AGGIE BRIEFS

Secretary Briscoe Co. Committee
By Ray S. McEntire

Construction Conservation Order Number L-41

War requirements of the United States have created a shortage of all materials required for war production and construction necessary thereto, for private account and for export; the War Production Board accordingly has stated as its policy that it is in the National interest that all construction which is not essential, directly or indirectly, to the successful prosecution of the war, and which involves the utilization of labor, material or construction plant urgently needed in the war effort, be deferred for the duration of the emergency. The order is, therefore, necessary and appropriate in the public interest to conserve scarce material by allotting them to essential uses and restricting their use in non-essential construction.

Accordingly, no person shall after April 9, 1942 begin construction or order, purchase, accept delivery of or withdraw from inventory, of in any other manner secure or use material or construction unless the construction has been or is hereafter authorized by the office of Production Management or by the Director of Industry operation of the War Production Board by the issuance of (a) a preference rating order or certificate as provided in order of (b) an order from the War Production Board specifically authorizing construction.

The Briscoe County USDA War Board has been selected to handle applications for (1) authority to begin construction, (2) for project rating, (3) for priority assistance.

The following types of Agricultural Construction are exempt, and therefore do not require special permission to begin construction.

(a) Farm Construction started prior to April 9, 1942.

(b) Maintenance and repair.

(c) Residential construction damaged or destroyed after December 31, 1941 by fire, flood, tornado, earthquake, act of God, or by public enemy.

(d) During any 12-month period as follows:

(1) Farm dwelling costing less than \$500.

(2) Other farm buildings and constructions costing less than \$1000.

(3) Processing plants, creameries, warehouses, or other off-the-farm construction, if the estimated cost is less than \$5,000.

For further information relative to the order apply to the AAA office or any member of the USDA War Board.

IT PAYS TO ADVERTISE

Bascom Giles, Commissioner of the General Land Office, today announced the awarding to the highest bidder of 363 tracts of School Land which had been advertised for sale on April 8 by the School Board.

Commissioner Giles said after studying the numerous bids received that "this was the most successful sale of School Land held in recent years. The Public Free School Fund received the highest average price per acre and also the highest average price per tract that was ever received in the State's history."

Commissioner Giles attributed a large part of the success of this sale to the advertisements run in newspapers; and he is, therefore, convinced that "it pays to advertise."

ANNOUNCING SUMMER SCHOOL OF MUSIC

Beginning May 25th Mrs. R. Wilkerson will conduct a six week course of music which will include piano, harmony and voice culture. Those desiring to study should contact her as soon as possible either at the home of Mrs. J. S. Fisher or at her studio, which will be located in the home of Mrs. Clifford Allard.

The L. T. D. Club met Tuesday afternoon with Mrs. Ware Fogerson, hostess. The "guess what" was won by Mrs. Venus Gillespie. Lovely refreshment plates were served to the following: Mesdames Arnold Brown, Monte Staniforth, J. T. Luke, J. W. Lyon, Jr., Venus Gillespie, T. T. Crass, Durward Brown, Dutch Tidwell and Roy Hahn.

NEWS from the BOYS IN SERVICE

RIDDELL HUTSELL WRITES from Pensacola: "The food here isn't as good as it is in Texas, but is prepared better. We have negro waiters.

This is some place around here, but I haven't had time to enjoy it. We have swimming, bowling, free movies, golf and all kinds of games. We can have visitors here at the base anytime.

I will be a third classman for either five or seven weeks, then second and finally first. We have to fly, be able to become a good officer, pass all ground school work, make a perfect score in radio, and etc. In about 2 weeks I get the decompression chamber to see how I react to altitudes, then gunnery, etc.

Write me all the news of the kids and tell them "hello".

FOUR MEN TO INDUCTION STATION

Four men from Briscoe County, were sent to the induction station in Lubbock, Tuesday under the Selective Service Act. They are:

Tom Casey, Quitaque
Henry Claud Stout, Silverton
Everett Payne, Quitaque
Hilton Henry Vardell, Silverton
There has been no report as to whether or not these men passed the physical requirements.

RIDDELL HUTSELL TO PENSACOLA, FLORIDA

Riddell Clyde Hutsell, son of Mr. and Mrs. R. C. Hutsell of Silverton, Texas, was recently appointed a Naval Aviation Cadet and was transferred to the Naval Air Station, Pensacola, Florida, for flight training, according to an announcement made by the public relations office of that station.

Hutsell, who attended Wayland Junior College in Plainview, Texas was sent to the Naval Reserve Aviation Base in Dallas, Texas, the middle of February. There he successfully passed the elimination training course the first of April.

Upon completion of the intensive seven-month course at "The Annapolis of the Air," Hutsell will receive his recognition as a Naval Aviator with a commission as Ensign in the Naval Reserve or as 2nd Lieutenant in the Marine Corps Reserve and will go on active duty.

FLORAL CLUB ENTERTAINS

The open meeting of the Floral Club last Friday, was enjoyed by several members and guests. A splendid program arranged by the committee, Mrs. R. M. Hill and Mrs. C. M. Strickland, was given in the Calvary Baptist Church. The hostesses for the occasion—Mrs. A. P. Dickenson and Mrs. B. P. Harrison—had many beautiful spring flowers arranged artistically, and at the close of the program these ladies served cakes and fruit punch. The following program was given:

Short talk—Mrs. R. M. Hill, Program Chairman.

Song—"We've a Story to Tell to the Nation", Audience.

Prayer—Mrs. Flora Dickerson
Scripture and Devotional—"Peace" Mrs. Harrison.

Welcome Address—Mrs. T. L. Anderson, Club Chairman.

Piano—"Old Black Joe" with variations, Betty Nan Burson.

Song—"White Cliffs of Dover", Patricia Bomar.

Song—"Keep the Home Fires Burning"—Wimberly Trio.

Mrs. R. Wilkerson was at the piano for songs.

Book Review—"This Troubled World", by Eleanor Roosevelt, Mrs. R. E. Douglas.

The next regular meeting will be in September.

Mrs. Roy Hahn and son Collin returned home Monday night, after spending six weeks with her parents, Mr. and Mrs. C. C. Whitney in Jewell, Kansas. Her father who was very dangerously ill, is improving rapidly now.

R. A. Tinsley of Sterley, purchased a used 12-A John Deere Combine this week from H. Roy Brown.

WE GIVE YOU PICTURES FROM "THE OWLET"

KID DAY, some fun that! Some fun too, on our Class Trip to Medicine Park, Oklahoma this week end!!

SPECIAL COMMERCIAL WORK OFFERED FOR SUMMER

A special class for students in typing and shorthand will be offered here for the summer, under the direction of Miss Pauline Bates, IF ENOUGH STUDENTS WISH TO ENROLL, according to D. O. Bomar, President of the School Board.

Miss Bates, the regular high school Commercial Teacher, has agreed to stay for the summer provided enough students are interested. The Deputy State Supervisor, in commenting upon Miss Bates' work, declared that the Silverton High School commercial class was the best in his district.

If you wish to enroll, please contact Miss Cleo Garrison or Mrs. D. O. Bomar—ant AT ONCE.

PAT NORTHCUTT GETS BAD BREAK

Pat Northcutt, young son of Mr. and Mrs. Chick Northcutt, received a badly broken arm when he fell at the school house last Thursday night. He started to jump over a pipe railing in front of the school house and tripped his foot.

Dr. Bundy, who first examined the break, said that it was the worst he had ever seen and recommended that the boy be taken to a hospital. The bone was broken and shattered into the elbow joint and it was impossible to set at once.

Pat and his mother are still at the hospital but may come home today.

FUNERAL SERVICES HERE FRIDAY FOR MRS. BAKER

Mrs. Mary Baker, a resident of this community for 51 years, passed away at her home here Monday, May 18, at the age of 70. She was born in Louisiana November 14, 1872, and came to Texas when she was 18 years of age.

Mrs. Baker is very well-known here and loved by all who have made her acquaintance. She leaves a host of relatives and friends, and a complete obituary will be published in next week's paper.

Funeral services will be held in the First Baptist Church, Friday afternoon at 4:30, conducted by Rev. J. B. Leverett. Interment will be made in the Silverton Cemetery.

SUGAR REGISTRATION FIGURES COMPLETE

According to final tabulations by the War Rationing Board here, 3,888 persons registered for sugar, and 3,839 of these were issued books. In other words, there were only 49 who had an overage of sugar on hand.

Anyone owning a war ration book may make application now for sugar for use in connection with canning or preserving fruits and vegetables for consumption in his own home. The allowance for canning purposes is set at 5 lbs. per year.

All industrial registering units shall preserve for a period of two years at their office, records showing by months the amounts of sugar received by the registering unit, the person from whom received, the use made of the sugar, and the amount of each product processed.

Establishments selling at retail or wholesale shall keep records of all sugar received by them. These records shall be kept at the office of the registering unit of which the establishment is a part and shall be made available for inspection by the Office of Price Administration and the Board. These records which apply to cafes and such establishments shall be retained for a period of not less than two years.

SILVERTON GIRL TO GRADUATE

Lavelle Montague of Silverton is a candidate for a bachelor's degree at the 32nd spring commencement of West Texas State College on the evening of May 24th.

Judge C. D. Wright was in Amarillo for a Federal Court case Monday.

J. B. Brooks and his son Troy, charged with murder in connection with the death of Carl Vaughan several weeks ago, were declared "Not Guilty" by the jury here in a quick verdict rendered Saturday morning, in District Court.

The jury was obtained Wednesday from a special venire of 100 men and the State opened its case Thursday morning. Most of Thursday was taken by the prosecution and they rested their case that evening.

One defense witness was heard Thursday and on through Friday, with the case going to the lawyers for argument that continued until 11:30, when the jury read their charge and the case was in their hands. The jury was allowed to go to bed and they returned their verdict of "Not Guilty" shortly after 10:30 Saturday morning.

By special agreement, both Brooks and his son were tried in the same trial; however, the jury received separate charges and returned separate verdicts.

The trial closed an unfortunate incident that had aroused considerable public interest and a large crowd attended most of the trial.

Dale Hall, who was brought here for trial for burglary of several Silverton firms, in August 1939, two years ago on two counts, with credit given for having served 18 months of his sentence.

District Court has opened in Floyd County, and the case of State vs. Youcm, is being heard there this week.

LIONS CLUB DISCUSSES PRICE CONTROL LAW

Thirteen Lions met for regular Wednesday noon luncheon and discussed the new Price Control Measure. The meeting was presided over by Lion Claude Carpenter.

Maurice Foust was in charge of the program which was a Socratic League discussion of "Victory Through Price Control". Foust read a paper that brought out an interesting discussion by all members present.

Bert Douglas, chairman of the local USO drive called attention to the drive and \$15 was subscribed by the Lions present.

I HAVE BEEN, I have went, and I have come back All just as was prophesied here last week. I also brought back the family all in good shape. They were very glad to see me I think and the young Hahn expressed it very well when we were rounding the curve, he jumped up and said, "Boy, it sure gives you a funny feeling when you get back home, doesn't it?"

MR. WHITNEY IS a lot better. He was just beginning to walk around the house good when we left. I think he was getting along pretty well. In fact he had strength enough to send me over to the county seat with a nice size check to pay for raising some wheat last year. And I think from the way he talked that that took quite a bit of strength and will power as well.

THEY HAVE SOME awfully good looking wheat up there this year, but at that it doesn't look quite as well as it does in Western Kansas. My brothers have some wheat that (barring accidents) could go 40 or 50 bushels to the acre. I don't know just how they do it. They never plant much wheat but they always manage a good yield.

THE GOVERNMENT IS moving in steel granaries there to house the last year's loan wheat, (I think). They have rented a five acre tract and are putting those bins just as thick as they can set them. The plan is very popular with farmers in one respect—the county committee is hiring most of the available farm labor to erect the bins. Money talks and Uncle Sam has a little of it left, even in Kansas.

FOLKS UP IN that section of the country haven't woke up yet to the fact that we are at war—I mean they are even more asleep than we are. You can tell it in a dozen ways—one of these is road speeds. The farther north you go the faster they are driving, and the louder they holler about rationing and loss of business.

THERE IS A LOT of new building going on, with dozens of men working on jobs that are not very

important right now. Where they get the materials is more than I can fathom.

THERE IS ONE thing though that they have us beat on—bond buying. Most places are well over the top. That may be for several reasons, one of which is the fact that those Kansas birds always could recognize a good thing that pertained to money. That gets back to the thing I have maintained in the buying of bonds—the fellow you're helping most is YOURSELF.

IT DOESN'T TAKE much patriotism, methinks, to put a few bucks each week in the old sock for ourselves. It has a double way of saving too—the more we put in for ourselves, the less Uncle Sam will take through taxes—and that's gone for good.

THERE ARE OTHER ways and things that need doing and among them is this USO drive. I guess it needs no explaining to you but that is the organization that is building up better recreational places for the soldiers and keeping up their morale with the type of entertainment that you fathers and mothers want them to have.

BERT DOUGLAS IS chairman of the drive for this county and so far I think has not gotten under way. Anyway, the county quota is \$400, and he started it off in the place where most such things are started, at the Lions Club, where the boys laid down their money almost before he finished talking. Just what plans he has for raising the money, I don't know, but whatever they are, let's do our part. He got a letter the other day from Doc Minyard and he said that the USO had sure fooled him. He said that before he got in the army, he thought the USO was just a pussyfooting outfit of some sort, but that since he has been in, he's found that they really have the stuff, and that the boys are back of them 100%.

NOW HERE'S SOMETHING that I'll bet that you old boys from out in the country hadn't thought of and that is that in all these drives for money, (Red Cross, Navy Relief, etc.) it's the boys on Main Street that are always worked to death. They are easy to get to and they always come through without a murmur. But the fact remains that it is no more their place to back the boys boost the bond sales and so forth than it is you guys out in the country.

WHEN IT GETS right down to the point, there are a lot of fellows in business here that have backed everything from way back—because they needed doing, and they were glad to do it. Now it so happens that with several brands of rationing and shortages on hand business is rotten for them. In fact the little business man is going to be very hard put from now on to buy a few two-bit war stamps. That's why I say, the boys on Main Street should be touched as lightly as possible, and you boys from the country should be asked a little more often. It's a little harder to contact the farmers, but I'll bet that when they are the funds will come just as cheerfully. This a matter of breaking an old custom of getting it on Main Street.

NOTE—I am not on Main Street. I am on Lone Star Street.

Me personally, I never get touched more than if I had a cotton farm below the cap.

THIS IS THE first time in the six years I have been in Silverton that the Briscoe County News has fallen below eight pages in size. I am not going to say much about it now that it has happened. I could lay it on to a shortage of newsprint and get by with it. But as far as I know there isn't one yet, although paper houses are sending a few warnings. The thing of it is, pure and simple, is that I've got to cut some corners and this is the first one. I could write a new verse to the old song about "There'll be some changes made." And so—

YOUR LOCAL PART of the paper is the same as always. The part that is dropped is the syndicated feature stuff. The quality of newsprint and the editorial matter remain the same—both rotten.

WHICH MAKES ME think about Tom Bomar again—no implications of course, Oh, no. Anyway, as I've said before, Tom could have made a good newspaper columnist (if he could write down what he says, and if he could find anyone to print it). Anyway he always has a perpetual fuss on with the hashers at Kirks. And to day shortly after Colleen had doused him with ice water he came out with "You've got a 40-year-old chassis and a 10-year-old head." Yeah, Man.

NOW IF I could write like that I would get me a newspaper to write on and if that didn't work I'd start me a dairy—or do I mean diary?

WHILE I WAS up home I ran into a little romance—one of my nephews. This is of no interest to any of you except my twin nephews who are in the army. Anyway, this is special to ROY and RAY, about Leslie. It seems like you guys better start getting your orders in for a furlough, cause if you don't get out there to Scott County and see about the kid, he is going down for the count. In fact he has been down for the count of nine I think now a time or two. He hasn't asked the gal, but I did, and she seemed very agreeable. I made her declare her intentions and she said they were honorable, which makes the situation all the more drastic. And to make it still more drastic, she is a plenty neat looking little number—though of course not to compare with the Senioritas you've been writing about.

WHILE I WAS home too, I found that I had had the mumps—twice. It makes me so tickled I can hardly stand it every time I see Dee McWilliams or Bill Hardin. What I mean that Dee has it. A picture of those jaws would stop any Panzer Division in the world. At any rate, he has a very jolly expression to say the least. Now take old Bill, he just had the mumps, nothing distinctive about his looks at all—just plain old mumps.

JACK IS STILL worrying about the war. Says he is afraid it will be over before he gets a Jap. This a helluva war sezzi. Just get a guy to really kicking out some type and he starts wanting to fly and shoot—and he isn't even dry behind the ears yet.

COFFEE IS MAD at the Hahns.

He had the family spade borrowed for only a week and got mad and brought it back.

I MUST UP and to bed. Outside of the fact that so many folks die in it, bed is a mighty fine thing. Someday I am going to take the day off and write an editorial on (or in) beds. Till morning when maybe I'll think up something, I'll rest the case and stop to pause for a drink of water.

WHAT RIGHTS HAS LABOR

It is widely reported that government policy, as administered by the War Labor Board, will be to "freeze" labor relations and contracts for the duration. In other words, no new "closed shop" agreements will be approved.

It is incomprehensible that a policy of this sort was not adopted long ago. The closed shop makes it impossible for a man to get a job and earn a living unless he joins a union, pays dues and other fees to a union, and keeps "in good" with union officials. The universal closed shop would mean a labor dictatorship pure and simple. It would mean that a few labor leaders, who are responsible to no one, would have a stranglehold over all the processes of production, and the means of livelihood of all workers.

Never in history has the American workman been given such complete protection as he enjoys now. Unequivocal laws, which are backed up with the full power of the government, govern working conditions, hours wages, overtime, etc. If any worker is exploited, the government will correct the injustice, and severely punish the exploiter. No one can argue that the closed shop is needed to protect the working man or woman.

This is not an argument against unionism. Any man has the right to join a union if he wishes, and employers are legally forbidden to oppose his joining. And by the same token, the man who wants to work without joining a union has that right. "Freezing" labor arrangements will not solve the problem. The disgraceful fact remains that in many war industries, backed with public money, a man must pay tribute to a union before he can work in his country's defense. But it will be a salutary sign if those who control labor-industry arrangements will refuse to countenance the further extension of the closed shop, the most undemocratic and dictatorial system existing in our country.

COX WARNS AGAINST FEVER

If you have not been vaccinated against Typhoid fever within the last two or three years, Dr. George W. Cox, State Health Officer, advises you to go to your doctor or the nearest health officer and have him give you the three "shots" that will protect you against the disease.

"The three shots that will protect against Typhoid are given at intervals of one week apart." Dr. Cox stated. "As it takes some time for the protective treatment to be established throughout the system, it is wise not to delay in having it done. My advice is, have it done now so that immunization may be complete before summer arrives."

This advice was addressed particularly to Boy Scouts, Girl Scouts, and other youngsters who are looking forward to spring and

summer hikes and trips. It is, however, meant also for others, young or old, whose business or pleasure during the summer will take them to places where there may be doubt as to the purity or safety of the water supply, or as to the care with which food is handled.

Zona Gale Spencer, small daughter of Mr. and Mrs. Jake Spencer, was taken to the hospital in Canyon for a check-up Wednesday morning. It was feared that she was taking pneumonia.

DEMPSTER
Dependable
WINDMILLS and TOWERS

Time Tested and PROVED . . . Under Every Condition!

On thousands of farms . . . under every condition . . . year after year Dempster Windmills and Towers have proved their outstanding dependability. Designed with the latest improvements, Dempster Windmills pump more water with lighter winds. No wonder! The special type wheel is scientifically designed to give extra power. Then, precision engineering gives such smooth coordination of all working parts that you actually get more pumping hours per day and longer life!

Dependable Equipment for Every Pumping Requirement

Come in and see us for Dempster Windmills, water systems, centrifugal pumps, pump jacks, hand pumps, cylinders, tanks, irrigation pumps, pipe, fittings, valves, and accessories. Do it today!

15 TIME-TESTED FEATURES

Powerful wheel. Automatic lubrication. Timken bearings. Machine cut gears. Straight lift. These are but a few of the 15 time-tested features that give Dempster quicker pumping start—smoother pumping—and more power.

BURSON MOTOR COMPANY
Silverton, Texas

TO THE FAMILIES IN THIS COMMUNITY WHO RELY ON GAS FOR COOKING

★ In these days of national emergency—when meal planning, cooking methods and food economy are so important in keeping America safe—your Gas Company considers it a patriotic privilege to support our Government's National Nutrition Program.

★ Therefore, we urge our customers to choose their foods carefully, to cook them so as to secure their full nutritive value and to make every possible use of all left-overs.

★ By following the Government's advice in the selection of food and by using your Gas range so that you get the best results from your cooking, you can help win this war right in your own kitchen.

"...Electricity is too important a public service to encourage or invite curtailment when it is unnecessary..."

J. A. Krug
Chief of the Power Branch of the Materials Division of the War Production Board

When you save rubber or sugar, tin and lead, they accumulate for war production . . .

BUT . . .

When you curtail your use of electricity none of it is saved so long as sufficient capacity is here to serve you.

Curtailment now simply means shutting down a power plant.

That's like telling a farmer not to milk his cows so as to save milk!

It is impossible to accurately predict future developments in war production. However, there is at present in this section of the country an ample supply of electricity, not only for war projects, but also for our industries, commercial establishments and homes. This is the result of hard work, careful planning for the future, and sound engineering, under American business management.

If and when a power shortage comes to this section of the country, we will be the first to know about it, and we will cooperate to the fullest in urging our customers to conserve electricity so that additional demands for new war purposes can be met.
