 4 1/2 yards. 1 1/4 yards grosgrain ribbon to trim.

1617 is designed for sizes 12, 14, 16, 18 and 20. Size 14 requires 3 1/2 yards of 39-inch material. 3/4 yard for contrasting collar, if desired. 1 1/4 yard braid to trim. 1 1/4 yard ribbon for sash belt.

Fall and Winter Fashion Book.

The new 32-page Fall and Winter Pattern Book which shows photographs of the dresses being worn is now out. (One pattern and the Fall and Winter Pattern Book—25 cents.) You can order the book separately for 15 cents.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each. © Bell Syndicate.—WNU Service.

Troubled by Constipation?

Get relief this simple pleasant way!

Take one or two tablets of Ex-Lax before retiring. It tastes like delicious chocolate. No spoons, no bottles! No fuss, no bother! Ex-Lax is easy to use and pleasant to take! You sleep through the night... Ex-Lax is good for every member of the family—the youngsters as well as the grown-ups. At all drug stores in 10¢ and 25¢ sizes. Try Ex-Lax the next time you need a laxative. Now improved—better than ever! EX-LAX THE ORIGINAL CHOCOLATED LAXATIVE

FARM SECURITY ADMINISTRATION

The Farm Security Administration, at the present time, is helping more than 47,000 families in the Southwest to achieve a new economic independence, and a self-sufficient livelihood from the soil. How this has been accomplished is an interesting story. It will take several articles to explain the complete history of this government organization and explain the present scope of its activities. In this article we will discuss the background and history of the present Farm Security Administration. Help for the underprivileged farmer was first given through the

medium of state corporation, but it was soon seen that a coordinated program was necessary to achieve the fullest benefits. Consequently on April 30, 1935, President Roosevelt created the Resettlement Administration, as authorized by an act of Congress. It was created to provide a specific type of help to the farmers who had suffered untold hardships as a result of the problems created by a cycle of low prices, dust storms, floods, soil erosion, and other natural hazards for which there was no remedy by the individual farmer.

The agency was designed to help farmers — especially the bottom one-third of the agricultural popu-

lation—who were ill-fed, ill-clothed, ill-housed—who lived and worked on the land to achieve and maintain a standard of life and living in keeping with the national desire for a fuller, larger and more abundant life. There were two ways to achieve this end, either by giving direct relief, or by providing an opportunity whereby these people who were hard hit by disaster could work out a solution to their own problems. The latter method was selected.

The program is administered throughout the nation by regional administrations. Amarillo is headquarters for Region Twelve, established in January of 1936 because of the necessity of combatting special problems caused by widespread drouth, dust storms, and much soil erosion. The territory embraced in Region Twelve is all of New Mexico, fourteen counties in Colorado, twenty-five counties in Kansas, three counties in Oklahoma, and forty-seven Plains counties of Texas.

In the original set-up of the Farm Security Administration, there were Resettlement, Rural Rehabilitation and Land Use divisions as major operating divisions. The Land Use division was transferred to the Bureau of Agricultural Economics when that agency's work was expanded last year. The name of the present agency was changed from Resettlement Administration to Farm Security Administration on September 1, 1937, under the terms of the Bankhead-Jones Farm Tenancy Act, which more closely coordinated the activities of the organization.

To secure greater efficiency and render greater service to the individual farmer all divisions of the Farm Security Administration were combined into one major operating division of the terms of

the Bankhead-Jones Act, and the organization is now carrying forward the rural rehabilitation work, the farm planning and home management section, the farm debt adjustment service, the community and cooperative service, the farm tenant purchase program, and the introduction of new farm leasing operations, as another step in the fight on farm tenancy. The Farm Security Administration is also still continuing supervision of the resettlement projects, inaugurated under the Resettlement Administration. These projects are being carried to a successful completion, but no expansion of the original program is contemplated. Each of the various services mentioned above will be discussed in more detail in subsequent articles.

In practical effect the Farm Security Administration program is a plan of supervised credit for farmers who cannot receive help elsewhere. Under the general term of rural rehabilitation the Farm Security Administration has several special services. First is the branch which makes direct loans to farmers to carry on their farming operations. This government agency is the only government body now devoting its efforts to helping the low-income farmer, many of whom were and are on or near relief, become self-supporting and independent. The loans should be strictly considered as a positive investment in a more secure economic life. The program is not intended to give temporary relief, but to find an answer for the deep-seated agricultural problems which were magnified by the cycle of low prices, and natural calamities.

It was decided at the start to make the loans as the old-fashioned country banker used to make his character loans; on the basis of the past record and worth of the farmer. The loans were made with the idea that these people at the bottom of the agricultural heap could be trusted. The Farm Security Administration was not afraid to lend on human equity. But a measure of protection of the taxpayers' money was insured by loaning the money only after sound farm and home management plans had been worked out by trained people, in cooperation with the farmer and his family.

In succeeding articles we will discuss more in detail other services provided by the Farm Security Administration.

student participation in school administration. The student faculty group will go into the problem of student government from all angles.

MOTOR ROUTES TO FAIR
Most heavily used arteries of travel into New York during the New York World's Fair 1939 will be Routes 1 and 22 from the South, leading directly to the Holland Tunnel; Routes 1, 22, 2 and 9w from the West, the last two roadways leading to the George Washington Bridge and the Lincoln Tunnel, and the Saw Mill and Hutchinson River Parkways from the North and East.

FOOTBALL GAME
(Continued from front page)
The entire Silverton team deserves special mention, but it was the fine ball carrying of Brown and Walker in the backfield, and the tackling and blocking of such players as Gardner, Henderson, Rowell and others in the line and backfield that made the margin of difference that meant victory for the Owls.

More Power to You... In the Popular FARMALL 20

YOU'LL find more than 20 per cent more power in the New McCormick-Deering Farmall 20... more power over a longer period because of the long life and stamina built into this sturdy machine... more power to meet today's exacting tractor requirements. Economical on fuel, Farmall 20 burns distillate, kerosene, or gasoline. It burns distillate with unexcelled efficiency.

We'll be glad to demonstrate the Farmall 20 at your convenience.

Hello Folks....

I have taken Mr. Garrison's place as manager of the Farmers Produce Company in Silverton.

I am new in Silverton and will appreciate it if you drop in and help me get acquainted.

— J. T. LUKE

Of course you will receive the same fair market and treatment that you have always received at the —

Farmers Produce Co.
Phone 142 J. T. Luke, Mgr.

ONLY 72 Days UNTIL CHRISTMAS

Yet in that short time, you can assure yourself of a tidy Christmas sum —

HOW??

Change now to Panhandle Products. The amount you will save will do a nice job of Christmas buying.

Try our products --- they will please you in every way, and they will save you money --- at our station, or by wholesale farm delivery.

Phone us your order, or drop a card!

Panhandle Refining Co.

New Feed GRINDER

We are glad to announce that we have installed a new "W-W" feed grinder at our mill and elevator.

This is the latest type feed grinder and is the fastest on the market. It will make your wait shorter if you are getting your own feed ground and it will do a better job.

We grind fresh corn every other day to keep our corn meal always fresh for your use. Take home a sack of this fine corn meal today—see the difference in FRESH corn meal and that which has been sacked for some time.

Give us a trial for flour, feed, meal, coal and salt. We want your business.

Plains Mill & Elevator Co Inc.

What's the Answer ?

How did Halloween originate? Why do we tremble when afraid? Why does a dog turn 'round and 'round before lying down? Fascinating answers to these and many other common questions in "What's the Answer," a new pictorial feature by Edward Finch. Be sure to look for this question-and-answer cartoon
