## Sunshine Brings Hope Of Fair Crop

Fields Will Soon Be Dry Enough For Work

Briscoe County farmers' hopes are slowly rising with the passing of each sunny day, and altho crop estimates have been cut 75 per cent from those of a month ago, there are many farmers who will still get a ten bushel yield, provided no further mishaps occur. H. Roy Brown was probably the first in the field when he "tried it" Wednesday afternoon. About ten acres was cut, altho the field was boggy, and the grain a little green. The yield was less than ten bushels an acre.

To one who saw the fields a month ago, their appearance would now be incredible. A month ago, a country-wide 30-bushel yield was more than probable. Now, ravished by hail, wind, and worms, the fields are a sorry sight, and perhaps a third of the fields will never be entered with a combine. The other side of the picture though is different. Wheat that was on the ground is raising and can be gathered. Late wheat is filling well, and in spite of all that has happened, will be well worth cutting. Most men think that the wheat will be of a very low test, but that the bushel yield will be much better than last year.

The elevators are ready to go again, although all have been put to a lot of extra work, pumping out flooded pits and so forth. The Co-op suffered the heaviest damage when it was struck by the tornado a week ago Sunday.

There will be no further disappointments this harvest, as everyone is expecting the worst in yield and test. It is very likely, that with the weather man's consent, that everyone will be pleasantly surprised.

Its time to renew your subscription. \$1.25!!!

## Food Stamp Plan In High Favor Here

SCOUTS ARE GUESTS OF SILVERTON LIONS

Twenty-odd Silverton Boy Scouts were guests of the Silverton Lions here Wednesday noon. It was the Club's Father-Son Day and as some Lions did not have sons, or had them of small size, or not available, the entire Scout Troop were guests and took a very active part in the program. It was even suggested at the close of the meeting that the Scouts sponsor the Lions instead of vice versa.

J. O. Eason was guest chairman and introduced Garland Francis who made a short, comprehensive talk on FFA work, its objectives and accomplishments. Shorty Donnell was next on the floor with a few words concerning the 4-H Club work. He extended special thanks to Chick Northcutt, Tom Bomar, and Jake Honea for the financial aid in project work.

Each of the Scouts gave one of the 12 Scout objects, and Curtis Wimberly told of the outing to Camp Post. Two Scouts gave an exhibition of knot tying, in which Paul Howard Webb, consistently took second.

All in all 45 men and boys met together and had an enjoyable time and an excellent steak dinner prepared by the Home Ec girls.

John Haynes was also a special guest and drew a big hand, as it was his birthday. However, no one knew that, and it is just possible that the hand was for the gift last year of the Scout Camp in the Canyons.

CONNALLY STOP STRIKES MEASURE GETS RESULTS

With word from the War Department that more men were on strike than at any other time since the beginning of the emergency, the bill to stop strikes by Senator Tom Connally of Texas effected a crystallization of sentiment among both executive and legislative authorities expected to end this irritating interference with national defense efforts.

The measure, known as Senate 1600, authorizes the government to take over and operate in the national interest any plant or factory engaged in the production of defense articles in which the production of such articles is hampered, delayed or impeded by the existence of a strike or other labor disturbance.

Senator Connally emphasized that strikers, who are stopping work in the plants that ought to be running twenty-four hours per day in behalf of our defense, are attacking the national welfare and the national safety by a form of creeping paralysis.

"My bill," pointed out Connally, "denies to no man his fundamental rights. It does not demand that there shall be no stoppage of work in national defense plants. The processes of mediation and conciliation will be preserved. In the meantime, however, the plants must continue to operate under government direction and government protection. Men who do not desire to work may quit their jobs. Those who desire may continue to work with the government's protection. No right is denied any citizen."

"America faces a great crisis. The national security is involved. The nation does not propose to have its safety imperiled and its program for national defense delayed or bogged down by selfish and wilful groups who seek to take advantage of the nation's necessities to improve their own condition at the expense of the safety of one hundred and thirty millions of people. Strikes in defense plants must stop. My bill will stop them."

Mrs. Clarence Willis of Plainview, Mrs. W. E. Redin, Mr. and Mrs. Alton Steele left Saturday for Fort Worth to attend the funeral of Mrs. Redin's nephew.

APPEAL FOR U.S.O. FUNDS

Citizens of Briscoe County are urged to heed an appeal made by the newly organized United Service Organization. This organization is for the purpose of providing worthwhile channels of mental, spiritual and physical outlets for America's sons and daughters now busy in the National Defense Program. These outlets would be clubs, educational, religious and recreational facilities. You will be glad to know your sons and daughters will be given that needed supply of morale and recreation through the United Service Organization.

Your various local clubs are answering this call and you, Mr. and Mrs. Briscoe County citizen must rally to the call. Various boxes will be placed in public places for your contributions, or gifts may be given to members of your county committee. R. E. Douglas, Chairman, Silverton; Eugene Bedwell, Treasurer, Quitaque; Mrs. Mae Bomar, Secretary, Silverton

SECOND REGISTRATION FOR YOUNG MEN JULY 1st

State Director of Selective Service, General J. Watt Page, in announcing the second registration of young men eligible for military training on July 1, said today that local boards and their assistants would handle the registration in most sections of the State.

General Page added, however, that additional assistance will be required in some of the densely populated sections, and that all local boards are authorized to enlist, and accept, if necessary, any volunteer assistance in handling their registration problems. He said:

"Most of the local organizations, as well as individuals, who assisted in the first registration last October have volunteered their services for the second registration. Texas has been fortunate in the patriotic response of both organizations and individuals in this connection."

General Page emphasized that "all local boards are authorized to make their own arrangements for registration, and permission or approval from State Headquarters in this instance will not be necessary."

Many of the counties having more than one local board will arrange for joint registration at some central point, he said. Other counties having more than one local board, but each board having a well-defined geographical area within the country, will provide separate registration places.

New forms are being sent to all local boards since slight changes have been made in the procedure since the first registration last fall.

General Page indicated that there would be approximately 65,000 men registered in Texas on July 1. Registration will be conducted between the hours of 7:00 A.M. and 9:00 P.M., he said.

JUNE IS WETTEST IN YEARS

June in 1941, will go down in history as One of the wettest in history, and according to Ray Bomar, the first fifteen days of this month have netted 6.84 inches. This brings the year's total to nearly six inches more than the whole of 1940, and 18.56 inches have fallen in Silverton since the first of January.

The June rains and the dates of fall are:

|         |      |
|---------|------|
| June 1  | 27   |
| June 5  | 1.17 |
| June 6  | .54  |
| June 8  | 1.58 |
| June 14 | 1.10 |
| June 15 | 2.18 |
| Total   | 6.84 |

Judge -- Have you anything to offer the court before sentence is passed on you  
Prisoner -- Nothing, Your Honor or my lawyer got me last cent.

Buy a defense bond!

## Tule Canyon Turns To Be Clothes Robber

SILVERTON LIONS VISIT TULIA KIWANIS CLUB

Several boys were swimming in the Tule Canyon Sunday afternoon and had a very narrow escape when flood water came roaring down the narrow gorge. T. T. and Leldon Gilkeyson, Monte Rob Moore, D. J. Northcutt, and a boy from Hale Center were swimming near "the Narrows" and were forced to leave so quickly that they were unable to get their clothes. A narrow culvert washed out and they were forced to abandon their car and stay the rest of the night.

Of course, after it was all over, the boys have had a lot of fun telling about "the fun". It could have turned out very seriously. With reports coming in from all over the country of deaths from drowning, we should be more careful. Hundreds of lives will be taken this spring over Texas from high water, cramps, and other swimming mishaps.

MISSIONARY FROM CHILE AT BAPTIST CHURCH FRIDAY

Willie McGavock, a returned missionary from Chile South America will speak at the First Baptist Church Friday night at 8:30. He will illustrate his lecture with slides of scenes in Chile. The public is invited.

Jesse B. Leverett, Pastor

BREAKFAST AND SHOWER

Miss Roberta McMurry, Mrs. Dee McWilliams, and Mrs. Arnold Brown entertained Friday morning at the home of Mrs. McWilliams with an informal breakfast and bridal shower honoring Mrs. Frank Miller.

Upon arrival, waffles, and coffee was served the guests, after which the bride opened the many lovely gifts. There were about twenty guests and each report a very pleasant time.

A middle-aged woman lost her balance and fell out of a window into a garbage can. A Chinaman walking along remarked, "Americans very wasteful. That woman good for ten years yet."

SCOUT ACTIVITIES

On Tuesday night the Boy Scouts of Silverton met at the Lions Den. The meeting was called to order at eight thirty. Brother Eason was in charge of the first half of the meeting in which several games were played and each Scout took part. After about forty-five minutes the meeting was turned over to J. T. Luke, business was taken care of and plans made to eat with the Lions Wednesday. The meeting was closed with the Pledge of Allegiance.

HOW TO BECOME AN ARMY PILOT

High school graduates who are ambitious to become pilots in the Regular Army Air Corps now have the opportunity. Even if their educational qualifications will not permit them to become commissioned officers, they still may fly Army airplanes and may look forward to careers as pilots.

All they need to do is to enlist in the Army Air Corps and this course of training will be open to them after July 1st, 1941, as soon as administrative details can be arranged. They will be taught to fly and they will be paid while learning. After they have qualified as pilots their futures as Regular Army pilots are assured.

All this is made possible by a bill which has just passed Congress and which has been signed by the President. It authorizes the Secretary of War to detail men for training and instruction as aviation students, in their respective grades.

All qualified young men who are interested should apply to the nearest Army recruiting stations—Lets Go America, Keep 'Em Flying.

Mr. and Mrs. Weldon Whitford of Plainview spent Monday and Tuesday with Mr. and Mrs. W. C. Roberson.

J. D. POTTER PASSES AWAY

J. D. Potter, a cousin of M. C. Potter of Silverton, passed away last week at his home in Currito Springs. He was 88 years of age. He visited in Silverton with M. C., last summer and made many friends here. His death resulted from a fall and broken hip.

### AGGIE BRIEFS

By Ray S. McEntire  
Secretary Briscoe Co. Committee

Attention in Government Loans  
Farmers with cotton in the government loan will receive full payments for their equities if the government should take title to cotton.

The government should take to loan cotton, the cotton proceeds would be paid any amounts which (1) redemption costs (which include principal and interest and carrying charges on the pledged cotton) were extended by (2) a fair value for the cotton at the time, which would be determined by the Secretary of Agriculture on the basis of the prevailing average market prices for cotton with reasonable allowance for differences in grades, lengths, and locations.

The notes secured by 1938 crop cotton, the maturity date for which extended to July 31, 1941 are available on demand. The notes secured by 1939 crop cotton matured on July 31, 1940. The notes secured by 1940 crop cotton do not mature until July 31, 1941, but are callable for payment on demand at any time. It is possible the government may find it desirable to take title on August 1, 1941, to any cotton remaining unsecured notes which are due at that time. In the event the government should take title to any of the notes of loan cotton at least ten days public notice of such action will be given by a press release.

Marketing Quota Penalties  
Numerous requests have come to this office regarding the evaluation of the cotton marketing quota plan on over planted cotton by planting cotton to foreign countries.

The regulations state very definitely the penalty that must be paid by the buyer outside of the continental United States must be paid by the producer who is responsible.

The regulations more specifically Sec. 702 (b) of Cotton 407: "The penalty in connection with the marketing of cotton by any person within the continental United States shall be collected from the buyer at the time of sale. The penalty in connection with the marketing of cotton by any person not within the United States or by barter or exchange shall be paid by the producer liable for the penalty..."

## Farmers Food Store

# THE SMOKY YEARS

By ALAN LE MAY

W.N.U. Release

## INSTALLMENT 10 THE STORY SO FAR:

King and Lew Gordon had built up a string of ranches in the West. They were the most powerful and successful competitors. Ben Thorpe, Bill King's adopted son, was determined to avenge his death in spite of the opposition by his sweetheart, Jody Gordon, and her father. Roper's successful raids against Thorpe's Texas holdings wiped him out of the state. Roper then left for Thorpe's Montana ranches. Jody, told that her father's life was in danger, left her home to ride 800 miles to warn him. Walk Lasham, manager of Thorpe's holdings in Montana, saw Roper sitting alone and unarmed in a saloon one day. Gun in hand, Lasham prepared to kill his hated antagonist.

months their chuck wagons will be heading out, and the deep grass will be full of their riders. We have to move and move quick.

"It might be," Dry Camp Pierce declared himself. "It just could be done." A hard gleam was coming into the old rustler's wary eyes. "And if it can—great God! There's never been nothing like this!"

The others seemed to have had the breath knocked out of them by the unheard-of scope, the bold daring, the headlong all-or-nothing character of the plan.

"This is bigger than the Texas raids," Tex Long said wonderingly. "This is bigger than anything has ever been!"

Suddenly Dave Shannon smacked his thigh with his huge hand. "By God, I believe it'll bust 'em!"

Over the pack of outlawed youngsters had come a wave of that fanatic enthusiasm which sometimes sways men as they face the impossible, but Roper, strangely, was unable to share it. The great raid he had planned all winter now seemed futile—a plan senseless and cold.

"Bill," said Lee Harnish, "what's the matter with you? You got chills and fever, or something?"

Roper spoke to Harnish alone, as if he had forgotten the others. "That letter was from Jody Gordon," he said.

"Bad news, son?"

"I don't know. She wants me to come to Ogallala."

"When?"

"Now—right away."

"What for? Does she say?"

"She says she needs me; she says she needs me bad, and right away. I guess she does, all right. If she didn't, I don't believe she'd ever write to me."

The faces of the wild bunch riders were expressionless, noncommittal; Roper knew they wouldn't have much to say. They were youngsters still—all except Pierce; but their faces were carved lean and hard by long riding, and a lot of that riding had been for him.

He stood up, shaking his shoulders. "Catch up your ponies."

"We pulling out? Tonight yet?"

"You bet your life we are. Ought to make Red Horse Springs by midnight."

"And after that," Harnish said slowly, "what is it, Bill? Is it Ogallala?"

Once more the silence, while they waited for Bill.

"It's the raid," Roper said.

CHAPTER XIII—Continued

Now the scar-mouthed man suddenly; from his position he had dared flick his side the door. "Walk, look out! Watch this buzzard, but back and stand by me!"

"These bucks are forced out of their ranges without any deal made where they get fed," Roper said. "Half of them are in as pitiful a state of starvation as you ever saw. A big part of the blame for that is on Walk Lasham. Now I aim to square the deal."

"I already made us a rendezvous with Iron Dog, before I knew you were in on this," Bill Roper told them now. "Inside of a month Iron Dog will be camped on the Milk River with anyway seven or eight bands."

"Seven or eight bands?" Tex Long shouted at him. "My God, there'll be worse than a thousand Indians on the Milk!"

"A thousand, hell!" Roper said. "If there aren't that many buck warriors alone, I'll eat the beef myself! The men in this little cabin were not easily surprised, and less easily shocked or awed; but their usually unrevealing faces now gave them away.

"God Almighty!" Dave Shannon said. It was almost a prayer.

"He's done it now," Hat Crick Tommy said slowly. "You know

CHAPTER XV

Lew Gordon came stumping across the corral of his little Miles City house, his spurs ringing at every stride. His big hands, rope-hardened and thickened at the knuckles, swung loose at his sides; but his face had the look of a man beset.

Opening the back door of the house he sent a great roar through the walls—"Jody! Jody, where are you?"

She answered him, and Lew Gordon went to find her.

"What's the meaning of this?" was his greeting as his daughter came running to him through the house. "You were supposed to stay in Ogallala!"

Jody threw her arms about his neck and pulled his head down to kiss him; but Lew Gordon was not to be put off.

"That horse wrangler just brought me word that you was here," he said. "There's a pretty kettle of soap, when some horse wrangler knows more about where a man's daughter is at than he knows himself!"

"Dad, will you please sit down? I tell you, I want to talk to you!"

"Oh, all right," Lew Gordon flopped into a chair, jabbed his spurs into the floor at long range, and tore off another huge mouthful of beef.

"There are two pieces of bad news," Jody said now. "First thing, Ben Thorpe has cut under us in the bidding for the government contracts, at Dodge."

A spark leaped into Lew Gordon's eyes; under the pressure of the last two years he had turned edgy and garrulous, as if his mind had become hasty on the trigger, now that his hands were idle. "I might have known it!" his big voice boomed. "Those infernal—"

"The loss of those contracts is going to hurt," Jody said; "I've brought the books up into fair shape, and it looks to me as if King-Gordon is starting the worst year in history. If the losses go on piling up the way they are—"

Jody Gordon came and sat on the arm of her father's chair. "There was a man rode up to Ogallala from Dodge City," she said. "He brought some very peculiar news, and I don't like it at all."

"If that renegade Colorado outfit think they're going to—" Lew Gordon began.

"This was a Bill Roper man," Jody said.

Lew Gordon checked as suddenly as if he had been struck across the face.

CHAPTER XVI

what happens when you throw that many loose Indians together? You got a war on your hands, by God! They'll come whooping down Montana—they'll tear the country wide open! The whole frontier will go up in a bust of smoke. Nothing'll ever stop 'em, once they get together like that!"

"One thing will."

"What will?"

"Grub," said Roper.

"That might be so," Dave Shannon admitted. "I never yet see an Indian go to war on a full stomach."

A tensely had come into that dark cabin; they were realizing now that they stood in the shadow of events of a magnitude they had not dreamed. In the quiet, Bill Roper's hands kept creasing and recreasing the letter from Jody Gordon. A faint dampness showed on his forehead, but his fingers acted cold and awkward. "There's five of us here," Tex Long said. "You expect us to just suddenly feed every Indian in creation?"

"I've got twenty-seven riders waiting to throw in with us at the first word."

"Twenty-seven riders? Where?"

"All over Montana. What do you think I did all winter? Holed up like a she-bear?"

Silence again, while they all studied Roper.

"How many you figure to move?" Tex Long asked at last.

Roper's voice was so low they could hardly hear his words. "Between twenty and thirty thousand head."

Tex Long threw his hat against the roof poles in a gesture of complete impatience. "Dead of winter," he said; "maybe having to fight part of the time; why, thirty-four cowboys couldn't drive—"

"We don't have to handle this stock like fat beef," Roper reminded him. "We don't have to pull up for quicksand, or stampede losses, or high water. If a hundred head get swept down a river, what the hell? Some different Indians will get hold of 'em downstream. Working that way, hard and fast, thirty cowboys can move every head in Montana!"

"We're terrible short of time," Tex Long said.

"I know it; in another couple of

WRIGHT A. PATTERSON

### A BILL OF IMPORTANCE TO FARMERS

A BILL of great importance to the American people was recently introduced in the house of representatives — H.R. 4591 — by Congressman August H. Andersen of Minnesota.

H.R. 4591 does not call for billions of expenditures; it has nothing to do with the production of war materials; it has nothing to do with partisanship, but it will not be easy to get it through congress.

The bill provides for the discovery, introduction into this country breeding and testing of agricultural crops for utilization in industry and manufacturing, and for replacement of surplus agricultural crops.

That bill, if and when enacted into law, will be the foundation on which a permanent solution of the American farm problem can be built. It would provide for crops for which a market would be available. It would make the farmer independent of government doles, but would insure adequate farm revenue from year to year. It would make the farmer independent of Washington and for that reason, it will be a hard bill to pass.

No one doubts the existence of hundreds of soil products that can be utilized in industry, as tung nuts, soy beans, castor beans, hemp and others are now being used. Under the proposed law, they would be found and applied to industry through chemical research, to be conducted largely at state universities.

It is a simple and practical plan on which to build a permanent solution of the American farm problem and is one the farmers want. The farmer asks for a market for such things as he can raise, not necessarily for what he now raises. He wants to produce and be paid for what he produces, not to be paid for not producing. The enactment of Congressman Andersen's bill would be a definite first step in that direction.

### A SYSTEM THAT CREATES — THAT'S AMERICAN SYSTEM

I HAVE A FRIEND who, as a young man, started a manufacturing business on the proverbial "shoe string." Through energy and executive and sales ability he made it a success. Today he operates plants in three states and provides employment for more than 2,000 people.

Over the years he has, as we would say, amassed wealth for himself. In reality he has added materially to the national wealth and in the distribution of our national annual income. His ability has very largely helped to provide for the maintenance of some 2,000 American homes—food, shelter and clothing for 2,000 families.

That friend is getting well along in years now, and some day, like all of us, will pass away, but he will leave behind the plants which represent an increase in the national wealth and the more than 2,000 jobs he created. They will go on.

The experience of that friend represents the operation of the American system of free competition, the American way of life. It has been operating since the first colonists arrived on our Atlantic coast. Because it is a creative system, it has made America the most prosperous nation in the world. It is a system that creates and divides, and what it creates, it leaves for use by posterity.

### HALF-WAY MEASURES WON'T GET RESULTS

WE AMERICANS all too frequently attempt to accomplish big results with half-way measures. We are seldom willing to look any problem squarely in the face and take full measures for solving it at one time. We try to do it piecemeal.

Our problem today is to prevent inflation. To do that we say to the manufacturer—and later it will include the farmer—"you can charge only so much for your product." We do not say to the workman that he can charge only so much for his time. We do not say to government, "Deficit spending for non-essentials must stop," or "fix a definite limit on government borrowings," or "The tax load on the manufacturer or farmer must not be increased."

To stop with only a limitation on the price that may be charged for commodities will not do all the job. Without the other things, it will be but killing the goose that lays the golden eggs.

### AIR MINDED FARM BOYS

FARM BOYS are taking to the airways. Flying schools report fully one-half of their students come from the farms and many airplane clubs are being formed by farm boys. They fly light planes which can be landed in ordinary pasture fields.

SACRIFICES  
IT IS ALWAYS the other fellow who is to make sacrifices in the cause of national defense, but we all hope to profit from that other fellow's sacrifice—if he makes it.

## Hawaii—Our Pacific 'Gibraltar'

Long famous for its pineapple, Hawaii has a new claim to fame now, for it is the base of the largest, best equipped and best trained fighting forces under the American flag. These pictures take you to our island fortress.

A lonely sentry, walking his post at Waikiki Beach, Honolulu.

The army mule is not yet obsolete. Mules can navigate terrain that would stall machines. He never runs out of gas, either.

An army tank racing through Honolulu streets during war games in which 25,000 men took part.

To Whom It May Concern: A big railway gun cuts loose at a target towed many miles at sea.

U. S. army bombing and fighting planes on the Tarmac at Hickam Field, Honolulu.

A searchlight barrage from the U. S. fleet at Pearl Harbor, our most powerful naval base in the Pacific, lights Honolulu's skies.

## J. Fuller Pep

By JERRY LINK

"Fuller," my Aunt Edna says to me, "there ain't nobody stinger than the person who won't pass along good news. Goodness knows, it don't cost anybody anything."

And taking that to heart, I've been tellin' the folks how KELLOGG'S PEP gives you vitamins that ordinary meals are so often shy of—vitamins B and D.

Best part of it is you get 'em in a cereal that tastes so comarnt good you wonder how it can be good for you. You win both ways!

**Kellogg's PEP**  
A cereal rich in vitamins B and D

## BEAT THE HEAT

After shower—any time—dust with cooling Mexican Heat Powder. Dust in shoes. Rub on hot feet. Relieves, protects chafe; eases sunburn. Great for heat rash, yours or baby's. Get Mexican Heat Powder.

Proper Stuff  
Wood burns because it has the proper stuff in it; and a man becomes famous because he has the proper stuff in him.—Goethe.

## To relieve MISERY OF COLDS

666 LIQUID TABLETS  
NOSE DROPS  
COUGH DROPS

Try "Rub-My-Tiss"—a Wonderful Linctus!

## Poetry a Demi-God

The basis of poetry is language, which is material only on one side. It is a demi-god.—Emerson.

## SUNBURN

You'll find Mentholatum so cooling and soothing on sunburn. That jittery don't-touch-me misery will soon give way to comfort and relaxation. Mentholatum's medicinal ingredients also promote more rapid healing of the injured skin.

## MENTHOLATUM

Conscience and Passions  
Conscience is the voice of the soul, the passions are the voice of the body.—Rousseau.

## "MIDDLE-AGE" WOMEN [38-52 yrs. old] NEED THIS ADVICE!!

Thousands of women are helped to go smiling thru distress peculiar to women—caused by this period in life—with Lydia E. Pinkham's Vegetable Compound—famous for over 50 years. Pinkham's Compound—made especially for women—has helped thousands to relieve such weak, nervous feelings due to this functional disturbance. Try It!

## We Can All Be EXPERT BUYERS

● In bringing us buying information, as to prices that are being asked for what we intend to buy, and as to the quality we can expect, the advertising columns of this newspaper perform a worth while service which saves us many dollars a year.

● It is a good habit to form, the habit of consulting the advertisements every time we make a purchase, though we have already decided just what we want and where we are going to buy it. It gives us the most priceless feeling in the world: the feeling of being adequately prepared.

● When we go into a store, prepared beforehand with knowledge of what is offered and at what price, we go as an expert buyer, filled with self-confidence. It is a pleasant feeling to have, the feeling of adequacy. Most of the unhappiness in the world can be traced to a lack of this feeling. This advertising shows another of its manifold facets—shows itself as an aid toward making all our business relationships more secure and pleasant.

**ROY W. HAHN**  
Editor and Publisher

**WANTED:** a bank in Silvertown  
by harvest time. (signed) **tt**  
—SILVERTOWN COMMUNITY

**WEATHER:** Winning.

**DID YOU EVER** think you'd

get to the place where you enjoy  
the sight of little dust runners  
chasing each other up and down  
the road?

**ALL YOU FARMERS** are worry-  
ing around about getting your  
wheat harvest rusted out, wormed  
out, hailed out, and rained out,  
but what about me. I've had my  
bargain offer drowned out so far.  
I needed some do-re-mi and I  
thought I'd get the jump, and  
start it EARLY --- right with the  
first load the \$1.25 offer was on.  
If somebody doesn't get into their  
field by Saturday, Orlin Stark,  
Mergenthaler Linotype Company  
and every paper house in the  
country is going to get a hold on  
my throat.

**SNOOKS BAIRD** came in from  
down around Dallas somewhere  
and has a believe-it-or-not. Says  
he has pictures showing the fence

posts sprouting there. It was a  
bunch of green posts, catalpa I  
think he said, and the weather  
has been so wet that they are actu-  
ally sending out leaves. What  
next?

**DESCRIPTION:** Wheat as flat  
as a WPA hand. Author, Jim Hill,  
so don't take it seriously.

**NEEDED** -- A cotton shower.  
So says Rusty Arnold. He wears  
a 15-inch collar, and I know where  
there is some good strong rope.

**LETTER TO THE EDITOR**

Dear Roy:  
It is my belief that you don't  
mind suggestions and with that  
in mind, I am bringing up the  
following point:

On May 27, your Boy Scout  
Troop was supposed to have a  
Court of Honor with your local  
citizens all participating, but aside  
from your Scoutmaster, J. T. Luke,  
only one of your local committee  
was there. Nevertheless, we had  
a good meeting. I was invited over  
there by your local chairman, al-  
though the chairman wasn't there.  
The point I make is this: That  
if your good paper would give the  
Scouts and Scoutmaster some pub-  
licity on their special wants, they  
might hold better all the way  
round, don't you think? I'll be  
glad to have your thoughts on  
this. With kind regards, Yours,  
Henry Teubel, Tulsa.

**COFFEE MADE** A talk at the  
Tulsa Kiwanis Club Tuesday. It  
was one of the best I have ever  
heard out of him . . . mainly, I  
guess because he really didn't try  
too hard to make a speech. In e-  
lection years he is very painful.  
But anyway, his talk was one  
giving the sheriffs a little L be-  
cause they were the ones who as-  
sessed and collected the taxes. And  
yet, he claimed, the commission-  
ers court got all the blame. He  
said that if there were no sheriffs  
there would be no taxes, etc., etc.  
Of course, Hugh White was sitting  
across the table from Coffee.

**HE SUGGESTED** to me short-  
ly after the meeting that he would  
gladly pay for an ad if I'd tell  
folks what he thought of Coffee.

I talked him into waiting till e-  
lection year and I would do it.

**FLASH, FLASH** --- Jake Hon-  
ea just this noon got wind of the  
things that Coffee had been saying  
about sheriffs in general. Net re-  
sult, Coffee's car was found over-  
turned in the ditch, and as far as  
I know personally, Coffee hasn't  
been heard nor seen. Boy, when  
our sheriff gets mad he's mad  
from top to bottom, and that's just  
like a giraffe having the sore  
throat.

**JUDGE DANIEL** HAS invented  
a grass and weed cutter. When I  
first saw it a week ago, I thought  
sure he was fixing a jigger up that  
would cut his throat. But by the  
way, it does cut grass, and weeds  
too. You ought to stop and see it  
in action. And by the way, did  
you know that J. E. invented the  
forerunner of our wind charger?  
At any rate, he made one that  
worked and a lot of fellows were  
interested. And the first thing he  
knew, there was one on the mar-  
ket, not too much different from  
the one he had made. It happens  
that way lots of times. He thought  
of it, and somebody else got rich.

An Oklahoma editor published  
two pictures, one of a dilapidated  
house and the other of an eroded  
field, and invited his readers to  
take part in a "You Write the  
Story" contest. Here is the prize-  
winning letter, written by an In-  
dian:

Both pictures show white man  
crazy. Make big teepee. Plow hill.  
Water wash; wind blow soil. Grass  
gone, land gone, door gone, win-  
dow gone; whole place gone to  
Buck gone. Squaw, too.  
Papoose gone. No pig, no corn, no  
cow, no hay, no pony.

Indian no plow land. Keep grass.  
Buffalo eat. Indian eat buffalo.  
Hide make teepee, make moccasin.  
Indian no make terrace, no build  
dam, no give d. . . All time eat.  
No hunt job, no hitch-hike, no  
ask relief. No shoot pig. Great  
Spirit make grass. Indian no waste  
anything. Indian no work. White  
man heap loco.

Ain't civilization wonderful?  
(Quoted from L. F. Wade's  
Jayton Chronicle)

**FAMED SGT. YORK OF WORLD  
HAILED BY 'FREEDOM FIGHT'  
LEADERS**

National leaders of the Fight  
for Freedom Committee, as well  
as members throughout the na-  
tion, this week hailed the recent  
speech of Sergeant Alvin C. York,  
outstanding hero of World War I,  
as a devastating retort to the is-  
olationist views of Charles Lind-  
berg.

Sergeant York, who single-  
handed 23 years ago disabled 32  
German machine-guns and killed  
or took prisoner 157 of the enemy,  
was recognized as the perfect foil  
to ex-Colonel Lindberg, who in  
recent speeches has advanced the

argument that American freedom  
was not in jeopardy, and that Hit-  
ler was no menace to the people  
of the United States.

Speaking on Memorial Day at  
Arlington Cemetery, before the  
tomb of the Unknown Soldier, the  
Tennessee mountaineer and World  
War hero said, with reference to  
the isolationist America First  
Committee:

"But for the grace of God, in  
this consecrated tomb might be the

mortal remains of one whose  
name is Alvin C. York. Both the  
(Charles Lindberg) and the  
tor (Wheeler, of Montana)  
denied that privilege, which  
sensibly explains why they feel  
ferently than the veterans  
about this country's most prob-  
lems."

Fitzgerald, F. A. Fitzgerald, C. M. Jasper, P. D. Jasper, Allen Kellum, Frank Mercer, Fred Mercer, H. C. Mercer, W. E. Redding, W. C. Roberson, W. A. Rowell, C. A. Simmons, Buster Wilson, Loyd West, Mrs. Lottie Henderson. Mrs. P. D. Jasper is the new president, Mrs. Loyd West Secretary, and Mrs. Harrison was a visitor. The next meeting will be with Mrs. H. C. Mercer, June 26.

Mr. and Mrs. Scott Smithee and Faith of Amherst visited Mr. and Mrs. U. D. Brown Sunday.

### NOTICE TO DELINQUENT TAXPAYERS

(Here's How You Can Save Money)

Under the provisions of H. B. No. 76 recently passed by the Legislature, you can make a great saving on delinquent taxes. Any taxpayer paying ALL taxes delinquent by him will pay only six (6%) per cent penalty during the short life of this bill. Under the usual method you will pay eight (8%) per cent penalty and six (6%) per cent interest per annum. Therefore you will readily see that it will be to your advantage to pay ALL your delinquent taxes.

## Symbols Learned in Spare Time

DREAMING of a good secretarial job—and doing something about it!

As shorthand may so easily be learned at home, no girl need remain unskilled—at a disadvantage in job-seeking. And if you long to enter some fascinating field—fashion, buying, advertising—remember,

Unsought Thoughts The thoughts that come unsought, and, as it were, into the mind, are commonly most valuable of any we have; therefore should be secured, because they seldom return. Locke.

### If you bake at home, use FLEISCHMANN'S FRESH YEAST

RICHER in VITAMINS The Household Favorite of Four Generations!

Cruel Conqueror The conqueror is not so much pleased by entering into open gates as by forcing his way. He desires not the fields to be cultivated by the patient husband who would have them laid waste by sword and fire. It would be a shame to go by a way that is opened.—Lucan.

## CHECK UP ON VITAMIN C

It's one you need fresh daily!

### Get it deliciously from fresh orange juice!

You cannot "store up" vitamin C in your body. That's why you need a fresh and full supply each day to help you look and feel and do your best. It's hard to get enough unless you have an abundance of citrus fruits. But it's easy with orange juice—an excellent, natural source! Eight ounces supplies all the vitamin C you normally need each day—plus valuable amounts of vitamins A, B1 and G, calcium and other minerals.

Enjoy a BIG glass every morning. Make it with trademarked Sunkist Oranges, the finest from 14,000 cooperating California-Arizona growers. Best for Juice—and Every use! Copyright, 1941, California Fruit Growers Exchange, Red Ball Brand.

## Sunkist CALIFORNIA ORANGES

Best for Juice—and Every use!

### IMPORTANT! RED BALL ORANGES

packed by the growers of Sunkist are a dependable grade of juice-rich, richly flavored California oranges. Rely upon them to give full satisfaction. Look for the trademark on the skin or tissue wrapper.

# Star Dust

STAGE-SCREEN-RADIO  
By VIRGINIA VALE  
(Released by Western Newspaper Union.)

WHEN Ida Lupino and Louis Hayward (Mr. and Mrs.) found that they were to be co-starred in Columbia's "Ladies in Retirement" they gave three rousing cheers; they thought that they'd be answering work calls together. So—the first week, they actually had one day together on the set. The second, she worked every day and he didn't work at all. Not until the third were they in line for simultaneous calls. And they're cast as bitter enemies!

"We saw more of each other when we were working in studios that were miles apart than we do now!" wailed Mrs. Hayward. Incidentally, this looks like a good picture; it's made from a stage hit, Charles Vidor is directing, and the cast includes three top-notch actresses—Elsa Lanchester, Edith Barrett and Isobel Elsom.

So many people wanted to know how the Walt Disney pictures are made that he was practically forced to make his new full-length RKO release, "The Reluctant Dragon." In it he uses both live actors and his usual brand, and we'll actually see how the characters and production are created.

Martha O'Driscoll is in great demand on the Paramount lot. As soon as she completed her work in "Henry Aldrich for President" she reported for Cecil B. DeMille's "Reap the Wild Wind." And she learned that she'd have to have her blonde hair darkened several shades, all for the sake of Technicolor. The cast for this picture is an impressive one—Paulette Goddard, Ray Milland, Raymond Massey, Susan Hayward, Walter Hampden, Janet Beecher, Spring Byington, Robert Preston, Elizabeth Risdon.

A stairway plays an important part in the new Ronald Colman picture, "My Life With Caroline," so RKO commissioned Nicolai Remisoff to build it. It's called "free standing," because it is entirely free of support by columns or walls—it's suspended from steel beams in the middle of a huge drawing room set. And the treads are covered with white, Chinese angora fur. Cost, approximately \$5,000, in case you'd like to duplicate it. Lewis Milestone directed, with due appreciation for the staircase.

Remember Charles ("Buddy") Rogers, who was a movie hero years ago, and married Mary Pickford, and abandoned the pictures for band-leading? He plays the romantic male lead in "Mexican Spitfire's Baby," starring Lupe Velez and Leon Errol.

The new March of Time film, "China Fights Back," depicts the struggle of the Chinese people to preserve their national independence and democratic way of life. It also shows how, under the leadership of Chiang Kai-shek, China has replaced her destroyed industries with thousands of small factories in the mountainous interior.

Veronica Lake, who skyrocketed to movie fame in "I Wanted Wings," turned slapstick comedienne in Preston Sturges' "Sullivan's Travels." The script called for her to shove Joel McCrea into a swimming pool, then be yanked in by one leg by McCrea, and swing at his jaw till he ducked her in self defense. Her blonde hair was a mess of stringy locks, and her silken evening gown was another mess, when she emerged. But a chance to work in a Sturges picture is worth it.

The Mutual chain's news analyst, Raymond Gram Swing, has a new contract which will keep him on the air Mondays and Fridays for another year for the same sponsor. At the annual luncheon of the Woman's National Radio committee he was acclaimed "the commentator best serving the interests of democracy."

**ODDS AND ENDS—Jinx Falkenburg,** America's No. 1 model (did 38 magazine covers during the last 12 months), says it's much easier to pose for photographers than for a movie camera. Rita Johnson thinks she rates a medal for being Hollywood's No. 1 Steuwer says she steers about everything. Warners will make a series of shorts dealing with the activities of the Federal Bureau of Investigation; J. Edgar Hoover is scheduled to appear in them. Paramount will screen "Raffles," a story of the Mexican constabulary, as a good-will gesture. The talented Irish actor, Barry Fitzgerald, is slated for the next Tarzan film.

EVERYTHING FOR HER NEW KITCHEN  
(See Recipes Below)

### REALLY PRACTICAL!

Whether the bride-to-be is bound for a six-room "dream house" or for a one-room kitchenette apartment, you can't go wrong if you give her a kitchen shower. . . one that's practical, of course!

And, knowing that some of you are anxious for new, clever, unusual ways to entertain, I'm ready with plans for a kitchen shower that's really different!

In Chicago's huge Merchandise Mart, where buyers from all over the country come to purchase kitchenware, I found a variety of inexpensive, yet durable gadgets which anyone about to be married would love.

To make the party practically all play and no work for the hostess, I decided to place the gifts on the table (see picture at top of column). When luncheon is over, everything is hers!

The tablecloth is of a fancy new-type oilcloth, and the place mats and napkins are none other than dish cloths.

An angel food cake pan serves as the base for a "gadget bouquet" centerpiece of measuring spoons and cup, carving set, sugar scoop, funnel, spatulas, pancake turner, strainer, tea ball, grater and other vital kitchen helpers.

The plates are pie tins. The flatware is a very inexpensive kind with gaily-colored plastic handles. And note the spice jars to the right which, because they're to be gifts, hold salt and pepper while doing double duty. They're from the Griffith laboratories.

The first course of the luncheon is a tart "Cardinal Salad, set on the table right in its aluminum ring mold. A tasty Beef Stew in a casserole follows. Iced tea is poured from a tall aluminum pitcher into matching "glasses." And rolls, all buttered, are served from a compact, serviceable bun warmer, which may be the hostess' gift. Dessert is Peach Upside Down Cake, served from a square cake pan.

### \*Cardinal Salad.

- 1 package lemon gelatin
- 1 cup boiling water
- 3/4 cup beet juice
- 3 tablespoons vinegar
- 1 cup cooked beets, diced
- 1/2 teaspoon salt
- 2 teaspoons onion juice or grated onion
- 1 tablespoon horseradish
- 3/4 cup celery, diced

### LYNN SAYS:

There'll be lots to talk about at your party, and conversation, plus opening of shower presents may well fill up the allotted party time, but just in case . . . here's a clever game that suits a bridal shower to a "T."

To each guest pass a slip of paper titled "Things Found in the Bride's Home." Neath the title are these words (1) engar, (2) gothorpha, (3) elmiunol, (4) fufbet, (5) hieca, (6) rihfifteen, (7) pavndorte, (8) blaet, (9) nurcaef, (10) pardyer, (11) kecol, and (12) pocarbud.

Ask each person to rearrange the letters in each of these 12 words to make them spell an article of furniture that would be likely to appear in the bride's new home.

The answers are (1) range, (2) photograph, (3) linoleum, (4) buffet, (5) chair, (6) chiffonier, (7) davenport, (8) table, (9) furnace, (10) drapery, (11) clock, and (12) cupboard.

To make the game more interesting, you might set a definite time limit. Collecting all papers after, perhaps, five minutes. Lollipops or some similar original, inexpensive gift may be awarded as first prize.

### SO YOU'RE TO BE MARRIED!

The date is all set, invitations mailed, your dress, white and simply beautiful, is hanging in the closet . . . well, then the rest is easy. But, in case you're perplexed about the after-ceremony refreshments, whether they be in the form of a breakfast, garden reception or dinner, please read next week's column. Lynn will tell you how to entertain your wedding guests correctly, yet inexpensively. . . Watch for "After The 'I Do's'."

Dissolve gelatin in boiling water, add beet juice, vinegar, salt and seasonings. Chill until slightly thickened. Fold in vegetables and mold.

### \*Peach Upside Down Cake.

- 1 1/4 cups sifted cake flour
- 1/4 teaspoon double-acting baking powder
- 1/4 teaspoon salt
- 3/4 cup granulated sugar
- 4 tablespoons softened butter or other shortening
- 1 egg well beaten
- 1/2 cup milk
- 1 teaspoon vanilla

Sift flour once, measure, add baking powder, salt and sugar, and sift together three times. Add butter. Combine egg, milk and vanilla. Add to flour mixture, stirring until all flour is dampened; then beat vigorously for 1 minute.

4 tablespoons butter  
1/2 cup brown sugar, firmly packed  
2 cups sliced peaches (fresh or canned)

Melt 4 tablespoons butter in an 8 by 8 by 2-inch pan over low flame; add brown sugar, (1/4 teaspoon nutmeg may be mixed with brown sugar, if desired), and stir until melted. On this, arrange peach slices. Turn batter over contents of pan. Bake in moderate oven (350 degrees F.) 50 minutes, or until done. Loosen cake from sides of pan with spatula. Serve upside down with peaches on top. Garnish with whipped cream, if desired.

Canned pineapple rings, cooked apricots or prunes, or sliced tart apples may be substituted for peaches in this recipe.

Going back to entertaining the bride-to-be, had you ever considered a Recipe Show-er? A new idea comes to mind . . . why not serve a luncheon at which every dish, from the appetizer to the coffee, is prepared according to some favorite and tested recipe of one of the guests. Have each recipe written on the back of a place card, collect these, put them into a file box (gift of the hostess) and present them to the bride-to-be.

A shower that calls for an almost negligible outlay of money on the part of those who buy the gifts, but which will help the young bride to do some real housekeeping, is a "dime" shower.

The five-and-dime stores are bristling with simple little things the bride will use every day without being aware of them. If you'll contribute two ten-cent items, you'll be doing her a real service.

Matches, gummed labels, paste and waterproof cement (to repair the china she's bound to break sometime or another), playing cards and score pads, plenty of tissue cleaners, electric light bulbs, little wire flower-holders, assorted pads of paper for shopping lists or addresses — they're all so inexpensive when purchased separately, but how they do mount up in cost if the bride has to go out and buy the whole batch at one time!

(Released by Western Newspaper Union.)

## Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D.  
Dean of The Moody Bible Institute of Chicago.  
(Released by Western Newspaper Union.)

### Lesson for June 22

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

### FIRST JERUSALEM CONFERENCE ON WORLD MISSIONS

LESSON TEXT—Acts 15:6-21.  
GOLDEN TEXT—But we believe that through the grace of the Lord Jesus Christ we shall be saved, even as they.—Acts 15:11.

The conference on missions in Jerusalem was not the result of an appeal to a ruling church organization for a decision, but rather a gathering of the believers from Antioch with those in Jerusalem to confer regarding a serious difference of opinion. The earliest converts to Christianity were Jews, who had come by the way of Judaism into their new faith in Christ. But now, through the preaching of Paul and Barnabas, certain Gentiles had believed in Christ. Their new-found joy was soon clouded by a theological problem. Certain teachers from Judea (Acts 15:1) declared that the Gentiles were not saved unless they came into the Christian faith the way of the fulfillment of the Jewish law. Paul and Barnabas at once realized that this was

### I. The Vital Question—Is Salvation by Grace or Works? (vv. 7-11; see also vv. 1-5).

Paul and his fellow workers had rightly apprehended God's plan of salvation apart from works of the law. Paul realized that the entire future of the gospel ministry was in a sense dependent on the solution of this problem. Christianity is the only religious faith in the world that presents justification by grace as the way of redemption; all others follow (more or less) the path of salvation by works.

The question now was: Shall works of the law be mingled with grace—can Jesus Christ alone save men, or is salvation through Jesus Christ plus something else?

How was such a serious question to be settled? Should argument and strife be permitted to go on until the stronger party prevailed? Better judgment indicated the desirability of a friendly discussion and a joint decision with the believers at Jerusalem. This was

### II. The Christian Solution—Council Rather Than Controversy (vv. 6, 7, 12-18).

There may be times when it becomes the duty of the Christian worker to take an uncompromising stand for the truth of God and refuse to be moved, come what may. But certainly there should be no such spirit in dealing with differing interpretations of Scripture on the part of sincere and earnest Christian brethren. How much would be gained in the Church today if, instead of magnifying differences and permitting personal desires and ambitions to intervene, men were willing to sit down in the spirit of Christ around the tables of Christian council and brotherhood, presided over and directed by the Holy Spirit (see Acts 15:28).

Observe the full measure of liberty in discussion, the attentive listening to the messages of the brethren. Note also that there were no secret sessions of a "steering committee" and no "steamroller" tactics.

The whole question was honestly and carefully considered by the council at Jerusalem, with the result that there was a vindication of the preachers of God's grace.

James finally spoke, giving the conclusion to which the Holy Spirit had led the conference (see v. 28). Here for all the future we have

### III. The God-Given Answer—Salvation Is by Grace (vv. 19-21; see also vv. 22-35).

In his epistle to the Ephesians (Eph. 2:8, 9), Paul succinctly states this truth: "By grace are ye saved through faith; and that not of yourselves: it is the gift of God: not of works, lest any man should boast." The teaching of Scripture is very plain on this point, and we do well to receive it in all its beauty and grace.

Let us observe, however, that the decision in Jerusalem, while it laid no further burden on these Gentile believers (v. 28), did quite properly require of them that, as those who had been saved by grace, they must "walk in newness of life" (Rom. 6:4) which they had in Christ. Paul had the same thought in mind when he supplemented Ephesians 2:8 and 9 with verse 10, declaring that God has ordained that we should walk "in good works."

There are two opposite tendencies (both of which are wrong) in this matter, which consistently hurt the Christian church. The one which we have already stressed tries to mix works with grace, making salvation either entirely or partially by works. Sad to say, some who have sought to avoid this error have gone to the opposite extreme and have done violence to God's plan of salvation by making grace an excuse for sin, using their freedom from law as a justification of lawlessness. We are God's "workmanship, created in Christ Jesus unto good works" (Eph. 2:10).

## THINGS for You TO MAKE

(continued from front page)

Exporting cotton to some country.  
**Marketing Quota on Wheat**  
Available at the AAA Office in Silvertown are the 1940 marketing cards for wheat. These cards must be used to identify wheat sold at the elevators or warehouses. Unless your wheat is identified by a marketing card there will be deducted by the purchaser a penalty of 49c per bushel. It is very

important that you secure your card immediately.

- If you have excess wheat due to over-planting, you may dispose of it in one of three ways:
- (1) market it and pay penalty of 49c
  - (2) deliver to Secretary of Agriculture
  - (3) store it under bond.

Save, and aid Uncle Sam. Buy a defense bond today!

**Antelope Flat News**  
By Nadyne Waldrop

Gussie Bullock spent last week in Memphis with Margie Northcutt.

Elmer Sanders and son Aubrie, and L. L. Waldrop transacted business in Silvertown Tuesday.

Mr. and Mrs. C. C. Brown and daughter Betty, and Mr. and Mrs. U. D. Howard and family were in Silvertown Tuesday.

L. L. Waldrop and C. W. Graves were in Silvertown Wednesday.

Mrs. Elmer Wood of Brice spent Wednesday and Thursday with her parents, Mr. and Mrs. A. L. Durham.

S. A. James was in Memphis Wednesday.

D. W. Evans and daughter Marian and Mrs. Elmer Wood were in Memphis Thursday.

The quilting club met Thursday. All that attended reported a nice time.

Myrtle Gibson of Brice spent this week with her sister Mrs. Birdie Sanderson.

The ladies of Antelope went fishing Friday night.

Mr. and Mrs. John Durham are the proud parents of a 7½ pound girl, born June 11. She was named Dixie May. Mrs. Durham and the baby returned home Saturday.

Dan Dean, Elmer Sanders, and L. L. Waldrop were in Memphis Saturday.

Nadyne Waldrop spent the week end with Mr. and Mrs. Sam Hendrix of Lesley.

Mr. and Mrs. S. A. James visited her mother in Amarillo Sunday.

Rev. Bob Cooksey of Plainview filled his appointment here Sunday. His wife and Mr. and Mrs. Bales accompanied him.

A. L. Durham Jr. of Palo Duro is spending a few days with his parents, Mr. and Mrs. A. L. Durham.

Mr. and Mrs. Lem Weaver and family of Silvertown spent Saturday night and Sunday with his parents, Mr. and Mrs. Matt Weaver.

Mrs. Birdie Sanderson and son Louis visited relatives at Vigo Sunday.

Mr. and Mrs. Sam Hendrix of Lesley, Margie Northcutt of Memphis, and Gussie Bullock spent Sunday with Mr. and Mrs. L. L. Waldrop and family.

Mr. V. D. Howard and son Ralph were baptized Sunday evening by the pastor, Rev. Cooksey. Several attended the services.

**CONTINENTAL OIL Co.**  
**USES THIS PAPER**

Continental Oil Company started last week on one of the largest newspaper campaigns in its history to introduce the company's newest product, Conoco Nth Motor Oil.

According to Will A. Morgan, advertising manager, newspapers throughout the most of the United States, including The Briscoe County News, will receive the major portion of continental's advertising budget to present Conoco Nth Motor Oil to the public. More than a million dollars will be spent by the company in newspapers alone during the next six months.

Continental's claims for its new oil include low motor wear, Oil-Plating, more miles between quarts, and a decided improvement in the reduction of lacquer and sludge, accomplished by the discovery in Continental laboratories of a new synthetic, Thialkene inhibitor.

Proof of these claims was dramatically illustrated by a daring destruction test carried out in Death Valley, where the hottest temperatures in the United States have been registered. Five identical stock cars, each lubricated with five quarts of a different well-known motor oil, and a sixth car, identical with the others and filled with five quarts of Conoco Nth, were all run over a course in Death Valley until each of the six engines were wrecked. The test was run under the impartial supervision of Prof. H. M. Jacklin, who during the academic year is Professor of Automotive Engineering at Purdue University.

At the end of the test, the car lubricated with Conoco Nth had run 13,398.8 miles on one crankcase full of Nth oil -- 73.67 per cent more miles than the closest competitor -- 161.17 per cent more miles than the first car to fail -- and 111.29 per cent more miles than the average of all the other five cars.

The entire story of the Death Valley test will be told with illustrations, in the series of advertisements which will appear in this paper.

**Special \$**

We have several Spring and Summer Dresses that we are offering you at very special prices . . . in many cases less than we can replace them for. They are just as new, and just as stylish as when we first displayed them. Take advantage of these savings — they won't last long!

"The Store That Strives to Please"

**HI-SPEED Sweeps**  
Are "Sweeping The Country"

Streamlined blades of sharp-edged steel—cultivating at 4 to 5 miles an hour—that's what everyone is talking about! In popularity—in their ability to do a closer-cleaner cultivating job the new McCormick-Deering HI-SPEED Sweeps are literally "sweeping the country!"

HI-SPEED Sweeps on your cultivator permit faster, more efficient work. Farmers report a new ease of operation; a saving of time, and what's even more important—greater yields!

HI-SPEED Sweeps do not plow deep. They do not damage vital brace roots yet they get all the weeds. They leave a surface mulch which conserves moisture. They work closer to the rows and they leave no ridges! Think what this means in cross-cultivation!

This year buy a set of HI-SPEED Sweeps for your cultivator—regardless of its make. (Look for the CREAM-SHANK.) We have them on display. Come in now and let us show you how they can save you time and effort. The low price will surprise you!

**Tull Implement Co.**  
Silvertown Telephone 36

**10 REASONS WHY**

YOU SHOULD BRING YOUR WHEAT HERE

1. Federally Licensed and Bonded.
2. Available Storage Space. Most of the terminal elevators are crowded with 1940 wheat. Therefore, if your wheat is shipped out, there is a great possibility that storage space cannot be secured.
3. You Get Your Money in a few Minutes by storing with us. If your wheat is shipped out of town, it may take several weeks.
4. No shipping worries about getting railroad cars to ship your wheat.
5. Cheaper Storage Rates.
6. The Wheat can be Withdrawn at any time.
7. Helps Local People — gives more jobs — money put back into community property.
8. Our 1940 Protein Tests were Higher than the average.
9. Weights, tests, etc., guaranteed.
10. Ask Our Customers about the Farmers Elevator and then you can't afford not to trade with us.

Whitely Switch

**1 FILL LASTED 13,398 MILES — Certified**

Then how long is a quart of this great New Motor Oil?

**STRAIGHT FROM SIZZLING DEATH VALLEY COMES YOUR ANSWER...**

The lock-guarded engines of 6 coupes faced the Death Valley desert with oil exactly up to "Full." Not a drop could be added. The destination of all 6 identical everyday engines was . . . Death!

Here were 6 high quality motor oils getting the same strictly fair opportunity to show how long they'd let an engine live on one exact fill and no more.

Down in Death Valley—hotspot of the U. S. A.—every car sped at 57 miles an hour, till its oil gave out and the engine smashed. The brand of oil that used up quickest was outlasted 8,268 miles by a revolutionary new oil in this impartial, certified test. This new oil exceeded the average mileage of the other 5 oils by all of 7,057 miles! Certified. This longest-lasting oil in the test, which your car can have today—at popular price—is new

**CONOCO Nth MOTOR OIL**  
with its Man-made new Economy aid  
The record long life that defied Death Valley comes from a new laboratory creation . . . man-made . . . called *Thialkene inhibitor*. Its action in some ways suggests Vaccination—which puts the right protective substance on guard to keep a trouble from even starting on you.

The trouble aiming to start on motor oils lurks in the engine's normal firing. Filth is formed that tends to start the oil "feathering." First one drop spoils—then two drops "catch it"—then four—then sixteen—faster, faster, FASTER. Soon oil stamina is sapped; the engine suffers, and cries for quart after quart . . . but not

**IMPARTIAL**

Latest available products of 5 leading competitors bought retail by Referee.

New everyday coupes used—identical. Broken-in alike. Engines taken apart for Referee—to assure uniformity.

Cars tuned alike. Same Death Valley route for all. Drivers rotated to even up on skill.

One fill per car. None added. Engines under lock—under scrutiny—every mile.

when the worst of this "festering" attack is nipped in the bud—inhibited—by the life-giving *Thialkene inhibitor* in new Conoco Nth motor oil.

Now you'll never rashly exceed the proper oil-change period for your car and driving conditions—any more than you ignore traffic rules just to "get away with it." But Certified Proof from the desert that new Conoco Nth could outlast the other oils in the test by as much as 161%, gives you more than mere hopes of long Summer mileage between quarts. Change to Conoco Nth—at Your Mileage Merchant's Conoco station . . . today. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

**AND CONOCO Nth OIL OIL-PLATES YOUR ENGINE**

Long the keystone of Conoco success OIL-PLATING comes from another Conoco synthetic . . . man-made under famed Germ Processed oil patent. Its magnet-like action, OIL-PLATING is bound to inner engine parts. Then it all drain down—not even overnight—while you're using Conoco Nth. So OIL-PLATING is on guard against wear in Death Valley. An OIL-PLATED engine means one more economy you get from a change to popular-priced new Conoco Nth

**CERTIFIED** I hereby certify that the Death Valley test was thorough and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

H. M. Jacklin  
Consulting Engineer, who during Academic Year Professor of Automotive Engineering, Purdue University

**CONOCO Nth MOTOR OIL**

**Doug Northcutt, Silvertown**
