

JAMES ALLRED, alias Cranberry Allred, alias Elmer Allred isn't sure whether he is in the fighting forces or on a pleasure vacation. He is a Naval Seabee and located in Rhode Island. He writes: "Well if they get me much further from home it will have to be out of the U. S. I guess this move is, and will be, the best break I will get in the Navy. The bunch that came up here has been assigned to Ship's Company or Station Force and that means we will probably be here for a while.

This part of R. I. is as pretty as I've ever seen --Listen to this: Some millionaire has leased his estate to the government for \$1 a year and it's gonna be home. There's lots of trees here and it's about a half mile from the beach and I don't see how it could be beat. This is a fairly new base, in fact they are still building it. We're supposed to be part of the crew that runs the place. New recruits will be trained here for about three weeks -- Boot camps -- they call 'em. When you're in ship's company you have liberty every night, no KP or extra duty and no guard duty. Oh Boy. I think I guarded everything on the base at Camp Allen.

We took our first boat ride yesterday--about thirty miles. We were out of sight of land for about an hour. 1200 of us crossed on the ferry from Norfolk to Cape Charles. We saw some fairly good size ships. Send me the Briscoe County News.

CHAS. (Chesty) DUNN and Leldon (Popeye) Gilkeyson have enlisted in the Navy. They left Thursday (today) for their final examination.

FSA Families Are Good Producers

Texas' low-income farm families have increased their annual net income 103 percent and have more than doubled food production for their own use since receiving rehabilitation loans from the U. S. Department of Agriculture, according to information received here by Claude C. Carpenter, FSA supervisor in Briscoe County.

Mr. Carpenter's information came to him in a report by C. B. Baldwin, Farm Security Administrator, which was prepared for Sec. of Agriculture, Claude R. Wickard. Pointing out that these increases are particularly significant as a contribution to Food for Freedom, the FSA administrator told Sec. Wickard these gains "support in a striking manner your recent statement that on all these farms with their home labor lies a real opportunity today for a high percentage increase in wartime production."

The Texas phase of the national report shows that the annual value of the home used production per family had increased from \$166 to \$378, or 128 percent since farmers in this state first received help.

Texas FSA borrower-families increased their annual net incomes an average of 103 percent, from \$470, to \$953, during the time they received assistance. They increased the amounts of fruits and vegetables canned by 127 percent, from 121 quarts in the year before they got loans to 275 quarts per family in 1941. They increased their milk production for home use from 347 to 545 gallons, or 57 percent. They increased meat production for home use from 233 to 457 pounds or 96 percent. Last year, they stated, in addition, 18 bushels per family in fruits and vegetables produced and used 143 dozen eggs and 11 gallons of lard for the average family.

Since Pearl Harbor even greater emphasis has been put on food production and loan requirements have been broadened by the FSA to enable a large number of eligible farm families to contribute to the food production goals.

MAIL CARRIER HAS GOOD FOURTH OF JULY

Bill Tension, rural mail carrier, had a GOOD Fourth of July. Instead of taking his day off as was his right, he made a bargain with his rural patrons that if they would make a special effort toward buying bonds and gathering rubber, he would bring their mail, even though it was a legal holiday.

And so, Bill wired Washington for permission and carried the mail. And folks bought stamps and bonds --- \$108.25 worth. He told them to pile their rubber at their mail boxes and he would take it in for them. Monday alone, he brought 171 pounds of rubber. That is the spirit that will win the war --- co-operation. There's nothing Tension won't do (that's legal, or nearly so) to sell stamps and bonds. He even spends his own money in advertising them. If you don't want to buy a bond, don't ask Bill to bring it to your house --- cause he'll do it!

This ram now owned by Allen Kellum was in the pen of 4 that placed 2nd for get of sire at the Fort Worth Fat Stock Show in 1942 at Fort Worth Texas. The ram was sired by an imported ram from England and owned by Glen Retreat Farms, Dallas, Texas.

Mr. Kellum sold 25 lambs recently at 4 months of age averaging 83 pounds at Fort Worth and secured the top price of \$13.50. Mr. Kellum also expects to have a few lambs for sale about September from registered Hampshire ewes and a buck from Texas Tech College stock, at Lubbock.

GRIMLAND -- MCKAY

Cecil McKay of Turkey and Miss Edna Mae Grimland were married Wednesday, June 24, at 6 p.m. in Tulsa, Justice of the Peace Gardner reading the service.

Attendants at the wedding were the bridegrooms sister, Mrs. Mollie Chambers of Quitaque, her daughter, Miss Wilma Chambers, Mrs. Jim Wood and Miss Lanelle Wood of Quitaque.

After the ceremony, the whole party proceeded on a week end trip to New Mexico, the bridal couple visiting in Alamogordo.

The bridegroom is the son of Mr. and Mrs. W. M. McKay, pioneer residents of Turkey. The bride is the daughter of Mr. and Mrs. W. K. Grimland, Miss Grimland graduated with the class of '42. For the present the couple are at home in Turkey.

PREACHING AT FIRST BAPTIST

Rev. J. Lowell Ponder, District 9 Missionary of Plainview, will preach at the First Baptist Church Sunday. The membership is urged to attend.

Found this in the Wood County Democrat; it's entitled "An Editor's Prayer":

Blessed are the merchants who advertise for they have faith in their business and their prosperity shall increase many fold.

Blessed is the woman who sends in a written account of a party or a wedding, naming names and dates and time and places, for she shall see more than a brief hint that such an event took place.

Blessed art they who do not expect the editor to know everything by telling him whenever an interesting event occurs in which they are interested, for they shall have a better newspaper in the town.

Blessed are those who get their copy in early for they shall occupy a warm spot in the heart of the editor.

Blessed are they who do not think they can run a paper better than the editor runs it -- yea thrice blessed are they, because there are so few of them in the country.

Time Drawing Short On Subscription Special Offer

Another week is gone of the special Subscription Offer. No definite closing date has been announced, but it is hardly likely that it will extend past Election Day, July 25.

Folks seem to appreciate the chance to renew their subscription at a reduced rate, and many are sending it to men in service. Remember, that for the regular price of \$2.00 you can subscribe for yourself and also send it to some man in service for a year. And those soldiers and sailors--they write that it's just like a long letter from home, and when they miss an issue, they certainly let the editor know about it.

Look at your name label right now. If it says 7--42 or a previous date then you need to renew. Tell your friends that might not be taking the paper, that they can subscribe now for only a dollar and a quarter.

Thanks a lot to these folks who have paid up in the past few days:

HEAR AN ACTUAL BOMBING RAID SUNDAY

"An English Editor Views the Texas Press" is the title of a talk by Charles Eade, editor of the London Sunday Dispatch, to be heard at 10.00 a.m., Sunday July 12, over Radio Station WBAP.

The program, especially designed for Texas newspapers readers, was originally broadcast by short-wave last February over the British Broadcasting Company transmitters. Feeling, however, that many Texas listeners may have failed to hear the broadcast, WBAP station officials requested a transcription of the British editor's interesting remarks.

"The Thirteenth Raid," an actual recording of a Polish bomber crew carrying out a bombing raid over German-held territory in an RAF bomber, will be broadcast at 10.00 a. m., Sunday, July 19, over WBAP as another exclusive feature. The entire bombing operation from take-off, through heavy anti-aircraft fire and the actual bombing of the Axis objective, is described by an English speaking member of the Polish bomber crew. These unusual programs are being supplied the Surban Editor, who reads news and gossip from more than 100 Texas papers and the British editor's paper every Sunday morning over WBAP.

TO THE PEOPLE OF BRISCOE COUNTY:

I am trying at every opportunity to get before you my application for the office of your County and District Clerk for your consideration.

Everywhere I find you are busy. I shall try to see each of you personally but if I don't I know you will understand. I appreciate the kindness and courtesy accorded me wherever I have presented my candidacy and I am still asking for your good will, a good word, and a vote on July 25.

County Lagged In June Bond Buying

National Salvage Campaign Opens Next Monday

Whether or not the rubber salvage drive is considered as a complete success will not be known until final reports and tabulations have been made, but opening Monday, July 15, a nation-wide drive for all scrap metals has been ordered by the War Production Board in Washington. The entire nation is being organized, community by community, into a smoothly working unit that must increase scrap metals collections by at least 25%.

The War Production Board estimates that if we are to keep our steel mills going full blast this winter that the flow of scrap iron and steel must be increased by at least SIX MILLION tons.

The Scrap Metal Committee for this section is made up of Claude Carpenter, Otis Wilborn, and Lem Weaver. They have already mapped out a program which will be released in the near future, and by their close connection with the farms, expect to get every available bit of farm scrap in as quickly as possible. However, it is not just on the farms that such valuable scrap is located. You see a little of it in most every corner, and in every old shed, right here in town, and even though a haphazard attempt has been made for the past several months to gather it in.

There is to be nothing haphazard in the coming drive. The Salvage Program is not a one-week or one-month campaign any more than it is a one week war. Every corner of the country will be scoured for the new-precious scrap. Committees will be appointed. Boy Scouts will be asked to keep their eyes and ears open for reporting scrap piles.

The Salvage Committee has plans in hand for a huge "JUNK RALLY" in Silverton soon. The definite plans haven't been made but the general idea is a program a night of fun, and a huge amount of scrap collected.

FEED IN SILOS WORTH MORE

Almost any feed crop is worth twice as much an acre when made into silage as it is in the barn or stack, according to R. E. Eudaly, dairyman of the A. and M. College Extension Service. This is especially true of corn and grain sorghum crops which will not make much grain. It applies equally to sweet sorghums, Johnson grass and sudan.

If corn and grain sorghums can be left standing until the grain is hard, they will make better silage, provided the majority of the leaves are still green. Nevertheless, these feeds should be made into silage even though the leaves are burned or dried up. But all vitamin A would be lost in the latter case. Vitamin A is very essential, especially if silage is its only source and the main origin of vitamin A for livestock is green feed.

It is even more necessary to have the sweet sorghums, such as red-top cane and seeded ribbon cane, ripe for making silage. Johnson and sudan grasses should be headed out and the seed in the dough stage. Any of the grasses and legumes should be dried until their water content is reduced to 35 or 40 percent before being put into the silo. This means about half dry enough to bale for hay.

When a majority of the leaves of corn, grain and sweet sorghums, and Johnson and sudan grasses are green, it is not necessary to add water if the feed is chopped in one quarter inch lengths or less with an ensilage cutter when put in the trench. If the majority of the leaves are dry, it will be necessary to add water enough to wet the feed about like a heavy dew. Dampen bundle feed even though the majority of the leaves are green.

The silage should be well packed and the trench filled high enough so that it will not settle below the level of the ground.

H. S. Sanders, County Bond Chairman, has released the figure for Bond buying in June and the show that the county was lagging slightly behind the average monthly quota. The Bond Meter, brought to you each month by cooperating firms and individuals, shows you in graph form, just where we are in relation to our quota.

The June Bond and Stamp sales totalled \$8,944.55 and break it down to the various selling agencies it is as follows:

First National Bank	---\$4,675.00
Quitaque Post Office	---
Stamps	----- \$200.00
Bonds	-----\$1,325.00
Silverton Post Office	---
Stamps	----- \$319.55
Bonds	----- \$2,425.00
TOTAL	----- \$8,944.55

In working out the monthly quotas used on the Bond Meter page the whole year's total was simply divided into 12 equal parts. According to the U. S. Treasury how ever, quotas vary according to the month of the year. For instance the Texas quota for May was \$1:594,000 (Sales were \$2,479,000 and the July quota for the state was upped to \$3,677,000. Briscoe County's share of that July quota is \$12,200 which is slightly over the monthly average. If that amount is sold the Bond Meter will register exactly par.

July bond sales are expected to soar in Briscoe County, when the harvest rush is over, and there will be a little more money in the county. With the county only a little under par this month, it will undoubtedly go over the top on the year quota of \$126,800.

The total of the first six month sales is \$62,270.85.

TWO POUND SUGAR BONUS ANNOUNCED

A sugar "bonus" of two pounds for every ration card holder, purchaseable between July 10 an Aug. 22, was announced by the Office of Price Administration because of "somewhat heavy shipments" of sugar into this country than anticipated.

Householders may obtain their dividend allotment by presenting ration stamp No. 7 to the grocer store any time in the six week period. The bonus is in addition to the regular two-pound monthly allotments obtainable with stamp No. 5 and with stamp No. 6.

In effect, the ruling simply allows use of card No. 7 at any time during the period when cards No. 5 or No. 6 may be used. Card No. 5 expires July 25 and Card No. August 22. Originally Card No. 7 was scheduled for use beginning August 22. By the change, Card No. 8 will come into use on the date.

Price Administrator Leon Herderson in announcing OPA's decision said that it represented "conservative gamble" on the likelihood of sugar supplies continuing to arrive in their present volume.

JUST IN CASE you are taking the rubber drive with your tongue in your cheek, here's a report from the Office of War Information. It says, "The rubber stockpile is dwindling. The nation's rubber stockpile will be exhausted by March, 1943. The drive for old rubber ends Friday, July, 10."

NOTHING IS TOO small to bring in. I surprised myself very much a few evenings ago by taking ONE MORE look around the place. Took the heels off a batch of old shoes, some rubber belt, some old toys, etc., and it weighed out 14 pounds. That wasn't to be sneezed at --- and it dead sure

beats hoeing weeds, like I started to do that evening.

HERE'S ONE FOR the record from the Panhandle Herald: "The Amarillo Times publishes a list of births and announces that 'baby boys and baby girls' are born in that city. It is most informative to everyone that the babies aren't born as adults in Amarillo; they start out as infants just as they do every where else."

TO CARVER MONROE we offer the push bottomed suiton as prize for faithfulness, honesty and loyalty as well as for being just pretty well heeled. He had gotten a few months behind and so he caught me and pressed \$2.50 for two years subscription, into my paw.

I AM WRITING this with a sick feeling in my stomach, partly from hearing of the German advances and partly from eating too many plums last night. Whether this column is ever finished depends.

IF THE RUSSIANS do not succeed in stopping the Hitler maniacs within the next few days the war will be prolonged for maybe five years. If you have any ideas left that it is a short war you better take a trip to Wichita Falls.

WHY THE ALLIES don't open that second front now is more than I know. If I was doing it I'd start it now where I wanted it instead of waiting a few months, and fighting it where they want it. What goes me is that I'll probably have to go in as a private instead of a strategic general.

I HAVE THAT peculiar feeling

in my stomach again, I think I have a little Vesuvius coming on soon.

I DOOD IT!

TO THE CHILDREN--HURRY!

When you get this issue of the paper the scrap rubber campaign will be ending and we will be about to launch upon one for some thing else but come on folks, both young and old and give more on Saturday than any day this week.

The radio said Tuesday night that the President might have to requisition tires from our cars if we didn't get every bit of scrap rubber possible for the use of the boys in uniform, as they must have it.

On Tuesday, the first day of my appeal to the children for rubber, I got 171 pounds and a lot of it was nearly pure rubber. That is fine and I hope every day this week is as well. I am convinced that we the American people will give our last shirts off our backs before we shall be slaves to world bandits that are loose on a rob and kill, but I am more nearly convinced, when it's written "a little child shall lead them". Bless the dear children of America! When they give the rubber wheels off their toys, and their rubber dollies (one little girl said one of the legs of her rubber doll was off and she didn't want it that way, but wanted to give it to help make a jeep) and their rubber balls, and other rubber things that have been among the children for years, and give it gladly and cheerfully, why that should give us the courage anew and make us older folks ashamed and cause us to put our shoulders up against the hard task ahead of us more earnestly.

Come on children, and let us make Saturday the biggest day of all in the rubber drive, and remember if you don't want to enter the contest with your weights, we will give you a defense stamp or more for what you have. You are helping knock all the little Hitlers, Musso and Japs off the map. Bless your dear little hearts, you will surely make great American citizens of whom we shall all be proud!

TOM: Gosh, Ann, I'm glad I could get back in time for our wedding anniversary. Being on the road as much as I am, it seems like I'm never home. Here's something for you.

ANN: You darling! Flowers!

TOM: It could have been a new hat if that blamed car of mine hadn't had to have a new set of piston rings.

ANN: I know wives shouldn't interfere in their husband's business, Tom, but Mrs. Reardon was telling me how much money Jack saved on the maintenance of his car. He drives even more than you do.

TOM: What all did she tell you, Ann?

ANN: Well, Jack Reardon uses Conoco Nth motor oil. That's the oil that OIL-PLATES the engine and saves a lot of wear and tear. And it contains a new synthetic that helps keep the oil from fouling up, too. Mrs. Reardon says Jack has to make his car last two or three years longer now and Conoco Nth motor oil will help him do it!

TOM: That settles it, Ann! I'm going to change right now to Conoco Nth!

ANN: Good boy! And maybe I can still get that new hat?

You'll agree that it's orchids to Conoco Nth motor oil, once you prove to yourself how it is so economical, clean-running and wear-saving. See Your Conoco Mileage Merchant today! Continental Oil Company

A Story of War—And War Bonds

Invest In Safety — With Perfect Safety

FACTS ABOUT DEFENSE BONDS

How much do they cost? You lend Uncle Sam:	And you get back at maturity:
\$18.75	\$25.00
\$37.50	\$50.00
\$75.00	\$100.00
\$375.00	\$500.00
\$750.00	\$1,000.00

WHEN IS MATURITY? Ten years from the time you buy the bonds but you can cash the Bonds at any time after 60 days from date of purchase. Naturally, the longer you hold the bond, up to 10 years, the more money you'll get back. But you'll NEVER get LESS than you put in. Bonds are guaranteed by U. S. Government.

WHAT'S THE INTEREST RATE? When held to maturity, Bonds pay 2.9 percent per year on your investment compounded semi-annually—you get back \$4 for every \$3.

WHERE DO I GO TO BUY A BOND? To your local bank, Post Office, or other Defense Bond agency.

Lets Keep Our Half Of "The Bargain"

Put Briscoe County Over The Top

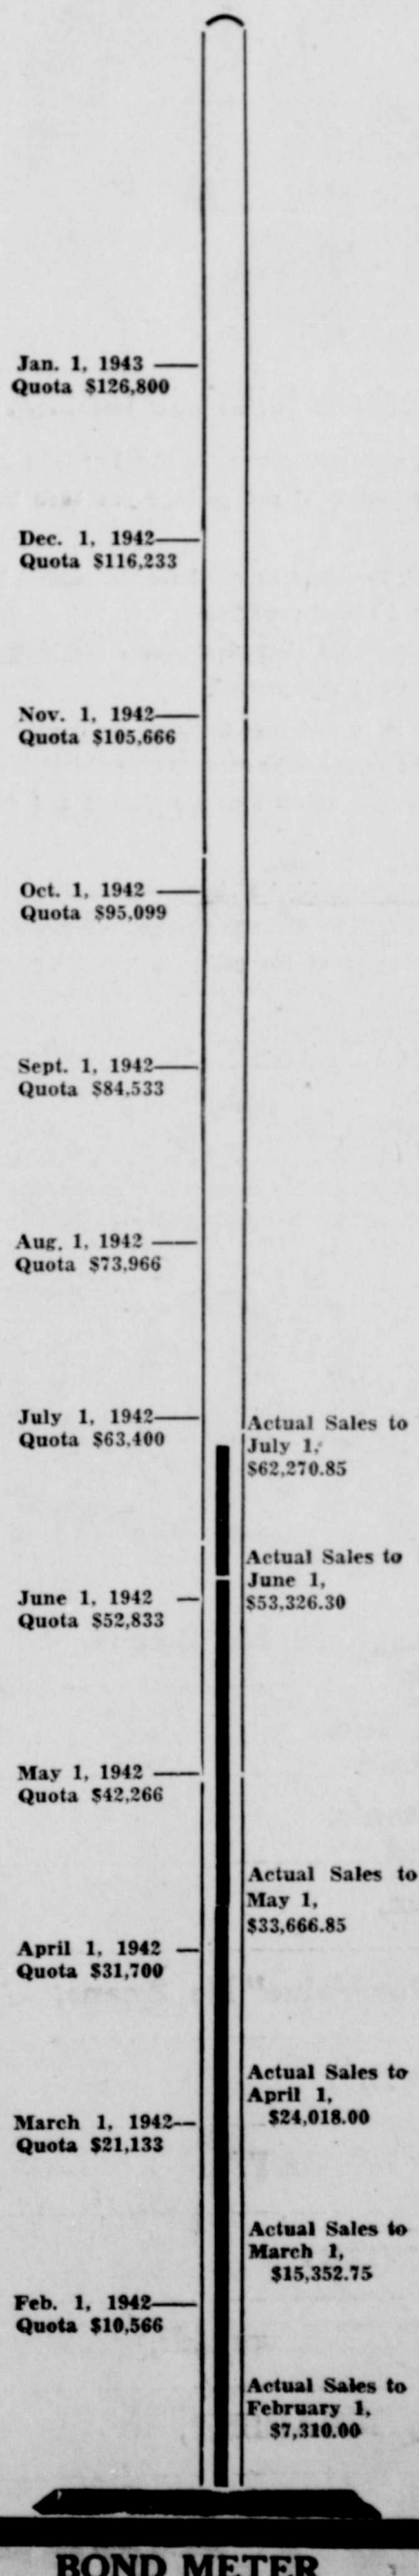

OUR HALF OF THE BARGAIN

America needs Men . . . Materials . . . Money! And the money must come from you! Every man, woman and child must buy stamps and bonds if we are to keep our half of the bargain with the boys.

Briscoe County is doing her part and more with men! Briscoe County boys have flocked to the colors until more than 4% of our population is in uniform.

Are the rest of us in Briscoe County doing our share? Look at the Bond Meter on the right and see where we stand. Our quota for 1942 is very light for our county — \$126,800.

Let's go OVER THE TOP! Let's not have our boys from Briscoe County say that we didn't keep our half of the bargain!

Soil Building Practices

In 1941 the farmers of Briscoe County were allowed about \$19,571 for carrying out approved soil building practices. In 1942 this amount has been increased to approximately \$64,400 including the allowances for ranches of 1,920 acres or less. This increase resulted partially by the shifting of which have formerly been made on the acreage allotment basis to soil building assistance.

It is probable that many farmers will have difficulty in doing enough soil-building work to earn this allowance because of labor shortage and scarcity of materials and equipment. This will be especially so if plans are not made now for stepping up our efforts in getting more soil-building done.

In 1941 of the \$19,571 allotted to Briscoe County, \$15,351 were earned in soil-building payments. Approximately \$4,220 were turned back to the U. S. Treasury because the soil-building allowances were not earned. In 1942 the farmers will have three to four times more money for soil-building work.

Practical conservation practices which may be carried out during the next few weeks include terracing, contouring, chiselling non-crop land, building tanks, planting green manure or cover crops. Failure to carry out extensive soil-building practices not only will result in loss of soil fertility but will seriously hinder food and feed production in the war program.

Farmers, who have not earned maximum payments are asked to confer with the Community Committeemen, County Committeemen, personnel of the AAA office and work out worthwhile soil-building practices for their farms through which maximum payments can be earned by closing date.

Mr. and Mrs. D. C. Hadaway, and Donnie Kramer of Oklahoma City, and Mrs. K. S. Martindale of Chickasa, Okla. spent from Saturday until Monday with Mr. and Mrs. Venus Gillispie and Mrs. Hadaway.

Yes, sometimes folks will talk . . .

You have read stories and ads about "Even Your Best Friends Won't Tell You" and perhaps you have laughed at them.

HOWEVER, that may be, we have the perfect Insurance that you will not offend your friends with hot smelly, clothes this weather. Perfectly cleaned clothes come back odorless, as well as clean and well-pressed.

Don't give in to that urge to "wear them another time." In hot weather no one can be sure that their clothes are odorless and inoffensive, unless they are cleaned and deodorized REGULARLY.

And so that is the kind of insurance we are selling. We write a policy that INSURES you that your clothes are always attractive. The name of the policy is "CLEARTONE—good for garments".

To the people of Briscoe Co...

Since existing conditions will prevent a canvass of the county, I employ this means to try to reach as many people as possible. Please consider this as a PERSONAL solicitation.

I will greatly appreciate your vote and support in my campaign for District and County Clerk, subject to the Democratic Primary, July 25, 1942.

Your sincerely,

John Arnold
