WHAT ABOUT the old Income Tax return? Have you made it? I won't go deep enough into that to ask "have you paid it?" But anyway you have only until the fifteenth to make the return. The way things are right now Uncle Sam is pretty lenient—he'll let you off with making it with payments—just in case you have gotten slipped up on.

HE IS SURE a pretty good old Uncle, is Uncle Sam. He doesn't want anyone to pay a cent more than is his just due. He has put a lot of fine type in the regulations—deductions and the like—and even if you have every thing up ship shape it will probably pay you in dollars and cents to have a fellow who is really familiar with the rules to check over the

return you are making. I know one old boy who had his check ready for about three hundred dollars. He thought he'd have one of "the tax boys" look it over and by the way, it cost him just little over a hundred.

WHAT DIFFERENCE does it really make? You buy bonds. You pay income tax. The only difference is that you get your money back with interest from the income tax. Of course you know that's wrong—it's the bonds that pay off—BUT the thing of it is, they both pay off, and with big interest—interest paid in good old U. S. A. freedom—found only in one country on earth right now. Guess where!

OUR WANT ADS really pay off. That's a statement I can make and say I'd like to have a want ad to prove it by. Charlie Johnson ran one last week about some horses and cows. Had one pair of horses and two cows sold by Saturday night. The ad cost him about 60 cents.

I WONDER sometimes why everybody reads them. But I can take a paper in the cafe and lay it on the counter. I notice that one of the first things folks read is the want ads. And I wonder what they think about when they read them—For instance in week before last paper—Child's Black Oxfords. That's

some of Mrs. Hahn's doings, she bought the wrong size. And by the way they haven't been sold yet. Right brand new shoes . . . R. B. Byrd advertising everything from an Angel plow to a milk goat. Why don't you hook the goat up and go to work, Byrd? . . . W. M. Gardiner and his Qualla cotton seed. He can put up a pep talk that can almost make me want to try some in the garden.

Mrs. Fred Mercer needs a house keeper. Darned good thing for Fred that she don't work the house keeping deal like they do at the editor's house. Old Fred could make a few beds and wash a few dishes and not hurt a thing. And they'd save the expense of the ad, and the wages . . . Perry Thomas and his bikes. I can remember back when he bought them. I thought he was getting a little rusty in the joints to do much peddling. I imagine it was all his wife's idea anyway but why two bikes. I'd have her do the peddling and I would ride the handlebars with a rumble seat for the kid. Some folks just don't have any imagination . . . Mrs. Crow wants a bookcase. Anybody knows that that is for herself. Carl wouldn't be interested in a book unless it was an account book or maybe one with a bunch of pictures from Hollywood queens . . . Cream separator by W. M. Archer. I suppose he's going to skim her off by hand. It takes longer that way and

all the farmers get paid by the hour, only none of them will admit it. They are afraid of what would happen if folks found out that they are getting 15c an hour for war work when the factories are only getting \$1.50. And then the farmers get a lot more overtime too . . . L. C. Yates selling half of his two-mule herd. He is starting in to retire and is going to do half of his retiring this year and the next half next year after he sells the second half of his herd . . . H. Roy Brown and his scales. That was a real war of nerves. He's so darn forgetful that it's pitiful. He forgot that he had the ad running and there it was building up the tidy little sum of 30c a week for the BCN. He finally sold the scales after I run the ad for nine weeks straight. It had been so long that he had forgotten which pair of scales he had started to sell and he sold the wrong ones. That's the truth too. The main thing was that he sold some scales . . . Electric hem-stitching machine by Mrs. Allday. I imagine that the lady is too busy knitting sweaters for the Red Cross to monkey with a hem-stitching machine . . . Fuller brushes for sale by Bomar Drug. And they are the real McCoy too. I bought one of them one time and forgot to sprinkle hair tonic on it and lo and behold all the hair came out of it and in two months it was as bald as an eagle . . . Seed barley by Tony Burson. That's another one I slipped up on. Cost him 15c a week for about six weeks. He told me today & b@! X! I wish they'd ration that kind of language. As it is I've been getting more than my share . . . Some guy lost some planter dirt coverer uppers. They are still at the News Office. I'm going to have old Bozeman come over and auction them off . . . Carrol Garrison taking up with someone's Jersey steer. If I was going into that business I'd go in for Herefords. By the way he didn't say whether it was a male or female steer.

TEXACO

'X' Marks the Spot

Yes, that "X" is more than just a part of a name famous for high quality petroleum products. It stands for the station where you get real service. We try to do you just a little better job than you expect, whether it's in fixing a flat, lubricating (MARFAK) your car or taking care of your tires.

Let us care for your car. No one can say how long it is going to have to last you—two years? three? four?—Anyway, it deserves the best care you can give it. Exclusive use of Texaco Fire-chief gasoline and our high grade motor oils, and regular lubrication will make your car last thousands of miles more.

Drive in today. Let us show you the difference between MARFAK and a "grease job".

Let us inspect your tires regularly—and remember, WE PICK UP FLATS.

Chas. K. Herndon

SOLDIER NEWS
(continued from front page)
middle of a coconut grove. Have just got through cracking and eating one. This country is O. K. but I will sure be glad to get back to Gods Country again.

I have been made supply and transportation officer, since I've been over here, and believe me that will sure give you the headache. From the looks of things over here, I think this dam mess may be over soon. Well so long for this time. Heres hoping I will be having Christmas dinner with you all in '43."

This is a letter received by Mr. and Mrs. Homer Williamson from the Chaplain of the 21st Bombardment Squadron which is supposed to be in Alaska. This letter was written December 20, 1942. Dear Friends: As Chaplain of the 30th Bombardment Group, to which the 21st Squadron is assigned, I am happy to inform you that I have been placed on detached service and have joined the 21st Squadron for the purpose of arranging a Christmas party. Feeling that the men of the 21st Squadron, since they are separated from their families and are in the

combat zone, were in need of a little Christmas Cheer. Col. Wood, the Commanding Officer of the 30th Bombardment Group, kindly arranged to have me sent as representative of the group for this purpose.

I am happy to report that I have at last reached this destination and have joined this Squadron. Through the kindness and generosity of good friends back in the States I have brought with me 2500 pounds of candy, cigarettes, movie films, recordings of radio broadcasts, Christmas Decorations and a personal gift for each man in the squadron. At present we are preparing for the party on Christmas Day. Those at home, then, can feel that their husbands and loved ones will have at least some sort of a Christmas celebration. A schedule of Church services has been made, and both the Protestant and Catholic men will be able to attend the church of their choice. Jewish services are held every Friday afternoon. The men of the 21st Squadron can and do attend church regularly. The men of this squadron, though they are in the combat zone, are well clothed and fed and in general the living conditions of this

base are very good. Not a man has been seriously ill and thank God there have been no casualties. Their morale is excellent. They are under the command of competent and experienced Officers who are vitally interested in their welfare. This should be the source of consolation to those at home. I have found every man cheerful and willing to bear with the little inconveniences of this life. Separation from those at home is the greatest trial they have. I recommend very strongly that relatives and friends write frequently, since these men look forward eagerly to letters from home.

With the earnest prayer that God will shower HIS choicest blessings on you and yours, and that each and every man of the 21st Squadron will return to his loved ones alive and well, I am, Cordially yours, John Wood. Taylor Williamson is a member of this 21st Squadron.

M. L. BUNN received the following interesting letter from his son Roy, in Egypt. He is a Flying Sergeant and bombardier: "Dear Folks: It has been some time since I received your last letter so I had better answer it and let you know I am still well and eating this dust and sand out in the desert. I have seen a lot of dust storms in the Panhandle but nothing like the one we had today. It was dark most of the day and you could see only about fifty feet. It was really rough. I am glad it lasted only for eight or ten hours and then stopped.

Another day) What a change today has brought. Where it was hot and dusty yesterday it is cool and rainy today. I don't mind the rain at all for it is sure a relief. This week will soon be gone and I wonder what the next will bring but there is no use wondering for it will be here soon enough.

I guess I will go on pass again in a few days (24 hours). Will just have time enough to go in, get a hair cut, hot shower and sleep in a good bed and look at the town. That will be all I can do for this time for my funds are low as I sent most of my money home this month. I have had a few two-day passes over here and two of them I spent up in Palestine.

While up there I saw many of the historic places mentioned in the Bible. We stayed in Tel-Avis while up there and went on a tour up to Bethlehem where we went through the Church and saw the birth place of Christ. We spent three or four hours there with a guide. You could spend days just looking at different things there if you had the time and money. From there we went to Jerusalem. That's another place you could spend days if you wanted to see everything of interest. We just saw the main spots before it was time to start home. We saw the Holy City, Mount of Olives, the Church of all Nations, where Christ and his disciples had the Lord's Supper and many others. That is a trip I shall always remember and will always be glad that I went up there.

What has come to me most, is how these people live at all. They are always struggling to live from one day to another. I would not

have believed that human beings could live in such filth if I had not seen it with my own eyes.

As I look at this I am very thankful that I am an American and I will be glad when the day comes that I can return to the States and see something that is clean.

I could write all night like this but it will keep and I am tired tonight so will sign off for this time.—Your son, Roy Bunn.

JOHN ED BAIN, of the Marines writes for his Briscoe County News: "Dear Roy - Thought I would drop a line to let you know where I am.

Roy, it is sure beautiful country here. The first three weeks we were on the beach. The next three will be in the hills about 15 miles from here. It sure is a lot of work.

At first we had a lot of drilling, now we are on the rifle range. I don't know what we are going to do yet.

I will write more if I can find the time. Tell everyone hello for me and Roy you will have to kiss the girls for me."

EIMO DEAN BAIRD writes to his sister Mrs. Rusty Arnold, "Dearest Sister and all - I was so glad to hear from you. You don't know how much I enjoy hearing from folks at home.

As soon as you find the Silverton boys address that were with me in Lubbock send them to me for I would like to know how they are making it in the army. I sure do miss all of them.

Yes, I get the Silverton paper and certainly do enjoy reading the news.

Well Ted, I dont know if I like this place or not, it is very desolate here and I am afraid it is going to be just a "little" warm here this summer in fact, it is pretty warm here right now. I'd take the good old plains anytime, despite the dust storms.

I haven't gone to work yet but I signed up as a link trainer yesterday, and as there are only eight link trainers here on this field, I suppose I will work here. The link trainer building is airconditioned so maybe it wont be so hot.

I see Dr. Brinkleys hospital each time I go to town, it is not near so beautiful as it has been described and as for the beautiful "Del Rio", not much, true it is an interesting town to be in. It has some beautiful homes and lots of palm trees but as a whole I have seen many towns more beautiful than Del Rio.

We are treated very nice both here and in Mexico, there are about three places we go to over in Mexico. I sure do enjoy their music and singing.

Ted, I wish you could be here next Sunday for they are having four Bull Fights in Villa Acuma Mexico and they are to be dedicated to this Air Field. One of the fighters or Matadors is the Spaniard who doubled for Tyrone Power in the show "Blood and Sand" I sure want to be there.

There are many beautiful curios over in Mexico. Especially noticed were leather hand made sandals, some of them are very pretty.

I don't know when I'll be home but I hope it will be soon."

"BETTER TAKE CARE OF YOUR SUITS, MISTER!!

Shortages Make Your Present Clothes More VALUABLE!!

The wool shortage means it's up to you to make clothes give longer "mileage" You can do that and still look well dressed if you follow these suggestions:

1. Alternate your suits. Don't wear the same one several days in a row.
2. Brush your suit lightly after wearing and hang it up immediately.
3. Send us your suits REGULARLY for dry cleaning. We ease out harmful soil, perspiration and grit and restore soft mill finish that makes the fabric look and feel like new.

City Tailors

P. S. Don't forget to bring your clothes on a hanger, if you wish them returned on a hanger.

LET'S MAKE THE BEST OF POINT RATIONING...

We want to thank our customers very much for the grand way they have accepted the ration program. Very little complaining—lots of joking—and you folks are taking it like true Americans. There are none of us that exactly like it but when we think of the boys out there in North Africa and the Pacific—then our sacrifices aren't sacrifices at all—seems like to us they are kinda special privileges.

Come in. We've lots of unrationed articles and the stuff that is, is plainly marked by points. It's easy to buy here.

Have you made your contribution to the Red Cross War Fund? That's a swell way to help the boys in service.

Cowart Grocery

Drop in and see our samples of wall paper. Beautiful new patterns in a variety that will surprise you!

ARE YOU PLANNING TO RAISE A VICTORY GARDEN?

If so, then perhaps we can be of service to you with pipe, fencing, or windmill repairs. We are short on lots of articles but then on the other hand, we are pretty good hands to figure out something that will get the job done.

What Time Is It?

It's Time To Buy Your '43 License Tabs

The new 1943 License Tabs must be on all cars by midnight of April 1st, 1943, or owners will be subject to a fine and must pay a penalty for not buying their plates on time.

The new plates are simply little tabs that clamp on your old tags, so please take care of your old license plates. This is a move to conserve material.

Highway officers are instructed to arrest those who have not properly equipped their cars or trucks with the renewal tags.

License tags are now on sale and may be placed on your cars immediately. You may obtain them at the office of N. R. Honea. License tags must be bought in the county where you live.

New drivers must secure and carry a drivers license. They may be secured through examinations which are given by State Highway Patrolmen.

And while I'm thinking of it, don't forget to contribute liberally to the Red Cross War Fund Campaign.
