Oil Test Down To 2480

According to Mr. Tyler, drilling superintendent on the Montague No. 1 oil test, drilling has been going well this week and Wednesday morning the test had reached 2,480 ft. Drilling will be somewhat slower after the 3,000 foot mark.

The rain the past week made a perfect lullaby for the drilling location and during the past few good days work is being rushed to fill in the low spots with dirt and caliche. Work was brought to a near standstill last week because the road in and out was so nearly impassable.

LIONS ARE HOSTS TO LADIES

The Silverton Lions entertained their ladies Wednesday night at the Lions Den, with dinner, a musical program and cards.

W. Coffee acted as toastmaster in the absence of J. L. Webb. A fifteen minute musical program was given by Lou Ann Williamson, Dorothy Roy McMurtry, Claynell Fowler, Clynell Hutsell, and Jean Northcutt. After the program the evening was spent in playing 42.

CARD OF THANKS

I want to take this way to say "Thank You" to my friends for their help and sympathy during the past few weeks. I'm practically well now, and I owe a lot to my friends for cards, flowers and other expressions of friendship.

MRS. DEE GARVIN

FOOD STAMPS ARE INCREASING LOCAL BUYING

Expenditures for food in Silverton and Briscoe County were increased \$2,052 during the month of September through the Government's food stamp program, it was revealed today by L. J. Crapleman, Regional Director of the Surplus Marketing Administration for the thirteen Southern states.

This sum represented the amount of blue stamps issued by the Silverton and Briscoe County Stamp Program office during the month. In addition, \$2,309 of orange stamps were purchased from the Government during the period, bringing the total amount available for food purchases due to the stamp program to \$4,361 for September.

Participating in the Silverton and Briscoe County stamp program during the month were 206 cases, representing with their families, 879 persons. Those participating represented 83 per cent of the 1,049 persons in the area eligible to receive stamps during September.

Since the stamp plan has been in operation, \$9,261.50 in blue stamps have been issued in Silverton and Briscoe County, augmenting regular food expenditure for the area by that amount.

Amount of blue stamps issued per person during September averaged \$2.33.

HANK BROWN PLAYING REGULAR WITH SIMMONS

Hank Brown, a Sophomore at Hardin-Simmons, is playing regularly now with the Cowboys. Hank, a former Silverton High star, plays in the backfield and has played in every game this year. This is unusual feat for a Sophomore. With two more years to go, Hank will be turning in some terrific accounts of himself on the gridiron. He is the son of Mr. and Mrs. S. P. Brown.

BAND NEWS

The Silverton band met Thursday October 2, to elect officers, which are as follows:

President — D. J. Northcutt
Sec. - Treas. — Jean Northcutt
Reporter — Lou Ann Williamson

The members also elected as their favorites, Jo Webb and Esdell Hutsell. Jo plays the base drum and Esdell plays a cornet.

Thursday night the band went to Turkey and gave a concert. After the concert everyone went to the drug store and enjoyed cold drinks.

Howitzer Shells For Hitler

Passed by Censor.

THIS small corner of a munitions plant somewhere in Canada which is manufacturing howitzer shells gives an idea of the vast munitions program upon which the Dominion is engaged. In the manufacture of shells, chemicals and explosives, Canada has assumed a position of supreme importance in the war. Nine of the Dominion's twelve chemical and explosive plants (one of them the largest in the British Empire) are producing and the

SOUTH PLAINS GIRL HEAD OF DRAMA CLUB

Lucille Weast of South Plains, a junior at West Texas State College, was elected president of the Eta Iota Chapter of the Alpha Psi Omega, national dramatic fraternity.

The club has been a stimulating agent for dramatics in West Texas State College and has secured for the college all the advantages provided by a large honor society. Election of students to membership has served as a reward for participation in the various plays staged on the campus.

INVENTORY OF TRUCKS FOR NATIONAL DEFENSE

Truck owners, including farmers, are to be asked to help the War Department in its transportation planning for national defense, Director H. H. Williamson of the A. and M. College Extension Service stated today. M. L. Wilson, director of extension work for the U. S. Department of Agriculture, recently asked the cooperation of all state extension services in the survey.

The inventory is being made at the request of the War Department and the National Defense Advisory Commission by units of the Federal Works Agency in cooperation with each of the state motor vehicle registration agencies.

Within the next few days truck owners will receive a special national defense inventory card from the Texas Highway traffic advisory committee to the War Department requesting information regarding the make of his truck, kind of body, capacity, time of year the vehicle is most urgently needed in its owner's business and whether in an emergency he would be willing to hire or lease it to a government agency.

Similar facts also will be requested on all busses and on all freight trailers with a capacity of 3,000 pounds or more. Information given on the cards will be confidential.

The Public Roads Administration is directing the inventory. The purpose in collecting these records of trucks and busses, the Federal Works Agency explains, is more effective planning of highway transportation in the assembly of defense industry materials, delivery of military and civilian supplies, relief of dock and terminal congestion, and movement of passenger traffic in emergencies.

Industry produces about 163,000 miles of wire a year for 160,000 different uses—ranging from paper clips to piano wires!

balance will be in operation soon. This year alone, the total production of explosives in Canada should exceed the entire Canadian output during the whole of the 1914-18 World War. In munitions plants, nine types of ammunition are being produced at a rate of millions of rounds per year. About forty per cent of the total national income of Canada this year will be spent by the Dominion for her own military needs and to give financial aid to Great Britain.

HALE CENTER MAN TO EDIT DALLAS PAPER

DALLAS, Texas Sept. 30th—Announcement was formally made Monday of the opening date of publication for The Texas Film News, a weekly newspaper devoted to the Texas motion picture industry. The News will cover every branch of the motion picture business in Texas from production, distribution and exhibition angles. Walter R. Smock, west Texas Exhibitor of Hale Center, will be editor. Offices of the paper are located at 302½ South Harwood Street. First issue will come off the press Monday, October 13.—Hale Center American

CONNALLY IS FOR HIGHER PENSIONS

Senator Tom Connally has introduced in the Senate a bill which would double the federal contribution toward Texas old age pension payments. This bill is in line with President Roosevelt's recent proposal to vary federal pension grants according to the per capita income of the States rather than on a fifty-fifty basis. This will enable the poorer states to receive proportionately a larger share of federal funds than that received by the richer states.

Under the present act the Federal government matches the Texas contribution dollar for dollar, but under the proposed Connally bill the Federal government would contribute a little more than two dollars for every dollar contributed by the Texas Legislature. In other words, a \$45 Texas pension payment would be possible by the State contributing about \$15 and the Federal government contributing the remainder. Heretofore the combined contributions of the Federal and Texas governments have totaled a little less than \$14, but with the same State contribution the total would be \$22.50 under the Connally bill. Under recent enactments of the Texas Legislature, if funds are available, the monthly payments from federal and state funds would amount to \$18.50, but under the Connally bill, with the same state contributions, the monthly payments would amount to \$27.75.

Senator Connally's bill was approved in substance in a recent Senate hearing by Dr. A. J. Altmeier, the Chairman of the Social Security Board. The present bill has been worked out by the joint efforts of Senator Connally and the legal staff of the Social Security Board.

Senator Connally's bill has been referred to the Finance Committee, of which Senator Connally himself is a high ranking member.

End-of-Year Rates In Effect on Dailies

End-of-the-year Bargain rates are now in effect on your favorite daily papers and you can take advantage of these savings at any time, at your local news agency, the Briscoe County News. By combining your daily paper and subscription with that of the home paper, you can make a still greater saving.

The Fort Worth Star Telegram is offering the same rate as last year.

Daily and Sunday — \$7.45
Daily only — \$6.45

The Wichita Falls Times and Record-News also are offering the same rates as last year, although they explain that they may raise at any time. Their rates are:

Record News (Sunday Times) 5.50
Wichita Times (daily & Sun.) 5.50

The Amarillo Daily News has made a slight increase in their bargain rates and the rate is \$5.95 for both daily and Sunday.

With world news seemingly more important than ever before you should check the expiration date on your paper and see that your money reaches this office early enough that you don't miss a copy.

Not only can you save on newspaper subscriptions here but also on magazines. Here is a concrete example:

American Magazine, and McCall's Magazine, and American Boy, and Screenland, and Hunting & Fishing, and Briscoe County News.

ALL FOR \$4.00

This is a \$7.50 value and absolutely cannot be obtained in any other way than in combination with the Briscoe County News.

PREVENTION EASIER THAN CURE

Come in and take that cold serum. What is the use of sneezing and sniffing through the winter when 90% of you can be immunized against it at very little cost and no less time and while you are at it have the children immunized against diphtheria and whooping-cough. This is a good time of the year for all these preventive measures. It's better to be safe than sorry. One bad cold will cost you more than all these preventive measures besides loss of time.

O. T. Bundy, M.D.
County Health Officer

MERCER BACK IN AS MANAGER OF LOCAL PALACE THEATRE

Walter R. Smock, who has operated the Palace Theatre here for the past eight months has resigned in order to take charge of the Texas Weekly Film News, a new news-magazine in Dallas. Joe Mercer, owner of the theatre, is back again as local manager.

The coming week's bookings will remain the same as under Smock's management. Mercer has already lined up several very popular pictures to be shown in the near future, among which are:

- "Charley's Aunt"
- "Sun Valley Serenade"
- "Wild Geese Calling"
- "Moon Over Miami"
- "Yank in the R. A. F."
- "Sergeant York"
- "In the Navy"

And many others which will be announced soon.

Archie Arnold, who has been the local manager, has returned to Hale Center, but has announced no definite plans.

The first issue of Smock's new paper will come off the press about October 15.

MRS. E. A. SNOW CELEBRATED 90TH BIRTHDAY SUNDAY

Mrs. E. A. Snow, a resident of Plainview off and on for 30 years, celebrated her ninetieth birthday Sunday at the home of her daughter, Mrs. E. G. Duncan, where lunch was served to four generations.

The following grandchildren of Mrs. Snow attended. Mr. and Mrs. M. C. Tull, Silverton; Mr. and Mrs. Shelton Murrah, Amarillo; Mr. and Mrs. Jamie Duncan and son, Jim Bob, Amarillo; Mr. and Mrs. Leon Duncan and daughter, Patsy, and Mr. and Mrs. Gene Duncan and Children, Robert, Lowell, and Dealia, Plainview.

Mrs. Snow makes her home with Mr. and Mrs. E. G. Duncan. Another daughter, Mrs. William Hogben, lives at Laramie, Wyo.

Introducing Our New Teachers

MISS BETTY HANCOCK of Haskell, Texas, teaches Sophomore, Junior and Senior English, and is co-sponsor of the Sophomore Class. She is a graduate of Hardin-Simmons University, Abilene, Texas, where she specialized in English and Speech. Miss Hancock also attended West Texas State Teachers College, Canyon; Austin College, Sherman; and Sul Ross State Teachers College, Alpine. She is now working on her Master of Arts degree at Colorado State College, Greeley, Colorado.

MISS PAULINE BATES of Collinsville, Texas, teaches shorthand, typing, and bookkeeping, and is co-sponsor of the Sophomore Class. She is a graduate of North Texas State Teachers College, Denton, Texas. She majored in Business Education. She is a member of Phi Omega Pi, a national honorary commercial fraternity.

MISS HELEN WILLS of Abilene, Texas, teaches Freshman English, Chemistry, and General Science, and is co-sponsor of the Junior Class and pep squad. Miss Wills is graduate of Texas Technological College, Lubbock, Texas, and also attended Texas State College for Women, Denton. She has been employed in national defense work. While in school she was a member of the Science Club.

GREASE GUN INJURES ELLIS

Horace Ellis came out second best in an encounter with a high pressure grease gun at the Texaco Service Station Sunday morning. The back end of the gun exploded in his face and gave him a nasty cut and black eye, however, the injury is not thought to be serious.

Mr. and Mrs. Ellzy Graham are spending a few days here with her parents, Mr. and Mrs. George Kirk. Graham is a welder and has been working in Iowa. They plan to be here for several days.

Bryant Strange Badly Burned

Bryant Strange is suffering from deep burns on his legs this week. He received the burns when the motor of his car was wet and he was trying to dry it. The motor caught fire and he had sat a can of gas he had been using a good distance from the car, but the gas had spilled from the can and the flame followed the gas on the ground and exploded the car. He was rushed to the Plainview Hospital for treatment, and is improving nicely.

By Ray Cash

The Scouts met Tuesday night at 7:30 at the Lion Den. The following Scouts were present: Clovis Hill, Jim Crow, Charles Parker, Milton Clemmer, Edwin Norris, George Rampley, Jerry Simpson, Paul Webb, Billie Dunn, A. Y. Doherty, Ray Cash, Curtis Wimberly, and two visitors, Mr. John Haynes, and Mr. A. Y. Doherty.

There followed a song session and a few games and the meeting was concluded.

A few of the boys and Mr. Lusk went to see how Coyce Kirk was getting along. A few of the others visited J. C. Fowler and Norland Havran, all three of the boys were sick.

Next week the Totem poles will be unveiled. Patrols have been making them and the public is invited to see them.

HARMONY CLUB HAS MEETING

The Harmony Club met with Mrs. Roy Hahn, Wednesday afternoon with Mrs. Theron Crass as joint hostess.

Mrs. O. T. Bundy presided over a short business meeting, and then turned the meeting over to the program leader, Mrs. Arnold. Roll call was answered with each member's favorite opera. The following program was enjoyed.

- Story of Tannhouser — Mrs. Maurice Foust
 - Piano Duet — Mesdames Theron Crass & Billy Dickerson
 - Vocal Solo — Mrs. Wilkerson
 - Opera Story — Mrs. True Burson
 - Choral Practice — by Club
- Lovely refreshment were served to the following ladies; Mesdames, Wilkerson, G. Alexander, Arnold, B. Dickerson, Aulton Durham, Dick Cowart, W. E. Schott Jr., Marvin Tull, Tony Burson, True Burson, Maurice Foust, W. Coffee Jr., Mrs. O. T. Bundy, and Miss Janie Schott.

ELLIS OPERATOR OF PHILLIPS STATION

Silas Ellis, former operator of the Texaco Service Station here, has leased the Phillips 66 Station, south of the Silverton Hotel. He will be handling all Phillips 66 products, and is equipped for washing and lubrication.

In an ad in this week's paper he invites his friends and old customers to see him in his new location.

MISS LEOTA RAMPEY of Clarendon, Texas, teaches Homemaking and is co-sponsor of the Junior Class. She is a graduate of Clarendon Junior College and Texas Technological College. Miss Rampey specialized in Homemaking and Science. She was a member of the Science Club, Homemaking Club, and the College Chorus.

WEEKLY NEWS ANALYSIS By Edward C. Wayne

Reports of Czechoslovakian Unrest And Nazi Claims of Important Gains Highlight News of European Fighting; Russia Says Enemy Needs Oil to Win

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) (Released by Western Newspaper Union.)

RUSSIA: Adding Machines

While Berlin had been making its adding machines ring out to them joyous accounting of the utter Soviet collapse of resistance to the south, asserting that 665,000 prisoners had been taken, and "some 300,000" had been slain, the Russians still painted a different picture.

Berlin had announced that "Russia has been all but knocked out of the war and the real turning point has come."

At the same time Russia had reported a sort of "inland Dunkerque" on the southern front, claiming that Marshal Semeon Budenny had succeeded in withdrawing considerable of his army, and that of 15 Russian divisions admittedly trapped in the Kiev battle, 10 divisions had escaped, and the other five "were in a position to give a good account of themselves."

Two towns had been named by the Russians as the critical points, one Achtyrka, and the other Kontstantinograd, where Marshal Timo-

UNREST: Spreading

Reports of unrest in Italy succeeded to stories of uprisings in most of the occupied countries of Europe, and the latest dispatches along this line came from the London radio describing conditions in Czechoslovakia, second of Europe's countries to be taken over by the Nazis.

It had been announced that Reinhardt Heydrich, former chief of police in Berlin, had been placed in charge of the protectorate of the Czechs, succeeding Baron Von Neurath.

Reports were, it had been stated, that there had been mysterious breakdowns in factories, explosions in munitions plants, train derailments, and that friction between Czechs and the German authorities was becoming "open."

Heydrich, London reported, would immediately set up courts martial with power to mete out death sentences for anti-Nazi activities.

Berlin sources reported an attempted revolt by part of the army in Czechoslovakia had been uncovered and at least 24 persons executed for their part in it.

At the same time Berlin declared that two residents of Germany itself had been condemned to death for listening to foreign radio stations, the first capital penalties exacted for this crime.

Also it had been reported that 22 more executions in occupied countries had been carried out.

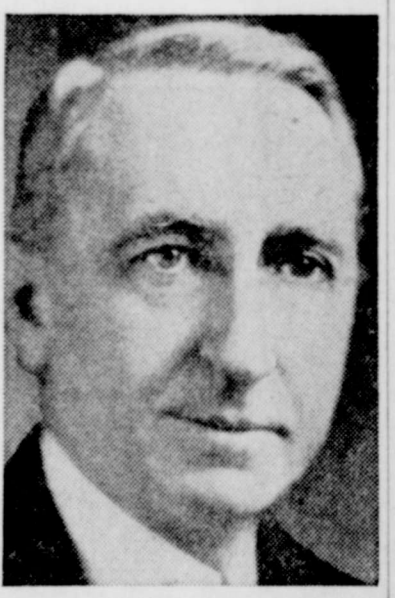

A Brussels paper had reported 20 of these in connection with the belief by the authorities that Communists had stolen explosives from a storage place in northern France, and had used them to attack French trains and German army transport trucks.

One of the Germans sentenced for radio listening had been publishing pamphlets against Hitler, it was said, while the other was a Polish woman working for a German doctor. She was accused of using her employer's radio for her nefarious and illegal listening.

PROFITS: And Patriotism

Profits, or restriction of them, had been linked to patriotic war efforts by Secretary of the Treasury Morgenthau in a proposal for a bill for a profit-ceiling of 6 per cent on invested capital.

This had received a warm reception in certain capital circles, and not so warm in others. Senator George of Georgia, head of the senate finance committee, bitterly at-

SENATOR WALTER GEORGE "Let the ink dry."

tacked the proposal on the ground that it would "result in incalculable hardship to legitimate business, would disrupt defense production and crush and kill small business."

He urged congress to "let the ink dry" on the \$3,500,000,000 tax bill before entering into another, larger revenue producer on a basis to take all of the profits of business save 6 per cent.

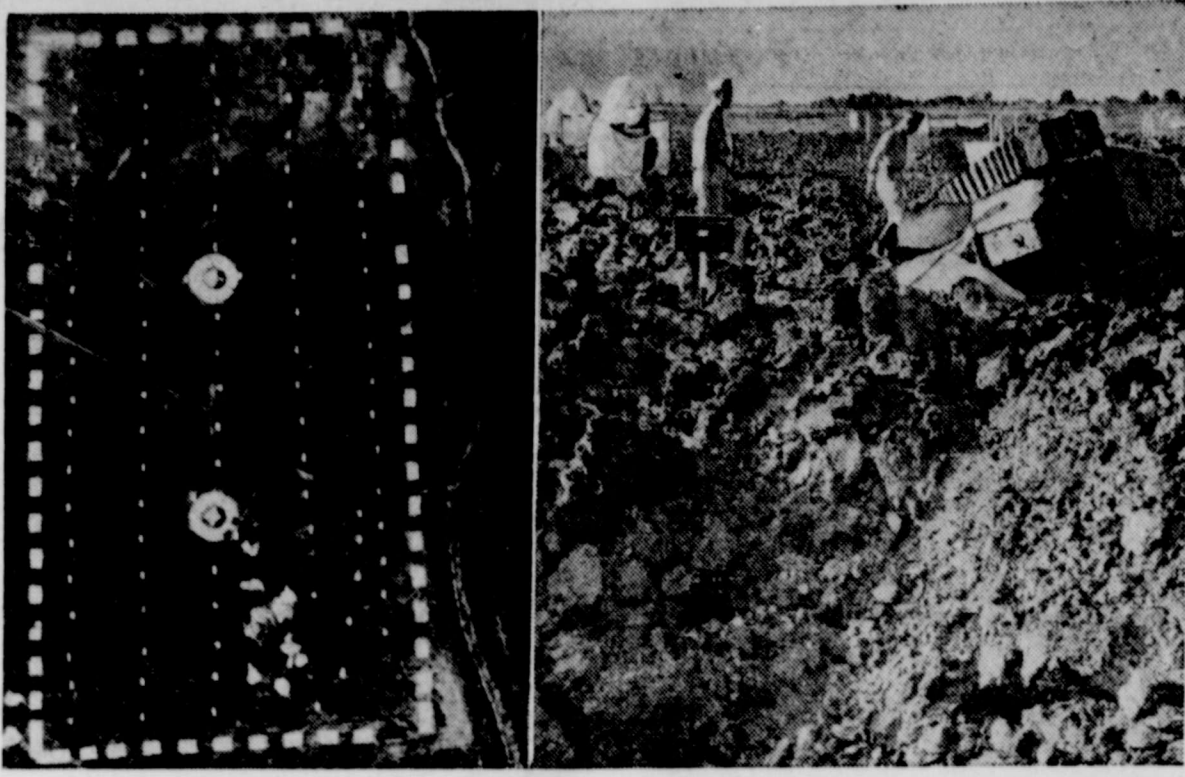

Most senators and representatives had been slow to comment, contenting themselves with saying they'd like to "think it over," and to "know more about it." It was when the word had gone out that Morgenthau had been drawing up such a bill, and when senators began to believe that it must have White House approval that Senator George launched his attack.

SHIPS:

The launching of 14 ships all on the same day at U. S. shipyards had marked an epoch in American shipbuilding, and was hailed by the President with congratulatory telegrams sent to each launching.

He revealed that this was part of a program that by next spring would see two vessels going down the ways every day, and by the end of 1943 would see the United States having built at least 1,000 merchant vessels to help regain the mastery and freedom of the seas.

Army Tests New Bombsight With Real Bombs

Left: View from a flying fortress, 15,000 feet up, of a target area at Barksdale Field, La. The dashes which make up the oblong mark "troop concentrations"; the dots within the area are obsolete tanks. Picture at right was made after the flying fortress and 12 army bombers using the new army bombsight had loosed 12 tons of bombs in 10 minutes. Almost every over-age tank was put out of action.

Refugees—From Wrath of Nature and Men

Refugees from the high tides caused just a few miles below New Orleans, by tropical hurricane, are shown at left. Here Red Cross Nurse Lelia Durand looks over children of refugee families. Right: A set of twins in tug of war on the liner S. S. Serpa Pinto. They were among the 56 refugee children from Germany and Nazi-occupied countries, brought here by the American Friends Service Committee.

New York Rallies to the Bill of Rights

A general view of the scene at the Bill of Rights rally on the steps of the sub-treasury building, in New York city. The rally was sponsored by the citizenship educational service and Federal hall memorial associates. Postmaster General Frank Walker and Mayor Fiorello LaGuardia were among the speakers.

Leningrad Youths Learn Art of Fighting

Youths of the Leningrad metal works learn the art of bayonet fighting, and how to surmount barriers after working hours. At any moment, says the Moscow censor-approved caption, the young patriots are ready to join the ranks of the Soviet in defense of beleaguered Leningrad. Picture shows a youth clearing a fence while others look on.

In Film Quiz

Darryl F. Zanuck, vice president of Twentieth-Century-Fox (left) and Nicholas M. Schenck, president of Loew's, Inc., who appeared as witnesses before the senate interstate commerce committee's investigation into alleged war propaganda in the movies.

Mobile 'Church'

While one warrior tries out the portable organ, another tests the public address system of this motorized "church" of the Fourth Division on the Louisiana front.

Washington Digest

Dangers to Agriculture Need Careful Attention

'Ceiling' on Farm Prices at 110% of Parity May Be Answer to Economic Problems Of Lend-Lease Spending.

By BAUKHAGE

National Farm and Home Hour Commentator.

WNU Service, 1343 H. Street N. W., Washington, D. C.

"Defend me from my friends; I can defend myself from my enemies."

That is what the farmer is beginning to say these days as he casts a wary eye toward some of his "friends" in congress, who are shouting "let her rip" when others urge some kind of a "ceiling" on farm prices.

The people who really have the interest of American agriculture at heart talk this way:

"The farmer has been on the downside of parity for a long time. He ought to be allowed to ride on the upside awhile. But inflation means deflation and deflation hits the farmer hardest as he knows from his bitter experience in 1921 and '22."

So these more conservative folk are urging a ceiling placed at 110 per cent of parity. And from the way things look now, in spite of the farmers' professional friends who are shouting "let her rip," that figure will probably be established in the pending price control bill, plus a good set of teeth to enforce such a limit on runaway farm price figures.

Well, says the farmer, how about a ceiling on wages, too?

It would be a courageous prophet who would predict that wages will be limited by law now, although the administration would like to see that happen—if congress made it happen.

There is just one argument that the worker puts up against a wage ceiling, and while it is hardly based on sound economic principles it has in it a certain amount of the quality of justice that cannot be denied. The workman says:

"There is no limit on supply. Nature can go on producing and the producer can reap the benefit as long as there is a demand. But the amount of labor a man can do is limited no matter what the demand is. There are just so many hours in the day."

And that is what the government faces when it sits down and tries to figure out a price control bill that will be fair to everybody.

Prediction Impossible

Nobody can sit here in Washington and predict just what is going to happen to farm prices, wages, peace, war, love or silk stockings in the next few years. The officials know, as the farmer knows, what happened to agriculture in and after the last war—chills and fever, with the feverish days of high prices and land speculation followed by the chilly days when the banker owned most of the farms and there were more absentee landlords than there were ticks in a grandfather's clock.

That is history and the job the department of agriculture has done—with the help of the farm organizations and congress—is to try to keep history from repeating itself. This is the way one official summed the situation up for me:

"A billion dollars is going to be spent for food for Britain in the next year. Wages are up all over the country. Pretty soon when defense production pushes a lot of gadgets of the market, folks will spend more on food because they won't have a lot of other things to spend it on. It will be a case of going down to the corner and getting another dish of ice cream instead of going riding in the new car you can't buy because there aren't enough cars to go around."

So far, so good for the farmer. But what about the time when lend-lease spending ends, when there may not be so many dollars in so many pay envelopes? Will the farmer be faced with more surpluses on his hands?

Let's listen to my friend again on that subject.

"We've got a law, you know—" he said, "a law that says that this extra production the government is urging has a price guarantee of 85 per cent of parity—a promise, an obligation, on the part of the government to support prices for milk and eggs and pork and chickens at 85 per cent of parity."

"And we also have a law—part of the same one—that says the secretary of agriculture has to give due notice in advance when it is time to stop extra production of these products. So this time the farmer

will have a chance to get on under—to shift his production there is yet time, to cut back according to his suit."

Will it work?

Well, if we can prevent the now, there certainly is a chance of avoiding the chills afterward we beat our tanks into the again.

Can a War Be Won—Without Fighting?

Whither are we drifting? That is the favorite question by all the good, old-fashioned folks.

What is the answer today into war?

Sitting here in my office I look down a busy street in the town I wonder. I see the Washington monument in the distance. I see the gentle Virginia beyond. Between the and a filmy fringe of trees the fine Potomac is flowing. I can imagine, when I close my eyes, peaceful scenes across the nation: Busy corners in small towns, the hurrying crowds of a mile up with Pike's and sister mountains rimming the horizon—the soft bay at San the wide sweep of Lake Mead palmetto-fringed squares of South, steep streets of Seattle neat white houses of the South still bearing the gentle mark of Spanish heritage.

Are these quiet places for their sons to die in some far try?

I think not. Perhaps this wishful thought. But let me to you a conversation that took as I walked home from a news conference at the White Three of us came down the ing drive and out onto historic sylvania avenue.

Another American-owned ship been sunk. The President has been very earnestly, very carefully. He had spoken about measures of defense, about attempts of a group who were to gain a foothold to the Western Hemisphere.

"It looks," said one of the "like a declaration of war."

I glanced up quickly to see the other member of our party would say. Like me, he had in one war and covered two.

"No," he said, "I believe Franklin Roosevelt wants to live in history as the President who a war without having to fight."

I smiled because I agreed. That man's comment is not tiffical. But it is typical of one group of observers here capital. Perhaps they are right hope so. I still believe so.

This is a topsy turvy world.

Legion's Attitude

Take, for example, the more liggerent attitude of the American Legion. The Legion has always strong for defense. (You would too, if you have ever been in a ing unit.) But heretofore it has ways been against foreign enements. It has always been a defense production pushes a lot of gadgets of the market, folks will spend more on food because they won't have a lot of other things to spend it on. It will be a case of going down to the corner and getting another dish of ice cream instead of going riding in the new car you can't buy because there aren't enough cars to go around."

As a former soldier and a naire I had my ideas. But I think them best expressed by a man knows the Legion better than old soldier:

"We have started shooting, can't shoot and argue at the time without spilling your own blood."

But this does not mean that we are going to war tomorrow. It simply means that the President has more backing in carrying his policy of beating Hitler we will be naval engagements, in the gory of the early battles in the tory between the navy and privateers.

There are 31,566,000 people nearly one-fourth of the nation rolled in America's army of education this year, from the elementary schools to the universities and schools, the United States of education reports.

INSTALLMENT SEVEN

Life's savings in the stock market, and her father had left her only a month before when she refused him additional money for work on his inventions. Stunned by this double blow, she accepted his proposal. They were married.

after signing a contract permitting her to continue her present mode of living, and to nullify the marriage after six months. Jacqueline invited Larry to her apartment for dinner that evening. Now continue with the story.

rather fun to watch Larry lounging about his tasks in a masculine, but peculiarly deft, fashion. They chatted together familiarly as they worked, putting things to rights.

heartedly to the business of being lonely. She derided herself philosophically and tried to reason out the situation. After all, it was simple enough . . . a mere business proposition.

"Don't let me forget I'm making a train tonight," Larry cautioned later as he slipped into his discarded coat. "I'm likely to overlook such trifles."

There was no reason in the world why she should expect to hear from Larry — every reason why she shouldn't. She admired him for sticking so closely to his bargain. But her heart gave a strange little leap in her breast every time she saw a mail carrier pass the door.

It would have surprised him to know that this thought had been recurring to Jacqueline with unpleasant frequency. It brought a little feeling of sadness, in spite of herself. Larry was going away. He had not said for how long, and she did not feel free to ask. But she knew in her heart that she was going to miss him . . . after tonight.

Silly! Jacqueline took herself sternly in hand. It was high time to stop this morning and attend to business. Very resolutely, she set about picking up the threads of her old existence.

"I won't let you forget," she promised very solemnly, with a glance at the clock. Only a little over an hour left! She turned on the radio, tuned it down so that the music would not interfere with conversation. She felt a little easier when they both were talking.

Two weeks of this wearying, baffling situation dragged out their allotted space. Then something happened. Jacqueline's office phone rang. An outside call. A woman's voice.

Perhaps Larry felt the influence of the music. He talked informally of this and that, indulging in few personalities. Asking no questions. Apparently, he was resolved to take no advantage whatever of this unique situation. Playing the game like a perfect gentleman, Jacqueline was conscious of something like a feeling of relief when he asked finally if he might use the telephone.

"Miss Anthony?"

"Yes."

"South Side Hospital speaking."

"What is it?" The word "Larry" struggled to escape.

"We have a patient who gives his name as Vincent Anthony," the voice went on. "Is he your father?"

"Why . . . yes. Yes! It must be! Is he seriously ill? Is he . . . hurt?"

"He is ill," said the matter-of-fact voice. "It may or may not be serious. But he has asked for you—"

"I forgot to take off my apron," she apologized in confusion. "I'm coming and everything tonight."

Jacqueline sat staring straight ahead of her, trying to fit the pieces of this new puzzle into an understandable pattern. But only for a moment.

"Please don't take it off," Larry added gaily.

The main thing, now, was to reach the South Side Hospital. The hotel doorman signaled a taxi at her breathless request.

"You're too big to get into this," Jacqueline laughed. "No, indeed. You sit there and read your paper or smoke . . . anything you like. I won't be but a few seconds."

In the hospital office, Jacqueline was told that Vincent Anthony was in the emergency ward, brought by ambulance after a police officer had seen him collapse on the street. That was early the previous evening.

"I shall watch you," Larry repeated significantly. Read a paper there was a chance to watch the beautiful she was just . . . so different. What was the use . . . of anything?

"A chronic ailment aggravated by malnutrition. There is a possibility that an operation may be necessary. If you wish to see him, please do not stay longer than necessary."

"I'll call for a cab and have it take me around to the hotel and pick up my bags. I'm packed."

As in a dream, Jacqueline made her way through long drug-scented corridors, then into a large room with rows of white beds. What did that woman in the office say? Something about malnutrition. That meant not having enough to eat!

"Must be my Jehu," he decided. And did not stir. "It is," he added, as the silence was broken an instant later by the sound of a buzzer. "I'll go out and tell him he found the right place . . . and to keep quiet," Larry observed, getting up. "Be right back."

"Vince! What is it? What have they done to you? Where have you been? Why didn't you let me know . . . ?" Questions tumbling from the girl's lips in whispers, after a lingering kiss on her father's forehead. She pressed one of his hands tightly in both her own, her dark blue eyes welling with unshed tears.

"I'm all right, Skipper."

"Vince! What is it? What have they done to you? Where have you been? Why didn't you let me know . . . ?" Questions tumbling from the girl's lips in whispers, after a lingering kiss on her father's forehead. She pressed one of his hands tightly in both her own, her dark blue eyes welling with unshed tears.

"I'm all right, Skipper."

She pressed one of his hands tightly in both her own, her dark blue eyes welling with unshed tears.

"I'm all right, Skipper."

Youth Work Defense Program

A new national defense work experience program of the National Youth Administration, designed to fit young people for jobs in defense industries, has been put into operation. This new effort, the "Youth Work Defense Program," for which congress appropriated \$60,000,000, will supplement the regular out-of-school work program of the National Youth Administration. Young people, 17 to 24, out of school and in need of employment, are eligible.

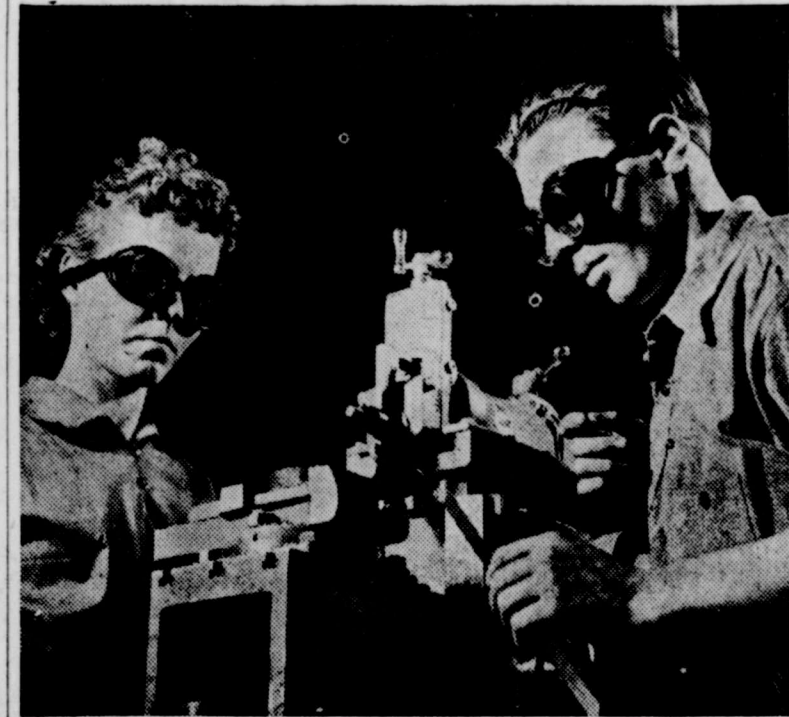

Picture Parade

Here in the NYA work center girls learn, through actual on-the-job experience, how to operate metal machinery.

Learning the elements of drafting will help this youth in reading blueprints in the shop.

The NYA is giving youth valuable welding experience, as shown above.

Shoulder to shoulder the boys and girls of America are finding their place in the defense program.

The youth themselves are our principal product," says Aubrey Williams, administrator of the National Youth Administration. "They have been made to feel that they are part of a social structure."

America's youth learns correct work habits—one is being on time.

My Week

by Eleanor Roosevelt

AN ENTERTAINING EVENING

We had an interesting evening as we watched some short documentary films, and then two gentlemen, Mr. Charles L. Todd and Mr. Sonkin, who have been making recordings of interesting folk songs and dance music in the migratory camps on the West coast, for the Library of Congress, played some of their records.

One, a song by a boy of 14, was a gem, though he was covered with confusion and ran away when he heard it played! Many of the records, like the song written by a woman about her trip from Texas to the West, were heart-rending, in spite of the fact that one could not help laughing at certain little twists of language and expression.

These recordings are going to be historically interesting, but the inspiring thing to me is that people can live through such hardships and still have music in their souls and the ability to express themselves hopefully. Mr. Todd told me that when they have a dance, or are happy, over the prospect of work or some small event in their daily lives, these people apparently seem to be able to enjoy themselves with complete forgetfulness of the past and the future. They have learned what so many of us do not learn—that the present is the only thing we really possess.

CHINESE PHILOSOPHY

That night I read a little volume, arranged for publication by Stanford Cobb. It is called, "The Wisdom of Wu Ming Fu," and is a collection of his translated poems and sayings. The Chinese philosophy over the centuries has come to the same conclusion as our migrants, and they would agree with Mr. Fu that "it should be our concern to make each present moment perfect."

'WE HOLD THESE TRUTHS'

The next day was most beautiful and four of us went by car to Sugar Loaf mountain and basked in the sun, with a beautiful view spread out below us. After lunch, in the shade of some trees, with the rocks as our seats, we read aloud the preface to a short anthology called "We Hold These Truths," compiled by Stuart Gerry Brown of Grinnell, Iowa.

This address impressed me, for I know two pretty good representatives of what American citizenship means, who are now in Washington and who have had close association with this same place in the past. This anthology is a collection of documents, written by our great men over the period of our whole history. Documents which all of us frequently want and should turn to, to clarify our own beliefs.

One afternoon I received Dr. Juan Carlos Blanco, the ambassador of Uruguay and Madame Blanco, and Mr. Fernand Dennis, the minister of Haiti, and Madame Dennis. They were my first diplomatic visitors for the fall, and they certainly were charming ones.

Secretary and Mrs. Morgenthau dined with us that night, and the next day Mrs. Morgenthau was catching up on some of the civilian defense work on which we are going to work together in the coming months. I find a wealth of volunteers who are anxious to do something useful, but I shall not be satisfied until I begin to see people actually at work in communities all over the country. That is where the real civilian defense must have its roots.

By proxy, that day, I learned a good deal about my new job, because Mrs. Henry Morgenthau Jr. met the staff in the morning, and sat in on Director LaGuardia's meeting. In the afternoon, she met with another group, which discussed the complexities of the jurisdiction of work. All existing organizations will finally be drawn into a pattern where everybody will do his best with the least possible friction.

Anybody with experience knows what this can mean in the way of difficulty during the period of organization. A hundred times a day I shall wish what I have so often wished in the past, that human beings could be reconstructed overnight. If we would think only of the objectives to be achieved and never of all ourselves, how much more we could accomplish.

Great teachers through the ages have tried to teach us that this is the only efficient way of working and, perhaps, in the end, the only way through which any civilization can be saved. However, we do not always believe these teachers.

'DIGGING FOR MRS. MILLER'

I read through a little book called "Digging for Mrs. Miller," by John Strachey. It is an account of the experiences of an air raid warden in England. It is certainly different from anything I have ever read by him before. He is dealing with facts, whereas in the past he has dealt almost always with theories. It is a valuable little book and will enable people to visualize daily life for the ordinary man and woman where total defense is required.

1st CHOICE OF MILLIONS ST. JOSEPH ASPIRIN

View of Life
Life is a fragment, a moment between two eternities, influenced by all that has preceded, and to influence all that follows. The only way to illumine it is by extent of view.—William Ellery Channing.

INDIGESTION

what Doctors do for it
Doctors know that gas trapped in the stomach or quiet may act like a hair-trigger on the heart. They set the free with the fastest-acting medicine known—the fastest act like the medicine in Bell's-ase Tablets. Try Bell's-ase today. If the FIRST BOTTLE doesn't prove Bell's-ase better, return bottle to us and receive DOUBLE money back. See at all drug stores.

Links in the Chain
The diminutive links in the chain of habit are generally too small to be felt, till they are too strong to be broken.

Relieves NASAL IRRITATION

due to colds

When your nostrils become red, irritated, stuffy due to colds or dust, just insert a little Mentholatum in them. Note how quickly it soothes the irritated membranes and relieves the stuffiness. It will also check sneezing. Once you enjoy Mentholatum's comforting relief, you'll always want to keep this gentle ointment handy. In jars or tubes, 50c.

MENTHOLATUM

Forgetting Friends
He who forgets his own friends meanly to follow after those of a higher grade is a snob.—Thackeray.

Behind the Blush
The man that blushes is not quite a brute.

FOR WOMEN ONLY!

If you suffer from monthly cramps, headache, backache, nervousness and distress of "irregularities" caused by functional monthly disturbances—try Lydia Pinkham's Vegetable Compound—famous for relieving pain and nervous feelings of women's "difficult days."

Taken regularly—Lydia Pinkham's Compound helps build up resistance against such annoying symptoms. Follow label directions. **WORTH TRYING!**

WNU-L 41-41
Easily Won
Small minds are won by trifles.—Latin.

THE TRUTH SIMPLY TOLD

Today's popularity of Doan's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory use. And favorable public opinion supports that of the able physicians who test the value of Doan's Pills in their laboratory conditions.

These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes.

If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys fail, and diuretic medication would be more often employed.

Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, setting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!

WELL, HERE TIS 6:30 Thursday morning and here comes "Yours Truly" without an idea. "Yours Truly" without an idea is as a Napoleon without an army, an England without a Navy, or a hen without an egg.

THESE FLIES — They have the coldest stomachs this morning I ever saw—and already, every fly in town has tried to warm his stomach on my face.

HEADLINE — "The Judge Before the Judge"—The Coffees and the Hills were in Lubbock Tuesday for the Fair and first one thing and another. The madams got away from the misters and went down town with the car. While busily shopping (window only, of course) their nickel's worth ran out on the parking meter. The ladies received a ticket and it wasn't to the theatre.

Servel
STAYS SILENT... LASTS LONGER
Freezes with NO MOVING PARTS

EVERY YEAR, more and more people who've had experience with other makes are changing to Servel. They know that Gas Refrigeration alone can give them permanent silence, continued low operating cost, freedom from wear... plus Servel's modern beauty and many convenience features.

J. B. BAIRD, Dealer
Quitaque, Texas
J. B. Bray,
Turkey, Texas

THE MISTERS CAME to the rescue and went up before the judge with the madams. From what I hear, Judge Coffee turned lawyer and financier all at the same time. That means that he put up a most impassioned plea for leniency and a hard luck story all at the same time. The man on the city desk told them "It is so very unusual for a man to be brought in here with his own wife, that I am going to dismiss the case. But don't let it happen again."

IN THIS PAPER we have a page announcing the first home football game, next Friday, October 17. It's the first conference game too—with Flomot. Personally I don't know much about either team but our boys have a little "sting" to take care of from last year and here's hoping they pile up a nice fat score, and that Flomot gets what the little boy shot at. There won't be many games at home his year so let's all turn out in big style for this first game.

WHILE YOU ARE looking at the football page I wish you would notice the one in the middle, captioned Carl Dean Bomar. I asked Hoss where he played and he said "Oh, just anywhere a man comes out." The picture was made last year when Dude Boy was captain of the Smile Club.

NOTICE—Doc Brown, Doc Minyard, Orville Turner, Spence Long, et al. The Briscoe County News takes pleasure in presenting some new teachers. Just clip one of these pictures, pin on your lapel and call at the Cowart residence. Please mention the Briscoe County News.

JACK WAS MESSING around here the other night with nothing to do, so he racks his brain and writes an editorial. Picked a big subject—"Russia". It is really not what you would expect out of Jack. He started it off back in 862 and brought it up to date. Russia seemingly has had her ups and downs—kinda along the Dempsey-Firpo style. I'm going to run this little historical editorial but I'm waiting to see how the fifteenth round comes out. I'm hoping that Hitler will stop to hitch up his trunks just once too often, and Stalin can get in a haymaker. So far Stalin has taken a count of nine at Leningrad but seems to be weathering Hitler's rushes very well. Stalin is getting in some telling body blows that are bound to be wearing Hitler down.

I'VE NEVER BEEN very strong for Joe Louis—I guess just because he is a negro. But he is an all right champ. I heard him talk the other night on "We The People." They asked him how he felt about going into the army. He said, "I want to do it. If America needs me I'm ready. What other country is there in the world where they'd give a colored boy the chance America has given me?" Nuf sed! And that goes for all of us.

HERE COMES Burlison, commonly known as "Overhead". I must up and away. Keep your noses clean, boys and girls, and I'll tell you another story next Thursday.

WHAT'S SHOWING AT THE PALACE THEATRE THE COMING WEEK:

"I WANTED WINGS" (Friday and Saturday)

Three rookies join up for training in the United States Army Air Corps and a deep friendship develops between them. One is a wealthy polo player, one a garage mechanic and the third a football hero. Trouble is caused by a cafe singer who is out to get the polo player but the garage mechanic saves him from that situation so that he can get his wings and marry the girl he really loves.

"THE BAD MAN" (Sunday and Monday)

A group of "tenderfeet" are about to lose their ranch to a very crooked banker, when Wallace Beery, as the swashbuckling bandit, Pancho Lopez, recognizes the rancher as the one who saved his life and immediately sets about to straighten out the tangled affair.

"DR. KILDARE'S CRISIS" (Wednesday and Thursday)

Lew Ayres and Laraine Day are making plans for their wedding, when Laraine's brother, Robert Young, arrives from their hometown in the West. Young attracts Ayres by his fits of brilliance and depression and after an examination, Ayres diagnoses the case as epilepsy. This breaks up the wedding because Laraine won't marry due to the heredity of the disease but Lionel Barrymore steps in and after constant questioning, gets Young to confess to an accident in which he suffered a head injury. An operation corrects the condition and after his recovery, Ayres and Laraine go ahead with the wedding.

Mr. and Mrs. R. E. Douglas visited Rex and attended the Lubbock Fair Tuesday.

WE NOW KNOW

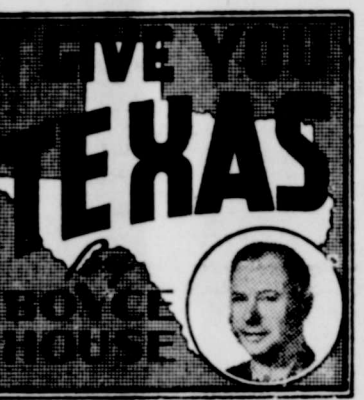

Hot WORKMEN ON VERY HOT JOBS ELIMINATE AS MUCH AS 3 PINTS OF PERSPIRATION AN HOUR, IN WHICH AS MUCH AS 45 GRAINS OF SALT IS LOST. THE LOSS OF THIS SALT CAUSES HEAT SICKNESS, OR HEAT PROSTRATION. TO PREVENT IT WORKERS ARE GIVEN SALT TABLETS WITH COLD WATER FREQUENTLY.

LONDON OWES ITS BIRTH TO SALT. THE SALT CARAVANS TRAVERSED THE THAMES WHERE LONDON NOW STANDS, AND THE PACK TRAINS MADE THE SPOT A HEADQUARTERS.

RAYON DEVELOPMENT WAS HASTENED IN AN EFFORT TO FIND A FILAMENT FOR ELECTRIC LIGHT BULBS. SIR JOSEPH SWAN PRODUCED RAYON FOR THIS PURPOSE IN 1880.

PETIT JURY CALLED FOR PROPERTY SETTLEMENT

The petit jury was called for duty today (Thursday) in the District Court. The case being considered was a property settlement case with Beulah Pietzsch and Elmer Pietzsch as the principals.

Blessed is he who expecteth nothing for verily he will not be disappointed, as my grandpa used to say.

Who was it that said the flag was going to be changed to 47 stars and a biscuit?

And the last trace of the Wob-

bly-Bobby has disappeared at Corigan with the tearing down of the old structure that was once the cotton platform of the W. B. T. & S. Railroad.

All play the varied Game of Life. With chance to win or lose; The game goes on from day to day. To baffle or amuse.

Some play the game with confidence, Some paralyzed with fear; Some play with high expectancy, Some fail when victory's near. Some play it nervously and fast; Some stack the cards to cheat; Some play to pass the time away. Some white-faced, meet defeat. Play on, my friend, the Game of Life. No matter how hard you fare; Play on, play hard, and play to win. But always play it square! (Author unknown)

Although the special session to pass the county bond assumption law has just been over a short time, already agitation has been started for another special session. While the legislature is in session, uncertainty as to new taxes and new laws keeps business men, industry and the public in general

disturbed and worried, and-as one observer expresses it—Texas is entitled to a recess from politics so its people can settle down to doing the things that will enable them to pay the new taxes—state and federal—and to turning out the things needed for national defense.

More entries in our old joke contest:

She's tongue-tied—her tongue's tied in the middle and loose on both ends.

Is he slim? He's so skinny that he has to stand up twice to make a shadow.

Where's my husband? He's down at the barn, slopping the hogs. He's the one with his hat on.

Del Rio has always suggested excitement to me. It all goes back to the days of my boyhood when my father had his boxball tent on the principal street of the border town. Just across the street was a saloon and, from time to time, the crash of overturned tables and the smash of glasses could be heard. Once the door flew open and three husky fellows came out, bearing the marks of battle, and last of all came the victor, the smallest man of the lot, his chest puffed out like a banty rooster.

While we were living in Del Rio, there was a "revolution" in Mexico and so a troop of American cavalry came to town. Some of them camped for a few days on the vacant lot next to us... Barbucue pits were on several of the corners (like filling stations are now) and the goat barbecue was very good... The stream that divided the town was singularly blue and you could stand on the bridge and gaze at the big, silver fish in the clear depth. On the other side of the bridge was the Mexican portion of Del Rio with such formidable names as "Boston Barber Shop" and "the New York Store"... Bread from the little Mexican bakeries with their adobe ovens in the back yard was delicious. I wonder if it would taste as good now.

It is needless to name him, says the Milwaukee Post.

He is hated by the people of America, of Czechoslovakia, of Poland and of Denmark. He is hated by the people of Norway, of Holland, of Belgium and of France. He is hated by the people of Yugoslavia, of Greece and of England. He is hated by millions in Germany, by millions in Italy, by millions in other European countries and in Asia, Africa, South

and Central America. Can such a man win a present place in the world? He is appealing to hate. He goes down in a storm of hate.

A hunter was telling of a forest with trees so thick he had to walk sideways, was caught sight all at once of a full-antlered, running through woods.

"How could that buck track the forest if you had to track ways to get through?"

"Why, he had to pull horns—the way some of you do sometimes."

THINGS TO WATCH

Plastic tips, instead of metal for shoe laces—of all sorts baby booties to cavalry boots—they will be substituted the saving half a million pounds, chiefly tin... procelain cookie jar equivalent "Mama, Mama" when a cadger reaches in...metics vending machines—being tried in Macy's, New York and for a dime they automatically dispense a portion of face cream and lotion, or toilet water new process for shelling corn involves "exploding" the kernel—a tiny hole in the shell, explosive gas in, then exploded by shock!... A "pinless" and "diaper" in which string is instead of pins.

Mr. and Mrs. Bennett Amarillo visited friends relatives here Thursday night week.

Mrs. U. D. Brown and D. Jasper visited in the Commons home Monday.

AGAZINE URGES MERCHANTS TO CO-OPERATE IN FOOD STAMP PLAN

The following editorial appeared in the "Texas Food Journal", a monthly magazine published by the Texas Retail Grocers' Association. It deals with the very important topic of grocer cooperation in the operation of the Surplus Marketing Administration's Food Stamp Plan.

"THE GOOSE AND THE GOLDEN EGG"

"With the inception of the depression some ten years ago, millions of people lost their employment and eventually had to go on relief rolls. The Government had to care for these people. Many plans for feeding them were devised, but few of them called for the handling of the food through regular established retail channels. This meant a loss of business to the retailer, and many of the small ones had to close up shop. Some of them went on relief rolls.

"The Government had a problem on its hands. Milo Perkins, one of our own Texans, was called to Washington, and it is said that mainly through his ingenuity, the Food Stamp Plan was devised and adopted by the Department of Agriculture, and approved by the Congress and President Roosevelt. This plan was hailed as the great solution. It was put on trial and gradually proved its merits and its benefits—to the merchant; and largely solved, in a practical way, the marketing problem of the producer for his surplus crops—and incidentally a service to the reliever. "Many millions of dollars have been appropriated by the Congress and scores of cities throughout the United States have been organized and are today distributing surplus commodities, bought by Government-appropriated money, and distributed through the established retail grocery outlets. The relief client is getting a balanced diet; the producer is thus afforded a market for his products; the retailer—good business for which he is paid.

"It is a sad commentary that some merchants would be so careless or deliberate in their opera-

tions that they would violate the rules established for the operation of the Food Stamp Plan. Will they kill the goose that lays the golden egg?

"Uncle Sam is jealous of his prestige established for law enforcement. The Journal shares in the opinion of many others that willful and flagrant violations of rules and regulations in the operation of this Plan will result in wholesale denials of participation and jeopardize continuance and expansion of the program. Those who are too selfish to be satisfied with the bounty of the Plan may find themselves—at no far distant date—not only deprived of the privilege, but also destroyers of the entire method. The Government will not tolerate continued abuses.

"Mr. Grocery Merchant, it behooves you—each and every one of you—to live by the rules and to see that your fellow merchant does likewise."

A PREDICTION ABOUT HOSE

Beautiful cotton hose, the kind women will be proud to wear, will be one result of the present hosiery situation. That's the prediction of Dora R. Barnes, clothing specialist for the A. and M. College Extension Service. Just how long it will take to develop that kind of cotton hose, she won't say. "Somehow I can't get excited over the present shortage of silk hose for something good will come out of the situation," Mrs. Barnes explains. Other fibers, such as nylon probably will be used more and more. Already manufacturers are combining nylon and cotton in hose, making cotton tops and toes and the remainder of the stocking nylon.

In addition, rayon will be used more in hose, since the United States ranks third in the production of that material. It can be made into hose that will wear well and are attractive.

Most women use little silk these days, the specialist points out, since so many other beautiful synthetic fibers are available and the cost of pure silk is so high. In many small stores it is impossible to buy pure silk.

Because of the current interest in the hose situation and in new cotton hose which are being developed, Mrs. Barnes will broadcast on the Texas Farm and Home Program from Stations WBAP, KPRC, and WOAI on September 16 at 6:15 a. m. Her topic will be "The Cotton Hose Situation."

Antelope Flat News

By Lola Mae Turner

The rain has delayed boll-pulling in this community.

Those reported on the sick list this week are, Wanda Graves and Mrs. Milton Sanders.

Mrs. Brady has returned to her home in Amarillo, after a few days visit with her daughter Mrs. S. A. James.

Mr. and Mrs. Dan Dean and son Dan Neise, and Lola Mae Turner attended the Tri State Fair in Amarillo, Tuesday.

Several of this community attended the Football game at Lakeview Friday night.

Those attending the Tri State Fair at Amarillo Saturday were: Mr. and Mrs. C. C. Brown and daughter, Betty Jean, Joe Bullock, Clinton Bullock, Bonnie Nell Edens, and Mrs. Bertie Sanderson, and son Louis.

Mr. and Mrs. Dan Dean visited Mr. and Mrs. Zack Salmon, who are ill in the Adair hospital at Clarendon.

Mr. and Mrs. Justice Ridge and daughter of Dennison are visiting her parents Mr. and Mrs. A. L. Durham.

Mr. and Mrs. D. W. Evans visited her parents, Mr. and Mrs. L. R. Dean of Clarendon.

Those attending the Barbaque at Lakeview Tuesday night were: Mrs. Bertie Sanderson, Louis Sanderson, J. W. Rowell, Shafe and Erma Joy Weaver and Marian Evans.

Mr and Mrs. Bill Edens made

BACK TO SCHOOL

Although the average American boy who returns to school after the summer holiday may not consider himself lucky, he is one of the most fortunate youngsters in this troubled world today.

The truth is that there are not many countries left where young folks have an opportunity to acquire unbiased information, free

from censorship and enslaving propaganda. There are not many countries left where they can grow in freedom and prepare themselves for the kind of work they want to do.

Yet such freedoms are but part of the liberty that has been traditional with us Americans—so traditional, indeed, that we tend to wear it as casually as our familiar clothes. To appreciate its real value we need only compare our way of life with that in many other countries. The want, the misery, the degradation of human beings that characterizes them is as alien to us as the languages they speak.

As we see our children return to school we need to remember that and to be grateful for it. Although we can not go back to classes with them, we can—and

should—reflect on the value of our freedom and consider how we may best preserve it from destruction.

I GIVE YOU TEXAS

By Boyce House

The changes that El Paso has undergone—and the picture is true in general of Texas cities and towns—is graphically set forth by William Moran, able editor of the El Paso Labor Advocate, who wrote this during prohibition days:

When I first came to El Paso it had ten banks and sixty-four saloons. Eggs were twenty cents a dozen. Texas street was an unpaved country road. Home buyers insisted on close-in locations. The valley struggled with Johnson grass, and dust storms made miserable the lives of the people. Road-houses were infamous.

The bungalow craze was just beginning. Beauty parlors, tourist camps, chain stores, auto laundries, bungalow courts, closed cars, home brew and bare-legged women all unknown. Golf was at a minimum and bridge only understood in limited circles. Petting was done in the parlor and drinking was left to the men. Ash trays had achieved no gift popularity. The luncheon clubs were yet unborn. Self-expression was found in the kitchen and workshop. Daylight hours were filled with labor and night-time was undisturbed by the moan of the saxophone.

Horse were still to be seen on downtown streets, and people carried packages unashamed. Installment buying was but faintly developed. Homes were furnished in tearful drapes and mournful mauves; jazz decoration, rich colorings and rococo styles were evidences of crudeness and barbarity. The bathroom was unholy unless in white.

Gin had not yet become a household word. The cocktail shaker never appeared except at stag suppers, and people quit dancing after forty. Divorces were spoken of in whispers. The speed limit was fifteen miles an hour.

Today, where the horse-wrangler lately plied his trade, we have city-planning and zoning, stop streets, through streets, one-way streets and leading zones, with

electric traffic control. Movies, talkies, co-operative apartments, tabulated public endeavors and card indexed charities are the rule of the day. Rayon has displaced cotton, and ice comes by wire. Few are too poor to ride and all too proud to walk. Potatoes are peddled by electricity and furnaces fired by a robot. Business men are whisked fifteen floors upward for a four hour day in a five day week. Surely civilization, on the border, has delighted, if not enriched the lives of the people.

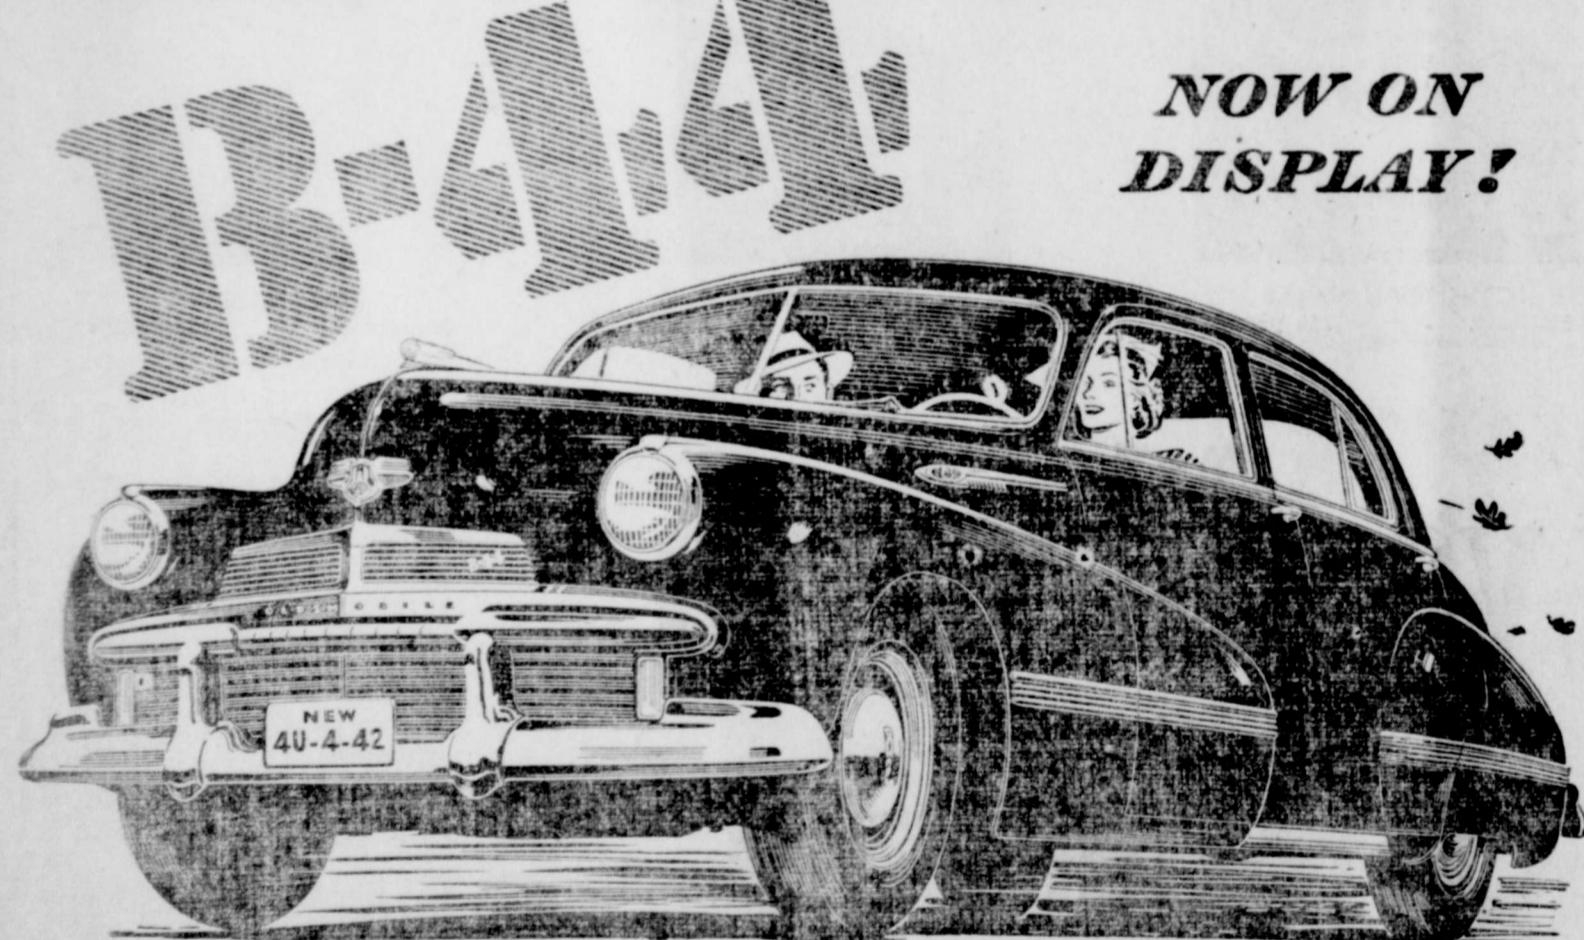

"Cattle" will be the central theme of the 1941 State Fair of Texas, which isn't very far away—October 4th to 19th. Two national beef cattle shows will be the feature of the \$150,000 livestock show. In the National Hereford Show (the third consecutive year it has been held at the State Fair) \$30,000 in prizes are offered and awards in the National Aberdeen Angus Show total \$10,000. The Hereford prizes represent the biggest amount ever offered by an fair in a single classification of livestock, it is declared by the columnist's old friend, E. P. Jones, publicity director.

At least 400 head of Aberdeen Angus are expected in Dallas what will be the first national show ever held for the breed black cattle.

But of course cattle are by means all. When closely questioned, the officials will admit that the 1941 State Fair will be the biggest and best yet—and the point to \$17,500 in prize money for "the largest farm show housed under a single roof," 500 poultry, besides the show, culinary, textiles, flower pigeons and others—the total of prizes reaching the breathtaking figure of \$150,000.

An Independent Midway, made up of the cream of the attraction of many exhibitors and not one, including the popular Harry Sadler with two shows; Press in the editors of the State be guests of honor; the Qu Pageant; University of Texas against University of Texas gridiron, so President Harry and Secretary Roy Ruppard good grounds for hoping to new attendance record set for third straight year, the 1940 being 1,116,487, with 215,000 dren on Children's Day.

OLDSMOBILE

Silverton, Texas

The chemical laboratories of the petroleum industry are now laying the foundation for industries of the future.

Out of their research are being created new products and more efficient ways of making old ones. Synthetic rubber, plastics, explosives, basic chemicals and scores of other essentials developed in petroleum laboratories are already being made on a commercial scale.

These scientific discoveries of materials vital to peace-time needs, as well as National defense, are opening up new fields of industrial activity.

Texas as the leading oil State is playing an important part in the creation of these new American enterprises. As a result, many young Texans now preparing themselves in our schools and colleges will find places in the industries resulting from this research.

The test tubes of today make the jobs of tomorrow.

Donaleta Seaney who is attending Draughns Business School in Lubbock spent the week end with her parents Mr. and Mrs. George Seaney.

Mrs. J. T. Neese and two grandchildren spent last week end in Electra with Mr. and Mrs. Mack Neese and Paul Neese.

THE RECORD... Facts That Concern You

No. 32 of a Series

"THIS BOOK ISN'T WORTH READING . . . tear down the Library!"

One bad book doesn't make it a bad library. You wouldn't *destroy* the library to get rid of a few bad books.

A similar situation holds in the beer industry. The vast majority of beer retailers operate clean, decent law-abiding establishments. Now and then an occasional "black sheep" retailer turns up who violates the law or permits anti-social conditions.

The Beer Industry is now actively working to eliminate such retailers. We want to protect your right to drink good beer and our right to make it.

We also want to protect the economic

benefits of beer. Right here in Texas, beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.

This state, too, has an important stake in Beer's purchases from more than 100 industries supplying the brewing industry with materials, equipment and services.

You, too, can help the cause of moderation by (1) patronizing only the reputable places where beer is sold, and (2) reporting any law violation you may observe to the duly constituted authorities.

BEER... a beverage of moderation

History in the News

Camp Cavalcade
SHADOWY figures in a cavalcade of American history—such are the men behind the names of the great army cantonments scattered all over the United States, where young Americans are learning to be soldiers in order to defend their country when the need arises.

Camp Toombs, near Toccoa, Ga., is named for one of the most remarkable men ever produced by that state—Robert Toombs (1810-1885), soldier and statesman. His first military experience was as a captain of volunteers against the Alabama Indians in the 30s, followed by a political career that took him to the United States senate from which he was expelled in 1861 because of his advocacy of secession. He could have been president of the new Confederate States of America, but he declined that honor, just as he had declined the offer of cabinet offices under President Taylor and Fillmore. He did consent to serve briefly as secretary of state under President Jefferson Davis, then was commissioned a brigadier-general in the Confederate army in which he served throughout the war. At the close of the conflict he fled to Cuba, lived for a time in England, France and Canada before returning to the United States. His last years were spent near his birthplace, Washington, Ga.

Not long after David Sloan Stanley (1828-1902), a native of Ohio, was graduated from West Point, he was sent to the Western Plains as a lieutenant of dragoons and started on the career which made him one of the best-known Indian fighters of his day. But before that, there were four years of service in the Union army during which he rose from captain to major-general, and rendered conspicuous service at the battles of New Madrid, Island No. 10, Corinth, Iuka, Jonesboro, Nashville, Spring Hill, Stone River, Resaca, Ruffs Station and Franklin, where he was desperately wounded but refused to leave the field until the battle was won. After the war, he served against the Indians in the Dakotas, led the famous Yellowstone expedition in 1873, fought the redskins in Kansas, Oklahoma, New Mexico and brought peace to the Texas frontier by suppressing Indian raids in the Lone Star state. That's why he is remembered gratefully in Texas and why the camp near Leon Springs bears his name.

The name of another great cavalry leader is preserved in the name of Camp Wheeler, near Franklinton, Ga. It honors the memory of Joseph T. Wheeler (1836-1906) the "Georgia gamecock" who was assigned to the dragoons immediately after his graduation from West Point in 1859. When he entered the Confederate army he was first made colonel of an infantry regiment and commanded a brigade at the Battle of Shiloh. But the next year he was transferred to the cavalry and from that time on he was one of the South's most daring and successful raiders. After the death of "Jeb" Stuart in 1864, he was the senior cavalry general of the Confederate armies and rose to the rank of lieutenant-general. After the war, he studied law and was repeatedly re-elected to congress. At the outbreak of the Spanish-American war, "Fighting Joe" was again in the saddle as a general of cavalry sent to Cuba to fight the Spaniards.

Camp Haan near Riverside, Calif., is also named for a veteran of the Cuban and Philippine campaigns—Brig. Gen. William George Haan, a native of Indiana and a West Point graduate in the class of 1889, who was three times recommended for brevets for "conspicuous conduct in action" from 1898 to 1901.

"Taps" was originally a signal for retiring in military camps and was played on the drums. Later it was sounded on the bugle, the commonest tune, "The Last Post," being introduced into this country by the British army during the Revolution. The melody of the present "Taps" was composed by Daniel Butterworth, a brigadier-general in the Union army. It was first sounded on the bugle by Oliver W. Norton, brigade bugler, at Harrison's Landing, Va., in July, 1862.

Household Hints

PIE PERFECTION—A WINNER EVERY TIME (See Recipes Below.)

AMERICA'S FAVORITE DESSERT
Confess now, how often would you turn down a tart lemon pie, a deep-dish apple pie, or a juicy cranberry one with the bright berries peeking out of the lattice crust? Not often, I imagine, or pie wouldn't be our country's favorite dessert. So here's to pie, favorite at dessert time or at a bakery sale, made in big tins or as individual servings:

Lemon Angel Pie.
(Makes one 8-inch pie)
4 egg yolks
3/4 cup sugar
1/4 cup lemon juice
1 tablespoon butter
2 egg whites, stiffly beaten

Cream egg yolks and sugar together. Add lemon juice and cook in double boiler until thickened, stirring often. Add butter. Remove from heat and fold in beaten egg whites. Pour into a baked pie shell. Top with meringue and brown in moderate (325 degrees) oven for 15 minutes.

Meringue.
2 egg whites, beaten until frothy
4 tablespoons sugar
1 teaspoon lemon juice

Add sugar gradually to egg whites and continue beating until egg holds up in peaks. Fold in lemon juice. Any pie is as good as its crust, and if you've mastered the art, your pies will always come back for a good crust is tender, short, flaky, well flavored and smart enough to stand by itself. If you make a crust to be filled, cool the filling before it comes in contact with the crust so you won't have soggy pie.

Flaky Pie Crust.
2 cups flour
3/4 cup shortening
1/4 teaspoon salt
About 1/2 cup ice water

Mix and sift flour with salt. Work in shortening using pastry blender, fork, knives, or fingertips, until mixture appears crumbled. Moisten with water until dough just holds together. Roll out on floured board and cut to fit pie tins. This makes enough for a double crust for a 9-inch pie tin. For a one-crust pie, use: 1 cup flour, 1/2 cup shortening, 1/4 teaspoon salt, and 2 1/2 to 3 tablespoons water.

Delicious Rhubarb Pie.
1 1/2 tablespoons quick-cooking tapioca
1 1/2 cups sugar
1/4 teaspoon salt
1 teaspoon grated orange rind
1 tablespoon melted butter
4 cups cut rhubarb
1 pie crust

Combine ingredients and let stand about 15 minutes. Line a 9-inch pie plate with pastry rolled one-eighth inch thick, allowing pastry to extend 1 inch beyond edge. Fold edge back to form standing rim. Fill with rhubarb mixture. Moisten edge of pastry with cold water; arrange lattice

COCONUT CUSTARD PIE.
(Makes one 9-inch pie)
2 egg yolks
1 1/2 cups milk
1/2 cup sugar
1/4 teaspoon salt
2 teaspoons gelatin
1/4 cup cold water

Soak gelatin in cold water. Cook egg yolks, milk and sugar in double boiler until thick and pour over gelatin. Cool, add vanilla, and pour over a crust made of:

3 cups oven-popped rice cereal, rolled fine
1/2 cup butter melted
1/4 cup sugar

Combine cereal crumbs, sugar and butter and press evenly around the sides and bottom of a pie pan. Chill before filling. Pile meringue on top of filling. Use 2 egg whites stiffly beaten, to which add 1/2 cup sugar slowly, and 1/4 cup of coconut. Brown lightly in broiler.

In making a successful meringue, beat the egg whites until stiff and glossy, then blend in sugar completely to prevent beads of syrup from forming on top of the meringue. Leave the pie on the top of the oven after it is baked. Cold air striking the meringue will cause it to fall.

LYNN SAYS:
To keep your pie crust short, have the shortening and water ice cold. If possible, have your bowl cold, too, and when handling the crust, use your fingers as little as you can, to keep the heat from the hands from getting into the dough.

Avoid rolling extra flour into the dough for this makes tough pastry. Fold the pastry over several times while rolling to help make flaky pastry. Never stretch the pastry into the pan. Make it large enough before fitting into pan.

Pie crust should be baked quickly on the lower shelf of the oven to prevent sogginess. The intense heat of the oven expands the cold liquid in pastry into steam, making the crust rise in flaky layers.

of pastry strips across top. Flute rim with fingers. Bake in hot oven (450 degrees) for 15 minutes; then decrease heat to 350 degrees and bake 30 minutes longer.

Apple Pie.
1-recipe flaky pie crust
2 pounds cooking apples
1 1/2 cups sugar
2 teaspoons cinnamon
2 tablespoons butter
1 1/2 tablespoons cornstarch

Pare, core, and slice apples. Mix with sugar, cinnamon, and cornstarch. Fill pie tin which has been covered with crust and dot fruit with butter. Lay on top crust which has been pricked with a fork, and flute edges. Bake 45 to 50 minutes in a moderate (350-375 degrees) oven.

SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago
(Released by Western Newspaper Union.)

Lesson for October 12
Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

CHRIST OUR SAVIOUR
LESSON TEXT—Matthew 20:25-28; Luke 19:1-10.

GOLDEN TEXT—For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.—John 3:16.

"I believe in God, the Father Almighty, . . . and in Jesus Christ His only Son, our Lord . . . I believe in the Holy Ghost." How often we have solemnly repeated these words in the Apostles' Creed, and how appropriate it is that our present three month series of lessons on great Christian teachings should begin last Sunday with a study of God, the Creator and heavenly Father, and continue today with Christ the Saviour, and present next Sunday the Holy Spirit, the Comforter.

These are profound Christian truths, but at the same time they are so simple as to be grasped by the youngest child. Today we have the great privilege of presenting in our classes our Saviour, the Lord Jesus Christ. He was

I. The Self-Denying Servant (Matt. 20:25-28).
Scripture clearly teaches that God's standards are not the same as the world's standards, and that His methods of operation are just the opposite of those of the world. All too often Christians and churches imitate the world both in principle and practice, with disastrous results. Consider

1. The False Greatness of the World (v. 25). "Rulers"—"greatness"—"exercise authority"—how altogether up-to-date these words sound. They are the big and swelling words of the small hearts and minds which rule after the manner of this world. They epitomize the ambitions of the great majority of mankind, but they are definitely non-Christian. We see that as we go on to consider

2. The Humility of True Greatness (vv. 26, 27). Service in the spirit of humility and self-sacrifice—this is the standard of Christ. Yes, and it is His command to His followers. To be great for Christ one must become the servant of others. This teaching appears all through Scripture (for example, see Luke 4:11; John 13:13-17; I Pet. 5:5, 6).

How often service in the church is rendered in a spirit of pride, self-glory, and for the commendation and reward of men. When that reward is not forthcoming or some real humbling sacrifice is required, the work is not desired or the worker becomes offended. Here is one of the roots of trouble in the church. Let us put it away as we look upon

3. Christ our Example (v. 28). He paid the price of our redemption, going to the death of Calvary for us. From the highest glory which He had with the Father (John 17:5), He graciously stooped to deepest ignominy as He became sin for us (II Cor. 5:21). Throughout both His life and His death He perfectly represented that self-denying, self-humbling service which He expects of His followers.

II. The Seeking Saviour (Luke 19:1-10).
There is much that is precious and beautiful to be said about our Lord, but perhaps nothing which brings Him so close to needy humanity as the fact that He had "come to seek and to save that which was lost" (v. 10). He was

1. Ever Interested in Sinners (vv. 1-7). Jesus was on this occasion coming up to Jerusalem for the last time. The cross was ahead. He was much taken up with His coming death and greatly straitened in spirit (see Mark 10:32 and Luke 12:50). He was passing through the great and wicked city of Jericho, and in the midst of His deep sorrow and out of the vast multitude of that city He reached out to touch one sinner.

Zacchaeus was a man despised for his calling of tax collector, and hated for his dishonesty. He was an outcast from his own people and a stranger to God's grace, but Jesus was interested in him. Are we ready thus to go to seek and save the lost? Are we better (or busier) than our Lord?

2. Always Able to Save Sinners (vv. 8-10). Zacchaeus was a rich man, but he was a sinner. It is not easy for a rich man to be saved. But it can be done (see Matt. 19:23-26). Read the preceding verses of that chapter (vv. 16-22) and you learn of another rich man who was not saved, the rich young ruler. He was a far better man than Zacchaeus—honest, upright, honored in his community. How was it that the wicked and despised rich man was saved and the good and respected rich man was lost?

The answer is that the former admitted that he was a sinner and thus made it possible for Christ to save him, while the latter loved himself and his gold more than Christ and shut the door against His redeeming love.

PATTERNS SEWING CIRCLE

for this jumper and jacket. Wool tweeds, gabardine, scotch plaids, flannel and velveteen are other suitable materials.

Barbara Bell Pattern No. 1450-B is designed for sizes 11, 13, 15, 17 and 19. Corresponding bust measurements 29, 31, 33, 35 and 37. Size 13 (31) jumper requires 3 1/2 yards 36-inch material; jacket, 2 yards. Send your order to:

"Mail call sounds as sweet as pay call when the folks back home send a carton of cigarettes or a tin of tobacco." This is the consensus among men in all branches of the service who have ranked tobacco first in the gift line. Actual sales records from service stores—in the Army, Navy, Marine Corps, and Coast Guard—showing the favorite cigarette is Camel. The popular smoking tobacco is Prince Albert. Local dealers have been featuring cartons of Camels and pound tins of Prince Albert as most welcome gifts from the folks back home to the boys in the service.—Adv.

IT'S THE FLAVOR I LIKE. CAMELS ALWAYS TASTE SO GOOD

THE SMOKE OF SLOWER-BURNING CAMELS CONTAINS 28% LESS NICOTINE than the average of the 4 other largest-selling cigarettes tested—less than any of them—according to independent scientific tests of the smoke itself!

CAMEL THE CIGARETTE OF COSTLIER TOBACCOS

GGIE BRIEFS
(continued from front page)

set out in a tentative copy of Texas Handbook.

1. "Non-wheat allotment farm beans: (1) a "New" wheat farm, 2) a farm for which a wheat allotment of 15 acres or less is determined and the acreage seeded wheat exceeds the allotment by 10 per cent or more, and (3) a farm for which a wheat allotment of more than 15 acres is determined and the County Committee approves a written request of the farm operator to have for the non-allotment option must be received in the county office not later than November 1, 1942, or within 15 days after notice of the allotment is mailed from the county office, whichever is later."

Operators of farms for which a wheat allotment of more than 15 acres is determined have only until November 1, 1941, or 15 days after notice of the allotment is mailed from the county office,

whichever is later, to request that such farms designated as non-wheat allotment farms.

80 Years Experience Gives McCormick-Deering Advantage In Making Drills

M. C. Tull, of the Tull Implement Company here, has several McCormick-Deering grain drills on hand for your inspection, and invites you to make a thorough examination of the many exclusive features, that make the McCormick-Deering the leading grain drill.

Tull is never too busy to show his machinery and if you drop in to see the drills, here are several of the PLUS features that he will show you:

1. Steel wheels have heavy spokes and channel tires.
2. All steel rockshaft and loft

3. mechanism in front of hopper leaves rear side of drill clean.
 3. Tractor hitch is adjustable for height of tractor drawbar.
 4. Single disk bearings are sealed against dust and moisture.
 5. Disk blades are heat treated for strength and wear.
 6. Hydraulic pressure lubrication throughout.
 7. Full length or end foot-boards as desired.
 8. Weight of drill carried on roller bearings in self-aligning axle boxes.
 9. Two-piece, cold-draw steel axles permit pitch and gather in wheels for light draft.
 10. Large capacity, rust-resisting, all steel hopper holds feeding mechanism always in perfect alignment.
 11. Two sprockets and a malleable chain drive fluted feeds. Chain acts as safety valve to prevent breakage of feeds.
 12. Most accurate fluted feed ever built. Each hopper grain tested for accuracy.
 13. Accurate double-run feeds—two feeds in one for large and small seed.
 14. Grain and water tight lids—continuous hinge. Easy to fill.
 15. Front center lever adjustable for length. Extra quadrant permits positioning for greatest depth and highest lift.
- These are just a few of the features of this easy-running, accurate seeding machine. The longer life, and better seeding make it the BEST BUY on the market.
- Don't forget that Genuine McCormick Deering parts are far cheaper in the long run, and that the TULL IMPLEMENT carries a full line at all times. Speedy service means dollars and cents to the farmer at any season of the year.—adv.

HEARD IN THE STUDY HALLS

When we were asked to write an article for the paper this week, we were thrilled to the bone. For this is our first time to be of any service to the S.H.S. As we were not sure of ourselves we decided the best way to do this was to get out and dig up what dirt we could about our fellow classmates. After spending hours in research through continuous snooping in the halls, and peeping into class rooms and listening to our fellow classmates discussing their friends and enemies, we discover several bits of unadulterated gossip.

So here 'tis.

Ever since that man about town, Johnnie Quillen left for Stephenville, poor Jean Northcutt's heart is broken. That's all right, Jean, time changes everything. I betcha.

The Freshman boys aren't doing so badly, at least J. L. Self is kept busy by a certain Senior girl. (What's the matter post-graduate?)

Don't misunderstand about Travis McMinn's black eye. No, Faye Tice Bomar didn't do it.—He said.

Everyone who has never seen Miss Wills really should. She kinda makes the boys wish they were older or she a little younger. That's what Raymond Lee thinks. (Be careful Miss Wills, age makes Raymond no difference. Somehow, always, it never fails

when a new girl comes to school, they fall for her. In this instance it's Siamaline Hyatt and Willie A. (Smiddy) Smithee.

It seems Texas Tech catches all the boys around here. Since Rex Douglas has gone, Mildred Boswell has joined the "Lonely Hearts Club, and writes I etc, in twenty-five words or more.

The F. F. A. boys are proud of their sweetheart, (Opal) or at least Freddie Garrison is. Jo Webb has just received a

new name—it is her pen name, but she refuses to use it yet, she must have time to think it over. We are giving it to you now for future references 'Wiolda get Wilder Webb' Raymond Lee Womack has a new girl friend and it seems, Wayland Harrison is a little bit on the jealous side.

Corny Rampley was unable to work out for football this week. Oh! yes, Jean be careful injuries don't always occur in ballgames.

For the fourth time Bunk Mills went with Fay Davis. But I can't prove it (You ain't sawed nothing till you seed Bunk with Fay).

Well, Louie, are you gonna' wear that Senior ring out, or must Dot, with as much patience as a dog at a cat show wait. and these writers know it.

This, students, concludes our snooping for the week. Here's hoping you are satisfied.

ART OF CHEWING GUM
There is an art to chewing gum in school without being caught. Here are a few pointers.

1. Buy a stick of gum.
2. Start when its early while the teacher is still in a good humor.
3. Chew slowly, so it won't be noticeable.
4. When and if you are caught, slip the gum back of your teeth where it won't show.
5. If she does catch you—well try it again. If you are not caught after the fifth time, you should get your G. D. (Gum Degree).

Francis Locals
The Helping Hand Club met with Mrs. Buster Wilson Thursday members present were mesdames, Ennis Autry, Virgil Baldwin, Earl Bell, U. D. Brown, Edwin Crass, F. A. Fisch, C. M. Jasper, P. D. Jasper, Bud McMinn, Fred Mercer, H. C. Mercer, Joe Rogers, W. A. Rowell, C. A. Simmons, and Loyd West. Mrs. Earl Mercer is a new member. The next meeting will be with Mrs. Carl Wimberly October 17th.

Mr. and Mrs. J. Lee Francis, and Mr. and Mrs. Carl Wimberly attended the Fair in Amarillo Thursday.

Mrs. W. C. Roberson spent Thursday with Mrs. J. W. Fox of Lockney.

Mr. and Mrs. Joe Williams and son of Lubbock spent the week end with Mr. and Mrs. Sy Brister of South Plains.

Mr. and Mrs. Frank Mercer visited Mrs. Virgil Baldwin Sunday.

SENIOR CLASS NEWS
The Senior class met Wednesday morning and decided to have a picnic Friday afternoon if the weather permits. However, we need a good shower, and may be fortunate enough to get it Friday afternoon. Pat Bomar will act as hostess as the group enjoys an afternoon of goodtimes.

The Senior pictures have been made and we expect them at the end of this month.

Carl (Dude Boy) Bomar was elected reporter, and this news will be taken care of by him in the future. Miss Bates Senior Sponsor has released a statement to the press saying, "Some call this gossip, but I call it News." This will encourage Carlo as he reports the Senior news each week.

BITS O' BUSINESS -- Pennsylvania's \$70,000,000 super-turnpike, tunneling through mountains for 159 miles between Harrisburg and Pittsburgh, seems to be a financial as well as artistic success; it'll earn nearly \$3,000,000 its first year, more than enough to pay operating costs and bond interests . . . First plant in the country for mass production of plastics in extruded forms—to replace aluminum, copper, and brass in household materials—has opened in Norwalk, Conn. . . Auto companies are considering sending out new

cars with only four tires, as rubber conservation move; independent tire dealers are much in favor of it as boom to their sales opportunities . . . The proposed 10-million-ton expansion in the nation's steel ingot capacity will be shared by 30 firms . . . China and Brazil are hustling to get in on the U. S. silk market—the latter is exporting silk fabric for the first time this year . . . Portable typewriter companies are making fewer models to save materials.

Gordon Fore of Lockney and Mrs. C. A. Simmons spent Sunday with Mr. and Mrs. Bob Daniel.

Mr. and Mrs. Lowell Calloway and girls of Berger spent Thursday and Friday with Mr. and Mrs. P. D. Jasper.

Mr. and Mrs. F. A. Fitzgerald and Mary Lou visited in Hershey and Amarillo last week.

Mr. and Mrs. Freeland Coward of Silverton are among the Family Security families in Briscoe County who are taking full advantage of the opportunity to reduce their living expenses, and at the same time, produce additional eggs to meet the national demand for increased supplies. This family has kept accurate records on the flock of 170 white Leghorns during the past nine months. During the period, they have sold 2,107 eggs for \$64.00. It cost \$153.00 to feed the chickens leaving a profit of \$211.00. They raised 23 chickens and sold 73 old hens for enough money to pay for culling and vaccinating the whole flock.
