JUNK needed for War

"What's it good for?"
"Guns, tanks, and maybe part of a plane"

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel, for example. Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel—with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

The production of steel has gone up, up, UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full

rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin.

The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Will you help?

First—collect all of your waste material and pile it up.

Then—sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee.

If you live on a farm, consult your County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

JUNK MAKES FIGHTING WEAPONS

One old disc will provide scrap steel needed for 210 semi-automatic light carbines.

One old plow will help make one hundred 75-mm. armor-piercing projectiles.

One useless old tire provides as much rubber as is used in 12 gas masks.

One old shovel will help make 4 hand grenades.

MATERIALS NEEDED

Scrap iron and steel.
Other metals of all kinds.
Old rubber.
Rags, Manila rope, burlap bags.
Waste Cooking Fats—When you get a pound or more, strain into a large tin can and sell to your meat dealer.

NEEDED ONLY IN CERTAIN LOCALITIES:
Waste paper and tin cans—wanted only in certain areas, as announced locally. **NOT NEEDED** (at this time): Razor blades—glass.

JUDGE E. C. NELSON
Candidate for Chief Justice Court of Civil Appeals
Saturday, Aug. 22nd

DOES TRAINING COUNT?
If not, why have schools and colleges? Judge Nelson has had the best literary and legal training our country affords.

DOES EXPERIENCE COUNT?
Should a Chief Justice have had some actual experience as a practicing lawyer? Should he have had some experience before the Court he seeks to preside over? Judge Nelson has had years of experience, both as a practicing lawyer and as a trial judge.

SHOULD REPRESENTATION BE EQUAL?
The Lubbock area already has one of the judges of this Court; and the Vernon area has one. Isn't it fair for the northern part of the district to continue to have a representative on the Court?

WHO SHOULD CHOOSE THE CHIEF JUSTICE?
The people? Or a group of Lubbock lawyers? Judge Nelson did not ask any group whether he might run for the office; and he has not sought any endorsements. If elected, he will be under no obligations to any such group. He will be able to chart the course of the law fairly for all. Is that what you want? **IF SO—VOTE FOR JUDGE E. C. NELSON.**

WHENEVER I hear about anybody having a big family I think of Dad and Ma Hoskins. The Hoskins had thirteen children.

They weren't a bad bunch of kids, by and large—but it seemed odd or the other of them would always be having a fuss with the neighbors, or would break a window playing baseball, or some other kid trick. Kept Dad and Ma mighty busy all the time.

One day Dad got a bright idea. He called the whole family together for a special meeting at the dinner table.

He told them he was tired of checking up on them all the time. He said he thought they were old enough now to check up on themselves. The older children would watch the younger ones. They would have meetings every so often and hand out rewards or punishments.

Well, it was a crazy idea but the kids liked it and they started behaving better than they ever had before. The idea worked and Dad finally did get a little time for himself.

So like Dad, the brewers, watch beer's good wisely with the law.

Cotton Loan Program
Texas cotton farmers will receive loans at 85 percent of parity on this year's cotton crop. Rates on 15-16 inch middling cotton, net weight, vary from 16.61 cents in the El Paso valley to 16.82 in East Texas and back to 16.77 in the central Texas area. P. C. Colgin, State AAA Commodity Loan Specialist has announced.

Loan rates throughout the state will vary, he explained, because of location and freight rates. As in previous years, premiums and discounts for grade and staple in the 1942 program will be calculated in relation to the loan rate on 15-16 inch middling cotton. The average loan rate on 7/8 inch middling cotton, gross weight, is 16.02 cents per pound while the net weight loan rate is 70 points higher to compensate for the lesser number of pounds on which the loan is extended. Loan rate for middling 15-16 is 20 points above the basic loan rate for 7/8 inch middling cotton, the average price being 16.92 cents, net weight. Notes will bear interest at the rate of 3 percent per annum and will mature July 31, 1943 but will be callable on demand. Loans will be available until May 31, 1943. Full loan rates will be available to

AAA cooperators while noncooperators may receive loans at 60 percent of the full rate on that part of their cotton subject to penalty.

Wheat Quota

Sometime before June 10, 1943, Texas wheat farmers will vote in their third national wheat marketing quota referendum. Purpose of announcing the marketing quota proclamation at this early date is to get word out to all farmers now planning their fall wheat seeding operation. B. F. Vance, Administrative Officer of the AAA in Texas, announced. "With the present war emergency like it is and the urgent need for certain types of commodities other than wheat, I hope Texas wheat farmers will divert as much acreage as they can to other war crops in so far as it is possible," he said. He explained that wheat is a valuable war crop, as shown during the first World War when there wasn't enough of it, but that present supplies were so heavy that the nation was hard pressed to find adequate storage even though the large amounts of it was being fed to livestock. Diversion of wheat acreage to war crops, storing wheat on the farm and marketing it wherever possible in the form of livestock and poultry were cited as special contributions wheat farmers could make to the war program. Quotas are announced for an approaching year whenever it appears the total supply of wheat will exceed a normal year's domestic consumption and exports, the 1943 wheat supply not only will exceed domestic consumption and exports by 35 percent but probably will be

twice the size of these outlets. **Crop Insurance**
Let us again remind all wheat producers that August 31, 1942 is the closing date to make application for Federal Crop Insurance on your 1943 wheat.

DR. ROY McCASLAND URGES FRIENDS TO VOTE FOR ALLRED TO MY FRIENDS OF SILVERTON AND BRISCOE COUNTY

I want to take this method of conveying to you, my position Senatorial campaign between W. Lee O'Daniel and James V. Allred. I think we should all be fair to our selves and to our Nation, more especially to our Commander in Chief. If we fail him in his efforts to win this war, I am afraid we are sunk.

I think we should every one of us, read the record and listen radio addresses, and do this with an open mind and try to determine the man best suited for the job. I think we should consider the man as honest up-right citizens, that will do all in their power to fulfill what the people would have them do. I believe they serve that consideration.

Let us first consider O'Daniel. What is he promising, besides all the damage to the press and big business that he can do? For the common man and woman that he is trying to lull into a false sense of security for him, he has never done one thing that counts. He has credit for everything that he thought he could get away with.

Let us consider Jimmie Allred, whom I have known for many years, and here I want to stress that I have never seen a person know him personally, that was not for him. He is in a position to cooperate with the Administration and represent the people of this State. He has a Common Citizens platform and will be in a position to do all and help in a big way, to win the war and write the past. He is a native West Texan and has remembered his people. He is a common man himself, coming from common people. He is the Presidents choice and if we are for winning this war, we should vote for Allred. We should be unified at this time and the war, if we want to change, we can get rid of all of them, not throw a stone in the path of our Commander-in-Chief.

If you are for Hitler and his gang and against President Roosevelt you should vote for O'Daniel. If you like MUD SLINGING and O'Daniel. If you hate refinement, intelligence and honesty, vote for O'Daniel.

Be sure to think wisely before you vote at all.
Sincerely yours,
Roy McCasland
