Rodeo Events Fine In All Sessions

MANY OLD TIMERS HERE FOR CELEBRATION 11th an 12th

Nearly 200 old timers registered here Friday and Saturday as having been in Briscoe County for more than twenty-five years. Of these, H. M. Gregg was the oldest in term of residence and gave, 1879 as his arrival date. A. L. Heckman came in 1882.

Most of the pioneers seemed to be having a good get-together, according to John Haynes, who was in charge of the registration and kept them supplied with real old range coffee made out-of-doors in an iron kettle. Here is the list of registrants, and the dates of their arrival in Briscoe County:

C. J. Witherspoon 1891; John Haynes 1907; Charly Norrid 1905; Mrs. B. M. Hodges 1899; Mrs. Buster Hodges 1917; Tom Bomar 1889; A. L. Heckman 1882; H. M. Gregg 1879; Mrs. H. M. McClelland 1914; H. H. McClelland 1914; Milt Jasper 1899; Edd McMurtry 1908; Ashel Cross 1892; Mary Cross 1887; Put Jasper 1899; Ernest Woods 1918; T. L. Anderson 1890; M. E. Bell 1884; W. N. Bullock 1897; Paul Ried 1912; N. R. Honea 1890; Buster Hodges 1901; C. W. Graves 1915; J. E. Daniel 1892; Ettie F. Daniel 1892; Mrs. J. F. Davis 1914; J. F. Davis 1892; Greely Askey 1891; Minnie C. Arnold 1915; Bill Hardcastle 1906; W. N. Dunn 1914; Mrs. Watson Douglas 1900; Mrs. W. B. Wilson 1896; W. E. Burleson 1893; W. B. Hill 1896; J. B. Norris 1896; Clay Fowler 1904; Mrs. Clay Fowler 1893; R. B. Persons 1904; Jim Brooks 1899; Jim Baird 1909; A. T. Brooks Jr., 1903; Dee Reid 1914; M. C. Potter 1886; Frank L. Perkins 1915; J. D. Baird 1915; Mrs. M. C. Potter 1886; M. A. T. Brooks 1891; Emma Askey Brooks 1891; Gladys Baird Helingsworth 1910; Mrs. Alice A. Norris 1896; Nettie Davis 1893; H. L. O. Riddell 1891; Mrs. J. Ed Crawford 1891; Mrs. C. P. McClelland 1900; C. P. McClelland 1912; W. J. Davis 1915; Eddie Cox 1911; Mrs. Al Heckman 1900; Troy Burson 1901; D. J. Ed Crawford 1891; D. J. Northcutt 1898; T. D. Wallace 1901; Mattie McCracken 1891; J. H. Burson 1892; R. N. McDaniel 1881; R. E. Brookshier 1910; J. E. Arnold 1901; W. C. Harris 1913; Mrs. Dorn Burleson McMurtry 1893; Minnie Burleson 1910; R. E. Douglas 1915; C. B. Poe 1897; Clyde Wright 1892; R. M. Hill 1894; R. F. Stevenson 1892; H. B. McClendon 1902; Roy Allard 1910; Agnes Allard 1906; Gertrude Arnold 1887; A. G. Stevenson 1893; R. L. O. Riddell 1906; Bryant Brooks 1894; Agnes Bingham 1907; Jake Spencer 1904; Mollie Spencer 1904; Bertie McDonald 1892; Frankie Polley 1892; Bob McDaniel Jr., 1905; Iveer McClendon 1904; A. N. Books 1903; Emmett F. Potter 1903; Cross McDaniel 1897; J. C. Tyler 1902; Bill Masters 1900; Warren Merrill 1894; Joe Stephens 1907; Charlie Carpenter 1912; Mrs. Yancy A. Ross 1898; Mrs. Cross McDaniel 1906; Della Davis 1906; Mrs. R. N. McDaniel Sr. 1898; Ora Donnell Alexander 1891; Robert L. Hill 1906; D. O. Bomar 1900; J. B. Latham 1891; J. A. Montague 1892; T. J. Crass 1908; Mrs. J. A. Montague 1915; R. G. Alexander 1910; Mrs. C. T. Wallace 1900; Mrs. J. F. Bingham 1912; C. T. Wallace 1900; C. A. Grewe 1915; Freda Grewe 1915; Lee Perkins 1911; Ms. A. B. Childress 1903; Mrs. Fulton Gregg 1909; Mrs. A. A. Boling 1912; W. A. Smith 1901; Mrs. Willie West 1903; A. B. Smith 1909; R. L. Campbell 1897; W. H. Brooks 1905; Mrs. Dean Allard 1902; W. M. Stout 1901; Dick Bomar 1895; Dan Montague 1892; Schott Miller 1906; John Honea 1890; Mrs. J. T. Wimberly 1891; Mrs. Willie Smithee 1892; Charles M. Bell 1900; Ms. Noah Amason 1904; R. G. Stark 1898; Chick Northcutt 1896; Mart Norris 1897; F. M. Smith 1905; Mrs. Dan Montague 1891; Theo Geisler 106, Mildred Burson 1910; Iris Burson 1908; J. N. Cantwell 1913; Mrs. J. N. Cantwell 1913; Mrs. Bob Dickerson 1897; W. C. Smithee Sr., 1897; Mrs. R. M. Hill 1908; L. W. Francis 1892; J. L. Francis 1892; Mrs. Arthur Arnold 1910; Manly Wood 1915; W. T. Graham 1901; Mrs. J. H. Burson 1907; Mrs. Jo

The Silverton Rodeo Friday and Saturday was a success in every way—except financially. The cowboy performances were fairly well attended, and it was the snappiest riding and roping ever seen in Silverton.

Financially the rodeo did not do so well, although the committee has not worked out the details of their financial report. It will be printed in this paper as soon as it is ready, which will probably be next week.

The saddle for best average time was won by Delbert Riddell a sixteen-year-old, who threw a noose about the size of a gallon bucket, but who didn't miss. He hailed from Odell, Texas.

Other winners were: Calf-roping V. K. Orr of Vinson, Oklahoma, W. E. Burleson of Florent and Bill Keller of Earth.

Double tie down, Kester Durham of Lockney, Otis Riddle of Odell; Curley Dougherty, Olton. Steer riding, Bert Nix of Canadian.

Bronc Riding, Odell Betsell, Morris Cooper of Midland, Tom Reeder. Wink Adams and his educated horse, Dago, from RO ranch at Clarendon were a feature rodeo attraction.

COOPER WRITES OF WORK IN AIRPLANE RADIO WORK

Dear Jewel:

I have been transferred to the army Air Corp here in Tucson. We have a nice place, good eats and nice cool barracks. It has been running around 110 degrees in the shade. In fact this country is nothing but a desert. I have about ten hours in the air. They put me on the ship as radio operator. These are medium size ships they are called flying fortresses. They carry 14 members as the crew and about five or six thousand pounds of bombs. It also has eight machine guns. These ships have close to ten thousand dollars worth of radio equipment. It is the very best to be found. We had a little high flying yesterday went to 35,000 feet and had to use oxygen tanks. It was sure fun to be so far up there it looked like a very small world below. We all wear parachutes, and the way the seats are made you sit on the chutes and it makes a nice cushion. When a little red light comes on and off that means bail out. I haven't done anything else yet, but ride in an airplane as a radio operator. I may get to fly up to New York a little later. They are talking about going to San Antonio too. It won't take long for we fly or rather our cruising speed is 375 miles an hour. Well I will close so write when you get time. For I have plenty of time with nothing to do.

As ever,
Pvt. Arnold Cooper.

BROOKS GETS TO CAMP

Selectee Le Roy Brooks, the son of Mr. and Mrs. O. L. Brooks of Silverton has just arrived at Camp Polk as a member of the 3rd Armored (Bayou Blitz) Division. He has been assigned to Co. C, 83rd Armored Division, Camp Polk Louisiana.

Le Roy thinks the army life is alright, and has made lots of friends since he has been there.

CORRECTION

Last week in the account of those who attended the funeral services of Clifford Hodges, an error was made in punctuation that gave a sentence the wrong meaning entirely. All near relatives attended except Jozelle and Boyd. Boyd was prevented because of the distance from Saligman; and Jozelle did not receive word until too late to attend. Besides Clifford's parents Mr. and Mrs. T. J. Hodges, those who attended were Mrs. Arnold Turner, Mrs. Eddie Armstrong, Miss Jewell Hodges, Mrs. Vernon Garrison, R. D. Hodges and Loyd Hodges.

Misses June and Lucile West, left for Denver Colorado Monday, where they will visit friends for a week before entering the University of Colorado, at Boulder.

THE POCKETBOOK of KNOWLEDGE

Revival To Open Sunday At M.E. Church

MRS. OPAL WATLEY

Funeral services were held Saturday July 12 for Mrs. Opal Watley at the home of her sister Mrs. Claude Loudermilk.

Dr. Vandevour of Plainview officiated at the services, and interment was in the Quitaque cemetery. Pall bearers were, Rex Dickerson, Milton Sheid, Mack McKinney, Oles Chitty, Curtis Bingham and Hoyt Hill.

She leaves to mourn her going Charlie Brittan Parker, and Marion Roy Watley, her mother Mrs. L. H. McGawen. Three brothers, Richard, Silverton; Ben, Flomott; and Oather; Memphis. Seven sisters, Mrs. Johnnie Merrell, Quitaque; Mrs. Lola Standfeir, Flomott; Mrs. Dessie Gerlach and Mrs. Lettie Moffitt, Memphis; Mrs. Nena Loudermilk and Natilie Toler of Silverton; and Mrs. Bessie McMurray, Monte Vista, Colorado.

Opal Frankie McGawen was born May 14, 1914, and departed this life July 11, 1941. Opal numbered her friends by those who knew her and will be greatly missed by all.

EARL CANTWELL INJURED

Earl Cantwell was injured and his car demolished in a car wreck near Ralls Monday. He collided solidly with another car and received a crushed shoulder and broken collar bone. The accident occurred on a corner where the view was obscured by weeds.

Mrs. Ben Smith of Electra spent Wednesday here with her parents, Mr. and Mrs. George Kirk. She returned Wednesday night.

SENATORS AT PLAY

United States Senators Thomas Connally, at extreme right, and James M. Heade, second from right, are shown above having a good time at Atlantic City listening to movie star Bob Young tell about "the one that got away" as Mayor Thomas D. Tarrant, of the resort city, chuckles with them.

Two Defense Moves Under Way Here

CLIFFORD HODGES

The death of Clifford Hodges on July 3 came with startling suddenness to his family and many friends and associates.

He was a great source of comfort to his parents, even though away from home he kept in constant touch with them.

He had efficiently served in some capacity, from sand testing to General Superintendent of the North West District, for the Haliburton Oil and Development Co. since he was 25 years old, and gave to his work the integrity of his splendid character, and whole hearted effort. The appreciation and esteem held for him was shown by his business associates by being promoted many times. He saw his company grow from limited areas and a small beginning to widely scattered fields and extensive holdings and he grew with it. His work took him many places, yet with the great responsibility he enjoyed his contacts. He was charitable to many needy, and many such will miss the generous hands that so quietly helped them over the rough places with a kind word here and a kind generous deed there.

He has been a member of the Methodist Church since early childhood.

Clifford was born at Iowa Park, Texas Sept 22, 1899. He married Fay Drummond 16 years ago. To this happy union two girls were born, and were objects of great devotion by their father. They, are now 14 and 12 years of age, and with their mother mourn the untimely passing of their first love.

He was on his way home to spend the 4th with his family, when he came facing 7 trucks, and one pulled out to pass another and in trying to pass they had a head on collision.

My Son

Somewhere he walks among the stars
My little lad of yesterday
Who walked with me in steady stride
Along a sunlit way,
Until he came to youth's full prime,
When hope springs radiant in the breast,
Eager for life and all it holds
Of love and happiness.
But life is not in length of years
For those who know,—its issues lie
In how we bear its crushing blows
And greet its mystery.
Too brief your years, my son,
and yet,—
Though plans were wrecked, your soul held fast,
When skies were overcast.

I know God loves such gentle souls
Who live their days courageously,
And has for them some larger tasks,
Nor will not let them die—
Then speed thee well, my noble son,
And press thee in thy glorious quest
And wait for me along the road
When I have gained the crest.

CARD OF THANKS

I want to take this way to say "Thank You" to all our friends for their kindness and sympathy during the illness and death of our wife and mother. Your kindness will not be forgotten.
Robert Watley
Marion Ray Watley
Charlie Brittain Parker

R. D. HODGES HOME DESTROYED BY FIRE

Mr. and Mrs. R. D. Hodges had the misfortune to have their farm home burn to the ground Wednesday. The fire was started by the explosion of a kerosene stove. Mrs. Hodges and her baby were at home, but had just stepped out of the house when the explosion occurred. The house which belonged to Edd Thomas, was a total wreck, and the only thing saved was a baby blanket.

Drive For Aluminum and Aircraft Observation Posts Projects

With the appointment of W. Coffee, Jr., as chairman for the county and commissioners as his immediate board, two important defense movements are getting under way in Briscoe County this week. These movements are "Drive for Aluminum for Defense," and "Organization of the Observer Corps of the Aircraft Warning Service."

Of the two, the drive for old aluminum is foremost because of the time limit of the drive. Over the whole of July 21 thru July 28 is the dates concentrated drives, to house if necessary, for the collection of old aluminum to be used for aircraft construction and other essential war industries. Any old pan, plate, ornament, or anything containing aluminum is acceptable, and every family housewife is given an opportunity here to serve this country in an important way.

For this drive, Coffee has appointed as his community committeemen the following men: Bill Helms, Earl Cantwell, W. V. Chandler, Wright B. May, Wade Steele, W. W. Douglas, Lee Deavenport, Bryant Books, S. A. James, Tom Bomar, and H. J. Bailey. Boy Scouts have been given an important part in this drive.

Two days, July 24 and 25, folks may take their aluminum to their local schoolhouse where it will be taken care of by the community chairman. In Quitaque, the collection point is at the City Hall, and in Silverton the aluminum will be piled on the front courthouse steps.

Uncle Sam is asking you for a small gift — probably something you aren't even using — look around now and have it ready.

Aircraft Warning Posts

The second defense move mentioned above is far more extensive in that it is the organization of closely connected Observation Posts all over the United States. These posts will be manned 24 hours a day by volunteer observers, who will keep close tab on all aircraft that passes, phoning their data to a central observer, who relays it on to headquarters. There will be probably three or four of these in each county. The county judge is receiving additional information for the setting up of this corps of workers, and the location of the signal posts. This information will be released to you just as soon as it is available from the State Headquarters at Austin.

To most of us this may seem to be needless precaution—and at the present time it probably is. But, at the speed at which this "air-war" is being waged, it may be VERY important in just a few months, and it takes time for any such organization to work efficiently. Briscoe County's location may be a very important one then. Remember that we are only two hours from Old Mexico by air. Remember too, that just north of us is the largest helium plant in the world, and the unprotected oil fields of the Panhandle, both important enemy targets in case of war. Remember too, that it is rumored that Germany has secret bases south of the Rio Grande. Think it over! R.H.

PRODUCTION CREDIT ASSOCIATION TO MEET

Directors of the Plainview Production Credit Association and M. R. Snyder, Secretary-Treasurer, plan to attend a conference on July 17 and 18 at Amarillo, according to D. T. Northcutt of Silverton, who is a Director of the Association.

Others are J. E. Rigler of Plainview, C. W. Smiley of Littlefield, R. A. Axtell of Springlake and I. E. Willman of Muleshoe.

Mr. Northcutt said that "Credit" would be the subject and that the discussion would be led by Mr. John H. Seale, Jr., Vice-President of the Production Credit Corporation of Houston and his assistant, Sam N. Hardy.

Directors and Secretary-Treasurers of the Canadian, Amarillo, Memphis and Lubbock Production Credit Associations will also attend this conference.

THE SMOKY YEARS

By ALAN LE MAY

W.N.U. Release

INSTALLMENT 14 THE STORY SO FAR:

tion of his sweetheart, Jody Gordon, and her father. After wiping Thorpe out of Texas, Roper conducted a great raid upon Thorpe's vast herds in Montana. Unable to reconcile her father with Roper, Jody set out with Shoshone

listen to her and they had a row. So then the only thing she could think of was to come to you. She's got some notion of trying to get you and her old man together again."

"A fine chance!"

"That's what I told her. But she—"

"Why in God's name," Roper flared at him again, "didn't you go after help?"

"I figured I'd get strung up for sure," Shoshone said flatly. "If I went and told Gordon what I'd done. I wanted to come for you, but naturally I didn't know where you'd went. The only thing I could figure out, I better try to ghost around these hills and maybe whistle 'em down to my size."

"You say there are seven men in the cabin," Roper asked at last; "two wounded?"

Shoshone nodded. "They ain't all in the cabin all of the time. Seems like they must have had the girl tell 'em that she come here to meet you. Naturally they'd think you knew she was coming. Most likely they figure that if I ain't dead I'm carrying you word that will bring you here a-king. So they're holding her there now until they see if they can't get you. I ain't watched

Wilec to find him. They were attacked by some of Thorpe's men hiding in Roper's shack. Wilec escaped, but Jody was captured. Roper was approaching one of his own shacks when he noticed outposts keeping a careful watch.

ing the time. Yet he knew very definitely that dawn was just two hours away.

He shook Shoshone Wilec. The little man groaned once, then came full awake with the sudden response of an animal.

Without the snow the rock-like impenetrability of the overcast sky would have made the night utterly black, but the ghostly pallor of the snow had the effect of faintly modifying the darkness. The eye might possibly have made out a moving dark shape at ten yards; beyond that there was nothing but a muf-fling blackness.

"You lead out," Roper said. His voice was instinctively hushed, even at this distance from the enemy. "You've had more chance to study the lay than me."

Shoshone Wilec delayed. "Bill," he said, "I lay thinking about this time for a long time, after you was asleep." A dogged stubbornness came into his tone. "I figure we can probably take the cabin. And if we take the cabin without fighting we've got a chance to get away. But if so much as one shot is fired—Bill, the outposts will close like a bar trap. I don't see no way we can ever get clear."

By the sudden frozen silence, Shoshone Wilec was able to sense Bill Roper's anger.

"I wish to God," Bill Roper said at last, "I had Hat Crick Tommy here, or Tex Long; or even the very greenest kid cowboy that's riding the range with them, somewhere to-night. I need one other man for this job. It wouldn't take an especially brave man, or smart man, nor a real good gunfighter. I just need one fairly good man. But I haven't even got that!"

"Bill, I only claim—look, Bill: I ain't afraid of 'em. I only—"

"You ain't afraid," Bill Roper repeated; "no—not much. But when the guns spoke, you left a girl down under her horse in the snow—maybe hurt, maybe dead—and you ran for your life!"

When Bill Roper had said that, both were utterly still, while a man might have counted a hundred.

Shoshone's voice was flat and dead. "Is that the way it looks to you?"

"Look at it yourself."

"Then," Shoshone said, "I guess there ain't anything more to say." He stood up.

"There's this to say," Bill Roper said. "You're going to work with me tonight because I haven't got anybody else. You're going to do exactly what I say, and when I say, without any back talk or question. You make one slip tonight and the West won't hold you, nor the world won't hold you, and you'll answer to me in the end. You hear me?"

"Okay," Shoshone said in the same flat, dead voice.

"One thing more," Roper said. "If we make a quiet job, we'll try to go out slow and quiet, the three of us together. Otherwise, you take Jody's lead rope and ride like hell. Six miles below here, near the creek, there's a kind of a brush corral. You and the girl will wait for me there. Wait for me until daylight begins to come; then go on."

They moved down into the valley of the Fork, walking fast. When they had dropped into the bed of Fork Creek itself they moved northward, following its windings, for what seemed a long way; but no sign of approaching dawn yet showed, and Roper felt that they had plenty of time. As they at last passed the point where the cabin stood, invisible in the dark, Shoshone indicated its location with raised arm; but they moved on fifty yards farther, so that they might approach the cabin from the north.

Cautiously now, Shoshone climbed the bank, silent as the Indians with whom he had spent his youth. Turning, he gripped Bill Roper's arm. His words were whispered close to Roper's ear.

"One of the night guards is out that-a-way, about five hundred yards," he whispered; "about in line with where you see that big dead pine."

Roper could see no dead pine. It annoyed him that Shoshone's eyes were better than his own—as good as the eyes of an Indian, or a lynx.

"I'll leave my carbine standing just outside the door," Shoshone said. "I only want it for later, after we've took to the horses."

"That's all right," Roper said. "But you remember this: If there's any trouble in the cabin, you stand and fight! Because if you don't, I'll turn and plug you myself, if it takes my last shot to do it."

"Okay."

Roper went ahead now, walking boldly across the snow. Better, he thought, to simulate the casual approach of friends than to depend upon a hope of complete surprise.

As he raised his hand to the door a strange thrill of dread momentarily stirred him at the thought that Jody Gordon was inside—with whom?

Wilec to find him. They were attacked by some of Thorpe's men hiding in Roper's shack. Wilec escaped, but Jody was captured. Roper was approaching one of his own shacks when he noticed outposts keeping a careful watch.

ing the time. Yet he knew very definitely that dawn was just two hours away.

He shook Shoshone Wilec. The little man groaned once, then came full awake with the sudden response of an animal.

Without the snow the rock-like impenetrability of the overcast sky would have made the night utterly black, but the ghostly pallor of the snow had the effect of faintly modifying the darkness. The eye might possibly have made out a moving dark shape at ten yards; beyond that there was nothing but a muf-fling blackness.

"You lead out," Roper said. His voice was instinctively hushed, even at this distance from the enemy. "You've had more chance to study the lay than me."

Shoshone Wilec delayed. "Bill," he said, "I lay thinking about this time for a long time, after you was asleep." A dogged stubbornness came into his tone. "I figure we can probably take the cabin. And if we take the cabin without fighting we've got a chance to get away. But if so much as one shot is fired—Bill, the outposts will close like a bar trap. I don't see no way we can ever get clear."

By the sudden frozen silence, Shoshone Wilec was able to sense Bill Roper's anger.

"I wish to God," Bill Roper said at last, "I had Hat Crick Tommy here, or Tex Long; or even the very greenest kid cowboy that's riding the range with them, somewhere to-night. I need one other man for this job. It wouldn't take an especially brave man, or smart man, nor a real good gunfighter. I just need one fairly good man. But I haven't even got that!"

"Bill, I only claim—look, Bill: I ain't afraid of 'em. I only—"

"You ain't afraid," Bill Roper repeated; "no—not much. But when the guns spoke, you left a girl down under her horse in the snow—maybe hurt, maybe dead—and you ran for your life!"

When Bill Roper had said that, both were utterly still, while a man might have counted a hundred.

Shoshone's voice was flat and dead. "Is that the way it looks to you?"

"Look at it yourself."

"Then," Shoshone said, "I guess there ain't anything more to say." He stood up.

"There's this to say," Bill Roper said. "You're going to work with me tonight because I haven't got anybody else. You're going to do exactly what I say, and when I say, without any back talk or question. You make one slip tonight and the West won't hold you, nor the world won't hold you, and you'll answer to me in the end. You hear me?"

"Okay," Shoshone said in the same flat, dead voice.

"One thing more," Roper said. "If we make a quiet job, we'll try to go out slow and quiet, the three of us together. Otherwise, you take Jody's lead rope and ride like hell. Six miles below here, near the creek, there's a kind of a brush corral. You and the girl will wait for me there. Wait for me until daylight begins to come; then go on."

They moved down into the valley of the Fork, walking fast. When they had dropped into the bed of Fork Creek itself they moved northward, following its windings, for what seemed a long way; but no sign of approaching dawn yet showed, and Roper felt that they had plenty of time. As they at last passed the point where the cabin stood, invisible in the dark, Shoshone indicated its location with raised arm; but they moved on fifty yards farther, so that they might approach the cabin from the north.

Cautiously now, Shoshone climbed the bank, silent as the Indians with whom he had spent his youth. Turning, he gripped Bill Roper's arm. His words were whispered close to Roper's ear.

"One of the night guards is out that-a-way, about five hundred yards," he whispered; "about in line with where you see that big dead pine."

Roper could see no dead pine. It annoyed him that Shoshone's eyes were better than his own—as good as the eyes of an Indian, or a lynx.

"I'll leave my carbine standing just outside the door," Shoshone said. "I only want it for later, after we've took to the horses."

"That's all right," Roper said. "But you remember this: If there's any trouble in the cabin, you stand and fight! Because if you don't, I'll turn and plug you myself, if it takes my last shot to do it."

"Okay."

Roper went ahead now, walking boldly across the snow. Better, he thought, to simulate the casual approach of friends than to depend upon a hope of complete surprise.

As he raised his hand to the door a strange thrill of dread momentarily stirred him at the thought that Jody Gordon was inside—with whom?

Wilec to find him. They were attacked by some of Thorpe's men hiding in Roper's shack. Wilec escaped, but Jody was captured. Roper was approaching one of his own shacks when he noticed outposts keeping a careful watch.

ing the time. Yet he knew very definitely that dawn was just two hours away.

He shook Shoshone Wilec. The little man groaned once, then came full awake with the sudden response of an animal.

Without the snow the rock-like impenetrability of the overcast sky would have made the night utterly black, but the ghostly pallor of the snow had the effect of faintly modifying the darkness. Birthday Party for Sis

Birthday parties given by modern young misses call for a great deal of planning as well as diplomacy. For little ladies of eight can be just as temperamental and jealous as movie stars. Games should be scheduled as precisely as a railroad time table, and refreshments planned down to the last cookie.

Right: Dorothy Edith Sasse, eight, whose dad took the pictorial record of this affair, welcomes the arriving guests.

Picture Parade

FLOOR SHOW . . . Virginia Smith, a talented youngster, is holding the floor here with a recitation.

MAIN EVENT . . . One of the games children go for most is the ancient one of pinning the tail on the donkey.

STAGE SET . . . Arrangement of the banquet table calls for an understanding of the psychology of ladies of eight. All hats and favors are exactly alike to avoid loads of trouble.

"BIG BLOW" . . . Dorothy Edith is giving the big huff and puff here to blow out the candles on her cake.

AS WE GO ABOUT SAVING MAN HOURS

EVERY LOYAL AMERICAN will approve of any method which results in the saving of man hours so badly needed in our national defense preparations, but—

The press was given a graphic story of production speed in connection with the recent launching of the battleship South Dakota. According to that story, before the ship hit the water, the keel of a new one was being laid on the ways she had just left. So great was the effort to save man hours that the workmen who had built the South Dakota were not permitted to stop work for a few minutes to see the monster slide into the waters of the Delaware river.

All of that represented a commendable saving of a few man hours when man hours are sadly needed, but—

Work in the great shipyards around San Francisco bay was stopped, or seriously retarded by an unwarranted strike called in violation of a labor contract by a comparatively small number of essential machinists. Over a period of 30 and more days, the time loss represented hundreds of thousands of man hours, and nothing much was done about it.

Yes, the conservation of man hours at Camden was all to the good, but that story of production speed given to the press sounded a bit like carefully planned propaganda.

HONEST LABOR ENTITLED TO FAIR SHARE

PRODUCTION values, the amount for which manufactured commodities are sold, are divided between labor, raw materials, management and selling, taxes—municipal, county, state and national—and capital, as interest on investment.

Labor, the man or woman who works at bench or machine, demands its fair share of what it produces. Collectively and nationally, we know labor receives a fair share of the national income, but each workman, individually or by factory groups, wants to know that he gets his share of what he produces.

He does not want to take the word of some interested party as to the amount of his share. He wants definite proof.

That is the crux of the real labor problem. There are labor racketeers and labor saboteurs who can be dealt with without injury and, in fact, as a benefit to honest labor. The solution of the problem of honest, patriotic American labor means finding some method by which each workman in each factory group may be definitely shown that he gets his fair share of what he has helped to produce.

With all the ingenuity to be found in America, that should not be an unsolvable problem. It has been accomplished in some plants and those plants do not have labor difficulties.

NO ROOM FOR SABOTAGE OF AMERICAN DEFENSE

ONE AND ONE-HALF MILLION men in the armed forces of the nation are working, at \$21 a month, with inadequate tools to prepare themselves for the job of defending American liberties, the American way of life.

Thousands of other men are refusing to work at wages of \$190 to better than \$200 a month so the \$21 a month men may be provided with the tools needed to defend our liberties.

We do not want government operated industry. It cannot be as efficient as when privately operated. We do want, and demand, that privately operated industry be operated without excessive profits and the government levies heavy excess profits taxes to prevent any possibility of war profits.

The government has drafted men for the armed forces at a wage of \$21 a month. It can, and may, draft men to man the machines to produce the tools of war needed by the armed forces for the protection of American liberties. Strikes in any plant in which defense equipment is being produced should not, and will not long be, countenanced. It is that kind of thing which caused the downfall of France. It is sabotaging the American defense effort.

TO BE SURE, this present war is terrible, but it does not sound so bad when we realize more Americans were killed during the 18 months we were an active participant in the last war than the total of English losses during two years of this conflict.

"DOLE" OR WORK?

As an experiment, the state government of Illinois made an effort to find jobs in private employment for 90 individuals then on relief. Of that number, places were found for 46, two others refused to accept any job, three did not show up after accepting and three did not want the kind of jobs offered. The numbers were too small to prove anything, but what would your guess be as to the percentage of those now on relief who prefer to continue to receive a "dole" than to work for a living?

J. Fuller Pep

By JERRY LINK

"We're makin' new rules for you, Uncle Fuller," says that shaver, Willie. "Since you ain't eatin' KELLOGG'S PEP you ain't run around the bases (types) before your home runs count!"

Which shows how much the knowledge o' the young you have to get all your vitamins to feel as good as I do, and KELLOGG'S PEP has got the two that are most likely to be scarce in ordinary meals—vitamins B₁ and D.

PEP's a wonderful fasting cereal. Too, why don't you try it!

Failing Community
A churchless community, a community where men have abandoned and scoffed at or ignored their religious needs, is a community on rapid down grade.—Theodore Roosevelt.

Deadly Tongue
The second most deadly instrument of destruction is the dynamite gun—the first is the human tongue.—W. G. Jordan.

Cause and Effect
"Your daughter tells me she's cultivating her voice."
"Yes—and the rest of us are growing wild!"

Nervous Restless-Girls!

Cranky? Restless? Can't sleep? Tired easily? Because of distress of monthly functional disturbances? Then try Lydia E. Pinkham's Vegetable Compound.

Pinkham's Compound is famous for relieving pain of irregular periods, and cranky nervousness due to such disturbances. One of the most effective medicines you can buy today for this purpose—made especially for women. WORTH TRYING!

One Way Open

"What about your prospects of promotion?"
"Splendid, sir. I can't go any lower."

DIARRHEA

DUE to dietary indiscretions, change in weather can be quickly relieved by Wakefield's Blackberry Balsam. For years a household remedy. Sold at all drug stores. Be sure to ask for genuine.

Wakefield's BLACKBERRY BALSAM Compound

Center of Wisdom

Man, know thyself! All wisdom centers there.—Young.

Miserable with backache

WHEN kidneys function badly and you suffer a nagging backache, with dizziness, burning, scanty or frequent urination and waking up at night when you feel tired, nervous, all upset . . . use Doan's Pills.

Doan's are especially for poorly working kidneys. Millions of boxes are used every year. They are recommended the country over. Ask your neighbor!

DOANS PILLS

Read the advertisements. They are more than a selling aid for business. They form an educational system which is making Americans the best educated buyers in the world. The advertisements are part of an economic system which is giving Americans more for their money.

CHAPTER XX

There were no stars when Roper roused himself in his blankets, and he had no mechanical means of telling

time. He looked at his watch. "That's how I seen she's all right."

"Can you make out who the bunch down there is?"

"I figure they're some Thorpe gunners, out after your scalp. I figure they was laying to gun you. And now that they got the girl, I figure they aim to hold her for bait, and of—"

Shoshone fell silent, and Roper, deep in thought, let him rest.

"You're most likely right," Roper murmured at last. "There's four or five of these Thorpe war parties out after me; and this could easily be one. But of all the infernal luck I ever saw—What did Jody want with you? Did she tell you?"

Thorpe has made up his mind to kill her old man," Shoshone said. "I want and told her, because I thought you'd want her to know, so she could maybe look out for him. But the old man wouldn't

Briscoe County News
"Official City and County News"

ROY W. HAHN
Editor and Publisher

I MEANT TO have a complete financial report of the rodeo this week but owing to the fact that the committee up to now has been afraid to add up the expense sheet, it is not ready. Or really I guess, Schott has been busy with a tractor breaking down. Whiteside has been selling shirts, Redin has been harvesting. Weaver has a rodeo headache. Wood has been answering all phone calls personally. Doc Minyard has been servicing combines, and Tom Bomar has been acting as Mayor. Just too much unfinished business. But you can rest assured that when the thing is rounded up that you will know exactly where every cent went—even though you don't know where it comes from. And there are about sixty stockholders who know where it comes from.

FOOLISHNESS ASIDE, for rodeo fans, it was just as advertised—the greatest rodeo in Briscoe County. Did you ever see any snappier events than in this rodeo. And the old square dance, boy folks liked that.

AND THAT MAKES me think. I'm going to promote a project. We have a platform now, and what do you folks think about us setting it up about once a month for a free square dance on the street on Saturday night? Some of you folks that like the old time dances express yourselves. I believe that there could be a lot of fun in some thing like that. Merchants could

maybe pay the old fiddlers, just to show folks that we appreciate them coming to town.

AND THERE IS THE aluminum project. Every single person in the United States is supposed to have a little part in the defense of their country. It's just a small thing to ask that we each find an old pot or an aluminum piston or something to give to speed up airplane production. From July 21 to 28 look for any old aluminum and bring it to town. This is not a LOCAL project. It is NATION WIDE.

AND NOW I am going to say something about something that several folks have told me that I shouldn't mention because it might put a lot of false ideas in folks heads. BUT, I have held my peace long enough and nothing has developed. So here goes:

ABOUT TWO YEARS ago an assay was made in several places near here with the view of seeing whether or not there was material here for glass making. Now a short time ago, the boys got to remembering that that assay showed an aluminum deposit of about 14%. Well, if there is one chance in a thousand that we have something here that Uncle Sam needs, then it is time for every citizen to start writing to O'Daniel, Worley, Jones and anyone else that we think maybe we have something. Even if we don't. We don't know for sure. If they want it, sooner or later, with enough promoting it will be looked into. It might be a false alarm—probably is—just the same, we might have something very valuable in defense work. If we don't have what it takes to find out the government has, and if we pester them enough they WILL find out.

ANOTHER ELEMENT THE assay showed was magnesium I think. It is even more scarce than aluminum, and in great demand right now.

WELL, IF WE have it let's find out. We can find out by starting to talk about it. If we have what they want, they will develop this section into a great industrial spot. If we don't have it, we still have the satisfaction of knowing we did the best we could.

HOLD EVERYTHING — Just looked up "Aluminum" in Web-

ster. It said "the most abundant mineral in the earth's crust, of which it forms about 8%". That makes it a little different. But just the same, 14% is a pretty much higher percentage than 8%. We still might have what it will take to win the war.

YOURS TRUELY has a new car. Really keen too, or at least it seems so to me, after having a pretty old one. And by the way Crass has that old one and I want it to have a good master. That car has made history. In fact, it made history before Yours Truly was married. It never has been too good a family car but boy, was it a courting wagon? Until its master met its mistress, it could go anywhere in West Kansas without a hand on the wheel. A bunch of you old timers who used to hook the lines over the dash board will know what I mean.

AND THAT MAKES me think again about these subscriptions. In fact I was thinking about those subscriptions when I ordered that car. And to help remind you of the drive for aluminum, I'll do this—During Aluminum Week or from now till July 28, any old piece of scrap aluminum will be accepted at 10c on a year's subscription. The aluminum of course, will be turned over to the committee, and each subscriber who takes advantage of it will be given special mention.

THIS LINOTYPE OPERATOR of mine is not only a pretty good operator and printer but ranks high in the field of dancers. For instance—during the rodeo, he was really giving it down at the dance with a princely exhibition of the jitterbug with all the extra strings attached — and a girl danced by and said "Whatsa matter Jack? Got the cramps?" Such boys, and such girls, I don't understand it—but I wish I could do the jitter!

HERE'S THE LATEST "soldier" story—you'd be surprised who was spreading this propogander too—but it's a good story me-

thinks: The army doctor was examining a new recruit and asked: "What about your bowels?" "They haven't issued them to me yet." "Well," said the doctor, "Are you constipated?" "No, I enlisted", came the answer. "Son", said the sawbones, "You don't even know the King's English, do you?" "Yes I heard he was English", answered the brilliant rookie.

ROY TEETER got in Dutch with the county ACA committee head this week when he tried to explain that he didn't have any "overage." Roy told him that he was putting the surplus in one bin, but that a hen got loose and ate it all up. . . You can bank on Teeter knowing about 98% of all the answers.

THERE WILL BE a red circle around your name label again this week if you need to pay up. Look right now, and come a-running. The offer will end July 31, and all who are in arrears will be discontinued. If this paper isn't worth paying for, then I am bowlegged like this ()—and I am not; I am knock-kneed like this ().

IT IS MIDNIGHT Wednesday and I must up and away—to bed. I may have another batch tomorrow—if my thinker ticks.

WHEAT PRODUCERS COLLECT INSURANCE

All risk wheat insurance claims already have been approved for 801 Texas wheat growers. E. R. Duke, state crop insurance supervisor, has announced.

These claims cover a total indemnity of 396,955 bushels on 75,733 acres and represent only a small percentage of the indemnities which will be paid producers who have suffered partial or total losses of their 1941 crops because of flood, rust, plant diseases and excessive rains at harvest time which caused a growth of weeds so heavy that harvest was impossible.

Wheat growers in various parts of the state, Duke said, improvised different devices in an attempt to

save a part of their wheat which had been badly damaged by wind and rain.

Producers making claims may collect their insurance in two different ways. They may request indemnity to be paid immediately in the cash equivalent, or they may request that settlement be deferred until later. If the deferment plan is used, certificates of indemnity may be issued and converted into the cash equivalent at a later date.

A total of 11,040 Texas wheat growers insured their 1941 wheat crop with the Federal Crop Insurance Corporation on a production of 4,943,435 bushels.

NEW PATROLMEN TO BE TRAINED

Texas State Police officials last week were ready to employ and train more than 100 new highway patrolmen and drivers license examiners authorized in the department appropriation bill signed by the Governor.

State Police Director Homer Garrison said that "these new men are desperately needed, and they will be placed in training immediately after the appropriation becomes effective September 1."

Garrison set July 28 as the deadline for mailing form applications to the Department of Public Safety at Camp Mabry in Austin. He said that examinations will be given at highway patrol district offices around the middle of August allowing only successful applicants before the seven-week training school begins at Camp Mabry.

"These appointments are decided strictly upon the individual's merit," Garrison said.

Applicants, to be eligible, must be citizens of the United States and residents of Texas for at least one year. The applicant must have a good moral character, must not be less than five feet eight inches in height, and must not weigh less than three and one-half pounds for every inch in height. The applicant must be between the ages of 23 and 35, must have 10th grade education, 10 letters of recommendation and good credit rating.

TEXANS ARE ANXIOUS TO AID IN DEFENSE

While the eyes of America are focused on the tense situation in Europe, Texas is bending every effort to aid in National Defense. Daily this state becomes of greater importance to the whole National Defense Program.

Bombers, of the type most needed by England, are being built at Dallas and Fort Worth. Ammunition will soon be turned out in a large volume by the plant now under construction at Texarkana; other articles of vital importance are being turned out daily by Texas industries. Large number of ships will soon be constructed in the modern warfare at Brownwood, Abilene, Mineral Wells, Palacios, San Antonio, El Paso and

CRISPY COOL ON A SUMMER DAY!
(See Recipes Below)

THIRST QUENCHER IDEAS

The thermometer's soaring and the summer sun's too hot, you say? Then you'll want a cool, gracious drink with tinkling ice to lift your wilted spirits.

Indeed the favorite pickup for a sultry day is nothing more than a simple drink of fruit juices, tea, or frothy milk with shimmering ice. The tartness of the fruit juices in these drinks will refresh and cool you, soothe your disposition long after you've sipped them. Besides they'll give vitamins and minerals to pep you up even more.

For a really cooling drink you might try some of the prepared fruit juice powders on the market. They can be mixed in a flash and give a very satisfying beverage. The children will like working with them, too, and won't muss the kitchen if they have this type of easy preparation to use.

Summer drinks can be especially attractive when served with those fragrant sprigs of mint you have growing on the side of the house, strawberries from the patch, or long, lengthwise slices of lemon to bring out the delicate flavor of tea. Ice cubes with cherries, red berries, mint leaves, orange or lemon slices, or fruit juices all frozen in the cubes will make your thirst quenchers a joy to look at.

Iced Tea.
Tea must be made double strength when used with ice, so use 2 teaspoons for each cup of water. Measure 1 cup of freshly drawn water, bring to a boil. Pour over leaves, let steep 5 minutes, then strain into a pitcher. Cool, pour into glasses filled with ice, two-thirds full. Serve with slices of lemon.

You can do such delightful things with this combination of tea, oranges and mint, so here's a recipe which you might like to try. It's a company favorite!

Orange Mint Julep.
(Serves 10)
6 glasses of strong tea
2 cups sugar
1/2 cup water
1 orange rind grated
Juice of six oranges
Sprays of mint

Boil the sugar and water and grated orange rind for 5 minutes. Remove from fire, add crushed mint leaves and let cool. To the strained tea add orange juice, and pour into glasses which are half-filled with crushed ice, and sweeten to taste with the strained mint syrup. You'll like this garnished with mint sprays and floating orange slices.

For a really exhilarating drink that has nutritive value so vital to lift lagging spirits, here's eggs and milk combined with fruit and juices. It's so-o-o good and looks like a charm.

LYNN SAYS:

A snowy frost on the glass in which you serve your cooling summer drinks is very attractive and simple to make. All you do is dip the top of the glass before it is filled into slightly beaten egg white and then into granulated sugar. Allow to dry thoroughly before using.

If you'd like a true frost for the glass try a drink which is guaranteed to have one. Such are the old-fashioned "granits" which may be of any flavor you desire. The granit is a half-frozen drink which is put in the refrigerator or freezer until a light snow-frost appears, but leaves the drink still liquid enough to pour.

For a strawberry granit, mash a quart of berries and cover with 1 1/2 pounds of sugar, then set aside for several hours to let a syrup form. Drain and press through a sieve. Add 1 tablespoon of strawberry extract, then mix with 1 pint of water. Freeze until the top is snow-frosted and serve in long, thin glasses.

THIS WEEK'S MENU

- Fruit Cup
- Noodle Ring with Fried Chicken
- Cream Gravy Hot Biscuits
- Fresh Asparagus with Browned Butter and Crumb Sauce
- Tossed Fresh Vegetable Salad
- French Dressing
- Iced Tea
- Red Raspberry Fluff
- *Recipe given.

Fruit Float.

- (Serves 2)
 - 1 cup water
 - 2 cups sugar
 - Juice of 2 lemons
 - Juice of 2 oranges
 - 2 eggs
 - 1/2 teaspoon salt
 - 1/2 cup fresh raspberries or strawberries
 - Chipped ice
- Boil the sugar and water for 5 minutes. Cool. Mix all the ingredients except the ice and beat thoroughly. Chill. When ready to serve, pour into glasses half filled with ice. Garnish with a few whole berries.

Fruit Wholes.

- (Serves 8-10)
 - 1 quart strong tea
 - 1 quart ginger ale
 - Juice of 3 lemons
 - 1 small bottle maraschino cherries
 - Juice of 3 oranges
 - 2 cups pineapple juice
 - 1 cup diced or crushed pineapple
- Mix all the ingredients together, sweeten to taste and serve iced.

Here's an old-fashioned treat that always makes new friends. I can still remember how nice the kitchen smelled when mother used to put it up, and then again how hospitable everyone thought she was when unexpected guests came and she served this drink. It has a delightful color, and unusual flavor.

Currant Syrup With Raspberries.

- (Makes 3 quarts)
- 1 pint currant juice
- 2 pounds sugar
- 6 pounds currants
- 1 pound sour cherries
- 1 pound raspberries
- 1 1/2 pints water

Pick, wash, seed, and dry the currants carefully. Seed and stem the cherries, and the raspberries. Pound and mash them well and let stand in a cool place for 36 hours. Then strain through a bag. Cook the sugar and water until it will snap when tested in cold water. Then add the fruit syrups, let boil 5 minutes, remove from fire. Let it get cold and then put up in bottles.

Cinnamon Almond Float.

- (Serves 6)
- 1/2 cup sugar
- 1/4 teaspoon ground cinnamon
- 1 quart cold milk
- 1 teaspoon almond extract
- 1/2 teaspoon vanilla
- 1 pint vanilla ice cream

Combine sugar and cinnamon; add milk and flavorings and stir until sugar is dissolved. Pour into tall glasses and top each with a generous spoonful of ice cream.

Coconut Flake Cookies.

- (Makes 5 dozen)
 - 1 1/2 cups sifted flour
 - 3 teaspoons double-acting baking powder
 - 1/2 teaspoon salt
 - 3 cups corn flakes or bran flakes
 - 1 cup butter or other shortening
 - 1 cup granulated sugar
 - 1/2 cup brown sugar, firmly packed
 - 2 eggs, unbeaten
 - 1 teaspoon vanilla
 - 1 1/2 cups shredded coconut
- Sift flour once, measure, add baking powder and salt, and sift again; add flakes. Cream butter, add sugar gradually, and cream together well. Add eggs, one at a time, beating thoroughly after each. Add vanilla. Add flour and flakes mixture, mixing well. Add coconut. Drop from teaspoon on ungreased baking sheet and bake in moderate oven (375 degrees F.) 12 to 15 minutes, or until done. For variation 1/4 cup chopped nuts may be added to mixture before baking.

Star Dust

STAGE SCREEN RADIO
By VIRGINIA VALE
(Released by Western Newspaper Union.)

ONE of the most interesting pieces of casting that's taken place in Hollywood is the selection of Joan Crawford and Greer Garson to combine their talents for the first time in "When Ladies Meet," a screen version of the stage hit of some years ago.

It's the story of a wife and the "other woman"; they meet without knowing that they're rivals. They become warm friends—and the fun begins when their identities are revealed.

GREER GARSON

vealed. The stars are fresh from hits—Miss Crawford from "A Woman's Face," and Miss Garson from "Blossoms in the Dust." Robert Taylor will be the fought-over male.

Edgar Kennedy, the "slow-burn" star of RKO Radio's shorts, is preparing to leave on his annual personal appearance tour. He will be accompanied by his wife, his son and Chester Conklin, and he will play Midwest theaters and fairs.

Katharine Hepburn, whose performance in "Philadelphia Story" put her back where she wanted to be at the box office, will start work soon on another picture. At present it's called "The Woman of the Year"; she'll play a newspaper columnist who's married to a sports writer. Metro feels that it's a good title for a Hepburn picture because of the comeback which she staged in "Philadelphia Story."

Miriam Hopkins withdrew from "Bad Lands" recently, giving two reasons, one ordinary, one unusual. The ordinary one—she felt that the part did not suit her; probably it didn't. The title doesn't sound like a Miriam Hopkins vehicle. The unusual one—she felt that Robert Stack, the leading man, was too young to play opposite her. Few feminine stars would admit that!

Jack Holt's offspring are doing all right for themselves in films—as is Papa. Tim is scheduled for six "outdoor dramas"—(just Westerns to us) for RKO for 1941-42, and his sister Jenny, who's 20, has been engaged to play the feminine lead in "Stick to Your Guns," a Hopalong Cassidy picture in which that veteran of Westerns, William Boyd, plays the lead.

Every so often somebody has the bright idea of trying to persuade Maude Adams to come out of retirement and make a picture. Nothing ever comes of it. The latest to try it is Frank Capra, who wants her to star in a film called "Meet Jane Doe, Mother of John Doe." If she could be tempted to make a picture the opportunity of working with Capra should do it.

Edmund Lowe and Victor McLaglen, who impersonated marines in the movie version of "What Price Glory" years ago, have become "Sergeant Quirt" and "Captain Flagg" again; this time on the air. They're doing a radio program designed to promote recruiting by showing modern life in the corps; it's a weekly feature, and should be welcomed by those who remember "What Price Glory."

Jaek Smart, of CBS's "Meet Mr. Meek," met a judge last week, not once but twice. Picked up for speeding, he didn't have the money for the fine, so the judge let him go home for it. He hurried so fast, wanting to pay the first fine and get to his radio rehearsal on time, that he got another ticket for speeding. But the judge let him out of the second one.

ODDS AND ENDS—Cleo Manning made her debut as a motion picture actress by being kissed by Clark Gable, in "Honky Tonk" . . . Metro's putting a lot of its most talented youngsters into "Down in San Diego"; they're amateur detectives who uncover a Nazi band amid defense activities . . . Lili Flynn and very young Sean Leslie Flynn have left the hospital where he arrived and gone home to Papa Erol . . . Mona Maris, of Warner Bros. "Law of the Tropics," will make two pictures in her native Argentina . . . Ann Southern has a new Metro contract . . . Richard Arlen is booked to do three melodramas for Paramount.

New Jobs Being Offered By U. S. Civil Service

WHAT a parade Uncle Sam could lead of his workers—workers of every kind. You may have often wondered if there is a place for you in that parade. New tests are being given all the time and there are literally thousands of different jobs. Perhaps you, too, are the kind of person our government needs.

To find out what your chances are, how you should apply, see our new 32-page booklet. Lists several U. S. Civil Service positions with salaries and requirements. Explains rules for applying, trial period, promotions, increases and benefits including retirement annuities. Send your order to:

Ask Me Another

A General Quiz

The Questions

1. How many tablets of stone held the Ten Commandments as given to Moses?
2. The average amount of blood in the human body is about what proportion of the body weight?
3. "Double, double, toil and trouble; fire burn and cauldron bubble" is a quotation from what?
4. What is a binnacle?
5. In Greek legend, who sowed the dragon's teeth?
6. What country named its capital after an American President?

The Answers

1. Two.
2. One twentieth.
3. "Macbeth."
4. A box containing a ship's compass.
5. Jason.
6. Liberia (Monrovia, named for President Monroe).

HANDY Home Uses MOROLINE

WHITE PETROLEUM JELLY

As Presented
We sometimes think that we hate flattery, but we only hate the manner in which it is done.—La-Rochefoucauld.

Invented Torpedo Plane

The torpedo plane, figuring so prominently in this war and highlighted by the crippling and sinking of the German battleship Bismarck, is an American invention. Patent for the first torpedo plane in history was obtained 29 years ago (in 1912) by Rear Admiral Bradley A. Fiske, U. S. N., retired, hero of the Battle of Manila.

Now 85, Admiral Fiske looks at the important role being played by the weapon he invented, developed to meet modern needs, as vindication of his dream.

AGGIE BRIEFS

(Continued from front page)

the American market," he said. "This year's crop is believed to be the finest foods listed in many years. Fresh peaches are one of the important protective foods listed as a 'Blue Stamp Item' by the Secretary of Agriculture. It is the aim of the Surplus Marketing Administration to aid the growers, consumers and industry of America by encouraging increased consumption of these needed commodities."

It is added that this cooperative educational campaign will augment the Food Stamp Plan under which fresh peaches and other basic health-protecting foods are available to needy families by means of Food Stamps, at this time.

One of the aims of the campaign

will be to encourage home canning and preserving. This is in accord with objectives of the National Defense Conservation and Nutrition program, which urges adequate food supplies.

A noted Texas criminal lawyer was defending a man accused of stealing an automobile.

"This boy", the prespiring advocate said in conclusion, "is as innocent as a new-born babe; he is as pure as the dewdrop that sparkles at morn on the petals of a rose."

While the jury was deliberating the attorney went over to his hotel room to put on a fresh shirt and when he felt for his watch, he remembered that he had put it on the table in court so he would not speak beyond his allotted time. Hurrying back to the courtroom, he found only two or three spectators and the only man inside the rail was his client—and the watch wasn't there.

The lawyer said, "Bill, you theiving blankety—blank, give me my watch!"

All the testimony had been submitted in a murder trial out in West Texas. The judge told the lawyers for both sides:

"There will be no time limit for argument; each lawyer can take as long as he wishes."

One attorney, noted for his booming voice and his liking for speech-making, said:

"From here on, it's a battle of wits."

"You're half right", murmured this columnist, at the press table.

A reader sends in the following, asserting that it is actually a copy of a Texas Dutchman's will probated a few years ago — (the names have been changed):

I am writing of my will mine-self that this lawyer went he should have to much money he ask to many answers about the family. First thing I want done I

don't want my brother Gustav to get a goddam think. He done me me out of four dollars 14 years since.

I want it that Huldy my sister she gets the north sixtie akers of at where I am homing at now I bet she don't get that loafer husband of hers to brake twenty akers next plowing. She cant haveit if she lets Gustav live on it I want I should have it back if she does.

Tell mamma that six hundred dollars she has been looking for 10 years is berried from the bak-house behind about ten feet down. She better let little Max do the digging and count it when he comes up.

The preacher can have three hundred if he kisses the book he he wont preach no more dumb-head talks about politiks. He should a roof put on the meeting house with and the elders should the bills look at.

Mamma should the rest get but I want it so that Rudolph should tell her what she should do so no moe slick irishers sell her vakum cleaner they noise like h... and a broom dont cost so much.

I want it that mine brother Rudolph be my executer and I want it that the Judge should please Rudolph plenty bond put up and watch him like h... Rudolph is a good bisness man but only a boob would trust him with a busted pennig.

I want d... sure Gustav don't get tell Rudolph he can have a hundred dollars if he prove Judge that Gustav dont get nothing, that d... sure fix Gustav.

Save, and aid Uncle Sam. Buy a defense bond today!

TO MUCH PERSPIRING ENDANGERS HEALTH

If your work is such that it causes excessive perspiration, add a pinch of ordinary table salt to each drink of water you take to help prevent heat cramps. This is advised by Dr. George W. Cox, State Health Officer, to prevent a possible increase in the number of heat victims as the Texas thermometer hits 95 degrees and up.

Laborers, mechanics, farmers and white collar wokers whose work causes them to sweat profusely, are in danger of having their body salt content become deficient with resulting heat cramps or heat fog. Salt is a prominent constituent of sweat; the body may lose as high as 40 to 50 grams of salt during hot days.

Industry, a method of preventing heat cramps is to take a tablet of pure salt or mixture of salt and dextrose with each drink of water. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

Salt deficiency may be prevented by taking salt in various ways. Where prepared tablets are not available, table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating. Alcoholic drinks should be avoided.

Heat cramps is characterized by pains (cramps) in the abdominal region, headache, and in severe cases, by nausea and vomiting. The body temperature remains about normal, likewise the pulse rate; body salt losses occur without the knowledge of the individual until there is a deficiency; then the abdominal muscles begin to cramp.

NEW OIL BEATS five other big-name brands in TORTURE-TEST

Endures Sizzling Death Valley heat for 13,398 MILES ON ONE 5-QUART FILL

How this Certified Record can spell new Oil-Savings—new Engine Safety—for You

You get the oil that outlasted 5 other highly reputed brands by 74% to 161% in Certified Competition, when you change to this proved-in-advance new oil named

CONOCO Nth MOTOR OIL
—Popular-Priced

Your own engine can be fortified by new Conoco Nth motor oil right today, at Your Mileage Merchant's Conoco station. But before going on sale this new oil proved that a regular 5-quart fill could establish startling extremes of endurance, protection and miser-economy.

Fantastic Death Valley brings Your Evidence

Death Valley seems to shimmy—like heat at your furnace door. And down on this desert impartial observers watched 6 identical stock cars run at 57-mile speed, torture-testing 6 quality oils including new Conoco Nth oil. No let-up, day on day, till each oil gave out and junked its engine.

Even the best competitive oil in the test was outlasted 5,683 miles by Conoco Nth oil. And one "rival" was

outlasted all of 8,268 miles by new Conoco Nth oil. Certified.

All this New Economy how?

America has long known Conoco best for making it possible to give any engine OIL-PLATING...lubricant that can't all quickly drain down, but must stay PLATED UP—alert against wear in advance—not waiting till oil-flow starts. OIL-PLATING comes from a rare synthetic...man-made under the Conoco Germ Processed oil patent. And Conoco Nth motor oil still brings OIL-PLATING—but not only that!...

In addition this new oil brings Conoco's latest synthetic—Thialkene inhibitor. It inhibits—controls—the effect of foul "leftovers" produced by every engine's normal firing. Otherwise uncontrolled oil spoilage could easily start. In oils that let this spoilage start, it spreads like a rumor—gets worse, faster and faster. But now that's nipped in the bud by Thialkene inhibitor, in new Conoco Nth oil... U. S. Patent 2,218,132. This oil stays more like its own good self. Then your engine will, and that saves oil... as demonstrated by the long life of Conoco Nth in pitiless Death Valley.

You'll never give your own engine such a "trial by torture." You wouldn't pass up your regular time for draining. Authorities say, "Don't!" But you can

know that Conoco Nth outlasted other big-name oils by as much as 161%... Certified. So you can see your chance of big Summer savings in changing now to new Conoco Nth at Your Mileage Merchant's Conoco station. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

IMPARTIAL

Latest available products of 5 leading competitors bought retail by Referee.

New everyday coupes used. Same make and model. Broken-in alike. Engines taken apart for Referee—to assure uniformity.

Cars tuned alike. Same route for all. Drivers rotated to even up on skill.

One fill per car. Never any added. Engines under lock.

Engines were under lock every mile. Cars were under scrutiny every minute. Never a drop of oil could be added.

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.
