TUESDAY weather note: Light breezes.

SUNDAY IS Mother's Day . . . I always kinda like to write a little about Mothers and Mother's Day. Guess I must have been pretty much of a Mamma's boy when I was little, for now, as I look back, the days and years spent at home with my mother were filled with happiness. Now they are just happy memories — but that is just life.

LITTLE THINGS . . . cookies, home made candy once in a while, trips to the old sand pit looking for arrow heads with her . . . dozens of other little trivial things that happen I guess in all kids' lives . . . but it's those funny little things that keep returning to my mind. Mom used to have a special little treat that I got only for some great reward. I forget what she called it but it was vinegar, sugar and water, and then you got all set and put in a little dab of baking soda. You had to drink pretty fast or it fizzed out on you, but what I mean it was really great stuff.

I SEE KIDS nearly every day fussing at their mothers, and too many times they talk downright insolently to them, till it makes me want to shake them. Of course, nothing is meant by the kids. But that lady you are fussing at is the grandest person on earth and you'll know it after you get to be a little older. She risked her life and her health to bring you to this old world. She has sheltered you from the time you were a baby against ill health and evil. The least you can do to repay her is to live up to the things she expected of you.

MOTHER'S DAY this year is going to be a drab affair for millions of mothers with sons in ser-

vice. We are going to win this war one of these days, and when the day comes, we will have the Mothers of America to thank. It isn't accident that our boys are just a little better physically and mentally than the enemy. It dates back to the boy's younger days — the days spent under a mother's care . . . cookies, candy and little everyday things.

I THINK THAT mothers are pretty sentimental. I mean they like to be fussed over just a little. You can take home the biggest gift in town and she'll appreciate it of course. Or, you can give her a big hug and kiss and tell her that you wouldn't trade her for anyone in the world. Which do you think she'll like the best?

SHADES OF THE cavemen! I just heard a he-man story — a story of power and dictatorship. And it's the truth for the man told me himself. The rigid rules of censorship in this column prevent me from disclosing his name because of the bad effect it might have on the home front. Anyway — He was telling something and it came into the discussion about who is who at home — his home I mean. He said, "Well in public I am pretty nice to the little woman, but at home, confidentially boys, I rule the roost." I was properly impressed with my tongue in my cheek. "Yes sir, he went on, "Only this very morning I had her on her knees — right down on her knees — and she hollered too! She hollered, "Come out from under that bed, you S. O. B.," Yea, verily, the man knoweth not his own strength.

DAN McNAUGHTON, the Conoco district superintendent from Plainview was here Tuesday. Dan used to get over to our city a little oftener than he does now, and he should come oftener. He used to always be good for a cup of coffee and a couple of stories, but this time it was just the coffee. Plainview will grow on one like that and if Dan doesn't get over here a little oftener, he will finally get to the place where I'll have to buy the coffee — and that (ask any of the coffee drinkers) is the same as swearing off.

DAN HAD SLIPPED so far that he didn't even know what happened to the little moron that was feeling so low one morning. I guess there's no one else but that knows the little moron got his hands slapped.

GENERAL MacARTHUR tells a joke that was going the rounds of Bataan just before the Japs took over. The story: Mamma Rabbit and Papa Rabbit were being chased by a pack of hungry wolves and finally were forced to hide in a cave. "Papa, how long will we have to stay here?" the Mamma Rabbit asked. "Until we outnumber them," was the answer.

THAT STORY would be funnier if it didn't come so near to being the truth. If you want to get a little of the low-down on our boys last days on Java and Bataan—read "Queens Die Bravely" in the last two issues of the Reader's Digest. One little typical happening was this: On Java our boys were down to 14 Flying Fortresses. Every day reports or rumors went the rounds that we were sending 1,000 planes for reinforcements. One morning our men were out on a mission and a large group of strange planes came from behind and then came up and flew alongside, but some distance away. A glance showed the U. S. insignia—and the Yank pilots were overjoyed to think that at last help had arrived. The new planes moved ahead, circled slowly and then came in head-on spitting death into our flight.—The dirty Japs had painted their insignias into American ones.

AN OLD LADY, whose sense of patriotism overshadowed her common sense, was visiting on a farm. She happened in to the cow shed where a young man was milking. "Young man", she said sternly, "Why aren't you at the front?" "Because, ma'am," the boy guiltily replied, "There ain't no milk on that end!"

AS A PRINTER I am an admirer of two-color work on most any kind of printing. As a printer, editor and everything else that I have been called, I do not appreciate the two color job Banker Stark did me on my bank statement this month. There's a time

and a place for everything—except two-color bank statements.

And no chance to roam,
It ain't hard deciding
There's no place like home."

Texas has the largest state guard and yet spends less on it than any other state in the Union, according to my good friend, Major Charles O. Betts, adjutant of the State Guard Officers Association.

Members of the Texas Defense Guard are trained in the use of rifles and machine guns, in chemical warfare, how to block roads and improvise hand grenades. They are available to aid civil authorities in suppressing riots and insurrections and to help repel any invasion. They are a vital part of the defense of our State. They are performing a fine patriotic service and they deserve every encouragement.

Neither the officers nor men receive a cent of pay, and they do not want pay. They buy their own uniforms, provide their own transportation and much of their equipment. They want the State to help them get equipment that they are not personally able to furnish. New York spends nearly \$8,000,000 a year for its defense guard. Texas — with its long coast and boundary and its immense area — last year appropriated, thru the State government, about \$65,000. The T. D. G. would like to see this amount boosted next year to at least \$450,000 — which would be

less than 10 per cent of the appropriation in the inland State of Illinois, with less than half as many guardsmen.

In a speech on the floor of the Texas Senate the other day, a Senator denounced a member of the faculty of the University of Texas for some comments on public affairs — and then the Senator went beyond that: he asserted that no man on the public payroll has a right to express himself on public officials or public matters.

All citizens are entitled to free speech. Does the Senator contend that a member of the faculty of the State University is not a citizen? Would the Senator want to turn the training of the next generation of citizens over to instructors who would be willing to give up the blood-bought, Constitution-guaranteed right of free speech? If we allow the Senator to padlock the lips of State University faculty members and of public school teachers, then you and I as private citizens well be next, if we say something that displeases the Senator.

It is the heritage of every American to have his say.

When this observer was a mere youth, I used to attend the boxing matches occasionally in the old barn-like Phoenix Athletic Club. One of the most skillful of the fighters was Dixie Kid, a negro, former welterweight champion of the world. He was unbelievable fast on his feet—and unusual for a speedster—he had a powerful punch. I recall one bout in which his opponent swung and Dixie Kid ducked and leaped under the other's arm, then whirled so quickly that he was facing the same way his opponent was, and hit him in the back from behind!

That was a long time ago. What called him to mind was a brief item a while past in the papers that the Kid was on the Pacific Coast, broken in finances and in health.

"I whipped 'em all except the liquor", he said.

Price Support and Loans
Although there will be no incentive payments on War Crops other than Irish Potatoes and Vegetables for Fresh Market, producers of vital war crops will receive higher price supports under this year's Food for Freedom program according to the State USDA War Board.

War crops on which price supports have been announced by the War Food Administration are dry beans, peanuts, soybeans, and a price supporting loan on grain sorghum.

For dry edible beans, the support price ranges from \$6.50 per hundred pounds to \$7.50 per hundred pounds, depending on the class and variety. Basis for the price is cleaned and bagged in car lots.

To encourage harvesting of an increased quality of blackeye peas the Department will purchase peas at a level of \$5.75 per hundred pounds of cleaned and bagged U. S. Grade No. 1, delivered to points designated by the County AAA Committees. The purchase price for U. S. No. 2 will be \$5.60 per hundred pounds while the price for U. S. No. 3 will be \$5.35 per hundred pounds.

The new support price for Spanish type peanuts will average \$140.00 per ton. Prices to farmers for peanuts of like type and grade will be uniform in all areas. Under the one-price system announced on this year's crop no distinction will be made between "quota" and "excess" peanuts. Under the increased price support program, yellow soybeans having 14 per cent moisture content will be \$1.80 per bushel, with premiums and discounts according to classes and qualities. Loans at not less than 85 cents

per 56-pound bushel for grain sorghum will mean a price support of approximately \$1.50 per one hundred pounds.

Feed Grain Increases Needed
To provide feed for the increased production of livestock and poultry, Texas farmers are being urged to plant to the limit of vital war crops and feeds in 1943.

According to a recent report from the Bureau of Agriculture Economics producers who are now heavily stocked with cattle, sheep, hogs and poultry will use as much or more grain during the current feeding season as was produced by the record crop of last year when yields were approximately 10% above normal.

The BAE report points out that the number of milk cows and heifers two years old and older kept for milk by the nation's farmers on January 1, 1943 were 26,946,000 head as compared with 26,398,000 head on January 1, 1942 while the total number of all cattle was 78,170,000 head on January 1, 1943 as compared with 75,162,000 head on January 1, 1942.

Of the above figures, Texas livestock producers now are carrying a total of 7,518,000 compared to 7,444,000 head on January 1, 1942. The total number of sheep on hand in Texas January 1, 1943 was 10,677,000 head compared to 10,552,000 head on January, 1942 and this year's hogs total approximately 2,655,000 compared to 2,042,000 head last year while the

number of chickens has increased from 31,681,000 on January 1, 1942 to a total of 36,975,000 in 1943. Considering price supporting loans and the increases in livestock and poultry production, farmers should benefit from increased production of feed grains.

Thrashing Cane for Feed
Recently we were advised that it is permissible to thrash cane, (for livestock and poultry feed) which was grown on land classified as non-depleting soil conserving acreage in either of the years 1940, 1941, or 1942.

I GIVE YOU TEXAS
Hollywood reminiscences: The Egyptian Theatre, entrance ornamented with small sphinxes and a courtyard before you enter the theatre itself—and in the courtyard, a wishing well, the printing press from "The Hunchback of Notre Dame", a cart from "The Good Earth" and a dugout used in "The Hurricane".

A little cafe serving Italian food on Vine just off Hollywood Boulevard, room for only 25 people; long sticks of bread, imported cheese (grated) that you sprinkle on the plate of steaming, savoury spaghetti and meat balls. The eating of spaghetti is an art; you coil the long strands around your fork, using the spoon to make it coil, unless you are one of the few who can lift the strings high in the air, put one end in your mouth and suck the lengths in like

a magnet grabbing a steel filing. On the cafe walls are pictures of celebrities who had dined there: Major Bowes, Eddie Cantor, Ken Murray. Unfortunately I didn't have one of my photographs along.

THE STATE OF TEXAS

To: Lewis J. Seale, Mary Seale, Grace Seale, Susan E. Seale, D. W. Seale, Nancy Seale, Minnie Hawthorne, Eliza Kempner, and if married, their respective husbands; if deceased, then their unknown heirs and all legal representatives of defendants; and A.

M. Burden, and all unknown owners and claimants of the land and premises herein described and all of their unknown heirs, and all unknown claimants and legal representatives, Defendants, GREETING:

You are hereby commanded to appear before the Honorable District Court of Briscoe County at the County Court House thereof, in Silverton, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 14th day of June, A. D. 1943, then and there to answer Plaintiff's Petition filed in said Court on the 27th day of February, A. D. 1943, in this cause, numbered 1205 on the docket of said court and styled

May L. Russell, et vir, Plaintiffs vs.

William Seale, et al, Defendants

A brief statement of the nature of this suit is as follows, to-wit: Suit is trespass to try title to remove cloud from title to said land and for damages, filed February 27, 1943, suit No. 1205 in the District Court of Briscoe County, Texas, by May L. Russell, joined by her husband, J. N. Russell, plaintiffs in said suit, complaining of William Seale, Ruth Seale, Lewis J. Seale, Mary Seale, Grace Seale, Susan E. Seale, D. W. Seale, Nancy Seale, Minnie Hawthorne, Eliza Kempner, Otis Tidwell, Elsie Cornett and husband Omer Cornett, Fay Dean Bingham, and husband J. Freeman Bingham, J. W. Tidwell, A. M. Burden, Federal Farm Mortgage Corporation, Land Bank Commissioner, and if married, of the bands of the above-named females, and if deceased of their unknown heirs; and of all legal representatives of the above named defendants and of all unknown owners and claimants of said land and premises: Said petition alleging that on the 1st day of December A. D. 1942 plaintiffs were lawfully seized and possessed of the following described land and premises lying and being situated in the County of Briscoe and State of Texas: The North 150 acres of the Northeast one-fourth (1/4) of Section No. 21, in Block B-1, certificate No. 1-733, issued to B. S. & F. grantees, Abstract No. 65, described by metes and bounds as follows:

Beginning at the Northeast corner of said Section 21, for the NE corner of this tract: Thence west 950.4 varas to a point in the North line of said Section No. 21, for the NW corner of this tract; Thence south 891.3 varas to a point for the Southwest corner of this tract; Thence East 950.4 varas to a point in the East line of said Section No. 21 for the SE corner of this tract; Thence North 891.3 varas to the place of beginning, containing 150 acres of land. Plaintiffs claim above described land in fee simple title. That on or about the day and year aforesaid, the above named defendants unlawfully entered upon said premises and ejected plaintiffs therefrom and unlawfully with-held from them the possession thereof, to plaintiffs' damage in the sum of three thousand dollars.

Plaintiffs plead the Statute of Limitations and claim that they and their grantors through whom they claim title have had peaceable possession under title from the State of Texas, of the lands described in their petition for more than three years, before filing their petition in this suit.

Plaintiffs claim that they and those under whom they claim title have held the same under deeds duly recorded and have held peaceable, adverse possession of said lands for more than five years before filing this petition.

Plaintiffs would show unto the court that they have a good and perfect title to said land and that they and those under whom they claim have held peaceable, adverse possession of said land for a period of twenty-five years prior to the filing of this suit under deeds duly recorded in the deed records of Briscoe County, Texas.

Wherefore plaintiffs pray the court that defendant be cited to appear and answer this petition, and that plaintiffs have judgment for the title and possession of the above described land and premises.

ises for cancellation of all liens, for removal of all clouds from title for writ of restitution, for rents, damages, for costs of suit, for general and special relief as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute, the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Silverton, Texas, this 26th day of April, A. D. 1943.

Attest: J. E. ARNOLD, Clerk District Court, Briscoe County, Texas (First published in the Briscoe County News, April 29th, 1943)

WE APPRECIATE YOUR BUSINESS VERY MUCH

There are many little aggravating things right now in buying your groceries but we want to help you iron them out for you if we can.

Perhaps we are temporarily out of the article or brand you usually buy. Well, that article has probably "gone to war". We'll be glad to help you pick a substitute.
